Jimmy Thompson files for sheriff's office

JIMMY THOMPSON, candidate for Donley County sheriff

No introduction is needed to Jimmy Thompson, for the many persons who have lived in and around Donley County most of their lives. Jimmy was born here and P.O. and Cordia Thompson were his parents. Jim attended the local schools and spent four years in the United States Marine Corps, 1954-1957. Upon his discharge from the service he returned to Donley County and worked on area ranches in pursuit of the farmer-stockman life which he has followed, to some degree most of his adult life. In 1959, on December 21, Jimmy Thompson married Aleta Coleman, from Samnorwood, and they made their home at Claude.

Thompson lists as qualifications for the office of sheriff, his experience with the Amarillo Police Department where he was employed for two years and the 436 hours of police training at the police academy, training for the Amarillo Police Department. He has had four years experience serving as deputy sheriff here in Clarendon.

Thompson and his wife moved from Amarillo three years ago to get their sons, William 18, and Walt 10, into an environment they felt was better for their growing family.

Mrs. Thompson is a teacher in the Clarendon public schools and out of the school room a full time wife and mother.

Thompson feels he is qualified for the position for which he has announced, is anxious to proceed with the responsibility of protecting the county against law breakers and plans to visit

personally with each voter before election time.

If you have issues or other items of interest you want questions answered about, ask Jim and he will be glad to discuss the matters with you.

Are you interested?

As of Monday, Jan. 14th, there have been 14 families which have indicated a concern in seeing a pre-kindergarten class started in Clarendon.

We are going to extend this survey one more week. If you have an interest in the Pre-Kindergarten class please call 874-3833 or after 5 p.m. call 874-3926.

If there is a definite need, such a class could be started around Feb. 1st.

Filing dates February 4th filing deadline

Mary S. Cooke, Democratic Donley County Chairman, reminds those persons who plan to file for political offices that the filing date is through February 4, 1980. The filing fee is \$300 for county candidates, with the exception of the constable which is \$200.

If you need more information, Democratic candidates should call Mary S. Cooke, Democratic chairman, at 874-3549.

Bronchos open district with 52-40 win over Shamrock

The Clarendon Bronchos opened District 2-A play with a 52-40 win over the Shamrock Irish in Shamrock. Tough defensive play, combined with 16 free throws made by the Bronchos did their opponents in. The Bronchos also had an extremely well-balanced attack in which eight players scored. After the score went to 6-6, the Bronchos reeled off nine straight points, opening a first quarter margin of 15-6. The attack continued steadily throughout the second period, with the Bronchos on top 27-14 at halftime. The game regained some of its earlier excitement when early in the final quarter the Irish made a run at the Bronchos, closing the margin to 43-36. However, the Bronchos never lost their composure under fire and put the game out of reach by making seven free shots in the last three minutes. Ken Jones and Lynn Thompson led scoring with 16 and 14 points. Alvin Reese and Tim Brown added eight and seven, respectively, to the Broncho total. Other scorers included Lance Thornberry, Bryan Murray, and Randy White with two points each. Drew Thornberry rounded out scoring with one.

Earlier in the week, on January 8, the Bronchos downed the Groom Tigers 71-39 in Clarendon. The game was never close, with the Bronchos taking charge early and opening

a 37-13 halftime lead. Sloppy play by the home team Bronchos kept the final margin down. Individual leaders for Clarendon included Lynn Thompson (19 points), Ken Jones (17 points and 7 rebounds), Alvin Reese (14 points and 9 rebounds), Lance Thornberry (6 points and 9 rebounds), and Bryan Murray (4 points and 6 rebounds). Other scorers for the Bronchos were Randy White (4 points), Hosea Hearn (3 points), Drew Thornberry (2 points), and Tim Brown (2 points).

The Bronchos carry a season mark of 13-5 into games with Memphis (played on Jan. 15, too late to report), White Deer (away on Jan. 18), and Wellington (home on Jan. 22).

Donley County tax board sworn in

In an organizational meeting members selected for the Donley County Tax Board met in the conference room at the courthouse annex on Monday, January 7, 1980 with Donley County Judge W. R. Christal as chairman.

Billy Goodman, was named chairman and Jim Hayes was named secretary of the board members who are Billy Goodman, James F. Hayes, Earl Wheatley, Dale Robinson, and Roland Shields.

After members were shown and the chairman and secretary named the board asked Billie Christal, Donley County judge to apply for an IRS ID number for the board.

Another meeting has been set for the first Monday in February, Feb. 4, to be held in the conference room at the courthouse annex. At this meeting each taxing entity and a board member will be present.

This tax board, a mandatory board which was enacted into law by H. B. 621 is now a state created board whose purpose is to see that everyone is treated fairly.

Members of the board have no axes to grind, and have been asked to accept the positions on the board, to which they did agree.

Donley County will be one of the most difficult counties to appraise with 7700 parcels of land to work with. Established with the purpose of equalization of values the valuation will be approved in 1982. In the meantime there will be tax schools later in the spring and members of the tax boards will attend.

Grass Fire burns pasture

"We would put the fire out in one place and as quick as we did it would flare up in another place" Harvey Shaw Sr. related in an interview Tuesday about the grass fire on Sunday which started on the Shaw place apparently.

Shaw and his son were working on machinery when they discovered the fire after smelling smoke. The fire was near where they were working and they began frantically to try to put it out.

Although it is not known how it started it is surmised the heat, tender dry vegetation and perhaps the sun's rays through a piece of glass could have been responsible. The Shaws were not using any fire as they worked.

Fortunately, Shaw explained, there was a lot of good help and

Bill Sarpalius

Bill Sarpalius files for Senate 32st District

Bill Sarpalius is announcing his candidacy for the Texas State Senate for the 31st District subject to the Democratic Primary, effective January 11, 1980.

Sarpalius, grew up with his two brothers at Cal Farley's Boys Ranch and feels he was given a second chance there by the Panhandle residents support of the ranch.

He began his service to people by working 5 years as a teacher and staff member of the Ranch and later working two years for Speaker of the House, Bill Clayton.

Sarpalius stated, "I am starting this race with nothing but a lot of desire and a lot of dreams, but I feel very confident that if we work together as a team we can make the next decade, the 1980's, the most prosperous ten years the Texas Panhandle has ever known."

Bill Sarpalius lived at Cal Farley's Boys Ranch for seven years, and after graduating in 1967 he worked at various odd jobs while attending Clarendon College.

