Adair Hospital Secured For County Use

COUNTY LEASES ADAIR HOSPITAL

COMMISSIONERS COURT WILL TAKE OVER ADAIR HOSPITAL ABOUT JULY 1ST.

Without a bond issue and without the levying of a special tax Donley County will have a standard county hospital on or about July 1st, according to an agreement reached between the commissioners court and the board of trustees which hold in trust the Adair Hospital of this city, which was announced at County Judge Alexander's office the fore part of this week.

This acquisition of a county hospital by the citizenship of Donley County is the culmination of negotiations begun several months ago between county officials and the board of trustees of the institution which has not been in operation for several months past. At first it was thought that at least a small tax levy would be necessary to carry the cost of the hospital, but on investigation it was found that the county was out quite a sum of money each year for the care of its charity cases, so it was finally discovered that with a very small sum from the general fund of the county the hospital could be acquired and operated on the very liberal terms offered by the Adair trustees.

The hospital is being renovated and refurbished throughout by the trustees and at no cost to the county, and when completed will be turned over to the operating board of five which will be named at a near date by the commissioners court, as provided by the state law.

Citizens from all parts of the county are jubilant over this arrangement which gives Donley County a hospital without a bond issue or a tax levy and the members of the commissioners court are receiving congratulations on their providing such service to the county. Many Texas counties have voted \$50,000 to \$250,000 in bonds to build and equip a hospital, then the cost of operating is still to be met.

It is generally understood that the institution is leased to the county for a long period of years at a nominal sum of \$10 per year. It is turned over to the county in first-class condition as to building and equipment, and from the experience of the past will probably be self-sustaining after the first year's operation.

The board to be appointed by the court will consist of three citizens of Donley County, not connected with the medical profession, a doctor and a registered nurse. This board will be named and announced soon.

VALUATIONS ARE UP FOR SCHOOLS

EQUALIZATION BOARD TO MEET TAXPAYERS JUNE 6TH AND 7TH.

Renditions on the property of the Clarendon Independent School District were completed a short time past and the findings were turned to the Board of Equalization, which completed its task the fore part of this week. Their findings have been tabulated and raises were found in some 350 cases among the taxpayers of the district. The Board has signified their intention of meeting in the Directors' room of the Donley County State Bank on June 6th and 7th for the purpose of hearing the pleas of those whose valuations have been raised over the figures given to the assessor.

The total valuation given the assessor was better than it has been to this date, the taxpayers evidently feeling that their property had increased in value over the past year. The original figures amounted to \$3,904,000 and these were raised to \$4,322,372.00 by the equalization board. The last named figure is that amount which is needed in order to carry the schools of the city for the coming term.

The equalization Board for this year is composed of Messrs. F. L. Bourland, H. J. Edington and Henry Williams.

MARINE OIL TEST 2,300 FEET DEEP

LATE REPORTS INDICATE THAT EVERYTHING IS MOVING NICELY.

Mr. Smith of Smith & Downey, drilling contractors for the Marine Oil test, stated this morning that the progress of the test well was satisfactory in every respect. A little trouble was encountered when they lost a drill bit. They are today making arrangements for an attempt to remove this from the hole and if this is not accomplished, they will sidetrack the bit and go ahead as if nothing had happened.

Mr. Smith stated that they had encountered no water since they completed setting their ten inch casing some time past. A new string of casing, eight inches in size, has been ordered and will possibly be set around the 2,500 foot level in the well, this closing up a gap of some seven hundred feet of open hole that might cause trouble if left unprotected.

At the present depth of 2,300 feet they are drilling in a gray lime and are making satisfactory progress in the work. A ten inch hole is being made, which will easily accommodate the eight inch line when it arrives on the location. There is nothing of a startling nature to report in connection with the well, the backers of the proposition not looking for anything before 2,500 feet or deeper.

CLARENDON BOY IS WINNER OF MEDITERRANEAN TOUR

Friends of Stanley Miller of this city will be glad to learn that he won the honor of the Mediterranean cruise in the U. S. Academy at Annapolis. A good part of the summer will be spent on this cruise, following which he will visit in Clarendon for a few weeks before the opening of the fall term of school. The cruise will touch at Gibraltar and such other points of interest as may be found in a trip of this nature.

Mr. and Mrs. Carl Parsons and baby visited in Amarillo Sunday.

BOOK SHOWER NETS OVER 100 VOLUMES

RESPONSE MEETS WITH APPROVAL FROM ALL LADIES OF CITY.

The book shower and silver tea that was held last Saturday afternoon in the club room in the City Hall met with an excellent response from the people of the city, netting the library the neat sum of \$12.35 in cash and well over a hundred volumes of books to be placed in the library.

Books were received in a great variety of titles and will be found to include almost all classes of reading matter from the very heaviest to the lightest possible matter of this sort. A complete list of the books may be found in another section of the News.

Those instrumental in helping this drive with books will be found as follows: Mrs. F. E. Chamberlain, Mrs. W. B. Sims, Mrs. Eva Draffen, Mrs. W. L. Crane, Mrs. H. T. Burton, Miss Lorena Steagall, Mrs. J. O. Thompson, Fannie Florence Sims, Nettie Sims, Mrs. John Clark, Mrs. B. L. Jenkins, Mrs. Sam M. Braswell, Mrs. M. M. Noble, Mrs. U. J. Boston, Mrs. C. A. Burton, Mrs. Frank Bourland, Mrs. R. A. Chamberlain, Mrs. J. T. Sims, Mrs. Lester Boykin, Floyd Spitzer, Mrs. Joe Goldston, Marjorie McKillop, Mrs. J. R. Porter, Scott Reneau, Bill Rutherford, Mrs. Arthur Letts, Mrs. J. T. Patman, Mrs. G. G. Kemp, Dorothy Watson, Mrs. J. D. Stocking, Mrs. J. R. Leathers, Mrs. A. L. Chase, Mrs. D. W. Clappitt and Mrs. Jeffries. In addition to the great lot of books received, many brought complete files of magazines that will prove to be equally acceptable as the books.

Mrs. J. H. Hendrick and two sons, James and Billie, left Saturday morning for Fort Worth, where they will make an extended visit with Mrs. Hendrick's sister.

Donley's Sheriff Is Complimented

In a recent conference with the federal prohibition enforcement officer at Amarillo, Sheriff M. W. Moseley was the recipient of quite a compliment for his efforts in Donley County in holding to the minimum the traffic of illicit liquor.

Donley County, according to the federal officer, is one of the best if not the best county in the Panhandle, when it comes to the observance of the eighteenth amendment to the constitution, and a large part of the credit goes to the sheriff and his deputies in this respect, by reason of their conscientious and earnest efforts to maintain law and order.

Sheriff Moseley expressed himself as very thankful for the splendid co-operation accorded him by the citizenship at large, and declared that much of the success in his work in this county lies in the high moral and intellectual citizenship found in Donley County.

FREE VAUDEVILLE HERE SATURDAY

COMPANY BROUGHT HERE BY SIMS MOTOR CO. TO PRESENT PROGRAM.

Elsewhere in this issue there will be found the announcement of the appearance of a vaudeville show in the city on Saturday evening of this week. The show is being brought here by the Sims Motor Company of this city and the Harman Motor Company of Amarillo. The show will be presented in front of the Sims Motor Company building at the intersection of Sully and First Streets.

A high class vaudeville act will be presented in addition to the showing of the models of the Oakland and Pontiac automobiles that will also be held in conjunction with the entertainment features presented. Singing, dancing, skits of one sort and another will provide an evening of entertainment and the public is cordially invited to attend and see that the show goes over in the best possible manner. Popular piano players from the city of Amarillo will appear on the program with the Harman orchestra of that city as one of the headliners of the occasion. The vaudeville troop presenting the program has been secured from Oklahoma City and has appeared in Amarillo this week.

Following the close of the program on the street, the orchestra will play a dance in the opera house to which the public is also cordially invited. There will be no admission charged for either event.

LAUNDRY PAYROLL IS ONE OF CITY'S BEST ASSETS

Little as one might think of it, the Clarendon Steam Laundry furnishes a livelihood for more people in this city than any one other business in the town. Aside from the owners and the drivers of the trucks for the laundry, fourteen people are continually employed in this place of business. Another thing that may have escaped the minds of the people of the city is the fact that this business brings into Clarendon a sum of more than \$2,500 monthly that is spent here. This sum amounts to more than this part of the time but rarely if ever falls below the figure mentioned here. This is spent largely in the hiring of the help in the laundry and in paying for the drivers of the two trucks that operate out of the city. One of these makes the Panhandle run and the other serves the Quitaque trade territory. Mr. Wilson is proud of the work that is being turned out by this establishment and is more than pleased to have visitors to his place of business at any time.

Mr. and Mrs. H. C. Tims and family of Ashtola left Thursday for a month's vacation. They will visit Mrs. Tims' father, J. C. Marsalis, at Silsbee, Texas, and will also make stops at Dalhart, Tucuman, N. M., San Antonio, Houston, Palestine, Beaumont, and Alexandria, La.

COMMITTEE AFTER MEMBERSHIP FEES

HILLCROFTERS PAYING IN MONEY FOR NEW CLUB HOUSE.

Members of the expanded Hillcroft Golf Club, are this week paying in their money and completing details of membership according to authority granted to the committee in charge Monday evening at the called meeting of the club at the Queen Theatre.

Reporting for the committee Phillip Gentry showed a bonafide list of new members to the number of sixty-six with certain prospects for two or three more, just a few short of the goal of seventy-five originally set. The committee recommended that the organization plans be completed as it seemed probable that the other memberships would be taken promptly when it was known that the purchase and building plans were assured. After discussion it was the unanimous verdict of the membership present that the organization proceed.

The original committee for the new membership composed of J. T. Patman, Phillip Gentry and Holman Kennedy asked for three additional members that the final details of closing might be hurried, so on motion the chairman appointed Bennett Kerbow, Wesley Knopp and Walter Wilson as an auxiliary committee.

Next Monday evening, May 27, at the Queen Theatre, was set as the time and place of the next meeting of the club to review the report of the committee and authorization of a finance plan to be submitted to certain sources proposing to finance the project. Members are paying at least \$50 down and making notes for the \$200 balance. Some are paying all cash down, while others are making quarterly payments and still others are availing themselves of the monthly plan.

Pending the final report of the membership committee the new board of directors was not elected Monday night, but will probably be elected at the next meeting. The new board, will in turn, elect the president, secretary and treasurer.

Chairman Patman of the tournament committee announced a report beginning Tuesday and closing Sunday, June 1st, of all Hillcroft members to select the team to be entered at the Green Belt Meet at Vernon on June 10th. The tournament here will be for eighteen holes and all players are to call at Mr. Patman's office for official score cards.

Miss Mamie Woods left for San Angelo Sunday morning for a visit with friends.

EASTERN STAR NAMES OFFICERS

INSTALLATION CEREMONY TO BE HELD ON EVENING OF JUNE 6TH.

The Eastern Star of Clarendon, chapter number 6, met in regular session last week and named their officers for the coming twelve months. The officials will be regularly installed in the meeting on Thursday, June 6th, at the first meeting in that month.

Mrs. Vivian Kerbow was elected Worthy Matron; W. P. Cagle was elected to the position of Worthy Patron; Mrs. Eva Rhode will serve as Assistant Worthy Matron; Alan R. Kennedy will hold the position of Assistant Worthy Patron. Mrs. Maggie J. Weatherly was returned to the position of Secretary and Mrs. Claudia Z. Patterson will serve the organization in the capacity of Treasurer. Mrs. Eunice Buntin will serve as Conductress and Mrs. Bess Reed was chosen as assistant to the Conductress.

The appointive officers will be named in the near future and will be announced following the installation of officers for the current year.

Scout School Is Showing Growth

Men interested in the Boy Scout movement in Clarendon are showing their interest in the work that is being presented here each Tuesday evening in the Parish House of the Episcopal church. Six men were present Tuesday of this week in the program which included knot tying and such other topics that are found in the life of the newer Boy Scout when he enters the ranks. The instructor of this work is I. E. Jolly, Scout Executive for the Southeast Panhandle Council and according to all accounts, he is making it right interesting to those who are attending the meetings.

The programs are held Tuesday evenings of each week and last no longer than one and one-half hours. All men who are interested in Boy Scout work are urged to attend the meetings and take some part in them. There will probably be two or three more of them before the final graduation exercises are held, promoting the men in the school to a rank equal to that of a second class scout.

WORK UNDER WAY ON NEW CHURCH

EXCAVATION OF BASEMENT FOR NEW BUILDING TO BE COMPLETED SOON.

The work of excavating the basement for the new Presbyterian church is progressing at a nice rate of speed and this part of the task will be completed and ready for the work of the concrete men in the very near future. When this part of the work has been completed, the material will be placed on the ground and the actual construction will be started. In the last issue of the News, statement was made that the cost of the building would amount to about \$16,000.00. In this statement we took the original figures made by officers of this church and did not consider the furnishings or the two buildings that stood on the old and new sites of the church, the cost will mount to the neighborhood of \$22,500.00 before the building is all completed.

Barring further delays caused by weather conditions, the work on the church will be completed by the dates set and all plans will be ready for the dedication in the early fall.

HOKUS POKUS GROCERY IS SOLD TO ARMSTRONG FIRM

A combination of two stocks of groceries was effected the fore part of this week when the Hokus Pokus Grocery was sold to the Armstrong Grocery and the two stocks were consolidated in the Hokus Pokus location. The Hokus Pokus store has been owned and operated here for the past two years by Homer Ellis, he being forced to give up the store on account of his health. Mr. Armstrong, while a new resident in the city, is already well known here and has made a great many friends during his term of stay here.

NEW CURRENCY TO BE DISPLAYED HERE

New United States paper money will be on display at the First National Bank in Clarendon Monday, June 3rd, and the public is invited to drop in and see the new designs and new sizes which will go into general circulation on July 1st of this year.

First National Bank officers has accepted the position as beauty operator for Mitchell's Barber-shop.

LOCAL SCHOOLS CLOSED FRIDAY

GRADUATING CLASSES RECEIVE DIPLOMAS FRIDAY MORNING AND EVENING.

The final graduation exercises for the Clarendon Public Schools were held here Friday of last week. The Junior High School graduated thirty-four in the exercises Friday morning, to be followed by the graduation of the High School at the evening hour.

On Thursday evening of last week the Seniors of the High School held their last class meeting in quite an unusual and unique manner. This evening was given over to this class and their program was made up of the appearance of the honor graduates, the historian of the class and other features such as the class will and the class donor. The evening was much enjoyed, the final feature being the presentation of Senior rings to the two sponsors of the class, Misses Temple Harris and Helen Beck. Billie Dillard acted in the capacity of President of the class and Miss Thelma Youngblood as secretary, places they have held during the past year.

The graduation exercises of the Junior High School were well planned and attracted a good attendance. J. R. Porter delivered the address to the graduates and was well received and his remarks much appreciated.

SCOUTS TO MEET 24TH IN M'LEAN

NORTHERN HALF OF SOUTH-EAST PANHANDLE COUNCIL PLAN SESSION.

A meeting of the boys and men of the northern half of the Southeast Panhandle Council of Boy Scouts is to be held in McLean on Friday, May 24th. The meeting will be started at 3:00 o'clock in the afternoon with a field meet. This meet will have tests from the boys on fire building, water boiling, cooking, first aid, knot tying, the Schaffer method of resuscitation and games.

Following the close of the field meet, there is planned to be a barbecue, but this is not quite certain and the boys may be forced to bring their own meal for the evening. These details will be worked out and full announcement will be made in sufficient time to allow the boys to make their own arrangements for the occasion. They are required to have a bucket with them, an eight pound lard bucket, that will be used in the water boiling test.

In the evening, the court of honor will be held, later followed by the meeting of the area as is usual in these occasions. There will be a meeting of the southern half of the council at Memphis on May 31st.

The following list of towns will be represented at the meeting at McLean: Clarendon, Goldston, Jericho, Alanreed, McLean, Shamrock and possibly Wellington and Lillie.

Miss McDaniel from Plainview has accepted the position as beauty operator for Mitchell's Barber-shop.

PROGRAM PLANNED DECORATION DAY

SERVICE TO BE HELD IN FIRST BAPTIST CHURCH THURSDAY.

The First Baptist Church of this city will be the scene of the Decoration Day program planned for Clarendon on next Thursday, May 30th. The program has been set for 11:00 o'clock and every person in Clarendon is asked to attend the program. At the conclusion of the program in the church, the Legion and the Auxiliary will go to the cemetery, where the graves of the veterans of the World War and all other wars will be decorated with flowers that have been provided for this purpose.

Rev. W. M. Murrell will deliver the speech of the occasion and a splendid program has been arranged to be given in connection with this address. All the details of this event have been worked out and the following program has been planned for that day:

Song, "America," led by Sam M. Braswell. Invocation, Rev. Robt. S. McKee. Lincoln's Gettysburg Address, J. R. Porter. Vocal Solo, "Resignation," Mrs. Rolle Brumley. "In Flinders Fields," reading, Eunice Johnson. Prayer, Rev. S. E. Allison.

Introduction of the speaker, J. Douglas, Post Commander. Address, Rev. W. M. Murrell. Roll-Call of Dead, G. L. Boykin. With Funeral March on piano. Benediction, Rev. S. R. McClung. Taps.

Markers have been secured by the local American Legion Post and will be placed on the graves of those who lost their lives in the World War. These and flowers will be placed immediately following the conclusion of the program in the church.

ODOS CARAWAY IS ONLY SHRINE NOVICE FROM HERE

Odos Caraway was the only Shrine candidate from Donley County at the Spring Ceremonial held in Amarillo last week. Mr. Caraway was excused from jury service in the Federal Court in Amarillo to be allowed to take this work. Messrs. Mulkey and Bain were also in Amarillo but they did not get excused to assist in conferring the degrees to the novice from this city.

NEW HIGHWAY SIGNS PLACED

BOTH HIGHWAYS THROUGH CITY ARE THOROUGHLY MARKED BY STATE.

