MUCH WORK IS DONE BY HOME DEMONSTRATOR

MRS. CHITWOOD MAKES REPORT OF WORK DONE THE FIRST SIX MONTHS OF THIS YEAR. COUNTY HAS BEEN GREATLY BENEFITTED

The report which Mrs. Ida Chitwood will make to the A. & M. College this week shows that Donley has benefited thousands of dollars by the home demonstration work. Within the past year the scope of the work has been greatly enlarged, and every phase of the home economics has been covered with lessons of demonstrations. With the greater understanding of the work among the farmers, they request more demonstrations, with the result that Mrs. Chitwood and her able assistant Miss Maybelle Hays are kept busy. The work has consisted of lessons in millinery, home made dress forms, sewing for the girls, poultry raising and canning.

The first lesson in millinery work was given on the third day of January this year; at first the ladies and girls felt some hesitancy in taking up the work as they felt that it was too difficult; but after learning the elementary principles, they became enthusiastic; and up until the time of the last lesson, which was given on April 29th, the girls and women of this county had made \$2000 of hats above the cost of the materials. Women from four adjoining counties were present at the first demonstration, and they have been constantly demanding that such work be given in their counties.

Closely related to this work has been the making of dress forms. This is a new field of endeavor for the demonstration clubs but they have been universally successful in their work, and thus far seventy-five dress forms have been made in this county. This is a remarkable record as this work has been conducted but four months in this county. The average cost of making these forms is from \$1.50 to \$2.00, and they take the place of the expensive forms, and are exact in every detail.

The sewing work for the girls in this county has been one of the most successful parts of the work. A Donley county girl took the second prize in the state sewing contest. The ladies who judged the work here in the county contest and some of them were college graduates in this line of work, pronounced the work the equal of any work that they had ever seen in college.

An exhibition of the work that was held under the most auspicious circumstances was the luncheon given by the ladies of the demonstration clubs to the delegates to the convention of the Parents-Teachers Association which met here the 4th and 5th of May. The reports that the ladies made to their various homes of the luncheon were the most glowing, and since that time Mrs. Chitwood has received letters from some eight or ten women's organizations over the Panhandle requesting information as to the plan of the luncheon.

A phase of the work that has been of great value to the girls of the county has been the poultry work. They have been taught how to put their poultry stocks on a paying basis by knowing how to select egg producers and how to produce egg-laying hens. This work has included lessons telling what to feed the hens to have winter layers, which is the foundation of profits in this line of business; also what to feed to produce the white, the yolk, and the shell of the egg. Together with this, they are instructed how to care for all poultry disease and parasites.

The canning has been one of the biggest departments of the work. The enormity of the work on which it is conducted may be realized when it is stated that in the last week of June alone, three thousand and seven hundred cases of vegetables were put up by the steam pressure canners. The vegetables canned have included green beans, peas, corn, soup mixture, squash, olive, carrots and pimientos.

From this it results that Donley is more nearly feeding itself on local products than ever before. The ladies and girls are learning how to make more of their clothes than ever before; the outcome is that the home makers of tomorrow are

LITTLE CRIME ACCORDING TO G. J. REPORT

SEVEN FELONY AND ONE MISDEMEANOR INDICTMENT RETURNED. BOOKS OF COUNTY THOUGHT TO BE IN GOOD SHAPE.

The Grand Jury for the July term of District Court reported Wednesday of last week and asked to be discharged. They had recessed a considerable portion of the time, and the few indictments that they returned speaks well for Donley county so far as scarcity of crime is concerned. J. W. Kent was foreman of the Grand Jury.

Following is their report: To the Honorable Henry S. Bishop, District Judge in and for the 47th Judicial District of Texas:

We, the Grand Jury for the July Term A. D. 1921 of the District Court in and for Donley County Texas, beg to submit the following as our final report:

The Grand Jury for this term of the court has been in session six days. We have examined 57 witnesses and from the information acquired from said witnesses we have returned into open court seven (7) felony indictments and one misdemeanor indictment. We have diligently inquired into all infractions of the law that we have been able to learn of and believe the number of indictments that have been returned by this body are all that the facts warrant us in returning.

Upon investigation we find that the books of the County have not been audited since 1915. It is the opinion of the Grand Jury that it would be useless for this Court to appoint a committee as provided by statute to audit the County records, as what work they would be able to do in the connection in the short time they could work is provided by law would be of no benefit. It is the opinion of the Grand Jury that the Commissioner's Court should employ a firm of competent expert accountants to make a complete audit of the books of the County as well as the school accounts. We believe this audit should be made as soon as practicable and respectfully ask that the County Commissioner be advised of our recommendation in this respect.

We are informed that the various road overseers in the County have for some time failed to warn out road hands as in provided law. We also understand that the road overseers have failed to collect the fees due the County from those liable on account of failure to do road work required by law. We recommend that this matter be called to the attention of the Commissioner's Court and that they take immediate action to see that the law in this respect is complied with.

The Court House, the Court House grounds and the County Jail all seem to be in good condition and we wish to commend the officials in this connection.

We desire to thank the officials of the Court for their kind and courteous treatment.

Having completed our labors we respectfully ask that we be finally discharged from further attendance upon this Court.

Respectfully submitted, J. W. Kent, Foreman of the Grand Jury.

MRS. ADAIR PRESENTS LARGE BUFFALO HEAD TO Y. M. C. A.

Mrs. C. Adair, whose gifts to Clarendon and the people of Donley have been many and valuable, now adds to her big gift of the Y. M. C. A. building a large buffalo head to adorn the reception room of the same building. The head is well preserved and is very large; it is very easy to imagine that the bery beast that once walked across the prairie is looking at you when you gaze at the beautiful head.

The gift was carried to the Y building Monday, and it served to remind one of the days that the Panhandle once knew. W. B. Bray, one efficient district and county clerk, made a business trip to Hedley yesterday, receiving instruction of the first class in household economics with the other students.

CLARENDON, WITH HER RESOURCES SHOULD LEAD

I read with much interest the many things the cities and towns of our Panhandle are doing and they must be congratulated on the progress and the many improvements during these trying times, yet it will appear like an expression often used, "you can't do this or that and then go into some lengthy discussion giving the why and wherefore." When the question is put to you, citizens of Clarendon and Donley County, and ask you to look not into the present only, but the future success of this city and county. If the other towns can do and are doing, why is it we can't do likewise? They have the same draw backs, the same troubles and just as many things to hinder their progress as we, and are we going to sit back, take our ease and let them get ahead, as they will as sure as you live unless, remember, we get busy and keep busy. We heard some men say the other day, some town would get our trade if such and such a thing that meant improvement to our county and city was done.

Well, if the other towns can draw the people, offer them more inducements than our good city and county with the many advantages that we have if we will only use them, and then don't use them, then I say, we desire to lose them. And again I ask, why is it we cannot offer not only as many but better inducements to the farmer or the city man, as any place in this Panhandle country? We have the land with a thirty year record already established suited for diversification, as fine people, the finest of churches and schools, plenty of good water, with all the above inducements who is at fault if we should fail? But we must not fail, we are not going to fail if we do our part.

