NEW STORE TO OPEN ON SEPTEMBER 1ST

Harry H. Sitner was in town on Tuesday of this week to see after the progress on his new store room, which is being fitted up in the Ray building, next door to Hayter Bros. In this location on September 1 will be opened the exclusive ladies ready-to-wear and notion store as announced several weeks ago in these columns. The title of the new store will be "Sitner's Style Shop" and it will strive to justify its name, according to Mr. Sitner, who returned last week from New York City, where he bought the initial stock of modish wear for women. Miss Eleanor Sitner lives in that city and will be the resident buyer for the Clarendon store, which insures Mr. Sitner the very latest as it appears in Gotham.

Mr. Sitner will move his family here about the first. He has a wife and an 18 months old child whom we shall also welcome to this city. Mr. Sitner was formerly owner of "The Grand" at Amarillo, and is a business man, a live wire and a booster for the town in which he lives. He is pleased with Clarendon and expects to use his energies for her advancement.

THE PILGRIMAGE OF PRAYER

The congregation of the Church of Saint John Baptist will join in observing the Pilgrimage of Prayer through the week beginning Sunday, August 26.

The Pilgrimage of Prayer is the working out of a plan for continual intercessory prayer for the spread of Christ's Kingdom to all nations. Each week of the year is assigned to one or more dioceses or missionary districts of the Episcopal church throughout the world, and during the week assigned, each section of the country takes up the pilgrimage so that throughout the year some portion of the church is engaged in special intercession for the missionary work of the church.

There will be a celebration of the Holy Communion on Saint Bartholomew's Day, Friday, August 24, at ten o'clock in the morning. The congregation is requested to make this service a preparation for the devotions of the Pilgrimage of Prayer. Friday evening the Litany service in the church will be at half past six.

Morning prayer and sermon at 11 a. m. During the week of the Pilgrimage of Prayer a special devotional service will be held in the church every evening at five o'clock.

G. C. RAFTER, Pastor.

Mr. L. W. Drew and son have finished up their tank building on the farm in Plainview community and have gone back to their home at Clarendon—some time since. Mr. Drew says whenever this tank gets full it ought never to be empty again. He gave us the dimensions, but we forgot them. Anyway, the hole will be about 20 feet deep and will cover several acres of ground. It will be filled by an ample water shed. Our country will be lots better off when it has lots of these big reservoirs.—Baylor County Banner.

RED CROSS NOTICE

The Knitting Committee of the Donley County Red Cross Chapter will meet at the Grammar School building Friday afternoon at 5 o'clock. All interested in this feature of the Red Cross work are cordially invited to be present. It is especially urged that the members of this committee be on hand, as important business is to be discussed.

Helping You Hold Your Crop

The opening of Clarendon Public School on September third, as announced in last week's News, will be deferred until September 10, owing to the fact that all teachers in the public schools of Donley county are required to attend the County Teacher's Institute. The teacher's Institute, as may be seen by the program sent out this week, will be in session from September 3 to 7.

Owing to the crowded condition of our columns this week, we were unable to publish the County Institute program, but it will appear in next week's News.

KERBOW-AVERYT

A very pretty home wedding, and one of interest to quite a few friends, was solemnized at the home of Rev. and Mrs. W. A. Averyt of Claude, last Thursday evening, when their daughter, Miss Vivian, became the bride of Lieut. Ralph Kerbow of this city.

The ceremony was performed by the Rev. Mr. Huffman of Claude in the presence of relatives and a few friends.

The bride was simply attired in her traveling suit.

The groom is the youngest son of Mr. and Mrs. H. C. Kerbow of this city, and has recently been commissioned a Lieutenant in the United States Army.

After the ceremony dainty refreshments were served, after which the bride and groom came to Clarendon with the latter's family, where they will remain until Lieut. Kerbow is called to report for duty, on the 27th.

Those present besides the family were: Misses Ruie McLean, Orville Headrick, Lela Baird, Edith Bryan, Emma Bromley, Mildred Martin, all of Clarendon, and Mrs. Shafer of Claude.

Wheat Crop Pays for Land

R. E. Richards states to the News that his hundred acres of wheat north of Canyon made 12 bushels to the acre and tests 60 pounds. Figuring closely on the crop, Mr. Richards states that the wheat crop this year will pay the owner the price

he paid for the 160 acres last fall, all of the expenses of planting, harvesting and threshing, and there will be \$200 left over and above all expenses.

