MARTIN SCHOOL DISTRICT WINS COMMUNITY EXHIBIT PRIZE--TWO TIE FOR RED RIBBON

FRIDAY AND SATURDAY ATTENDANCE AT DONLEY COUNTY'S FREE FAIR EXCEEDS EXPECTATIONS--WINNERS ARE ALL IN STATE FAIR CLASS--POULTRY EXHIBITORS JUBILANT OVER SHOWING AND PLAN FOR WINTER SHOW.

The Donley county fair is now history but the good accomplished will live on for years to come. What the exhibits lacked in quantity, was made up in quality. Never before were such specimens so near perfection shown at any fair in the Panhandle. Not an item was lacking from the lowly cucumber thru the wonderful specimens of handiwork of the Creator or the skill of man. The skillful needlework of the ladies, the paintings, some of which were being done by the amateur class, were a complete surprise to many and dozens of those artistically inclined spent hours in the art gallery viewing the paintings on canvas and the finest grades of china that included Haviland and many other of the best known makers. The exhibit of needlework included specimens extending from the simplest forms of tatting to the finer grades of most delicate crochet and drawn work. In this department was exhibited a mattress, the product of the skill of the Whipple company. Many of our home people were agreeably surprised to learn for the first time that such manufacture could be had right at home. The culinary exhibit was enough to awaken the gastronomic faculties of the most dyspeptic. Those who took the interest in this important part of the program feel that real cooking is not a lost art by any means, despite the modern-day scarcity of real home builders.

The old relics came in for their share of attention, some of which were in charge of the Panhandle. This class is too numerous to mention but it is a proven fact that the old relics shall hereafter be a regular feature of the fair program in Donley county. All of the above were shown at the "V" building and were in charge of the Panhandle. Those who are alive to the best interests of the county and to whom credit is due. We might add further that in the above mentioned exhibit were to be found any number of specimens of home canning in glass receptacles of various sizes and assortment—just like mother used to can, only better and a larger assortment.

The agricultural exhibit displayed at the Highway garage where space and other facilities afforded a proper display, surpassed even the expectations of those who had the work directly in charge, to say nothing of the casual visitor. Immediately after passing into the building from the east entrance, the visitor was greeted with the homely article that enters chiefly into the good old-fashioned pumpkin pie—the like of which carries us back to our boyhood days when mother's duties afforded the hungry boy an opportunity to swipe just one piece of the toothsome delicacy and return for more if the wretched candy was in charge of the Panhandle. The vegetable garden represented about everything that is grown for the appetite of man. Beans, peas, beets, squash, melons, tomatoes and dozens of other things that smelt the high cost of living into the pockets of the farmers and a mule! The city man wondered what it all meant while his country cousin placed the fruits of his toil in fanciful array in booths provided in a manner for the best display of products grown in the "Cream of the Panhandle." Feed! Sure, and that in great variety. Farmers of this county are not slow in taking up new varieties either as evidenced by the wide range of farm products on display. Corn, that one time article treated with scorn and now rated as a delicacy, came first in great variety including yellow, white, blue, and red, and others to this long list was added several varieties of popcorn. The nut crop was represented by peanuts of the Spanish, big red and big white varieties and one exhibit of pecans. A fine showing of maize, kaffir, hegaris, feterita, Egyptian wheat, broom corn, sudan, cane, were to be seen attesting the wonderful productivity of our soil and the possible production of a wide range of variety.

Above the time you made up your mind that you had seen it all, you would bump into an egg plant, artichoke or some other variety of succulent variety of some kind that even truck growers did not know grew right here in Donley county. The work of Mrs. Ida Whitwood as county demonstrator was much in evidence in more places than can be named. The exhibit of needle work, the canning clubs, etc. in the display of community products, the same unselfish work of the lady who devotes time to the proper instruction of the older as well as the younger folk, was everywhere in evidence.

After one looked over the community exhibits of Martin, Ashtola, and Giles, it became a question as to how the most expert judges could determine the victors of the contest. After due deliberation of judges, Martin was declared to take

first place while Ashtola and Giles tied for second place. If you miss the fair of eight this year, regret it and be there next time. The Martin community exhibit included about everything that can be grown in the temperate zone with the possible exception of fruit, a lack of which is due to late frost last spring which calamity befell the whole country. Everything that can be canned was to be seen from a specimen of canned jack bird intact in his nudity including a wide range of vegetables and many articles of fruit, potatoes of more than one variety. Soap of a different grade to the old fashioned variety of manufacture, representing specimens of various shades. Dairy products too were not forgotten. An artistic intermingling of sunflower and cockle-burs reminded us of boyhood days and the "back to the farm" movement.

The Ashtola community exhibit exceeded other contestants in quantity. The best specimen of millet was shown here. Canned products of a wide range of variety were shown and the arrangement was all that could be wished.

The Lelia Lake exhibit in charge of Miss Hazel Eynum consisted principally of canned products, all of which were in keeping with those of other communities. It is said that it required twenty-four autos to haul the Lelia Lake exhibit. Every form of work done in the home almost was shown at the various community exhibits including the lowly patch. To patch properly is just as much an art as anything else and to wear patched clothing is no disgrace to any one.

The Goldston exhibit was unique in many respects and especially the lettering done with vari-colored grains of squaw corn, a careful and artistic blending of which immediately caught the eye of the passerby. The exhibit included fine specimens of field products, canning and other efforts that mean a cutting down of expenses during the days of reconstruction making it possible to enjoy the best fruits of nature at the same time.

The Goldston exhibit won third prize. All of the exhibits of Donley county were along the line shown by the numerous fairs over the state depicting twentieth century methods of manufacture and the latest in field crop products. Local case specimens of the exhibit included fine specimens of molasses and syrup manufacture when some individual or company shall push the matter. The sudan grass exhibit takes first rank with that grown on the south plains or any other place.

The poultry and live stock exhibit proved just as attractive as the other departments. This part of the fair exhibit was shown in the commodious Lott barn and included specimens of the famous Poland-China hogs of the big bone type, O. I. C's, work and breeding horses, chickens of many varieties and rabbits of four different breeds. The hogs shown were of all ages from the baby class to the 1125 pounder nationally famous. The latter mentioned is owned by W. L. Butler & Sons of Lelia Lake and is purely a Donley county product.

