Baptist Revival Will Continue Over To End Of The Week

Dr. Kellam Announces Special Sermon For Young Folks At 8:30 Friday Evening

Dr. Kellam continues the revival at the First Baptist church bringing a series of fine messages with increased interest on the part of his congregations.

A number have made professions of faith and the church membership is constantly growing with an increase resulting from this revival.

Dr. Kellam announces a special service for young people of the intermediate age and up Friday evening of this week. The hour set begins at 8:30. A musical program has been arranged for that period preceding the delivery of the lecture.

The pastor's subject for this special service is "Sparkplugs", which he claims as his best lecture because it has proven most effective in benefiting the lives of the young who hear him. An urgent invitation is given all young people to hear this special message that has been arranged for their benefit.

Leaving For Short Course Sunday Morning

Mrs. J. A. Huffstutler of Chamberlain, Mrs. Louis B. Merrell of Ashtola, Mrs. J. E. Baker of Martin, Mrs. C. D. McDowell of Clarendon, Miss Hazel Dyer of Goldston and county H. D. agent Miss Martha Buttrill will leave on the early morning train Sunday for College Station for the Short Course.

Miss Virginia Williams of Lelia Lake and Miss Joan Thompson of Hedley will get aboard the special when it reaches their respective stations.

Mr. and Mrs. Roscoe Trostle are again in Clarendon after a residence of several months in California.

W. H. Patrick, president of the First National Bank and key banker of this district, is in New Mexico on a business trip.

Brown Brothers Withdraw Appeal And Accept Sentence

Final Action on Case Will Close One of Donley's Interesting Cases

Affidavits asking that their cases now on appeal be withdrawn from the Court of Criminal Appeals, Belk and Milam Brown Tuesday added the closing chapter in their cases in Donley and will accept sentences given them.

In the district court here on April 20th of this year, Belk was given four years and Milam five years on assault to murder charges. Both young men have been in jail since the crime is alleged to have been committed in December.

The charge grew out of an alleged attempt to do bodily harm to Tom Naylor, his mother and sisters and T. R. Moss at the home of Mrs. Fanny Naylor in December of last year. It became necessary for Mr. Moss to shoot and kill one of the brothers in a round with the intruders after one of them had fired at Tom Naylor at close range.

One of the brothers, Belk Brown, is alleged to have run off at the moment his brother was shot and was captured at Tucuman and returned here, identified, tried and convicted as above stated.

The case occasioned quite a bit of notoriety here because of the prominence of the local citizens attacked, and the cold-blooded manner in which the attack was made in the Naylor home.

The affidavits signed Tuesday will now go to the Court of Criminal Appeals asking that the cases be affirmed. It will likely be some time in August before the Browns will begin serving time according to county attorney King.

Panhandle Museum to Receive First Prehistoric Gift

When fossil remains of an elephant or mastodon was discovered in a gravel pit near Castle Cliffs at Amarillo recently, friends of the Museum at Canyon became interested in securing the specimen to be placed on exhibit, the first effort of note made in this respect since the museum was established.

Tom Cotten, president of the gravel company, kindly contributed the specimen, and Mr. Studer, local paleontology enthusiast is preserving the remains as they are taken from the pit.

A ten cent charge is being made for admission to sight-seers to bear the expense of preparing the "remains" and mounting them in the museum. This specimen is said to be similar to many others in this section, but which were taken to museums at distant points.

Home Bakery is Advertising Reduced Prices

The long expected announcement of lower bakery prices has arrived. The low price of wheat is reflected in the prices advertised by the Home Bakery of this city.

The family loaf that formerly sold at fifteen cents is now being sold at twelve cents. The smaller loaf that sold for ten cents, is now going at eight cents or two for fifteen cents.

Prices have been reduced on practically every product offered by the bakery according to Mr. Huffman, owner and manager who in addition to a local trade, supplies a number of surrounding towns.

Bargains For Every Member In The Family

The reader will recall that the Greene Dry Goods Company put on a number of specials last week. The folks liked the idea. They liked the quality and the prices were a pleasant surprise. Mr. Greene says the sale was a big success.

This week the firm is taking a page of space in enumerating the many bargains they have to offer. Bargains for every member of the family. Dollar bargains. Look over the list. It looks like a mighty good chance to make a saving in goods that are an every day necessity. Friday and Saturday of this week. Don't pass it up.

Goldston Baseball Players Defeat Clarendon

Playing a game on the river Sunday afternoon, local players found the famous Goldston team too much for them and went down in defeat to the tune of 7 to 3.

"Tid" Tidwell is making plans to have the renowned Clemmens family come here for an exhibition game at an early date.

The Clemmens family consists of youngsters from 16 years of age up to the grandfather of 67 who is "some" swatter with the bat as well as a crack right fielder. The team is composed of the family without any outside help.

Mrs. A. T. Cole returned home Sunday from Fampa where she had been visiting her daughter, Mrs. Ben H. Williams and family.

Mrs. Charlotte McCanne and daughters, Misses Dorothy and Joy and Mrs. Cal Merchant, were Amarillo visitors Tuesday.

Chamberlain Gets Another Good Rain Monday

Weather forecaster A. L. Millsap of the Chamberlain community hastened to report a good rain that fell Monday following a number of rain forecasts that Mr. Millsap had been making since the season opened.

He states that at least an inch fell which will insure the corn crop. Chamberlain is coming with a record-breaking crop this season, and if prices are anything like they should be, the folks out there will be in pretty good shape this winter.

Orion Holt, another good farmer of that community, says he has the best corn that he has ever grown. He states that some stalks have as many as three shoots, and with the Monday rain, expects to make better than forty bushels to the acre this season.

Poultry Growers Make An Interesting Report Of Profit

Profit Results From Proper Management And Economy of Good Equipment

One of the best, if not the best known poultry production plants in the county is that on the W.P. Holly farm located about a half mile south of Ashtola. Mr. Holly is too busy with other affairs on the farm to give poultry the attention necessary to insure its success, but Mrs. Holly and son, Earl, are the poultry plant in charge.

In speaking of the matter Monday, Mr. Holly stated that all the credit for the success of poultry production on his farm was due Mrs. Holly and Earl who have given the matter close study and constant attention. And may it be said in his credit, Mr. Holly is a very successful farmer.

The poultry house proper is constructed according to A & M college plans and measures 18x32 feet. Old lumber was used and a concrete floor laid. The building complete with roosts and other accessories is estimated to have cost about \$75.

During the eight months, an average of 141 hens have been kept. During this time, 3950 pounds of mash and 3500 pounds of grain has been fed at a total cost of \$120.62. Green pasture was provided at all times so far as possible.

