MILTON MAYO IS INJURED BY AUTO

Ribs Are Broken in Wreck Near Chamberlain Late Saturday Night

A sand bank on a curve near the Chamberlain school is said to have caused the Moffett car to turn over three times about midnight Saturday night.

Milton Mayo, son of Mr. and Mrs. J. T. Mayo residing west of town, received serious injuries. Three ribs were broken and more torn loose besides a number of bruises. Miss Imogene Endsley, riding on the back seat with Milton, received a smashed foot.

Miss Ruby Moffett and brother Curtis, residing on the Jeffries place northeast of town, escaped injury though riding on the front seat when the smash came. The girl's glasses were broken and her brother had a torn shirt when an inventory was taken after the wreck.

The body was torn from the chassis, it is said, and smashed in the tumble that turned the car over three times.

The young folks had been to a party, and were on their way home when the sand bank and curve were encountered.

Glenn Allen Hurt By Highway Truck

Accident Happens Monday On No. 5 Near Ashtola

It was when Glenn Allen attempted to step from the truck that his foot slipped and caught under the tire causing the wheel to run up his right groin breaking the pelvis bone in two places.

Allen yelled as the wheel began moving upon him. The driver stopped instantly and backed the truck off him. Again Allen was unfortunate as the wheel stopped on his ankle.

R. P. Hale was driving the truck chassis that was pulling a rotary broom smoothing down the new roadbed under construction. Allen stepped upon the side of the truck, but a few moments later attempted to get off to give some directions to a workman when the accident happened. Hale is said to be entirely blameless.

Allen has been running lines on the new highway work preparatory to pouring oil. He was taken to Adair hospital immediately where a surgeon with the use of an X-ray ascertained the injuries sustained. The unfortunate young man is said to be recovering as well as could be expected. He is a son of Mr. and Mrs. Dick Allen of the Hotel Clarendon.

AMARILLO WILL FETE VISITORS

Plans Completed to Entertain West Texas Chamber Crowd

When the West Texas Chamber of Commerce convention is held May 11-13, it will be the organization's first annual meeting in Amarillo since 1926.

Within the last 10 years Amarillo has more than tripled in size and anticipates no difficulty in housing and entertaining the thousands of visitors and delegates.

No Tent City Now Back in the "good old days" when there was a big boom and Amarillo as a cow town with growing pains, it was necessary to erect a tent city to accommodate the thousands of visitors who came here for the West Texas Chamber of Commerce convention.

With more than 40 hotels, including some of the largest in the Southwest, Amarillo never was in a better position to act as host to such large delegations as the West Texas organization each year sends to its meetings.

Nevertheless, Amarillo has appointed a housing committee to make arrangements to accommodate all of the visitors and delegates.

Bob Zachry Rites Held Here Sunday

Former Donley County Man Had Been Ill For More Than Two Years

William Robert Zachry, aged 37, passed away at the family home in White Deer Saturday following an illness of some two years. Diabetes was said to have caused his death, though he contracted pneumonia two days before he passed away.

Bob Zachry, as he was best known, resided in Donley county for many years before going to White Deer where he engaged in the auto business until ill health caused his retirement.

Funeral services were conducted at the First Baptist church in White Deer at 2 p. m. Sunday. The body was brought here for burial, the services at the cemetery being in charge of the Masonic order at 4 p. m. Sunday.

He is survived by his widow who was formerly Miss Katie Lee Butler, formerly of Clarendon, and who has been teaching in the White Deer school for the past eight years.

Other relatives are two brothers, and are Marion Zachry of Borger and Ralph Zachry of Floydada. Mrs. J. E. Mongole is an aunt, and R. H. Muir, formerly a resident here but now of Amarillo, is an uncle.

Neighbors Do Neighborly Turn Friday

For some time Mrs. T. Jones had worried over her windmill. It wobbled and needed attention badly. Friday three of the neighbor men came in and did an over-haul job that she appreciated more than she can find words to express.

