City Wide Revival Starts Tomorrow Eve

STARNES PARTY IS HERE FOR WORK

WAY IS PAVED FOR MEETING
STARTING HERE IN BIG
TENT TOMORROW EVE.

Beginning July 20, the Starnes Evangelistic Party is to start a two week's meeting at the mammoth tent in Clarendon. Rev. V. B. Starnes is one of the most successful evangelists in the South. He is a preacher that preaches in the power of the Lord and depends on Him for results. He is not the man to try to get men to say they are Christians in order to count noses. He preaches the Gospel of the Son of God as he finds it in the Bible without fear of any man regardless of how threatening the opposition might become. If you want to hear of sin, in all its capacities to ruin, laid bare just come and hear Rev. V. B. Starnes. If you want to have the comfort of the Word of God to fill your heart just come to the great tent and hear Bro. Starnes. We are greatly blessed of God in securing this fearless preacher of the Gospel to come to us.

At a recent meeting of the Baptist Pastors of the city of Waco, the following resolution was presented by Dr. W. W. Melton of 7th and James Street (Baylor University) Baptist Church and was unanimously adopted by the conference.

"We, the undersigned Pastors of Baptist Churches in the city of Waco wish to take this method of expressing to our brethren throughout the nation our unlimited confidence in, and our approval and endorsement of Evangelist V. B. Starnes of the Starnes Evangelistic Party. We consider him a great soul winner, a man full of zeal, earnestness and sincerity. He is safe, sane and sound in all his methods and messages. He stands high in the opinion of the citizenship of our city. He is fully qualified to hold meetings in any church or group of churches. He will be a great blessing to any Pastor who feels led by the Lord to use him. He has held meetings in nearly every church in the city, two with the church of which he is a member, and two with each of three other churches of the city. We heartily recommend him to any Pastor or church who needs a great soul winning revival."

Signed, W. T. Turner, W. W. Melton, J. M. Dawson, R. E. Bass, W. T. Rouse, R. E. Smith, Charles Alms, and A. E. Hill, pastors of the Waco Baptists Churches.

Associated with Rev. Starnes will be Mr. Lee H. Baum, Gipsy Smith says that Mr. Baum is the greatest musician he has ever been privileged to hear or have with him in a meeting. If you love good music come and hear Mr. Baum sing. He is a man of sterling worth in any capacity in a meeting as he loves lost souls and all who hear him sing will feel well repaid for the effort put forth in coming to the services.

Mr. Lee Baum will be musical director of the coming revival. Rev. Charles Miller, graduate of the school of Hard-Knocks, will be here this week to begin the advance work. He has a difficult position with the Starnes party, that of doing the advance work of organization, but as he is a specialist in that line we can expect a real organization in a very short time.

There will be two main services each day. Evening service will begin promptly at 8:00 P. M. in the tent. The morning services will start at 10:00 o'clock and will be held in the Pastime Theater through courtesy of Mr. Mulkey. The little folks meeting will be held at 4:00 o'clock in the tent and will include those between the ages of four and fourteen. The young people will meet at 7:30 at a place to be set later. There will also be a prayer service for the older people, men and women separate, in the tent at 7:30.

We are looking for a great outpouring of the Spirit of God and we want the people of Donley County to have a part in the great blessing to be outpoured. You are needed to make this revival the most sweeping and successful campaigns ever held in Donley County. Be here everyone.

LAND COMMISSIONER ROBINSON HERE WEDNESDAY

State Land Commissioner J. T. Robinson of Austin was here Wednesday afternoon for a short while in the interest of his race for re-election to his office. Mr. Robinson has made a fine record in the state land office and has many friends here who are supporting him.

Miss Adaline Atteberry of Pampa was a Clarendon visitor Saturday and Sunday.

VOTERS URGED TO EXERCISE RIGHTS

JULY PRIMARY HAS NO
RELATION TO GENERAL
ELECTION IS VERDICT

Those Democrats of Donley County who have had fears in the past few months of disfranchisement should they fail to vote the ticket straight in the November elections need fear this danger no longer. The findings of the State Democratic Committee have been such that a person may vote in the election in July, then if the choice of their party does not suit, they may again vote in the election in November and fear no ridicule or danger of losing their vote.

These findings come from the State Democratic Committee and are further urged on the voting public by County Chairman Harwood Beville. To quote from the findings of this body: "This has been the bone of much contention, a great deal of discussion and many good people will disfranchise themselves in the July Primaries for state and county officers, just because they do not want to vote for Smith in the primary election in November. The national ticket is not on the Primary ticket of July 28th, and the pledge says THIS primary, not a convention nomination in which the voter had no part."

Marshall Hicks of San Antonio, Chairman of the Texas Delegation of 1928 says in part: "In this regard to vote for the presidential candidate of the Democratic party who has bolted our platform, I do not cease to be a Democrat. The election laws of this State for years have recognized the right of Democratic voters who could not support the Democratic presidential nominee to participate in the July primaries for the nomination of state and county officers by pledging themselves that they will support the nominees of this primary being a primary in which neither the candidate for President nor the candidates for presidential electors are nominated. I believe it to be the duty of every Democrat in Texas who, as I do, finds himself unable to support Governor Smith, who has bolted our platform, to go into the primaries on July 28 and register his or her vote for state and local officers."

Donley County voters are above the average in intelligence, and will need little if no encouragement to vote in the Primary in July, especially when they learn that they are not bolting the party when they vote as their better judgement and common sense will dictate. The disfranchisement of the voter who fails to vote in the July Primary is a great item in some sections of the state and some discussion has been had here, but the candidates for County and state offices need fear no loss from the Donley county voters in this connection.

Mr. Arthur G. Ligertwood returned Saturday to her home in Hollywood, California.

Mrs. Homer Ellis together with Mrs. Charles Trent and Miss Orville Headrick returned Sunday afternoon from El Paso.

NEW PIPE LINE IS SEEN FOR COUNTY

TEXAS PIPE LINE COMPANY
SURVEYING ROUTE FOR
LINE THROUGH DONLEY

Late advices from those most closely connected with the affairs of Donley County would indicate that the taxable values of this section will be increased materially in the immediate future by the construction of an eight inch pipe line through Donley County by the Texas Pipe Line Company.

The terminals of the line are not yet made public. The exact location of the line through the county is as yet unknown, but the survey is being run and will be completed near August first, at which time more complete details will be made available for the benefit of the public at large. The construction of the line is timely for the people of Donley County since it will afford some needed employment for many who have laid their crops aside for the time and are waiting for the ripening of them to make the harvest.

This line will make the third through the county. The Humble line with its pump station at Rockledge being one, and the Gulf line being the other now in operation. It is presumed that the planned line will strike a mean between the two.

ABSENTEE VOTERS URGED TO EXERCISE THEIR RIGHTS

Sufficient ballots have been placed in the hands of the County Clerk for the use of the voters who plan to be out of the city on the election day. They are urged to exercise their rights in this connection that they may not lose their rights to vote in the Primary. To date, twenty absentee votes have been cast.

It will be of interest to know that the names of Tom Love, candidate for Lieutenant Governor; Mrs. Edith Wilmans, candidate for Governor and William E. Hawkins, also candidate for Governor will appear on the Donley County ballot notwithstanding the fact that they were left off some ballots in the central part of the state due to their avowed intention of opposing Alfred E. Smith for President.

BOY SCOUTS ARE SHOWING GAIN

ONE TROOP REGISTERED AND
TWO OTHERS ARE IN PRO-
CESS OF REGISTRATION

With one old troop of Boy Scouts in action in Clarendon carrying eight registrations, and with two troops in the process of organization, the work of Scouting in Clarendon is showing development. Hugh Lusk has the old troop and has registered the following boys with the National headquarters: Wilford Adair, Edwin Cox, John F. Draffen, George McClesky, Carroll McClung, Willie Osborne, Lloyd Risley and Kenneth Sherman.

The troop in the Methodist Church, recently organized with D. R. Davis as Scoutmaster is working toward its organization and will probably be registered in the immediate future if their plans work to a successful conclusion. This troop promises to be one of the best in the city and the others will be forced to move along at top speed to keep in step with the Methodist boys.

The American Legion selected a Troop Committee in their meeting Tuesday evening of this week and are on the look-out for a Scoutmaster to take over their troop which will be organized on the evening of July 27th. With this organization of sixty and more men behind the troop, the older Scouts will be forced into line to prevent their younger brothers from stepping out ahead of them.

Plans are now being worked out for a Summer Camp of the Scouts in the Southeastern Council, these plans to be made public at a later date. The site of the camp has not yet been selected, but will be centrally located and of easy access to all the five towns in the new county.

**LOWE FAMILY VISITS HOME
LEFT FIFTEEN YEARS PAST**

Mr. and Mrs. S. W. Lowe and family returned the fore part of this week from a visit of some length in the country near Stephenville. Mr. Lowe states that he drew water from the well on their old home place, and that it still tasted good after an absence of more than fifteen years. The trip was reported excellent, more than twelve hundred miles being made with only one flat tire. They state that crop conditions are not so good there since rain is needed badly.

Miss Eva Glenn and Loren Thompson of Wellington visited in Clarendon Sunday.

BANK STATEMENTS SHOW PROSPERITY

MID YEAR CALL FINDS COUN-
TY WELL PREPARED AND
IN GOOD SHAPE

Notwithstanding a year of the hardest drought that has ever hit Donley County, and in face of the fact that no crop money was laid away last Fall, there has been a decided improvement in the finances of the banks since the first day of January this year. A great increase in cash on hand might be noted even since the first of July, for the wheat crop of the county has been harvested and sold since that date, with a tendency to increase the deposits and lower the amounts of loans outstanding.

