

# The Donley County Leader

A friend to the farmer, his home and his family. A champion of his rights and a willing promoter of his interests.

Volume 5 Number 16

CLARENDON, DONLEY COUNTY, TEXAS, JUNE 22, 1933

A Common Paper For Common People

## Farmer Gets "Bamphoozled."

Just about the time the farmer gets his cotton planted with seed bought with money loaned him by his government, the government makes him an offer to get him to plow the blamed stuff up. Who said "haywire?"

## Three Blind Lawmakers in Texas Legislature

LON E. ALSUP

TOM HICKS

OLIN R. VAN ZANDT

Three of the members of the Texas legislature during the latest session are blind. Lon E. Alsup of Carthage, serving his second term, is author of the bill that repealed the "three-day notice of intention to marry" law. Olin R. Van Zandt of Tioga, serving his third term, is one of the ablest constitutionalists in the house. Tom Hicks of Grand Saline is a newcomer, serving his first term, and is a close student of legislative procedure.

## RESIDENT HERE IN EARLY DAYS DIES AT MEMPHIS

Came to Clarendon in 1900 Conducting Tailoring Business 14 Years

Following an illness of several months, A. W. (Bill) Guill, aged 54, passed away at Memphis Monday evening June 19th at 6:15. He was engaged in the shoe business there at the time of his death.

He came to Clarendon in 1900 and conducted a tailoring business here until 1914 at which time he changed his place of residence to Memphis.

He married Miss Anna Talley, an art teacher and daughter of Mr. and Mrs. R. W. Talley of Clarendon in 1912, who survives. His children are Marjorie aged 20, and a son, A. W. Jr. aged 15.

A. R. Guill of Memphis is his father. His sisters are Miss Lillie Guill of Memphis; Mrs. Hodges of Whiteoak; Mrs. Estes of Byars. His brothers are Bird and Charley of McLean and Hugh of Alarreed.

Mr. Hugh Brown of Clarendon is an uncle, his sister being the mother of the deceased.

Services were conducted at the Presbyterian church at 10 a. m. Tuesday by the pastor, Rev. J. A. McMillan. The Masonic Order of which the deceased had long been an honored member, was in charge of the burial ceremony. A number of relatives and friends from here attended the services.

## Goodnight Coyote Chasers Raid Two Dens

A body of men, women and boys revived coyote hunting near Goodnight Sunday. Two dens were located near Salt Fork and seven weasels dug out. Quite a lot of country was covered but the foxy animals managed to stay out of sight of their enemies.

Those joining the chase from here were Mr. and Mrs. Vada Carpenter, Finis Harp and sons.

## Pampa Degree Team Visits Local Lodge Monday

Some forty members of the degree team of the Odd Fellow lodge of Pampa came down for the lodge service Monday night at the local Odd Fellow hall. The second degree was conferred on four members, the ceremony being performed in a pasture near the Sam Roberts farm home.

Visitors from Memphis and Ell were also present. At the close of the degree ceremonies, a return trip was made to the lodge hall where a feed was spread.

## Chamberlain Ball Team Will Play Tulla Sunday

Publicity manager Johnny Beard of the Chamberlain baseball team announces a match with the Tulla team for Sunday afternoon next at the Bryson diamond on the Brice road four miles south of town.

The home team has accidentally made a few losings according to the publicity manager, and they expect to accomplish double the impossible by handing a goose egg to the visitors Sunday. The game starts at 3 p. m. rain or shine.

## OWNERS REFUSE PRICE RAISE OF \$12.50 PER TON

Dry Weather in Panhandle Is Shooting Prices of Feed Products Skyward

Returning home during the week from their farm holdings near Farwell, D. W. and Roy Clampitt, father and son, gave a summing up of the crop situation as they saw it on the plains.

Their principal business out there at this time was to see after the threshing of a kaffir crop grown last season. This grain was ricked in the head in the open without the loss of as much as fifty pounds according to the elder Mr. Clampitt.

They threshed out 78,870 pounds and stored it in an elevator at Lariat. Soon after harvesting last season and for some weeks, the price offered them for the grain in the head was \$2.50 a ton. The price was "repulsively" turned down.

This week the price had climbed to \$15 a ton for threshed grain. The offer was turned down though a seven hundred percent raise over the price last winter. Mr. Clampitt was informed by a grain buyer that prices would no doubt be much higher a little later due to the dry weather effect on crops in the row crop grain belt.

In speaking of crop conditions in general in that section, Mr. Clampitt stated that they had some wheat that might make 10 or 12 bushels to the acre, it being almost waist high and heads fairly well filled. "Very few fields and only those in a fortunate belt will be worth harvesting", Mr. Clampitt said.

He further gave it as his opinion that crops south and west of Amarillo for many miles would amount to nothing unless rain was received soon, the small grain being a total loss at this time.

## Plow-Under Cotton Plan at a Glance

Briefly, here's how the cotton farmer's new deal is supposed to pan out:

### THE TAX

The farmer pays NO tax. The manufacturers pay it and, of course, eventually the consumers.

The cotton mill buys, say 100 bales at 9 cents a pound. It costs the mill 13.1 cents and 4.1 cents goes to the government to finance retirement (plowing under) part of the farmers' present crop.

### CROP RETIREMENT

Regional officials will contact the farmers. The farmer agrees to run a disc over an agreed part of his growing cotton. The government remunerates the grower for the number of acres of cotton he plows under and thus removes from the market forever.

### PAYING THE FARMER

Taking the tax proceeds, Uncle Sam pays the farmer a rental on the cotton land he has taken out of production. The minimum rental is \$6 an acre and goes up according to the average production of the land.

### THE COTTON POOL

The farmer may take only part of the rental and will be given an option in the government's big cotton pool. The option is offered at six cents a pound. The farmer may sell at any time he sees fit, and his profit is the difference between the six-cent government price and the market price at the time of sale.

### THE LONG-PULL PROFIT

The rental and pool profits are not all the farmer gets. If the scheme works out, the price of cotton will go up to a "living level" and the grower sells the cotton he did not plow under at the best price he has received in several years.

### "IF"

If the secretary of agriculture can't induce the farmers to turn 2,000,000 bales of growing cotton back into the sod, the deal is off. It's up to the farmers.

## Rural School List Faculty Announced By Superintendent

Rural School Boards Select Strong Faculties Looking To Better Opportunity

That Donley's rural schools will be in god hands next term goes without saying when one reads over the list of forty-two teachers selected. Those familiar with school teaching talent commend the various Boards for their judgment in making selections.

The following report is given the Leader for publication by Sloan Baker, County Superintendent of Schools:

The Donley County Schools have selected forty two teachers to date out of the forty four needed in the Nineteen Common School Districts. Goldston has not decided on two of their teachers. Thirty two of the forty two teachers and principals taught in the Donley County Schools last term. Four of the teachers, Mr. Dave Waldron, Mr. R. C. Weatherly, Jr., Mr. D. P. Smith and Mrs. John Naylor will teach at different schools in the county next term. Nine schools have selected the same corps of teachers they had last term. Twenty four of the faculty for next term are attending summer school. A number of the others are taking correspondence courses. All contracts for next year specify a salary which is equal to or above the rural aid schedule basis, which shows the trustees wish to keep the teacher standard at a high level, because a better paid teacher will make for a better school system.

Following are the school district with the names of the principals and teachers selected by the trustees:

Sunnyview 1.--Dave Waldron, Mrs. John Naylor, Primary.

Giles Number 4.--Joe Baker, Prin., Miss Mary McCantz, Intermediate; Miss Alleen Blanche McCantz, Primary.

Windy Valley 6.--R. G. Dillard, Prin.; Miss Eunice Johnson, Intermediate; Miss Agatha Taylor, Primary.

Fairview 7.--E. H. Estlack, Prin. Miss Lucille Pickering, Primary.

Goldston 8. Gordon Gatewood, Prin.; Miss Nan M. Potter, Jr. Hi. Two not yet elected.

Jericho 9. R. C. Weatherly Jr. Smith 10. Mrs. A. H. Tandy, Prin.; Miss Bowden, Primary.

Bray 11. C. W. Howard, Prin.; Miss Florine Hollingsworth, Intermediate; Mrs. C. W. Howard, Primary.

Watkins 12. Mrs. Lou Brock Nicholson.

White Fish 15.--Miss Wille Anna Gorman, Prin.; Miss Vida Dunkie, primary.

Skillet 16.--Joe H. Baten, Prin.; Mrs. Joe H. Baten, Primary.

Ashtola 17.--Sid Thomas, Prin.; E. B. Bowen, Jr. High; Miss Helen Baley, Intermediate; Miss Hazel Cole, primary.

Martin 18.--G. W. Kavanaugh, Prin.; Mrs. Jim Baker, Inter.; Mrs. G. W. Kavanaugh, primary.

Bairfield 19.--Miss Zell Rogers, Chamberlain 20.--Clarence Jackson, Prin.; Miss Maud Crawford, Intermediate; Miss Mary Sue Waters, primary.