Now the mill runs properly, the tower is rigid and J. R. Bulls, Erskin Butler and Walter Green have the sincere thanks of a widow who can appreciate a fine class of neighbors.

Reavis Wins First In State Athletic Contests

Further laurels were added to the record of Hubert Reavis when he made new records in two field events at Austin Monday, in the Junior College class.

Hubert took first place in 220-yard low hurdles, and first place in the 100-yard dash in a contest open to the state.

He completes his work at the local College this season. He has already been offered a place at Texas Tech of Lubbock for the coming year. He will likely take places offered him in the band and track, and make even greater records for Tech.

In the event at Austin, Frank Holtzclaw took fourth place in the 440-yard dash. Not bad at all considering the fact that he had all the junior college boys of the state lined up against his winning.

The boys returned home Tuesday

Windy Valley turned out about as strong to celebrate with all the Panhandle the first event of the kind ever held covering so wide a scope of schools.

Ruth Warren Receives Real Silk Dress From China

Real silks are a rarity. At least the kind that Ruth Warren received from Peiping, China this week. From the pattern of several yards, Ruth's graduation dress will be made. Yes, the little daughter of Mrs. J. T. Warren of just a few years ago, is to graduate from high school this term.

And such a present! It came from D. K. Yong, a Chinese business man who was educated by Mrs. Warren while a missionary in China several years ago.

What color is the silk? Sure! Every woman and girl wants to know that. It is a very, very delicate powder blue. And is Miss Ruth proud!

COMMUNITY COOPERATION.

Last Friday the schools of Collingsworth county staged the most realistic pageant picturing pioneer days that it has ever been my pleasure to see.

It was a great day for everybody. But the merchants did not, through the local papers, welcome the folks to town. They seemed to think that the folks had no other place to go.

There is much to be considered in keeping contact with the folks of our trade territories. They like to be made welcome. Mere words fail to suffice—they must be shown.

Merchants can never find a better time to make a favorable impression than through a school celebration of some kind. The young must be trained, and through them the elders are reached.

Again, let's all remember that towns do not die—they suicide.

THE GOVERNOR'S RACE.

"Brainstormer" in Alice News: The latest candidate for Governor seeks to make capitol of alleged deficiencies in the Old Folks pension act itself, and to find fault with the manner in which the administrative agency set up by Governor Alford has gone about the management of the people's mandate that the aged be given relief, will find little to aid his campaign in the dispatch from Washington to the effect that the National Social Security Board not only approves the Texas pension law but thinks that Orville S. Carpenter, executive director, is doing a good job getting ready for actual payments on July 1, the date set.

Brainstormer has had occasion to learn through local administrator Fuller just a bit of the problems that are being encountered in the effort to give old people their just share of the pension money as provided by the Texas Legislature, taking into account the fact that if they are also to have an additional amount from the coffers of Uncle Sam that there be no conflicting provisions incorporated in the procedure of administration.

When Jimmy Alford became Governor, Brainstormer expressed the opinion that his administration would go down in history as the best since that of the late James Stephen Hogg, and I see no cause to change that prediction. True, there has been no such outstanding enactment comparable to the creation of the Texas Railroad Commission, joint brain-child of Governor Hogg and of that great statesman, John H. Reagan, whom the Governor induced to become its first chairman, but may I be so frank as to opine that the personnel of the Texas Legislature of this century falls far short of the type of Legislators of the last century.

Mrs. Orl Merchant and Mrs. Ira Merchant returned home from a visit at Hollywood, Calif. Thursday.
Shannon Powell returned home from Wichita Falls Tuesday.

WITH OUR EXCHANGES

Ok, Mr. Phares.

Monday, Tuesday or Wednesday of this week, driving into Georgetown from Austin, you would be stopped by a half dozen highway patrolmen. "For courtesy's sake, would you turn around and let us check your light, brakes, horn and windshield wiper?" one would ask.