During the eight months, the flock produced 20,803 fertile eggs which were sold for \$286.32. Deducting the cost of feed, the net profit amounted to \$165.70.

In speaking of her experience with baby chicks, Mrs. Holly stated that a purchase of 1,000 baby chick was made on March 25th. Of that number about 900 remain to be sold at the age of two months. Of this number, about half were cockerels, and were sold for \$125.13.

The cockerels were separated from the pullets two weeks before sale day, and put on a fattening mash, a total of 6,010 pounds being fed at a cost of \$106.50.

Original cost of the baby chicks was \$149.90. The feed to date has cost \$106.50, making a total cost of \$256.40. Deducting \$125.13, the remaining 433 pullets now on hand represent an investment of \$130.87.

These facts and figures are given here to show what may be done with poultry in this section, and as further encouragement to poultry production in this trade territory.

Partial Report On Toronto Convention Is Made By Boykin

Was Delegate of Local Lions International Convention Meeting in Canada

Returning here Monday, G. L. Boykin, boss Lion of the local club, had much to relate about the convention to fellow Lions at the luncheon Tuesday. He confined his remarks to incidents of the trip going and coming and a few of the happenings while in Toronto, leaving the direct report to Sam Brewster, Sr. who was also a delegate.

H. Mulkey reported the success of the zone meeting the week previous, this zone meeting having been held with the local club.

W. A. Clark, Jr., Dean of Clarendon College was a visitor and voiced his appreciation at the opportunity of meeting with the club.

Boss Lion Boykin announced a meeting of both the old and the new boards. This meeting will be held next Monday evening at 6:15 at the Caraway Cafe.

During the absence of Miss Dorothy Whit who is visiting in California, Misses Fray Stallings and Delphia Bones will serve as pianists turn about until her return.

Thirty-Two Make Home Demonstration Club Tour Monday

Day is Filled With Anxious Anticipation And Joys Of Mutual Interests

Early Monday morning Ashtola became the mecca for a number of club workers by appointment. The purpose being a visit over the county to the homes of prize winners. The motorcade was directed by Miss Martha Buttrill, county H. D. agent.

The first stop was made at the home of Mrs. J. D. Moss who was awarded third prize in the recent living room contest. Mrs. Moss performed wonders in demonstrating what can be done to a tenant home.

Mr. and Mrs. J. D. Moss have a pressure cooker and can fruits and vegetables sufficient for the family requirements. They sell eggs, cream, poultry and some vegetables. Mrs. Moss canned 72 quarts of peas and 84 quarts of beans last season and expects to do even better this season.

Mrs. Moss is a member of the Ashtola H. D. club and is enthusiastic in learning more about fixing up her home, canning and sewing, these items being of most value as learned in her club work.

Her home was a model of neatness. She is the mother of two little girls aged three and five. Yes, Bettie Jo and Edith Marie were right there to help their mama welcome the folks upon their arrival.

The second stop was made at the W. P. Holly home just south of Ashtola. This is one of the 'show' places of the county. A beautiful home, flowers in profusion and a

W. R. Silvey Dies Tuesday In Dallas; Buried Here Today

Was Superintendent of Public Schools Here Over Period Of Twenty-Four Years

The body of Dr. Silvey, who died at his home in Dallas at 4:45 Tuesday afternoon, arrived in Clarendon this morning and was conveyed to the home of his sister, Mrs. W. B. Sims.

Funeral services will be conducted at the Methodist church this afternoon at 3 o'clock by Dr. J. Sam Barcus of Sulphur Springs. He will be assisted by Revs. W. M. Murrell, the presiding elder of this district, Rev. E. B. Bowen, pastor of the local Methodist church, and Rev. E. N. Shepherd, pastor of the First Baptist church.

Active pallbearers are: W. H. Patrick, J. T. Sims, J. H. Rutherford, F. E. Chamberlain, W. W. Taylor, J. T. Patman.

Honorary pallbearers: Odos Caraway, H. W. Taylor, P. A. Buntin, A. T. Miller, E. P. Shelton, W. J. Lewis, C. C. Powell, Selden Bagby, Dr. G. S. Slover of Stamford; Clinton Henry of Palo Duro; Lee Ledrick, G. C. Walsted, W. T. Hayter, L. C. McMurry of Pampa; G. C. Ferguson, E. C. Britain, G. C. Davis, W. N. Martin, R. H. Beville, Fancher Upshaw of Amarillo; Dr. J. A. Hill of Canyon and Dr. H. R. Greer of Dallas.

Dr. Silvey in passing away at the age of seventy-two, gave twenty-nine of the best years of his life in building up educational standards in the Panhandle. He served Clarendon twenty-four years as superintendent of schools, and spent four years at Pampa.

After moving to Dallas and retiring from the profession, he was frequently called upon to supply in the school room. He was an outstanding educator in the State and thousands of former pupils and associates will regret to learn of his passing.

Surviving him are Mrs. Silvey, two daughters, Mrs. J. B. Martin of Amarillo and Mrs. Paul Matthews of Tulsa, Okla., and a son, Gwynn Silvey who makes his home in Michigan. A more complete sketch of the life of Dr. Silvey will appear in the Leader next week.

Adair Hospital Enlargement Work Is Now In Progress

Eight Thousand Dollars Is To Be Expended For New Improvements

John M. Bass was awarded a contract this week for the construction of four additional rooms, heating plant, new room and various other improvements of the Adair hospital building entailing an expenditure of \$8,000.

The older portion of the building will be brick veneered to match the new addition consisting of four rooms 11x12 and a bath. A new roof over the entire building will be laid with galvanized metal shingles.

Speed brothers began running concrete foundations Wednesday of this week. Mr. Bass is rapidly assembling material on the ground that the work may be rushed. Patronage of the hospital has increased to the point that more room has been greatly needed for some time.

The contract was let by the financial board consisting of T. D. Hobart, president; W. D. Van Eaton, secretary; W. H. Patrick, vice president and treasurer. Other members of this board are J. T. Sims, Whit Carhart, J. W. Kent, W. W. Taylor.

The new board having direct management of the hospital is composed of F. E. Chamberlain as president, C. C. Powell as secretary and Odos Caraway, W. Martin, Dr. T. H. Ellis, and T. E. Moreman and J. G. McDougale of Hedley.

A contract has been entered into for a twenty year lease with the county. The hospital is a gift to the county from the late Mrs. Cornelia Adair, formerly owner of the J A ranch. The county pays the expenses of operation.

During the past twelve months the receipts have amounted to \$8,642.99. The expenditures amounted to \$10,432.07. A total of 187 patients have been cared for during this twelve months.