Hudgins 21.--Frank Behringer, Prin.; Miss Lopez Whitt, primary.

McKnight 23.--Arnold H. White, Prin.; Mrs. Arnold H. White, Intermediate; Mrs. Rebecca McCrory, Primary.

Glenwood 24. Miss Ruth Dunn.

Midway Consolidated No. 1. -D. P. Smith, Prin.; Miss Ruth Savage.

## Chamber of Commerce Plan Dollar Day Events

In keeping with the practice of other towns, the local Chamber of Commerce is this week cooperating with our merchants in an effort to induce more trade to come to Clarendon through the offer of special dollar day bargains.

Other bargains will be offered as in times past, but special emphasis is being made to call attention to the importance of Clarendon as a trading center in the territory that is generally accredited to this town.

## LARGE CROWD HONORS MEMORY OF SEBRON BUCK

Memphis Business Man Dies Saturday Morning After Mystery Pistol Shot

Sebron Buck, aged 29 and well known to residents of Clarendon where he spent his boyhood days, passed away in a Memphis hospital at 1:17 Saturday morning. He was rushed to the hospital about 6 p. m. the preceding evening following a mystery shot in the rear of his bakery.

Services were in charge of Rev. J. A. McMillan, pastor of the Presbyterian church and interment made in the Memphis cemetery at 2:30 Saturday afternoon.

Sebron was born in Panola county on February 28, 1904. Two years later the family moved to Clarendon where continued to live until six years ago. Because of honesty, industrious habits and sunny disposition, he began to make friends among the business men while still a small boy.

It was while yet a small lad that he entered the employ of R. W. Moore of the Chamberlain community who was conducting a drug store here at that time. Later for several years he was employed by W. M. Patman in his confectionery business. At the time of his death he was conducting a bakery at Memphis where he was held in highest esteem by all who knew him. Few men ever had more friends than Sebron Buck in proportion to the number of acquaintances.

Relatives attending the funeral services from here were Mr. and Mrs. W. A. Land, Mr. and Mrs. Frank Whitlock and children, Mr. and Mrs. Buel Sanford, Allen J. Bryan, Mr. and Mrs. E. F. Bryan and daughters Mrs. Glenn Casey and Mrs. Harry Guiberson of Amarillo. And Mr. and Mrs. C. A. Baldwin of Lamesa and many others. A large number of friends of the family from here were in attendance and the large number of flowers and other evidences of affection and sympathy were very noticeable.

Sebron Buck's passing has caused sorrow among his friends in Clarendon. His name is frequently spoken and events of his life frequently mentioned as friends express deepest regret at the passing in early life of the young man whose life was filled with honor and whose usefulness had hardly begun. His name will remain long in sacred memory of his friends who at this time deeply sympathize with the sorrowing family in their irreparable loss.

## C. R. Gamblin to Conduct Auction Saturday

It has been the ambition of Mr. Gamblin for some time to render a service to the people of this section who have something to sell. He offers his services as an auctioneer free of any charge as has been his plans since way last winter.

"Every farmer has something around the place that he has no use for and he ought to get the money out of it," Mr. Gamblin stated Tuesday in discussing his plans to cry the sales without charge.

He promises to do his level best to sell anything from a "setting of eggs to a threshing machine." Bring in your stuff Saturday. The sale starts at 3 p. m. on the lot just north of the office of the Panhandle Refining company and south of the Clarendon Grain company. You have all to win and nothing to lose.

## Free Open Air Band Concert Friday Evening

Director Gus B. Stevenson announces another open air band concert for Friday evening of this week. This is a continuation of the bi-monthly band music program. The music will begin at 8 p. m. A joint band concert of the regular band and the Juniors will be given at the same hour two weeks hence. Twenty-five musicians will take part in this program.

## More Interesting School Building History Donated By Pioneer Publisher

John E. Cooke as Publisher of the Banner-Stockman In Clarendon at Time School Building Was Erected Supplies Information From Files

### Baldwin Suit For \$10,000 In Amarillo Federal Court

Trial of a suit in which Chas. Baldwin of Lamesa is suing the government began in Federal court at Amarillo Monday. The suit is said to be based on a failure to pay two government insurance policies of \$5,000 each following the death of Bernie Baldwin here about the year 1920. Bernie was a World War veteran.

Included in the list of witnesses from here were W. T. Hayter, Bennett Kerbow, Buel Sanford, Roy Clayton, W. W. Taylor. The case has not been concluded at the time of going to press.

### Texan Is Ambassador

Dean R. G. Caldwell, professor of History at Rice Institute, Houston, and noted political authority left this week for Washington for his final instructions before leaving to assume the post of Minister to Portugal, to which he was recently appointed by President Roosevelt.

### Near Fatal Auto Accident On Highway Near Hedley

The lives of six people were endangered in a head-on collision at the sharp turn on Highway east of Hedley near the Claude Nash home Monday when a 1933 model Pontiac driven by D. Brooks of Ft. Worth collided with a V-8 driven by J. W. Moore of Monroe, Louisiana.

Those occupying the Louisiana car were badly shaken up and bruised and the car badly damaged. Mr. Brooks is said to have assumed the blame and paid for all repair and medical bills.

Mrs. Brooks, daughter of Mrs. Matt Bennett of this city, was most severely injured of the lot when she received injuries to her lower limbs and face. She was brought to the home of her mother where she has made a rapid recovery to normalcy.

## Co-Ed Slain, Fiance Shot on Lonely Road

Miss LeDelle Hammond of Kosse, Texas, was shot to death and her fiance, Ervin Conway of Bryan, Texas, was wounded on a highway near Bryan, when two men and a woman stopped them at an underpass to rob them. Conway stopped when the woman, apparently alone and in distress, flagged him. The two men ran out of the dark and opened fire at once. Conway, shot and beaten, drove Miss Hammond to a Bryan hospital before he learned that his bride-to-be was dead.

West Texas Press Association

JUSTICE CLUB.

Altus, Oklahoma has a "Justice Club" which exists for one purpose—to get other husbands out of jail. Exclusively for the use of member husbands.

DESECRATION.

Quoting from the McLean News we read: "Some little damage has been done this year by loose stock at the cemetery, and efforts are being made to stamp out the practice of staking and herding animals on this property."

SOUR SARCASM.

An Ohio republican weekly in commenting on the adjournment of Congress sums it all up by saying that "the darn democrats have drunk up all the socialist slop from the White House swill barrel."

BUSINESS ACUMEN.

Editor R. K. Phillips of the Weatherford Democrat has bound into book form his editorials praising President Roosevelt for the past two years. Any man who goes to that much trouble ought to have more than a postoffice job.

NOTORIETY.

Clarendon boasts of being the largest town in the Panhandle without a Ford agency. The discovery was made cleanup day when an enormous amount of unused baling wire and binder twine was collected.

INGENUITY.

One of the latest 'rackets' to drive west is that of Homer Jones. Homer went among the negroes of Georgia collecting \$2 each to pay postage on Red Cross flour, sugar, shoes and other supplies, as he explained his scheme. The colored element fell for the idea good and strong. Homer was arrested and sent to the federal prison at Atlanta for a year. A prison was no place for a man of Homer's ingenuity—he got away. He's probably down in Louisiana working the same racket right now and be out our way next thing we know.

NEW MEXICO JOINERS.

No sooner do we begin fashioning a new state out of West Texas than a bunch of New Mexicans living along the east side want to join us. We have everything that Eastern New Mexico has already, including gyp, alkali, crooked politicians, desert waste, sandstorms, etc. We are really trying to get in shape to fight in peace over here and it is not likely that Eastern New Mexico would be any asset. Some mighty fine folks live over there, and if they like our layout, we might prefer that they move over, leaving their land behind.

DRY WEATHER PLANTING.

The present dry spell, though of short duration, has caused some concern, perhaps more than is warranted under the circumstances when we recall that rains sufficient for planting in the spring of 1931 held off until about July 28th according to some of our farmers who keep up with the weather.

It may be recalled that after July 28th plantings, a general crop was produced and that in sufficient quantity to require help from outside the county for gathering. Dusting in the seed has proven to advantage some years. Others prefer to wait for the rain. In either instance, we still have plenty of time for planting and maturing an all-round crop.

LOWER POSTAL RATES.

A drop in the postal rate from three to two cents will go into effect after July 1st. However, this rate only applies to city delivery where carrier service is maintained. In this sense, only big business has received recognition in the latest ruling of the postal department.

When local postal delivery rates were hiked up to three cents in the cities, many firms had their statements delivered in person by some low salaried employee. They found the plan effected a big saving. In fact so big that the practice became widespread.

Numerous protests have been made against the three cent general rate. Protesters have pointed out the postal departments statement to the effect that revenue fell far below normal when the new rate was invoked. It did not pay. People used postal cards instead of writing letters.

President Roosevelt has been delegated the authority to lower all postal rates if he sees fit to do so. Should he make an investigation, he will be convinced that a lower rate is

warranted. We can only look to his spirit of fairness for a fair rate.

