**THE IRON HEEL OF TERRORISM.**

Anent the clean-up campaign being conducted by state and federal officers, one does not expect a reign of sanctimonious terror. Out of it all many hope to soon see the day in Texas when vice will not have the temerity to stalk boldly into court and demand its "rights."

**LET THE FIGHTERS FIGHT.**

This question of war versus peace is getting monotonous. Many solutions have been offered, and are as promptly discarded. The intellectuals admit their incapacity to achieve anything worth while. Most of them conclude by saying that "war is human nature and therefore inevitable."

This writer's idea would be to establish a national battling ground and permit anybody who wanted to fight to get on the reservation and have at it. Do away with shop worn misleading slogans such as "War for Democracy's Sake—for Liberty's Sake—for King and Country." Why not get down on a sensible basis and just say "War for the Sake of Fighting?"

The fighters gathering on the reservation to do battle produce a process of elimination. All the people endowed with an urge to raise hell with somebody else would eventually be annihilated, and eternal peace would be ours.

**TAXATION WITHOUT REPRESENTATION.**

House Bills Nos. 325 and 483 written by W. P. Dumas of Dallas, one of the outstanding bond attorneys of the South proposes among other things an extra tax of one cent per gallon on gasoline for the purpose of paying of county indebtedness. The debts were made by building modern highways.

Representatives A. B. Tarwater, R. E. Morse, Bob Alexander, Geo. Moffett, E. L. Rogers and J. Doyle Settle are leading the fight against the unjust tax measure.

Donley county, for instance, staid out of the hole by a hard fight against all bond issues. We of Donley county do not feel that we should help pay for highways of other counties.

An excerpt taken from a letter received from the County Judges and Commissioners Association of Texas very aptly presents the issue in the following words:

"It is unfortunate that some counties, during prosperous times, voted such a burden for the construction of lateral roads that have become almost unbearable during the past few years. But the attempt to shift their burden to the counties that had no voice on election day in their respective counties in the creation of such indebtedness, is contrary to the policy of the American government and has been so recognized since the Boston Tea Party; they are trying to shift a tax burden on people who had no voice when the burden was created and, therefore, it would be taxation without representation". We are sorry for those counties who have such burdens; we are likewise sorry for our many friends and acquaintances who bought homes on the installment plan when times were good, but they were unable to meet their payments when the depression came; yet, our sympathy does not prompt any of us, even those who are urging the passage of these Bills, to dip down in our pockets and take the money we have earned for the support of our own families and voluntarily contribute it to those who are losing their homes that they may save same. That is the very principle the advocates of these two bills are urging upon counties that have not seen fit to bond themselves to construct lateral roads."

**Dust Storm Damages Health And Property**

Housewives of the Panhandle say that dust causes a great amount of damage in their homes, according to a survey made by Harley A. Daniel, acting director of the experiment station, Goodwell, Oklahoma.

Recently fifty-three homemakers of Goodwell and Guymon, Oklahoma were interviewed to find the estimated cost of damage from dust blowing into their homes. According to these housewives, the average estimated cost of keeping the house free from dust for one month was \$29.25, assuming they were paid 25c an hour for their work.

Another added expense due to dust was that of laundry and cleaning. The average extra cost

per month was about 39 per cent. Although dust seems to sift almost directly through the walls, the estimated average damage to food was only 1.25%.

Few people ever think of the damage to their furniture due to dust, but the data secured show that the dust infiltration damages the furniture in the average home to an extent of \$25.56 annually. This estimate, of course, does not include the damage to floors, walls and fixtures.

The housekeepers presented a wide variation of figures in estimating the total cost per month due to the infiltration of dust. The highest estimated total cost was \$56.00 and the lowest \$3.00, while the average was \$27.00.

A large number of business houses in Goodwell and Guymon were interviewed and the data ac-

culated indicated that the penetration of dust into these houses was costing the firms on an average of \$53.00 a month.

There seems to be many conflicting opinions as to the effect of dust on the health of the individual, however 47 of the 53 housewives interviewed stated that dust did affect their health, usually causing nose and throat trouble. Physicians of Goodwell Guymon, and Texhoma, Oklahoma agree that dust has a very bad effect on the health, causing colds, bronchitis and sinus trouble. Dr. Paul Reid from Texhoma, Oklahoma reports three cases of pneumonia which he believes originated from dust. Dr. E. F. Camp of Buffalo, Oklahoma says that approximately two-thirds of the people of Harper county have bronchitis, caused from recent dust storms.