NEW OFFICIAL IN CHAMBER OF COMMERCE SECRETARY'S OFFICE

Monday of this week Secretary Roy Mefferd of the Clarendon Chamber of Commerce very quietly and surreptitiously boarded a south-bound Denver passenger leaving little knowledge of his destination and less of his mission. This morning The News received the following telegram: Hico, Texas, 8:22 A. M. Sept. 23rd, 1920. Sam M. Brasswell, Clarendon News, Clarendon, Texas. Ten pound boy arrived Wednesday morning. Be home as soon as possible. Roy B. Mefferd.

Thus the mystery is solved and the detective service of The News is resting from its arduous labors in trying to unravel so baffling a case. The secretary's office of the Clarendon Chamber of Commerce gains another under-secretary, the city of Clarendon will shortly have the added citizenship of Mrs. Mefferd and the Young Hopeful, and Roy will be able to get down to business like a true family man. The local organization thus sets its official seal of approval upon the great doctrines of more babies and better babies and immigration.

HOG CASE CALLED IN COUNTY COURT THURSDAY

The case of the State vs. O. D. Liesberg in which the defendant is charged with keeping hogs within the city limits contrary to an ordinance passed for the purpose of preventing such practice. The city was represented by John W. Veale of Amarillo while the defendant was represented by A. T. Cole and E. A. Simpson. The attorneys for the defense presented a motion to quash the complaint for the reason that the complaint charging the defendant, Liesberg, with keeping hogs within the city limits of Clarendon, was not sworn to before an officer authorized to administer oaths. The complainant, to the contrary, to the before Claude McCallister as clerk of the corporation court. Upon hearing the law and the evidence, the court held that Claude McCallister was not clerk of the corporation court and was not such officer as could administer oaths. In that he had not been appointed in the manner provided by law, therefore the complaint was illegal and the defendant was discharged. This case has been dragging along in various phases since early spring and was watched with much interest by those inclined to keep hogs in the city. An ordinance will likely be passed this week designed to remedy the defects covering this case.

A. L. Luxa sold his home Wednesday to W. E. Hildesheim of Mansfield, Kansas, who will move his family here for school benefits.

LIVE WIRE BADLY BURNS LOCAL LINEMAN TUESDAY

While working at the top of a pole in front of the power plant Tuesday afternoon, John Reed, lineman in the employ of the local plant, accidentally placed his right foot on the iron pipe thru which the wires are passed, leading out of the plant and at the same time took hold of a live wire with his right hand. Just as soon as the wire was grasped, 2300 volts of electricity shot thru Reed's body. Another lineman realizing the predicament of Reed, hastily climbed down the pole and had Mr. Cope turn off the switch. The injured man was taken down and a physician summoned who found that he had suffered a severe burn on his foot, a hole being burnt thru the shoe, as well as severe burn to the right hand and a severe shock to his body. He was later taken to his home at Memphis. He will recover.

MEETING GROWS MORE INTERESTING AT NEW CHURCH

The protracted meeting being conducted by Elder C. E. Wallace at the Church of Christ is growing in interest daily. Mr. Wallace is considered as one of the leading Bible scholars in Texas and is an eloquent teacher. Twenty-one additions to the church have resulted up to this time, 13 of that number being baptised during the present series of services. It is announced that the meeting will continue indefinitely.

SECOND BALE GINNED HERE WEDNESDAY

The second man to land at the local gin with a bale of cotton this season was H. M. Reed, who came in Wednesday. The staple was pronounced of the best grade and sold for \$28.12 1-2 per hundred. Mr. Reed has 22 acres on his farm four miles southeast of town, all of which will make from a half to a bale per acre. He planted shallow on a ridge and thinned his crop, a system contrary to the general custom in this section, most of the cotton raisers not thinning and planting in a furrow.

HALL COUNTY BOOSTERS STORM CITY BEAUTIFUL

A bunch of enthusiastic Hall county boosters aboard fourteen cars headed by a brass band paraded our streets Wednesday for the purpose of advertising the Hall County Fair which begins Sept. 28 and continues to October 1st. The crowd was too big to name each personally, but suffice it to say that if there is many more like them down that way, they will have a sure enough show this season. Going? Of course we are all going.

Dick Wilkerson had business in Ft. Worth the first of the week.

METHODIST REVIVAL IN ITS THIRD WEEK WITH MUCH INTEREST

Few revivals of late years have stirred the Clarendon community like the Methodist revival now in its third week at the big tabernacle on Kearney street, under the direction of Evangelist A. C. Fisher. Sunday morning was the first time during the meeting that the evangelist made a call for penitents, having devoted the two weeks preceding to the work of getting the church and other Christians lined up for service and to denouncing the sins of the modern age. Rev. Fisher is a strong preacher who has no use for the shams of empty profession and who demands a clean-cut experience from those who line up for God's work and the church.

Every service has been brightened by the melodious singing of Song Director, McClesley and Mrs. Fisher in solo and duet. The great choir under the former's direction has proven a great feature of the services and is an inspiration to all those who have attended. Two pianos and a quartette in brass have been used to accompany the singing. The young people of the town are called together each evening at 6:10 at the Methodist church where Mrs. Fisher conducts a special service for them. A men's prayer meeting is held each evening at 6:30 at the Presbyterian church and a woman's prayer meeting is held at the same hour on the south porch of the grammar school building. After the night service the young men of the college held a prayer meeting at the college chapel. Personal workers are busy for the Lord and much good is being accomplished.

Up until last night there had been 175 professions and reclamations, with the interest growing and the faithful working and praying for many hundreds before Sunday night. ANOTHER CAR WRECK IS ADDED TO LIST WEDNESDAY

What came near being a disastrous wreck occurred on west second street late Wednesday afternoon when a Buick roadster car driven by Miss Grogan collided with a Veile driven by the colored boy—Golden Parker—in the employ of R. L. Biggers. Hylanders state that the driver of the Veile was unable to get on the right side of the street due to the young lady having cut a corner, and in order to avoid a collision, ran his car up on the curb and into a post tearing off a wheel and otherwise damaging the car. The roadster was damaged little, the young lady continuing her way without her engine having stopped.

