LIBRARY NOTES

By Mrs. C. A. Burton

A gift from the Mother's Club of nine dollars makes possible the purchase of ever so many new books for those mothers' children to enjoy in vacation time. Already the children are beginning on their summer membership.

An interesting item from the daily press: Governor Stevenson has designated May 21-28 as

"Texas Poets' Week"—saying the purpose was to encourage the writing of poetry by Texans. Dollie Davis Smith of Cleburne is poet laureate of Texas.

W. L. White, author of "They Were Expendable," is soon to go to Russia on assignment from the Readers' Digest.

Major De Seversky is in Hollywood arranging for the appearance of another picture—different from his "Victory Through Air Power."

Klaus Mann, son of Thomas Mann, the German author who was refuged to this country, is a staff

sergeant in Algiers. Captain Andre Maurois, the French novelist, who went to Africa as a Captain in the French Army, returned to this country a few weeks ago, and is no longer wearing his uniform.

The Red Book Dodd Mead fiction prize of \$10,000 was won by a Louisville author, Dorothea Coenwell, with a novel entitled "They Dare Not Go A-Hunting." Mrs. Coenwell is a Pittsburgher by birth—says she always intended to be a writer.

Libraries continue to be useful. An advertisement in a Nazi-controlled Czech paper in Prague offered to exchange nine volumes of Shakespeare for a pair of trousers.

Maxwell Anderson is writing a one-act play glorifying the Infantry, for use in Army camps.

Robert E. Sherwood is now in England directing Psychological Warfare.

The Journal of Col. Almonte, aid to General Santa Anna, which was picked up on the San Jacinto battlefield 108 years ago is soon to be published in the Texas and Southern Historical Quarterly. The Journal begins on Feb. 1, 1836 when the Mexican Army left Sattilo, and continues through the 16th, five days before the battle. It was picked up by Anson Jones, third president of the Republic of Texas and sent to his friend, James Gordon Bennett, who published it serially in the New York Herald. It has lately been rescued from those old files and brought back to Texas.

Wave Quarters "A" is the home of more than 700 WAVES in the Nation's Capital. It was established in Feb., 1943, and so great was the interest in the few books that soon a regular library was established. It was opened for use in November and now has over 1000 books in stock, covering almost every classification from Naval subjects to mystery novels. Over 200 books are checked in and out each month. The favorites are historical fiction and mystery stories. Thirty women can use the library comfortably at one time. From a New Hampshire library comes the report that a friend of the library who had recently died

had left the library \$15,000 in her will. I wonder if any of our friends have included us in their wills? Not too late yet!

Mr. and Mrs. Guy Stidham and son of Houston and Mrs. Clifford Davis and son of Amarillo came to be with the soldier boys. Other guests in the Davis home over Sunday were Mr. and Mrs. Arthur Davis, Mrs. Allen and son Riley, Mrs. Margery Jachman and son of Lelia Lake.

Mrs. Henry Riley of Shamrock returned to her home Sat. She accompanied Arthur Davis as far as her home. Arthur went to Ft. Sill after Pvt. Clifford Davis.

Pvt. Clarence Davis visited relatives and friends in Amarillo the first of this week.

Mrs. Edith Longan returned a visit with relatives and friends in Amarillo Friday.

We had a real nice visit in town Saturday with two of our soldier boys. Pfc. Alvey Mayo who is home from overseas duty of two years of combat service in the infantry. He told us many interesting things; and Cpl. Calvin Holland who is home on leave after

finishing his training at Muroc, California. We are all very proud of Cpl. Holland. He is rating fast for one so young.

LAST LAP.
"Tell her I am on my last leg," said a local girl when the insurance collectress punched the door bell.

SUGGESTION.
Worry is only interest on trouble that hasn't started.

SCENIC.
Some gals would rather be looked around at than looked up to.

ECOKOMY.
Did you hear about the Scotchman who had twins? He had a picture made of only one of them

because they looked so much alike.

ADVICE.
Remember that old Noah was 600 years old before he learned how to build an ark. Don't lose your grip.

PRODUCTION.
Then there was the sailor who married the glass blower's daughter

and they began producing little goblets.

CREEDS.

Chemical Science Marches On

A new process for separating the hydro-carbons from certain natural gasoline fractions, has been devised by Dr. John Griswold, professor of chemical engineering at the University of Texas, it was recently revealed.

