Cream Shipments Again Show Increase

Airport Expert Tells Of Future Airplane Expansion

CREAM RECEIPTS AGAIN SHOW GAIN

TOTALS FOR MAY MORE PALEONLOGIST IS HERE THAN DOUBLE THOSE

Sales of cream for the month

The total shipped for May brings the cream shipments for the year to 1,751 cans. These ship-ments are divided as follows: January 210; February 214;

played in the Pastime Theater this evening instead of the usual picture that was planned for this evening. The cast has been working hard on their parts for the past few weeks and have this worked up to such an extent that it will be one of the very best productions that has ever been staged in the city by an amateur

The play will be carried to Memphis Friday evening of this week and if the roads are suf-ficiently dried, the attraction may be presented in other nearby towns. The play is being produced under the direction of Miss Esther Bell Haning and members of the First Christian Church are the greater part of the cast.

Miss Jessie Ingram is visiting relatives in Los Angeles, Califor-nia, during this summer and will complete her work that leads to her degree while she is in that

Mr. and Mrs. Will Lewis returned to Dallas Friday night after being here at the home of Mrs. Lewis' mother, Mrs. C. J. Lewis in her last illness.

NEW CASING SET

EIGHT INCH' LINE IS SET AND DRILLING IS TO PROCEED AT ONCE.

Reports of progress being made on the Marine Oil well to the north of Clarendon indicate that everything is looking good since the late difficulties failed to make any impression on the optimism of the drilling company. The eight inch casing arrived the fore part of this week and was being run Tuesday and Wednesday. Mr. Smith stated that no difficulty was expected in certains.

day. Mr. Smith stated that no difficulty was expected in getting this work done and that a little extra bracing was needed on the floor of the derrick to allow the remaining part of the pipe to be lowered to its resting place.

The well is drilling in the same formation as it was last week with little change expected within the next few feet. All precautions are being taken to prevent any unforeseen mishaps from making the well a failure and something is looked forward to within the next two hundred feet.

Difficulties with the lost bit and string of tools did not delay

FIELD DIRECTOR OF MUSEUM HERE

LOOKING OVER REMAINS OF MAMMALS.

Something new under the sun happening to Clarendon in that A. F. Johnson, Field Representashowed a big gain over the preceding month, setting a new record for the number of cans shipped from this city. A steady gain was reported from the very beginning of the month, the first week showed to have shipped 128 cans, the second week, 138, the third week 146 and the final week of the month 152. The total shipments for the month reached 564 cans, or 155 cans more than were shipped during the month preceding.

The total shipped for May

The tot tive of the American Museum of

ments are divided as follows:
January 210: February 214;
March 354; April 409; and May
564. The average for the first
five months of the year will
reach the large amount of 350 1-2
ten gallon cans of cream. At the
rate the commodity is bringing
at this time, this would figure in
excess of \$4,200 per month and
would reach an amount far in excess of \$20,000 for the
months period just ended.

Mr. Green, local representative
of the express company states
that his precificiton cor June is
more than 600 ten gallon cans of
cream. The recent rains and the
general increase in numbers of
freshening cows will raise the receipts to possibly more than
figure given here.

"AND MARY DID" IS

PLAYED TONIGHT

The Three Act comedy "And
Mary Did" is scheduled to
be played in the Pastime Theater
this evening instead of the usual
picture that was planned for

TEAM IS CHOSEN FOR GREEN BELT

Belt Tourney that is to be held this year at the Hill Crest Country Club at Vernon. H. B. Kerbow of this city is one of the directors of the organization and will also be one of the directors of the organization and will attend to represent the Hillcroft Golf Club in the board and will also be one of the members of the Hillcroft team in the play.

Monday, June 10th, has been set aside as qualifying day and will see the start of festivities that will last through Thursday, June 13th. The prizes will be presented Thursday afternoon following the close of the finals in all flights. Prizes of a suitable nature will be given the runnersup and the winners in all divisions.

The club prize will be presented that Club which enters the

up and the winners in all divisions.

The club prize will be presented that Club which enters the team with the lowest aggregate score. The Hillcroft Golf Club will be represented by Ira Merchant, Meredith Gentry, Bill Cooke, Allen Cooke, W. A. Wilson and Bennett Kerbow. Phillips Gentry and A. N. Wood will enter the open class competition.

Allen Cooke was the only winner of a prize in the tournament of last year, and will be watched with much interest this year. Local golfers indicate that they are playing hard for the prizes offered and threaten to bring home the bacon this year.

Mr. and Mrs. S. E. Miller of Denver Colorado, the parents of Mrs. Dave Kelly, spent the last week-end here in the Kelly home. Misses Geraldine and Davilla Kelly accompanied them to their home for a visit during the summer months.

Knight Dairy Is Electrically Run ATTEND MEETING Return To Homes

A job that has been comleted in the past few weeks in Clarendon and one that is the pride of the owner is the Knight Dairy electrification project. The dairy barns that were recently destroyed by fire have been all replaced and are the most modern to be found in this section of the state. There is space for 48 head of cattle at one time, Mr. Knight using this space with six additional cows that are being milked at this time.

The main part of the equipment The main part of the equipment of the dairy that is so pleasing to Mr. Knight is the cooling and bottling house equipment. This is an entirely electric equipment. The first place touched by the milk is the set of cooling coils that cools the milk from the temperature it is brought to the Mr. Johnson is working at present on location some three miles up the river from the Marine Oil Well and has uncovered what he believes to be a camel. Other the location to be a camel of the location to be a camel of the location to be location and location in the location and location in the cool.

city in the past few days is the addition of a balcony to the rear of Rathjen's Shoe Store, Partitions present in the back of the store were removed and shelves were extended back a short distance to give more room on the lower floor of the place of business. The balcony will be finished to match the remainder of the interior trim of the building and as a whole, makes a pleasing addition to the back portion of this year at the Hill Crest Country Club at Vernon. H. B. Kerbow of this city is one of the directors of the organization and will attend to represent the Hill-creft Colf Club in the board and support to the force of the core of the organization and will attend to represent the Hill-creft Colf Club in the board and support to the source of the city in the past few days is the addition of a balcony to the rear the seventeen matches played, sixteen were won by Clarendom players. The players and their opponents are listed here:

