Series on Donley County Jail

by Jeanice Weatherly

This week the first of several articles on the subject of the Donley County Jail will appear in the Clarendon Press.

These articles are intended to inform the reader on the facts surrounding the county jail, the options which are practical to consider and the work being done by the commissioners court to fulfill their responsibility to the tax payers and residents in accordance with their oath of office.

PROBLEM JAIL FACILITY

Donley County has been faced with the fact of inadequate jail facilities since 1957 when they were advised of the state requirements for jail standards as set forth by the Texas Commission of Jail Standards.

The subject of jail facilities has always been an unpopular subject. Public monies, (tax money) supports such facilities and tax payers would rather see their money go to other endeavors. However, the taxpayers elect the members of the commissioners court and the sheriff—and these persons are sworn to uphold the law. They receive the oath of office before they begin service. At this point in time the law says the jail must meet certain standards, this is not a matter of choice. It is the law, to comply with Texas jail standards; or be cited by federal judges, as occurred in Lubbock Co.

In some 8 or 9 court cases, heard in Federal Courts in New Orleans, the state has been told to go ahead and comply with Texas Jail Standards. The upholding of our state standards by Federal courts in our section seems to favor Texas statutes.

Principal categories for compliance are covered roughly by the following, segregation, security, safety, sanitation, supervision and services.

Clarendon School to give concert

Students in the Clarendon public schools band will appear in concert on Monday, December 17, at 6 p.m. in the Clarendon College auditorium. There will be no admission.

Ronald Boley, school band director, will present the 6th and 7th grades and the High School with the 8th grade in a program of Christmas music for your pleasure.

There will be a variety of selections with music for all ages and the program is scheduled to last about an hour and a half.

Cub Scouts plan party

Cub Scout Pack 437 has planned their Christmas Party for Monday, December 17 at 7 p.m. at the First Christian Church.

The party is planned for all the Cub Scouts and their parents are invited.

Certain repairs, alteration, additions etc, have been made during the 22 years since 1957 to the Donley County jail but they failed to meet the requirements of the law, only partly corrected the need or fell so far short of their main objective that they were for most part of no value. The structure has been described as a disgrace.

In the early 1970s the Texas Health Department took over the responsibility of jail inspection. When Donley County Jail failed to meet minimum requirements the Commissioners Court had a shower installed and electrical work done to meet the requirements which were mandatory.

Time has finally run out and the jail has been declared closed. It appears, from an architectural study, that the incompatibility between the antiquated jail structure and the new statute, which is mandatory is too great for remodeling, and up grading to be a financially feasible. A new structure would be an addition of probably some 25% over renovation costs.

Texas Commission on Jail Standards and federal standards as set forth by the United States government, are the two choices counties have. Texas standards are more flexible however (taking into account the rural life style, for instance) and are considered by some to be more practical.

The layman might be surprised to know that a fairly large percentage of persons who are jailed are never brought to trial. A number of them are there for reasons other than breaking the law or being suspects.

The need for a jail as an institution for crime control has been long recognized. The history of our section of the country in fact and fiction is filled with the deeds of outlaws

Parents, music lovers and the public is invited to be present and enjoy an evening of music with the Clarendon Band under the direction of Ronald Boley.

News copy needed early

News copy for the December 27, issue of the Clarendon Press is needed in our office by Friday Afternoon, December 21. Printers schedules and the weekend added to the holiday necessitate this early deadline. The Clarendon Press office will be closed Christmas week.

Please help notify any organization you may be a part of about this news deadline so your article will be published.

Mr. and Mrs. Marion Cross of Denton, Texas spent Sunday night with Mrs. D. T. Smallwood, Mrs. Cross' mother.

OLD DONLEY COUNTY JAIL* fallen into disrepair and inadequate for holding persons detained by law enforcement officials.

and lawmen in a power struggle amid population centers where the inhabitants wanted only to be left in peace to be shopkeepers, farmers, teachers and ranchers.

Clarendon is located on busy highways, US 287 and Texas 70, is the home of Clarendon College, and has a year around recreation community at Greenbelt Lake, about five miles north of the city. Summer lake visitors fill the picnic areas and camping spaces around the shore line of the lake. Winter lake use is not that busy, but does attract big numbers on pretty weekends.

Combined with the shift in population to the sun belt states the location and other mentioned items attract population. It also attracts transients and persons who regularly must

Cancer Society sponsors contest for students

The American Cancer Society wants to "Lick cancer in your lifetime" with an all-out campaign to educate the public concerning the Seven Danger Signals of cancer. In an effort to accomplish this goal the Education Committee of the Donley County Unit of American Cancer Society will sponsor a contest for school students in the following categories: Elementary, Junior High and High School. Prizes will be provided by private donations exclusively for this contest and first prize is \$15.00; second prize is \$10.00 and third prize is \$5.00 in all three categories.

Christmas Bridge tea

Alpha Pi Lambda Sorority is sponsoring a Christmas Bridge Tea, December 20th 1-5 p.m. at the Memphis Community Center. Home-made refreshments will be served during the

Farmers Home Ad. stresses energy conservation

Rural homeowners in Donley County who need to upgrade their homes may be eligible for financing from the Farmers Home Administration (FmHA). Robert A. Keown, FmHA County Supervisor, said that in addition to financing the purchase of homes, the Agency also has funds available to families who already own homes that need insulation/weatherization improvements.

FmHA will offer loans for energy conservation improvements to all rural families of low or moderate incomes who cannot obtain adequate commercial credit and are otherwise eligible for FmHA loan assistance.

Mr. Keown said that this is not a new loan program, but a part of the total loan program

account to the lawman in some fashion. It has been pretty well proven that these persons avoid localities where law enforcement is of high caliber and stay and thrive in areas where their activities go unchecked.