The new method is cheaper and more efficient in "wringing out" pure hydrocarbons from petroleum to serve as the raw material for a whole range of synthetic organic chemicals, it is explained. The process is now in the stage of testing by pilot plant operation.

"We are not making synthetic organic chemicals here, it should be emphasized," Dr. Griswold said. "Our job is separating the pure hydrocarbons from other petroleum component parts."

Vast post-war expansion of synthetic organic chemical manufacture for Texas is expected to be opened by the new method of securing the hydrocarbons, which will be used as ingredients for the manufacture of paints, varnishes, lacquers and synthetic organic chemicals for other products.

1926 BOOK CLUB

The 1926 Book Club met in the lovely garden of Mrs. Delene Bagby on Tuesday afternoon with Mrs. M. R. Allensworth and Mrs. Rolle Brumley as co-hostesses. The natural outdoor surroundings made an ideal setting for the Texas program of the afternoon. Even the West Texas windstorm that drove the members inside tended to make the setting more realistic. Mrs. J. R. Gillham reviewed, "Texas, A World In Itself" by George Sessions Perry.

Refreshments were served to 20 members and the following guests: Mrs. Joe Goldston, Mrs. Millard Word, Mrs. Francis Brown, Miss Charlotte Molesworth, Miss Mary Howren.

KILL KARE KNEEDLE KLUB

Mrs. Homer Mulkey entertained this club at her home Thursday afternoon at her home.

The entertaining rooms were decorated with large bouquets of tulips.

The afternoon passed all too soon with the ladies sewing and conversing.

A delicious plate refreshment was served to invited guests, Mrs. Dorothy Campbell of Victorville, Calif., and Mrs. Gene Herd, Mrs. W. T. Hayter; and to members, Misses Harry Brumley, Eva Draf- tin, Bob Hay, W. A. Land, Sam Lowe, W. A. Massie, R. R. Daw- kins, Edd Speed, Frank White Sr., Major Hudson, Misses Ida and Etta Harned and the hostess, Mrs. Mulkey.

Warns 1944 May Be The Hardest Year In Rubber

Despite the fact that the nation's huge synthetic rubber production program is "close to full stride," 1944 may be the country's most critical year with regard to rubber since the start of the war, James J. Newman, vice president of the B. F. Goodrich company which built the world's largest synthetic plant at nearby Port Neches, said recently at Beaumont.

Addressing the annual meeting of the Beaumont Chamber of Commerce, Newman explained that natural rubber is still an almost indispensable ingredient in the manufacture of many rubber products, and that stocks of the precious substance "are getting near the disaster level." He said, "we shall probably have less than half as much crude rubber to work with this year as was consumed in either 1942 or 1943."

Newman said that the ability of technicians to compound synthetic rubber "has not yet reached the point where we can be indifferent to natural rubber. Far from it. And it is no absolute certainty that we will reach that point in any given number of months, or even years, although technicians are optimistic."

The only answer, he said, is to save the dwindling supplies of crude natural rubber for the most "un-substitutable" uses and get along on synthetic rubber for every other purpose.

Already many complete conversions to synthetic rubber have been made "and with good results," Newman revealed. "Proportions of synthetic in all sorts of products have been steadily increased," he said, "even including heavy-duty tires for military as well as civilian uses. But that switchover will have to continue at a faster and faster rate all through the year—for in the face of our exceedingly scanty working supply of natural rubber or demand for military and essential civilian rubber products will con-

continue to grow greater and greater."

Even with regard to supplies of synthetic rubber, the speaker said, there is a tight situation for the time being, for consumption requirements are considerably higher than the 600,000-tons-a-year rate at which it is currently being produced.

Solution of this supply problem, the B. F. Goodrich executive declared, depends primarily upon greatly stimulated production of Butadiene, the main ingredient of GR-S type synthetic rubber.

Although butadiene can be produced from either petroleum or alcohol the latter substance is currently furnishing about 70 per-

cent of the butadiene that is going into man-made rubber, Newman revealed. Reason for this, he said, is that the alcohol plants were given high priority ratings while the plants for making butadiene from petroleum had to compete with the high-octane gasoline plants for priorities on construction materials and thus had been delayed.

Citing the official opening recently, of the world's largest butadiene plant, also at Port Neches, as an outstanding example, Newman said that the petroleum butadiene plants would soon be in volume production and "it will be the performance of those plants

which will really determine the speed with which the synthetic rubber program as a whole reaches its ultimate production rate of 820,000 tons annually."

