ANNUAL SHORT COURSE OF HOME DEMONSTRATION DEPARTMENT OF DONLEY COUNTY MEETS HERE 26-27

ON MONDAY AND TUESDAY OF NEXT WEEK NEARLY
THREE HUNDRED CLUB GIRLS OF DONLEY COUNTY
WILL GATHER AT CLARENDON COLLEGE FOR THE
ANNUAL MEET UNDER DIRECTION MRS. CHITWOOD

The annual short course for the Home Demonstration club girls will be given in this city under the supervision of Mrs. Ida Chitwood, Donley county's home demonstrator, next Monday and Tuesday, July 26th and 27th. Clarendon College will be used as the meeting place for the girls and the work will take place there. On Monday evening a big street party for the club girls for Clarendon and for the whole of Donley county will be given. To start the street party the fun will be commenced by an automobile slow race, the driving being done by ladies. O. B. Martin, national head of the home demonstration work, will be present and will address the audience.

The short course has grown to be one of the most efficient and popular means of giving group instruction to the club girls, at the same time having all facilities present that go to make a course of thoroughness in the practical parts of the work as well as the theoretical. Mrs. Chitwood is a graduate of George Peabody College, and her ability in this line has been thoroughly demonstrated to the people of Donley county in her almost two years of work as the home demonstration agent. She will be assisted in this work by Miss Cassandra Sims, of Clarendon, Miss Bess Edwards, home demonstration agent for Baylor county, and by Mrs. Flora White of Clarendon. Miss Sims has done special work in Peabody College and for the past two years has taught domestic science and art in Logan College, Russellville, Kentucky. Mrs. White has done special work in Clarendon College and has taken a special course from Mrs. Chitwood this summer. The program of the short course appears at the end of this article.

Beginning at six o'clock Monday evening, one of the most comical affairs ever staged in Clarendon will be given in the nature of an automobile slow race with ladies for drivers. For one block each lady entering the race will have to drive her car backward as fast as possible endeavoring all the time to keep as nearly on a straight line as possible. Then as quickly as each contestant has completed that block, she must drive the car forward in high gear driving as slowly as possible. The automobile dealers of Clarendon will see that each of their makes of car is represented.

Following this the assembly will repair to the Y. M. C. A. where the speaking and games will take place. The first will be a short speech by Mr. O. B. Martin, of Washington, D. C. Mr. Martin, as has been said, is the national head of the home demonstration work and one of the foremost experts employed by the national government. Clarendon should feel proud of the fact that Mr. Martin, since he visits only twenty counties in this state, asked the state head of the demonstration work to place Donley County on that list, such has been our county's excellent showing under the management of Mrs. Chitwood. Then Mr. Mefford, the new secretary of the Clarendon Chamber of Commerce will speak. This will give the people of the county a chance to hear this live secretary who has already made a name for himself in this kind of work.

After this games will be the order of the evening. An ample number of tables will be on the lawn of the Y. M. C. A. building for all forty-two players to indulge in their chosen sport. Miss Graham, Secretary of the Y. M. C. A. at Canyon will be present and will lead in the various play games of the evening.

This should be the biggest street party yet staged in the Panhandle, and everybody from over the county is urged to be present. The Fifth of July picnic was a success and this should be as successful in the way of a community party.

The second day of the course will be given to the applied part of the training. Two hundred and fifty club members from over the county will be present and will have opportunity

of seeing the first class domestic science equipment that is being installed in Clarendon College. The short course last year was a success in every way and bigger results are promised for this year under the more favorable circumstances.

PICNIC OUTING

Misses Rebecca Morris, Cassandra Sims, and Muffet Sims and Barcus Antrobus, John Ryan and Jim Morris enjoyed a picnic outing on the Morris ranch on Lake Creek Friday. The order of the outing was a wolf chase, but as no coyotes were seen the most exciting feature was the horseback riding. Before returning to town they consumed a well prepared picnic lunch. Withal the occasion was a most enjoyable one but they hope to find more wolves next time.

COURT OPENED MONDAY

Clarendon's summer term of the district court opened here Monday morning with Judge Henry S. Bishop, presiding. The Grand Jury was first selected and charged. In fifty chosen words and in the easy manner of one perfectly the master of his task, Judge Bishop spoke to them of their position and duty. So far this week, the trials have been before the judge. A number of cases are at present under his advisement. The petit jurors will be summoned to appear next Monday morning.

RECENT VISITOR WRITES OF CLARENDON AND DONLEY

It seems that the wonderful possibilities of Donley County Texas is plainly outlined during the past year by Curtis A. Keen, Secretary-Manager of the Clarendon Chamber of Commerce, in the papers of Texas are becoming a wonderful realization and by promoting the splendid resources to be found in agricultural lines, in what is historically known as the "Green Belt" which covers the Donley County and is one of the many advantages bestowed upon this favored county by dame nature.

Donley is pre-eminently a farming section—was from earliest history the favorite resort of buffalo, deer, antelope and flocks of wild turkey—making this section of the country a favorite hunting ground of the Indians. The early settlers were not long in finding the advantages of this place for a beef producing country and years ago the foundations were laid for the fortunes of numerous families.

The fact that wheat and grain sorghums can be grown to such magnificent perfection makes it an ideal place in which to raise small stock such as hogs and poultry.

Already men of large foresight have discovered it an ideal place to raise hogs. They realize that the best bred males shall head the herd—as appeared in these columns recently a careful description of a number of our finest hogs. Hogs that have won premiums at the Dallas, Waco and numerous county and community fairs. Every citizen of the county takes a deep interest in these hogs and we take pleasure in naming the fabulous sums necessary for their purchase. We are proud that we have hogs valued at \$5,000 and over.

A county bordering the Gulf of Mexico has no hogs that will sell for one tenth of the above sum, but there are more than a hundred farmers who have from \$5 to \$50 hogs valued at from \$25 to \$100 and the pig club boys number nearly as many. The hog business has been pushed during the past two years and from one to two car loads of fat hogs are shipped to market every week.

