"WE ARE GOING TO COUNTER ATTACK"

"We regret being unable on this occasion to follow the counsels of our masters, the French, but the American flag has been forced to retire. This is unendurable and none of our soldiers would understand their not being asked to do whatever is necessary to re-establish a situation which is humiliating to us and unacceptable to our country's honor. We are going to counter attack."

This was a message sent by an American general in command of American forces south of the Marne on Monday afternoon after the Germans had succeeded in forcing the Americans back towards Conde-En-Brie. This French commander had informed the American general that the early German success could not have any great effect on the fate of the battle; that it was understood perfectly that after hard fighting the Americans had slowly retired and that it was not expected that they immediately launch a counter attack. He added that a counter attack could be postponed without risk and that it might be better to give the American troops an hour's rest. Immediately after the American general sent the above message which is quoted by the correspondent of the *Matin*, the Americans launched their counter attack and the lost ground was soon recovered, with an additional half mile taken from the Germans for good measure.

QUENTIN ROOSEVELT REPORTED KILLED IN FRANCE

Washington, July 17.—The war department late tonight still was without official information from France regarding the death of Lieut. Quentin Roosevelt, who was reported as having been shot down behind the German lines while engaging two German airplanes.

It was assumed that a report would be made in General Pershing's communique for yesterday which has been delayed in transmission.

Paris, July 17.—Lieut. Quentin Roosevelt, youngest son of former President Roosevelt, has been killed in an air fight. His machine fell into the enemy lines.

Lieut. Roosevelt was last seen in combat on Sunday morning with two enemy airplanes about ten miles inside the German lines in the Chateau Thierry sector. He started out with a patrol of thirteen American machines. They encountered seven Germans and were chasing them back when two of them turned on Lieut. Roosevelt.

Reports of the fight state that the Germans appeared to be shooting at the lieutenant from the rear, the three machines being close together. Then one of the machines was seen tumbling through the clouds and a patrol which went in search of Lieut. Roosevelt returned without trace of him. He appeared to be fighting up to the last moment.

An account of the combat states that the machine caught fire before it began to fall.

The Seventh Grade War Savings Society meets every first and third Fridays of each month. Meet with Miss Carmen Ulm, July 19th, at 4:30. All members be present and prepare to make a good report.

CARMEN ULM, Sec.

The many friends of Rev. W. A. Williams, who was rector of the St. John's Episcopal Church at this place for five years, will be interested to know that he has offered his services to the government as chaplain, and has been accepted. He is now at Camp Taylor, Louisville, Kentucky, for special training in the school for chaplains.

MEDICAL SOCIETY AT WELLINGTON

Childress - Collingsworth - Donley - Hall County Medical Society held the regular monthly meeting, Friday, July 12th.

The meeting was a howling success from every standpoint. Several most interesting cases were reported that drew discussions from all present that were worth hearing. The papers read were instructive as were the discussions of them.

The interest that is manifest in the meetings indicates that the organization will become of great benefit to those who are interested enough in medicine to attend.

Those present were Drs. W. D. Johnson, Childress; J. A. Odum, Childress; J. D. Michie, Childress; R. W. McFerran, Childress; J. B. Ozier, Hedley; E. F. Hamm, Clarendon; J. J. Pittman, Wellington; H. D. Barnes, Childress; H. L. Wilder, Clarendon; D. B. Beach, Dodsonville; E. W. Moss, Quail; J. G. Cross, Wellington; D. D. Cross, Chicago, Ill.; S. A. Street, Wellington; W. W. Beach, Mrs. Kelly of Wellington, dentist, and Mr. G. B. Cooke of Childress, were visitors.

Dr. R. X. Hyde of Dodsonville was elected to membership.

After adjournment the society was treated to some most excellent ice cream and cake. This most delicious cake was made by Mrs. Cross.

The next meeting will be held in Clarendon, August 9th.

KILLED BY LIGHTNING; BURIED IN CLARENDON

A great many people were shocked to hear of the death of Mr. J. H. Hopkins, a farmer living 12 miles south of Pampa. Thursday the 11th, at about 8 p. m., Mr. Hopkins was driving a header barge in his wheat field, when a severe thunder storm came up. He was struck by lightning and instantly killed. He was 57 years of age, and left a wife and seven children, two married daughters, two single, and three sons. Mr. Hopkins was an old-time friend of several Clarendon men, among whom are John Beverly, Geo. R. Doshier, Theo. Crabtree, H. D. Ramsey, Joe Horn and Rich Holder. He was a liberal buyer of Liberty bonds, and a member of the Limit Club in the W. S. S. Society. His death was a great loss to the community in which he resided. Funeral services were conducted Saturday afternoon at the First Baptist Church, of Clarendon, by Rev. G. E. Burton, and interment in the Citizens' Cemetery.

GOODNIGHT PROPERTY NOW PART OF BUCKNER ORPHANAGE

GOODNIGHT, Tex., July 16.—About one hundred people assembled in the First Baptist church here today to witness the transfer of the college property here to the orphans' home. Dr. Buckner had wired Rev. J. R. Hicks of Claude, Texas that he would come to Goodnight on Tuesday, July 16, to receive for the Baptist general convention the property of the college for the orphans' home. Rev. Mr. Hicks phoned or wired quite a number to be present to welcome Dr. Buckner and to witness the transfer of the college to the home and many responded. Among the number were J. L. Smith, Mrs. J. L. Smith, T. M. Bruner, J. E. Gates, Dr. J. E. Nunn and Dr. S. P. Vineyard from the First Baptist church of Amarillo.

Well Entertained
The people of Goodnight royally entertained the visitors. The board met at 2:30 p. m. and after a short executive session and report by Rev. Mr. Hicks that \$5,838 had been raised in cash to pay the debt of the college in full with a little to go on and in addition about \$2,000 more would be paid in soon, the board voted unanimously to deed said college property to the home. This being done, Dr. J. E. Nunn, a trustee of the college, in an appropriate speech presented the deed and abstract to Dr. R. C. Buckner, who in turn received same with appropriate words. Then Dr. Buckner outlined the policy to be pursued by the home and laid the work on the hearts of all present to support the home.

Rev. Mr. Hicks, who had led in the campaign to raise the debt, was asked to continue his work until all the churches had responded and paid in their pledges or would make do-

nations to the home, as it would take two or three thousand dollars more to properly equip the home for occupancy.

Two Hundred Children
The home will accommodate about two hundred children and will be added to as occasion demands. The property is easily worth \$40,000 and includes several buildings, and 120 acres of land. Goodnight is believed an ideal location for such home and the whole Panhandle is proud to have the home located here. It is pointed out nothing has been lost by those who have given to Goodnight college for the home will serve a greater place in the work of the denomination than the college could have done.

WEST TEXAS STRONG FOR GOVERNOR HOBBY

Dallas, Texas, July 13.—Adrian Pool of El Paso, who was in Dallas Friday, declares reports being circulated that Ferguson was very strong in West Texas are unjust to West Texas and not warranted by conditions in any considerable portion of West Texas. "It is true," he said, "that Mr. Ferguson will receive some votes in counties in West Texas, except Hudspeth and Culberson. It is also true that he will receive a considerable vote in several West Texas counties. It is also true that he will probably carry Gillespie county, but any statement that he has strength in any number of West Texas counties is false.

"You can draw a line from Denison to Laredo, through Dallas, Waco, Austin, Temple, San Antonio, and designate Texas lying west of this line as West Texas. Governor Hobby will carry 90 per cent of the counties west of this line. He will probably carry more than 90 per cent, but it is safe to say Ferguson will not carry 10 per cent of these counties. For example, there are 20 counties on the Texas and Pacific railway from El Paso to Dallas, including El Paso and Dallas counties. Governor Hobby will carry 19 of these counties. I would not attempt to say that he will carry all of them, for the race in Taylor county is close and no man can tell who will carry a county when there is anything like a close vote in the county, but in the other counties on this railroad the race is so one-sided that any amateur can see that Hobby has an overwhelming majority.