Congratulations! The Bee-Picayune was judged the best all-round newspaper, best in advertising appeal, and was given honorable mention (second place) in the best front page contest at the annual convention of the South Texas Press Association held at San Antonio last week.

Cups suitably engraved, will be received here this week to be added to The Bee-Picayune's trophies won in previous contests at STPA conventions. The Bee-Picayune has won the advertising cup twice previously, the best front page cup once and the best editorial page cup once.

Through Thick and Thin!

The average housewife of the twentieth century now has a good working information on menus, marketing, budgeting, step-savers, recipes, handling left-overs, salads, calories, vitamins and a hundred other important matters she should and does know.

The fat woman now knows how to cook and eat to get thin, and vice versa. She knows the variety and kinds of food her family needs to be kept happy and strong. She can feed Hubby properly whether he is a muscle laborer or a white collar business man.

And don't forget it, men folks are as proud of this modern information possessed by their women as are the women themselves. The way to every man's heart is through his stomach, and that right-of-way is being traveled much more successfully now, for both men and women, than it was a few years ago.

What? A Prophet-ess?

A home girl has no chance in a small town for the same reason that the moon doesn't impress a night watchman. He's used to it.

VISITING WITH OUR NEIGHBORS

There is nothing better than corn on the cob. The Leader family is expecting to purchase plenty this season. There will be butter dripping off the ears of the whole family when 'nubbin' time gets around. Among those to promise to bring in corn on the cob are Dick Tomlinson out Martin way. Z. D. Davis and J. M. Cornell, both out Sunnyview way are pledged. J. M. brought us some of the sweetest corn last season we ever ate.

Mrs. W. T. Lowe was in Saturday subscribing and visiting. She's way past 16, but she looks young though the mother of 10 or 12 children. She writes poetry and some of her product is in John McCarty's new book, "Wind in the Cottonwoods." Fine folks and we are mighty glad they are our neighbors. GW gave Mrs. Lowe a calf several years ago that turned out to be a fine milk Jersey. Mrs. Lowe named it after GW just for

the fun of it, because Mrs. Lowe is anything but a pessimist.

While getting on the Honor Roll Saturday, Mrs. Jim Morgan stated that she was lucky for one time in that she saved plumb plenty of seed of several varieties of peas and beans from the 1935 crop. Pea and bean seed is high this season probably due to the fact that the soil erosion plan created a big demand. Farmers are to plant every other row to peas in their feed stuff or row crop, they tell us. Mrs. Morgan has ducks, guineas, turkeys, chickens and is quite a diversifier. Mr. Morgan has been in bad health for the past several months, and is not able to do anything. He has the sympathy of a lot of folks who have known him through the years as a very fine citizen.

A. J. Sibley who got flattened out during the depression of 1921-22, is getting back on his feet during this long siege. A. J. learned how to make a profit out of a depression, apparently, and how a lot of folks would like to know how he did it! As a worker, he

never was beaten, but there must have been some managerial ability based on past experience that helped a lot. How about it, A. J.?

Mr. and Mrs. W. E. Baker of Memphis visited his brother and family, Mr. and Mrs. Sloan Baker, Saturday.

A gastrolith (the same thing a chicken uses to masticate its food) measuring three inches in diameter and weighing nearly one pound, which some 50,000,000 years ago rested in the gizzard of some prehistoric animal, has been unearthed and will be seen as part of the Geology exhibit at the University Centennial Exposition, which opens in Austin in June.

Down in Karnes county Saturday night two highjackers became disgusted with jail accommodations. Happy is the individual who has found his work and is contented with his lot—for contentment is truly a goal of life. But rich as contentment is, the man, who because of that contentment no longer has the desire to think bigger thoughts and do something bigger than he has ever done before, has sealed the door to his material, mental and spiritual progress. The fine art of living consists of keeping in balance a measure of contentment for one's lot and at the same time be stirred with a wholesome desire for bigger and more wholesome things.