In 1968 he was elected State President of the Future Farmers of America and traveled over 76,000 miles in the State of Texas representing the 50,000 members of the FFA. During this time he spoke to approximately 140,000 people.

After serving as President of the FFA Bill was married and returned to Clarendon College and graduated in May of 1970. He was President of the Student Body at Clarendon College, received Who's Who in American Junior Colleges, and served as Chairman of the Youth Advisory Committee to the Selective Service, being appointed by the Governor.

Bill graduated from Texas Tech University in 1972 with a degree in Agriculture Education. In 1972 Bill was selected as an Outstanding Young Man of America and went to work for Cal Farley's Boys Ranch where he worked for two years as Assistant Director of Admissions and taught vocational agriculture in high school at the Ranch for three years.

PAUL DRAGER, patrolman with Clarendon Police Department.

New Clarendon P.D. Patrolman

New to the patrolmans position for the Clarendon Police Department and still pretty new in Clarendon is Paul Drager, the owner of the Coronado Courts, who moved to Clarendon from Ralls in October of 1979.

Paul began his duties with the Clarendon PD the first of January and is working with his temporary certification from the state of Texas.

Drager grew up in Hereford, and attended schools there. After graduation he attended Texas Tech University graduating in 1971 with a B.S. in Agriculture.

After graduation he was employed by Creamland Dairies in Albuquerque, N.M. for three years. Later he worked in San Antonio in the Dairy line and spent a year in Midland with a snack food company.

Most recently he managed an automobile dealership in Ralls, on the south plains. When the opportunity was presented he took advantage of the chance to go into business for himself bought the Coronado Motel and moved with his wife and son to Clarendon.

Celia, Drager's wife is also a graduate of Texas Tech University with a B.S. degree in Home Economics. She is a native of Ralls. Her training is being put to good use with the refurbishing of the Coronado Motel, which Celia manages with Paul's assistance.

Celia and Paul Drager have a five year old son, Matthew and enjoy, respectively, soft ball, golf, hunting, sewing, knitting, crocheting and other hand work.

Drager works the night shift of the Clarendon Police Department and is convinced in his own mind that Clarendon is a good place to live.

Members of the Lutheran Church, the family attends the First United Methodist Church here.

Sarpalius from p. 1
 In May of 1978 Bill received his Master's of Agriculture Degree from West Texas State University.
 Bill worked for more than two years as District Office Manager of Speaker of the Texas House of Representatives, Bill Clayton. In this capacity Bill traveled over the seven-county District helping people with problems dealing with government and he also kept citizens advised on the status of legislation during legislative sessions. At other

times he spoke to school classes, civic clubs and to all types of organizations.
 Bill has one son named David who is in the first grade in Hereford. Bill is an active member in the Hereford Lions Club and in the First United Methodist Church in Hereford where he teaches a high school Sunday School Class. He is also active in the Big Brothers program in Hereford. He has two brothers who are Baptist ministers.

Foster Whaley announces

State Representative Foster Whaley, Pampa, formally announced his candidacy today for a second term as State Representative for Legislative District 66, which comprises Gray, Wheeler, Collingsworth, Donley, Armstrong, Hall, Childress, Briscoe, Floyd, and Motley Counties.

In making his announcement Whaley said, "I made few promises when I ran for State Representative in 1978. I believe my score on promises kept would hit 100 percent. One promise was to devote full time to the job...this has been done. Lois, my wife, as an unpaid helper has devoted many long hours in our goal to break all records in being of service to the people of the 66th District. Another promise was to communicate through the news media to the people of the 66th District during the legislative session...this promise was also kept. We promised to be accessible...this we have done."

"I was very honored to be selected by an Austin bi-monthly publication as the most effective Freshman legislator and I will strive to continue to merit this honor."

"Several bills were co-authored with The Honorable Bob Close of Perryton and I helped sheep-herd some of these through the committee system to their final passage. Two other local bills were passed under my authorship affecting the Greenbelt Water Authority and local Juvenile Board."

"I successfully killed and had a hand in killing several bad bills. Among these were bills abolishing our homestead laws and a bill that would have imposed a tremendous increase in liability insurance cost to all of our local Government entities: Counties, School District, and Cities."

"I fought unsuccessfully to block a 26 million dollar appropriation for the benefit of state religious colleges and universities, which is a clearcut violation of our Texas and Federal Constitution. These funds could have been more justly spent on beginning teacher's salary. The Iranian situation should be a vivid reminder of the consequences of a violation of the 'separation of church and state principal.' My fight will continue against this brazen and well-lobbied, unconstitutional appropriation of tax payers' funds. I quote the State Constitution, Article 1, Section

7. 'No money shall be appropriated or drawn from the Treasury for the benefit of any sect, or religious society, theological, or religious seminary.'

"I feel my one term of experience will be of tremendous benefit to me in becoming more effective during future legislative sessions."

Windbreaks valuable on farmsteads

What's your farm worth—one hundred thousand--five hundred thousand--a million dollars? Can you afford to farm without a conservation plan? A conservation plan which should include a farmstead windbreak.

The values of an effective windbreak are many. Such a windbreak, containing the right tree species properly located, will provide protection from hot, dry winds of summer and from icy blasts of winter winds and snow. Besides making the farm living area more comfortable during winter months, savings on the annual household fuel bill can be expected where an effective wind barrier is present.

Dwellings protected on three sides by an effective windbreak can have fuel savings of up to 30% annually. Also, an attractive farmyard windbreak could be valued at \$1500 to \$2000 per acre.

In next weeks paper, read how to plan the farmstead windbreak. In the meantime, come by the Soil Conservation Service Office on S. Kearney

and see if it is possible to plant a windbreak on your place. Trees are available for purchase from the Donley County Soil and Water Conservation District.

Fire from p. 1

the fire was put out. If there were any injuries or loss of livestock he was not aware of it, he felt badly that the fire could not be contained. "It was just impossible for two men to handle it", he said, and that it spread to his neighbors land.

Some fence posts were reported burned and cattle moved out of those pastures to prevent straying. The Bitter Creek and Crafts ranch were in the path of the blaze. A dollar amount of damage to grassland, posts, etc. has not been made. There were no reports of machinery loss.

Grass fires are an ever present threat to the area with such dry conditions as we are now experiencing. Extreme caution should be exercised in the use of combustible materials, and everyone should watch for fires that occur from no known cause and rapidly spread.