Sure of 11 out of 12. "Also take the Southern Pacific counties from El Paso to San Antonio. There are 12 counties. It is a safe estimate that Governor Hobby will carry 11 out of the 12 of these counties. Take the Orient railway, beginning at Alpine and running north through 13 Texas counties. No man familiar with the conditions in these counties could possibly claim that Governor Hobby would carry less than 12 out of the 13 counties.

"Take the Santa Fe railway, beginning at Temple running through Sweetwater to Amarillo, traversing 14 counties, no one familiar with the conditions will claim that Hobby will lose more than two out of the 14 counties and any one familiar with these two counties will tell you that the race will be close in these counties and may go either way. The other 12 counties are so overwhelmingly Hobby that no one else is running.

"Take the Fort Worth and Denver, beginning from Dalhart to Fort Worth, through 14 counties. Governor Hobby will carry every one of these counties and will carry them by such overwhelming majorities that there is even a contest for the governorship in these counties.

"Take the Wichita Valley from Wichita Falls to Ballinger. This traverses five counties, but it does not traverse any counties where Governor Hobby will lose many votes, except Taylor County.

"These roads traverse the most thickly populated section of West Texas and what applies to them applies to all other counties in West Texas. For example, take the great Panhandle of Texas, which is now rather thickly populated. This whole area is as near solid for Governor Hobby as it is possible to have any section of the county in any kind of race. It is true that Governor Hobby will lose some votes in each of these counties, but the total will be so small compared with the vote that he will receive that it will not be a matter of any importance. Governor Hobby will receive more votes at Wichita Falls than his opponent will receive in the whole Panhandle.

Women of West Texas "The good women of West Texas are largely responsible for the conditions existing throughout West Texas. Governor Hobby, during the last legislature, stood for the things that the women of West Texas have always stood for. He fought for the things that they have been fighting for and they have been in this fight ever since the closing of the last called session of the legislature.

"They have been working for Hobby, organizing for Hobby and talking for Hobby in every village in West Texas. They have made it so plain to a few politicians who are against Hobby that Governor Hobby represented the things they had been fighting for that it drove these politicians out of the field, and now it is difficult to hear a voice against Governor Hobby anywhere in West Texas.

"The women of West Texas have not only been talking for Governor Hobby, but they have been acting for him. They have practically all qualified to vote in the primary for the specific purpose of voting for Governor Hobby for governor. In every town in West Texas you find good women driving cars from early morning to late in the evening, gathering up every woman who was qualified and taking her to the registration booth for the purpose of qualifying to give Governor Hobby a vote.

"There are at this time some 12 or 15 precincts in West Texas where Governor Hobby will not receive a majority of the votes, but there are not that many counties in the whole of West Texas where he will not receive a majority of the votes cast and in most cases he will receive from

80 to 90 per cent of the total vote cast for governor.

"The above statements are made after traveling through the above named territory and conversing with those who are for Hobby and those who are opposed to him and who will find on election day that the vote will plan out just as described."

H. B. HILL ENDORSED BY HOME FOLKS

We, residents and citizens of Shamrock and Wheeler County, earnestly and unqualifiedly endorse H. B. Hill, of Wheeler County, as a candidate for Representative from the 124th District of Texas. He is a man we know, and we unhesitatingly vouch for his integrity as a man and a citizen, and his ability to fill this important office. He is a good business man and active in accomplishing things. We urge him for this office knowing that if the people elect him, he is a man qualified for the place.

The above endorsement was signed by all the bankers, merchants, lawyers, doctors, preachers, blacksmiths, milliners, shoemakers, and the newspaper man in Shamrock. Out of eighty-five business and professional men and women in the town, only two men refused to sign the endorsement.

Mrs. Frank Vandever and two little daughters, Anna Joe and Helen, of Oklahoma City were guests of the former's grandparents, Mr. and Mrs. J. B. Morrow, last week.

THE JUNIOR COLLEGE

This article was prepared by Pres. G. S. Slover of Clarendon College for publication in the Texas Christian Advocate at Dallas by special request.

The Junior College prepares for the junior year in the Academic Department of a University, doing the work of the Academy and two years of college work. It gives the ground work for several of the professional courses. It is becoming more and more a teacher's school. It can maintain a Fine Arts Department, teaching Piano, Pipe Organ, Voice, Expression, Art, Domestic Science, Domestic Art, etc. In fact do all that the A Grade College is doing and do it as well, except the junior and senior years of the Academic work.

The Junior College is the result of a practical adjustment of our educational system to general educational demands. We had Junior Colleges some time before they were named or given official recognition. They grew out of the exigencies of the educational situation.

The Junior College is supplanting to a large extent the Academy and the small College that was not able to meet the demands made on schools that gave the standard degrees.

The competition of the High Schools with the Academy became so severe that it became necessary for numerous Academies to add two years to their courses in order to get rid of this competition. The small College had only minor adjustments to make in its courses and cease to give degrees in order to become a Junior College. So where the small College could not secure the equipment and endowment necessary to meet the degree giving requirements in declared itself a Junior College in order to get official classification and not be regarded as a free lance in the educational world.

No one can tell what the evolution of education is going to bring forth in the near future, to say nothing of what may be in a quarter of a century. However at present the Junior College is one of the easiest and most fruitful fields in which the church can operate.

It is near the people and develops a sentiment of higher education. It influences a great many students to go beyond the high school that would not otherwise do so. The importance of this work is appreciated when we find out that less than two per cent of the high school graduates of the nation go to College.

Most of the professional schools are demanding that the first two years of college work be done before entering upon the work of the professional courses. If this continues the Junior College is going to have a great advantage over the small degree giving college, because the pupils of the small college who are going to enter the professions, will leave them when they have finished the sophomore year and go on to the universities for their professional work. This will make it impractical for the small college to go to the enormous expense of caring for the few who remain to do the other two years of college work. As it is a well known fact that the Junior and Senior courses are the most costly to a college and bring in the least financial returns. This is why a large endowment is necessary to run a degree giving institution.

One of the most serious problems confronting the church in its school work is the question of finance. Here the advantage is largely in favor of the Junior College. The work given happens to be in the field that is more nearly self-supporting than the advanced academic courses. \$100,000.00 in endowment well invested will meet the present need of the Junior College. If you have the land given, \$250,000.00 will build, equip and endow a Junior College so it can do the work of the church permanently. This amount of resources properly managed will care for three or four hundred pupils annually with no further expense to the church. Of course you have to be judicious in location and management. You can't have a school at every cross roads in the country. A school, like any other public enterprise must be in the home of its friends and have a constituency as well as buildings and endowment.

It would be difficult for the church to find an investment that would bring as large returns in the coin of Christian manhood and womanhood. It has been my observation, that wherever the Junior College has failed it has been for the same reasons that other classes of colleges have failed. Namely, poor locations, bad conditions and poor management.

Another vital reason the Junior College should be fostered is its necessity in a system where a university is proposed. As yet we have no university, but we devoutly hope we may have. In fact we should not be contented until we do have a real university. For proof of this I refer you to the rolls of S. M. U. and S. W. U. I know of one Junior College that had 22 pupils in one of these schools last session.

Another great advantage of the Junior College is that it is necessarily a small school. The attendance should range from three to four hundred. It is the consensus of opinion among educators that a small school is the best place to send immature boys and girls of the high school age. The facts are that a large percent of the freshmen in the universities are lost to the universities and to higher education, while few are lost in the Junior and other small colleges. This is vital and is due to three causes, first, the lack of vital and sympathetic and personal touch on the part of the

FIVE PEOPLE IN ONE FAMILY BENEFITED

"FINEST THING I'VE EVER SEEN"
SAYS COMPTON—GAINS TEN
POUNDS ON TANLAC.