It is a grand thing to have high priced hogs owned by one man, but it is equally as grand a matter to have a lot of hogs, a few brood sows on every farm. If we had a few registered sows on every farm with a litter of pigs from a \$5,000 boar in a short time Donley hogs would be shipped at a rate of one and two cars per week and many would top the market. It is well known, if all the hogs in a section are of the same breed and weight, they bring a better price.

The good work started by Mr. Keen should be prosecuted with vigor by his successor. There is a fertile field for the organizing of pig and poultry clubs and there should be no legitimate excuse why within a few years Clarendon will be the largest hog shipping point in Texas, nor can we see why the poultry industry at this point should not rival Enid, Okla. She has no better climatic or crop advantages—and no one will admit she has a better grade of farmers.

CITY BUILDING PROGRAM STILL AT TOP SPEED

MANY HIGH CLASS RESIDENCES
BEING COMPLETED—CHURCH
BUILDINGS BEING RUSHED.
NEW IMPROVEMENTS PLANNED

The liveliness of our city has not been more manifest in any line than in building. A full score of houses are nearing completion at the present. Some of them are first class business houses, others are residences of the finest type. Added to this the number of houses that are being remodeled and repaired, it is little wonder that no men in any of the building trades can be secured except by speaking long before time. Among the business buildings that are being completed are the Telephone office, Caraway and Chase's New Garage, Mrs. Jenkins new office, the Christian church and church of Christ, and the new wing to the girl's dormitory of Clarendon College. These buildings are brick or stucco and are amply large for the needs of the various businesses and do credit to the city.

The residences that are being occupied are those of N. N. Martin, Dr. G. S. Slover, Tom Goldston, Tom Connolly and those ready for occupation are those of Dr. Guy Strickland, M. P. Gentry, W. R. Bourland and Stuart Condon.

The residence of N. N. Martin on College Heights is the last word in a beautiful and commodious home. Upon approaching the home the tile roofing and the large porch with its concrete floors is noticeable. Upon entering the home, one is attracted by the built-in furniture; book cases, a desk, beds, sideboard, and kitchen furnishings. The floors are hardwood; the walls are blue tint plastering; while the ceiling is snowy-white plastering. French doors are between the living room and the dining room and all of the closet doors are mirror doors. Every room is heated with hot-air-ventilation system with automatic cut-off. A fine sleeping porch with eleven windows and two doors forms the southeast corner of the house. The bath has enamel walls and tile floor. Last but not least a fine roomy basement makes the house complete. In this basement is installed the large heating system as well as the hot water heated by oil burners. From first to last the home is one of the most spacious and beautiful in the city.

The home of Dr. G. S. Slover on college heights, like that of Mr. Martin, is dark brown brick. The floors are hardwood, the walls and ceiling are white plaster. All doors on the interior are French and mirror doors. The bookcases, kitchen furnishings, and bath furnishings are built-in. The rooms are heated with the automatic hot-air-ventilation system. Unique and convenient is the kitchen equipped with electric cooker and heater with automatic cut-off. The bath has enamel walls and tile floor. Withal it is indeed a home to be proud of.

ELECTION RETURNS TO BE POSTED HERE SATURDAY

By the consummation of arrangements by the county chairman and the precinct chairman, the election returns will be phoned to this city at the earliest possible moment Saturday evening. Telegraphic and telephonic communication will be established with a large city nearby and the state returns will also be posted as fast as they can be gotten. The bulletin board on the north side of the Rexall Drug store will be used for posting the results. A small collection will be taken up to defray the expense attendant to securing the returns.

JOINT SPEAKING TUESDAY

Hon. W. H. Childers and Hon. Alex Mood, of Amarillo, each a candidate for the District Attorney of the 47th Judicial District, held a joint speaking here Tuesday afternoon on the bank corner each advancing his candidacy. Mr. Childers made the first speech then Mr. Mood made his answer. Mr. Childers was then allowed a five minute reply. A good crowd was in attendance and frequent cheers were given to their favorite candidate, each one receiving hearty applause.

CLARENDON DEFEATS CUBS FIVE TO FOUR

In a fast and well played game, Clarendon won from the Amarillo Cubs here yesterday, score 5 to 4. Horton, for the visitors, started the fireworks with a home run over the rightfield fence, scoring R. Woodward ahead of him. The locals, in their half, tied the score with three singles, assisted by an error and took the lead with one run in the fourth.

The Cubs tied the score in the eighth on four straight singles, and with a single, an error and a wild pitch by A. Cook, who relieved Albert in the ninth, took the lead.

In the last half of the ninth, B. Cook le doff with a doable, and E. Adams, sacrificed. Killough, hitting for Dyer, doubled to center, scoring B. Cook. Carter then singled to center, and Killough scored the winning run.

Clarendon followed this victory with a like one over Lelia Lake yesterday afternoon, score 8 to 5. The home boys are practicing regularly and, with a little more working out on the part of these, Clarendon can boast of the best team in the Panhandle by far. Many of our boys have played with the larger leagues and they are getting back into the old form.

On tomorrow afternoon, a game is promised with one of the major teams of the Panhandle, and, if the same club can be kept here for two days another game will be played here Saturday afternoon.

CLARENDON TO HAVE ANOTHER LUMBER YARD

C. D. Shamburger, of Wichita Falls, the proprietor of a large line of lumber yards in north Texas and in the Panhandle, was in this city the first of the week completing arrangements for placing a lumber yard here. He has purchased the old Lott livery yard and on that site will place the new business. That is another evidence of the growth of our city, when the bigger dealers in the various lines begin to place their business here.

The editor and family had the pleasure the first of the week of joining a fishing party sponsored by that eminent fisherman, T. Jones, and chaperoned by his good wife, with J. R. Bulls and J. L. Allison, also Miss Catherine Naff. They journeyed down into the Brice country to the Crews Lake and captured near a hundred pounds of fish. Mr. and Mrs. Crews have the thanks of the party for their kind treatment and old fashioned hospitality. The Brice country is a great farming section and as usual will raise a bumper crop of cotton this year unless some unforeseen act of Providence prevents.