The county is considered fortunate indeed in having surgical skill here to care for patients when a serious operation becomes imperative. Unexcelled facilities coupled with this skill and the efficient management of Mrs. Ruth Teat has placed Adair hospital on a parity with the best in the state.

Samuel Perry of Dumas is visiting his mother, Mrs. L. D. Perry and other relatives in Clarendon.

Kellam Speaks To Rotarians At Friday Noon Luncheon Hour

Talk of Pastor-Evangelist Covers Many Points Now Affecting Nations

The program for Friday's luncheon hour of the Rotary club was directed by Dr. J. W. Evans, chairman of the Vocational Service Committee. Revs. J. J. Kellam, Robt. E. Key and B. N. Shepherd were guests of the Club.

Rev. Kellam delivered the principal address of the hour paying his respects to the Rotary movement for their efforts to secure world peace, and a more equitable understanding between the peoples of the different nations.

The speaker outlined plans of a number of civic organizations and cited results of a worthy nature achieved as a result of these efforts. His address was typical of the best civic club speakers and was highly instructive.

After much discussion, the membership voted a reduction in yearly dues from twenty dollars per year to fifteen.

The president announced the appointment of committees and read the various assignments.

Rotarian Carl Troop of the Memphis club was present making up his attendance record.

The International Service Committee of which Rotarian A. T. Cole is president, will have charge of the program for the meeting Friday of this week.

Several Are Vacationing In Cool Colorado

Among those to leave for mountain vacation trips this week were Misses Rhoda and Helen Wiedman and Miss Shukelford. Miss Shukelford lives at Austin but came by to join her friends on a vacation tour that had been planned for some time.

They expect to visit Estes Park and a number of resort towns and scenic sections of Colorado before returning. Bill Word, Jr. is "showering" the party of young ladies which all goes to prove that it pays to be a careful driver and know mountain roads.

Mr. and Mrs. G. G. Kemp and Miss Elizabeth Kemp and Miss Carol Holder left Tuesday for a two week vacation tour that will take them to Denver and the more interesting places of beauty and information in Colorado.

Chiropractor Again Opens Office in Clarendon

After an absence of several months, C. W. Galloway, D. C. has again returned to Clarendon to practice and will occupy the same office in the Latson building.

He and Mrs. Galloway arrived Saturday and have taken an apartment in the Latson building.

For the past several months he has been a student in a chiropractic school in Oklahoma where he was student and instructor having a number of classes a part of the day while pursuing a special course. He states that he passed the state board of that state and feels that he returns here much better prepared to render service in his chosen profession.

Free Bulletin on Canning May Save Trouble

Those who wish to know about canning by the different methods should get Farmers Bulletin No. 1471 which Miss Buttrill has for free distribution.

This bulletin gives in as simple form as possible methods of home canning, causes of food spoilage and the methods of preventing the loss.

Illustrations picture the various steps in canning so that any one may clearly understand the process of preserving all the foods for future needs that can be found on the average farm. The bulletin is free and may save you many dollars.

Heart Failure Causes Death of Hedley Pioneer

John Mace, aged 67 who resided on his farm two miles southwest of Hedley, died suddenly Wednesday afternoon, though he had been in failing health for several months. He was a half brother of J. R. Mace of Lelia Lake. Mrs. Sally North of Tahoka is a twin sister. His widow survives him.

Rev. John Wheeler, pastor of the Methodist church will conduct the funeral services this (Thursday) afternoon and will be assisted by Rev. L. A. Reavis of Clarendon and Rev. E. D. Landreth of Wheeler, all former pastors of churches to which the deceased had been a member.

Mr. and Mrs. Henry Shoffit and Miss Faye Barnhart returned Friday from a visit with Elmo Shoffit and family of Roswell, N. Mex. They also visited the Carlsbad Caverns, El Paso and Juarez before returning home.

Jack Bailey Has Champion Canteloupes This Year

Strange as it may seem, a competitive grower of canteloupes came into the Leader office the first of the week and said, "Jack Bailey has the finest canteloupes I have ever seen growing in old Donley county."

These melons are said to be no new variety, but are of an extra large size and appear to run uniform in size and shape. They are being grown on the Hardin farm northeast of town. Jack is expecting a fancy price for a fancy grade of melon and ought to get it.

Mrs. McCroy and daughter, Miss Gladys Evelyn, moved to McKnight Tuesday where Mrs. McCroy will teach in the McKnight schools opening the 27th.

Giles Ex-Service Man Takes Own Life With 410 Shotgun

Served His Country in World War Being Severely Gassed Fighting in France

News reached here early this (Thursday) morning of the death of T. F. Stotts, aged about 37, at his home at Giles about 6 a. m.

Sheriff Guy Pierce went down and an inquest was held in which a suicide verdict is said to have been rendered.

Mrs. Stotts stated that the deceased arose early and was heard to pass to the back yard from where she heard the report of a gun. Evidence disclosed that he had used a 410 gauge shotgun shooting himself through the heart.

Mr. Stotts was severely gassed in the late war and had been in very poor health for some time. This is ascribed as the reason for his decision to take his own life.

The deceased had resided at Giles for several years where he was esteemed as a peaceable, law-abiding citizen. He is survived by a wife and one child.

Walter Mark Emmons is paying homefolks a visit.

Chester Hodges Continues To Improve From Burns

Chester Hodges, who was severely burned about the body as reported in the Leader last week, was removed from the hospital at Hereford Monday and brought to the home of his parents, Mr. and Mrs. W. E. Hodges, near Martin.

Chester was burned when gas ignited from spill of the hose while filling the tank of a tractor. Though very weak, he continues to improve slowly and it will be some time before he will be able to be out again.

W. A. Hughes of the Chamberlain community 'peddled' out some mighty fine corn here Wednesday. He seems to think he will beat his neighbors with forty bushels to the acre this year.

Payments Pension Money Being Withheld For Lack of Funds

Ex-Confederates And Widows Suffer From Lack Proper Legislative Provision

Hundreds of ex-Confederate soldiers or their widows in Texas are today facing disaster, and in many instances want, due to the lack of foresight of men in authority.

Now that the aged are helpless and have long learned to look to the state for the pittance that has been paid them, today they receive only disappointment. The depression has hit the fund—it has hit the aged still harder.

Adjutant W. H. Martin, who served the local camp until disbanded a short time ago, this week received two letters which are self-explanatory, and which we print below.

Mr. W. H. Martin, Clarendon, Texas. Dear Mr. Martin:-

In answer to your letter concerning the possibility of getting payment on the Confederate pension warrants, I will state that I am enclosing copy of a letter which the Comptroller's office is sending out to letters of inquiry upon this matter. It is true we tried to provide in the last law that pension warrants could be paid out of the general revenue when the pension fund was exhausted, but now with both the pension fund and the general revenue exhausted, payment simply will have to be held up until some money accrues in these funds with which to pay them. As you will see from this letter, it probably will be sixty or ninety days before payment can be made.