"The very existence of an operating jail facility is a deterrent to crime", this statement is the opinion of law enforcement personnel across the state. The most successful defense against crime in recent years is the "Crime Prevention" approach. This plan has been documented in various regions and metropolitan areas where crime is heavy and the results are most rewarding. To be recognized as successful and accepted on a broad scale by law enforcement nationwide the results must cover a number of years. The

Students wishing to enter this contest should portray the Seven Danger Signals of cancer in a meaningful manner on

poster board. Posters should be turned in to Janice Johnston in the school library no later than January 7th.

Remember that the Seven Danger Signals of cancer spell CAUTION: Change in bowel or bladder habits, a sore that does not heal, unusual bleeding or discharge, thickening or lump in breast or elsewhere, indigestion or difficulty in swallowing, obvious change in wart or mole,

afternoon.
For reservations, call Pat Ferguson 259-3724, Cessie Ivy 259-3202 or any member of the Sorority. Admission is \$5.00 per person (in Advance).

FmHA has had for a number of years. However, the agency is stressing the need to conserve energy and help families combat today's higher cost of home energy.

Winners announced for drawings at Nook

Announcement is being made of the winning names drawn at the Nook last week. Chrystal Riley, daughter of Mr. and Mrs. Jim Riley drew the winners tickets. Mrs. J.C. Moffatt won the man's suit; Viola Graham won the Melissa Lane dress and Pearl Hermesmeyer, won the Vicky Vaughn dress.

concept is too new to become routine with all entities, but where it has been used the residents and businesses are benefiting from crime prevention.

A jail for Donley County, meeting the state standards, might very well be considered a part of crime prevention, a saving of loss of goods & property and a saving of tax dollars.

Jail, meeting state standards, provides for the juvenile and for women and men who for whatever reason are housed within the walls. A jail meeting Texas standards would have someone in authority on duty 24 hours a day.

The next article will deal with the physical plant of the jail, life safety, records booking, written plans, records, food service, and operating plans.

Friends harvest cotton

Mr. C.T. Bates has been ill for many weeks but his cotton crop did not go unharvested. On Saturday, December 8 his friends and neighbors gathered at his farm with trailers, trucks and cotton strippers. They seemed to come from all directions and soon the harvest was underway. Before the day was over all the cotton had been harvested and hauled to the gins.

Friends harvest cotton

Following is a list of all those who helped with the gathering of the crop.
Don Robinson, Dale Robinson, Henry Hasty, Roger Finch, Doyle Hall, Authur Shields, Earl Shields, Lloyd Thomas, Dane Perdue, Larry Shields, Elvis White, Wandell Luttrell, Frank Corder, Ray Holland, Henry Mann, Dick Dingler, Bob Williams, Roy Blackman, Mark Allen, Gene Baseden, Kennon Shields, Jimmie and Betty Shields, Marshall Denny, Richard Finch, Billy Darby, Gordon Mann, Andy Brown, David Brown, Bill Spear, Bright Newhouse, Mike Newhouse and Cody McAnear.

Refreshments were served by Donley County Farmers Coop Gin of Clarendon and Paymaster Gin of Lelia Lake.

Ashtola Community Center will meet at 6:30 on Saturday, December 15, for their Christmas Party and covered dish supper.

There will be a gift exchange and the men are asked to bring a gift for a man; and a gift for a woman for a woman.

The Club will be host for the evening.

Alan Reed Casey rites held

Funeral services for Alan Reed Casey, age 76, were held at 2:30 p.m. on Friday, December 7, 1979 in Robertson Chapel of Memories with Wilbert Bernabe, Pastor of the First Christian Church, officiating. Interment was in Citizens Cemetery with the arrangements under the direction of Robertson Funeral Directors.

Mr. Casey was dead on arrival at the Amarillo Emergency Receiving Center at 9:30 a.m. on Wednesday, December 5, 1979. He was born May 6, 1903 in Alanreed, Texas. He had been a resident of Clarendon since 1910, moving here from

Christian Church, and the American Legion Post No. 287. Survivors include two sisters, Mrs. Clarence Pipes of Amarillo and Mrs. A.E. Conner, also of Amarillo, and several neices and nephews.

Alanreed. The son of James and Loretta Casey, he was named Alan Reed for the town where he was the born the first boy in Alanreed.

He had worked as a carpenter and as a clerk for Foxworth-Galbraith Lumber Company for many years. He was a veteran of World War II, in the Signal Corps, a member of the First

J.E. Woody rites held in Borger

J.E. "Jim" Woody, 71 of Borger died Sunday, December 9, 1979. Services were at 4 p.m. Tuesday, December 11, in Buna Vista United Methodist Church. The Rev. Michael O'Conner pastor, officiated assisted by Rev. Mike Stroupe, of the Wesley United Methodist Church of Borger. Burial was in Westlawn Memorial Park Cemetery by Minton-Clatwell Funeral Directors.

Mr. Woody was born at Nowata, Okla. January 17 in 1908. He lived in Borger from 1942 until his retirement from Phillips Petroleum Co. in 1971. He and his wife moved to Clarendon and were at the Girl Scout Camp at the old Country Club site until their return to Borger in 1972.

Mr. Woody was a member of Buna Vista United Methodist Church, where he served as chairman of pastor-parish relations and was on the board of stewards.

He is survived by his wife, Myrtle; a daughter, Mrs. Bill Slaybaugh of Borger; a son, J.C. Woody, of Las Vegas, Nev. a sister, Mrs. Morice Broom, of Tulsa, Okla, four grandchildren Judy Brown of Austin, Richard Woody of Skellytown, Jimmy Dean Slaybaugh and Jerry Don Slaybaugh, of Borger and five great grandchildren; Jessica Lyn Slaybaugh, Cristen Nicole Slaybaugh, Joel Brown, Amy Brown and Daniel Woody.

Bearers were Rodney DeMoss Merle Josephenson, Louis Keiss Bill Wyatt and Mike Flaughter.