IN GOOD OLD DAYS.

Nothing contains quite so much error as the statement that "people are getting worse all the time." If such a statement were true, one might consider God a myth and religion a mockery.

Reading from the Dallas News in the "50 years ago" column recently, an item appeared that recalls conditions pretty much as they existed in Texas in the "good old days" of fifty years ago. Here is the reference:

"State troops were sent to Llano when court convened there last week. The troops were needed to preserve the peace because thirty murder cases are on the docket and serious trouble is anticipated in consequence of the conviction of any of them."

In those days it was a difficult matter to convict an outlaw on any form of evidence because of the fact that court officials were frequently intimidated and witnesses harassed to the point of death. Most every man represented an arsenal bedecked as he was with a liberal supply of the latest patterns of artillery.

Great respect was shown "bullies" and private cemeteries were the rule rather than the exception. Crime was rampant though confined mostly to murder and cattle thefts. When the country became more thickly populated, murder became unpopular as the bad men drifted west. The organization of the Texas Cattle Raiser's Association made cattle stealing just as unpopular by securing the enactment of stern laws and a still sterner prosecution of lawbreakers.

According to crime statistics issued June 1st, Texas has less crime than practically any other state in proportion to her population. Our opinions are often based on conclusions arrived at without a basis of foundation. For instance, Chicago with all her gang publicity, has far less murders in proportion to her population than Birmingham, Alabama.

Texas is law-abiding. The people are industrious and have great respect for law and order and an implicit faith in her law enforcement officials. We have a lawless element and always will have, but that element is diminishing even at this time when gangsters operate in the wide open spaces in many states. As a whole, the people of the nation are better—the people of the globe are far more humane than ever before.

WITH OUR EXCHANGES

McLean News: People who have a reputation for minding their own business are usually successful; due, perhaps, to so little competition.

Memphis Democrat: Recovery will come when idealism is stripped bare, when democracy can sustain a dictator, when philosophers stop theorizing, when the greed of the classes melts into the need of the masses and when common sense, easily understood and aptly applied allows a natural and orderly procedure in life. For too long, we have been circumvented in our plans, our desires, our hopes and ambitions. We have been taught to believe in illusions. As individuals and as a nation, we have fan-

ciated ourselves infallible, all-powerful, self-sufficient.

We have flag-waved ourselves into a frenzy. With deep-rooted convictions and a holy fervor we have tooted our own horns, staged our own parades, boasted of our versatility, "shuffled off to Buffalo" with a mate when a check-mate would have answered the purpose infinitely better. We have talked when we should have been listening. We have shouted the praises of demi-gods and have forgotten the man with the corns on his hands, blisters on his feet, sand in his ears and grit in his teeth.

Chillicothe Valley News: Business has been showing unmistakable signs of improvement. It will be, no doubt, a long, slow journey back to anything like real prosperity, uphill all the way. But we do seem at least on the up and up. And as President Roosevelt observed in one of his radio addresses,

DRESSES MADE and DESIGNED

J. A. WARREN, Agent

Clarendon, Texas

We may reasonably expect a moderate amount of prosperity in this country, proceeding along lines of domestic policy already laid down, regardless of other nations. If they will co-operate, all the better.

President Roosevelt warned that we cannot hope for a permanent prosperity unless economic revival can be accomplished in the rest of the world. Hence the importance of four international objectives now sought:

First, a general reduction of armament, reducing fear and taxes.

Second, a lowering of present trade barriers to start flowing again "the exchange of crops and goods between nations."

Third, stabilization of currencies, "in order that trade can make contracts ahead."

Fourth, re-establishment of confidence and friendly relations among the nations.

These are tasks for the heads of the governments.

Quannah Chief: Lots of skunks in the country this year, and they make ideal pets. The only time to be afraid of them is when they put their tails on their backs and begin doing a Charleston with their front feet.

Haverd Warner left Tuesday morning for Wichita Falls where he is to receive treatment for an infected arm. His arm is showing some improvement at this time.

Loss of Appetite

May Mean You're Rundown!

When your appetite goes back on you and you feel weak, tired and depressed, it's a sign you're rundown and in need of a good tonic. There is nothing better than Grove's Tasteless Chill Tonic.

Grove's Tasteless Chill Tonic contains both iron and tasteless quinine in highly concentrated form. Iron, to build the blood; quinine, to act as a blood purifier. These two effects make Grove's Tasteless Chill Tonic an exceptional medicine. Try it for three days and notice the results. Appetite restored, pep and energy renewed. Grove's Tasteless Chill Tonic is pleasant to take. Absolutely no taste of quinine. Even children like it. Get a bottle today and enjoy the vigor that makes life worth while. Sold by all stores.

Mr. and Mrs. Shorty Lynn and son Billie Earl of Amarillo visited his parents Mr. and Mrs. F. M. Lynn and other relatives here Sunday. Billie Earl is remaining over the week checking up on his grand parents in general.

Miss Kays of Chillicothe was a week end guest of Miss Christie Morris.

Mrs. C. T. McMurtry and Miss Ione Ball are seeing the Century of progress at Chicago this week.

Miss Dorothy McCanne is home for the summer vacation period. She will complete her course of study in a Baltimore select school for girls next term.

'SITTING ON THE WORLD'

They say a Scotchman is expecting to make a fortune out of his invention, a mouse trap that KILLS the Mouse before it has a chance to EAT the Cheese!

They poke a lot of fun at the thrift of the Scotchman, but after all, a lot of us might have been better off if we had only been more SAVING. We REALIZE it now, after it is too late. The man who saved and kept his savings in our conservative Bank is now figuratively "Sitting on the World." Our banking facilities are always at your disposal.

Farmers State Bank

Make Perfect Coffee... EVERY TIME... with These Automatic "Electrical Servants"

Authorities agree that the only perfect coffee is real French Drip Coffee. This is because a perfect brew requires three very definite things. First, that coffee grounds and water should come in contact but once. Second, that the contact should be of about 3 1/2 minutes duration. Third, that the water used in coffee-making should not be boiled, but maintained at a temperature about 16 degrees below the boiling point.

When these three definite things are done, the result is a smooth, rich flavor... a clear, sparkling amber color... and an intriguing, appetite-awakening aroma.

Here are two appliances that enable you to make perfect coffee EVERY TIME! The Manning-Bowman French Drip Coffee Urn, and the Hotpoint Coffee-Maker automatically assure the perfection of all your coffee. No embarrassing failures... no disgusting "dishwater" coffee... none that would "float an egg." You'll have perfect coffee every time through the automatic perfection of these modern "Electrical Servants."

Specially priced, for a limited time only, you'll find one of these modern appliances an absolute necessity in your home. Like all electrical appliances, too, they may save money for you—for this modern way requires less coffee to produce a wonderful brew. Ask any employe for a demonstration TODAY. Convenient terms if desired!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

GOSSIP SPREADS OVER MAIN STREET LIKE FOG OVER LONDON. IT'S FUNNY HOW EACH TONGUE TWISTER LIKES TO ADD ANOTHER TWIST TO EVERY RUMOR.

caught, you pay blackmail. If you do neither of the above, the income tax takes your money. If you don't make any money, you get arrested for vagrancy. Darn the luck, there ain't any hope.

An average man has less leisure than a woman, because he spends half his time telling her what a wonderful lot he is going to do for her—and the other half of his time explaining why he didn't do it.

If you have any old relics, phone or send in a list of them. If you have just one thing, let us know what that one thing is. We don't want anything but a list right now. Please let us know what you have. Several have already phoned in or sent in lists of heirlooms and keepsakes, why not you?

Barber—"How do you like that new soap?"  
Victim—"Fine, you must have lunch with me some day."

"A cannibal king saw his Mrs. Kissing a man named Ulysses. The wicked old king Boiled the poor thing And Ulysses now misses the kisses."

Speaking of cold spells, a Florida woman tells of a sudden snow storm that fell to a depth of three inches. The hot sun came out and scorched the snow until they had to rake it up and burn it to get rid of it.

A New Mexico woman went her one better when she told about a sudden freeze at Hot Springs. The springs frooze over and while she was skating, she broke through the ice and scalded her foot.

The school article by John Esten Cooke in this issue is most interesting. It sets a lot of folks straight on a lot of things even to the ages of some of our "older" citizens who were graduated "way back yonder." Mr. Cooke left an indelible impression on Clarendon because of his stay here. We often hear him mentioned after an absence of twenty years, and to be kindly remembered after that length of time, is a feat of which the genial John E. Cooke should be proud.

There's two things that the old Apostle dotes on big. One is having his picture printed in the paper along with the other live stock and publicity hounds, and the other is attending juvenile frolics of numerous and sundry kinds. Monday we received a highly flavored invite to be present at the Junior Welfare League charity ball at Amarillo's leading swimming house more properly called the "Nat." Having been to the Nat on many other occasions, we can say that the Nat is nothing like the hole we learned to swim in back in Jack county—it's slightly cleaner, in fact a lot cleaner and far less rocks.