Please be assured that I am glad to assist you in any way possible.

I am
Yours very truly,
Dewey Young.

It Might Be.

Still a B. S. degree might mean "Be Safe" or "Be Sensible."

Wisdom.

An old sage has said that the one big thing in life is to "know what is to be done, how to do it, and then go ahead and put it over."

Changing Odors.

Since going into the restaurant business, the only place one can get a whiff of the old-time drug-store is in a beauty parlor.

The Optimist.

The optimist is the fellow who advertises his wares on a billboard and expects the motorists to slow up to read his ad.

Improvement.

So many have gone "over the hill to the poorhouse" the past year that the hill has been worn down until they can make it in high.

Genius.

The path to the mousetrap builders home was undoubtedly beaten out by the cheese peddlers judging from the number of this tribe on the road making Clarendon.

New Ideas.

The young lady who used to visit here over the week end brought a trunk filled with clothing. Now when she and her four children come to spend the week, the clothing for all five is brought in a hand bag.

Governor Murray.

More and more as time goes on, it becomes more apparent that Murray is "the" governor of Oklahoma. Friend of right, friend of the weak and oppressed. He would have been impeached long ago if his enemies only dared.

Warning.

Old Noah advertised around for about a year telling the folks about the flood but he could get no passengers and finally had to take on skunks, alligators and live stock for ballast.

But look what the public got into by not taking advantage of his rainy day excursion rates.

Heap o' Livin'.

Donley county has ready for harvest her biggest crop of fryer chickens in a long number of years. One-eyed peas and beans are beginning to come on the market. Roasting ears—the best in years—are almost ready and the earlier varieties are ready for the table.

Shucks folks! We are sitting on top of the world. Plenty of graham bread made from wheat that is cheap and grown in America's best grain belt. We're getting ready to live.

On top of that, the women folks are canning to beat the band. Winter will find thousands of the best canned products of the land right here in our old home county. We ought to be the happiest people alive.

Our Legislature.

The fact that only \$275,000 has been appropriated to pay the expenses of the present called session of the Legislature, means that we are getting off light.

Some have advocated a tax on both cotton and oil production. This means that while Texans are being taxed to curtail production, producers of both commodities in other states will be getting the limit.

There is but two things to do: stop the importation of foreign oil and cotton and use both trusts that control the price.

course of peace officer procedure.

Three men were captured a few hours later. They allegedly admitted the crime and boasted of their ability to defy all the laws of man. One had served a term for bank robbery. The outlaws are in jail facing a possibility of conviction later, but no matter how their cases may terminate, the brave peace officer who fell in the line of duty, cannot be restored to life.

Amendments be Voted Upon November Next Year

Since the adoption of the Constitution in 1876, the voters of Texas have added 51 amendments. During the same period, 57 have been rejected.

The nine which are to be balloted upon by the people are as follows:

Fixing a \$3,000 exemption for homesteads in levy of state ad valorem taxes.

Limiting voting in bond elections to citizens who have rented property for taxation.

Combining the offices of county tax assessor and county tax collector.

Permitting retired officers of the Army, Navy and Marine Corps to hold public office.

Changing the method by which property sold for taxes may be redeemed.

Empowering the Legislature to establish 10-year limitation on delinquent tax collections.

Authorizing the Legislature to make appropriation for Texas centennial celebration.

Correcting the present regulations upon voting of sea wall bonds by cities and counties so as to allow a two-thirds majority instead of three-fourths.

Correcting the University funds amendment adopted last year so as to permit investment of university permanent fund in the university's own obligations as well as other securities.

Most of the amendments are worthy of adoption. The change which would be wrought by most of them would be minor, insofar as the major interests of the State are concerned, being largely taken up with details. The greatest fundamental change is that involved in the homestead tax exemption amendment. It would free practically every homestead and many farms from the state ad valorem tax complaint against which as contributing to the heavy burden upon the "little home owner" and the farmer has been mounting in recent years. This amendment, if adopted, would cut the ground from under the agitation for abolition of the ad valorem tax, since the tax would be left to apply to few others than the well-to-do whose real property was assessed for taxation at considerably more than \$3,000, the amendment's maximum exemption.

Of the others, the amendment combining the offices of county tax collector and county tax assessor is calculated to effect a considerable economy in state and county expenses. The fate of the amendment authorizing legislative appropriations for the contemplated Texas centennial exposition will determine whether or not Texas will celebrate its 100 years of existence on an impressive scale.

A PLEA FOR AMERICA

President Hoover gave testimony in 1918 before a subcommittee of the United States Senate committee on manufacturers.

He was asked what he had been doing for the last twenty years and having replied that he was an engineer, he was asked where he had been practicing his profession.

He answered: The United States, Mexico, China, India, Australia, South Africa and Russia.

The following was then put to him: "You have spent more time in England in the last twenty years than you have in the United States, have you not?" To which Mr. Hoover replied: "I should imagine in the Aggregate, yes."

Mr. Hoover, however, denied that he was a resident of London, although he said: "I had a house there."

Have we a clue here as to why the President of the United States is so intensely concerned with conditions outside of his own country and so insensible if not indifferent, to the problems, the needs and the distresses of his own country?

There is a grave condition of unemployment in your own country, Mr. President.

It is estimated that six million Americans are wholly without work, and that as many more are struggling to keep body and soul together on the insufficient wage which is paid for part time work.

There is a country-wide stoppage of industry—closed down furnaces, smokeless stacks and silenced machinery.

The prosperity that prevailed when you took office has departed. Merchants are without customers. Buildings are without tenants. Mortgages are deemed hardly worthy of foreclosure.

There is a grave condition of unemployment in your own country, Mr. President.

It is estimated that six million Americans are wholly without work, and that as many more are struggling to keep body and soul together on the insufficient wage which is paid for part time work.

There is a country-wide stoppage of industry—closed down furnaces, smokeless stacks and silenced machinery.

The prosperity that prevailed when you took office has departed. Merchants are without customers. Buildings are without tenants. Mortgages are deemed hardly worthy of foreclosure.

The present position, signed by outstanding fellow citizens of yours representing every calling, every

walk of life, every section of your country, you were told that "private charitable funds are inadequate to alleviate the suffering resulting from these conditions"; that the "private savings of the workers are virtually exhausted"; that "regardless of any change that may occur in the business outlook, millions of your fellow citizens face a Winter of acute poverty and distress."