In computing the outstanding loans of the three banks in Clarendon, one finds that a total of \$789,902.70 is on the books. An additional amount of \$134,774.94 is found in the First State Bank at Hedley, bringing the total amount for the four banks to \$923,777.64. June 30th of last year three banks of the county showed Loans of \$602,712.63, while on January first of this year this total had climbed to \$908,866.92.

Cash and sight exchange shows a slight loss with the three Clarendon banks reporting \$411,570.19 with an additional sum of \$56,524.15 in the bank at Hedley. This brings the total to \$468,094.34. On the call of June 30th 1927, the total in this column showed an amount of \$564,532.92 for the three Clarendon banks, while on January first this year this amount was \$695,573.32.

Deposits in the three Clarendon banks and in the First State Bank of Hedley are at a new high level for the mid year call, aggregating an amount of \$1,121,195.54 for the three Clarendon banks with an added sum of \$169,629.98 from Hedley bringing the amount to the astounding figure of \$1,290,825.52. One year ago, or on the call of June 30, 1927, this figure amounted to \$1,087,371.11, while on January first these figures had climbed to \$1,448,656.31. The last two sets of figures apply only to the Clarendon banks.

Diversification has for the most part played an interesting part in the increase of deposits during the past twelve months. The great part of the wheat crop is harvested and sold in the sections surrounding the city of Clarendon.

C. H. S. CREDITS ARE TWENTY-SEVEN

UNITS GRANTED IN THREE
SUBJECTS SWELL POS-
SIBILITIES OF SCHOOL

The recent granting of 2½ credits swells the affiliated credits of C. H. S. to 27 units, and gives those who took the courses in which the credits were granted additional units for entering college.

The accrediting of high school subjects is determined by the report of the supervisor who visited the school; the application showing the qualifications of the teacher and the organization of the course; and the character of the exhibit submitted.

Material was submitted in book-keeping, stenography and typewriting in which one unit of credit was granted in each of the first two and one half in the last. A. M. Blackman, chief supervisor of high schools, made the following comment on the shorthand exhibit in a letter to H. T. Burton, Superintendent of Schools: "The exhibit shows up among the very best sent in. The methods pursued by the teacher are excellent and produce good results. This class should be able to reach a speed of 100 words next year and in that way earn another credit in stenography. The typewriting speed to accompany the shorthand must be 40."

CITY WILL COLLECT FINES FOR FAILURE TO USE RULE

In accordance with a law promulgated by the City commission and a circular issued by Major H. W. Taylor a \$2.00 fine will be collected from any one who fails to observe the "stop" and "slow" signs at all street intersections in this city, especially at the corner of the Methodist Church. This corner is the most dangerous point in the city and it is very necessary to observe the "slow" sign there, for countless accidents have occurred at this corner because of failure to slow down.

Mrs. J. M. Wise and son, James Charlton, of Amarillo, are here for a visit in the home of her parents, Rev. and Mrs. P. T. Charlton.

HUGE ELECTION PARTY PLANNED

PROSPECTS INDICATE BIG-
GEST AFFAIR OF NATURE
FOR MANY YEARS

Advance notes on the election party to be staged through the courtesy of the business men of the city of Clarendon indicate that it will be the largest affair of the nature staged here in the past four years.

Plans have already been completed for the receipt of the state and National returns through the Texas Election Bureau in Dallas, while the county returns will be received through the efforts of the County Chairman, Harwood Beville and the Election Judges throughout the many voting boxes of the county.

The owners of the Goldston Building have kindly consented to the use of the North Wall of their building for the display of the election figures. An office has been secured on this side of the structure where all returns will be received and their messages transcribed to the board that will hang on that side of the wall.

The street will be roped off to allow plenty of standing room for spectators, and the party is expected to last until far into the morning of Sunday, July 29th. The greatest interest will probably be shown in the County and State officers, although the interest is expected to be great in national affairs.

RATHJEN ADDS SPACE IN REAR OF STORE BUILDING

Fred Rathjen has been busily engaged the fore part of this week in adding shelves and other needed space to the rear part of his place of business in Clarendon and is making room for the added stocks that will be necessary when the 1928 bumper crop is harvested and sold in the sections surrounding the city of Clarendon.

MULKEY REPORTS ON CONVENTION

TELLS OF MARVELOUS WORK
DONE AND NEED FOR IN-
TERNATIONAL BODY

A partial report of the delegation to the International Convention of the Clarendon Lions Club was heard Tuesday of this week when Lion Mulkey took fifteen minutes and told the Lions of some of the work they are doing in the nation. Especial stress was laid on the work with the blind and with the boys of the United States. The work of the Panhandle group with crippled children was given some attention, the hospital in Oklahoma City being visited while he was in that city for a short time.

Other numbers on the program included a duo of vocal selections by Miss Nathan Irwin and a reading by Miss Mary Norrod, both visitors of Lion Monty Garrison. To relieve the burden now being carried by Lion Garrison in having one of the charming visitors as a cousin, the club unanimously took the burden from his shoulders and adopted them both as cousins of the entire organization.

A report was heard from the attendance committee under the chairmanship of Lion Douglas. The committee has named a complete new set of buddies, using members that are situated as closely together as possible that their notification should be more easily made. At the next luncheon these men will answer with the names of their buddy if he be absent, giving reasons for his dereliction and the place of his residence during his absence from the Lions Club. Further statement was made that the attendance prize would be continued for the coming three months at least.

Guests for the day were introduced as follows: Charles Miller of Chicago, C. L. Benson and C. C. Powell of this city. Mr. Miller is the advance agent of the Starnes Evangelistic Party and made a short address to the club, inviting the Lions to take part in the services.

Adjournment as usual.

LONG STAPLE COTTON PRODUCES FIRST SQUARE

The first bloom and the first boll of cotton from the vicinity of Clarendon were brought in last Saturday, July 14, by W. W. Gorman, who lives one mile west of town on the J. H. Hurn place.

Mr. Gorman brought a blossom in the News office Saturday morning, and came back that afternoon with a boll, small yet well developed about one half inch in diameter. He has about two acres planted to this cotton, the seed of which he obtained from Georgia. It was planted about May 15. This cotton called the "Heavy Fruiter" is supposed to have an inch and an eighth staple and should bear 10 days earlier than any other.

This is the first year that Mr. Gorman has ever planted any of this cotton so he is watching it with much interest.

Margaret Nicholson of Shamrock visited Sunday with Clair Marie Braswell. They were schoolmates at C. I. A.

HATLEY GIRL IS KILLED MONDAY

DEATH FOLLOWS ACCIDENT-
AL BLOW BY AUTOMOBILE
LATE IN EVENING

Willie Evelyn Hatley died almost instantly late Monday evening of this week after she had been struck by an automobile near the home of her parents in East Clarendon. The youngster had started across the street for a loaf of bread and was hit by the car driven by Jeff Aludell, who stopped the car immediately and rushed back to where the little one lay. She lived only a very few minutes after the accident although medical attention was secured almost immediately.

Funeral services were held Tuesday afternoon at 3:00 o'clock in the Hatley home, Rev. S. R. McClung officiating. Interment was had in the citizens Cemetery. Deceased is survived by her mother and father, Mr. and Mrs. L. A. Hatley, and by her grandparents who make their home in the Brice community. A younger brother is also left to mourn the passing of his sister and playmate.

Willie Evelyn was born July 17, 1923 and was called from this life July 16, 1928, only one short day before she celebrated her fifth birthday.

COUNTY TAX RATE REMAINS AT 75c

NO CHANGE ANTICIPATED IN
COUNTY RATE AS VALU-
ATIONS TAKE SLUMP

The tax rate for Donley County has been set at the same rate of 75c for the year just ahead. This figure puts finances on a sound basis in the county and at the same time allows for the revenues of the organization to keep pace with the expenditures. The receipts for the past year have cared for the expenses and are returning the outstanding bonds at a nice rate.

School taxes will also remain at the maximum figure of \$1.00. This figure has been in use here for the past four years and there is little chance for the reduction below this figure for a number of years in the future. Valuations in this quarter will remain about the same as they have been in the past.

Another column in the News gives the reduction in the State ad valorem tax to bring the new level of 64 cents to the tax paying public of the state. The ad valorem tax is lower than it has been for the past eleven years.

The above taxes, together with the City Tax Rate of \$1.24 brings the total for the tax payers of the city of Clarendon to \$3.75. This represents a saving of seven-tenths cent to the tax payers of the city due to the reduction on the key rate of the insurance in the city. Savings are also effected in the reduction of the water rate made possible by the addition of water pumps and other equipment.

LEGION POST TO SPONSOR TROOP

AUBYN CLARK POST TO START
ORGANIZATION FRIDAY
JULY 27TH

H. B. Yates, Scout Executive for the summer months for the newly organized Southeastern group, appeared before the Aubyn E. Clark Legion Post in their regular meeting Tuesday evening of this week and explained the work of the scouts and the urgent need for the organization of a troop under the Legion's guidance. As a result of the discussion that followed, the Legion will undertake the sponsoring of a troop and is calling a meeting of boys between the ages of twelve and sixteen for Friday evening July 27th in the Legion Hall. Special features will be included in this meeting that will make it worth the while of every boy in Clarendon to be present and take a part in the meeting. The membership in this troop will be limited to a small number and the first boys to arrive on the scene of action will be the first boys to get into the Legion troop.

The troop committee named is composed of the following members of the Legion: Monty R. Garrison, Clyde J. Douglas, G. L. Boykin, Ernest L. Hunt, W. L. Clappitt and F. L. Stallings. This committee has tentatively selected a man to take the place of Scoutmaster of the troop and this man will be on the job when the boys meet Friday July 27th.