Bill Cooke took nineteen holes took Clarence Wiley to cover; to wallop C. A. Blanton; Penneil won from Sherrill on nineteen holes; Ira Merchant won from Clyde Davidson, five and four to play it won from C. P. Sanders; Ocoke won from W. A. Blantom one up; P. B. Gentry won from W. A. Blantom one up; P. B. Gentry won from the neighboring city. Of the seventeen matches played, sixteen were won by Clarendom players. The players and their opponents are listed here:

The programs have been received in Clarendon for the Green Belt Tourney that is to be held to match the remainder of the interior trim of the building and as a whole, makes a pleasing addition of the back portion of the store. Mr. Rathjen stated the fore part of this week that he had no players. The players and their opponents are listed here:

Cooke took nineteen holes took Clarence Wiley to cover; Tom Connally walloped Dick Wiley; Homer Parsons took Bert Leslie to camp; R. C. Weatherly, Jr., took Mickie to a Standard Wiley; Homer Parsons took Bert Leslie to camp; R. C. Weatherly, Jr., took Mickie to a Standard Wiley; Homer Pa

NINETEEN SCOUTS

ONE BOY RECEIVES TWO MERIT BADGES. OTHERS ADVANCE IN RANK.

Two merit badges were pre-sented J. O. Vineyard last Fri-day evening when the Scouts met at Memphis in a second area meeting for the Southeast Pan-handle Council, These badges were handle Council, These badges were presented in Music and Carpentering. In all, there were thirtyfour Scouts at the meeting, the larger part of them being from Clarendon. The Hedley Scout troop was well represented with four boys, one of them being awarded his tenderfoot rating and the his tenderfoot rating and the other two being advanced to the

First Class Scouts were made of the following: J. O. Vineyard, Esca Trostle, Homer Estlack, Robert Green and Pat Beville. Second Class Scout honors were

conferred on the following: Y. E. McAdams, Jack Latson, Phillip Smith, George Bourland and Kenneth Sherman.

Tenderfoot badges were presented to the following: Johnny Blocker, Byrum Haile, Kenneth Brown, David McCleskey and Billy

Those in charge of the work in Clarendon state that there will be held a Council meeting in Clarendon in the very near future and that these will be many Merit Badges presented the boys at that time. Plans are under way for a local Court of Honor that will possibly take the place of the Area Court in this case.

Childress Loses

AS WORKERS DAY

BAPTISTS WORKERS CONFER-ENCE TO BE HELD AT MARTIN JUNE 11TH.

The general theme of "Christian Education" will be discussed thoroughly next Tuesday at the Martin Baptist Church when the workers of the church meet for all-day session with the Martin organization. An old fashioned country spread dinner will be the center of attraction at the noon hour and is expected to draw a good attendance from all parts of the district served.

The following is the program

as it has been arranged: 10:00 a. m. Song and Devo-tional—E. E. Walker. 10:20 a. m. Is There a Need for Christian Education?—Rev. C. B. Brooks. 10:40 a. m. How is Christian Education Maintained?—Rev. O.

L. Oldham. 11:00 a. m. Reviewing the Products of Christian Education.—
Rev. I. W. Fulgham.
11:20 a. m. Sermon—Rev. E.
J. Evans.

12:00 a. m. Lunch—An old fashion country spread.
1:30 p. m. Board Meeting.
General Theme—Youth and the

2:15 p. m. Youth and World Problems—Mrs. Jet. R. Fore.

2:35 p. m. Hymn—Standing on the Promises of God. 2:40 p. m. A Symposium: Our W. M. U. Organizations Passing in Review—Clarendon W. M. S. 3:00 p. m. Hymn—Come Women Wide Proclaim. 3:05 p. m. Adjournment.

Misses Cecelia and Adaline At-teberry and Clyde Naylor of Pam-pa visited in Clarendon with friends and relatives Saturday and

Mr. and Mrs. T. E. Trostle returned to their home here the fore part of this week after a two week's stay in Dallas, where Mrs.

Trostle received medical attention.

AIRPORT EXPERT IS HERE TUESDAY

TELLS OF POSSIBILITIES OF PORTS IN FUTURE.

weeds in the fields is getting a good start and will come right along with the growing crops. This will be found to work a bardship on the producers as it entails a lot of work that is ordinarily at least part way past when the crops are planted.

The rainfall of Wednesday evening totalled 1.2 inches in Clarendon and must kave been much more than this amount to the South and East of the city. Some trouble was experienced with the light and power lines but no one was disturbed a great deal by this, as it is expected with every electrical disturbance.

Mr. Centner gave the requirements for the rating of A1A that three basic requirements must be met in the matter of ground equipment, size of field and lighting equipment for the use of the port for night flying. The cost of these ports range from very low figures to more than six million dollars, depending on the equipment that is to be used and the work that must be put in on the field to put it into position to receive the ratings.

Mr. Centner stated that the requirements of these fields are morrow with a carrying capacity of a hundred passengers or a like amount of freight. Prediction is being made that in a five year period of time that all mail will be carried by planes at the rate now charged for an ordinary first class letter.

"The Sky is the Limit", said Mr. Centner in closing his address before the Lions Club, "And the

town that is prepared for this traffic will be on the map, while the town that is unprepared will be as much out of the picture as is the town at the present time who has no railroad or highway who has no railroad or highway, facilities. The airplane is not confined by any rails or hardsurfaced roads as are railroads or automobiles, but is only limited in its usage by the number and frequency of registered and rated airports."

Mr. Centner was carried to McLean Tuesday afternoon by U. J. Boston, returning here in the afternoon to continue his way telling the towns of the great need for adequate facilities for handling the air traffic for tomorrow.

morrow.

EMPLOYEES PLAN PICNIC MEETING

ONE HUNDRED EMPLOYEES ARE EXPECTED HERE NEXT WEDNESDAY.

An Employees Educational Changing Age.

Leader—Mrs. T. M. Harrison.

2:00 p. m. Hymn for the year.

2:05 p. m. Watchword for the year.

2:10 a. m. Prayer.

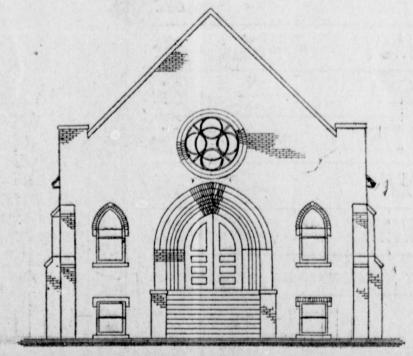

2:15 r. w. Youth, and World.

week. The site known as Troublesome Canyon has been secured for
the meeting and a truly old fashioned chuck wagon dinner is to
be served to the visitors.

