**HEADS OR TAILS, WETS TO WIN.**

Very little interest will likely be taken in the wet or dry voting for the time being, except by those who expect to retail the liquid.

This fact may be explained by noting that, under the new law, booze may be had in quantity in either case, and that legally. Under the wet plan, the dispenser pays \$500 a year for the privilege. Under the dry plan, the drug store pays only \$50 a year and can sell just as much. In that sense, those having friends in the drug business, will likely be sticklers for the dry issue.

If your county goes wet, the drug store and all others handling hard liquors, will have to pay \$500 a year for a license. There is nothing exclusive under the wet regime such as we find under the dry.

At this date all liquor selling is supposed to stop until a vote decision is made. Not so with the drug stores who pay \$50 for a medicinal liquor permit. In the larger cities, the exclusive retailers with a few drugs on the shelf, are raking in the coin.

The lawmakers took note of those seriously afflicted by making it possible for the druggist to obtain an 'emergency' permit to sell liquor until next February. Sales were restricted to the prescription blank form, but that is an easy matter.

Prescription pads may be filled out by a doctor, several at a time. Should a brother or sister in distress run, swag-ger, stagger or fall in on being attacked by an acute case of dryness, there is the blank already filled out in anticipation of the doctor's personal interest in the case.

Should there be a 'yelp-for-help' during the absence of the medico, the law permits the pharmacist to countersign for him. The customer must be satisfied. Death from dryness may be more of a crime than murder by an auto driver's recklessness.

In the old days, doctor's stuck their victims for as high as three dollars each. The AAA has not affected prescriptions because they are down to ten cents just now. If the customer is well known, the ten cents may be dispensed with altogether.

The law provides that the drug store must be legitimate, and not fall to the liquor game lopsided. A fair stock of tooth brushes, a quantity of hardware and a lunch counter may enable one to qualify. The requirements may be stern, but the modern drug store equipment as to stock allows a vast latitude.

One first-class drug store in this town retains its ethical position as to lunch counter, but has added a museum. Museums, as a rule, are said to be harmless, most of the exhibits being of the fossil type reaching the rigor mortis state millions of years ago. Perhaps drinkers of intoxicants were not then extant, otherwise we would have had them pickled for posterity.

Say and think what you will, the new law provides for the sale of intoxicants in all parts of the state. Wet legislators saw to that whether you like it or not.

**Chevrolet Introduces New Brake System**

An entirely new braking system, utilizing the hydraulic principle of actuation in combination with its own design of brake mechanism within the brake drums at all four wheels, is introduced by Chevrolet in its 1936 models. The system, says the company's announcement, possesses all the inherent advantages of hydraulic brake actuation, plus the special benefits that Chevrolet has built into its own type of articulated brake shoes and linkage by which pedal pressure is converted into braking effect.

Except for the means of actuating the brake shoes, the new Chevrolet brake system is the same as last year, though improved in mechanism details and increased in braking capacity.

Ease of brake adjustment to compensate for wear is one of the features of Chevrolet's exclusive brake design. There is only one adjusting point for each brake shoe, reached through an opening in the brake flange plate or the brake drum. With a screw driver used as a lever, a notched adjusting wheel is turned until the shoe slightly drags on the drum, then the adjusting wheel is backed off four notches, completing the operation. Not even a feeler gauge to measure clearance is required.

In its design of the hydraulic system, Chevrolet has made full use of its inherent advantages, which include self-equalization of pressure on the brake shoes, freedom from frictional losses between pedal and shoes, proof against trouble caused by dirt or ice, and ease of maintenance.

By making the pistons in the wheel cylinders larger than the master piston operated by the pedal, thus multiplying the effect of foot pressure, the Chevrolet design achieves sure stopping with light pedal pressure. Further advantage is taken of the hydraulic principle in that the front wheel cylinders are made larger than those of the rear wheels. As a result, for any given pedal pressure, the front wheel brakes exert a stronger braking effort than the rear—a desirable effect because, when brakes are applied, the weight of the car shifts to increase the load on the front wheels, while the weight on the rear wheels is reduced. Chevrolet's distribution of braking effort compensates for this shifting of weight, and divides the total braking effort between front and rear wheels in proportion to their load and traction.