Other business attended to at the Legion meeting included the authorization of two delegates to the Texas State Legion Convention at Texarkana the latter part of August. This action was taken leading to the National Convention in San Antonio in October of this year. The members present expressed a desire to know what the organizations were doing in other parts of the state and nation and for this reason are planning attendance on the State and National meetings.

Probably the most important item discussed at the meeting Tuesday evening was the matter of the attendance at the meetings. It was unanimously decided to appeal to the "Knife and Fork" members of the Post at the next meeting and serve some sort of refreshments to the men who were in attendance. There will be a plentiful supply of eats on hand and the members are especially urged to attend and take part in the deliberations of the body. The curtains will be in the places and the Hall will be properly dressed for a great meeting. This will be held the first Tuesday in August, the same being August 7th.

Mr. and Mrs. W. L. Crane and daughters, Misses Ethel and Edith returned Monday night from a two weeks visit with relatives in Fort Worth. Mr. Crane's niece, Miss Marguerite Crane came up with them on a visit.

NATIONAL EDITORIAL ASSOCIATION — PANHANDLE PRESS ASSOCIATION

Crops in Donley and adjoining counties are the best in West Texas as seen by a recent trip through the south plains and into the central portion of the section. Business conditions are on a sharp upgrade in the Panhandle.

Nearly a hundred thousand dollars of wheat money is in circulation in Donley County to the great benefit of general business, and now comes the garden stuff and field produce to add its share of general prosperity. You can't be oversold on Donley County. It is the best all-round county in the great Southwest.

Clarendon Legionaires have sponsored a troop of Boy Scouts under the new reorganization plan for this city, and are going ahead with their plans of forming a most efficient and effective troop. Our boys are among our greatest assets and the history of tomorrow will be written by the boys of today. Clarendon parents have a new and enlarged opportunity of moulding the standards of tomorrow in cooperating with the Scout movement in our city. Let's get behind the present and new Scout troops and see that the interests and ideals of our youth is directed along lines productive of the best citizenship.

Every effort is being made to get out a heavy vote in the Democratic primary on July 28th. An erroneous idea of what the pledge requires has caused many to think of staying out of the primary because they intend to vote for the Hoover electors in the general election this fall. The pledge only requires that the voter supports the nominees of "this primary", and has no binding on the action of any convention which has gone before. Vote in July and August primaries, then vote in the November election for the nominees of the primaries, but vote for either Democratic or Republican electors. Follow your conscience.

Those who expected a great upheaval in the policies of the West Texas Chamber of Commerce at the Coleman meeting of the board of directors were foredoomed to disappointment. No one need expect radical changes in the policies of any organization controlled by one hundred men of West Texas, many of whom are reputed for their ability as business and civic leaders. No section of the Southwest is so committed to the policy of change as is West Texas, where every month in every year policies must be adjusted to meet new and enlarged conditions, and it is certainly to be expected that the great regional commercial body will change year after year, but that doesn't carry much consolation to those who had hoped to see an eruption down at Coleman. President Bourland begins his administration in a most practical manner and is commanding the interest and support of the conservative business men of West Texas.

Never has there been such a call for voters to use their life principles and conscience in their voting. Party affiliation of the brass collared sort is going the way of a lot of buncombe which has held back the extension of good government. The Democratic party is controlled by the better element in Texas but that doesn't mean it is so all over the nation. No man has a right to condemn his fellow for a vote based on principle.

Donley County cannot escape the problem of better roads. We must either pave the main highways and improve the lateral roads, or we must pay the penalty in loss of tourist travel and tourist business, and the corresponding loss of prestige as a progressive, forward looking county. Nobody can keep Donley County down but the people of Donley County. Get on the firing line for better roads. It means advancement in every phase of county life.

IT'S A POOR JOKE

When some woman blushes with embarrassment.
When some heart carries away an ache.
When something scared is made to appear common.
When profanity is required to make it funny.
When a man's weakness provided the cause of laughter.
When a little child is brought to tears.
When everyone can't join in the laughter.—Selected.

TOO MANY OF 'EM

The editor of the Big Spring Herald took occasion last week to "rap" these fellows who say "don't say anything about this until everything is 'jake'" and then when an out of town daily reaches his desk the next morning he finds the "whole story" printed in it. He put his little editorial up high on the front page with a box around it. And the fellow that didn't see it was blind if he was a Herald subscriber. But that's the case. The home town news is requested to be squelched, when it is possible the very fellow asking the request of the home editor is correspondent for some foreign daily, then the home subscriber wondered why the news published in the out of town daily exclusive of the home paper. And, too, once in a while a fellow will request the editor not to say anything about a certain piece of news because the time is not yet ripe, and when the paper comes out the next day raises a ruckus because it wasn't printed and says the editor doesn't like him. Sometimes we think the editor ought to take the bits between his teeth, get the facts in the case, and print them to his own satisfaction.—Graham Leader.

YOU HAVE WORK TO DO

My son, remember you have to work. Whether you handle pick or wheelbarrow or a set of books, digging ditches or editing a newspaper, ringing an auction bell or writing funny things, you must work. Don't be afraid of killing yourself by overworking on the sunny side of thirty. Men die sometimes, but it is because they quit at nine p. m. and don't go home until 2 a. m. It's the intervals that kill, my son. The work gives you appetite for your meals; it lends solidity to your slumber; it gives you a perfect appreciation of a holiday. There are young men who do not work, but the country it not proud of them. It does not even know their names; it only speaks of them as So-and-So's boy. Nobody likes them; the great, busy world doesn't know they are here. So find out what you want to be and do. Take off your coat and make dust in the world. The busier you are, the less harm you are apt to get into, the sweeter will be your sleep, the brighter your holidays, and the better satisfied the whole world will be with you.—Bob Burdette.

A REAL MAN

A real man never talks about what the world owes him, the happiness he deserves and the chances he ought to have, and all that. All he claims is the right to live and be a man.
A real man is just as honest alone in the dark in his own room as he is in public.
A real man does not want pulls, tips and favors. He wants work and honest wages.
A real man is loyal to his friends and guards their reputations as his own.
A real man is dependable. His simple word is as good as his Bible oath.
A real man does a little more than he promises.
A real man does not want something for nothing, so the get-rich-quick people cannot use him.
A real man minds his own business. He does not judge other people.
A real man always has excuses for others, never for himself. He is patient and charitable to them; to himself he is strict.
A real man is glad to live and not afraid to die.
A real man never hunts danger and never dodges it when he ought to meet it.
A real man's love is like a dog's and that's saying a good deal.—The Merchants Journal and Commerce.

DAIRY BUILDING STATE FAIR OF TEXAS
Dallas, Texas, (Special) The first annual show under the auspices of the recently organized Southwestern Dairy Association will be held during the first week of 1928 State Fair of Texas (Oct. 6 to 12), in the new dairy building shown above. Dairy products machinery and supplies used in all branches of the dairy industry will be displayed in this structure. The various breeds of dairy cattle, comprising the choicest specimens from the best known herds in America, will be housed in the large live stock buildings shown in the background in the picture.
Texas, it is said, is making great strides toward supremacy in the dairying industry and exhibitors from all over the United States will be represented at the show. The State Fair of Texas is the largest in the world and was attended last year by 1,028,317 persons.

NEW CARS SHOW PROSPERITY REIGNS HERE

Two hundred and nineteen new cars have been bought by people living in Donley county who have registered them in this county. Of this number 29 have been bought since July 1 to July 14. About 92 percent of the entire number are closed cars, showing that the closed car has become recognized here as the best type of car to own. These figures have been determined by actual inspection of the tax receipts in the Sheriff's office.

Statistics show that the following number of each car to have been purchased from January 1 to July 15 inclusive:
Chevrolet 5.
Ford 24
Chrysler 23
Buick 20
Nash 19
Pontiac 15
Dodge 14
Essex 12
Hudson 6
Whippet 5
Durant 4
Oldsmobile 3
Star 2

One each of the following were registered in this county: Lincoln, LaSalle, Packard, Franklin, Studebaker, Oakland and Overland. However this does not mean that local dealers have not sold more cars, for they might have sold to people living outside the county, or necessarily they have sold as many as listed for they might have been brought in from elsewhere.

ICE CREAM SUPPER

The Young People's Sunday School Class of the Martin School will hold an Ice Cream Supper Saturday night. All candidates will be asked to appear on the program. Everyone is cordially invited to attend. (28pd)

Why take a chance?

Thousands of cars are stolen every year.
Then there are the other possibilities of loss or damage. Fire, Collision, Property Damage and Liability. Play Safe. Insure Completely.

Thursday Needle Club Is Honored

The Thursday Needle Club Members enjoyed a most pleasant afternoon Thursday at the home of Mrs. James Trent, 403 west 5th and Park Street, where several hours of needlework and conversation were enjoyed in rooms made attractive with a profusion of flowers.

At the close of the afternoon dainty refreshments were served to the members and a few invited guests.

Mrs. J. B. McClelland Honors Guest

Mrs. Arthur G. Leichterwood of Hollywood, California was the honoree of a delightful "At Home" given Thursday by Mrs. J. B. McClelland at her beautiful home on west 3rd Street, so that the old friends of Mrs. Leichterwood could be with her once more, and during the hours from 4:00 to 7:00 o'clock a large number of friends called to pay their respects to this delightful friend of old. A profusion of beautiful flowers

were attractively arranged through the entire entertaining suite. Cool and refreshing punch was served by Mrs. T. H. Ellis, Mrs. George Ryan, Mrs. M. H. Rhoades, Miss Katherine Patrick and Miss Frances Cooke during the afternoon.

