## Million Dollar Road Bond Election Nov. 21

### DONLEY COUNTY VOTERS TO DECIDE PROPOSED MILLION DOLLAR ISSUE

COMMISSIONERS COURT SETS WEDNESDAY, NOVEMBER 21ST AS ELECTION DAY. HEAVY PERCENTAGE FOR LATERAL ROADS TO GO TO PRECINCTS THREE AND FOUR. 88 MILES HIGHWAY TO BE HARDSURFACED.

Donley County is to vote on the much talked-of million dollar road improvement program on Wednesday, Nov. 21st, according to an order by the commissioners court in recessed regular session last Saturday.

For months the preliminary details incident to the calling of a road bond election have been under way and the proposed plan is based on surveys and estimates furnished by the engineers of the state highway department, the movement having been originated by petition of Donley County citizens as provided by statute.

If the bond issue receives the necessary two-thirds majority of votes cast on Nov. 21st, state and federal funds will be matched with local money on the basis of two dollars for each local dollar on Highway Nos. 5 and 75, and dollar for dollar on Highway 88. According to the estimates of the engineers mileage on these state and federal highways to be hardsurfaced totals eighty-eight miles in this county.

Out of the proposed million dollars there is set aside by court order \$175,000 for improvement and building of lateral roads, which ordinarily is divided among the four precincts according to the percentage of taxes paid, but on account of the need for lateral roads in precincts three and four and by concurrence of many tax payers in precincts one and two the court orders a division on actual needs rather than the percentage method. Following is data furnished by County Judge Porter that will illustrate the usual division and the specific order in this case:

- Precinct No. 1, 18 per cent.
  - Precinct No. 2, 41 per cent.
  - Precinct No. 3, 29 per cent.
  - Precinct No. 4, 12 per cent.
- If the \$175,000.00 were divided on the basis of the amount of taxes paid, by each of the precincts, it would result in each precinct getting approximately the following amounts, to-wit:
- Precinct No. 1, \$33,230.00.
  - Precinct No. 2, \$70,000.00.
  - Precinct No. 3, \$50,750.00.
  - Precinct No. 4, \$14,583.25.
- But this division would not be fair because Precinct No. 4 has no highways whatever in its bounds, so the following distribution which the Commissioners court thinks is equitable was settled upon:
- Precinct No. 1, \$13,000.00.
  - Precinct No. 2, \$20,000.00.
  - Precinct No. 3, \$1,000.00 per mile for the 11 miles of road, commonly known as Highway No. 52, and in addition to the \$1,000.

### ROLL CALL STARTS NOVEMBER 11TH

#### SPECIAL PLANS LAID FOR COMMEMORATION OF TEN YEARS SINCE ARMISTICE.

Miss Charlotte Murray, Special Representative of the American Red Cross from the Midwestern branch at Saint Louis, was in Clarendon Wednesday making arrangements for the opening of the twelfth annual Roll Call of that body to start on November 11th. Miss Murray was working in conjunction with Mrs. Kate Carroll and Mrs. Allen T. Jeffries and other members of the local committee and will have other details of the matter to announce at a later date.

As in the past, Mrs. A. T. Jeffries will be chairman of the Roll Call and will have a full corps of assistants to help her in the working of the Roll Call this year. The relief measures recently completed in conjunction with the Porto Rico and Florida disasters have brought the needs of this body more closely home than has been the case in recent years.

The opening of the Roll Call will be had on Sunday, November 11th, this being named Armistice and Roll Call Sunday. Churches will hear announcements on this date and the opening will be fully announced simultaneously in all parts of the United States.

### OLD WATER RATE IN EFFECT OCTOBER FIRST

The commissioners of the City of Clarendon authorized the change in the water rates of the city to the rates formerly in effect with the use of water beginning October first. Bills rendered on November first will be made at the old rate, that of a minimum charge of \$1.50 for an amount of 2,500 gallons, with a rate of 40 cents per thousand gallons above this amount. The change was made necessary for the reason that the consumption of water had fallen to a low level and was not paying for the cost of production. It is possible that the low water rates will again be put into effect with the opening of the summer months. Full announcement will be made at the time the rate is made.

### PRESBYTERIANS SECURE LOCATION FOR BUILDING

All matters have been completed in connection with the sale of the old Whitfield Carhart place on west Third Street to the Ladies of the Presbyterian Church. The plot of ground, comprising a quarter of a block, was in turn transferred to the church for the purpose of erecting thereon a church building. The News is informed that plans for the erection of this new home for the Presbyterians are merely waiting on the sale of their present lots on Kearney Street. They further state that there are a number of inquiries out for the purchase of this property and that they feel that the new structure will be started at some time in the immediate future.

Mr. and Mrs. George Benson of Hereford announce the arrival of a daughter, Elizabeth Earl, on Oct. 6, 1928. Mrs. Benson will be remembered as Miss Sallie Davis, formerly of Clarendon.

### PARKER SAYS IS-SUE INTOLERANCE

FORMER LOUISIANA GOVERNOR SPOKE AT QUEEN FOR SMITH MONDAY NIGHT.

Clarendon was honored by the appearance here Monday evening of former Governor John M. Parker, of Louisiana, who was scheduled late last week to speak here for the Smith-Robinson ticket and who was greeted by a crowd estimated at two-hundred and fifty at the Queen Theatre at the appointed hour of eight o'clock.

Hon. A. T. Cole introduced the speaker of the occasion and elaborated on the record of public service Gov. Parker had made in the state of Louisiana, where he served as food administrator during the world war, later being elected as governor, and in recent years having served in the flood relief work in that state. Governor Parker, who has large farming interests in Louisiana, began his address with a review of the political horizon as he views it, saying that he was making this speaking tour at his own expense, feeling that good citizenship demanded his services in an attempt to do away with an ugly spirit of intolerance which has grown up in the South since the World War. Himself a Presbyterian and a Mason he called specific attention to the intolerance of certain protestants against the Catholics and Jew, declaring as he read of this growing evidence of the un-American spirit he was constrained to leave the comforts of his own home and the legation of his personal business to lend his voice in the defense of what he considers the foundation of American liberty.

Based on a personal acquaintance of over ten years with Governor Alfred E. Smith of New York and state treasurer of the Democratic party, Governor Parker outlined to his hearers the constructive work accomplished by Gov. Smith as chief executive of the state of New York. The speaker made special reference to the legislation effected by the New York governor for the benefit of the laboring women and children and deplored the "smoke screen" laid down here in the South to defeat an outstanding American governor for the presidency on account of his prohibition stand and Tammany affiliation, where the real reason was his church affiliation.

Taking up the official appointments of Governor Smith, Governor Parker, cited the absolute nonpartisanship of this phase of the record, which shows that a very large preponderance of appointees were Protestants while only two Catholics and one Jew were in the list.

### GIRLS' COUNCIL MET IN BIG SESSION OCTOBER 13

The Council of the Girls' clubs of Donley County met in the office of the County Home Demonstrator on Saturday, October 13th, with a splendid attendance. Fifteen girls were present and took an active part in all the discussions entered into during the afternoon. The outline of next year's work was discussed and the girls laid plans for making money during the next year. Poultry raising, gardens and dairying will form the center of attractions for the girls for the next year. The new outline on home improvement plans for the next year was discussed. The efforts of all four years work of the girls clubs will be placed on a goal to improve the bedrooms rather than scatter the efforts of the classes in as many different phases of home improvement. A contest will naturally be held in connection with the bedrooms of the members and all four years will compete for the single set of prizes offered in the entire contest.

### PRESBYTERIAN CHURCH

Reverend M. McKee of El Paso will preach at the Presbyterian Church at the eleven o'clock hour next Sunday morning. A full congregation and all visitors are cordially invited.

Mr. and Mrs. Carl F. Gilliam and baby of Hereford, Texas, spent the last week-end here in the home of her parents, Mr. and Mrs. L. Ballew.

### Clarendon Lions Zone 11 Officers

At the first meeting of the newly created Zone 11, of Dist. No. 2, Lions International held Thursday last week in Memphis two local men were elected to serve in the Zone organization for the coming year. Lion Sam M. Braswell, recently appointed deputy district governor, was elected Zone Chairman, Lion Homer Mulkey was named Vice-Chairman, while Lion Fisher Westmoreland of Childress was elected Secretary-Treasurer.

Zone 11 was formerly the lower half of Zone 10, but on account of the rapid growth of the organization and so many new clubs being chartered, a recent meeting called in Dallas by District Governor John A. Erhard, resulted in the division of the large Panhandle zone into two zones with the naming of a new deputy district governor for Zone 11. The new zone is composed of twelve Lions Clubs, viz:—Claude, Clarendon, Memphis, Estelle, Childress, McLean, Shamrock, Wellington, Quitaque, Turkey, Matarador and Paducah.

At the Memphis meeting a constitution and by-laws for the zone were adopted along the suggested lines of Lions International and much set-up work was accomplished under the direction of Dist. Governor Erhard, Field Service Executive Webb of Chicago and Deputy Dist. Governors McBride and Braswell. Over twenty Lions were in attendance at the meeting held at the conclusion of the regular luncheon of the Memphis Lions Club.

Many of the delegates stayed over for the charter night program of the Memphis Club at eight o'clock while Dist. Governor Erhard delivered one of the most classic addresses ever heard in the Panhandle as he presented the charter to Lion A. S. Moss, who responded in like vein. In his address Governor Erhard drew a picture of the evils that beset society in the modern day of hurried selfishness, showing that most of our troubles were chargeable to our own neglect, and then painted a silver lining to the dark cloud of materialism by outlining the achievements of personal service accentuated by love of our fellows through the church, the fraternal organizations and our service clubs.

Others appearing on the program were Lion Secretary Robbins, Mrs. Hicks, a male quartette, all of Memphis, Lion Braswell of Clarendon, The Rev. Arthur Jones, member of the Memphis Club, acted as toastmaster. Clarendon was represented by Lions Murrell, Wilder, Nored, Braswell, Lion Chase, Mulkey, Caraway and Ryan were accompanied by their wives.

### BISHOP HERE TO PRESIDE MONDAY

#### VISITING JUDGE SITS ON CASE TRANSFERRED FROM HALL COUNTY.

Judge Henry S. Bishop of the 47th Judicial District was in Clarendon the fore part of this week sitting on a case that had been transferred to this county from Hall County and on which Judge Fires was disqualified. The case in question was that of the State of Texas vs. M. C. Duns and resulted in the acquittal of the defendant due to lack of sufficient evidence.

Henry Bilderback, billed by the Grand Jury in the first week of court, was tried and received a sentence of two years on a charge of forgery. Two other counts against him were dismissed. The case of the State of Texas vs. J. T. and O. R. Pace was tried Wednesday and the verdict was not learned.

Next Monday will see the court with a murder case. A special venire has been called in the selecting of the jury, and will be on hand for the opening of the court. This case will probably be the most interesting one of the entire session of the court and will probably wind up the hard work on hand for the term. The remainder of the court will be taken with the settlement of minor cases that will require little or no attention.

Mrs. L. B. Taylor, of Wichita Falls, was a week-end visitor of her sister, Mrs. Lindsey Taylor.

Misses Etta and Ida Harned, formerly in business in Clarendon but now of Los Angeles, California, arrived Saturday to visit with old friends and are now the guests of Mrs. Fred Hardy.

### STATEMENT SHOW FINANCE IS GOOD

STATEMENT OF OCTOBER 3 SHOWS MILLION AND A HALF ON DEPOSIT.

When the Commissioner of banking issued a call for statements of the condition of the banks of the state on October 3rd, he made a call at a time that caught the banks in a good condition, but one that was not nearly so good as a statement made at the present time will be. Since the call, the resources of the banks of the county have shown a big gain and the deposits have likewise taken a big jump. The big difference in the statements presented in the little more than three weeks would be found different more in the cash and exchange and the funds on deposit. A situation has been found that is vastly pleasing to the people of the county, this being the fact that all loans could be repaid to the banks and still leave a balance to the credit of the depositors of more than a third of a million dollars.

At the date of call, October 3rd, deposits were found in the three banks of Clarendon in amount of \$1,229,611.06. To this amount is added the deposits of the two Hedley banks, bringing this total to the sum of \$1,614,605.55. The deposits in the banks of Clarendon last October 10th showed \$1,492,587.61. Figures are not available for the two banks at Hedley on this date. It is possible that the sums would be practically equal, with one week's difference in the time of call, giving the county a great advantage over last year. June 30th of this year found the totals in this column to be \$1,287,836.52, while in 1927 this figure was \$1,087,371.11, and on January 1st of 1928 this amount was \$1,425,656.28. The last three figures are not complete for the county, not including the banks at Hedley.

Loans and Discounts have shown a gain over previous years, due to the fact that the two banks at Hedley are included in the tabulation for this year, this having never been done in the past. This figure for Clarendon shows to amount to \$924,213.28. The totals of the two banks at Hedley will bring the figure for the county to \$1,200,379.03. In call of October 10th, 1927, these figures for Clarendon banks, June 30th of Clarendon banks, June 30th of report sets this figure at \$923,777.64 for the three Clarendon banks and one at Hedley. January first figures show a little less, or figures to the amount of \$908,866.92 for Clarendon. June statements for 1927 show these figures at a new low level of \$602,712.63.

Cash and sight exchange in the Clarendon depositories will be found to amount to \$492,198.09. To this is added the sums found in Hedley banks to the amount of a little more than ninety thousand dollars bringing the totals to \$584,697.12. In the October statement of last year, this figure amounted to \$688,125.76 for Clarendon alone. On June 30th, this figure amounted to \$688,094.34 for four of the county's banks. June, 1927, found this item to amount to \$564,532.92, while the call on the first of the year brought this total to light with a sum of \$665,573.92.

### WOMAN'S COUNCIL TO MEET OCTOBER 27TH

Miss Harvey Thompson has called the regular meeting of the Council of the Woman's Home Demonstration Clubs of the county to meet in her office on Saturday afternoon, October 27th at 2:00 o'clock. Miss Thompson states that this meeting is very important since they will discuss the year books for the coming year and also talk of the contests that will be entered from this county for the year 1928. Other items that have not been released for publication will also be discussed at the meeting and the ladies are asked to be certain to attend and take a full share in the discussions.

Mrs. F. H. Britain Mrs. James Frank and Edwin Mauk, all of Hereford, Texas, spent last Sunday in the D. O. Stallings home.

### Structural Map Good For Donley

The most recent development in connection with oil prospects for Donley County is that recently brought to light in a survey of ten square miles of the county with a machine for locating structures. Contrary to popular belief, the machine used in tracing structure is not a machine that is used to determine the location of an oil field, and not to be confused with anything of that nature.

Messrs. Forster and Maupin of Amarillo are the owners and operators of this machine and have completed a partial survey of this county, finding two definite lines in the county, one to the north of town and the other to the south of the city. Another significant thing has been discovered, that being what is commonly known as a "closed structure," and is very seldom located. The first proposition offered by these gentlemen had to do with the financing of a well, at least one-half of it to be paid by Donley County residents. On learning that the folk here had recently passed through an era of wildcatting, outside support was secured and it is very probable that one of three major companies will come into the field and put down a well if the leases of the land can be secured from the owners. Rumors to the effect that something of this nature was in the wind have been heard on the streets for the past few weeks, but nothing definite could be determined. It is true the location to the well has not been made, and will possibly not be made for some time. Full details of the location and time for starting the work will be made public when they have decided.