The Chevrolet design of articulated brake shoe and links prevents the uneven wearing of brake linings by insuring full contact of the entire lining with the drum, distributing the pressure and the wear over the entire area of the linings.

The system differs from others also in that the hand brake lever actuates both brake shoes in each rear wheel drum.

**THE DOCTORS ARE RIGHT**

Women should take only liquid laxatives

Many believe any laxative they might take only makes constipation worse. And that isn't true.

Do what doctors do to relieve this condition. They use a liquid

THREE STEPS

TO RELIEVING CONSTIPATION

A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

laxative, and keep reducing the dose until the bowels need no help at all.

Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why your laxative should be in liquid form. A liquid dose can be regulated to the drop.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara—both natural laxatives that form no habit even with children. Syrup Pepsin is the most soothing, most acting laxative you ever took.

**TEMPLE OF TRUTH**  
By the Apostle

Thanksgiving was celebrated with a vengeance in Chicago, according to the papers. Fifty-six men were haled into Judge Dunne's court for wife beating. That means that 56 did not get whipped. The men who got the worst of the scrap, did not have to go to court. The Judge decided they had received punishment enough already. It's great to live in a "city" the size of Clarendon where you can't do a thing for fear the neighbors will talk about it. Only one man here whips his wife, and he can't stay at home all the time at that rate.

Dabba Butter in speaking of her boy friend allows, "if I wait for him to succeed, I may lose him. If I marry him now, he may continue to be a flop."

There ought to be a law against any one holding the door open while talking. It's cold on cold days and fly time on screen days. The thoughtless are a menace to the health the year 'round.

A skimpy mustache of abbreviated expansion on the lip of a young man indicates that the hair pre-

fers to grow on his head where it has more room.  
Speaking of Rev. Sebe Thomas recently, Ed I. Fox was a "chef" at the Goodnight school when Rev. Sebe was connected with the school. Like every one else, Ed says the preacher was a real guy.

The horse has gone away.  
Cars run like mad.  
We need the horse sense today.  
That our horses had.

It has been discovered that cranberries are nothing more than grapes suffering from high blood pressure.

A girl used to teach school because she could not get married. Now she can't get married because she would lose her job of teaching school.

I-ma Fizzle calls her boy friend "maple sugar." She says it is just a mild way of letting him know that he is a "refined sap."

Every community has a few citizens who get mad with one bank and move their over-drafts to another.

Seating themselves at a table in a Memphis cafe Sunday, Shezza Fizzle grabbed the menu while Red Kian exhibited his only half dollar and kicked her on the shin under the table. When the waiter came, Red insisted that she take turkey, roasted chestnut dressing and all that stuff, but kept kicking her on the shins. He had probably seen his paw do his maw that way in the drygoods stores. Shezza stood it for some time until her daddy's temper cropped out. Jumping up, she yelled: "Cut out that shin kicking Red. I feel like I am wearing woodpeckers for garters already."

It is quite fashionable in the ef-

fete East for girls to smoke cigarettes until they have what they term "the funny little cough." Wonder what a conscientious doctor would have to say were he to express an honest opinion?

Those were the "good old days" when a family had roast pork for Thanksgiving dinner because they could not afford turkey.

The government is trying to find out some way to keep the horses from having to sleep with their shoes on. Another bureau born!

Speaking of his section, Wilde Hackberry says a fellow has to take two good lickin's to win one. He claims to live in the Jack end of Briscoe.

A man with a feminine mind is one who writes three lines and adds a P. S. that covers two pages, and circles four margins.

Bachelor Bill says that when you don't think much of them, you refer to the gathering Thursday as a "slue of relatives."

