Boss 45 Years Ago Visits Hired Hand

Country Boy Worked in Store Three Years, Then Came West on Bicycle

When Ben Franklin advised young men to "go west," he failed to specify the method of travel. Homer Mulkey concluded that a bicycle was plenty good enough, and made the trip and stuck.

Forty-five years ago W. B. Schrimshire of Mansville, then Indian Territory, employed Homer Mulkey as a day laborer in building a store. A clerkship was the next job where Mulkey gathered ideas for three years. At the end of that time, his feet began to itch to tread new fields.

His only method at hand was on a bicycle. The trip was made by Chillicothe to see his mother, thence to Silverton where high wind held him up three days. A snow at Farwell blocked him further and he rode the cushions to Roswell. Later he returned to this section and has stuck it out over thirty years.

Mr. Schrimshire is here this week visiting Mr. and Mrs. Mulkey. Not an old looking fellow either, he gets around lively and the 'boys' are having a real enjoyable visit talking old times, and that after 45 years.

GOVERNOR DEMANDS A VOTE.

Failure to vote on betting repeal at this session will necessitate the Governor calling a special session after May 22, which will cost the taxpayers something like \$200,000.

This session should not be necessary, and would not if the Senate could be induced to discharge its plain obligation to the state.

Supporters of the race track will attempt to blame the Governor for the special session. The reading public will instantly understand that a stubborn minority of the Senate held up the issue, and attach no blame on the Governor who simply asked that a vote be taken. The Governor has at no time attempted to dictate the voting on anti-race track gambling.

Texas lawmakers made the big mistake in legalizing race track gambling which attracted men, women and children and worked a detriment upon every class within a large radius adjacent to every city where races were held.

Mr. and Mrs. E. L. Betts of Clovis N. Mex. visited his sister Mrs. C. A. Burton, and also attended the graduation exercises of their son, Linwood.

FROM UTAH Sees a "torture test"

"Believe me," he writes, "I KNOW Hudson and Terraplane are the No. 1 CARS. I saw what they did on the Salt Flats"

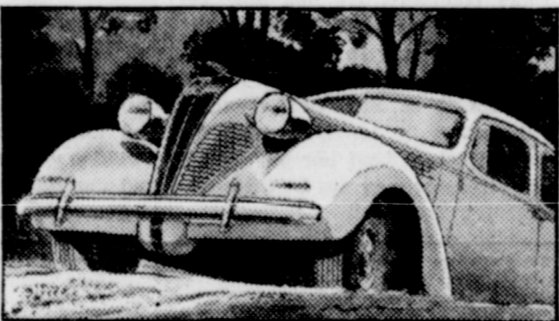

"I saw a LOW PRICED car beat the best any closed car had ever done before! That 1937 Terraplane... a stock car, mind you, picked at random by the American Automobile Association Contest Board officials... went 1,000 miles out there on those great Salt Flats, averaging 86.54 miles an hour! What a 'torture test' of endurance.

"Then a Hudson... 210.4 miles in 24 hours! Out here, we've seen a lot of stock cars come to the Salt Flats and try for that 24-hour record... the prize of them all. But none ever touched what we saw that 1937 Hudson do! 87.67 miles an hour... for a full day and night! 32 official records for Hudson... on top of 8 for Terraplane!

"Then those California records! Terraplane beat every other leading low priced car... and Hudson beat every other Eight... in the Los Angeles-Yosemite Economy Run. And then... the Wrightwood Canyon climb! Up 9 wicked, twisting miles in 8 minutes, 20 seconds for Terraplane; 8 minutes, 0.4 seconds for an official Hudson record.

"You can bet it's Hudson for me! Those people know how to build automobiles, Art. More power, More size and room. More economy and safety and endurance than any other cars anywhere near them in price, proved in official tests. I've got mine... and once you drive one, you'll say it's your No. 1 CAR, too! See if you don't!"

