

**COW, SOW AND HEN AGAIN**

In every time of need the farmer could always rely on his best allies—the cow, sow and hen. They are receiving more attention in Donley county right now than for many years. We may forget them for a time, but not in time of need to rescue us from a calamity.

## Dr. Barker Drew Three Large Crowds Friday Afternoon

### Rural And Other Schools Are Well Represented In Lecture to Pupils

The visit of Dr. Charles E. Barker, nationally known lecturer, here Friday was declared by many to be a red letter day for Clarendon and those coming from nearby towns and rural districts.

Dr. Barker arrived on the noon train direct from Denton where he spoke to an overflow meeting the night before. He was at once escorted to the Christian church where a luncheon had been prepared in his honor and attended by members of the civic clubs and others.

The speaker consumed something like thirty minutes following the luncheon in giving his views as to how civic clubs could better be of service in building up the community.

His next address at the College Auditorium at 1:30 is said to have been the best of the day. Schools here and elsewhere were dismissed giving pupils an opportunity of hearing Dr. Barker.

Pupils from Goldston, Hedley, Lelia Lake, Martin, Chamberlain, and a number of other places were in the audience to hear the speaker on the subject of "How to make the most out of life."

His next address was given at 3:30 at the Methodist church where an audience comfortably filling the building and composed principally of women and larger girls heard him on the subject of "A woman's responsibility to her daughter."

He spoke to the men and older boys at the Methodist church at 7:30 on the subject of "A father's responsibility to his son." Men of all ages and high school boys made up the audience giving the speaker careful attention throughout an address that was both inspiring and convincing.

Those responsible for Dr. Barker's coming feel amply repaid for their effort and means expended. They feel that great good has been done and that the success of this venture will mean the coming of other speakers.

Bonnie McCracken, aged 14, a local girl having artistic talent above the average, painted the picture used in the sermon on "The Five Great Kingdoms" as preached by Rev. Ferrell at the Christian church Sunday.

## Boys And Girls With Little Effort Get Free Planes

### Large Variety of Models Are Offered From Which Selections May Be Made

A page advertisement appears in this issue telling boys and girls how they may secure from one to a dozen different models of airplanes without cost—just a little effort.

This Air Cadet movement is sponsored by Col. Wm. E. Eastwood of Dallas who paid the two French flyers \$25,000 for flying from Paris, France to New York City and to Dallas.

We are following Col. Eastwood's suggestions to foster an interest in air craft. This offer made in the Leader is to enable any boy or girl wanting a plane, to get them without having to spend any money.

Bring your subscriptions to the Leader office and you will be given an order on the dealer for the value of the plane to which you are entitled. The plane will be "knocked down" in a strong pasteboard box with directions how to assemble.

After you have a plane that actually flies, you will want one of another type. Read how these may be secured to be found in the page ad in this issue. The purchase of the first plane entitles you to a membership in the Air Cadets, open to both boys and girls. Make your plane first—beat the others.

## Christian Church To Observe State Mission Day

Christian Churches all over Texas will be observing Sunday March the first as State Mission Day. The First Christian Church here will observe the day with a suitable program, special music and a missionary sermon at the regular morning hour of worship. The subject will be "Seven Hows."

At the evening service the Junior High School Choral Club will put on a special program of song and music and the pastor of the church has promised all who will attend the service a treat in the form of a special sermon on the subject: "The Seven Greatest Wonders." Many are acquainted with the "seven wonders" of the ancient world, and the "seven great wonders" of the modern world, but do you know about the "seven greatest wonders" of all time? The seven ancient wonders appear small indeed as we are reminded of the seven modern wonders, but there are still greater wonders. If you enjoy good singing, music and studying God's Word, don't fail to attend this service. It will be one you will never forget.

## School Officials Are Called to Meet Here Wednesday

Mrs. Nora McMurtry, county superintendent of schools, announces a meeting to be held in the District Court room at 2 p. m. Wednesday of this week for the purpose of devising plans to combat the handicaps affecting our schools due to the non-payment of taxes, etc.

The County Board of Education all Trustees of the various schools of the county and Principals of the rural schools are being asked to be present for the meeting.

## League Institute to Convene Here March Fourth

An institute will be held here by members of the Epworth League beginning on March 4th and will continue through the 8th, five days.

It is planned to divide the pupils into four departments and hold day and night sessions. Rev. and Mrs. McPherson and Mrs. C. A. Burton and others will instruct in the various subjects.

An urgent invitation to all those interested is given that they may attend all sessions, or as many as possible that they may get better acquainted with the work.

## Brice Merchant is Injured When Car Turns Over

Sybil Adduddle, merchant of Brice, was a patient at Adair hospital the past week recovering from wounds suffered when his car turned over on the Brice road Monday night.

His wounds consisted of lacerations about the face and head requiring some thirty stitches to close. The wreck is said to be due to faulty steering gear that came loose suddenly.

## Flower Exchange Changes Are Announced

Due to the fact that the flower exchange as suggested by the Leader might in some way conflict with the work of the Les Beaux Arts club annual exchange of March 21st, the Leader will not publish the list as announced the past few weeks.

The Leader was not requested to make the change, but rather than cause any confusion in any manner, the flower exchange will be conducted as last year at the Club Room on March 21st.

The flower exchange last year brought out many worth while exchanges and a large number of plants were brought to the Club Room and given away. Those having plants to exchange will read a further announcement in the Leader before the date of exchange.

## County Council Will Meet Here Next Saturday

The County Council of women's clubs will meet at the Club Room in Clarendon at 2 p. m. next Saturday, the 28th.

Delegates from each of the clubs of the county are urged to be present as important business will come before the Council at this meeting.

## To the Taxpayers of The Clarendon Independent School District—An Open Letter of Explanation

—OO—

We, the School Board for the Clarendon Independent School District beg to submit you the following information concerning the finance of our schools and what the schools are now facing since the State Legislature passed a bill extending the time of payment of 1930 taxes to October 15th, 1931.

It is generally known and understood by most all our citizens that the taxes if the full amount due each year were collected, just barely enough money would come into the Treasury to meet the current year's expenses. This has been the case for the past twenty years, school operating expenses have advanced each year and new demands have been made upon the school authorities. In order to meet these increased expenses and demands it has forced the School board to raise the valuations on all property within the District, also raise the rate to the limit allowed by law which is now \$1.00 per \$100.00 valuation. Last year's term of school ended up with a net deficit of about \$3,500.00. This was caused by taxpayers failing to pay their taxes to the amount of \$7,500.00, which is still unpaid to this date. Taxes for the year of 1930 which we are using to pay for the present term of school and which were due on February 1st, past were short \$12,000.00, making about \$20,000.00 taxes unpaid that your Board of Trustees figured on being paid when they made contracts for the present term of school.

With the money we now have and will receive from other sources other than from taxes we can run our schools through this month and can do one of two things: close the school down for the remainder of the term, or ask our teachers to take Deficiency Warrants payable when ever the people that are now delinquent pay in their taxes. To close the school for one, two, or three months will result in the losing of our affiliation besides depriving about 900 children schooling which they are justly and rightly entitled to. We doubt very seriously if this set back to our schools could be overcome in five years, so we, as a Board, will ask our teachers if they are willing to continue to teach and take a chance on getting their money when the above mentioned taxes are paid into the treasury. We fully realize the condition of our taxpayers as well as the general condition of the country and have for a number of months past cut every item of expense that could be cut and not seriously damage the school. We have recently made some cuts in the operation of the schools that will cut down our standards, but this was done in order to meet the situation we are now facing.

A general cut of 10 per cent in teacher's and all other employees' salaries has been voted by the Board as well as discontinuing three departments of the school.

Our school records are the property of the taxpayers within the District and are open to any taxpayer at all times. This letter is written that all may understand our school situation and to urge all tax payers that have not paid their taxes not to wait until October 15th, but pay them at the earliest moment possible.