BODY OF SMALL BOY DROWNED AT AMARILLO BURIED HERE SATURDAY

The funeral services of Wilson Buntin, seven year old son of Mr. and Mrs. T. J. Buntin of Amarillo, were conducted at the Methodist church in this city by Rev. C. N. N. Ferguson last Saturday afternoon at three o'clock. The small boy was drowned Friday afternoon while playing in the backyard of his home with a number of small playmates. They were swimming in a tank about twelve feet deep and of equal width when the sad accident occurred. The mother was immediately summoned and she took an axe and cut a hole in the side of the metal reservoir so that the water might run out, then climbed to the top of the tank and jumped in and took out the body of her son. He was then rushed to the lung-motor in the hope that he could be revived but with no avail.

The remains arrived here Saturday morning on the south bound Denver. The boy is a grand-son of P. A. Buntin of this city. Besides his mother and father, Wilson is survived by three brothers, Walter, J. T., Jr., and Andrew, and two sisters, Elizabeth and Arlene.

RED CROSS NEWS

Some time ago a definite contract was entered into between the Donley County Chapter and a Red Cross nurse by which her services will be at the disposal of the County Chapter for the next year as Public Health Nurse. She comes very highly recommended and the Executive Committee felt themselves fortunate in securing her. She has been spending the summer doing some special work along public health work lines at the State University. She will begin her work for the Donley County Chapter the 15th of September. The lines of work will be more definitely outlined later on. It is hoped that she may be able to be of very great value to the entire County as her services will not be limited to Clarendon.

When she is not busy in her official character, her services may be secured by private individuals at a reasonable rate through the Executive Committee.

Plans are being made for a comfortable home for her when she arrives. Anyone who might be able to furnish board and room at a reasonable rate will confer a favor on the Executive Committee by phoning Mrs. Chas. McMurtry in regard to the matter.

We feel that Clarendon and Donley County will be very fortunate in having a Public Health Nurse in our midst. Her expenses will be paid by the Red Cross Chapter, and we hope she may be very useful in our midst. Reporter.

CHAMBERLAIN NEWS

We are still needing rain at this writing.

Dan Dean returned from the plains last week.

There was a singing at Mr. Reid's Sunday night.

Mrs. J. N. Neely was taken to the hospital last Friday.

There was a party at Mr. Earl Smith's Saturday night.

Mr. N. Dingle and family spent the day at Mr. W. T. Bell's Sunday.

Mr. D. H. Hott and family spent the day Sunday at Mr. De Jarnett's near Clarendon.

Bro. Smith, pastor of the Baptist Church at Clarendon, will preach for us next Sunday.

Netta May Blackman was brot from the hospital Sunday, where she has been very ill.

Carl Neely came down to spend Sunday at home. He has been working in the harvest at Claude.

One of the most delightful things connected with a man's work is the satisfaction of knowing that he is working with men and women who are progressive and wide-awake. When such favorable conditions exist it is easy for a man to "Fall in line" and do that which is most necessary.

Every community has its special problems and as I have only been in Clarendon for one day it would be hard for me to say just what is the most urgent need at this time. However I am sure that there are several ways that Clarendon can be built up.

My administration here shall be filled with the desire of building up Clarendon and Donley County. Clarendon is a "Home City" and we shall strive in every possible way to make it a better home city. There are a number of things that can be done in order to make this possible all of which shall be undertaken at what we think is the right time to do so.

We are very anxious to have the citizens of Clarendon, and all of the adjacent territory, to come in and feel that we are all the same as brothers in a general cause—that of building up a bigger and better Clarendon and a better Donley County. We want every farmer in Donley County to feel that he is a part of our organization and that he has a standing invitation to associate himself with us. We stand ever ready to take up any proposition that he may have and help him to solve it. If it is impossible for the Clarendon Chamber of Commerce to handle the situation we will immediately take the right steps and present the matter to the West Texas Chamber of Commerce and it will help us get the desired results. Such service as this will in many cases save many times the cost of a years membership, and each member will know that he is a member of the next to the largest Chamber of Commerce in the world. The United States Chamber of Commerce is the largest in the world and the West Texas Chamber of Commerce is the next largest and we are members of that organization. There is great strength in unity. If it had not been so the Railroad employees would never have gotten their recent advance in salaries. We are very anxious to make the Clarendon Chamber of Commerce the largest and most progressive unit of the West Texas Chamber. This is only possible thru co-operation of the citizens of Clarendon and Donley County. We hope to have every business man, farmer stockman, professional man, and all other progressive citizens of Donley County as members of this Chamber of Commerce within a very short time.

YOU can help us by coming in and lining up with us and bringing a friend in with you. We are looking for you and want you to come in with us and be one of us.

Let's all work to one end and let that be "The best home city" in the best county in the best state in the best nation on earth and the biggest unit in the next biggest Chamber of Commerce in the world. Come in to see us.

Roy B. Mefford,
Sec. Chamber of Commerce.

VIENNA ROAST

A few of the younger Misses enjoyed a little outing Thursday evening in the way of a vienna roast. They met at the home of Miss Lummie Joy Lane, and proceeded to the hills southwest of town. Within a few minutes the atmosphere was heavy laden with odors not unlike those accompanying the preparation of a banquet by Indian squaws, according to Parkham. Of those present, Misses Lummie Joy Lane, Margaret McMurtry, Enoree Hodges, Catherine Naff, Mattie Ruth Dean, and Agnes Swift of Memphis, no one is yet ill and they report a "dogged" good time. They were chaperoned by Miss Pansy Lane.

It certainly is odd just how certain Democrats will pan Cox to beat the band and then cuss somebody else for disagreeing with the president. Take it from The News—Cox is now the head of the Democratic party and Wilson together with all other "strongheads" have made up their minds to stay in the bandwagon. This hero worship is all bunk—be a Democrat and not because of any man who may be temporarily at the head of the party. History is just one chronicle after another of how one leader steps aside for the next one. Cox is the new head and if we are Democrats we owe him allegiance. LEAGUE OF NATIONS

The earl of Reading, lord chief justice of Great Britain and former British ambassador to the United States, presided at the 29th conference of the International Law association, held recently in Portsmouth, England. He discussed the League of Nations, "a great epoch-making document" that had emerged from the world war. "I do not say that it is a perfect instrument," he said. "It is, nevertheless a great document though the hands that were set to it at the time are not the hands of those who ratified it."