Old Friends Meet in Home of Mrs. Stallings

About twenty ladies spent a most pleasant morning in the home of Mrs. D. O. Stallings Monday visiting with their old friends, Dr. and Mrs. Griswold of Childress and Mrs. Hubert Seale of Denver, who were enroute from Childress to Denver, Colorado, and Berkeley California.

Mrs. Stallings served punch throughout the morning and the parting with these dear friends came all too soon.

Mother and Dad Banquet

On last Thursday evening it was the writer's pleasure to attend an unusual banquet. It was a Mother and Dad banquet given by the Camp Fire Girls, of Clarendon in the College Dormitory dining room. The guests found their places by "place cards" artistically made to represent a camp fire, symbolic of the order, on the back of which was the menu. A heaping plente of food was served by the Camp Fire Girls, and to see it

disappear was evident it was enjoyed by all. And as the guests were departing it was noted that the girls were washing the dishes and even scrubbing the dining room floor, which shows the thoroughness of their work. Their motto should be "we start nothing we do not finish".

The Camp Fire Girls have been putting on a weeks special program in order to meet the requirements for High School credits. Theirs is a worthy work and every citizen should aid, commend and co-operate with this organization of girls.

Mrs. Clarence Whitlock Entertains

At 3:00 o'clock Thursday afternoon Mrs. Clarence Whitlock entertained the members of her bridge club and a few special guests at the home of her mother, Mrs. Otis Barnes in rooms bright with the gay colors of garden flowers.

At the close of the pleasant hours a delicious luncheon was served. High score was awarded to Miss Obie Crabtree. Those present were: Mesdames Lenode Goldston, Leonard Parker, C. W. Bennett, Jr., B. C. Antrobus, W. L. Ball, Bascom White, Fred Mayer, Floyd Lumpkin and Misses Obie Crabtree, Lotta Bourland, Lucy Antrobus and Lorraine Patrick.

Ladies Aid in Bible Study

The Ladies Aid meeting was opened with prayer by Mrs. W. T. Hayter when they met in the home of Mrs. O. D. Leisburg, Wednesday afternoon with the reading of the minutes of the previous meeting and a business session following.

After a short devotional the 8th Chapter of Matthew with Mrs. F. C. Johnson as leader was read and discussed.

A social hour was enjoyed with the hostess serving ice cream and cake to the ten members and one visitor present.

1922 Bridge Club Entertained

The members of the 1922 Bridge Club were delightfully entertained at the beautiful home of Mrs. Charles H. Bugbee, Tuesday afternoon, where love, fresh flowers and greenery made a fitting environment for the gathering of members and guests of the club.

Mrs. J. T. Sims was fortunate in receiving high score and Mrs. W. H. Patrick drew consolation.

Those present were: Mesdames L. S. Bagby, R. A. Chamberlain, W. H. Cooke, Sella Gentry, A. R. Letts, J. B. McClelland, J. T. Sims, James Trent, T. H. Ellis, W. H. Patrick, Kate Carroll and Whitfield Carhart of Greenville, Texas.

Thursday Evening Bridge Club are Guests of Mr. and Mrs. Bagby

The Country Club was the scene of a merry party Thursday evening when Mr. and Mrs. Selden Bagby entertained the members of the Thursday evening Bridge Club with a party.

After an invigorating swim a picnic lunch was greatly enjoyed. The playing of bridge in the club-house followed with Mr. and Mrs. Philip Gentry being awarded a lovely score favor at the close of the games.

Those present: Dr. and Mrs. O. L. Jenkins, Mr. and Mrs. Meredith Gentry, Mr. and Mrs. Philip Gentry, Mr. and Mrs. Dick Bell, Mr. and Mrs. Sam Dyer, Mrs. Nat Perrine, Mr. Holman Kennedy, and the hosts, Mr. and Mrs. Selden Bagby.

Former Clarendon Girl Married to Snyder Man

The News is in receipt of the announcement of the marriage of Miss Ioma W. Andrews, former Clarendon girl, to Mr. Rees Jones of Snyder, Texas, on January 8th this year. The announcement carries the At Home card, stating that they will make their home in Colorado, Texas after July 20th. Miss Andrews is the daughter of Mr. and Mrs. S. A. Andrews, former residents of this city and now

residing in the city of Colorado, Texas. The News and other friends of the city extend felicitations and congratulations to the couple and wish them a long and happy life.

Mr. and Mrs. John Blocker Hosts to 500 Club Tuesday

Mr. and Mrs. John F. Blocker opened the doors of their beautiful new home to their friends Tuesday evening with the members of the 500 Club as their honor guests.

Beautiful seasonal flowers were artistically arranged in the rooms to add to the enjoyment of the occasion.

After a tour of inspection of the home the guests put their stamp of approval upon it as one of Clarendon's nicest homes and sat down to enjoy the palatable three course dinner served by the hostess and her daughter, Mrs. Dorr Ellis.

The game 500 followed with Mrs. John Sims and Mr. Fred Chamberlain winning high scores for club members, Mr. J. L. McMurtry was high for guests and Mrs. Fred Chamberlain and Mr. A. L. Chase drew consolation. Each of the above mentioned received beautiful favors.

The guest list included: Mr. and Mrs. W. H. Patrick, Mr. and Mrs. Fred Chamberlain, Mr. and Mrs. John Sims, Mr. and Mrs. George Ryan, Mrs. James Trent, Mr. A. L. Chase, Mr. and Mrs. Will Lewis, Mr. and Mrs. J. L. McMurtry, Mr. and Mrs. Charlie McMurtry, Mrs. L. S. Bagby, Mr. A. T. Jefferies and Mr. Wesley Knorrp.

* * * * *

* LELIA LAKE *

* * * * *

John Cook and family of Goodnight spent Sunday with his parents, Mr. and Mrs. J. D. Cook. The two small daughters remained for a week's visit with their grandparents and other relatives.

Lee Muse returned from harvest Sunday.

G. Leathers and family visited Sunday at Goodnight with Mrs. Leathers parents.

Misses Ruby and Myrtle Batson left Saturday to visit their relatives at Memphis.

Mr. and Mrs. Atkinson and children of Quail spent Saturday night with his sister, Mrs. M. T. Cottingham.

Mr. and Mrs. Kinch spent Saturday night and Sunday with her parents at Goodnight.

Mr. Eanes and son, Edwin, of Comanche arrived Sunday morning. Mr. Eanes visited with his daughter, Mrs. Otis Smith, until noon Monday.

Hugh Knox, Virgil Reeves, and Louie Self left Thursday for the harvest field.

Mr. and Mrs. Morgan and sons, J. R. and Alvin of Amarillo, Willard King and family of Crowell, Mrs. George Weaver of Clarksville, and John Mabry and family of Martin, spent Sunday in the H. R. King home.

Mrs. Will Kennedy and Mrs. Cottingham entertained the members of the Home Demonstration Club Monday afternoon, at the Camp Ground. After a swim and a few games of forty-two ice cream and cookies were served.

Wilma King entertained her friends with an apron and overall party Saturday evening.

The young people enjoyed a party in the Marion Camp home Friday evening.

YOUNG VOTERS CALLED TO VOTE IN PRIMARY IN JULY

Those young men and women of Donley County who have become twenty-one years of age since the first of January 1928 will have the privilege of the vote without poll tax receipt or exemption certificate. There are many in the county who will be able to exercise this right for the first time this year and their attention is called to the above mentioned facts in this connection.

J. A. McKILLOP

The City of Clarendon was shocked last Friday to learn of the sudden and unexpected death of John McKillop in his home on West Third Street. Mr. McKillop had been at his appointed tasks earlier in the day and had left for his home evidently in the best of spirits. Neil McKillop returned home during the night and found his father in his chair barely alive. Assistance was summoned, but to no avail and the stricken man passed to the other world just as day was breaking on Friday morning.

For the past many years, John McKillop has been a figure of interest in Clarendon. He was born at Denison, Texas, on March 9, 1877. At the early age of eleven he came here with his parents and has made his home here since that time. He has been in business here for himself and has been connected in various capacities with a number of establishments in the city. The greater part of his life has been spent in drug businesses, and he was working at that at the time of his death.

Last rites were held over the remains of this pioneer citizen on Friday, July 13th from the Baptist Church, Rev. S. R. McClung officiating. Interment was had in the Citizen's Cemetery beside his wife, who was buried there early in 1926.

Surviving him are two children, Neil and Marjorie, Mrs. Flora G. White and a nephew, Bascom White. No other relatives are known. Only recently Mr. McKillop was united with the Baptist Church of this city.

MRS. LULA LOWRY DIES AT HOME IN CLAUDE

The death of Mrs. Lula F. Lowry came as a surprise to many people of Clarendon who had learned of her illness only this week. Death called her from this world Wednesday at noon and the body was prepared for shipment to Chico, in Wise county for interment. Mrs. Lowry was stricken with a cerebral hemorrhage on Tuesday the tenth and has been helpless since that time. Her sons, Charles and Luther, have been with her since she was stricken and will make the trip in company with the body of their mother.

DE MERCHANT REVIVAL CONTINUES TO SUNDAY NIGHT

De Merchant still continues his great revival in Hedley. It has been estimated that the largest crowds that ever attended a religious service in Donley County have attended Mr. De Merchant's meetings at the First Christian Church.

The services are now entering into their fourth week, but will close on Sunday night as Mr. De Merchant is receiving calls from all over the country to come and conduct meetings. He plans to leave by the first of next year for Palestine, Jerusalem, where he will preach to the Jews.