A car driven by a young lady took a swerve at the new roadster of Duke Connolly Wednesday at the bank corner smashing the running board and fender on the right side of the car. Duke has had three different cars happen to bad luck since last October.

Rabbits
J. C. Finley won first on New Zealand of all classes. J. A. Scoggins won second on New Zealand of all classes, first each on Flemish Giants, American blue, furbearing, Angora. Lester Martin won first on angora. The exhibits in the rabbit class were right up to the standard maintained in the other departments. One buck on exhibit is said to have cost twenty dollars.
Baby Beef Club
The first and only prize winner offered for this class went to Winfield Mosely. The lad will also get a free trip to the Dallas fair.
Pig Clubs
Chester Hodges—First.
Gerald Bain—Second.
Herbert McBride—Third.
These three boys won free trips to the Dallas fair, as there was nothing entered in other classes in which prizes were offered.

COURTESY

A comparatively short word, yet it epitomizes the purpose and methods of most well conducted business of the modern type. A business where courtesy and true service do not predominate falls short of its possibilities.

The Pastime Confectionery endeavors to line up to its watchword, "The Pastime Always Pleases"—not only in courteous and prompt service, but also by selling only the highest grade of confections.

Just received the largest assortment of box and bulk chocolates ever shown in Clarendon.

The crying need of Clarendon as evidenced during the past few weeks is a large tabernacle which might be utilized for every community need such as revival meetings, chaunquas, political gatherings, public meetings of all kinds and to provide display room for county fairs in every department except livestock. The News editor has in mind one of the finest sort that we know anything about, located at Fredrick, Oklahoma. This is a large tabernacle capable of seating two thousand people, with removable side walls, which makes it capable of being heated for winter use. This kind of a building is a blessing to every interest in the town and the rentals will keep it in repair, without being more than nominal. The subject is being considered by the business men of Clarendon and should find ready response in the minds and hearts of every citizen. Suitable location can be secured and the whole project should not cost more than \$8,000 or \$10,000. Every organization would benefit from such a building—every citizen ought to be glad to make it possible. How about it, people, for 1921?

Gambling is more general today than it was in the days when the race track and cock fighting ran free and untrammelled. The daily press has been carrying reports from the larger cities of the nation which prove the truth of this statement and The News believes that the most damnable evil following in the train of the great war is this widespread wooing of the gods of chance. History tells us that there comes a moral debacle after every great war and we may expect to have trouble with public morals during the era of reconstruction following this the greatest of modern wars, but this fact does not lessen one whit our responsibility as good citizens to meet the situation face to face and turn back every evil so blighting to the young life as gambling and associate evils. The world war was really won when France fighting with her back to the wall at Verdun raised the heart-thrilling cry of "They Shall Not Pass," and the battle for good morals can be won if the good citizens of every community shall band themselves together with the battle-cry of Verdun as their watchword. This does not mean in independent and critical action regarding the officers of the law, but it means in conjunction and loyal co-operation with the officers. Such co-operation cannot fail and such co-operation will put an end to the gambling mania which threatens to engulf the youth of the land.

The News finally got hold of a Houston dispatch which gave the names of all the winners in the Houston Ship Channel article contest and without losing any of our pride over winning the second prize we were very happy to find that Chas. B. Cantrell of the Greenville Banner won the first prize of \$100, while our especial friend, Sam P. Harben of the Richardson Echo pulled down third money of \$25. Old Sam Harben didn't need the money, but we don't begrudge him the honor at all. A number of newspaper men from cities like Waco and San Antonio were given favorable mention in the contest. Not so bad, for the pen pushers from the smaller towns, eh?

We find on our exchange desk a copy of the Wheeler News-Review, published at Wheeler, Texas, and Clarendon people will be pleased to

learn that the new editor is J. D. Merriman, Jr., who is a graduate of Clarendon College a few classes back. The Clarendon News wishes the News-Review continued good fortune and success.

There are some people living in and around Clarendon who are so careless or full of cussedness that one is compelled to the belief that they would be more at home far from the haunts of civilization than in progressive communities like Clarendon. The News refers to those whose carelessness or cussedness is responsible for their stock running at large on their neighbors' lawns and flower beds. Here of late there has been quite a bit of such imposition on the law of the land and the laws of common decency towards fellowmen and more than one neatly kept lawn or carefully cultivated flower garden has been trampled down with all the abandon of a Hun army ravishing Belgium. If every citizen will phone for the city marshal every time he notices stock running at large, a few pound fees will put an end to this carelessness. If it is cussedness it may take several pound fees to stop it.

Even as every man has some sort of religious creed, so ought every business man have a corresponding business creed. The News found the following creed set down in a trade journal some days ago and we hand it to you herewith, for what it is worth. If you can improve it, do so.

"I believe in the goods I am selling, in the firm I am working for, and in my ability to get 'results.'
I believe that honest goods can be sold to honest men by honest methods.
I believe in working, not waiting; in laughing, not weeping; in boosting, not knocking; and in the pleasure of selling goods.
I believe that a man gets what he goes after;
that one order today is worth two orders tomorrow; and that no man is down-and-out until he has lost faith in himself.
I believe in today and the work I am doing; in tomorrow and the work I hope to do; and in the sure reward which the future holds.
I believe in courtesy, in kindness, in generosity, in good cheer, in friendship, and honest competition.
I believe there is an order somewhere for every man ready to take one.
I believe I am ready—right now!"