Mr. Richards believes in good preparation of the land before planting, and is now getting ready for another big wheat crop.—Randall County News.

Several of the Hedley National Guardsmen were here last Saturday afternoon and Sunday from Clarendon. Among the number we noticed Wesley M. Adamson, Paul Crozier, P. L. Dishman, Ed Kinslow, Bill Kirkpatrick, Early Lane, Fred Lynn, Paul Pyle and Alva Simmons.

L. L. Cornelius was down the first of the week from Clarendon, visiting relatives and friends.

The editor's better half, together with our two children, left first of the week for a visit to her mother and sisters in Wichita Falls. She has not been in robust health for some weeks, and thinks some of "mother's cooking" might be beneficial. She seems to think this tin-can living is good enough for us—but, believe us, next time we are going too.

We enjoyed a visit from Joe M. Warren last Thursday, he having come down from Clarendon on business. Joe M. has charge of war exemptions in Donley county when he isn't counting his profits on real estate deals, which takes up nearly all of his time. He quit such hard work as "saving the country" once a week, as we're doing, and seemed to enjoy watching us shower real perspiration and quasi profanity on a stubborn gasoline engine. Call again.

Announcement!

We wish to say to all Clarendon and Donley County, on and after September 1, 1917 our books will be closed. No goods will be charged to anyone during the four fall months. We do this for the sole benefit of our trade, knowing that we can serve you better and at the same time selling you goods at a much less profit.

Everyone knows every kind of merchandise is high and going higher, and we pause just here to say to our customers and any others who may become our customers, that all lines which we represent were purchased some six or eight months ago, which is today in our store at twenty-five to fifty per cent cheaper than it can be bought today, and placing our business strictly on a spot cash basis and one price to all means that we are going to sell you first class merchandise this fall for less money than will be sold by anyone in Donley County. We sincerely trust that our patrons and the general public will at once see that it is to their interest as well as ours to pay as they go. We hope the public will cooperate with us in this change, as we positively will sell no goods this fall to be charged. Cordially inviting you to come in and see our new fall stock which is the largest and most thoroughly selected stock of merchandise ever shown in Clarendon.

Fall Term Begins Tuesday, Sept. 4

Details of Reception at Opening of New Boys Dormitory, Tuesday, August 28
Course Announced and Instructor Secured in Military Training
Physical Training for Every Student

The Big Reception

We have been dressing up a bit, up on College Hill, in fact some of you would not know us (not because you haven't been up here lately) but because we have changed so much in appearance.

The new home for the young men is finished and it is as fine as any dormitory we have seen in these parts, handsome brick, steam heated, superbly appointed in every detail, a luxurious apartment for the most discriminating tastes, and the building in which many a future statesman, President, poet, musician and general scholar will be trained.

When you read this, you will, of course, have to take our word for it, so in order that you may see for yourself, we most heartily invite you to attend a reception at the above stated place on Tuesday, the 28th of this month, from four until ten o'clock.

This is going to be a big affair and we trust that every one in Donley county will attend.

The Auditorium is being decorated, the dining room at the young ladies' home has been set off with a wonderfully beautiful color scheme, and other improvements have been made which must be seen to be well appreciated. COME, it will not cost you one cent and your presence will be greatly appreciated.

Those of you who have so generously contributed to this great cause, are especially invited to come and see if it has not been worth while.

The reception committee is as follows:
Refreshment committee, material: Marian Letts, chairman, Mary Gordon, Ruth Thompson, Archer VanEaton, Irene Bell, Jewell Kerbow, Dorothy Turner, Annie May Taylor, Theo. Gray.

Refreshment committee, service: Emma Bromley, chairman; Lena Miller, Ineva Headrick, Helen Powell, Irene Baird, Moena Lane, Ruie McLean, Flora Connally, Merle Benedict, Meta SoRelle, Jennie Dale Powell, Edyth Bryan, Tulas Ferguson.

Ushers, ladies' home: Annie Burleson, chairman; Bessie Owens, May Fair, Evadne Hurn, Leta Warren, Floy Silvey, Beatrice Story, Ruth Hall, Annie Lou Richards, Minnie Ferebee, Frances Cook, Maurine Mullins.