Workmen of the State Highway Department were here the latter part of last week with signs that are being placed at street intersections and at other places to point the tourist through Clarendon and other towns on the roads. State Highway 5 and United States Highway 370 have been thoroughly marked so that the passerby might have no difficulty in making his way through the city if he looks for the black and white signs that have been placed at advantageous places.

Highway 88 has also been marked with like signs on the the intersection of the streets in the city. The new markers are placed on creosoted posts securely set in the sidewalks of the city and placed to show the turns that are to be made to allow the passers to get through the business section of the town.

The signs are of white and black enamel. The backgrounds are white with the raised figures showing up in strong relief. These markers are also to be found at intervals all along the designated course of the highway as it now stands and will be found to be an invaluable aid to the traveler who makes this section of the state on tour.

PANHANDLE PRESS ASSOCIATION

One of the greatest pieces of news Panhandle people have read in the daily press is the announcement the first of the week of the posting of substantial increases in the prices of crude oil in West Texas and the Panhandle. It has been estimated that the hike in prices will bring forty-eight million dollars in added profits to this section of the state, even if no further advances are recorded. All of us remember just how the sagging crude market effected this section several years ago—a condition from which we have not recovered in spite of good crops—and now optimism is spreading over the section in every line of business. Besides the increased returns from crude oil, the industry will be rejuvenated and the search for oil in Panhandle counties will begin again with the old-time zest. It means better business in all lines, more jobs for more men, better prices for leases and royalties, more demand for homes and rent houses, and a better market for garden stuff and farm products. This section of Texas is on the verge of the greatest advance and development in all lines known to history.

That newspaper veteran, Harry Koch, has sold the Quannah Tribune-Chief to Carl Gallagher and associates, after forty years at the helm of that splendid Panhandle publication. Harry will take a deserved rest and will tour Europe, visiting his old home in Workum, Holland, and then will come home to look after his personal business and bask in the title and distinction of the Nestor of the Panhandle Press. Carl Gallagher is one of the most able young newspaper men in Texas, having been associated with the McKinney newspapers for many years. He will fit in wonderfully well with the Panhandle fraternity and will make money for himself and the Hawk-Howe interests who are associated with him. Quannah will profit by the added citizenship and an enlarged and extended newspaper. Congratulations, all around.

Armed with a state charter to build its proposed line from Childress to Pampa, the Fort Worth & Denver railroad now faces the task of securing a permit of public convenience and necessity from the interstate commerce commission at Washington. There it will face the combined opposition of the Santa Fe and the Rock Island who both have plans in the same general territory. We wish the Denver all success in their proposed line—we've got other plans for the Rock Island.

May has been a remarkably cold month in the Panhandle, very un conducive to the growth of crops or shrubbery. Much of the cotton is being replanted as lots of it was planted too deep, covered by washing soil and lies dormant in the cold earth. June usually brings the hot weather the crops need and with the wonderful store of moisture should be a record growing month in this section. Prospects are more than flattering for a bumper yield in all crops this fall.

West Texas Chamber of Commerce convention dates are set for Oct. 24 to 26, at El Paso. These dates were set over on account of the visit of President Hoover to Texas at that time. While the coming of the president will draw a huge crowd, yet many think that the postponing of the convention from its usual time in June, is a mistake on the part of the organization. People dislike changes in habits or schedules.

Clarendon isn't a very demonstrative community, but there are more people who will do kindness and say kind things for you and about you than any community the writer ever knew. That's why Clarendon is such a delightful residential city, and that's why her people are knit together with so many bonds of friendship even though very little is said about it.

If the public would only allow Lindy and Anne to get married and enjoy their honeymoon in peace, just like other average Americans! We rather imagine that sometimes Lindy almost rues the day, two years ago, when he hopped off for Paris on the flight that made him the hero of the world.

These are perilous times what with the gun-fire in Amarillo and the wife who took a bed-slat to a husband down in Dallas. More discretion and more insurance is our remedy, even if it does sound like an advertisement for the insurance boys.

Recreation is wonderful thing, and we all need a certain modicum of it, but for all that, we cannot but observe with pleasure the girl or boy who finds a job the week after school is out.

Willingness to work and the determination to live with in one's salary or income, may not bring fame, but it will mean success and the respect of the community.

The clatter of milk cans in Donley County makes a wonderful symphonic accompaniment to the March of Progress.

Every day brings a new crop of whiskers and fishing yarns.

## The Town Doctor

(The Doctor of Towns)

### SOME TOWNS, LIKE TRUCKS, GET STUCK IN THE MUD

There is something about the building of a highway that is, to me, as a magnet to steel. When driving through the country, a "Road Under Construction" sign is a near command to drive around the barrier, and learn if the notice is telling the truth.

There is something majestic and awe-inspiring about the laying of a ribbon of concrete across a plain, through the valleys, or over the hills. Perhaps it is not the actual construction as much as the value of what the completed work will be to the communities it will serve, wondering if those it will benefit will take full advantage of the opportunity.

The paving of a country road is an epoch in the life of the area through which it passes, for it marks the passing of the old into the new, and to me, a changing from the old order of things is always of interest.

Last fall, while making what has been spoken of as a "clinic journey," I obtained permission to drive a twelve-mile strip of newly laid concrete through the Palos Hills country in Illinois. It was a beautiful roadway in a beautiful country, and I could but marvel at the thoroughness—the perfect contour of this "sidewalk for motor cars" to hillside, vale and woodland—it was perfect.

Some miles from the convergence of this roadway with the main arterial highway, a large force of workmen with a score of dump trucks were making a fill. Trucks loaded with loose earth came from both directions; systematically they swung to the edge, half circled to the center of the pavement, then backed; a whistle blew, the truck stopped, the dump body tipped as the end gate opened; another whistle, and the truck moved out and on up the road. For an hour I watched them as like giant ants they came and went, filling the hole that was bad for the highway.

Then something happened. A monstrous truck, very heavily loaded, backed up too far, went off the pavement and down the embankment, settling deep in the wet, loose, spongy loam. It was stuck—no doubt about it!

A loud whistle blew—trucks outbound stopped, swung around, and returned to the fill; inbound trucks drew up in a line. Chains rattled as each hitched to the other—a workman slid down to the truck in the mire, attached a chain thereto, and a whistle blew thrice. At the first whistle, all trucks moved forward taking up the slack; at the second, gears meshed into low, at the third, every clutch of every truck was engaged, and without jump or jerk, all, as one, moved forward, steadily, surely, until the stuck truck was back on solid pavement. There was no fuss, dissension, excitement or bluster—all of the trucks pulled, NONE was standing at the side of the road, idling, watching or shouting advice; all pulled in the SAME direction at the SAME TIME.

The moral is plain. If your town is "stuck"—if it isn't moving forward, gather 'round, everybody, hook on, get a sure "hitch," then PULL TOGETHER—in the same direction.

This Town Doctor article, one of a series of fifty-two, is published by The Clarendon News in co-operation with the Clarendon Lions Club.

There is one thing the adolescent girl wants more than anything else, more than she will ever admit to her dearest friend: HOW she LONGS to be beautiful; to have a lovely peaches-and-cream complexion, cherry red lips, satiny skin, and hair that shines like polished metal! She applies her rouge and lip stick in blissful ignorance of the botch she is effecting, much as she tried to imitate her elders in coloring pictures when she was two years old. Each day she goes on a still hunt for freckles or pimples. And each night she vigorously wields the brush for its full forty strokes on her hair. Dear little girl! According to her lights, she is doing just the best she can to attain the beauty that centuries of womankind have coveted before her!—Bertha Streeter.

### MURRELL REPORTS DISTRICT IS IN SPLENDID CONDITION

Following the close of the District Conference in Shamrock last week, Rev. W. M. Murrell, presiding Elder of the district reports that everything is looking fine for a good year. The reports of the pastors over the district show that everything is looking fine for a good year. The optimistic tone of the reports was present in all of them. The church finances are probably in a better condition this year than they have been at this time of the year. All pastors were present with the exception of two and these were kept away for the reason of the condition of the roads. Memphis will be host to the next conference meeting.

The church at Claude is completing a fine new church building that will be ready for use in the next three to four weeks. A new building has been finished on the Dozier-Herald circuit and a basement for a big fine church has been finished at Groom.

### BURY OR BURN DEAD POULTRY IS REQUEST

A citizen of the county called in the News office the fore part of the week with a plea that those with poultry should burn or bury all those chickens or other poultry that die or are accidentally killed around the premises. This man stated that there were a part of his neighbors who habitually deposited their cast-off chickens on his property, spreading the disease that killed the chicken and making it possible for their own flocks to further spread the disease. Suggestion was made that these carcasses be disposed in the manner suggested above to keep down the danger from disease and contamination.

### Fire! Fire!

Every minute during the twenty-four hours of each day your property is exposed to fire. The savings of a lifetime could be swept away from you in a very few moments. Why will some people continue to take such chances when for such a small amount they could be fully protected? The insurance rate is now the lowest ever had in Clarendon, yet there are scores of people without protection. If you are one of that class, see us at once and have us write you a "full coverage" policy, fire, lightning, tornado, hail and gas explosion. This explosion policy only costs 50 cents a thousand. A few days ago a dwelling was completely wrecked in Amarillo by a gas explosion.

PHONES 186 AND 421

As the American Nation has expanded and increased in wealth and population every class of business has been in a process of change or evolution. That the business of country banking has not been discarded along with the Stone Age and other fossils like to livery stable, the manufacturing of hair pins and player pianos is best explained by the fact that country banks regard their work as an interesting profession and are quick to apply themselves to changing methods of applying credit.

# SAFETY

is the first consideration at this bank and this calls for the study of credit conditions, which, due to diversification, have made a vast change in Donley County during the past 10 years.

You will find the officers and employees of this bank ready and willing to help you with the problems which confront you.

### How to Raise Poultry

By Dr. L. D. LeGear, V. S., St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

### BLOOD WILL TELL

There is No Best Breed of Chickens—Select Your Breed According to What You Want to Accomplish, Keep the Strain Pure and Breed Carefully to Strengthen the Natural Tendencies of Your Choice.

In the first place, let me make this emphatic statement: There is no best breed or variety of chickens. In due respect to all, I make this statement. If you have a certain breed or variety, do not think they are the best, because they are not. There are good strains in all varieties of chickens. Choose the breed or variety that suits your fancy, and devote your energies to making them profitable. It is the strain or blood lines that really count. Just because a chicken is a Plymouth Rock, a Leghorn, an Orpington or a Rhode Island Red is not what makes it a world beater. It is the breeding up of any flock to higher egg production that makes any breed or flock of hens, and using for breeders only those that are high producers, good size and chuck full of vigor, and are reasonably close to the standard requirements, you can in a few years build up a strain with blood lines behind them that makes them far superior to the ordinary flock of the same breed or variety with which such careful methods have not been used. In this way, or by line breeding, all strains of chickens originate.

"What breed shall I select?" is the question some one is always sure to ask whenever I make the foregoing statement. To that, I can only make the classic reply, "It all depends." Then I counter with the question, "What do you want to accomplish?" There are three general classes, the meat class, the egg class and the general purpose class. The purpose of the first two named is perfectly plain and that of the third is almost equally so.

General purpose fowls are very often little inferior as layers to the so-called "egg-class" and will often compare favorably with "meat-class" fowls for table use. They make excellent broilers, fryers, roasters and capons and the old hens, if fat, will usually bring good prices. Perhaps the most popular general purpose breed is the Plymouth Rocks which may be had in several varieties. The Banded Plymouth Rocks are the most popular farm flock chicken in the corn belt sections of the Middle West, as well as in many other sections. The outland all other breeds and varieties of chickens in all the egg laying contests in the United States in 1927. Second only to the Plymouth Rocks, if even to them, are Rhode Island Reds. Wyandottes are still highly esteemed by many fanciers and justly so. Orpingtons of which there are several varieties are a very popular English breed. The eggs of this class are brown and usually of good size.

The egg-class is a particularly important one for commercial

poultry raisers. The various egg-breeds are usually small in size and do not get broody often, so they can seldom be used for hatching or mothering chicks. As the name of this class indicates, however, they are specialists in the art of laying eggs. In addition to that, their eggs are white in color. This feature is desired in some markets and such eggs frequently bring higher prices than brown eggs.

Exceedingly popular among the egg-class breeds are the Leghorn, of which there are several varieties, the White Leghorn being the most popular. Having been bred almost exclusively for egg production, the Leghorn lives up to its nick-name, "The Egg Machine." Consequently, if egg production is the major requirement, you cannot well afford to overlook the Leghorns. Other desirable egg-class breeds are Minorcas, Anconas, and others of the so-called Mediterranean breeds.

While the meat-class is not so extensively raised as the others described, they are very desirable for many reasons. Although not such star performers as Leghorns or good general purpose breeds, they are usually fair layers and bring top prices for table use. The capons from these breeds are particularly fine. Some of the better known breeds in this class are Brahmans, Cochins and Langshans.

Now it must be understood that these classifications are not matters of hard and fast differentiation. Some egg-class fowls are excellent for table use and some meat-class fowls are good layers. Conversely, some general purpose breeds are as good layers as some egg-type breeds and as good for the table as some meat-types. Nevertheless, these classifications are fairly accurate guides and will help considerably in selecting the breeds best suited to your own requirements. Choose thoroughbred chickens that have been specifically developed for some definite purpose. That way lies the best chance for success and satisfaction.

Finally, let me emphasize, one breed or one variety of chickens is enough on one farm, and never cross breeds of chickens. If you wish to keep more than one breed or variety, keep them absolutely separate. Never let them run together, especially at breeding time. Cross bred or mongrel chickens do not pay. Nothing is worse than a crossbred duck, mixture of all breeds, all varieties and all colors of chickens in one flock. They do not grow as fast or as large, nor lay as well as pure bred chickens.

(Copyright, 1929 by Dr. L. D. LeGear, V. S.)

Pampa's Chamber of Commerce recently conducted a poultry and dairy school at which 50 students from the vocational agricultural class of the high school, and about the same number of farmers from the territory were present. The school was in charge of Prof. K. M. Renner and Prof. R. C. Mowery of Texas Tech.

Dates for the 43rd annual State Fair of Dallas are Oct. 12 to 27th, inclusive.

### CITY PLAN EXPERT TO BE HERE SOON

KESSLER MAN WILL VISIT PANHANDLE CITIES DURING MONTH OF JUNE.

Clarendon will be visited during the month of June by John Surratt, of the Kessler Planning Association, who will make a tour of Panhandle cities in the interest of better and more modern city planning.

G. L. Boykin, secretary-manager of the Clarendon Chamber of Commerce, has received notice of Mr. Surratt's coming to this section of the state, and will arrange for a meeting with the city commission, chamber of commerce officials and interested citizens when the exact date of the expert's visit is made known.

Mr. Surratt will make a survey of Clarendon from a topographic and traffic viewpoint before he renders an opinion of what this city needs in the way of proper planning according to the modern science of city building.

### LOWLY GUNNY SACK IS MOVING INTO SOCIETY

College Station, May 14.—The gunny sack has moved up into society. Long regarded only as a useful container for produce or junk, as a handy thing around the barn, or at best a door mat in muddy weather, the lowly burial sack has worked itself into the home. And it has come in by the front door, too.

It happened this way. The home demonstration agents have launched the rural womanhood of Texas into a crusade for home beautification. It pays, they say, not only in comfort and satisfaction but in dollars and cents. They began with the kitchen and after getting a good start in an efficient farm home work-shop they turned to the living room. Now rugs cost lots of money, but the need for them is great. The home agents have bridged the gap by showing how gunny sacks and all kinds of old rags and garments may be woven or hooked into rugs, beautiful in pattern and durable withal. Reminiscent of colonial days, these rugs are adding a touch of homely comfort to hundreds of farm homes as well as to those in town, for some home demonstration women are making rugs to fill the market demand.

Last year home agents gave 229 lessons to women in the making of such rugs and 3,175 of them were completed. About two thirds of this number were braided and the remainder hooked. The

### PRICES AND SHIPMENTS SET RECORD FOR APRIL

Austin, Texas, May 20.—A total of 9,689 cars of fruits and vegetables was loaded in Texas during April, according to Bernard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas.

"This total makes April by far the largest month on record," Mr. Nichols said. "Shipments for the year to date are 17 per cent above those for the same period of 1928. Prices were generally higher. Tomatoes advanced 50 cents to 75 cents per box, while potatoes, beets, carrots and lettuce recovered most of the March loss. On the other hand, onions declined \$1 per 100 pound sack and string beans decreased 50 cents per hamper."

### PORTER AGAIN NAMED AS LAY LEADER IN DISTRICT

The District Conference of the Clarendon District of the Northwest Texas Conference convened in Shamrock Tuesday of last week with a full attendance. Wednesday was the day set aside as laymen's day and one of the best attendances yet seen was recorded there at that time. In the naming of the leaders for the coming year, J. R. Porter was returned to the place of District Lay Leader and W. T. Hayter and T. E. Trostle were named as associate leaders for the district. Clarendon visitors for this event will include: Mr. and Mrs. W. T. Hayter, Mrs. U. J. Boston, Mrs. G. H. Gattis, L. A. Reavis, T. E. Trostle, Mr. and Mrs. J. R. Porter and Revs. C. E. Ingram, S. E. Allison and W. M. Murrell. With the exception of the ministers and T. E. Trostle, the Clarendon representatives returned to their homes Wednesday afternoon.

### FORD BUILDING IS REFINISHED ON INTERIOR

Workmen finished their tasks of refinishing the interior of the Clarendon Motor Company home building. The walls were refinished in a new coating of kalsomine of the original color of tan and the ceiling was repainted white. This work completes the task of completely overhauling the inside of this building, the shop having been refinished during the winter at the request of the Ford Motor Company.

cost is only nominal and some women are finding a market for them at \$5 to \$15 apiece.

The rug making program of the Extension Service is gaining momentum this year and indications point to a great increase in this activity. One county alone, Kaufman, is said to have finished 273 rugs in March.

