## CLARENDON BUSINESS MEN TO INAUGURATE MONTHLY TRADES DAY—BEGINNING MONDAY, APR. 5

The program for the first Monday's Trades Day in the City of Clarendon includes a series of flights by the Panhandle Aerial Transportation Company in which passengers may ride. It is the plan of the Chamber of Commerce and Business Men of the City to make Trades Day one of the big occasions of the month every month thru the summer. On that day special bargains, articles and features will be offered by the different stores at prices that will make it worth while to investigate.

Since Clarendon has been designated at a regular aerial landing station it is expected that with the coming of the fair weather of Spring that a number of planes will make stops here from time to time. Mr. Whipple of the Panhandle Aerial Passenger and Transportation Company with headquarters in Amarillo has promised us that he will have two planes here the first Monday in April for exhibition flights and to carry passengers. The price of these flights will be \$10 for about a 20 or 25 mile flight over the city and surrounding country. And it will be worth the money if we are to believe Secretary Keen of the Chamber of Commerce, who is an old Army pilot. "Am I going to ride, do you say? Why of course I am. Do you think I will ever let a plane come in walking distance of me that I don't buy, borrow or beg a ride out of the pilot. And I know I am setting pretty this time because I have a nice little ticket stuck right in my inside pocket right now that says "Good For One Airplane Ride." Compliments of Panhandle Aerial Service and Transportation Company and signed by Mr. Whipple himself and numbered 1130 I just hope that don't mean I am going to sit around and wait for that many to ride before my time comes."

"Flying is just like anything else new. When the first steam boat was built one of the moderns of that date looked it over and said "They'll never get her started." A few days later Fulton steamed up and the "Folly" started up the stream. Mr. Hayseed's eyes stuck out, his knees knocked together and his teeth chattered as he gasped out, "Golly but they'll never get her stopped."

"At last flying is one better than that—for we all know that "all that goes up must come down", to quote an old adage. But the fact that the coming down is the most pleasant part of flying is not known by most folks. When you are jacking around at a couple of miles up above your troubles and cut your motor—all the noise and roar stops, everything gets just as quiet and smooth, not a vibration, a flutter or a sound other than the swish of the machine thru the air—and you dip and curve and swing around—Oh boy there is nothing in life like it. And even if your motor roars completely dead there is absolutely no danger for they have what we call a gliding angle of about 8 to 1. That is if you are a mile high when the motor stops you can land anywhere within 8 miles of where you are in any direction. Therefore the place you pick is the better choice you have of a landing field.

"But I won't tell you all the inside dope or it wouldn't be any fun to take the first ride. Ten dollars is a lot of money—but believe me you will spend an awful lot before you get as much for it as you do in your first ride in a plane."

Sometime during the day Secretary Keen will make a flight and drop circulars, pamphlets, etc.—upon some of which will be free tickets to the show, free drinks in the confectioneries, and credit slips on designated stores—also it is expected that one free ticket for a ride in the plane will be dropped.

"First Monday is Trades Day."

### A LOT OF INTERESTING THINGS THAT HAVE OCCURRED

When hailed with that old familiar greeting, "What do you know?" Secretary Keen of the Chamber of Commerce got loose with a lot of mixed up information, junk and otherwise, something in this manner:

"Personally I can't say that I know so very much—but I do see a lot that is worth talking about. The first thing is that I have had occasion to visit two or three neighboring towns—and without saying anything against them at all—for they are building as fast as they can toward the standard set by Clarendon, still it gives you one grand and glorious feeling to get dirt in your shoes as you step off in that sand and dust bed near the Denver station.

"Have you been down to Dick's Bon Ton lately? Say boy, it is worth the price of a soda pop just to look his new place over. A lot of new stalls, chairs with nice little Sunday Bibles on them, brand new Search Warrants on your pocket-book sticking on the tables 'An' Everything'. It's worth looking over.

"Strickland-Story are all dressed up up-stairs. You know prices have gone up so much lately that they have moved the booking department upstairs to handle the accounts.

"The Pastime have their new summer folders out and believe me they make Milards, of Washington, Hylers of New York, Regent Palace, London, and other little inland towns over the country look like second class country stores.

"The Clarendon Mercantile got in a bunch of boxes one day this week that looked like they were moving in a new store and the new managers Polk and Polp looked like honest working men, in their duckings shoveling boxes around.

"Dick Walker overalls a day or two this week—but no one caught him at work during the time. Don't know just the idea of the bluff. "Bugbe spudded in Tuesday afternoon about the same time that the rumor got started that Lelia Lake was grumbling preparatory to squirting oil all over that section of the county. If somebody is not careful one of these wells is going to get loose some day and ruin a lot of good farming land with an oil bath. It would be a shame.

Jim Bourland was down from Goodnight the middle of the week to attend to some unfinished business. Jim likes the new place fine.

## NEW RAILROAD INTO SOUTH- PLAINS COUNTRY EXPECTED TO BE STARTED SHORTLY

Stamford, Texas, March 6.—The race to be first with a railroad into the oil fields of West Texas may be repeated to a greater extent in the next few months on the South Plains and in the Panhandle, if the present agitation keeps moving.

Just at present plans are being made for the building of a railroad from Plainview to Silvertown, thirty-five miles. Lockney is talking of building a line to Silvertown. And on top of all this comes the agitation between Amarillo and Spur for an extension of the Stamford & Northwestern from Spur to Amarillo, Memphis and Clarendon. It has been reported that Silvertown is holding \$200,000 to be delivered to the company which first gets a railway line into that place.