## Greater Interest In Donley County Clubs Is Shown

### Membership Average in This Work For Donley County Exceeds All Others

This district includes seventeen counties in which there are one hundred and forty-six C. H. D. clubs and one hundred and eleven 4-H clubs for the girls.

A total of 2727 women comprise the C. H. D. membership of the clubs of the district. A total of 1213 girls are enrolled as members of the 4-H clubs. The average number of 4-H club members of the district is six and nine seventeenths while Donley county shows an average of seven members per club.

The average number of women to each C. H. D. club in the district is eight and two seventeenths with Donley county showing an average of eleven, or three above the general district average.

The county average for girl membership in 4-H club work is 71 and Donley county has 89.

The county average of members of the C. H. D. clubs is 160 while Donley county has 168.

It is shown from the above information taken from state records that Donley county women and girls are taking an active interest in the work as never before.

At this time meat canning is being done in a number of homes where it was never before tried. This canning is being done by individuals, by community cooperation where several women can together, and by both individuals and in cooperative effort under the personal direction of Miss Buttrill, the C. H. D. agent of the county.

## Did You Read Pierce Finger Print Article?

A number have spoken of the interesting article on the finger print method of identification written by Deputy Sheriff I. B. Pierce which appeared in the Leader last week.

If you did not read that article, hunt up a paper and read how the method protects the public at large in a number of different ways. Mr. Pierce has gained quite a reputation as a 'finger print' artist recently in tracking down criminals.

## Two Plead Guilty In Alanreed's Bank Robbery Charges

### Five And Thirty Years Are Given Two Men Who Give Back Stolen Money

The robbery of the Alanreed bank on February 4th becomes a closed incident with the second plea of guilt on the part of Roy McGee who was given a five year term at Pampa Saturday.

Roy Stephenson earlier in the week had been given fifteen years each on pleas of guilt to charges of robbery with fire arms and to assault with intent to murder. Practically all of the money was returned after being hidden under a tool house in the LeFors oil field.

Jim Bryant, Alanreed blacksmith, wounded when he failed to obey demands due to deafness, and who was brought to the Adair hospital here suffering from wounds in the lower abdomen and leg, is on the road to recovery.

## Dr. Robert L. Cowan Begins Series of Sermons

Arriving Monday, Dr. Robert L. Cowan preached his first of a series of sermons at the Presbyterian church Monday night.

These evangelistic sermons will be delivered each evening over the week beginning at 7:15.

A large congregation greeted Dr. Cowan Monday night and he welcomes the public to hear him on any or all subjects. The subject for Monday night was "Prayer."

## Les Beaux Arts to Sponsor Bird House Contest

Announcement is made that the Les Beaux Arts club will again sponsor a birdhouse and feeder contest, an annual affair with the Club.

Both boys and girls under the age of fourteen are eligible from any section of the county. The contest will begin March 21st and prizes will be given for the best feeders and houses as has been their custom over several years.

A special feature not to be overlooked this season is that the Club asks that the houses be mounted. Slides and pictures will be shown at the local theatre during the period of the contest.

## Grand Jury List Announced for March Term Dist. Court

### Docket This Term Is Light Due to Diligence of Men Enforcing Law

Donley county citizens may well be proud of the law-abiding record made in comparison with that of other counties. This is probably due to the diligence of the Sheriff's force in keeping outside offenders from practicing their art in our section.

Another factor that enters into the matter is the fact that Donley county has an excellent class of citizens, industrious in habits and considerate of the rights of others.

The Grand Jury that will convene here March 23rd will be composed of the following men:

M. M. Noble  
Edwin Baley  
W. I. Rains  
D. W. Turner  
Walter Clifford  
W. A. Poovey  
Arthur Ransom  
Frank Hermesmeier  
W. M. Pickering  
Walter Goldston  
R. W. Moore  
Homer Fortenberry  
Claude Nash  
J. C. Christal  
J. T. Warner  
H. B. Kerbow

Cases coming up for the consideration of this body of men are offenses said to have been committed by those from other sections with few exceptions.

Mrs. W. M. Montgomery is again at home following a stay of some length as a patient in a Dallas hospital. Her many friends will be pleased to learn that her health is improved following an operation.

## 'Womanless Wedding' Brings Out Large Crowd

Of the many plays given by local talent, none have brought forth the favorable comment that was accorded this play given at the College Auditorium Tuesday evening.

The play was presented without a hitch and each player is to be complimented for the part played. From a standpoint of amusement, there appears to be plenty of local talent to cover the field.

## Sheriff's Office Force Has Busy Time Past Week

Sheriff Guy Pierce reports the recovery of a Buick sedan stolen in Amarillo when he located it north of town stripped of a glass door and two tires. He later located the tires in nigger town but the nigger taking the tires had suddenly left.

The home of Bill Robinson was searched Sunday and a part of the alleged loot taken from the Denver meat car some days ago is said to have been found in the loft of the home.

This find consisted of hams, bacon, sausage, cheese, etc. according to Sheriff Pierce. An attempt to locate Bill Robinson in Pampa for questioning, found he had left there.

Several days ago a man accompanied by a 16-year old girl was picked up here on suspicion. The man was tagged as a "vag" and the Sheriff's force made up money and sent the girl to her home in Oklahoma.

Through the effort of I. B. Pierce and the finger print method it is learned that the man giving the name of Louis Hemphill, is an escaped convict from Oklahoma according to Sheriff Pierce.

## Methodist Revival at Lelia Continues This Week

Rev. W. R. McPherson, pastor of the local Methodist church, is conducting a revival at the Methodist church at Lelia Lake beginning Thursday night. He announces that services will be conducted each night beginning at 7:30 for the remainder of the week.

Rev. W. J. Knoy, pastor of that church, is leading in the singing assisted by members of other churches, the general public attending in creditable numbers.

## Utility Employees to Share in Contest Soon

Miss Carrie Davis and R. S. Cope of the local force of Utility employees here will enter the oratorical contest to be held at Matador soon. This contest is open only to employees of the West Texas Utilities company, in which valuable prizes are given.

Mr. Cope received a diamond pin at Ft. Worth last week in a Frigidaire sales contest and expects to share in the winnings at Matador.

## Local Girls Will Appear In Stock Show Pageant

Each town of the Panhandle has been asked to send a Princess and Maid of Honor to appear in the pageant to be staged at the Fat Stock show at Amarillo the first week in March.

Misses Loraine Patrick and Mary Jo Chamberlain will represent Clarendon on this occasion according to announcement.

A large number of Donley county people are expected to attend the show it being the first effort of the Panhandle in this direction. The show will be held at the Tri-State fair grounds.

## Many Clarendonites Go Hear Padarewski at Amarillo

Among those to hear the renowned Padarewski piano recital at Amarillo were Mr. and Mrs. J. T. Patman, Mr. and Mrs. Ralph Kerbow, Mr. and Mrs. Sam Braswell, Sr. Mr. and Mrs. J. R. Porter, Misses Pauline Shelton, Jennie De Laon, Mrs. E. O. McCann and daughter Joy, Miss Fray Stallings, J. Roy Wells.

Also Miss Mae Bennett, John Bugbee, Miss Annie Bourland, Miss Mantie Graves, Mrs. C. G. Stricklin, Mrs. Chas. B. Trent.

Mrs. J. H. Headrick, Misses Ineva Headrick, Edgar Mae Mongole, Pauline Clark, Mrs. Cousins, and daughter Les Christine were included in the large number to hear Padarewski at Amarillo Friday night.

## Plant Supply is Exhausted For the Season

Rather than disappoint anyone, the Leader editor has given away all the berry plants and jubbe trees he can spare for the season, and will be forced to discontinue the gifts until next winter.

## Donley County Is Sorely In Need Of School Tax Funds

### County Superintendent Gives Views on Matter; Boards Are Hard Put

Clarendon schools will be crippled with \$12,000 tax money uncollected. Many or practically all the rural schools of the county are facing a crisis for the same reason.