**MARTIN**  
 Mrs. Jim Baker  
 \*\*\*\*\*

Mr. and Mrs. Horace Bryant and Frieda Helton were pleasant callers in the C. A. Jones home Sunday afternoon.

Mrs. Sid Geddis and daughter of Childress are visiting her parents Mr. and Mrs. Jess Davis.

Mr. and Mrs. Clyde Easterling and children, Margaret Easterling, and Emily Davis spent Sunday with Mr. and Mrs. D. M. Patterson of Clarendon.

Mr. and Mrs. W. E. Hodges spent Sunday with Mr. and Mrs. Buck Roberts of Lelia Lake.

Bro. Brister and Mr. and Mrs. John Turnbow were visitors in the J. D. Woods home Sunday.

Mr. and Mrs. J. T. Easterling had as their guest Sunday Mr. and Mrs. Jack Eddings and Mr. and Mrs. Carl Pittman of Clarendon.

Mr. and Mrs. Harry McMullen of McLean spent Sunday in the W. F. Barker home.

Mr. Jack Bailey has returned from California where he was called a few weeks ago because of his father's illness. He reports that his father is improving.

Pre-Easter services are being held this week. Tonight Rev. W. E. Ferrell will speak and Friday night, Rev. J. Perry King will be the preacher.

**Farmer and Stockman Helps Build Ford Cars**

It is surprising to note how the market for farm products have increased the past few years. The Ford Motor Company leads in field of creating new markets with new uses.

In the manufacture of a million Ford cars and trucks, the Ford factory will make use of the following products of the farm:

**From the Fields**  
 Cotton—69,000,000 pounds from 433,000 acres for upholstery, brake linings, timing gears, Safety Glass.  
 Corn—500,000 bushels—the harvest of 11,280 acres—for rubber substitute, butyl alcohol, solvents.  
 Flax—2,400,000 pounds of linseed oil—yield of 17,500 acres—for paints, core oil, soft soap, glycerine.

Sugar Cane—2,500,000 gallons of molasses from 12,500 acres of cane for anti-freeze, shock absorber fluids, solvents.

**From the Pastures**

Sheep—3,200,000 pounds of wool from 800,000 head of sheep to be used in upholstery, gaskets, anti-rust, floor coverings, lubricants.

Cattle—1,500,000 square feet of leather from 30,000 cattle for upholstery and hide glues. Cattle also supply raw material for milk-casein glues, grease, and glycerine.

Hogs—20,000 will be used to supply the lard oil for lubricants, oleic acid, and bristles for brushes.

Goats—350,000 pounds of mohair from 87,500 goats for making pile fabric.

Paul Albright of Vernon, aged 11, is visiting his uncle W. C. Albright here this week. W. C. is assistant district manager of the national reemployment service.

Mrs. T. J. Jeffries of Childress and three grandchildren, and her daughter, Mrs. Martin Crews, spent Sunday with the Jeffries and Will McDonald families here.

THE  
**Frigidaire '35 with the Super Freezer**  
 SEE OUR SPRING PARADE OF NEW MODELS

Every model of the Frigidaire '35—even the smallest—has the Super Freezer

We cordially invite you and your friends to attend Frigidaire's Spring Parade now taking place in our showroom. Here you will see new models with everything you could ask for in convenience, in arrangement, and in low cost of operation.

Every model, large or small, has the new Super Freezer. And the Super Freezer makes possible a complete refrigeration service. It provides the right kinds of cold for every purpose—all in the same cabinet. There's fast freezing for making ice cubes and desserts; frozen storage for meats and ice cream; extra-cold storage for keeping a reserve supply of ice cubes; moist storage for vegetables and fruits; and normal storage under 50° for foods requiring dry, frosty cold.

Let us convince you how easily and inexpensively you can have a Frigidaire '35 for your own.

**MOORE-BLANTON**  
Miss Eunice Moore of Wichita Falls and H. A. Blanton of Lefors were married at Cordell, Oklahoma April 6th, at the home of Groom Blanton, brother of H. A. The bride is a daughter of Mr. and Mrs. J. A. Moore of Wichita Falls, and she is a sister of Mrs. J. W. Beard of Clarendon. The bridegroom is a son of Mrs. A. D. Blanton of Clarendon where H. A. grew to manhood and attended the local schools. They were accompanied to Cordell by Mr. and Mrs. Harry Hess of Lefors. They will make their home in Lefors where the bridegroom is employed by the Col-Tex company.