Along with the invite was a list of about fifty patrons and patronesses. They used to be called cicerones and chaperones along about the time morticians were called undertakers. Anyhow they have a function to perform somehow, and our guess is that they go along to pull the boys and girls out of the pond when they get too damp.

Times are changing as well as names and 1933 is nothing like way back yonder in 1930 according to the changing customs. This is a rapid gate we are going and it is a big job to keep up. Some yokels and sandlappers don't seem to be able to realize a change and wear red flannel underwear all summer just like grandpa did. If they find by chance that some one wears a different kind, they simply begin to talk about the wearer going around nude with nothing on but shorts and a suit of clothing and

sox that are loud instead of the good old kind that grandma knitted. They take pills and castor oil when they could smell of a new kind of chewing gum and get the same results.

There is a tank up on the hillside in a certain pasture in old Donley county, and that tank is going to have a new customer just as soon as it rains. We are as old as we act and there is nothing nearer the fountain of youth than an outdoor swimming hole where only a birthday suit is required. Durn, but we'd like to be a sun-burned kid again!

"This world that we're alivin' in Is mighty hard to beat; You get a thorn with every rose, But ain't the roses sweet!"

Dogmas, doctrines and human creeds confuse us, but the law of charity in word and deed, the example of the Christ of fraternity, never!

"So many sects, so many creeds, So many paths that wind and wind! When just the art of being kind, Is all this sad world needs."

The bicycle craze is taking hold alright. A boy accuses his mother of riding his bike out every night. The new bikes have stream line body and balloon tires, too. When sister wore his pants, sox and shirt there was a howl of protest, but when ma took his bike—goodnight nurse!

A Dallas man, arrested for speeding, told the judge he was rushing to mail a letter. "Don't write next time—telegraph! \$2.50 and costs," said the Judge.

The man who saved up for a rainy day didn't expect a flood. That's why he is broke now.

Some folks are said to be like a side show—nothing but oddities and misfits. The general run of the public sees nothing but the outside, passes on ignorant of the pain and humiliation of the exhibit—the human side show of life's great circus

There's going to be a lot of disappointed people over this 3-point-2 stuff. It tastes flat, rotten, and smells like limburger. Home brew beats it a mile. This Oklahoma imported dope comes about as near being the real stuff as a rag doll does being a baby. The boys who imagine they can drink a bottle and pull more tricks than a monkey on a mile of grape vine are doomed to downright disappointment. It's killin' anti votes every day.

A bunch of fellows who wear out their pants sitting on the curbs have petitioned Jim Heckman to invent an elastic suspender that will last a week and not cost over fifty cents. They are tired of carrying an extra pair around in their pockets.

The reason that parrots can't

fly is said to be due to the fact that they spent too much time sitting around talking about each other, and got out of flying practice.

Miss Flossie Koontz of Pleasant Valley, we thank you very much for sending in a copy of "The Unanswered Letter."

F. M. Lynn, aged 67, and who lives in town, walks out three miles to his work and walks back making a six mile walk each day in addition to his field labor. He says he feels fine and enjoys good health. Just another proof that more people rust out than wear out.

See you next week following the big rain.

GIMME THE GUY

"Gimme the guy with the straight-forward eye and a grip that will hurt your hand; With a tongue that he uses but never abuses, A mind that can understand; A gink that will brag of his mother, by gad, and who thinks of all women the same; Who toils with a smile, a lad you can't rile, One who puts his whole heart in the game."

Mr. and Mrs. Price Morris announce the birth of a daughter, Dorthy Laverne, on the 15th.

**THE MILLING SANATORIUM**

MINERAL WELLS, TEXAS

Donley County people, suffering from chronic diseases, should investigate the facilities of this wonderful Sanatorium, and the results patients have received. This information is available upon request, in booklet form, showing pictures of the \$125,000 Sanatorium, its spacious lobbies, inviting dining rooms, comfortable living quarters, and every modern convenience—together with delightful out-door features such as games, flower parks, wild game and domestic pets, and beautiful scenery. Ask about the Sanatorium from anyone that has visited MINERAL WELLS—the great Texas Health Resort.

Examinations by licensed physician. Rates \$21.00 per week and up, which includes all expenses, including room and meals. Write for booklet to H. H. Milling, Milling Sanatorium, Mineral Wells, Texas.

**An Institution with a National Reputation for the Treatment of CHRONIC DISEASES**

**New Gulf-lube motor oil lasts 28½% more miles per quart!**

TO MAKE THIS TEST, WE BORROWED 6 CARS—both new and old. Leading 25c oils were tested against Gulf-lube in each car. Gulf-lube stood up 28½% longer before a quart of oil had to be added!

**Beats competing oils to a standstill in Speedway "burn up" test**

FOR 4 days, 12 hours a day, 6 borrowed cars tested 4 of America's leading 25c oils : : :

And, with every step of the test supervised by the Contest Board of the American Automobile Association, here was the result—a result that amazed even the hard-boiled officials : : :

Gulf-lube beat every oil in every car! It averaged 28½% more miles per quart than the average of its competitors.

Switch to the "high mileage" motor oil. You'll say "give me a quart of oil" less often! And you'll get a better oil—the finest motor oil 25c ever bought! Get Gulf-lube at any Gulf station

**CLARENDON H. D. CLUB**  
Mrs. John Lott entertained the Clarendon H. D. Club at her home Friday afternoon.

After a short business meeting, Mrs. Edd Speed was leader of the program.

A lovely refreshment was served to club members, Meses M. T. Crabtree, Tomb, John Clark, O. L. Fink, G. A. Anderson, A. L. Chase, A. H. Baker, Lester Schull, Edd Speed, Miss Fannie Perry. Guests were Mrs. M. W. Mosley and Mrs. Will Lott.

The Club will meet at the home of Mrs. J. C. Estlack, July 7th in an all day meeting. Mrs. Anderson will demonstrate making rugs.

Mr. Doss Palmer and son, Ray, visited his brother, Alfred Palmer, and family at Plainview, Texas Monday. His mother, Mrs. B. L. Palmer, accompanied them home.

**LOYAL WORKERS UNION**

Program for June 25, 1933

Subject—The World's youth for Christ.

Leader—Mrs. Miller.  
Christ needs young people—Mrs. Holtzclaw.

Young people need Christ—Mr. Holtzclaw.

The world needs Christian young people—Mrs. Vinson.

Adults need to understand young people—Mr. Ray.

The church needs the co-operation of young and adults—Mrs. Deal.

**BAPTIST CHURCH**

9:45 a.m. Sunday School. A class for every one.

11:00 a.m. Good singing. Songs you like.

11:20 a.m. Preaching. We are always out on time.

7:45 p.m. Training service. Help our young people. They need your backing.

8:30 p.m. Lively, peppy song service.

8:50 p.m. Sermon. Short and Spiritual. All out in less than an hour. The auditorium is always cool and pleasant. Electric fans.

Everyone owes it to himself, his family, his community, and his Lord to be in both worship periods each Sunday. Can your church count on you? Pub. Comm.

**JUNIOR CHOIR PARTY**

The Junior choir of the Methodist church enjoyed a party Tuesday night at 8:00 o'clock on the lawn next to the church.

Stunts were enjoyed until a late hour.

Refreshments which were served and furnished by Mrs. Patman's Sunday School class were served

to Minnie Lee and R. by Armstrong, Elizabeth Sanders, Dorothy Kerbow, Delphia Bones, Rosaline Bass, Vivian Taylor, Frances Sanford, Avis Lee McElvaney, La Verne McMurry, Oleta Wood, Harvey Lou Strawn, Virginia Wisdom, Dorthea Watson, Randall and Thayer Acord, Drew Wilkerson and Thomas Clayton.

The chaperons for the evening were Mrs. Boykin, Mrs. Porter, and Mrs. Clark. Reporter

**1912 NEEDLE CLUB MEETS**

Mrs. R. A. Chamberlain entertained the 1912 Needle Club Thursday afternoon at her home. The guest rooms were beautifully decorated with garden flowers. Several hours were spent in needle work and pleasant conversation.

In the late afternoon a lovely two course refreshment plate was served to the following guests, Meses Geo. Ryan, J. D. Stocking, Carol Knorpp, R. L. Bigger, McCanne, Fred Chamberlain, Kelly Chamberlain, Miss Mary Jo Chamberlain.

Club members, Meses Whitfield Carhart, L. S. Bagby, W. H. Martin, B. L. Jenkins, Sella Gentry, Jim Patman, Crockett Taylor, A. L. Chase, Homer Glascoe, Hastie, J. B. Baird, Anna Hall, A. R. Letts and A. A. Mayes.

**SUMMERS-RINGWALD**

The marriage of Chas. H. Summers and Mrs. Lillie McClenny Ringwald was solemnized in the pastor's study of the First Methodist church Saturday afternoon. Rev. E. B. Bowen officiated.

The bride is a daughter of Mr. and Mrs. C. T. McClenny of Clarendon where she attended school and has many friends.