Our sympathy goes out to the Henry Bland family in the loss of Henry's brother-in-law, Mr. Yates of Dimmitt.

The Friendship Club would like to let its members know that they have ham for sandwiches and deserts and salads need to be brought at our next meeting.

The Howardwick Lions Club met Saturday night in their regular meeting, with 27 present and lots of good eats.

Lt. Governor Lion Lynn Cherry made a talk on the changes that probably would be coming up this year in the Lions organization.

Remember the Castner singers of Lubbock will be at the Howardwick First Baptist Church, Sunday, January 20th. They will have charge of the morning services. There will be lunch at the city hall at noon. Bring a covered dish and come and be with us for a day of song and fellowship.

On our sick list is Bud Herring he is in the hospital in Pampa. Hope he is home soon.

Mr. and Mrs. Keith had as their guests over the weekend, Dean and Mark Keith of Amarillo. They enjoyed their visit very much.

Mr. and Mrs. Allen Bartel were in Balko, Oklahoma over the weekend, visiting Allen's uncle Mr. and Mrs. Henry Bartel. They will be moving

soon to a Senior Citizen Lodge in Dodge City, Kansas.

The Laker Homemakers Club met Monday evening with twelve present, including one guest and our Homemaking agent Lesli Garnett.

Mary Jane Smith, was our guest and she also brought our program "Learn by Sharing". She was from the Early Bird Club and brought some beautiful crocheted items and gave us some new ideas in crocheting. The new officers were installed. Trula Moore president, Cora Bland secretary.

Albert and Trula Moore were in Amarillo Thursday on business and shopping.

They were treated to a fish supper and all the trimmings by their son and wife, Sonny and Pat Moore of Amarillo. They had just got back from a fishing trip down Zapata, Texas way.

NUTRITIOUS DISHES FOR THE ELDERLY

Meeting daily nutritional needs is important for people of all ages but it is essential for the elderly. Many elderly persons are nutritionally handicapped in several ways.

Their financial resources are limited (about one-third of aged Americans are plagued by poverty; pride may keep them from applying for food stamps). Arthritis or poor vision could inhibit senior citizens from shopping and preparing certain foods.

Too little protein in the daily diet may cause an older person to become easily fatigued and more susceptible to infections. Whole milk and eggs are lower cost sources of protein; however, they are high in cholesterol and saturated fats, risk factors associated with coronary heart disease.

All of this means that you cannot take the good nutrition of your elderly relatives for granted.

You can substitute skim milk for whole milk and still provide protein and calcium for strong bones and teeth. Egg Beaters Cholesterol-free Egg Substitute provides the good nutrition and farm fresh taste of eggs without the cholesterol.

The elderly tend to eat less so it is important that what they eat be nutritious. Fruit—dried, canned or fresh—and custards are excellent choices. The following custard recipes are made with skim milk and Egg Beaters. Savory Tuna Custard is an easy-treat entree. The egg substitute and budget-minded tuna provide a double dose of protein. Orange Rice Custard is a wholesome dessert.

Drop in on an elderly relative or friend and share these recipes. For more nutritious dishes, send for your free copy of *Sensible Eating Can Be Delicious*. Simply send your name and address to Fleischmann's

Savory Tuna Custard and Orange Rice Custard provide good nutrition and good eating for senior citizens.

Egg Beaters, P.O. Box 201, Madison Square Station, New York, N.Y. 10010.

SAVORY TUNA CUSTARD
 3/4 cup Egg Beaters
 Cholesterol-free Egg Substitute
 1 can (7-ounce) water packed tuna, drained and flaked
 1/2 cup frozen peas, thawed
 2 tablespoons grated onion
 2 tablespoons chopped parsley
 1/4 teaspoon salt
 1/4 teaspoon thyme leaves, crushed
 Generous dash pepper
 1 cup skim milk, scalded
 Combine Egg Beaters egg substitute, tuna, peas, onion, parsley, salt, thyme and pepper. Gradually stir in milk. Pour into a 1-1/2-pint baking dish. Set in a pan of hot water about 1-inch deep. Bake at 350°F. about 30 minutes, or until knife inserted in center of custard comes out clean.
 Makes 3 servings.

ORANGE RICE CUSTARD

1-1/4 cups skim milk
 1/4 cup sugar
 1/4 teaspoon salt
 1/4 cup Egg Beaters Cholesterol-free Egg Substitute
 3/4 cup cooked rice
 1 teaspoon grated orange peel
 1/2 teaspoon vanilla extract
 1 tablespoon sugar
 Scald milk; stir in 1/4 cup sugar and salt. Add slowly to Egg Beaters egg substitute, stirring constantly. Stir in rice, 1/2 teaspoon orange peel and vanilla extract. Divide mixture into four 5 or 6-ounce custard cups. Set in a pan of hot water about 1-inch deep. Bake at 350°F. about 30 minutes, or until knife inserted in center of custard comes out clean.
 Combine remaining 1/2 teaspoon orange peel and 1 tablespoon sugar. Sprinkle over tops of hot custards.
 Makes 4 servings.

MANAGING YOUR MONEY

A SECOND CAR?

It may be cheaper not to own a second car, even if that means renting one occasionally, concludes a recent study. With automotive price hikes and the rising cost of gas, automobile insurance and maintenance, alternative modes of transportation may save money.

The average base price of a 1978 American-made mid-sized car exceeds \$4,200 before popular options are figured in. The annual fixed expense of owning such a car is \$1,392, according to the study, which was made by Budget Rent a Car Corporation. This figure includes liability, collision and comprehensive insurance; license and registration fees; taxes and depreciation.

A typical three-year new car loan can add \$137 a year in interest charges. These expenses occur whether the car is driven or not. Routine operating costs, including gas, oil and tires, amount to 5.65 cents per mile, raising total auto costs to \$1,952 per year, over a 7,500-mile year. Other costs, such as garage storage, would be extra.

Using Budget Rent a Car's average rental, mileage and gas rates in 13 national population centers, the study compared the costs of owning a car and renting one. A family could rent a car for 65 days a year and drive 100 miles each day before exceeding the annual cost of owning a second car.

For people who occasionally need a station wagon or van, renting may make a lot of sense. These vehicles are expensive to maintain and they must be driven often to justify purchasing.