Our city and county will gain and keep growing if we but step back it with deeds that we, the citizens of all Donley County, are a people for all the people in the county and that we are inseparable and believe in it, that is not only my will, but it is my duty to my city and county to love it and if we love it, it will not only be said with words that attain nothing without being backed by deeds.

The hot months of July and August are trying to everyone in many ways. September is nearly here, the Clarendon Chamber of Commerce wants to do many things. In the first place we want your help with our County Fair, we want to have the best exhibit we have ever had and as we received second premium at the Dallas Fair last year, it should be our aim to hold our place if we cannot gain. Won't all of you help us to hold our own?

I know we have in Clarendon alone fifty citizens who, if they would affiliate with our organization they would benefit themselves personally, and at the same time, help us to carry on this work. We would like to have them with us. In September, we want to publish in our paper everyone that is for the Chamber of Commerce and I again ask, everyone that wants to help us to come in by that time.

We are for you and all Donley County. Are you for us, is the question for you to decide. Manager Chamber of Commerce.

BAPTIST REVIVAL HAS AUSPICIOUS BEGINNING

The revival being conducted by the Baptist Church at the tabernacle in this city has had a good start and audience of goodly number is present each evening although the services have been going on since Sunday only. Rev. Harlan J. Mathews, of Plainview, is doing the preaching, while the song service is being conducted by E. E. Walker of Memphis.

Rev. Mathews arrived Monday evening and his first sermon was evidence of careful thought and preparation. On the following evening, he preached on hindered prayer; his sermon was one of burning truth, and although some part of it hit some one of the audience, it was highly praised.

Mr. Walker is a singer who makes no pretensions of being a soloist, but his pleasing personality makes everyone want to join with the singing. Members of other prominent churches of the city are assisting with the music by song and instrument. Everything points to a most successful meeting.

Mrs. Travis Smith, of Childrens, has been visiting here this week with the E. F. Nayles family.

TUESDAY'S LUNCHEON HAS RECORD ATTENDANCE

GENERAL THEME IS PROGRESS IN EVERY FIELD. COMPLETION OF Y. BUILDING IS URGED. ABOUT FIFTY PRESENT.

Tuesday's business men's luncheon was one of the largest attended that have been held this summer, about fifty business men and several ladies being present. The completion of the Y building was urged as one of the things that Clarendon most needs today as a matter of furnishing recreation and other advantages to the boys just entering their teens. Health conditions were discussed, and are considered exceedingly good by the local physicians. The proposition of having a better fair than ever this year was urged, and the prospects are the brightest for such. The meeting was presided over by A. N. McCardell, secretary-manager of the Chamber of Commerce.

The luncheon, served by Mrs. J. A. White assisted by several young ladies, was an excellent one. It consisted of fried chicken, potatoes and gravy, string beans, butter and light rolls, salad, peaches and angels' food cake, pie and ice tea. The meal was most heartily enjoyed by everyone.

Following the luncheon Rev. Sam Joekel, of Waxahachie, former pastor of the Presbyterian Church in this city, was called upon and he responded in a delightful manner complimenting Clarendon on her wonderful progress within the last two years.

Next Dr. B. L. Jenkins related some of the features of his stay at Estes Park where he attended a E. M. C. A. meeting of many of the secretaries over the United States. He made an especial plea to have the Y building in this city finished as it is needed as a means of supplying religious instruction to the boys and at the same time to give them entertainment of the highest class. Rev. Sam White added his hearty indorsement to the earnest speech of Dr. Jenkins.

A. M. Beville was then called upon and he responded with a plea that we have better roads in Donley; as we are the taxpayers, then we are the ones to vote for the better roads; for not only would this mean so much more to the home people but it would be the best advertisement to the tourists who pass this way.

Dr. Wilder then was called upon for his opinion as to the health conditions and he replied by saying that there were very few cases of typhoid fever, there being about three to the knowledge of the physicians in this city. Tom Connally then added the remark that we should make provisions for draining the ditch of the creek that flows through this city.

George Ryan then related that while he was gone on his trip to Yellowstone Park, he saw Mr. Shepherd, president of the United States Chamber of Commerce; and that Mr. Shepherd said that their method for increasing their membership was similar to ours, except that their workers' committee had a regular table at the luncheons, and in that way were able to draw up their plans.

The music for the occasion was furnished by an Edison which the Stocking Drug Company kindly loaned to the Chamber of Commerce. Cigars were donated by Will Patman of the Palace Confectionery.

BETTER CAMPS URGED FOR SUMMER TOURISTS

More and better tourists camp along the highway is being urged by the executive offices of the Colorado-to-Gulf highway. Data is being gathered that will show the number of camps and accommodations furnished along the highway with a view to supplying tourists with the information. It is urged that every town arrange to give free fuel water and lights, and provide a place for washing cars, as it has been ascertained that a large majority of the tourists to the mountains prefer to live out doors on routes.

Rep. Sam Joekel and Wilson Turner left yesterday morning for Des Moines and other points in New Mexico where they will spend an outing.

DOOLEY'S BUSINESS PROVES VALUE OF ADVERTISING

Of the business men in this city, perhaps no one is a more thorough believer in the efficacy of advertising than D. J. Dooley, the manager of the Dooley Produce Company. Mr. Dooley engaged in his business in this city less than two weeks ago. He had scarcely hit town until he was over at the News office seeing about getting some circulars struck; at the same time, he decided to try an advertising experiment, so he placed an ad in the paper. He was not merely surprised, he was amazed at the results. Needless to say, he engaged a regular weekly space in the paper; he has circulars struck regularly, and the rest of the story you already know—he is getting the business.

Mr. Dooley says that there is only one explanation of the fine business that he is enjoying, and that is that "it pays to advertise." Not only for the values that they receive, do the American people like to trade with a man, but they like to know that they are trading with a progressive citizen.

ATTORNEY-GENERAL APPROVES SCHOOL BONDS

News has been received by the local school board that the school bonds which were voted by the Clarendon Independent School District July 11th have been approved by the Attorney-General. The local board feels proud of the immediate action on the matter that they got, as the bonds had not been in two weeks when the notice of the decision was received. The Bonds will, perhaps be sold to the state, as the face value of the bonds can then be got; in fact, the state has tentatively promised to take the bonds. If the bonds are sold to the state, this will take place about the first of the year.

The approval of these bonds means that funds will soon be in hand for making many needed improvements; and before the end of next year, the new school building will be under way according to the present plans of the board. The amount of the bonds is \$75,000.

EPWORTH LEAGUE RENDEZVOUS SPECIAL PROGRAM

The members of the Epworth League of the First Methodist Church rendered a special program at the evening church hour Sunday evening. The program was given under the leadership of Carl Parsons, president of the local league and district secretary of the leagues for the Clarendon district.