Agitation to project the Stamford & Northwestern is growing, says the West Texas Chamber of Commerce research department. A representative of the organization a few days ago had occasion to discuss the matter with a number of prominent Plains people and the general opinion is that the line will be built as originally planned.

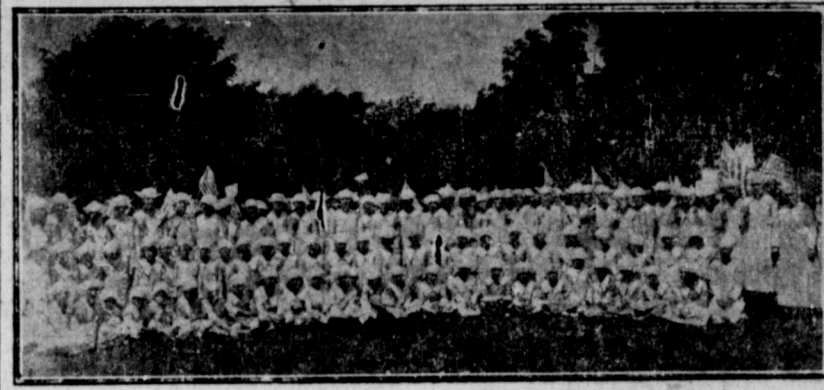

When the Stamford and Northwestern was built into Spur from Stamford in 1909 it was the intention to lay steel to a connection with the Denver, presumably at Amarillo. It is known that officials of the Hill interests, which own both the Denver and the Stamford & Northwestern conferred with Amarillo business men. The depression in railway building soon thereafter temporarily halted construction. A reconnaissance survey has been made from Spur and Amarillo, a distance of 150 miles.

The nearest railway point on another line from Spur is Crosbyton, on the Santa Fe, thirty miles northwest. Floydada, another Santa Fe town, is about forty-five miles away; Roaring Springs, a Frisco point, is thirty-five miles distant, and Memphis, a Denver point, is eighty-five miles distant. Clarendon is approximately 100 miles from Spur. It is another Denver town.

The construction of an extension from Amarillo, Clarendon or Memphis to Spur would give the Hill interests another line southward as far as Abilene and connection with the Katy at Stamford, with the Orient at Sanger, and with the Texas & Pacific and the Abilene Southern at Abilene. It would open a fast developing section of the South Plains and help the Denver to remove the serious burden it has carried in hauling coal from the Colorado fields. It would give another through line to the Panhandle. That it would be a dividend payer from the moment it was opened is the belief of railroad men who have been interviewed on the matter."

It is believed by well-informed business men that the Hill interests will now attempt to resume where they left off. Sensing the immense growth of the territory they once proposed to penetrate, they will now undertake to go after the great business of that wonderfully fertile section.

The new line, if built from Spur to Amarillo would give the Denver a line to Abilene with a length of 275 miles and would reduce the distance from Panhandle and Colorado points to Waco and South Texas points approximately fifty miles.

### DONLEY COUNTY POULTRY ASSOCIATION HAS BEST MEETING

The Donley Poultry Association met Saturday at the Courthouse at Clarendon and in spite of the threatening day had the largest attendance since its organization. In a spirit of friendly competition the teachers in the different communities organized to bring the greatest number from their respective communities with a result of 108 present at this meeting.

The Chamber of Commerce hearing of this spirit of rivalry offered a full-fledged drink to every member of the community bringing the greatest number. This was won by the Naylor community with Martin a close second. Of course Clarendon was counted out of the competition due to the fact that it is practically no trouble for those living in Clarendon to come out—when compared to the longer distances covered by the other delegations.

This work is in direct line with the other Home Building work carried on by the Home Demonstration Agent, Mrs. Chitwood and the County Agent—unknown at this time for since Mr. Bennett's resignation we have not been able to get a suitable man to take his place and it is not known just when such a man will be sent to us by the College.

It was organized several months ago for the purpose of studying and discussing the most profitable and practical method of breeding and growing home and farm poultry and its possibilities are unlimited. It is not generally known that the poultry products of the United States are worth each year more than all the cotton products produced within the same period. Nor is it fully appreciated that the chicken, eggs, turkeys and ducks of America are valued at over \$100,000,000.

It is just as much a matter of pride to a real business man and builder in the City of Clarendon that Chickens and Memphis are going to pave their business district as it is that the United States is the greatest country in the world.

It should be a matter of pride and self-satisfaction to every business man in the city of Clarendon that the Silver Crest Farm, Franklin Farm, McBride Farm, Harris Farm and a dozen other farms of Donley County have some of the finest pigs in the State in the same way that they are proud of their store fronts, interior furnishings etc. It all speaks growth, prosperity, development, expansion and profit for the future.

A summary of some of the work done in Donley County upon this basis is of interest at this time. The figures are taken from the annual report of Home Demonstration Agent Mrs. Chitwood, sponsor of the Poultry Association, Girl's Canning Clubs and Women's Demonstration Clubs etc. It does not include the figures of the work done by the County Agent from the fact that Mr. Bennett has resigned from this work and the figures for the past year are not available at this time.