"There are five of us at home who have taken Tanlac and it hasn't failed to bring good results in a single case," said Arthur M. Compton, a popular clerk at the Oriental Hotel and living at 1206 Wood street, Dallas, Texas, recently.

"As to my own case, "Mr. Compton continued, "Tanlac has increased my weight ten pounds in the past three weeks and has certainly relieved me of an awful lot of suffering. When I began taking it my stomach was all out of order and I had no appetite. I was so nervous I could hardly sleep, was all run down and had that tired, sluggish feeling all the time. I had fallen off in weight and was awfully sick and discouraged.

"Finally my uncle from Terrell, Texas, persuaded me to try Tanlac and it has been a wonderful thing for me. My appetite is fine now and I eat like a goat. My nervousness is entirely gone, I sleep like a log and all my sluggish, depressed feelings have left me. I recommend Tanlac every chance I have because it has done me so much good. It has helped our whole family and we are all boosting it. It certainly is the finest medicine we ever had in the house."

Tanlac is sold in Clarendon by Stocking's Store; in Hedley by J. F. Tomlinson Drug Co., and in Jericho by O. C. Brown.

universities that the small College can give, another in the unwise methods of dealing with the freshman on his arrival at the university, and finally the lack of proper oversight and discipline during the session.

The formation of large corporations may be a good way to make money but the statistics show that the large corporations and the great State Universities that have built enormous equipments and large student bodies have not made great ment in the same proportion that the small denominational college has done. Great character is formed by the impact of great character. You can no more make great character by machinery than you can raise turnips with machinery.

In proof of this statement I will insert the following that appeared in the Nashville Advocate lately. "The Product of Christian Colleges.—In answer to a question propounded to us by the State we gave recently some figures taken from the Sunday School Times, which set forth the value of the denominational college in the light of its product. We have before us an address by Dr. C. A. Jones, the Secretary of our Board of Education, in which he gives some statistics bearing on the same subject. Our readers will be interested in the following facts: "Our denominational schools are rendering a great service in training leaders for the work of the church and for the larger field of public service. Investigation shows that the Baptists, the Methodists, and the Presbyterians get eighty-five per cent of their trained Church Workers from their denominational colleges. 'Who's who in America' for 1912, according to Professor Eby, gives the names of seven thousand and two hundred men of eminence in the varied walks of American life, in business, statesmanship, science, and church work—of whom five thousand and four hundred were from denominational colleges. While these denominational colleges had less than half the number of students that the others had, yet they produced more than four times as many great men. On the basis of equal number of students the Christian College is producing eight great men to one produced by non-Christian institutions!"—Baptist Observer.

Well what of the Junior College in the future? There has been some talk of doing two years work in the high school. Some day this may be done. Our School system will have to develop wonderfully to reach that standard. The city schools as well as those in the smaller towns are taxed to the utmost to do what they are now doing. It will take a great deal more money to equip for such work and pay the additional teachers. Personally, I would be pleased to see this done, as I think it would bring higher education within the reach of more people. I think, should this be done, that there would be so many people out of reach of the high schools that could do this advanced work that there would be plenty of material for the Junior College. Besides there is a distinct field for the boarding school with its department of fine arts. I think this is truer of a Junior College than of the Academy. Notwithstanding the completion of the high school the Academy still has its place and is doing more and better work than ever, though there are fewer academies.

After an experience of eleven years in close study of the practical side of school life and all its problems, I believe the school that is capable of bringing the largest returns for the investment made is the Junior College.

Quality — Service Government Sets the Price

The Government has set the price that the mills shall charge the Government for Lumber. The average wholesale price set by the Government is above the average wholesale price that has been in effect for some time, and consequently there will not be a readjustment of our retail prices, as we have always added only a legitimate retail profit to our wholesale cost.

We Set a Standard of Quality

There are many grades of lumber, and a great difference of value in the same grades. The saw mills of the different sections of the pine belt of Texas and Louisiana ship different values in different grades. We know the mills that ship the Highest Values of flooring or siding, and we buy our flooring and Siding of them. The same knowledge and methods are used in buying shiplap, dimension timbers and boxing. We buy from the mills that give the most value in each grade.

We are in a position to demand and get the highest value in our Lumber. We pay for our SIXTY YARDS about 60 cars to one of the average dealer, and we PAY CASH. The mills cater and strive to satisfy us with the fullest measure of QUALITY. The mills want our business.

WE WANT YOUR BUSINESS. We want it on a basis of Satisfaction, and we know our Quality Material will satisfy you. We believe it is true that "The recollection of quality remains long after the price is forgotten."

LOCAL RED CROSS NEWS

The Executive Committee of the Donley County Chapter met in regular session July 9 at 8 p. m. at the Red Cross rooms with an attendance of nine persons.

It was decided at this meeting to develop the Canteen Department in accordance with advices from Division authorities. This will be done as soon as possible. It was also decided to abandon the Saturday Booth is no further solicitation of funds for the Red Cross are to be made for the coming few months.

The work rooms are now being run on the half-time basis.

The report of Women's Work for the month of June was the best on record. It is indeed fine to know that the women everywhere have worked so well that they are now asked to work on half-time. The request comes at a time that the rest is most appreciated, the weather being so warm.

The Home Service section is getting in line and it is hoped when the absent members of this department return that they will get down to hard work.

The Elementary Hygiene Classes are proving most interesting and instructive. Sixty-two persons, including the class in Hedley, are taking the course.

The Ladies of McKnight have organized as an Auxiliary of this Chapter, and it is hoped can soon open their work rooms.

Mr. J. T. Patman, chairman of the Salvage Department, announces that he has secured a building in which to store all salvage. Anyone wishing to send in same, please phone him and he will tell you where this building is and be ready to let you store it.

For a list of articles wanted and the articles not wanted and how to fold the papers and magazines see

Mr. Patman or the lists in the Red Cross work rooms.

The report for Women's Work for June 1918:

Total amount Surgical Dressings made in Chapter work room	9,211
Hedley Branch	304
Lelia Lake Auxiliary	1,446
Total Surgical Dressings for Donley County	10,961

Report of Garment Committees: 747 1/4 yards of material cut, garments listed 278. Garments returned 246. Inspected 292. Garments cut in the room and 519 finished garments.

The County Communities have done a great deal of excellent sewing on Hospital Garments. The Chamberlain Club making 50 garments a week in addition to work done by individuals. Goldston ladies make 20 garments a week. Special mention should be made of the splendid work done by the following ladies in town: Mesdames Cain, Speer, Trley and Mrs. C. M. Lane.

The Knitting Committee received and distributed 50 pounds khaki yarn, 50 pounds gray yarn and 100 pounds white yarn. A total of 84 knitted garments, 97 knitted garments were shipped in June.

The Packing Committee report having shipped 15 boxes in June.

HEDLEY INFORMINGS

Huffman-Hess

On the 20th of June, at Clarendon, Mr. William Howard Huffman and Miss Cora Hess were united in the bonds of wedlock, Judge J. H. O'Neill officiating.

On the 25th Mr. Huffman left for Camp Travis to do his bit for Uncle Sam, and we understand that Mrs. Huffman will soon join him there.

These young people are well and favorably known to all Hedley citizens, and the Informer joins their many friends in very best wishes to them for long life and happiness.

Mr. and Mrs. Jim Henry Fitzgerald of Jackson County, Oklahoma, visited the T. R. Moreman family the past week. Their son-in-law and daughter, Mr. and Mrs. Fluty, visited relatives at Lakeview.

A. J. Sibley was a business visitor in Amarillo first of the week.

Mrs. J. G. McDougal went to Dallas first of the week to undergo another operation. We are told that she is doing well.