The subject was upon the formation of our judgments, and several splendid talks were made by the young people. A goodly audience was in attendance, and they manifested much interest in the program.

It is the plan of the league to work as a body during the Methodist revival which will commence in the first week in September, and a drive is now being made to increase the membership. The league is doing good work today, and they hope to be of great aid in the coming revival.

LOCAL SHRINE TEAM TO PLAY AMARILLO SHRINERS

The local Shriners' baseball nine, under the management of Fred Buntin, will play the Amarillo Shrine team this afternoon. The game promises to be a good one as both teams have mighty good material. The Amarillo Shriners have been victorious in several games that they have played, and they play a fast game. The local Shriners' representatives played a collection of the town players at the College Park Monday afternoon, and were the victors. The gate receipts will inure to the benefit of the charity fund maintained by the local shriners.

MUCH EXCITEMENT CAUSED BY FIRE ALARM THIS MORNING

Much excitement was caused this morning at ten o'clock when the fire alarm was sounded. The scene of the fire was in the backyard of the E. A. Simpson home where some dead trees were being burned near the garage. Neighbors became afraid that the garage would be caught on fire and rushed to the alarm. The fire truck turned in the scene, but it was seen that there was no danger then, and the truck was immediately returned to headquarters.

DIXIE CURING PLANT IS NOW COMPLETED

POTATO CURING PLANT WITH A CAPACITY OF FORTY THOUSAND BUSHELS IS READY FOR BUSINESS MOST COMPLETE IN SECTION

The Dixie Curing Plant, the largest and finest in the Panhandle and as fine as in the U. S. will be ready for installing the machinery for the dehydrating process of curing potatoes next week. The construction of this plant will involve an expenditure of \$20,000.00. Acreage is planted capable of filling this plant having a capacity of 40,000 bushels. Potatoes will be brought to the plants as soon as they are dug and baskets are furnished the farmers for the potatoes by the curing plant. Machinery when installed will keep the entire building sixty by one hundred fifteen and with a twelve foot wall, at a temperature not under forty or over sixty degrees. Each bin holding 400 bushels when cured. The air pipes are so installed that all bins can be cured at one time or any one bin cured as desired.

The entire floor and bins are on the lattice work plans, boards being about two inches apart in the bins and the entire floor, this gives complete air circulation and the pipes running from the floor to the top of each bin gives all the same amount of air. Sweet potatoes in this section have passed the experimental age and the finest are grown here, the location of this plant and the quality of potatoes raised will enable the farmer to get the highest price and coming in as one of the earliest crops late August and first September will mean new money to this section. The entire construction of this plant has been under the personal supervision of C. R. Taylor, the patentee and adds another enterprise Donley County is proud of. C. C. A. N. McCardell, Mgr.

TRANSCONTINENTAL BIKERS VISIT IN CLARENDON

Mr. and Mrs. Henry Williams, of this city, had as their guests the first of this week four young ladies who have hiked across the United States and are now on their return hike to their homes in New York by the way of Dallas and New Orleans. From New York they hiked across to British Columbia, thence down the western coast to California. They made the acquaintance of Mr. and Mrs. Williams at a pleasure resort on Catalina Islands. When they reached Clarendon, they had completed 9,600 miles walking. Their names are: Misses Hannah Davis, Bronx, New York; Beatrice Cohen, Bronx, New York; Bertha Ragavin, Brooklyn, New York. The young ladies were pleased with Donley, and said that they have a warm spot in their hearts for Clarendon.

CLARK TO HAVE HOG SALE NEXT THURSDAY

F. M. Clark, the progressive owner of the Silvercrest Farm near Hedley, will hold a sale next Thursday in which he will sell a number of fine sows bred to his famous boar the Jayhawk. Mr. Clark has one of the finest hog ranches in the Panhandle, and with his progressive ideas, he has had a wonderful success. The Jayhawk, as will be remembered, was purchased in Kansas at a fabulous sum, and the fame of that boar has served to spread the fame of the Silvercrest farm.

TEMPORARY BUILDING NEARING COMPLETION

The first temporary school building that is being built on the ward school grounds is nearing completion, and has had the first coat of paint applied. The contractors hope to have the second building completed by the first of next week. The building are twenty-two by twenty-eight feet and are designed merely to hold the overflow of pupils this year. They are being built in a most substantial manner.

A. A. Walker, of Hedley, a former resident of this city, is here this week on business and visiting with friends.

TWO STORAGE BUILDINGS DESTROYED BY FIRE

BUILDINGS USED BY CLARENDON GRAIN COMPANY TOGETHER WITH MUCH HAY DESTROYED LAST EVENING.

From unknown origin a fire started last evening in one of the storage buildings east of the Galbraith-Foxworth Lumber Company and used by the Clarendon Grain Company and completely destroyed some seventy-five tons of hay stored therein and in the building adjoining. The loss was partially covered by insurance. The fast work of the Clarendon firemen saved all other property.

The fire alarm was sounded shortly after eight fifty o'clock, and by eight fifty five hose connections had been completed. At nine o'clock the fire was completely under control, and no fears were entertained as to the property nearby. At the time of the outbreak of the fire, several head of horses and mules were in the lot just north and adjacent to the sheet iron building. These were turned loose, and none of them were injured.

The fast work of the firemen in completing the hose connections was particularly noticeable, and although only a volunteer firemen's association is maintained they fought like veterans. The pressure that can be given by turning on the pump during fires is far above that of any other of the cities in this part of the state.

The first efforts of the firemen were directed toward the wooden building on the south, this being where the flames first leaped forth, for the fire was well under head way before any signs of it were discovered. Of course it was impossible to completely put out the fire when seventy-five tons of hay was burning, but the flames were kept well under control. Both buildings were completely destroyed. Messrs. Bennett and Sims are not sure as to just what their loss will be, as it will be necessary for them to go carefully over their records to ascertain just what they had in the buildings. The loss was partially covered by insurance.

The horse lot next to the building destroyed is being rebuilt this morning. Part of the hay was old hay and a part new; the fire originated in the old hay.

LOCAL BUICK SERVICE SUPPLIES OTHER STATIONS

With one of the largest repair shops and best supply services in the southwest, the local Buick Agency, under the management of Od Caraway, ships more supplies to other agencies than any other service in this part of the state. Almost every accessory and part is kept in stock, and the result is that the local agency ships supplies to Amarillo, Wichita Falls and Oklahoma City frequently, as well as to the smaller distributing points.

The Buick service is the second largest in the United States, and supplies are available at minute's notice from any of the larger points. The local service has been instrumental in placing hundreds of cars, and a large stock of accessories would have to be kept for the local trade alone.

Od Caraway returned Saturday returned Saturday from Oklahoma City where he attended business with reference to the local agency and also prepared to have a good supply of the new Buick "Fours" shipped here. Mr. Caraway is wonderfully pleased with the performance of the "Four" and feels that it will add more fame to the name of Buick.