The groom is a son of Mr. and Mrs. R. A. Summers, grew to manhood here and received his education in the local schools. He has been a valued employee of the Lemons-Thompson grain company for some time. They will continue to make their home in Clarendon. The Leader joins their many friends in extending felicitations.

**AMERICAN LEGION AUXILIARY**

Mrs. John Clark entertained the members of the American Legion Auxiliary at her home Monday afternoon. At the business session new officers for the new year were elected.

Mrs. James Trent, pres; Mrs. Van Allen Kent, first vice; Mrs. O. L. Fink, second vice. Mrs. L. L. Swan, sec-trea. Mrs. L. S. Bagby, Historian. Mrs. Van Allen Kent, Mrs. B. C. Antrobus and Mrs. O. L. Fink were elected as delegates to the state convention, American Legion Auxiliary, in August.

A social hour was enjoyed while the hostess Mrs. Clark served a lovely refreshment to Meses L. L. Swan, L. S. Bagby, O. L. Fink, James Trent, C. G. Stricklin, R. Y. King, Van Allen Kent and Beverly Grey Stricklin.

**MRS. DISHMAN IS COMPLIMENTED**

Mrs. Sarah E. Dishman was honored at a dinner given Sunday, June 18, 1933 at the home of her daughter, Mrs. C. G. Knox of Lelia Lake.

The children of Mrs. Dishman who were present were Mrs. C. G. Knox of Lelia Lake; Mrs. John A. Simmons of Hedley; Mrs. J. F. Bower of Goose Creek; S. P. Dishman of Corona, New Mexico.

Others present were Mr. and Mrs. Van Knox and family of Clarendon, Mr. and Mrs. Hugh Knox of Vega, Mr. and Mrs. Willard Knox of Lelia Lake, Mr. and Mrs. J. P. Reynolds and family of Lelia Lake, Mr. and Mrs. Cecil Dodson and baby of Vega, Misses Altha and Isabell Knox, all children of Mr. and Mrs. C. G. Knox.

The members of the family of Mr. and Mrs. John A. Simmons who attended the dinner were Mr. and Mrs. Vernon Simmons and family of Hedley, Mr. and Mrs. Ralph Simmons of Hedley, Mrs. Frank Henderson and children of Turkey, and Clack, Othel, Mildred and Bennie Ray Simmons of Hedley.

The children of Mr. and Mrs. S. P. Dishman of Hedley who were present were Earl, Edward and Elva.

Miss Verna Latson of Amarillo visited home folks Sunday.

man, children of Mr. and Mrs. W. S. Dishman of Corona, New Mexico were also present.

Other grandchildren who were at the dinner were Mrs. H. G. Potote of San Antonio, daughter of Mrs. J. F. Bower and Paul Clark of Haskell, Okla., son of Mrs. Z. M. Clark.

Fifty-two people were present Mrs. Dishman has just returned from south Texas where she has been spending the the winter with Mrs. Bower.

Monday night, June 19, 1933, Mrs. Dishman, with her grandchildren and children enjoyed a picnic at the grove on the old Myers place. Lunch with ice cream and cake was served. Guitar and mandolin music was furnished by Clack and Hommer Simmons.

Noel Knox of Adrain came for the picnic, since he was unable to attend the dinner on Sunday.

**THE UNANSWERED LETTER**

The postman comes, the postman goes,

The postman passes by, And some one only can suppose,

And wait, and wonder why Today, no letter, and tonight

A silence hard to bear— We wonder if they cannot write,

Or simply do not care.

The little note is laid away, The letter put aside;

Yet some one hoped to hear today, An answering voice denied.

You may be busy, well we know So many things you are at;

You may be busy—are you though, As busy as all that?

Oh, keep the tree of friendship green

When friends are far apart;

How much a word of yours may mean

To cheer some absent heart.

The rose, unwatered, droops and dies,

Yes, dies in some sad hour;

The letter that, unanswered lies, Is love's unwatered flowers.

—Douglas Malloch.

**THE LOOM OF LOVE**

The sun and stars are God's mighty looms, on which He weaves the lights and shadows that tint the earth and sky with colors divine; but let those looms of light for a moment stop; let the flaming shuttles cease to fly, and instantly this beautiful world of ours, with all its bloom and beauty blighted, with all its mirth and music hushed, would lie naked and dead on the cold bosom of eternal night.

And so it is with human life. It hath its spirit looms and hath its flying shuttles forever delivering to the warp and woof of hope and memory the shining threads of human kindness and weaving them into gossamer webs of love around our hearts and in our homes. Every tender word we speak, every kindness shown, is a thread of sunshine woven into somebody's life; and all the smiles and sympathies which come to us from other lips and other hearts are threads of light and love woven into our own.

But let the loom of love for a moment stop; let its blissful shuttle cease to fly, and that moment will happiness lie dead on the heart stone; and laughter and song will perish among the roses at the door.

—Gov. R. L. Taylor.

**Goldston Community Sunday School Picnic on 4th**

Closing a Sunday school contest, the Union Sunday School of the Goldston community will observe the Fourth with a celebration to be sponsored by the losing side.

Rev. Robt. S. McKee, pastor of the First Presbyterian church of Clarendon will preach. Appropriate numbers will be on the morning program and the afternoon will be given over to social amusements and singing, it is announced.

The public will be asked to share in the picnic and those who can will be expected to bring baskets of food. The place of gathering will be announced next week through the Leader. Shady nooks along the creeks are plentiful and a comfortable day is assured.

Miss Verna Latson of Amarillo visited home folks Sunday.

**SPORTS**  
By Hack

This column is being written by one with no experience in the news field. It will appear at times when the writer has time to prepare a dope sheet and all clean sports will be given a hearing.

The Chamberlain Ball Club consisting of local talent, mostly of boys and men on the farms in the Chamberlain neighborhood, have had quite a number of good ball games this summer. The boys are all good sports and try to give their best to each game, but due to lack of practice on the ball diamond have lost the majority of their games this year.

However they are going to try to redeem themselves the balance of this season, beginning Sunday, June 25th on the Brice road diamond when they tackle a strong team from Tulla, Texas. They make a small charge to see the games to help defray expenses, but the games are always well worth the price.

No Sunday baseball is allowed inside the city limits, so for that reason the games are always staged on the Brice road diamond.

The local ball fans will do well to get behind the boys and help push them to the front. A good ball team has never hurt any town.

Baseball has almost gone back to the sand lots from where it originated, except in the larger cities where some of the largest crowds in years are watching the games.

All good baseball fans will be glad to know that Walter Johnson, one of the greatest pitchers of all time is back in baseball again as manager of the Cleveland Indians. They are doing well under his guidance having won four of five games played by shut out scores.

Those games remind us of the time Johnson pitched three games within 4 days against the New York Yanks and shut them out on each appearance.

All fans get behind our sports in Clarendon and let's make it more interesting for the opposition in the future.

**Clemmens Brothers Defeated At Pampa Sunday**

What they lacked in practice, they made up in grit when the Clemmens Brothers met the Dancigar Roadrunners in a baseball game at Pampa Sunday afternoon. The final score was 12 to 3 in favor of the Roadrunners.

This is the annual game played by the Clemmens family in honor of Father Clemmens's birthday, and of the many annual games, this is the first time the boys have gone down in defeat. The Pampa team is semi-professional, has almost daily training whereas the Clemmens team is made up largely of farmers who have little time to practice.

**Former Clarendon Boy Makes Bond in Wichita Falls**

Walter M. Cothran, aged 21 and said to be a former resident of this section, made bond in Wichita Falls Saturday in the amount of \$2500 following his arrest on a charge of driving a car while intoxicated.

It is alleged that the car driven by him struck and caused the death of W. S. London at about 5 a. m. that morning. Cothran was on his way from Los Angeles to A & M College. His father was killed in an auto accident about six months ago near their home in California.

Mr. and Mrs. Robt. W. Patton and son R. W. Jr. returned here Tuesday from Waco where they were visiting his sister, Mrs. Henry Tice, and her husband who is a patient in the veteran's sanitorium there.

The many friends of Mrs. Wm. Spitzer will regret to know that she has been confined to her bed for the past two weeks. Visits from friends are greatly appreciated by the lady who has been reverently titled as the "Mother" of the Clarendon H. D. Club, and whose 75th birthday was Sunday.

**CHURCHES**

**ST. JOHN BAPTIST (Episcopal) CHURCH**  
Rev. L. L. Swan, Rector.

**HOT WEATHER DEMANDS ICE**

**A NEW KIND OF REFRIGERATION**

You will eventually buy a COOLERATOR, why not do it NOW, and be enjoying the pleasure of having your food perfectly preserved at little cost.

You will be more than pleased with this wonderful, new refrigerator with the efficient under-the-ice circulation. Test and prove these facts in your own home, without obligation.