In speaking of the matter County Superintendent of Schools, Mrs. Nora McMurtry, sums up the matter as follows:

"Donley County Schools are attempting to run on a cash basis. At least to the extent that when a voucher receives the signature of the County Superintendent it can be taken to the bank and cash received at once. This policy means less dissatisfaction that a set of signed vouchers that can not be cashed.

The tax collections have been short this year and when the funds collected are expended schools will close their doors. Current salaries of school employees can be paid from the current year taxes only. Deferred paid warrants for teacher's salaries, etc. can not be paid out of any of next year's taxes. They can be paid out of taxes paid between now and Oct. 15, or out of any delinquent taxes after Oct. 15 for the year 1930 only.

Teachers are willing to accept this kind of warrant in most instances, but such a course necessitates someone advancing either credit or money for living expenses. Also it will entail an additional expense of interest to be paid.

Some more equitable and reasonable solution may be worked out at a joint meeting of the County Board of Education with the District Trustees of each district. As soon as the tax collector's report makes available the necessary figures, the county superintendent will compile records of the receipts and the expenditures of each district and ascertain just the length of term that can be maintained.

If patrons and trustees of schools that have money to maintain school for only one or two months will voluntarily combine their teaching forces and money and transfer their pupils as a body to one of the most centrally located schools a more satisfactory school can be maintained than by any other plan."

Mrs. Eula Cox was an Amarillo visitor Monday.

## Little Theatre Presents Best Play For the Season

### "The Goose Hangs High" Will be Presented At Auditorium Tonight

The Little Theatre will present the best play of its history this evening at the College Auditorium in "The Goose Hangs High", a three-act comedy-drama, directed by Mrs. Rita Foster Stocking.

No pains have been spared in the preparation, the casts having worked faithfully in rehearsals that the expectations of the play-going public be met on this occasion.

Those in a position to know, claim for this the best showing yet made by local talent with the best material for a play as a basis. The actor talent was selected with care, special attention being given to the talents of each individual.

The curtain rises at 7:30 this evening. Those who do not avail themselves of this opportunity will miss something really worth while. The Little Theatre efforts have met with the approval of a large number in past productions and this effort is expected to surpass anything yet offered.

Mrs. Nellie Tullos, who has been visiting her parents, Mr. and Mrs. T. H. Peebles during his illness, returned to her home at Amarillo Sunday. Mr. Peebles is slowly recovering from a serious pneumonia attack.

The fellows who wore the proud uniforms of the greatest nation on earth back in 1918 as they were sent forth to kill, are now riding box cars to the Capitol asking for back pay on the job in order to get something to eat.

**Arkansaw Business.**

As further proof that Arkansaw is in need of business, the legislature has passed a law whereby a resident of ninety days in that state entitles one to legally bring suit for divorce.

Nevada has been the mecca of dissatisfied matrimonial experiences all too long. Give the Bear state a chance. They need the business.

**More Speed.**

Gov. Murray of Oklahoma has given his shoes to the poor. Evidently he expects to speed up legislative matters in the interests of his people. There is no question but that he is in dead earnest in all he undertakes, and he has nothing to hide from those who are looking to him for help.

**Financial Suicide.**

There aught to be something done to prevent some merchants from howling hard times to their prospective customers. A cash customer walked into a store here recently with the full intention of making some worth while purchases. After listening to hard times talk during a casual conversation with the manager, he decided not to spend any money until times 'got better'.

tions during the time the stock show is in progress.

There is no reason why the Panhandle section should not build up a stock show equal to that of Ft. Worth. We have the material, men and women with energy and vision—well we're just going to do it, that's all.

**Illegal Menus.**

And now comes the report from Austin that the entire Legislature was served venison from cold storage that had been kept over ten days after close of hunting season violating the state game laws. A number of the game department officials taking part in the swill "feed" given the law-making body are said to have paid fines already.

In order to play safe and escape a mesh of state laws which no one knows any thing about and which a larger number could not understand were they to read them, we suggest that only potlikker and corn bread be served on these swell occasions. There has been no law passed prohibiting the use of potlikker as a bath either internal or external, or swallowed bodily whole or in part so far as can be ascertained from a careful study of the statutes.

**Goats And Gratters.**

Are the newspaper boys to become the 'goat' in a campaign started by a Chicago firm in which they seek to enlist all the newspaper fraternity in telling the world about mohair?

"If you want to start a spirited argument in a group, just ask someone to tell you what mohair is!" reads the first paragraph of a circular letter received this week.

You can tell the cock-eyed world it will start an argument among the sensible publishers. We read on: "We have arranged with the Western Newspaper Union to supply these articles in ready-to-print plate form, etc."

It cost them money to prepare the copy. It cost them money to have the plates made. Stopping at that point, the idea is a dead issue unless the newspapers are enlisted, and supposed to contribute the expense of dissemination without cost.

The most important factor in the scheme, the newspapers, are invited to become the 'goat' in putting the deal over. When will so-called business arrive at the point of understanding and learn that all newspaper men are not blatant fools.

**Other's Ox Gored.**

At the time of the killing of the negro at Sherman, Sam Hill, who conducts a "today" column in the Bottineau, North Dakota Courant, went into spasms. He flim-flamed everything claiming an interest in the white race in the entire South and almost included the Southwest in his vitriolic denunciations.

Only recently, in his state where capital punishment has been relegated to the scrap heap by sob-sobsters, a crowd in broad open daylight took the confessed murderer of a family of six from the jail and hanged him from a bridge.

Sam Hill in explaining the matter says that "the people of his state will stand for a man being murdered, or a man and a woman, but when an entire family is wiped out—well they just have to get busy and supply the law in which the state is lacking.

What in the "Sam Hill" is the difference? Why not come up to the hick log like a man and say that human nature is the same up "noath" as it is down "soweth" and that there is a limit to human endurance anywhere red-blooded Americans live regardless of state

lines? Mob law is wrong in any state.

**That Torch Murder.**

Some months ago one Ray Hawthorne was lured to a home near the banks of Lake Worth northwest of Ft. Worth. He was allegedly set upon by old man Stanley, his two sons and James Casstevens, beaten into insensibility, thrown in a bath tub, clubbed to death and his body saturated with gasoline and carried into the brush and set on fire.

This is the State's testimony offered at the trial and to which one of the brutes is said to have confessed, and upon which the State secured a conviction in each of the Stanley cases in which juries gave each of them 99 years in the penitentiary.

Looking at the matter from the standpoint of an outsider, one cannot understand just why a juror would refuse to give a brutal murderer a lesser penalty than he would have meted out to him had he happened upon the scene armed with a shotgun at the time the hellish crime was being committed.

Four against one. The body of the victim mutilated and then set on fire. The penalty given was the same as that measured to a negro rape fiend of Dallas a week before. What kind of a crime merits the death penalty in Texas anyway? What would you want a jury to do had either of these victims been your son or your daughter? That's the way to look at the matter of law enforcement according to the ideas of the writer.

**Our Public Schools.**

States of the drouth belt are handicapped by a lack of school funds and both Arkansaw and

Kentucky are entertaining movements to discontinue the public schools for the remainder of the term.

Donley county has not been hit as hard as many other sections, many of them still carrying on. Since the 1930 taxes alone may be expended for school purposes this term, the local school board has been brought face to face with a problem that is most perplexing.

Teachers may be asked to accept deficiency warrants for work in the school room. There is some question as to whether the Junior College should be continued in the face of present difficulties.

Should this department be discontinued at this time, it means that we can never have a junior college department again until special legislation provides for re-summing the work.

The present generation should not be penalized by our mistakes and misfortunes. The mothers and fathers of this county should prayerfully consider the matter before giving up the school even for the remainder of the term, thus losing the grades of the year and seriously handicapping those who need the opportunity most.