DONLEY'S MELON CROP IS BEING GATHERED

The large and fine crop of water-melons produced in Donley county is being gathered now. The melons began to be brought into town in large quantities the middle of last week. The melons are of large and fine quality, and their sale is easy. Houston merchants have written to the Chamber of Commerce in this city requesting that any citizens who wish to ship melons to that city be told of the market for water-melons there. It may be readily said that the quality of the melon crop this year is up to the Donley standard.

DRUG SERVICE

If you want real service—just outright and strict drug service, what other store can offer you as much as we can?

If it is fresh drugs or toilet articles, fine stationery or fresh cigars, what other place can equal our facilities for giving them?

Answer these questions by action.

Prescriptions filled by Registered Graduate Pharmacist.

City Drug Store
CLARENDON, TEXAS

TRADE AT HOME

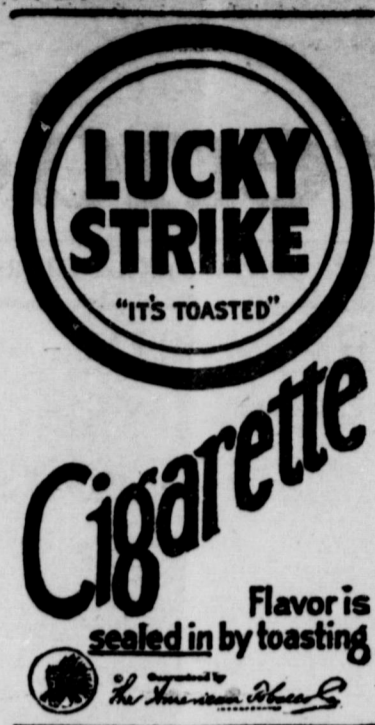

The mail order house never has a bargain—not for you, anyway. If there are bargains occasionally, the thousands of employees of the mail order concerns get them, they or their friends. Trade at home.

Your own home town merchant frequently has bargains and tells you about them through the paper you read.

The mail order house that receives your order doesn't know you from Adam and doesn't care.

The home town merchant knows you as a neighbor and he cares. He cares enough for you and your trade that he goes to the trouble and expense of telling you about his goods and his bargains. He cares enough to carefully show you his goods. He gives you a choice among many; if you don't like one article, he shows you another until you are pleased.

Trade at home and get service, choice quality, and as good prices. Trade at home and your money helps your town—which is only another word for saying that you help better your own job.—Vernal (Utah) Express.

daughters to keep alive that for which you spent your best years; purity of life and freedom of mind? Then remember, these cannot be purchased with wealth. Their price is honest toil and undaunted effort.—Wheeler News-Review.

Little Life By W. F. F.

AMUSEMENTS

They are still coming, to Stamford to swim in the College lake, sit in our grandstand and see the ball games, drink the fine water and sing our praises for having the prettiest and best town anywhere around here. And, why not let them do it?—Stamford Leader.

A large number of viewers-with-alarm are convinced in their own minds that the newly apparent "crazy fir amusement" is just as destructive as it can be. The swimming places, the picture shows, the ball games, have called the young and the middle-aged by tens of thousands. Numerous churches stand appalled. They don't understand. They confess their alarm. But is it anything other than what might have logically been expected? We have always wanted amusement and had it in some form. Prohibition is mainly responsible for the new forms of amusement. In the old days of cheap and easy liquor young men used to amuse themselves with beer and whiskey. A group of young men often found biceps satisfaction in spending a whole afternoon or night in a sordid saloon or a stuffy room, boozing and bandying inebricate witticisms. Sundays and holidays were often accepted as opportunities to gang up and get soused. A wagon yard, the cheerful squalor of a bulacsmith shop, a friendly livery stable afforded ample accommodations for merry parties. The girls always ruled by man-made conventions, had few places to go, so they stayed at home mealy or visited one another. Anybody can see the difference now. The saloons do not, as of yore, capture the main interest of the young men, neither do the billiard and pool halls. Girls, countless numbers of whom earn their own livings and have their own money seek their own diversions in their own way. Prohibition should have been expected to work numerous changes. But are they bad changes? Is a well dressed, independent-minded, self-governing population a dreadful thing? State Press avers that it is not!—Dallas News.

Fort Worth, Aug. 3.—Newspaper publicity was decided today at a joint meeting of the Advertising Men's club and the Fort Worth Manufacturers' Association to be the best advertising medium in a choice between newspaper publicity and a permanent exhibition of products. Each association voted individually with the same result. The advertising men voted first unanimously, agreeing on the publicity campaign. The manufacturers then voted with the same result.

A publicity committee was named. This committee will have charge of the campaign to raise \$15,000 among local manufacturers. The money will be expended during the ensuing year on newspaper publicity to advertise Fort Worth products to the State of Texas and the Southwest.

L. V. Chinn, returned Saturday from Ft. Worth, Waco and other points where he had spent his vacation.

WHAT IS YOUR PROPERTY WORTH?

Make an estimate at what it would take, at the present prices, to replace your property; then, if you find you are not fully protected we will be glad to write you additional insurance.

WHAT THE CENSUS TELLS

The figures of population of the United States in the year 1920 have been made public and a comparison with the figures of 1910 will furnish as many kinds of useless but interesting information as could be gleaned from the answers to Edison's questions. The following facts may not help us any in our business but they are worth knowing, namely:

That there are two million more men than women in this country;

That the smallest state in the Union (Nevada) is the one where the largest proportion of men to women is to be found, and that it is growing smaller;

That three states have decreased in population since 1910, namely, Nevada (by 4,416), Mississippi (by 6,496), Vermont (by 3,528), the percentage of loss being respectively: 5.45 per cent, 0.30 per cent., and 0.96 per cent.

That Nevada, with 77,407 population, has as much voting power in the U. S. Senate as New York with 10,386,327, or 134 times as much population, and will continue to have as much power if it continues to grow smaller and New York continues to grow larger;

That, however, no one is worrying over this fact, nor over the fact that 25 states with a total population of less than 20 millions, can outvote, in the Senate, 23 states with a population of more than 85 millions;

That in 10 states there are more Indians than negroes;

That in two states (South Carolina and Mississippi) there are more negroes than whites;

That there are Chinese in every state and Japanese in every state but one;

That the figures show a decrease of 22,724 in the number of Indians in ten years, but that these figures are deceptive, inasmuch as whites with a small fraction of Indian blood were classed as Indians in 1910 and are classed as whites in 1920;

That the negroes have increased in 10 years by 635,250, the ratio of increase (6.5 per cent.) being the lowest on record.