ODD GIFTS TO PRESIDENTS

Every occupant of the White House has been showered with presents of every conceivable kind. Admirers of the Nation's chief executive takes this means of showing their respect, and there is a constant stream of gifts arriving for our President.
The late Col. Roosevelt decorated his home at Oyster Bay with hundreds of presents received from all parts of the world, and even "Teddy" has probably been outdone by this time by President Wilson. The latter stole a march on all our past chief executives by making a tour of Western Europe while still in the office, and he received numerous gifts.
The owner of a large turkey farm in the south has made a habit for some years sending his largest and fattest turkey to the White House on Thanksgiving Day. Probably no other man has quite equalled this man's record of loyalty to the elected leader of our nation, but many have expressed their respect in more sensational or remarkable gifts. For instance, there was a great piece of cheese that one dairyman loaded upon the household of President Thomas Jefferson.
This sample of the dairyman's generosity required six horses to pull it on a specially constructed wagon. On the smooth, clean surface of the cake was the inscription, "The greatest cheese in America for the greatest man in America." Servants in the President's household experienced considerable difficulty in getting the enormous cheese safely housed, but finally landed it in a suitable place. The present was so large that it required a year for the President and his friends to consume it.
Among the most famous of all presents given to Presidents are the gold mantle clock presented by the Marquis de Lafayette to George Washington, and the remarkable Gobelin tapestry which Mrs. Grant received from the Emperor of Austria. Washington's clock is now just where he placed it on the mantle in the Blue room at the White House.
Mrs. Grant had a great fondness for tapestries. The piece which the Austrian Emperor presented to her was made by a process which has become a lost art. Its value is now almost incalculable. The Grants followed their stay at the capital with a trip around the world. They accumulated a great quantity of gifts from the crowned heads of other nations and presented many, including the Gobelin tapestry, to the White House.
Andrew Jackson probably received more strange tributes than any other of our early presidents. He also received a large cheese, one weighing half a ton or more, which had to be transported from England to Washington. He was also given such tokens of esteem as a whole hog from Kentucky, and a large quantity of whiskey from Pennsylvania and beer from New York.

WHAT THIS YEAR'S FISH MAY EXPECT

As the Grand and Exalted Mogul of the Ancient and Sacred Order of the Mopah Phi Sikkum, which was founded in the year of our Lord one thousand eight hundred and seven in an American University and had for its purpose the Destruction of Cute and Sassy Freshmen.—I say as the Grand and Exalted Mogul of that great organization I feel that the time is now ripe for me to approach the coming Freshmen and talk to them for a little bit. I have the pleasure and opportunity of being permitted to use a certain amount of space in the paper of the school town in which I reside. I am particularly interested in the Fish of Clarendon College.

Now it is not the purpose of the writer to portray the situation in any too horrible manner. Nor does he wish by these words to drive any away who had planned to come to the institooshun. But he feels deeply that he should speak closely and distinctly on the subject of Green Fish, in order that those who are coming will not come without knowing of the dreadful horrors that await them.

Let me say in the first place that I have a communication from a certain frigidier Brenner in charge of the biggest part of the American army and he states that if any Fish should get cold feet, he'd be glad to dispatch a detachment of troops as a body guard. So it is evident that it will be no unusual sight to see a trembling Fish dismount from the Ft. Worth and D. C. surrounded by a number of khaki clad protectors of law and order.

Now we must be plain with you. You are entering a horrible place of Fish. I just heard the other day that there were seven Freshmen shot at once last year upon their failure to offer Dr. Slover a cigarette when they entered his office. That is one thing everybody must do to get along with the Doctor. So you gentle Fish that are about to come, take it from me, whether you smoke or not, you must get the habit of being free and generous with your cigarettes while you are around our faculty. The faculty is to a man particularly fond of cigarettes. So if you want to obey the first order from the Fish-Haters and thereby avoid punishment, be sure and get the cigarette habit, and do this: The first thing you do when you cash in your matriculation card, just look the Doctor square in the eye and tell him you believe it is for the most fundamental principles and the highest ideals of the institution that you smoke cigarettes. That's the only way to get along with the Doctor.

Now then those in charge of the young Ladies' Home always appreciate it if the Freshmen hang around there a great deal. The matron told the author not long ago that she liked to see the boys talking to the girls in the Halls, and throwing up Ham-burgers (that is, thru the window.) And so if you expect to get along in Clarendon College you had better get you a woman and hang around her all the time, in the Halls, on the campus, and then get you a barn-yard ukelele and serenade her at nights and bring up ham-burgers, and ask the matron if you can't have a date every night of the week and believe me boy, you shoudn't get on swell in the institution. So be sure and do this the very second thing.

Now our space is almost gone but we just must say one more kind word. Don't let 'em spoof you into being honest on an examination. That's child's play and is only practiced in the smaller schools. You must learn to cheat nicely here. The teachers may make on like they don't want you to, but they are just getting you to be careful so you can learn how to copy and cheat. This business of cheating and copying is held by the school authorities to be one of the meanest things a student can do. And so the more you cheat and copy the manlier you are. All Freshmen are required to cheat just like they are required to 'ake chapel and shower-baths, you know. You see it's great training. Train a heat in the way he shouldn't go and he will not depart from it." So remember that once of the primary desires of the faculty is to see everybody cheating on exams. You might even suggest that exams come off tinner so you can get more practice cheating.

But we must dry up. The Ancient and Ex. Ord. will have headquarters in the beginning of school and will be glad to give fatherly advice to all Fish. Yours for a great bunch of Fish.

King Ammon the Dirty.

DID YOU KNOW?

Did you know that eighty thousand people were killed accidentally in the U. S. each year?
Did you know that fourteen million people were crippled in the U. S. each year? That is the record, yet so many men continue to take the old style life insurance policy that has been written for years and years.
Why not investigate the Reliance Perfect Protection Policy? A policy that protects you while you live, a policy that protects you when you are old, a policy that protects your family when you are dead. Nothing like it, and it is backed up by a big company that is operating in nearly every state in the Union.
Ask a Reliance policy holder, he will tell you that claims are paid without red tape and without cost to him.
See Thos. J. Allen, the Reliance Man.

MY BOY AND YOUR GIRL

Mothers, are we looking after our own boys and girls as we should? It is better to be safe than sorry. I try to teach my boy to be true and manly and to respect all woman-kind for the sake of his mother. Are you teaching your girl to be sweet and pure and keep my boy in his place? I teach my boy to live the white life so that when he finds the "one girl" he will be worthy of her and have a clean record to offer her in exchange. Are you teaching your girl that when a man chooses a wife he will choose the sweet and modest girl? They may like to flirt with a fast girl but do not like her for a wife.

The moral condition of our boys and girls is appalling in this town. I see my boy go driving with our girl, she has on suggestive clothes, her cheeks and lips are painted, she has her hand on his shoulder, his arm is about her and as they go I see an exchange of kisses. Oh, mothers, let's be more watchful; something is wrong; something must

THE STATE OF TEXAS:
County of Donley:—

In the District Court of Donley County, Texas.—N. C. Duggins, plaintiff vs. Earl Fuller et al, defendants.