"What America will do in the future, it is not for us to judge or prophesy. She will decide for herself, according to her own views and according to the views of her own people."

"But of this I am convinced—whether she signs or does not sign, she will remain the supporter of justice and truth in the future, as she has done in the past, and those tribunals or nations associated in the league will be able to rely on her when they give their own views founded upon reason and based upon justice." So spoke the conservative Briton, the gifted diplomat.

With more emphasis spoke Everett P. Wheeler, an eminent New York lawyer, who insisted the United States would not finally refuse to join the league. He said: "America found herself in the position of the man whose judgment had been convinced of the truth and justice of a certain proposition, but who shrank from the logical consequences when he first perceived what they are."

"This hesitation was not unnatural in a democracy and I trust European friends of America will be patient. I believe the covenant of the League of Nations will yet be ratified by the United States.—The Wichita Falls Record-News.

Publishing a newspaper in Clarendon with the light and power situation like it is now is the hardest proposition one can well imagine. We are supposed to get five days power per week, but we don't get it. There is scarcely a day in which the service is not interrupted from thirty minutes to four or five hours, and since no current is supplied in the downtown district at night there is no such thing as making up lost time. If we get behind there is nothing to do but get the paper out as soon after regular time as we may be able to do. This is an unheard of proposition in the News office for the management has always made it a special point to be on time—even if we had to work all night to make it. It is a shame of the greatest magnitude that a city of the rank of Clarendon is forced to undergo such rotten inconveniences all because of the inefficiency and care-not-at-all attitude of the foreign concern who owns the plant at this point. The fact that a new engine is ordered don't help us any. A real honest-to-goodness concern would never have let the plant get so near the junkheap without having the new engine here. The News will revert to its old habit of being on time when efficient current will permit.

Pat Neff pulled off a stunt the other day that ought to make every voter in West Texas and the Panhandle put him down as his fourth choice. He took a fling at Thomason and in narrow sarcasm charged that he (Thomason) lived nearer the capital of Arizona than the capital of Texas. Well, well—does he intend to say that to his notion the citizens of the far away sections of Texas are less entitled to the rights and privileges of Texas citizenship than those who live within a hundred miles of Waco? If he intends to convey such an idea then it is reasonable to suppose that he values the votes of the people of West Texas and the Panhandle less than those of the central part of the state. Regardless of what he thinks a wild statement like the one cited above will operate to separate him from many a vote in this and other far away ends of the state. The News believes that Texas should not be divided into two or more states, but it believes less than that in a man from any section of Texas seeking to belittle the citizenship of men in any other section of Texas.

The News wants a West Texas man for governor. We have never had one and while we have so good an opportunity as in the candidacy of Ewing Thomason of El Paso, we believe it is high time that we get together and furnish the necessary majority to place him in the governor's chair at Austin. If West Texas and the Panhandle don't show unity in the support of Thomason, it will be many a year before another West Texas man will have the temerity to offer himself for the governorship. Vote for Thomason.

Berry Jenkins, who is farming near Panhandle during his summer vacation, spent the week end at home in this city with his parents Dr. and Mrs. B. L. Jenkins.

LEE SATTERWHITE SUP- PORTS MR. THOMASON

Replying to a charge that members of the Texas Legislature are supporting Mr. Thomason for Governor for sinister purposes, Lee Satterwhite, editor of the Panhandle Herald and member of the Texas Legislature says: "Members of the Texas Legislature are citizens of this State and are free to support their choice for Governor just as other men are; they are men whose integrity, honor and intelligence will compare favorably with that of the average citizen of the State; they are human and prone to err just like other citizens, but in supporting the candidacy of Mr. Thomason for Governor, I do not believe that they are making any mistake, for in their labors and associations with him they find the stuff in him that make statesmen; he is a man of big brain; a clean and unimpeachable character; has the courage of his conviction; a close student of government and thoroughly familiar with affairs of State and if elected Governor will administer the State's affairs without fear or favor, giving to every citizen of the State from the highest to the lowest, a square deal, just as he has in the discharge of his duties as Speaker of the House."

These are among the attributes of Robert Ewing Thomason that make members of the Texas Legislature love and appreciate him. Knowing his ability and fitness to make this State a useful and great Governor, 85 to 90 per cent of the membership are supporting his candidacy and those of the members who are supporting other candidates will tell you that they have the highest regard for Mr. Thomason and believe that he will make Texas a big Governor.

To say that the members of the Legislature are supporting Mr. Thomason's candidacy for favors that he might extend is a reflection upon the honor and integrity of both Mr. Thomason and the members of the Legislature.

An example of the Amarillo News editor's recklessness with figures and his ignorance of State affairs, he begins his editorial with the statement that, "The friends of R. E. Thomason, candidate for the Democratic nomination for Governor, point with pride to the fact that 204 members of the Texas Legislature announced their endorsement of him several months ago for the office which he seeks," when as a matter of fact there are only 173 members, 142 in the House and 31 in the Senate.

But really the News editor makes a better guess at the number of the members of the Legislature who does in guessing at the amount of appropriations made for the support of the State government six years ago, as well as that made by the present Legislature. Notice what he says in the following paragraph:

"The increase in State appropriations from \$3,000,000 per annum six years ago, to \$20,000,000 the past year when Mr. Thomason was speaker of the House, seems rather a tremendous leap upward, in spite of increased cost of living."

Evidently when the editor of the News made the assertion just quoted he was thinking at random and grabbing at something to say that would tend to prejudice his readers against the candidacy of Mr. Thomason regardless of truth, for the records show that for the fiscal year ending August 31, 1914, six years ago, the Legislature appropriated \$6,597,599.07 for the support and maintenance of the State Departments, the State Judicial Departments, the Judiciary, the Educational and Eleemosynary institutions. I have not pursued the records further in order to determine the total amount of appropriations made six years ago, but this is sufficient to show the manner of his recklessness with figures.

For the support and maintenance of the State Departments, State Judicial Departments, the Judiciary, the Educational and Eleemosynary institutions for the fiscal year ending August 31, 1920, the Thirty-Sixth Legislature appropriated \$10,700,031.07.