### LELIA LAKE AND MEMPHIS MEN PATENT COTTON PICKER

W. W. Dodson of Lelia Lake and J. M. King of Memphis, have secured a patent on a cotton picking machine which they hope to have manufactured in Amarillo. These two gentlemen were in Amarillo the latter part of last week with their invention and were trying to interest capital in that city in the possible founding of a factory for the making of the machines in the Panhandle. The machine works on an entirely new principle, picking the cotton from the stalks with a series of fingers, later carrying the picked cotton through a cleaning device that completely cleans the burs and rubbish from the product.

One of the largest gas pipe lines in the country is to be built by the Lone Star Gas Co.—135 miles from Petrolia, Clay County, to Fort Worth. Twenty inches in diameter the line will handle 100,000,000 cubic feet of gas daily, according to additional service to the many cities and towns served by the Lone Star. This will give the company four lines into Dallas and Fort Worth, two of the others being 10-inch and one 16-inch.

"Texas has but started in its development. . . Demands for money month by month for villages that become towns almost overnight, towns that become cities between visits, and smelters, manufacturing, mills, gins, oil wells, pipe lines, refineries, mines, farms and ranches that are fast filling its open places are concrete evidence of its wonderful future development."—Martin J. Insull.

## PASTIME THEATRE

Friday, May 24th  
ESTHER RALSTON and REED HOWES  
—IN—  
THE SAWDUST PARADISE  
The bright lights turned off. The crowd is gone. A brighter light. A greater love, is the love of God. This is one of the outstanding pictures.  
Also Bobby Vernon in "Hot Sparks," comedy.  
(Properly Cued Music and Effects.)  
10c-30c

Saturday, May 25th  
BEHIND THE GERMAN LINES  
Actually photographed on the battlefield of the German War. "Behind the German Lines" will thrill you with its realism. A picture you should see.  
Also Charley Chase in "Ruby Lips," a rip-roaring comedy.  
(Properly Cued Music and Effects.)  
10c-30c

Monday, May 27th  
JOHN GILBERT and ALMA RUBENS  
—IN—  
THE MASK OF THE DEVIL  
A man without a conscience. A woman who loved greatly. A story that will thrill the world. Greater than "Flesh and the Devil."  
Also Paramount News. One day only.  
(Properly Cued Music and Effects.)  
10c-40c

Tuesday, May 28th  
WILLIAM RUSSELL  
—IN—  
HELL ON THE BORDER  
A story of Texas Rangers; historical drama of Mexico's phantom bandit. This is a real road show and one that will give you many thrills.  
Also Paramount News and "Some of the Crack Shots of Mexico."  
(Properly Cued Music and Effects.)  
10c-40c

Wednesday-Thursday, June 29th-30th  
BETTY BRONSON and ALEC FRANCIS  
—IN—  
COMPANIONATE MARRIAGE  
You'll think about it for a long time. You'll see a wonderful love story, of every day life, yet it is the first time the screen has ever dared to show it. Different, modern—something to think about.  
Also Cartoon Comedy and Paramount News.  
10c-30c  
Night Show 7:45 O'clock

Queen Theatre  
Saturday, May 25th  
NEAL HART  
—IN—  
SCARLET BRAND  
Our new Western Serial.  
Also another good Western play. Always a good show.  
10c-25c

### They Walk Out 1929 Models

Hold everything. Don't give up yet. Send all your 1928 summer suits to us. They'll come back to you 1929 models. And you'll save the difference.

Styles in summer suits don't change a lot anyway. And our improved Gloverized process of cleaning freshens up the patterns like new, and cleans away every single spot and stain. No unpleasant cleaning odor. No rings.

This is the new thrift habit that scores of men all over town are getting on to. May we send our route man over tomorrow morning?

Send it to a **Master and Cleaner**

## What Riches the Humble Penny Will Buy!

WHAT precious hours under the mellow light.  
What priceless freedom from the nerve-sapping drain of housework.

—What luxurious relief from the "hot" kitchen, the long hours spent over an over-heated stove.

—You buy all these precious hours of luxury for just a few humble pennies from the West Texas Utilities Company.

—So don't stint here. This sort of spending is really saving . . . saving your time, your eyes and your strength.

—No, by all means don't begrudge yourself the comfort, the convenience, the beauty that is made possible by electricity. For the cost is little, so little always.

### Use More Electricity

**West Texas Utilities Company**

## Texas to be Great Dairy Empire

VAST FEED CROPS MOST PROFITABLY MARKETED IN FORM OF MILK.

An Interview with A. L. Ward, Director of the Educational Service, Cottonseed Products Association.

Texas, the cradle of the beef cattle industry of North America and the greatest Western hemisphere, is destined to become a great dairy empire. Analyze the conditions and you will see the justification for this statement.

The development and prosperity of an industry depend on:

- 1st—Insured supply of raw material and a proper natural environment.
- 2nd—A supply of manpower of the right type needed to carry on the industry, and a realization on the part of the people of the importance of the industry.
- 3rd—Capital.
- 4th—A market.

Has Texas, then, first of all, the raw material and a proper natural environment? The entire State of Texas, at the present time, is cultivating just 29,000,000 acres; and, on this 29,000,000 acres, she is producing a crop worth over \$1,000,000,000 annually—a valuation that exceeds the crop production of any State in the Union. The area of Texas is greater than the combined area of the States of Wisconsin, Michigan, Minnesota and New York. I singled out these four States because of their recognized importance as dairy States. Wisconsin ranks first as a dairy State; and in area is less than one-fourth the size of Texas, and has just 9,500,000 acres in cultivation, 24 per cent of which is corn, 27 per cent in oats, 34 per cent in hay; the other 15 per cent being in barley, rye, wheat, potatoes and other vegetables. That is the picture of the State of Wisconsin that ranks first in dairy production. Out of our immense land area, will it be possible for us to muster 9,500,000 acres for the production of grain and hay? Figuratively speaking, we have only started in much of Texas to plow the fertile lands that have, for generations, been the breeding grounds for the greatest cattle and sheep herds of America; and, yet, the acres under the plow have shown the capacity to produce in a single year as much as 50,000,000 bushels of grain sorghums, 50,000,000 bushels of oats, 25,000,000 bushels of wheat and 750,000 tons of cottonseed cake and meal annually—more than the entire United States production of linseed meal.

Add to this great production of grain and cottonseed meal the tons of wild and tame hay produced annually; and, then, think of the acres in grass remaining to supplement the grains and hay and the cake and meal.

In addition to her water courses, much of Texas is underlaid with an inexhaustible supply of water. Yes, there is an assured supply of raw material for economical milk production. The soil and climatic conditions and environment are not only favorable to the production of feeding stuffs, but they are such as to insure maximum yield of herds at a low overhead, as well as the production and manufacture of milk products of the highest quality at a minimum cost. The climate is such that it is not necessary to establish and maintain expensive equipment; and no other section of the United States is so free from tuberculosis or offers such great resistance to the spread of tuberculosis which is in so many sections a great menace to the dairy industry.

The many factors that go to make a climatic condition are so blended that the production of clean, wholesome milk and milk products is assured.

The second requirement is the supply of manpower of the right type for the industry; and the realization on the part of the people of the importance of the industry. We shall grant the truth of the statement that "to be successful at dairying, the people must be dairy-minded." The people of Minnesota, Wisconsin, Denmark and the Netherlands are dairy-minded. Yes, they are now; but there was a period in the history of each of these sections when the people were not dairy-minded.

## Better Built for

**Better Service**

Superior construction assures you greater power and longer life when you buy a **DEMPESTER** NO. 12, BACK GEARED, ANNU-OILED WINDMILL.

Timken Tapered Bearings, Machine Cut Gears, Positive Brake and Oil-It-Once-a-Year feature make the Dempster No. 12 outstanding. Drop around and let our competent windmill and pump man show you a sample.

**W. C. STEWART**  
Clarendon, Texas

Also carry a complete line of Dempster Water Supplies.

Denmark, the Netherlands, and the dairy states of America exhausted their natural resources by the one-crop system of grain production and then turned to the dairy cow as a means of regaining prosperity.

Some generations are born into an industry; or other generations are gradually, or sometimes suddenly projected into a business through causes of necessity or environment. The history of agriculture shows that, as a rule, the first cattle industry of any magnitude is beef cattle production; and the first type of farming is usually grain growing. Ordinarily, grain growing is followed until there is a decline in soil fertility. Many sections of Texas are now turning to the dairy cow before exhausting their soils. This is a tribute to the vision and the foresight of the people. They did not choose to go through the period of decline before turning to the dairy cow as the most efficient way of marketing grains and grasses; and, at the same time, maintaining the fertility of soils, utilizing labor throughout the year and insuring a balanced income.

The dairy cow has, by her past performance, proved that she does produce human food with far greater economy than any other farm animal.

But the efficiency of the dairy cow in converting raw material into human food is only a part of the story. What does the selling of dairy products do for the farmer? We all know that the conservation of soil fertility is the greatest problem of agriculture. The growing of crops is a heavy drain on the nitrogen, phosphoric acid and potash of the soil. Many other elements are required, but three are in most demand. For example, fifty bushels of oats contain 32 pounds of nitrogen, 13 pounds of phosphoric acid and 10 pounds of potash. Grain, sorghum, cotton, and all other crops must have three elements to grow. If we continue to grow these crops and sell them in the raw stage without returning these elements to the land, we shall eventually exhaust the productiveness of our acres. Every ton of maize heads leaving the farm removes \$7 in soil fertility; while, on the other hand, the feeding of maize heads to dairy cows will return \$6 of the \$7 in soil along with 80 per cent of the fertility contained in other feeds purchased and fed to the cow.

Dairy products take little of the soil fertility. To put it in another way a thousand pounds of milk heads contain \$3.50 worth of soil fertility. Therefore, every 280 pounds of milk heads carry \$1 in soil fertility. If we are getting \$25.00 per ton for milk heads, we will receive \$3.50 in cash for this \$1 worth of soil fertility. What happens when we sell whole milk? One hundred pounds of milk contains approximately 13 cents in soil fertility. On this basis, 833 pounds of whole milk would take away from the farm \$1 in soil fertility. If we are selling this milk for \$2 per hundred pounds, the 833 pounds of milk will sell for \$16.65. Therefore, by selling milk, we receive in cash \$16.65 for \$1 worth of fertility—just about four and a half times what we receive from the \$1 worth of fertility sold as maize heads.

The selling of cream on the basis of forty cents per pound for butter fat from 5 per cent milk will bring \$2 per hundred pounds of milk produced, and practically no fertility is lost. A whole ton of butter contains only 70 cents worth of soil fertility.

Let us see what happens when we grow cotton. In the growing of a 500-pound bale of cotton in Texas, stalks are produced that contain approximately \$12 worth of fertility. If the stalks are cut and turned under, you will not have a loss of fertility by way of them. The 500-pound bale of lint contains 37 cents in fertility value. The thousand pounds of cotton seed contain approximately \$8.50 worth of fertility. Five hundred pounds of cottonseed meal carried back to the farm will return to the soil the fertility removed by the 1,000 pounds of seed and the 500 pounds of lint. Therefore, the dairy cow not only enables the farmer to return the fertility removed by his grass and grain, but also the fertility removed by the growing of the cotton.

By giving thought to the problem of maintaining the fertility of the soil, and seeking a system that will give a greater return for fertility, recognizing the importance of full utilization of labor and the need of frequent pay days, we, as a people, will adjust ourselves to dairy farming. We shall gradually become "dairy-minded."

By "dairy-minded" I do not refer alone to the people who are handling the cows on the farms, but to business men, such as bankers and merchants of the towns and cities who will have an understanding of the needs of the dairy industry and a conception of its importance to the development of Texas.

The third requirement is "capital." The bankers of Texas are answering this question daily by lending money to purchase bulls from tested dams. The use of these bulls is rapidly increasing the production of the cows of Texas. As we increase our milk production, money will be offered for the establishment of additional creameries, cheese factories, etc.

The fourth requirement is "a market." The fact that the State of Texas is importing approximately \$40,000,000 worth of dairy products annually gives ample assurance of a market for our products. Furthermore, the Southwest is growing rapidly industrially, which will increase the annual home demand for dairy products.

Texas was not satisfied with being the greatest State in the production of beef cattle and breeding sheep, and she is fast establishing a "dairy cattle empire." We have seen that she can meet the requirements for economic dairy production. In meeting these demands, she will insure a stable agriculture and the continued prosperity and happiness of the people.—Texas Opportunities.

Although Texas hasn't even scratched its possibilities as an industrial state, it still leads all the southern states in value of industrial output with a total of nearly one and a quarter billions in 1927, according to a Census Bureau report. This was nearly \$100,000,000 above the total of North Carolina, where industrial development is probably the most intense in the South. Manufacturing plants in Texas jumped from 3,603 in 1925 to 4,065 in 1927; wage earners in industrial plants increased 10,000; and wage paid workers climbed from \$116,000,000 to \$130,000,000 in the two years. "It's great to be a Texan."

J. L. Reid of Lelia Lake was a Clarendon visitor Monday of this week.

## MUST ELIMINATE ANTIQUE ROADS

COMMERCIAL HIGHWAY USE, BENEFITTING PUBLIC, DEMANDS BETTER SURFACE

By E. E. Duffy.

Antiquated highways, still quite common, have no honored place in the modern transportation scheme. Commercial usage of the highway is being made to an extent that almost bewilders the imagination.

Many railroad companies now operate bus lines. Motor coaches and trucks in some instances have replaced branch line steam transportation. The latest railroad to enter the motor transportation field is the Burlington which is now maintaining schedules between principal cities of Nebraska. A significant feature of this service is that it parallels railroad lines.

A fairly clear picture of the importance of the highway may be obtained from the railroad passenger figures of 1928 which show the lowest volume in 20 years. One of the leading railroads attributes this falling off in business to a number of causes but the chief is that of increased use of the passenger car and the motor bus.

Consequently highways are being punished today in a measure not anticipated a dozen years ago. Unfortunately much of this traffic is forced over roads as old fashioned as celluloid collars. Automobiles are not designed to jiggle over washboards, shell holes, or surfaces that wear out nerves as well as tires and other automotive equipment.

In buying new highways, a community can best serve itself by ordering roads thoroughly in keeping with its current traffic needs, and of even greater importance, its potential needs. There is no way of definitely measuring tomorrow's requirements, but it can be truthfully stated that not a single community in this country has more well paved roads than it has good use for.

This matter of road building has its peculiarities. The criticism has been levied that those making commercial use of the highways should be heavily taxed for the construction and upkeep of the roads. Examination of state and local records reveals that commercial car owners are indeed paying their share, and sometimes perhaps more than their share, of the road expense. Commercial cars are nothing more than public servants, yet all too frequently heavy vehicles are unduly blamed for the excessive wear and tear of the public highway. Inferior streets naturally deteriorate under heavy traffic and clearly the community must build substantial pavements for this commercial travel.

Roads should be built that are wide and smooth, continuous and direct. By so doing transportation is improved and its cost is lowered. By so doing transportation is improved and its cost is lowered. That means that the public is benefitting itself.

The truth, it is all so wonderful that I just don't know how to express myself so I will just say that Orgatone is the most marvelous preparation I ever heard of. I now have a hearty appetite and eat three good square meals a day, my nervousness is leaving me and the numbness in my left side has been improved considerably. Orgatone is restoring my health and I am now so happy and grateful that I never lose an opportunity to speak a good word for this great medicine. I am more than glad to give this statement.

Genuine Orgatone may be obtained in Clarendon at the Stocking Drug Store.

"Constipation bothered me constantly and often times headaches bothered me. I tell you I was in a very badly run-down condition in every way, but in spite of all I could do in the way of medicine and treatment I just kept getting weaker all the time, and I finally came to the conclusion that nothing would ever do me any good.

"It was a hard matter for me to make up my mind to take this Orgatone, for I had been disappointed so many times that I had about lost faith in all kinds of medicines. I finally made up my mind to get one bottle of Orgatone, and if I felt that it did me good I would get more. To my great surprise, I commenced to feel better before I had finished my first bottle. Well, to tell you

"Now I eat even sauerkraut and sausage and feel fine. Adierika ended stomach gas and I feel 10 years younger."—Mrs. M. Davis.

Just ONE spoonful Adierika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adierika will surprise you. Douglas-Goldston Drug Co.

By E. E. Duffy.

Antiquated highways, still quite common, have no honored place in the modern transportation scheme. Commercial usage of the highway is being made to an extent that almost bewilders the imagination.

Many railroad companies now operate bus lines. Motor coaches and trucks in some instances have replaced branch line steam transportation. The latest railroad to enter the motor transportation field is the Burlington which is now maintaining schedules between principal cities of Nebraska. A significant feature of this service is that it parallels railroad lines.

A fairly clear picture of the importance of the highway may be obtained from the railroad passenger figures of 1928 which show the lowest volume in 20 years. One of the leading railroads attributes this falling off in business to a number of causes but the chief is that of increased use of the passenger car and the motor bus.

Consequently highways are being punished today in a measure not anticipated a dozen years ago. Unfortunately much of this traffic is forced over roads as old fashioned as celluloid collars. Automobiles are not designed to jiggle over washboards, shell holes, or surfaces that wear out nerves as well as tires and other automotive equipment.

In buying new highways, a community can best serve itself by ordering roads thoroughly in keeping with its current traffic needs, and of even greater importance, its potential needs. There is no way of definitely measuring tomorrow's requirements, but it can be truthfully stated that not a single community in this country has more well paved roads than it has good use for.

This matter of road building has its peculiarities. The criticism has been levied that those making commercial use of the highways should be heavily taxed for the construction and upkeep of the roads. Examination of state and local records reveals that commercial car owners are indeed paying their share, and sometimes perhaps more than their share, of the road expense. Commercial cars are nothing more than public servants, yet all too frequently heavy vehicles are unduly blamed for the excessive wear and tear of the public highway. Inferior streets naturally deteriorate under heavy traffic and clearly the community must build substantial pavements for this commercial travel.