**MIDWAY STUDY CLUB**  
The Midway Study Club met with Mrs. Frank Hardin as hostess at her home April 3rd. Devotional services were led by Mrs. Hardin. President Katie Meaders had charge of meeting. Mrs. Slayton Mahaffey led the discussion on the book of Numbers very interestingly. The quilt which the Club is making was finished ready for quilting. Lovely refreshments was served to Mesdames Glen Williams, J. A. Meaders, John Goldston, Gus Williams, Joe Jones, Earnest Jones, Stone, Miss Katie eMaders and Mrs. Olbtree, guest, Mrs. Frank Hardin, hostess.

Intermediate Y. P. Society, 6:30 p. m.  
Evening Service, 7:00 p. m. An Easter sermon. Note the early hour to give those desiring an opportunity to attend the Cantata at the Methodist church.  
Woman's Auxiliary All-Day Meeting at the home of Mrs. W. M. Montgomery. Reports from Presbyterial.

partment in the Sunday school will come into the auditorium and sit together during the service. The choir will render a beautiful Easter anthem, "There's a Green Hill Far Away," by Bell. Immediately after the anthem, the pastor will baptise the infants presented by their parents for holy baptism. The offering will take the form of a Sacrificial Offering, to be made by members of the congregation in specially designed Easter envelopes, the offering to be made at the foot of a beautiful white cross arranged at the altar of the church. Each person may direct his offering to the Benevolences of the Church or to the local budget. The pastor's sermon will be on the subject of "Immortality" and after the sermon members will be received into the Church. Let this be the day when those who have so long hesitated may give themselves to the Christ of the Resurrection, and to the fellowship of His Church.  
Sunday night, at the Methodist Church, the choir under the direction of Mr. Sam M. Braswell, will render the very beautiful Easter Contata, "The Living Christ" by Wildermere. About forty members will make up the choir. Those who have heard the choir in rehearsals declare that this will undoubtedly be one of the most beautiful and effective Easter Contatas ever given in Clarendon. All who will are invited to attend this service.  
E. D. Landreth, pastor.

**Methodist Church to Observe Easter Sunday**  
It is expected that Easter Sunday will be a great day in the history and life of the Methodist Church. Sunday school will open at 9:45 promptly and every effort is being put forth to attain the goal set by the various departments and classes of 400 or more in attendance. Let every member and friend of the Methodist Church who possibly can be in Sunday school Sunday morning. The Sunday school will close at 10:45 and the morning worship will begin immediately. Every de-

### SUB-IRRIGATED SPOTS IN DONLEY MADE INTO PARKS

#### Highway Department Takes Advantage in Planting Trees on No. 5

No drouth has ever obliterated the oasis aspects of Donley's scenic beauty, much of it located along Highway 5. A number of these sub-irrigated spots exist from a point west of Clarendon to southeast of Giles.

At this time the larger acreage is being made into a parksite under the direction of Bob Rankin, highway foreman, and John Gaston of the landscape department of the State Highway Department. This larger park is located southeast of Giles in the most scenic section of the county.

Beginning at the Crow ranch, also southeast of Giles, a number of tree plantings are being made on shallow water land across the county.

A long strip of desirable park site property is to be found at Lelia Lake. The subirrigated acreage crops out west of the town and extends to practically a mile east of the town, a total distance of more than two miles. Some tree planting is being done on this acreage this season.

The department purchased several acres especially for park beautification purposes near Giles. Some planting has been done on this park site this season. Most of

the planting of trees has been along the right-of-way which is a plan being followed in most parts over the state.

#### Land Bank Reduces Interest Rate On New Loans

A. C. Williams, president of the Federal Land Bank of Houston, announced today that new loans made by the Federal land bank on and after April 10, 1935, through National Farm Loan Associations will bear interest at the rate of four and one quarter per cent per annum. Mr. Williams pointed out that this is the lowest rate at which the Federal land bank has ever made loans.