Rev. D. R. Wade and family visited in Claud this week. He went on to Amarillo and came back driving a Dodge car.

G. A. Blankenship and family were here Sunday from Goodnight.

Mr. and Mrs. M. T. Howard of Clarendon visited the Informer family one day the past week.

Born to Mr. and Mrs. John Bramlett of Windy Valley, a girl, July 8th.

Through the courtesy of Mayor Johnson, the editor visited Clarendon Monday. Others who went were Commissioner McDougal, Van Boone, W. J. Luttrell, Jim Curtis, S. S. Adamson, Orby Adamson, Ed Dishman and probably others.

Miss Jessie Alexander is here from McLean this week, visiting home folks.

Mrs. O. R. Alexander and little son are here from Claude this week visiting home folks.

Judge Crudginton has withdrawn from the race for congress against Marvin Jones. It is said his health broke down, but those who claim to know say his campaign wagon broke down.

Showers over Donley County have again assured our optimistic citizenry of another big feed crop. We say it again—this fall the business houses of Clarendon and neighboring towns will have to close a few days every week in order to help the farmer gather and save his big crops. Most all of us town fellows are "retired" farmers anyway, and a few days back in the fields will do us good besides the patriotic duty of the act.

The greatest danger about sending Lee Satterwhite of the Panhandle Herald to the legislature is not that he may contract the habit of sleeping in pink pajamas, but that his stay in the capital city will so demoralize his appetite that he will never again be the consumer he now is and the country produce market will drop to low levels in consequence. We suggest that his constituents send him an occasional hamper of fried chicken, pie, cake and other delicacies common to the farmhouses of the Panhandle just to keep his appetite up to standard.

The Hun war machine struck a snag this week when they attempted to run rough-shod over the American forces at Vaux and Fossoy. Not only did the Americans effectively check them, but actually drove them back across the Marne, taking over a thousand prisoners in the brilliant counter attack. These are the boys that Hun egotism designated as "second-raters." Man for man the soldiers of Uncle Sam can outgame and outfight any soldier in Europe and when it comes to the German it takes two of them to interest him.

The preponderance of our population live down in that portion of Texas where the temperature reports itself around 108 in the shade. If they only knew the pleasures of living in the Panhandle where the physical man is not tormented by such forbidding heat where the inner man is in nearer relation with the infinite and where every body is against Jim Ferguson and the Kaiser, there would be a rush for this country that would make the hegrira of "49" look like a wooden-legged snail going to meet his mother-in-law.

The Kaiser is still helping Jim Ferguson. Early this week when hundreds of honest people were turning away from the cause of the impeached governor and self-admitted embezzler, the Kaiser started another big drive on the Western front in order to divert the mind of the people of Texas from his offensive against their liberties and their constitution here at home by Jim Von Ferguson. The drive on the Western front is already checked and on the 27th of July the Kaiser will be forced to get a new leader in Texas for he never brooks a failure. Jim is the most colossal failure in Texas history. Most politicians can lose a campaign and still retain the friendship and respect of his friends, but Jim Ferguson lost both while he was losing his campaign.

The case of the State of Texas versus Leslie Nobles of Amarillo for the rape of Angie Ramey of that city came to an end here in Clarendon Tuesday when the court instructed a verdict of "not guilty" following a statement of District Attorney Miller that since the state witness, Angie Ramey, had married the defendant, Leslie Nobles, it was impossible for the State to make its case as the marriage closed the mouth of the only witness of the act. In the outcome of this case justice is defeated by its own limitations and by this conspiracy wedding society is forced to sit idly by and see an assailant of virtue and a despoiler of innocence go scot free. There must be a remedy. Society can not brook such assaults without finding a way to protect itself and unless a statute of remedy is passed by the legislature an outburst of a mob spirit is sure to follow. The supreme court of Texas has held that when a woman marries a man who has injured her, she condones the injury by her marriage and cannot testify against her husband. Under such ruling all that is necessary for a rapist is to get the raped woman into some kind of a bargain which ends in a marriage ceremony and his escape from the just punishment of an outraged society. Money usually does the trick and it is alleged that money in five figures pled successfully for the defendant in this case. In this session of the legislature every pressure ought to be brought to bear to effect the passage of a law that will refuse immunity for a rape or attempted rape on account of the marriage of the parties concerned. Such a law will be just and right, for no marriage is sacred without love and there can be no love where a brutish animal wearing pants has ravished the virtue of woman. Society must have protection and mock marriage can never justly thwart the deserved punishment. Just a prediction—no satisfaction can ever be had from the blood money of tarnished virtue and as often before a divorce will follow in short order. But the meanest, the lowest, the most despicable of all the exhibits of brutishness and sordid greed is a father capable of placing himself on the side of his daughter's ravisher for poor, blood-smeared gold. A parent who would sell his tolerance after the crime committed against his child is little above one who would sell her virtue beforehand. May Clarendon never again witness such a travesty of justice and may Texas soon have an adequate law for the protection of society.

Jim Ferguson says if he is re-elected as governor he will dismantle the present tennis court on the mansion grounds and will build an old-fashioned lye-making outfit, hopper and all, in its stead. That's true, all right, Jim never goes anywhere without his lye-making outfit.

SEW AND KNIT AND THEN KNIT!

Every Chapter has now received its quota for hospital, refugee garments, knit articles and comfort kits. Chapters have been asked to send their orders to the Bureau of Supplies promptly and to acknowledge their acceptance of quota to the Division Office. If your Chapter has not yet sent this acknowledgement, please let us have it immediately. We have been given a certain amount of work to do in a certain time and barring inability to secure sufficient materials there is no reason why every Chapter should not complete its quota in time.

The readjustment to a definite quota basis has been welcomed by the majority of Chapters who have written that they prefer to work on a regular basis and know exactly what they must produce. They have also written that the adjustment has been simple and that they are at work organizing their workrooms to meet the present quota demand.

In completing your plans bear in mind that you are being called upon to produce a greater amount of knitting than ever before. Increase the scope of your knitting work. Plan a regular knitting campaign. Pledge women to knit a certain number of hours per day. Start knitting groups in your Chapter and keep the need for knitting before your community. We must have a steady amount of knittink from now until the end of the war at least. There must be no let-up. Don't knit whenever you have the time, but make time to knit. Speed up on knitting.

HORACE M. SWOPE,
Associate Manager.

J. L. LACKEY FOR CONGRESS

Presents his platform to the voters of Donley County:

"I have endeavored to meet each of you and present to you a card upon which is printed some of the main planks of my platform so that you might know the things for which I stand. But I find it utterly impossible to see all of you, so I am presenting it to you through the columns of your home paper:

"INCREASED PRODUCTION IS NECESSARY TO WIN THE WAR—WE MUST WIN IT.

"My plan to increase production is: Let the producer be paid WELL for his products and the worker be paid WELL for his work.

"I am against price-fixing on ANY necessity, unless it is fixed on ALL necessities.

"I am against the creation of any board that will take from the President any of his constitutional powers.

"I am for spending all the money necessary to win the war, but none to enrich corporations or individuals.

"WOMEN, do not waste food; Congress should NOT waste any money.

"I am in favor of amending our immigration laws so that NO MORE undesirable aliens can get into our country.

"I am in favor of Congressmen paying the SAME AMOUNT of income tax on their salaries as OTHER people have to pay on incomes of the same amount.

"Our National Democratic Convention two years ago ordered by an overwhelming majority that women be given the right to vote; they now have the right to vote in the Primaries. I shall strive to see that the mandate of the convention is carried out and that they be given full right to suffrage."

"I have always thought a candidate for Congress should tell the people how he stands on national issues, so that they can judge him and I have done so.