Ushers, boys' home: Minnie Patterson, chairman; Mattie Helen Martin, Zoe Glenn, Mille Baker, Irene Norwood, Anette Martin, Alberta Hilburn, Anna Muir, Anna Bourland, Crickett Talley, Lena Clifford, Modena Anthony, Grace Hodges.

Committee on Registration: Ruth Stocking, chairman; Mantie Graves, Nora Alexander, Ethel Teague, Eva Patching, Cassandra Sims, Helen Bugbee, Lila McClelland, Minnie Patterson, Mrs. Wilkerson.

The Conservatory of Music

The largest and best equipped school of music in northwest Texas. Five teachers, one hundred twenty-five students, twelve pianos and the work done is given recognition everywhere.

The most complete orchestra under the direction of an expert artiste, one of the finest opportunities to study the larger forms of choral singing with visiting artists each year.

Monthly recitals of works of the masters.

"WE PLACE OUR MUSIC FIRST." Your children get their lessons on the appointed day at the regular hour.

Mrs. Mary B. Adams, Voice

Mrs. Adams has studied with the masters in New York and Chicago, for a number of years in Georgetown at the University and during the present summer in Houston. She will be one of the soloists in "The Creation," which is to be given at commencement.

Miss Mantie Graves, Piano

Miss Graves is a graduate of Clarendon College Conservatory and has studied in Boulder. She has had several years of valued experience, and has been unusually successful.

Miss Evangeline Loeffler, Viola

Miss Loeffler is without doubt the very finest artiste that has ever been in the Panhandle as a teacher. Her repertoire is nothing short of a marvel. She plays the larger forms, including the standard concertos for her instrument on a moment's notice, and Clarendon has heard more good violin literature since she has been with us than in all of its history combined.

Miss Edythe Bryan

Miss Edythe was brought up among us, so she needs no introduction to the public. Those who heard her senior recital two years ago know what to expect of her since she has had a year at Oberlin, the school that is given the highest rating of any musical institution in America.

R. Deane Shure, M. B., Director

Mr. Shure holds a degree from Oberlin, Ohio, and has studied with such masters as De-blois-Rowe of London, Wolf and Draeske of Dresden and numbers among his friends such men as Paulo Conte of Venice, Italy, John Thompson, head of the school of artistic piano playing of Indianapolis, etc.

His compositions are studied and taught in many of the schools and colleges of America and

published by such houses as that of A. P. Schmidt of Boston and Leipzig.

He has appeared in recital and concert in Canada, United States and Europe, having splendid press notices in several languages.

To state that he believes in Clarendon College and its future is putting it mildly, for he has been with the institution for eight years, and had the pleasure during the last month of receiving a letter from the president of the Texas State Teachers' Association, in which he said that Clarendon College has one of the best music departments in the state.

Mr. Shure was tendered the directorship of a large school in east Texas a few weeks ago. He will remain with Clarendon College because there is none better.

Military Training

Clarendon College has responded in many ways to the call of the Nation in this, her greatest crisis. The full plant was tendered to the Government in case it was needed. A large number of our students immediately flew to arms upon the first sound of the tocsin of war. Now we have felt the need for military training for the benefit of the boys who will be with us this year but later may be called to service. We have secured the service of a man well qualified by experience to train the boys of the College in military drills and military tactics. This work will be invaluable to them later on in case they should be called to active service.

This opportunity is open to both High School boys and those in town not in school. A fee of \$5 per session for College students will entitle them to all rights to this drilling and training under this competent leader. A fee of \$10 per session for those not attending the College will be charged. The work will be given every other afternoon, alternating with athletics and gymnasium drill. Regulation cadet uniforms will be used which will add much to the interest of the work. Cross country hikes will have a place—in the spring—over-night camp features and other things will be added. An effort is being made to secure regulation army rifles for use in practice.

Parents, you cannot give too much attention to this feature. It is for better to have your boy do this training in such a Christian institution as this, than to have him in some encampment, thrown with all classes alike, possibly injuring him in some ways for life. Those who know anything of athletics and student life in general around Clarendon College know that it is the right atmosphere to develop clean, manly gentlemen who place honor and character above everything else. Military training will be optional.