Through the Home Demonstration Agent of Donley County covered 5,913 miles of roads in Donley County holding 102 meetings in addition to the home and club demonstrations and assisted, directed and otherwise was responsible for the canning of 2,995 half gallon jars of fruits and vegetables—approximately value at present prices of 30¢ for same size can vegetables—counting two 3 lbs. per half gallon—\$2,095.50; 1160 quart jars fruit and vegetables values \$406.00; 1178 quart jars beef @ approximately 50¢, \$589.00; 438 quart jars pork @ approximately, 50¢, \$219.00; 400 quart jars poultry @ approximately 75¢, \$300.00; 2999 quart jars jelly, preserves, etc., @ approximately \$1189.60; 1736 quart jars assorted by Girl's Canning Clubs, @ approximately 30¢, \$520.80—A grand total of \$5,330.30.

That total is the money value alone and does not take into consideration the lifelong value of the information given, the lessons learned and the improved living conditions resulting from an interest and appreciation of this work. Nor does it include the great amount of canning done by individual members after benefiting from the lessons taught and the processes learned thru these demonstrations. Nor does it include the practical dishes learned, to be served on the very day and special day meals, nor the sewing, care of milk, home garden, poultry and many other practical improvements and profitable improvements learned in connection with the conduct of the average farm home.

The Home Economics Short Course held at the high school building was in continuation of this work and was a great success in every way. The Canning Club Courses that are held every summer is also a part of this work and of untold profit to the coming homes that will become the backbone of our growth and progress. Clark and McFarland of the Silver Crest Farm and Franklin who own the 2nd Prize Boar in the State of Texas appreciate the value of the work of a County Agent and are very anxious to get another man on

### THE PUBLIC SCHOOL EDI- TION OF THE CLARENDON NEWS WILL APPEAR SOON

In order to present a complete report of growth, standing and future needs of the public schools of the City or Clarendon the Editor of The News has consented to allow the Chamber of Commerce and School Board to hog all the space desired in the next week's edition of The News. In anticipation of that edition it might be well for every parent and citizen of the town to ask questions, visit the school or otherwise inform themselves as to the general condition and results of the public schools in the City of Clarendon in order that they may intelligently appreciate the facts, figures and statistics that are presented in this edition.

The Public Schools of the City of Clarendon are absolutely first class in every requirement of the State Board of Affiliation. The recent inspection of this district made a most favorable report upon the class and grade of work done, equipment of the buildings and other matters. But the problems that face the school board are the same that face the city—the change or growth from a village or small town to a full-fledged flourishing city. With an enrollment of more than 700 and an average of about 50 pupils per teacher the problems of another year even without allowing for the growth that is most evident, are such as will require serious consideration by every parent and citizen of the town.

In preparation for this Special School edition then, let's inform ourselves as to the general conditions and work of the schools and be in a position to intelligently read and discuss the problems submitted in this special edition. It is a matter vital not only to the growth of our city—but the individual welfare of every child in every home in the City of Clarendon.

Let us think.  
Curtis A. Keen, Secretary,  
Chamber of Commerce.

### FARMERS MAKE CLARENDON NOTED PRODUCE MARKET

One of the many reasons why farmers of this section are so prosperous is because they sell more than they buy. The prosperous farmer brings something to town to sell most every trip instead of living out of a paper sack or a tin can. The Parsons meat market alone shipped one hundred and seventeen cases of eggs the past week. Many other merchants also handle eggs as well as other country produce making it worth while to bring this commodity here for a ready cash market.

The job to take Bennett's place since it has already been allowed by the Commissioners. Our reputation for pure bred stock is one of the greatest assets Donley County has and it is destined to be even more so within another year.

The farmer or the farmer's wife that is not interested in better grade stock, improved methods in the home and still cook and sew and farm and grow razor-backs like Pa, are the ones that need this work most and are naturally the ones that stay the furthest away from it. It should be the part of every progressive farmer and housewife in Donley County for 1920 to convert at least one neighbor to progressive methods within the year.

## CLARENDON COLLEGE GETS \$200,000 ENDOWMENT FUND FROM EDUCATIONAL BOARD

COUNTY COMMISSIONERS  
HOLD A VEY INTEREST-  
ING SESSION THIS WEEK

The board of county commissioners composed of F. L. Goldston, J. G. McDougal and T. L. Naylor held an interesting session this week and one that means much to the financial welfare of the county in general. Mr. Anderson was unable to attend owing to pressing engagements elsewhere. The bridge over Carroll creek on the Clarendon and Groom road is about ready for travel and will be by the time this is read. This bridge is of heavy steel construction with concrete piers and abutments and is a credit to the board and especially to Mr. Goldston who superintended its building. Bridges over both Buck and Parker creeks built under instruction of Mr. McDougal are said to be among the best in the Panhandle, eliciting no little praise for Mr. McDougal on the part of the folks who travel those roads. The Board is considering the question of employing four men to look after the roads of the county which is a wise move. Men may be employed on a regular salary much cheaper than at irregular intervals, besides a trained man is worth two of the green type any time. The saving to the county would amount to a large item in the course of the year aside from the big saving to the traveling public. Any county is fortunate indeed to have a constructive board of commissioners, especially road building men. Donley needs roads if any county ever did and it remains for the public to encourage the Board to see that this work goes steadily on. Talk good roads to your commissioner every time you see him—he might otherwise never know just what you want.