A prosperity loan has been proposed of \$5,000,000 to relieve the unemployment, and in so doing to start again the wheels of industry and to recover prosperous conditions as they have been recovered in the past by similar measures.

This proposal has received praise and support throughout the country.

And yet no word comes from you. There is no sign from you that you are even aware of the constructive thinking that is going on about you.

Is it your idea that the treasury should not be burdened by the issuance of obligations, to which your fellow countrymen would be only too glad to subscribe, to ameliorate the sufferings of Americans?

You seem willing enough to put a burden of \$250,000,000 upon the treasury and upon the backs of the American taxpayers to strengthen German credit and German business obligations which are held by the bankers in New York, but from which no relief will result to the needy and suffering among your own people.

How do you explain this? How do you justify it?

FIND ANCIENT TOMB

Sakkara, Egypt—Excavators working here on the site of ancient Memphis have entered the tomb of Queen Neith, daughter of Pepo I. thought to be more than 4,200 old. These excavators found about 800 lines of well preserved inscriptions on the tomb which throw much light on the history, language and religious beliefs of the old empire.

BREAD OMELET

One-half cup bread crumbs; four eggs, one-half cup milk; one table spoon butter; salt pepper.

Soak the bread crumbs 15 minutes in milk. Beat the yolks of the eggs and seasoning, add to the bread crumbs, and fold in the beaten whites. Pour into a hot buttered pan and cook slowly. When brown on the bottom put in a slow oven 300 F. to set. Fold and turn out on hot platter.

Bill Riddle, formerly with the Ford people here, and who later joined the Ford agency at Wellington, purchased the City Service station at Wellington last week as individual owner.

M. W. Headrick left Saturday to spend the summer with a daughter in the Rio Grande valley. He asked that the Leader follow him to Mission.

THE WORLD MOVES

Henry Ford put the carriage out of business, Thomas Edison almost wiped out the kerosene lamp, and the radio has about finished up on the phonograph.

A changing world? Sure is. The Modern Bank has to keep step with progress. Cautious people do not hide their money in tin cans, the old mattress and such places. They keep their money in our bank where it is safe, and pay their bills by check. That is the safe convenient way to do business.

A Veritable Treasure-Chest of Delightful Summer Delicacies

THE entertainment season reaches its height during the warm summer months, when the very thought of sparkling ice cubes, frozen desserts and crisp salads is like a breath of cool breeze. And to be an entirely successful hostess, you must be prepared to serve these dainty and delicious summer refreshments.

Modern home-managers have found, in the Electric Refrigerator, a simple solution to this ever-present problem. They merely keep a supply of sandwich materials and a tray of frozen dessert or salad always on hand, and thus prepared for any emergency—regard unexpected guests as a genuine pleasure.

A trained salesman will be happy to arrange a complete demonstration for you. He will explain the unusual economy of Electric Refrigeration and the many advantages of Safety, Convenience and Comfort that a new Frigidaire will bring to your home. A Convenient Term Payment Plan enables you to enjoy these advantages immediately. Call for a representative, today!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule and adds only a small amount to your total bill?

*** TEMPLE OF TRUTH ***

By the Apostle
 Migosh! The good woman got up early Monday morning and began to stir around something awful. The old Apostle was given to understand that he was to drive around all day with a bunch of women under guard.

Did we? We did!! Being with a big bunch of women all day is some experience for an old man. Get an ear full? Yep, both ears full and them some. Women don't gossip any more like they used to. Nobody but the men follow that old-fashioned indoor sport these days.

Well, well, Heard a lot about cooking and sewing. But after all that day, this poor deluded, henpecked cuss never learned the difference between a 'bias' cut and a 'gored' seam. In fact it may mean a new kind of poultry because the women folks certainly go in strong for chickens.

Had a swell feed. The good woman says that a man can only remember the 'feed' and even then can't tell what he ate—and I can't, only it didn't kill. Seriously speaking, it was a great day. Jolly bunch of 'doers' and it is wonderful how some women can make a whole lot of nice things out of nothing. And, besides, it is a wonder that some of them have the heart to try considering the husbands they have, including myself because the good woman is some club fiend.

Saw tow sacks made into rugs. Gunny sacks too. The only difference as I learned it that day, a 'gunny' is right side out and a 'tow' sack is right side in. Saw a few old planks that a man would let bark his shins for a coon's age made into tables and stands.

Men, they've beaten us all hollow and we might as well admit it. They work with things that you and I would shift to a junk heap. They know what they are trying to do while we men folks give the job a slap and a promise and let nature take its course and cuss our luck if it does not turn out to suit us.

Some of the women had on dresses that cost 39 cents and looked like the "Queen of Sheba." Never saw the like. An old rent house was dolled up to look like a mansion. It was clean, light and airy. I wanted to go out in the field and tell her husband that he got the woman I had looked over three continents hoping to find but the good woman objected.

A woman who will get on the job like a number of these women have done makes a worthless man take on new courage. These women are going to save the country in spite of all we can or have done to tear it down.

In company with that wonderful crowd of homemakers, we visited one place in particular where the sainted old mother sat serene and calm in the evening of life after mothering nine children and giving to the family nearly fifty of the best years of her life. Her's is a busy home, spotless clean. One of these 'homey' homes.

Her hands were no advertisement for a beauty parlor, but every callous spot meant a sacrifice of love and devotion and are but jewels in a crown of glory bestowed upon motherhood by all right-thinking people.

While I was eating a sandwich, the canary bird joined in with the women and being fond of birds, I took a look at him. He was a dandy. His cage was held up by a beautiful stand affair. I thought right then I would buy one like it.

Later when the young lady was explaining how she made various things in the room, she said the canary bird stand was made out of an "old bedstead and a piece of a mowing machine." Great Scott! Here I was fixing to ask her where she got it and she did not get it at all—just gathered it up around the farm. Wonderful? I'll say it was and is. In fact I sneaked out of the room to give it the once over to see what she was putting over me on that description. There it was if one cared to study it out—bedstead and mowing machine as sure as I live.

The only word that I got in edge wise with that bunch of women was to call their attention to the fact that this young lady could paint better than she could make canary stands. Wonderful life-like pictures hanging on the wall and every picture telling a story with a heap of meaning.

Yes, and another thing. We visited a dandy little homemaker way out there in the sand. Bright and cheerful and enthusiastic. She had done more with a saw and hammer toward beautifying her home than half the men folks in the county. Think of it! Armed with tools and

determination and created out of a bunch of boards a wardrobe that would be a credit to any home.

Everywhere we saw the influence of an energetic and well-trained county demonstrator. Making new things out of old. Old dressers made into tables or radio stands. Every piece of furniture that had been worked over was filled up with drawers for placing things out of sight. Good idea. Something all women should know.