For about two years, the bank has been making loans through National Farm Loan Associations at five per cent with a temporary reduction to four and one half per cent until July 12, 1933, as provided by the Emergency Farm Mortgage Act of 1933. After July 12, 1933, such loans again will bear interest at the rate of five per cent. The four and one quarter per cent rate on new loans made on or after April 10, 1935, will be effective for the entire period of the loans, which will be made on an amortization basis ranging from 20 to 30 odd years, as in the past. Federal land bank loans are made on the basis of first mortgage security on farms and ranches for amounts that may not exceed 50 per cent of the appraised normal value of the land mortgaged and twenty per cent of the appraised value of the permanent, insured improvements thereon.

No change has been made, Mr. Williams said, in the interest rate

### Testing Dodge Engines - 1200 a Day

When production hovers around 1200 units a day, as with the Dodge Division of Chrysler Motors, things are kept practically humming in the engine testing department in which every engine undergoes rigid tests while operating under its own power. In the engine-crowded place pictured here over 1200 motors are tested and passed to the assembly lines every working day.

All the engines are connected to an oil pumping and filtering system having a capacity of 4,500 gallons. The oil is kept circulating through the engines, from which it returns to the filtering plant, to be cleaned and recirculated.

A second plant circulates cooling water at a uniform temperature of 160° Fahrenheit.

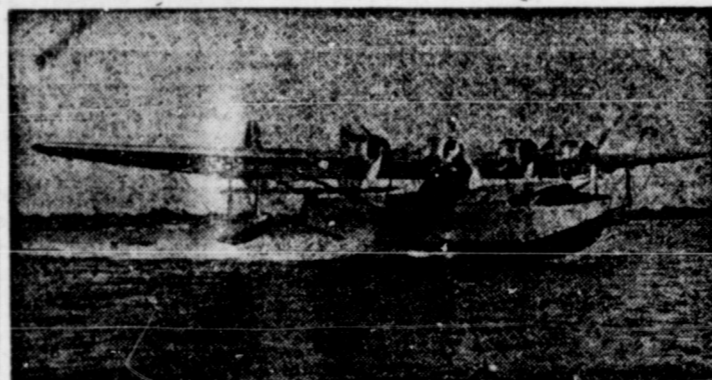

A third installation supplies the engine fuel, which is not gasoline but city gas of which approximately 16,000 cubic feet per hour are consumed. The exhaust gases from the engines pass to a central duct through which they are discharged into the open air.

on new loans by the Land Bank Commissioner, which rate is five per cent per annum.

C. E. (Jack) Killough is local representative of the Association for Donley county.

Snow fell in the Rockies Wednesday night, and down as far as Clayton.

Mrs. Sam Britt and Mrs. E. K. Caperton of Shamrock visited with Mrs. G. K. Reading here recently.

The Pan American Clipper, sister-ship of the famous nine-ton Brazilian Clipper. The Pan American Clipper, now on the Pacific Coast, will probably be the first commercial plane to fly the aerial "cutaway," described in The Literary Digest.

#### Steamship Will Lay Pacific Air-Bases

#### North Haven Will Complete Links in Pan American's Chain to Orient

EARLY in April the steamship *North Haven*, a good-sized vessel of 15,000 tons, will leave the shores of California to launch a new epoch in transpacific travel. The *Literary Digest* reports. Carrying a crew of seventy-four trained construction men and forty-four airway technicians, she will lay across the world's widest ocean a series of five air-bases, like giant stepping-stones, from one to another of which liners of the Pan American Airways will soon be fitting, connecting the Continent of North America with China by air.

*Aerial Cutaway*

The *North Haven's* journey will constitute the last section of a program for conquering the Pacific that began in 1931, when Juan T. Trippe, President of the line, set in motion a four-year regimen of research and training that produced the series of "Clipper Ship" flying-boats and trained crews capable of maneuvering them over long ocean-stretches under virtually all conditions of flying weather.

The operating airway will extend from California to Hawaii, 2,100 miles; thence to Midway Island, 1,150 miles; to Wake Island, 1,200 miles; to Guam, 1,450 miles; to Manila, 1,500 miles, thence 700 miles northward to connect with the 3,000-mile system of the Pan American-Chinese air-lines in China, which control strategic routes to the trade-areas of the Far East.

#### Washington's Madam Mayor Representative Mary Teresa Norton, of New Jersey, is "Madam Mayor" of Washington, D. C.

"Being Mayor of Washington, as the chairmanship of the District of Columbia Committee is popularly known, is a job in itself," said Mrs. Norton, as reported in *The Literary Digest*.