His subject for to-night is "The Holy Ghost", the churches greatest need of today says Mr. De Merchant. Friday night will be the last healing service for the sick. Meetings are held every night at 8:30 and on Sunday at 2:30 and 8:30.

ST. JOHN BAPTIST CHURCH Rev. L. L. Swan, Rector

Services for Sunday July 22. Holy Communion, 9:15 A. M. Church School and Bible Class 9:45 A. M. Note the change in hour. This will be the only service.

Everyone is therefore cordially invited to attend.

Walter Taylor and family and John Martin and family left Friday by auto on a trip to Carlsbad, and Ruidoso, New Mexico. They will be gone about two weeks.

Mrs. T. M. Shaver left Friday for Carlsbad, and Ruidoso, New Mexico.

TO THE DEMOCRATS OF TEXAS

The decision of the Supreme Court June 2th upholding Land Commissioner, J. T. Robison, in the numerous cases involving the University and Public Free School Lands and the rights of land owners accentuates the importance of the position he holds and the necessity of having in that place an experienced business man as well as a trained lawyer. No prudent man and no association composed of prudent men would intrust a business of such magnitude to an individual without experience in the line of business involved. The State Land Office has become a great business institution through which comes to the State millions of dollars each year, due largely if not wholly to the business judgment of the present incumbent, J. T. Robison. It would be extremely hazardous for the people of Texas to place the Land Office in the hands of an inexperienced man of unknown business ability. Mr. Robison has demonstrated his fitness for the place, his honesty and his courage to stand for what is right regardless of consequences and the Supreme Court has recently sustained him in what is said to be the most important land case ever before that Court.

We are asking you to consider the matter from a business standpoint as you would view your own private affairs, and if you reach the conclusion that Mr. Robison should be retained, as we think he should, we trust that you will call the matter to the attention of others to the end that a public business involving millions and one's ownership of land will not

be disturbed or possibly destroyed.

A BRILLIANT AFFAIR

During a fire in a village in Ohio the editor of the local paper, being unable to locate the regular reporter sent out the young woman who "did" the society gossip. Here is her report as it appeared: "A brilliant fire was held yesterday afternoon at the residence of Mr. and Mrs. Slippy, in Hope street. A large number of people attended the function. Mrs. Slippy, who recently had her hair shingled, made a charming escape in an exceedingly handsome henna silk blouse, the pattern of which appeared in our women's page last week. The firemen, who presented an attractive appearance, were suitably garbed in blue, the tunics being full cut. The weather was quite delightful for an affair of this kind, a strong wind blowing. It is rumored that the fire was on a larger scale than any previous affair of a similar kind for years. It is also rumored that it cost Mr. and Mrs. Slippy about \$25,000. Boston Transcript.

Misses Eula and Mary Naylor visited Ernest Naylor and family in Amarillo Sunday.

FIND ROADS SERVE AS AN INVESTMENT

PERMANENT PAVEMENTS ENHANCE REAL ESTATE VALUES AND CUTS ROAD COST

Although the actual value of a good road cannot be accurately judged, Erie county, N. Y., has some figures that definitely indicate that road improvements are worth more to the community than the original investment.

When the towns of Tonawanda and Amherst permanently paved Sheridan Drive, the north side of the Inner Loop encircling Buffalo, property values went up in some cases from \$200 an acre to \$50 to \$200 a front foot, according to a recent statement of the Automobile Club of Buffalo. Other wide boulevards leading from Buffalo to Sheridan Drive have together formed a system of suburban-developing thoroughfares.

The increase in land values is real and not due to inflation, declares the automobile club, which points out that few lots have been resold. Purchasers are already building homes ranging in cost from \$5,000 to \$50,000 and business blocks are being erected.

For some years past, George C. Diehl, County Engineer of Erie County, has been conducting a traffic census to determine the economy of road improvement. Records kept on more than 100 roads near Buffalo show a reduced road cost. In 1923 the

maintenance cost per ton-mile of traffic carried was 1.49 cents and in 1926 this figure had dropped to .71 cents, more than a 50 per cent reduction. In 1923 the combined construction and maintenance cost per ton-mile of traffic was 3.07 cents while in 1926 this cost was but 1.45 cents. The county authorities explain that the savings have been due to the increasing mileage of permanent type roads.

This is made even more clear by the following carefully determined data: The cost of water-bound macadam per ton-mile of traffic carried in 1923 was 3.47 cents; of bituminous macadam, 1.82 cents; sheet asphalt, 2.32 cents; and concrete 1.48 cents.

In 1926 the cost of travel over water-bound macadam 0.63 cents; of sheet asphalt, 0.39 cents; and of concrete 0.31 cents.

These small figures when applied to the vast volume of traffic that flows through the region of Greater Buffalo amount to considerable sums. Considering the difference in road cost between concrete and water-bound macadam, for instance, it is found that when the traffic is 2,000 cars daily, \$115,000 may be saved over a 10 mile stretch in the course of a year.

The Buffalo road building public is taking the attitude that the proof of the pudding is in the eating. This epicurean curiosity will doubtless cut future road costs.

Editor Sam M. Braswell attended the Press Convention in Big Spring Friday and Saturday. From there he went to Coleman to attend the meeting of the directors of the West Texas Chamber of Commerce.

STATE TAX RATE CUT THREE CENTS

ACTION OF BOARD MONDAY GIVES TEXAS LOWEST AD VALOREM FOR 14 YEARS

Action of the automatic tax board yesterday in fixing the State tax rate at 64 cents, a 3 cent reduction on each \$100 of Texas the lowest ad valorem tax taxable values last year, gives rate for the two years of any administration for 14 years.

The combined rate for the two years of the present administration was reduced to 47 cents and is 11 cents less than the preceding two years.

With total rate of 64 cents, the gross taxes collected next year will be \$25,442,619, of which \$20,354,095 will be net to the state.

Action by the board was unanimous. Following the meeting an explanatory statement was made public signed by all three members, Governor Dan Moody, State Treasurer W. Gregory Hatcher and Comptroller S. H. Terrell. Their statement said in part: "The new rate of 22 cents will yield sufficient revenue to meet the expenditures of the Government and pay the appropriations which have been made to all institutions and departments. The schools will receive a \$15 per capita apportionment for next year as they did this year. All rural schools which qualify for aid will receive a six month's term as they did this year."

Comptroller Terrell furnished the figures on which the tax rate was built. He showed that the estimates reach \$3,975,409,265, which means that the final figures will go over \$4,000,000,000.

THE SIDE-LINE FARM FLOCK

Much has been said and written about diversification on farms. The farmer has been given much free advice, often times by people not capable of giving such advice. Diversification on farms is desirable if not carried too far. We are absolutely certain that when carried too far, diversification is impractical and a money losing venture. In this day and time efficiency is required in farming, in order to assure a profit. Efficiency requires close study and much experience. A farmer cannot, and never has mastered fully, every detail necessary to make a success in cotton growing, fruit growing, vegetable gardening, poultry raising, dairying, hog raising, alfalfa culture, corn culture, etc. Diversification by itself does not mean success. In fact too much diversification will absolutely bring failure. Progress, the great key to success in industry has been towards specialization. The farmer most successful, also have made an effort to specialize more or less. Specialization makes for greatest efficiency and lowest cost of production, both factors being very necessary to make money farming.

Diversification to a certain extent is desirable on the average farm. For example, poultry raising, corn and milo growing, and dairying may be considered a good diversification program. The corn and milo may be fed to both cows and hens, the skim milk from the cows may be fed to the chickens to great advantage. Too much diversification, only reminds us of the old but true saying "Jack of all trades but master of none".

A recent survey in California, shows the side-line poultry flock of 200 to 500 hens to be the most profitable. This is true because lowest production cost. The flocks smaller than the above number, had too great an overhead charge against them, and did not receive as good care.

The marketing problem, also become much easier rather than the exception. We do not believe that every farmer should keep a flock of chickens, unless he is equipped and situated to do so. Some farmers are losing money on their poultry flock each year. To such we would say dispose of your flock and buy your eggs and chickens needed for family use. When you lose money on an undertaking, better discontinue it at once.

In a neighborhood of 500 farmers, no doubt there are a hundred more or less that are not adapted to poultry raising; instead of each farmer keeping 100 hens, or a total of 50,000 hens it is better that 100 farmers keep 500 hens each, making the same total for the community. Some of the others will want to enlarge in the dairy or hog business or some other branch.

Byron Skelton of Groom was in Clarendon, Sunday on his way to Austin to attend to business matters connected with his position as president of the Students' Association of the University of Texas. He expected to be in Clarendon Friday on his way home.

F. L. U. MEMBERS NOTICE

Those members making affidavit to the number of bales of cotton shipped through the F. L. U. and also the number of bales they received, will meet at the office of the Farmers Gin Friday July 27th, at 2:00 o'clock P. M. for final settlement. All receipts for cotton shipped and sold and also rebate receipt duplicates must be at the meeting. ROY WILSON, Sec.-Treas. (29pd)

SOME FACTORS IN TRAPPING HOUSE FLIES

While the logical method of fly control is to prevent the multiplication of these pests by proper disposal of or treatment of their breeding places, some degree of control can be maintained by the use of traps. Both the house fly and blowflies may be captured in traps, according to the entomologists of the United States Department of Agriculture, but the character of the bait and the location of the traps are important considerations in trapping the different kinds of flies.

Farmers' Bulletin 734-F, "Fly-traps and Their Operation," by F. C. Bishopp of the Bureau of Entomology of the department, gives directions for constructing a number of different kinds of traps, the same general principle being used in all these flytraps though they appear to be different.

The flies are attracted into a cage through a passage, the entrance of which is large and the exit small. Once inside there is little chance that the flies will find the way out.

