"Americanism" Stressed by Judge Hamlin C-C Banquet Speaker Here Monday Night

McLean Sends Largest Delegation of Visitors. Amarillo, Memphis and Claude Also Represented At Annual Chamber of Commerce Banquet

One hundred and thirteen listened intently to a varied program in the basement of the Christian church Monday night.

As speaker of the evening, Judge J. D. Hamlin of Farwell, president of the West Texas Chamber of Commerce, spoke interestingly for some forty minutes. After paying tribute to civic leaders of his personal acquaintance, he spoke on "Americanism" as his principal theme.

The speaker endorsed a sales tax of two percent, provided such tax would relieve property owners of a proportionate burden being carried at present. "I am backing the President", the speaker said, "but some of the new deal ideas appear silly. When you take away man's incentive to own a home, you have destroyed the foundation of the nation," he said.

Judge Hamlin spoke against the Townsend pension plan, and condemned Huey Long in almost the same sentence. At the mention of Huey Long, he got a laugh out of his hearers.

Judge S. W. Lowe acted as toastmaster mixing wit and humor along through the evening. He appeared to be thoroughly at home though he stated that he had never before functioned as a toastmaster.

Rev. J. Perry King, pastor of the First Baptist church, pronounced the invocation. Ladies of the Christian church served the food for which they received the thanks of the entire audience because of the excellent quality and copious quantity.

The Clarendon High School Band played as the crowd gathered. Director Glen A. Truax later directed a picked orchestra which played during the banquet.

J. T. Patman, vice president of the Chamber of Commerce delivered the welcome address with I. H. Turney, superintendent of the Claude schools responding. Mr. Turney paid a high tribute to J. M. Hill, former resident of Claude and instructor in the Claude school. Mr. Hill is the new secretary of the Clarendon Chamber.

One of the most pleasing features on the program was a Junior High School chorus of 22 girls directed by E. O. Bone singing four numbers.

Clarendon Hardware Dealers Attend Convention

Dealers from over the Panhandle attended the convention of Panhandle Hardware and Implement Dealers in Amarillo Monday and Tuesday. This was the 26th time Amarillo entertained the hardware dealers, that being the number of annual conventions held.

L. E. Thompson and O. C. Watson attended the convention through all the sessions. Mrs. O. C. Watson and Miss Dorothea and Mr. and Mrs. B. C. Antrobus were among the guests at the banquet Monday night.

Will Rogers Rescues Woman From Police

Baton Rouge, La.—The various accomplishments of Will Rogers, the humorist, never cease. Only recently he rescued Mrs. J. S. Rouseil, president of the Women's division of the Square Deal Assn., from the police.

The actor commentator had invited Mrs. Rouseil to his hotel to present her side of the controversy between the association and Senator Huey Long.

When she appeared, her road was blocked by policemen. She fled past one, slapped another, but couldn't get by a third.

Thereupon she began battling and screamed for Mr. Rogers. The humorist appeared and demanded that the officers release her, which they did.

PARRACK WILL CONDUCT MEETING BAPTIST CHURCH

First Sermon of the Series Will be Preached Next Sunday Morning

The pastor, Rev. J. Perry King announces a special series of meetings at The Baptist Church beginning February 10, and lasting perhaps two weeks. The length of the meeting will be governed by the interest manifest, and weather conditions. Rev. Ira L. Parrack, pastor at Chillicothe, will do the preaching and teaching, and direct this special campaign. You will love Bro. Parrack. He is a great friend to man. He loves people and delights to be of service to them. If you miss coming in personal contact with him you will miss a blessing.

"We feel that we are wholly unselfish in planning this meeting. Our heart goes out to the inhabitants of our city and community round about as we call them to the house of the Lord. This is a meeting designed not primarily for the benefit of the Baptist but for our entire town. We would be disappointed if we thought that nobody else would be blessed. We want you in this meeting, whoever you are, and wherever you live, and whatever your relationship is to the town and community.

The pastor would urge you call your attention to the fact that there are people in our town who

are underprivileged and feel that they are being neglected. There are those who are lost and need a Savior; those who think they are friendless and need friends; those who think that they are so bad that God and his people have forsaken them; those who sorrow and need comfort; and those who are tied to tasks that will prohibit their being in these services. Let us see to it please, that every person is blessed during these days."

The singing will be under the direction of Mr. E. O. Bone, local choir director. Mrs. Allan Bryan will be at the piano, and Mrs. Sam Cauthen will be in charge of the orchestra. If you sing or play an instrument we most heartily invite you to join with these accomplished musicians in making the meeting attractive to those who love good singing and music.

Slot Machines Are Discarded On Suggestion of Sheriff

Operators the past week of slot machines said to not be within the legal limit, were asked by Sheriff Pierce to dispense with such machines.

Only a very few such machines are said to have been in operation, and these were readily dispensed with when the owners were made acquainted with the law governing the various makes of such machines. No arrests were made.

Eclipse of the Sun Visible Here Sunday Morning

As announced some time ago in the Leader, the eclipse predicted by astronomers came on schedule at 9:47 Sunday forenoon and remained on until 10:08.

The moon was passing between the sun and the earth causing the atmosphere to have a yellowish cast. The next eclipse of this kind will be in 1947, it is said.

Large Crowd Hears Gulley Preach at Lelia

A large crowd was out to hear Robert Gulley preach at the Church of Christ at Lelia Lake Sunday. The Sperrman minister preached at both the morning and evening hours.

Although a young man, he is said to be well versed in the scriptures and well qualified to represent the cause and present the matter in a manner that is both entertaining and instructive.

An Editor States The Qualifications

Most anyone can be an editor. All the editor has got to do is to sit at a desk six days out of the week, four weeks in the month and twelve months of the year, and "edit" such stuff as this:

"Mrs. Jones, of Cactus Creek, let a can-opener slip last week and cut herself in the pantry."

A mischievous lad of Piletown threw a stone and struck Mr. Pike in the alley last Tuesday.

"Joe Doc climbed on the roof of his house last week, looking for a leak and fell, striking himself on the back porch."

"While Harold Green was escorting Miss Violet Wise from the church social last Saturday night a savage dog attacked them and bit Mr. Green several times on the public square."

"Isaiah Trimmer, of Running Creek, was playing with a cat Friday, when it scratched him on the Veranda."

"Mr. Fond, while harnessing a broncho last Saturday was kicked just south of the corn crib."

Parker Auction Brings Out Plenty of Buyers

Reports from the Marion Parker auction sale Tuesday west of Jericho would indicate that money is not altogether as scarce as we are some times led to believe.

Live stock, tools and implements found ready cash purchasers at a good figure. A large crowd was present and the bidding lively. M. L. Putman of Clarendon cried the sale, Mr. Parker being well pleased with the results.

Lunch was served at the noon hour by Mrs. H. T. Burton and twelve members of her Sunday school class of the First Baptist church of Clarendon. The ladies were highly complimented for the excellent quality of the food.

Mother-Daughter Banquet Date is February 26th

The third annual Mothers' and Daughters Banquet, sponsored by the Business & Professional Women's Club, will be given on the evening of Tuesday, February 26th, at the dining room of the girls' dormitory at the College.

A delectable menu will be served by the Missionary Society of the Methodist Church. The seating capacity of the dining room has been carefully estimated, and comfortable seating of the guests will be safeguarded.

Mrs. Paul Shelton will be the speaker of the evening and a clever skit is another of the features of the evening's entertainment. Admission to the dining room will be by ticket only, and a time limit for securing tickets will be announced next week. Tickets will cost 50c and will be on sale at the office of Miss Carrie Davis, at the West Texas Utilities Company's offices.

Mrs. Ruth Teat is general chairman of this banquet, and she is ably assisted by the following committees: Program: Miss Fannie Perry, Mrs. W. C. Stewart, Mrs. J. L. McMurtry, Miss Anna Moores and Miss Sarah Virginia McGowan. Refreshments: Miss Lotta Bourland and Mrs. C. C. Powell. Decorations: Miss Layma Taylor, Mrs. Sam M. Braswell and Miss Mary Frances Powell. Tickets: Miss Carrie Davis, Miss Jo Ella Stewart and Miss Geraldine Pratt. Advertising: Miss Rhoda Wiedman, Miss Loraine Patrick and Miss Eloise Hill.