Roads should be built that are wide and smooth, continuous and direct. By so doing transportation is improved and its cost is lowered. By so doing transportation is improved and its cost is lowered. That means that the public is benefitting itself.

The truth, it is all so wonderful that I just don't know how to express myself so I will just say that Orgatone is the most marvelous preparation I ever heard of. I now have a hearty appetite and eat three good square meals a day, my nervousness is leaving me and the numbness in my left side has been improved considerably. Orgatone is restoring my health and I am now so happy and grateful that I never lose an opportunity to speak a good word for this great medicine. I am more than glad to give this statement.

Genuine Orgatone may be obtained in Clarendon at the Stocking Drug Store.

"Constipation bothered me constantly and often times headaches bothered me. I tell you I was in a very badly run-down condition in every way, but in spite of all I could do in the way of medicine and treatment I just kept getting weaker all the time, and I finally came to the conclusion that nothing would ever do me any good.

"It was a hard matter for me to make up my mind to take this Orgatone, for I had been disappointed so many times that I had about lost faith in all kinds of medicines. I finally made up my mind to get one bottle of Orgatone, and if I felt that it did me good I would get more. To my great surprise, I commenced to feel better before I had finished my first bottle. Well, to tell you

"Now I eat even sauerkraut and sausage and feel fine. Adierika ended stomach gas and I feel 10 years younger."—Mrs. M. Davis.

Just ONE spoonful Adierika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adierika will surprise you. Douglas-Goldston Drug Co.

## MUST ELIMINATE ANTIQUE ROADS

COMMERCIAL HIGHWAY USE, BENEFITTING PUBLIC, DEMANDS BETTER SURFACE

By E. E. Duffy.

Antiquated highways, still quite common, have no honored place in the modern transportation scheme. Commercial usage of the highway is being made to an extent that almost bewilders the imagination.

Many railroad companies now operate bus lines. Motor coaches and trucks in some instances have replaced branch line steam transportation. The latest railroad to enter the motor transportation field is the Burlington which is now maintaining schedules between principal cities of Nebraska. A significant feature of this service is that it parallels railroad lines.

A fairly clear picture of the importance of the highway may be obtained from the railroad passenger figures of 1928 which show the lowest volume in 20 years. One of the leading railroads attributes this falling off in business to a number of causes but the chief is that of increased use of the passenger car and the motor bus.

Consequently highways are being punished today in a measure not anticipated a dozen years ago. Unfortunately much of this traffic is forced over roads as old fashioned as celluloid collars. Automobiles are not designed to jiggle over washboards, shell holes, or surfaces that wear out nerves as well as tires and other automotive equipment.

In buying new highways, a community can best serve itself by ordering roads thoroughly in keeping with its current traffic needs, and of even greater importance, its potential needs. There is no way of definitely measuring tomorrow's requirements, but it can be truthfully stated that not a single community in this country has more well paved roads than it has good use for.

This matter of road building has its peculiarities. The criticism has been levied that those making commercial use of the highways should be heavily taxed for the construction and upkeep of the roads. Examination of state and local records reveals that commercial car owners are indeed paying their share, and sometimes perhaps more than their share, of the road expense. Commercial cars are nothing more than public servants, yet all too frequently heavy vehicles are unduly blamed for the excessive wear and tear of the public highway. Inferior streets naturally deteriorate under heavy traffic and clearly the community must build substantial pavements for this commercial travel.

Roads should be built that are wide and smooth, continuous and direct. By so doing transportation is improved and its cost is lowered. By so doing transportation is improved and its cost is lowered. That means that the public is benefitting itself.

The truth, it is all so wonderful that I just don't know how to express myself so I will just say that Orgatone is the most marvelous preparation I ever heard of. I now have a hearty appetite and eat three good square meals a day, my nervousness is leaving me and the numbness in my left side has been improved considerably. Orgatone is restoring my health and I am now so happy and grateful that I never lose an opportunity to speak a good word for this great medicine. I am more than glad to give this statement.

Genuine Orgatone may be obtained in Clarendon at the Stocking Drug Store.

"Constipation bothered me constantly and often times headaches bothered me. I tell you I was in a very badly run-down condition in every way, but in spite of all I could do in the way of medicine and treatment I just kept getting weaker all the time, and I finally came to the conclusion that nothing would ever do me any good.

"It was a hard matter for me to make up my mind to take this Orgatone, for I had been disappointed so many times that I had about lost faith in all kinds of medicines. I finally made up my mind to get one bottle of Orgatone, and if I felt that it did me good I would get more. To my great surprise, I commenced to feel better before I had finished my first bottle. No matter what you have tried for your stomach and bowels, Adierika will surprise you. Douglas-Goldston Drug Co.

## U. S. FARM POPULATION LOWEST IN 20 YEARS

The farm population of the United States is now said to be the lowest in twenty years. The Bureau of Economics of the Agricultural Department estimates our farm population January 1st last at 27,511,000 as compared with a peak of 32,000,000 in 1909. But for the fact that the birth rate on farms has been exceeding the death rate, the farm population would be much lower today than it is, since the trend has been from rural to urban communities for some years. The Bureau states that 1,960,000 persons left the farm last year for the cities, while but 1,362,000 went from cities to farms. Improved transportation facilities have enabled many actual farmers to reside in towns and cities, where they desire to take advantage of the educational facilities for their children, and still operate their farms, but in these cases so living are no longer counted in the official statistics as farm residents, although to all intent and purposes they are farmers.

A \$150,000 poultry dressing and cold storage plant is to be built at Yoakum by outside capital. Half of the \$200,000 milk plant at Tyler is furnished by outside capital. Texas enterprises are growing increasingly attractive to financiers because of the opportunity for stable and satisfactory returns from the investments in Texas.

MAKING GOOD FARMERS BETTER

The community is full of good farmers, men who are conscientiously striving to get ahead.

Through systematic study of "better farming" we hope to be useful in helping those who will work with us to produce more and market to better advantage.

Better farming means merely more study—and we are here to help.

## You can bank on the quality of a cigarette that continues to be the biggest success in smoking history

Camels contain the choicest tobaccos grown... expertly blended for matchless taste and fragrance.

They have a welcome mellowness and mildness that you will find in no other cigarette. Smoke them as often as you like, Camels never tire your taste.

The quality of Camels is never permitted to vary.

Only a superior cigarette could have won and held world leadership for all these years as Camel has done.

**CAMEL CIGARETTES**

WHY CAMELS ARE THE BETTER CIGARETTE

NEW YORK - PARIS FASHIONS

FOR all of the talk about returning to the mode of another day and grace, for all of the ruffles and fine pleatings and soft cascades, the great dressmakers in Paris cannot resist, once in a while, the making of a frock that is as modern in its lines and planes as a New York skyscraper. Here is M. Jean Patou, the very same who last fall presented us with the mode of 1880, modified, to be sure, but still with all the detail intact. This spring he continues in the same mood, but here he shows a moire taffeta evening gown that could never have possibly been thought of but in the year 1923. It is very simply draped in horizontal fashion to mark the normal waistline. Its flounces are arranged to give added length and end in two sharply defined points at the front and the back. The large chou at one side is meant to flare well above the hip line. The copy sketched is made in tone of the new capucine shades that Patou favors, particularly in his spring collection. There are three of them, varying from light to dark and the light is especially brilliant when used in these new moire taffetas which include rayon in their weaving for added tone and luster.

APRIL SETS NEW RECORD IN CHARTERS GRANTED

Austin, Texas, May 20.—Establishing a new record for April, 262 new incorporations were granted charters by the Secretary of State to operate in Texas, according to Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas.

"Ordinarily, a decline occurs from March to April in the number of new companies formed, whereas there was a sharp gain between the two months just passed," Mr. Nichols said. "Only 247 charters were granted in April, 1928. Total capitalization of the 262 companies chartered during last month amounted to \$24,471,000, compared to the capitalization of \$8,748,000 in April of last year."

"An interesting feature of the month's record is the large number of new manufacturing companies, there being 53 in the whole list."

The Hagenbeck-Wallace Circus features more wild animal acts than any other circus now on tour. The circus also has the largest menagerie of any American circus and all of these will be at the 1929 State Fair of Texas for the entire period of 16 days, playing matinee and night performances daily.

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word genuine printed in red? It isn't the genuine Bayer Aspirin without it! A drugstore always has Bayer, with the proven directions tucked in every box:

Aspirin is the trade mark of Bayer Manufacture of Monocrocinol of Salicylicacid

POULTRY TIPS BY LEONARD I. BROWN

THE PROFIT LINE

Everything that has been treated in this column for the past number of weeks is vital to the success of every person who raises any poultry, whether on a large or on a small scale. We are approaching the parting of the ways, however, when those whose primary interest is in broilers and market poultry will want to start to develop their chicks along different lines than those whose bread and butter is in egg production. Of course the first essentials are that the chicks should live and grow along healthful normal lines. Poultry science in recent years however has taught us a great deal that can and should be done to bring the poultry enterprise to the point of maximum profit, along either the market, or the egg production, line.

Most poultry raisers are interested primarily in egg production. In raising birds for egg production, the government figures give us some interesting facts that in turn give each hen her quota, a kind of "budget" idea applied to poultry profits.

State figures vary slightly, but in the state of Washington, the feeding cost per bird is the equivalent of the price of 130 eggs and this is a pretty representative figure. The United States government tells us that the average American hen lays a total of less than 100 eggs a year. From this we easily gather that there are a lot of poultry flocks operating at a net loss to the owner and by totalling up the average yearly lay of all birds maintained, anyone can easily calculate, roughly, the number of eggs his average hen is either above, or below, the profit line of 130 eggs.

The problem of every egg-farmer is to get his average yearly egg lay per hen, above and well above the 130 egg mark. As it costs as much to feed a poor producer as a high producer, we can calculate, roughly, that a 150 hen, laying 20 eggs above the profit line, is twice as profitable and twice as valuable, as the 140 egg hen, laying only 10 eggs above the profit line.

So it is frequently by narrow margins that victories are won even in the humdrum of everyday work. The breeding of course is of the primary importance in egg production because "like begets like," but a great deal can be done by scientific and conscientious care and it will be our purpose in this column for several weeks to point out some of the best principles of development of both market, and egg production, poultry.

Poultry Tips Column conducted by Leonard I. Brown, internationally known authority and founder of the Brown and Mann strain of S. C. W. Leghorns. Enquiries addressed care of this paper gladly answered by Mr. Brown.

Texas stands seventh in automobile registrations with 1,214,297 motor vehicles licensed to use its roads. New York is first with 2,083,942 and California, Ohio, Pennsylvania, Illinois and Michigan follow in order ahead of Texas. Oklahoma with 529,843 is the nearest to Texas in the South and Southwest, and North Carolina with 464,376 leads in the "Old South."

THRIFT CAMPAIGN UNDER WAY IN OAKLAND FACTORY

A Thrift campaign, laid out on the same extensive plan as its large scale manufacturing operations, is now in progress at the Oakland Motor Car Company, at Pontiac, Michigan.

Since the modern plant of the company is now being operated in a highly efficient manner, the campaign is designed primarily to discover new ways or processes to eliminate waste of time or materials in the building of Oakland and Pontiac Sixes.

To enlist the aid of the workman in the campaign, the company management has offered, for suggestions which cut the practical means for cutting the costs of production, prizes totaling more than \$1,200.

Daily bulletins issued to the plant workers, exhibit boards mounted in the plant displaying items which may inspire prize plans and other features have been arranged to keep the workers' interest in the campaign.

While special inducements have been offered to plant foremen superintendents who offer plans to cut waste for some time past, the present campaign is directed to the workers because their proximity to the job places them in a particularly favorable position for seeing how the job might be done more simply or economically. Several other large manufacturers who have conducted similar campaigns have effected annual savings of thousands of dollars—savings brought about by cutting waste which was not known to exist until a special campaign brought it to the attention of the management.

The Oakland campaign ties in with the industrial elimination plan sponsored annually by the Government, which had its inception during President Herbert Hoover's active connection with the department of Commerce.

PART TIME STUDENTS FOURTH OF ENGINEERS

Austin, Texas, May 8.—Part-time jobs are being held by approximately one-fourth of the students in the College of Engineering at the University of Texas, according to Dean T. U. Taylor. One hundred and seventy-one of the 769 students enrolled in the College are engaged in work that pays part of their expenses while they are in school. Salaries paid these boys range from \$3 to \$150 per month.

Among the students who are working their way through school are 47 employed as waiters, 27 as student assistants in the university offices, 8 as janitors, 7 as newspaper carriers and 52 holding miscellaneous jobs. Insurance agents, radio operators, highway engineers, meter inspectors and house managers are numbered among the workers, Dean Taylor said.

Since January 1st over 32,000 carloads of fruits and vegetables have been shipped from South and Southwest Texas and the entire State is expected to ship 60,000 carloads before December 1. The average out-turn is about \$1,000 a car, representing an income of \$60,000,000 from this one source.

Nearly 3,000,000 acres of Texas land have been terraced in the interest of soil conservation and Farm and Ranch is getting under way a summer terracing campaign for stubble land.

Society

Presbyterian Auxiliary

The Presbyterian Auxiliary met at the home of Mrs. J. H. Morris Wednesday afternoon.

After a short business session, during which it was definitely decided that Circle No. 1 would hold a silver tea at the home of Mrs. R. A. Chamberlain May 23rd, Rev. R. S. McKee led the Bible lesson on the book of Acts.

During the pleasant social hour which followed dainty refreshments were served by the hostess.

B. Y. P. U.

The Intermediate and Junior B. Y. P. U. of the First Baptist Church gave a joint program Sunday evening, May 12th, in the form of a play.

The intermediates, in charge of Mrs. Cap Lane, presented the playlet, "A Gift From Mother." The Juniors, under the direction of Mrs. W. Z. Borron, presented "Honoring Mother and Father." The aim of this program was to inspire boys and girls to true loyalty and greater love for parents, and to create reverence and respect for the home.

Next Sunday, May 19th, a program will be given honoring the fathers.

T. E. L. Sunday School Class

The T. E. L. Sunday school class of the First Baptist Church met at the home of Mrs. Ed Speed Tuesday afternoon in a business and Bible meeting. The session opened with a scripture reading, the 19th Psalm, by Mrs. W. B. Simms, followed with prayer by Mrs. Cap Lane.

Mrs. Major Hudson was elected third vice president to succeed Mrs. Lindsey, who moved away. Plans for the class were discussed after which the Bible lesson, Genesis 10th to 22nd chapters were discussed.

The meeting was closed with prayer by Mrs. H. C. Brumley. A dainty ice course was served to the following: Meses, J. H. Harris, Lon Wood, V. B. Dawkins, W. B. Simms, Richardson Wood, H. C. Brumley, Eva Draffen, Major Hudson, Joe Goldston, W. C. Reed, J. H. Ticer.

Christian Ladies Aid

The Ladies Aid Society of the First Christian Church met in the home of Mrs. Ed Carlson Wednesday afternoon, May 15th.

The meeting was called to order by the president, Mrs. Sam Shaw. As one of the members, Mrs. L. B. Cooper, is soon to leave our midst, the devotional service was omitted and the afternoon turned into a social meeting.

Mrs. F. C. Johnson gave a reading, "My Sister's Best Friend." Little Blanche Baker also favored the guests with a reading which was very much enjoyed.

Hemstitching Mrs. C. A. Burton One Block South of Methodist Church. Phone 300.

Its style is the first indication of its big car qualities

One look at the New Pontiac Big Six and you know that here is something different in low-priced motor cars. It has the proportions, the rakish lines and the style of a fine big automobile. And this is only the first indication of its many splendid big car qualities with which it is endowed.

Prices \$745 to \$895, f. o. b. Pontiac, Michigan, plus delivery charges. Bumpers, spring covers and Loosley shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values. . . . Oakland-Pontiac delivered prices include only reasonable charges for delivery and financing.

SIMS MOTOR COMPANY THE NEW PONTIAC BIG 6 \$745 AND UP

PRODUCT OF GENERAL MOTORS

This was followed with a talk by Rev. Henry Taylor.

Mrs. O. D. Leisberg then took charge of the fruit and vegetable game. Each one was given pencil and paper which had been previously prepared. A story with dashes at intervals, which were to be filled in with the name of a fruit or vegetable. A great deal of amusement was occasioned by the reading of these papers after being filled out. Mrs. D. W. Clappitt captured the prize (a dainty handkerchief) in the contest.

The booby prize, a small snooker dog door stop, went to Mrs. Eva Humphrey.

The hostess then invited the guests into the dining room which was beautifully decorated in roses. The table piece was a large bunch of roses and spice pinks. Suspended from the chandelier was a water pot, from the spout of which came many gayly colored ribbons extending to the centerpiece, where buried among the flowers were the many beautiful handkerchiefs, gifts from the members to Mrs. Cooper.

After Mrs. S. B. Arnold made the presentation speech, Mrs. Cooper opened the packages and in her sweet way thanked each one for their gift.

The hostess then served dainty refreshments to the eighteen members and three guests present.

The meeting was dismissed by the singing of "God Be With You Till We Meet Again."

The guests departed, thanking the host and hostess for a delightful afternoon.

The next meeting will be with Mrs. Harve Cline, May 22.

WASHINGTON'S ESTATE LIGHTED ELECTRICALLY

On the theory that George Washington, were he alive, would enjoy modern comforts, the custodians of Mount Vernon have replaced candles with electric lights on the Virginia estate of the "Father of His Country."

The new facilities do not mar the ancient beauty of the place, however. All buildings except the mansion are supplied with electricity through underground conduits. The Mount Vernon Ladies' Association has entered into a contract with a local company to supply electrical energy.

The old kitchen building is equipped with an electric range and a refrigerating plant. Wood-lawn, adjoining Mount Vernon, home of Nellie Custis Lewis, formerly occupied by the late United States Senator Oscar W. Underwood of Alabama, is also equipped with electricity, as are old Christ Church in Alexandria where Washington was a vestryman, and the Fairfax mansion, Mount Eagle, near Alexandria.