**GOLD STORAGE POWER CO.**  
ICE PLANT Phone-16

**SICK CARS!**

Had you ever stopped to think that cars get "sick" from a lack of proper "diet" and attention? Well, they do. For instance when your car gets draggy, refuses to step out and gives you only about half mileage on the gas you burn—she needs a dose of MOBILUBRICATE. Then to make her step out in a manner to bring back the joys of a new car, feed her on SUMMER MOBIL-GAS as a steady diet. Let us tell you about the many other patients who have taken this treatment and recovered. Seriously, we know that we have what you need, and want you to try it ONCE—after that we'll risk your judgment.

### MARE'S NEST IS DISCOVERED ON HIGHWAY FIVE

After Much Caucusing Time Highway Roadbed Gets No Better Fast

The spark of hope for improvement on Highway 5 through Donley county was fanned afire once more Wednesday when District Engineer W. J. Van London presented the Commissioners' Court

### Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs, —once or twice a week for several weeks—and see how Nature rewards you with health.

with an armful of blue prints. These blue prints show three routings, neither of which appear to be satisfactory or to meet with universal approval of all those in authority. The most feasible route that meets with state approval follows closely the Denver road on the south side and edges along the track through Hedley.

The Federal department does not approve the plan, it is said, because there is not sufficient drainage facilities at present under the track of the Denver at Bell's creek. Since Mr. Bell is unable to take time to remove the creek right now, some other plan must be sought.

It is said that the Denver is willing to put in a trestle across Bell's creek if all expenses are paid. The amount is estimated at about \$14,000. The Highway department is said to have estimated the cost at about \$3,500 and it is further alleged that the Department is willing to make the change for the price.

The county authorities are doing all that can be done at this time to hurry construction on the Highway across Donley county. When the mare's nest is disposed of, work will likely begin soon.

The Commissioners will meet

again Saturday to consider plans for starting operations on the Bell creek proposition that apparently is the stumbling block just now.

### Bills of Sale to Several Slaves Showing Up

While in the Leader office recently, M. T. (Doc) Howard related an instance of back in 1851 when his father bought a negro slave. In fact the bill of sale in that transaction is now in the possession of H. H. Timmons of Lubbock who is a nephew of Mr. Howard. This negro lived with the Howard family for several years after the war closed and is remembered by M. T. Howard distinctly.

Last week an item appeared in the Leader relative to a bill of sale in the possession of Mr. Cauthen of McKnight. Since that time several such papers have come to light in the Panhandle, and one almost a hundred years old was deposited with the Museum at Canyon.

Mrs. B. G. Smith and sons Benton and Phillip left Tuesday to make their home in Austin where the boys will enter the University this fall, it being Benton's second year.

## What Makes a Safe Tire? ... I KNOW!

THE MASTERPIECE OF TIRE CONSTRUCTION

ARE you willing to risk your life on advertising statements claiming blowout-proof and unblowable tires? One manufacturer gives as the reason for claiming blowout-proof tires—the use of one ply of another color—another, a patented "no breaker" construction—a mail order house, high stretch "elastic" cords, etc., etc. Actually the fundamental cause of a tire blowout is the flexing of the tire which causes friction of the fibers in the cord, resulting in heat and causing the rubber to soften and the cords to deteriorate.

There is a reason why Firestone Tires have won the 500-mile Indianapolis race for 14 consecutive years, the most gruelling tire test. The reason is the Firestone patented extra process of Gum-Dipping which saturates every fiber and insulates every cord with pure rubber—which gives strength to the cords and prevents friction and heat in the fibers. This year 42 drivers in this race equipped their cars with Firestone Gum-Dipped Tires and not a single driver had any tire trouble.

Race drivers know why Firestone Gum-Dipped Tires are safer and not subject to blowout and will not risk their lives on ordinary tires. Your life and the lives of your family are often in danger at the high road speeds of today and you should not take greater risks than the race drivers who make sure that they have the best and safest tires they can buy—Firestone. Come in today. We will give you a liberal trade-in allowance for your old tires on new Firestone High Speed Tires—the safest tires in the World.

## Firestone

Patented Construction Features Give You Greater STRENGTH, SAFETY and MILEAGE

4.40-21	\$5.75
Ford 4.50-21	\$6.39
Chevrolet 4.50-21	6.85

### CHAMBERLAIN

Miss Frances Hott The Speed Brothers are at work on our school house.

The H. D. Club served their families at Mr. and Mrs. Olmer Rumpy's Friday night with an ice cream supper. Husbands say they wish they would serve them again soon, but prefer a warmer night.

Frances Hott returned home Saturday after a week visit with her uncle and aunt Mr. and Mrs. Townsend of Ashtola.

Loma Ayers, George Eans and W. K. Hardin were visitors in the home of Theda Hough Sunday.

Miss Countess Jones of Fort Worth is visiting Frances Hott this week.

We got a fine shower about 11 o'clock last Monday of last week.

Mr. and Mrs. E. M. Hott visited in the home of Mr. and Mrs. Loyd Reid Sunday.

Lee Nell, daughter of Mr. and Mrs. Lloyd Reid visited with her grandparents, Mr. and Mrs. Hinkle last week.

Mr. Moore and Mr. Adams got their wheat cut last week.

Mr. and Mrs. A. O. Hott and family and Countess Jones of Ft. Worth visited in the home of Mr. and Mrs. Roy Robinson Sunday.

Mr. Carl Adams is breaking his wheat land this week.

Mr. Raymond Wacker of Amarillo visited in the Brazille home Saturday night and Sunday.

Jack Holbert of Chattanooga, Tennessee is visiting for a few days with Mr. and Mrs. E. M. Hott and family.

George Eanes spent Saturday night with Clarke Hott.

Mr. Harry Hartzog of Brice visited Sunday with Miss Oneta Isham.

Miss Melba Johnston visited Saturday night and Sunday with Miss Annie Marie Hardin.

Mr. and Mrs. Pat Curley entertained a large number of young people with a party Saturday nite. Everyone reports a grand time.

A number of the young people from our community attended the swimming party given by Mr. and Mrs. Lucian Bones of Clarendon Saturday night.

Robert Hott visited Sunday with Earl Webb.

### Local Colored Folks Observe 'Mancipation Day Monday

Clarendon's colored element though very limited as to number, never fail to observe June 'steenth every year. Several wend their way to Amarillo where a bigger and more attractive show is in progress. Most of them don't know what it's all about, but what's the difference. The majority hike to the lakes near Leila and spend the day fishing, drinking red lemonade and eating a swell dinner. No one would accuse any of them of shooting craps or drinking jake, not hardly. Most of them never indulge in such pastime—when asleep.

Miss DeLaurel Beville and Miss Lorraine Patrick went to Amarillo Tuesday afternoon.

Mrs. G. W. Antrobus and grandson, George Watson are in Dallas where George will receive further treatment to his limbs.

Miss Marie Thornton left Monday for Dallas and will also see the world fair at Chicago.

Mrs. Will Boyitt of McLean was a guest of Mr. and Mrs. Peebles Sunday.

Mr. and Mrs. Leonard Darnell of Pampa visited her sister, Mrs. S. L. Tidwell Sunday.

Rev. Beevers and Rev. Bowen are attending the pastor school at S. M. U. this week.

Miss Lalar Belle Wilkerson is visiting Mrs. Lindsey Taylor in Amarillo.

Mr. Ad King, long with the Stocking drug store here as pharmacist, is visiting friends here this week.

Mr. and Mrs. John Robertson of Quail were guest of Mr. and Mrs. M. W. Mosley Sunday.

C. D. Knight, formerly Intertype representative for this district, visited with the editor Wednesday.

Bill Rutherford of El Paso is visiting friends here this week.

Mr. and Mrs. Eugene Bryan, Mrs. Garbison and Mrs. Casey of Amarillo visited in the home of Mr. and Mrs. Floyd Keener Mon.

Mr. and Mrs. John Butler and son Donald of McLean spent the week end with his parents.

Manis Pogue of Ft. Sill, nephew of Mrs. Link, is visiting in the Judge Link home at this time.

Mrs. Jimmie Rowland and family of Miami is visiting her mother Mrs. Carrie SoRelle.

Mrs. Maude McLean McClung of Amarillo visited her sister, Mrs. C. C. Powell over the week end.

Mr. and Mrs. Wheeler of Brownfield were Clarendon visitors the week end.

While bringing down a load of potatoes from Colorado Monday, Mr. and Mrs. Vestal Mosley had the misfortune to have a collision with a jitney. Damage was nominal.

## ANNOUNCING Our Mechanical Department

Mr. Grady Thompson of Ft. Worth is now in charge of our mechanical department.

He has had years of experience in some of the larger auto shops of Dallas and Ft. Worth, and for some time has been in the employ of an airplane company in their motor repair department.

We are pleased to announce these facts at this time and feel fortunate in securing the services of a trained mechanic of the ability of Mr. Thompson.