Keep a date open for this banquet and buy your ticket early.

Officers Hold Two Suspects Pending Investigation

Two men were picked up by Sheriff Pierce and Deputy Wright here Wednesday morning when they attempted to sell a quantity of wheat. The men had about 1200 pounds of wheat and two sacks of cake in the truck.

One of the parties giving the name of J. R. Brown had a letter directed to "James River Brewer" indicating that he had been in a Colorado CC camp, and later another camp near Ft. Sill, Oklahoma. The other party gave the name of J. M. White.

They claimed to be from Paducah but a call made by the sheriff to that place failed to verify the statements, the men are being held pending further investigation. They were attempting to sell the wheat to a local dealer when they were picked up.

Modern sanitary experts tell us that no rug is clean until washed. In keeping with the custom of installing a rug cleaning department in connection with clothes cleaning establishments the past few years, Parsons Brothers have made that service available to the housewives of Clarendon.

The process used by this firm is nothing more than giving the rug a "shampoo" with a vegetable soap. Not only is the rug cleaned, but it is also rendered moth proof in the process. The nap is restored as well as the colors.

COMMITTEES ON COTTON CONTROL TO BE ELECTED

County Agent Breedlove Has Week's Schedule Outlined To Cover County

There will be meetings held in the county for the purpose of electing local cotton committees. These meetings are outlined so that producers can vote as near as possible according to school districts.

Persons eligible to vote are 1934 cotton acreage reduction contract signers. Every one is urged to be at the meetings regardless whether they are contract signers or not.

Every one wishing to sign a contract for the second half, 1935, may do so if the farm was not planted to cotton in 1935. Farms broke out and planted to cotton for the first time in 1934 are eligible for cotton acreage reduction contract.

The meetings are scheduled to be held at the following places:

Wed: 10:00 o'clock at Jericho. All producers north of the Salt Fork of the Red River will vote here.

Wed: 2:00 o'clock Ashtola school house. All producers in the Ashtola and Martin school districts will vote at Ashtola.

Thurs: 10:00 o'clock at Lelia Lake. All producers in the Lelia Lake school district will meet at the First Baptist church in Lelia Lake to vote.

Thurs: 2:00 o'clock Midway school house. All producers in Midway, Sunnyview and Fairview school districts will meet at the Midway school house to vote.

Friday: 10:00 o'clock at McKnight. All producers in Brady and McKnight school districts will meet at McKnight to vote.

Friday: 2:00 o'clock at Giles. All producers in Giles and Smith school districts will meet at Giles school house to vote.

Friday night: 7:30 o'clock at Hedley. All producers in the Hedley school district will meet at the school house to vote.

Sat: 10:00 o'clock at the Hudgins school house. All producers in the Chamberlain, Windy Valley and Hudgins school district will meet at the Hudgins school house to vote.

Sat: 2:00 at court house. All producers in the Clarendon school district will vote here.

All producers will vote in the district in which they live.

FLOOD CONTROL PROJECT DEMANDS MORE TERRACING

Nine Square Miles of Water Shed Creates Flood Danger in Clarendon

The fact that nine square miles of watershed gathers the water that becomes a flood menace in Clarendon is the next big problem confronting the City Dads. The further fact that more than ninety percent of this area is land of a hard surface texture incapable of absorbing water readily, makes the necessity for terracing more acute.

The City has been supplying the concrete wasteways and furnishing transportation for the workmen in constructing dams on the draw extending southwest from town. The work is being done by relief labor and men of the Transient Bureau located here.

In the construction of the dams, no power is employed other than human exertion. Wheelbarrows and shovels are the principal means of dam construction.

The first dam almost complete is located within the corporate limits on city owned land near the JA road and south of the old Wilder place. This dam extends across the draw and forms a continuation of the street, and is plenty wide for traffic. It is about 30 wide at the bottom and 14 feet at the top. In addition to the wasteway, flood gate passages are placed in the central portion of the dam to permit of the water passing in a quantity that can be handled by the ditch. This plan is being followed in building the smaller dams, three in number farther up the draw.

Mr. Connally made a trip to Ft. Worth recently in an effort to learn of the conditions under which a PWA loan may be secured when Texas is allotted her portion of the four billion dollars already appropriated.

It is generally conceded by the City as well as others experienced in the matter, that terracing will mean as much or more in flood control than the dams. "Our next problem is to secure the means with which to do the terracing," Mr. Connally said Tuesday.

Borger Man Injured When Truck Capsizes

Bruce Hayes of Borger was painfully injured about 8:30 Saturday night when his truck turned over at the railway crossing east of Lelia.

He stated that the lights went out on the Phillips truck just before reaching the crossing causing him to swerve into the ditch. He was brought to Adair hospital but released a few hours later when his injuries were found to permit his transfer to Borger.

Youngsters Celebrate Natal Day at Blackman's

Mr. and Mrs. Roy Blackman served dinner at the noon hour for several friends of Mrs. Blackman's father Monday. The father, C. F. Bogard, had merely tripped along to the 79th milestone.

"With that buoyant and bragging air, and the fact that he 'out-shot' me with a 22-short, you would never guess that Bogard was any 79 years old," M. V. Harvey said Tuesday. It surprised us about 7 years worth.

Others to share in that glorious birthday dinner were old cronies of the honoree and included M. V. Harvey, S. D. Churchman, W. L. Clappitt, C. R. Skinner, O. N. Hedgpeth, B. L. Blackman and Mr. and Mrs. Harve Smith. The ages ranged from 63 to 82 years.

Judge Lowe to Speak Next Sunday at Chillicothe

Judge S. W. Lowe will speak on "The Hero of a Well Spent Life" at the 11 o'clock service at the Baptist church in Chillicothe next Sunday.

The pastor, Rev. Ira Parrack, will be in Clarendon in a series of meetings, and the Judge has kindly consented to supply for him in his home church.

MUCH 'FLU' AND 'BAD COLDS' IN CITY REPORTED

Urgent Demand for Remedies At All Drug Stores And Doctors Plenty Busy

"Over a thousand cases of diphtheria in the country", was the report of the county health officer Tuesday in speaking with a reporter of the Leader.

There has been a lot of talk about diphtheria in Donley county, and the doctor said he had made that remark to one wanting to find some of the disease. What the doctor really meant was that one thousand such cases were in the nation, but hastened to say that we had only two such cases within recent weeks, and both were new well.

No diphtheria in Donley county up to Tuesday, and that's the county health officer's estimate of the startling situation we have been hearing so much about. Dr. Oscar L. Jenkins is the health officer.

In common with other sections at this time, we do have a large number of flu and bad cold victims. Some of each are confined to bed, others hang around home. Others drag it out and keep going just as they have always done.

Doctors wisely advise every precaution in either case. Pneumonia and kidney trouble may follow either.

The present epidemic is said to be due to a lack of rain. Germladen dust sifts into every crack and cranny. We all have to inhale some of it. Loss of sleep, overeating without exercise, lack of ventilation, sudden change in bodily temperature are among the many inducements offered the careless to go down with flu and bad colds doctors tell us.

Fresh air, reasonable exercise, plenty of sleep, moderate eating, sunshine and plenty of good drinking water help to ward off ills if the health authorities know what they are talking about—and they certainly do.

Corn-Hog Contracts Ready For Signatures

All application for Corn-Hog contracts will be taken on Tuesday and Wednesday, February 12th and 13th. All contract signers are being sent cards as to where their committee man will be in his respective district so that they might sign up these two days. All producers wishing to sign a Corn-Hog contract for the first time will please come to the county agent's office in Clarendon, Thursday, Friday and Saturday to sign up.

CHEVROLET IS LEADING FIELD IN REGISTRATIONS

Sales During 1934 is Fourth Year This Popular Car Has Led Auto Popularity

Chevrolet Motor Company reported today that official 1934 new car registrations figures for the United States complete show 534,906 Chevrolet passenger cars sold and registered, giving the company first place for the fourth year in succession, and for the sixth time out of the last eight years. Chevrolet also led in total truck registrations for 1934, with a total of 157,507.

