H. T. BURTON WINS NEWS' MOST USEFUL CITIZEN AWARD FOR 1931

On page one of this issue of The Clarendon News will be found the decision of the judges in the "Most Useful Citizen" Award for 1931, and we hasten to offer our congratulations to Mr. H. T. Burton for his having won that honor.

It was the purpose of The News in inaugurating this annual award, to try to focus in the minds of the citizenship of this community, those elements which go to make up community service, and to bring about a more general practice of the activities of good citizenship among all our people.

The decision of the judges was based on the points of merit as outlined by The News in securing the nominations from its readers, and although their task was a difficult one considering the list of splendid citizens whose names were in nomination, yet The News feels that the public generally will applaud the award of the unsought honor to Mr. Burton.

Hats off to you, Mr. Burton, and may you live long to serve your community even as you

-000-A NEW LEADERSHIP IS ARISING

For centuries men have claimed most of the honors of leadership, even if they have made occasional acknowledgement of the inspiration and help of some mother, wife, or sweetheart, but it remains for the present decade to present a new order of leadership coming from women.

Marshalled under the banner of the National Federation of Business and Professional Women's Clubs, a new force of leadership is becoming more apparent throughout the nation and in the communities where such clubs are

Ethics of the Business and Professional Women demand that members be equipped for their chosen vocations, that they work in harmony with those of daily contact, that they practice fair play, that they develop solidarity in their belief in other women and make common cause with them where discrimination is shown, and that they seek to serve their communities as they may with woman's sympathy and vision unbeclouded by selfishness.

This new leadership is making itself felt in our community and Clarendon feels proud of its Business and Professional Women's Club, not only for what it gives the community, but for the broadening and strengthening of the individuals who make up its leadership. As fine as these women are they are finer and better by reason of their work and unity as membrs of such an organization.

Clarendon is happy to have some part, therefore, in this week's celebration of National Business and Professional Women's Week-a nationwide event of nation-wide im-

RANKING NEWSPAPER MEN IN THE PANHANDLE

Last week it was the privilege of this writer to direct letters of congratulation to two newspaper men of the Panhandle who have just been accorded honors of unquestioned distinction-honors which we believe are indicative of the high rank of Panhandle newspapers and workers held in the world of journalism.

John L. McCarty, editor of the Dalhart Texan, was recently given the Baylor University School of Journalism award for having achieved the most community projects of any editor in 1951.

Deskins Wells, editor of the Wellington Leader, was given a place on Prof. Casey's "All-American Newspaper Eleven", for general excellence in his editorial work.

These fine Panhandle newspaper boys are receiving many congratulations on their honors, and we wish them many more of the same—they deserve them.

WHAT THOMAS A. EDISON THOUGHT OF **PROHIBITION**

"We have a fairly sober nation today, so much so that the European nations which are not sober are beginning to get very much worried. They already know they cannot compete with us and are taking steps to regulate the sale of liquor—If we get 80 per cent enforcement, no country anywhere can compete with us in anything. Seeing what a sober nation can do is indeed a noble experiment and one that has never been tried. We are steadily developing to a

point where drinking will not fit into any of our programs ST. JOHN BAPTIST CHURCH in or out of the shops.'

"All good citizens will stand by the wise program of our great President. This reform must go on to world-wide success. From an economic standpoint benefits from a better enforced prohibition law would be of inestimable value to the people at large, not mentioning physical and moral 9:45 a. m.

"America will be irresistible in economics if it remains sober. You hear restrictions of personal liberty in speaking of prohibition. What is civilization but restriction of personal liberty for the improvement of mankind?"

On his seventy-ninth birthday, Mr. Edison said to a reporter: "Prohibition is a good thing for the children of today. It is useless to try to change those who are used to drinking. If we can enforce the prohibition for twenty years, there won't be a drop of liquor in the country.'

"I am a teetotaler from alcholic liquors. I always felt that I had better use for my head."—The Union Signal.

Electric Refrigeration Will Protect His Health

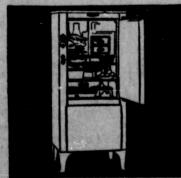

o**uply by the later of the later of the later**

NLY mothers know how constant are the demands for between-meal snacks .. how often that growing son of yours demands something to eat! A glass of milk, a sandwich, some cheese and crackers - something from the refrigerator.

Those foods he so confidently accepts. . . . Are they safe? Are they health-building, or dangerous to health?

Scientists have found that any food is exposed

to bacterial action when the temperature rises above fifty degrees. Thus it becomes unfit for use long before its taint is recognized by the normal senses.

But there's one certain and dependable way of eliminating this danger from your home-Electric Refrigeration. The modern Electric Refrigerator guarantees a constant cold, always below the fifty degree mark. . . And Electric Refrigeration is just as economical and just as convenient as it is healthful! You owe it to yourself and to your family to investigate without delay. Call in at the Merchandise Showroom or see your Electrical Dealer.

Convenient Terms

Do you know that your increased use of Electric's Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

Faithfully Upholding Our Community

We have all passed through a long and trying period, during which this bank has remained faithful to its original tradition of conservatism, a tradition that has upheld our community, that has gained for this bank the feeling of security that all depositors must have in the bank of their choice. We intend to go on this way as long as this banking institution is sustained by the people of Clarendon who, in turn, we are anxious to satisfy. Come in today.

and varied scenery. Mr. Hollander has produced some of the most brilliant stage shows ever presented on Broadway and of the above chorus he says, "these girls are without doubt just as fine a finished chorus and do chorus routines as hard and as wonderful as any professional chorus now on the road. These girls do all styles of dancing:

tap, adagio, toe, eccentric, etc."
But not all the attraction will be from the feminine acts as there will be five boys in the company who are the cleverest entertainers ever to appear before Panhandle audiences. These boys are also featured in a number of novelty dance routines, and with the big numbers with

Big feature acts which stud the evening's entertainment include an Eccentric Novelty Routine staring Lela Hunter and Gene Vest, elever dance team assisted by the Blue Bonnetts, song number by beautiful ivory haired Peggy Fowler assisted by the boys and six of the Bonnetts. Possibly the outstanding number is Fred Douglas in his clever Scotch Act. The outstanding make-up, brogue songs and personality of this super-star always stops the show with encore after encore. Among dies hair to bobbing the women, waving their hair, or attending tenor and last but not least Dr. to the men of the family. We want you to give us a trial. All that goes to make up an outstanding even-ing's fun and enjoyment—beauti-ful girls, gorgeously costumed in sparkling dances and songs work-

ed in with clever vaudiville acts. Make your plans to attend and buy your tickets early from the Rexall Store or from members of the Lions Club. Be there and enjoy the show of a lifetime.

"1932 SCANDALS"

A varied and interesting program opened the spring atten-dance contest of the local Lions Club Tuesday with several visitors present and adding flavor to the meeting. Only one absence was reported and his attendance is asclub this week.

The 'Scandals of 1932", crippled Children's benefit stage show, sponsored by the local group, Proved to be the principal topic of discussion with Lion Clyde Douglas making a report of the progress of plans and handing out tickets to each of the members for sale during the week.