PLYMOUTH CREATES PRODUCTION RECORD

Production of 1,000 cars a day within six months from the time its first car was manufactured is the record recently established by the Plymouth Motor Corporation at Detroit. "This is not only a record for the Plymouth," according to A. van Der Zee, General Sales Manager, "but for the entire industry, no other car ever reaching such an enormous production in such a short period of time."

"Although every effort is being made to meet the demand for cars, orders continue to be in excess of production figures," he says. "In the Plymouth plant, which is one of the most modern in the industry, everything is being done in installing the latest automatic machinery and time and labor saving devices to speed up production in order to meet the growing demand for the Plymouth. The Speed of the assembly lines has been gradually increased until now a complete car is coming off every thirty seconds."

"The unusual demand for the Plymouth car is proof of the fact that the motor buying public is becoming more and more experienced in the finer points of au-

MEMORIAL GATEWAY PLANS TO RECEIVE FINAL VIEWS

Austin, Texas, May 20.—Final plans for the \$250,000 memorial gateway to the campus of the University of Texas will be considered by the committee in charge, consisting of H. A. Wroe of Austin, President H. Y. Benedict and Dr. W. J. Battle, on June 3, when Pompeo Coppini, Italian sculptor who has designed the statutory for the monument, visits Austin. Coppini will be accompanied by a member of the firm of Walker & Morrison of Chicago, architects in whose hands the execution of the masonry designs has been placed.

The fund by which the monument is to be constructed was left to the University by the late Major George W. Littlefield of Austin, former University regent. General plans for the statutory were given Coppini some eight years ago. Heroic figures of ten Southern patriots have already been completed by him and now stand in the State Capitol, awaiting the completion of the other details of the monument.

tomobile construction and that it appreciates real quality in a low priced car."

## Simmons-Stewart

Mr. Frank E. Simmons, son of Mr. A. L. Simmons, of Hedley, and Miss Wille Maie Stewart popular daughter of Mr. and Mrs. W. C. Stewart of this city were married in the family home at eight-thirty Tuesday morning of this week. The immediate family of the bride and groom attended the wedding and also Miss Bess Fowler, a student of Simmons University at Abilene, Texas, who is a cousin of Wille Maie. Miss Fowler played the wedding march for this happy occasion. The ring ceremony was performed by Rev. S. R. McClung, pastor of the First Baptist Church.

The lovely bride was dressed in a wisteria dress with cream accessories. She carried a bouquet of rosebuds, which added to the exquisite beauty of the ceremony. The room was also decorated with roses and ferns.

The happy bride and groom left immediately after the wedding. They will make their home in Memphis, Texas.

It is interesting to know that this wedding was performed on the bride's mother's and father's wedding anniversary.

## Bride-Elect Honored

Misses Betty Weatherly and Edna Butler entertained with three tables of bridge, and a miscellaneous shower Friday afternoon at the home of Mrs. Emma Weatherly, honoring Miss Wille Maie Stewart, bride-elect of the week.

White spring flowers with a profusion of greenery brightened the rooms where the games were played.

Miss Lillian Murphy received high score and Mrs. W. C. Stewart cut consolation.

At the conclusion of the games the hostesses presented the honoree with the numerous packages which were brought by the guests and which contained many beautiful gifts.

Delicious refreshments were served to Misses W. C. Stewart, Geo. H. McCleskey, W. O. Butler, James Patman, Harry Weatherly, Sam Darden, Misses Esther Morrison, Lillian Murphy, Edna Mae Lafon, Geraldine Kelly Mildred Stewart, Mrs. Dunbar of Stamford and the honoree.

## 1926 Book Club

With the fast fleeting days when clubs will conclude their business for the year and members will be hurrying away on vacations, many Clarendon organizations are crowding the few remaining meetings with good times.

Tuesday afternoon Mrs. Elba Ballew entertained the 1926 Book Club and the scene of one of the most enjoyable entertainments of the year was laid in the club rooms. Beautiful roses and other spring flowers made the interior inviting and attractive.

Mrs. Sam Braswell was leader for the afternoon and the following program was given by local artists:

Piano Solo, Wedding of the Painted Doll—Mrs. Allen Bryan.

Vocal Solo, Sleepy Hollow Tune—Mrs. Loyd Stallings, accompanied by Miss Fray Stallings.

Selections by Mrs. Pearl Moore Stevens—Mrs. Sam Braswell.

Violin Solo, Indian Lament—Mrs. G. L. Boykin.

The Rival, by Kipling—Mrs. Joe Goldston.

Piano Solo, Air de Ballet—Miss Fray Stallings.

At the conclusion of the program, the hostess served a delicious plate luncheon.

This was the last meeting of the season for this club.

## Friday Afternoon Bridge Club

Mrs. Selden Bagby was hostess to the Friday Afternoon Bridge Club at her home the afternoon of Friday, May 17th.

The home was brightened with a profusion of garden flowers in many hues.

In the games of bridge Mrs. P. B. Gentry was given high score prize and Misses Dorr Ellis, Chas. Trent and Miss Mary Cooke received table favors.

A two-course luncheon was served at the close of the games.

Those present were: Misses Sam Dyer, Chas. Trent, M. P. Gentry, P. B. Gentry, Dorr Ellis, Holman Kennedy, J. H. Morris, O. L. Jenkins, L. S. Bagby, F. W. Taylor, Misses Mildred Martin and Mary Cooke.

## Saturday Bridge Club

Mrs. Geo. Ryan was hostess to members of the Saturday Bridge Club and few guests, including her house guest, Mrs. T. J. Considine of Amarillo, Saturday.

In spite of the inclement weather without, all was beauty within. Roses in every available place created a charming effect.

Mrs. W. H. Patrick was awarded high score prize, Mrs. L. L. Swan cut consolation and Mrs. T. J. Considine received guest prize in the games of bridge which furnished pleasant diversion for the afternoon.

Place covers were laid for Misses J. B. McClelland, A. L. Chase, Odos Caraway, W. G. Word, W. H. Martin, Robert Bigger, Chas. Bugbee, R. A. Chamberlain, L. L. Swan, L. S. Bagby, W. H. Patrick, L. L. Swan, and T. J. Considine of Amarillo.

## 1922 Bridge Club

Mrs. T. H. Ellis delightfully entertained the 1922 Bridge Club Tuesday afternoon in her spacious home. The entertaining suite was lovely with roses in keeping with the color scheme of pink which was carried out in the tallies and refreshment course. An enjoyable afternoon was spent at bridge, in which Mrs. W. H. Cooke won high score and Misses Kennedy, Odos Caraway and L. L. Swan cut table favors.

At a late hour a two-course luncheon was served to the following: Misses W. H. Martin, J. B. McClelland, L. S. Bagby, R. A. Chamberlain, Odos Caraway, W. H. Cooke, L. L. Swan, H. Glascoe, Bella Gentry, W. C. McDonald, Sella Kennedy, Miss Frances Cooke.

## Young Matrons' Bridge Club

The Young Matrons' Bridge Club members and a few guests enjoyed a pleasant afternoon last Thursday at the home of Mrs. C. W. Bennett, Jr.

The rooms were artistically arranged with roses for the occasion.

Mrs. Clyde Price was awarded high score for guests and Mrs. Leonard Parker received club prize.

Seated for the games were: Misses Clyde Price, Leonard Parker, B. Kirtley, Cleo Norwood, Lillian Brady, Sam Darden, Lanham Bell, Lenode Goldston of Amarillo, Ralph Bourland, Bascom White, Richard Bell and Miss Lotta Bourland.

## Miss Reatta Thomas

Hostess to Slumber Party

Wednesday night of last week Miss Reatta Thomas surprised the girls with a delightful slumber party. The girls were served with dainty refreshments which were enjoyed by all. They later attended College graduation exercises. Misses Thelma Youngblood, Cecil Hukel, Edna Mae Lafon, Pauline Lane, Maurine Woods, Nell Butler, Elsie Kiddle, Wylfa Alexander, Lavoca Moore and Mrs. Edna Moore were the guests of the hostess.

## Thursday Afternoon Bridge Club

Members of the Thursday Afternoon Bridge Club were entertained by Miss Beulah Baird at the home of her mother, Mrs. Baird, Thursday afternoon.

The entertaining rooms were attractively decorated with many lovely spring flowers, where a number of games were enjoyed.

High score for club members was made by Mrs. Clyde Price, and high score for guests by Miss Norma Rhode.

A dainty salad course was served to Misses T. H. Ellis, Chas. Trent, Clyde Price, M. H. Rhoades, Park Chamberlain, Johnson, Louie Merrill, Earl Alexander, Misses Anna Moores, Mary Cooke, Mary Stocking, Norma Rhode.

## Christian Ladies Aid

The Ladies' Aid of the First Christian Church met in the home of Mrs. Jim Casey Wednesday afternoon with ten present.

Mrs. O. D. Leisberg, assistant vice president, opened the meeting in the absence of the first vice president.

The meeting opened with prayer by Rev. Henry Taylor.

After the business session the devotional was led by Mrs. F. C. Johnson. The lesson on the 7th

## chapter of Mark was an intensely interesting one and enjoyed by all.

The meeting closed by all repeating the Lord's Prayer in concert, after which the hostess served delicious ice cream and cake.

The next meeting will be with Mrs. Harve Cline and all members are urged to be present.

Everett Johnson went to Chillicothe Wednesday night to be present at the graduation exercises of T. M. Young, Jr., son of Dr. and Mrs. T. M. Young.

## Thursday Afternoon Bridge Club

The Thursday Afternoon Bridge Club was entertained at the home of Mrs. Earl Alexander Thursday afternoon from 3 to 6 o'clock. A number of games were played in rooms made welcoming with roses and honeysuckle. High score favor went to Mrs. L. L. Swan; high score guest favor to Miss Rita Foster, while Miss Helen Martin cut consolation.

A plate luncheon was served to: Misses Chas. Trent, H. M. Rhoades, L. L. Swan, Forest Sawyer, Misses Anna Moores, Beulah Baird, Mary Cooke, Mary Stocking, Rita Foster, Helen Martin and Mildred Martin.

## Young Matrons' Harmony Class

The Young Matrons' Harmony Class of the Methodist Sunday school enjoyed a pleasant afternoon Tuesday at the home of Mrs. Fred Buntin.

The rooms were beautifully arranged with roses.

Forty-two was enjoyed for some time and later delicious refreshments were served to the following: Misses Ben Andis, W. Hutchins, J. J. Robinson, Tom Goldston, Norwood, C. W. Gallaway, Bascom White, Hudson, Paul Shelton, O. C. Watson, B. F. Kirtley.

## Miss Davilla Kelly Entertains

With Bridge-Dance Saturday

Miss Davilla Kelly entertained with a bridge-dance in her home Saturday night of last week. The guests enjoyed this occasion to the highest extent. The ones present were: Misses Betty Walker, Jane Killough, Edna Montgomery, Wylfa Alexander, Lois Alexander, Nadine Haile, Julia Taylor, Jim Cornelius, J. F. Smith, Jonny Tucker, Winfield Mosley, Joe Bounds, Tom Murphy, Paul Montgomery and William Green.

## Dr. Gallaway is Honored

With Birthday Dinner

A delightful birthday dinner was given in honor of Dr. C. W. Gallaway and wife in the Griggs home Tuesday night of last week. The hospitality shown to the guests and the well planned dinner was enjoyed by all. The guests present were: Mr. Ernest Hardin, Jack B. Jones, Pete Montgomery, Ernest Pope, Roy Allmond, Mr. and Mrs. D. S. Smith and Misses Opal Pyle, Dorothy White, Winnie Weatherly, Norma Rhode and Dewey Mitcham. In return to the pleasure given in honor of this occasion the guests wished Dr. Gallaway many more years of pleasure and happiness.

## Slumber Party

Miss Melba Del Warner entertained with a slumber party Friday night at the home of Mr. and Mrs. W. C. McDonald.

The six guests arrived about seven o'clock. Rook and music were enjoyed until nine o'clock, when supper was served, after which games and music were continued until a late hour when all retired for a slumberless night.

Those present for this occasion were: Misses Dorothy Headrick, Pauline Sanford, Jonnie D. Latson, Nova Cook, Glenn Curry.

## Episcopal Auxiliary

Members of the Episcopal Auxiliary met at the home of Mrs. C. W. Bennett, Sr. Wednesday afternoon with a good attendance.

Mrs. L. L. Swan led the Bible study, after which a short business session was held.

Delightful refreshments were served during the social hour.

## Methodist Missionary Society

The ladies of the Methodist Women's Missionary Society met in business session in the church parlors Wednesday afternoon.

**NOTICE FOR BIDS**

The Commissioners' Court of Donley County will receive sealed bids in their regular session of June 10th, 1929, for the purchase of one crawler type tractor of 60 to 80 horsepower. A certified check amounting to five per cent of the purchase must accompany all bids. The court reserves the right to reject any or all bids received.

Given under my hand and seal this, the 20th day of May A. D. 1929.

J. J. Alexander, County Judge, Donley County, Texas. (23c)

**MORE REPORTS ARE HEARD ON ANGELO**

**WINNINGS OF CLARENDON GOLFERS ANNOUNCED; WINNERS PRAISED.**

Following the introduction of the guests at the luncheon of the Lions Tuesday of this week, Lion Braswell made further report on the San Angelo convention. The work of the Clarendon club received special mention in the annual address of Lion Erhard, special attention being given to the work done in the past year with reference to the crippled children's work. Later in the convention the Clarendon delegation was asked to stand and were presented to the convention as one of the largest delegations with so many miles to travel to attend the meeting.

The 1929 convention was the largest that has been held by the district to this time, having double the attendance of other conventions in the state. Had the convention been held in Austin as originally planned, the attendance would have reached one thousand and will possibly top this mark by many delegates and visitors at the next convention. Every visitor who attends the convention, whether or not he is a delegate, returns to his home club more sold on the idea than ever before and more ready to set to work for the betterment of Lionism in his particular community than when he left.

Lion Douglas was called to the floor and told of the splendid spirit of co-operation shown by the other service clubs in San Angelo in assisting the Lions to put on a great convention. He stated that the city evidently surpassed all previous efforts at entertainment and that it was a most enjoyable event. His winnings in the golf tournament amounted to a pair of golf shoes that he said would be secured large enough to fit Lion Patman.

At this point in the program, ballots were passed to all members of the club for the purpose of obtaining representative statements from the Lions as to who should be the officers for the coming year. This information will be passed to the nominating committee, composed of the three immediate past presidents, who will make their report on June 4th.

Lion Watson announced the presence of a number of tickets for the performance, Liliom, that is being staged in Amarillo by the Little Theater for the Crippled Children's Fund. The entire proceeds of the affair will be given to the fund after all actual expenses have been paid. Lions or others wishing to be in on this fund will see Lion Watson or the Secretary and secure tickets at either place.

Lion H. E. Westmoreland of Amarillo stated that he had been out of Amarillo for the past two weeks and that he did not know a great deal of what was happening in that city. He stated that the performance would not be amateurish, but that it would do credit to towns many times the size of Amarillo. Lion Westmoreland further stated that he had been in a meeting in New York City with an idea in view of merging the Automobile accessory houses of the United States. It may be said that the firm he represents in Amarillo is listed among the first 100 in volume of sales in the United States, there being some 3,500 of these bodies operating in this country.

Talma L. Smith, former resident of this city and now of Washington, D. C., asked the co-operation of the Lions in taking the census of the city when this work would be started in the early part of 1930.

Mr. Ralson, of the state bindery

was the other guest, stating his pleasure at meeting with the Lions.

The presence of three cub Lions was mentioned and Lion Watson, head of this committee, asked that this matter be deferred to the next meeting when more time could be given to these members and that the committee might better have the matter in hand for the complete subjugation of these new entrants to the den.

A direct compliment was handed the club by a resident of the city who is unable to belong to the Lions due to her being a woman when she stated that she would belong to the club if she were a man for the reason that they were doing something.

A short report on the Lions Club at Hedley was made by Lion Nored, who stated that the matter was possibly held up by the absence of the chairman of the committee for the next thirty days on his vacation. A possible membership list of thirty has been secured and the men are apparently waiting for the signal to start. A little information was added to this by Lion Jolly who had been in Hedley Tuesday morning.

Lion McKee stated that the parade was called off last week and that nothing could be done in this connection as long as the schools of the city were not in session. The event will possibly be attempted this fall.

**BICYCLE RACE STAGED HERE TUESDAY SUCCESS**

A bicycle race held here Tuesday morning of this week by Claude J. Davis for boys between the ages of ten and sixteen, proved to be one of the most successful events of this nature that have been held here for some months. The time taken from Clarendon to the River bridge was seventeen minutes. The return trip took a little longer than this due to the fact that the boys had been fed with ice cream, cake and soda pop while they rested before making the start back to town. Twenty-eight minutes was required to make the trip back to town. Prizes to delight the hearts of a bicycling boy were presented the winners.

First place on the trip was won by Lawrence O'Neal, who was given a Morrow brake. Hollis Leathers took the second prize and received a United States Tire. Kenneth Sherman was third place taker and received a set of pedals for his efforts. Fourth place and a fine bicycle seat were the portion of Normal McCrary. Seven

prizes were first offered but as there were not entrants in all places, the boys contested to see who would win the remaining prizes on the return trip. Lawrence O'Neal was again victorious and won a prize of \$1.00 in trade, as did Normal McCrary. Hollis Leathers was winner of a fifty cent credit in trade.

In addition to his usual line of bicycles, Claude Davis states that he is planning to add the Indian line of Motorcycles, and so added to the attractions of the event by having Glenn Allen and Abe Cole as officials, each on their machine of this type. Bill Grainger and Frank Adams were also officials in the race.

Mrs. Harry Ruddell and son, Harold, are in Rochester, Minnesota, where they went for further treatment to Mrs. Ruddell. Reports received from Mrs. Ruddell indicate that the operation was performed Tuesday morning and that she is doing very well at the present time.

Laundry Washing guards health.