The following appeared recently in the Dalhart Texan:

B. F. Williams, Dalhart: "I knew Temple Houston well. He was a very colorful character and made an enviable record as district attorney of the 47 counties attached to Mobeetie for judicial purposes. He was appointed to the job when 20 years old and had to wait until he was 21 before taking the office."

Mr. Williams is slightly in error. J. N. Browning resigned as district attorney and Gov. O. M. Roberts appointed Temple Houston to the office of district attorney of what was then the 31st District. It was necessary to remove the "disabilities" of Temple Houston before he could take office because he was only 20 years of age. This was done and Temple Houston made an enviable record.

Help! Help! A Blue Back Speller and a McGuffey reader must be located just as soon as possible. Can any one in old Donley supply either for a short time? If you know of such, kindly let me know. If we can't find them both, or either one here, we must go elsewhere to get them. They simply must be dug up from somewhere. Please help a bunch of fine old people who are to stage a Centennial play in a contest.

The League of Nations has settled the war between Colorado and New Mexico in which there were no casualties as the combatants were a bunch of day laborers pitted against a company of soldiers.

Hearing of that, Highly Silosy, King of Kings, Juda and what have you of Ethiopia, has gone to headquarters to see what the League will do for him. From all reports, he is in the same position of the rheumatic—the League has dangled near ruined him.

Bachelor Bill, while in philosophical mood Tuesday, said: "If death comes to me suddenly, and I get a play in the local paper, I hope they can say they found my body near the lily pond on the grounds of my palatial home. I'd hate to be identified by a scar, bullet wound and a package of letters from the other fellow's wife."

Mi goesh! A lady looking at a Centennial exhibit recently in a central Texas town blushed as she looked at a pair of bloomers on display well in the front of the exhibit. Imagine her chagrin when she found out it was not bloomers at all. It was a pair of pants worn by the elite gentlemen of the 17th century.

A relative back east gets all ecstatic by finding that our great-great-grandpa fought in the battle of Bunker Hill. Grandpaw did not run, but he left hurriedly. Those who staid, are there yet. Grandpaw used good judgment else his great-great-grandson would not be paying him a compliment right now.

Speaking of family rows, the biggest family fight on record is the War of the Roses of England.

'Member way back when a man stopped at a red light in Amarillo and caused three wrecks and tied up traffic for a half hour?

It's a lot easier to be enthusiastic than to use reason. That's why

moving is so disastrous to a lot of folks.

The League of Nations is due credit for keeping the fight for peace in Ethiopia going so long as the Ethiopians could stand up to the Wops.

The church is the only place where the late comer has to take a front seat.

When an arguer is going good, the subject is simple. If there is any sense to the argument, he has to stop to think occasionally.

Oklahoma editors are reverting to ham again, and dynamiting the crows, since Wallace passed out the "raise more hogs" edict.

Ima Fizzle in speaking of her boy date Sunday night said: "He's just one of those new deal dates—you don't know what he will try next."

Recipe of the Week: Canned Spinach is improved by a dash of dry sand. Then feed it to the hogs.

The latest dance is termed a "rat race," and the dancers are "smoozers." Just thought you'd like to know, etc.

Hastoon Yazzie doesn't like doctors because a doctor gave him whiskey one time while he was unconscious. Yeh—car wreck!

There was a time when G-men weren't unarmed. Later they were

given guns and plenty of them. Last year an order to "shoot to kill" helped matters. Renegade killers are yellow rats as was proven when Karpis was taken in tow at New Orleans recently. The killers shoot to kill—why not G-men and other officers?

Get your liver in shape and work the wife's garden now. There will be more of this nonsense next week.

AT FIRST METHODIST CHURCH
SERVICES AT
Services: 10 a. m.—8 p. m.
Every man is touched deeply by the spirit of "Mother's Day." Our mothers have trusted God and prayed to Him in all their experiences. Whether she be living or dead every good mother would be glad to know that her son visited the house of the Lord and worshipped on this Mother's Day. Therefore we hope that every man will find his place in some Church Sunday. You will find a hearty welcome in any Church in the community. The Methodist Church will be glad to have all who choose to worship with us. Special music for the day will be arranged and the sermon by the pastor will be in keeping with the occasion.