### CHURCH BUILDING PROGRAM HAS BEGUN IN EARNEST

The extensive church building program to be presented this spring is a big one and represents at least three different denominations to say nothing of extensive repairs to the other church buildings. The first number on the program is the Church of Christ, they have broken ground this week on east third street, two blocks from Kearney. This will be a ten thousand dollar structure or better. The Presbyterians and Christian Church people will soon begin their building programs. Clarendon may become as noted for its nice church structures as it is for the nice residences. Who knows?

### REXALL DRUG STORE SOLD TO PLAINVIEW DRUGGIST

A deal was closed Tuesday whereby the Rexall drug store owned by E. F. Bryan and son became the property of R. A. Long of Plainview. Mr. Long has been in the drug business for nearly twenty years. E. F. Bryan will devote his entire attention to the realty business in the future.

Charley Biggs of Vernon visited personal friends here the first of this week.

## BUSINESS MEN'S TUESDAY LUNCHEON HAS A VERY INTERESTING MEETING

The second business men's luncheon scheduled for Tuesday of this week, drew the attendance of the first one with the general enthusiastic sentiment expressed on every hand. The News believes that the weekly luncheons will grow to such proportions that it will tax the capacity of any dining room in this city to take care of it.

The luncheon was held Tuesday at the Denver Hotel with Secretary Keen acting as chairman or toastmaster. Two guests were present, Mr. R. A. Long of Plainview and Mr. Allen, a traveling salesman. Mr. Allen was introduced by Robt. Strickland of Strickland-Story, while Mr. Long was introduced by the chairman with the statement that he (Mr. Long) was our guest today but having contracted for the purchase of the Rexall Drug Store from Bryan & Son of this city, would soon be a full fledged citizen. In response Mr. Long expressed his thanks at being present at such an auspicious occasion and remarked that when he came here with his family he hoped to prove no drawback to the city in any score. He said that he was impressed by the fact that practically every one present at the luncheon was a young man, reminding him of that glorious aggregation of young men who forced the Hun back across the Rhine and saved civilization for the world. He felt that the future of the city might well be entrusted to an organization of such aggressiveness and determination and that he was fortunate in having selected

Pres. G. S. Slover of Clarendon College, returned the latter part of last week from Nashville where he attended a meeting of the General Board of Education for the Methodist Episcopal Church, South, and where resulting from the consideration of the needs and future of Clarendon College, the institution was granted an endowment fund of \$200,000.

The general board has planned a church-wide drive for \$23,000,000 for denominational schools in the coming year, and from this fund to be raised will come the \$200,000 granted Clarendon College. Pres. Slover has been planning for a half-million dollar endowment grant, and some of the board were in favor of that sum being allotted to this school, but when it came to the vote the sum was reduced to the amount named, with the provision that the North-west Texas Conference might increase the \$200,000 to whatever sum they chose, after they had raised the quota set for this conference. This gives the school an opportunity to get additions which might run the whole amount up to a quarter of a million dollars.

The endowment fund will not be used for buildings nor permanent improvements, but the income from its investment will be utilized in the supplementing of teacher's salaries, the adding of other teachers to the faculty, and like expenses.

In the recent drive for funds to be used in paying off indebtedness and making needed improvements at the College, something like thirty thousand dollars was raised. Certain indebtedness guaranteed by individuals, friends of the institution, have been liquidated, and plans are being worked out for the installation of a central heating plant during the coming summer.

Another feature of the drive just made is that when the church-wide movement is made, the local church will not be expected to raise anything, since the quota to be assessed against Clarendon church has already been exceeded.

Much improvement will be made at the College before the opening of the next session next September.

### WILDCAT PROSPECTS VERY ENCOURAGING THIS WEEK

Lelia Lake takes first place in point of attraction this week the formation having been blue lime for several feet. Oil men are watching the progress of the well and expect something worth while to show up most any time. Phil Engel stated Tuesday that the formation was the best to be found in the Panhandle to date. Mr. Engle is a man of experience and owns the rig that is doing the work. His judgment carries much weight with men who are in the game. Bets of five hundred to one were being offered here this week that the Lelia well would be a winner.

The Grogan well spudded in with the usual ceremonies at four p. m. Tuesday in the presence of a large crowd. The occasion was considered quite an event by many who are interested.

## BUSINESS MEN'S TUESDAY LUNCHEON HAS A VERY INTERESTING MEETING

Clarendon as his home. Mr. Long greatly pleased the grocery men and drygoods men present by giving out the information that he had a family of eight children when all were at home, six of whom were girls. At the prospect of such a lucrative addition to the population of Clarendon at the suggestion of the chairman, Mr. Baldwin made a brief and welcoming response in behalf of the drygoods business of the city.

The subject for discussion at this luncheon was the question relating to the completion of the Y. M. C. A. building for this city. Mr. T. F. Connally made the opening talk, explaining just what had been done already, just how bad such an institution was needed in Clarendon, stressing the fact that the incomplete state of the building stood as a reproach upon the fair name of the town. After pie and coffee there was further discussion, the result of which was a concrete proposition whereby the committee of five men representing the business men of the city would work in conjunction with five members of the American Legion of the local post, to put on the campaign for \$15,000, to complete the building and furnish and equip it in the best possible manner. This is treated of in another column, but it is considered one of the most important steps ever taken by the Chamber of Commerce.

The luncheons are growing in favor and attendance. Be there next Tuesday at 1 p. m. If you are not on the list, get on today.