Funny thing happened. Was walking around looking at the fine lot of flowers at the Holly home—and they have a lot of 'em—and a goodlooking widow confidentially told me that when I found a man who had a home like that to send him around. We got more confidential, and I frankly told her that men such as she described were scarce and getting scarcer, but I'll fill her order if it takes a lifetime. She asked me to keep her request a secret, so don't let it out.

We looked at neat rooms, fancy wardrobes, swell dresses that cost practically nothing, furniture made over and countless other things worth while until I got sorry for the husbands of the crowd.

Just four henpecked fellows got roped into that deal. It looks like a framed affair. Every time a wife saw something new she would turn to her 'ball and chain' and say, "I want you to make me one just like it." These wives didn't mention anything about it if the article had been made by a woman, but when they had a chance to compare us henpecked husbands with some other woman's husband, they rubbed it in and made us like it.

Never saw four husbands hanker after kindness from their wives or get less of it in my life than on that trip Monday. The old Apostle finally got full and told the good woman that if she could stretch her imagination to recall to mind anything that I had done in my life worth while, daburn tell it so everybody could hear it. She tried and failed. If she had of mentioned just one thing, I intended to shout and break up the meetin' as sure as heck.

Dumb as I am, I know that half the men in the county will fall in on me and deny half that I have told about 'em and they know it is a fact, the women will swear it and I can prove it.

Judging from the conversation and what was seen on the trip, these women folks have gone in for the things that mean most toward a sane sensible existence. They dress simpler and for less money. They furnish their homes better and for less money. They can and prepare better foods for less money.

There it goes again. We men folks don't know, and what is worse, we can't learn. When summer comes the women dress for hot weather. Hot weather does not mean a thing to us except more suffering. We have to wrap up in a coat or we are a nobody. Blamed if I don't start a sockless fad with "sawed-off" britches and night shirts until cold weather and see how much brains there is in the country.

Gangway! Nothing but the cavalry can save my life with Liat kind of a rig.

LANDRETH-EVERETT

Miss Jonnie Lee Landreth became the bride of Joe Everett Sunday when the beautiful ring ceremony was held in the home of the bride's brother at Wheeler, with Rev. E. D. Landreth, brother of the bride officiating. The house was beautifully decorated. Tall baskets and vases of lovely garden flowers formed the archway.

The wedding march by Lohengrin was played by Mrs. E. D. Landreth. The bride was beautiful in pink crepe with a bouquet of pink rosebuds.

Miss Verda Gilliam, maid of honor wore orchid crepe. Miss Jewel Everett, sister of the groom, bridesmaid, wore orchid crepe. Era Joe Bryant, bridesmaid, was beautiful in green crepe.

The groom was dressed in conventional black. The best man, Wendal Meeks wore black also.

Merle Landreth, nephew of the bride acted as usher.

Guests for the wedding included Mrs. J. M. Everett, and children, Doris, Merle and Bucky, Mrs. R. B. Adams of Hedley and Mrs. Homberg.

After the ceremony a buffet supper was given in the home of Rev. and Mrs. E. D. Landreth.

For her going away suit the bride chose brown crepe with accessories of white.

Mrs. Everett has a large number of friends in Hedley, having lived here for two years. She was a talented member of the 1930 graduating class of Hedley High School.

The groom has resided in Hedley since childhood and has been a popular member of the younger set for a number of years. He was also member of the 1930 class of Hedley High School and now holds the responsible position of assistant postmaster.

The many friends of this splendid young couple welcome them to Hedley where they will make their future home.

Judge Gough of Amarillo Writes The President

Amarillo, Texas
July 15, 1931.
President Herbert Hoover,
White House Washington D. C.
Dear Mr. President;

I have studied with interest your statement about a few men selling short and ruining the price of wheat as reported in the press of the 10 inst.

You are reported as saying: "These transactions have been continuous for the last month." Yes, you are right. They have been continuous for the last three years as the Grain Futures Administration will show.

You are reported as saying: "It has but one purpose and that is to depress prices." "The intent is to take a profit from the losses of other people." "It deprives many farmers of their rightful income." You also ask these men to stop their manipulations.

You are also reported as saying that under the law you can not give the names of these men, and then emphatically added: "If I could, I would gladly do so."

The constitution of the United States expressly says that no man shall be deprived of his property without due process of law.

Then by what right can certain individuals depress the price of our wheat? Is it justice? Does it promote domestic peace and tranquility? Does it promote the public good?

You are reported of accusing these certain men of manipulation of prices. Manipulate means to falsify. Then by falsifying these certain men are depriving the farmers of their property without "due process of law." Falsifying is a criminal act.

Does the law protect criminals so that the President of the United States can not expose them and them to justice?

When you say the law forbids you to make public the names of these certain individuals you perhaps have reference to the Grain Futures Act. If so, the Grain Futures Act gives the Secretary of Agriculture power to make rules and regulations to put the Grain Futures Act into effect and rule 4 provides that these names can be exposed in a court of competent jurisdiction.

Then, Mr. President under your oath of office is it not imperative that you instruct the Atty. General to take the necessary steps to expose the names of these certain individuals and bring them to justice?

As the Secretary of Agriculture under the Grain Futures Act superintends the operations of these certain men, who are depressing the price of wheat and depriving the farmer of his rights as an American citizen and now as the Secretary and the president have knowledge of these facts, and if nothing is done to stop the evil, does that make the United States Government responsible to the farmers for losses brought about in the manner outlined by the President?

These certain persons selling short are violating the Grain Futures Act. They are violating the constitution of the United States. They are violating the Anti Trust Laws. They are a monopoly operating in violation of God's Laws, economic laws, and United States and State laws.

The Farmers Protective League of America will gladly render you service in stopping these unlawful actions that are undermining the foundation of our Government.

Very truly yours,
Farmers Protective League of America.

By L. Gough, President.

*** LELIA LAKE ***

The crops of the community are the finest in our history. Everything points to one of the best crops we have ever had in these parts. Truck stuff is just beginning to come off, and in the next few weeks, the truck farmers of this community will be a busy lot. Cotton and feed are also fine.

Merit-Fed Flocks WIN AGAIN!

NICOMA PARK, near Oklahoma City, is the largest poultry colony east of the Rockies—and in the egg laying contest of 1930, lasting eleven months, MERIT-fed flocks won the first five places, and seven out of the first ten prizes! Furthermore, MERIT POULTRY FEEDS were adjudged FIVE PER CENT BETTER THAN THE NEXT BEST IN THE CONTEST, figured on a cost per dozen eggs basis. And only thirteen flocks—out of the forty-three flocks totaling 35,527 fowls entered in the contest—were MERIT-fed!