Compared with the previous year these totals show Chevrolet gains of 60,463 in passenger cars, and 57,627 in trucks.

Total Chevrolet units, cars and trucks, registered were 692,413, compared with 574,323 for 1933, a gain of 118,090.

December registrations of Chevrolet passenger cars, says the announcement, were 25,741, exceeding December, 1933, by 15,738.

WHY A CHAMBER OF COMMERCE?

That question is often asked by the multitude, and even some of the members of the organization who are members by reason of a patriotic motive other than from results that might be expected judging from past experience.

A great deal of stress is placed on highway construction as being one of the chief prerogatives of a chamber of commerce. Locally speaking, this matter can safely be entrusted to the energy, skill and earnestness of the county commissioners. While the commissioners will no doubt welcome suggestions at any time, they no doubt feel competent to look after our interests in this regard.

Clarendon needs a cotton market, since it has had little or nothing of the kind for several years. This phase of civic improvement is without the pale of authority of any or all county officials, but may be classed strictly as a civic project within the scope of a chamber of commerce, and where a valuable service may be rendered the entire citizenship.

There is no logical reason why Clarendon should not have a cotton market equal to Memphis and Hedley. The progressive citizens of both places are due a lot of credit for having made a better cotton market possible, and their efforts are worthy of emulation.

That our cotton producers must truck their cotton 16 to 30 miles in order to secure a better market is a direct reflection upon the aggressiveness of the business element of Clarendon. This condition should be resented to the extent that the fault be corrected in plenty of time before the next crop matures.

WHY SCHOOLS OF JOURNALISM?

Deans of schools of journalism have always asked editors what should be included in the course to insure that the young man, when he is launched upon the proverbial "Sea of Life," will be properly equipped to take up his duties in the editorial office.

The answer is easy. Do not teach him journalism. Keep him away from the technical aspects of newspaper work. They are relatively simple matters which any bright young man—salary no object—will pick up in a few months. But give him an all around education. A general course on the multitudinous problems which confront the working newspaper man is far better than to understand thoroughly the meaning of the cryptic phrase: tr add 1.

The lack of knowledge of the majority of newspaper men in this country is appalling. Too many of them are scarcely equipped for their jobs. Through a lucky "scoop" or some sweet little phrase which catches the boss' eye in his off moments, many a man is carried on the staff of a paper who would not get to first base in another occupation. It is unfortunate that the question of "politics" is still one of the predominant failings in the newspaper field. It will be denied by many an editor and publisher. But it is there. Nor is there any possibility of it being discarded. Man always has been and always will be a "sucker for a left hook."

This by no means is to discourage the budding Dana. Rather it should encourage him. For though he may never sit in the soft seat of the editor-in-chief's easy chair, he will at least have the satisfaction of knowing that he has received the most out of life for having delved into any and every subject. Nor need he be awed by the great, the near-great and common run of so-called feature writers, whose superficial knowledge of subjects they are presumably writing about, too often condemns them in the eyes of the intelligent reader.

There is also an excellent method in learning to write. Just sit down and write. —Newsdom.

ADVERTISING.

There has been prepared for introduction in the present legislature a bill containing a section which would make it unlawful for dentists to advertise their services. The bill would limit the advertising of dentists to a simple professional card, and would even forbid them to exhibit specimens of dental work or to use similar methods of attracting public attention.

Dentists who consider it unethical to advertise have a right to their opinion, but their right to force their code of ethics on the whole profession is open to serious question. This prohibition is aimed not merely at false advertising; it would confine all advertising of dental services to the limits approved by the self-styled ethical dentists.

Whether the motive is to protect the public or to protect the practice of non-advertising dentists we are not called upon to surmise. In our opinion the proposed prohibition

is arbitrary and ought not to become law. If the public needs to be protected by law against false dental advertising, which we are inclined to doubt, the bill goes to unreasonable extremes.

We are less concerned with this particular bill, however, than with the attitude toward advertising it typifies. It is an attitude not confined to the professions which frown on advertising for ethical reasons. Honest, advertising should need no defense, yet there are some individuals who seek to put it on the defensive. By what process of reasoning they arrive at the conclusion that there is anything either reprehensible or undignified in calling attention to the merits of goods or services we are unable to guess.

American business didn't grow to its present stature by hiding its light under a bushel. On the contrary, advertising has played an unmistakably important part in our national development. To it we owe scores of everyday comforts and conveniences. It is responsible for the quantity distribution which means low prices to purchasers. That advertising has a definite economic value is so well established that it ought not to be considered debatable.

The standards of advertising are not perfect, to be sure. Nothing is. But the standards of American advertising reflect a high degree of responsibility toward the public. The voluntary efforts of advertisers and advertising media have established those standards. They are not the result of statutory compulsion. Self-interested or officious groups or individuals who seek to hedge advertising about with restrictions and prohibitions which tend to give it an equivocal status are trying to stem the tide of progress. It is an attitude stamped with reaction, although some who adopt it seem to consider themselves liberals. —Galveston News

After advertising that cigarettes of a certain brand would restore your strength, cured human ills and a lot of other stuff, the things are being marketed in airtight cans now that have a key for opening similar to the manner in which coffee is packed.

Since burglars dragged that 600-pound Piggy Wiggly safe out the front way in Amarillo Sunday morning, the city dads may pass an ordinance against Sunday burglaries. Church people are said to be of the opinion that such practice would eventually lead to a disturbance of public worship.

Among the social activities reported from Jack county a dog fight on the main street of Newport is included. The barber also dropped his scissors, sticking the point through his toe. That just goes to show what a little excitement will do for the staid citizens of a quiet little burg.

The following item appeared in the social column of a leading state daily Sunday:

"The climax of the affair came when the gifts were distributed and each found who her capsule sister for the past year had been."

Discarding test tubes and live stock propagation, it must be admitted that a capsule sister should be a climax to anything.

Historic—When you meet a grouchy old man just remember that probably in his kid days they had no funny papers, and between stone bruises in summer and buckle shoes in winter, there just wasn't any chance for him to develop any sense of humor.

Domestically—"One of the soundest rules for a couple is to not speak to each other until after breakfast. There are cynics who claim that it is best not to do any speaking at all—perpetual silence in matrimony. After careful study and experience, we believe this is going too far. There are undoubtedly moments when it is perfectly safe for either party to make conservative and carefully chosen remarks."

Don't think for a moment that the above paragraph is but the rantings of some silly fool. It is not. That squib was taken from the book "Bed Manners" written by Dr. R. Y. Hopton and Anne Balloil, and just goes to show symptoms of the brain trust age. The book has a wide sale.

Considering the millions who have lived on this earth through the ages, and that the old ball did not crash at any of their deaths, there doesn't seem to be any reason why any of us should feel so dog-goned important.

Reading that a Brenham man came home unexpectedly and fired a shot at his wife's gentleman friend as the wife jumped out the window the other night is interesting because the bullet lodged in a book right over the man's heart. The next question is, was he a good christian many carrying a testament, or was he some wicked son of a gun with a text on "how to mix drinks" in his pocket?

One of the things that "improves" with age is also one of the things that causes a large share of the world's troubles.

"BRIGHT EYES" CALLED IDEAL TEMPLE FILM

SHIRLEY SAID TO HAVE FINEST ROLE IN THRILLING FOX PICTURE 10-11th

Shirley Temple—most sensational film discovery of the year—will be seen at the Pastime Theatre, Sunday and Monday, the 10-11th, in her latest and, according to all advance reports, her best Fox picture, "Bright Eyes."

"Bright Eyes" was conceived as a Shirley Temple vehicle by David Butler, who directed the film. The story was suggested to him, it is said, by a real-life incident occurring at a commercial airport near

Shirley Temple IPA

Los Angeles.

Relating the idea to Sol M. Wurtzel, Fox Film producer, he found the latter at once fired with enthusiasm. Together with Edwin Burke, famous screen writer who adapted "Bad Girl" and other hits, Butler was promptly put to work by the delighted producer, setting the idea down on paper. Then its adaptation was handled by William Conselman. Apparently it represents an entirely new type of vehicle for the remarkable child player.