Numbers have strained a point to pay school taxes. A few others will do likewise before the close of the month. This is a time when American ideals should be brought to the front and handicaps resisted.

A special appeal should be made to those who by any means can raise the tax at this time. Clarendon and all of Donley county faces a school crisis that must be met. Our most valuable asset hangs in the balance. Our section is not poverty stricken and personal pride should arouse us to back the efforts of the School Board in meeting the problem that may mean disaster from which it will require years to recover.

**1931 Boy's Week Plans Outlined**

Chicago, Feb. 22—Under the chairmanship of Walter W. Head, past president of the American Bankers Association, 70 of the most prominent men in America are cooperating to focus public attention upon the boy and boy problems through the medium of Boy's Week. Programs for the worldwide observance of this event have been prepared and the date of this year's observance announced for April 25-May 2.

Boy's Week was first conceived in New York City in 1920, by the late William Lewis Butcher, and promoted that year by the New York Rotary Club. So successful was this experiment that in the brief span of eleven years the idea of Boy's Week has attracted to it the active interest of community leaders in all parts of the world. More than 100 national and international service clubs, boys work organizations and educational or social welfare agencies are now cooperating in the concentration of attention upon the boys of the world.

In the few short years since its inception, Boy's Week has brought about some wonderful results. Although it is not always possible to definitely analyze the spiritual values in such a movement, there is an undoubted awakening of the community, the state, the nation and the world to the recognition of the boy and his problems as of something fundamental in the future life of the commonwealth.

The boy of today is confronted with a much more complex world than the day of his father's boyhood, and the sense of responsibility for equipping the boy to meet and conquer his coming environment is growing in the minds of his elders.

"Boys must be advertised," said Mr. Butcher, "not for the sake of exploiting them, but in order that the citizenship of the world may come to their assistance, provide for their development, safeguard their future and see to it that the world is made safe for the leaders of the days not so far ahead of us."

Beginning with Loyalty Day on Saturday, April 25, this year's program continues with daily programs outlined for Boy's Day in Churches, in Industry, in Schools, in Entertainment and Athletics, in Health and Home activities, in Citizenship and concludes with Boy's Day Out-of-Doors on Saturday, May 2.

**Cooks Decide Matter**

Here is what one of the best cooks in the county has to say about this flour:

"I was slow in changing from my favorite brand of flour used for many years, but as a matter of economy, I decided to give Kansas Cream flour a trial."

"A thorough trial convinces me that the fluffy biscuits light cakes and buns cooked from this flour, are equal to that made from the best brands on the market and that I shall continue to use Kansas Cream flour."

**Balkan Village Dance**

**That Induces Epilepsy**

Serbian scientists have published their report on a visit made at Whitsun to a village near Pozharevatz, where they were present at the Whitsun dances, at which the women of the village fall into various forms of ecstasy and trance. The village is that of Duboka, in the heart of a district mainly inhabited by a people known in Serbia as the Serbo-Walachians.

The facts of the Whitsun manifestations, although simple to explain, are none the less remarkable. There are dances, the ordinary chain dance which holds in various forms throughout the Balkan peninsula, and at these dances the women, one by one, fall into trances or forms of epilepsy. When this happens they are carried off by special dancers, who have the title of kings and queens, and peculiar dances, with incantations sung, are used to bring them back to a normal state. Cases are known of young girls being taken with the Whitsun manifestations, and these young girls are marked down as those who will carry on the tradition during the coming generation.

It must be remarked that these people are extremely degenerate. The conceptions of morals are those of a much earlier epoch, and, indeed, point to the earlier matriarchal state of society. Marriage is regarded in the most casual way, and man or woman changes partners as fancy pleases.

**Ocean Perils Lessened**

**With Advent of Steam**

Steamships of today have much less trouble with Cape Horn than the old-time sailing ships that beat against the prevailing westerly gales of the roaring forties. With rigging leed, with no sun to take bearings from, many a skipper lost his ship in the battle to make westing. One vessel, which tried for more than 50 days to round Cape Horn, finally gave it up and went to Asia, the other way around the world.

Not the least of the dangers eliminated from graveyards of the sea, both abroad and in the United States, are those which were created not by nature, but by human beach scavengers. Nags head, on the North Carolina beaches, perpetuates the memory of the professional wreckers, who would hobble a horse with a lantern hung on its neck. Captains of sailing vessels picking their way carefully through dangerous waters would sight the bobbing light that looked like that of another ship. Approach to the beacon soon brought the vessel to grief and the crew to death, perhaps, while the wreckers raced to the beach to snatch up the cargo that the sea rolled out of the broken vessel.—National Geographic Society Bulletin.

**Ladies First**

There is at least one mother remaining in Boston who believes that by sparing the rod she are spoiling the child. But she applies it sparingly when at all. Recently her little son of six years and her daughter of four both got into mischief which she felt merited the laying on of hands or at least a thin strap in one of her hands. As the boy was the older, she felt he was the most to blame, so she would punish him first. It was at this point that the good breeding which the mother had endeavored to inculcate made itself manifest. So when some was informed of the order in which the punishments were to be inflicted he said, with much earnestness: "But, please, mamma, aren't you forgetting something? Remember, ladies first."—Boston Globe.

**Old English Weather Vanes**

Its use on famous old structures in England shows that the weather vane must have been invented at a very early date. On towers, castles and secular buildings its usual form was that of a banner; but on churches it usually took the form of the rooster. The large tail of the cock was well adapted to turn with the wind.

Many churches have for a vane the emblem of the saints to whom they are dedicated. St. Peter's, London, is topped by a large key, and St. Laurence's, a gridiron. St. Sepulchre's church has four pinacles, each having a vane, leading to the saying: "Unreasonable people are as hard to reconcile as the vanes of St. Sepulchre's tower."

**Story of "Robin Adair"**

Robin Adair was a young medical student. When he was twenty-two years old he left his medical studies to go to London. While on his way he was run over by the coach of a London society woman. She assisted him to that city, becoming his patroness. After he became established in society there, Robin Adair fell in love with Lady Caroline Keppel, daughter of the earl of Albemarle. Disapproving of the match, her father banished her to Bath. It was there that she wrote "Robin Adair." When her health became endangered by her brooding over the love affair, consent was given to the marriage.

**Faith and Works**

Two boys aged ten and twelve were playing, when the larger one transgressed the rights of the other, who immediately withdrew and sat down at the other side of the lawn. After awhile the larger boy, tiring of solitary playing, called out: "Say, George, come on back! I'm sorry."

But George warily asked: "What kind of sorry? The kind so you won't do it again?"—Christian Ad-

**Five Sets of Twins in One Farm Family**

**WATER WELL OPENS VAST PANHANDLE TERRITORY**

Placing a vast new territory under the magic influence of irrigation, a water well on the George Smeitzer farm near Texline pumped a most satisfactory test late last week, and indications are that approximately fifty additional wells will be drilled in the near future.

The third water strata was pierced at 111 feet, the water rising to within twenty feet of the top of the ground which makes it ideal for inexpensive irrigation as a lift of only twenty feet will be necessary. A ten inch pump delivered 400 gallons of water per minute on a five hour test, indicating an inexhaustible water supply.

A few weeks ago, fifty farmers met at Texline and agreed to finance the test well, subscribing \$185 for that purpose. The arrangement set forth that if the well was of sufficient size to warrant development, the owner of the land would pay its cost, and the other farmers agreed to drill on their own holdings. Latest reports from the territory state that the original drilling plans will be carried through.

Panhandle soil is unusually fertile, and the irrigation development will enhance the value of the acreage to a considerable degree. The company has agreed to build a high line into the territory, in order to furnish inexpensive electric energy for pumping needs and many customers have already signed to connect to the line as soon as it has been completed.