## Clarendon Motor Co.

**NAYLOR**  
 Mrs. R. Bowlin  
 Mr. and Mrs. Verna Lusk of Clarendon were honor guests at a miscellaneous shower given Friday night at the home of Mrs. Lusk's parents, Mr. and Mrs. A. O. Hefner. Many beautiful gifts were received and a general good time was had. Mrs. Lusk, who before

# Our Weekly CHURCH CHAT

W. E. FERRELL  
Minister First Christian Church

**"The Weather And Religion"**  
There is a strange connection between the weather and religion. It hardly ever is "just right" to go to church! When the weather is warm all the week we go back to our work, but it suddenly becomes unendurable on Sunday. Spending an hour in the house of worship on a hot day is just out of our program, and yet we do more strenuous things on Sundays than going to church. We visit, eat big dinners, drive many miles in the heat, but are afraid to venture out in the heat to go to church. We have known of Church Members, who will spend the whole day on the golf links, walking, chasing the little ball from hole to hole, in the hottest weather, who will not spend one hour in the house of God because of the heat. Perhaps they are sure of their eternal destination are not afraid of that endless punishment that burns with un-

## DOROTHY DARNIT

By Charles McManus

quenchable fire for ever and ever. How often does a pastor, meet some of his folks on Monday, who were absent from the services on Sunday, and have them tell him blandly that "it was so hot that

they just could not come out." Perhaps Monday is much warmer than was Sunday, yet they are getting ready to go on a fishing trip and spend several hours sitting in the sun, but they are not afraid of this heat. People seem to think preachers are the most gullible of men! Well you may think the preachers are easy, but they do not always betray by their looks what they really think.

So hereafter, try to think of some other explanation, or reasonable excuse when you meet your pastor on Monday and try to enlighten him about the unbearable conditions, that made it utterly impossible for you to be at the church services the day before. Make your explanation or excuse as you would like for it to be recorded in the "account book" of heaven. Try to justify your self in the sight of God and not the preacher's. The preacher is interested in the salvation of your souls, he wants you to be saved. You cannot fool God about the weather and your religion, he knows about both. Don't lie to God any more.

We invite you to be present and hear our message Sunday, on: "Christian Fellowship," and "Jesus as a Preacher." You will like these lessons.

## EGGS OF QUALITY NEED A QUALITY BASE

### Hens Can Produce Better Eggs on Better Feeds.

An all-mash feed containing everything, even "sunshine," makes it unnecessary to bother with scratch grain, oyster shell, grit, green feed or cod liver oil. It takes all the trouble from chicken feeding, and is foolproof. That is the latest accomplishment of the Research Staff of poultry experts at Purina Poultry Farms, Grays Summit, Missouri. "Feeding all-mash egg chowder has many advantages," says E. B. Powell, manager of the 330 acre Purina Farms. "Since only one feed is given, the hens have no chance to choose and uniformity in the egg quality results. The quality of the product is definitely controlled. When the mash plus-scratch grain system is followed, the proportion of mash to scratch eaten by the hen varies from day to day with individ-

Source: Purina Mills Research Report 1917

ual hens. Some hens pick corn out of the scratch grain, while others prefer wheat. As a result, yolk color and other qualities of the egg are not uniform.

It is extremely important that a ration which produces eggs of the highest quality also keeps the birds in shape to stand the strain of heavy laying.

An interesting experiment, conducted over a period of five years and including the product of more than three thousand birds, demonstrated the definite improvement this all-mash feed produced in egg shell strength. As the eggs came from the experimental yards, they were marked with the date, the pen and hen number and the number of the feed combination the hens received. They were then cooled and carried in an insulated case from the Experiment Farm to the Purina Research Laboratories to be subjected to a dozen exacting tests for quality. The weight of the egg, its shape, the color and breaking strength of the shell, viscosity of white, yolk size and firmness, yolk color, uniformity of yolk color, flavor and nutritive value were measured. Their vitamin content was tested by scientific feeding to white rats.

"All of these qualities are factors in determining the value of an egg," says Mr. Powell, "and all of them are influenced more or less by the feed. Premium prices are paid for uniform eggs weighing 24 ounces or more per dozen. Strong, dense shells prevent breakage in handling and shipping, and lower the rate of escape of water and carbon dioxide gas from the egg, thus increasing keeping quality."

Whites which are thick and firm and yolks which stand up well are more attractive when the eggs are fried or poached and have a more appetizing appearance when served. The public prefers a pale yellow yolk, and the color of the yolks should be uniform.

Eggs are highly valued by the public for their content of vitamins, especially vitamin A, which promotes growth and prevents colds and respiratory disease, and vitamin D, which is the sunshine vitamin and aids in assimilation of lime and building bones. The amount of these vitamins in the egg depends on the quantity supplied in the feeds. It is easy to build up trade with customers if they can be assured that the eggs they will receive will be unusually attractive, wholesome, and high in vitamins.

## PLEASANT VALLEY

Mrs. John Goldston  
Mrs. John Blevins and daughter, Patsy Ann of Wellington, Miss D' Laura Williams of Texaco, Mrs. Roy Wilson and Billie Joe spent Thursday in the J. H. Goldston home. Mrs. Blevins and baby, who have been spending the past week with her parents in Clarendon returned home Sunday. Miss Billie Joe Wilson accompanied her.

Mr. and Mrs. Jiggs Mosley and sons of Hedley spent the week end with her parents, Mr. and Mrs. Hugh Riley.

Mr. and Mrs. Bill Gaither have moved from Memphis to the home of her parents, Mr. and Mrs. Pat Longan. Mr. Gaither is working for Mr. R. L. Bigger.

Mr. Romeo Derreck has been confined to his bed the past several days due to a horse falling with him while working last Thursday. He was badly bruised and several ribs broken.

A large crowd attended the ball game played here Sunday.

Mr. and Mrs. J. T. Lamberson returned to Bowie last Tuesday after a visit of several weeks here in the home of his parents.

Mr. Buster Riley went to Claude

last Tuesday to work in the harvest.

Mr. and Mrs. Homer Beach Jr. and daughter spent Sunday in the home of his sister, Mrs. Nelse Robinson.

Mrs. John Goldston and children called on Mrs. A. M. Lanham Sunday afternoon.

### CARD OF THANKS

For the many words of sympathy, the beautiful floral displays of friends of Memphis and Clarendon and other places, we offer our sincere thanks in this our sad hours. Only by doing for others, can we hope to repay and feel worthy of these many kindnesses.

Mrs. Doris Buck  
Mr. and Mrs. W. W. Buck  
Mr. and Mrs. Ben Buck

Many a hole is blamed upon moths which is really caused by dirt. Little grains of dirt, often coated with acid from smoke laden air, lodge in cloth, accumulate moisture and set to work to excavate an ugly hole in that perfectly good suit or dress. If you have your clothing cleaned regularly, soil is removed before it gets in its dirty work. You'll save money in the long run—and look well continuously.

## Roosevelt Sets Victory Record Biggest Recovery Program in National History

### Special Session of Congress Closes With Practically All of President's Measures Passed And Grants Him Further Powers

With a sine die adjournment of the special session of the Seventy-third Congress at 1:21 a. m. Friday morning, the curtain was rung down on the most remarkable chapter of that body in all the peace-time history of the Republic. Nor was the session closed until President Roosevelt saw practically every one of his sweeping peace-time measures enacted into law. It was during this session that the President was granted more peace-time power than any other nation's ruler—hereditary or elective.

Rigid party politics played no important part in the deliberations until the last day when the Republicans lined up solidly against the President's measures in an effort to embarrass his plans, and to secure the soldier vote in future elections.

The President played his first card five days after his inauguration when he sent his first message to the Congress which he had convened to aid him in a gigantic task of pulling the American economic system out of the worst slump it had ever known.

It will be readily recalled that the money power welcomed the President into office by fostering a bank panic. How he met the issue and defeated the enemies of good government is well known. He simply closed all banks before the money kings could break the most of them. Previous to that time over a four year period, over 11,000 banks of the nation had closed their doors because of a succession of staggering blows from the leaders of the money mart over which the government had lost control during the Hoover administration.

Passed First Bill  
On March 9 the new Congress

passed the first bill sent to it by the President, the Emergency Banking Relief Act. From that moment it has steadily worked at its task turning out one by one thirteen great pieces of major legislation. Individually they aim at correcting one or other of the many domestic troubles of the country. Coordinated they constitute the great machine for economic recovery which the President planned before Congress met and which is now completed virtually in the form he sought.

These 13 major bills passed by the Congress, in order of their enactment, are as follows:

1. Emergency banking relief.
2. Economy (maintenance of government credit).
3. Beer tax.
4. Reformation unemployment relief.
5. Farm relief, including farm mortgage relief and acreage in-crease.
6. National emergency relief to states.
7. Muscle Shoals and Tennessee Valley development.
8. Federal supervision over issuance of securities.
9. Repeal of the gold clause.
10. Railroad bill providing for reorganization of capital structure and operating economies.
11. Mortgage relief for small home owners.
12. National industry recovery and public works.
13. Glass-Steagall bank reform bill.

Congress appropriated more than \$5,270,000,000, most of it for extraordinary expenditures, to be bonded financed and not included in the regular budget. It also empowered the President to reduce normal expenditures nearly \$1,000,

000,000 to bring the regular budget to somewhat of a balance.