So far, as I am informed, Mr. Jones has no platform, but his pictures with a statement thereon that he is for winning the war in the shortest possible time, and in favor of subordinating all other issues. I will say that I heartily endorse the first part of the statement. But I can not agree with Mr. Jones that the issues of vital interest to the farmer, stock-raiser, laborer and necessary business man should be neglected or forgotten. Because the class of people above mentioned supply every essential implement of war, and without them the war cannot be won in a short time, or any time, so far as that is concerned. So if I am elected, I will strive to help them so that they may be able to supply the necessities to carry on and win the war in the shortest time.

I do not ask one to vote for me solely through friendship. Let your test be: "Who is the best man for the place at this critical time?" If you vote for either of us through any OTHER reason, your vote will be purely a compliment. President Wilson said, when so many people wanted to send Mr. Roosevelt to France with an army, "This is no time to pass around compliments."

If I am elected, I promise you:

1. That I will not forget your interest.

2. That there will never be coming from me any peace talk, or peace resolutions, until Imperial Germany asks our commander upon what terms she may have peace.

3. That I will not speak one way and vote another.

I respectfully ask you to vote for me, if you think I am right.

Yours very truly,
J. L. LACKEY.

TO THE VOTERS OF THE 124TH LEGISLATIVE DISTRICT

Ladies and Gentlemen:—

I am sure there are at least 10,000 voters in this District. It is not possible to see all. It is too expensive to address personal letters to all. I take this opportunity of making my final call of solicitation to each and every voter.

I was born in Fannin County, Aug. 12, 1880. Gober, Texas, Fannin County, was my home from infancy until I was 25 years of age. Alternated my time from early youth until now between farm and school work. Worked and paid my own way during the last six years of my schooling—two years in High School in Gober, one year in Ector and three years in East Texas Normal College, Commerce, Texas. Was principal of my home school at Gober, in 1903-04 and 1904-05. Read the boost of Shamrock and the Shamrock country in E. L. Woodley's real estate literature and landed at Shamrock Oct. 10, 1905. Bought land near McLean, more than 12 years ago and began farming and stock farming between nine and ten years ago. Sold my place at McLean and have been in the Pampa Country nearly two years.

For Texas to give its greatest help in winning the war is our greatest problem. However, as a native Texan, I have no doubt but that Texas will do all in her power, to help win the war. Neither do I doubt that her part will be the greatest part taken by any State in the American Union. We must not become unbalanced but must remember to guard carefully our growing industries, must see that our institutions of learning make progress and that economy and a business like management be made of our State's affairs. I favor submission of amendments to the people for women suffrage, prohibition and modification of homestead law. Want equalization of taxation, equal or just representation. Efficient rural schools, and efficient rural school supervision.

Having been in Texas all my life and in the Panhandle nearly 13 years and having been engaged in farming and stock farming between nine and ten years and with this having come in touch with the needs of the masses by practical experience, it seems to me I ought to be the better qualified candidate for representative of the

Local showers have been falling over the county the past week until every locality has been covered, and in some places a good season has been made. Tuesday evening a good rain fell on the country southwest of town and some of the water came through the city drainage ditch, causing an overflow north of the railroad track.

LOCALISMS

In last week's paper we made mention of the fact that some improvements had been made in the drainage system of the city. Since that time we have had some more rain, and some of the ground just north of the railroad yards has been flooded again, which goes to prove that the system can still be greatly improved. When the big rain came, this particular piece of ground had a fairly good crop on it, but was completely washed away. Since that time, it has been unfit for planting, and it will be some time before it can be made so. This is a great loss to the owner, and to the community as well, but the loss which hurts most is the loss to Uncle Sam. Every fault in drainage systems is a draw back to the development of a community, or town, and just at this time, when every source is to be strained in order to meet the conditions resulting from a war, such faults are a sin. We might go so far as to say that they are unnecessary, and should be remedied as quick as possible, and done in such a way as to be permanent, thereby preventing further loss of property and time. Let's get together on this, and do our duty.

CLYDE DOUGLAS WRITES FROM ITALY

The following letter was received by Mrs. Walter L. Phillips, from her son, Clyde J. Douglas, a well known Clarendon boy. His friends will be glad to hear from him:

Dearest Mother:—

I hope you have not been worrying too much about my welfare as I have been progressing the very best kind. I was seasick the first three days out, but once I was able to eat one good meal I have been going stronger ever since. As we are getting four meals a day and each one being a feast, there is little cause to think but that I will continue to do well.

So far, this has been one grand pleasure trip for the entire bunch. The most excitement we have experienced was when some one shouted, "whales to port," yesterday afternoon. You should have seen the rush. Some twenty of more were carousing around to the left of the ship, and continued to follow us for some time. We have sighted other vessels since we left port, otherwise we have been all by ourselves.

Between the meals, books, games, music (we have the band), and motion pictures, we have no time to waste. There is life-boat drill once a day, Italian classes and a few extra roll-calls. Danger is not to be thought of.

There is Quirk, Wood and Jones in the same stateroom, and I could never have stayed in camp at Allentown and all that bunch gone. We have the best bunch which ever left that camp, as well as the best equipped contingent ever to go out.

Is Lee still at Camp Travis and at the same work? I wish he was with us. I did not write him nor did I send you the letter that I spoke about in my message. Once we got on the boat there were no communications permitted whatever. Be sure and notify Lee as well as the rest of my address, and tell all to write. My address is as follows:

ITALY
Sergeant, 1st Class, Clyde J. Douglas,
Headquarters, U. S. Army Ambulance
Service, American Expeditionary
Forces, War Zone, Italy.

Write Italy twice, as shown above, using capitals at the top.

Tell Lee and the rest, for we are limited as to the number of letters at the present, so shall have to do the best we can. I am enjoying it, all and expect to for all time. Love and good wishes to each and everyone.

Your devoted son,
CLYDE J. DOUGLAS.

When You Choose Your Phonograph

don't let prejudice in favor of any certain make or against any other makes stand in the way of your making a wise choice.

Every dealer will tell you that his particular phonograph or talking machine has the best "tone," the greatest artists, the handsomest cabinets, the best motor, the best reproducer, or any number of other things. We tell you that

The NEW EDISON

"The Phonograph with a Soul"

Re-creates the human voice and the music of human-played instruments with such fidelity that the actual voices and instruments cannot be distinguished from the New Edison's Re-Creation of them, but you will never fully believe what any dealer tells you when they make conflicting statements.

The wise way to choose your phonograph is to let all claims pass in one ear and out the other, then have the several makes of phonographs and talking machines in which you are interested sent to your home on trial, where you may make direct comparisons among them in the quiet of your own home and decide which one you would like to keep—which one you think you would enjoy hearing just as much five years from now as you do today.

Be your own salesman. Hear all makes of phonographs and talking machines sold in your community, in your own home. Then decide.

We will gladly send a New Edison to your home without the slightest obligation on your part.