Ruby Grace Richardson services

Funeral services for Mrs. Ruby Grace Richardson, age 73, a resident of Lelia Lake for the past 13 months, were held at 10:00 a.m. on Saturday, December 8, 1979, in Robertson Chapel of Memories, with Gene Basden Minister of the Church of Christ, and Dr. Ed Manning, Minister of the First United Presbyterian Church, officiating. Graveside services were held on Monday, December 10, 1979 at 10:00 a.m. in Mission Park Cemetery in San Antonio, with Rev. Owen McGarity, Minister of First Presbyterian Church in Gonzales, Texas, officiating. Interment was in the Mission Park Cemetery with arrangements under the direction of Robertson Funeral Directors.

Survivors include two brothers, Mike and Guy McCully both of Lelia Lake; a Niece and Nephew.

Casket Bearers were Cecil McAfee, Billy Ray Johnston, Freddie Reese, Phil Lauderdale, Bill Montgomery, Mac Stavenhagen, Lee Shaller, and Lee Bell.

Mrs. Richardson died at 5:00 p.m. on Thursday, December 6, 1979, in High Plains Baptist Hospital in Amarillo. She was born on February 17, 1906 in Stonewall County, Texas and was married to the late Bert H. Richardson. She lived in San Bernardino, California and San Antonio before moving to Lelia Lake. She was a member of the Church of Christ.

Bronchos record goes to 8-2

After a tough time in the Salt Fork Classic at Clarendon Junior College, the Clarendon Bronchos returned to their winning ways with a second half rally to defeat the Estelline Bears, 67-50. A slow start left the Bronchos down by 18 points at one time before Alvin Reese caught fire on his way to a 22 point game. He also had 11 rebounds. Other key figures in the second half rally were Lynn Thompson, who totaled 16 points for the game, Ken Jones with 9 points and 12 rebounds, and Lance Thornberry with 8 points and 11 rebounds. Tim Brown and Randy White played important defensive roles in the comeback win.

During the Salt Fork Classic the Bronchos won one game and lost two. After opening the tournament with a 63-46 win over Childress, the Bronchos lost their first game of the season to Valley by a 52-49 margin. The following night the Bronchos faced Hedley in the Third Place game and played well for a half before poor second shooting did them in. Hedley won by a 72-47 score. Offensive leadership in the Childress game was provided by Brad Thompson with 16 points, Lance Thornberry with 12, and Tim Brown with 10. In the Valley game Lynn Thompson scored 15 points to lead the Bronchos. Against Hedley, Brad Thompson and Lance Thornberry each scored 12 points. Thornberry also had a game high 12 rebounds.

On the Tuesday prior to the Salt Fork Classic, Clarendon traveled to Lakeview where they defeated the Eagles 99-35. Aggressive defensive play contributed highly to the win. Every

Mu Gamma winner is Terri Floyd

Terri Floyd was the lucky winner of a gift certificate for four to a dinner theatre in Amarillo, given by Mu Gamma chapter of Beta Sigma Phi.

"A Night on the Town in

Casket bearers were Kenneth Jones, Lloyd McCord, Clyde Putman, Bill Weatherly, Frank Derrick, and Elbon Naylor.

Calendar of Events

Sat. Dec. 15, 6:30 p.m. Christmas Party at Ashtola Community Center.

Sat. Dec 15, 1 p.m. Turkey Shoot west 5 1/2 miles from Clarendon on U.S. 287

Sun. Dec. 16, Christmas program at 7 p.m. at the First Baptist Church.

Mon. Dec. 17, 7 p.m. First Christian Church Cub Scout Christmas Party.

Mon. Dec. 17, 6 p.m. School band concert in Clarendon College auditorium.

Wed. Dec. 19, 7:30 p.m. Christmas program at the First United Methodist Church.

"Twas the Night Before Christmas"

The well-known poem, "Twas the night before Christmas" by Clement Moore has been illustrated by K-I and 2 students of Clarendon Public Schools and will be displayed in the windows of the D-Wing building.

The children worked hard coloring the large pictures and would be pleased to have the community drive by and view their work.

Supervising teachers are Frieda Tucker, Wanda Cornell, Georgia Guinn, Freddie Jo Moreman, Karen Simmons, and Glenda Hawkins. Also assisting were Evelyn Mann and Wanda Hill, teacher aids.

Lights will be on in the rooms Dec 17, 18, and 19, beginning at 6 p.m.

Second annual turkey shoot

For the second year a Turkey Shoot will be held on Saturday, December 15, beginning at 1 p.m. 5 1/2 miles west of Clarendon on U.S. highway 287.

Signs will be posted for directions and the public is invited to come and participate in the fun.

Proceeds from the Turkey Shoot will go to the Donley County Learning Center.

Broncho player got in on the scoring, led by Ken Jones with 23 points and Lynn Thompson with 20. Also in double figures were Alvin Reese and Lance Thornberry with 11 and 10 markers for the night. Hosea Hearn and Brad Thompson added 8 a piece, while Brian Murray and Randy White with 4 each, and Doug Foster, Drew Thornberry, and Brian Hill each scored 2 points to complete the scoring.

The Bronchos play claude at home on December 18 to be followed by Hedley on December 20.

Con't page 2

Ronnie, Todd, Jennifer, and Mrs. J. G. McAnear went to Albany, Texas, Friday afternoon where they spent the night with Mr. and Mrs. Robert Echols. Mr. Watt Mathews of Albany invited Ronnie and Todd to hunt deer on his ranch Saturday morning. They enjoyed the beautiful ranch and the many wild animals maintained by Mr. Mathews on his wild life refuge as well as their successful deer hunt. By 10:00 a.m. Todd had felled an eight point buck.

The Lions Tale

by GENE ALDERSON

Just in case anyone missed it, The Lions Tale was absent from the paper last week because this reporter got snowed under at his business last Tuesday afternoon and didn't make the newspaper deadline.