**WITH THE BOY SCOUTS**

Rev. Henry Taylor, Scoutmaster of Troop No. 1, will meet with the Scouts of the troop Thursday night. He has some fine plans for the troop and it is expected to grow from this time forward.

Boy Scouts making the trip to McLean Friday evening of this week are expected to take their own eats to the event. The committee in charge of the work in that city has yet failed to make arrangements for the barbecue as planned.

The Area Camp Committee will meet Sunday at Memphis to complete their plans for the Scout Camp in August. Camp registration blanks will be mailed out from Scout headquarters next week.

The Donley County Butter Judging Contest will be held in Clarendon Saturday morning, May 25th. The contest is open to any member of a Home Demonstration Club in the county and the hours will be from 9:30 to 12:00 o'clock. Miss Veda Swafford, County Demonstration Agent from Collingsworth County will judge the judges, repaying a visit made to that county some time past by Miss Thompson. Prizes offered will include a tire for each of the first and second place winners, given by R. L. Bigger; a waterless cooker for the third place and a year's subscription to The Clarendon News as Fourth place prize.

The contest will be held in the office of the West Texas Utilities Company, where refrigerators will be provided in which to place the butter during the judging. Miss Thompson stated that she would secure the butter for the judging.

**SECOND MISSIONARY BAPTIST CHURCH, LELIA LAKE, TEX.**

Laundry Washed Clothes Last Longer.

ITEMS OF INTEREST IN DONLEY

JERICO

The last rain that spread over the Panhandle wasn't needed at all. We are all hoping that it doesn't rain now for four weeks, because it isn't needed. Grandview came over Thursday to play the Jericho boys' base ball team. The score was 18 to 26 in favor of Grandview. Mrs. V. J. Glazener, Thelma, Buel, Dewey, H. C. and Junior went to the school picnic at Goldston Friday. No games were had on account of rain. Mr. Elmer Ashmead made a business trip to Amarillo Thursday. Mr. V. J. Glazener went to Groom Thursday afternoon. Miss Esther Davis from Alanreed spent Saturday with Miss Thelma Glazener. Mr. and Mrs. V. J. Glazener and family went to a play at Goldston Thursday night. The name of the play was "The Deacon Entangled." Mr. and Mrs. Carl Schaffer went to a play at Goldston Thursday night. Others attending the play from this place were Mr. and Mrs. J. E. Hunt, Mrs. Ruth Ashmead, Mrs. Bertha Ashmead, Mr. and Mrs. Roy Todd and six of the telephone boys. Mr. Lee Roy Spangler and wife have moved back to Jericho. Mr. Spangler is going to operate the elevator through harvest. They moved down from Amarillo. Mr. and Mrs. Herbert Hunt went to the picnic at Goldston Friday. Mr. and Mrs. Inman and sons, Cecil and Ernest, went to the play at Goldston Thursday night. The Inman boys entertained the people between acts. Mr. J. H. Henry made a business trip to Alanreed Tuesday afternoon. Mrs. Shoop and son, G. A. Shoop, made a business trip to Clarendon Wednesday. Mrs. Herbert Hunt made a business trip to Clarendon Tuesday. Mrs. Nola Hunt visited Mrs. V. J. Glazener Tuesday afternoon. Mr. Johnie Howell and Mrs. Henry Howell made a business trip to Groom Saturday. Mrs. Alma Bown from Wichita Falls visited her dad, Mr. O. C. Brown, last week-end. Frances and Elmer Ashmead went fishing north of here Monday. Mr. Rex Reeves from Lelia Lake visited his mother, Mrs. R. E. Reeves, Wednesday afternoon.

NAYLOR

Naylor has had her share of rain. All are of good cheer and ready to roll up the biggest crop ever. Mr. and Mrs. W. M. Pickering were Hedley visitors Monday. Will Pickering is one of our best farmers. Mr. and Mrs. T. B. Downing had with them Saturday night all the young folks. All made merry until a late hour. All regretted

to say good-bye so soon, but left for their homes wishing to be guests of Mr. and Mrs. Downing again real soon.

Mr. and Mrs. Wynne Bowlin and children of Hedley spent Sunday evening with the Rich Bowlin family. Mrs. S. K. Bunch and son, Sidney Rhea, spent Sunday with friends at Hedley. Misses Zelma Scott and Louise Tidrow left Sunday for Memphis where they will enter summer school.

Miss Lucille Pickering, who has been in school at Clarendon, is now at home for the summer. Miss Lucille has made a most splendid record at school and all Naylor feels proud of her. Mr. and Mrs. Walter Scott and Mrs. A. E. Tidrow were Memphis visitors Monday.

Our school is doing good work and will close within two weeks. The pupils have made good thanks to our most splendid teachers. Mrs. A. O. Hefner and Mrs. Weatherby took supper with Mrs. Frank Barton of Clarendon Thursday. Mr. and Mrs. W. M. Pickering spent Sunday afternoon with Mr. and Mrs. Frank Brown of Clarendon.

Mrs. A. O. Hefner and children took Mrs. Weatherby, who has been their guest, to Pampa Sunday and visited friends and relatives.

Mr. A. O. Hefner was called to Amarillo Monday to the bedside of his brother, Claude, who is very sick.

Miss Lucille Pickering spent Sunday evening with Miss Pauline Lane of Clarendon. Mrs. Mary Wood had a dinner guests Wednesday Mrs. A. G. Heiner and Mrs. Weatherby.

Pleasant Valley

Mr. and Mrs. Reed Clayton from Tulsa spent Thursday night in the Potter home. Mr. and Mrs. Fynn McMann and daughter visited Mr. and Mrs. Nedie Robinson Sunday afternoon. Mr. and Mrs. Slaton Mahaffey were dinner guests in the Longan home Sunday. Reba Shoffitt and Margaret Blackwell are spending a few days with Neva Riley. Mrs. Harlan and Miss Marjorie were callers in the Will Hardia home Sunday afternoon. Mr. Longan called on Mrs. Lamberson Monday afternoon. Louise and Jess Beach visited in the Robinson home Sunday. Mr. and Mrs. Elmer Palmer visited in the Hugh Riley home Thursday evening.

Misses Eula and Ola May Allen and Mr. Riley Allen were callers in the Lamberson home late Sunday evening.

Mr. and Mrs. Higgins and children called on Mr. and Mrs. Hugh Riley Sunday afternoon. Mr. John Hendrix from Wichita Falls, who visited Pat Longan several days last week, returned home Monday night. Mr. and Mrs. Sam Robinson spent Saturday night and Sunday

with Mr. and Mrs. Carl Parsons in Clarendon.

Mr. and Mrs. Zeb Morris spent Sunday with Mr. and Mrs. Lonnie Morris.

Mr. and Mrs. Ben Andis, Mr. and Mrs. D. C. Shelton, Mr. and Mrs. Potter and Miss Nan, Mrs. Goldston and Miss Helen, Mr. and Mrs. Chas. Corder and family were callers in the Longan home Sunday afternoon.

Mr. and Mrs. John Herndon are visiting Mrs. Herndon's parents at Lelia this week. Mr. and Mrs. Lee Singletary and Miss Oma Morris visited relatives at Martin Sunday afternoon.

Mr. and Mrs. Hugh Riley and children were callers in the Longan home Sunday afternoon.

Mr. Lamberson and J. T. visited relatives at Hedley Sunday afternoon.

Mr. and Mrs. Dorsett and family visited friends at Hedley Sunday.

J. C. Longan spent Sunday with Otto Beach. A. G. Lane and Wilford Andis spent Sunday with Harold Longan. Mrs. Lonnie Morris and Miss Oma Morris accompanied Mr. and Mrs. Ben Andis to Amarillo Wednesday.

Mr. and Mrs. Jim Pool and Mr. and Mrs. Rufus Pool visited their daughter and sister, Mrs. Richard Cannon, Sunday. Mr. and Mrs. Carl Peabody spent Saturday night with Mr. and Mrs. Loyd Moreland.

Mr. and Mrs. Loyd Moreland and children spent Sunday with Mr. and Mrs. Cannon in Clarendon.

Chamberlain News

Mrs. Roy Blackman, Mrs. E. L. Blackman and Miss Vera Blackman visited Mr. and Mrs. Neal Bogard of Sunnyview Thursday afternoon. Mr. and Mrs. Frank Choate of Clarendon visited in the Brogdon home Sunday. Mr. Frank Reid and Mr. Morris Millsap went to Brice Monday. Miss Alice Behringer spent Monday night in the Blackman home. Miss Gertrude Dingler visited Miss Marie Mae Sunday afternoon. Miss Baker of Memphis spent Saturday night with Miss Alice Behringer. Mr. James Bain spent Saturday night in the Reid home. Mr. Sam Ayres of Hedley attended singing here Sunday night. Misses Mary Wood Lane and Mae Dever spent Monday night with Mr. and Mrs. John Blackman. Misses Lois Webb, Maud Bledsoe and Alice Behringer spent Thursday night in the Ayres home. Misses Alice Behringer and Maud Bledsoe spent Tuesday night in the Hughes home. A crowd took dinner in the Reid home Sunday. Mr. and Mrs. John Blackman spent Sunday in the Deter home. Mr. and Mrs. Roy Blackman entertained with a party Tuesday night. Everyone had a good time. Everyone is rejoicing over the fine rains which have been falling.

Farmers will be very busy with their planters now, as several were waiting on a rain to plant.

Several of the Chamberlain folks attended the program at Sunnyview Friday night. A large crowd of young folks took dinner in the Brazille home Sunday.

Miss Rosada Reid spent Sunday with Misses Annie Marie and Mary Kathryn Hardin. Miss Pauline Foster entertained a few of her friends Tuesday night. Those present were: Misses Ruby Cearly, Lois Cearly, Loma Ayres, Ruth Hardin, Lola and Hazel Cook, Messrs. Dan Brazille, J. T. Cearley, Dial Cearley, Paul Cearley, Olen and Willard Cook. Ice cream was served. All had a big time.

Misses Ruby and Lois Cearley spent Friday night in the Cook home of Sunnyview. A party was enjoyed in the home of Mr. and Mrs. Bates Saturday night. Mr. and Mrs. Fletcher of Windy Valley were callers in the Brazille home Sunday evening. Mr. Jimmie Millsap, who is teaching school at Churchman, spent the week-end with his folks here.

Sunday school was held at the usual hour with very good attendance, followed by preaching by Bro. Hodges of Hedley. League at the evening hour; good attendance and a splendid program.

Mr. and Mrs. H. C. Tims and children, H. C. and Carmaleet, left this past week for a month's vacation traveling over several states.

Mr. Ed Lovell made a trip to Memphis Sunday. Miss Othello Poovey entertained her Sunday school class with a dinner Sunday. Miss Alberta Reid spent Sunday with Flora Durrett.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhea checked. A vegetable product, a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

Fletcher's CASTORIA

DR. CALDWELL'S THREE RULES

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming. The Doctor never did approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept. BB, Monticello, Illinois.

Makes Life Sweeter

Too much to eat—too rich a diet—or too much smoking. Lots of things cause sour stomach, but one thing can correct it quickly. Phillips Milk of Magnesia will alkalize the acid. Take a spoonful of this pleasant preparation, and the system is soon sweetened. Phillips is always ready to relieve distress from over-eating; to check all acidity; or neutralize nicotine. Remember this for your own comfort; for the sake of those around you. Endorsed by physicians, but be sure to get the genuine—

# Yawns Are Danger Signals, Science Discovers

## Books On Etiquette Must Be Revised Or Homes Healthfully Heated

Popular Science Series

By M. T. Head, Ph. D.

If you yawn at your next bridge party, don't be embarrassed, but warn your hostess that room temperatures have reached an unhealthy level. For science has now proven that yawning is one of the first danger signals of stuffy air and unhealthfully heated rooms.

Thus, far from being the breach of social etiquette generally supposed, the yawn, which has always been hidden apologetically behind the hand, should be brought immediately to the attention of the hostess, warning her that the overheated rooms may be endangering the health of her guests.

All recent investigations, states Dr. C. E. A. Winslow, Yale School of Medicine, show that temperature and moisture are the most important factors in connection with the injurious effects of badly ventilated rooms.

A temperature in excess of 68 degrees, he continues, exerts direct and important effects on the circulation of blood, causing an increase in body temperature, a rise in heart rate and a fall in vasomotor efficiency; markedly increasing susceptibility to diseases of the throat and lungs. Yawning is one of the signals that this unhealthy temperature has been reached.

Thus, instead of being an affront on the part of the guest, the stifled yawn is really a serious reflection upon the hospitality and thoughtfulness of the host. Widespread knowledge of these facts, scientists say, may result in rewriting our books upon social etiquette.

**Menace of Overheating**  
The bad physiological effects of unhealthful air were conclusively shown in a series of tests made by the New York State Commission on Ventilation when groups of students were subjected to various conditions of temperature, humidity and freshness of air.

The report of the commission

MENTAL ALERTNESS OF STUDENTS TESTED. THERMOSTATIC CONTROL USED TO INSURE CONSTANT, EVEN TEMPERATURE WHICH COULD BE CHANGED AUTOMATICALLY.

states that in all cases the effects of temperatures, moisture, and stagnant air were pronounced. "During the warmer hours," it continues, "regardless of whether fresh air was supplied or not, the students performed 15.4 per cent less work."

These students exhibited signs of fatigue in which inattention and desire to yawn were predominant. Again, when fresh air was replaced by stagnant air in the experiment, 9.4 per cent less work was done at the same relative temperatures and signs of fatigue occurred sooner; showing the bad physiological action of unhealthful air.

"In stagnant air," the report goes on, "at lower temperatures, students performed 8.1 per cent less work and at higher temperatures

10.1 per cent less work than when fresh air in motion was supplied. While, in the afternoon when students were already fatigued, a falling off in work of 21.8 per cent in cool air and as much as 35.9 per cent in overheated air was shown."

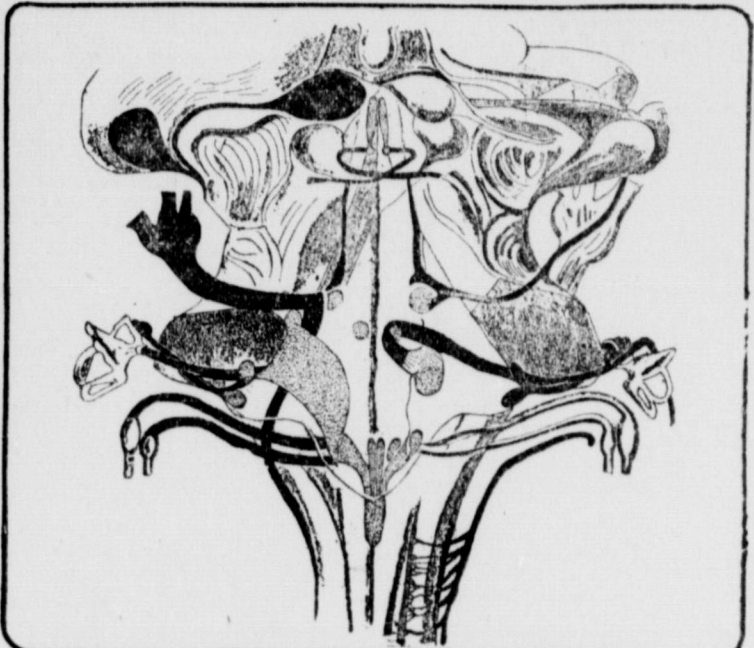

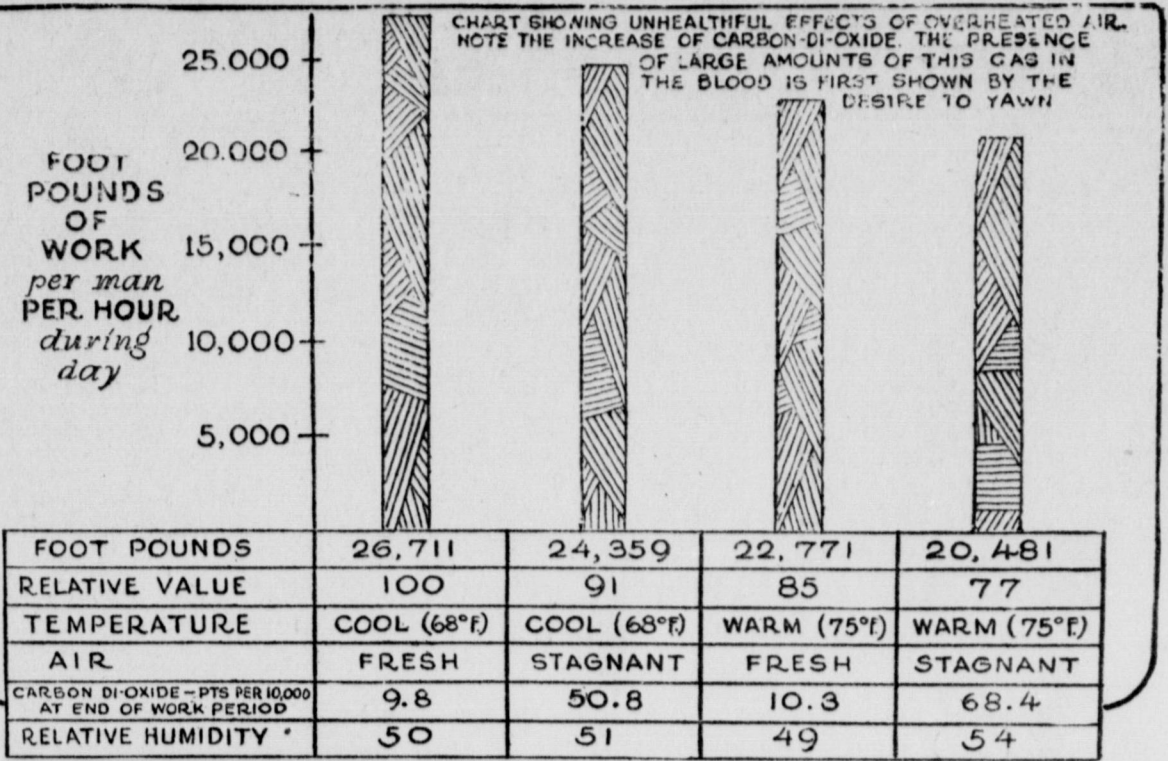

This is additional proof of the fact that hot, stuffy rooms lower the physical stamina of the body and that a student fatigued from work is more susceptible than an unfatigued student to the injurious effects of high room temperatures.