Those cryptic citizens who thought the statement of a few weeks back about the editor getting into overall and putting up the new press was all bluff, should have been around the office from Friday of last week to press days of this week. We'll have to admit it was a bluff to start with, but it was one of those kind of bluffs, that one sometimes has to back up. The editorial hands will bear the marks of the job for many days. That grease and stain is embedded and seems likely to stay.

Our cankerous friend, Editor Loomis up Canadian way, makes a futile attempt to jab us in the shorts about making a news item on the erection of a \$10,000 home in Clarendon, going further in an effort to rub it in by telling us that there were many homes in Canadian costing much more than that. We don't doubt it, Bro. Loomis, not for an instant. But, kind sir, you mustn't get the idea that there are no better homes in the Queen of the Panhandle, than the one we referred to in the item under your microscopic inspection. Really, you mustn't, Bro. Loomis. We have much more expensive ones—gobs of 'em—and when you come down here to attend the 1921 Panhandle Press Meet, we intend to show you, along with some other Missourians, all the wonders and attractions of Seraphic Clarendon. No, Bro. Loomis, the item was only "e pluribus unum," given every week about every building project

from the humblest cottage to the most palatial mansion, in the home city of The News. It's our mission and our privilege. You say, "see Canadian." That has a welcome sound to it, Bro. Loomis. Invite the P. P. A. up there for 1922 and see if The News editor isn't one of the first ones there. It will be a pleasure.

The News is having some fun these days getting every thing just to the dot to issue a standard seven-column newspaper. About the time we got the press up, we noted that the paper shipped us... of hours... be the "short seven" size. In other words it is seven column wide, all right, but it is the same length of a six-column page. This forced us to print the short page this week, but maybe next week, we can put on a standard page—if the proper size shows up. This changing presses and size of the paper is a most atrocious job, but, glory be, it don't happen but once or twice in a life time.

Every once in a while some young man gets a marriage license and then comes to the Lender office and asks us not to publish the fact until after certain date. We wish to serve notice right here that court records are public property and if anyone wants to keep their name out of the paper they should keep it out of the records at the court house, for we want to publish any item, especially such as issued.—Wellington Leader.

One of the things that we have to contend with in publishing the Canadian Record is the desire of many people who want to keep real news items from being published. Some people seem to want to keep marriage news out of the paper until it seems like it is about time to make an announcement of the birth of the first heir to the couple. Some people don't want the court news published as if it would injure anybody to let the public know what is grinding thru the legal grist mill. If the public would be a little more free to give us news items we could publish a more interesting paper. Instead of giving us news items the Canadian public seems to want to suppress the publishing of the news.—Canadian Record.

### OUR EXCHANGES' VIEWS ON GOVERNOR'S RACE

Seven years ago when Joe Weldon Bailey voluntarily retired from the United States Senate, he announced that he had acquired a sufficient amount of legislative experience and that it was his intention to devote his energies henceforth to acquiring a competence for his declining years.

He left the Senate a poor man. Mr. Bailey's determination to obtain a competence has been realized. He is now a wealthy man; and he has just passed the half-century mark, and shows no indications of "declining years." He made his money through the exercise of his remarkable talents along constitutional and legal lines, and is said to have participated in most of the important cases before the Supreme Court in the last several years.

When he first went to Washington as a Texas Representative, many years ago, Mr. Bailey swore he would never wear a dress suit or a silk hat. Now he wears both.

But, despite his wealth and despite having succumbed to dress clothes and high hats, he is steadfast in his adherence to Jeffersonian ideas. Irritation takes possession of him when the constitution is attacked, and, although a Democrat, he doesn't like Wilson or anything that is Wilsonian.

Mr. Bailey wants to get back into politics, and he has selected the governorship of Texas as a medium for getting back. He has announced his candidacy for governor, and his friends declare his election is a foregone conclusion. They also confidently predict, we learn, that he will be a candidate for the Senate in 1923 against Morris Sheppard, whom he holds solely responsible for national prohibition.

Also, if the reports are accurate, Mr. Bailey desires to dictate the instructions which shall dominate the delegation that Texas sends to the Democratic national convention at San Francisco next June. Or, in other words, he wants the delegates to go uninstructed, and he wants to be one of them.

It looks like Texas is in for a hot time politically. But notice should be

## GOLDSTON BROS.

With a great flourish of trumpets Joe Bailey's long delayed announcement for governor went out into the world yesterday. No doubt he will command a large following, but whether his following is composed of the best elements of the state stands to be seen. When it comes to eloquence Bailey probably stands ahead of any other man in state, but we take it that most voters will want something else besides the gift of spell-binding in their public servants. Congress and the Senate, we realize that the man has made poor use of the great gifts he naturally possessed. His record is not such as to promise much as the executive of Texas.—Quanah Tribune-Chief.

R. E. Thomason has issued a challenge to Joe Bailey to let the governor's race between them be decided in Cooke county; the candidate who is defeated there, his home county, to withdraw from the race. Bailey seems to be reluctant to accept, and is sparring for time though he admits that he does not want the office if his own county won't support him.—Quanah Tribune-Chief.

They say Bailey is disqualified from being governor of Texas because he has not "resided" in the state during the past five years. But Pat Neff says he will beat him anyhow, so that is an immaterial question.—Henrietta Independent.

Speaking of "Good Lookers"

Have you seen our new stock of Goodyear tires in the smaller sizes?  
The famous ALL-WEATHER treads add as much to the looks of a Ford, Chevrolet or Maxwell as they do to any of the big high-powered cars.  
And they give the same mileage in these smaller sizes.