For a quick fill in on last week's meeting, there were

twenty-seven members, three guests and the Lion's Sweetheart present. Bob Sanders of Amarillo, who is in the auto parts business, was the guest of Lion Davidson, James B. Smith, of Gold Hill, Oregon, who is retired, was the guest of Lion Carter. Lion Allen Estlack

reminded us about the coat and shoe fund for Girls Town which area Lions Clubs help with. He also said donations from individuals or other clubs are very welcome and may be given to any member of the local Lions Club. The Club voted to cancel the meeting which would fall on December 25th and January 1st and to donate the money saved on these meals to the Girls Town fund.

There were twenty-six members, the Lions Sweetheart and one new member present for the December 11th meeting. Following the regular opening ceremony, Boss Lion Courtney presented a membership application to the club from Mike Butts, pharmacist at Gibson's. Mike was sponsored by Lion Homer Estlack and was approved for membership unanimously (Mike was the third guest last week).

Lion Courtney then called on Lion Leflew who introduced today's program on which Lion Leflew had spent so much time and diligent effort to bring to us. Lion Leflew "punted" and then called on Lion Mark Nixon, Clarendon College Basketball Coach, to help him out. Lion Nixon thanked the Club for a good job on presales of tickets to the Saltfork Classic High School Basketball Tournament which was sponsored by Clarendon College last weekend. Lion Nixon also reported on the Clarendon College basketball program.

Boss Lion Courtney then presented requests for donations from several charitable organizations. There being no further business, the meeting adjourned.

50th Wedding anniversary announced

Mr. and Mrs. Orvel O. Hill announce the celebration of their Golden Wedding Anniversary to be held on December 23, 1979 at 303 West 3rd and Jefferson Streets from 3-5 p.m. The couples children will be hosts for the party and they extend an invitation to the friends and relatives of the family to join in the festivities with them.

Duane Garmen attends telephone training

Duane Garmen of Clarendon, communication technician for General Telephone, recently attended a one-week training school at the company's training center in San Angelo. The course, Strata III Electronic Key System, is designed to give employees up-to-date training in installation, testing and maintenance of a particular electronic telephone system, including hands-on operation of the console and key system instruments.

Bookworm

This week we wish to tell you about an organization, other than city and county governments, which are working to make the Library a success.

This is our Library Board. The present members are: From Clarendon, L.C. Neece, Chairman; Mary Hazel VanZandt, Vice-Chairman; Diana Chamberlain, Secretary; Karen Simmons; and Mrs. Betty Williams of Hedley.

The first step in being a member of the TPLS is to have some governmental entity to accept legal responsibility for local financial support to guarantee continued maintenance and operation of the Library. Step 2 is the selection and organization of a 5 member board. Members serve a 2 year term. No member may serve more than 1 term without intervening time. The Library Board handles no funds, but acts in an advisory capacity by approving the final draft of the Policy Handbook covering gifts, censorship, book selection, reproductions, weeding, and use of library. The Board passes the rules of circulation, sets fine rates, and renewal procedures. The Library Board also determines the long range goals of

the Library. The Board meets on the second Thursday of the month at 3:00 p.m. in the Conference room of the courthouse annex. There is not space to comfortably seat 7 or 8 persons in the library. The Librarian, Miss Cline attends these meetings, but doesn't vote. Mrs. Nancy Shelton and Alderman Shirley Clifford also attend.

Miss Cline gives a report on circulation and attendance at the Library, collection improvements, and expenditures. Any immediate needs of the Library or special problems are discussed. System meetings are held in Amarillo every two months and a report is always given on the new development and or instructions.

Our Library has approximately 9,400 hardback volumes plus 1500 paperbacks; and approximately 750 square feet of floor space. The American Library Association recommends a collection of 13,000-19,000 volumes and a minimum of 2,800 square feet of floor space to adequately serve our estimated county population of 3700 persons. So book-wise and space-wise we have some ways to go. Space at this time is the critical factor.

MR. AND MRS. MCHENRY Lane, celebrate their Golden Wedding Anniversary this Sunday in Pampa.

Social Security Administration

Employers should file Copy A of Form W-2 "Wage and Tax Statement," furnished to their employees with the Social Security Administration (SSA) and not with the Internal Revenue Service. Texas employers should send these copies of the wage statements by first class mail to Social Security Administration, Albuquerque Data Operations Center, Albuquerque, NM 87180.

Form W-3 should accompany all mailings of Form W-2 to the SSA. Both Forms W-2 and W-3 are available from local IRS offices and should be filed by February 29, 1980 for wages paid in 1979.

If an employer's payroll includes several individual business establishments, the copies of Form W-2 should be grouped separately for each establishment. Each group should then be sent to the SSA with its own Form W-3.

An employer may use several packages if the number of forms to be mailed is unwieldy. The number of packages being sent should be written below the title of Form W-3 and placed in the first package. The employer name should be put on each

package which should also be numbered in order.

Employers who wish to learn more about Federal employment tax responsibilities can attend Small Business Tax Workshops co-sponsored by IRS and area colleges. Call IRA toll-free for further information about the Small Business Tax Workshops.

DQ honors couples

Mr. and Mrs. Roy Crutchfield
of Box 65 in Clarendon and Mr.
and Mrs. J. B. McDaniel of Box
52 in Lelia Lake will receive
special recognition this month
from the Clarendon Dairy
Queen.

Of all the couples with
wedding anniversaries in De-
cember who have signed up for
the anniversary dinner program
at the Dairy Queen, the
Crutchfields and the McDaniels
have been married the longest.
The Crutchfields were wed
Dec. 12, 1932, while the

McDaniels were wed Dec. 24,
1932. Thus, both couples will
celebrate their 47th anniversary
this month.

Every couple registering at
the Clarendon Dairy Queen will
receive a free wedding anniver-
sary dinner at the restaurant as
a gift of Dairy Queen, whether
they are celebrating their first,
50th or even longer anniversary
during the next 12 months.