Her life work has been in behalf of the less fortunate. She wrung \$1,500,000 from the PWA for a new tuberculosis hospital for the Capital. Another achievement since she became "Mayor of Washington" was the enactment of legislation to wipe out the alley-slums. Her first outstanding act was the passage of the bill permitting the merger of Washington's two street-railway companies—a plan which had been under consideration for thirty years. She recently appointed a subcommittee to investigate crime conditions in the District, and is working for pensions for the needy blind.

#### Charm Begins at Forty Four New York Actors Prove Appeal of "Middle-aged"

FOUR actors, three of them leagues past forty, have proved that charm begins at forty and continues long after. As reported in *The Literary Digest*, these men are: Nicholas Hannen in "Accent on Youth"; Edmund Gwenn playing in "Labutnam Grove"; Pierre Fresnay in "Noah"; and Walter Connolly in "The Bishop Misbehaves."

Of these four, most charming is Nicholas Hannen. Born on May 1, 1881, he is the creaking but dashing hero of the play which places the "Accent on Youth."

At fifty-four, Mr. Hannen plays the romantic hero so convincingly that women in the audience, if accompanied by young men, slice a bored, disillusioned glance at their ruddy cavaliers.

#### Over Two Million Allotted For Relief in Texas

Austin, April 17.—Members of the board of directors of Texas Rural Communities, Inc., holding corporations for the rural department of the Texas Relief Commission, approved a \$2,884,625 budget for operations during May at the monthly meeting here last week.

Included in contemplated expenditures were \$147,500 for livestock; \$120,000 for equipment for individual families; \$25,000 for buildings for families; \$25,000 for building work centers; \$928,000 to buy farming supplies; \$1,200,000 for subsistence goods; \$215,000 for canning projects; and \$100,000 for soil erosion and conservation work.

Dr. A. B. Cox and Dr. Elmer Johnson of the Bureau of Business Research of the University of Texas made a preliminary report on results of a survey of agricultural and industrial possibilities in the state. Dr. Cox said indications pointed to industry as the most likely means by which relief roll families may be rehabilitated. Agricultural employment has been declining constantly for several years, his reports indicated.

E. F. Kirtley made a business trip to Brownwood last week.

Major Simpson of Amarillo was here Monday.

Phifer Estlack of Austin will spend Easter with home folks.

Geo. Lutz is taking treatment at Pampa where he is showing a decided improvement.

#### RED CROSS SOCIETY TO FIGHT SCOURGE

The following telegram was received by Homer Mulkey of Clarendon, chairman of the Donley County Chapter Red Cross Tuesday:

"Information various sources indicate complications due dust storm among those suffering from various illnesses. What is situation your chapter territory. Are local facilities sufficient to meet situation or is additional nursing care needed. Please consult County Medical Association and health officer and wire advice.

Wm. M. Baxter Jr., St. Louis.

Fortunately, no illness at this time is credited directly to dust conditions in Donley county such as is known to exist in sections farther north. It is believed that a few more such dust storms as Sunday would demand prompt measures be taken.

Mr. and Mrs. Ben Andis visited in Austin the past week.

Mr. and Mrs. Harry Blair visited in Sinton over the week end.

Mrs. Van Zant of Post spent the week end with her parents, Mr. and Mrs. J. H. Hurn.

Mrs. Maggie Hopkins of Pampa is visiting her daughter, Mrs. Karl Adams.

Mrs. J. B. Baird spent the past week at Pampa attending to business and visiting.

## TEXAS HISTORY FROM MUSTY PAST TAKEN FROM BEXAR COUNTY ARCHIVES

SERIES II, No. 8

Texas' first legal advisor was Thomas F. McKinney, a member of Austin's original "Three Hundred" colony. A merchant formerly engaged in the St. Louis and Santa Fe trade, he came to Texas and became an agent of the Provisional Government during the revolutionary period. In this capacity he bought the first vessels for the Texas Navy. The firm of McKinney & Williams transacted nearly all the financial business of the new government. This same firm built one of the first wharves on Galveston Island. McKinney's partner in this firm was Samuel May Williams, who became Austin's secretary when the colony was first established. After Texas was annexed to the United States, McKinney moved to Travis county, which he at one time represented in the Legislature. He died at his home on Onion Creek in 1873.