### HOLLIS MAN BUYS SITE FOR BOTTLING WORKS

Henry Williams completed a transaction Monday of this week, selling a site in the north side of the city to Mr. C. R. Hunt of Hollis, Oklahoma, for bottling works in this city. Mr. Hunt formerly owned and operated a plant of this nature in Hollis and has recently sold his plant at that place. The erection of a building and the installation of the plant is expected to start in the immediate future, with the plant being ready for operation about the first of the year. The lots sold to Mr. Hunt were owned by Mr. Williams and were those formerly owned by Mr. Fleming. The site is directly across the street from the Chickasha Cotton gin and is well located for a business of this nature.

Mrs. Flora G. White and Mr. and Mrs. Bascom White were in Amarillo Tuesday evening.

### HEDLEY IMPROVES BUSINESS SECTION

#### EAST SIDE OF MAIN STREET IN BUSTLING CITY IS GREATLY IMPROVED.

The erection of a number of brick buildings on the east side of the Main Street of Hedley has done much to improve the appearance of this bustling little city in the past few months. All the wooden structures that formerly lined that part of the town have been torn away and structures that would do honor to a town many times the size of Hedley have been erected in their places. The result is gratifying in the highest degree and visitors to Hedley have remarked upon the prosperous appearance of the town.

The net result in these additions to the business houses of the town has been that much moving has taken place among the merchants of that town. Changes have been about all completed during the past week, however, and the business men are well on their way to being ready for the heavy fall business that is at hand.

Among those who have been temporarily housed away from their new locations are: The Farmers Equity Union, The Hedley Cash Grocery and Market, The Hodge Barber Shop and Lunch Room, Clarke, the Tailor, Huffman Barber Shop, The Mobley Tailor Shop and the Wall Shoe Store. The Hedley Drug Company is removing to this new block of buildings and will be installed in their new place of business just as soon as a twenty-foot addition can be completed on the building they will occupy. In all these places, the stocks

### JERICHO CITIZEN BURIED MONDAY

PROMINENT RESIDENT OF NORTHERN DONLEY DIES AT MINERAL WELLS.

After a lingering attack of a number of months duration, E. R. Reeves, prominent citizen of the northern part of Donley County, passed away at Mineral Wells Sunday morning. Mr. Reeves had been a resident of Donley County since 1906 and had always taken a prominent hand in the affairs of the county as a progressive citizen. Primarily a rancher, he had for the past few years been retired from that business and had been engaged in the operation of a filling station and grocery store on the highway in Jericho.

Ernest Rains Reeves was born January 11, 1876 at Bald Prairie, Robinson County, Texas. On December 23, 1895, he was married to Miss Willie Mae Snodgrass. In 1906 they moved to Jericho, where they have made their home since. Four children, three sons and one daughter, were born to the family. With the exception of the youngest son, Phil, all of them are living at this time. Death came to him on Sunday morning October 21st. He was 52 years, 9 months and 10 days old at the time of his death.

Funeral services were conducted Monday, October 22nd, from the First Baptist Church, with Rev. S. R. McClung in charge of the last rites. Frank Harrington, an old friend of the family, spoke during the funeral services, telling of a recent conversation with the deceased on the life that is to come. Interment was had in the city cemetery. Pall bearers were: R. H. Bigger, Clarendon; John Hermsmeyster, Jericho; Odos Caraway, Clarendon; R. T. Darrell, Jericho; J. E. Ryan, Clarendon; John Carpenter, McLean; and Price Rogers of McLean.

Surviving Mr. Reeves in addition to his wife, Mrs. E. R. Reeves, are: Mrs. E. B. Gardner of Panhandle, Paul Reeves of Dumas, Rex Reeves of Levia Lake, his mother and father, Mr. and Mrs. R. P. Reeves, Alanreed, E. B. Reeves, a brother of Amarillo, Mrs. C. T. McMurtry, a sister of Claude and Mrs. R. C. Scott of Floydada, a sister.

### CLARENDON YARD EXPECTS 3,250 BALES BY SATURDAY

Cotton receipts in the Clarendon cotton yard are running far above all expectations as the continued clear dry weather enables the producers to gather their crops without hindrance from this source. Up to the middle of the morning today, the yard had received more than 2,700 bales of the fleecy staple and the wagons were continuing to arrive with cotton for local storage. Public Weigher, Rayburn Smith, stated that with all things favoring the receipt of the cotton crop that the Clarendon yard should contain no less than 3,250 bales by the close of business Saturday night. When the weigher's office closed Wednesday evening, they were caught up with their work of weighing, but lost their lead during the night when more than fifty bales were left in the yard to be weighed in the morning. Heavy receipts are arriving daily from the Brice country with gins in Clarendon adding materially to the increase in the number of bales in the yard. All gins are running fast into the night and it is not uncommon for there to be fifteen to twenty bales on the waiting list at any one of the gins.

Jimmie Miller, local manager of the Wm. Cameron & Co. Lumber company, is in Waco this week attending a convention of the managers of that string of yards.

if goods are being added to give the Hedley folk a better selection of merchandise. All Clarendon people are invited to drive to Hedley and see for themselves what a wonderful improvement has been effected by the addition of a series of pretty buildings to the business section of the town.

# THE CLARENDON NEWS

NATIONAL EDITORIAL ASSOCIATION — PANHANDLE PRESS ASSOCIATION

Sunday, Nov. 11th, being Armistice Day, it is hoped that a community program will be arranged that Clarendon people may fittingly commemorate the day. We want to do it. We ought to do it.

Father and Son Week is nearly on us. Nov. 11th to 17th is the week set apart for this worthy matter of celebrating some program looking to greater fellowship of father and son, of men with boys. Six years ago this event was first inaugurated in Clarendon and soon plans will be announced of the Seventh Father and Sons Banquet for this community. It is a most worthy movement and its influence is not confined to the one specific week, but permeates the whole year. May it grow and grow.

American people are noted for their ability to invent and contrive, but we believe that one of the finest examples of national ingenuity has come to light here in the South, where farmers are stripping down their old worn-out Fords and Chevrolets, supplying them with cotton frames and adjusting a short tongue to the steering rods, making a most excellent trailer for the family car or truck for the hauling of cotton to and from the gins. Ball bearing wheels make them of light draft and the running gear is strong enough for any usual farm burden. Hats off to this new and admirably practical custom. It typifies American thrift and ingenuity and provides an honorable old-age for the worn-out flivvers.

### DANGER IN DRIVING TOO SLOW

From a safety standpoint, slow driving is sometimes as objectionable as excessive speed. There is a growing conviction among traffic authorities that the "crawlers" are almost as great a menace on main traveled highways as are speeders, and that a minimum speed is quite as necessary as a maximum one.

The "crawler" is a temptation to reckless driving by others. Vehicles quickly accumulate behind him and every driver is exasperated and eager to pass those ahead of him. Ordinary cautious drivers are crowded into taking a chance by a sense of unjust delay. When several drivers massed in a close line all yield to this impulse at the same time—which often happens—an accident is very apt to follow.

There is no more room on main traveled roads for the jay driver than for the jay walker.—Kansas City Safety Council.

John Raskob says the Republican party has become the prohibition party of the nation. We have been trying to say the same thing for many weeks, but we didn't put a nasty dig into it like John.

Attendance at the Texas State Fair at Dallas exceeded the million mark, this year. Texas has the greatest state fair in the whole world, and it is in keeping with our size and importance that it is so.

Clarendon has been remarkably free from personalities in the present national campaign. Our citizens have differed as freemen and as neighbors and on Nov. 6th will accept the result with the philosophy of good Americans. We only have the main show every four years and it is our right to enjoy it while it lasts. It won't be long, now.

Thursday, December 13th, is the day the 1928 Annual Home Town Edition of the Clarendon News will be published. It will be mailed to a great list of probable immigrants to this section of Texas, and will provide the best medium for advertising seasonable and holiday goods in the Clarendon trade territory. Every family, whether or not a regular subscriber, will receive a sample copy.

### GETTING BETTER

Three years ago, Dr. Doran, now Prohibition Commissioner, estimated that from thirteen to fifteen million gallons of industrial alcohol were diverted to illegitimate use each year. Last year, in his opinion, the amount was not in excess of one million gallons.—McKinney Democrat-Gazette.

The News has said time and again that the only issue in the present campaign is prohibition. The nearer comes election day, the more clearly comes the issue. John Raskob vainly seeks to attract to the Smith camp enough wet Republicans to offset the huge desertion of the Democratic ticket by loyal prohibitionists, with the result that he is pleasing nobody on either side. A candidate bolting his own party platform and placing bolters from another party in the forefront of his campaign is reaping what he sowed, quickly and many thousand fold.

Governor Moody has suggested a method of procedure that stamps him with the elements of statesmanship. Concerning the proposed highway legislation, which has become a matter of statewide interest, the governor has proposed to appoint a committee composed of one member from each of the thirty-one senatorial districts to meet in advance of the legislature, study out and submit a composite measure to that body for its consideration. Thus will the time of the legislature be conserved, and the specific claims of every section of Texas be given advance consideration. Our highway program is the greatest question before this people, and it is to the credit of Governor Moody that he approaches the matter in the attitude of a master Democrat that the interests of all Texas be served and conserved.

Then there is another feature which would accrue to the national calamity should Al Smith be elected president. These Texas Democratic senators and congressmen who are urging his election crying out all the time their opposition to his plan for legalizing liquor, would find themselves fighting for re-election against wet administration candidates, and they would have no right to criticize their chief, for Smith has plainly announced time after time that he intended to take his plan to the people, over-riding these dry Democrats held in line by the party lash, just as he spurned the platform as adopted at Houston. Poor Morris Shepherd and company would have to come back to the rock-ribbed dries who refused to be led into the liquor camp and beg for their support in order to hold their own against administration candidates. What a gorge of humble pie that would be for the candidates; what a strain on the credulity and forgiving spirit of the rock-ribbed dries.

### EVERY CITIZEN OUGHT TO VOTE

This paragraph is written without political bias or party prejudice. It is an earnest appeal that every citizen in Donley County entitled to vote, go to the polls on November 6th, and register there his will on state and national issues as presented by the various parties in this campaign. There are five columns on the official ballot this year, and regardless of your party affiliation or personal beliefs you can make your will easily known. There is a column each for Democrats, Republicans, Socialists, Communists and then a blank column for those who desire to register an absolute independent vote.

Then under the law, a voter may vote for any one man on any ticket and vote for others or all others on some other ticket. The law thus protects every voter in the sovereignty of his vote. His will is law.

There is a disposition among some to remain away from the polls because the cycle of political circumstances have revolved in a manner not pleasing to their standards. To these we suggest that only the voters who turn out to register their will have any moral right to complain unless our government runs in accordance with their wishes. All who feel this way certainly owe it to themselves and the country to vote their sentiments, as nearly as they define them for themselves, with regard to no one but God, country and conscience.

A surprisingly small percent have been voting in general elections, and it is entirely possible that most of our national ills are the result of our own negligence in the matter of voting.

Vote on November 6th. Vote square with your conscience.  
Vote.

### WANT ADS IN THE NEWS BRING QUICK RESULTS

Two examples of what a want ad in the columns of the Clarendon News will do were brought to our attention the latter part of last week. The first of these advertised for a lost tire carrier. The carrier was lost Tuesday of last week and a want ad was placed in our classified section. Shortly after noon Friday the missing article was brought into the office of the News with the statement that the ad had been seen that morning. The second item has to do with a cow that was offered for sale in the News. The animal was evidently disposed of some time Friday, for the advertisement was ordered stopped Saturday morning.

A short classified advertisement in the News will bring results and will help to dispose of some articles you have and do not need. Others have profited from their use and a trial will be all that is needed.

### LIVING OFF THE ARCTIC

The Arctic and Antarctic are barren wastes of everlasting snow and ice. Animals are so scarce that often the explorer hunts hours, days—sometimes even weeks—before seeing a single creature. When at last he finds one, anxiously he stalks it, intently he aims. For if he should miss, it may mean days of hunger while he hunts again. It may mean even starvation.

Some of the difficulties which Commander Byrd will face in his efforts to explore the South Pole are told in the story entitled "Living Off the Arctic," which will appear in the Clarendon News Monthly Magazine Section November 15th.

# Repair Time

When the cooler days of winter are at hand, then is the time to consider those repairs you have been planning for so many months.

There are a number of places possibly, where a few boards and some nails would do a great deal of good.

We want you to know that we have just the things you need for the repairs you have in mind. The cost of them is slight and the satisfaction secured is worth much more than the cost.

Call on us and see what the cost would be. You will be surprised and greatly pleased.

## SECRETARY OF STATE GIVES VOTING RULES

"When I helped hold an election several years ago I was surprised at the large number of persons who did not know how to properly cast a vote and mark their ballots."

In a letter just received by The Star-Telegram, this statement is made by Mrs. Jane Y. McCallum, Secretary of State, who suggests that inasmuch as presidential elections are held only once every four years, that certain requirements of voters, as well as requirements of election judges, be called to the attention of the public. Texas, in its general election Nov. 6, will select its state, district, county and precinct officers in all places except where the term does not expire Jan. 1. Also, it will vote on the presidential electors of certain parties, the winners then in turn casting the State's preference for the next president of the United States.

County Judge S. D. Shannon, member of Tarrant County's election board, which supervises the holding of elections, stated Saturday that he, too, had noticed that many persons "unintentionally" lose their vote because of improperly marking their ballots. Carelessness sometimes results in the voter being guilty of a technical error which invalidates his ballot.

**Voter Must Not Sign.**  
One of the rules frequently violated by a voter who acts in good faith but any way loses his vote, is that which says that the voter must not sign his name to the ballot. Texas has attempted to establish a secret ballot system and for that reason the voter should not sign his name. The law on the contrary, says the judge of the precinct shall sign his (the judge's name) to each ballot before it is handed to the voter.

A voter should never in any form mutilate a ballot. The courts have agreed that mutilation destroys the vote cast, although some have disagreed as to what constitutes mutilation. No attempt should be made by a voter to erase lines, once they are made. In cases where a voter makes an error on his ballot the law provides that upon surrendering the ballot to the election judge, he will be given another ballot. However, a limit of three ballots is provided for each voter in such cases. If on the third attempt the voter still fails to properly mark his ballot then this vote is lost in that one election.

In a primary election which, of course, is more common in Texas than the general election, because they are held every other July and every other August, the names of voters appear on a long ticket, one immediately after the other. No other names appear at the right or left of the ballot. It is different in the general election. The statutes provides that the ballots for a general election shall be arranged so that the tickets of different parties shall appear side by side, separated by a parallel rule line.