Homebaked French Bread Can Be Last Minute Treat

Serve a warm, crusty loaf of homebaked French bread to dress up a meal for family or guests. Or turn the loaf into garlic toast, just like your favorite steak house serves. Both of these hot breads can even be last minute inspirations when you start with ready-to-bake refrigerated buttermilk or country style biscuits. Because these biscuits carry a "use by" date on every can, you can keep a supply in the refrigerator for hot bread any time.

As a bonus, along with great eating you get important B vitamins and iron from the enriched flour used in refrigerated biscuits.

QUICK FRENCH BREAD

2 cans (10 biscuits each) Pillsbury Refrigerated Buttermilk or Country Style Biscuits
 1 egg white, slightly beaten
 Sesame seed

Heat oven to 350° F. Separate each can of biscuit dough into 10 biscuits. Stand biscuits on edge on ungreased cookie sheet; press together and shape ends to form a loaf. Brush lightly with egg white. Sprinkle with sesame seed. Bake at 350° F. for 30 to 35 minutes or until deep golden brown. Serve warm. 14 slices.

GARLIC TOAST

Cut baked Quick French Bread into 1/2-inch slices. Brush sides of each slice generously with bottled Italian dressing. Place on ungreased cookie sheet. Bake at 400° F. for 5 minutes; turn and bake another 5 minutes or until crisp and golden. 28 slices.

Arbor Day Foundation offering fruit trees

The National Arbor Day Foundation is offering free fruit trees as part of its 1980 campaign to encourage tree planting.

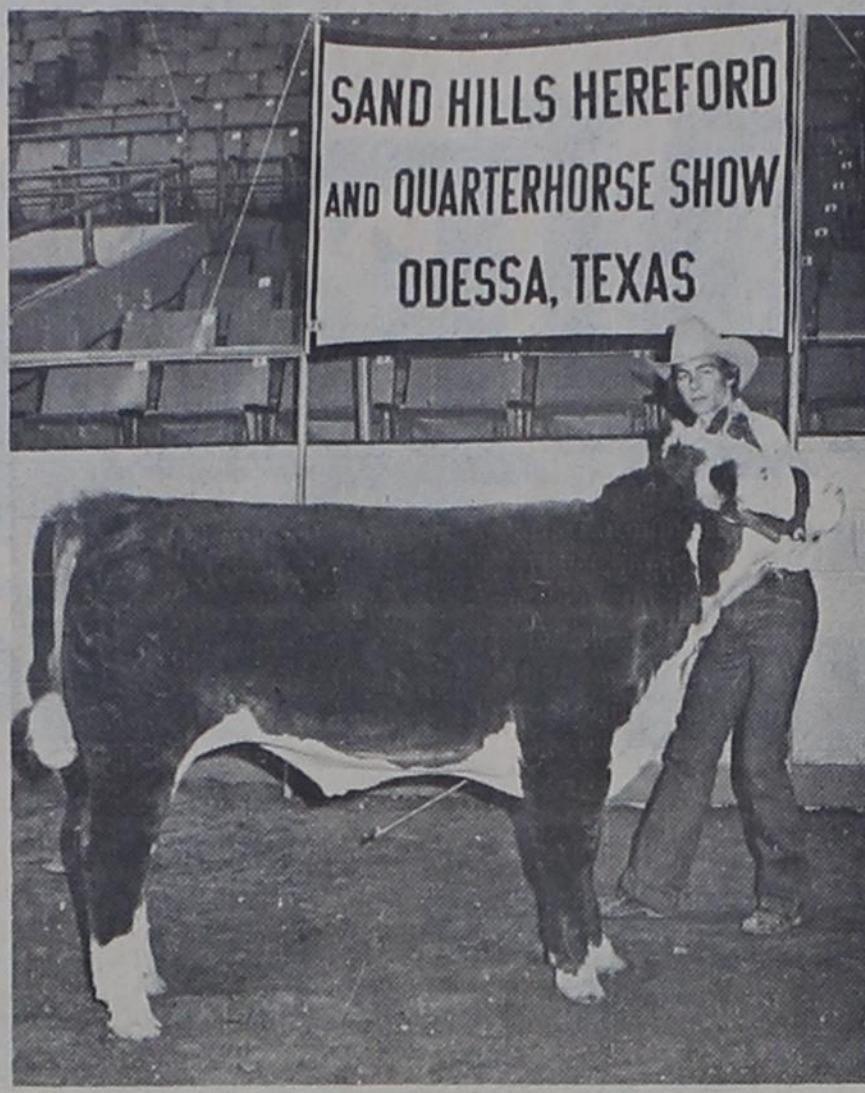

The Arbor Day Foundation, a nonprofit organization, is working to improve the quality of life in communities throughout the country by encouraging tree planting. The Foundation will give three fruit trees to new members contributing \$10 or more. Each tree will be 3 to 4 feet tall. All trees will be ready for planting and will be sent postage paid.

The Foundation says that if the trees are planted according to the enclosed instructions they will provide years of enjoyment and will add to the Foundation's goal of a greener America. And they will bring fruit to the table year after year.

meeting at the Community Center Saturday night, Jan. 19th at 6:30. Hosts and hostesses for the evening will be Mr. and Mrs. D.R. Koontz and Mr. and Mrs. Roy Lee Helms. Everyone is invited.

To become a member of the Foundation and to receive the three free fruit trees, a contribution of \$10 or more should be sent to the National Arbor Day Foundation, Arbor Lodge 100, Nebraska City, NE 68410. The donation should be sent along with a choice of any three of the following trees. Any combination or as many of any one variety may be specified.

Apples-Red Delicious, Yellow Delicious, Stayman Winesap, Red Rome Beauty, Red Jonathan; Peaches- Belle of Georgia, Elberta, J.H. Hale, Golden Jubilee, Hale-Haven; Cherries- Montmorency, Early Richmond; Apricots- Moorpark, Early Golden; Pears- Bartlett, Kieffer; and Plums- Damson, Burbank.

1980 census information to be mailed out

Mr. William E. Soule has been named Manager of the temporary 1980 census district office in Amarillo.

The announcement of Mr. Soule's appointment was made today by Mr. Percy R. Millard, Director of the U.S. Bureau of the Census Regional Office in Dallas.

The Amarillo census office, to be located in Bldg. 7205, T.S.T.I. Campus, 7205 Avenue B, will employ approximately 400 temporary workers at the peak of census operations next spring. Hiring for most of these jobs will begin early in 1980. The temporary Amarillo office will remain open until census operations are completed, expected to be sometime during the summer of 1980.