Physical Training at Clarendon College

In all lines of work the physical side of a person must be kept in view constantly if the best and most efficient work is accomplished. Clarendon College is satisfied with nothing less than the best and the following brief accounts will reveal clearly how this is to be achieved.

PHYSICAL TRAINING FOR GIRLS

The advent of women into the American College is really not so ancient as many other advances of woman in America. Her assertion to the rights of physical culture and training are still more recent. It is universally conceded now that she must have this training the same as men if she would fill the place in life that rightfully belongs to her.

Clarendon College has recognized this need for years and this session, as never before, will it be met. Regularly three days out of the week systematic training and drill will be given all girls in the College with the aim of developing not only perfect health conditions, but that ease of movement that characterizes the refined and cultured girl. The wonderful health record of the students in the dormitories of Clarendon College is largely to be explained by this splendid training. It is not sufficient that a girl works at home. This may give her strength in some ways, but this seeks to develop perfect symmetry of bodily poise.

PHYSICAL TRAINING FOR BOYS

The training to be offered boys this winter in the College will consist of two kinds—military training and general athletics from the football type to the organized gymnasium system. Coaches will direct regular football practice three times a week, and later basketball and baseball, as the seasons require. Our record last year in football was an undefeated season, including such teams as Roswell military school, tells in a way of the work of our splendid coach. The gymnasium work will seek to give every boy not in the football team a chance to keep robust and in physical trim for the best school work. Experience has taught our school men one great lesson—before there can be a well developed mind there must be a suitable physical basis for this. We seek to develop this perfect human body in all of our athletics and training rather than to try and make prize fighters or all-state individual players. A large number of our larger schools try to put out winning teams rather than to put out a class of well developed men.

There is being some talk among the West Texas press of dividing Texas in such a manner as to leave north and west Texas in one state and south and east Texas in another. Now, there may be some argument for such a move, but The News is against it, flat. The argument is that our part of the state would be rid of those rotten political conditions so prevalent in the foreign settled and whiskey sodden counties of the lower half of the present state. Texas has grown to her present summit of power and glory as one state and we feel that as much as we loathe those conditions as mentioned, yet we are our brother's keeper and it is only our duty to stay by the old ship of state and help the good people of south Texas to rid themselves of their cancerous politics. Much progress has already been made with our assistance, but it would be little short of cowardly to leave them when the battle is half over. Let Texas remain the empire state and let us strive to make her all the name implies.

Even after the order of the Government is effective, making it plain that marriages after the passage of the selective draft law will in no wise be a legal excuse for exemption, there are some who continue to make great ado about young men and young women taking the marital vow. Now, that's all bosh; the time has passed when such a course might reflect upon the patriotism of our young people and we hope that Cupid will not take a vacation because of such unwise croaking. Personally, if the editor were a young man with a sweetheart, he'd make all haste to get married during these times of stress. If he had to leave for France next week he'd want to know he had a "sure thing" at home, matrimonially speaking. Get married before you go to war, boys.

An English soldier's comment on the American troops in France is that they are "full of beans and keen as mustard." Now, that is a real compliment on the fitness of the boys and means more than it seems to mean. Beans have long been recognized as possibly the most nutritious of foods and to be "full of beans" means to be full of energy and strength. Mustard has a habit of making its presence unmistakably known and to be "keen as mustard" is to have those qualities of quick impression and "suddenness" so necessary to the successful soldier. Truly the American is "full of beans and keen as mustard," and the forces of the Kaiser are soon to find it out better than anybody.

We saw a picture recently of a party of young ladies stired in bathing suits in a back yard, one of them being detailed to spray them with a garden hose. The accompanying article advocated that this form of surf bathing be adopted wherever the real article was not at hand. Now, just how about that? Bathing suits at the beach are daring enough, but we fear the effect in staid communities if back yards become "surfs." One thing it would do—it would make the back yard much more attractive for the young men of this country.

The governor of Texas is forever playing politics. Last week he proposed that the state appropriate money for the aid of farmers in drouth-stricken West Texas. He knows he outraged most of West Texas recently in the A. & M. loca-

The I. W. W. strike will soon be a reality if they continue to get themselves in prison. Already there are over two thousand of them in prison and their actions warrant the arrest of many more, as well as the public execution of the leaders. As the seriousness of the war is being brought home to the rank and file of American citizenship, the treachery of these poor fools grows more apparent. The Government will take a firm hand and crush it out just as soon as public sentiment will demand it.