**Split Tickets Forecast.**  
In these days of so-called "Hoover Democrats" who threaten to vote a straight Democratic ticket except for the presidential electors and then throw their support to Herbert Hoover, Republican presidential nominee, there probably will be thousands of split tickets in Texas.

Article 2981 of the Revised Statutes of Texas defines how ballots shall be marked. It reads: "When a voter desires to vote a straight, he shall run a pencil or pen through all other tickets on the official ballot, making a distinct marked line through such ticket not intended to be voted; and when he shall desire to vote a mixed ticket he shall do so by running a line through the names of such candidates as he desires to vote against in the ticket he is voting, and by writing the name of the candidate for whom he desires to vote in the blank column and in the space provided for such office; same to be written with black ink or pencil, unless the names of the candidates for which he desires to vote shall appear on the ballot, in which event he shall leave the same not scratched."

In the November election the names of all Democratic and Republican nominees, including the presidential electors, will appear on the ballot. There also will be columns for Socialists' and Communists' candidates. The names of Herbert Hoover and Governor Alfred E. Smith, presidential nominees, do not appear on the ballot. A vote cast for the Democratic electors is a vote for Smith; a vote for the Republican electors is a vote for Hoover. Therefore, the voter should not attempt to write in the name of either.

**Here's Way to Do It.**  
If a voter was attempting to cast a Democratic ticket, yet voting for Hoover, he would scratch out the presidential electors in the Democratic column and scratch out all of the Republican nominees except the Republican electors. If he wanted to vote all Republican except for the presidential race, he would scratch out the Republican electors, leaving the other Republican nominees, and scratch out all of the Democratic nominees except the presidential electors. In each event the voter, too, would be required to scratch out the entire Socialist and Communist tickets.

One of the most frequent errors in a presidential election is that a voter, realizing that the Democrats and Republicans are the two main parties in this

## AMARILLO MAN IS HEAD OF WORK FOR BAYLOR SCHOOL

Waco, Texas, Oct. 21.—That a Greater Baylor University looms as a near-reality is indicated by the progress of the Greater Baylor campaign, particularly in district nine, where Amarillo is the key city and J. M. Cook of Amarillo is district chairman.

The Greater Baylor campaign for \$2,000,000 in the state at large is identified with Baptist leaders. In district nine, Rev. W. C. Garrett of Amarillo is chairman of the Palo Duro association; Rev. W. C. Harrison, Canadian, Canadian association; Rev. J. R. Hicks, Dalhart, Trans-Canadian association; Rev. C. R. Joiner, Wellington, North Fork association; Rev. V. M. Cloyd, Hereford, Sierra Blanca association; Rev. S. R. McClung, Clarendon, Panhandle association.

"The greatest enterprise in the history of Texas Baptists" has characterized the campaign, according to State Chairman D. K. Martin. More than 5,000 workers will be recruited by Nov. 1. During the popular campaign from Nov. 23 to Dec. 4, every Texas Baptist an Baylor alumnus will be visited personally for a contribution to the campaign. Money realized in the campaign will pay off Baylor's indebtedness and create additional endowment to qualify Baylor for \$300,000 from the General Education board.

## THE STORY OF TWO COWS

It takes cow testing to know the difference in production of individual cows in a herd and to learn the importance of feeding according to production, so T. H. Royder the tester in the Bexar County Herd Improvement Association is showing. He cites the case of Bell and Laura, two cows of the herd. While Laura milked 3233 pounds in 274 days, Bell produced 6251 pounds. It cost \$38.15 to feed Laura during this time while Bell consumed \$51.99 worth, but the latter made \$71.61 more profit above feed cost than her less useful companion. Bell made a net profit above feed of \$140.50 but Laura could only show a profit of \$68.89. Mr. Royder points out that had both cows received the same amount of feed as in the case in most herds, Laura's profits would have been lessened by \$21.39. Laura is a much better cow than many in Texas for she made 184.4 pounds of butterfat in these 274 days, yet she misappropriated much of her feed to put on fat and is considered such undesirable company as to cause her owner to remove her from the herd. Cow testing has shown him that there is too much money in Bells to bother with the Lauras.

State will scratch out the nominees of the opposing and yet will fail to scratch out the nominees of the weaker parties, such as the Socialists and the Communists. It is necessary for the weaker parties, or the party nominees not supported, to be scratched if the vote is to be legally cast.

It is required by the Texas statute for a voter to have a poll tax receipt or an exemption certificate if he is to vote. Persons whom the judges legally can bar from participation in the election are idiots and lunatics, paupers supported by the county, persons convicted of a felony who never have been pardoned or whose citizenship never been restored, and all soldiers, marines and seamen employed in the service of the Nation.

The law prescribes that the ballots shall be printed in black on white clear paper of sufficient thickness to prevent a mark becoming visible on the opposite side. The statute also prescribes that the general elections shall be held the first Tuesday after the first Monday in November.

## NEW TOWNS ADDED BRING SERVICE TO 105 CITIES

Abilene, Texas, October 22.—The addition of Dodsonville, Collinsworth County, Medicine Mound, Hardeman County, and Wingate, Runnels County, brings the total number of cities, towns and communities served by the West Texas Utilities Company to 105, it was announced from the general offices here.

The number of customers served to date totals 53,430, making a gain of 1,036 in the past month. Seven years ago the West Texas Utilities Company was serving but seven of the larger cities of West Texas. Today the entire area covered by approximately 2,000 miles of transmission lines has a population of more than 500,000.

In Farmers' Bulletin 1549-F, "Feeding Cattle for Beef," may be found many practical suggestions on successful methods of feeding beef cattle. This bulletin, which is especially valuable for farmers who have not had wide experience in finishing cattle for market, is a valuable for free distribution by the U. S. Department of Agriculture.

Wild geese, like the human race, should be allowed to select their own mates when they are being raised in captivity. Unlike some human beings, however, they remain mated for life and manage

their family affairs in a competent way. Family loyalty is so strong among wild geese that if one or two of a family are incapable of flying off to other places, all of them will usually remain. They are somewhat temperamental about selecting their first mating nesting site, but in succeeding years they will boldly select and hold their chosen home, resorting whenever possible to a site used by them in former years. These birds often live to the age of 50 years or more and are better breeders in late than early life.

If fed raw garbage the hog is able to balance its ration and will display a remarkable instinct in choosing feed that is beneficial if allowed an opportunity to do so. The most successful hog raisers obtain the best and most economical results by allowing their animals a great amount of latitude in selecting their feed, as the hogs will refuse any ingredients that are unappetizing or an unnatural feed. The feed-value of the better grades of garbage is such that it is seldom economical to give grain as a supplementary feed, and during the summer months particularly, when there is a large supply of garbage, good results may be obtained by feeding garbage alone.

In buying a protein feed for beef cattle, it is important to purchase one that will supply the

protein most cheaply. Wheat, rice, bran and legume hays, if of good quality, will have a protein content of about 15 per cent; linseed meal, about 35 per cent; and cottonseed meal, from 35 to 50 per cent. For example, alfalfa hay with a protein content of 15 per cent at \$22.50 a ton will supply a pound of protein at 7 1/2 cents, while linseed meal with a protein content of 35 per cent will supply protein at the same cost, when valued at \$52.50 a ton. Cottonseed meal with a protein content of 45 per cent at \$45 a will supply protein at the same cost as a 40 per cent meal at \$40 a ton. In general, the higher grades of a feed are the most economical sources of protein.

### Chain Stores Can't Afford to Stop Advertising, Says J. C. Penny

Continual Increase in Use of Newspaper Space, Almost Exclusive of Other Mediums. Shows it Essential for Sales and Expansion.

Elimination of chain store newspaper advertising through the concerted action of the chain stores was dismissed as inconsistent with the policy of those organizations by E. C. Sams, president of the J. C. Penny Company, in an address before members of the New York State Press Association.

Combating this possibility, Mr. Sams pointed out that chain store newspaper advertising is continually on the increase and cited the money his own company spends for newspaper space.

In 1926 J. C. Penny Company, spent \$1,517,576 for advertising space, and in 1927 they increased their advertising budget to \$2,817,576, almost all of it in newspapers.

"Business men understand," said Mr. Sams, "that Mrs. Housewife, as well as her husband, now depend upon newspaper advertising as a guide for their shopping plans. Along the way, a good many business crashes have been brought about by so-called 'hard-headed' business men, who could not believe this."

From time to time my attention is called to those cases in which a son inherits the business and, feeling over confident of the firm's reputation to pull itself along without the use of advertising. Sooner or later such men find themselves at the head of a dwindling business. The few among them who ever successfully

stage a come back do so only at an enormously high advertising cost. Competition is now so keen, that other products just put on the market are not considered substitutes, but in many cases they represent superior values, and the consumer is frequently glad to make the change.

"The individual who insists that there is any possibility of enterprise business organizations curtailing advertising is simply looking backward and no one can afford to give his word serious consideration.

"Since we have by preference adopted a merchandising policy of low overhead and a reasonable margin of profit only in each transaction, it behooves us to buy carefully. You may rest assured, therefore, that we did not go into the market in 1927 and pay for that year alone almost two and a half million dollars for advertising space in local papers without feeling reasonably sure that we were getting our money's worth and, so far as possible, were laying the foundation for bigger and better business operations in the future.

"We are always concerned with finding out how future investment in advertising may be made more valuable. We welcome suggestions from the local newspaper editor and from the advertising fraternity, to the end that both editor and merchant may work for the upbuilding of the community."

### NEWS' WEEKLY COTTON LETTER

#### COTTON PRICES ADVANCE

The cotton market during the week of Oct. 15th to 19th was active and higher, with quotations on Oct. 19th about 5-16 cents per pound higher than those of Oct. 11th. Demand for spot cotton continued good in the shorter lengths, up to 1-1/2 to 1-1/4 inches, but sluggish for lengths above, excepting 1-4 inch staple, but with offerings limited.

The past week, according to the Weather Bureau, witnessed abnormally warm weather, throughout almost the entire belt, with mostly fair conditions, excepting heavy rains during the last part of the week in some sections. Cotton was reported opening rapidly, with picking and ginning showing satisfactory advances.

A separate and autonomous department of Italian is maintained in the University of California at Berkeley. It is said to be the only department of this character established in any American university. The chair of Italian culture has been inaugurated and endowed by the Italians of California. A member of the faculty of the Royal University of Rome will fill the new chair this year as a visiting professor.

Prices paid for middling cotton,

7-8 inch staple, in the ten designated markets on Oct. 19th were as follows: Norfolk, 19.15c; Augusta, 18.95c; Savannah, 18.85c; Montgomery, 18.40c; New Orleans, 19.11c; Memphis, 18.45c; Little Rock, 18.40c; Dallas, 18.25c; Houston, 18.80c; and Galveston 19.05c. The average price in these ten markets was 18.74c compared with 18.46c last week and 19.43 last year. Sale of spot cotton on these ten markets for the week was 419,879 bales against 283,778 bales a year ago.

October future contracts for the week at New York advanced 48 points to 19.78c, at New Orleans 28 points to 19.00c, and at Chicago 25 points to 19.03c. Certified stocks in New York were 5,865 bales, in New Orleans 3,175 bales, in Houston 4,042 and in Galveston 914 bales. Total stocks in New York on Oct. 19th were 12,521 bales, in New Orleans 200,019 bales, in Houston 702,702 bales and in Galveston 495,492 bales. Exports from Aug. 1st to Oct. 19th were 1,790,474 bales against 1,798,810 bales in the corresponding period last year.

A separate and autonomous department of Italian is maintained in the University of California at Berkeley. It is said to be the only department of this character established in any American university. The chair of Italian culture has been inaugurated and endowed by the Italians of California. A member of the faculty of the Royal University of Rome will fill the new chair this year as a visiting professor.

### FORMER CLARENDON BOY MARRIES AT WELLINGTON

The following account of the marriage of Milus Little, son of T. M. Little of this city, to Miss Beth Ricketts of Wellington, was clipped from the current issue of the Wellington Leader. Milus is well known in Clarendon and has many friends here who extend to him a great share of good wishes for his welfare in his latest step.

A marriage of much interest to the people of Wellington was that of Milus Little and Miss Beth Ricketts which was solemnized in Dallas Sunday, October 14, according to information received by relatives in Wellington.

The bride is the daughter of Mr. and Mrs. J. W. Ricketts of this city, and at the time of her marriage was a member of the senior class of the Wellington high school. She has always been a popular member of Wellington's younger set and has innumerable friends here.

The groom is the son of T. M. Little, proprietor of the Little Mercantile Company, and is associated with his father in the man-

agement of this store. He has been active in all civic affairs since locating in Wellington and is known to be one of the city's most prominent younger business men. He is a graduate of the Clarendon high school and later continued his studies at the University of Texas and at Thorpe Springs College.

Mr. and Mrs. Little will make their home in Wellington.

### PAINVIEW TO BUILD EIGHT STORY HOTEL

Plainview is to have a new eight story Hilton Hotel on the corner of Sixth and Austin streets. Construction will begin this week, and is expected to continue for six months, at which time the building will be completed.

Brewster in the largest county in Texas. It has an area of 3,739,680 acres. Rockwall is the smallest. It has 95,360 acres.

The Rio Grande Valley claims the four largest mixed vegetable farms in the United States.

### JIM JEFFRIES GIVES RULES FOR LIVING

OFFERS TEN TIPS FOR THE YOUNG ATHLETES IN AMARILLO SPEECH.

Jim Jeffries, one-time world's heavyweight champion, doesn't spare the rod in his advice to young boxers and other athletes. Jim appeared at the Fair theatre this week on the Interstate vaudeville bill with his brother, Jack Jeffries, to offer a comedy and boxing act.

"My rules are not only for boxers, but for baseball and football players, runners, swimmers and every one who wants to build up a strong, healthy body and keep his mind free from nerves and imaginary worries," says Mr. Jeffries.

So, here goes for the magic

rules of the great James J. Jeffries:

1. Keep away from the girls. They take your mind off your work.
2. Sleep in the open, rain or shine. Use a rubber blanket in rainy weather, but stay outside.
3. Do fifteen miles of road work every day.
4. Eat plenty of vegetables, but not much meat.
5. Be in bed EVERY NIGHT at 9 o'clock. Loss of sleep is the quickest road to ruin for the athlete.
6. Read to develop your mind, and read plenty. (Just when one would have time to read, "Jeff" did not explain.)
7. Believe in yourself, and cut "maybe" and "if" out of your vocabulary.
8. Learn how to box and defend yourself, no matter what particular sport you desire most. A punch in the nose will bring the man out in you and your defensive work will develop your mind to think and act quickly.
9. Play fair and be a game sport, win, lose or draw. If you

cheat one way you'll cheat another, and in the end you will only cheat yourself.

10. Think clearly. A poisoned mind and a perfect body never go hand in hand. One is bound to lose.

### KNOW TEXAS

Thirty-four countries were represented among the places of birth of the 300 graduates of eighth-grade evening schools in Detroit this year. Nineteen countries of Europe were included, Germany coming first with 65, Poland with next with 36, then Russia with 30, and Italy with 12.