Once more James Dunn is cast as Shirley's leading man—a fact which is said to have enchanted the young star. Jimmy appeared as her daddy in "Stand Up and Cheer" and "Baby, Take a Bow," and Shirley has eyes for no one else, they say, when he is on the set.

Preview audiences in Hollywood are said to have greeted "Bright Eyes" as the finest and most heart-warming picture in which Shirley has been seen. A human and compelling story, that at moments brings the tears, is com-

pered with thrills that will chill the spines of any audience. So runs the advance report.

The supporting cast includes Jane Darwell, of "White Parade" fame; Lois Wilson, Judith Allen, Theodore von Eltz, Dorothy Christy, Jane Withers, Charles Sellon, Brandon Hurst and Walter Johnson.

Logue History Has Interesting Facts Of Texas Panhandle

Author Gathers Material In Section Where He Landed in 1885

From such books as Roscoe Logue's "Under Texas and Border Skies," will be compiled an accurate history of the Panhandle and the scores of noble men and women who contributed to its colorful past.

Mr. Logue's book, a collection of stories told in the author's individualistic style, was published last week. It is the result of years of study and devotion to a region the author loves as his native land.

While it cannot be claimed that Mr. Logue has thrown a new slant upon Plains lore or contributed new material, he has succeeded in recording a number of facts in a compact form. Historians will find the book accurate in dates and names and easily accessible.

Covers All Phases Among topics discussed by Mr. Logue are:

Adobe Walls, Tascosa, the old chuck wagon, the XIT ranch, Catalo, Old Mobeetie, West Texas Sandstorms, prairie fires, droughts, mirage, blizzards, rabbit drives, prairie dog, Cynthia Ann Parker, cattle brands, windmills, Billy the Kid, frontier barbecues, early fences, the range riders' lingo, the square dance, and the "wandering jockey."

"The book is too close to history to tell all the truth about some people and about some events. And it is not close enough to fiction to indulge in greater frankness. The historian and novelist will delight in getting such material."

Book on Sale

The author was born in Hood County in 1885 and was brought to Washburn, Armstrong County, in 1887. His entire life since then has been lived in the Panhandle. As a youth he knew intimately the famous men whose names make the history of the Panhandle. He is now a resident of Amarillo.

His book is on sale at the Russell Stationery store at a price of 50 cents. Mail orders will be filled for 60 cents.

O. C. Watson and L. E. Thompson, local hardware dealers, attended the district convention of hardware dealers in Amarillo Tuesday.

Every person in Donley County should see this wonderful production.

Gets 15 Years for Beating Highway Patrolman

Harrison Short, a former inmate of an Oklahoma reformatory, was given 15 years in district court at Canyon Saturday in connection with pistol-whipping given Boyce Long, a state highway patrolman near there Dec. 23.

Short was convicted on an assault to murder charge. He and two others were arrested by Long. After they got in the car with him, they took his pistol away from him, beat him over the head, kicked his mouth and escaped in the stolen car.

Hamil Johnson was given one year and Ed Keel five years in connection with the same affair. Keel spent one night in jail here

shortly before the Canyon assault. At that time he was being held for Amarillo officers where he was charged with rifling an auto containing a salesman's samples. He was liberated by Sheriff Pierce upon the request of the Amarillo chief of police who afterward realized his mistake when it was too late. The man had fled.

BOULDER LAKE WILL BE ELEVEN TIMES LARGER THAN ANY ARTIFICIAL LAKE

A new lake, 11 times larger than any other artificial lake yet created through the ingenuity of man, began to form above Boulder Dam February 1st. The first gate clos-

ing the stream of the Colorado river refused to work as though the river protested against forming a lake 115 miles in length. Later the gate weighing forty tons finally slid into place. The second and last head gate slid into place when the electric contrivance in the watch tower was touched.

The gigantic reservoir is located near Boulder City, a town of fifty thousand or more made since work was begun on the dam.

Geologists say it took nature three million years to carve this canyon with the Colorado River. In less than four and a half years the canyon has been plugged by engineers building the world's largest dam—727 feet high, 1,180 feet across the top and 650 feet thick at its base.

Damming of the mighty Colorado River was necessary to halt floods that threatened to turn back into the inland sea that it was in prehistoric times the rich Imperial Valley of California, whose gardens yearly produce a \$100,000,000 crop of vegetables, fruits and cotton.

The dam also will permit reclamation of millions of acres of arid lands, and will provide water for future millions of population in southern California.

In Sept. 17, 1930, Ray Lyman Wilbur, then secretary of the interior drove a silver spike into a railroad tie near Las Vegas, Nev., marking the beginning of the construction of a railroad spur to the dam site.

Engineers figured then the dam would be completed in August 1937. Astounding construction speed records followed. Today the dam builders are two and a half years ahead of their schedule.

An expenditure of \$385,000,000 is involved, \$165,000,000 for the dam, its power houses and the all-American canal in the Imperial Valley, and \$220,000,000 for the metropolitan water district development carrying water to southern California communities.

"I HAVEN'T HAD A COLD IN FIVE YEARS"

"In the old days I used to dread the coming of winter. I was always fighting colds—feeling about half alive—trying to work with my body aching and every nerve on edge.

Then a friend told me about McCoy's Cod Liver Oil Tablets with their marvelous vitamins A and D. I started to take them five years ago and I haven't had a cold since that time.

"McCoy's tablets put new life in folks; build up resistance so anyone can laugh at cold germs. They make weak, skiny people strong, steady-nerved and vigorous. They're wonderful!"

VARIOUS JOBS HELP BOYS MAKE EXPENSE MONEY

Boys Attending University Exercise Independent Spirit of Earning

Six young men of the number attending the State University from Clarendon are engaged in useful employment in Austin. Others may be so employed, but we have no record of them.

Any young man who exercises that independent spirit of "earning while learning" is calculated to make a success of most anything he undertakes. If he finds that a job is necessary in order to meet his expense budget, all the more honor is due him for having that indomitable will to fight the battles that often handicap and more often overcome the weakling in the great game of life.

George Chamberlain is "ad man" on the Cactus, the annual of the University. Rustling ads to make the annual pay as has been done through the many years of the past, is a real job. George seems to be getting over in a big way.

Benton Smith is with the Paralta Studios. Benton is training to become an accountant, but is willing to hold down a job that may not be exactly to his liking in order to keep busy and earn the extra money that comes in handy with any school boy.

Chas. Walker is in the mailing department of the University. Charles is kept plenty busy looking after the thousands of pieces of mail sent out daily. He is but one of a crew of a dozen or more.

All schools must have a library, and that library is usually a very busy place during school hours and often before and after the school hours. Joe Noble one of the "big boys" of the library situation keeping up with the books that go and come by the dozens.

Boarding houses are a valuable adjunct to the University. Thousands of the pupils eat at boarding houses. This is where we find J. C. Rolls making contact between the student element and the operator of the hostelry who finds a student the best man for the job.

The Capitol continues to have a lure for Phifer Estlack. After a year and a half in the Attorney General's department, he has been advanced to a more lucrative position in the department of the Adjutant General. He knows practically all of the hundreds who work in the Capitol, and plenty who come and go during legislative sessions.

Fifty Million Cans of Meats Saved Through Relief Work

Austin, Feb. 5.—Beef canning plants operated by the Texas Relief Commission at 22 points throughout the state have added 50,000,000 cans of meat to the store of food for relief roll clients of Texas and were without doubt the most important single factor in the rapid growth of the work relief program in the state during 1934, it has been indicated by Adam R. Johnson, state relief director, as he studied output figures on the various plants.

"I am particularly pleased with this program," Mr. Johnson said, "because it not only gave work relief to between 20,000 and 30,000 men and women on our relief rolls, but it also enabled us to utilize 400,000 head of Texas cattle which the government otherwise would have had to ship out of the state. We already have ordered 15,000,000 cans of this beef distributed to relief people."

Size of this processing program is indicated in that Texas spent \$3,044,671.57 of federal funds for materials, supplies, equipment and non-relief supervision and labor and an additional \$1,545,962.12 for relief labor used in the program from June to December, inclusive.