### Primary Objectives

The primary objectives behind this coordinated program of legislation are: to give producers of basic commodities—agricultural and industrial alike—a higher price for what they produce; to increase the volume of trade, both domestic and foreign; to bring about as a result higher wages, which will in turn build up consuming power, and in the meantime to relieve unemployment and suffering at government expense.

The heart of the whole program is the great \$3,300,000,000 industrial recovery—public works bill passed in the closing days of the session, and for which the appropriation was made in the final session. Described as the most revolutionary measure of the session, and even of all American economic history, it provides for the establishment of a new industrial era. President Roosevelt has described its objective as a government partnership with industry in which the Government will preserve order and industry collect the profits.

On the surface it authorizes voluntary agreements in industry for the purpose of eliminating cut-throat competition and sweatshop methods, but underneath provides for almost dictatorial control over industry from Washington. Codes and agreements within industries must be approved by the Federal Administration. All units will be forced to comply with such codes or agreements under a licensing system. The anti-trust laws may be set aside where it would otherwise interfere.

Although intended to be only a temporary measure, its proponents hope it is the first step toward permanent control over industry. Opponents see in it a dangerous measure which might lead either to Communism or Fascism, but those who support it see in it the possibilities for a new industrial order, in which labor would be protected against unfair competition, and the consumer would be guaranteed a stable and fair price.

### More Interesting School—

(continued from front page)

the new building and a program rendered. This program included an opening prayer by Supt. W. R. Silvey, a talk by Mayor I. W. Carhart, a short speech by Contractor White who delivered the keys to the school board, a response by W. B. Ware, secretary of the Board, and talks by Rev. W. L. Skinner, Baptist pastor, and County Judge E. H. White.

My files show that on January 24, 1902, the School Board sold the old wooden building to J. D. Jefferies, who moved it and erected from its lumber a large resident and barn on a section of land just east of the Al Gentry place. This new farm home was at once occupied by Taylor Warner and family of Arkansas City, Kansas. They were relatives of Jefferies.

I fail to find in these files a complete roster of the School board, but I find that on May 17, 1901, the Board was reorganized with the following officers: Barnhart, President; W. B. Ware, secretary; R. A. Chamberlain, treasurer; John T. Sims, assessor and collector. At the time the building was accepted, however, it would appear from a story I wrote that George F. Morgan was president of the Board.

At the time of the completion of the building the faculty consisted of seven, to-wit: W. R. Silvey, superintendent; W. G. Stewart, principal; C. E. Hall, Mrs. Kate Palmer, Miss Norma Skinner, Miss Chamberlain and Miss Coulter. Silvey reported the scholastic census as 375 at that time.

The first class to graduate from the new building consisted of four boys and four girls, as follows: Fred Chamberlain, Lee Anderson, Robert Lattimer and John McLean. Misses Maude Atterberry, Maude

McLean, Burtie Jacks and Mary Peebles.

The last class to graduate from the old wooden building was composed of Misses Mary McNeillis, Georgia McNeillis and Annie Bourland; Messrs. Towne Young and Clyde Caldwell. Towne Young is now a prominent jurist of Dallas. Following his graduation he went to work as a printer for the Banner-Stockman, and my files of that date indicate that he had at that time political aspirations and was considering making the race for the State Senate.

Publishing a newspaper in Clarendon in those days was an altogether different proposition from what it seems to be now. Our pages were small—only four columns—our type was all set by hand in "long primer" and space was never available for long stories. Stories to which you would now devote a column or more were then handled in paragraphs all too brief, and the building then of what was the best and finest public school house in the Panhandle was not "featured" as you would now feature it. At that, however, the Banner-Stockman handled the news quite well, and did not fail to "rag" other nearby towns about Clarendon's superior educational advantages.

We called her "The Athens of the Panhandle,"—and we were not far from wrong at that; in fact, we were right, for Clarendon College was just coming into flower about that time.

I could reminisce about that school, too, but this is already too long.

### Ensign Joe Bourland Talks To Rotary Club

The attendance at the Rotary luncheon Wednesday was up to par with D. R. Davis in charge of the program.

When others on the speaking program learned that Ensign Bourland was to speak, they gladly gave their time to him and he spoke during the entire period in a most interesting manner.

The speaker explained the advantages of the U. S. Naval training school at Annapolis, Md. from which he graduated this spring after the regulation study period of four years, two years of that time being spent on board vessels of the navy designed to give students practical training necessary.

He will leave soon to join the crew of the battleship Maryland at San Pedro, California. There he and other young naval graduates will become "under studies" of older officers, he said. Just what his duties will be he does not know until assignment is made. That's navy life, and the same thing applies to army life, too.

Miss Edith McDowell of Good-night is visiting her sister, Mrs. Vada Carpenter.

Miss Dorothy McCanne who has been attending the Goucher college at Baltimore, Maryland is visiting home folks.

### CLASSIFIED ADS

#### —WANTED—

**MIND READING —** Satisfaction guaranteed. 50c. Madame Lavella at High Brown Apartments. 12-p

**WANTED—**Swivel office chair. Call 386. 13-p

**GENERAL AUTO REPAIRING—** I am prepared after 12 years experience to do first-class repairing of Fenders, Radiators and General Auto Repair work. Also do washing, polishing and greasing. Let me figure on your next repair job. Shop located 3 blocks west of the First National Bank. Look for the sign, R. A. Baker. 16-c

### Clarendon Folks to Board World's Fair Special

Augmenting the population on the Amarillo Globe-News special train leaving Sunday to visit the Century of Progress at Chicago, will be a number of Clarendon citizens.

Those who have already signed up for the excursion trip are Mrs. J. L. McMurtry and children, Alfred, Laverne and June; Mrs. A. L. Chase and daughter, Mrs. Keith Stegall, and her sons Rhodin and Arthur. Miss Katherine Patrick and Miss Anna Moores will also be in the party.

Not to overlook the wonderful opportunity of seeing the big event, Miss Julia Wiedman, Miss Gwendolyn Couch, Miss Mary Jo Chamberlain will also join the big crowd that leaves Amarillo Sunday. Several others have the trip under contemplation, and will likely capitulate at the last moment.

### Hatchery Man Purchases Choice Poultry Stock

During the week Frank White Jr., manager of the Clarendon Hatchery, visited the M. Johnson Poultry Ranch at Wichita Falls with a view of picking up more information relative to good mating stock.

He was so well pleased after looking over the records of choice hens, that he purchased a large number of star mating stock which will, he believes, be a valuable asset to the poultry production in

Donley county.

The hens have a trap nest record of 300 eggs up, and are the cream of the laying hen records of the poultry industry of the Southwest, he said. This choice mating stock will begin arriving most any time now.

### School Equalization Board Completes Labors

Henry Williams, G. J. Teel and Tom F. Connally sitting as an Equalization Board for the Clarendon Independent school district Tuesday and Wednesday completed their labors and taxpayers may now get a breath of relief to know that only about seven percent were given a raise. This rate is suggested by Mr. Williams as being fairly accurate.

In the matter of the Telephone exchange, the School Board felt that the rendition valuation of \$41,000 of last year should receive some consideration relative to an increase. The Equalization Board, after a conference with the manager from Lubbock, arrived at a satisfactory agreement placing the amount at \$45,000, it is said.

Bill Taylor was operated upon for appendicitis at the Adair hospital this week. He is reported doing nicely.

Mrs. Hugh L. Smith and children Hollis and Adrienne of Throckmorton are visiting Mrs. Smith's sister, Mrs. W. T. Link and family for the week.

### Post Office to be Closed After July First

There has been a moratorium declared on most everything, now it is the Postoffice. Postmaster Chas. H. Bugbee has instructions to close the Postoffice after July 1st. This instructional sheet from Jim Farley's balliwick up at Washington left a rift in the clouds for, after closely reading the edict, it was found that the closing applies to one afternoon of each week only.

Some of the postmasters will declare the half holiday on each Saturday afternoon, since the declaring is within the scope of authority of the local P. M. Mr. Bugbee reasons that a lot of rural folks may be in on Saturday afternoon, and since it is his desire that the best service be rendered, they may come in and transact business on Saturday afternoon.

The Clarendon postoffice half holiday will be on Wednesday afternoon of each week. Packages requiring a delivery because of their importance, will be handed out even then regardless of the holiday. Mr. Bugbee wants to comply with the requirements of the postal department, and he also wants to serve the patrons of the postoffice.

A telegram received today noon by Mr. G. W. Antrobus stated that his grandson, George Watson, was operated on at Dallas this (Thursday) morning. The operation was a success and George is doing nicely at this time.

## REDUCE RADIO OPERATION COSTS

### ON BATTERY SETS

The new 2-Volt Tube cuts down cost of operation of battery sets at least half.

Have your old 6-Volt battery set re-wired to use these new tubes. The cost is a small item. Let me explain this new invention. Several are having the changes made now—why not you?

## EANES RADIO SERVICE