The reasons for this, as William H. Howell, professor of physiology, John Hopkins University, points out, lie in the fact that higher room temperatures tend to increase the amount of carbon dioxide in the air (see chart), which tend to

YAWNING IS SIGN OF FATIGUE IN ANIMALS

increase the amount of that gas in the blood. This acts upon the respiratory center located in the medulla, or the base of the brain, causing it to send out a series of nervous discharges through various nerve trunks to stimulate the action of the lungs. When the amount of carbon dioxide in the blood reaches a certain saturation this stimulation becomes pronounced, and is transmitted to the nerves which control the muscles of the

BRAIN OF MAN SHOWING LOCATION OF RESPIRATORY CENTER

face, automatically causing the person or animal to yawn.

Further experiments carried out in rooms where the temperature was automatically regulated show that even temperatures maintained at 68 degrees by thermostatic control are most healthful.

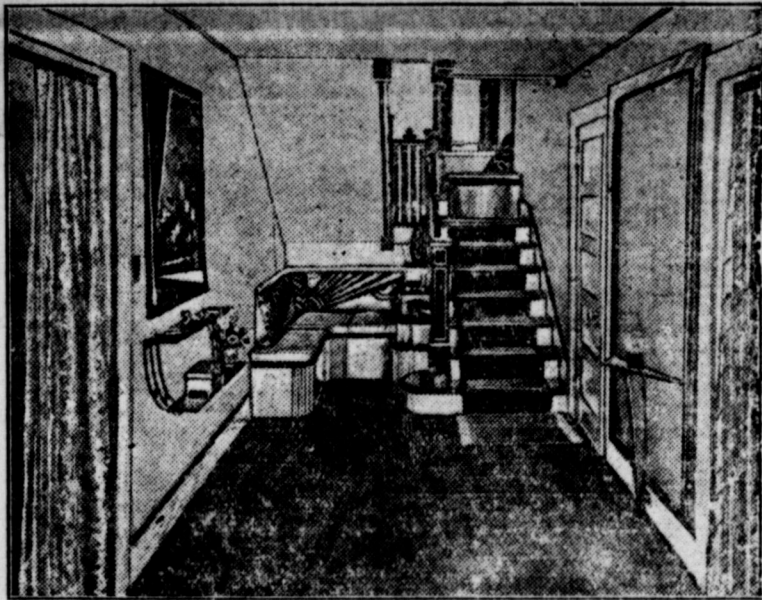

**Thermostats Used**  
In these experiments, clock controlled thermostats were used to make sure that even, constant temperature were maintained at all

times. For scientific accuracy was only possible when room temperatures were under automatic control. The same type of thermostat extensively used in regulating temperatures in dwellings was used throughout the experiments.

Results of these and similar experiments show that overheated

rooms reduce physical resistance. And one of the first warnings to us that the danger point in room temperatures has been reached is the socially despised yawn. But science has now shown that it is really a warning against unhealthy conditions and should no longer be classed as a grave social error.

## BEAUTY in the HOME

Modernizing A Little At A Time

By I. Beaman Sibley

ONE chief objection made to modern decorative art is that it is too radical. Which is no objection at all because it may be radical or not, depending on how it is used. The other main objection is the belief that it necessitates casting out all the old furniture and even perhaps, building a new house. The best answer to that is found in the work of a group of important artists who are showing us how to have a modernistic home and at the same time not entirely wreck the place. They show that interiors can be modernized, bit by bit, without costly additions. An example is pictured above.

It is the hallway of a semi-Colonial home in New Windsor, N. Y., typical of a wide range of American homes. The hall is in excellent modern taste, yet there is nothing fantastic about it nor has it apparently cost a king's ransom to do it. Color has been used discreetly. The walls are ducced in pure tones of yellow set off by green piping. The stairs, originally mahogany color, have been finished in the same way in a brilliant black. Green piping shows on newel post, banisters and rail. A jade green carpet covers the floor and knits the whole together with a feeling of spaciousness. The stairs have been extended by a carpenter to form a low sky-scraper cabinet, a triangular seat built at the top of the stairs and a corner seat at the left of the staircase. A silver framed mirror extends between the doors. The draperies are of the new silver nemoursa lacquered fabrics, machine embroidered and hang in sleek folds. The same material, air brushed, is used on the built-in benches, and has a lovely metallic luster besides being waterproof and durable.

This shows unusually well what can be done with simple measures and without great expense. The embroidered lacquered fabrics are particularly effective because, aside from their own charm, they are very adaptable. At any time modern wall coverings may be added and this ensemble will accept the new decorative features perfectly.

### NEW BOOKS ADDED TO LIBRARY IN SHOWER

The following is the list of books that were brought in to the library last Saturday in the book shower that was held for the purpose of enlarging its list. The list follows:

The Patrol of the Sun Dance Trail, Ralph Connor; The Age of Innocence, Edith Wharton; Uncle Mary, Isla May Mullins; The Romantic Comedians, Ellen Glasgow; Marie, the Unconquered, Kathleen Norris; Gulliver's Travels, Swift; Boy Scouts of America; Benjamin Franklin, Montgomery; The Brass Check, Upton Sinclair; The Boy Scouts for City Improvement; Rubiyal of Oma Khayam; The Best Man, Harold McGrath; The

Master Builder, Henrik Ibsen; By Love's Sweet Rule, Jackson; The Shepherd of the Hills, Wright; Ben Hur, Lew Wallace; The Man From Glengarry, Connor; The Last of the Plainsmen, Grey; What Does Christianity Mean, Faunce; The Mystery Lady, Chambers; Travelers and Explorers; The Gate's Ajar, Phelps; Through England on Horseback, Fitzgerald; Treasure Valley, Keith; The Orphan, Clarence E. Mulford; The Purple Parasol, McCutcheon; A Hardy Norseman, Syall; Arabian Nights; Better Say, Fernold; Helpful Hints; The White Mice, Richard Harding Davis; The Mistress of Shenstone, Barclay; The Range Dwellers, Bower; The Valley of the Giants, Pete B. Kyne; Poise, How to Ob-

## MOTORISTS NOW GET GOOD ROADS ALONG WITH GAS

FUEL PRICES PLUS TAXES STILL LESS THAN GAS COST IN 1920.

By E. E. Duffy.

Although gasoline taxes varying from two to six cents are now collected in all but two states, the motorist of today is paying less for fuel than he did nine years ago.

Then, when he purchased gasoline only; today he gets a full measure of gasoline and in addition he buys good roads.

The retail price of gasoline in Illinois nine years ago was 25 cents; after Illinois' new three-cent gas tax becomes effective in August motorists in that state will pay no more than 18 or 19 cents.

California has a three-cent tax, yet there the gasoline price of 23 1-2 cents is one-half cent less than in 1920.

Louisiana paid about 28 cents a gallon in 1920; today gasoline sells for 19 1-2 cents a gallon and that price includes a four-cent tax. Similar comparisons may be made for other states.

Gasoline tax money has been largely responsible for roads im-

proved beyond the graded and drained, and graveled stages. The importance of the gas tax is pictured, for example, in the pavement achievement of 1928. Altogether, American motorists last year contributed \$282,000,000 to state and county highway departments through the medium of the gas tax. During that same period approximately \$300,000,000 worth of first class pavements were built.

All gasoline tax money, of course, does not go directly to pavement construction. However, most all improvement programs are dependent in one way or another on funds derived from this source. For instance, three states last fall adopted highway bond issues totaling \$140,000,000 the retirement of which is largely dependent upon gas tax income.

The gasoline tax has become increasingly popular of late as a means for obtaining much needed road funds. The Oregon experiment in 1919 has resulted in the adoption of this form of taxation by all states for New Yorkers are to pay a 2-cent tax after April 30th.

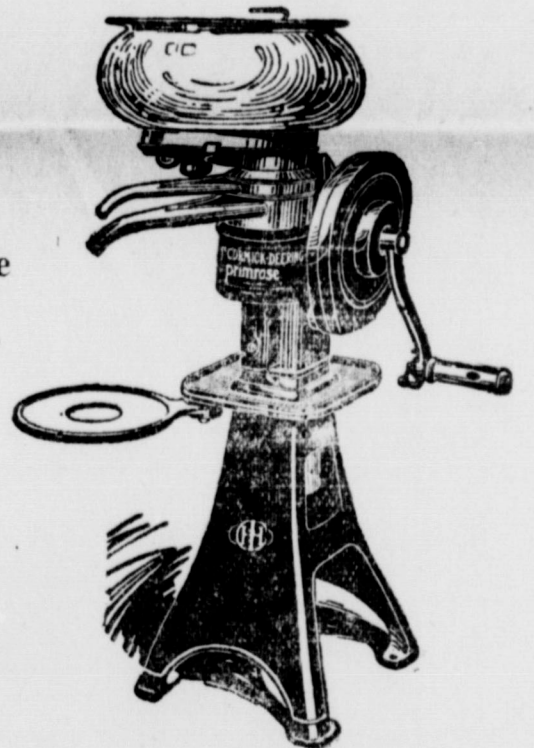

Gasoline tax rates have never been lessened; rather the tendency is to increase them. Many tax rates have been adopted with the proviso that the tax would be lowered or dropped entirely when roads were improved to a point where such a tax was no longer needed. With automobile usage increasing rapidly, no state is within shouting distance of such action.

Motorists will continue to pay this tax for some time to come, but with the comforting knowledge that they are avoiding a much more costly bad roads impost.

Not An Expense

It's a profitable investment

NEW YORK-PARIS FASHIONS

County News

THERE'S been so much talk about costume jewelry, and so much of it worn, that one wonders sometimes if there is anything more to be said. But the latest, and to our way of thinking, one of the smartest notions that has been presented for some time, is the fashion of wearing jewelry exactly matching the color of the frock in tone. This is especially effective when the color scheme is confined to one of the very new deep pastel shades that are being so much exploited for spring and summer wear.

DOCTOR OF TOWNS IS ONE WHO SPECIALIZES IN WORK "The Town Doctor, whose editorials have been running in News for several weeks, was once asked the direct question, 'Who is the Town Doctor and just what does he do?' His answer was— 'The Town Doctor is a physician, surgeon and diagnostician to Sick Cities, Faded Towns and Vanishing Villages, administering inoculations, vaccinations and injections of preventives against community diseases of thought, deed, attitude and activities; prescribing antidotes, tonics, diets and exercises that will revitalize, wake up and put pep into any community suffering from Civic Pride Paralysis, Low Citizen Pressure, 'Contemptuous Familiarity,' Civic Dizziness, 'Chronic Knock-knocks,' and Myopia (short sightedness)."

"Mr. A. D. Stone, The Town Doctor, is a man who has spent his life in studying and analyzing towns, cities and communities. He has traveled over 400,000 miles of United States highways and byways, seeking causes and working out effects of every phase of community ways of doing things, during which time he has compiled what is considered to be the most complete, bona fide, usable territorial analysis system ever devised. He has served towns, communities, various associations, many of which were international in scope, both actively and in advisory capacity, to an extent that there are few, if any, men in the country better able or more qualified to write and speak on the subjects covered in Town Doctor Articles.

WINDY VALLEY

Several from Lelia Lake, Newlin, Clarendon, Hedley and Windy Valley enjoyed a fish fry at the Taylor Lake Tuesday afternoon. After supper was served the remainder of the evening was spent in making ice cream and enjoying themselves. Those attending were: Mr. and Mrs. W. W. Dodson and family from Lelia Lake, Mr. and Mrs. White from Newlin, Mr. and Mrs. I. O. Noble and family and Miss Delia Barnes from Clarendon, Mr. and Mrs. Sam Ayers and daughter, Mrs. Fowler, and little son, S. J., Mrs. Cathy and daughter, Mrs. Watkins and daughter, all from Hedley; Mr. and Mrs. I. M. Noble and family, Mr. and Mrs. Clyde Fletcher, Mr. and Mrs. B. F. Fletcher and family, Mr. J. S. Thomson and family, Ira Paulk and Clarence Prescott, of Windy Valley.

Misses Willie Gossett and Mayme Bowling visited Juanita Simmons Sunday.

Mr. and Mrs. O. Noble and Mrs. I. M. Noble and daughter, Miss Gladys, and Miss Delia Barnes called in the B. B. Fletcher home Thursday afternoon.

Misses Veta Mae and Jewell Morgan visited Misses Hazel and Murle Cole Sunday evening.

Miss Delia Barnes from Clarendon, spent Thursday night and Friday with Miss Gladys Noble.

Misses Oneta Thompson, Connie Perdue and Margurite McCayec took dinner Sunday with Miss Mattie Fletcher.

Miss Ellen Munsey spent Saturday night with Misses Veta Mae and Jewell Morgan.

Miss Willie Gossett spent Saturday night with Mayme Bowling. Ben Henry Fletcher spent Tuesday night with Clarence Prescott.

A large crowd attended the party in the Paulk home Saturday night. All reported a good time.

Mr. and Mrs. I. M. Noble visited with Mr. and Mrs. Josey Hill bed time Saturday night.

Mr. and Mrs. B. F. Fletcher and daughter, Mattie, and Gladys Noble visited in the Brazille home Sunday evening and attended singing at the Chamberlain school house.

Miss Oneta Thompson spent Friday night and Saturday with Miss Connie Perdue.

Misses Edna Murle Busby and Mary Lovelace spent Sunday with Miss Elsie Josey.

Mr. Delmar Bramlet visited Mr. Dick Noble Sunday evening.

Mr. and Mrs. B. F. Fletcher visited Mr. and Mrs. Groom in the Naylor community Sunday.

The Texas pecan crop in 1928 was of estimated value of \$2,040,000 for the 450 car loads shipped. The crop is variable, according to weather and other conditions, and within the past ten years has ranged as low as 25 cars, valued at \$200,000 (in 1922). The largest production in that period was in 1919 with 500 cars valued at \$1,850,000.

T. E. Jackson, president, and Roy Rapard, secretary of the State Fair of Texas, are planning numerous free attractions for visitors to the 1928 Exposition.

SUNNY VIEW

The school taught by Mrs. Kim Day and Mrs. Mary Sue Walters closed Friday night after a very pleasant and successful term. A very interesting program was rendered by the pupils of both rooms. A large crowd was in attendance and all were well pleased with the rendition of their parts. Teachers are greatly loved by all, while the teachers declare they never taught a more interesting group of pupils.

Frank Hardin and Mrs. Hardin left Sunday morning for Dallas, where he will undergo an operation and have medical treatment.

Mr. and Mrs. Clarence Cannon and little daughter called on Mr. and Mrs. Neal Bogard Sunday afternoon.

Mr. and Mrs. W. A. Bailey spent a few hours with Mr. and Mrs. A. M. Lanham Sunday afternoon.

Mrs. Nelson Riley and daughters, Misses Kathleen, Ina and Pauline, and Master Jack, drove to Lelia Lake and visited with Mr. and Mrs. Bill Knowles. On their way home they called on Mrs. Neal Bogard.

Mr. and Mrs. Archie McNeely and children called on Mr. and Mrs. Neal Bogard Sunday afternoon.

Mr. and Mrs. John Goldston and

children visited with Mr. and Mrs. A. M. Lanham a while Sunday night.

Mr. and Mrs. Heckle Starks and mother spent Sunday with Mr. and Mrs. Neal Bogard.

Ray Roberts of Amarillo visited Wednesday with home folks and drove his car back after having left it the Sunday before.

Mr. and Mrs. A. M. Lanham called on Mr. and Mrs. Nelson Riley Thursday evening late. On their return home they stopped to see Mr. and Mrs. Neal Bogard.

Mr. and Mrs. Harve Smith spent Sunday afternoon with Mr. and Mrs. Neal Bogard.

Mr. and Mrs. Kim Day entertained her pupils with a party Thursday night. Ice cream and cake were served to a jolly crowd of children. All had a very pleasant time.

The new Livestock Coliseum, now under construction at the State Fair Grounds in Dallas, will be one of the largest buildings of its kind in America, having an arena space of 100 by 168 feet, and a seating capacity of six thousand.

The Paris Chamber of Commerce and the three banks of Paris financed the purchase of the Riley Green herd of Jerseys, to be sold to Lamar County farmers on easy terms, for the development of the dairy industry there.

For the first time in history the investment in American railroads has reached an aggregate sum equal to \$100,000 per mile of line operated.

More than 200 bands from various sections of the state are expected to be entered in the \$10,000 band contest to be held during the 1929 State Fair of Texas, according to officers of the Texas Band Teachers Association.

The Hagenbeck-Wallace Circus, premier wild animal show of the world, will be the Grand Stand attraction at the 1929 State Fair of Texas, Oct. 12 to 27th. This will be the longest single engagement any circus has ever played the South, having a total of 32 performances.

W. T. Johnson, West Texas millionaire cattleman, will produce the rodeo which will be the feature in the new Livestock Coliseum during the first nine days of the 1929 State Fair of Texas. Mr. Johnson produced the rodeo at San Antonio last year during the national convention of the American Legion.

Professor Floyd Field, mathematics teacher and dean of men at the George School of Technology, has bought a new Model A Ford automobile after the exceedingly serviceable career of his old Mod-

el T. He drove the old car, which he still owns, 150,000 miles, a distance equal to six trips around the world. He burned 10,000 gallons of gasoline and wore out 17 sets of tires.

Texas counties have been given the privilege of selecting their own crops for exhibition at the 1929 State Fair of Texas. New score cards for agriculture at the 1929 exposition which have recently been adopted puts every county in the state on an equal foot-

ing. A third more space is being added to the Agriculture Building.