Kaolin is the most valuable of clays for the manufacture of porcelain pottery. Kaolin exists in large quantities in several Texas counties. Texas has almost 635,000 telephones, which is four times the number in Austria, four times the number in Belgium, 60 times the number in Bulgaria, 125 times the number in Greece, and only 100,000 less than the number in France although France has seven times the population of Texas.

## The new Buick is the new Style

**Fleet, symmetrical, low to the ground, unique & unrivaled from an artistic standpoint—and the most comfortable automobile motorists have ever known—**

Not only beautiful, not only symmetrical, not only luxurious—but an entirely new style—an alluring new mode of car design—

—a mode so true and sound and beautiful that it forecasts the trend of smart body-design for years to come—

The same artistry, the same craftsmanship which make this new Buick the most beautiful automobile of the day also make it the most comfortable

automobile motorists have ever known.

New adjustable front seats in the closed model—full width rear seats providing plenty of room for three adult passengers—deep, soft upholstery—the lounging spaciousness of the interiors—all combine with Buick's famous cantilever springs and Lovejoy Hydraulic shock absorbers to produce the highest degree of riding luxury ever attained.

See this new Buick—drive it—prove to yourself it's the Buick of Buicks and the car of cars!

NOTICE OF ROAD BOND ELECTION

THE STATE OF TEXAS ) COUNTY OF DONLEY )

TO THE RESIDENT PROPERTY TAX-PAYING VOTERS OF DONLEY COUNTY, TEXAS:

TAKE NOTICE That an election will be held on the 21st day of November, 1928, within Donley County, Texas, to determine if said County shall issue bonds and if ad valorem taxes shall be levied in payment thereof in obedience to an election order entered by the Commissioners Court on the 20th day of October, 1928, which order is as follows:

On this, the 20th day of October, the Commissioners Court of Donley County, Texas, convened in recessed regular Session, at the regular meeting place thereof in the Court house at Clarendon, Texas, all members of the Court, to-wit:

J. R. Porter, County Judge, Edwin Haley, Commissioner Precinct No. 1, J. H. Hurn, Commissioner Precinct No. 2, J. F. Stiles, Commissioner Precinct No. 3, J. R. Bain, Commissioner Precinct No. 4, Lottie E. Lane, County Clerk and ex-officio Clerk Commissioners Court, being present, came on to be considered the petition of J. T. Patman and one hundred (100) other persons, praying that bonds be issued by said Donley County, Texas, in the sum of One Million (\$1,000,000.00) Dollars, bearing four and three fourths (4 3/4) per cent interest, and maturing at such times as may be fixed by the Commissioners Court, serially or otherwise, not later than thirty (30) years from their date, for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, on State Highway No. 58 from the North County Line of Donley County, to the South County Line of Donley County, and through the entire County.

And of which one Million (\$1,000,000.00) Dollars, Commissioners Precinct No. 1, Donley County is to receive Thirteen Thousand (\$13,000.00) Dollars for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, on State Highway No. 58 from the North County Line of Donley County, to the South County Line of Donley County, and through the entire County.

And of which one Million (\$1,000,000.00) Dollars, Commissioners Precinct No. 2, Donley County is to receive Twenty Thousand (\$20,000.00) Dollars for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, on State Highway No. 58 from the North County Line of Donley County, to the South County Line of Donley County, and through the entire County.

And of which one Million (\$1,000,000.00) Dollars, Commissioners Precinct No. 3, Donley County is to receive Sixty-seven Thousand (\$67,000.00) Dollars for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, on State Highway No. 58 from the North County Line of Donley County, to the South County Line of Donley County, and through the entire County.

And of which one Million (\$1,000,000.00) Dollars, Commissioners Precinct No. 4, Donley County is to receive Sixty-seven Thousand (\$67,000.00) Dollars for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, on State Highway No. 58 from the North County Line of Donley County, to the South County Line of Donley County, and through the entire County.

The manner of holding said election shall be governed by the General Laws of the State of Texas relating to General Elections when not in conflict with the provisions of the statutes hereinabove referred to.

The County Clerk is hereby directed to give notice of said election as requested by law and as hereinabove directed, and further orders are reserved until the returns of said election are made by the duly authorized election officers and received by this court.

Lottie E. Lane, Clerk of the County Court and ex-officio Clerk of the Commissioners Court of Donley County, Texas.

CITATION ON APPLICATION FOR FOR LETTERS OF GUARDIANSHIP BY PUBLICATION

NO. 555 THE STATE OF TEXAS

To the Sheriff or any Constable of Donley County, Texas: YOU ARE HEREBY COMMANDED to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said County, a copy of the following notice:

THE STATE OF TEXAS To all persons interested in the Welfare of Mary V. Stephenson, Minor: Mrs. Nellie Holtman has filed in the County Court of Donley County, Texas, an application for Letters of Guardianship upon the Estate of said Minor, Mary V. Stephenson, which said application will be heard at the next term of said Court, commencing on the First Monday in November, A. D. 1928, the same being the 5th day of November, A. D. 1928, at the Court House thereof, in Clarendon, at which time all persons interested in the welfare of said Minor may appear and contest said application, if they see proper to do so.

HEREIN FAIL NOT, but have you before said Court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Clarendon, Texas, this 23rd day of October, A. D. 1928.

LOTTIE E. LANE, Clerk, SEAL County Court, Donley County, Texas.

SUBSCRIPTION RENEWALS BEING MADE CONSTANTLY

A short time past, the News mailed out a number of notices on the expiration of subscriptions to the paper. In the weeks that these have been away from the office, a great part of them have been renewed and many are coming to the office to advance their paper another year. In addition to this, there are many who were seen during the campaign last fall who are coming into the office and starting their paper since they have made a crop in the past few months. There are others who have called at the News office to renew their paper and these will always find a ready welcome whenever they call on us.

E. T. Pope attended to business in Dallas the fore part of this week.

TEXAS FOR HOOVER How A Democrat Can Vote For Hoover SAMPLE BALLOT

DEMOCRATIC PARTY REPUBLICAN PARTY COMMUNIST PARTY SOCIALIST PARTY

100,000 dairymen can't be wrong!

Here's the plan used by 100,000 dairymen to make extra money.

1-Raise all the feed you can (legume hay when possible). 2-Use just enough Purina to supply what your own feed lacks. Read the directions in the bag. 3-Take a moment to figure out your present milk and feed costs before you start on Purina. 4-After feeding Cow Chow for a season, figure up your costs again. If Purina does not make more money—don't feed it!

Farmers who have learned that it pays to figure production costs stick to Purina year after year. We will be glad to show you why the next time you drop in. Better still, phone for our Purina service man to come out to your place the next time he is in town.

Clarendon Grain Company PHONE 52 The Store with the Checkerboard Sign

Hon. Alvin Moody, Houston, Texas. Dear Mr. Moody: We have received your letter of October 4, inclosing a form of ballot to be used in case a voter desires to vote for the Republican presidential electors and at the same time for all the nominees of the Democratic party for state offices.

The manner of marking a ballot is set forth in Article 2981, of the Revised Civil Statutes of our State, and in this Article is included the provision for voting a mixed ticket.

"When a voter desires to vote a ticket straight, he shall run a pencil or pen through all other tickets on the official ballot, making a distinct marked line through such ticket; not intended to be voted; and when he shall desire to vote a mixed ticket he shall do so by running a line through the names of such candidates as he shall desire to vote against in the ticket he is voting, and by writing the name of the candidate for whom he desires to vote in the blank column and in the space provided for such office; same to be written with black ink or pencil, unless the names of the candidates for which he desires to vote appear on the ballot, in which event he shall leave the same not scratched."

I have examined the sample ballot submitted by you, and in our opinion, a ballot so marked meets the requirements set forth in the Article quoted above and should be accepted by the election judges and counted as a vote for the Republican electors and at the same time as a vote for all of the state Democratic nominees.

That is to say, if a voter desires to vote for the Republican presidential electors and at the same time vote for all the Democratic nominees for state offices, it is legal for

such a voter to run a line through the presidential electors on the Democratic ticket, leaving the presidential electors on the Republican ticket unmarked; and when he reaches the nominees for state offices, leave same unmarked on the Democratic ticket and run a line through the nominees for state offices on the Republican ticket. This, of course, would necessitate running a line through the entire ticket of any other party appearing on the ballot.

In this connection, we desire to call your attention to the provisions of Article 3009, Revised Civil Statutes, 1925, under which a voter should not carry a marked ballot to the polls with him.

Very truly yours, Claude Pollard, Attorney General

IMPORTANT

A Democrat wishing to vote for Hoover should mark his ballot as shown in the marked sample ballot above. This has been approved by Hon. Claude Pollard, Attorney General of Texas, as a legal ballot which must be counted. Read General Pollard's official letter on this page.

Be sure to observe the following: (1) Mark out ALL TWENTY Smith electors which are those at the head of the "Democratic Party" column. Leave all other names in this column unmarked.

(2) Leave UNMARKED ALL TWENTY of the Hoover electors at the top of the "Republican Party" column. Mark out all names in this column below the electors.

(3) Mark out the whole of the three columns to the right, headed "Communist Party," "Socialist Party," and the blank column.

**Lorene Thornton and Roy Bartee Are Wed**

A very quiet wedding was solemnized last Sunday afternoon at 6:30 o'clock at the Baptist parsonage when Miss Lorene Thornton and Mr. Roy Bartee of Clarendon were wedded, with Rev. S. R. McClung officiating.

Miss Thornton, daughter of Mrs. M. E. Thornton, was nattily attired in a navy coat suit with accessories to match and used the same as her traveling costume. Miss Thornton is one of Clarendon's most attractive young women, she having resided here for a number of years. After the completion of her High School course she became associated with the Baldwin Dry Goods Company and later completed a business course at Tyler Commercial College. On returning to Clarendon she associated herself with the Greene Dry Goods Company, with which firm she was working at the time of her marriage.

Mr. Bartee is a long-time resident of Clarendon and is an artist in his line of work, the tailor business. He is well liked and generally liked in his home town, where the couple will make their home and where the best wishes of the News and the many friends of the families follow them.

**Little Miss Bobbie Lynch Honored With Birthday Party**

Mrs. O. D. Leisberg's home was a scene of weird ghosts and goblins Saturday afternoon when Miss Bobbie Lynch was honored with a birthday party by her grandmother, Mrs. O. D. Leisberg. The Halloween decoration scheme of yellow and black was carried throughout the home. Each little guest registered in the spook book then before entering was greeted by the weird ghost of the neighbor who had been slain by the neighbors as summer is over. They were ordered to shake his cold clammy hand before they were entitled to enter. All complied but few very reluctantly. After they were all assembled in the large living room, Miss Bobbie was told to start from goblin light in the dining room and follow a cord to where it would lead, be what it may. Doing this she found a large balloon sack tied to the end of the cord; told to pull the cord and, behold, out tumbled packages upon packages. After each package had been examined and thanks sweetly expressed, the little hostess led her guests into the room of games. A big yellow cat's head on the wall was meowing for his lost whiskers. Each child was blindfolded in turn and told to put the black whiskers where they thought they looked best on the cat's head. A georgette handkerchief was offered as first prize and a chocolate bulldog for the booty. La Vern Lott won first prize and Ruth Tucker the booty. Then a deep yellow hole appeared in one end of the room and three goblins' heads rolled forth. A prize of a memorandum book was given for pitching all three heads into the hole, Ruby Tucker being the lucky one. After the games the guests were asked to enter the dining room and find their places at the table. Animal cookies with a goblin napkin and favor marked each plate. The center place was a large white birthday cake adorned with eleven brightly burning candles. On each side was a jack-o-lantern with its burning eyes, mouth and nose aglow. Bobbie blew the candles out with the exception of one, this meaning one item of bad luck to come to her before her next birthday. The guests present were: Little Misses Oleta Wood, La Vern Lott, Betty Blanche Baker, Ruth and Jean McDonald, Ruth, Ruby and Louise Tucker, Mildred and Merrytom Atterberry, Lallan

Belle and Margaret Wilkerson, Frances Sanford, Mary Lee Taylor, Julia Hahn, Frances Arnold, Fannie McGowan, Margery Shepherd and Willie Maude Pratt.

An out of town guest was Little Miss Maxine Blackwell, of Amarillo.

Delicious refreshments were served and each child carried home the goblin napkin and favor. All expressed their pleasure to the hostess for a pleasant time and hoped Bobbie would have another soon.

**T. E. L. Sunday School Class Has Lovely Affair**

One of the loveliest social affairs on record for the T. E. L. Sunday School Class of the Baptist Church, was that given in the home of Mrs. H. C. Brumley Tuesday afternoon with Mrs. H. C. Brumley and Mrs. Joe Goldston hostesses.

Beautiful chrysanthemums in shades of yellow and white made the spacious entertaining rooms more attractive.

Sewing and pleasant conversation occupied the time of the guests until a varied program was opened by Mrs. W. B. Sims, teacher of the class, with two much enjoyed readings.

This was followed by a beautiful vocal solo by Mrs. Rolle Brumley, with Mrs. Boykin playing the violin obligato and Mrs. Allen Bryan at the piano. Mrs. W. C. Stewart delighted her listeners with a reading and graciously responded with an encore. The ever favorite and well received, Mrs. Boykin, was present with her violin and charmed those present with two delightful numbers. Mrs. Bill Bromley's two readings were a delightful feature of the afternoon, also.

Mrs. Cap Lane, president of the class, announced that the next social meeting of the class would be held in the home of Mrs. Ralph Andis, the second Tuesday in November.

Delicious pie and coffee in the Halloween colors were served to

Mrs. J. H. Harris, Frank Whitlock, W. Z. Borron, Buel Sanford, Bill Bromley, J. H. Headrick, Clyde J. Douglas, Allen Bryan, W. A. Land, F. E. Sawyer, Edd Speed, M. W. Moseley, G. G. Kemp, W. A. Massie, W. C. Stewart, Frank Brown, Ralph Andis, Maggie Whipple Reed, Cap Lane, W. B. Sims, S. R. McClung, Berta Walker Redfern, Virgil Wilson, Walter Lowe, Rolle Brumley, G. L. Boykin, Eva Draffen, R. Wilkerson, and A. M. Lightsey of Chillicothe, Texas.

**Dinner Bridge Club Entertained**

Mr. and Mrs. J. L. McMurry delightfully entertained the Dinner-Bridge Club members and a few invited guests at their home with a Halloween party.

Beautiful yellow chrysanthemums and marigolds together with Halloween motifs were profusely used and adorned the entire entertaining suite, being especially lovely and artistic in the dining room, where yellow candles burned in small pumpkins at a beautifully appointed dinner table.

The yellow and black color scheme predominated in the settings and added much to the attractiveness of the affair.

Bridge followed and was enjoyed until late with Miss Foster and Mr. Blocker holding high score for the ladies and gentlemen respectively. Mrs. Blocker received low.