No. 1 Cars of the Low and Moderate Price Ranges

No. 1 Wheelbases... 117 inches in Terraplane; 122 and 129 inches in Hudson.

No. 1 Horsepower... 96 and 101 in Terraplane; 101, 107 and 122 in Hudson. Double carburetion in Super Terraplane and all Hudson Sixes and Eights.

No. 1 Roominess... 55 full inches of front seat comfort for three.

No. 1 Driving Ease... with exclusive Selective Automatic Shift (an optional extra).

Ask about the new low-cost Hudson-C.I.T. Time Payment Plan—terms to suit your income

No. 1 Safety... with exclusive Duo-Automatic Hydraulic Brakes and bodies all of steel, including roofs. New Double-Drop "2-K" Frame.

No. 1 Economy... 22 miles per gallon for Terraplane; 22.71 for Hudson in Los Angeles-Yosemite Economy Run.

A finishing school is the place where the old man sees his finish by the time the daughter graduates.

Down in East Texas four crooks walked out of jail and found an officer's key in a car convenient for their escape. Any officer who leaves a key in his car around a jail is either a crazy or a crook.

In case you doubt it, see Sub-section G, Section 104, Part IX, (Revised) SRB-101 on reclamation. They are darned hard to reclaim.

Ever since man learned to comb his head and cook his meat instead of eating it raw, he has had a hankerin' for better pastures about the time he gets penned up in a hoosgow. "He has went" many a time, and too often leaves one or more dead in his trail.

Among the presents suggested for baby in 1898 were shirts, long day and night dresses, flannels, bands, booties, stockings, ruffled petticoats, etc. In this day, the

youngster has no need for anything more than a diaperette which is something akin to the size of a feminine hanky. Anyhow, we are cutting expenses and saving the mother time and trouble.

Charley Gates (Hell-n-Mariah) Dawes says there will be another panic in 1939. Charley, Hoover's vice president, also head of a Chicago bank, borrowed NINETY million dollars from Uncle Sam. They paid back NINE million and then went broke. Nothing was done about it either. He's probably hoping for another panic like the one Hoover started.

A fortune teller may talk about seeing a man's character, but it takes a panic to pull it out to where the public can see it.

A bait can or an old pipe are two things that never become so stale but what they have admirers.

The trailer-house has gone a long way in putting the grocers on a cash basis. His only security to offer is a back-fire warning you when he is leaving.

Did you lose an uncle during clean-up week? One was found asleep in the dump yard Saturday night.

Another Big Worry

It just doesn't seem natural that women would wear some of the new-fangled shapes on their head except under compulsion of some sort. Think of them in former years; look at them now; ponder over the limit of the future! The list includes Martian helmet, witch's cap, flower pot, Borgia bonnet, Greek chaplet, peach basket, off-the-face, over-the-eye, jockey, sweet girl graduate, village

idiot, Gothic maid, Highland lass, Puritan miss, aviatrix, Hail Columbia (this is a wow!) what's it. Gentlemen of the jury (and ladies of the Federal court) are these the selections of free women, or they selected by half-witted frogs in France and pounced upon by our noble but helpless femininity?

Old-Timer Forgot

Down near Lubbock old man Geo. Wolforth for whom a station was named, states that back in '85 cowpunchers roped catfish from Yellowhouse draw water holes with copper wire. As one who fished that way, let it be known that bear grass was used. No one had ever seen copper wire.

A woman does not make as big a fool of herself as a man, but she does it oftener.

Now is the time to spray your grape vines with arsenate of lead. Get the poison at a drug store and beat the worms to it.

The Last Round-Up

Over in Lamb county the folks are getting ready to vote on whether they will move the courthouse. If it is located on sandy land, the hard land boys want it moved. If it is on hard land, the sandy land boys want it moved believing that the reclamation or soil erosion plan will make the sand better in the future. A long time ago they loaded a courthouse on wheels at night and did a lot of moving in West Texas. Often rifles, shotguns and sixshooters were brought into play. Now they don't even gouge out eyeballs. It's done by vote. Lamb county is getting an oil play and her growing pains is said to be something awful.