Other appropriations than those quoted above were made as a matter of course. I haven't at hand the amount of appropriations made by the Legislature six years ago, except for the departments and institutions above mentioned, but the entire appropriations made the first year by the present Legislature amounts to \$16,733,607.14. In fact the total is not as great as that of the difference the News editor makes between appropriations six years ago and that made by the present Legislature, and the comptroller estimates that more one million dollars of this appropriation will revert back to the treasury at the end of the fiscal year.

And for the edification and information of the News editor and other who may be interested, permit me to state that out of this \$16,733,607.14 appropriated for this fiscal year, \$7,538,356.69 was appropriated for the rural and public schools and educational institutions of the State, as against \$2,101,282.19 appropriated six years ago. \$1,485,388.00 for the Supreme Court, the Court of Criminal Appeals, the Civil Courts of Appeals, the Commission of Appeals and the District Courts of the State; \$3,624,163.84 for the Eleemosynary institutions of the State; \$2,305,648.00 for the various State Departments, including the Executive Office, Mansion and Grounds, Board of Pardon Advisors, Department of State, Insurance and Banking, Fire Rating Board, State Library, State Tax Board, Texas State Railroad, Industrial Welfare, Commission, Bureau of Labor Statistics, Adjutant General's Department, Ranger Force, State Board of Health, Game, Fish and Oyster Commission, Livestock and Sanitary Commission, State Mining Board, Pure Food and Drug Department, Attorney General Department, Department of Education, Treasury Department, Comptroller's Depart-

ment, General Land Office, Railroad Commission, Reclamation Department, Department of Agriculture, Board of Water Engineer, Markets and Warehouse Departments and Board of Control, all of which makes a total of \$14,953,555.00. The remainder is divided among various items, including interest on public debt, authorized deficiencies, mileage and per diem and contingent expenses of the Legislature, home for neglected white children, eradication of predatory animals, isolation of lepers, etc.

And may I say further, that for the fiscal year ending August 31st, 1921, the present Legislature appropriated for the schools and the educational institutions of the State a total of \$11,125,295.59, making a grand total of \$18,663,651.68 by the present Legislature for schools and educational institutions of the State.

It is true that increases have been considerable in appropriations for the past twenty years, but it is also true that the demands upon the State have also made large increases. In 1900 the number of students attending the State University was

750, as against more than 3800 the past school term. In 1900 there were enrolled at the A. & M. 339 students as against more than 2000 the past school term, and in addition there are branches of the A. & M. at Stevenville and Arlington, each with a splendid student enrollment. In 1900 the State maintained one State Normal at Huntsville, with a student enrollment of 428 and now there are six State Normals with a total attendance of more than 3,000 students. The C. I. A. at Denton is another school created since 1900 and has an annual enrollment of near 2,000. In 1900 there were 2561 patients in the insane asylums of the State and now there are more than 6,000. Thus we might go on and enumerate some of the causes for the increased appropriation.

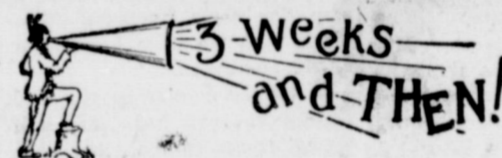

And in this I am not undertaking to say that there are no waste places in the affairs of the State Government. I am simply stating to what purpose these appropriations are being made. But in connection I will say that it matters not who is elected Governor the appropriate

tions will be made at the next Legislature will be several millions less than the total made by the present Legislature. There will be no further need for appropriations out of the general revenue fund to supplement the available school fund, or to give aid to rural schools. This will amount to \$9,000,000. The school amendments to be voted upon this fall makes adequate provision for each school community to amply care for its own financial needs.

The voters of Texas would have more faith in the declaration of candidates for Governor, that if elected, hundreds of State employees will be dismissed from the State's pay roll and taxes greatly reduced, if they would take the people into their confidence and tell them just where the pruning knife will be used. It will be an easy matter to take the records and point out these things.

OH! MY BACK

The Expression of Many a Kidney Sufferer in Clarendon.

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Here's Clarendon proof:

Mrs. L. L. Moore, E. 6th St., says: "Sometime ago my kidneys and back caused me a lot of trouble. My back was so lame and sore I could hardly stoop over. It ached all the time and mornings was so stiff and lame I could hardly get straightened up. I had such dizzy spells, I would almost be blinded. Severe headaches followed these attacks. My kidneys were weak, too. Doan's Kidney Pills gave me excellent relief."

W. M. PATMAN, Prop.

JOE BAILEY AT ATLANTA

In his Atlanta speech the other day Hon. Joseph Weldon Bailey made it plain that he was not seeking any office for the money or the glory that was in it for himself. And every fair minded man must know and must acknowledge that he was sincere in what he said. Mr. Bailey has been honored far beyond the position he is now standing for and he can make more in one day out of some of the big lawsuits that come to him than he could make in a year as governor of Texas.

Those who want to be honest about it will admit that it is a sacrifice on the part of a man like this to enter the race for the governorship and sincere in advocating them. Then what is the right thing for a thoughtful man to do? It is plain enough. He should examine the principles that Mr. Bailey has made a sacrifice to preserve and see whether you believe they will be the best for the country or not. If you are not acting square with yourself, with the republic or with Mr. Bailey.

No one who has gone out to battle against Joe Bailey has been able or has ever tried to show that he is teaching principles that have not always been regarded as Democratic fundamentals in this country. He is standing for the things that Thomas Jefferson and Andrew Jackson stood for and has not deviated from the path they pointed out. Is it treason to do that? If so, why was it that they sent a message from San Fran-

cisco to President Wilson the other day and made mention of the fact that the mantle of Jefferson and Jackson had fallen upon his shoulders? Why in the name of thunder do all the Democratic statesmen praise the founder with one breath and in the next breath condemn those who want to remain true to the faith of the founder?

Woodrow Wilson is the leader of a party that was founded upon the idea of local self-government. He proclaimed that doctrine until he went to Europe to sit among the rulers of the old world. But now he insists that the legislature of a Southern state repudiate the doctrine that Jefferson taught and that it even violate its constitution to do it. In the name of God where are we drifting to as a Democracy? What right has the President at Washington to monkey with a legislature and a governor in Tennessee? Are the Democrats going to take all power out of the hands of the voting masses and place it in Washington and Geneva?