MERIT-fed flocks were the outstanding winners because MERIT EGG MASH is an outstanding ration. Its formula keeps the three egg-making organs of the hen working full time, and provides the essential nutrients in exact proportions to develop a good yolk, white and shell. Protein is not less than 18%; fat is not less than 3 1/2%; NFE, not less than 50%; and crude fibre, not more than 7%. To increase your egg profits... test out MERIT!

**Chevrolet Sixes
In Greater Demand**

Shifting of favor among low-priced passenger car buyers from four to six cylinder automobiles is definitely indicated by registration figures for the year-to-date now appearing in leading automotive trade magazines.

Complete returns for the first five months of the year reveal leadership in passenger car sales having gone to a six, Chevrolet having titled 303,110 cars in the period as against the 292,774 four cylinder titled by the largest four-cylinder car manufacturer.

The trend is significant in that 1931 is the first year to see a six cylinder car leading all other makes. Although Chevrolet also occupied first place in registrations several years ago, the record then was made with the old four cylinder Chevrolet before the changeover to a six.

The month by month margin of 10,000 cars by which Chevrolet led the runner-up this year was widest during May, when Chevrolet titled 4,600 more passenger cars than the leading four. May registrations are further interesting in that Chevrolet titled only 1,000 less cars than in the same month of 1930.

During the first five months this year Chevrolet titled 303,110 cars compared with 333,174 for the same five months of last year, which were regarded as normal. The drop of less than ten per cent compares with a comparable drop for the industry generally of about thirty per cent.

Indications of a general pickup in retail buying as it affects Chevrolets are contained in a comparison of registrations for May with the same last year. Gains were recorded in the Far West, New England, the Southeast from North Carolina to Florida, the Midwest in New York state, Pennsylvania, New Jersey, and Maryland, and the Midwest, notably Indiana and Michigan.

More than ever, this is an outdoor summer. Highways and byways call. Weekend trips are easier and pleasanter than before. Railways, boat companies and bus lines offer striking inducements to seek relaxation here, there and everywhere, and of course one's own car is a constant temptation to whirl into a new world of recreation. It's become easy to dodge home cares. Attractive clothes for summer have been designed so they can be tossed into a porcelain washer and then dried without the old-fashioned wringer if one has an ABO Spinner

which spins clothes ready for the line in Peoria, Ill. Altorfer Bros Company designed this unusual washer to end tiresome, laborious feeding by hand between rollers and thus remove the last bane of the housewife's working week.

These attractive costumes shown for instance, are no problem for the woman with a Spinner. The beach costume is blue and white cotton rep. The tuck-in shirt has a sailor collar. The other outfit is cotton tweed with stitched pleats and has a semi-fitted jacket with a scarf collar of white cotton mesh, also used in the dress bodice yoke.

RELIEF

From Headaches
Colds and Sore Throat
Neuritis, Neuralgia

Don't be a chronic sufferer from headaches, or any other pain. There is hardly an ache or pain Bayer Aspirin tablets can't relieve; they are a great comfort to women who suffer periodically. They are always to be relied on for breaking up colds.

It may be only a simple headache, or it may be neuralgia or neuritis; rheumatism. Bayer Aspirin is still the sensible thing to take. Just be certain it's Bayer you're taking; it does not hurt the heart. Get the genuine tablets, in this familiar package for the pocket.

THIRTY-TWO TAKES—

(continued from front page)
nice orchard with well kept grounds bespeaks the energy of the folks who call it home.

Mrs. Holly welcomed the visitors. She won first in an apron contest but the principal object of including the Holly home in the itinerary of the day, was to show the merits of the poultry industry as practiced on the Holly farm.

Mrs. Holly is a gracious entertainer, taking the ladies in charge she took every pains at explanation and an inspection of the poultry house and yards was made. Mr. Holly laid off his job and spent considerable time helping answer numerous questions that were shot at him right and left.

He explained the ten cent feed mixer where thousands of pounds of feed are carefully weighed and apportioned for the poultry. Ten cents? Yes, that's what the mixer cost him, and that amount was expended for bolts. He used an oil barrel for the container and the piece of cotton seed conveyor given him by a friendly gin man completed the equipment that answers all practical purposes as though it had been factory made.

The Holly family believes in living at home and working at the same place. They sell a lot of poultry and eggs, cream and while they do not sell any, they make a good grade of cheese, something that we need to know more about.

Mrs. Holly is mistress of one of the most beautiful rural homes in the county, and is a leader in club work being a member of the Ash-tola club.

The next stop was made at the J. A. Pool home where the family has resided twenty-two years. Mrs. Pool welcomed the visitors and several neighbor ladies helped her to serve refreshments.

Mrs. Pool looks after the sale of eggs, cream and poultry. This is a large farm and the men folks work land on a big scale. Mrs. Pool received first prize in the recent living room contest and has a lovely home. She is a member of the Martin H. D. club.

The hour of noon was nearing as the motorcade left the Pool farm, and with the thoughts of a 'big feed' at the Meaders farm in mind, the speed was greatly accelerated.

Arriving at the J. A. Meaders farm in Pleasant Valley, Mrs. Meaders and Miss Katie welcomed the club ladies and visitors in that hospitable manner true of Georgia's foremost citizens, though they have long called Texas 'home.'

Miss Katie Meaders received first award in Class 2 of the county living room contest this year. She also was awarded first in a linen contest in 1924.

The Meaders home is both spacious and beautiful. No home in the county has been furnished with better judgment of symmetry and color harmony. The ladies found much in the Meaders home of interest and the products of skill of Miss Katie were everywhere in evidence.

Not only is this young lady gifted in home building and arrangement, but she is also a painter of more than average ability and her beautiful pictures adorn the walls completing the studied arrangement of shadow effect to best advantage.

When asked what part of H. D. club work had pleased her most, Miss Katie promptly replied: "All of it." Her skill does not stop at indoor arrangement and management. She has given other phases of club work close study.

Eggs, poultry, cream and other dairy products are sold from this farm and in the course of the year, amount to quite a sum.

As at each of the homes of prize winners, Miss Katie explained each item entering into the general scheme and readily replied to practical questions plied her following her general explanation.

There was plenty and to spare of the variety of foods, mostly sandwiches, that made up the noon day meal at the Meaders home. The crowd was loath to leave this beautiful home with the cool rooms and iced drinks to gain travel over dusty roads under a withering heat and threatening thunder storms.

The next stop was made at the home of Mrs. C. E. Lindsey, first prize winner in the wardrobe contest this year and a winner in the dress contest in 1929.