Ed Carlson has been named as
chief cook and promises a barbecue and all the trimmings that
will be worth the time of the visitors. Sour dough bread will be
one of the delicacies of the occasion and will be provided if
there is sufficient time allowed.

The meeting will convene at the
canyon at the noon hour and the
business session will be concluded
after the visitors have explored
the hills and canyons adjacent
to the location of the picnic.

FIRST PRESBYTERIAN CHURCH

The above is a line drawing by the architect, of the South elevation of the new Presbyterian Church. The building will be finished in a gray face brick and is to be built just South of the Episcopal Church. The excavation and foundation of the building are ready for the brick.

1929 MEMPER 1929 NATIONAL & EDITORIAL **ASSOCIATION**

PANHANDLE PRESS ASSOCIATION

"The best farmers are still on the farm", is a striking statement made by Delos James, assistant manager of the agricultural bureau of the United States Chamber of Commerce. In an address made here in Clarendon last week, Mr. James decried the witless statement often heard that the best farmers were leaving the farm and offered statistics to prove that the production average per man was higher in the nation today than at any previous time. Of course it is true that many men have achieved a competence on the farm and have retired from that vocation just as others have gained independence and retired from active work as merchants, bankers and the professions, then there are many farmers who have moved to town for educational advantages, but who still employ their best judgement and experience in the management of farm properties. The person who argues that the honored vocation of farming is going to the dogs in the United States is not in possesion of the facts, nor is he a real friend of the farmer. No, the best farmers are still on the farm, and we have evidence in every farming community to back it up.

-000 There is something unusually in keeping with the domi-

nant life purpose of Mrs. Willebrant, in her new connection as counsel for one of the great national air transport corporations. Mrs. Willebrant won fame in the past year or so as an ardent and effective prosecutor of violators of the eigh- natural location, with a super abundance of good water, teenth amendment. She is enthusiastically "dry" and now she becomes valued counsel for a concern in whose employ no drinkers, casual or otherwise, can long remain. We all recognize the menace of a liquor-befuddled brain at the wheel of an automobile, but even those who flout the liquor laws of this country would never entrust their safety to get it. an air pilot who tampers with liquor. High speeds in motor driven machines will outlaw whiskey, if there were no other question or interest involved. Public safety is becoming one of the dominant issues in this nation and the rapid advance of air transportation brings seriousness to those who have thought lightly of the inefficiency and desirability of prohibition. Liquor and modern civilization cannot ing and this applies to all business. A business worth opsurvive together. One must go.

Despite the efforts of those who would force the price of wheat down to a profitless level, a strong reaction has set in and everything now points to a fairly satisfactory price for the 1929 crop. Time was when the market bears and the entrenched interests could extort from the American farmer his products at a loss, but the public has been educated and aroused to the pitch that a profitless market cannot long be maintained in this nation. There are men of vision who are ready to engage in movements to protect agriculture, the basic industry of America, and an aroused public conscience will not brook a conscienceless combination to rob the farms of a fair profit. This much has the harangue among politicians about so-called "farm relief" contributed—it has spotlighted the plight of the farmer and awakened the public to his defense. Profits on the farm is not a political question, and a politician that makes it so is of the most dangerous type of a demagog.

In prosecuting the work and advertising plans of the Panhandle-Plains, Incorporated, Amarillo proposes to pay three dollars of the cost to every dollar raised by counties outside of Potter County, appropriating ten thousand dollars to this worthy work. This liberal offer is being well received over the Panhandle country and it is hoped that all needed funds will be in hand before the close of the campaign this fall. Hundreds of desirable immigrants are coming to the Panhandle by reason of this advertising and showing of farm exhibits in the middle west, and the movement will become stronger in this, the second year. The development of the Panhandle demands more citizens, and of the right type.

Not many of us had realized that fourteen graves of soldiers of the World War were in our cemetery, until the Memorial Day exercises sponsored by the American Legion brought it vividly to mind. On a basis of a little over three thousand population, it means that nearly five to the thousand in our community bear in our cemetery mute witness to the sacrifice they made in the cause of righteous-ness and patriotism. Recurring Memorial Days will fasten this truth more and more in the public mind and cause us to render that homage that all good citizens owe those who have given their all for our flag. May they rest in peace!

A most interesting fact is that the population per square mile in Texas is only 20.9, while in the United States it is 40.0. We will have to double our population in Texas before we are up to the density level for the nation, and then that of the nation will have become still higher. There's room in Texas for many millions and here in the Panhandle is the greatest opportunity offered in the entire state. Donley County needs more than double her present population. Those that come and those who are already here will be even more prosperous when the doub-ling is accomplished.

The Town Doctor

(The Doctor of Towns)

HOW YOUR TOWN LOOKS IS IMPORTANT

What is there that some communities have that others lack, which makes the difference between compliments and criticisms—"that something that invites you or repels and oppresses you—that difference which so distinguishes from the ordinary? It is largely a matter of that which, for want of a better name, has been termed by the advertising profession as "atmosphere."

Lack of "atmosphere" in a town is that which is responsible for motorists going through your town without seeing it, or remembering it. How often have you heard the remark, referring to business houses, places of amusement and even homes—"It doesn't appeal to me, there's no atmosphere"?

How your town looks IS important, for while people weigh values, they constantly compare towns. There are thousands who would go out of their way to patronize YOUR town if the surroundings were such that created "atmosphere."

"Atmosphere" attracts, induces, tempts, allures, fascinates and impresses—it SELLS your town; while the absence of it in any community creates a pall and silence that shouts to the world, including its own inhabitants, "This place LACKS what you are looking for."

In every section of this great land of ours, cities, towns and villages have, to a greater or less degree, thought of, talked about, and in many cases, STARTED a Clean-up Campaign. To what extent it has been carried out depends upon the wide-awakefulness of the peo-

There is something about the first few days of every spring that gives us mortals an urge to shed ourselves of drab surroundings—to sort of "brighten the corner where we are," so to speak. Full of pep, enthusiasm and with fine ideas of doing big things, we materially add to the joy of the paint store man, the seed merchant and the seller of garden and yard tools, and it is fine for everybody. But our hands are soft, our backs are weak and our will not too strong, and altogether too soon the glamor and incentive of the first days becomes the FEVER of the weeks and the job is left half done.