Maybe you don't like Joe Bailey maybe he has said something that ruffled your feathers, maybe you figured him as an impossibility and you want to get on the biggest side of the fight. But when on one hand the right to govern is being taken from the American people and on the other it is being passed to representatives of monarchies and kingdoms over the sea, it is high time to listen to such warning as he is giving you. You can't toy always with the freedom of the people. Autocracy is something too despised for and has not deviated from the path they pointed out. Is it treason to do that? If so, why was it that they sent a message from San Fran-

—The undersigned, Secretary-Treasurer of Lelia Lake Oil Association, has been instructed by the Board of Trustees, at a meeting holden on this, the 19th day of July, 1920, to call a meeting of the stockholders of Lelia Lake Oil Association, at Woodmen's Hall, in Clarendon, Texas, on Saturday, the 31st day of July, A. D., 1920 at 4 o'clock P. M., to devise ways and means by which the Lelia Lake test may be developed.

—The trustees have exhausted all funds that have come into their hands from the sale of stock and acreage in the development of the well. All of the assets, except the acreage, is hypothecated. The Trustees are unwilling to incur debts if they could, without the means at hand of paying them; and while they consider that the prospects of developing oil in paying quantities have never been as hopeful as they now are, it will be necessary for them to abandon the well unless other funds are raised by some means, and the trustees desire to discuss their future action with the stockholders before deciding upon what course they shall pursue.

—You are therefore called to meet at the Woodmen's Hall, in Clarendon, Texas, on July 31st, 1920, at 4 o'clock p. m. Your stock may be voted by proxy, but your personal presence is desired and it is to your interest to be present.

Buildings and Grounds of Austin College Sherman, Texas

AUSTIN COLLEGE 1920 HOME-COMING WAS A GREAT SUCCESS

Isn't it a "grand and glorious feeling" to meet an old pal for the first time in a number of years? And if you meet him at a place that of itself brings back memories of the past, it is doubly appreciated. Something of this feeling was in the heart of many a man as he left business or profession for a few days and made the journey to Sherman, there to meet some of the old "fellows" of days gone by. The occasion was the Home-coming to Austin college ex-students; the place was 'any-

where on College Hill; the motive was the old-time college spirit—and there was plenty of it. It was the Seventy-first Annual Commencement season of this second oldest institution in the state of Texas, at which there were more old students returned than at any other in the history of the College. And it was a good time for the College and for the old students; for the College because it made the old students' love and interest a little warmer and a little quicker; for the students because everything for their entertainment was provided and abundantly. There were special programs for them, as well as the regular com-

mencement exercises; there were dinners and the like; and with it all there was time for the Alumni to get together and talk over old times.

Things are much different from what they were in the olden days, yet there is the same spirit that lived on the old campus when men who are now grown and in various activities of the life of Texas and Oklahoma, were there as students. The changes are seen on every hand; the splendid new buildings, added in the last few years; the faces of young ladies who are now admitted; the beautiful new campus, having none of the old shacks that formerly marred the natural beauty of the

surroundings; and in the new life of this great old school, the hands of those who stayed close by—some for ten, some twenty, some thirty years, have left the imprint of their tender care, and loving devotion. Such things are seen in the halls, in the offices and on the campus.

The Alumni Association took another and newer lease on life. A new organization was perfected with a new group of officers. And at the same time took further steps to cooperate with the efforts of the College officials to make the institution still better in the years to come. The institution certainly can prove

itself more valuable to Texas and the surrounding states in the Southwest, if the Alumni Association as a body and as individuals will stand behind it. Athletics have been improving this past year under the leadership of a splendid coach. More people know about our Colleges than ever before.

This Commencement marks the end of twenty years of service by Dr. Thomas Stone Clyde, as President of the College; commendatory resolutions were passed by the Alumni Association and presented with a beautiful gold watch to Dr. Clyde, in appreciation of his service to the

College.

Yes, it was a big time for everybody.

Clarendon and Donley County have a number of ex-students of Austin College, of whom some were registered as present at this Home-coming. The ex-students here are: F. E. Chamberlain, W. C. McDonald, W. H. Foster, Phillip Gentry, Fred Patching, Grundy Morrison, Raymond Morrison and Allan Jeffries.

It is the desire of the College to have the old men to come back as often as possible; and it is always worth while. Let's go, gentlemen, let's go.

AUTHORIZING ONE AND ONE-HALF PER CENT AD VALOREM TAX BY CITIES AND TOWNS OF FIVE THOUSAND OR LESS POPULATION

Senate Joint Resolution No. 12.

Proposing an amendment to Section 4 of Article XI of the Constitution of the State of Texas, by increasing the total tax rate that may be levied by cities and towns having a population of five thousand or less than one-fourth of one per cent to not exceeding one and one-half per cent, and making appropriation therefor.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 4, Article XI of the Constitution be so amended as hereafter to read as follows:

Section 4. Cities and towns having a population of five thousand or less may be chartered alone by general law. They may levy, assess and collect such taxes as may be authorized by law, but no tax for any purpose shall ever be lawful for any one year which shall exceed one and one-half per cent of the taxable property of such city; and all taxes shall be collected only in current money, and all licenses and occupation taxes, levied, and all fines, forfeitures and penalties accruing to said cities and towns shall be col-

lectible only in current money.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the state at an election to be held throughout the state on the first Tuesday after the first Monday in November, 1920, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words, "For the amendment of Section 4, Article XI of the Constitution increasing the total tax rate that may be levied by towns and cities having a population of five thousand or less from one-fourth of one per cent to not exceeding one and one-half per cent of any one year," and all voters opposed to said amendment shall write or have printed on their ballots the words, "Against the amendment of Section 4, Article XI of the Constitution increasing the total tax rate that may be levied by towns and cities having a population of five thousand or less from one-fourth of one per cent to not exceeding one and one-half per cent of any one year."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election, and to have the same published as required by the Constitution and existing laws of the State.