That in six southern states—Florida, Kentucky, Tennessee, Alabama, Mississippi and Louisiana—the negro population has decreased in 10 years by 51,780, and in six northern states—New York, New

Jersey, Pennsylvania, Ohio, Illinois and Michigan—there has been an increase of 373,002;

That the Japanese in California are outnumbered by the whites 45 to 1 according to the census figures; in Oregon, by 185 to 1; in Washington, by 75 to 1;

That California assert that the census enumerators got only about two out of every three Japanese down on their lists;

That the state that has had the largest increase of population is New York, and that the increase—1,271,613—is larger than the total population in any one of 18 states, and is larger than the combined population of the five smallest states—Nevada, Wyoming, Delaware, Arizona, Vermont;

That California has had a larger increase of population (1,049,312) than any other state except New York and Pennsylvania, and the latter exceeded it by only 5,594;

That we number, all together, in the continental United States (not counting Porto Rico, the Canal Zone, Alaska, Hawaii, Guam and the Philippines), 105,710,620; and that this is more, by 13,738,354, than our population was ten years ago.—Current Literature.

BEING LATE TO CHURCH

Some people are born late and never quite contrive to catch up. They always rise just a little late in the morning, sigh over it, but are a little late to breakfast, and to luncheon and to dinner, and just a little late going to bed again.

Either they are not aware of the existence of the clock, or it represents a helpless idol which they admire afar off, but which they long since gave up attempting to achieve if by any chance they sometimes manage to meet the stern necessities of trains and other inconvenient fixities, it is usually by the considerate assistance of friends. Those people are late to church as they are to everything else. We expect it and admit it and tolerate it and smile.

But there is a very different class of persons, who are late when it suits their own convenience and not otherwise. Those people are perfectly aware of the nature of promptness and the demands of time. If there is anything to be gained by punctuality, anything to be lost by tardiness, if a good bargain may be missed or a valuable

contract go to a competitor, they arrive with the exactness of the clock. But when it is merely a question of others' comfort it is another matter. At a directors' meeting, or a dinner party, or a funeral, these persons of discriminating unpunctuality always appear five or ten or fifteen minutes after the appointed hour, and a dozen or fifty of the more precise are incommoded.

No doubt a good deal of valuable time is saved by the practice. On every public occasion some one is always late, and by being the last arrival you avoid waiting and will gain a few minutes that can be profitably employed elsewhere. All the same, one of the worst objections to unpunctuality is its abominable selfishness. You are piling up others' waste minutes into hours to effect a small saving of your own. The people of deliberate tardiness are always late to church. After every one else is seated and the service is well begun they walk in with leisurely indifference and seem to think they have honored God sufficiently by coming at all.

Now, you are not obliged to go to church at all. If you do not go, you are the worst sufferer. But if you do go, a proper respect for the minister, for God and for yourself requires that you should be there, and decently composed when the service begins.—Youth's Companion.

THE STATE OF TEXAS: COUNTY OF DONLEY:

NOTICE is hereby given that the Commissioners court of Donley county, Texas, will at their regular term on the second Monday in September, A. D. 1921, received sealed bids from any person or corporation desiring to bid upon the matter of equipping the Donley county court house with steam heat.

All such bids must be filed with the Clerk of the Commissioners court not later than 10 o'clock a. m., of said date, and the Commissioners court especially reserve the right to reject any and all bids so submitted.

It is ordered that this notice be published in two successive issues of The Clarendon News.

Witness my hand officially this August 7th, 1921.

W. T. Link, County Judge, Donley County, Texas. (33c)

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

Whenever a foreign power wishes a favor from Uncle Sam, it reminds him of the inestimable help it lent him in his struggle for independence. The number of countries which now claim to have sided in the enterprise is enormous and indicates that Washington and his patriots must have had a pretty easy time of it, sitting around in luxury at Valley Forge and letting the allies do the work.—Kansas City Star.

We suspect too many of our legislators stand in need of a college education themselves to appreciate the fact that after many years of painstaking study a university professor is entitled to more pay than he is getting now. The idea that a great state like Texas should be unable to keep up a first class university is ridiculous. Let the legislators deprive some of their friends of easy jobs if they want to economize, instead of trying to run our most valuable citizens out of the state.—Quannah Tribune Chief.

The school children of Chicago are to have morals and ethics added to the curriculum which they will pursue. Time was when father's palm and mother's knee were the shrines of morals and ethical education but if dad and mother dear are too busy to impart the principles of right and wrong to their offspring, by all means let the public schools fill the gap. The instruction is needed badly enough.—Ft. Worth Record.

Watermelons, roasting ears, one-eyed peas, and other garden "saws," tracks and beds every table these days. Truly, people are living at home and boarding at the same place now, more so than for years. The stringent financial depression of the past few months has taught us all that we can live at home and on better fare than we did when paper sacks and tin cans comprised the bulk of the load every time one went to town.—Wellington Leader.

CONCENTRATION UPON WORK

The world's workers can be divided into two classes in the degree to which they give their minds to their task in life. The majority of people do not put their whole minds on their job. They spend a good deal of their working hours, just barely going through the motions of their position.

A great many business girls spend a large part of their thought in working hours on the dance they are going to, or planning their clothes, or thinking about their relations with the men. Young men spend a large part of their working time thinking about their sports and pastimes, the baseball games and a hundred other things.

The man or woman who is bound along the path of success, gets so interested in the job that the mind naturally dwells upon it, and is constantly planning and contriving how to do it better. It is pleasing to note that the business houses of Abilene contain many young people of that type, and they are a great asset for the community.—Taylor County Times.

THE CITIZEN AND JURY DUTY

Slackers from jury duty are far more numerous than slackers from military duty. Yet the service which they dodge is equally important to the safety and welfare of the nation. In fact the American habit of deserting the jury box is one of the elements contributing to the increase of lawlessness and the growing disrespect of the judicial system.

Of course business is important and the almighty dollar is valuable, more so today than for many years. But the administration of exact justice, the maintenance of law and order and of public safety are vastly more important. They affect the very safety and life of every man and woman and child in the nation.

When the so-called "good citizen" avoids his reasonable jury service he does not think his action matters much. But when he and many others of the more experienced and more educated citizens dodge the jury box they rob the system of just so much wisdom and understanding, and in the end bring the courts to a pass where many juries are made up of ignorant men, many of them professional hangers-on who have little conception of the importance of the task before them.

The problems decided by American juries are vital ones, large properties, great principles, even life itself are in the scales of justice which the jury may move up or down. Can anyone claim that such causes are entitled to anything less than the very best jurymen who can be found?

Those who are alarmed at the prevalence of crime, those who believe that the law should be more strictly enforced, those who say that justice must be impartially, wisely, and relentlessly done can attain those ideals much more quickly by bringing about a sense of responsibility for honest jury service than by all the extra-legal methods that have been proposed.—Ft. Worth Record.