For cans alone, calculations show the Texas Relief Commission to have paid approximately \$1,344,000. The total value of the product obtained, calculated on the basis of 20 cents per can, is \$10,000,000.

Canned meat is distributed through county administrators to relief clients on the basis of six cans per month to the average family of five persons. Each can contains one pound, four ounces of meat, enough to provide an adequate meal for a small family. Since this beef is classed as a surplus commodity, it is not charged against the relief budgets of clients but is distributed as an unpriced, additional grant.

Mrs. T. R. Moreman of Hedley visited Mrs. Eula Cox Monday.

FAMOUS REVUE COMING SOON

Ziegfeld Follies With Fannie Brice and Howard Brothers With Large Troupe

What is the most important theatrical attraction that has ever been scheduled to appear in this section will be seen at the City Auditorium, Amarillo, for one performance only—Wednesday night, February 13—when Ziegfeld Follies with Fannie Brice and Willie and Eugene Howard, supported by a company of over 100 persons, including the justly celebrated "glorified" girls of Ziegfeld fame, holds forth.

Not only is the world famous attraction the first big musical show to reach this territory in many moons and likewise the only revue booked to appear this season but it marks the first time in history that the Follies, with its original New York and Chicago cast and production, has sallied forth from the large eastern cities for a tour of the country from Coast to Coast.

The personnel is identical with that which appeared during the season long run at the New York Winter Garden and later for three months at the Grand opera house, Chicago. In point of sheer magnitude it surpasses any theatrical outfit that has gone on tour in the past two decades. A special railroad train of eleven cars, including six double-length baggage cars and five Pullman sleepers are required to transport the company and

paraphernalia from stand to stand. When the Follies terminates its spring it will have covered engagements in 45 states, paid out over \$100,000 to railroads and transfer concerns, \$600,000 in salaries, \$50,000 in royalties, \$220,000 for newspaper and billboard advertising, with such incidentals as rice powder for unvested torsos and the like, to a total tune of over one million fifty-nine cent dollars. Mail orders when accompanied by remittance in full, including tax and self-addressed, stamped envelope, will be filled in rotation.

City Begins Street Repair Work Thursday

Caliche topped streets have been dug full of holes the past month by high winds aided by traffic. A crew was started out today to fill the chug holes.

Caliche and clay will be dumped into the holes and wet down causing the "cold patch" to stick. It is understood that quite a bit of relief labor will be directed to street repair this month.

WHEN YOU TAKE A LAXATIVE

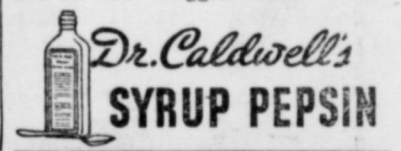

... use a spoon

It isn't what brand of laxative you take that's so important—it's the form. A liquid laxative can be taken in any required amount. If only a little is needed, you need never take a bit too much.

Doctors favor the easily measured liquid laxatives. Instead of any form that does not encourage variation from the fixed dose. A fixed dose may be an overdose for you—or your child.

Always remember this one thing about constipation: the secret of any real relief is reduced dosage.

Give the bowels only as much help as may be needed, and less help as the need grows less. You will find Dr. Caldwell's Syrup Pepsin an excellent aid in regulating the bowels. It contains senna and cascara (natural laxatives) and it will clear-up any bilious, sluggish condition without upset. Delightful taste, and pleasant action. Your druggist has it.

TEXAS HISTORY RECENTLY FOUND AND TRANSLATED—NEVER BEFORE PRINTED

(Note: The following is one of a series of weekly articles taken from the Bexar Archives at The University of Texas. This collection, considered the greatest single historical treasure on the North American continent, has been catalogued and is now being translated by The University of Texas. It consists of 400,000 pages of original Spanish handwritten documents comprising the official archives of the Mexican government for the Department of Bexar, which covered almost the whole of what is now the State of Texas, for the period from 1731, soon after Texas became a separate province of Mexico, to 1836, to the battle of San Jacinto. This series of articles will consist principally of quotations from the documents, many of which have heretofore been unpublished, and will reveal for the first time what actually transpired during the century in which Texas was transformed from a wilderness inhabited only by savage Indian tribes to an independent American republic.)

SERIES I, No. 2
Austin, Texas, Feb. 4.—In order to understand the long struggle with the French over the colonization of the territory of Texas, or Texas, as depicted in the official records of the Mexican government for the province, or department of Texas, found in toto in the Bexar Archives of the University of Texas as library, it is necessary to know that this contest had been going on for centuries before the coming of Moses and Stephen F. Austin, with their plan for settling the region with Anglo-Americans.

The conflict between the French and the Spanish forms the basis for much of the bulky documentary archives of the Mexican seat of government at San Antonio de Bexar. It may be said without dispute that had it not been for the international aspect of the situation, Texas might have remained a barren wasteland until the natural overflow of population from the congested eastern part of America forced expansion. Neither France nor Spain was particularly anxious to send explorers into the territory, but each was spurred on by the exploits of the other. Later, when Spain held Mexico in thrall and France had possession of Louisiana, each was driven to establishing missions and garrisons in order to protect their rights in the field.

The French claim to Texas was based on La Salle's frustrated attempt to plant a colony on Lavaca Bay in 1685. Spanish exploration of the region pre-dated this effort by fully a hundred and fifty years. Following Columbus' discovery of the West Indies in 1492, the Spaniards colonized those islands, and continued their search for a westward passage to India. Their expeditions covered the whole of the Gulf in this quest, and chartered the Gulf coast rather thoroughly. In 1519, Alvarez de Pineda, an agent of the governor of Jamaica, mapped the whole coast of Texas, and sent back to Spain a glowing description of "Amichel," as the Spaniards then called Texas. This was two years prior to Cortes' capture of the Aztec capital in Mexico. These tales brought numerous exploratory adventurers to the New World.

It was in 1528 that Narvaez' party of colonists, destined for Florida, met with disaster and, attempting to reach the Spanish settlements in Mexico, were wrecked November 6, 1528, off the coast of Texas. It is thought they landed on Galveston Island. The later famous Cabeza de Vaca was one of the small group that reached shore. The narrative of his eight years as the slave of the Indians, as a medicine man and a trader, is more or less familiar.

In 1541, stimulated by reports of Cabeza de Vaca's venture, Coronado made his expedition out of New Mexico over the south plains of West Texas, in search for gold. The following year Luis de Moscoso, appointed as his successor by De Soto, discoverer of the Mississippi, on his death-bed, crossed Red River near the present site of Texarkana and penetrated Texas as far as the Brazos. In 1582, Espejo passed through West Texas and explored the Pecos River for some distance. During the next century several Spanish expeditions from Mexico into California and New Mexico touched Texas. In 1682, the village of Ysleta, which is still in existence today, in the upper Rio Grande Valley, was founded by friendly Indians and contained some Spaniards as well.

It was in that same year that La Salle, the first Frenchman to set foot on Texas soil, reached the mouth of the Mississippi. He returned from France two years later with an expedition to plant a colony on that river. He missed his calculations, and landed in Matagorda Bay, on the Texas coast. With his Indian-beset, disease-ridden followers, he established first a temporary colony on Matagorda Bay, then a permanent one near the head of Lavaca Bay, which he called Fort St. Louis. He attempted to reach the Mississippi by traveling overland, going as far as the present town of Nacogdoches, when he was forced to return. He then tried to reach the French settlements on the Illinois River, but was murdered en route. The supposed spot of his death being somewhere in East Texas. Four years after his landing, the Spaniards found Fort St. Louis deserted.

La Salle's inadvertent colonization project aroused the Spaniards to the danger of French encroachment. Spain had in recent years been awakened to the menace of other countries in her colonial possessions. The English had in 1655 seized the Island of Jamaica from Spain and eleven years later France had established colonies in several West Indian islands. The French invasion of Texas, immediately adjacent to the Spanish outposts of Nuevo Leon and Coahuilla, was the last straw. The Spanish sent out expeditions to search for the French invaders. Three searching parties were unsuccessful, the fourth, in 1689, found the abandoned Fort St. Louis and took two of the few remaining survivors captive.