If they wish, they are served
at a special table covered with
a white table cloth and special
white napkins to create a festive
atmosphere for the anniversary
dinners.

The program, believed to be
the first of its kind for Dairy
Queen, encompasses almost 50
DQs in Central and West Texas
that are part of the Chapman
Fast Foods organization.

No state surplus dollars foreseen

State Comptroller Bob Bul-
lock Monday said that recent
business trends and govern-
ment actions give him no reason
to foresee a windfall surplus in
the state treasury over the next
two years.

"We are going to be lucky to
fill our own cup," Bullock said.

Bullock said that last summer
he had hopes a sizeable surplus
could be built from unspent
state agency appropriations,
items vetoed by the Governor
and "perhaps just perhaps,
increased tax revenue."

"But it has gone just the
other way," Bullock said. "The
agencies are facing tight bud-
gets and increasing costs and
are likely to leave much less
than we might have hoped on
the table."

He said the expected \$150
million from items vetoed by
Governor Clements was whitt-
led down somewhat by the
Attorney General. Further,
highway allocations were
increased \$32 million and founda-
tion school costs are up \$24
million, Bullock said.

"On top of that, business and
international situations have
deteriorated even more than we
had foreseen in our last
estimate, such that I cannot
raise the previous estimates of
our tax income," Bullock said.
"Considering all, \$300 million
would be the top dollar even a
prudent betting man would
bank on for the coming two
years and two-thirds of that is
dedicated by the appropriations
bill."

Mrs. Carl Pittman visited
Mrs. Lilac Lowe and Mrs.
Charlie Murff, Monday after-
noon at St. Anthony's Hospital,
in Amarillo.

Mrs. Mildred Hendrix is
recovering from a broken hip,
in Greensboro, N.C. where she
has been visiting her son,
Martin Hendrix and family. Her
address while in the Hospital is:
Mildred Hendrix, Moses Core
Hospital, 1200 N. Elm St. Room
4557 Greensboro, N.C. Zip
27400. Cards from her friends
would be most welcome.

Holiday Hints

TWAS THE DAY AFTER CHRISTMAS. Little boys and
girls delight in the surprises under the tree after Santa's
holiday visit. But, those smiles can turn to tears when
(left to right) the baby's airplane gets a broken wing.
There's always a helping hand. The new Gluematic™ Pen
from Woodhill Permatex is the perfect solution for
after-Christmas breaks. Just press tip down on surface to
apply one drop of instant adhesive. The perfectly mended
toy will bring smiles of joy and many more hours of play
to Santa's little ones.

Small Business Ad. offers agricultural assistance

The Satellite Offices of the Small Business Administration Disaster Loan Office are very active. The offices have been established to offer low interest long term loans to farmers and people of farm-related businesses who have experienced crop and business losses resulting from disastrous natural causes.

The dates, times and locations of the Satellite Offices were announced in previous news releases to newspapers, radio stations and television stations. More information on the Satellite Offices can be obtained by calling the main office in Lubbock at (906) 762-7481.

The Small Business Administration Disaster Loan Office in Lubbock offers this service to the agriculture areas of the State of Texas. Since its opening in May of 1978, the Lubbock SBA Disaster Office has processed more than 18,000 applications for disaster loans. The first agricultural disaster was declared in April of 1978 and included most of the entire state.

WEATHERSTRIPPING VITAL TO

SAVE ENERGY

Do you think your home is snug? Look again! You may find gaps around doors, windows, attic stairwells, pet entrances, cellar doors and many other places.

Add them together and they can equal a hole a foot or two square!

Gaps leak money. Weatherstripping closes them off. That's why weatherstripping/caulking is number one on "The Big Ten Check List" of energy-saving hints prepared by the National Institute of Building Science.

According to Schlegel Corp. and other members of the N.I.B.S. Committee For Home Energy Conservation, you can reduce your home heating bill 15% to 30% by sealing these cracks in your home!

Check Windows

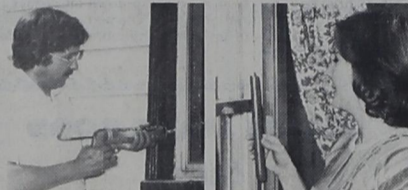

First, check your windows and doors for drafts. Use a candle or cigarette smoke to see if air is entering.

If you have drafts, check the window and storm window for caulking lapses. Then examine the seals in your storm window. They can shrink, and may need replacement, a job you can do easily.

If you have no storm windows, you can make one that fits inside the house using glass or plastic and special screw-on moldings.

Check Doors

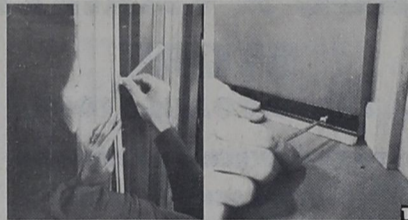

Each part of a door needs a different kind of seal. The sides and top use plastic strips that self-adhere to the jamb. The bottom requires a door sweep that screws easily onto the door. A pile dust plug is used to seal the bottom corners.

Caulking ages and must be restored. Check windows and doors with a candle or cigarette smoke to see if drafts exist.

French doors and windows require special weatherstripping which self-adheres to jamb. Foam shape is used to seal attic access. It self-adheres to the attic door.

Plastic strip is applied to door jamb where it self-adheres. Door presses against plastic, creating seal. Door sweep is attached to door bottom.

Tax Credits

If you spend money to weatherstrip your home, you can deduct up to 15% of the cost of the weatherstrips from your income tax. There's a limit of \$300 and it's for materials only, not labor.

Free Leaflet

A four-page tabloid, "Seal-It-Now," contains the full story on how weatherstripping can save you money during the coming winter. Write to Weatherseal Information Center, Box 23113, Rochester, NY 14692.

Area Leader named Connally Co.