There are two other types of Goodyear Clincher casings in these sizes. We believe that each type is the best of its kind at its price.

Come in and look them over!

YOU CANNOT

afford to insure yourself; otherwise you would not need insurance.

The same reasons that prompted you to carry insurance should, upon due inquiry, admonish you perhaps to take out more insurance, because of the constantly increasing cost of building materials, labor, and nearly every other item of expense entering into the cost of making repairs, or of rebuilding, after a fire.

In the past 30 years more than \$400,000.00 paid out on losses and never a POLICY CONTESTED.

Get the Best Here and Pay No More

The house that gives so-called "bargains" in groceries, also gives inferior goods, which are expensive at any price.

We do not make a bluff at offering you-bargains at the prevailing high prices. There are no bargains any more in any line.

But we do give you the best groceries to be had and no one can charge less for the quality we sell. Our prices are low considering the cost to us because we have reduced our margin of profit.

LOCAL & PERSONAL

C. D. Aury has accepted a position with the City Drug Store.

J. R. Walls was a Lakeview visitor in the metropolis of Donley Wednesday.

Harry Pierce was up from Palodura Wednesday giving a good report of his section.

W. M. Elliott, hustling farmer of near Brice, brought in a big load of cotton Wednesday.

J. D. Maston came up from Hedley Wednesday morning to look after some personal business.

Mr. and Mrs. Jack Hutson of Goodnight were shopping in our city Wednesday of this week.

G. M. McAllister has important business in Amarillo this week including a visit with personal friends.

J. R. Rhodes of Brice brought in his last batch of cotton Wednesday sold it for a big price and went his way happy.

E. W. Grogan is spending the week in Fort Worth seeing the big features of the stock show and attending to business matters.

Mr. Baskerville, the Memphis cotton buyer, was in town this week taking over quite a bit of the fleecy staple from local buyers.

E. D. McAdams returned from a business trip to Dallas Tuesday night. He reports a crowded train, slow speed and a sleepless night.

W. L. Campbell and son, Dewey, of McLean were here over night Wednesday on their way to Fort Worth and other places of note down the state.

Ed O'Neal of Ashtola laid in supplies here the middle of this week. Ed expects to see oil spout out of the ground up his way within a few months.

Mark Ford, well known to all the garage men, made this town Wednesday and informed the reporter that business was never better all along the line.

Bertie May of Goodnight, all round trader, showed up here Wednesday and reported wheat prospects good up his way. Bertie has three hundred acres of his own.

John S. Clymer received a message Wednesday morning informing him of the death of his father at Loveland, Colorado. John visited up there, a short time ago. His father was past ninety years of age.

Bryan Richardson of Leslie bought supplies of local merchants Wednesday.

Wheeler Bannister of Dallas is visiting his niece, Mrs. Chas. Speed of this city.

R. S. Heizer left Sunday night for Kopper, Texas, to visit his only daughter who is ill.

Elec Hatley marketed cotton here from Brice Wednesday. Elec made lots of cotton this season and will try even better next season.

F. M. Guinn, prosperous farmer and public spirited citizen of Brice had business here Wednesday and marketed a big bunch of cotton at the same time.

A. J. Montgomery of Miami was here most of the past week visiting with his father-in-law, J. W. Marshall. Jim performs the function of a bank clerk in his city and is a fine young fellow.

Bolie Mayo is in town this week visiting his father, G. W. Mayo. Bolie has been making his home in Amarillo, but will hereafter be located in Goodnight, having purchased the garage of that place from Mr. Wallin.

E. C. Moore was another Hedley-ite to make Clarendon on his rounds the middle part of the week. He states that farmers are about thru pulling bolls down that way and some have already begun the next crop work.

Allan Jeffries returned from El Paso Sunday night. Allan is in on a dandy good bunch of steers out there, Fred Chamberlain and M. T. Pyle being the other men interested. Allan states that spring has already "drove up" out there.

T. M. Pile will leave the latter end of the week to see the stock show for a day or so, after which he will visit San Antonio, Houston and finally visit relatives around San Marcos. He expects to be gone a week or ten days.

L. N. Collins, long time merchant of Claude, has sold his stock of goods to J. L. Tims of Hedley who will move the stock to that town at once. Mr. Tims contemplates putting in a big stock of general merchandise in the city of the great cotton country.

J. P. Montgomery of the Leslie community was in town Wednesday and informed us of the serious illness of his daughter, Annie Irene at Memphis. The young lay is somewhat improved at this time and will be taken back home as soon as her health will permit. Her complications seem to be the trouble.

B. F. Folly of Turkey was an overnight visitor in the city on his way to Hedley to visit his son.

C. C. Holcomb of the Leslie community was in on a business mission during the middle of the week.

Oscar Smith of Jericho was in town Wednesday and gave a glowing account of wheat prospects up that way.

John Ryan has been out of town for the past several days but we cannot vouch for the place or his conduct.

Curtis Keen, live secretary of the Chamber of Commerce and T. Eustace Allen had business in Amarillo the last of the week.

Richard Barksdale and Miss Winnie Graves of Groom were united in marriage at the Manse Thursday, W. H. Foster officiating.

R. O. Thomas this week moved back to Clarendon from Alamo. Mr. Thomas decided to live in the cream of the Panhandle while he was about it.