In 1690, Father Massanet, accompanied by military escort, established the Mission San Francisco de los Tejas near the Neches River, the first Spanish mission in Texas. It failed, and more than twenty years elapsed before real colonization was to begin.

French colonists in Louisiana, however, settled in Louisiana in 1699, and began explorations of the Mississippi Valley. In 1712, Cadillac, new governor of the province of Louisiana, sought to open trade with the Spanish settlements in Mexico, applying to the viceroy at Vera Cruz. His proposal was rejected, but it opened the way for future colonization. Through the sub rosa intervention of a Spanish priest, Father Hidalgo, however, who hoped to stir the Spanish to another attempt at establishing missions among the Indians in Texas, Cadillac sent St. Denis to set up a post on the Texas-Louisiana border. He was to seek out Father Hidalgo and urge him to do likewise.

The emissary was successful. This step actually resulted in the opening of illegal trade between Louisiana and northern Mexico. In 1716, St. Denis, having made his way to the city of Mexico, was started back to East Texas as the paid guide of an expedition to establish Spanish missions in that region. Four missions were established in the region of the Neches and Angelina rivers.

Feeling that a half-way station was needed to break the strenuousness of the journey, the Spaniard in 1718 founded the presidio of San Antonio de Bexar, with an accompanying mission, the Mission San Antonio de Valera. Thereafter, San Antonio became and remained the center of Spanish and Mexican activities in Texas, and was, up until the beginning of Anglo-American colonization, the only permanent settlement in the new province. La Bahia, later removed to Goliad, had been established on the coast to keep out invaders by way of the Gulf. However, this settlement and that at

Nacogdoches were of fluctuating population and were illy protected against attack.

In 1719, was broke out between Spain and France, and was reflected in colonial circles in Texas, French attacks causing the abandonment of most of the Spanish missions with the exception of San Antonio de Bexar.

In 1731, the civil settlement, the villa of San Fernando, was added to the military and ecclesiastical establishments at San Antonio. This settlement was comprised of a small number of families recruited from the Spanish colonies in the Canary Islands, 56 persons in all when the colony reached their destination. This was the first civilian colony established in Texas. It was on the arrival of this group on March 9, 1731, that the first municipal government was set up in Texas. The Bexar Archives date from this year, in fact, practically from the very day on which these colonists first saw their new home—San Antonio de Bexar, capital of the Province of Texas.

Juanita Estes
We are sorry to report that our Sunday school superintendent, Mr. T. J. Rampy was sick and not able to fill his regular place in Sunday school Sunday. We are now glad that he is better and we are hoping that he will be able to be with us next Sunday.

Sunday school was well represented with an attendance of fifty-six. We studied the Restoration of Peter which we found to be a very interesting lesson. And of course we believe we have one of the very best of community Sunday schools. We will also say that Bro. Reavis met with us at the appointed hour Sunday evening and gave us a wonderful message on the life and teaching of St. Peter. The sermon began with a lecture on each lesson beginning at the first study of the new quarterly. We will say to all who were not there that you certainly missed something worth while. High points in our lessons were brought out which possibly we had failed to see. We want to invite every one in this community and surrounding communities to meet with us third Sunday at 7:30. Bro. Reavis will be with us and also our presiding Elder will preach for us. Don't fail to come.

Miss Martha Thomas, who has been working in Hrooly, was the week end guest of her parents, Mr and Mrs. John Thomas.

Mr. and Mrs. Albert Markwood and children, Perl, Frank and Archie, also Mr. and Mrs. Dodds and daughters, Vivian Inez and Mary Eilan of Coleman, Texas returned home after a two weeks visit with Mrs. Markwoods brother, Mr. R. P. Wilson.

Miss Mildred Selo was the week end guest of her aunt, Mrs. G. G. Reeves.

Mr. and Mrs. Watt Hardin and daughter, Annie Marie, spent Sunday evening with Mr. and Mrs. V. V. Johnston.

Mr. and Mrs. J. H. Barker and family spent the week end with Mr. and Mrs. Will Barbee.

Mr. G. G. Reeves was called to Shamrock to the funeral of his niece, Sarah Reeves.

Miss Filora Wilson was a luncheon guest of Juanita Estes Sunday

Mr. Willie Hott returned to his home in Grapevine Thursday after a few weeks visit with his brothers Mr. Earnest Hott and Mr. Oran Hott.

Mr. and Mrs. J. B. Estes were proud to have their daughter, Jimmie, to return home from Brice Monday, but were sorry she came home with the flu. If she gets along well she intends to return to Brice Friday afternoon to continue her work.

Our Weekly CHURCH CHAT

W. E. FERRELL, Minister First Christian Church

"Analysis of Bible—Luke" Part I. THE WRITER:— Luke the beloved physician (Col.4:14) Also the reputed author of the Book of Acts; both books being addressed to the same person. Luke was a close friend and companion of Paul, as is shown in his personal allusions recording the journeys of the Apostle. Many students see something of the stamp of Paul's mes-

Luke's gospel. The exact date of the writing of the gospel is unknown. But if it were written after Luke came under the leadership of Paul and his influence, it would quite naturally be similar to Paul's method, etc.

TO WHOM ADDRESSED. This gospel was addressed to Theophilus, an unknown person. Internal evidence indicates that the book was written especially for the Gentiles. This is inferred from the fact that the writer takes great pains to explain Jewish customs and sometimes substitutes Greek names for Hebrew.

THE PURPOSE OF THE BOOK. The chief purpose of the book is to give a connected and orderly narrative of the life of Christ, as seen by an eye witness. See Luke

1:1-4. THE KEY VERSE. "That thou mightest know the certainty of those things wherein thou hast been instructed." 1:4. DISTINCTIVE FEATURES.

1. It is a gospel of the universal grace of God. 2:32; 3:6; 24:47.

2. It is the gospel of the "Son of Man." It emphasizes Christ's sympathetic attitude toward the poor, the lowly, and the outcasts. The poor disciples, 6:20. The sinful woman, 7:37. Mary Magdalene, 8:2. Publicans and sinners, 15:1. The deserted beggar, 16:20, 21. The lepers, 17:12. The dying thief, 23:43.

3. It is a Devotional Gospel, it especially emphasizes prayer. It contains three parables on prayer, not found in other gospels. The friend at midnight, 11:5-8. The unjust judge, 18:1-8. The Pharisee and publican, 18:9-14. It also contains Christ's prayers. At his baptism, 3:21. In the wilderness, 5:16. Before choosing the disciples, 6:12. At the transfiguration, 9:29.

MIDWAY

(Mrs. John Goldston)

The Midway Study Club will meet with Mrs. Joe Jones next Wednesday, Feb. 13th. The lesson will be on the last chapter of Exodus. We will be glad to have any or all of the ladies of our community to meet with us.

Mr. J. A. Meaders and Miss Katie made a business trip to Amarillo Wednesday. Mrs. Stone and Mrs. John Goldston accompanied them.

Kennedy Davis was moved to Clarendon Sunday to the Greene home for a while. Kennedy is slowly improving.

Mr. and Mrs. Sam Darden, for-

sage or manner of teaching in merly of Midway were visiting friends here Sat and Sun.

Mr. and Mrs. J. T. Wilson of Alameda, Mrs. Frances Reclar of McLean, Mrs. Blanche Williams of Eric, Okla. visited in the John Goldston home Wednesday.

Miss Margery Harlen went back to her school Monday after being out two weeks due to an appendix operation.

Mrs. John Chamberlain and Will attended the Chamber of Commerce banquet Tuesday evening.

Miss Josie Mae Davis went with Mr. and Mrs. Clifford Davis to the Burson ranch Saturday to visit Mrs. Davis' folks.

WINDY VALLEY SCHOOL NEWS

The C. W. A. workers have almost finished the flower beds near the school house.

The seventh grade is happy to welcome Edward Sneed as a new class member.

Monday morning Jo Nell Stogner turned in her books at Windy Valley. She is moving to Lelia Lake.

We are going to make a tennis court when it rains. If it doesn't rain soon, we will carry water and put on it.

The next singing convention will be at Windy Valley, the first Sunday in March. We extend a cordial invitation to all singers from Donley county and near to be present.