Whereas, by virtue of an execution and order of sale issued out of the District Court of Donley County, Texas, on a judgment rendered in said court on the 28th day of July, A. D. 1920, in favor of the said N. C. Duggins, and against the said Earl Fuller, H. R. King, B. F. Lyle and W. C. Lyle, No. 1089 on the docket of said court, I did on the 7th day of September, 1920, at 10 o'clock A. M., levy upon the following described tracts and parcels of land situated in the county of Donley, State of Texas, belonging to the said H. R. King, to-wit: All the Northwest one-fourth of section 66 block 21 certificate number 11-2186, abstract number 247 H. & G. N. Ry. Co., and on the 5th day of October, 1920, being the first Tuesday in said month, between the hours of 10 o'clock A. M. and four o'clock P. M. on said day at the court house door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said B. F. Lyle, H. R. King, B. F. Lyle and W. C. Lyle in and to said property.

Dated at Clarendon, Texas, this 7th day of September, 1920.
J. H. Rutherford,
Sheriff Donley County, Texas.

Little life Lines

W. H. F.

Really, now, we just can't see why we can't make the rooms and houses that we have to rent pay for the board and laundry and education and up-keep of the car and seed for the bird and milk for the cat and meat for the dog, while we've got the chance.

The big idea is "Pop it to 'em, brethren and ladies, 'cause the time's coming when they will pop it to us." We have forgotten that old Golden Rule when it comes to renting, now, haven't we? And we think we can cover it with some kind of "high talk" about "supply and demand."

Pop it to 'em, brethren.

CARD OF THANKS

LOCAL & PERSONAL

J. H. Davenport of Alantreed was over during the Fair.

Rev. Joe Smith is visiting a daughter in East Texas.

E. B. Mace had business in Briscoe county Saturday.

Frank Mace is on the Lott ranch this week doing concrete work.

W. S. Boydston, prominent stock farmer of near Groom, was in town Monday.

Hon. J. W. Veal of Amarillo had legal business in the county court the last of the week.

J. T. Wilson of Alantreed was a fair visitor declaring it to be the best he had ever seen.

W. B. Estes, secretary of the Board of City Development of Amarillo, was a fair visitor Saturday.

Miss Mollie Lucile Dozier and Oliver C. Hill, residents of southwest of town, were married Wednesday of this week.

Mrs. J. A. Warren and children visited over Sunday with her parents, Mr. and Mrs. J. R. Mace of Lelia Lake.

Dr. Oscar Jenkins attended the Panhandle medical society meet at Wichita Falls Tuesday and Wednesday of this week.

Misses Ineva and Orville Hendrick left Wednesday for Austin where they will attend the state university the coming term.

Lewis Miller and family are again residents of Donley county after a sojourn in Missouri. They failed to find a better place, hence are satisfied now with the best part of the Panhandle.

French Harrington, a former college boy here, stopped off for a few days here the last of the week while on his way to Austin where he will matriculate in the state university this year.

J. H. Clark, nephew of our fellow townsman, W. C. Stewart, was down from Amarillo for the fair.

Mr. Clark occupies the responsible position of chief accountant for the Santa Fe in his home city.

C. J. Talley is building a nice modern 6 room house on his farm about 6 miles northwest of Clarendon in the Martin community, and when completed he will have one of the best improved farms in this section.

The family of G. A. Oller arrived the first of the week, he having preceded them by a few days. Mr. Oller was formerly a resident of this county but wandered off to Missouri. We do not know what ever made him leave here, but we are glad the family is back again.

J. A. Cook sold the Owl Cafe to J. P. Couch the first of the week. He will operate the Owl Cafe instead of the place where he has been for the past several months. Mr. Cook has not announced as yet what business line he will enter now since he is free, except to say that he does not intend to leave here.

H. N. Crawford and sons, Bob and Joe, of Hedley, had business here Wednesday.

E. A. Watson, an attorney of Roby, Texas, was here on business the first of the week.

Fred Thompson came over from McLean to visit the fair and see old time friends.

S. E. Boyd of McLean visited the fair and transacted other business while in the city.

John Stevens, a former college boy who makes his home in Vernon, was here during the fair.

J. C. McMurtry of Pampa took in the fair and visited relatives and numerous friends here the last of the week.

H. B. Martin and wife and son, Edward, and Miss Maud Hill, all of Amarillo, took in the fair and visited with friends.

A. W. McLean is having a nice residence put up in the southeast part of town on the block northwest of the old convent block.

Bob Stone and Perry Walker of Dodsonville over on the state line, were here Tuesday prospecting with a view of moving over this way.

Mr. and Mrs. G. C. Cunningham of Marshall, Texas, are paying a visit to the lady's parents, Mr. and Mrs. S. A. Andrews and family.

Mrs. T. Jones, who has been visiting at Altus and other Oklahoma towns for the past several days, is expected home the last of the week.

Mrs. A. Gentry underwent a slight operation at Amarillo Sunday for the removal of her tonsils. She is doing nicely at this time.

Mr. and Mrs. Ed Dishman of Hedley were up for the fair. Ed seemed to have machinery trouble of all sorts while the good lady looked over the exhibits.

Marriage licenses were issued the past week to C. J. Brooks and Minnie Allen; L. L. Sanford and Mrs. Hettie A. Sanders; Oliver C. Hill and Lottie Lucile Dozier.

Mr. and Mrs. C. J. Douglas returned from a visit with relatives at Dallas the last of the week reporting a good time and plenty of wet weather down the way.

H. L. Allcorn of Brown county, spent the most of the week visiting with the family of Arthur Cross and Joe M. Warren, he being a brother-in-law of Mr. Warren.

W. P. Billingslea, newspaper man of Burkburnett, had business in our city Saturday. He reports business as rushing in the oil city though not quite as strong as formerly.

Parchman Wadsworth, old time friend of J. C. Estlack's, visited with him and other friends here during the fair. Mr. Wadsworth was formerly a resident here but now makes his home at Wichita Falls.