J. A. Brewer, Superintendent of the group, expressed his conviction that the territory will develop into one of the garden spots of Texas. E. V. Sellers, Industrial Agent, was instrumental in furthering the plans for development.

**"NO OCCUPATION"**

Our state poet, T. E. Hayes of Perkins county, who is also a member of the legislature, has gained quite a bit of fame by having his poem on the farmer's wife inserted in the Congressional Record by Senator Norbeck. The poem is as follows:

**THE FARMER'S WIFE**  
She rises bright and early—she must help out with the chores Before the sun is shining on the windows and the doors.  
Then breakfast must be ready quick, for children go to school. And they must be made spic and span—that is the teacher's rule. Then she must feed the chickens, also the cat and dogs, And doesn't it beat the dickens, Pa forgot to slop the hogs.  
Then wash up all the dishes, the cream separator, too, And all the other little chores before the morning's through. The bedrooms need attention, they must be kept clean and bright.

The beds all need an airing before the coming night. Then she must get a dinner, for the men-folks want to eat. And it must be a winner, so the men will have a treat.  
Some days she does the washing, —some days she mops the floor. For men-folk always track around when they come in the door. And she must mend and iron clothes for all the family— No time to visit all around like city folks you see. When supper is all ended, and the men can sit and read, There are socks that must be mended or holes will go to seed. I always thought the farmer's wife a builder of our Nation, Yet when the census man comes round he writes, "No occupation"  
—Bristol, S. D. Era.  
Mrs. L. E. Breckenridge, daughter of Mr. and Mrs. E. Price of this city and who has been seriously ill at a hospital in Amarillo, is slowly recovering.

**Balkan Village Dance**

**That Induces Epilepsy**

Serbian scientists have published their report on a visit made at Whitsun to a village near Pozharevatz, where they were present at the Whitsuntide dances, at which the women of the village fall into various forms of ecstasy and trance. The village is that of Duboka, in the heart of a district mainly inhabited by a people known in Serbia as the Serbo-Walachians.

The facts of the Whitsuntide manifestations, although simple to explain, are none the less remarkable. There are dances, the ordinary chain dance which holds in various forms throughout the Balkan peninsula, and at these dances the women, one by one, fall into trances or forms of epilepsy. When this happens they are carried off by special dancers, who have the title of kings and queens, and peculiar dances, with incantations sung, are used to bring them back to a normal state. Cases are known of young girls being taken with the Whitsuntide manifestations, and these young girls are marked down as those who will carry on the tradition during the coming generation.

It must be remarked that these people are extremely degenerate. The conceptions of morals are those of a much earlier epoch, and, indeed, point to the earlier matriarchal state of society. Marriage is regarded in the most casual way, and man and woman changes partners as fancy pleases.

**Ocean Perils Lessened**

**With Advent of Steam**

Steamships of today have much less trouble with Cape Horn than the old-time sailing ships that beat against the prevailing westerly gales of the roaring forties. With rigging fool, with no sun to take bearings from, many a skipper lost his ship in the battle to make vesting. One vessel, which tried for more than 50 days to round Cape Horn, finally gave it up and went to Asia, the other way around the world.

Not the least of the dangers eliminated from graveyards of the sea, both abroad and in the United States, are those which were created not by nature, but by human beach scavengers. Nags head, on the North Carolina beaches, perpetuates the memory of the professional wreckers, who would hobble a horse with a lantern hung on its neck. Captains of sailing vessels picking their way carefully through dangerous waters would sight the bobbing light that looked like that of another ship. Approach to the beacon soon brought the vessel to grief and the crew to death, perhaps, while the wreckers raced to the beach to snatch up the cargo that the sea rolled out of the broken vessel.—National Geographic Society Bulletin.

**Ladies First**

There is at least one mother remaining in Boston who believes that by sparing the rod we are spoiling the child. But she applies it sparingly when at all. Recently her little son of six years and her daughter of four both got into mischief which she felt merited the laying on of hands or at least a thin strap in one of her hands. As the boy was the older, she felt he was the most to blame, so she would punish him first. It was at this point that the good breeding which the mother had endeavored to inculcate made itself manifest. So when sonny was informed of the order in which the punishments were to be inflicted he said, with much earnestness: "But, please, mamma, aren't you forgetting something? Remember, ladies first."—Boston Globe.

**Old English Weather Vanes**

Its use on famous old structures in England shows that the weather vane must have been invented at a very early date. On towers, castles and secular buildings its usual form was that of a banner; but on churches it usually took the form of the rooster. The large tail of the cock was well adapted to turn with the wind.

Many churches have for a vane the emblem of the saints to whom they are dedicated. St. Peter's, London, is topped by a large key, and St. Laurence's, a gridiron. St. Sepulchre's church has four pinacles, each having a vane, leading to the saying: "Unreasonable people are as hard to reconcile as the vanes of St. Sepulchre's tower."

**Story of "Robin Adair"**

Robin Adair was a young medical student. When he was twenty-two years old he left his medical studies to go to London. While on his way he was run over by the coach of a London society woman. She assisted him to that city, becoming his patroness. After he became established in society there, Robin Adair fell in love with Lady Caroline Keppel, daughter of the earl of Albemarle. Disapproving of the match, her father banished her to Bath. It was there that she wrote "Robin Adair." When her health became endangered by her brooding over the love affair, consent was given to the marriage.

**Faith and Works**

Two boys aged ten and twelve were playing, when the larger one transgressed the rights of the other, who immediately withdrew and sat down at the other side of the lawn. After awhile the larger boy, tiring of solitary playing, called out: "Say, George, come on back! I'm sorry."

But George warily asked: "What kind of sorry? The kind so you won't do it again?"—Christian Ad-vent

**Five Sets of Twins in One Farm Family**

Five sets of twins make up the family of Mr. and Mrs. Frank Golda, farmers, living near Omaha, Nebraska. Besides the twins there is another child, a girl. The twins are, from their mother and father on the extreme right: Miles and Frank, 19; Mildred and Mary, 17; John and Helen, 13; Jerry and Edward 10, and Martha and Valeta 7.

**LELIA LAKE**

Mrs. Bryant Jone of Amarillo spent the week end with her parents, Mr. and Mrs. Guy Taylor. "Rose Lawn," a three-act play, was presented by the Lelia Lake high school Friday evening Feb. 20. There was a good crowd present to enjoy it. The proceeds, about \$22.50 will be used to buy basketball suits for the girls. **WATER WELL OPENS VAST PANHANDLE TERRITORY**

Placing a vast new territory under the magic influence of irrigation, a water well on the George Smeltzer farm near Texline pumped a most satisfactory test late last week, and indications are that approximately fifty additional wells will be drilled in the near future.

The third water strata was pierced at 111 feet, the water rising to within twenty feet of the top of the ground which makes it ideal for inexpensive irrigation as a lift of only twenty feet will be necessary. A ten inch pump delivered 400 gallons of water per minute on a five hour test, indicating an inexhaustible water supply.

A few weeks ago, fifty farmers met at Texline and agreed to finance the test well, subscribing \$185 for that purpose. The arrangement set forth that if the well was of sufficient size to warrant development, the owner of the land would pay its cost, and the other farmers agreed to drill on their own holdings. Latest reports from the territory state that the original drilling plans will be carried through.

Panhandle soil is unusually fertile, and the irrigation development will enhance the value of the acreage to a considerable degree. The company has agreed to build a high line into the territory, in order to furnish inexpensive electric energy for pumping needs and many customers have already signed to connect to the line as soon as it has been completed.

J. A. Brewer, Superintendent of the group, expressed his conviction that the territory will develop into one of the garden spots of Texas. E. V. Sellers, Industrial Agent, was instrumental in furthering the plans for development.