The singing school is still going on. The school has been slowed up a bit because of the flu epidemic. Mr. Earthman is teaching the young children how to lead singing.

The seventh grade lost one of its best pupils this morning. Jo Nell Stogner, she will go from here to Lelia Lake. The seventh grade wishes her good luck in her new school.

Our Junior basketball team has worked out some new plays. Mr. Jackson is teaching them the proper way to pitch goals.

A large number of pupils were absent from school Monday with colds. Miss Baley was ill Monday and unable to teach. We all hope she will be well in a few days. Mrs. Nelson Seago is teaching Miss Baley's classes while she is ill.

Primary Room

We have been studying about bananas and other fruits, so we made an "Eat Fruit" poster. We cut our own letters and fruit. We cut out some sailboats, too, and mounted them on blue paper.

We are reading about the early settlers in third grade reading.

We are sorry to have so many absent; we hope that they aren't very sick.

We miss Miss Baley very much, but glad to see Mrs. Seago in her place.

We are glad to have Robert Sneed, Katherine Owens and Jimmie and Raymond McDaniel for new pupils this week.

SUNNY VIEW

Mrs. Millard Stark who has been ill for some time is slowly improving.

Mrs. F. L. Behrens honored her husband last Sunday with a sumptuous dinner. The occasion being his 65 birthday. Those present were Mr. and Mrs. T. T. Waggoner and children of Claude, Mr. and Mrs. Roy McKee and family of Lelia Lake, Miss Nannie May, F. L. and Truett Behrens.

Mrs. Sam Dale and daughter Lucille of Goldston spent Tuesday with her mother, Mrs. R. A. Brame. Mr. and Mrs. Sam Roberts sat until bed time Saturday night in the home of Mr. and Mrs. Heckle Stark.

Several from this community attended the singing at Goldston

Sunday afternoon. Mr. and Mrs. R. A. Brame and family attended the funeral of Mr. P. K. Brian of Claude Monday.

Mr. and Mrs. Neal Bogard and children were pleasant callers in the Heckle Stark home Monday night. They enjoyed cake and ice cream.

Mr. and Mrs. Sam Roberts spent Saturday with their daughter, Mrs. Floyd Parker.

Mr. R. A. Brame is visiting relatives in Canyon.

GOLDSTON

All roads led to Goldston Sunday bringing singers from Dan to Bersheba, attending the county singing meet. Good singers were here from all parts of the county, and the singing was of the usual high class that is staged at a county gathering. Windy Valley was selected as the next meeting place on the first Sunday in March.

Mural Ratan returned from Cooper Saturday bringing Mrs. Ratan and their children who was called there on account of the seriousness of her mother. The Ratans will move this week from the Weston farm to the Goldston farm, recently vacated by the H. B. Rhodes family.

Mr. and Mrs. Warren Bray and children of Amarillo called Sunday in the home of her parents, Mr. and Mrs. G. R. Grant.

Fred McAnear and sons Granvill and Sell Kirk motored to eastern Okla. last week returning home Saturday. Sell Kirk says if the world is as big going west as it is extending east she is a whopper. Mr. and Mrs. Cal Holland and children of Brice visited in the John Rhodes home Sunday and attended the singing here.

Amos Yates of Clarendon spent Saturday night in Goldston. Must be some attraction out this way, Mose.

Audley Rhodes and family of Amarillo visited relatives here Sunday.

Mrs. Frank Elmore returned home after spending a few days in the home of her daughter of Childress.

There was quite a little excitement in this community Wednesday when a V-8 Ford sputtered by at a rate of ninety to nothing. The car was swiped at Groom and was closely followed by two officers in another car of the same make and model. The stolen car was about one half mile in the lead, and each car seemed to be doing its dead level best. Each car honked long and loud rounding corners and was

given the full right of way by every one who happened to either be coming or going. It seems the chase was kept up as far as Memphis where the culprit was lost in the shuffle. The fun started at Groom when a suspicious looking character was being searched by a deputy sheriff. The fellow was not interested in being searched, and very quickly snatched the deputy's gun, gave him in exchange for the weapon, a few kicks in the shins, took his tobacco away from him, eased into the cops car and headed south with the throttle wide open. In the meantime the deputy succeeded in pulling himself together rounding in another supply of chewing, mobilized another car and the race was on as stated above. It was lickety split with the two cars until they came to Goldston. Here the cop's car slowed down and he rushed for the telephone with gun in hand. Now the telephone was in the store operated by the new merchant H. B. Rhodes who failed to see the first car pass and he felt sure a hold up was on, and Rhodes very politely said Mr. here's my cash and there is my invoice, and a few fellows owe me a little, if you will wait I will run out and get it for you. It is alleged the Groom cop is now driving a T. model and chewing Brown Mule

tobacco for a highwayman does not cater to either.

Building Stone Discovered Near Canyon

Canyon, Texas, Feb. 2.—Discovery of a ledge of rock west of Canyon, almost like granite in hardness and in appearance, has greatly benefitted the relief project under way at the West Texas State Teachers College.

160 men are working on the campus. Forty men are at work getting the rock and the remaining 120 are busy either at hauling or building with the stone. The major project at the college is that of constructing a rock home for athletes, which includes a general recreation hall for boys. The boys' home, to be known as Buffalo Courts will when completed consist of an apartment court built in a U formation about the recreation hall.

Ballew Pierce has moved his family to Nogal, New Mexico. Nogal is north of Capitan where the mining interests of a number of Clarendon men is located.

J. R. Hillman of the Windy Valley community is reported as being seriously ill at this time.

A Message to Every Woman Who Really Cares to Have Her Floor Coverings Clean, Sanitary, Healthful and Ornamental

There is only one real process for bringing back the exquisite colorings of your rugs and carpets, and that is washing. Your floor coverings protect your floor and your health and the health of your children, and ornament your home only when they are CLEAN.

We can restore all the delicate colors, and rejuvenate your rugs to look like new. The method we use has long been in use in the leading hotels, clubs, laundries, dry cleaners and homes, and is so unique, so wonderful and so entirely satisfactory in every way that we are glad to recommend it to you.

Every inch of your rugs will be thoroughly clean when we have finished. The scrubbing and shampooing is done with rubber sponge applicators just like face sponge, and the warm soap suds are scrubbed into the nap of the rug WITHOUT INJURING THE SIZING, leaving it sweet-smelling and sanitary. The special cleaning compound we use is harmless and instantly it dissolves the stains and grease it is lifted from the rug by powerful suction.

The Hamilton Beach method which we employ removes the deeply imbedded grime and the microbes of disease which have been spat onto the street and are carried into the home by every shoe that crosses the threshold.

Danger lurks in dirty carpets. Therefore, give us the opportunity to tell you more about this wonderful up-to-date cleaning method and telephone us today for a demonstration.

REWARD OFFERED FOR CAPTURE OF THE STRANGER

THE TOWN COUNCIL TOOK ACTION LAST NIGHT AND NOW OFFERS A HANDSOME REWARD OF \$150.00 FOR THE CAPTURE OF THE MYSTERIOUS STRANGER WHO BROKE A MYSTERIOUS BUNDLE TO TOWN. HUMAN FEET WERE PROTRUDING FROM THE BUNDLE.

"CRAZY POLITICS" HERE FEB. 14-15th

100 IN CAST FOR BIG SHOW HERE NEXT THURSDAY AND FRIDAY

Here it is, the news you've been waiting for. You have heard rumors of the new political party; there has been talk of a whoopee campaign. You want to know, what and why? The lady Mayor isn't exactly what she appears to be. He (pardon us) she is a lady who doesn't like the dignified slogan, "The Hand that rocks the cradle will save our city." He wants and does make "Whoopee."

Members of this campaign of howls are Phillips "Dude" Gentry, W. H. Patrick, Kenneth Brown, C. C. Powell, Dr. A. W. Hicks, M. R. Allensworth, Tom F. Connally, Carl Parsons, Betty Weatherly, Rhoda Wiedman, Ruth Teat, Marie Thornton, Jim Cornelius, Harry McCracken, Elgin Patrick, Chas. Lowery, C. B. Morris, Elery Watson, Jerome Stocking and Jimmy Lumpkin.