Among Amarillo visitors from Clarendon Friday were noted Mr. and Mrs. J. C. Talley, Mr. and Mrs. J. A. Warren, Dr. and Mrs. H. R. Beck, Mrs. Guy Stricklin, Mrs. Grace Davis.

The food program again gives the farmer a big job in 1944. Farmers are again faced with the task of doing more work with less machinery — older machinery — less help. The serious purpose of this meeting is to bring out helpful means of solving today's farm problems by discussion and interchange of the best ideas.

All farmers and families, and others interested in farming, are invited.

We are sponsoring this program and entertainment as a contribution to the 1944 food production program. We will try to make the event worth your while, and to see that you enjoy yourself as well. Remember the date and hour — and the place:

A Lot for a Penny
 The decision of a lifetime... this wide-eyed little girl wants something that will last a long time, taste good, and still cost only one penny. From toddling days, through the years of maturity, human reactions change very little. Millions of the adult population also have their "noses to the window"—making mental note of the electrical conveniences they will buy when the end of the war comes. They, too, will look for durability, enjoyment, and a lot for every penny! The new improvements will have to wait—but when it comes to electricity, those three good qualities have not gone off to war and they are not rationed.

Section, published Weekly by The Donley County Leader for Clarendon High School and Clarendon Junior College

FIRST YEAR HOMEMAKING COURSE

A large group of girls, taking Homemaking for the first time, ended their food unit with a Mother-Daughter luncheon. To the more experienced person who has spent years in developing skills will probably think Ah! that is easy, but to the inexperienced it is difficult.

In the food course, time is not spent in training one to become skillful, but to learn the foods, their values and effects upon the body. Also, how to buy, to care for, and prepare the foods in order to conserve the important minerals and vitamins.

Emphasis was placed on the care and preparation of food from the time it is gathered until it is served. The loss occurring at this time leads to the malnourished or "hidden hunger" that was obvious in the men examined for the armed forces. Some of the most common practices, causing this loss are allowing vegetables to sit in a warm place, or allowing them to stand in water until time to cook them. Too, we have people who still cook in too much water, then pour this water down the sink. This is a sure way of giving to the family the bulk of the food and to the sewage, the good protective food value necessary for growth. Another main object of the

course was to develop good food habits in each student and to help her see the importance of eating the basic seven.

The aesthetic side was not overlooked as was demonstrated when breakfast and luncheon were served. The use of good table manners, the simple way of serving foods to make them more appetizing, more digestible, and to boost the morale were practiced.

Although little time can be given to formalities in these busy war times, it was the sophomore's privilege to get experience practicing on the Juniors and Seniors serving their banquet.

To summarize we may say, this first year Homemaking Course

consisted of the basic principles of nutrition set up by the government to develop a healthier, stronger, nation.

LUNCHEON

The first year Homemaking girls brought their foods unit to a close Thursday by serving a luncheon to their mothers. This was their first attempt of preparing the food for guests, so naturally it was an experience to be remembered.

Each girl escorted her mother into the dining room where four groups of tables to accommodate ten persons each were laid with lace luncheon doilies and centered with bud vases of tulips.

As this was the first time most of the patrons had visited the Homemaking Department, each girl guided her mother through the spacious and well equipped department which consists of the entire home unit.

A delicious luncheon of meat balls, fresh beans, scalloped corn, congealed carrot salad, hot rolls, butter, spiced nut cake, topped with whipped cream, and ice tea was served to Mesdames Bromley, Brown, Cornell, Gamble, Goodman, Grady, Harrison, Peabody, Pipes, Dingler, Norwood, Rayburn Smith, Tatum, Chamberlain, Huckins, Phillips, Underdown, and Smith.

SHORT, BUT SWEET

The dance Friday night was short, but sweet. We danced about ten dances. Everyone danced, laughed, and enjoyed himself. All the football boys were tired, so the dance broke up early. One of the main attractions was "Chicken Johnson" dragging "Spude" around. Mr. Drennan was in his glory, because at the first of the dance there were only two records, and they were both waltzes. The dance broke up with the football boys yawning happily.