Sunday evening at 8 o'clock the baccalaureate service will be held at the Methodist Church. We are glad to be hosts to the Senior Classes, together with their mothers, dads, and friends, and to our fellow pastor J. Perry King who is to bring the sermon. May this be a great service and profitable to all.
E. D. Landreth, pastor.

SUBSCRIPTION RENEWALS BREAK ALL RECORDS LAST SIX DAYS OF APRIL

Leader Readers Prefer "Cash in Advance" Method of Payment, With Paper to Stop Promptly Upon Expiration Notice

Those who buy the Leader by the year prefer the "cash in advance" method and want the paper stopped if not renewed upon notice. This idea is gained from asking the multitude who have voluntarily come into the Leader office the past month to pay up.

The last six days of April set a new record with 139 paying up. Of that number, 134 were unsolicited other than the quality of the paper. Of this number, 127 live in the Clarendon trade territory.

Of this number, 18 women came to the office to pay. A careful check was kept on those who sent their husbands, too, and it was found that wives to the number of 29 sent their husbands in to pay.

Of the number paying, the majority stated that their reading matter was paid for with cream checks. A number mentioned the cotton checks, but it appears that the cream can continue to be old Donley's most dependable payroll. The "Honor Roll" appearing below, individually, have our grateful thanks for their support. It is a vote of confidence which we shall strive to merit through the years.

1,300 Confederate Pensioners Dying In Texas Yearly

Rolls Now Carry Only 802 Civil War Soldiers, Have 6,600 Widows

Austin, Texas, May 5.—Confederate pensioners, soldiers and widows in Texas are dying at the rate of about 1,300 annually.

Because of the heavy toll the payment of the pensions to veterans may end during the next decade.

The average monthly payment last year was \$206,858, with a monthly maximum of about \$250,000.

Texas, celebrating its 100th birthday, still is paying pensions to widows of soldiers who fought in the War with Mexico.

Payments started in 1889 when the Confederate pension law was passed.

The fund now has a deficit of about \$5,000,000. This is because of the liberalization of pension requirements and decreased revenues from the State tax of 7c per \$100 valuation.

The burden on the fund was increased by five major changes in

Resettlement Investigator Tells of Danish Land-Buying Program

Denmark's present land policy was established by the act of 1889. Some sort of change had to be made in the situation of Danish farmers at that time, because the situation was so bad that they were leaving the country as fast as they grew to manhood and womanhood.

A 26-page pamphlet giving the story of the Danish farm purchase program, prepared by Erick H. Thomsen of the Resettlement staff at Lincoln, Nebraska may be obtained free by writing to the Information Division, Resettlement Administration, Dallas.

CHILDHOOD'S PRAYER

(J. N. Griswold.) "Now I lay me down to sleep, I was taught at mother's knee. That sainted soul would often weep In her worries over me.

"I pray thee, Lord, my soul to keep, With little thought of meaning, But habit stayed throughout the years— So many intervening.

"If I should die before I wake," I lisped as there I knelt. The loving pressure of her hand Upon my head I felt.

"I pray thee, Lord, my soul to take," Would close my nightly prayer. I'd give the world if it were mine To now be kneeling there.

Then came the soft, benign "Amen," As from my knees I rose, To greet her loving, goodnight kiss— Those lips long in repose.

Crop and Feed Loans Made Through Local Board

San Antonio, April 28.—Widening the scope of financial assistance the federal government is extending to Texas farmers, regulations of the Emergency Crop and Feed Loan office have been amended to permit farmers who are not being actively assisted by the Resettlement Administration to apply for Emergency Crop loans.

The regulations provide that no more than \$200 may be loaned to any one farmer and preference will be given to farmers whose cash requirements are small.