Mr. and Mrs. J. T. Warren and baby are taking in the show at Ft. Worth. Mr. Warren will continue on down to central Texas in the interests of his firm before returning.

Harry Warren is in Dallas for a time, taking advantage of a special course given by the government in business training. The work includes that portion of the law relating to the real estate and insurance business Harry means to take advantage of every chance to better qualify himself for his chosen profession.

A letter this week from our enterprising young friend, Chas. Dean principal of the Pampa schools, informs us that Pampa is waking up to the tune of a hundred and fifty thousand dollar school building. Much interest is being taken especially since the State Educational department has recommended the Pampa school for ten additional units affiliation, all of which speaks well for an important factor.

The News is in receipt of a letter this week from J. E. Noack, formerly a resident of this place but now a prosperous farmer of near Post. Mr. Noack informs us that he raised a good crop on his place this last year, selling over \$8,000 worth of stuff off 145 acres of ground. He states that land costing him \$47 a year ago, could be sold any day for \$75 per acre. His many friends here will be pleased to learn of his prosperity and good fortune in general in that new location.

I AM THE COUNTRY WEEKLY!

I am the Country Weekly. I am the friend of the family, the bringer of tidings from other friends; I speak to the home in the evening light of summer's vine-clad porch or the glow of winter's lamp.

I help to make this evening hour; I varied the great and the small the varied acts of the days and the weeks that go to make up life.

I am for and of the home; I follow those who leave humble beginnings; whether they go to greatness or to the gutter, I take to them the thrill of old days, with wholesome messages.

I speak the language of the common man; my words are fitted to his understanding. My congregation is larger than that of any church in my town; my readers the more than those in the school. Young and old alike find in me stimulation, instruction, entertainment, inspiration, solace, comfort. I am the chronicler of birth, and love and death—the great facts of man's existence.

I bring together buyer and seller, to the benefit of both; I am part of the market place of the world. Into the home I carry word of the goods which feed and clothe, and shelter, and which minister to comfort, ease, health and happiness.

I am the word of the week, the history of the year, the record of my community in the archives of state and nation.

I am the exponent of the lives of my readers.

# A New Season With Our Customary Spirit of Service

The Spirit of Service is reflected in every activity of this store—reflected in new, fresh and dependable merchandise; in the standard of quality, maintained despite obstacles; in breadth and variety of assortments; in the due regard for taste and utility. It's the very life-blood of this institution.

Now we are fully prepared to meet every individual requirement for new and exclusive clothes. These early exhibits offer a wonderful opportunity to study Spring Fashions in suits, coats, dresses, skirts, blouses and accessories of the highest type of quality. This we believe is the opportune time to visit the Store of Service.

## Every Blouse

So Fresh and New

Such crispness and simple tailored charm in the new wash blouses of the loveliest, sheerest dimities, dotted Swisses and sheer handkerchief linens! Included are the new tie-on and hip blouses of Georgette and crepe-de-chine embroidered and combined with contrasting fabrics.

—Up to \$30.95.

## Skirts

Simple But Lovely

Because of the many styles of which they are made, this display is a treat for the eyes of women who delight in the new in clothes. Fashioned of shimmering satins and other charming silks, of smart plaid and striped wools of light weight—in plain or draped models—or in pretty pleated tunics, they offer a world of opportunity for exerting one's individuality in choosing. All skirts are somewhat shorter this season.

—Up to \$37.50.

## New Suits

The salient feature of the Suit Styles for Spring is the length of the jacket with the shorter length dominant. Our displays include several types which introduce coats with belts and ripple peplums, or jackets of the Eton and pony types with trimmings of close-set rows of buttons on sleeves and at the sides, or with braid and embroidery effectively used. Several models show vestees of broadcloth or novelty silks. Suit skirts are somewhat shorter and can be either pleated or plain. Poret twill, tricotine, serge, and gaberdine are the principal fabrics in rich dark colorings.

\$24.75 to \$83.50

## The New Coats

Our displays include interesting interpretations of both the utility coats and sport Coats of shorter length, with a plentiful showing of belted models, in both types. Many of the luxurious cloth fabrics of winter have been reproduced in lighter weights for Spring such as silver-tone, velour, and novelty wool fabrics. Some very exclusive styles have made their appearance in tricotine, serge, poret twill and polo cloth. Indeed the latest whimsies of Fashion are adapted in these garments. All show an excellence in tailoring.

\$27.50 to \$49.75

## The New Dresses

Every spring occasion, every individual taste and requirement are happily remembered in this assemblage of new Frocks. The straight line type is still popular with the addition this season of the more fitted lines as shown in several of our afternoon and evening dresses. The fuller hip line is noted in many delightful variations by the clever use of pleatings and ruffings, or by the effective draping of materials. Waists are fitted and skirts are shorter and fuller—with much thought given to individuality in styles. Several frocks are shown in the ever-popular crepe Georgette and satins, richly embroidered, and taffetas.

## New School Dresses of Fine Gingham for Girls

frocks from these fresh, new assortments of Spring styles will quickly receive the approval of the young lady because the designers have a rare and intimate understanding of youth, its simplicity, and withal its love of things up-to-date. Fashioned from ginghams of pleasing quality assures a Service that intensifies satisfaction.

## Ladies' and Misses' Footwear Styles for Spring.

We wish it were possible for you to know how many thousand pairs of shoes are in our shelves awaiting your choice. Suffice it to say that our indeed is a very large stock, including in their number all the wanted styles, lasts and leathers, and we KNOW that, in comparison with prices of other shoe dealers, ours are as low as it is possible to sell them. In some instances you are offered shoes at retail prices much less than is asked at wholesale for the same shoes today.