The Lockney Beacon proposes that the newspaper men of the Panhandle set a day as "Press Day" during the Panhandle Fair at Amarillo this fall. Suits us. We want to get acquainted with our fraternity in this section, anyway. Set the day, and we'll borrow enough money from some prospective candidate to make the trip, all right.

A live commercial organization means the difference between a town that is satisfied with itself and one that is striving to push forward. Let's have one before the rush of fall is on us.

A merchant who is a consistent advertiser has credit at the bank. A storekeeper who doesn't must create credit from outside resource.

**MRS. MAMIE HALL
GAINS 19 POUNDS**

Was Sick in Bed for Eleven Months and Only Weighed 96 Pounds—Now Well and Happy Again

Still another comes forward and adds her voice to the hundreds who have already endorsed the wonderful medicine, Tanlac. Mrs. Mamie Hall, who lives at 805 Fourth Avenue, South, Nashville, Tenn., says she suffered for years and had fallen off until she only weighed ninety-six pounds, but that she now weighs one hundred and fifteen, a gain of nineteen pounds.

"I had a bad form of stomach trouble," said Mrs. Hall, "and had suffered from it for years. I lost so much flesh and was so weak that I was confined to my room and bed for eleven months and my head ached so bad I could hardly stand it at times.

"Yes, they actually had to prop me up in bed to take a drink of water, as I just couldn't help myself at all. I lived on malted milk and graham crackers. The pains in my chest made me afraid I had lung trouble and my head ached so bad it seemed like it would burst.

"About a year ago I was taken to the hospital, the doctors saying I had cancer of the stomach. I was so nervous all this time that the slightest noise would almost drive me mad and all the pains in my back hurt me so I hardly ever got a night's rest.

"My husband was terribly out of heart with me, as the doctor said nothing would save me but an operation. We had spent a lot of money for medicines and it seemed like nothing would do any good.

"Well, sir, I happened to see a piece in the paper about Tanlac and it told about a woman in Louisville that was suffering just exactly the same way I was. I begged my husband to let me try it and he said he had no faith in it, but he would get it if I wanted it, so he got a bottle and we kept it a secret from the doctor.

"That was the best thing I ever did in my life, for I began to feel better and gain weight with the very first dose. I had gone down so I didn't weigh but ninety-six pounds, but now, after taking four bottles I weigh one hundred and fifteen—five pounds more than I ever weighed in my life.

"I now feel strong and well and can do all my housework. I can eat anything—why, I actually ate a tomato after I had been taking Tanlac a week and that's something that never would agree with me before. I have no more of those terrible pains and I am doing fine in every way.

"I got a letter the other day from my husband in Chattanooga and he said he had taken two bottles of Tanlac and was doing fine. I am going to Chattanooga Sunday and I will sure take a bottle of Tanlac in my grip. This medicine just about saved my life and kept me from having an operation."

Tanlac is sold in Clarendon by Dr. J. D. Stocking, in Hedley by J. F. Tomlinson Drug Co., and in Jericho by O. C. Brown.

We announce the opening of our bran new stock of Men's and Boys' Clothing in our old quarters in the Connally Building and extend the public a cordial invitation to visit us.

Our store building and fixtures have been remodeled and put in first class condition, and we are prepared to give you better service than ever before. There will be no important change in our store policy. We regard the integrity of our printed or spoken word as too sacred to be clouded by the slightest doubt. Our plain statement that the merchandise offered is an exceptional value at the price will, in our opinion, have sufficient weight and create a better understanding and foster a spirit of greater confidence between the merchant and the public.

We believe that we live in the best community, the best county, the best state, the best Nation in the world and we shall endeavor to so live and conduct our business affairs that we may continue to merit your confidence and loyalty.

FROM A SOLDIER BOY

Fort Rosecrans, San Diego, Cal., Aug. 14, 1917. Editor News, Clarendon, Texas. Dear Sir:—Please send the The Clarendon News for three months. We can't tell when a company will be moved, or I would have it sent for a longer time.