Recently a congressman from Mississippi introduced a bill in Congress to prohibit the use of cigarettes by women. The framers of the bill, in urging its adoption, declared that the cigarette habit has become so pernicious that healthful motherhood is almost impossible. And he gives this as a reason for its decline in birthrate in this country. That this is true seems probable. That there is a decline in the number of children born in our country who are purely American is too true. We rather doubt that this condition can be traced to any one habit of luxury. But that the life of ease and luxury, toward which, as a nation, we are tending, is responsible for this state. In confirmation of this we give the following observations of a man who has just returned from visiting his birthplace after thirty years absence. This gentleman states that in visiting his old friends and playmates he found them living in palatial homes; surrounded with every convenience of modern progress. Affluence was depicted on every side. Want was a stranger, and drudgery unknown. Yet in none of these homes was there more than three children. And by far the largest number had no children at all. In the days of this man's boyhood, when the people were pioneering so family contained less than six or ten children. And from these families, that by honest endeavor and undaunted spirit, conquered the forest and made the desert to blossom as the rose, have come the masters of every craft in our community. But the master minds are aging; the rugged bodies declining. From whence shall they be replaced? Where is the rugged, stalwart young manhood that is to foster the coming generations? Where is the immediate mother instinct that is to brood those sons and daughters. Fathers, mothers are you rearing your sons and

WHAT IS HOME?

Home is not an accident of society but a divine institution. Its foundation was laid in the time of man's innocence. It is an institution of divine origin established for the development of the individual life and for the highest welfare of the race. Here society has its beginning and government its foundation.

What is home? We may say that it sustains to the world the relationship of the heart to the body. As the heart, by its unceasing action, receives and pours forth again the alternately pure and impure currents of man's life-blood, so the home, like a great pulsating heart in the world, acts as the purifier of the streams of life that flow endlessly back and forth. Considered from another viewpoint, we may say that home is the retreat of warm hearts from a cold world; where the icy touch of nature gives place to the balminess of spring; where the metallic ring of the voice of the busy mart is replaced by the gentler notes of peace, and where the din and strife of the arena are exchanged for the soft whisper of affection and the companionship of love.

Changing the figure, we may say that home is the inner shrine where

affection abides, pervading the very atmosphere like some costly perfume; the Holy of Holies of our lives, where love reigns supreme—the secret spring of our strength and the inspiration of our fondest hopes.

What is Home? It has a meaning beyond the accidents of fortune. It depends not upon Oriental tapestries, nor upon the show of luxury. It is not shadowed by the absence of material splendor. Palatial settings neither make nor mar the spirit of home.—Texas Christian Advocate.

THE ORIGIN OF THE RED MAN (INDIAN)

At the First Christian Church next Lord's Day the minister will speak at the morning hour on the subject "A Road and Roads" and at the evening hour he will speak on an unusual subject "The Origin of the Red Man." This is a subject that so far as is known no man has ever tried to answer from the Bible. This he will do Sunday night and read it from the Book. When the origin of the Red Man is once learned it will be no trouble to find the origin of the Black and Yellow man. No one can afford to miss this for thousands have stumbled over the answer when it is right before the eye as plain as can be and will be read in so many words from the Scripture. It will be a great lesson and all should hear it. It will be the beginning of a series of sermons along this line of thought. Those who get the first one the others will be easily understood. It will be worth while to hear this message for it will carry with it many important things the world has longed to hear about. Extra seats will be made to accommodate the people who come. Clerk of Church.

WHERE WEST TEXAS BEGINS

There are many conflicting ideas about where West Texas really does begin, attention having been called to this thought in a recent article in The Dallas News, in a compilation of figures showing the number of state institutions in the state, their location and the money expended for their upkeep. This article strongly hints that Austin, Gatesville and Waco are within the confines of West Texas. To the plains resident, and from the clarified vision one gets from this section of the state, these cities are not at all in West Texas. From the viewpoint of a person near the Louisiana line, they are "way out

BILL OF RIGHTS

CONSTITUTION OF THE UNITED STATES

The Clarendon News' Americanization series

The English common law, upon which English and American liberties are based, was slowly evolved through centuries of growth. Its maxims embody the most sacred beliefs of our race. It is that "law of the land" to which the Magna Charta refers, and its essential principles are those of the Petition of Right of Charles I, and the Bill of Rights and Act of Settlement of the Revolution of 1688. The Constitution of the United States, framed in Philadelphia, in 1787, breathes forth the ancient Anglo-Saxon love of liberty regulated by precedent and law, their love of order and discipline, their hatred of tyranny, their belief in the inalienable rights of man, and their instinct, as old as the race itself, for local representative government. As long as Americans observe the spirit of the American Constitution, especially the first ten Amendments thereto, commonly known as The Bill of Rights, our present civilization is safe. Our "Bill of Rights" is embodied in the following ten articles of the Constitution:

I. Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

II. A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed.

III. No soldier shall, in time of peace be quartered in any house without the consent of the owner, nor in time of war, but in a manner to be prescribed by law.

IV. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

V. No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces, or in the Militia, when in actual service in time of war or in public danger; nor shall any person be subject for the same offence to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation.

VI. In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defence.

VII. In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States, than according to the rules of the common law.

VIII. Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

IX. The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

X. The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

(Editor's Note—The articles appearing in the above space from week to week are taken from "Americanization" by Elewood Griscom, Jr. This excellent volume, which is a collection of articles upon the general theme of patriotism and good citizenship, is presented to the schools of Texas by the Bodies of Scottish Rite Masonry in Texas.)

NOTICE OF APPLICATION FOR LETTERS—ESTATES

THE STATE OF TEXAS.

To the Sheriff or any Constable of Donley County—GREETING: YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Donley, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the expiry day hereof:

NOTICE OF APPLICATION FOR LETTERS—ESTATES OF DECEASED.

THE STATE OF TEXAS.

To all Persons interested in the Estate of Gus C. Hartman, Deceased. Mrs. Sadie Hartman, has filed in the County Court of Donley County, an application for the probate of the last will and testament of said Gus C. Hartman, deceased, filed with said application, and for letters testamentary of the estate of Gus C. Hartman, deceased, which will be heard at the next term of said court, commencing on the first Monday in September, A. D. 1921, at the Court House thereof, in the town of Clarendon, Texas, at which time all persons interested in said Estate may appear and contest said application should they desire to do so.

HEREIN FAIL NOT, But have you them and there before said Court this Writ, with your return thereon endorsed, showing how you have executed the same. Given under my hand and the seal of said Court, this 5th day of August, A. D. 1921.

W. E. Bray, Clerk County Court, Donley, County Texas. (32-34c)

NORTH CAROLINA KU KLUX KLAN IS HELD DISBANDED

Greensboro, N. C., Aug. 5.—Major Bruce Craven of Trinidad today declared the Ku Klux Klan in North Carolina "of which I am the supreme head in this state, disbanded and every klansman released from his connection, his responsibility and obligations."

His action, he declared, was due to dissatisfaction with the purposes and acts of the organization. At the same time, he announced he had forwarded his resignation as grand dragon of North Carolina to Col. William J. Simmons of Atlanta, imperial wizard.