Verily, in a few short weeks many now tidy and much boasted of gardens will be but weed patches, unattended and forlorn. Likewise many a Clean-up Week, widely heralded, urged aand exploited by a loyal press, will pass with the May flowers unless you and your neighbors and all of their neighbors' neighbors recognize the REAL value and keep AT it until it is done—and well.

Do have a Clean-up WEEK—make it the year 'round for your customers, from whence they may come, are becoming more critical—they demand "atmosphere," and there can be none without cleanliness ALL of the time.

This Town Doctor article, one of a series of fifty-two, is published by The Clarendon News in co-operation with the Clarendon Lions Club.

Note: These articles are written by The Town Doctor, without prejudice or malice and are impersonal. They treat each subject as supplied in general—not to a particular town. Opinions favorable or otherwise on subjects covered are solicited and may be addressed to the paper in which these articles apear, or to the Town Doctor, Suite 350, McCormick Building, Chicago, Illinois.

Clarendon's building program seems to be accelerating as we swing into the summer months. With a wonderful with lots of pretty homes, lawns and shade trees, with fine churches and splendid schools, with a citizenship of recognized culture and intelligence, with all modern conveniences, surrounded by a rich, versatile farming country, Clar-endon bids for even greater growth—and we are going to

Now comes the American Gas Association and testifies that newspaper advertising was responsible for its greatest increase in gas consumption in the New England section. No corporation or business is too great or too powerful to operate without specific and institutional advertis- | pletely wrecked in Amarillo by erating is worth advertising.

We note with sorrow that Editor Homer Steen of the Floydada Hesperian and president of the Panhandle Press Association has suffered the loss of his father in the last few days. The elder Steen was a pioneer newspaper man, himself, although not in harness for many years. Homer Steen has lost more than a father and our condolences are

WAR TROPHIES SECURED

The war thophies received the United States and apportioned to the various states for distribution as they saw fit have all been placed and Clarnedon's sup-ply reached here the latter part of last week. It was the hope of the local citizens that Clarendon might receive one of the field pieces that were given in some cases. The distribution was made on a membership quota basis and Clarendon's result was threefourths of the guota as

made on a membership quota basis and Clarendon's result was threefourths of the quota assigned, with the result that the shipment was only three-fourths of what might have been.

The relics have not yet been unpacked, but will be shown in some centrally located place when they have been made presentable to the public. The list will be found to include: 1 box ammunition, 5 plain bayonets, 1 saw tooth bayonet, 1 automatic rifle, 1 magazine (Feurer) cartridge, 6 Masuer rifles, 1 Spondu magazine rifle, 1 alternating rifle, 1 Calvalry saber, 1 enlisted men's helmet, 1 canteen and 2 projectiles.

Post Commander Douglas states

Post Commander Douglas states that all this material will be clean-ed and that it will later be placed in the Legion Hall as mementoes of the great war.

Let's Develop Our County

How to Raise Poultry By Dr. L. D. LeGear, V.S., St. Louis, Mo.

FOWL QUARTERS FOUL QUARTERS?

A Little Time and Less Money Invested in Proper Housing Facilities Will Be Repaid Many Times Over in Healthier, More Robust Fowls and Greater Egg

"Married men," so states the wise-cracking vaudeville performer, "have their better halves, but bachelors have better quarters." While a great many people may take issue with the forgoing statement, it would be hard to disprove that a majority of the chickens being raised in this country are entitled to better quarters and do not get them. Certainly, a distressingly large proportion of the poultry being raised today would fall in that category.

All too often, the matter of

that is fit for nothing else is usually unfit for poultry raising, but that is, apparently, not often taken into consideration. I shall good in any climate and at any briefly describe a type of house which, after experimenting with many kinds for over twenty years, I am convinced is the cheapest, most practical, healthiest, most comfortable and easiest to heild times while and easiest to heild most practical, healthiest, most comfortable and easiest to build poultry house, for the average farm flock, of which I have any have larged for the front should be closed for the protection of the front should be closed for the front should knowledge. If I felt otherwise, of the fows. In the northern it is quite certain all my own states, quite a portion of the front poultry houses would be built on can be covered with glass substi-

states, quite a portion of the front can be covered with glass substitutes to admit light and sunshine and plenty of fresh air type that admits plenty of sunshine and plenty of fresh air at all times without drafts, and faces south. It should be 20 feet wide or deep from north to south, and as long as necessary to accommodate the flock. A house 20 by 20 feet is a nice size for an ordinary size small farm flock. It will comfortably house 100 hens of the larger breeds and 135 Leghorns in all cold and moderate climates; while in warmer climates, 25 per cent more can be housed without crowding. This is due to the fact that the fowls do not have to be houses many days during the winter in the warmer sections of the United States. It is a great mistake to crowd chickens into a house, as they should have plenty room at all times. This house should be 9 feet high in front and 6 feet in the rear. There should be a trap door 10 or 12 inches wide along the north wall just under the roof that should be opended during hot weather for coolness at night; while during fall, winter and west walls should be made weather for coolness at night: while during fall, winter and spring the north, east and west walls should be absolutely as near air-tight as they can be made. In cold climates, the north, east and west walls should be made warm. Ship-lap or drop siding should be carefully put on so as to leave no cracks, and then this

buy Buicks than any

other fine car

In a long house, there should be a solid partition from the back almost to the front every 30 or 35 feet to prevent drafts sweep-ing from one end of the house to the toher on the birds at night.

The openings in the front are all the ventilators a poultry house needs, and the larger these permanent openings are, the healthier the fowls will be, as long as they do not freeze their combs and toes. By having the roosts along the north wall there will be along the north wall there will be no drafts at night by having the north, east and west walls closed tight, even if the south is open.

Every poultry house should have floor-either concrete or wood. It is impossible to keep a dirt floor clean and sanitary. The floor clean and sanitary. The floor clean and sanitary. The floors in all my houses are made of tongue and grooved flooring that is absolutely tight. All my houses are up on posts two or three feet high, which provides a coof place during the heat of summer. A good roof is very essential as a poultry house must sential, as a poultry house must be kept dry if the fowls are to be kept healthy. The usual material used for shed roofs is either roofing paper or galvanized iron. The latter is usually the most durable, All too often, the matter of poultry housing is left until everything else has been provided for and then, any kind of old shack will be hastily thrown toshack will be hastily thrown together, often in a location not deliberately chosen for the purpose, but which is used because it is fit for nothing else.