California is a good place to soldier in, but there is no place like Texas. There is a number of Texas boys in this post, and two of us from Donley county—Lewis Fields, formerly of Hedley, and myself. We are treated well, have excellent quarters, and get plenty of spuds and beans, but there is no place like Clarendon and Clarendon people.

All Coast Artillery companies are to prepare to mobilize as Feld Artillery except the mine companies. Our company is a mine company; hence we are likely to get to stay here for a while at least.

Give my best regards to Clarendon friends. Yours very truly, A. O. WALKER.

Facts and Fiction

Experiences of Clarendon Citizens Are Easily Proven to Be Facts

The most superficial investigation will prove that the following statement from a resident of Clarendon is true. Read it and compare evidence from Clarendon people with testimony of strangers living so far away you cannot investigate the facts of the case. Many more citizens of Clarendon endorse Dean's Kidney Pills.

G. C. Ferguson, ranchman, Third and Winne streets, Clarendon, says: "I have used Doan's Kidney Pills, procured from Dr. Stocking's Drug Store, two or three times in the past two years, and from the results I got I think they are a good medicine. I gladly advise their use to anyone if troubled by their kidneys." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Ferguson had. The annual district meeting of the Clarendon District Woman's Missionary Society will convene at McLean Monday and Tuesday, August 27-28. The meeting will be called to order Monday at 11 a. m., at the Methodist church at McLean, and the ladies of the local organization are urged to attend.

Clarendon enjoyed a little excitement over a supposed "spy," which later turned out to be a hobo Irishman. The suspect was seen about the Adair Hospital, coal chute and fair grounds where Company B is encamped and his appearance caused a search to be made for him. He was arrested at Lelia Lake, brought to Clarendon, questioned and later released.

As further evidence of his progressiveness he left an order for a full supply of printed stationery for the fall months.

THE CLARENDON NEWS.

A party composed of G. C. Ferguson and daughter, Miss Mildred, Mr. Newbill Ferguson, Supt. W. R. Silvey and family, Mrs. Mable Hudgins and daughter, Miss Vera, Will Martin, together with Ed Law and wife of Amarillo, returned Saturday from a ten days' motor trip and pleasure excursion to Roswell, N. M. They enjoyed the fishing in the deep lakes near Roswell and the trip was one of great pleasure except for the return trip, when the heavy rains made the traveling somewhat irksome.

Sometimes you hear the remark that good fruit is not to be found in Donley county this year. Such is not the case. The best evidence we know anything about is a half dozen fine specimens of Elberta peaches presented to The News by O. D. Liesburg, who has three very fine trees on his premises here in town. Mr. Liesburg says these trees have a very heavy yield, of which Mr. Liesburg has full right to be proud, for their flavor is not to be surpassed. Those peaches were "peaches as is peaches."

CANADIAN RIVER CAUSES DAMAGE

Another freshet on the Canadian river, caused by torrential rainfalls in the mountain fastness of New Mexico, swept out a piling beneath the bridge of the Fort Worth and Denver railroad over that stream about 30 miles northwest of Amarillo at an early hour Saturday morning, causing a disruption of the schedule of trains during the afternoon and evening. The Denver passenger going north at 1:15 o'clock Saturday afternoon was held in Amarillo three hours until orders came to release it. The southbound passenger due at 5:45 Saturday evening was two or three hours late, due to the delay in repairing the structure. Bridge gangs were rushed out of Amarillo and Dalhart to the scene and worked like beavers during the day. Another work train was sent out of Amarillo about 5 o'clock Saturday afternoon to make permanent repairs.

Fort Worth and Denver During the earlier part of the week the company had six bents of its bridge over this stream undermined, requiring instant attention. The bridge was impassible for trains for several hours, during which time all traffic was held at Amarillo until the temporary repairs were made.

The waters on the Canadian came down in a swoop Saturday morning and struck the temporarily repaired section of the bridge, causing the big timbers to remove and leave the bridge dangerous for traffic. The bridge over the stream is about half a mile long, constructed of trestle work. In times past the company has lost much fine timber from the rising waters, but has been unable until the present time to secure a suitable foundation for a large bridge. Tests along the Canadian show that sand extends more than 900 feet in the bed of the stream.