Local officers of the Klan today said they would ignore Major Craven's order. They explained that he has been only the tentative head of the organization and has no authority to disband it.

PURE AIR NEEDFUL FOR PREVENTION OF DISEASE

The pure air, clean living and good food which cure consumption are even more effective in warding it off.

Preventive medicine has no fairer ideal than that contained in the beautiful sentence of Minot: "We have enthroned science in the imagination, but we have crowned her with modesty, for she is at once the reality of human power and the personification of human fallibility."

The physical condition of the body is as important as the intellectual, for if the former breaks down, the mental activities are greatly interfered with or rendered altogether impossible.

A bath should be taken at least once a day by everybody. The temperature of the water is of minor importance, except that a warm bath is more cleansing than a cold one. Old people, children and weak persons should not take cold baths, as they are too depressing for such persons, nor should they be taken by anyone except in the morning and unless they are followed by a feeling of exhilaration.

It is in the power of man to cause all germ diseases to disappear from the world.—Pasteur.

Extreme heat and impure air kills many babies in the summer, especially the bottle-fed babies.

The most loving act a mother can do is to nurse the baby. When the baby nurses, it not only gets the best food, but it is less liable to man diseases, such as "summer complaint," convulsions, and tuberculosis. Out of every 100 bottle-fed babies, an average of 30 die in the first year, while of the breast-fed babies only about 7 out of every 100 die in the first year.

The baby should be completely weaned at the end of the first year. It is better, when possible, to continue nursing through the summer, better, when possible, to wean in the fall.

See that your doctor registers your baby's birth as soon as possible after it is born. Birth registration secures citizenship and may save future legal trouble.

The simplest article of food will sometimes cause dyspepsia if one is subject to worry of any sort.

MAKING SCHOOL ACCESSIBLE

The plan of furnishing transportation for the children of the rural section to school as worked out at Pampa, Texas, by Superintendent W. R. Silvey is worth consideration by all the schools of the Panhandle-Plains Country. Professor Silvey is a successful school man, having taught in some of the best high schools in this section. He has found that the plan of providing transportation is successful. That school maintains a fleet of Ford omnibuses. They are kept in repair by the man who cares for the school building in the Pampa independent school district. This district comprises several square miles and the larger boys who live farthest from school drive the omnibuses home after school and pick up the children in the morn-

THE TRUE BASIS

of all commercial progress is co-operation. The future progress of this organization, and its subsequent ability to assist in the up-building of this community, depends upon the spirit that exists between this bank and you.

ATTENTION, EX-SERVICE MEN

The Bureau of War Risk Insurance is planning a Clean Up Campaign to get in touch with every disabled ex-service man in the United States in order to see that his claims are settled. There are many men who are in need of hospital care; who are entitled to more money than they are getting from the government; or to training under the Federal Board for Vocational Education, and who are not getting these things because they are not in touch with the appropriate department. The purpose of this Clean Up Campaign is to get these men in touch with the right persons.

This is an especial effort on the part of the Bureau to get into personal touch with disabled men. The Bureau will send a Clean-Up Squad of special representatives to various communities in each state, which can be most easily reached by railroad, or other means of transportation. These representatives will interview men from the counties in this section of the state. It is the plan of this Clean-Up Squad to remain about two or three days in each place. Disabled ex-service men should interview the men on the Clean-Up Squad, and present their claims for adjustment.

These squads will consist of:

1. A representative of the Bureau who will be an authority on compensation and insurance claims.
2. An examining doctor who advises the man concerning his physical condition, and to make arrangements for him to go immediately to the hospital, if this is necessary.
3. A representative of the Federal Board to adjust any training matters.
4. A representative of the American Legion to enlist the interests of the local Legion Post.
5. A representative of the American Red Cross to offer the assistance of our organization wherever possible.

The Clean-Up Squad for this section of the State will be in Amarillo, Aug. 18, where they will be glad to meet any Donley County Ex-service men wanting adjustment. Any further information will be given by W. D. Van Eaton, Chairman of Home Service, or Mrs. C. A. Burton, Sec. of Home Service.

I will again teach in my home, during the school months of 1921-22. Children doing first and second grade work, will also have kindergarten work, consisting of the gifts and games, singing, story telling, dramatizing short stories and Mother Goose Rhymes. This work will be given from 8 to 12 a. m.

In the afternoon, from 1 to 3:30 the work will consist of the kindergarten gifts and games, singing, story telling, dramatizing short stories and Mother Goose Rhymes, word drills and sentence reading.

Those who are interested will please see me or call by telephone, as early as convenient. Telephone No. 60. Mrs. J. A. McKillop. (32c)

Mrs. W. S. Hearse returned Friday from a visit at Claude and Floydada. She was accompanied by her daughter and son-in-law.

Miss Sallie Hightower spent the week end with relatives at Lakeview.

Jeptha Fleming spent the week end with Don Grady at the Grady ranch.

Allen Beville returned Saturday evening from a business trip to Plainview.

Dick Walker and J. B. Baird returned Thursday from a business trip to Pampa.

Miss Anna Moores and Mrs. Edythe Cameron were Memphis visitors Monday.

W. Chamberlain, of Memphis, was in this city Friday attending business and visiting with friends.

Rollie Seales, U. S. Commissioner of Amarillo, was in this city Thursday on business.

Miss Maybelle Hays conducted a demonstration for the club girls at Giles Friday.

Mrs. S. Churchill and Mrs. Dave DuBois, of Tenaha, are visiting with Mrs. E. F. Bryan.

Miss Ethel Hudgins left Friday for Amarillo where she is visiting with relatives and friends.

Miss Mamie McLean is visiting in Crosbyton with her sister Mrs. W. S. McClung.

C. B. Ingram is visiting with his old friends at Oak Branch and assisting in a revival meeting.

Jim Adams returned to this city Saturday from a business trip to Amarillo.

T. E. Allen, of Memphis, spent the week end with relatives in this city.

The infant son of Bill Cook Jr., was seriously ill last week but is reported to be doing well now.

J. C. Brook and wife left Monday for Plano for a visit with relatives and friends.

Mrs. Flora White returned the past week from Denton where she attended C. I. A. this summer. Mrs. White secured a teacher's certificate this session.

E. T. Naylor arrived here yesterday to spend his vacation with homefolks. He is with the Burroughs people and makes his headquarters in Amarillo.

PASTIME THEATRE

LESSONS OF LOVE

... is visiting with relative... shell.

Arthur... who for the past two weeks has been visiting with his parents Mr. and Mrs. W. B. Sims, of this city, returned Saturday to his home in Ft. Worth.

George Ryan returned Saturday evening from a trip to Yellowstone Park and other points in the northwest. His family remained over for a longer visit at Colorado Springs.

The B. Y. P. U. will go to Chamberlain School House Sunday afternoon at 3:00 o'clock where they will render a program and take steps toward the organization of a B. Y. P. U. there.