The guests: Mr. and Mrs. Fred Chamberlain, Mr. and Mrs. A. I. Jeffries, Mr. and Mrs. W. C. McDonald, Mr. and Mrs. John Blocker, Dr. and Mrs. T. H. Ellis, Dr. and Mrs. H. M. Rhoades, Mr. Will Lewis, Miss Rita Foster, Miss Mable Mansell, and Miss Ruth Stocking.

**Episcopal Auxiliary Meet With Mrs. Swann**

A social and business meeting of the Episcopal Auxiliary was held in the home of Mrs. L. L. Swann Wednesday afternoon with a good attendance. Miss Murray of St. Louis, a Red Cross worker,

now in Clarendon, gave an interesting talk on the work now being carried on by the Red Cross and urged each to be ready to help when the drive begins Nov. 11th.

Plans were completed for the parcel post sale which will be held soon.

Pleasant conversation was indulged in while the hostess served dainty refreshments during the social hour.

**Mrs. Tarwater Is Hostess to the Ladies Aid Society**

The meeting of the Ladies Aid Society, held in the home of Mrs. W. B. Tarwater Wednesday afternoon, was opened by prayer by Mrs. John Beverly.

Mrs. Frank White presided over the business session in the absence of the president, and Mrs. J. A. Thompson conducted the study of the lesson, Matthew, 18.

Ten members and two invited guests were present and enjoyed the refreshments served during the social hour.

Mrs. Clappitt will be the hostess to the society next week and Mrs. Tarwater leader.

**Mrs. Letts Is Hostess to 1922 Bridge Club**

One of the most elaborate and lavish parties for the members of the 1922 Bridge Club was the beautiful affair given Tuesday afternoon by Mrs. A. R. Letts at her lovely home.

Halloween motifs were used profusely in the entertaining rooms together with large bouquets of yellow chrysanthemums and orchid asters.

The table where an elaborate three-course afternoon luncheon was served was beautiful with a centerpiece composed of large pumpkin filled with fruits and nuts in keeping with the season, and four tall brown tapers in small pumpkins on either side. Black cats with arched backs served as place cards; yellow baskets drawn by black cats held salted nuts while black cats danced saucily about the salad. Cups with orange and black paper frills held the ice course, fancy whistles were table favors. Not an item was overlooked to make this a beautiful and successful affair, even the tallies were large yellow pumpkins.

Late in the afternoon score favors were awarded Mrs. R. A. Chamberlain for high score and Mrs. B. L. Jenkins for consolation.

The guest list included Mrs. Geo. B. Bagby, Mrs. J. T. Sims, Mrs. L. L. Swann, Mrs. Geo. Bugbee, Mrs. Odos Caraway, Mrs. B. L. Jenkins, Mrs. Geo. Ryan, Mrs. James Trent, Mrs. R. A. Chamberlain, Mrs. T. H. Ellis, Mrs. Sella Gentry, Mrs. W. H. Cooke and Mrs. Frank McCrary.

**Betty Blanche Baker Celebrates Fifth Birthday**

Betty Blanche Baker was the dainty little hostess to her close friends at the home of her grandparents, Mr. and Mrs. J. D. McAdams, Friday afternoon in celebration of her fifth birthday.

Many games made the afternoon pass swiftly with an ice cream course, together with the pretty birthday cake being served the guests in the late afternoon.

The guest list: Glenn Day, Bessie Crawford, Snooks Tucker, Lenora Kelly, Mary Zee Taylor, O. L. Baker, Boyd Woods, and Betty Baker, the hostess.

**Picnic Enjoyed by Youngsters**

The third year class of boys of the Junior Department of the Methodist Sunday school, under the leadership of Mr. Andrew Reavis, enjoyed a picnic at the river Saturday afternoon. Tree climbing and various activities suited to boys were indulged in and everything was as had been planned until the car became imbedded in sand and the youngsters had to hike a part of the way to town, but even that was joy to the boys.

A picnic lunch was enjoyed despite the predicament of the car.

### Bridge Club Guest of Mrs. Chamberlain

The Friday Afternoon Bridge Club had a delightful meeting Friday when they met at the home of Mrs. Park Chamberlain for a regular meeting of the club. The house was attractively decorated with beautiful roses and the afternoon was spent in the playing of bridge, with Mrs. Charles Trent receiving high score favor for club members, Mrs. Charlie Bell for invited guests and Mrs. Richard Bell cut.

A lovely afternoon refreshment course was served to Mrs. Charles Trent, Mrs. Selden Bagby, Miss Mildred Martin, Mrs. Clarence Miller, Mrs. Philip Gentry, Mrs. H. Kennedy, club members; Mrs. Charlie Bell, Mrs. Richard Bell, Mrs. Jimmy Miller, Mrs. Ira Merchant and Mrs. C. G. Stricklin, invited guests.

### Home Economics Club Studies Cake-Making

The members of the Home Economics Club had the interesting study of cake-making when they held their regular meeting in the home of Mrs. John Lott Friday afternoon. The mixing texture and causes of the cake falling were discussed following the business session. Lovely refreshments were served to fourteen members and five invited guests at the close.

### Young Matrons' Harmony Class Enjoys Social

The spirit of Hallowe'en prevailed at one of the most elaborate socials of the Young Matrons' Harmony Class of the Methodist Sunday school when Mrs. Y. E. McAdams was hostess at her home Tuesday afternoon. Bowls and vases of lovely autumn flowers were used against a background of Hallowe'en suggestions such as black cats, witches and pumpkins. After the business session, the game 42 was enjoyed with Mrs. Earl Lynn winning high score.

The Original Rexall One Cent Sale Nov. 1st, 2nd, and 3rd. Remember the dates. (43c.)

and she was virtually overcome with the miscellaneous shower presented her. Many lovely things for the home were found in the packages and after a gracious "Than you" from Mrs. Lynn, lovely refreshments in keeping with the Hallowe'en motif and season were served.

Those present to enjoy this lovely hospitality were Mrs. Slaton Mahaffey, Mrs. Paul Shelton, Mrs. B. C. Antrobus, Mrs. Walter Hutchins, Mrs. Henry Williams, Mrs. Kirtley, Mrs. Manley Ozier, Mrs. F. O. Naylor, Mrs. Fred Buntin, Mrs. Earl Lynn, Mrs. Tom Goldston, Mrs. L. H. Johnson, Mrs. W. A. Wilson, Mrs. Henderson, Mrs. Jim Haile and Miss Phoebe Ann Buntin.

### Mothers' Club Holds Interesting Meeting

Mrs. W. W. Taylor was hostess Friday afternoon when she entertained members of the Mothers' Club at her home.

"The Cultivation of Descriptive Power by Talking of Birds With Children," was the subject of the interesting lesson. Mrs. Fred Buntin was the leader of the lesson and Mrs. Eva Draffen read a paper on the subject. Roll-call of the members was answered by the description of a local bird, its season, shape, size, color, etc., and having the club members guess its name. Mrs. Ralph Porter gave two enjoyable readings and Mrs. Clyde Douglas and Mrs. U. J. Boston gave interesting discussions on "Protection of Birds" and "Protective Resemblances."

Mrs. R. Wilkerson, music director of the club gave an instrumental selection "Birdie's Return Song" and two Victrola selections of bird calls were enjoyed.

Mr. and Mrs. G. L. Greene and family spent Sunday with Amarillo friends, motoring back in the afternoon. G. L. says he always hits freezing weather or a blustery day when he goes to Amarillo, and Sunday afternoon was no exception.

The Original Rexall One Cent Sale Nov. 1st, 2nd, and 3rd. Remember the dates. (43c.)

In your time of need, may others comfort you and may God's richest blessings always be yours. Mrs. E. R. Reeves, Mr. and Mrs. E. B. Gardner, Paul and Rex Reeves, Mr. and Mrs. R. P. Reeves, E. B. Reeves, Mrs. Ruby Scott, Mrs. C. T. McMurtry. (43pd.)

### CHURCH OF CHRIST

Two splendid services on last Lord's Day. Attendance at all meetings gradually on increase. The services for next Lord's Day are as follows:

Bible School at 10 a. m. Sermon, 11 a. m. Communion, 11:45 a. m. Young People's Meeting, 6:30 p. m. Sermon, 7:10 p. m. Subject for 11 o'clock hour: The Greatest Things in Life. Subject for night: The Gilead Balm.

We invite all who so desire to attend each and every service. Our motto is: Preach the Word. The minister is highly pleased with the splendid co-operation and the enthusiasm that is manifested in the work, also the increase in attendance is very noticeable. "Come thou with us, we will do thee good." D. Lee Hukel, Minister.

### FIRST METHODIST CHURCH

Sam E. Allison, pastor. Sunday school meets in all its departments at 9:30 a. m. Judge J. R. Porter, general superintendent. We have classes and departments for all ages. Preaching services at 10:45 a. m. and 7 p. m., conducted by the pastor.

Devotion meeting of the Senior Epworth League 6:15 p. m. A most cordial invitation to come and worship with us. Good music and helpful services. Be sure and save a date for the 11th of November (Sunday), that is the occasion of our last Quarterly Meeting and our P. E. will be with us and we want to make it a big rally, "go over the top," day winding up our year for the Conference. We are counting on every member to be in their place.

### Mrs. W. L. Ball Is Hostess

Mrs. W. L. Ball was the hostess Thursday with an enjoyable party at the home of her mother, Mrs. M. T. Crabtree. Lovely autumn flowers adorned the rooms and helped to carry out the red and yellow color scheme used in the tallies and other bridge accessories. After the playing of many games and the awarding of score favors to Mrs. Manly Ozier, low, and Mrs. Carl W. Bennett, Jr., high, a lovely salad course, completing the yellow and red color scheme, was served to the following: Miss Lotta Bourland, Miss Mary Joe Chamberlain, Mrs. Manley Ozier, Mrs. Lenode Goldston, Mrs. Floyd Lumpkin, Mrs. Henry Tombs, Mrs. Leonard Parker, Mrs. Bascom White, Mrs. Carl W. Bennett, Jr., Mrs. J. T. Redfern, Mrs. Jim Haile and Mrs. B. C. Antrobus.

### CAPTURE OF CYNTHIA ANN PARKER

Cynthia Ann Parker, a white girl 9 years old, was captured by the Comanche Indians in 1834, following the massacre of the Parker family at Parker's Fort, in Limestone County, Texas, and adopted by this tribe. Later she became the wife of Pete Nocena, chief of the Comanches. Four children were born of this tribal marriage and one of the children, Quannah Parker, became the leading chief of the Comanches.

Cynthia Ann's life history, which is a thrilling drama, will be told in the Monthly Magazine Section of the Clarendon News to be issued Nov. 15.

In the South High Plains region of Texas cotton growing has expanded from 74,195 bales in 1919 to 322,062 bales in 1926.

The only paper mill in Texas is at Orange on the Sabine River.

Rosa H. Beville spent Sunday in Amarillo.

## College—High School Activities

Conducted by the students of Clarendon Junior College and Clarendon High School.

### WHO SETS THE STANDARDS IN OUR SCHOOL

By Slick Naylor. An athlete is supposed to be the standard among boys. Every small boy in our Junior Hi and South Ward school is going to copy after some of our High School and College football players. Boys, they are going to do as they see you do. A small boy will see one of our star players on the street he will remark, "There's Homer, the College Full-back; I am going to be like him when I grow up." This is true, he will copy after the model that he has his eyes on. Each member of our football squads are some small boy's "Homer."

What I have reference to is our "cigarette smoking football players." The College could have turned in a nice victory in their last contest if the cigarettes had been left off of the field. It is true that we need every man that we can get to wear the Green and White for the school on the gridiron. It is not more than fair that we go on the field in the best physical condition to represent our school. The High School won over their opponents in their last contest by a score of 7 to 0. We praise the boys for their victory, but from a spectator's view point, I believe that the score would have been at least 14 or perhaps 20 to 0 if it had not been for our great COMPETITOR, "Mr. Cigarette." Let's throw this fellow out of our school and get down to business.

### Press Club Presented With Book Plate

Mr. Wells, in charge of the College Commercial Department, and also an active sponsor of the Press Club has presented the club with a book plate of most artistic design. The book plate was designed by Dr. C. D. Johnson of Baylor University especially for the Baylor University Journalism Library and is a most exquisite work of art. It is said that the artist made the third attempt before Dr. Johnson would accept it being a worthy book plate design. The border of the book plate is represented by rows of books. In one corner of the design is a picture of an old time printing press, and in the opposite lower corner is an up-to-date press equipped with all modern conveniences. In each of the other two corners is a picture of the printer of today and of yesterday. In the center may be seen the pictures of famous

journalists: Walt Whitman, Edgar Allan Poe, Dean Walter Williams, and General Robert E. Lee. The book plate is a most interesting piece of work, and is a worthy addition to the Press Club hall.

### Press Club to Wear Red Quills

Last week the Press Club purchased quills for each of its members. The quills are beautiful red feathers with a pen point attached. These were distributed among the members a little while before chapel opened which made it a rare occasion for the members to wear them and let the school know just who was responsible for the school news.

Wearing the quills above their ears, in their hats and on their coats, the club might have resembled a gathering of the sages of old fling into a vast hall to compare their compositions, or to make notation of a disturbance of the day.

### Rev. Allison Conducts Chapel

The chapel exercises were conducted Tuesday by Reverend S. E. Allison, pastor of the Methodist Church. He took the place of Reverend McClung who was unable to come.

In his talk Rev. Allison impressed the fact that the majority of the people today live only for the pleasures of life that come to us from little effort. He stated that it would be more beneficial to us to be a human being for only five minutes than to be a worm for a whole lifetime. His talk was thoroughly appreciated and of interest to all.

In conclusion Mr. A. Marks of Hollywood, California, made an announcement to the student body of his talk to be given Wednesday afternoon at 1 o'clock.

### Rev. McClung Talks at Chapel

The chapel exercises Friday were conducted with Rev. S. R. McClung as speaker of the morning. Rev. McClung was back to address the students after an absence of nearly two years. He made a very interesting talk on the subject of "Citizenship." He said that the kind of training we received in school and the advantage to which we used it would determine what kind of citizens we will make as men and women of the world. He compared life to a football game and said that if we should go into the business of living and working with the same enthusiasm and spirit in which we entered a game of football we would surely come out victorious in the end.

### Band Plays at Chapel Tuesday

Tuesday morning at chapel, the College Band entertained with several selections, starring the Saxophone Quintet and Henry Wilder, the saxophone soloist. The band played several marches and popular pieces.

The program was as follows: Dashing Yankee Boys—Band. Old Man Sunshine—Band with Quintet. Solos—Henry Wilder, Soloist. Radio Pioneer March—Band. Girl of My Dreams—Band with Quintet. Brook's Triumphant March—Band. I Still Love You—Band with Quintet. Vikings March—Band. Among My Souvenirs—Band.