As a matter of fact, the location

As a matter of fact, the location space in the rear, and 8 or 9 feet in the front inside.

This poultry house is equally

SENATE AND HOUSE CON-CUR IN JOINT RESOLUTION

WHEREAS, the 41st Legisla ture of Texas, at its Regular Session, submitted to a vote of the people a Constitutional Amendment providing for a Supreme Court to be composed of Nine Members, instead of the present Supreme Court of Three members, assisted by six Compissioners assisted by six Commissioners, drawing substantially the pay of Supreme Court Judges, but whose work must be reviewed and approved by the Supreme Court;

WHEREAS, the adoption of said Amendment would not materially increase the cost of our Supreme Court, and would largely reduce the injustice resulting from the laws delay under the present system; and.

WHEREAS, the said Amendment would also provide that the Supreme Court shall be open for the transaction of business throughout the year, instead of for only nine months, as required by the present provision of the Con-

WHEREAS, the 41st Legisla-WHEREAS, the 41st Legislature has also submitted to a vote of the people another Constitutional Amendment, providing that the Governor of Texas shall receive a salary of Ten Thousand Dollars per year, and no more, and WHEREAS, the adoption of this Constitutional Amendment is necessary in order to provide a living wage for the Governor of Texas.

wage for the Governor of Texas, and to make it practicable for a citizen, not possessed of great wealth, to serve as Chief Executive without ruinous sacrifice, and, WHEREAS, both of said Con-

voted upon at a Special Election to be held in every voting precinct in Texas on Tuesday, the 16th day of July, 1929, and,

WHEREAS, regardless of the merits of the proposals involved in said Constitutional Amendments, respectively, it is highly ments, respectively, it is highly desirable and important that as nearly as possible, every qualified voter shall go to the polls on said date. Tuesday, July 16th, 1929, and vote upon both Amendments, now, therefore, be it, RESOLVED, BY THE SENATE OF TEXAS, THE HOUSE OF REPRESNTATIVES CONCURRING THEREIN:

RING THEREIN: THAT the newspapers of Tex-as, including both the daily and

should be lined on the inside or

out with two or three ply roofing paper securely put on.

A house built on the plan described will alyaws be a source of pride to its owner and will pay pride to its owner and will pay real dividends in heathier, more valuable and more productive fowls. Anyone who is interested in better housing for fowls and desires further information may write me for further information in care of this newspaper.

Approved: (Signed) Dan Moody, Governor.

resentatives.

No one likes butter with a sour overripe flavor, and this defect, which is very common in farm ter, can be avoided by properly ripening the cream, says the U. S. Department of Agriculture. Keep the cream cold and sweet until about 12 hours before it is to be churned. Then stir it thoroughly, warm to a temperature of 65 to 75 degrees and hold at that temperature until it thickens, has a glossy appearance, and is mildly sour. Cool it quickly to churning temperature or below, hold for two hours, and churn. The churning temperature should be low enough to produce firm butter. In summer this will be between 52 and 60 degrees. Cream that is allowed to ripen too long or at too high a temperature produces butter with a sour flavor. Such but-ter does not keep well.

Fires in cotton gins cause a large annual loss in the United States, in some seasons amounting to \$1,250,000. The U. S. Department of Agricultur heas recently published Circular 76-C, Fires in Cotton Gins and How to Prevent Them. This publication can be secured by writing to the Department of Agriculture, Washington, D. C.

their columns, to call attention of the people to the importance of these Constitutional Amendments, and to the date of said election, Judge George Calhoun in sustaining general demurrers of C. W. Bradford and 600 other to the State's suit for recovery of title to 75 miles of the bed of the North Fork of the Red River in Gray and Wheeler Counties, 60 miles of which is oil-bearing.

This ruling sent the Small land law to the appellate courts for a

Judge Calhoun said the rule was for a trial court to hold a law onstitutional unless it were clearly shown to be unconstitutional. C. W. Trueheart, Assistant At-torney General, representing the State in its recovery suit, assent-

Effect of the decision will be to permit the Supreme Court to act on the constitutionality of the Small river bed law, which was passed over Governor Moody's veto, before Calhoun takes up the question of trying the land title

If the Small law is upheld, attorneys agreed the State would have no case to be tried.

All principal oil-producing com-

panies of the State and several hundred land owners are involv-ed in the litigation.

Texas consumed 144,643 tons of commercial fertilizer in 1928, the peak year in the United States in that direction. There are at least two commercial fertilizer plants in successful operation in Texas, but much the larger part of the fertilizer used was imported from other states.

ROCK ISLAND LINES ADD NEW COMBINATION CARS

The Rock Island Lines have just placed in service three ncw 800-horsepower, distillate-burning, gas-electric motor cars of suffici-ent power to haul freight trains These new motor cars are described by Rock Island officials as the 'most powerful motor cars in the world.

Used in freight service, these motor cars are geared to pull a freight train of 800 tons up a one per cent grade at 8 miles per hour, track. In passenger service, these cars will haul a total of 260 tons, based on 4 trailing cars in fast service. The trucks are equipped with roller bearings. Each car carries two fuel tanks of 300-gallon capacity and is equipped with a hot-water-heating plant for cold weather service In a recent test, at which representatives of sixteen railroads were present, one of these motor cars, operating between St. Joseph, Missouri, and Topeka, Kansas, hauled a total of 916 tons.

The cars were constructed under specifications made by the Rock Island Lines management through the office of E. Wanamaker, Electrical Engineer

ADVERTISEMENT RELATING TO LOST POLICIES

CRIME VS. BOY SCOUTS

The annual crime of America totals twelve billions of dollars. About one-half of the criminals responsible for this tremendous bill are under twenty-one years of age. One commissioner reports that of 154 men serving life sentences more than one-half were under twenty-one years of age when caught and none had ever had a contact with a boys' club, Boy Scout troop or a trained leader.

The average cost of arresting, sentencing and incarcerating a criminal is \$2,00 dollars to each community and you still have a criminal and perhaps worse than in the beginning.