Effect of the change will be to extend to farmers listed as "inactive clients" of the Resettlement Administration the same opportunity to apply for Emergency Crop loans as other eligible farmers.

Applications for emergency crop loans may be made to the county crop loan committees already set up in most counties. Loans are disbursed through the regional offices located at Dallas.

After obtaining approval on San Jacinto Day by the Social Security Board in Washington of the Texas old age assistance plan both as to its legality and method of administration, Orville S. Carpenter, executive director of the Texas Old Age Assistance Commission, returned to Austin Monday, April 27. "It is particularly fitting that this law to provide financial independence for thousands of the aged needy of Texas should have been approved by the federal board on our own San Jacinto Day," Carpenter said this week. The Social Security Board declared the Texas plan one of the best and most liberal that had been presented to them. Dollar for dollar matching of state funds with federal funds was definitely agreed upon. "This approval should be a definite answer to the fiction which has been broadcast to the effect that Texas funds would not be matched by federal funds. It will be possible for applicants in Texas to receive a maximum pension payment of \$30 per month if their needs, as defined by the Texas law, justify this sum," Carpenter explained. More economical administration and fairer treatment of the aged always results from having a central agency handling pensions, the Social Security Board officials told Carpenter. They added that experiences of other states in having old age assistance administered by some already overburdened department or as an added duty without pay upon county or local officials had proved a failure every where it had been tried. Carpenter was complimented upon the system of administration that he has developed. "Mr. Bane, the executive director of the Social Security Board, stressed the fact that federal law requires payments be made only to needy persons, and that the Federal Government would not permit its funds to be paid on any other basis," Carpenter declared. "Although our law requires that need be considered, we have the most liberal definition of need among the states with old age assistance laws. Abject poverty is not a requirement for eligibility. "Because of the liberal features of the Texas law and the liberal interpretation that has been followed by the Old Age Assistance Commission, it seems very likely that a larger per cent of applicants will be eligible here than in many other states," the Texas director said. "Carpenter stated that he could not say definitely now whether payments would commence in June, inasmuch as a great amount of work must be done before payments can start, but that everything possible, including a night shift in some of the office departments, is being done so that an early payment can be made. Payments will start July 1 in any event, Carpenter emphasized, but earlier if possible.

LODGE OFFICIALS VISIT CLARENDON

State Officials Make Talks Friday Evening to Odd Fellows-Rebekahs

Speaking to the local Rebekah lodge Friday evening, Mrs. Frances Thompson of Corpus Christi, President of the Rebekah Assembly, brought an inspiring message. She was accompanied by Mrs. Minnie Wilson, a past Noble Grand of the Corpus Christi lodge.

A talk was made by Mrs. Jessie N. Ross of Amarillo, past president of the Assembly, and John R. Ross, Grand Master of the Texas Odd Fellows.

Refreshments were served to the visitors and twenty-two members at the close of the series of talks.

AMARILLO

Members of the band committee, appointed to welcome and entertain members of the many bands expected for the convention, have been busy for the last several days, making arrangements to house the musicians.

Besides its hotel accommodations, Amarillo since the last WTCC convention has developed excellent transportation facilities and sight-seeing attractions.

Of special interest to all visitors in Amarillo is the largest state park in Texas—the Palo Duro Canyon. In grade of coloring and rugged beauty this park rivals the Grand Canyon.

In addition to the special entertainment offered by the convention, the spring meet of the Tri-State fair will be in full swing. Thousands of turf fans from over the Southwest come to Amarillo for the spring and fall horse races.

Government Funds May Be Withdrawn

R. C. Land, supervisor for the Resettlement Administration in Donley County, has been informed by the regional headquarters that almost half a million dollars now available for cooperative loans in Texas and Oklahoma will be diverted to other use unless it is loaned before the end of June.

This fund amounts to \$312,000 in Texas and \$143,000 in Oklahoma, but only a few thousand dollars have been loaned to date. Most of the loans so far have been for pure bred sires and farm machinery. The loan is usually made to one man, and his neighbors sign an agreement to use the animal or machinery at a specified price.