King Made A Talk

Did you hear the King's speech coronation day? It came over the radio clear and distinct. One thing about it, he used English and not a bit of this bowery and alley-rat broad "a" English that a lot of them use when they get over here. His voice sounded like that of a Canadian, and that's about the same brand that we use. He cut the "swank" and used common sense.

Just Won't Down

Grit that is warranted not to rip, crack, ravel, get down at the heel or fade in a drouth is the kind possessed by the Panhandle wheat growers. They did not meet until after the showers, but they had their annual meet just the same. The Wheat Growers, Inc. have their ears whipped down for the 7th successive year, but some think they will raise enough for seed yet. Each year they get together and plan a year ahead. You can't find more determination to win in any bunch of men anywhere.

War Practice Field

On Spanish territory where the nations have their war practice going on, the Germans are said to have the best antiaircraft guns. They are dead shots on planes. The Russians are said to be the best aviators. The way they drop bombs is something pitiful. Of course it is hard on the women and kids and others not interested in war, but they are victims of a bad location. If the thing keeps up, and these war mad folks from all nations but in and get killed in Spain, it will save us a lot of trouble at home. Every nation has her military observers on hand and are really making a big show out of it.

Old Man Texas Talked

Coming back from Savannah, Mo. recently, John Sherman Morgan, than whom there is no finer gentleman, sat on the through Kansas train surrounded by a bevy of women inebriated. He says they slobbered and jabbered. Finally one gal said, "Daddy, you livesh doan Texesh?" And old man J.S.M. up and said: "You mighty right and proud of it because I never saw no such dam mess as this in Texas, and I've lived down there nearly 50 years!"

Childress Votes For Fish Hatchery

CHILDRESS, May 19.—A fish hatchery with a production capacity of between 100,000 and 150,000 fish annually will be constructed here the city council voted Monday night.

In charge of building the project will be Henry B. Minnis, supervisor of a state hatchery at Dundee. The hatchery will be put in next spring.

The pond will be created by adding a concrete gate valve to the rearing pond at the Childress lake dam.

JUST GONE BEFORE

"How mournful seems in broken dreams
The memory of the day
When icy death has sealed the breath
Of some dear form of clay!"

When pale unmoved, the face we loved,
The face we thought so fair
And the hand lies cold, whose fervant hold
Once charmed away despair.

Oh, what could heal the grief we feel
For hopes that come no more
Had we ne'er heard the scripture word
"Not lost but gone before."

Oh! there at last lifes trials past
We'll meet our loved once more,
Whose feet have trod the path to God
"Not lost, but gone before."

"HOW DOES A KING WOO?" JUST THE WAY WE ALL DO!

Director of "The King And The Chorus Girl"
Found That Was The Answer

Mervyn LeRoy is very glad that he held stubbornly to his idea that "all young men in love act pretty much the same way."

Despite his long experience, he had to tackle a new problem when he started making of "The King and the Chorus Girl," the Warner Bros. comedy romance which introduces Fernand Garvet, noted Continental star to American audiences, and which will be seen at the Pastime Theatre Sat. prevue, Sun. and Monday, May 22-23-24.

LeRoy had directed all sorts of lovers—soda clerks, business men, ex-convicts, coal miners, college students but never once a King. How, said LeRoy to himself, would a King embark upon an amorous adventure? Perhaps some questioning among his friends might help.

Friend Number One said: "A King would make love in a very dignified, restrained manner. No excitement or hurrying."

Friend Number Two said: "A King would be brusque and com-

manding. He'd expect the gal to obey him and no stalling around."

Friend Number Three said: "A King would go in for soft music, throbbing words, moonlight. Then, following the lead of his ancestors, he'd probably propose in four syllable words."

LeRoy weighed all the advice and said something that sounded like, "Nuts!" Whereupon he proceeded to follow his own hunch, which was to have his cinema King make love exactly as a commoner would.