The 1980 census will be taken largely by the mail-out, mail-back method. On Friday, March 28, 1980, the Postal Service will deliver a census questionnaire to each U.S. Household. Residents will be asked to complete the questionnaire and return it four days later, on Tuesday, April 11-Census Day-in a postage free envelope. The questionnaires will be returned to the temporary census office where they will be checked and processed by census workers. If questionnaires are not mailed back, census takers will make household visits to get the required information.

Mr. Soule is one of 21 census district office managers to be named in Texas and one of 409

to be selected throughout the nation.

The Amarillo census district office will be responsible for counting all persons and housing units in the following counties: Armstrong, Briscoe, Carson, Castro, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Herdman, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher and Wheeler.

The Chapter is now working on the Charity Ball to be given in February and will be planning other activities to help the community and other needy projects.

Bullock financial outlook for Texas

I would like to share with you my outlook for our state government's financial future in light of present economic conditions.

The world oil crisis is of overriding importance, and in the past eight months we have seen events which dictate major revisions in our estimate of what's coming.

The bottom line: the state can pay its bills and have a balance left at the end of our current budget. The amount to be left over is subject to question.

Our estimate eight months ago came after the Legislature approved a budget of more than \$21 billion to run the state for the two years from September '79 to August '81. We said then that a mere \$1.7 million would be left after paying for the budget.

But we are eight months wiser now and can change that figure. First, we can add to it \$142 million to be saved on items Governor Clements vetoed. Then we must subtract from it \$21.8 million for increased highway program costs and \$24.4 million for increased foundation school costs. Further, when the books were closed on the immediate past budget period the leftover balance was \$43.8 million less than predicted.

These things would give us a "surplus" of \$53.8 million in 1981, but our forecast of income from taxes and other sources is also changing-some up, some down.

Oil production tax is the big item. The Middle East has drastically raised world oil prices and decontrol has raised domestic prices. Consequently, we now estimate that oil will bring in \$555 million more than we had previously forecast. Increased natural gas production taxes will add another \$91 million.

We now estimate sales taxes will bring in \$139.6 million less than planned and motor vehicles sales taxes have been reduced \$143.3 million.

We have reduced other income sources. The net result is to add only \$70.6 million to the \$53.8 million I mentioned earlier to give us a total of \$124.4 million we may expect as "surplus."

This is money the Legislature could spend, could carry over to the next budget or could use for tax relief.

We could also raise a question about another \$200 million which may be available-but to count on it now is pure conjecture.

That \$200 million is money the Legislature has already approved for spending. State

agencies in the past have left some money on the table, but this time around they are pinched by inflation and may well spend every dime the Legislature gave them.

To count on this money now is to count the chickens before they hatch.

But whether the surplus is \$124 million or \$324 million,

Texas is not living in the banquet years of the 1970s. We are still more fortunate than many other states. Our tax rates haven't been raised in almost 10 years. Our taxes are lower than virtually every other state in the union. But still we are making ends meet while providing the services and institutions Texans expect from state government.

Third series on tax tips

See Application p. 4

When it comes time to file income tax returns this year, the taxpayer does have a choice in regard to which form he/she decides to use. The two choices include Form 1040 or Form 1040A.

Form 1040A is the easy form, designed for taxpayers whose income results from standard sources such as salaries, wages and tips. It is also for use by taxpayers who do not itemize deductions and who do not claim credits or adjustments to their income.

Form 1040, however, with its assortment of schedules and forms, is for everyone else.

Taxpayers will be happy to learn that this year's tax forms are basically the same as last year's. There are few minor changes for the sake of simplification.

Depending upon individual circumstances, the taxpayer should choose the form which will be easy to complete and which is right for him/her. This year, Form 1040A will accommodate taxpayers whose income is \$40,000 (for a couple filing jointly) or \$20,000 for singles and married persons filing separately.

An exception to these income limits concerns interest and dividend income. If either exceed \$400, Form 1040 accompanied by Schedule B should be used listing the sources of income, no matter what total income may be.

Regardless of which form taxpayers use, items will be laid out sequentially to facilitate easy computation.

These and other questions concerning your 1979 tax return will be answered in the Taxpayer Education program. This public service course will be offered Jan. 29 and 31, 7:00-9:30 p.m. This program is co-sponsored by the Panhandle Chapter of the Texas Society of Certified Public Accountants, the Internal Revenue Service and the Amarillo College Community Service Program.

More than 20 CPAs will volunteer their time to assist taxpayers during the two-night informal program, which provides both instruction and question-and-answer sessions. The course is available to the public at a charge of \$2 per person to cover administrative costs.

To register for the Taxpayer

Education program, simply fill out the registration form below. Money and registration form must be mailed by Jan. 16, 1980.

Classes will be held in Warren Hall on the Amarillo College Campus.

Panhandle Boat & Ski Club elect new officers

The Panhandle Boat & Ski Club has elected new officers for 1980. Rex Bagwell of Claude is the new commodore, Charles Short, Amarillo, Vice-Commodore, and Bobby Owens, Amarillo, Secretary-Treasurer. Other officers serving this year are Bob Hayworth, Clarendon, Jerry Graves, Claude, Jack Moore, David Wright, Bill Clayton, Charlie Miller, Mrs. Winfred Chum, Chuck Gast, and Jim Greer, all of Amarillo.

The 1980 Panhandle Boat & Ski Club's queen has been chosen and is Krystal Hayworth of Clarendon. The Club annually sponsors the Boat, Sport, and Travel Show held in the Amarillo Civic Center. This year's show is scheduled for Friday, Saturday, and Sunday, January 25th, 26th and 27th. This year's show will be the Silver Anniversary Event, twenty-five years of the finest attractions for the sports-minded residents of the golden spread. The Annual Boat, Sport, and Travel Show gives everyone an opportunity to see and purchase the very latest sports equipment on the market.

The Good Neighbor Club met with Bessie Helton Friday 11, he afternoon was spent in visiting. In the business meeting, Mary Lee Noble was elected president and Florence Harp reporter.

Lovely refreshments of sandwiches, angle cake, ice cream, tea and coffee was served to Hazel Phillips, Mary Lee Noble, Frances McCord, Florence Harp, Cora Hearn and Bessie Helton as our hostess. Next meeting will be with Frances McCord, Feb. 8. Everyone reported a good time.