Santa Fe Has Trouble The Santa Fe railroad reported a washout on its line near the Texas-Oklahoma state line during Saturday. The water was so high that trains were unable to pass and transfer of mail, express and passengers was made with difficulty. The result was that trains were late in arriving into the city from the north. The trouble was such, however, as to interfere only a few hours with the regular schedule of passenger trains. The situation at Bagenta, 40 miles northwest of Amarillo, on the Denver, was reported as greatly improved during Saturday. The waters had subsided and workmen had repaired the track and small culverts so as to preclude any chance for derailments or danger.

Trouble Near Amarillo "During the last several days unprecedented heavy rains for the present year have fallen," said Agent T. W. White Saturday. "We have had considerable trouble north of Amarillo, but with the cessation of rains, we expect to have everything in regular condition again momentarily. The rains have been very beneficial to crops in that section."

FROM A DONLEY COUNTY BOY IN ARMY AT EL PASO

El Paso, Texas, August 17. Clarendon News, Clarendon, Texas.

Dear Editor: I am writing you as a stranger, but I hope you will consider this letter and a word from a soldier boy. I am fine and hope all of the Clarendon people are the same. I get the paper every week from home and sure enjoy it, for it's tiresome here, and of course I get homesick at times, but I have till the war is over to learn how to overcome difficulties and trials and temptations. Here is the best chance I ever had; it sure is a tough life, but the soldiers here don't want for anything that is not fit for them; so I guess we will all be a better bunch of men, and when we all get out we will be men. Of course, a person can make anything, or nothing out of himself, just as he likes, but if the officials get an idea that one is trying to make good they will help and try to make the best men that walk out of us boys.

I have been in the army nearly four months, and I have been treated as nice as I was while I was a civilian, and am glad, of course, I joined when I did. We are having the best of weather now that we have had since I have been at El Paso, and it rains every day or so now—at least it has been—and it has not been so hot since it has begun raining. I am in the motor truck company and am driving a big three-ton four wheel drive truck, and like it fine. We get plenty to eat and have good cooks and everything is just the same as it is at home—only they don't act like we do at home, and no one of our folks is here, is the only difference. I had rather be at home all right, but the army is not a bad place after all for a man to make good. When this war is over the War Department is going to have a little say-so, and the working man that was in the army for the duration of the war, if he can show an honorable discharge from the service, he is the one that will win, and here's one of them.

Kindly give my regards to all of the Clarendon folks, and when I am out of the service, Clarendon and the Panhandle for me, as it is the place of my heart, and always will be. I remain, Your reader, PRICE MORRIS, Private, Truck Co. No. 16, El Paso, Texas.

J. O. Green returned from Clarendon Wednesday, where he has accepted a position with the E. M. Ozier grocery, which he will take the first of the month. He says grass and crops are fine in that part of the country and that a heavy rain fell at Amarillo and beyond, the first of the week, which washed out the Fort Worth and Denver railroad bridge on the Canadian river.—Silverton Star.

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days... I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go... I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me.

One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, or I began to improve when on the second bottle... I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. B 74

BROTHER OF FORMER EDITOR WRITES FROM ARMY

The following is clipped from the Hedley Informer, edited by Ed C. Boliver, late of Clarendon. The letter is self-explanatory:

The Informer editor received a letter a few days ago from his younger brother, Wilson, who enlisted in the engineer corps June 7th at Waco, being transferred soon after to the medical department. After a few weeks in San Antonio and a short stay at El Paso, he was assigned to the 12th Cavalry, stationed at Columbus, N. M., the town made famous by Villa's raid. He writes as follows of his location:

"You see, I am in the historic little town of Columbus, N. M. When I arrived here I thought Villa had kidnapped the town when he raided it, but they tell me the town is larger now than at that time. There are only a few hundred people here and about 600 troops, one battalion of the 12th Cavalry. At present we have some 1200 I. W. W. members guests (?) in the stockade formerly inhabited by captured Villa soldiers during Pershing's expedition. We had an entire regiment of infantry here (2200 strong) but they left last week.

"I am very pleasantly located here. There are eighteen men in the medical department of the 12th Cavalry. We have quarters in an adobe house, have electric lights, a library and a Victrola right in our bunk room. Some class for a soldier, eh? Well, believe me, the 'eats' are n. g. The grub we get, together with this alkali water, acts on a fellow's 'inards' like a monkey on a trapeze."