Under the new booze set-up in Texas, a society high-ball is referred to as a "boon-doggerel."

The couple attending the masked party in Amarillo Friday night as a farmers daughter and a traveling salesman, were asked to leave just before being thrown out.

Many a girl remembers her first love affair long after his name is forgotten. (P. S. Apologies to Simmons saw, paints or what was it?)

Please look at the date on your paper this week. If you are getting behind, we will appreciate the payment very much since we are moving to a new location and will necessarily have a heavy added expense. Making weather predictions by the squeak of rheumatism, or the pounding of corns is a failure. Both of them taken on at the same time on the same person is said to be a sure shot weather indicator.

Readers complain that the daily papers never permit them to break into print unless they murder some one or drive over them with an auto.

It's a pitiful fix

To appreciate fully just how rotten some poetry is, you have to read it.

Just why should people who have no loose teeth, use tooth paste, anyway?

And the barber looked at the young man's head and inquired: "Hair cut, or just change the oil?"

What Bill Murray's national guard soldier could have done to the Ethiopians with his horse pistol, would have been something pitiful.

Speaking of our peculiar customs, the groom is welcome at the wedding of course, but the old man wants him to take her and beat it to someplace within about twenty-four hours.

Now wait a minute! No poetry has ever appeared in this column.

And there won't be any.

**AT THE FIRST BAPTIST CHURCH**  
**J. Perry King, Pastor**  
 There is Always Worship Fellowship :: Service

Yes, sure enough, honest to goodness, this is victory week in the First Baptist Church. We lack only \$80.00 having our entire indebtedness raised, and some of the committee have not reported. It has been two happy weeks among the membership. The movement to rid the church of her indebtedness

has gained momentum from the very first moment. The thing is being done. There is nothing that succeeds like success. Sunday will find us square with the world in a material way. We thank you most heartily for your generous response. Every person approached felt free to give or not to give as their circumstances permitted. If we overlooked you we did not intend to. Come along Sunday with your offering. This last \$80.00 may be harder to raise than we think. Your gift may be just the amount we need. We knew that you loved your church, but we did not dream that you would be as gracious in your response as you were. You were just as religious and whole-hearted, and courteous, and gentle, and lady-like as you could be. The fellowship of these days has been excellent beyond compare.

There will be no preaching service at The Baptist Church Sunday evening. We are anxious that you hear Dr. Gutzke who is in a meeting this week at the Presbyterian Church. The service Sunday evening will be held at the Methodist Church in order to accommodate the crowd who ought to hear this man of God who is in our midst.

The regular Training Service will be at 6:00 o'clock and dismissed in time for us to join in this mass meeting at 7:00. Give your heart hunger a feast by being present.

At the evening hour, seven o'clock, our church will be having as our guests the congregations from the other churches of the community to hear Doctor Gutzke of Dallas in his final message. Doctor Gutzke is a great preacher. Rarely does such a man come to us so we are glad to join with the other pastors in making it possible for more people to hear his final message. Let our people be in their places that we may all be blessed together.

**NO MAIL TODAY**  
 By O. Lawrence Hawthorne  
 She stood in line a long, long time  
 Before the moment came  
 For her to face the window bars  
 And tell the clerk her name.  
 Still hopeful, yet with eyes that ached,  
 She saw him shake his head.  
 "There ought to be a letter here;  
 Please look once more!" she said

"No mail today!" Oh, what a stab  
 Of heartache or despair  
 Is often felt by one who hears  
 Those words! For everywhere—  
 In city, village, on the farm—  
 Folks ask and wait and pray  
 For letters that will never come.  
 "No mail for you today!"

Perhaps there is a heart that longs  
 To hear a word from you;  
 Perhaps your letter is among  
 Those sadly overdue.  
 Why don't you make it possible  
 For someone to exclaim:  
 "I knew there should be mail for me!  
 At last my letter came!"