Mrs. Lindsey with the help of her husband constructed a wardrobe that is convenient, neat and a great help in caring for the wearing apparel. She is an active member of the Clarendon H. D. club.

The home of Mrs. C. G. Knox was next visited near Lelia. Mrs. Knox received the 4th award in the recent living room contest. She takes an active interest in the

Lelia Lake H. D. club, and though she has a large family, finds time to give poultry her attention.

Mrs. Knox has received most benefits from canning instruction received through her club work. She uses a pressure cooker and cans both vegetables and meats, and fruits when obtainable.

The home of the youngest homemaker on the list was next visited. Mrs. Ross Adamson was formerly Miss Opal Bulls, daughter of Mr. and Mrs. J. R. Bulls who reside north of town.

Mrs. Adamson served refreshments as the crowd scattered by a dust storm, began to gather at her home some four miles north of Hedley. She is an active worker in the Hedley club and received second prize in the wardrobe contest this year.

Her wardrobe construction would do credit to a first-class carpenter, and yet she is authority for the statement that it is her own product. The arrangement is all that a woman could desire and the selection of materials and the apportionment of space is all that could be desired.

Mrs. Adamson is a busy wife and homemaker. Her home is neatly arranged and she is a most gracious hostess. There was not a dull moment at her home though some were anxious to start for home with clouds thickening.

Due to her industry, eggs, cream and poultry make up a part of the sales from this well-managed farm. Mr. Adamson provides the sweet potatoes and peas that not only

Elder Wallace Revival Will Begin Here July 31st

The revival at the local Church of Christ will begin on Friday night of the 31st of this month.

Visitors to accompany the motorcade were Mr. and Mrs. C. J. Douglas and son Clyde Jr., Misses Bettie Jo and Edith Marie Moss and Muffett Sims and J. C. Estlack.

Believe It Or Not—Hats Two-Thirds Off

Recently the Leader man walked into the Bryan-Miller store and looked over the fine bunch of Mallory straw hats. "You can have your choice at \$2", Allan Bryan said as he began to think of a possible sale.

Looking inside of the hats, we found prices of two and three months ago rated at \$6 to \$7.50. We got a \$7 hat for two bucks. The boys in the family stocked up and if they have any left, rush in and get a late style standard brand straw in most any shape at less than two-thirds of the regular price.

This item is printed for the sole benefit of our readers. They would not advertise because they were taking a big loss, but a hat that will last several seasons at this price seldom ever meets a buyer who is hat hungry.

Dinner Golf Tournament Now In Full Swing

Members of the local golf club are this week playing a number of matches which are to be concluded Sunday evening.

The players are divided up and captained by W. A. Wilson and H. E. Kerbow. The losing side will pay for the "eats" at a dinner to be served Monday evening of next week.

Chevrolet Fleet Sales Are Growing

Large industries in their purchase of automobiles in fleet quantities for commercial use apparently are paying little attention to "buying lulls" and depressions in survey of Chevrolet's fleet sales for the first six months of the year disclose.

During this period fleet sales increased 9.4 per cent over the same period last year, 71 per cent over the first six months of 1929, and came within 2,000 units of equalling the figure for the full year of 1929. These figures include passenger cars and trucks purchased by large companies who contract to take a given amount of equipment within an agreed period.

The gain already recorded this year over previous years is expected to be maintained throughout 1931 in line with the domestic sales expectations recently expressed by H. J. Klingler, vice president and general sales manager.

Not only have sales of fleet units gained this year over previous half years, but the number of fleet users likewise has increased until today practically every large fleet operator in the country numbers Chevrolets among his equipment, according to Sidney Corbett, manager of the commercial car division. Among the largest users are the United States government, public utility, tire and rubber, packing house, telephone, telegraph and express companies. Of nearly 500 users of Chevrolet fleet equipment, 73 have purchased 27,605 units to date, Mr. Corbett said.

Kenneth Wayne is the name given the husky youngster of nine pounds that came to live with Mr. and Mrs. Chester Hodges Wednesday.

J. D. Pope has moved from the Goldston community to the E. W. Alderson farm southeast of town.

Mr. and Mrs. Ben Williams of Pampa announce the birth of a daughter on Saturday, July 18th at a Pampa hospital. Mrs. Williams will be remembered here as Miss Wilette Cole.

Wrestling Match July 31st
Meet the Clarendon Favorite

Roy Welch — Borger, Texas
T. G. Stargel went to Amarillo and held a conference with Cal Farley the first of the week to secure an opponent for Roy Welch of Borger for his appearance here July 31st. Cal recommended Sweed Larson of San Antonio who just arrived in Amarillo off of a wrestling tour on the coast of which he won most of his matches. Cal said that he was one of the best opponents that could be found to give the Clarendon fans a real show. It is Cal's intentions of being here on that night.

It will be remembered that Roy Welch is the wrestler who wrestled "Dutch" Mantell here July 2nd in which the mighty Dutch was given a good run for his money. Welch was here over the week end and said that he had been training in Borger every day since his appearance here on July 2nd. He is in perfect condition and will finish off his training for the bout here the last week. Roy made a big hit with the local fans here and his clean wrestling ability makes him the local favorite. He has a special twist that he likes to give to the Swedes. He beat this Swede the best two out of three falls two years ago in Borger. He feels that he can beat him again in any ring. Swede Larson is not a total stranger to the fans in this part of the country. He is just off of a wrestling tour of the coast and is

pleased to have a chance to meet the man that threw him two years ago in Borger. He is a husky chap and takes them all on. He is working for a chance at Cal Farley.

Roy Welch will go in the ring weighing around 165 and the Swede will have five pounds in his favor.

Another negro battle royal will start the evening fun. The preliminaries will be two ten minute bouts between local boys and out of town talent if they can be secured. Stargel assures the fans that these will give them plenty of amusement.

Ring side seats may be bought at the Pastime Confectionery Saturday. For reservations phone 202 or write the promoter.

Watch for the place of location in next weeks paper and the latest dope on the matches.

Densil Davis will be third man in the ring.

Methodist Minister Brings Suit Against Elder

Dr. Rembert G. Smith, Methodist minister of Sparta, Georgia, entered suit in DeKalb county Superior Court Tuesday against Dr. John S. Jenkins, presiding elder of the South Atlanta district of the Methodist Episcopal Church South, for \$25,000.

The suit alleges that on July 23, 1930, the presiding elder "maliciously composed and sent through the mail a letter containing false, scandalous and defamatory words" aimed at Dr. Smith.

Mrs. Elmo Shoffit and daughter of Roswell N. Mexico are visiting Mr. and Mrs. Henry Shoffit this week.

Mrs. Earl Humphrey of Pampa visited relatives and friends here over the week end.