W. S. BELL ANSWERS R. L. TEMPLETON

CORRECTS MISREPRESENTATION

Crowell, Texas, July 15, 1918. To the Voters of the 29th Senatorial District of Texas:

I have seen a folder recently gotten out by my opponent, Hon. R. L. Templeton, in the interest of his campaign for State Senator in which he accuses me of having changed my position with reference to J. E. Ferguson's campaign for Governor after I had canvassed the district, learned the sentiment of the people, and saw the handwriting on the wall. Mr. Templeton says that until recently I took the position that if Mr. Ferguson received the majority of votes in the primary election he should be seated as Governor regardless of the Constitution, and then uses an excerpt from a letter that I published under date of June 26th to make his charge appear plausible. If Mr. Templeton had been candid enough to publish my letter in full it would not have served his purpose to mislead the people by the methods of cheap politics. But he thought by selecting one sentence from my letter and coupling it with misrepresentation that he could camouflage the voters and put it by when it was too late for me to reach them with a reply before the primaries. Mr. Templeton has known my position from the beginning of the campaign, and early in the campaign we discussed the question of Mr. Ferguson's eligibility to the office of Governor; and when he says that I took the position that if Mr. Ferguson received the majority of votes at the primary election that he should be seated as Governor regardless of the Constitution he makes a statement that he knows to be false. I have always taken the position, and do yet, that all power and authority are in the people, except when limited by the Constitution; and when the people have expressed their will at the ballot box, or in other lawful manner, their will is supreme unless in conflict with organic law. But I have always recognized the Constitution as the highest authority and as binding both officers and private citizens. I have not been educated in as many schools, colleges and universities as Mr. Templeton claims to have been, am not a lawyer as he boasts of being, and during the early part of the campaign I was not sure that the impeachment of Mr. Ferguson disqualified him from holding office under the provisions of the Constitution, and I frankly said that if Mr. Ferguson was elected and I should be a member of the Senate that I would vote to seat him unless prohibited by the Constitution. Many lawyers of perhaps as great ability as Mr. Templeton took the position that the impeachment of Mr. Ferguson did not disqualify him, and I did not know who were right. During the six years that I have served in the Legislature I have tried first to be sure that I was right and then go ahead; and during that time I have never taken a position or cast a vote that I am ashamed of before the best people of the State; and the arguments of Judge H. O. Head, M. M. Crane and other eminent lawyers published in the press of the state convinced me that under the provisions of the Constitution Mr. Ferguson is forever barred from holding office in the State of Texas. And having reached a definite conclusion in the matter I did not hesitate to declare what I would do if elected to the Senate, and the letter that I published on June 26th was 15 correct misrepresentations of my position in the matter that I learned Mr. Templeton was making over the district. That is all there is to Mr. Templeton's effort to make it appear that I changed my position after I had canvassed the district, learned the sentiment of the people, and then only because I saw the handwriting on the wall; and his distortion of the facts in representing that I ever took the position that Mr. Ferguson, even if he received the majority of votes, should be seated as Governor, REGARDLESS OF THE CONSTITUTION, is nothing but the OLD GAME OF DIRTY POLITICS. If Mr. Templeton was so sure from the outset, as he says he was, that Mr. Ferguson is not eligible to the office of Governor, why did he vote against an amendment that was offered to a bill that was pending in the last call of session of the Legislature during March or April of this year and long after both Mr. Ferguson and Mr. Templeton had announced their candidacies, which amendment was intended to keep Mr. Ferguson's name off the ticket? Why did he vote to continue a political face and embroil the State in a fruitless campaign if he knew that Mr. Ferguson could not be seated even if the people should elect him? If he was sure that Mr. Ferguson could not be seated and that if the people should give him a majority at the ballot box that the expressed will of the people would have to be disregarded and some other man put in the Governor's chair, why did he vote to allow Mr. Ferguson to go before the people as a regular candidate for that office, when it could serve no good purpose and possibly involve the State in a great deal of trouble? Was he mocking the people, or was he trying to mislead the Ferguson supporters to serve his own ends as he is now trying to mislead

the people in regard to my position? In one of his folders Mr. Templeton mentions a number of reforms which he says he will advocate if elected. I have been with him in the last three Legislatures and during all that time he has never, to my knowledge, introduced a single bill to put into law any of the things he says that he favors. It seems strange that out of six years' experience he has only learned what he should advocate in the future but did not learn until his last term of service is about expired; or is his platform only some more camouflage? I have too much confidence in the integrity and intelligence of the voters of the 29th Senatorial District to believe that they want a man to represent them in the State Senate who would misrepresent his opponent in order to get himself elected to office; and there are too many good people in the district who know me for Mr. Templeton's false statements in regard to my position to have much weight even if unanswered by me. It is only the desperate effort of a man who recognizes that he has been weighed in the balance and found wanting to bolster up his cause by trying to tear down the reputation of his opponent to his own level, and to mislead the people by false statements. It looks like Mr. Templeton has seen the handwriting on the walls and feels that something must be done to save himself; and if he has not seen it he will see it about the 27th of this month and he will know then that he can not prove himself a fit man for office in the eyes of the people by trying to besmirch the reputation of his fellow man.

Respectfully,
W. S. BELL.

HOW WOMEN WILL VOTE

While the discussion is opportune about "the privilege and duty" of the ballot for women, it is not amiss to look upon the woman's viewpoint.

Women accept the privilege and duty from the standpoint of benefiting the town, the State and the Nation. The time is past when women must remain in the kitchen or idle away their time in the world depends solely upon men.

When it comes to the ballot, women will vote according to their CONSCIENCE regarding WHICH CANDIDATE WILL FILL THE OFFICE BEST. They are not going haphazard at it either, for they are getting all the reliable information they can secure concerning political issues and requirements.

In voting for Governor, a woman will be acquainted with the principle of the candidates, and cast her ballot for the nominee who stands for the best morals, for the progress of education, for the protection of the military camps in extending the zone laws, for the protection of the homesteaders, for temperance, and all the minor qualities which characterize the best man, rather than the average politician, with the attributes of greed and graft. No one denies the fact of political corruption, but where the least of it exists, is where the woman's vote belongs. In time, the change will be notable for "cleaner politics" as is the case where woman suffrage has existed for some time.

There is no question but what the women votes in California gave our Country the Greatest President the world has ever known, in fact it seems considering the gigantic responsibility upon our chief executive, that his election and qualifications were Providential.

From the office of State authority to the smallest county position, and town authorities, women know that they are doing, and after while we look for many men converts to woman suffrage, because they will realize the benefits derived.

Women placed along side of men in most professions have proven themselves the equal and in many cases the superiors of men. I could cite many cases which space forbids, but we know there are a few men who wish to monopoly of everything, no matter how or why.

Women votes will not be bought. Women have a sense of right in this, and while some men may be under the impression that money will purchase anything, they will find themselves badly mistaken. When Ella Flagg Young was a candidate for Superintendent of city schools of Chicago, her election was fought more fiercely by men from the East and West, than they would have dared to fight a man, not that she was incompetent, but they could not tolerate the idea of a woman getting, or earning a salary of ten thousand dollars. However, Mrs. Young was elected because of her superior ability and her career was marked by greater benefits to the city and State than ever before. She is one of thousands of women who stood the favorable comparison with men in the same field.

Most women are Christian, and realize that they are needed in the public, economic, civic and political life as much as men.

It is not necessary for them to be any the less womanly, cultured, or refined than the woman who chooses to remain within the domain of her home, because her husband feels it unnecessary for her to know anything of business, or politics, feeling that as long as he provides shelter, and food, her happiness should be completed and her narrow realm concerning any knowledge of the outer world, should satisfy her ambition. Women do not ask favors, but declare their rights.

Catarrahl Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrahl deafness, and that is by a constitutional remedy. Catarrahl Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

SYRUP TO SAVE THE SUGAR.

Corn syrup or other syrup can be used to sweeten cakes, ices, desserts of all kinds, to make pudding sauces, and for canning and preserving. In canning and preserving fruits, one-third by weight of the original amount of sugar used can be replaced by syrup. Here are some recipes suggested by the United States Food Administration.

SPICE CAKE
With part of the sugar replaced by corn syrup.

1/2 cup fat
1/2 cup sugar
1 cup syrup
1 cup milk
1 teaspoon vanilla
1/2 teaspoon ginger
4 teaspoons baking powder
1/2 teaspoon salt
1/2 teaspoon cinnamon
1/2 teaspoon cloves
1 teaspoon allspice
3/4 cups barley flour
1 cup raisins

Cream the fat, sugar and egg yolks. Add the syrup, milk and vanilla and mix well. Add alternately the liquid and the dry ingredients sifted together. Add the flavoring and fold in the well-beaten egg whites. Lastly, add the raisins. Bake for one hour in a moderate oven.