Leathers receives degree from Baylor

Richard Murry Leathers of Clarendon was among more than 370 students at Baylor University, Waco, who completed requirements for graduation at the end of the fall semester. Leathers, 721 W. Fourth, received a bachelor of arts degree.

Three hundred seventeen students received bachelor's degrees, 53 earned master's degrees, and four received doctoral degrees. More than 60,000 students have received degrees from Baylor, the world's largest Baptist university, since it was chartered by the Republic of Texas in 1845.

Texas Ports Reporting Dramatic Increases in Exports of Cotton

AUSTIN—Cotton, once the undisputed king of traffic from Texas Gulf Coast ports, may be in the process of regaining its crown, according to Agriculture Commissioner Reagan V. Brown, with port authorities reporting recent dramatic increases in export activity there as the highest waterborne movement from the state in almost 10 years.

"Large movements of cotton to the People's Republic of China are accounting for the bulk of export increases from Texas ports," Brown explained. This has been bolstered by the fact that cotton shippers have been switching in recent months from minibridge movement via the West Coast ports to the Gulf port facilities due to container shortages and West Coast port congestion.

The bulk of the cotton going out of the Gulf Coast ports, primarily from the bumper 5.7 million bale Texas

There's a Better Way to Get the Most from Your Checking Account

If you are an average adult citizen of this city, you have a bank checking account. You either maintain a minimum balance or you pay a monthly charge for the privilege of having the checking account service... unless, of course, you have one of our BANCLUB accounts.

Plus, you travel with the security of CHECASH™, the BANCLUB program that entitles members to nationwide check cashing privileges in any of 4,500 bank locations.

Get Your Money's Worth

With BANCLUB, you still pay a monthly charge—a small set fee you can plan for each month. But for that fee, BANCLUB opens up a whole package of banking services designed especially for you. Unlimited check writing. No minimum balance. All the personalized checks you need. Travelers and cashier's checks without issue charge.

Have Fun with The Money You Save

Add fantastic, fun bargains with national discounts on Hertz car rentals, participating Holiday Inns, Rodeway Inns, Ramada Inns, theme parks from Florida to California and many, many more.

And that's only the beginning. BANCLUB offers personal protection for you and your family with \$10,000 accidental death insurance you automatically receive as a BANCLUB member.

Top off the program with BANCLUB Digest, America's Hometown Magazine, a lively blend of sound information on financial, health and safety matters, sparkling bits of wit and travel features to stir your imagination and help you plan ahead.

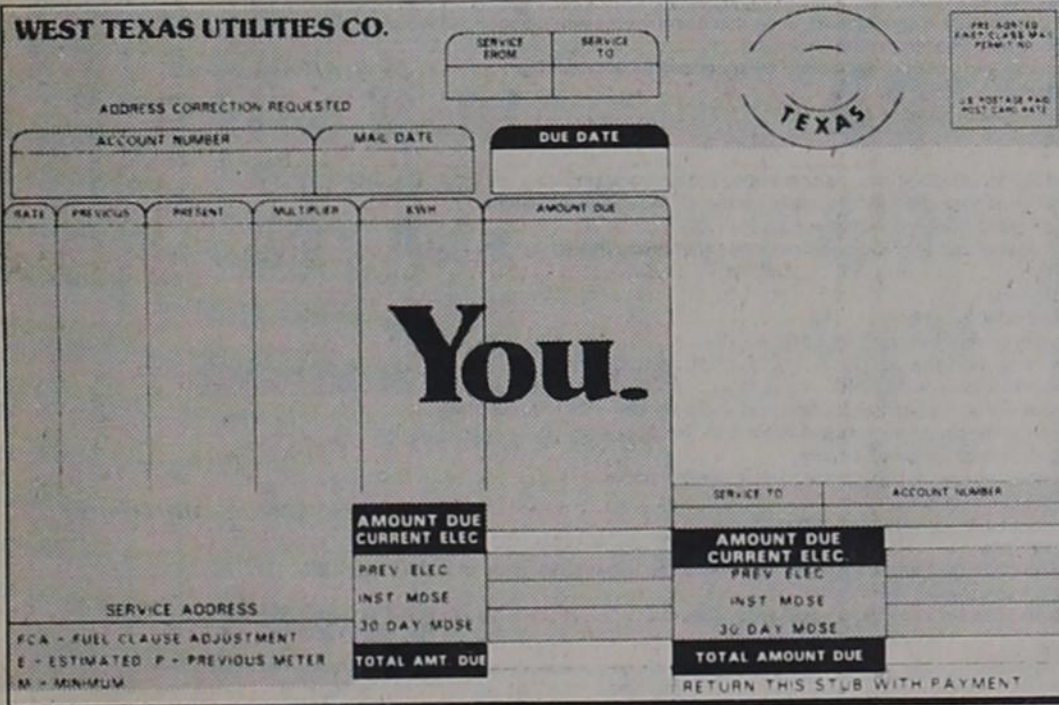

Put it all together, and you have BANCLUB... your creative alternative to "plain ole checking!"

An important part of your electric bill.

Time was when your electric bill probably was "just another item" in the family budget. You knew from the year before about what to expect. Regrettably, this is no longer true. As the costs of producing and supplying electricity have gone up, WTU has had no choice but to pass on fuel cost increases through fuel clause adjustments on your bill. The electric bill has become a large item in your family budget.

You and each member of your family are important parts of your electric bill. How you use appliances and equipment makes a big difference in the amounts of your bills. Make a family project of keeping the heating thermostat set at 68° in the winter. Operate the clothes washer, dryer and dishwasher only with full loads. Turn the television off when you leave it. And check around the house for other energy-saving, dollar-saving measures.

WTU is working to assure an adequate supply of electric power for all of its customers and to help them get the most value for their electric dollars.

Remember REDDY Supplies the energy—but only YOU can use it wisely!

Rodgers-Newhouse wedding vows exchanged

Nancy Lynn Rodgers and Bright K. Newhouse III were united in marriage Friday at 6:30 at the Throckmorton Church of Christ, Bright Newhouse, Jr., father of the groom performed the double-ring ceremony before a background of candelabra, intertwined with greenery, flanked by spiral candelabra and garlands of holly. The pews were marked with lighted pew markers intertwined with holly and red velvet bows.