CHAPEL PROGRAM

The chapel program was the last one of the school year. Everyone that had ever been on a program was warned that he might be called. The student body participated in group songs which were followed by Gene Bryan who sang, "Love, Love, Love" and "I Wish I Could Seal Me Up in This Letter." Edith Joy McCrary rendered some boogie-woogie and Billie Jean Knox gave a reading. Cora Lee Muse sang "Shoo-Shoo, Baby," and piano solos were given by Barbara Bell and Joy Garner. Murl Holland gave a reading, "My Trip to Moonshine Hollow." Sue Burton added a classical touch with Grieg's "Butterfly." A group of students sang several songs that were enjoyed by everyone.

PICNIC

The Alpha Kappa Delta Fraternity had their spring picnic at Troublesome Canyon Sunday afternoon. After an enjoyable afternoon of wading and all of the "trimmings," delicious refreshments were served to the following: Bob Bentley, Johnnie Johnson, Max Keys, Beverly Stricklin, Manley Bryan, Jean Porter, James Palmer, Mary Ann Bromley, Jimmy Douglas, Arvis Davis, Tom Goodner, Elise Norwood, Dick Reeves, Melba Ruth Grady, and the sponsors, Mrs. Ralph Keys and Mr. R. E. Drennan.

FOOTBALL GAME

The Clarendon Bronchos divided up into two teams Friday night to play a football game. The teams were the Reds and the Whites. The captain of the Red team was Raymond Adams; the captain of the White team was W. S. Carlile. Both teams played a good game. The Reds won with a score of 7-0. The touchdown was made by Raymond Adams. Once the Whites nearly made a touchdown, but they lacked one yard. With both of these teams working together, it seems nothing can stop the Bronchos next year.

RAILROAD SHOW

THIS ADVERTISEMENT, ONE OF A SERIES TO HELP ACQUAINT THE GENERAL PUBLIC WITH THE DAIRY FARMER'S CONTRIBUTION TO THE WAR EFFORT, appears in full-page size in The Saturday Evening Post May 6th and in Collier's May 20th issue

While son Jim helped capture Hill 205

There was a war crisis this Spring on thousands of dairy farms. Months of dry weather killed the fall-planted small grain crops. Re-planting, new planting had to be done. It meant far more than feed for cows. It meant milk and the products of milk to meet the nation's vital need. Of cheese the U. S. Government's requirement alone this year is estimated at nearly 450 million pounds. (Cheese can carry valuable nutrients of milk to our fighting men overseas

and to our fighting allies.) And, for you and other civilians, 500 million more pounds of cheese are needed. You hear about the brilliant actions of our boys on the battle fronts, including the sons of our dairymen. None of us at home can match what they do for victory. But none of us here works more days, more hours, more saltantly than the people left on America's dairy farms. They're in the front line of the battle for food... and they know it.

Because of the tremendous demand, both military and civilian, you may not be able to get as much Kraft Cheese as you would like, or get your favorite varieties—Kraft American, "Old English", "Philadelphia", Brand Cream Cheese, Velveeta, and so on. But you may be sure, as always, that any cheese or cheese food which bears the Kraft name represents the very highest standard of quality.

Gloves were issued this week to Mrs. Frank McClure (2 prs.), Mrs. Jack Molesworth, Mrs. Crockett Taylor, Mrs. Bill Riney, and Miss Mary Cooke; helmets were issued to Mrs. Ernest Kent, Mrs. B. F. Wolford, and Miss Penelope Blocker, and a muffler to Mrs. R. B. Fain.

Sewing
The Giles Pioneer Club turned in one quilt and one afagan made by the following ladies: Mrs. E. H. Watt, Mrs. F. G. Watt, Mrs. A. E. Ranson, Mrs. J. R. Lemons, Mrs. R. O. Kelley, Mrs. Kay Autry, Mrs. M. L. Sims, Mrs. J. T. Wylie, Mrs. J. M. Baker, Mrs. Rhea Stotts, Mrs. Geo. Foster, Mrs. T. E. Bailey and Mrs. E. M. Glass. This club has made and given to the Red

Cross more than thirty quilts and afagans.
The ladies from the Hedley Community have completed 41 hot-water bottle covers, 25 bed-side pockets, 10 women's bed jackets, and 4 quilts. Two of these were made by the ladies from the McKnight community. The ladies are now sewing on summer hospital robes, card table covers, and other items for hospital use.

Anyone wishing sewing, please call Miss Molesworth, telephone number 365, as there are quite a number of garments still to be made.
Seventeen Reader's Digests were given for the Soldier's Kits by Miss Nettie Sims.
Mrs. Homer Bones donated an accordion. There is a great demand for any kind of musical instrument, which go to the Recreation Rooms for Army camps in the Panhandle.