**SCHOOL NOTES**  
 By Sloan Baker  
 County Supt. Schools

Seven thousand teachers attended the three day meeting of the Texas State Teacher's Convention in San Antonio. President C. N. Shaver selected as a general theme for the convention meetings, "Building a Democratic Society Through Education." Rev. H. Bascom Watts, pastor of the Laurel Heights Methodist Church, San Antonio in his Thanksgiving sermon said, "Let us give thanks for things, for people, friendship, the joys and loves of family life, books, pictures and music and for peace. Let us not only give thanks for the peace that prevails, but for the growing conviction among thinking people in all nations that not only is war contrary to God's law, not only is it organized murder, hate and deceit but it does not accomplish anything. It settles no disputes, solves no problems. It only sets the nations at variance back another century or two."

"The old definition of education made by many statesmen remains the same in principal but the interpretation has changed social and economic conditions, Dr. L. A. Woods, State Superintendent of Public Instruction said. He also said, "Each citizen owes a high and sacred duty to his country in peace as well as in war. If this country ever goes to her doom, it will not be on account of invasions by foreign foes but on account of

the lethargy of her own thoughtless sons."

Dr. Patty Hill of Columbia University urged teaching in homes and schools against the violence, prejudice and intolerance which is prevalent in the world today. We must hold in disdain the belief that might make right. If we could arrive at a hatred for violence and force we would be a better world. Force and violence are childish but we will never cure force and violence unless we teach against them in schools and homes.

A pageant depicting the history of Texas, ending with a tribute to secular and religious education, was presented in front of the Alamo Thanksgiving evening by a company of several hundred people under the direction of Mrs. Ester Perez Carvajal. Thousands of spectators were given a panoramic view of 200 years of activity in the Southwest. Prior to presentation of the pageant, Walter Woodul, Lieutenant Governor of Texas in a brief address stressed "the renaissance in the historical appreciation of Texas."

Assurance was given to the teachers of Texas in the fourth general session of the 57th annual Texas State Teacher's Association by Governor James V. Alford, that funds would never be diverted from the education program of the state to make up the deficit in the general state fund. The governor also lauded the work of the rural schools and the teachers of both larger communities and the country schools by declaring his belief that the influence of the teacher was greater in most instances than the parents or the child.

Ramon Beteta, director general of the Statistical bureau of National Economy in Mexico, spoke on the subject, "Mexico's program of Public Education."

Dr. Vierling Kersey, State Superintendent of Public Instruction of California, speaking before the county superintendents said, "It is your privilege and duty to keep a progressive educational program before your people." It was thru education of the public in California that a per capita of sixty dollars for elementary pupils and ninety dollars for high school pupils was voted by the tax payers in California.

Miss Jessie Ingram of Amarillo spent the week end here.

Floyd Spitzer of Norwalk, Iowa was here the last of the week looking after property interests.

Rev. and Mrs. T. S. Barcus spent Thanksgiving with her mother at Ruidoso, New Mexico. They were joined by their daughter, Miss Elsie Barcus, who teaches in South Texas.

Mr. and Mrs. J. H. Hurn made a trip to Mobeetie Tuesday looking after their farming interests in that section. Mr. Hurn says the cotton is not 'turning out' as was expected.

Rev. and Mrs. E. D. Landreth had as dinner guests Thanksgiving his sister, Mrs. Roy Bacous and husband and son James of Merkel, Mrs. Joe Everett and husband and children of Hedley. Also Miss Lois Mae Clark and Mrs. Frank Bacous of Merkel.

## INTERESTING FACTS REGARDING TEXAS HISTORY IN AN EARLY EXCITING EPOCH

Stories of loneliness, of disappointments, of family sorrow, of bitter fear for future disaster, crowd the letters of pioneer women who held the home forts, managed farms, handled negro labor, sold farm produce, reared small children—all alone while their "men folks" were at the "front" fighting for Southern independence. Sagas of bravery were many, but beneath the heroism there was oftentimes stark tragedy. Letters which passed between husbands and wives often revealed these unhappy plights, and miseries crept into the recitals of happenings despite the fact that each tried to keep a note of cheerfulness predominant. In the correspondence between Will H. Neblett,

Texas in the Confederate army, and his wife, Lizzie Neblett, there may be read between the lines something of the unhappiness and sorrow that existed in Civil War days. These letters are now in the archives of the University of Texas Library.