Many other types of cooperative enterprises may be financed thru such loans from the Resettlement Administration, including syrup mills, feed mills, laundries, canning plants, meat curing plants, threshing outfits, and facilities for grading and shipping farm products such as fruit, vegetables, eggs, and poultry. Loans may also be made for membership in existing cooperative associations. In one county a loan is now being considered which would enable borrowers to become stock holders in a cooperative hospital.

"I am sure that there are many worthwhile enterprises that should be started cooperatively in this county," Land said. "And I hope that farmers who are interested will call on me at an early date in order that we may make requests for loans before the money is withdrawn." He explained that a sound financial plan must be worked out which will assure repayment and that the cooperative enterprise must not duplicate any already in existence in the community.

Borrowers must either be farmers who are already receiving aid from the Resettlement Administration, or unable to get the desired financial assistance from any public or private agency.

INSURANCE MAN

He has had, as a guest of the Company, several trips to Galveston, a trip to Old Mexico, a water trip to New York City with a stop-over in Miami and returned by rail through Washington and St. Louis. This year, however, Mr. Bagby was more enthusiastic than ever about his prize vacation, which will include, besides a stop-over in New Orleans and the ocean voyage, a week in Havana, the Paris of the Western Hemisphere.

GEO. B. BAGBY
sphere. Since this is his initial visit to Cuba, he realizes that there will be many unusual, fascinating and educational things to see and do.

He expects to make inland tours and see the great sugar plantations, and will visit the nationally known Romeo and Juliet Cigar factory, where, until a year or so ago, a man sat in the middle of the huge room and read the current events from the daily newspaper in a loud voice to the workers. Now, a radio has taken this man's place, and the workers are pleased with the change, since it offers a greater variety of entertainment.

Mr. Bagby has the distinction of having been the Company's leading producer every year since he has been with the United Fidelity Life Insurance Company, and has maintained the remarkable average of writing one application for every working day in the year, throughout this period.

His recognition as a life underwriter became national, when the Insurance Salesman, a magazine published in Indianapolis, Indiana selected him as one of the 90 largest producers of life insurance in the United States.

Rev. G. S. Hardy spent the week end at Chillicothe.

Mrs. McGowan is Candidate For County Treasurer

A resident taxpayer for six years, and patron of the local schools, Mrs. McGowan is making announcement at this time for the office of county treasurer of Donley county.

She states that she has never asked for public office before. Her acquaintance with the public as a bookkeeper for the Smith Bros. gin two years, makes no formal introduction necessary.

She is the widow of Claude McGowan well known gin man and, with her two children, has been operating a school cafeteria near the college building during winter months.

Tourist Highway Guide Gets Much Attention

In the mad scramble to get business, corporations have to resort to superior service because consumers are not always educated on quality.

At this time the Continental Oil company has hit upon a plan of issuing a road guide par excellent. The book of 36 pages takes the tourist on the tour ahead of the scenery through pictures, maps, hotels and camps with rates specified, and a lot of other information.

The book is free to those who call on a Conoco dealer, or who writes to the Travel Bureau in Denver. The book costs quite a sum, but it costs the consumer nothing. It is a thousand percent ahead of the old time road maps of a few years ago. Mr. Chase tells you about it in an advertisement in the Leader this week.

Mrs. W. H. Martin returned home the latter part of last week. She had spent the winter visiting in San Antonio, Ft. Worth and Amarillo.

Woodrow Bulls, Lowell Lafon and Sam Barrow attended the District meeting of the Young people at Memphis Saturday and Sunday.

Mrs. Melton Beasley and Mrs. Gordon Maddox of Memphis visited their sister, Mrs. Sloan Baker, Friday.

Mr. and Mrs. Ray Wood and baby of Dallas visited his parents, Mr. and Mrs. Nat Wood and family Tuesday.