There are in Hall County about 1,400 boys of the ages from 12 to 17 inclusive; Donley 600, Collings-worth 1,000, Gray and Wheeler 1,000 (the part embraced by the Southeast Panhandle Area Council.) Boy Scouts of America another 800. There is also another 800 eleven-year-old boys coming on, in all about 4600 boys of the dangerous age. We are spending systems, and the splendid and about \$1.00 a year on each boy magananimous action of the Amarillo, board of city developtivity. For the greatest time of ment, were going to create an peril in any boy's or girl's life is era of prosperity hitherto un-known in the Panhandle-Plains." to do. The Scouting program fills this time with worth while activities that build character and developes by the best educational method, "learning by doing." Scout learns to be a better citizen
by picking up nails and glass
from the street. His "daily good
turn" is the service idea over
again. By his association with men and leaders of character he catches high ideals, for character s caught and not taught.

The tremendous task of reach ing the 4,600 boys cannot be done by one man. The man power of every community must be mobilized to do it. Churches, service clubs, schools and parents must unite in one solid body, give some of their time to this tre-mendous problem. The school cannot do it alone for we can educate criminals as well as citizens, for the greatest criminals are the educated ones. The church cannot do it as seven out of ten church. Every force of the community must be organized for service and every available man must be mobilized for the task. Not

The Amerillo Chamber of Commerce and board of city development through its agricultural committee chairman. Howard Ferguson, pledged the active cooperation of that body in the undertaking, and Secretary Manager Vernon, stated that an allowance of \$10,000 for the work had been made by his board. The work of gathering exhibits of crops at this time is being started by the board of city development of Amarillo, under the direction of Hamilton Luna, who will be assisted by the county agents and interested citizens in the various counties.

In an effort to raise between \$4,000 and \$5,000 in the counties authorized Dr. O. H. Lloyd of Vega, and Roy Arnold of Hereford to cover the various counties ford to cover the various counties.

AMARILLO'S CIVIC CONSCIOUSNESS BUILDING YOUNG TEXANS INTO AMERICAN PATRIOTS

"The hope of civilization is respect for vested authority. We would teach this through the symbol of the flag."

Mayor Ernest O. Thompson.

Thirty years ago Col. Ernest O. Thompson was selling paapers on the streets of Amarillo. He made a brilliant war record. Today he owns two hotels with a thousand rooms in his home city, and other hotels and investments in and out of Amarillo. In the campaign for mayor, against three opponents he received 75 per cent of

Paul V. McNutt, national com-mander of the American Legion, came to Amarillo to assist at the inauguration. In the ceremony he presented the new mayor with a siken flag in the name of the Le-

presentation planted idea in Mayor Thompson's mind. It is so far-reaching and powerful in the possibilities for building good citizenship that some of national standing who have of it are ready to give the means that will carry it into every part of the country. The American Legion will have its share in the work. The newspapers will participate.

Amarillo, the Helium City of the Texas Panhandle, is committed by its new mayor to the highest schools. Thompson plans to start by its new mayor to the highest standards of citizenship. It would rid itself of bootleggers, and professional gambling and tone up its morals. It would also teach respect for vested authority, through the symbol of the flag in the public schools. Thompson plans to start in his home town. A flag will be prepared for presentation to each school room. The newspapers will run a series of questions and answers that will make up a thrilling history of the flag. Every star and every string will have ery star and every stripe will have

> The honor pupil in each room who makes the best study will receive a flag for his class. It will belong to the room forever. Flag presentation day will be a gala event. Hundreds of honor pupils will bank themselves on the stage of the City Auditorium as they receive the class room trophy.

"The great purpose of the flag study is to foster a love of country and a sacred regard for law," says Mayor Thompson. "I have set the example for the city by pledging to do all in my power to rid Amarillo of bootleggers and state, and spread from Texas over the state of the state o professional gambling and tone up the city's morals. I will not touch liquor while I am mayor, nor allow any city employe to do will become a power in banishing so, with my knowledge.

"We are trying to make Amarillo a model American city. We are going to have a civic consciousness and conscience. I hope the symbol of the flag."

to serve in peace as in war, and will become a power in banishing disrespect for law and order.

"The hope of civilization is respect for vested authority. We would teach this respect through the symbol of the flag."

Delaware and Nevada frnish the fewest citizens to Texas. In the 1920 census 234 persons of Nevada birth and 234 of Delaware to birth were in the Texas enumeration. Of the total population 70.3 per cent were born in Texas, 20.8 per cent were born in Texas, 20.8 per cent were born in the sense that they were 21 years old or over. In that year 811,104 persons actually voted or a fraction more than one-third.

The Portales, N. M. Canning Company is now signing up to toes for the coming season, and held for girls team demonstration try out for the selection of District representatives to State Contest will be held early in July duced prices were offered for contests held during the day, and 1928 was 500 acres and the 1929 acreage is expected to be Larger.

Lubbock's young Texas Tech Chamber of Commerce has for the were born in Texas, 20.8 while it is still young, well-coming visiting teams to the campus, cooperating with local civic clubs and the offering of a prize for a school song.

Littlefield's Trades Day, Monsons actually voted or a fraction more than one-third.

CLUB NOTES

Friday at 2 p. m. The Hedley Club with visitors from the Mc-By West Texas Chamber * Knight Club had the demonstra-* tion on Sheer wash Dresses. The Mobeetie is growing a new town within the radius of the old since the new railroad has been Lots were recently sold at a hitherto unheard of price. Plans are made and foundations are being laid for buildings which are to make the town a bigger and better place to live. Memphis sold a lot of 98 Jer-seys in auction last week. They auctioned by W. A. Nash who lectured on the value and recent progress of dairying in the

Plains. POPULAR PLACE

STUDENTS FIND THAT WORK IS NOT SO HARD WHEN EXCURSIONS ARE MADE.

The students in the summer session of Clarendon Junior Col-lege are well pleased with their courses this year and are deriv-ing a great deal of pleasure from attending the sessions. The num-ber of students is larger than that which was had here for the school last year and the en-thusiasm is greater than it has ever been since the founding of the new school.

The first excursion was taken last Saturday to the J. A. Ranch, where many of the students were given their first real treat in the inspection of ranch lfie. The many interesting features to be found in and around the ranch were explored with much interest on the part of the students.

Other Saturday excursions are planned to fill the week-ends of the entire six weeks of the summer school session. Items of loand state interest such as Goodnight ranch and the oil field will be visited as the weeks pass round.

Dean Clark is being kept busily engaged with his duties at the school and states that he is very well pleased with the results obtained thus far.

How to Help Your Husband Earn More

TEN know that personal appearance counts in business. Employers are slow to promote shabby employes. Yet, many men are careless about having their clothes pressed. They "forget," and the "forgetting" prevents them from earning the money they are really worth.