### Alpha Delta Psi Holds First Social

On Wednesday evening beginning at 8 o'clock, Alpha Delta Psi held the most interesting program of the season in the college auditorium. The entertainers of the evening were the Famous Four, Alfred Estlack, Slick Naylor, Earl Humphrey and Billie Dillard, assisted by Eugene Estlack who took the part of a coy young lady. The audience was kept in an uproar of laughter for more than an hour while these actors performed. An original skit, written and directed by Slick Naylor was given, and received much applause. After the program a short business meeting was held, at which time the approaching radio program was discussed, and also the subject of "Ints-society" debates came before the house. The members of Alpha Delta Psi are planning to begin work on debates at an early date. After the business meeting refreshments were served. The guests present outside of the society were Miss Rita Foster, Miss Mary Sue Waters, Mr. J. R. J. Wells, and Dean L. B. Cooper.

### The Girls' Forum

The Girl's Forum met Wednesday, Oct. 17, with Miss Worsham as sponsor. After a short business session, Helen Smith gave some very interesting sidelights on "The Two Main Issues of the Present Political Campaign." Mable Cozby and Dorothy Headrick told some very amusing jokes, and Fern Cauthen favored the society with a vocal solo. The remainder of the program was composed of piano solos. After the critic's report, the forum adjourned to meet again next Wednesday.

### Palo Duro Literature Society

The Palo Duro Literary Society met Wednesday for a very interesting program. The first part of the meeting was used to take down some of the pictures of old "ADD" members that have been hanging on the walls for a num-

ber of years. It was also suggested and voted upon to decorate the room with society colors. After the reading of minutes and a brief business session the following program was rendered: Piano Solo—Jessie Burson. Talk on Football—H. A. Blanton. Humorous Story—Myrtle Armstrong.

### Midnight Blondes Get Sweaters

The Midnight Blondes of the College now have sweaters and emblems. The sweaters are green with a "Midnight Blonde" on the left side. The Midnight Blondes are to put on a program at Goodnight Nov. 3rd and at Claude the following Saturday, which is the 10th of the boys entertain your next party.

### High School Girls Basketball

The Clarendon high school basketball girls will play their first home game Friday night, Oct. 26, at 7:30 when they meet the girls from Memphis Hi School. Memphis usually gives the home girls a fight of their lives when they meet. The girls need your support in this contest.

The following Wednesday the girls go to Claude to pull hair with the Claude maidens. Miss Abbott states that she has about 14 girls out to practice, and they are doing fine work.

### Bulldogs Meet Roswell

The Bulldogs will motor to the New Mexico town to struggle with Soldiers of the New Mexico Military Institute. The Bulldogs are in good shape for the game and expect to bring home the bacon.

### Bronchos Down Claude Mustangs

In one of the most evenly matched games of the season, the Clarendon Hi Bronchos defeated the Claude team on the Claude grid by the score of 7 to 0. The lone score came in the final period of the game when Baird of the Bronchos took a Claude pass and ran 40 yards and was downed on the nine yard line. On the next play McCrary made one yard, then Dillard took the pigskin around end, outrunning two of the Claude lads, for the score. Baird added the extra point by a drop kick.

The entire game was fought in mid-field. The Claude team made its greatest attempt to score at the opening of the final quarter when they were held on the Bronchos three-yard line. A beautiful punt by Dillard put the ball well out of danger. The outstanding players for Claude were Campbell at quarter and Wiseman at full. The entire Broncho squad played real football, but Tucker, Baird, Nobles and Dillard were the ground gainers.

### College Basketball Girls Purchase Suits

The girls of the college basketball team have ordered new suits and expect to have them here within two more weeks. The girls intend to show their appreciation of the new suits to the patrons by endeavoring never to disappoint them in any games. The following firms and individuals contributed funds for these suits: They are listed in the order of their contributions ranging from \$5.00 to 25c.

T. D. Nored, Clarendon Motor Co., Stocking Drug Store, Dr. Sherman, Kent and Merchant, Pizgely Wirely, Pastime Confectionery, H. Mulkey, Sam Braswell, Rev. Allison, O. C. Watson, Rathjens Shoe Store, Donley County State Bank, Farmer's State Bank,

# USED CARS

"with an OK that counts"

**Never Before Have We Offered Such Values on Reconditioned Cars**

**—Small Down Payment—Easy Terms!**

Never before in our history have we delivered as many new Chevrolets as we have this year. Naturally a large part of this increased business involved the trade-in of the Chevrolet owner's previous car. This enables us to offer some exceptionally fine used cars that have been thoroughly inspected and reconditioned and carry the official red "O. K. That Counts" tag. This tag shows you exactly what has been done

to put the car in mechanical condition for thousands of miles of satisfactory service. In buying these reconditioned cars from us you get definite assurance of quality and value—and this week you can buy them at very low prices that make them the greatest values we have ever offered. Make a small down payment and drive away the car of your choice—easy terms for the balance. See these cars today!

## A few of our exceptional Used Car values "with an OK that counts"

**1927 Chevrolet Touring**  
A car that is in good shape for a lot of hard service. Driven less than 10,000 miles. Good tires and upholstery. A Bargain.  
With An O. K. That Counts.

**1926 Chevrolet Truck**  
Good grain body and cab, auxiliary gear. May be used to haul cotton with addition of sideboards. In all round good condition.  
With An O. K. That Counts.

**1926 OVERLAND TOURING**  
New paint, is in excellent running condition. Priced to sell cheap to the first comer.  
With An O. K. That Counts.

Watch our windows for announcements of bargains in used cars. There are some that are always mighty good.

The Merchandise Mart of Chicago, Twice the Size of World's Largest Business Building, to Cost \$30,000,000.

## GIGANTIC MERCHANDISE MART TO BE TWICE SIZE OF WORLD'S LARGEST BUSINESS BUILDING

**New Project for Chicago's Great Central Market to Cost \$30,000,000—Involves the Greatest Single Development of Air Rights in the West.**

**Foremost Manufacturers, Wholesalers and Importers Will Be Housed Under One Roof in New Wholesale District; Inbound and Outbound Freight Station on Ground Floor of Building; Club in Tower for Nation's Merchants.**

Bird's-eye View of Chicago's New Business District Carrying Out the City Beautiful Theme in Which the Mercantile Mart Will Be a Dominant Factor.

Chicago (Special)—Chicago is to have a gigantic Merchandise Mart housed in its own building, which will be twice the size of the largest business building in the world. This mammoth structure, two city blocks in length, 18 to 23 stories high, is planned for the service and convenience of merchandise buyers of the United States and to achieve for Chicago a still greater prestige as a Great Central Market. It will cost \$30,000,000. Construction will begin immediately.

The project will be the largest single development of air rights. The property of the new building except for caissons begins 23 feet above "datum."

The big business of the country is now done mainly in concentrated market places, as evidenced by the Garment Center and Cotton Goods Center in New York City, automobile Mart in Chicago, where more than 700 furniture manufacturers show their products side by side, in the most modern manner and under ideal conditions. Business men have learned that the nearer they are to the centers of these market places, the greater is their opportunity for volume and profit.

The establishment of the Merchandise Mart is a dramatic development in the program to make Chicago the Great Central Market, a movement which the Chicago Association of Commerce started a number of years ago and a goal toward which it has been devoting its energies continuously ever since, under the leadership of its Foreign and Domestic Commerce committee.

### Located on River Front.

This great Mart, which will house sales quarters and merchandise displays of several hundred of the country's foremost manufacturers, wholesalers and importers, will be located in the rapidly developing new river district, and will occupy a distinctly conspicuous position just across the river from Wacker Drive at Wells street, where the southern facade of the structure will be visible for blocks. The site was formerly that of the Chicago and North Western Railway Com-

pany's passenger station. The building will extend 724 feet on Kinzie street, 577 feet on the river front and 324 feet on Wells street, with a diagonal frontage facing Orleans and Franklin streets. It will be set back from the river about 80 feet to accommodate a broad upper level drive extending from Wells to Franklin. The main entrance of the building will face the river and the drive.

The Merchandise Mart will have a total floor space of about 4,000,000 square feet as compared with slightly less than 2,000,000 square feet, which is the floor area of the Furniture Mart, the next largest building. Each of the eighteen main floors will have an area of more than 200,000 square feet.

Within the walls of this huge edifice the retail merchants of the United States, Canada and foreign countries will be able to see, under one roof, hundreds of lines of the world's best merchandise. The manufacturer's exhibits will include textiles, ready-to-wear, toys, lacers, gloves, corsets, millinery, silverware, glass, rugs, knit goods, hosiery, shoes, men's wear, fancy goods, sports goods, art and antiques, jewelry, trunks, toilet articles, house furnishings, office equipment and scores of other merchandise displays. Among the largest tenants will be the wholesale and manufacturing sales departments of Marshall Field & Company.

### Time Saver for Merchants.

Every possible facility will be provided for the comfort and convenience of the retail merchant, who under one roof will be able to see hundreds of lines, thus saving time and money by doing in a few hours what ordinarily would take him days to accomplish.

On all floors of the Mart will be great corridors, with all the appearance of boulevards, more than 650 feet in length, on either side of which will be the shops displaying their varied lines—veritable "business streets." These great corridors will be impressively treated architecturally and with the large space available it will be possible to house the selling activities and warehousing of many allied concerns on one floor, thus attaining

the advantages of concentrated groupings.

The facilities for handling merchandise within the building will embody the best and most modern achievements of engineering science, including fast elevators, freight conveyors of both the gravity and endless chain type and quick horizontal distribution on every floor.

Probably no building in the world will have such facilities for receiving and shipping merchandise as the new Merchandise Mart. The entire ground level below the street floor will be a modern freight station. Private tracks for incoming carload freight will extend under the center of the building. The Chicago and North Western Railway will operate an inbound freight station for less than carload lots, as well as an outbound station, which will connect with all other roads through its new Proviso yards. The merchandise as it comes into this big freight station will be loaded into high-speed conveyors and transported immediately to the exact floor and aisle of the merchant for whom it is intended.

Connection will be made with the Illinois Tunnel Company's system of freight transportation, which has more than sixty miles of tracks beneath the streets and buildings of the city, reaching all other railroad terminals. A river dock for vessels will connect with the south freight elevators of the building.

### Club Planned for Tower.

One of the interesting features planned for the Mart will be a Merchants' Club in the tower of the building, with lounging rooms, reading and smoking rooms, where the retailer may relax and meet his friends. The Mart will provide the retailer with everything but a place to sleep. He can go direct from the train to the Mart with his baggage. Here his hotel reservations will be taken care of, his baggage transported to his hotel and placed in his room. Restaurants, lunch rooms and grills in the Mart will further economize his time. He will have the facilities of a barber shop, and a branch post office, telegraph office and public stenographers will afford him the opportunity to handle his correspondence without leaving the building. One of the biggest telephone exchanges in the world will be installed in the Mart.

Many other unique features are being considered for the Mart, including an Assembly Hall, where trade meetings, business conferences and fashion shows may be held from time to time. As the plans are worked out, many other features may be decided upon.

Within recent years Chicago's central business district has been developing northward across the Chicago river. East of State street, along north Michigan avenue, Cass, Rush and other streets, this development has reached impressive proportions, evidenced by more than twenty large buildings. To the west of State street a comparable development is under way. The site of the new Merchandise Mart is in the direct path of this new northward movement.

In the new river district where the Merchandise Mart is to be located, many great buildings have been erected, and others soon will be begun. The Builders' Building, the Engineers' Building, the Chicago Evening Post Building, have been completed opposite the new Mart on Wacker Drive. The new Chicago Daily News Building and the great new opera house of the Chicago Civic Opera Company are being constructed on the river three blocks south.

### Ten Largest Business Buildings in the World

Comparison of the cubage of the largest buildings in the world shows the Merchandise Mart, to be erected in Chicago, will be more than twice the size of the largest business building ever constructed. Here are the figures in cubic feet:

1. The Merchandise Mart, 53,000,000.
2. Chicago Furniture Mart, 25,370,000.
3. Equitable Building, New York City, 24,000,000.
4. General Motors, Detroit, 20,411,000.
5. Union Trust, Cleveland, 20,000,000.
6. Railway Exchange, St. Louis, 18,808,000.
7. Illinois Merchants' Bank, Chicago, 17,850,000.
8. Continental & Commercial Bank, Chicago, 13,200,000.
9. Woolworth Building, New York City, 13,200,000.
10. Straus Building, Chicago, 10,000,000.

## SHRINERS TO PLAY ON NOVEMBER 22

### FALL CEREMONIAL BIDS FAIR TO ECLIPSE FORMER EVENTS IN AMARILLO.

Official announcement of Khiva Shrine Temple's fall ceremonial is now being mailed to the Nobility of the order throughout the Panhandle-Plains section of Texas, in the form of a neat booklet. The date of the ceremonial is set for November 22 at Amarillo and indications point to one of the most elaborate events the Shriners have ever staged.

Potentate J. H. Read of Memphis, in his address to the Shriners, urges a full attendance and pledges himself to the greatest task of Shrinedom.

The ceremonial will be featured with the usual parade at 11:30 o'clock, the Shriners going into ceremonial sessions at the municipal auditorium at 2:30 o'clock in the afternoon.

At the noon hour arrangements have been made for a substantial "feed" for the Shriners and their ladies.

Members of the order and novices will register at the Shrine office, Masonic Temple, Fifth and Fillmore streets, at 9 o'clock in the morning. The visiting ladies will register at the Amarillo hotel at 9 o'clock and will be in charge of competent committees for entertainment. Many entertainment features have been arranged for the ladies while the men folk are at their work.

The potentate's ball will be held on the third floor of the Temple, beginning promptly at 8:30 p. m. Following the evening given in honor of Potentate Read, will be the old time square dance.

Plans are under way to have Imperial Potentate Frank G. Jones of Houston as the official guest. Among other features is the announcement of C. W. Rogers as a candidate for Khiva's ring. Mr. Rogers will be inducted into the order and has made the patrol a present of a large supply of apples.

### BITTER FEEDS AND WEEDS—BITTER MILK

Abnormal flavors and odors in milk are objectionable to consumers and dealers and such milk is often rejected. Losses can be largely prevented by proper attention to the several factors responsible for objectionable flavors and odors. They result mainly from the physical condition of the cow, from feeding of highly flavored feeds and weeds, from the absorption of barn odors by the milk after it is drawn, and from biological changes in the milk. Feed flavors and odors are most frequently caused by succulent feeds. Silage made from corn, alfalfa, sweet clover, or soybeans, as well as such feeds as green alfalfa, sweet cabbage, turnips, rape and kale seriously affect the flavor and odor of the milk drawn even an hour after feeding. Therefore it is advisable to feed such highly flavored feeds immediately after milking, never just before. Where weeds in the pasture are responsible for off flavors in the milk, they must be eradicated or the cows removed from the pasture for several hours before milking. Barns must be kept clean and well ventilated to prevent absorption of odors by the milk. Finally, prompt cooling and storing of the milk at a low temperature will retard the development of flavors and odors from biological action.

If fattening hogs are "pushed" from weaning time to market, the most economical plan is to have them on good pasture with free access to shelled corn and tankage or meal, may be fed instead of tankage or fish meal.

## NOW OPEN! Fifth Annual Bargain Rate Offer for Mail Subscriptions

This is another tremendous value. The Dallas Morning News daily and Sunday, 365 days, mailed to your address at a substantial saving. The regular rate is \$10.00 a year, for only \$7.45.