The "lady" is the source of many interesting and exciting situations. However, "she" knows her old campaign and has the town on its toes with her New Deal.

City officials and business men take the roles of city fathers, reformers, judges and ward heelers. These borough papas gather at the caucus meeting only to have the

Visit With Rebekah Lodge At Pampa Thursday

Among the local membership to visit with Pampa Rebekahs Thursday night were Misses Lela Lamons, Emma Ayers, Ida and Etta Harned, Bertie and Eula Stewart, and Mrs. Addienne Pharr, Mr. and Mrs. Jack Bailey, Mrs. Lena Russell, Irl Alderson, Guy Jones and A. M. Lanham.

Highway Patrolmen Looked Like Bus Drivers

Members of the highway patrol appeared in new uniforms Feb. 5 consisting of blue and tan caps, blue blouses and coats and tan breeches, with a blue stripe down the side piped in red. The change from the dark gray uniform was made, L. G. Phares, chief of the force, said, because Constables and bus drivers have been mistaken for members of the patrol.

Miss Jessie Ingram of Amarillo spent the week with her mother, Mrs. C. B. Ingram.

The nomination carried over their heads.

The reserve seats for "Crazy Politics" will go on sale next Wednesday morning, Feb. 13th, at 8 o'clock at Stocking's Drug Store.

A special show for all children under 12 years of age will be held next Wednesday evening at 7:15 at the College Auditorium for 10c.

Come Vote the Laugh Ticket! You'll be sorry if you don't.

AMERICANISM—

(continued from front page)

J. M. Hill, new secretary, outlined what he believed to be the most worth while objects to be attained this year. Hill is a strong believer in Jersey cows of the best grade, the cream can and the weekly pay check.

A. L. Chase gave a resume of the 1934 activities of the Chamber, and the proposed objectives for 1935.

"That's the first time I ever heard a man make music with his nose," was the laconic remark of one of the guests. At that time the inimitable Glen A. Truax, master of musical instruments galore and instructor deluxe, was in the act of successfully imitating a pipe organ by accompanying his violin with a rhythmic hum without opening his mouth. This "musical anomaly" of the Rosary was one of the highlights of the evening. Mrs. Truax at the piano, these two musicians contributed classics that were highly appreciated.

The Cup awarded for the most beautifully decorated store front during the holidays was awarded the Bryan Clothing company. President Joe Goldston presented the cup which was received by Billy Jo Terrell, an employee of the Bryan firm.

Election of directors disclosed Joe Holland, Chas. Lowry, Oscar Castleberry and Odos Caraway as being the choice of the membership. Mr. Caraway is an ex-officio member of the local board, and a member of the Board of Directors of the West Texas Chamber of Commerce. Those whose terms are expiring at this time are Joe Goldston, Phillips Gentry and H. R. Kerbow.

Visitors from Memphis were J. Claude Wells and Wm. R. Cabness. Claude, Supt. I. H. Turney, John Wisdom and Mr. and Mrs. C. R. Douglas. Amarillo, C. S. Ma-keig, Geo. Broome, R. R. Nation, O. L. Taylor, Mason King and Bob Epperson. McLean, T. A. Landers, Boyd Meador, R. C. Davidson, Wilson W. Boyd, C. O. Greene, J. J. Cobb, Clifford Allison and W. E. Bogan.

Mrs. Veazey Celebrates Her Seventy-Fourth Year

On the occasion of her 74th birthday, a number of friends and relatives of Mr. and Mrs. W. M. Veazey, long residents of the Goldston community gathered at their home February 4, and surprised her with a birthday dinner and quilting. Mrs. Veazey in her kind and gracious manner greeted each visitor who was made to feel at home, and at once entered into the spirit of this joyous occasion.

A beautiful "rainbow" quilt was hung after which a bounteous din-

ner was served to 33 guests. The afternoon passed too quickly as each guest was anxious to demonstrate her skill at quilting.

Those to enjoy the hospitality of this home were Mr. and Mrs. Neely Hudson and son Dwain of Chamberlain, Mrs. N. D. Hudson and Mrs. Carpenter of Clarendon; Mrs. Joe Dilli, Mr. and Mrs. Eichelberger, Mr. and Mrs. Wilson Gray, Mrs. W. M. Jordan, Mrs. Hamp Morgan, Mrs. Sam Dale and daughter Lucile, Mrs. Lena Dilli, Mrs. Fountain Elmore and daughter Mary Edna, Mr. and Mrs. Pegrum, Mrs. Clyde Hudson, Mr. and Mrs. John Rhodes, Mrs. Frank Elmore, Mrs. Peden, Mrs. H. Stewart, Mr. and Mrs. Neely Veazy and children, Mrs. H. B. Rhodes and son Weldon, Mr. and Mrs. G. R. Grant; Misses Irene Rhodes, Dorothy Dilli, Cleota Pope, Birtie Stewart, Mr. and Mrs. W. M. Veazey and grandson James Wawson.

Many more happy birthdays were wished for this good lady who numbers her friends by her acquaintances.

—Mrs. H. B. Rhodes.

Mrs. R. Y. King was called to Ft. Sumner, New Mexico to nurse Mr. King's mother who is very ill.

Mrs. F. G. Patching has returned home from a three weeks visit with her daughter at Amarillo.

More Donley County Patients Cured at Millings San.

The curative value of the methods of treatment at Millings Sanatorium is appreciated by two more Donley county citizens returning the past week from this well known sanatorium making a specialty of chronic diseases.

Fred Buntin of Clarendon spent about three weeks at Millings where he received benefits sought after for some time.

Sam Spradling of the Van Eaton farm was suffering from a number of ailments of a serious nature for which he had received medical treatment for something like a year. He spent six weeks at Millings Sanatorium and came back a well man.

Several other Donley county citizens have been cured at Millings and a number of others expect to spend some time there during the next two months.

Kennedy Davis is a guest at the Bill Greene home this week.

Resources of Japan Makes Nation a Menace

Canyon, Feb. 2.—"The center of the world has moved from the Atlantic to the Pacific, and the important world problems of this century promise to be those of the Far East," declared Dr. No-Yong Park in an address here this morning.

Dr. Park, author, Harvard scholar, and lecturer on Oriental subjects declares that people who believe that Japan is a weak country have been misinformed and that those who believe that Japan has no industrial future have failed to realize that she has almost unlimited water power, that the people have a simple mode of life, and that Japan is better organized than the United States to compete in world markets.

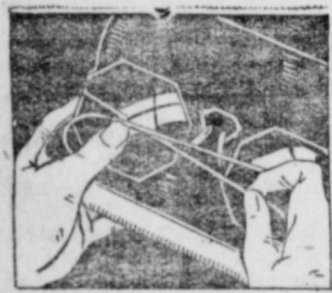

"Statistics are misleading," said Dr. Park, "for instance, statistics never mention the value of Japan's fishing waters which are almost unlimited in extent and which are fully as valuable, acre for acre, as truck gardening area in the United States."

"If Japan imported no food for a year, that which she has in storage would amply provide for her entire population for all but one and one-half days of the 365." Dr. Park, who has recently returned from the Orient, was on his way to California when he stopped for a brief visit in Canyon. He was introduced here by Dr. C. A. Pierle of the chemistry department of the West Texas State Teachers College. Dr. Pierle lived many years in China.

Mrs. Goodner and son Tommie, Mrs. Jim Headrick and Miss Edgar Mae Mongole visited in Amarillo Saturday and Sunday.

Mrs. McLean who has been visiting here and attending to business has returned to her home in Amarillo.

City Commissioner Tom Connally will attend a regional meeting at Amarillo where a federal man will explain the requirements in connection with PWA loans to municipalities.

This is to certify that I took my wife to Dr. H. H. Milling March 2, 1927, for treatment. She suffered with paralysis for seven months, and had been informed by two medical doctors that she would never walk again. After six weeks' treatment by Dr. Milling, she was up, well and strong, doing all of her house work and enjoying perfect health again. I heartily recommend Dr. Milling to any one suffering with such trouble. Further testimonial will be gladly given. I swear the above testimonial is true.