Parents of the bride and groom are Mr. and Mrs. Kenneth A. Rodgers of Throckmorton and Mr. and Mrs. Bright K. Newhouse, Jr. of Clarendon, Texas.

Given in marriage by her father, the bride was lovely in a chapel length gown of ivory re-embroidered Alencon lace with a scalloped neckline, fitted bodice and long sleeves tapering to the wrist. The full skirt of silk organza extended into a chapel train. The brides finger-

tip veil of ivory illusion was attached to an embroidered tiara of tiny seed pearls. She carried a cascade bouquet of cymbidium orchids highlighted with feathered carnations, gypsophilla and ivy.

Matron of honor was Mrs. Curtis Timmons, sister of the bride. Bridesmaids were Mrs. Kliff Rodgers, sister-in-law of the bride, Merkel, Tex., Sherry Todd, Tempe, Arizona, Tanya Hodges, Fort Stockton, Judy Rogers, Denton, Texas, cousin of the bride, and Marsha Morgan, Abilene, Tex. They wore matching floor-length red quiana blouses dresses with red chiffon elbow-length capes finished with narrow double ruffles. They carried votive candles accented with holly and tiny red streamers.

Mike Newhouse, of Clarendon, brother of the groom was best man. Groomsmen were Kliff Rodgers, of Merkel, brother of the bride, Dee Herron, John Hall, and Larry

Shields of Clarendon. Bob Rodgers, brother of the bride and Charles Richard of Stephenville served as ushers and candle lighters. Ring bearers were Brad Gonzales, cousin of the bride, and Jon Nelson.

A Capella music was provided by a group under the direction of Dale Bundy.

Guests were registered by Carla Newhouse, of Abilene, cousin of the groom.

Following the ceremony, a reception was held in the Royce Priddy home. Those assisting were Kathryn Davis, the bridal attendants and Mrs. Royce Priddy, Mrs. Billy Don Davis, Mrs. Nelson Bruton and Mrs. Bobby Joe Davis.

The bride is a 1978 graduate of Throckmorton High School attended Abilene Christian University and is currently employed by the First State Bank, Abilene, Texas. The groom, a pre-law student at Abilene Christian University is employed by Hendric Medical Center in Abilene.

Following a short wedding trip, the couple will make their home in Abilene, Texas.

Parents of the groom hosted a rehearsal dinner for the couple, their attendants and guests at the Throckmorton Country Club.

Parties

The bride-elect was honored with a personal shower in Abilene by her room-mates, a miscellaneous shower at the Church of Christ in Hamby, a shower in Clarendon and a gift tea in Throckmorton.

Texas Beef Cook-off Recipes Being Accepted by Cowbelles

AUSTIN—Whether you chop it, grind it, smother it, or serve it plain, your favorite recipe for beef may be worth \$300 in the 1980 Texas Beef Cook-off.

The Texas Cowbelles are sponsoring the statewide contest to find the best recipe for cooking beef chuck, round, rump, or brisket. Following selection of the best five recipes submitted for judging, the five finalists will receive expense-paid trips to Amarillo to prepare their dishes for judging during the Texas Beef Conference, April 17-18.

Besides receiving \$300, the first-prize winner of the Texas competition will advance on an expense-paid trip to the National Beef Cook-off to be held in Scottsdale, Arizona, Sept. 3-5.

Beef dishes entered in the competition will be judged on the basis of taste, appearance, originality, ease of preparation and practicality. All recipes submitted to the competition become the property of the Texas Cowbelles.

Entry blanks for the Texas Cook-off are available from the Texas Department of Agriculture, P. O. Box 12847, Austin, Texas 78711 or from district offices in the following locations: Amarillo, Lubbock, Odessa, Vernon, Stephenville, San Antonio, Pharr, Dallas, Brenham, Houston, Tyler and Beaumont. Entry blanks must be submitted no later than March 15, 1980, to: Texas Cowbelles Beef Cook-off, 5401 Interstate 40 West, Amarillo, Texas 79106.

Social Security Q & A's

Q: When I became eligible for Medicare, I decided not to take the medical insurance part. Now, I've changed my mind about that. Isn't there a special time of year when people can enroll in medical insurance?

A: Yes. People who turn down Medicare Medical Insurance during their initial enrollment period and later change their mind can sign up during the general enrollment period - January 1 through March 31 of each year. If you enroll during a general enrollment period, your protection won't start until the following July and your premium will be 10 percent higher for each 12-month period you could have been enrolled but weren't.

Q: Our son, a teen-ager is blind and has no income of his own. Would my husband's salary be counted in deciding if our son is eligible for SSI payments?

A: In deciding on the eligibility of a child under 18 (or under 21 if in school) who lives at home, part of the parents' income counts. However, there are allowances for work and living expenses and for other children living in the home. After these allowances are deducted, the remaining amount is used to decide if the child meets the SSI Income and Resource requirements.

Gains in Agricultural Cash Receipts May Boost Texas Farmers, Ranchers into No. 2 U.S. Position

AUSTIN—Gains in cash receipts, which have outstripped all other competing states, are likely to boost the national ranking of Texas' farmers and ranchers, Agriculture Commissioner Reagan V. Brown recently reported.

For the first nine months of 1979, Texas (currently ranked third) registered substantially greater improvement in farm cash receipts than either first-ranked California or the No. 2 state, Iowa, said Brown.

"Cash receipts were up 18 percent in Texas, compared to a 13-percent increase for Iowa and only a five-percent rise for California," he said. "During 1979, Texas recorded excellent crops of cotton, wheat, grain sorghum, peanuts and pecans. When marketings of crops and livestock for the entire year are tabulated, it is likely we will overtake the No. 2 position."

For the January-September period, Texas farm and ranch cash receipts totaled \$6.34 billion, compared to \$6.68 billion for Iowa and \$7.23 billion for California. Brown noted that for the nation as a whole, farm cash receipts were up 14 percent to \$85.59 billion.

However, he also pointed out that during this same time, farm and ranch production expenses rose an estimated 16 percent, led by a 45-percent average increase in fuel prices. In the 12-month period ending October 15, 1979, for instance, Texas farmers and ranchers saw prices for on-farm delivered diesel fuel shoot up 36 cents a gallon, with gasoline prices following a similar pattern. Further price increases have come about since then.

"In spite of the fact that Texas farmers and ranchers are doing a tremendous job of producing and selling, inflation continues to severely erode net profits," Brown added.