Help your husband to look well-dressed, and earn more money. Send his clothes here to be pressed. Our modern Valetor method of pressing makes clothing look like new.

CLARENDON GRAIN COMPANY

At this Store You Get QUALITY AND SERVICE

MARKET POULTRY

At about five weeks you will begin to be able to separate the cockerels from the pullets. The cockerels at this age develop conspicuous bright red combs, while the pullets show no combs at all, or just very inconspicuous ones.

As soon as possible, some time
between the 5th and the 9th week, take all of your cockerels out and

develop them promptly for the broiler market, unless you have in mind keeping them longer for the later market seasons. For broilers, however, the cockerels should best be confined to limited size runs, in order to limit the amount of exercise they will get. A room 10 by 12 feet will be enough space

for 250 fattening broilers.

For feed, a fattening ration should now be adopted, strong on corn. feeding it in small amounts, but often, to keep the broilers al-ways well filled. At about seven weeks the mash should consist of one part of regular developing mash as previously described, to which has been added one part of yellow corn meal and one part of commercial skim or condensed buttermilk. This should be sup-plemented with cracked corn fed in pans or hoppers, with sour skim milk for drink, and green food for general conditioning.

Cost of 2,600 chicks, at 20 cents Marketing is usually the most profitable at about one and a half pounds live weight. Three to four pounds of dry feed is about the amount required for adding each pound of live weight to the bird

pound of live weight to the bird The American Poultry School of Kansas City, Missouri, gives us the average weights of 190 Leg-horn chicks as follows: at hatch-ing time, 8 pounds; fifth week, 42 pounds; tenth week, 116 pounds. The heavy breeds start out at the same weight but get under way more slowly, being behind the Leghorn chicks until after the twelfth week, when they start to overtake the Leghorn and take on their natural heavy body development which makes them of greatest value for late season

In case the cockerels are being held for late season marketing instead of for the broiler market, the confinement and fattening ra-tion as mentioned for broilers should be disregarded, and regular range and growing ration used as with the pullets you are devel-oping for laying purposes.

BREAKING UP BROODINESS

About this time every year, when the summer heat sets in, the hens of most any laying flock are likely to go broody. One factor in maintaining high egg production during spring and summer is to break up broody hens as quick-ly as possible after they become

broody.

This is vitally important for two reasons. In the first place, if they are allowed to sit on fertile eggs for even a few hours, the germs will develop, which is one cause of heavy loss in marketing eggs from farms. In the sec ond place, the longer a broody hen is allowed to sit on the nest, the longer it requires to get her back into laying condition, and consequently the greater the loss in egg production. As soon as a hen is observed to remain on the nest at night, she should be removed and placed in a broody coop, where she can be properly fed and watered. The broody coop should have a slat bottom in ordshould have a slat bottom in order that the air may circulate from beneath and thus tend to keep the hen from sitting. The body will be kept cooler and the hen will get over her broodiness. While confined in the coop, she should be fed and watered regularly in order that she may get back into order that she may get back into laying condition as quickly as pos-

Of course the old rule that an ounce of prevention is worth a pound of cure holds good in the

of Magnesia *****

ase of broodiness as well as anything else. Broodiness is some-thing that can be bred out of a strain of birds by a good breeder, just as winter pause is bred out, and persistency to lay intensity of lay and early maturity, are bred in. Breeders cull broody hens on sight. If the broody bird can be on sight. If the broody bird can be caught the first night and be put immediately into the broody coop for 24 or 48 hours, they will usually be over it and get back into lay promptly. However, if they go broody two or three or four days before broken up, they will go off feed, which results in partial or full moult, which in turn will keep the birds off lay all the way from six weeks to three months.

Poultry Tips column conducted by Leonard L. Brown, internation-ally known authority and founder of the Brown and Mann strain of S. C. W. Leghorns. Enquiries addressed care of this paper gladly answered by Mr. Brown.

COST OF PULLETS

Most of us raise poultry for the eggs we get. That means that the laying pullet and hen is the source of our profits, and I believe most everybody will be interested in the figures that the Pennsylvania State College of Agriculture found recently in extensive experiments to determine the cost of bringing a flock of pullets to maturity.

The figures include all costs, from the purchase price of the leghorn chicks, on through to 26 weeks, which is taken as the time of maturity, when the pullets are ready to lay. They figure this cost at \$1.26, and here is how

_\$520.00 Total value of all feed con-

sumed ______ 681.03 Mash, 14,366.5 pounds____ 442.07 Scratch feed, 7,669 pounds_ 221.19 Milk, 5,079 pounds____ Coal for brooding (7 brooder

houses) Labor, 934.72 hours_ Depreciation on brooding equip-ment, 10 per cent____ 28.00 Interest on capital invested in chicks, brooder houses, sup-plies, for 6 months, 6 per cent 87.16

\$1,725.18 Receipts from sale of 294 cockerels, at 60 cents each_ 554.40

Net cost of 296 pullets in laying houses \$1,170.78

Net cost per pullet \$1.26

Mortality on the 2,600 chicks, including all pullets culled out as undesirable, amounted to 34.6 per cent. The pullets were not credited with any eggs laid on the ited with any eggs laid on the

The above figures are considered typical and it would be interesting to check your own costs against these, item by item.

Poultry Tips Column conducted by enard L. Brown, internationally known authority and founder of the Brown and Mann strain of S. C. W. Leghorns. Enquiries ad-dressed care of this paper gladly answered by Mr. Brown.

In percentage of native white population Abilene and Amarillo lead. In the 1920 figures all but 554 of Abilene's population were but 995 of Amarillo's.

NOTICE FOR BIDS

The Commissioners' Court Donley County will receive sealed bids in their regular session of June 21st, 1929, for the purchase of one crawler type tractor of 60 horsepower. A certified to 80 check amounting to five per cent of the purchase must accompany all bids. The court reserves the right to reject any or all bids re ceived.

Given under my hand and seal this, the 20th day of May A. D.

J. J. Alexander, County Judge, Donley County, Texas.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating. This pleasant preparation is just as good for children, two. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

BETTER STREETS **WOULD INCREASE** CAR OWNERSHIP

By E. E. Duffy.