F. H. Merritt, photographer of San Pedro, Calif., has made several trips by automobile from his home to Boston, Mass. This year he drove a Model A Ford Tudor Sedan and the entire round trip cost him \$128. He traveled 9,104 miles and his only trouble was one punctured tire. His daily average was 325 miles.

YOUR SUMMER VACATION— Does it find you ready to meet the emergencies of the season, or are you in hard financial straits and unable to carry out your plans? If so, now is the time to prepare for your next summer's vacation. A small amount each month will do the trick nicely and you will hardly miss the money. TRY IT ONCE. THE FIRST NATIONAL BANK

## LELIA LAKE

V. H. Wisdom visited with his sister, Mrs. Mantooh, of Goldston Sunday.

Our school closed a very successful term last Friday, May 17. The closing exercises began May 12th with the commencement sermon, preached by Rev. McClung, pastor of the First Baptist Church of Clarendon, which everyone enjoyed and pronounced very appropriate for the occasion. After church the graduates, their sponsors, high school teachers and a few other guests were driven to the beautiful country home of Mr. and Mrs. J. C. Christal where a delicious three-course luncheon was served by the hostess. After lunch the guests spent the remainder of the afternoon in the Christal home, passing the time away in pleasant conversation and other amusements. Late afternoon the guests departed, thanking their host and hostess for a delightful time, long to be remembered by Margaret and Billy Christal, Hugh Knox, Orbie Mayo, Dollie Watson, Jewel Lewis, Hugh Blaylock, Orval Davis, Vera Brinson, Louie Self, Gertrude Self, Prof. Reeves, Hessie Holland, Loucy Stogner, Julian Ewing, Dorra Kelly, Rev. McClung, Lee and Alta Lewis.

The exercises were continued Wednesday evening, May 15th, with an interesting program presented by the primary and grammar grades to a large and attentive audience.

Thursday evening Mrs. Brooks of Hedley presented her piano and voice pupils in a recital that showed a marked improvement in their work.

Friday evening brought the year's work to a close with the usual graduating features.

Judge Cole of Clarendon made a splendid address to the class, after which Supt. Reeves, in a few well chosen words, presented the diplomas to Billie Christal, Margaret Christal, Hugh Blaylock, Orval Davis, Hugh Knox, Orbie Mayo, Jewel Lewis and Dollie Watson. Orval Davis received the scholarship from Clarendon College and other schools, being the honor pupil of the class. Dollie Watson received the scholarship from Abilene and others as she made the highest average among the girls.

The seventh grade received their certificates, after which Rev. W. W. Eaves, pastor of the Second Baptist Church, pronounced the benediction.

Mr. and Mrs. Lige Mace of Hedley were guests in the home of his father, J. R. Mace, Sunday.

Those attending the district conference of the M. E. Church were: Rev. and Mrs. J. D. Jenkins, W. A. Creamer, A. H. Shaw, and W. L. Blaylock.

Miss Vera Brinson left Monday morning for her home in Hedley. Miss Brinson has been in our school for two years and she is one of our most valued teachers.

Misses Mattie Lou Blaylock and Lorene Howard and Marie Darnell entertained with a farewell party Tuesday night for Miss Hazel Harland in the Blaylock home. After playing many interesting games refreshments were served to Hazel Harland, Marie Darnell, Velma Shaw, Jewell Smith, Margaret McElyea, Lorene Howard and Bill Shaw, Ed Morton, Ellis Barker, Boner Howard, Skeet Reynolds, Silas Knowles, Clyde Putman and Frank Shaw, after which the guests departed, expressing their regrets to Miss Hazel on leaving our community.

Miss Vera Garland has returned to her home in Hedley after completing a very satisfactory year as teacher here.

We are sorry to state that Mr. and Mrs. Otis Smith are moving

to Memphis, as he has accepted a very attractive position with a business firm of that city. Mr. Smith has been a teacher in our school for the last two years and he has made many warm friends here who regret very much to have him leave our school and especially his pupils regret his leaving, but the best wishes of the people of Lelia Lake go with him and his wife and baby to their new home.

The graduating class entertained for Miss Dollie Watson with a handkerchief shower and farewell party Saturday night in the home of their sponsor, Miss Alta Lewis.

Mr. and Mrs. Oden Weems of Hereford spent several days last week in the home of Mrs. Weems' parents, Mr. and Mrs. W. A. Creamer.

Miss Dollie Watson, one of our honor high school graduates this year, left for her home at Post Oak, Texas, this morning. Miss Dollie has been attending school here for the last three years and she has made many lasting friends who wish her every success in life. She was accompanied home by her mother and brother who came up last Wednesday to attend the graduating exercises.

Mrs. Bessie Reynolds of Clovis, New Mexico, returned to her home Monday, accompanied by her sister, Miss Altha Knox.

Mrs. W. C. Reeves and children spent last Thursday in Goldston with relatives.

Mr. and Mrs. John Howard and son visited in Memphis last Sunday with Mr. Howard's brothers.

Mr. Reeves left Monday for Lubbock, where he will attend Tech this summer.

Miss Catherine Bills and Mr. W. S. Smith of Newlin were married at the Baptist parsonage last Wednesday evening.

Mr. and Mrs. John Easley of Ashtola visited in the home of her sister, Mrs. D. W. Hinkle, last Saturday.

Miss Mary Boyce has returned to her home after a visit of several weeks with her sister in Lubbock.

Mr. and Mrs. Charlie Bairfield of Clarendon were callers in the Blaylock home Sunday afternoon.

Mr. and Mrs. R. R. Crawley and Miss Vada Crawley, a teacher in the Wellington high school, and Miss Pearl Huffman of Mobeetie visited Mr. and Mrs. W. L. Blaylock.

We are glad to report that Addis Holland, who a few days ago was in a very serious explosion of dynamite while working with a construction company in Arizona, returned to his home here last Friday. He was accompanied by his mother, who was called to his bedside after the accident.

We are glad to have Miss Wilma King back in the community since the schools closed in Clarendon. Miss King was a member of the Senior high school graduating class this year.

Mr. and Mrs. C. C. Harlin and children left Saturday morning for Kerrville, Texas, where Mr. Harlin has bought a home. The best wishes of the people of Lelia Lake go with Mr. and Mrs. Harlin and they will be missed in church and social circles of the community.

Mr. and Mrs. Joe Johnson were week-end visitors in Chillicothe.

Mrs. Clyde Crews visited with her parents, Mr. and Mrs. Bourland for the week-end, returning to her home in Turkey Monday morning.

Mr. and Mrs. Milo Dodson of Memphis attended church here Sunday night.

More than one-half of the 254 counties of Texas were represented in the Agricultural exhibits of the 1928 State Fair of Texas. It is expected that many more than this number will exhibit at the 1929 exposition.

**POSTED NOTICE**

The public is hereby warned that hunting and wood hauling is forbidden in the R. O. Pasture. All trespassers will be vigorously prosecuted.

**U S C C MAN TO BE HERE ON MAY 29**

AGRICULTURAL REPRESENTATIVE WILL CONFER WITH LOCAL CITIZENS.

As a part of the service of the United States Chamber of Commerce, which Clarendon has recently joined, Delos L. James, assistant manager of the Agricultural department of the organization, will come to Clarendon on Wednesday, May 29th, for a conference with chamber of commerce officials, the agricultural committee and other interested citizens of Donley County.

Mr. James is one of the best informed men in the nation on the present-day problems of the farming communities, and his appearance here is expected to be productive of many helpful suggestions in line with the adopted program of diversified farming in Donley County.

According to Secretary-Manager Boykin of the local chamber of commerce, a luncheon will probably be served in honor of Mr. James, and will be open to all those interested in bringing agriculture up to its highest standards in this section. Details of this luncheon are yet to be worked out and will be announced in next week's issue of The News.

Mrs. Paul Reeves spent the week-end at her home in Jericho.

**VIOLIN-PIANO RECITAL TO BE HELD FRIDAY EVENING**

Students of Miss Fray Stallings, teacher of piano, and of Mrs. G. Lester Boykin, instructor in violin, will be presented Friday evening of this week in a recital. The auditorium of the First Methodist Church has been chosen as the place for their appearance and the public is cordially invited to hear the program. The following outline has been prepared for presentation on that occasion:

- Melody, Rubenstein—Violin Ensemble.
- Water Lily, Duclle—Harvey Lpu Strawn, accompanist, Lois Strawn.
- Valse Gracienne, Heins—Virginia Cluck.
- Song Without Words, McIntyre—Lovella Bell.
- Andante, Newton—Joyce Link.
- The Boy Scout, Kroeger—Kedron Evans.
- Melody in F, Risher—Bobby Boston, accompanist, Mrs. U. J. Boston.
- Shadow Dance (From Dinorah), Meverbeer—Verna Latson.
- Traumerel, Schuman—Sallie Smith, accompanist, Elma Smith.
- Dance of the Brownies, Kamman—Mary Smith.
- Cavatina, Raff—Agatha Taylor.
- Minuet in G, Beethoven—Mary Lou Hemminger.
- Waltz in E Major, Chopin—Delphia Bones.
- Mazurka, Demuth—Louis Wilder.
- Kujawiak, Wieniakski—Marjorie McKillop.

Mr. Eddie Frantz visited his mother in Apache, Oklahoma, last week.

**CLEAN UP WORK GOING FORWARD**

REPORTS INDICATE THAT ENTIRE CITY IS JOINING IN MOVEMENT.

The annual clean-up of the city of Clarendon is making satisfactory headway according to late reports received from the office of the Mayor. A list is being kept of those who have trash to be hauled away and the trucks are making their rounds collecting such material as may have been placed for disposal during the past week. It has been mentioned before this time that the condition of the city was very good inasmuch as the clean-up of last year was the most successful that has been staged in the history of the town. The work is proceeding at a nice rate and by the end of the period, which has been set for Saturday of this week, the city should be in a spotless condition.

The proposed parade that was scheduled to be held last Friday was called off, but the organization is proceeding as though the parade had been held. The boys are working at their appointed tasks and are finding that they have plenty to do in assisting their elders in the work of cleaning the town.

It is thought that no such record of loads of accumulations will be had as last year and certainly not a single place can state that ten loads have been carried to the dumping grounds to the north of the city.

**DOUGLAS IS WINNER OF SHOES IN SAN ANGELO**

Lion Clyde J. Douglas, member of a foursome of golfers who made the San Angelo Lions' convention a short time past, was notified the latter part of last week of his winning a pair of golf shoes for his prowess in the royal game of golf. Mr. Douglas won his shoes by having been sufficiently lucky to hit a Blind Bogey square on the nose for the prize offered in this event. Clyde shot a score of a net 76. Runner-up in this event was J. O. Blakeney of Stephenville.

**ROACH BOY INJURED**

The young son of the Roach family north of Clarendon is in an Amarillo hospital suffering from serious injuries sustained here a few days before the close of school when, it is alleged, several of his school mates threw him off a bridge and jumped on him. The lad is about ten years old and from the meager reports obtainable is in a serious condition. The case is being investigated.

Mrs. Bailey and daughter, Jewel, left for San Angelo Saturday morning, of last week.

Messrs. Homer Mulkey, Odos Caraway and J. L. Bain are in Amarillo this week attending the sessions of the Federal Court in that city. They will be there until June 3rd.

**PERSONALS**

Mr. and Mrs. Jones from Plainview visited in the home of Mrs. T. W. Welch Sunday of last week.

Mr. and Mrs. R. H. Jones from Hedley shopped in Clarendon Tuesday of this week.

Mrs. J. E. Oden is visiting her brother, Rev. L. K. Bones of Terrell, Okla.

Mrs. T. J. Considine of Amarillo was the guest of Mrs. Geo. Ryan last week.

Mr. and Mrs. T. A. Christy and sons, George and John, of Arkansas, are guests of the gentleman's sister, Mrs. Ellen Morris.

Mr. and Mrs. Charles H. Dean, Jr., of Dimmitt, spent the last week-end here in the home of Mr. and Mrs. C. M. Lane.

Mesdames Earl and Ernest Naylor and Misses May and Eula Naylor motored to Amarillo Tuesday of this week.

Miss Temple Harris, teacher of Latin in Clarendon High School, left Saturday for her home in Austin.

Misses Frances and Helen Cooke returned home Tuesday from Panhandle, where they taught school the past term.

Miss Dorothy Headrick left Sunday for Amarillo, where she will make her future home with her father, Mr. Norton Headrick.

Mrs. Fred W. Rathjen left Saturday evening for San Marcos, where she will visit with relatives for the coming week.

Mr. and Mrs. B. C. Antrobus are visiting friends and fishing in Iowa Park, Wichita Falls and San Angelo.

Little Miss Bobbie Lynch of Claude is the guest of her grandparents, Mr. and Mrs. O. D. Leisburg.

Laundry Washed Clothes are Cleaner.

Mr. Jack Jones and Mr. Lawson Vinson went to Mangum, Oklahoma, Wednesday of last week on business.

Miss Mary Stocking and Frank Stocking went Monday by auto to Cleburne, Texas. They took Miss Rita Foster home on their trip.

Mr. and Mrs. W. C. McDonald and children, Jean and Ruth, spent the week-end at the home of Dr. and Mrs. M. H. Rhoades in Ash-tola.

Clarendon Drug Store is placing bill boards about fifteen or twenty miles out on highways. These advertising boards are 3x4 feet.

Mrs. Annie Parks and daughter, Sue, returned from San Marcos and McAllen, Texas, Monday of this week, where they visited relatives.

C. E. Killour's is planning to attend a meeting of the Secretaries of the National Farm Loan Association that will be held in Pampa Saturday of this week.

Mr. and Mrs. H. J. Edgington, Mrs. M. M. Cook and daughters, Misses Nova and Nell, and Mrs. J. S. Patton of Thurber, motored to Pampa Tuesday.

Mrs. J. L. McMurtry and children, Alfred, La Verne and June, left Friday morning for Cordell, Okla., where they will visit Mrs. McMurtry's parents, Mr. and Mrs. Dodson.

A horse show and style revue will be presented in the new livestock coliseum at the State Fair of Texas during the last four days of the 1929 State Exposition.

"The Red Robo," Auditorium attraction at the 1929 State Fair of Texas is now playing on Broadway, and will come to Dallas, direct from New York, bringing the cast which has made it one of the most popular of all Shubert productions. Walter Wolf, Marjorie Peterson and George Dubbs who were at the 1927 State Fair in "Countess Maritza" will return in "The Red Robo."

**WORLD SYNCHRONIZATION SOUGHT THROUGH RADIO**

Radio is to be brought to the aid of the synchronization of clocks throughout the world. In spite of every effort there is a variance of time in different countries with inaccuracies apparently unavoidable. The proposal is to maintain a central astronomical observatory from which a master clock will send by radio the tick-tock all over the world. Television also would be brought in to synchronize all clocks with the master timepiece and it is claimed there would never be a variance of more than one one-hundredth-thousandth of a second between the master and minor clocks in the system.

The first shipment of Wise County cream ever sent North was the carload recently shipped by the Tennessee Dairies from Decatur to Philadelphia. The cream tested 40 per cent butterfat and it was shipped in a refrigerated express car. Skim milk is being processed into powdered and condensed products at the Decatur plant, which is handling 35,000 pounds of milk daily.

Texas ranks second in value of exports with raw cotton first in value of its exports.

One-third of the commercial spinach crop of the United States is grown in Texas, most of it in the Rio Grande Valley.

The Texas public road system comprises about 180,000 miles of which nearly 20,000 miles are known as "improved." State and Federal improved highways total 9,545 miles and there are about 10,000 miles of gravel, sand-clay or other improved roads.

The Censorship Committee of the Gainesville Retail Merchants Association last year saved Gainesville merchants \$5,500 by "turning down" worthless or fraudulent advertising schemes. A \$5 fine is levied against members patronizing schemes not sanctioned by the censors. Of 31 advertising "schemes" submitted, only three were recommended to members.

**PATRICK NAMED U. S. COUNCILLOR**

CHAMBER OF COMMERCE ELECTS REPRESENTATIVE TO NATIONAL C. OF C.

W. H. Patrick, president of the First National Bank of Clarendon, was elected national councillor of the United States Chamber of Commerce, representing Clarendon, by action of the board of directors of the local chamber of commerce in the regular meeting held Monday evening.

Since the local organization has become a member of the national chamber of commerce it became necessary to name a national councillor, whose duties it will be to answer questionnaires sent out from Washington, D. C., on civic, economic and social matters dealt with by the national body. It is also the duty of the councillors to act in an advisory capacity with the directing board of the U. S. Chamber of Commerce, in its annual meetings. Councillors from chambers of commerce from the smaller towns of the nation have the same rights, privileges and

vote on a parity with those from the largest cities.

The councillor will also make annual reports to the local chamber of commerce concerning the plans and motives of the national body.

Mr. Patrick was chosen to this important post on account of his recognized grasp of regional thought in the realm of business and finance.

**NEW HAMMER MILL BOUGHT FOR THE SIMPSON MILL**

The new owner of the feed mill in Clarendon made announcement this week that he had purchased a "Blue Bird" hammer mill for immediate installation in his plant here. The new mill will be installed in a basement that will be dug in the rear of the building now occupied by the plant and will be fed by gravity, the material to be ground being pitched directly from the wagons and falling into the mill. The delivery will be had by means of fans which will either place the ground feed directly back into the wagon or into sacks as the owner may desire. Mr. Simpson stated that the mill would be installed in the very immediate future.

**FAIRBANKS-MORSE  
Steel Eclipse  
Windmill**

Two windmills stood just across the road from each other. With the first sign of a breeze one started up smoothly and quietly. When the breeze became a wind, the other started with a groan and lumbered away only as long as the wind raised a dust in the road.

That is the difference between accurately machined gears and ordinary cast tooth gears; the difference between turned, ground and polished shafts and ordinary shafts; the difference between machined and polished bearings and ordinary bearings; the difference between running in oil and running with dry bearings and gears.

In other words, it is the difference between the Fairbanks-Morse Self-Oiling Steel Eclipse Windmill and just an ordinary windmill.

Let us show you the self-oiling, all-metal Steel Eclipse.