"Be very ritzy in all the other scenes but nix on the fancy stuff when we get to the romance," he told Garvet, while Poan Blondell, who plays the role of chorus girl, smilingly listened. "Just act like anyone in love. Ever been in love yourself?"

"Certainly," Garvet responded with a touch of spirit.

"Were you able to think of anything else when it first hit you?"

"Of course not. I couldn't!"

TRI-STATE FAIR HORSE RACING MAY BE LAST RACE

AMARILLO, May 12.—Better horses, a better track, and a lower admittance price to the grandstand will feature what may be the last legal horse race in Amarillo.

The Tri-State Fair's Spring Meeting will be held here May 19 through the 29th, Sunday excluded.

The possibility that the state of Texas will outlaw horse racing this summer is being met with pro and con arguments, but the Tri-State Fair Association is taking no part in the controversy.

"We are spending our time improving our track, planning bigger and better meetings, and working constantly toward refinement to do our best to put this great sport on a clean, honest basis," said Mason King, Racing Director.

Famed throughout the country as one of the leading tracks in the matter of fair play for all concerned, the Tri-State's Spring Meeting this year will boast its greatest entry list of thoroughbreds.

Thoroughbreds which have been consistently good performers at Arlington Downs and other major tracks will run at Amarillo. Reason for this shipping of fine stables to the Tri-State is because horse owners find the meeting a perfect fill-in between major meetings.

Several horses are now quartered in the Tri-State's stables. Most of them came here directly from Arlington Downs. The only major races to which these horses might be shipped are at Kansas City and Aurora, Illinois, and both of these meetings come after the Amarillo dates.

The track is in perfect condition. Trainers are sending their horses through daily workouts.

Admittance price for grandstand seats will be 40 cents for this meeting. Tri-State officials decided last week. Previously, the price had been advertised as 50 cents.

Scientific investigation has proved that most of the phenomena we refer to as magic are pure trickery. There is Always Worship Fellowship :: Service

As we near the close of our third years ministry in Clarendon, we have a feeling of joy unspeakable to a people whom we are delighted to love. You have been good to us far beyond what we deserve. Your faithfulness and loyalty to your church has been surprisingly devoted considering the burdens under which we have advanced. We have never had a disappointing crowd to preach to. You have always been sympathetic and co-operant as we tried to bring God's message to your hearts. You have responded always to the teachings of his great word.

We will enter our fourth year as church and pastor the first Sunday in June with the beginning of a Young People's revival. Miss Helen Gardner and Rev. Kelly Barnett will lead in this special effort. We are happy to believe that you will lend yourselves whole heartedly in this effort to make our church life what it ought to be for our Young People. The balance of this year is going to be given to an intensive effort at soul-winning, teaching and training for service. We anticipate the happiest summer in our whole ministry right here in the foot hills of the plains country.

Regular services Sunday morning and evening at the Baptist Church. Delight yourselves and us by being present.

WEEKLY SERMONETTE FROM THE CHURCH OF CHRIST

W. Wallace Layton, Minister

"THOUGHT PROVOKERS"

If one can be saved without faith, why did Paul say it was impossible to please God without faith? (Heb. 11:6)

If God promises to give faith when we ask for it, why are we told that faith comes by hearing, and hearing by the word of God? (Rom. 10:17)

If "faith alone is a wholesome doctrine and very full of comfort", why did James say, faith without works is dead? (James 2:20)

If one becomes a Christian when he believes, why was not King Agrippa a Christian? (Acts 26:27, 28)

If one can be saved without obedience to God's commands, why

is it said that "having obeyed from your heart the form of doctrine ye were THEN made free from sin"? (Rom. 6:17,18)

If the Lord will save without baptism why did He command it? (Acts 10:48) And why did Peter say it saves? (I Peter 3:21)

If sprinkling and pouring are scriptural modes of baptism, why did Paul say there is ONE baptism—(Eph. 4:4-6); and that it is a burial? (Rom. 6:3,4)

If we can get into Christ without Baptism, why did Paul say "we are baptized into Christ"? (Gal 3:27)

If we can be born again of the spirit only, why did Jesus say we are born of the water and the spirit? (Jno. 3:3-5)

If infant baptism is right, why did Jesus say to baptize those who believe (Mark 16:15, 16) Remember an infant cannot believe.