**"NO OCCUPATION"**

Our state poet, T. E. Hayes of Perkins county, who is also a member of the legislature, has gained quite a bit of fame by having his poem on the farmer's wife inserted in the Congressional Record by Senator Norbeck. The poem is as follows:

**THE FARMER'S WIFE**  
She rises bright and early—she must help out with the chores  
Before the sun is shining on the windows and the doors.  
Then breakfast must be ready quick, for children go to school.  
And they must be made spic and span—that is the teacher's rule.  
Then she must feed the chickens, also the cat and dogs,  
And doesn't it beat the dickens, Pa forgot to slop the hogs.  
Then wash up all the dishes, the cream separator, too,  
And all the other little chores before the morning's through.  
The bedrooms need attention, they must be kept clean and bright.

The beds all need an airing before the coming night.  
Then she must get a dinner, for the men-folks want to eat,  
And it must be a winner, so the men will have a treat.  
Some days she does the washing, —some days she mops the floor.  
For men-folk always track around when they come in the door.  
And she must mend and iron clothes for all the family—  
No time to visit all around like city folks you see.  
When supper is all ended, and the men can sit and read,  
There are socks that must be mended or holes will go to seed.  
I always thought the farmer's wife a builder of our Nation,  
Yet when the census man comes round he writes, "No occupation"  
—Bristol, S. D. Era.

NEW YORK WANTS ITS EGGS WHITE

Shippers Will Find It Profitable to Meet Desires.

New York city is particularly about its eggs and local shippers find it profitable to meet the requirements of this market, says Prof. J. C. Huttar of the New York State College of Agriculture.

A good case, new white fillers, and white eggs, uniformly graded, give the New York buyer confidence in the quality of the eggs. If a certain brand has a reputation for uniform grading, a buyer may examine a few eggs in one or two cases and buy accordingly.

When a patron in a restaurant orders two fried eggs and the waitress brings him one with a light yolk and the other a golden orange, he thinks something is wrong with one or the other, and sends them back to the kitchen, even if they are perfectly good eggs, a New York city restaurant buyer recently told Professor Huttar.

A light yolk, or one that appears light before the candle, is in demand. One class of trade discriminates heavily against an orange or red yolk. Yolks appear reddish before the candle if they have been subjected to warm temperature for more than one or two hours. No doubt this is the way most of the New York state produced eggs got their had name, says Professor Huttar.

Making Poultry Houses Comfortable for Winter

It is impossible to remodel old-type poultry houses so that they will provide fresh air and at the same time control frost and moisture as satisfactorily as the new, well planned one will do. There are, however, some simple things that can be done for the old poultry house that will make it much more comfortable in winter.

There is probably nothing that can be done to make an old house more comfortable than to put in a straw loft overhead. If the loft is built straight across just enough to be out of the way so that it is not necessary to stoop, overhead will be reduced and a proper temperature can be maintained. The thickness of the layer of straw should be anywhere from 12 to 18 inches after it has settled.

Shutter-ventilators are much more reliable for ventilation than muslin curtains and in remodeling a shutter-ventilator can often be substituted for one sash of an old window.

Floor space for birds may be increased by constructing dropping boards and at the same time sanitary conditions will be greatly improved. Many common poultry diseases are spread through infected droppings.

## Poultry Facts

Guineas are noisy enough to scare away poultry thieves.

Chickens would rather roost outside than in a mite infested house.

The constant culling of the poultry flock is a most commendable practice.

Poultrymen who have been using lights on their laying flocks should plan to discontinue them about the first of April.

Legume hay that is leafy and of good quality makes a very satisfactory substitute for the succulent green food of summer.

The best evidence a poultryman can use in judging a breeding male before he is tested is the production performance of his mother and sisters.

A typical hen usually lays the greatest number of eggs the first or pullet year, then drops off about 15 to 20 per cent each succeeding year.

When the young chickens are raised on clean range, kept in clean houses, and given clean feed and water it is seldom necessary to give any kind of poultry remedy.

It is important that the hay be cut from young, immature plants that are largely leafy in content. It should also be carefully cured so that it will retain its bright green color.

Alfalfa meal makes a fair substitute for green feed in winter, but it would be better to supplement with some form of succulent green feed, such as sprouted oats, beets, cabbage, or pumpkins.

Larger prospective egg production indicates that prices lower than last year are probable, although the demand for storage should be good and the volume of spring consumption should be fully as large as that of last year.

The flock owner who each day during cold weather devotes a few minutes to making the layers comfortable will be well repaid. Make sure that the pullets are scratching in dry litter, receiving the necessary green feed, and are not forced to drink water from a pall of ice.

## GOLDSTON

"Wild Ginger", a play presented by the Literary Society Friday night was a success from every standpoint netting \$13.70 which is to be used in buying song books and other necessities. The music was furnished by J. E. Ware, Mr. Walling, and Mrs. Dick Eichelberger. Visitors from Brice, Groom, Clarendon, Windy Valley, Hedley, and Bethel were present.

Miss Emma Ayers of Clarendon spent the past week visiting her sister, Mrs. Jim Pharr.

The Pirates were winners in two base ball games this week. They defeated Bethel Wednesday, and won over Salisbury Friday. They also played one with the all Stars of Brice Thursday which was a tie.

The young folks enjoyed an entertainment in the home of Mr. Dan Richardson Saturday night. Last Monday evening while Mr. Syril Aduddell was returning home from Clarendon, in some way he lost control of his car and it turned over, he was bruised and cut up very badly about the face. He was rushed to a sanitarium at Clarendon, it was necessary to take some thing like 30 stitches on his face. We are glad to say that the last report he was getting along nicely. Mr. Cleo Aduddell of Chamberlain has charge of his store while he is in the sanitarium.

Miss Nixon who is teaching school here, and Mr. Duckworth of Canyon were quietly married last Saturday. Their many friends join in wishing them much happiness together.

Mr. and Mrs. Alfred Estlack, also Miss Ethel Hutto, of Clarendon attended the party at Mr. Richardson's Saturday night.

Every one has enjoyed the nice rains which have fallen here the past week.

After a pleasant afternoon of games, delicious refreshments were served to the following: Joan Neal, and Ernest Thompson, Max Webb, Bobby and June Moreman, Eddie Mae Land, Marie Clawson, Anna Belle Covey, Jack Battle, Winks Curtis, Almada Bowlin, Don Hickey, Virginia and Freddie Watt Edith Earthman, Gerry Hunt, Billy Bridges and the honoree Mary Rains Bridges.

## Hedley Owls

After winning the Bi-District championship, the Hedley Owls gained the right to enter the District meet at Canyon Feb. 20-21. The Owls won two of the three games played with the Goodnight Wild Cats, losing the first with a score of 26 to 15, winning the last two with scores of 14-13 and 13-11.

The Owls drew the Canadian team in Canyon Thursday and suffered hard luck and defeat. Holland sprained his ankle early in the game and Culwell fouled out during the second half. The final score was 24-30 in favor of Canadian. The Owls met this defeat with true sportsmanship and Hedley is indeed proud of the accomplishments of this fine team.

Quite a number of people have shown their appreciation of the Owls in various ways. Mr. Herlie Moreman gave the boys a "feed", the Lawrence Cafe fed them after the game Friday night. Sime Adanson treated them to a dinner Saturday night, W. C. Maxwell gave them a theatre party. Mr. and Mrs. Elvin Hickey gave them

A contest offering fifty thousand dollars in prizes has been announced by R. J. Reynolds Tobacco Company, makers of Camel Cigarettes, with special announcements in practically every newspaper in the United States. Eight days are allowed for submission of essays, the contest closing at midnight on March 4.

Prizes will be awarded for the best answers to the question: "What significant change has recently been made in the wrapping of the Camel package, containing twenty cigarettes, and what are its advantages to the smoker?" Answers are limited to two hundred words in length, must be written on one side of the paper only and are to be mailed to the contest editor, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

First prize is twenty-five thousand dollars, with second and third prizes of ten thousand dollars and five thousand dollars. Numerous smaller prizes will also be awarded. Judges of the contest are Ray Long, president of the International Magazine Company and editor of Cosmopolitan Magazine; Roy Howard, chairman of the board of the Scripps-Howard Newspapers, and Charles Dana Gibson, internationally known artist and publisher of Life Magazine.