PINEAPPLE SHERBET.

1 cup corn syrup
2 cups boiling water
1 cup grated pineapple
Juice of 1 lemon
White of 1 egg

Combine the ingredients with the exception of the egg white. Cool the mixture and freeze it. Add the beaten egg white just before the freezing is completed.

EGG FLIP.

1 egg
2 tablespoons corn syrup
1/2 cup milk
1/4 teaspoon vanilla
Salt

Add the corn syrup to the egg and beat the mixture with an egg beater until it is light. Add the milk and the flavoring. Stir the mixture thoroughly and serve it ice cold.

HALIBUT WITH MEXICAN SAUCE.

6 slices halibut
2 tablespoons corn flour
2 teaspoons salt
2 tablespoons fat
1/2 cup cold water
1 teaspoon Worcestershire sauce

Dredge halibut with flour and salt. Melt fat in baking dish and brown slices of halibut on top of the stove. Four water and Worcestershire over fish and bake in a moderate oven 35 minutes. Then pour Mexican sauce over fish, bake 15 minutes and serve.

Mexican Sauce.

2 cups tomatoes
1 tablespoon grated onion
2 tablespoons corn flour
2 teaspoons salt
1/4 cup cold water
chopped green or red pepper

Bring tomatoes and onion to boiling point. Mix flour and salt with cold water and add to tomatoes, stirring constantly. Add pepper and pour over fish.

FISH PILAF WITH SPANISH SAUCE.

1 cup rice
2 quarts boiling water
2 teaspoons salt
1 cup cooked fish
1 cup fine wheatless bread crumbs
1 tablespoon Worcestershire sauce
1/2 cup rice stock
1/4 teaspoon pepper

Cook the rice in boiling salted water until thoroughly done. Drain, reserving the rice stock. Line a greased baking dish with part of the rice. Mix the fish, crumbs, Worcestershire sauce, pepper and rice stock and pack into center of dish. Cover with remainder of rice, packing it down to make a firm mold. Tie a paper over the top. Set in a steamer or on several thicknesses of paper in a pan of boiling water and steam for 30 minutes. Serve with Spanish sauce.

Spanish Sauce.

2 tablespoons fat
3 tablespoons corn flour
1 teaspoon salt
1/2 teaspoon pepper
1 cup sliced tomatoes
1 cup rice stock
1 tablespoon chopped onion
1 tablespoon chopped pimiento

Melt fat; add flour, salt and pepper. Remove from fire, add tomato and water, return to fire and bring to the boiling point, stirring constantly; add onion and pimiento. Turn mold of fish on a platter, pour sauce around it.

SPECIAL TAX FOR MAINTENANCE OF PUBLIC SCHOOLS AND FURNISHING FREE TEXT BOOKS.

House Joint Resolution No. 27.
Proposing an amendment to Art. 7 of the Constitution of the State of Texas by changing Sec. 3, providing for a thirty-five cent tax levy for the maintenance of the public schools of Texas, and providing free text books in public schools of the State of Texas, making an appropriation therefor.

Be it resolved by the Legislature of the State of Texas:
Section 1. That Section 3, Article 7, of the Constitution, be so changed as to read as follows (creating a new section 3):
Sec. 3. One-fourth of the revenue derived from the State occupation taxes and a poll tax of one (\$1.00) dollar on every male inhabitant of this State, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto, there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed thirty-five cents on the one hundred (\$100) dollar valuation, as, with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of this State for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; provided, however, that should the limit of taxation herein named be insufficient, the deficit may be met by appropriation from the general funds of the State, and the Legislature may also provide for the formation of school districts by general or special law without the local notice required in other cases of special legislation; and all such school districts, whether created by general or special law, may embrace parts of two or more counties. And the Legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts, and for the management and control of the public school or schools of said district, whether such districts are composed of territory wholly within a county or in parts of two or more counties. And the Legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and the erection and equipment of school buildings therein; provided, that a majority of the qualified property tax-paying voters of the district, voting at an election to be held for that purpose, shall vote such tax, not to exceed in any one year fifty cents on the one hundred dollars valuation of the property subject to taxation in such district, but the limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday after the first Monday in November, 1918, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the word "For the amendment to the Constitution of the State of Texas providing for the levy of a special school tax for the maintenance of the public schools of the State and to provide free text books in the public schools of the State of Texas," and all those opposed shall write or have printed on their ballots the words, "Against the amendment to the Constitution of the State of Texas providing for the levy of a special school tax for the maintenance of the public schools of the State, and to provide free text books in the public schools of the State of Texas."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution and existing laws of the State.
Sec. 4. That the sum of two thousand (\$2,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.
(Note.—H. J. R. No. 27 passed the House of Representatives by a two-thirds vote, yeas 108, nays 22; and passed the Senate by two-thirds vote, yeas 23, nays 4.)

except that when the witness resides out of the State and the offense charged is a violation of any of the anti-trust laws of this State, the defendant and the State shall have the right to produce and have the evidence admitted by deposition, under such rules and laws as the Legislature may hereafter provide; and no person shall be held to answer for a criminal offense unless on an indictment of a grand jury, except in cases in which the punishment is by fine or imprisonment, otherwise than in the penitentiary, in cases of impeachment and in cases arising in the army and navy, or in the militia, when in actual service in time of war or public danger.

Sec. 2. The Governor of this State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of this State at the next general election for State and county officers.
Sec. 3. The qualified electors for members of the Legislature shall vote upon said amendment at the said general election and at which election all persons favoring said amendment shall have written or printed on the ballot the following: "For amendment to Section 10, Article 1 of the Constitution, providing for prosecution of criminal cases by information, or indictment, and taking of testimony of witnesses by deposition, under certain circumstances," and those opposed to such amendment shall have written or printed on the ballot as follows: "Against the amendment to Section 10, Article 1 of the Constitution."
Sec. 4. The sum of five thousand (\$5,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of the funds of the State Treasury of the State not otherwise appropriated to pay the expenses of publishing, proclamation, and election.
(Note.—H. J. R. No. 2 passed the House of Representatives by a two-thirds vote, yeas 123, nays 4; and passed the Senate with amendments, by a two-thirds vote, yeas 21, nays 4; and the House concurred in Senate amendments by a two-thirds vote, yeas 123, nays 0.)
Approved March 10, 1917.

A Thorough Test

One to Convince the Most Skeptical Clarendon Reader.

The test of time is the test that counts.
Doan's Kidney Pills have made their reputation by effective action. The following case is typical.
Clarendon residents should be convinced.
The testimony is confirmed—the test complete.
Testimony like this cannot be ignored.
W. H. Martin, retired merchant, Fourth and Park streets, Clarendon, says: "I began using Doan's Kidney Pills, which I procured at McKillop's Drug Store, about two months ago and they relieved the pain and lameness in my back. My experience warrants my recommending Doan's, for certainly are a good kidney medicine."

Lasting Benefit.
Over four years later Mr. Martin said: "I have the same faith in Doan's Kidney Pills today as when I first gave a recommendation for them. I haven't had occasion to use them since."