Two million people living in New York City, Chicago, Philadel-phia and Boston do not own au-

one and one-half million passenger cars instead of 560,000. By the same reckoning Chicago should have an addition 535,000 cars; Philadelphia 360,000 and Boston 115,000.

ty, in which Detroit is located, has the equivalent of about 400 miles of smooth pavements of a

Bad pavements, great mileages of which are found in most cities, constitute the greatest obstacle to car buying. Along with narrow streets, "bottlenecks" and the absence of high speed arteries, bad pavements' account for the low car ratio of one vehicle to every seven persons in Boston, and of one passenger car for every nine living in Philadelphia and Chica-

New York has urgent need for extensive pavement replacing. The poor pavement surfaces that exist on many streets throw an undue burden on a few main routes. The chief pleasure use of the car is country motoring. In this city countless people do not own cars because they do not care to buck the evening and week-end traffic congestion. More outlets to the open coun-

try must be built in all popula-tion centers, and these outlets must be at least 40 feet wide. In the meantime, in just four of the largest American cities, 2,000,-000 individuals and families are being denied the pleasure of me

USE PRESSURE COOKERS IN CANNING NONACID FOODS

Research and practical experience have demonstrated, says Dr. A. F. Woods, director of Scientific Work, United States Department of Agriculture, that nonacid food products, like asparagus, beans, corn, peas, beats, spinach, meats, and fish, can be canned safely by processing in boiling water, but must be sterilized under pressure with approved time and temperature.

Pressure cookers are now standard equipment and are readily available at small cost. The deincluded in that description and all partment does not recommend any particular make, although attention is called to the importance of having the pressure kettle equip-ped with thermometer and pres-

sure gauge for proper control.
"There is now no excuse," says
Doctor Woods, "for continuing to take risks involved in canning nonacid foods without adequate pressure cookig. All recommendations by the Department of Agri culture will hereafter make this clear and emphatic."

have to stay home

A Santa Fe Summer Xcursion

Most farmers think that May sweet clover is a better soil improver than the July crop. As a matter of fact, it makes little difference. Unless the clover is plowed under in eaarly May, however, it is better to wait until July. Plowing under in July should be started before the clover is dead ripe

NOMINATIONS FOR OFFICERS MADE

ELECTION OF LIONS OFFI-CERS TO BE HELD ON TUESDAY, JUNE 25.

The report of the nomination mmittee of the Clarendon Lions was the major piece of work attended Tuesday of this week by the Lions Club of this city. The committee took the recommendations turned in by the several members of the club some two weeks past and compiled their distinctions from the lists submitted. findings from the lists submitted.
The nominating committee is composed of the three immediate past presidents and in this instance is Homer Mulkey, O. C. Watson and Dr. H. L. Wilder. Their findings are as foliows:

President, C. J. Douglas.

1st Vice President, F. W. Rath-

2nd Vice President, G. L. Boy-

Tail Twister, W. A. Wilson, Treasurer, Odos Caraway, Secretary, F. L. Stallings,

Directors, A. L. Chase and Sam I. Braswell. This report is to be voted upon

This report is to be voted upon on Tuesday, June 25th and the installation of the officers will take place on the Tuesday following the same being the first Tesday in July.

Lion W. M. Murrell stated that he had further investigated the same being the first the had further investigated the same of hadly crossed eyes in the he had further investigated the case of badly crossed eyes in the child at Shamrock and that nothing was being done in this concection. He asked that the club take some action on this matter and it was referred to the committee and the cases in the

now handling the cases in the

As guests of the day, the Lions were fortunate in having A. F. Johnson, Field Director of the American Museum of Natural History of New York City and Wm. F. Centner of Washington, D. C. Mr. Johnson was first called upon and was introduced to the club as the man who, as a member of the Roy Chapman Andrews expedition to China, found drews expedition to China, found the dinosaur eggs. He told somethe dinosaur eggs. He told some-thing of the expedition and of the finding of these eggs. He al-so told of his work in this sec-tion of the state and of the lo-cation of what he presumed to be a camel, some three miles up Salt Fork from the site of the Marine Oil well.
Mr. Centner addressed the Lions

Mr. Centner addressed the Lions shortly on the airport situation as is now existant in the United States and received an enthusiastic hearing from the Lions.

In the absence of Boss Lion Chase, Lion C. J. Douglas held the chair.

Nola Mae Baskin, who is attending business college in Amarillo, is spending the week end with her parents, Mr. and Mrs. Lonnie Baskin

two sons of Paducah, were guests in the home of Mr. and Mrs. J. E. Mongole Sunday. Miss Mable Mongole returned to Paducah with Mr. and Mrs. Jay Monday and

PIONEER CITIZEN OF CITY IS BURIED LAST FRIDAY

The passing of Mrs. Charles I. Lewis on last Wednesday, May

of the state the place it now is. Mrs. Lewis was born April 28th 1841 in Frederick County, Mary land. She lived there and was married in her native state, coming to this section of Texas in 1886. Death called her May 29th 1929 and found her ready to go She was eighty eight years, one month and one day old at the time of her death.

The funeral services for Mrs.
Lewis were held from the Episcopal Church on Friday, May
31st, at 2:30 o'clock, Rev. L. L.
Swan officiating in the last rites.
Interment was had in the Citi-

Pall bearers for the last rites of this pioneer resident were composed of those men who have made their homes in this section for many years and will be found to include the following: W. H. Patrick. H. W. Taylor, R. H. Muir, Joe Horn and Vere Finch. Mrs. Lewis is the last of her family, her husband having died family, her husband having died some years ago. Three children, Mrs. B. W. Chamberlain, of this city. C. R. Lewis of Washington. D. C. and W. J. Lewis of Clarendon, eight grandchildren and a reat host of friends are left to mourn the passing of this, one of the greatest of all pioneer citizens of this section.

SMITH DRUG COMPANY IS NEW BUSINESS FIRM HERE

A transaction has been com A transaction has been completed in this city, whereby the Ball Drug Store Number one bebecomes the property of J. Fred Smith. The place of business will be operated at the old location and will be run under the name of the Smith Drug Company. Mrs. Lames Patman is to be active in new owner of the place of bus-iness. The deal has been pending for some time and was completed on June first, when Mr. Smith took charge of the place.

Mr. and Mrs. Sam Braswell and Sam and Clair Marie were in Lubbock Monday and Tuesday of this week for the purpose of putting Miss Claire in the first six weeks summer school.

TRAFFIC SIGNALS AND PARKING STRIPS PAINTED