Light is an important factor in the success of all flytraps because flies have a tendency to go toward the light, and they will usually enter a trap by flying toward the light after having been attracted beneath it by the odor of the bait or after entering a room in search of food.

It is important to use a bait suitable for the kind of flies to be caught. For house flies, a mixture of cheap cane molasses with three times as much water is one of the most effective and economical baits to use. Blowflies are more readily attracted by animal matter. Around slaughter houses, markets, and butcher shops where blowflies are troublesome, such baits as mucus membranes which form the linings of intestines of cattle or hogs are suitable.

A copy of the bulletin may be obtained from the United States Department of Agriculture, Washington, D. C.

Mrs. J. D. Jones and daughter, Alto Bell, from Granite, Oklahoma, arrived Sunday to visit in the home of her sister Mrs. J. R. Cox. Mrs. Cox and Mrs. Jones will go to Bowie to spend a week in the home of their mother the latter part of this week.

WICKS TO TEACH MEANS OF SAVING

WALTER WICKS TO BE IN CLARENDON AUGUST 15 AND 16, UNDER RED CROSS

Walter Wicks, a special representative of the Lift Saving Service of the American Red Cross, will visit Clarendon in accordance with arrangements made by the local Chapter of the American Red Cross on August 15 and 16. The Country Club Lake has been secured for the School and further plans as to the possible program will be announced at a date nearer the time of the school.

Wicks is a graduate of Iowa State College at Ames, Iowa, and he has devoted most of his school and college athletic time to swimming, in which field he has achieved considerable distinction. He passed the senior Life Saving tests under Coach C. E. Daubert, and was a member of the Freshman Swimming team in 1924. In the three following years 1925, '26 and '27 he was a member of the Varsity Swimming team of Iowa State College, and captained the team during the last season. He has specialized in breast and back strokes and has been high point winner for the seasons of both 1926 and 1927. Two major letters were awarded him for outstanding work on the team.

Mrs. J. Pierce and daughters, Betty J. and Peggy, Miss Myrtle Tennent, all of Bartlettville, Oklahoma and Mrs. Elizabeth Pierce of Columbus, Kansas, are here for a visit in the home of Mrs. F. C. Whipple. Mr. Pierce of Bartlettville is expected to arrive here a few days later in the week.

Snyder—Plans are shaping up rapidly for the third annual WTCC motorcade to leave here August 6. Floydada—Floydada building permits for the first half of 1928 total a little over \$169,000.

San Saba—B. M. Whiteaker of the agricultural department representing the WTCC at the pecan convention here the week of July 9.

Cleburne—Activities of the local chamber of commerce reviewed by Secretary Patterson show a large number of worthy civic projects.

Big Spring—Publicity Manager E. H. Whitehead of the WTCC was one of the speakers at the West Texas Press Association here July 13-14.

Baird—Baird will have a new \$34,955.20 public school as result of a recent bond issue.

Spar—Central West Texas citizens will convene here July 23 for the annual business session of the T. T. T. highway body.

KNOW TEXAS
The number of orange trees in Texas increased in five years from 55,000 to 190,000 and grapefruit from 79,000 to 1,650,000.

Texas has an annual registration of about 1,000,000 motor vehicles. The state offers a great market for the automotive industry.

Texas produces about seven per cent of the total raw materials of the United States and manufactures 1.6 per cent, valued at a billion dollars per year.

Syrup manufacture in Texas has increased to a value of \$4,000,000 annually. There is a market for five times this amount.

Mrs. J. L. Carneal of Roy, New Mexico, who has been visiting in the John Watts home left the early part of the week for Hockley, accompanied by Mrs. John Watts and daughter, Miss Ola Mae.

Mrs. Watts will visit her parents, returning about July 26. They made the trip down by auto, over 360 miles in one day.

Misses Florence Fink, Davilla Kelly and Elgin Patrick entertained the Old Maids with a three course progressive dinner party Tuesday evening at 7:15 o'clock. The first course was served by Miss Fink; the second by Miss Kelly; and the third by Miss Patrick, in their respective homes. Nine girls were present: Misses Wylfa Lee and Lois Alexander, Betty Walker, Dorothy McCann, Julia Mae Caraway, Gwyn Youngblood and the hostesses, Florence Fink, Davilla Kelly and Elgin Patrick.

Mrs. Edgar Johnson of Pampa and Mrs. Fred Johnson of Clarendon visited in the Longan home Friday afternoon.

Mr. and Mrs. Longan visited in the Robertson home Sunday afternoon.

Mr. and Mrs. Beach and family spent Sunday with Mr. and Mrs. Robertson.

Mr. and Mrs. Zeb Morris and family spent Sunday in the Potter home.

Dinner guests in the Clayton home Sunday were: Mr. and Mrs. H. S. Mahaffey, Mr. and Mrs. Otis Naylor, George Spann, Aubrey and Haskin Posey.

Jim and Hal Riley spent Sunday with Charles and Harley Longan.

Haskin and Aubrey Posey spent Saturday night with Mr. and Mrs. H. S. Mahaffey.

Mrs. Willie Goldston and Mrs. Lenode Goldston of Clarendon visited Mrs. John Goldston Monday afternoon.

Mr. and Mrs. Marvin Thompson and Miss Eva Glen of Wellington spent Sunday in the J. A. Meaders home.

Miss Oma Morris visited Henrietta Longan Sunday afternoon.

Mrs. Zeb Morris spent several days last week with her sister, Mrs. Taylor, whose small child was real sick but is much better.

Master Fred Johnson of Pampa spent Wednesday night with the little Longan boys.

Mrs. Longan visited Mrs. Lanham Tuesday afternoon.

There are six candidates in the race for United States Senator. The line of difference between Alvin Owsley and the other five, is clearly drawn.

Owsley is the only candidate that was and is for Governor Smith, the democratic nominee. He declared openly for Governor Smith months ago when it took real courage to face the fanaticism that was sweeping over the country and still has to be faced and fought in this campaign.

Owsley is the only candidate that demands equal chance for the farmer by direct government control, without red tape or delay, the same as now given to the banker, the merchant and the manufacturer. All the other candidates either proposed no relief, or they favor some board or bureau that would squander all the money before the farmer would get any of it. Most of the other candidates have been in Congress for years and they have never proposed any relief or consideration for the farmer.

Owsley is a prohibitionist by precept and practice. In the same time he is opposed to the private home and premises of the citizen being searched and taken always to do anything or that is suspected that somebody might have a little home brew on hand for home consumption. For reason Owsley stands with Governor Smith in favoring a change in the present liquor laws so as to treat about a days' sale, sane and fair enforcement of the law.

All the other candidates want to continue the present deplorable condition of prohibition enforcement and if they were sent to the Senate they would be out of harmony with the voters who are president, and for the same reason they could do no service to the people of Texas.

Owsley demands that gambling in cotton and grain futures be stopped by law. He says all gambling looks alike to him and that offerings to sell cotton that does not exist can have but one effect and that is to beat down the price of cotton which does exist. To bring about this relief, Owsley wants to pass a law with heavy penalties to stop future gambling by cotton exchanges.

All the other candidates only want to regulate cotton exchanges and permit them to stay open and speculate in the price of farm products in the production of which they have no part.

The other candidates were not there and most of them were enjoying lives of luxury as members of Congress, they were safe from the shot and shell of battle.

Owsley is just forty years old in the prime of life and mentally and physically vigorous, capable and active. All the other candidates have had their opportunity for service and have not produced results. They are now too far advanced in years to expect much from the voters.

Texas needs new blood and a new Senator from Texas, that is in harmony with the democratic president, soon to be elected. Let "Al and Al" be the slogan.

For these reasons based upon these facts, the voter is asked to consider the candidacy of Alvin Owsley to be decided at the Democratic primary on the 28th.

Slaton—A \$40,000 gin is to be erected here, to have a daily capacity of 100 bales.

Have You Found Complete Relief? Nervousness, Stomach Trouble, Brown, Rough or Irritated Skin, Loss of Weight, Weakness, Peculiar Swarming of the Head, Burning Sensations, Constipation, Diarrhoea, Mucous in the Throat, Crazy Feelings or Aching Bones.

HOME FURNISHINGS TO BE GIVEN TIME IN COURSE

College Station, Texas, July 14:—Home improvement topics will feature the program for women at the nineteenth annual Farmers Short Course to be held at the A. & M. College of Texas July 30 to August 4, numerous specialists being scheduled to discuss various phases of home beautification from improvement of the yard to accessories in furnishing and decoration.

That part of the program to be devoted to the improved living room contest is expected to hold especial significance and interest. This contest was conducted during the past year by the Extension Service and the Semi-Weekly Farm News, of Dallas, and district winners will outline to the hundreds of Texas women in attendance how a little labor and money transformed scores of ordinary rooms into attractive living rooms.

This program will be presented Wednesday morning, August 1, and will reach its climax with the announcement of the state winners and the awarding of prizes. DeWitt McMurray, editor of the Semi-Weekly Farm News, will present the prizes.

Among the home improvement subjects to be discussed are: The Yard Beautiful, by Fred W. Westcott; Accessories in Furnishings and Decoration, by Miss Mary Starr Taylor; The Improvement of the Home, by Mrs. O. B. Martin; and Lighting the Farm Home, by Miss Alice Schuetz.

Among the general topics selected this year for special emphasis to the men are cotton, poultry, fruit raising, dairying and livestock. The cotton program is an unusually extensive one, covering such points as production of pure seed, disease control, cotton in crop rotations, modern harvesting methods, classing and marketing.