HOME SERVICE
Mrs. C. A. Burton

Formation of a new Naval District has been announced by the Navy Department. It is known as the Seventeenth Naval District and comprises Alaska and the Aleutian Islands. Headquarters are at Kodiak, Alaska.

Under the latest ruling of Selective Service, men who are accepted by the pre-induction physical examinations are returned home to await orders, and when those orders are received there is no induction furlough granted. He must arrange his personal affairs between the time of his pre-induction physical examination and the receipt of orders to report for active duty.

Mustering Out Pay may be made to the family of a discharged man who dies after discharge upon proper proof. These checks can be cashed only by the person to whom they are made, except in cases of the mentally incompetent, then by the appointed guardian.

Many states are already passing laws dealing with post war problems for service men. New Jersey and California are two of the latest.

The Postmaster General requests that on envelopes for prisoners of war the name and address be placed as near the lower edge of the envelope as possible, other wise they are obliterated by the post mark, thus making it sometimes impossible to decipher. He also states that these letters may be sent by air mail, except to Italy, when fully prepaid at the rate of 30 cents for each half ounce or fraction thereof, using the 30 cent air mail stamp. Formerly air mail could not be used for Prisoners of War mail.

Many reports of and from men missing in action are coming in showing the men safe as Prisoners of War.

The Red Cross has sent to Europe for prisoners of war food packages, clothing, and medicines to the value of \$50,000,000 in the twelve months ending March 1st. During the next twelve months the program calls for the movement of \$65,000,000 in goods to Europe. The combined British and American relief for Prisoners of War amounts to about \$100,000,000 a year.

The condition of Mrs. Bertha Benson, who is in the North Texas Hospital in Amarillo, is improved.

Mr. and Mrs. Glenn White of Shamrock visited home folks in Clarendon Sunday.

Mrs. W. A. Davis returned home Saturday from Wichita Falls, where her sister-in-law, Mrs. Nan Bruce, is seriously ill.

Cpl. and Mrs. Norman McCrary left Sunday for Camp Claiborne at Alexandria, La.

Mrs. Ollie McCrary left Sunday for Silver City, N. M. to visit her parents. Her husband has returned to duty in Savannah, Ga.

Mr. and Mrs. Hal Riley of Amarillo visited home folks over the week end.

W. L. Landers is at Temple for a medical check-up.

Rain Covers County Early Saturday

One of the heaviest rains of the year fell over Donley county early Saturday morning, April 29, giving the moisture that cut short a spring dry spell that had threatened to turn into a drought.

Eighty-five hundredths of an inch was measured in the government rain gauge at the airport and an equal amount fell over most of the county.

Mr. and Mrs. Charley Bairfield had as their guests Wednesday and Thursday her sister and husband, Mr. and Mrs. R. R. Crawley and parents, Mr. and Mrs. R. W. Alexander, of Wellington.

Cap Morris left Thursday for Corpus Christi to visit his son, Cadet Carl Morris, for a few days.

Returns After 40 Years

Homer McWilliams of Phoenix, Arizona was a Clarendon visitor Tuesday. McWilliams, now a contractor in the Grand Canyon State, was graduated from the local high school with the class of 1903. He left here a year after graduation, and his visit this week marked his first return in 40 years.

Mrs. J. H. Howze returned home Monday night from Falfurrias, Texas, following the death of her mother, Mrs. M. E. Hanna, who had been ill for some time. She was accompanied home by her brother, J. L. Hanna, who is here for a brief visit.

Mr. and Mrs. W. C. Cook and children of Phillips were guests in the G. D. Shelley home over the week end.

Mrs. Cleo B. Haile of Amarillo is here visiting her parents, Mr. and Mrs. Frank Brown. Mrs. Haile has just returned from a vacation tour including Kansas City, Memphis, Tennessee and New Orleans.

Mrs. J. R. Tucker is reported doing nicely after receiving medical treatment in Northwest Texas Hospital in Amarillo.

Mrs. Marguerite Goodner spent the weekend in Amarillo visiting her sister and husband, Rev. and Mrs. Fancher Upshaw.

Dr. and Mrs. H. R. Beck are in Amarillo attending a Dental Convention this week.

Mr. and Mrs. J. D. Swift were visiting in Memphis Sunday.