We are extremely proud that these outstanding Texans have joined the growing list of persons nationwide who recognize the leadership qualities of John Connally, and the need for that leadership in the White House at this time," Campbell said.

The committee includes Mr. and Mrs. Lee Palmer of Clarendon, Texas.

Two prominent Donley County residents have been named to the John Connally for President Steering Committee as announced by State Organization Director Jim Campbell.

The local group is part of a massive statewide delegation of more than 2,700 citizens who have voiced their approval of Governor Connally's effort.

BRIGHT NEWHOUSE 874-2001

PIONEER Harvest Hotline

Barry Love reports **Central High Plains Results**

Again this year Pioneer brand seeds are delivering outstanding yields in field after field. But we know it takes more than one year's performance to tell the whole story. Look at these results, then ask your Pioneer dealer to show you records from several years. You'll see for yourself why Pioneer brand seeds have become famous for their consistency.

In 48 comparisons across the Central High Plains during 1979, this outstanding corn hybrid averaged 10,821 lbs./A. to show a yield advantage of 495 lbs./A. over competitive hybrids. 3311 has shown excellent drought tolerance. It just kernel depth to match growing conditions. And stalks and roots provide very good standability, too. With a proven record of top performance in this area, 3311 is sure to be a top choice for 1980.

Farmers rate this as one of the most desirable hybrids for Central Plains conditions. And this year's performance proves why. In 47 comparisons in this area, 3184 averaged 10,390 lbs./A. Recognized as one of the most consistent and dependable yielders in the area, 3184 has strong stalks and roots that contribute to its performance ability. Again next year, make sure 3184 is part of your corn growing plans.

This corn hybrid is relatively new to many area farmers, but it's a well-established favorite of many across the U.S. In 43 tests on the Central High Plains, the reasons for its popularity were dramatically shown. 3183 averaged 257 lbs./A. more than competitive hybrids with an average yield of 10,759 lbs./A. Excellent drought tolerance and very good seedling vigor with strong tolerance to head smut and MDMV make 3183 a good hybrid for this area.

Friday Bologne and cheese sandwiches, french fries, ketchup, peaches and milk.

KEEPING AMERICA BEAUTIFUL CAN SAVE ENERGY
 In pioneer days, as the nation was moving west, abandoned homesteads were frequently burned to recover the valuable hand-wrought nails that held them together.
 Today, such extremes are unnecessary. But in a land of plenty, some people turn once-useful products into unsightly litter. It takes time, money and energy to clean up litter.

The Foam Cup and Container Division of the Society of the Plastics Industry, a member of Keep America Beautiful, has come up with a few suggestions for people who want to eliminate litter.
 Campaign for, and use, public trash baskets. Cans and bottles can be recycled, and today progressive communities are incinerating paper, plastics and garbage to produce heat and energy. Properly collected trash not only reduces litter, but could bring economic and energy benefits.

Make more use of personal shopping bags or carts to save paper bags for food markets.
 Use the back of an envelope for scratch paper, and use both sides of memo pads and stationery.
 Save wrapping paper and giftwrap for future use.
 Don't litter yourself, and make the extra effort by picking up some thoughtless person's litter.
 It's the little things that count.

OSBURN'S FURNITURE AND APPLIANCES CLARENDON

1926 Book Club meets

On December 4, the 1926 Book Club held its annual Christmas Party in the festive home of Mrs. Oressa Delaney. Hostesses for the occasion were Mrs. Gladys Blackburn, Mrs. Hazel Brandon, and Mrs. Mary Thornberry. Dainty party sandwiches, colorful cookies, nuts, and hot spiced punch were served from a buffet table covered in lace with a seasonal centerpiece.

Mrs. Gayla Davidson presented several Christmas numbers in song. She accompanied herself on the piano or the guitar. Outstanding was Silent Night in German. Mrs. Kath-

erine Green joined her for two numbers and led the group for one carol.

Everyone then received a gaily wrapped package from beneath the Christmas tree. Visiting and opening gifts completed the pleasant afternoon for members: Thelma Bairfield, Gladys Blackburn, Hazel Brandon, Rachael Butler, Oressa Delaney, Katherine L. Green, Carolyn Hamilton, Pauline Heath, Verdie Harrington, Janice Johnston, Norma Jones, Evelyn Mann, Susie Shields, Mary Thornberry, Freida Tucker, Mary Hazel VanZandt, Dorothy White, Viola

Kappa Delta Pi honor society in education

Forty-two South Dakota State University students were recently initiated into Kappa Delta Pi, the national honor society in education.

Each year, some 65 SDSU future educators are initiated into the national honor society. The honorary is open to all students who plan to enter the educational profession, regardless of major.

Undergraduate initiates into Kappa Delta Pi must be juniors or seniors and must achieve at least a 3.0 grade point average on a 4.0 scale, while graduate students must earn a 3.25 grade point average.

Kappa Delta Pi encourages high professional, intellectual and personal standards as well as recognizes outstanding contributions to education.

Among the new Kappa Delta Pi initiates is Cynthia Kelley of Clarendon.

retirement last July 1. He now lives in Abilene. Chalker, who served 29 years with WTU before moving to CPL, will be the second in a row from WTU to become chief executive officer of Central and South West Corp., which has its headquarters in Dallas. He succeeds Si Phillips, who retires in February. Other CSW operating companies are Public Service Co. of Oklahoma, Tulsa; and Southwestern Electric Power Co., Shreveport.

He served in the Army Air Corps as a commissioned officer during World War II, flying C-47s with a troop carrier squadron in the European Theater in 1944-45.

Sayles ranches in southern Taylor County from 1947-55, and also taught vocational classes for veterans from 1947-52.

He worked as area development representative for WTU from 1955 until 1964, then was named manager of Area Development. He also represented the company on legislative matters in Austin.

He was named an executive assistant, reporting to the president, in 1975, and in March 1976, was elected vice president in charge of operations. His area of responsibility was expanded and the title changed to vice president in charge of customer services in 1977. He has been a member of the Board of Directors since 1976.