College authorities feel ample accommodations will be available for as large a crowd as attends, though it has been urged that room reservations be made in advance through county and home demonstration agents.

Charters in June show big increase over May. Fewer companies were granted charters in June than in the two preceding months, but capitalization was considerably larger.

Berward Nichols, assistant in charge of index numbers at the University of Texas, has announced. During the past month, 205 firms capitalized at \$102,997,000 received charters from the Secretary of State. There were 218 companies chartered in May and 245 in April.

W. W. P. Cagle, as President, and J. D. Swift, as Cashier of said bank, each of us, do solemnly swear that the above statement is true to the best of our knowledge and belief.

AIRBANKS-MORSE STEEL ECLIPSE WINDMILL

The windmill with the drop forged crankshaft

That's one of the many reasons why the Fairbanks-Morse Steel Eclipse Windmill has become a leader. The crankshaft is drop forged, accurately machined and ground—made like the finest engine crankshafts.

And again, instead of cast tooth gears you find accurately machined gears. Instead of ordinary shafting and bearings you find turned, ground and polished bearing surfaces that eliminate vibration. The entire equipment is all metal. Working parts are completely enclosed. The self-oiling feature has done away with poor lubrication, the old cause of wear and trouble.

Let us show you the windmill that has fewer parts and better—the windmill that is built like a good engine—the windmill that starts sooner and pumps longer.

WATSON and ANTROBUS CLARENDON, TEXAS

Ozona—The Ozona Cattle Show, held recently, attracted many entries.

BABE RUTH ON CUSSIN'

"Babe" Ruth is the hero of American Boydom. To them he is king of the Empire of "Swat." More boys would rather be the "Babe" than to be President.

Babe is a boy lover, and recently made a plea for them that all boy lovers should heed. Here is what he said:

"I've got a bone to pick with a lot of fans. There's entirely too much cursing from the bleachers at ball games. Out there in the bleachers is where the kids sit to watch their games—they hear some big fellow swearing, and they think it's smart to do the same thing—it's all old stuff to me, but the things that are shouted from the bleachers make me blush for the fellows who yell them. A woman don't care to go out on the bleachers the way things are now. I've got a hunch that if most of the fellows who do cursing knew how it sounded, or stopped to realize what it meant, they'd cut it out. It isn't fair to the kids who like their baseball games and who have just the price of a bleacher seat."

Vile language is the lowest form of intellectual vacuity. It verges on the line of being almost non-intellectual, in fact, the less one reflects, the more he can vituperate. Just think of it and see how anyone can poison the well-springs of a boy's thought, by obscenity and profanity. The breath of our life is the most precious of God's gifts. It is as villainous as it is silly and sinful to pollute the breath of life.

I have friends who "cut loose," as they say, when angry. In other words, when they are strongly provoked they grow weak. They excuse it on the grounds of habit. We do not think how obscenity and profanity sound or we would never be guilty of such things.

I'm thinking of the host of farm boys whose ears and hearts need protection. A boy wants to be a man. He naturally imitates the men who appeal to his sense of hero-worship. Most boys would never form the habit of profanity unless thoughtless and wicked men taught it to them.

My boyhood days were those of the average boy on a farm. In my memory today, there are vivid and red vile spots of things that were taught me by dirty-minded men. As long as I live, those things will now and then come to the surface in my thought.

One bright, guiding light shone through it all. That was the pure clean speech, and thoughts of my Christian father. I say, "Blessed is the boy whose father keeps his speech clean and decent."

Men and women, we are placed here, not to be angels, nor to wear halos; but we can through God's help, be cleanhearted, big minded, and pure-worded.—J. W. Holland in Progressive Farmer.

of Denver, I would prefer to be back in Clarendon, which has proved the only real home for me. Kindly accept my sincere greetings, and convey the same to all my friends.
Edward Peltzel, Sr.

BULL CIRCLES ARE URGED FOR DONLEY

BEST POSSIBLE METHOD FOR RAISING QUALITY OF HERD IS GIVEN

East Texas is about drained dry of good grade Jersey dairy cattle. Western buyers have gone in there and purchased about all there is to be sold. Therefore we've got to look elsewhere for our stock. Suppose you went to East Texas to buy Jerseys. You could not buy the best unless the farmer was selling out his herd. This is not likely as he would not sell something that was making him money. Then he will sell only the culls of his herd keeping the best for his own use. However, these culls may be better than the cows you have in your herd.

However, the best way to build up a good dairy herd is with a good sire. If you have good grade cows in your herd, you can double your production in the next five years without adding to the number of cows that you milk. This is how it is done:

Buy a sire that comes from a mother that produced 600 or more pounds of butterfat. Then mate that sire to a cow of your herd that produces about 250 pounds of butterfat. A 250 pound cow is the average that is to be found on the farms of Texas because they are a little better than the average is the reason they have been selected for milking.

When this sire is mated to the 250 pound cow, the cow pulls for 250 pounds in the offspring and the sire pulls for 600 pounds. The pull of the sire is greater than that of the cow because he is backed by generations of good breeding. Let us suppose then that we get a calf with a productivity of 400 pounds, which is really less than we might expect.

That calf is almost double the productivity of the mother and therefore we have built up our herd considerably. Again mate that calf at maturity to another bull from a 600 pound mother and you get an offspring that will go above the 500 mark. Then you have in the third generation, double the production of the mother that started your dairy herd. And it costs you no more to feed the cow that produces double the milk, than it did to feed the first one.

Then, it can be readily seen that the first mating of a pure-bred Jersey bull to any ordinary grade cow, will produce a half Jersey offspring. The second mating will give a three-fourths Jersey and the third mating will give a seven-eighths Jersey. The pure Jersey cow and you will have built up a Jersey herd through this method.

Now, the thing for the farmers of the Clarendon district to do is to build up their herds through the use of good sires. The best way to do this is through the formation of bull circles. In this way the farmer gets the benefit of a good bull without the full cost of the animal.

This is the way it is done: A bull circle is organized with four blocks in it. Each block consists of four farmers who put up a certain amount of money, say \$100, each. This \$400 will buy a fine Jersey sire. Each block of four farmers each will purchase a bull. The block uses the bull for two years, which is the useful life of that animal to that one block, and then trades him with another block. At the end of another two year period, the trade is again made, giving the farmer member of one block, the use of a good sire for six years. Then if other circles are in existence, the circles can trade sires and the practice kept up for future years. Now, each farmer member of the block will keep the bull for three months of the year. The only cost he is out is the upkeep for the three months. That will not amount to more than the good he gets from the service of the animal. On the other hand, during that three months he gets the \$5 service charge for the bull to customers from within the bull circle. He may easily make his money back, for, in the course of the six years that he keeps the bull he keeps the animal for 18 months in all. And twenty services at \$5 each will get him his \$100 back and would require only a little better than one service per month on the average.

merce and the Clarendon News are anxious to see some of these bull circles organized here. H. D. Cuykendall, field representative for a group of cotton oil mills and the Gate City Creamery, has been asked to come up to Clarendon next fall and help put over one or more bull circles for this section.

SECOND MOTORCADE TO START IN SNYDER AUGUST 6

Many factors have entered into the second Motorcade staged by the West Texas Chamber of Commerce, in which the Primary elections play an important part. The trip will not be started until August 6th, and will probably end at Junction following August 14th. The members of the party have an option of continuing their trip from this place if they so desire.

TO HOLDERS OF Third Liberty Loan Bonds

The Treasury offers a new 3 1/2 per cent. 12-15 year Treasury bond in exchange for Third Liberty Loan Bonds. The new bonds will bear interest from July 16, 1928. Interest on Third Liberty Loan Bonds surrendered for exchange will be paid in full to September 15, 1928. Holders should consult their banks at once for further details of this offering. Third Liberty Loan Bonds mature on September 15, 1928, and will cease to bear interest on that date. A. W. MELLON, Secretary of the Treasury. Washington, July 5, 1928.

The second regional convention will be attended at Fort Davis where the party will have an opportunity to see many of the scenic beauties of the Davis mountains. The Devil's River will be the scene of the encampment of the motorcade the night of August 10th with many historic spots to be visited during that day.

PERFECTION ACCOMPLISHED BE CERTAIN

You are getting the satisfaction possible in your permanent wave. We can set your wave by any of four methods, all of which have been found to be the very best to be found. With the permanent wave season at hand, you should make your appointment now and be assured you will not be disappointed when you need the wave. Whitlock's Barber Shop Phone 516

boy Band will also be included in the group. The personnel of the party is to be limited to 150 members including the band. Col. R. L. Penick of Stamford will have charge of the feeding of the motorcade, having provided a "Chuck Box" that will care for the needs of the entire body. Homer D. Wade will personally have charge of the trip, and all arrangements pursuant to carrying out the plans in mind should be made with him at the offices of the West Texas Chamber of Commerce in Stamford. Littlefield—Baby chick raising in the Littlefield territory has added considerable returnable wealth to this vicinity. Pampa—The Pampa fair will be revived this year and will be in session three days from October 11 to 13.

DUSTY TAYLOR REMOVES TO FORT COLLINS, COLORADO

Mr. and Mrs. A. M. Taylor left Clarendon Tuesday of this week for Fort Collins, Colorado, where they plan to make their home in the future. Mr. Taylor has purchased a business in that city and will have a retail and wholesale paint and paper business in connection with the usual line of painting and decorating that he will follow. He states that he is burning no bridges behind him and that he may return to Clarendon at any time.

Henry Hunt, tent man for the Starnes Revival arrived in Clarendon Wednesday noon with the tent for the evangelistic party. He was accompanied by his wife.