Black and Brown, in kid and calfskin, still hold the lead in calls and style, with the best of leathers leading. Among the many shown we call your attention to some of the most called-for.

A beautiful little pump with the neatest kind of little "tongue" effect, in both Louis heel and military, of beautiful kid, priced at

\$10.55 and \$9.50

Oxfords of brown kid, in military heel, with a very stylish toe—a shoe of unusually good taste, and a "Drew"

\$11.50

For the misses' wants, we have a wide range of shoes to select from, in both black and brown kid, as well as calfskin and gun metal, including numbers from both "Drew" and "Red Goose." Prices on these are as reasonable as you can find equal quality for, in any store in our broad land. We earnestly invite your inspection of our big stock of Ladies' and Misses' high shoes and low shoes.

## Snappy Hats for Spring

You can begin wearing a new Spring hat very early this year; we have the new styles now on display, with winter still in our midst. Soft shapes of exceptional quality, and correct in every detail of style are just enough different from those of last season to quicken a desire for a change to the new.

## And Caps, too

Are at our store in abundance, handily displayed so you can pick out the particular style and color that appeals to you.

Priced upwards from \$1.50, according to quality and workmanship.

## Stylish New Suits for Spring

Small wonder that men and young men are impressed with the clothes that they see in this store. Our specialty is better clothes and better furnishings—made of the finest fabrics and finished to standards of quality which only skilled manufacturing can give.

The new spring suits for men and young men are here, ready for inspection. And you'll see no better suits than these this season.

Brisk, yet dignified in style and of the finest wool fabrics obtainable, tailored according to the most exacting list of specifications known in the clothing industry.

A combination that insures the finest ready-for-service clothes.

**\$35.00 to \$69.50**

Men of unusual proportions will find no difficulty in being satisfactorily fitted.

## Men's and Boys' Shoe Department

The constantly increasing volume of our men's and boys' shoe business can be due to no other thing than that those who have bought shoes from us have found them satisfactory in wear, looks and comfort. These three things constitute the final test of shoes, and, failing in any one of the three, the customer looks around for another shoe dealer.

We do not carry a "Duke's Mixture" of shoe brands, believing that we can best serve our customers and our interests by confining our lines, when the supply available will permit, to as few lines as possible.

### —"PACKARD"

Shoes for dress wear in black and brown kangaroo leather and calf-skin, in four lasts, and several widths. Including war tax \$12.55 to \$14.40.

### —"McELWAIN"

Shoes for the man who wants good honest shoes of leather, combined with reasonable style and finish at a moderate price. Boys', \$4.75 up; Men's, \$7.50 up.

### —"FRIEDMAN-SHELBY"

Shoes of All-Leather, made for wear—and comfort—not for looks. This is probably the best known line of work shoes in Donley County, and for a good reason: **THEY WEAR.** Priced at from \$5.50 to \$7.50.

### —"RED GOOSE"

Shoes for Boys and Girls, made by Friedman-Shelby, and the biggest selling line of boys' and girls' shoes in Donley County, Carried in a wide variety of styles and prices, all good and worth the money.

### LITTLE LIFE LINES

W. H. F.

"Character, the safety of church and state, must be built in childhood through religion."

The stability of stocks, bonds and market values is due to the character of men who handle them. Credit is based on character. Character will break under strain without religion to hold it steady.

Therefore—  
If you don't believe it, consider the political and economic condition of Russia.

Character on religion.  
Safety of values on character.  
Safety of the nation and church on right conception of character, dealing with material values.

## Let's Get Acquainted

"Get better acquainted with your neighbor—you might like him!" That's a pretty good motto for a community like ours, isn't it? Town folks should get better acquainted with country folks; the merchants and the bankers should get to know the farmers—and how they are farming. Speaking for this bank, we'd like to get acquainted personally with every farmer hereabouts—he might like us enough to deposit money with us; we might like him enough to lend him some. Anyway, we could swap ideas—and perhaps add his name to the rapidly growing list of subscribers for

## The COUNTRY GENTLEMAN

Sometimes banks get acquainted with farmers by giving good advice, or urging good roads, or organizing calf clubs among the boys. That last was the way of one whose story is told in THE COUNTRY GENTLEMAN dated March 6. And we'd like to get acquainted with you through this Great National Farm Weekly itself. We know that THE COUNTRY GENTLEMAN—helps farmers all over the United States to make more and more money. It would please us to see you making more money too, so we stand ready to send in your subscription if you just say the word. One dollar buys it for a whole year—52 big, friendly, helpful, weekly issues. Get acquainted with THE COUNTRY GENTLEMAN—you're sure to like it.

Why man—  
we made this  
cigarette for you!

CAMELS fit your cigarette desires so completely you'll agree they were made to meet your taste!

Unique flavor, fragrance and mellow-mild-body due to Camels quality and expert blend of choice Turkish and choice Domestic tobaccos are a revelation! You will prefer the Camel blend to either kind of tobacco smoked straight!

With Camels you can go the limit without tiring your taste. They leave no unpleasant cigarette after-taste; no unpleasant cigarette odor!

To get a line on why Camels win you so completely compare them puff-for-puff with any cigarette in the world at any price. You'll prefer quality to coupons or premiums!