## OUR WEEKLY CHURCH CHAT

"The Assistants of Satan" (Part II) (Continued from last week.)

Last week we learned that the assistants of Satan: 1. claimed neutrality in relation to Christ. We proved there is no neutral position, 2. They claim that morality without belief in Christ will save. We showed you that that theory has been tried for thousands of years and that it has failed. We submit the third and last argument in this "chat".

They claim that soul-saving is unnecessary. The universal wreck of character which man has suffered, many have denied. In the face of opposing testimony they have asserted that man is rising to become a super-man or god. Jesus denied this, more than once, when He said that unless we are gathering souls to Him we are sending them to destruction, he was giving us a great lesson on soul-gathering. Unless we are GATHERING—not to organizations—but to CHRIST AND HIS CHURCH, we are only helping Satan. This is a harsh statement to make, but the text requires it (See Matt. 21:30). May God help us to measure up to this standard.

AN INDICTMENT. The assistants of Satan are guilty of hypocrisy. They do not fly an alien flag, but sail under Christian colors. They are like Herod with a desire on his lips to worship Christ and a desire in the heart to kill Him. They are wolves in sheep's clothing. Infidels, skeptics, and unbelievers are guilty of spiritual suicide because they do not accept the only Savior God has given. The indictment includes also soul-murder. As truly as Pilate was guilty of sending Jesus to the Cross and Nero the early Christians to the stake, so Satan's assistants have sent many to eternal suffering.

Are you an assistant of Christ or Satan? You are helping either one or the other. Satan offers no advancement—and the pay is death, even after years of service.

to him Jesus has thrones and rewards for His workers. Resign now if you have been a politician for the devil, by either trying to be neutral or manifesting indifference to the church and Christ. Let Jesus install you as one of His Kingdom assistants, to help put down the rebel Satan, and to destroy his dominion. Are YOU for Christ or against Him? YOU cannot be BOTH or NEITHER. Decide now. (See church notice elsewhere.)

**Temple of Truth**  
By the Apostle

Migosh! The Atlanta Constitution is trying to steal our thunder. Just when the Apostle was staying awake nights writing to notables asking them to join a "potlikker" club, along comes the Constitution and begins the same tactics in an underhand manner.

Here's how the governors stand to say nothing of Bishop Cannon who wore himself out counting the hard likker that was used to bribe the Southern Democrats:

Gov. Miller of Alabama is a potlikkerist if it is made out of the leavens of snap beans. (This is impossible. Potlikker is born of turnips.)

Gov. Pollard of Virginia is against potlikker in any form thinking it is some form of bootleg whiskey and he deals in politics in a proli state.

Hon. -Dr. -Gov. - Senator -Elect Long of Louisiana is a potlikkerist after our own heart requesting only to be allowed to drink his cornbread in it which is the only sensible thing to do with it except swallow the whole mess afterwards.

Gov. Alfalfa Bill Murray of Oklahoma makes a special request that he be allowed to dunk cold biscuit in his. Alfalfa grew up in the wheat belt and will likely hold out for wheat bread unless his Legislature agrees with him.

Gov. Russell of Georgia endorses potlikker in any form and is willing to take it wet or dry, corn pone, cornbread or cold biscuit. There's a politician, boys, and nothing else.

Gov. Sterling of Texas knows his politics and endorses potlikker in any form and adds a ringing testimonial for corn bread or corn pone.

The Governor of Minnesota wants to know if you 'take' it or rub it on which reminds the Apostle of a living example of the elixirous qualities of the drug right here in Clarendon, to-wit:

D. O. Stallings was a hopeless rheumatic at Bovina in 1902. After taking 49 potlikker baths he was able to defend himself in any kind of an argument—verbal or manual. He is now testing out its merits on restocking a 'hair-shute appendage' which means a bald head in plain old every day American. (Here's hair to you, D. O.)

Genuine potlikker is made from the creamy juice of turnip water after the boiling is done and somewhat resembles soup, only its looser. It may be taken inwardly three times a day, or rubbed on according to the ailment affecting the mind of the 'taker' or 'rubber'. It is devoured with avidity by the ladies, seized with paroxysms of delight by the men, and cried for by the children.

Clyde Douglas is selling postage stamps at cost this week and throwing in drinking water and other conveniences. Ask him for other special bargains.

Next to listening to a jazz band, the chomping of false teeth is the worst.

Roy Terrell, president of the Hound Dog Singing Association of Gulley Jumpers was in and promised the Apostle a hand carved pipe. If that old man brings in the

When asked how he was getting along, a local young man said: "Just fine, one more payment to the doctor and the baby is ours."

The College Hill widow says she would rather have a husband that she could be fond of than one she is proud of.

A lady in speaking to the Apostle this week about the reckless driving on the streets said: "I am praying that you will get run over and at least a leg broken so that you will protest more through your paper, and my prayers are generally answered."

Now that's causing a lot of worry. Why can't that woman practice on mountains and things like they used to long ago. It would be much safer for the Apostle and besides, if there is a leg busted up, she'll be that last person to hear about it. She'd better tackle the weather, bootleggers, politicians, and other bad hair, spit end cigars and other social evils to say nothing of her old man who loafs on the street all the day while she frails suds to make a living for him.

This hot weather is breeding pomes and the pain is started. This column may have one before the end comes.

**Cost To Produce Broilers**

By R. M. Sherwood

Have you heard anyone say, "My chicks are eating their heads off," meaning that they are eating more feed than they will sell for? I have heard this statement many times but can seldom, if ever, believe it. There is a rather definite relationship between the amount of feed consumed and the growth of an animal. With broilers and friers this varies somewhat, but it is not uncommon to produce a pound on less than three pounds of feed. In an experiment at the Texas Station we tried four different rations and produced a pound of broiler on from 2.4 to 2.6 pounds of feed. We certainly could not say that these broilers ate their heads off. There are, of course, many other expenses to be considered and we are not recommending promiscuous broiler production. We are recommending that poultry raisers use their equipment for as long a season as possible, and those who have equipment for growing chicks for egg production can well afford to grow some broilers and friers before they grow their stock for pullets, or if they can secure a satisfactory market they might in some cases grow some later chicks for broilers and friers. In the case of those people who have the equipment, the accounts to be charged to the broilers and friers would be the original cost of the chicks, cost of heat, and cost of feed. The difference between those costs and the selling price of the broilers or friers will, during the early season when prices are good, show a good labor income. With the later hatched chicks the chick cost and heat cost will be enough to offset the lower sales price, so in many cases there is a satisfactory labor income from the late chicks also. The market during the later part of the season does not want the light breeds, but early in the season in most markets the light weight breeds sell satisfactorily.

Let us remember that if we take proper care of our chicks we should produce a pound of weight on from 2.5 to 3 pounds of feed. It is, therefore, impossible for them to eat their heads off.

- Extra Special Mince Meat**
- 1 lb. lean beef
  - 1/2 lb. suet
  - 1/2 pkg. seeded raisins
  - 1/2 lb. currants
  - 1/2 pkg. seedless raisins
  - 2pkgs. candid citron
  - 1 pkg. orange peel
  - 1 pkg. lemon peel
  - 1 1/2 cups sugar
  - 3 cups sweet cider
  - 2 tsps. salt
  - 3 lbs. apples, chopped
  - 2 tsps. cinnamon
  - 1/2 tsp. allspice
  - 1/2 tsp. nutmeg
  - 1-3 cup lemon juice
  - 8 oz. cranberry sauce
  - 1 cup nut meats
  - 1 cup cooking wine

Run beef and suet through the food chopper, place in a deep kettle with dried and candied fruits, sugar, salt and cider. Simmer for about 30 minutes. Add all the remaining ingredients except the nut meats and cooking wine. Cook slowly until thick, add nuts and wine. Pour boiling mixture into sterilized glass jars; seal, cool and wrap as desired. Makes 3 quarts.