Misses Ruby and Vera Speed left the middle of the week for Weatherford, Oklahoma, on a visit. Miss Ruby will enroll in the Southwestern State Teacher's College there, for the fall term of school. Miss Vera will visit in Clinton, and later attend the West Oklahoma Epworth League Conference at Turner Falls.

BENJAMIN A. RUFFIN

Benjamin A. Ruffin was elected President of the International Association of Lions Clubs at the last session of the twelfth annual convention of the Association, held in Des Moines, Iowa, July 10-13, 1928. Mr. Ruffin was born and raised in Richmond, Virginia, which has always been his home. The new President of Lions International is engaged in the general insurance business and is a partner of one of the leading firms of architects of the city, and also a director of many other companies. He is the author of various insurance papers and insurance forms which have been adopted by the American Bankers Association and has spoken before many bankers conventions in various states.

Mr. Ruffin has been associated with Lions International for a number of years, and due to his pleasing personality and eloquent oratorical power he has been constantly in demand as a speaker at district conventions, charter nights and everywhere Lions have gathered.

HAVE THE BEST — AND THEN EXHIBIT IT

With our county fair approaching the necessity for the backing of the citizens of the county is becoming greater and greater, for a fair without the support of the people is like an egg without salt. The dates for the fair have been set as October 5 and 6; and although it is more than two months until the fair the cooperation of the farmers and the business men of this county are needed now and until the fair closes the night of October 6.

The News feels that the following article with regard to fairs would be hard to beat and so quotes it from "The Progressive Farmer":

"Every farmer should strive to have something that is the best of its kind in the county or community. It may be the finest Percheron, Jersey, Shorthorn, Duroc, Merino, or farm animal of any other breed; the finest mule, the best silo; the best terraced hillside; the finest patch of alfalfa; the prettiest home; the most beautiful flowering shrubs or shade trees; the most fruitful orchard; the best soybeans; the prettiest pasture or meadow. Or he may content himself with producing the earliest cotton bale each year, the finest butter, the most uniform sweet potatoes, the highest scoring seed corn, or the finest bird dogs."

"It doesn't matter so much which of your products is the best, provided only that you have the ambition to have the best of something. For the desire to have the very best of any one thing will inevitably breed in you the qualities that will give you greater success in all other lines of effort. The next thing we wish to urge is this: Having made up your mind to have the best of something, arrange to exhibit it at your state, district, county, or local fair next fall. The decision to exhibit the product will help you. It will help you because it will make you more careful and persistent and thoroughgoing in your struggle for the highest perfection. You will learn more about the best methods. And you will practice more of the best methods you already know. You will also find more zest and eagerness in doing your work."

"Moreover making an exhibit will help other people. Finding that you have attained a high standard of progress or achievement will inspire others to do likewise. Now is the time to ask for catalogs of your state and county fairs. Every progressive community also needs a community fair. If your community is progressive and has not yet made plans for a community fair, why not consult your county farm and home demonstration agent and agricultural teachers and see if one cannot now be decided on and a premium list announced this spring? Then decide just what state, county, and local prizes you will try for next fall—also which prize mother and the boys and girls will try for."

"The whole year will be happier if each member of the family decides now to do his level best with some crop or animal or some form of household production and exhibit the results at some fair next fall. If a prize is won this year, good and well. If not, the knowledge gained and the progress made will alone be worth all the effort, and this will help capture prizes and blue ribbons in later years."—The Progressive Farmer.

Miss Georgia Belle Gibbens of Uvalde, who has been a guest in the homes of Mr. and Mrs. M. M. Noble and of Mr. and Mrs. W. M. Lewright of Pampa left overland Monday morning with Mrs. Noble and Peggy Jean Noble for Colorado, where they will spend the remainder of the summer. Mrs. Lewright expects to join them later.

SHAMROCK LOSES GOLF TILT HERE

HILLCROFTERS TAKE TWELVE OF SIXTEEN MATCHES IN SUNDAY PLAY HERE

Playing in conditions that were almost ideal for the game, the members of the Hillcroft Golf Club took twelve of sixteen matches Sunday afternoon on the local course. Walter Wilson of the Clarendon team took the low score prize for the day, turning in a total number of 75 strokes for the two rounds. Archie Hallmark of the Shamrock delegation took the greatest number of strokes, turning in a score of 103. Two matches were closed out at the fourteenth hole for a win by the Clarendon players. The others were all played to a conclusion.

Matches won by the Shamrock players are: Bill Gray won from Phillip Gentler 5 up; Sherwood beat Dr. Stricklin 3 up; Clyde Douglas lost to Fred Staggs 3 up; and C. Staggs won from Van Kent 2 up. The other scores follow. Clarendon players listed first: W. A. Wilson, O. T. Nickelson, 3 up; A. N. Wood, C. Hoffman, 3 up; H. Kennedy, H. Benson, 5 up; Lee Casey, Bill Walker, 4 up; B. Kerlow, Hartell, 7 up; Al Cooke, Woodley, one up; Tom Connally, Archie Hallmark, 6 up; G. L. Boykin, Morris, 7 up; Kenny Lane, Scott, 10 up and 4 to play; Selden Bagby, Kramer, 6 up and 4 to play; Homer Parsons, Rooke, 5 up; Fred Buntin, Cox, 3 up.

Other matches are planned for the near future with other clubs in the immediate vicinity in the Panhandle. Pampa was invited here some time past but their visit was prevented by the rain which fell on the day they were scheduled to be in the city. Interest is running high in the game in Clarendon and the local players are keeping themselves well in touch with the game at all times.

HERE'S A HOT ONE

When Theodore M. Pyle forgot to bring in the eggs Tuesday evening of this week, he thought nothing of the consequences and carried them to the house Wednesday morning instead. Mrs. Pyle baking cake Wednesday morning thought to use the fresh eggs brought to the house earlier in the day. On opening the first of the hen fruit she was surprised to find it baked to the consistency of an egg that had been boiled long and hard. Two others opened in quick succession were found to have the whites congealed to the consistency of the famed three minute egg.

LUBBOCK FAIR NAMED THE SHOW WINDOW OF PLAINS

Officials of the Panhandle South Plains Fair are busy getting ready for the annual exposition which will be held in Lubbock, October 1, 2, 3, 4, 5, and 6. The exposition which has become known as the "Show Window of the Plains" will be the biggest this year of any exposition ever held on the Plains.

The fair was increased to a five day exposition last year and this year has been let out to a six day show. Agricultural and live stock exhibits last year rivaled the best regional fairs in the Southwest and assurance has been given that practically all the exhibitors will be back this fall with many others. Fireworks, free attractions, and other entertaining features will compare with the best offered by a Texas fair.

The association is making improvements that will benefit the annual exposition. Additions to the attractions and increase in exhibits will draw a better crowd. Last year's attendance ran over 100,000 and this year with an extra day and better features, the crowds are expected to be substantially increased.

FARM WAGES LOWER IN 1928

Wages of all classes of farm labor are below a year ago, the index of the general level of farm wages on July 1 this year being placed at 170 per cent of the pre-war level as compared with 172 per cent in July last year by the Bureau of Agricultural Economics, United States Department of Agriculture. The lower level of farm wages, says the bureau, is probably due to the larger supply of farm labor available this year. Supply expressed as per cent of demand is 105 for July 1 as compared with 100 a year ago. The larger supply in turn, the bureau adds, is probably explained by the much lower volume of industrial employment which has prevailed during the first six months of 1928, thus releasing more labor for the farms.

ICE CREAM SUPPER

All candidates of Donley County and their friends are urged to attend the Ice Cream Supper Friday evening of this week at the Lelia Lake Camp Ground. The supper is being given by the Girls Club of Lelia Lake and the proceeds will be used to defray expenses of their representatives to the Short Course. Everyone is invited. (28c.)

Miss Ruth Stocking left Sunday evening for Denver, Colorado where she will spend the next month.

SAVE ROAD FUNDS BY RESURFACING

NEW YORK RECOVERS 77 PER CENT OF ORIGINAL VALUE OF OLD PAVEMENT

The wisdom of constructing roads of long lasting materials with a high salvage value was recently brought to light by the New York State Highway Department which saved 77 per cent of the original cost of an old thin, concrete pavement. A thin concrete pavement 14 feet wide was laid in Seneca county 14 years ago. The stress of modern traffic made it necessary to widen this old pavement to 18 feet and also to thicken the strip from four and a half inches to nine inches. By placing the new concrete over the old nearly 2,000 cubic yards of concrete were saved. At the cost of \$13.71 per cubic yard the total saving amounted to \$26,800, or approximately 77 per cent of the original cost of the thin and narrow concrete.

Highway authorities point out that when roadways have a salvage value such as this it is all the more imperative that paving programs be extended so that maintenance costs and car costs will be cut to rock bottom. This Fulton-Oswego road lost but 23 per cent of its value in 14 years.

Another striking instance of the high salvage value of good pavements is found in Wayne County, Michigan, near Detroit. Gratiot Road was designed before the era of heavy traffic; when the increase came this highway deteriorated so that resurfacing was necessary. Accordingly in 1917 a four inch layer of concrete was placed over the old surface. All depressions and deep holes in the pavement were filled with this new concrete and an even surface was obtained.

Resurfacing completed, the pavement was then widened to 20 feet by constructing a two foot wide shoulder on each side. Later traffic became so heavy that another ten-foot strip of concrete was added. The success of the whole project may be visualized when it is considered that this 30-foot pavement now carries approximately 20,000 motor vehicles daily. The problem of resurfacing affects practically every community that is blessed with old pavements not especially designed for modern travel. True economy today exists in taking advantage of these old pavements as stable bases for resurfacing, in extending needed new pavements over earth thoroughfares.