To those who do not desire the big Sunday edition, during this campaign we will mail the daily edition only at a reduced rate. Regular rate \$8 a year, now \$5.95.

Order your subscription through local agent in your city. This rate is good for subscriptions only in the states of Texas, Oklahoma, Louisiana, Arkansas and New Mexico.

### BON TON CONFECTIONERY.

### POLITICS AT HEDLEY

Hedley people have been entertained with a number of political speeches the past few days. On last Saturday Hon. Dwight Lewellyn of Dallas spoke in favor of Hoover, and Judge W. T. Link of Clarendon defended the Smith cause. A large crowd heard them and each speaker was liberally applauded by partisans of the respective candidates. On Wednesday night of this week Rev. W. M. Murrell of Clarendon delivered an anti-Smith address at the First Christian Church, which was listened to by a good sized audience. At the same time and place, Mr. Marks, formerly connected with the moving picture industry at Hollywood, addressed the audience on the dangers and temptations that beset the young people of today, especially in the cities. He cautioned parents to be vigilant and "tighten up" in the matter of discipline. He made no reference to politics except to say that he favors Hoover. The audience seemed to appreciate his message. —Hedley Informer.

Discard spindle-shaped tubers from your seed potatoes and reduce the probability of the spindle-tuber disease appearing later on. Reductions in yield of from 25 to 60 per cent may result if plants are affected with this disease.

### MAY 1, 1929, IS FINAL DATE TO APPLY FOR INSURANCE

Former service men of the World War have until May of next year to file claims with the United States Veteran Bureau for their war risk insurance, an announcement issued by Sergeant Ira C. Barend of the Hanson Legion post of Amarillo said Saturday. This applies to those who were disabled incident to war service, regardless of the degree of disability.

The insurance must have been in force at the time of disability or had lapsed 30 days after date of disability, it was said. Additional information regarding the disability claims may be obtained from Sergeant Barend.

### NEW MACHINERY INSTALLED IN ROTAN'S LAUNDRY

Machinery for the laundry being installed by E. H. Turner in Rotan is being set as it arrives. This is to be one of the most modern small laundries in the country, and capable of doing first class work.

Two glass measuring cups, one for wet and one for dry ingredients, are a great convenience in cake baking.

The farm population of Texas is now 2,199,173.

# introducing Firestone SUPER-TIRING TO MOTORISTS OF CLARENDON

Super-Tiring now makes it possible for every car owner to enjoy the utmost in Mileage, Safety, Economy, Durability and Comfort. The initial cost is higher, but the cost per tire mile is less.

### MORE MILEAGE

—Thicker, more rugged tread, built upon an extra-plly Gummed-Dipped carcass capable of withstanding the added speeds and strains of today's driving.

### MORE SAFETY

—a wider tread—more road grip, more tractive power on slippery pavements, quicker stops, the most efficient non-skid known.

### MORE ECONOMY

—Longer life—better protection for car—slow depreciation—higher resale value.

### MORE COMFORT

—Bigger tires that better absorb road shocks and vibration—steadier riding—perfect control and handling in traffic or on the open road.

## LIBERAL TRADE-IN OFFER

Here is your chance to save money in Super-Tiring your car, by getting our allowance for the unused mileage in your present tires. No matter how little you have driven them, come in. The better they are, the more you will save.

# Clarendon Motor Co.

### CENTRAL CHICAGO GETS NEW OUTLET

WIDENED LA SALLE STREET TO LOGGERS TRAFFIC BELT.

By E. E. Duffy.

Traffic choked downtown Chicago is to have a new outlet. A gigantic paving mixer is adding the finishing touch to the newly widened thoroughfare which will carry thousands of vehicles northward over a pavement varying in width from 57 to 86 feet.

La Salle street is as old as Chicago, yet that Wall street of the Middle West has never served the full purpose expected of a modern traffic artery. For now with building fronts set back as much as twenty feet, and the street's first bridge across Chicago river nearing completion, Chicago's Loop will have in effect a brand new entranceway.

It is difficult to visualize the burden that will be borne by this modernized street. Every weekday at least 100,000 motor vehicles enter or leave the central business district which is scarcely three-eighths of a square mile in size. With this tremendous traffic volume in mind, La Salle street is being paved with a ten-inch layer of concrete.

The La Salle project constitutes the first attempt to adopt the remedy for the traffic malady pointed out in the recent Chicago street traffic survey conducted by Miller McClintock, director of the street traffic research bureau of Harvard University.

Mr. McClintock reported "The most direct physical relief that could be brought to the Chicago traffic problem would be an energetic and comprehensive paving program. The streets of the world's fourth metropolis should be at least as smooth as a modern rural highway.

"If the pavement on all streets leading from and surrounding the central business district were improved, there would be a much more even distribution of traffic, and a diversion of much traffic that now finds it necessary to go through the crowded sections of the city in order to find comfortable roadway surface."

The La Salle street project is regarded as exemplary of what many other American cities are planning to do, or will be forced to do.

The first section of the revised street runs from Washington street to Lake street. Shortly, the smooth pavement will be continued from the river north to Ohio street, giving a total length of nine blocks.

Much difficulty was avoided in widening La Salle street through an ordinance passed a number of years ago which required all new buildings to be built 20 feet back of the original building line. Several old structures, however, were sheared off.

Until woods burning is stopped, the South can not have productive forest and range lands, says the Forest Service, United States Department of Agriculture. Woods burning is a check on the South's prosperity.

### A WEST TEXAS EDITOR GETS HIS BACK UP

A West Texas editor, weary of giving free puffs of undeserved publicity, adorned with flattering references, to a lot of individuals and organizations in his town, published the following editorial: "Here you will find a schedule of prices from which no deviation will be made, but we hope to donate a certain percentage of our earnings toward founding an asylum for those feebleminded people who believe we are running this paper as a philanthropic enterprise."

"For referring to some drag store shack as a talented young man with a promising future, when every body knows he never earned a dollar in his life and will wind up in the penitentiary, \$10.10."

"Referring to one as a hero and a man of courage who will stand by his convictions, when it is common knowledge that he is a moral coward and would sell out for a dime, \$4.13."

"Referring to some gossip female as a charming lady whom it is a pleasure to meet and know, when any man in town would rather see Satan coming, \$2.10."

"Calling an ordinary preacher an 'eminent divine,' \$4 cents."

"Lambasting the daylight out of John Barleycorn, at the behest of the local dry forces, \$6.77."

"Whooping 'em up for the repeal of the Volstead Act in the interest of the local White Mule Club, \$6.77."

"Referring to a local merchant who never advertises and who is too stingy to contribute a cent toward needed public improvements, as a progressive business man and leading citizen, \$344.59."

### "INSIDE" INFORMATION

Never cut angel cake with a knife. That makes it "sad." Break it with your fingers, or tear it gently with a fork.

To find out whether or not a piece of goods is fast color, take a sample home and test it, both by washing and by exposing it to sunlight for several days.

Make French toast sometime for lunch. Beat an egg, add about three-fourth of a cup of milk and a little salt. Dip slices of bread in this until soaked, and fry to a delicate brown in a small amount of butter or other fat.

Serve plain, or with preserves, honey, maple or other sirup, or with powdered sugar and lemon juice, or sugar and cinnamon.

Thousand Island dressing is a mayonnaise dressing to which chopped highly flavored materials are added. There is no rule about what these ingredients should be. Some suggestions are hard cheese, hard-cooked eggs, pickle, olives, radishes, celery, green peppers, pimientos, capers and onion.

Asparagus should always be cooked as soon as possible after it is cut. The pieces may be left whole or cut up into inch lengths. Use slightly salted boiling water and cook at most 20 or 25 minutes. Young tender stalks may be done in 5 or 10 minutes.

Senson with salt, pepper, butter and a little cream. Let stand in a warm place for a few minutes and then serve, either alone or on toast. Save the water in which the asparagus was coked for soup or sauce.

### GAS CONVENTION IS TOLD OF GROWTH IN SOUTHWEST

America's natural gas industry today serves 2,556 cities and towns in 22 states, and is undergoing a period of unprecedented expansion. Samuel W. Meale, of Pittsburgh, president of the Carnegie Natural Gas Corporation, declared at the convention of the American Gas Association in Atlantic City.

According to Mr. Meale, some of the larger interests in the industry are planning to pipe natural gas 600 miles from the Western Dakotas through Minneapolis and the entire Northwest. Salt Lake City would be reached by this line. Other operators are planning to pipe the fuel to San Francisco, St. Louis and parts of Tennessee, Mississippi, Mexico and New Mexico.

"Subsequent to the discovery and development of huge new natural gas areas," Mr. Meale said, "the natural gas industry has embarked upon an era of expansion such as has never before been equaled in the history of

the industry. From an idea, the long-distance transmission of natural gas has developed into a reality. Where, formerly, gas lines were measured in scores of miles, they are now measured in hundreds of miles. In the near future it may not be unusual to transport natural gas a thousand or even fifteen hundred miles.

"There are four separate natural gas zones in the United States, namely the Appalachian, Southwestern, Rocky Mountain and California zones. The only important recent development in the Appalachian area is the availability of natural gas service in the Southwestern area new natural gas territory is being constantly opened up, with the result that numerous long-distance pipe line projects are being planned and completed.

All Texas Gasified "With the completion of natural gas pipe lines to Denver and Wichita, Kan., plans are being rapidly completed to pipe natural gas to Kansas City, St. Louis and Eastern Missouri, extending into Illinois, Western

Tennessee, Western Mississippi and Eastern Louisiana. The entire state of Texas will soon have natural gas service, including the city of El Paso. Natural gas is already being piped across the border to Mexico, and it is planned to transport it into the interior of Mexico. New Mexico is regarded as having splendid natural gas possibilities.

Ohio, Pennsylvania and West Virginia lead all other states as consumers of natural gas. Texas, however, now second in production, is rapidly forging ahead in consumption and will probably out West Virginia within the next two years. A number of Western states will probably show remarkable gains within the next year, due to the completion of several large long-distance transmission systems. With the vast network of natural gas pipe lines embracing an ever-widening radius, it begins to look as though the possibilities of extending natural gas service are practically unlimited.

"A check-up of the population within the natural gas zones re-

veals an aggregate of about thirty millions. Within those areas the natural gas industry now furnishes gas to more than four million families and reaches a population in excess of sixteen millions."

### QUALITY IN EGGS BEGINS ON THE FARM

Practically all eggs are of good quality when first laid. But if they are to retain their quality and reach the market in good condition they must be properly handled and cared for on the farm. There is no process in marketing which can improve an egg of poor quality. All that can be done is to preserve the original quality. First of all it is necessary to have good poultry of a standard variety in order to produce eggs of uniform size and color. The flock must be well housed, fed, and cared for in order to increase productivity. As soon as the hatching season is over, all male birds should be disposed of, or separated from the flock, so that infertile eggs of

superior keeping quality will be produced. Neat, clean and sufficient in number, must be provided in order that the largest possible percentage of eggs may be kept clean. Dirty eggs should never be washed unless they are to go into channels of immediate consumption. Washing reduces the keeping quality and results in losses, especially if the eggs are to be placed in storage. Eggs must be gathered frequently, at least once a day. During very hot or very cold weather it is preferable to gather them twice a day to prevent heating or freezing injury. They should be kept in a cool, moderately dry place to maintain their quality and to prevent mold development.

In selecting corn for seed or breeding, farmers in the Southern States are advised to choose ears having husks that are at least long enough to cover the tip of the ears and that close tightly around the silks. Very long, tight husks are an aid in preventing injury from the corn earworm and the weevil and also from birds.

## GOODRICH SILVERTOWNS

# A RECORD MAKER in Mileage ... at a record-low price!

### Buy the famous Silvertown at Lowest Tire Prices in Goodrich History GUARANTEED FOR LIFE too!

LOOK at these prices . . . and then at your tire equipment.

### ASHTOLA

Sunday school was held at the usual hour Sunday, followed by preaching service by Rev. Helm. We are very sorry to hear of Mrs. D. F. Randel's illness while she is in Vernon.

Miss Mary Lois Hayter spent Sunday with Dola Fay Gregg.

Miss Nettie Helton of Clarendon spent Saturday night with Sybil Wade.

Miss Norma Lee Smith and Miss Minnie Davis visited Grace Slater Sunday.

Mr. and Mrs. W. D. Scarborough and family and Joe Bailey Johnson of Petersburg are visiting among friends and relatives.

Miss De Ette Reed spent the week-end with homefolks.

Mrs. John Dial spent Saturday night with Onata Hayter.

Mr. and Mrs. Mace of Lelia Lake, Mr. and Mrs. Whit Calcote of Lelia Lake, Misses Ima Poovey and Willie Gregg visited in the home of W. A. Wallace Sunday.

Mrs. R. H. Roberts returned Saturday night from Wichita Falls where she has been visiting for a few days.

Miss Minnie Davis spent Saturday night with De Ette Reed.

Rev. Helm visited James L. Smith Saturday night.

Mr. Odell Barker is the proud owner of a Chrysler roadster.

Mr. Hubert Lovell spent Sunday in the home of W. A. Poovey.

The box supper was a very good success. The amount made was \$91.50. This money will be used for paying for the lights that were installed in the school building this summer.

Everyone is very glad to see P. A. Johnson's family out again after the long spell of the children's illness.

### 3 AMENDMENTS BECOME FOUR ON ELECTION BALLOT

Austin, Texas, Oct. 22.—While the Fortieth Legislature ordered submission of three proposed amendments to the Constitution to be voted on at the general election Nov. 6, there will appear on the official ballots four proposals for amendments. This situation results from the fact that one of the proposed amendments contains two propositions, and for that reason Mrs. Jane Y. McCallum, Secretary of State, by the advice of the Attorney General's Department, has divided the amendment into two separate proposals which have been certified by her to the various counties.

The double-barreled amendment seeks to place a limit of six years on terms of school officers, including boards of institutions of higher education, and also to provide for the appointment of a State Board of Education. The amendment is so divided as to submit each of the propositions separately. This is done to avoid confusion.

The proposed amendments will be printed on the official ballots in the following order:

Authorizing aid to Confederate Soldiers and Sailors and their widows in indigent circumstances, and authorizing tax levy therefor.

Exemption from taxes property owned by churches or strictly religious societies for the exclusive use as dwellings for the ministry.

Amending section 8 of article 7 of the constitution providing that school officers, including boards of institutions of higher education, shall serve for a term not exceeding six years.

Amending section 8 of article 7 providing for the appointment of a State Board of Education.

Temperature is a very important factor in the successful fermentation of vegetable foods, such as pickles and sauerkraut, say chemists of the U. S. Department of Agriculture. The foods should be kept as close as possible to 66 degrees F., at which temperature the bacteria essential to fermentation are most active. This is especially important in making sauerkraut.

"A much better sentiment has developed in the textile trade in the past few weeks. Yarn markets are looking up and demand is growing for cloth, both in the United States and in Europe. Moreover, China and India are taking advantage of the present low prices for cloth. Settlement of the New Bedford strike is a desirable development.