Sec. 4. That the sum of Five Thousand Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the

Treasury of the State of Texas not otherwise appropriated to pay the expenses of such publication and election.

C. D. MIMS,
Secretary of State.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready to use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied, simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

HON. PATT NEFF SPOKE TO LARGE AUDIENCE

As early as 7:30 the evening of last Friday, upon which date the Hon. Pat M. Neff, of Waco, candidate for governor, had set to speak to people of Lubbock in the interest of his candidacy, listeners began gathering in the District Court room. By 8 o'clock the court room was practically all the standing room had been taken. Mr. Neff stopped in the corridor, shaking hands, for a short time, then a burst of applause and he came forward. Hon. E. L. Klett, local attorney and a staunch Introduction-Governor-man, made the introductory remarks closing with the exclamation, "Our Next Governor!"

Mr. Neff had spoken five times that day, and of course was perfectly at ease upon his sixth speech. He entered first his criticism of the "campaign managers", something which he claims he will abolish if he becomes the Governor. Mr. Neff stated that he was the first man who had ever taken his candidacy in person for the Governorship. He says that he had spoken in many towns throughout this campaign that had never before seen or heard a candidate for Governor speak. And that he had spoken in 18 counties in which no candidate for Governor had ever spoken before. Mr. Neff said that he was demonstrating for himself and for the boys of Texas that a poor boy, raised in poverty, in Texas would have an equal opportunity of being the Governor of this State as any other person. In criticizing the opposition, who have campaign headquarters, Mr. Neff stated that those managers are the men who make the promises for political purposes who afterward tell the Governor what he must do to carry out those promises. Mr. Neff stated that if he was elected Gov. he could go into the office without the fetters of promises and without a muzzle on his mouth.

He stated further that until only a few days before coming to Lubbock he had never mentioned the name of a candidate in political, professional or private, criticism and had hoped that it would be unnecessary until Mr. Thomason had a secret meeting in Austin where he was stated by his Dallas campaign manager that something must be done. A few days later, according to Mr. Neff, Mr. Thomason spoke to an audience in Austin in which he offered criticism of Mr. Neff's prohibition record. Mr. Neff stated that while Mr. Thomason was voting to defeat a measure allowing the prohibition question to be settled by the people of the state, that he was chairman of the prohibitionists of McLennan county and had driven the saloons out. Mr. Neff stated further that as the prohibition question had been settled by law, it was now only a problem of enforcement of the law. He promised if elected Governor to help in making it so hard to have whiskey in Texas that in a few years the boys will neither know the smell nor the taste of it.

Mr. Neff said he was his own campaign manager and that he was always in his campaign headquarters. He claims his automobile which he personally drives across country is his headquarters and that during the past week he had had two blow-outs in his headquarters.

Mr. Neff then stated that Mr. Thomason had against his wishes often presented his (Neff's) land plank. He said that he preferred presenting his own land plank and resented Mr. Thomason's actions. Mr. Neff explained his famous land plank. He claims that it is misunderstood. He only wants the idle, untilled, unpastured million acre blocks that are owned by non-residents put into a state that every son of Texas would have a right, an interest and a chance to purchase homes, before land values had risen until it was prohibitive, due to the industry and the progress of the State.

Mr. Neff stated that offices had been duplicated in the State's affairs and that the expenditures of the State had increased from three million in 1903 to twenty million in the present year. He promises if elected to the Governor's chair, to abolish many of the existing offices. He advocated a revision of the present taxes and offered criticism against Mr. Thomason's stand on the poll tax payment. Mr. Neff was frequently applauded by his attentive hearers.—Lubbock Avalanche.

RELATING TO TAXATION BY SCHOOL DISTRICTS

Senate Joint Resolution No. 17.

Proposing an amendment to Section 3 of Article VII of the Constitution of the State of Texas by exempting independent and common school districts from the limitation of a total tax of one dollar on the one hundred dollars valuation for any one year, and making an appropriation therefor.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 3 of Article VII of the Constitution be so amended as hereafter to read as follows: (Creating a new Section 3).

Section 3. One-fourth of the revenue derived from the State occupation taxes and a poll tax of one (\$1.00) dollar on every inhabitant of this state, between the ages of twenty-one and sixty years, shall be set apart annually for the benefit of the public free schools; and in addition thereto there shall be levied and collected an annual ad valorem state tax of such an amount not to exceed thirty-five cents on the one hundred (\$100.00) dollars valuation as with the available school fund arising from all other sources, will be sufficient to maintain and support the public schools of this State for a period of not less than six months in each year, and it shall be the duty of the State Board of Education to set aside a sufficient amount out of the said tax to provide free text books for the use of children attending the public free schools of this State; provided, however, that should the limit of taxation herein named be insufficient the deficit may be met by appropriation from the general funds of the state and the legislature may also provide for the formation of school districts by general or special law without the local notice required in other cases of special legislation; and all such school districts, whether created by general or special law may embrace parts of two or more counties. And the legislature shall be authorized to pass laws for the assessment and collection of taxes in all said districts and for the management and control of the public school or schools of such districts, whether such districts are composed of territory wholly within a county or in parts of two or more counties. And the legislature may authorize an additional ad valorem tax to be levied and collected within all school districts heretofore formed or hereafter formed, for the further maintenance of public free schools, and the erection and equipment of school buildings therein; provided, that a majority of the qualified property tax-paying voters of the district voting at an election to be held for that purpose, shall vote such tax not to exceed in any one year one dollar on the one hundred dollars valuation of the property subject to taxation in such district, but such limitation upon the amount of school district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts, nor to independent or common school districts created by general or special law.

Section 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the state on the first Tuesday after the first Monday in November, 1920, at which election all voters favoring said proposed amendment shall write or have printed on their ballots "For the Amendment to Section 3 of Article VII of the Constitution of the State of Texas, providing that the limitation upon the amount of school district tax of one dollar on the one hundred dollars valuation shall not apply to independent or common school districts created by general or special law," and all those opposed to said amendment shall write or have printed on their ballots "Against the amendment to Section 3 of Article VII of the Constitution of the State of Texas, providing that the limitation upon the amount of school district tax of one dollar on the one hundred dollars valuation shall not apply to independent or common school districts created by general or special law."