Much of the McKinney material is in other collections, but several

original documents and numerous photostat copies are in the family archives division of the University of Texas library.

One of these originals is a letter written by McKinney from Quintana, on the Texas coast, October 29, 1835, to R. R. Royall, president of the Council of all Texas. The letter, which deals with one of Texas' earliest maritime problems, that of defense from the Mexican naval forces, is countersigned by six other settlers, including two members of the original "Three Hundred," J. H. Bell and James Knight. The text of the communication is as follows:

"The Mexican cruiser is off this place, has been seen yesterday and the day previous fired one shot at Velasco which fell short of the shore four guns fired at her from shore none however took effect it has made her however less bold in her movements, yesterday she appeared but at a very respectful

distance. You will doubtless say by all means go and take her. So we say and we will endeavor to do at all hazards, but really we find ourselves in a very awkward situation for the want of authority upon which to act for many of the most efficient men we have are citizens of the United States and may be brought to an account there and charged with piracy; but for the present occasion we are blind to all other considerations save that of taking the Mexican Vessel whose only hope in my opinion for escape is in her heels.

"The Government will doubtless send a maritime force to our coast and cut off our supplies and intercourse with the United States, if they can succeed almost total ruin will be the consequence, the fact is self-evident and requires no reason to be set forth. Now what are we to do to protect ourselves and the country against such a calamity. I would beg leave to suggest that the most active and energetic movement on our part are requisite to counteract the advantage which the Government of Santa Anna has over us by having armed vessels already on the Gulf and some of them actually upon us, for should Santa Anna send all of his naval force here and land a body of men, which under existing circumstances is altogether possible we are without remedy. But to come to the point we are aiming at, once would it not be well for the consultation to make a declaration against the Central Government and issue commissions for armed vessels and let them be taken there by Capt. Hurd at once and in three weeks or four at farthest our coast will be cleared and our intercourse with the United States free, and our supplies can be speedily and abundantly obtained to carry on the War. Capt. William A. Hurd, Lieutenant Charles

Harby of the United States Navy, Wm. A. Leidesdorff, Jno. Chase, are all ready to embark in the business, the character of them all we presume is sufficiently known to you. They are unexceptionable in our humble opinion and will do honor to our cause. Hurd and Leidesdorff are here and will aid us in our attempt to take the Mexican Vessel that is off, and will wait here to hear from the consultation to ascertain if commissions will be sent down for them we earnestly beg if possible that you send them for on it we conceive depends our very existence. Should the commissions be sent you will please send on instructions what kind, what amount of supplies for the army, in what quantities and where, the same are to be landed as the weather may be bad and conveyance difficult. From this time we would suggest the propriety of landing men and supplies at La Vaca, this is for your consideration and we wait your orders."

### NOTICE OF INTENTION TO ISSUE FUNDING BONDS

WHEREAS, heretofore, notice was given that on the 13th day of April, 1935, the Commissioners' Court of DONLEY COUNTY, TEXAS, would pass an order authorizing the issuance of Road & Bridge Funding Bonds of said County in the maximum amount of Fifty Thousand (\$50,000.00) Dollars, for the purpose of funding and in lieu of a like amount of present existing indebtedness against the Road & Bridge Fund consisting of valid and legally issued time and script warrants against said Road & Bridge Fund, said time and script warrants having been issued for the purchase of right-of-way and other Road & Bridge purposes since May 21, 1931.

AND WHEREAS the definite amount of said warrants to be funded has been established and the complete list of the same is on file in the County Clerk's office;

THEREFORE the Commissioners' Court of DONLEY COUNTY, TEXAS, hereby gives notice that the amount of said funding bonds so issued shall not exceed \$39921.87, instead of Fifty Thousand (\$50,000.00) Dollars as heretofore specified; that said funding bonds shall bear a maximum interest rate of Five and One-half (5½) percent, and shall mature serially over a maximum period of not exceeding thirty (30) years; and that said Commissioners' Court of DONLEY COUNTY, TEXAS, will pass an order authorizing the issuance of said Road & Bridge Funding Bonds of said County on the 13th day of May, 1935; instead of the 13th day of April, 1935, as heretofore specified.

This notice is given as required by law.