On January 3, 1864, Mrs. Neblett wrote her husband, who was stationed at Galveston, the letter reading in part as follows:

"Dear Will—  
Your Christmas letter reached me on New Year's day, just one week old, and that is a quick trip compared to some I get. I can't tell where the fault lies but think it is the office at Anderson. There is quite a difference in our Christmas letters, & the manner in which

we spent the day. I read aloud to the children your history of how you spent the day, and when I finished, Bob said, "why Pa had a better Christmas than we had." Mine was a gloomy bitter & dissatisfied spirit that bore me company & entertained me all day long, and far into the night, and the same spirit still occupies his seat. And this morning I debated within myself shall I write or shall I not? But if I should cease writing you would think some of the children were dangerously sick, and for that reason I continue the doleful strain, better that perhaps than be kept in uneasiness & suspense about the welfare of your children.

"I came up here the 29th ult. and the next day it began to turn cold & sleet, and we have had a very severe spell of cold weather. Seven or eight of mother's large hogs froze to death, & I don't know how many pigs & some sheep. The children were more comfortable here than they would have been at home, for that is an awful cold house but they were running out, all the time, in the cold, all save the baby & she was so bundled up she did not feel the cold much. I fear that the negroes did not feed any thing at home, and that our hogs & pigs froze to death. And I felt some fear of Nance letting her children freeze. She has let them treat her bed clothes in such a manner that they are almost rotten & worn out.

"Coleman tells me that he had the power of detaining 10 negroes to wait in the Hospital at Brenham he says, and he put Randall in that detail. Randle told me, before he left that he had been vaccinated, by mother, before we owned him. I reckon that is so but he may meet many other contagious diseases in the Hospital. As to Joe I don't know what has become of him. He had not come home, when I left the 29th & you wrote that he would start home the 23rd. I have heard nothing of him yet. I suppose he has been conscripted or has gone to Mexico or the Yankees and I reckon it will be many a day before we find out what has become of him. Seward lost on his to Mexico 75 yoke of oxen, and the best negro he had took his mule and went over into Mexico. But he says he didn't lose money by the trip. He landed 200 bales of cotton in one English warehouse in Mexico. He was fixing the last account I had of him, to go into service, had been sworn in. He promised nearly every body over here to bring things for them from Brownsville, but the people in Washington Co. swipt all he brought. He did not promise me anything so I am not disappointed. I have been forced to wear the shoes Collins made & brought me, tho' they don't fit at all. I was to let Mary Collins have them as they fit her exactly and he was to make me a pair of her calf skin. It is now too late and I don't suppose he has commenced Mary's or Walter's yet. If he lived nearer I would go there and get my leather and try and get somebody to make them.

"McCune has reached home, wounded by the accidental discharge of a cannon. A piece of shell struck him on the neck & came near cutting that large artery which would have killed him. His wife went after him and brought him home. Jack Montgomery was powder burnt on the neck. None killed that I have heard of.

"Our potatoes are keeping tolerably well a few rotten ones among them. I am afraid the seed bank froze this cold spell, for I noticed that the top was wet from a leak in the roof that I did not know of & intended having the seed bank covered with a hide before I left & forgot it so I expect a good part of them froze.

"I was provoked beyond measure at Walter this morning. I was combing my hair & had my tucking comb in my lap. He was

by me and unknown to me took the comb and straddled on a chair round, and broke out three teeth in the middle. 'Tis now almost worthless. I took it from him before he broke it & he stole it out of my lap again. It suited my hair better than any comb I ever had. The teeth were so long & it was such a strong one I would not have taken 50 dollars in Con money for it. I recd. a letter from Owen the same day I did your. He writes that Peel & Dumble have promised to pay him that money & he writes that salt is 73 cents per lb. Thornton said that Wm. Terrell has gone for salt when he was down there. I have the thread ready to send Nella to knit your undershirts & will send it while I am up here. Don't Pa have bad luck with his negroes? He lost the two he sent to the breastworks, Jess & Jim.