WTU President Glen D. Churchill, who returned to Abilene last July after serving three years as executive vice president of CPL, praised Sayles for his service to WTU.

"While this means a substantial loss to our Company, it presents a good opportunity for Bill," Churchill said. "We wish him every success in his new position and look forward to working closely with him as head of a sister company in the Central and South West System."

Sayles will be Central Power and Light Co.'s third consecutive chief executive officer from West Texas Utilities Co. Roff Hardy, WTU president from 1965-75, was chairman and CEO at CPL from 1975 until his

He served in the Army Air Corps as a commissioned officer during World War II, flying C-47s with a troop carrier squadron in the European Theater in 1944-45.

Sayles ranches in southern Taylor County from 1947-55, and also taught vocational classes for veterans from 1947-52.

He worked as area development representative for WTU from 1955 until 1964, then was named manager of Area Development. He also represented the company on legislative matters in Austin.

He was named an executive assistant, reporting to the president, in 1975, and in March 1976, was elected vice president in charge of operations. His area of responsibility was expanded and the title changed to vice president in charge of customer services in 1977. He has been a member of the Board of Directors since 1976.

WTU President Glen D. Churchill, who returned to Abilene last July after serving three years as executive vice president of CPL, praised Sayles for his service to WTU.

"While this means a substantial loss to our Company, it presents a good opportunity for Bill," Churchill said. "We wish him every success in his new position and look forward to working closely with him as head of a sister company in the Central and South West System."

Sayles will be Central Power and Light Co.'s third consecutive chief executive officer from West Texas Utilities Co. Roff Hardy, WTU president from 1965-75, was chairman and CEO at CPL from 1975 until his

Committees were organized for the walls and ceiling decorations. Cake sale was also discussed.

Monday the Broncs and Bronchettes traveled to Esteline and both teams won. Then Tuesday both teams again traveled to Hedley.

Holiday Hazards

With the holiday season rapidly approaching, care must be taken to insure that in all the hustle and bustle that accidental poisonings do not occur, warns the Texas State Poison Center. "Holiday plants and decorations can cause considerable problems," warns Michael Ellis, director of the Texas State Poison Center.

"Plants, such as the poinsettia, Christmas holly, mistletoe, and the Jerusalem cherry can all cause problems if left where small children can get to them," Ellis noted. "Although the poinsettia is not the deadly plant it is often misrepresented as, if the leaves or stems are eaten or chewed on, frequently we see fairly severe vomiting and diarrhea. This in itself can cause dehydration problems in small children."

"If holly berries are eaten they can produce severe vomiting and diarrhea, due to a number of extremely irritating substances found in both the red and green berries. Mistletoe, on the other hand, has proven deadly when ingested in any quantity," Ellis noted. "The bright red berries of the Jerusalem cherry can be mistaken for tomatoes by small children, and the consequence may prove severe."

"Since we know that small children are attracted to plants, and particularly those with bright colors," Ellis said, "They should be placed high enough that small hands cannot have access to them." This means that places like the coffee table are definitely out as areas to display these plants.

Other holiday decorations can pose problems also. "Christmas tree ornaments, such as the older bubbling lights, contain methylene chloride, which if consumed by small children, may prove quite toxic," noted Ellis. "each year we are consulted about children eating glass Christmas tree balls, and the possibility of the mouth or

the gastrointestinal tract being cut or injured is very real."

"Some decorations cause us essentially no problem. These include pyracantha berries, the flocking used on Christmas trees, the ingestion of pine needles, and the ingestion of styrofoam ornaments. The drinking of Christmas tree preservatives by children is also common, but generally is of little concern if the amounts consumed are small," Ellis states.

Should a poisoning emergency arise during the holiday season, first aid information can be obtained by contacting the Texas State Poison Center in Galveston at 1-713-765-1420.

Holiday Hints

Get Carried Away For The Holidays

Holidays are always exciting times and hectic ones for travelers. If you plan ahead you can save yourself and others worry and wasted time.

Traveling with carry on luggage saves you time.

Crowds prevail, so the wise holiday traveler will arrive at the airport with time to spare. An hour or more will allow you time to check baggage, obtain seat assignments, and relax unhurried before boarding.

Holiday trips are usually short. To help you expedite delays and crowded conditions, today's smart holiday travelers will carry on their luggage. Most airlines provide space for garment bags and carry-ons. Samsomite has designed a series of pieces called "Carryways," a smart selection of hang up garment bags and under-seat carry-ons. Carry them on, carry them off - no waiting, no delays, just more time for fun, family and friends.

"Friendship is Love without his wings!" Lord Byron

THE FOREST AND YOU

CREATING SUPERFORESTS

This article has been prepared by Georgia-Pacific, the growth company interested in protecting our natural resources.

American scientists are working to create superforests: trees that grow faster, healthier, better shaped and more disease resistant. These will grow increasingly more wood on the same amount of land as in the past.

Technicians select cone-bearing branches from the best conifer trees. These are grafted onto young, healthy trees. The best are cross-pollinated and their offspring planted in controlled

Scientists can "build" better trees than nature can grow. greenhouse climates with special feeding. The resulting superseedlings are about eight times the size at six months that a natural forest-grown seedling would be in one year. They are also tougher, more resistant to weather changes and less detectable to animals.

Module Builder is Godsent

It looks like a giant trash compactor. But the module builder is a godsend to Texas-Oklahoma cotton producers. Developed jointly by Cotton Incorporated and engineers at Texas A&M University, the

module builder speeds up harvesting by as many as 15 days and frees the cotton grower from dependence on the cotton gin.

It's a huge machine that makes neat stacks of cotton which are left in the fields until gin time.

And because the module builder is capable of holding up to nine bales of stripper cotton, which is then loaded onto a special flat-bed truck, cotton trailers which have been used for years to haul cotton to the gin have almost become obsolete, according to many growers.