If infants are sinners, why did Christ teach that we must become like them to be saved? (Matt. 18:3)

If God has promised salvation out of the church why did Christ die for it? (Acts 20:28) (Eph. 5:25-28)

If man can be saved because he

is honest and sincere, why is it said that the truth shall make ye free? (Jno. 8:32) Remember that it is possible for an honest and sincere person to believe and practice something that is not truth.

SEIBERLING'S

Patented Vapor-Cure Process

MAKES TIRES WITH NO WEAK SPOTS!

All tire manufacturers, with the exception of Seiberling, vulcanize their tires in molds where rubber is pressed against blistering steel. Since rubber and cotton are vegetable products, heat burns the life and strength out of them. All Seiberling tires are cured by the Patented Vapor-Cure process as shown in the photograph at the right. This process of gentle steam vapor preserves the life of the cotton and rubber and makes a tire with No Weak Spots.

A SEIBERLING TIRE FOR EVERY PURSE AND PURPOSE!

Whether you select a Seiberling Special Service Rib tread design, a Special Service Low Pressure tire design or the famous Seiberling Standard Service tire, you can rest assured that you have a tire incorporating every construction advantage known to Seiberling engineers, with the exception of the Air-Cooling principle. Mother of Mrs. Wheeler Dies Suddenly Friday At Greggton

Young Democrats To Meet At Dalhart

DALHART, May 19.—"The ad valorem tax system in Texas is a failure," declared Dallam County Judge Wilson Cowen today. There are many other moot topics such as the Dust Bowl, poll taxes, natural gas conservation in the Panhandle, local law enforcement, which should be discussed at the West Texas Young Democrats annual convention in Dalhart Saturday, May 29, because into the hands of these Young Democrats these issues are being rapidly given.

Continuing on the ad valorem tax system, "Judge Cowen said, 'It shows a high per cent of delinquency; is unfair and in some cases discriminatory in valuations between counties and between sections of the state, because each county and therefore each section has a different board of equalization, each of which figures valuations from a different basis.'

"This brings on a host of problems. The Older Democrats as well as the young ones should take a hearty part in it at the coming convention in Dalhart. The tax situation is moving rapidly to a crisis."

Local F.F.A. Boys Complete Busy Year

The old saying that school work is just a lot of theory has largely been disproved by members of the vocational agriculture classes, in Clarendon High School, the past year, as every boy enrolled is required to carry on at least one phase of farming under the supervision of his teacher, J. R. Gilliam, instructor, said today when asked for a statement concerning achievements of the class.

The majority of the boys participated in three or more phases of farm work in connection with their supervised practice program under the direction of their instructor who is required by the state department of education to supervise the work throughout the year.

Listing some of the projects, Gilliam said three boys fed four calves for fat stock shows; five boys fed 200 broilers; ten boys grew 100 acres of cotton; six boys fed 250 hens for egg production; eight boys fed 10 cows for milk production; eighteen boys used 16 purebred Hampshire Poland China, Duroc Jersey and two grade sows for pig production; nine boys fed 15 pigs for pork production; four boys grew 60 acres of wheat; eight boys grew 50 acres of milo for grain production; one boy grew 5 acres of canteloupes; and one boy raised 25 chickens for show purposes.

In addition to their projects, the students were required to complete a number of farm jobs: Making 1500 feet of concrete tile for irrigation, three calf feeders, 14 hog self feeders (six of which were made from scrap material that had been discarded), framing pictures, and other such jobs which are characteristic of the practical work completed by the students this year.