"One of Hoage's negroes, a blacksmith, took the small pox from a soldier, who stopped to have his horse shod. And Jim Brown, Dr. Brown's son, and has now come back home, & Dr. Brown has vaccinated him, but it seems to me it would be too late after being exposed to it to vaccinate. Hoage lives at Huntsville. You remember seeing his daughter at Dr. Brown's. If it don't spread at Huntsville I am going up there to get some cloth, soon. That is the only way to get cloth to go after it and insist upon having it. I am very fearful that the small pox will spread here, and some of our negroes will bring here. I forgot to tell you that Coleman is certainly off for the wars at last—finds he will have to go in the 2nd division of Militia & has joined the regular service—is trying to raise a company. He is going to send his children to his sister. I know it nearly kills him."

### SUNNYVIEW SCHOOL NEWS

By Ivon Ellis

\*\*\*\*\*

We, the teachers, pupils, patrons and trustees are sorry that we failed to have "Scotty's Service Station" among the list, which had advertisement on our curtain. We appreciate his help and wish to thank him.

We are working on two Christmas plays for our community tree on Christmas Eve night. "How Grandma Caught the Christmas spirit", is a comedy in one act. "Grandma" is well to do, but her crabbed and penurious disposition prevents her granddaughters, who live with her, from taking any pleasure in her possessions. Christmas is near a really happy occasion to anyone in her house. She is reported killed in a railroad accident by mistake. She returns to hear a neighbor criticising her various petty meannesses to the girls, who defend her. Grandma has an awakening and she mends her ways and promises a very Merry Christmas.

The characters are as follows: Grandma Hartley—Pauline Riley Madge, Polly, and Edith, her granddaughters—Robbie Zoe Moreland, Ivon Ellis, and Cymatha Hester

Mr. Pugsley, baggage master,—Bobbie Harold Smith.  
Rev. Jonah Gravely—Bert Tunnell.  
Mrs. Tucker, a neighbor,—Louise Hall.

"Christmas At Stebbinses" is a comedy in Two Acts. The characters are as follows:

Mr. Raymond — A Well-to-do Business Man.  
Mrs. Raymond, His Wife, A Society Woman.—Pauline Riley.  
Mr. Stebbens, A Genial Farmer—Bert Tunnell.

Mrs. Stebbens, His Big Hearted Wife,—Cymatha Hester.  
Grandma Stebbens, His Old Mother,—Louise Hall.  
Hettie and Tom, children of the

Stebbens,—Willie Nell Lamberson and Junior Davis.

Joe, an orphan who lives with the Stebbens,—Joe Smith.

Jake Jarley, The Hired Man,—Bobbie Harold Smith.

Mary, The "Help",—Ivon Ellis.

The pie supper was well attended Friday night. There were 23 pies sold which brought \$9.66. Then we made \$4.50 voting for the prettiest girl and the most handsome boy, which proved to be no other than Miss Orene Riley, the primary teacher, and Mr. W. H. Ellis. We made \$14.16 in all. We, the teachers and pupils wish to thank each and every one present Friday night.

We surely do enjoy having our stove, Mrs. Cox. The hot chocolate is surely fine on cold days.

We are very sorry to say that we have one pupil, Maxine Tunnell who is ill with Scarlet Fever. We hope she will soon recover.

The following students went visiting during the week end:

Billie Ray Marshall visited Mr. and Mrs. P. M. Marshall Sunday.

Willie Nell and Edna Lou Lamberson visited Louise Hall Sunday.

Cymatha Hester visited in Borger Sunday.