"The Texas supply of cotton is placed at 5,050,000 bales, against

### NICHOLS SAYS COTTON PROSPECTS ARE BETTER

Austin, Texas, Oct. 23.—Although weather conditions during September were rather unfavorable to the growing crop, cotton, from a statistical point of view, is in much stronger position than it was a month ago, according to Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Research of the University of Texas.

"The unfavorable weather conditions, especially in the eastern part of the cotton belt, resulted in a material decline in the indicated production," Mr. Nichols explained. "In Texas, however, the crop made good progress, except in the North and West, where plants deteriorated, due to a lack of moisture.

"A much better sentiment has developed in the textile trade in the past few weeks. Yarn markets are looking up and demand is growing for cloth, both in the United States and in Europe. Moreover, China and India are taking advantage of the present low prices for cloth. Settlement of the New Bedford strike is a desirable development.

"The Texas supply of cotton is placed at 5,050,000 bales, against

a harvest of 4,352,000 bales last year. Consumption in September totaled 492,000 bales, against 627,000 bales in September, 1927. Prices advanced sharply after the middle of the month."

### HOLLIS REAVIS PROMOTED IN PLANT AT QUITAQUE

The News has been informed that Hollis Reavis, son of Mr. and Mrs. L. A. Reavis of this city, has been promoted to the place of lineman in the Quitaque plant of the West Texas Utilities Company. Hollis has been to an electrical school and has succeeded in advancing in one year an amount equal to the advancement of his brother, Cecil, in three years. There is a promising outlook for both these young men and the News congratulates them on the advance they have received.

### COLEMAN GAS COMPANY IS EXTENDING SERVICE LINES

The Coleman Gas and Oil Company is making a \$40,000 addition in the form of a six-inch welded line laid from the city to the Santa Fe junction and a mile south. Another reservoir is to be constructed to the 10-inch trunk line of the Lone Star Company.

### MORE MILES OF CAR ROUTES IN '27 THAN '26

Including the mileage of bus lines established by street railways, the are now operating about 16,000 more miles of route than in 1920, according to the American Electric Railway Association. More track was built during 1927 than in 1926.

While the change in trackage shows a net loss of about 250 miles, this is more than offset by

bus lines that have replaced abandoned track. There is no substitute for street railway service for bulk traffic. It is neither retreating nor standing still, but continually going forward.

Many readers of the News will be glad to learn of the return of Mrs. J. R. LaFon to her home in this city after a very serious operation in Amarillo. Mrs. LaFon will be ill for quite a time, but is now considered to be out of any immediate danger.

### CONDENSED STATEMENT OF

## THE FARMERS STATE BANK

of Clarendon, Texas

At close of business October 3rd, 1928, as made to the Commissioner of Banking:

## SMITH or HOOVER?

DISCUSSION OF ISSUES AND CANDIDATES IN PRESIDENTIAL CAMPAIGN BY LOCAL CITIZENS, WRITTEN ON REQUEST OF THE NEWS EDITOR.

To the Editor of the News:

At your request, am giving below a few of the many reasons why I am supporting the Democratic ticket and its nominees, Gov. Alfred E. Smith for President and Hon. Joseph E. Robinson for Vice President of the United States.

First, because these men were nominated at the National Democratic Convention at Houston last June, when the representatives of every state in the Union gathered there, for the purpose of nominating candidates for President and Vice President.

These men were the overwhelming choice of a large majority of the states so represented.

I believe in political parties; in party management; party responsibility, and party loyalty.

I was born in an old-fashioned Southern Democratic home, and my father gave me my first lessons in Democracy with the memories of the pillage and plunder of Sherman's army, as it marched through Georgia, still fresh in his mind. I was born during President Grant's administration, the most corrupt since the organization of our government, save and except the past eight years of Republican rule and management of our affairs.

With greed and plunder that was rampant during the administration of Grant, talked in the home, talked at the country stores and talked on the stump in every election for years to come, I just naturally associated the Republican party with selfishness and infidelity, and all together just a little too free with the people's

money. The Democratic party was organized 139 years ago, under the leadership of Thomas Jefferson. Early after the United States had gained her freedom and the Constitution was adopted, Mr. Jefferson was brought face to face with the activities of that brilliant statesman Alexander Hamilton who preached the doctrine that wealth and education should be the basis of suffrage and the qualification for holding office.

Thomas Jefferson met this argument by quoting that portion of our Constitution that says "All men are created equal," and on this foundation he established the Democratic party, extending the privilege of the ballot to every citizen regardless of his wealth or education. Democracy has survived throughout the years that have passed, and we can point with pride to the administration of Andrew Jackson, Grover Cleveland and Woodrow Wilson, and the achievements of the Democratic party under their leadership, has continued to work for the interests of the common people.

It was during Mr. Wilson's administration that we have the Federal Reserve act; the Federal Land Bank; the 18th amendment and also the 19th amendment to our constitution, which gave to the women of our land the right to vote; a privilege they had sought for a hundred years. Women of the South, will you desert the party that gave you recognition, and join the ranks of those who have stood idly by for the past eight years, while "law-

less element" has made a farce of the prohibition laws?

It is this same Democracy that has nominated Alfred E. Smith for President, and therefore being a Democrat, I shall cast my vote for him on Nov. 6th, 1928.

Mr. Smith has been Governor of New York for four terms, and during that time, more wholesome laws have been passed, looking to the betterment of conditions for the working men and women of New York, than has ever been accomplished during the history of that state.

As Governor of New York, Mr. Smith has sponsored the enactment of laws, looking to the betterment of the Public School system of that state; and the annual wages of her public school teachers have been more than doubled during his terms as Governor.

As Governor of New York, we have never heard of a single charge of graft or corruption in any department of his State Government. No Len Small; no Forbes; no Daugherty; no Albert B. Fall, but every department of his Government has been handled with rigid economy and honesty.

If I were a Republican and believed in its platform and its principles, then I would vote that ticket and try to clean out the lawlessness that has characterized its administration for the past eight years; but to the true type of Southern Democrats, who think they are dissatisfied with their own party and its nominees, and who are thinking of voting for Mr. Hoover, let me remind you that if all the wrongs you seek to lay at the door of the Democratic party were true, where and how can you expect to better conditions by voting with the enemy.

In all that the enemies of Governor Smith have ever said about him, even to the learned Divine, Dr. Straton of New York, he bears his trade on Mr. Smith by first saying that Alfred E. Smith is clean in his private life, devoted to his children and true to his home, and honest in the management of the affairs of his state.

For eight years we have seen the present administration sell out the resources of our Government and members of the Cabinet, who set around the same table with Mr. Hoover, guilty of every kind of graft and corruption. You have never heard Mr. Hoover or any other person responsible for the activities of the Republican party raise their voice in protest, or in any way condemn these acts of piracy and graft.

They have never made any serious effort to enforce the provision of the 18th amendment, and yet you think you can find something to better conditions by voting for Mr. Hoover.

We are commanded in Holy Writ "In all things be temperate," yet I say to you, there is yet another commandment older than this, the one thundered down from Mount Sinai by Moses, "Thou shalt not steal." This commandment has been taught in every home and in every heart where God is honored and his Gospel preached.

On this foundation our homes and our government was established.

The Democratic party has always enjoyed the reputation of honesty in its administration. Men and women of the South,

are you going to quit your old party with a record of such noble achievement, and join with that party that has been credited with a lack of honesty in dealing with the common people of our land?

We hear people claim that Smith will bring back the saloon. Well, he says that he wouldn't if he could, and we all know that the President of the United States has no authority to make or change any law, or any provisions of the Constitution. That is left for the people.

The 18th amendment was passed and ratified by the States, and the Congress and Senate passed the Volstead enforcement act against the wishes of President Wilson, who made a strong fight for light wines and beer. We secured the 18th amendment, the Volstead act, against the wishes of President Wilson. We can maintain these measures even if we have to fight the personal wishes of President Alfred E. Smith.

The Republican party has given us eight years of failure, even to make a serious effort to enforce our prohibition laws, and to continue them in power, means to continue the illegal manufacture and sale of bootleg liquor in every city, in every town, and in every community in the United States. Mr. Voter, if you don't think it is being made in your community, ask your boy, he knows where it is, and I fear in all too many instances your daughters also know.

I must believe, the real fight on Alfred E. Smith, is not based on his idea of prohibition, but is because of his religious belief. The enemies of Gov. Smith say that Smith and his friends have injected the religious issue. We do not believe this to be true.

Just a few years ago there was a certain secret society that grew and prospered until it had more than one million members, and it was their proud boast, especially in Texas, that 90 per cent of the Protestant ministers belonged to this organization, and we all know that it was freely talked from one to another, outside the hall, and by public speakers within, that no Catholic should ever be President of the United States,

and it looks like many of them are trying to make good their threat.

Mr. Editor, I shall vote for Alfred E. Smith because I think he is better equipped, both by natural ability and by training, to meet and solve the problems of the American people than any other man now being offered for this place.

You may not be in accord with Mr. Smith's religious views, but we must admit there is nothing about his religion that made him and his kind slackers during the World War; none of them were conscientious objectors, who refused to go to the battle fields of France when our country called. But in Flanders field they proved themselves entitled to be called "American Citizens."

By reasons of the proud history of the Democratic party, and the splendid record of service as rendered by Alfred E. Smith and Joseph E. Robinson, I shall gladly and enthusiastically vote for these men and the principles of Democracy.

Tom F. Connally.

## WHY HERBERT HOOVER SHOULD BE ELECTED

The chief executive of our great nation needs to know not only what one city or state needs but he should know the requirements of something more than one hundred million American citizens. Not only that but he should be qualified to maintain a peaceful and harmonious intercourse with the other nations of the world.

Herbert Hoover by reason of his varied experience and successful management of the great number of colossal enterprises with which he has been entrusted meets the above mentioned requirements as does no other man of modern times.

Hoover has been directly in contact with almost every phase of contemporary human existence. Life has taken him from the rugged environment of a rural mid-western village to the ancient cultural centers of Asia; from the capitals of Europe to jungle wilds beyond the outposts of civilization. And everywhere in his path there

has lingered a vivid remembrance of a great American and a great patriot.

One who scans the life of Hoover catches a glimpse of him in a thousand situations—situations of homely industry, adventure, of suffering and death. We see him conferring with emperors and kings, with generals, with captains of business. We see him surrounded by millions of grateful Belgians, German, Polish, Czech-Slovakian and Russian mothers, with the children he saved from starvation. And we see him again as the directing force in the uplift of a stifled American industry, left crippled as an aftermath of the great war. We see him take the lead among American executives, persuading, enlisting their co-operation in measures for the relief of unemployment.

Under his guidance, all forms of communication have been improved. The development of inland water ways has been pushed. Improvement of highways has been advocated. Commercial aviation has been stimulated.

As a result of his activities, the grip of the British rubber monopoly, levying on every automobile owner's pocketbook, has been broken and the way paved for the development of American sources of supply independently

of foreign holdings. When the Mississippi floods of 1927 brought the greatest peacetime calamity in our history, Mr. Hoover's ability for organization was brought into play with a consequent relief and rehabilitation program that affected six hundred thousand people.

Quoting from Mr. Hoover's acceptance speech, "The most urgent economic problem in our nation today is in agriculture. It must be solved if we are to bring prosperity and contentment to one third of our people directly and to all of our people indirectly. We have pledged ourselves to find a solution."

"There is no guarantee against poverty equal to a job for every man."

The above quotation shows that Mr. Hoover has the welfare of all people in mind and his actions in the past bear evidence of his sincerity.

Our nation with its manifold and complex problems, with its gigantic commercial enterprises, with its social life to consider and the thousands of smaller but no less important matters to be adjusted, must have for its chief officer the man who is the best fitted in every respect to discharge the duties of that position. Herbert Hoover is that man. John H. Hunt.

# Have You Seen Our Heaters?

The Albritte Heaters are made especially for the Amarillo Furniture Company stores. This is the newest improvement in gas heating stoves and on account of the way it is designed and constructed, gives a more uniform heat than other heaters of the same size and price. It has a real BUNSEN BURNER with two ways of adjustment, thus insuring less consumption of gas and less odor and sweat. In the radiant heaters the gas is sprayed into a cylinder 2 inches in diameter and as long as the stove may be thus insuring proper mixture, then it also has the needle valve to regulate the amount of gas entering the mixing chamber.

These heaters range in price from \$4.75 for a 6 burner to \$15.00 for the 24 burner, asbestos back. The Radiant models are \$14.00 for the 8 radiant to \$27.00 for the 12 radiant. Remember, our asbestos back heaters have the same guarantee as the radiant and clay back of any model and without many years of experience with gas we know that one may heat a room quicker and cheaper with a good asbestos back heater than he can with a clay back and with as little sweating and fumes. These are facts we know from experience.

The Cahill fire place grates and clay back heaters are also handled by the 15 stores of the Amarillo Furniture Company. This is our only line of more expensive and nicer looking heaters and we are not experimenting with them either. We have handled them for years and in Amarillo alone have sold several dozen carloads. One may turn the blaze down to 1-16 of an inch in length and it will burn just as uniformly as when 2 or 3 inches high. This is an extra heavy heater having more weight than any heater with the same number of burners. We want you to compare the Cahill with any you have ever seen as to looks, material, construction and price. Prices range from \$20.00 up.

In the closed heaters we have the WESCO CABINET HEATER with full enamel and two

burners. A water vat is also provided to keep the air in the room moist and healthful. This heater is designed to use a vent pipe and is safe to leave lighted all the time as the gas would escape through the vent if the fire were to go out. This is a nice looking heater having the appearance of a piece of furniture rather than a stove. It will heat a whole house of 4 or 5 rooms.

We handle several carloads of these three types of heaters every year, buy them direct and in large quantities. We know we can give you prices that are really attractive and you can be assured that you are buying as good merchandise as can be bought. Our heaters as well as every other article bear our "Money Back Guarantee." We will be glad to install one for your approval. All prices on heaters are less ten per cent for cash.

## DID YOU KNOW?

That the Amarillo Furniture Company has done over \$1,500,000.00 of business each year for several years and this year is going to pass the \$2,000,000.00 mark? What makes this possible? Satisfied customers who take advantage of the very latest designs in furniture of the best quality and prices and on terms that can't be found elsewhere.

All that we ask is to have a chance to show you our large stock of the very latest in furniture. Most of which has been shipped from the factory in the last 30 days. We have a complete line of Living Room Suites, Dining Room Suites, Breakfast Room Suites, Rugs, (and it might be interesting to know that the Amarillo Furniture Company buys more rugs from Marshall-Field than any other account in Texas. Every one knows the quality of these rugs), floor coverings, shades, mattresses, springs, steel beds, day beds and most every piece of odd furniture you might want.

## DIRECT ACTION GAS RANGES

Our supply of these ranges has been limited the last 60 days but we now have plenty of them.

## Specials for Saturday and Monday

33 1-3 per cent off on all Living Room Suites. You must see them to appreciate them. They are all new patterns and the very latest styles.