Section 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and existing laws of the State.

Section 4. That the sum of Five Thousand Dollars, or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

C. D. MIMS,
Secretary of State.

RELATING TO THE COMPENSATION OF PUBLIC OFFICIALS

House Joint Resolution No. 7.

A joint resolution of the Legislature of the State of Texas, proposing an amendment to the constitution of the State by adding to Article 16 thereof a new Section, to be known as Section 60, providing for the compensation of public officials.

Be it resolved by the Legislature of the State of Texas:

Section 1: That there is hereby added to Article XVI of the Constitution of the State of Texas, a new section to be known as Section 60 of Article XVI of the Constitution of the State of Texas, which shall read as follows:

Section 60. Compensation of Public Officials: All State, district, county and precinct officers within this State shall receive as compensation for their services a salary, the amount of which, the terms and methods of payment and the fund

It Is To Your Advantage To Trade With a Cash and Carry Store

—The Cash and Carry grocery business is founded upon the principle of giving just as good groceries as can be found anywhere at a little lower price than stores that follow the credit and delivery plan, which plan produces a greater overhead expense. This additional expense must be included in the price of goods sold. Therefore, it is to your interest to trade at our store and take advantage of the saving.

out of which such payments shall be made, shall be ascertained, declared and fixed by the Legislature from time to time; provided that the Legislature may make such exceptions as it may deem advisable.

This section shall supersede all other provisions of this constitution fixing and declaring the compensation of officers by salary, fees or otherwise and all provisions for salaries or other compensation for public officials, executive, legislative or judicial.

Sec. 2. The Governor of the State is hereby directed to cause to be issued his necessary proclamation for an election to be held on the first Tuesday after the first Monday in November, 1920, at which election this amendment shall be submitted to the qualified electors of this State for adoption or rejection and shall make the publication required by the constitution and laws of the State. Said election shall be held under and in accordance with the General Election Laws of the State, and the ballots for said election shall have printed or written thereon in plain letters, the following words:

"Official Ballot." "For the amendment to Article XVI of the Constitution of the State of Texas, adding thereto section 60, providing for compensation of public officials." "Against the amendment to Article XVI of the Constitution of the State of Texas, adding thereto Section 60, providing for compensation of public officials."

Those voters who favor such amendment shall erase by marking a line through the words "Against the amendment to Article XVI of

the Constitution of the State of Texas, providing compensation for public officials." Those who oppose such amendment shall erase by marking a line through them, the words "For the amendment to Article XVI of the Constitution of the State of Texas, providing compensation for public officials." And the result of the election shall be published and declared according to the majority of the votes cast in such election.

Sec. 3. The sum of Five Thousand Dollars or so much thereof as may be necessary is hereby appropriated out of any funds in the treasury not otherwise appropriated for the purpose of paying the necessary expenses of the proclamation and publication of this amendment and the election to be held hereunder.

C. D. MIMS,
Secretary of State.

Best of 22
The Eldorado Stage Co. of Los Angeles tested 22 leading makes on 12-passenger Packard buses. Not a tire was found to match the Millers in that extreme service.

Some Costly Mistakes Men are Making on Tires

Men who buy tires on a guess, or on claims, are making some costly mistakes. Large tire users make tests and comparisons. And the results in late years are amazing.

Hudson Taxi Co. of Detroit, for instance, made a long test on Miller Cords. And the average was 15,000 miles.

Miller dealers get hundreds to compare Miller mileage with others. And they find an increased mileage of 50 per cent to 75 per cent.

Large truck users are comparing Miller Cords, passenger type, with all others. And they are coming in large numbers to Millers.

California stage lines are using Millers after million-mile tests with many rivals.

The Way to Know

At the Miller factory over 1,000 tires yearly are worn out in tests and comparisons.

They constantly prove that Miller is the best tire built.

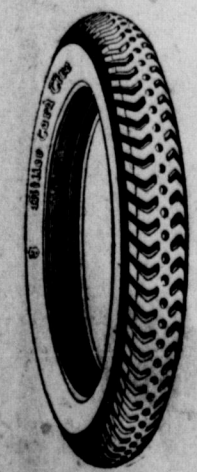

In extreme rear-wheel tests they require an average of 15,000 miles on Cords.

They prove that the new Miller tread outwears the best of others by 25 per cent.

Such tires should be tested by every owner of a car. See what they give you. Compare with any tire on opposite rear wheels.

Miller experts, in late years, have doubled average tire mileage. Old-time figures do not apply today.

You will fix new requirements for your tires when you try a Miller. Do it now.

GOLDSTON CANNING CLUB

The Goldston Canning Club girls met last Saturday the 17th for our last meeting before the "Short Course" which will be the 26th and 27th. We all must and are going to attend for the benefit that it will be to us now, and the pleasure that we are sure to have.

We wish to congratulate you clubs that won the prizes on the 5th for the best decorated car. We did not win any prize by the judges decision but as Secretary Keen and Mrs. Chitwood both said in the court house, that just because we did not win a prize we should and do not feel that we lost entirely. I am sure we had the most enthusiastic helpers that we could have secured. Mrs. Caraway and Miss Sims knew just exactly how to decorate a car very attractively and for the day won our admiration. We know we did not vary from our patriot colors and we were informed by our officials that it would be the most appropriate way of decorating for the occasion and we also thought it was. Mrs. Caraway and Mrs. Sims certainly did their part and we can't express how much we thank them for their help. We also wish to thank the Chamber of Commerce, the business men and the friends for taking such an interest in our work, since we have seen that others are interested in us. J. E. D., President.

A MERRY EVENING

The Baptist young people have been enjoying a number of good times lately. The first of the series was a moonlight picnic at the river followed by an impromptu party. The second, a "wiener roast" in the hills.

Friday night the crowd met at the home of Miss Fannie Lowe for a lawn party. Much fun was derived from "Taking the Pig to Market," a potato race, ball game and other games. Just when every one was ready to enjoy something cool. Part of the boys slipped off to town and came back with arms full of ice cream and cakes. Mindful of the fact that we had to get up next morning, we finally persuaded ourselves to go home. All are looking forward to the next party which is coming soon. Reported.