Pauline Riley visited Ivon Ellis Sunday night.

Robbie Zoe Moreland visited in Chamberlain Sunday.  
Ivon Ellis visited Fern Martin of Lelia Lake Sunday.

Bobbie Harold Smith had as visitors Sunday, his uncle and aunt, Mr. and Mrs. Harve Smith, of Clarendon.

Willard Hudson and Buddy Knorrpp visited Billie Greene and Bobbie Boston in Roswell Sunday.

WHY WE EXIST

Article IV

Our aim then, being to follow the precepts and commandments of the inspired, we must take the Bible, the whole Bible, and nothing but the Bible as our rule of faith and practice.

From the same fundamental law arises, secondly, the fact that none can be received into the Church of Christ except believers who are penitent, and only when these have been immersed.

find no precept nor example, type, nor antitype, in favor of infant membership in the church. Not only so but we find conditions of membership which absolutely preclude infants.

FAMOUS PLAY ADAPTED FOR LAST ROGERS FILM, HERE TWO DAYS 11-12th

Out to the blue grass country where the girls are all beautiful and the horses fast, the action of "In Old Kentucky," coming to the Pastime Theatre, Dec. 11-12th, carries Will Rogers in a whirl of romance, adventure and pounding horse race thrills.

The story of the great star's last and greatest picture is that of the memorable and beloved Charles T. Dazey play of the same name. But, under the able hands of scenarists Sam Hellman and Gladys Lehman, it has been brought up-to-date and crammed with additional laughs.

"In Old Kentucky" tells the rollicking story of a group of people who love horses and dislike each other, a story that revolves about the shrewd and philosophical Rogers.

Charles Sellon is the head of one

family who have a perpetual feud with Charles Richman's family. Their rivalry even extends to their horse racing, and to their girls, Dorothy Wilson and Louise Henry, both in love with Russell Hardie.

Through plot and counterplot and some of the most hilarious adventures of any Rogers picture, Will guides his horse to victory in the smashing, crashing climax, and Miss Wilson and Russell Hardie to a happy union.

Prominent in the supporting cast is Bill Robinson, that light-footed genius of tap dance. Esther Dale, Alan Dinehart and Eienne Girardot contribute largely to the fast movement of a grand story.

George Marshall directed "In Old Kentucky," which was produced by Edward Butler.

This show will be presented at Goldston Dec. 6th; Midway Dec. 11th and by next week we will have several other dates.

Through a period of two years the Ashtola High School has been working to a truly great goal—Standardization. By slipping, sliding, straining up steep inclines and advancing step by step, we have been successful in building up a school that may be termed a "first class school."

Our slogan still remains, "Ashtola the first Standardized School

Children's Colds Should Have This Safe Treatment

Young Mothers Benefit from Two Generations' Proof of This External Treatment For Fighting Colds.

IT AVOIDS CONSTANT "DOSING"

There's nothing like a child's cold to upset a young mother. And mothers of two generations, anxious to help end colds, have depended on Vicks VapoRub. It is effective—external—and safe. It avoids the risks of constant "dosing," so often upsetting to children's delicate digestions.

Just rubbed on throat and chest at bedtime, VapoRub acts two ways at once:

- 1. By stimulation through the skin, like a poultice or plaster— 2. By inhalation of its penetrating medicated vapors, released by body heat and breathed in direct to inflamed air-passages.

Continuing through the night, this combined vapor-poultice action loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion.

A Practical Guide for Mothers Each year, more and more families are being helped to fewer colds and shorter colds by Vicks Plan for Better Control of Colds. Vicks Plan has been clinically tested by practicing physicians, and further proved in everyday home use by millions. Full details of the Plan in each package of Vicks VapoRub.

"MASTER CLEANERS"

One Day Service

**Tooth of Third Set Marks 63rd Birthday**

Birth dates keep coming along, and to some all too rapidly. Many and varied assortments of celebrations are planned in honor of one's natal day.