## THE MILLING SANATORIUM

MINERAL WELLS, TEXAS

### CURED OF GALL BLADDER TROUBLE

I had enlarged liver and gall bladder trouble. Had run a temperature two years. Was operated on and wore a tube in my gall bladder for four months, but got no relief. My doctor and surgeon told me there was no cure for me, and could only give me temporary relief. I went to Dr. Milling, Mineral Wells, Texas, took treatment six weeks and went home well and haven't had a sick day since, and I now weigh more than I ever did. I think he is wonderful. If you are sick and want to get well, go to Dr. Milling, he will cure you when others fail. I will answer personal letters written me.

### Our Weekly CHURCH CHAT

W. E. FERRELL  
Minister First Christian Church  
"Easter and Immortality."  
I. Cor. 15:20.

"Immortality" is one of the most fascinating words of the English language. "Immortality" is more than a word, it is an idea, a dream, a hope, an expectation, a faith which has intrigued the heart of humanity from the beginning of time. "Immortality" has been expressed by the poet, preacher and prophet. It has been the central theme and dream of fiction and philosophy and drama. No history of humanity could be written without this hope running through it like a silver thread through a beautiful fabric. Neither a final definition of the word, nor the final scope of the idea of immortality, may be revealed to man; yet the human mind never tires of penetrating this mystery. The idea of Eternal Life has rooted itself deep in the soil of humanity.

It is always instructive to think of the resurrection of Christ as the fulfillment of Scripture. It is instructive to think of the resurrection as a commission to service. It is instructive to think on this subject as an answer to doubt. The resurrection of Jesus is the crowning proof that He is the Son of God. If he could not conquer death and come back from the grave, he could not prove that he first came from heaven. The resurrection of Christ, is the final proof of immortal life, of a life beyond the grave. It is proof that death does not end all, but that the soul lives after the body dies. It proves that we have a living Saviour sitting at the right hand of God, pleading our cause and case. It proves that our Saviour, who could conquer death, has power over all our enemies. It is the assurance of our own resurrection, with spiritual bodies like his glorious body, with all sickness, all weakness and pain gone. A new body with new life, new powers, new joys, beyond our highest conception. Christ's resurrection gives us assurance of the recognition of our loved one who have gone on before. It takes away the darkness of the tomb, and makes it the gate-way into life. It teaches the moral resurrection, that being dead to sin, we should be alive unto God. The Easter message should inspire us all to better living and more Christ-like service.

### WORKER'S EDUCATION CHATS

By Earle Jones  
Here in the U. S. are 123,000,000 people. They are all consumers. About 48,000,000 men, women and children are working or trying to get a chance to work. They are called producers, but the term is ironic as far as the effort goes, because they can't get the chance. Another 25,000,000 are women who are working hard all the time—apparently unaware of the 8 hour law provisions—in their homes. The balance of the 50,000,000, is made up of dependents, children, old people, sick people, defectives, hoboes and the idle rich. Each of the 48,000,000 producers has one and one half persons to support besides himself. With this load of dependents always on his back, it becomes necessary that all people should join in producing wealth. But the problem of idleness is not primarily a problem of shirkers. After all, the idle rich and the vagrants do not constitute a very imposing numerical total—say 600,000 at the outside. The idleness factor of waste springs primarily from the failure of the present system to provide opportunities for those who sincerely desire to work. It is not a question of shirking, it is a question of closed doors and barred fields. On any given working day in the U. S. there are from 4 to 9,000,000 of the 48,000,000 working people idle. This means from 4 to 9,000,000 man-years wasted. The 4 is when business is prosperous, the 9 when we are at the bottom of an industrial depression. The steady idle of the 48,000,000 is at least 6,000,000 or about 15% of the nation's man-power. Taken from "Waste and the Machine Age"—Norman Thomas.

Relatives from Wyoming are visiting in the Wm. Spitzer home this week.  
Donie Jacobs and Miss Oma Faulk of the Hudgins community were married recently.

### "Kid Millions," Perfect Screen Musical, Offers Eddie Cantor At His Funniest

If there's such a thing as a perfect screen musical, "Kid Millions," Eddie Cantor's new annual extravaganza for Samuel Goldwyn, which will be shown at the Pastime Theatre Sunday-Monday, April 21-22nd, is it. The banjoed comedian is funnier than ever as a boy Cinderella of

the Brooklyn waterfront who turns out to be the sole heir of Professor Wilson, late Egyptologist who left a fortune in buried treasure in Egypt. The presence of several other claimants to the fortune makes the story fast, funny and furious. Chief of these is Ethel Merman, as a hard-boiled song-plugger posing as the late Professor's common-law wife, and her boneheaded gangster boyfriend, played by Warren Hymer. Ann Sothern and George Murphy furnish the heart interest.