In the past, if a farmer used trailers to get his cotton to the gin, then his whole harvest operation was often dependent upon the supply of available trailers. The module builder has helped separate the ginning and harvesting operations so that growers can keep on harvesting even though the gin may be backlogged or down for repairs.

Since properly protected modules can be left in the field for weeks at a time without any noticeable damage to the cotton, a grower can harvest his cotton at the most convenient time for him and not have to worry about the progress at the gin.

And what are other advantages to the grower using the module builder system?

According to Ray Adams, vice president of sales with Bush-Hog Continental Gin Company, a leading manufacturer of module equipment located in Prattville, Alabama, moduling can be an advantage because ginning has become such a problem for growers.

"The cost of ginning cotton has increased many fold in the last decade and we have every reason to believe that it is going to continue to increase," he said. "There has been a trend to have fewer and fewer cotton gins each year."

"As the number of cotton gins gets smaller, the volume of these gins increases. But it also is becoming more difficult for the farmer to get his cotton ginned immediately. The expense of owning cotton trailers is getting to be too high and the economics the module

FIRST PLACE WINNERS in Greenbelt District Chapter Conducting, 1st place in Area Chapter Conducting and placing 5th at the state meet in Huntsville, on December 1, were

members of the Clarendon FFA pictured [l to r] Drew Thornberry, Danny Hanson, Terry Cole, Randy White, Jack Craft, Lance Thornberry, and Mark White.

system provides makes it an ideal operation to turn to." Randy Eiland, a grower from Lamesa, Texas, switched to module builders to avoid losing cotton to the unpredictable West Texas weather.

"We have a lot of bad weather in this area at times, and before we got module builders our stripping depended on how many trailers we could get to the gin," Eiland said. "Since we have gotten the module builders, our strippers can just run continuously to keep building modules. We don't have to worry about getting trailers or being out of trailers."

"Module builders help make a grower money because a crop can be lost, in this area, by leaving cotton on the stalks. By stripping continuously and putting cotton in modules, you can completely avoid this happening. We can't store it on the stalk in West Texas. You can lose too much of it too quick."

Harold Worrell, a grower from Altus, Oklahoma, has been impressed with the efficiency module builders have allowed him in his harvesting operation. "I had heard about module builders," he said, "and I had decided they would speed up my harvesting operation. I farm about 2,500 acres of stripper cotton, and I was having problems keeping all my trailers loaded and getting them to the gin and emptied so that I could keep on stripping. I was filling those trailers up nearly every day. Module builders made me think I could get by a lot easier."

"Module builders save me a lot of wear and tear on hauling cotton to town and it saves a lot of labor tromping it on trailers. I don't know if it's much cheaper, but it's a whole lot faster."

And how does this remarkable machine work?

Dr. Milton L. Smith, a professor of Industrial Engineering at Texas Tech University, who has worked extensively with module builders, explains:

"Initially, when the basket on a cotton stripper gets full, the load is dumped in to the module builder. It usually takes two or three dumps before there is enough cotton to pack. Once there is a sufficient depth to pack, then the module builder goes into operation."

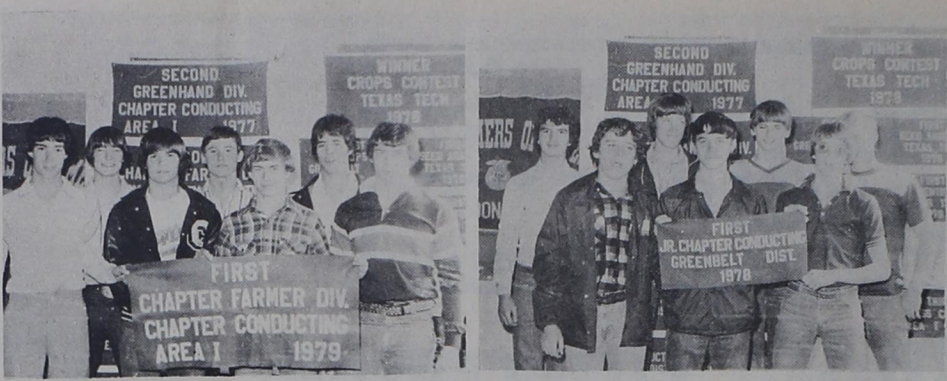

"The tramper compresses the cotton as it moves from front to back and back to front of the module builder. This operation constantly compresses the cotton and will occur many times throughout the process of building a module. With each successive dump, the tramper will first of all level out the

his cotton operation, but has significantly improved ginning techniques.

Research by Cotton Incorporated on the module builder has also led to other valuable developments. For instance, the module feeder was developed, enabling cotton modules to be fed directly into the gin. The feeder-cleaner has also recently been introduced, as a result of Cotton Incorporated research. The feeder-cleaner removes approximately 60% - 70% of the trash out of stripper cotton as it is fed into the gin. This means improved grades and more cotton dollars for the grower.

"I feel that the research and promotion carried on by Cotton Incorporated, such as that on the module builder, is very important to growers," said Dr. Smith. "There are many developments that I believe may

have occurred without Cotton Incorporated's support and funding, but I think on many projects it would have been 10 to 15 years before they would have occurred otherwise. So, I definitely think Cotton Incorporated has helped cotton producers."

GREENHAND CHAPTER CONDUCTING team members which placed 1st in Greenbelt District and 9th in Area competition are [l to r] Ken Dorris, Todd Muse, Kelly Hill, Ray Lindley, Jerry Hicks, Brett Bryant, and Chuck Brogdon.

MONEY SAVING TIP: You can make your meat dollar go further by using meat tenderizers — instant or 15-minute variety — on less tender, and less expensive, cuts of meat. The humblest cut of steak may take on sirlion appeal for a tasty, tender meat entree.

An estimated 22 percent of American homes have only black and white TV sets.