FARMERS' SHORT COURSE.
The 9th Farmers' Short Course will be held at the A. & M. College of Texas, July 22-27, inclusive.
The Short Course has become a great school which offers an unusual opportunity of practical farmers, business men, women, boys and girls who desire to farm on a better basis, to make farming more profitable, and to make the farm home more comfortable and attractive. Special instruction will be given in Crops and Soils, Terracing and Irrigation, all branches of Live Stock, Dairying, Fruits and Vegetables, latest types of Agricultural Machinery, Poultry Management, Insects and Diseases, Veterinary

Science, and work in Agricultural Education for those who teach Agriculture in the public schools of the state.
A special feature of the course this year will be the work in Home Economics, Household Arts and Craft Work, arranged especially to meet the needs of rural women and girls.
Other features of the course will be:
1. The Girls' Canning Club Contest for the Holland Trophy Cup.
2. The Boys' Live Stock Judging Contest for the Progressive Farmer Trophy Cup.
3. Crowning of the Canning Club Queen.
The College is especially well pre-

pared to take care of the Short Course students. The largest and best dormitories on the campus will be made available for their accommodation. These dormitories are equipped with electric lights, running water in each room, and shower baths on each floor.
The Short Course is a regular Farmers' Chautauqua where the people who attend receive valuable information and at the same time refreshing and wholesome entertainment, consisting of musicals, moving pictures, baseball games, swimming parties, and the like.
An illustrated announcement, giving full information concerning the work and expenses of the Short Course, may be had by addressing the Dean of the School of Agriculture, College Station, Texas.
A fare of one-cent per mile has been granted.

KANSAS CITY STOCK MARKET

Kansas City Stock Yards, July 15.—The cattle run today was 21,000 head, market steady on nearly everything, best price \$17.65, up to noon. Hog supply was 12,000, market 10 to 15 higher, following an advance of 75 cents last week, top \$17.85. Sheep receipts were 7,000 head, market steady considering wet fleeces, as it rained here today, best native lambs \$17.75.

Beef Cattle

Receipts a year ago today were 35,000, but at that time the zone system of loading had not been established by the Government, and big Monday runs were the rule. This year receipts will be distributed more evenly through the week, the effect being more noticeable during the fall season of big cattle runs. Nothing strictly prime was here today though buyers were looking for good cattle, and sales of everything desirable were steady. Kansas wintered steers were scarce, as the flin thill district, where most of them are located, loads for Tuesday's market. The best in this class today brought \$16.35, but good ones are quotable up to \$17. Eastern Oklahoma loads for Monday had a good run here today, steers in the native division at \$9 to \$14.50, cows \$7.75 to \$9.75, steers in the quarantine division \$7.00 to \$13.50, including canners. Veals and heavy calves declined 75 cents to \$1.25 last week, and heavy calves are lower today, light veals up to \$14.50, heavy calves \$8 to \$11.

Stockers and Feeders

Showery weather is helping the trade some, but good general rains are needed. However, Indiana, Illinois, Iowa and Missouri are in fine shape, and are beginning to want cattle. Stock steers sell at \$7.50 to \$12, feeders \$11 to \$15.25.

SUGAR IS SCARCE.

The work of the submarine off the Atlantic coast early in June resulted in a great loss of sugar from Cuba and Porto Rico. This means that we must be especially careful in our use of this important commodity. The United States Food Administration suggests that each person use no more than 3 pounds every month. Whenever possible honey, corn syrup, maple sugar and sorghum should be used.

buyers for a week, ignoring the usual bear tactics the greater part of the time, and submitting to regular advances. Best heavy hogs sold at \$17.85 today. No reason for the big gain in the last week is apparent, except the big demand for fresh pork, as shown by heavy parent, except the big demand for fresh pork, as shown by heavy buying by orders for small killers all over the country. Stock pigs sold up to \$17 last week, and are strong today.

Sheep and Lambs.

Native lambs at \$17.75 today were equal to \$18 without the wetness in their pelts. No choice range lambs have been here but such would sell 50 cents above natives, as packers like the large even droves of range lambs much better than the small uneven lots of natives, even when killing percentages are the same. Ewes are higher, best at \$12.50, breeding ewes up to \$17 for yearlings, goats \$7 to \$7.75.

REMOVAL NOTICE

To my friends and customers, this is to notify you that I have resigned my position as manager for the Texas Gas & Electric Co., in order to give my full time to the sale of DELCO LIGHT. I have moved my stock of electrical merchandise to the COLD STORAGE BUILDING where I will continue the business on a Strictly Cash basis. I wish to thank one and all for your liberal patronage in the past and solicit a continuance of the same in the future. I will carry at all times a complete stock of Lamps, Fuse Plugs, Electric Irons, Sewing Machines, Sew-E-Z Motors, in fact anything you will want in the electrical line.

If you live in town have your house wired and use Electricity. If you live in the country buy a DELCO LIGHT PLANT and use Electricity, it is the greatest and cheapest servant on earth, and one that you will always find on the job.

T. S. KEMP, Dealer in DELCO-LIGHT Clarendon, Texas.

NOTICE TO LIGHT CONSUMERS

Since the resignation of Mr. T. S. Kemp, as local manager for The Texas Gas & Electric Co., I have been put in charge of the local plant and business. The office will remain for the present in the Auto Service Station building and the office hours will be from 9 a. m. to 5 p. m.

All bills except those in the business district are payable at the office by the 10th of each month and where settlement has not been made before the 25th the subscriber lays himself liable to discontinuance of service. Those who are now in arrears are notified to call at once and make suitable settlement for all old accounts must be cleared up at once.

Every effort will be engaged to bring the service up to the best standard and to this end we invite your co-operation.

Yours respectfully,
C. C. COPE, Manager.

J. L. Craig was very seriously injured last Friday afternoon at his home in Plainview when the garage door fell on him. It required nineteen stitches to close up the wound in his head, and he also suffered other bruises.

The Fort Worth Record made mention last week of a boy near Waterloo, Iowa, being the youngest in the service. Wayne Sharp, of Wellington is only 14 years of age, while the other boy is 15. Wayne is the son of Mrs. A. Bartlett, near Wellington. He is now in France.

The Superintendent of the Dalhart schools was notified by the State Department of Education last Friday that affiliation had been granted the Dalhart High School in all subjects applied for except Spanish.

Plainview, July 12.—Good rains were reported southeast and east of here last night, and tonight, the rain is heavy to the west.

A baby girl, apparently about eight days of age, was found neatly cradled on the back porch of the home of August Bergstrom, 405 W. Eighth St., Amarillo, early Tuesday morning. It is believed that the child was left by mysterious persons in an automobile.

married last Saturday at the bride's home.

Elder T. F. Weaver happened to an accident Friday afternoon that will perhaps cost him his right eye. In handling a wire, he struck himself in the eye with the end of the wire. Elder Weaver is pastor of the Central Church of Christ, and has been here for several months. He has many friends among our people.—Childress Index.

P. C. Bennett and wife came up from Clarendon last Sunday and spent a day or so with old friends in Hausford and vicinity. Mr. Bennett is farm demonstrator in Donley County, and is making a good one. He and Mrs. Bennett are well pleased with their home in the Central Plains Country, and say old Donley County has some crop this year.

Brandon Trussell, candidate for State superintendent of public instruction, has lived in Wise county for more than thirty years and the people are proud of him. They believe they are offering to the State a man who understands thoroughly the needs of the rural schools of Texas, and that he is strong enough to see that the country people and the country schools get what they need.

The man who is elected State superintendent should know the needs of the rural school. There is no need for him to have taught Shakespeare or Chaucer for seventeen years or to know when not to use split infinitive that will not help our country schools, but we need a man who has lived in this country and who has attended country schools and who has been county superintendent. In some States a man is not eligible to the office of State superintendent unless he has served as county superintendent. An English teacher is out of place in the office of the State superintendent as

much as a lawyer would be in the room with a man who needed the attention of a doctor who had the small-pox.

If the country people of Texas want their schools improved they should elect Trussell. He is against the election of the county superintendent by the school trustees. He is for Hobby, he believes in Statewide prohibition and stands on the right side of all questions.

Again, the majority of school boards would not put a woman at the head of their school in their own community and they will vote for a State superintendent like they would in their own community. The people are not ready for a woman to head our schools just now because our country as never before needs real men to direct the affairs of government. We feel that no man is better qualified to fill this position than Mr. Trussell and that on account of his extensive campaign and great publicity we need to center on him to defeat the present incumbent.