The fun begins before the boatload of treasure hunters even embarks and runs high during the crossing when Ethel and Hymer try unsuccessfully to put Eddie out of the way. Arrived in Egypt, Eddie gets mixed up with the Sheik, played by Paul Harvey, and his gorgeous Harem of Goldwyn Girls. The Sheik's not-quite-bright daughter, Fanya, played by Eve Sully, develops a terrific crush on Eddie and saves him from the boiling oil vats on his promise to wed her. But Eddie wants to get back to his Brooklyn sweetheart and Fanya's jealous fiancé, played by Jesse Block, helps him get away with the fortune in a plane. Following a crazy flight over the Atlantic, Eddie lands in New York and opens a free ice cream factory for boys and girls. The finale, showing the ice cream being frozen and served, is the loveliest and most effective Technicolor sequence the screen has offered to date.

Lavishly produced for release through United Artists, "Kid Millions" offers several gorgeous girl and song numbers and the "Mandy" number, in which Irving Berlin's song hit, which Eddie introduced in an early Giegfeld follies, is revived is staged with terrific effect. "Okay, Toots," "An Earful of Music," "When My Ship Comes In," and "Your Head On My Shoulder," are other tuneful hits

### COMMON CAUSE OF BALDNESS

One of the chief causes of premature graying, falling hair and ultimate baldness is lack of circulation in the scalp. To overcome this and bring an abundant supply of blood to nourish the hair roots, massage scalp at night with Japanese Oil, the antiseptic counter-irritant. Thousands of men and women report amazing results in stopping falling hair, growing new hair on bald areas and in eliminating dandruff and itching scalp. Japanese Oil costs but 60c at any drug-gist. Economy size, \$1. FREE "The Truth About the Hair." Write Dept. 36. NATIONAL REMEDY CO. 64 West 45th Street, New York

slumberless night. The first and far into the later part of the night was spent playing games and singing amid much laughter and merry-making. From three o'clock until seven was taken up in deep slumber.

After the brief period of beauty sleep and a delicious breakfast, which restored much energy, we visited the different cliffs and canyon that all go to make the beautiful scenery. A few pictures were taken.

Immediately after lunch a period of repacking and much preparation took place for a retreat that would leave Palo Duro and all its glory far behind. By one-thirty o'clock Sunday evening we had retreated as far as the lodge where as we spent a few minutes going through. Then we traveled to Canyon where we spent some hour going through a most interesting museum. This being

### HER BOY HAD ALWAYS BEEN WEAK AND PUNY

"My four year old boy had been weak and puny since birth, and had constipation and indigestion. Nothing did him any good until we tried Milks Emulsion. Since using it, he can't get enough to eat and has outgrown his childhood trouble. He plays out with the children now, and he was never able to do that before."

Wm. Heart, 424 Bundy Ave., New Castle, Ind.  
Weak, ailing children usually start eating and getting stronger from the very first bottle of Milks Emulsion. Milks Emulsion restores healthy, natural bowel action. Milks Emulsion is strongly recommended to those whom sickness has weakened. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. You are urged to try Milks Emulsion. Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

the last stop we arrived home between six and seven o'clock.

We sincerely appreciated the presence of Richard Hatley and Willard Cook who furnished music such as would keep us awake, also Tendal Gregg the bus driver who drove as careful as possible.

Although the weather was somewhat disagreeable part of the time, the trip was thoroughly enjoyed by all and each are looking forward to the field trips that are to come next year in which we expect to visit the Smelter, Santa Fe Shops, Amarillo Baking Co., Great West Mills, Coco Cola Bottling Works and South Western

Public Service.

Roy and Dewey Tom Heath spent the week end with relatives at Crosbyton.

Dr. B. L. Jenkins attended the Panhandle District Medical Society at Amarillo Tuesday.

Dr. Oscar L. Jenkins attended the sessions of the Panhandle District Medical Society in Amarillo Wednesday.

Mrs. Fannie Stewart of Fort Worth is visiting her sister Mrs. W. D. Martin.