Mrs. J. J. Carlile of this city chose a rather unique method. She cut a tooth. Cutting teeth is a natural event perhaps, but the new tooth is all that she has. All the others were discarded some ten years ago. Mr. Carlile states that if she cuts a full set of teeth, he thinks she "will go Hollywood."

**Aged Residents to Spend Winter in Panhandle**

Mr. and Mrs. T. W. Smith have rented their home on the south side, and will spend the winter with their daughters and other relatives in Panhandle.

Mr. Smith is a former sheriff and old-time cowman of that section and will enjoy mixing with the 'boys' of the years of long ago when the country was a wide-open cow pasture.

**Bates Gets Plenty Notice Through Leader**

"Please tell the folks I am staying right where I am for the coming year," L. R. Bates stated Tuesday. An article in the Leader last week stated that he was looking for a farm to rent, and he was, but not now.

Mr. Bates says that people all over the country noticed the article and mentioned the fact to him. He was surprised that the Leader covered so much country, and said so Tuesday.

**Family Has Reunion Over Thanksgiving**

Rev. and Mrs. L. A. Reavis had a very enjoyable Thanksgiving Day dinner with a number of their children and their families gathered under the parental roof.

Those present from out of town were Rev. and Mrs. Andrew Reavis of Kilgore, Mr. and Mrs. Sitton and family of Pampa, Mr. and Mrs. Daily Vandergriff and Mr. and Mrs. Hollis Reavis of Childress.

Reeves, Billy Mears, Walton Tucker, Fisher Johnson, Murel Landreth, Raymond Johnson, Clarence Pipes Jr., Shorty Eason, Victor Smith, B. Mosley and Jane Kerbow Drum Major.

**NEW DEAL—**

(continued from front page)

approving these programs through the referendums that are held by the Department of Agriculture. If this is regimentation, then it is regimentation by the Government with representation by the Farmer, in his own interest and that of the consumer, and not regimentation by processors of agricultural products in the processor's sale interest as was the case under the Old Deal.

Mr. J. A. Morris discussed the popularity of President Roosevelt and the possibility of his nomination and election to a second term. That such will be the case seems to be a fore gone conclusion in view of the success of his first term. While some efforts to bring the United States back to normal have not proved to be entirely satisfactory the majority have been so.

Mr. Morris predicted that some of the successful opposition to the President's policies would be regarded by future generations as in the Class with witchcraft of the early Colonies. A case of this kind is that of injections delaying the work of the T. V. A. One hundred years from now it will be regarded as ridiculous indeed that a court of the people, enjoins the people from damming their own streams to generate electricity to be sold to the people themselves.

The next meeting of the Club will be on December 16 at 7:30 P. M. Mr. Kerby has prepared a poll of New Deal Policies to be taken at that time. This will give the members an opportunity to express by secret ballot their opinion of Mr. Roosevelt and the New Deal.

Miss Naomi Allison of Amarillo spent the week end with relatives here.

**GOLDSTON SCHOOL NEWS**

Our school seems to be progressing along just fine. We are planning, planning, planning, and are hoping that we can standardize our school this year.

We regret that so many of our students can not be in school at

present. We want you to hurry back and enjoy some of this tennis we are playing. It is a great game.

Don't forget the Negro Minstrel that is to be at the school auditorium Friday night, Dec. 6. A small admission will be charged, 50% of which will be used to help our school in buying equipment.

And by the way, folks, we're going to meet another Friday 13 this month. That sounds bad, but we have a little secret for you. It's going to be a lucky day for you if you can spend that evening with us at the school house. Fun galore! Bingo, beauty parlor, indoor tennis, dominoes, horse-shoes, and many other things to eat. The program will open promptly at eight o'clock with a one-act play that will make you laugh until your suspender buttons pop off. Sew 'em on a little tighter, throw a little loose change in your pocket, and come on over and join in the fun.

Mr. Sloan Baker visited our school today and we enjoyed it very much. We especially enjoyed the singing.