W. E. Hickey of Mena, Arkansas, is a late arrival in our city having already made up his mind to move his family here for the benefit of the good schools. He expects to invest in rural property and reside in Donley county in the future.

Teague-Raney

The culmination of a pretty romance begun eight years ago when Miss Eudora Ethel Teague visited Seth Ward College at Plainview and there met Mr. E. C. Raney came Wednesday evening, Sept. 15, in their marriage. Miss Teague being here on a visit to her sister, Mrs. D. B. Doak.

The pretty ceremony was said at the First Methodist church at 9:15 in the presence of only a few relatives and friends. Many lovely ferns, pot plants and flowers had been used in making the pretty background for the wedding. Especially effective was an enormous basket of rose buds, whose handle was tied with large tulle bow centered with one perfect rose.

With great sweetness and beauty, Mrs. Jinks Magee gave "At Dawning," accompanied by Mrs. G. C. Rollins, a particular friend of the bride, who also played Mendelssohn's "Wedding March," for the entrance of the bridal party, softly playing "Hymn" during the ceremony.

The bride and groom entered from the chancel door at the right, being joined at the altar by Dr. Paul B. Kern, Dean of the School of Theology Southern Methodist University at Dallas, Texas, who officiated with the double ring ceremony. Rev. D. B. Doak, brother-in-law of the bride assisted Dr. Kern.

The bride was costumed for the wedding in a tailored suit of reindeer brown with modish brown hat. Other accessories of her costume were also in brown. She carried a white Bible that was carried by her sister, Mrs. Doak, in her wedding.

The bride is the daughter of Mr. and Mrs. E. A. Teague of Clarendon, Texas, and is a young lady of sweetness, and culture. She graduated from Clarendon College, attended S. M. U. in Dallas, receiving her A. B. degree there in 1918. After teaching in the high school in Stephenville, she went to Washington, D. C., doing post graduate work in George Washington University.

Rev. Raney, the son of Mrs. G. E. Raney of Smithville, Ark., attended S. M. U. at Dallas and holds A. B. and B. D. degrees from that institution. He is pastor of the first M. E. church of Quapaw, Okla.

Rev. and Mrs. Raney left immediately after the ceremony for points in West Texas and Arkansas and then will go on to Quapaw, Okla. where they will make their home.—Abilene Reporter.

CLARENDON YOUNG PEOPLE COLLEGE BOUND THIS WEEK

That high education is more popular in Clarendon and Donley county than ever before is attested by the fact that there are more students leaving for entrance in various colleges and universities than

has ever been known before. Tonight a large party will leave on the Denver southbound, some have already gone and others will follow in a few days. The News has attempted to get a correct list of the young people and the schools of their choice and it is presented below in the hope that there has been no omissions or errors:

- A. & M. College—Charles Barfield, B. L. Jenkins, Jr.
- S. M. U.—Charles Lowry, Chas. Ferguson, Evadue Hurn, Pauline Ozier, Mary Hallett Benedict, Oregon Teague.

TUESDAY LUNCHEON LARGELY ATTENDED

Tuesday's luncheon proved to be one of the best attended affairs that the luncheon members have enjoyed this season. Several extra plates had to be laid after the party sat down and yet there were only two out-of-town visitors.

The menu prepared and served by the Christian ladies was up to the high standard that they have been maintaining recently and proved wonderfully satisfying to the hungry fellows who put their feet under the table for this occasion.

After the luncheon had been properly disposed of Pres. Story of the Chamber of Commerce, who presided in the absence of Secretary McFerd, threw the meeting open to the discussion of the Donley County Fair which was so successfully held here Friday and Saturday of last week.

Many compliments heard from visitors were repeated for the edification of those present and several suggestions were considered to make the fair "bigger and better" for next year. Then came discussion of ways and means for sending winning exhibits to the State Fair at Dallas and the Cotton Palace at Waco.

It was decided that a committee should be named for the purpose of securing adequate finances to put these exhibits over.

Clarendon's need of a permanent tabernacle for revivals, public meetings of all kinds, and fair displays, was given unanimous endorsement, but on account of the lack of time this matter was passed over for special consideration at next Tuesday's luncheon.

BROOKS-ALLEN

Miss Minnie Allen and C. J. Brooks of Tyler, Texas, were united in marriage at the Methodist parsonage in this city Tuesday by Rev. C. N. N. Ferguson. The young couple left over the Denver immediately after the ceremony to spend their honeymoon in Denver and other Colorado points of interest.

The bride is a daughter of Mr. and Mrs. G. M. Allen, who reside east of town and enjoys a wide circle of friends who wish them much happiness. The groom is an energetic young business man of his home city. After their return, they will make their home at 333 Wilson street, Tyler, Texas. The News joins with the host of well-wishers that the happy couple may enjoy many years of wedded bliss.

My lands in Briscoe county, known as Sink Lake and Timber Lake pastures are posted according to law and any hunting or trespassing will be vigorously prosecuted. M. E. Bell.

Don't treat 'em rough

Here's some good advice that will save some money for you: take care of your clothes; brush them often, hang them up on a good hanger at night; take all heavy articles out of the pockets—keys, notebooks, etc.; alternate your suits—wear one a few days and change off. Good clothes deserve good care; you'll be well repaid if you "treat 'em" with care.

Tire Treads Improved 25%

The latest Miller triumph is a super-grade tread. It exceeds the best rival treads today by an average of 25 per cent. This has been proved, under careful watch, by many road comparisons.

The Miller Tire mileage is the talk of the day. But these new-grade treads outwear the balance of the tire.

Not one Miller Tire, built with this new tread, has ever come back with the tread gone.

These treads do not vary. Every day the Miller tread stock is vulcanized and tested in the laboratory. It must prove up to these new standards before a tread is made.

Miller Cord Tires, in the factory tests, now average 15,000 miles. Miller Fabrics from 8,000 to 9,000 miles. And these factory tests are extreme.

Watch your mileage on one Miller Tire. Compare it with any other and it will win you. You owe that to yourself in view of Miller records.

PANHANDLE-PLAINS CHAMBER OF COMMERCE

Amarillo, Texas, Sept. 15, 1920.