According to the U.S. Census Bureau, construction costs rose 123.8% between 1968 and 1978 alone. In fact the rebuilding cost of older homes in many areas has at least doubled. And if they're destroyed by fire or other calamity, unless the insurance protection has kept pace with inflation, many homeowners may have to pay thousands of dollars out of their own pockets.

Thus, a review of homeowner insurance is important. Make sure you shop around, though, because you may find that updating your coverage will cost no more than you're paying—and in some cases, the cost may even be less.

With longer life comes the need to make those years more secure. Buying insurance is one way. According to Colonial Penn Insurance Co., homeowners over age 50, in particular, should be aware of the need to upgrade insurance on their homes.

Studies show that many homeowners over age 50 bought their home 15 to 20 years ago. With increasing inflation, there is a need to review and where necessary, update the insurance coverage on these homes.

Triumphs Of Science

SYNTHETIC BLOOD

The search for a blood substitute moved a step closer to realization because a scientist happened to be reading a 1973 issue of Science magazine. An article there summarized the work of Dr. Leland C. Clark, Jr., of the Children's Hospital Research Foundation in Cincinnati, in seeking a blood substitute. Needed: a compound that carried oxygen but would not react with anything, would remain suspended in water and would stay in the tissues no longer than needed. Robert Moore remembered compounds his company, Sun, had worked on in the late '60s and shelved because their use in manufacturing commercial products was too costly. But these compounds seemed like just what Dr. Clark wanted. A bottle of five-year-old F-adamantane was sent to the Cincinnati researcher. Thus, the foundation of their joint research was laid. Their work interested Harvard University's Prof. Robert Geyer, another early pioneer studying blood substitutes, as well as Chinese scientists who learned about the research at an international conference in Florida. Early tests on mice proved encouraging. Now tests in the United States are to begin on larger animals. These could determine whether the compounds developed have potential use in humans. The Moore/Clark formu-

Scientist Robert Moore helped create 'synthetic blood.'

A mouse submerged in perfluorocarbons can still breathe—proof of the solution's capability to carry enough oxygen to temporarily substitute for whole blood.

lutions are patented, but because work has been done under National Institutes of Health grants, NIH would be allowed to use any eventual commercial product free of royalty fees. The potential uses are limited only by the ingenuity of medical practitioners.

YOU BE THE JUDGE!

HOW MUCH GOVERNING SHOULD AN AVERAGE FAMILY BUY?

We buy governing just like any other commodity. What we get for our money is a set of rules that tell us how to behave. How much governing do we really need? How much are we willing to pay for it? An answer to that question is suggested by a business and civic leader.

Government regulation: Is what we're getting worth what we're paying?

By C. Hoke Leggett

Who's the big decision-maker in your family? Maybe you think you are—or maybe you think your spouse is.

But a lot of the decisions that directly affect the air you breathe, the clothes you wear, the car you drive or even the kind of house you build aren't being made by you or your spouse.

They're being made for you by an army of more than 100,000 government regulators in Washington. And they're costing you plenty: they're costing you in terms of tax dollars, in terms of the prices you pay for products, and the products you can't find at any price. And they're costing you in terms of your right to make your own decisions.

Did you know that today federal regulations are adding \$666 to the price of the average new car? More than eight cents a pound to the price of ground beef? Ten dollars and seventy-five cents a day to a patient's hospital bill? As much as \$2,500 to the cost of a typical new house?

The Federal Office of Management and Budget estimates that government regulations currently cost each man, woman and child

in the U.S. about \$600 a year. And it's no wonder. The combined budget for federal regulatory agencies in fiscal 1979 amounts to \$4.8 billion. We need some regulation. But I believe every thinking American needs to ask if all of these regulations are really necessary? Do their benefits outweigh their costs? Du Pont, for instance, estimates that by 1985, it will be spending \$1 billion a year to meet all of its environmental requirements—and yet three-fourths of the money it will spend between now and 1985 for pollution control will yield no practical benefit to the environment at all.

The Occupational Safety and Health Administration (OSHA) has proposed rules for controlling noise in the workplace. To comply with these rules will cost industry \$18-1/2 billion in capital costs and about \$1 billion a year in operating costs. Yet a study, commissioned by OSHA showed that earmuffs and ear plugs for workers could do the same job for less than 1/20 the cost. OSHA has announced an overly stringent standard for controlling cotton dust,

higher things, mathematical and otherwise. The trouble is, we will keep on paying this high price until the average citizen wakes up to what regulations are costing in the way of inflation, loss of productivity, increased taxes, unemployment and, eventually, loss of freedom.

Mr. Leggett is President of the National Cotton Council.

spire elementary school-aged children to master the basic skills so necessary for working math problems.

Following the familiar rules of baseball, boys and girls play, or "bat," by answering basic flash-card questions about addition, subtraction, multiplication and division. A correct answer will get him or her a single, double, triple or home run, depending on the difficulty of the question. By keeping his math baseball averages up, a student can help keep his grades up.

How Parents Can Help

FACTS and FALLACIES

Some people mistakenly believe that the auto engine runs on gas alone. Actually, efficient engine operation depends on the correct mixture of air and fuel—only about 15 pounds of gas to

has been running for awhile. When the engine is cold and complete vaporization impossible, the choke acts to block some air intake and create a richer gas mixture—about 10-12 pounds of air to one pound of fuel—that allows the engine to start cold. Some carburetors, like the ECONOMASTER brand carburetor by Holley, have been designed and refined by experts to help many drivers get improved fuel economy.

"I have the simplest tastes. I am always satisfied with the best." Oscar Wilde

ENERGY-SAVING IDEAS

No one told America's truck industry to save fuel, they just did it. The industry saved over two and two-thirds billion gallons of fuel in the last five years with a battery of energy-saving devices.

Aerodynamic devices: shields on the tops of truck cabs that cut wind resistance, for instance, have saved nearly 140 million gallons: almost 75 million in 1978 alone.

Radial tires, which absorb less energy than regular tires, have saved close to 370 million gallons, reports the Motor Vehicle Manufacturers Association, participants in the government/industry voluntary fuel saving program.

Variable fan drives (a device that shuts off the trucks' fans when they're not needed) saved over 350 million gallons in 1978, over 730 million since 1973.

Diesel engines, which can almost double gas mileage for some vehicles, have saved almost a billion and a half gallons for trucks and buses all by themselves.