**Red Cross "Executives"**

The Curant asked to be supplied with the payroll of the Red Cross and was handed the yearly report for the year ending June 30, 1930. Here it is:

Under \$600, 15 people; \$600 to \$1000, 73; \$1000 to \$1500, 244; \$1500 to \$2000, 262; \$2000 to \$2500, 191; \$2500 to \$3000, 96; \$3000 to \$4000, 61; \$4000 to \$5000, 20; \$5000 to \$6000, 13; \$6000 to \$7300, 7; \$7300 to \$12,000, 7; \$12,000 to \$15,000, 1.

A note at the bottom of the table adds this does not include itinerant or other chapter workers, nor does it include temporary personnel used in disaster relief work.

The showing there are more than 100 Red Cross executives, (we presume they are executives) drawing salaries of from \$5,000 to \$15,000, may or may not square with your idea of "working for charity." Millions of men in this country equally capable would at this time gladly give of their time for a half or a quarter of those sums.

Yes, we are aware it requires "executive ability" to manage a \$25,000,000 corporation, yet we have many governors of states that are \$500,000,000 corporations who do not receive anywhere near a \$15,000 salary. Our own govern-

nor receives \$5,000 a year, and the combined salaries of our state officers is but a bagatelle to the Red Cross combined salaries for only a \$25,000,000 corporation. Even the great Mr. Mellon does not receive as much as the chief underling for Mr. Payne, and Mellon is managing a \$100,000,000 corporation.

We extend due credit to the countless Red Cross workers over the country who give freely of their time and money for the great cause of charity. To them all honor. They it is who are the bone and sinew of the Red Cross in gathering the immense sums given to the national organization. But we will be frank to say we cannot enthuse over the salaries of those who draw down the salaries of \$5000 or more in expending money had from people or charity who have less than a third that salary to live on. Too much money given to charity sticks to the fingers of those administering this charity, we should say.

Perhaps we have not the proper "perspective." Perhaps it is just mere jealousy of great "executives" who draw from \$5,000 to \$15,000 salaries. To put upright, we invite Curant readers to use the mail bag in expression as to their sentiments in the matter.

Bottineau, N. Dak., Curant.

**The BEST Gray Hair Remedy is Home Made**

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

### Collingsworth County Votes Courthouse Bonds

By a vote of more than two to one, citizens of Collingsworth county Saturday voted to spend something like \$175,000 in erecting a courthouse in keeping with the present day demands for a more commodious structure.

The bond issue was defeated on two former occasions. The present building was erected in 1890 and is far too small to answer the purpose at the present time. Work is to begin on the new building just as soon as the bonds are approved and sold.

E. M. Peterson of Peoria, Illinois, elder in the Christian church at that town, visited here Sunday and conducted the men's Bible class and also made a talk to the children, his efforts being highly complimented by those who heard him. Mrs. Peterson was also present.

#### Wickersham Report Sums Up Prohibition in Texas

In looking over a copy of the Wickersham report, one is interested in finding any reference, good or bad, relative to prohibition in Texas.

The report states: "Plenty of good, moderate priced liquor is available in both Dallas and Ft. Worth. Foreign liquor is also available in small quantities but at a higher price."

"Few of the southern counties could by any stretch of the imagination be called 'bone dry'. In Galveston the statutes against liquor, gambling and other vices are practically ignored."

Miss Clarice Fuller of Pampa spent the week end here with her parents, Mr. and Mrs. Fuller.

Miss Lucile Park spent the week end with relatives and friends at McLean.

Miss Ruby Landers of Amarillo spent the week end with home-folks.

Mr. and Mrs. Cleo Norwood announce the birth of a son, George Ellis Norwood, born on the 20th.

T. M. Peebles, residing east of town, is recovering from a serious pneumonia illness.

Mrs. Homer Mulkey had as her guest over the week end a sister, Mrs. W. B. Ponder of Amarillo.

Mrs. Sella Gentry and son F. B. returned from Marlin Wells Thursday where they have been for the benefit of the water.

Rev. W. M. Murrell and Mrs. Eula Cox and Mrs. O. T. Smith motored to Amarillo Thursday visiting friends.

Mr. and Mrs. Chas. Dean of Dimmitt spent the week end here with her parents, Mr. and Mrs. C. M. Lane and other relatives.

Mrs. W. B. Holtzclaw and sons J. D. and Carroll and Miss Gertrude Shepherd heard Padarewski at Amarillo Friday night.

### Clarendon Hatchery Makes Good Hatching Record

Reports from the Clarendon Hatchery state that the average hatch from fertile eggs runs an average of almost ninety percent. Mr. White states that a number of conditions effect the hatching of the eggs, but these conditions affect the eggs before they reach the incubators.

Too many poultry growers fail to have enough roosters and hence get infertile eggs. The average hatches made the past few days is up to the standard and equal to the best hatcheries anywhere in the nation.

Mr. and Mrs. F. A. White and daughters, Misses Dorothy and Majorie and Mrs. R. H. Cline were in Amarillo to hear Padarewski and were delighted with his ability.

Misses Nova and Nell Cook were Quitaque and Silverton visitors Sunday.

Mr. Charley Bullock who has been in the hospital here for some time was removed to his home in Antelope Flat Sunday.

Mrs. N. S. Bush of McLean spent the week end with her daughter, Mrs. Fred Russell of this city.

Mrs. Angie Sisco and daughter, Mrs. Bill Rodgers of Hobart spent the week end with her niece, Mrs. Mollie Jordan.

Mrs. W. T. White and her friend, Mrs. Williams of Hedley, spent the week end here with her son, Frank White, Sr. and family.

Mr. and Mrs. G. L. Forrester of Seymour, Texas have been visiting their daughter, Mrs. Cecil Lonley of this city. Mrs. Longley returned home with her parents.

Mrs. J. E. Mongole and her daughter Miss Mabel have just returned from Dalas where Miss Mabel underwent a very serious operation of her eye. We are glad to report she is doing nicely.

Mrs. Everette Clark was here for the past several days from Pampa. She came to be with her mother, Mrs. C. M. Lane, who has been quite ill.

Mrs. W. R. Blocker, daughter of Mrs. C. M. Lane and who was called here some days ago due to the serious illness of her mother, returned to her home at Texas City Saturday where Mr. Blocker is principal of the schools there.

## LELIA LAKE SCHOOL NEWS

### WANTED

"Rose Lawn", a three-act comedy in which the pupils, teachers and friends of the school took part was the big event of the week. The funds from this play will go toward purchasing basketball suits for the girls.

This play was sponsored by Miss Vera Garland, teacher of the 6th grade. The Clarendon High school orchestra directed by Gus B. Stevenson, furnished excellent music.

Pupils are busy practicing for the Interscholastic League contests.

Six new pupils enrolled the past week.

Miss Lucy Stogner and her pupils presented a pretty play at Chapel Friday afternoon.

The library now contains some 550 volumes and has been moved to the study hall where a latticed partition adds to the beauty and convenience.

## LELIA LAKE SCHOOL NEWS

### WANTED

"Rose Lawn", a three-act comedy in which the pupils, teachers and friends of the school took part was the big event of the week. The funds from this play will go toward purchasing basketball suits for the girls.

This play was sponsored by Miss Vera Garland, teacher of the 6th grade. The Clarendon High school orchestra directed by Gus B. Stevenson, furnished excellent music.

Pupils are busy practicing for the Interscholastic League contests.

Six new pupils enrolled the past week.

Miss Lucy Stogner and her pupils presented a pretty play at Chapel Friday afternoon.

The library now contains some 550 volumes and has been moved to the study hall where a latticed partition adds to the beauty and convenience.