Dear Sir:

Believing that the re-districting problem of the Panhandle is a matter that should come ultimately before the State Legislature, the Panhandle-Plains Chamber of Commerce declined to participate in framing the re-districting clause of the Democratic State platform in the convention held in Fort Worth last week, at the same time acknowledging the honor of an invitation to assist in the performance of that duty.

Likewise the Agricultural & Mechanical College for West Texas is a problem to come before the state body and with proper claims properly lodged we have little fear but that suitable and equitable legislation in this connection will result.

We have the utmost respect for and confidence in the members of the legislature of this state. It is much easier to criticize their actions than it would be to perform the duty better.

The Panhandle-Plains Chamber of Commerce proposed plans almost one year ago by means of which the Agricultural and Mechanical needs and the industrial arts section of instruction can be rendered adequately to the Panhandle and Plains district economically and without burdensome effort on the part of the state. This plan has been endorsed by the Board of Regents and by many of the Texas law-makers as sane and sensible. This plan will be tried and presented at the proper time before the next legislature by the president and secretary of this organization. Re-districting of the state will receive proper attention by this body at the proper time before the state legislature and all other matters of industrial, educational and social interest and concern to the Panhandle will be studied and industrially presented before this honorable body of men.

In the meantime we would like to have any suggestion from you that may occur to you as profitable to the future development of this portion of the state.

Yours very truly,
Panhandle-Plains Chamber of Commerce, By F. K. Jamison, Secretary-Manager.

LIGHT AND POWER RATES INCREASES CAUSED BY HIGHER OPERATING COSTS

September Eighth, Nineteen-Twenty.

Honorable O. C. Watson, Mayor, City of Clarendon, Texas.

Dear Sir:—

In referring to our conference on the afternoon of Friday, September 3rd, and in compliance with your request, I herein wish to confirm statement made to you at that time.

FEDERAL RECEIVERSHIP

1. By order dated February 24th, 1920, the United States District Court at Houston, Texas, appointed me Receiver of all properties of the Texas Gas and Electric Company, which Company at that time and for several years past, owned and operated in twelve cities and towns in Texas, certain electric light, ice and water properties, among which was the plant located in Clarendon.

OPERATING RESULTS SINCE RECEIVERSHIP

1. Since my appointment as Receiver, the information and reports which have been compiled for six months to date, show this property to be operating at a deficit of \$3627.36.

2. From a thorough analysis it is apparent that this condition is brought about by two principal causes, these being:

(a.) The unusual and unexpected increase in the price of fuel, which has advanced from 9c per gallon as of July, 1919, to 13 1-2c per gallon as of July, 1920, in addition to a material increase in labor costs and all other commodities used by the Company.

(b.) Inadequate rates for which it has been selling electricity.

With this statement of facts in mind, it is apparent that the Company cannot continue to operate on its present basis and must have immediate relief. I have, therefore, prepared and hand you herewith, statement showing present rates in effect and rates proposed to be established in order that the Company may obtain sufficient revenues to meet the actual operating expenses and a reasonable return on its investment under the present abnormal conditions.

CITY LIGHTS

250 CP. Lamps—\$5.85 per lamp per month.

VALUATION

In view of the fact that the valuation assumed by me, as Receiver, and mentioned to you in our conference as a basis for the return and depreciation on which the property should earn, is far below that value as shown by the auditor's report, I deem it proper to say that while I am confident that the auditor's report shows a valuation in excess of the true value and that the valuation assumed by me is nearer that value, it must be understood that I have not arrived at this valuation by any accurate method of appraisal, nor fixed it as a valuation by any order of the court, and that my assumption in this matter shall not in any manner be taken in prejudice of the rights of the parties who own the property, or of myself, as I may be advised to claim for the property a higher valuation than that assumed, should it become necessary to accurately appraise the property in a judicial proceeding for that purpose.

CONCLUSION

My purpose in meeting with you was to present to you a statement of facts in connection with the actual operating conditions of the Clarendon property of the Texas Gas & Electric Company, that you might clearly understand why it becomes necessary at this time to increase the selling price of electricity and will be in a position to explain to your citizens that on account of the increase costs in labor and commodities used in the manufacture of its products that I, as Receiver, cannot continue to operate the property on its present basis and am, therefore, installing the above mentioned rates effective as of next meter reading date, which will be about the 25th of this present month.

Yours very respectfully,

S. R. BERTRON, JR.

Receiver.

KNIGHTS TEMPLAR MEETS IN FT. WORTH SEPT. 23-25

Fort Worth, Texas, Sept. 17.—Worth Commandery, No. 19, Knights Templar, are contemplating entertaining 2000 or 3000 Sir Knights on the occasion of their Conclave, which will be held in Fort Worth, Sept. 23-25, at Moslah Temple's Mosque on Lake Worth.

The big feature of the Conclave will be the Knight Templar parade, which will be held on the morning of Sept. 24, when it is expected there will be over 1500 Sir Knights in Knight Templar uniform to participate in the parade. Main and Houston streets will be graily decorated with the national colors for the occasion and the sight will be well worth coming miles to see.

Visitors will register at the recorder's office, Second and Main streets, on the morning of Sept. 23, and be assigned to quarters. At 2 o'clock the Commandery will be on the parade in the Mosque, while the visiting ladies will be entertained with a theatre party at the Majestic theatre as guests of Worth Commandery No. 19. Friday, Sept. 24, will feature a boat ride on Lake Worth in the afternoon and the conferring of the Order of the Temple in the evening, while the grand reception and ball will be held on the evening of Saturday, Sept. 25, which will be under the auspices of Worth Commandery Drill Team. The Order of Red Cross and Malta will be conferred during the afternoon of Sept. 23.

Reduced railroad fares for the conclave have been granted, and all Sir Knights coming to Fort Worth for the Conclave are urged to be sure and get a certificate when purchasing their tickets so that they may be able to get the benefit of the reduced fare for the return trip. Selling dates will be Sept. 22 to 25, good to return Sept. 26.

Sir Knights who wish hotel reservations made are urged to communicate with Sir Knight H. W. Austin, 215 1-2 Main street, that ample accommodations may be provided.

At the present time, the Commanderies at Denton, Cleburne, Weatherford and McKinney alone have advised they will have over 50 candidates and be represented by a large number of Sir Knights. All Sir Knights are especially urged to come to Fort Worth and appear in the Knight Templar parade, being sure to bring along their uniforms, and at the same time see the work exemplified as they have never seen it before.

Elaborate souvenir programs giving in detail all the happenings during the Conclave will be given to each visitor when they register on the morning of Sept. 23.

J. R. Mace and wife returned last week from an extended visit to relatives in Washington and California. They report a great trip.

ADOPT THE EDUCATIONAL AMENDMENT

There is abundant reason for gratification that Texas occupies a leading position in several respects which contribute to the material assets of a State. That it produces a third of the Nation's cotton crop is legitimate cause for pride; that it is in the front rank as a livestock producer, is exceedingly pleasing; that now it is attracting greater attention than any other State in the production of oil, is a most agreeable circumstance. And there are numerous other reasons for State pride.

But people hardly can find justifiable excuse for self-laudation because of what they are accomplishing in the way of general educational progress. It is true that Texas has a splendid State University, that its Agricultural & Mechanical College ranks high, that it has an excellent college of domestic science and industrial arts, and that its several normal institutions are a credit to any state. But if so much may be said of the higher educational institutions, the contrast between these and the rural school system furnishes the greater reason for regret.

The unfortunate condition of public schools, particularly country schools, in which 50,000 children were denied the privilege of teachers last year, is due not to lack of State assistance, but to the absence of law to permit rural communities to help matters. Texas ranks well in the matter of State aid for schools, standing tenth in this respect; but it is disappointingly delinquent in its provision for local support. In this it is forty-fourth—43 states excel Texas in this respect, while only four are below it. This is an unenviable condition, humiliating to confess; but it is the truth. As a remedy for this situation, the proposed constitutional amendment authorizing such school districts to vote taxes not to exceed \$1 on the \$100 valuation of property, is the best method now available. If adopted, that will provide for an increase of 50c on the \$100 valuation, over and above the present limit, in such communities as may vote upon themselves an additional tax. There will be nothing compulsory in the matter of such voting; it will be wholly a local option method, in which each district may decide for itself whether it will have the higher tax, without interference by the State or any other civic agency.

To adopt the proposed amendment will enable rural communities to have longer school terms, a sufficient number of capable, experienced teachers—in short, better educational facilities, a higher state of literacy, more enlightenment generally. And it will advance Texas in its economic, as well as its educational standing and add immeasurably to its reputation among the other States in the matter of intelligence and social progress.—San Antonio Express.

The High Cost

Of living may be reduced to a great extent if supplies are purchased at the right place where the prices are right.

We are just as anxious to sell goods at a lower price as our customers are to buy at a lower price. In view of this fact we buy on a basis backed by years of experience and conduct our business at the least possible expense that we may sell the best quality at the lowest prices to be had.

We appreciate your business.

BEST BALL GAMES WERE PLAYED DURING FAIR DAYS

The best ball games to be played on the local diamond for months and perhaps years, were played here during the Fair. The local team was pitted against Panhandle for both games. The score stood three to two in Panhandle's favor the first day and two to one in their favor the second day. This series of games closed the season so far as the local team is concerned.

READ THIS FARMER'S

I have for sale 13,604 acres in the most prosperous and beautiful farming section on the South Plains—in Crosby County—five miles south of the town of Rails in Crosby County—which I have subdivided into seventy-two farms of 184 1-2 acres each. Public road runs around two sides of each farm and contract let for two-story brick school in center of tract. Reasonable prices—fine terms. Come look yourself—see our neighbors' crops.

We are going to have our opening sale Saturday, Sept. 25th, and expect to sell this tract that day. \$1,000.00 will be required to secure contract and balance of cash payment to be made December 1st, when deeds are delivered and notes executed. 1 to 10 years time given on deferred payments. Come make your selection before sales day. Average price is \$55.00 per acre. Nothing better in West Texas. Write, phone or wire—

BRICE NEWS

Brother Ingram preached here Sunday.

The young folks enjoyed singing at the home of Mr. and Mrs. W. S. Holmes Sunday night.

Mrs. Henry Woods was run over by a truck late Sunday evening and hurt very bad, but is getting along fine.

Mr. Jim Johnson went to see his father in Tarrant county Tuesday. Mr. Gwinn was the lucky one to get the first bale of cotton at Brice.

Mr. and Mrs. J. C. Patterson stopped off here for the fair and to visit their parents of the groom, Mr. and Mrs. G. S. Patterson of this city. The young couple were married at Theordale, Texas, on the 14th and are on their honeymoon trip bound for Colorado Springs. Mrs. Patterson was Miss Lois Brown before her marriage, and was instructor in Latin and Spanish in the Runge schools last term. Mr. Patterson graduated from our local high school spending several months in the A. & M. College afterwards where he was later employed as a specialist in the live stock department of the state. They will make their home in the future at Kirksville, Missouri, where Mr. Patterson will be with the Moline plow company. Recognizing the ability of this young man, the fair committee asked him to act as judge of the livestock exhibit, which he kindly did.

H. W. Taylor & Sons

If you are interested in buying, we believe that it will be worth your while to read these real estate listings:

A bargain for one week only. New plastered bungalow, five rooms, bath, and breakfast room; shade and fruit trees; sidewalks to town; conveniently located for schools, churches, and down-town. Price, this week, \$5,500.00.

If you are looking for a spacious home with plenty of land to go with it, we are recommending this: (and please note the "sliced price") Six large rooms, hall, bath, two large porches, shade and fruit trees, well, windmill, tank, barn, and other improvements, and then twelve lots of surface. The last thought in completeness. Owner's plans are directed elsewhere, and will sacrifice the home at \$6,500.

We also have for immediate possession a new five-room bungalow, breakfast, and bath, garage, ideally located for college and public schools and just three blocks from down town, at \$5,750.

Among the real palace kind, we are offering for sale or trade, the Taylor home in the west part of the city, known as the Charles McMyrtry place. We are interested in showing you Clarendon's finery, and it does not make any difference at all whether you are thinking of buying or not, for you to come around to our office and have us take you around. We assure you that it will be a pleasure to us, and you will too be obligating yourself. We are here to keep before you the qualities that go to make up Clarendon.