Miss Mattie Eva and Pansy Lane returned to their home in this city Monday from Chicago where they studied this summer. They were accompanied from Amarillo by their sister Mrs. A. W. Nunn and children.

Miss Lois Smalley, of Claude, a former graduate of Clarendon College, spent the week end with her friend Miss Geneva Bynum of Lelia Lake. They visited in this city Saturday evening.

Rev. Will Garrison and wife, of Tallequah, Oklahoma, visited here the past week with C. A. Burton and family. The ladies are sisters and Rev. Garrison is a former graduate of Clarendon College.

Miss Vera Harrington, of Vernon, arrived here Sunday evening to join her friends Dr. and Mrs. Guy Stricklin in a trip to New Mexico. Dr. and Mrs. Wm. Gray were also members of the party.

Col. R. S. Kimberlin, of Santa Ana, California, a well known former citizen of this city, will arrive here Tuesday to attend business. He will look after his farming interests in this county, and will perhaps be here until December.

Mrs. Ida Chitwood has returned from College Station where she attended the A. & M. short course. Mrs. Chitwood also visited at Galveston. After noticing crop conditions over the state, she is confident that Dooley is without peer.

Miss Ola Grogan left Thursday evening for Amarillo to attend a luncheon given by the C. I. A. Club of the Panhandle. Miss Grogan was a student of C. I. A. last year. She spent the week end visiting with friends in Amarillo.

Edward Kilman and wife, of Houston, arrived here Tuesday for a short visit with their cousin Charles Speed and family. This is their first trip out into the West and they are surprised and wonderfully pleased. They will continue their journey visiting in Colorado before returning home.

Earl Lester, of Gray county, was in this city Saturday to meet his wife who arrived here on the northbound Denver, having been on a visit with her relatives at Vernon. Mr. Lester formerly lived at Vernon but is now engaged in the ranching business in Gray county. He is a brother of Mrs. R. T. Wilson of this city.

Mrs. Fannie Powell who is visiting here with relatives and friends reports that her son Robert is wonderfully well pleased with his work with an oil concern at Houston and that he is progressing fast in his work and is well pleased with his position.

Frank White returned the past week from a vacation spent in the West and Northwest. While gone he visited in California, Oregon and Washington. Mr. White reports that everywhere that he visited, the weather was hot, Frisco being the only cool spot on the journey.

Mr. and Mrs. Jeff Griffith arrived here Saturday for a visit with Mr. and Mrs. Ralph Kerbow. The ladies are sisters, and Mrs. Griffith will be remembered as Miss Alma Avery formerly of this city. Later they will visit at Claude with Mrs. Griffith's parents.

Mr. and Mrs. Fagan, of Ft. Worth, were here Friday evening and visited with Capt. and Mrs. E. A. Simpson enroute to Amarillo where they will visit with their daughter Mrs. Henry Gould. Mr. Fagan is a court reporter at Ft. Worth, and his son-in-law Henry Gould is well known here as the court reporter for this district.

Mrs. Cuba Blackwell and children left yesterday morning for Ada, Oklahoma where they will visit with Mrs. Blackwell's parents Mr. and Mrs. J. M. Brooks. Mr. and Mrs. Brooks will celebrate their golden wedding anniversary on the first of September, and are well known here having been former residents. Miss Meta Blackwell will remain there to attend the state normal this winter.

Sheriff J. H. Rutherford was in Pampa Monday on business.

Rev. J. H. Watts and family returned Friday evening from a trip to California. While they enjoyed the trip, they are glad to get back to Donley.

Miss Mary McLean arrived here Tuesday evening for a visit with homefolks. She has taught in the Canyon Normal this summer. She will leave tomorrow for Minnesota.

LELIA LAKE

The revival meeting held by Bro. Rich, pastor of the Methodist church at the grove in the school yard points to a success. Bro. Lipscomb of Chillicothe is doing the preaching. Everyone invited.

Mrs. Lafon is visiting her children in and near Lelia.

A nice shower was enjoyed by everyone Sunday evening.

We are glad to report Miss Effie Mace as being better.

Everybody rejoiced to have Kenneth Pope with us in the revival Monday night.

Mr. and Mrs. Homer Ellis spent Sunday in Lelia.

Roy Guffie spent several days at home last week but returned to the harvest Monday.

L. A. Byrd left Sunday night for Childers where he is doing banking business in the absence of Mr. Cruse.

Walter Cothren left for the harvest fields Monday after a few days visit with home folks.

Miss Emma Sheffield of Stamford is visiting her sister Mrs. Molin Cook.

Mr. and Mrs. Branson of Hedley visited the lady's sister, Mrs. Bill Knowles last week.

C. H. Ellis spent Sunday in Hall County.

Miss Lois Smalley of Claude visited Miss Geneva Bynum Sunday.

Grandma Patricia of Clarendon spent Sunday with her daughter, Mrs. G. T. Adams.

Mr. and Mrs. L. A. Byrd, also Mr. and Mrs. Frank Farham enjoyed the show in Clarendon Saturday night.

W. A. Bullard and family spent Sunday in Childers.

Miss Dewey Mitcham of Clarendon spent Sunday with Miss May Palmer.

MARTIN NEWS

Preaching services were held at the regular hour Sunday, after the services the B. Y. P. U. held their meeting.

Mr. and Mrs. Sam Billingsley have moved back to our community from Estelline.

Mr. J. T. Bain entertained the young folks with a party last Saturday night, which was enjoyed by all.

Richard and Josie Cannon motored their aunt Mrs. Hulda Crane over to Wheeler last Thursday to visit her sister.

Mr. and Mrs. Loyd Morland of Sunnyview visited the latter's parents, Mr. and Mrs. J. F. Cannon Friday. Joe Cannon returned with them and stayed till Saturday evening.

The community was visited by a good rain Sunday afternoon which was needed.

Several of our people attended church in Clarendon Sunday night.

CLASSIFIED COLUMN

For Sale

FOR SALE—Six horse power Fairbanks-Morse Gasoline engine. Call at News office.

FOR SALE—One Quick Meal Oil Stove. See me at once at Strickland-Storrs. (32c)

FOR SALE—Improved 100 acres farm 3 blocks of high school and church at Goodnight, Texas at \$100.00 per acre, easy terms. L. H. Henry. (34pd)

FOR SALE or Trade—Nice home, ladies all conveniences, close in. Phone 461 or see T. W. Smith. (32p)

FOR SALE—Six room house and half block land, good well and windmill. Apply to A. M. Beville. (32p)

For Rent

House for rent with all modern conveniences. Furnished or unfurnished. Call 348. (32pd)

FOR RENT—Seven room house close in. Inquire at News office.

FOR RENT—Three conveniently arranged rooms, furnished or unfurnished, all modern conveniences. Three blocks from College. Telephone 263 or write Box 393. (33pd)

Lost

LOST—Pair of scales off of car, between Dave Johnson and Paul Atteberry residence. Finder please leave at News office. W. H. Smith. (32pd)

SUNNY VIEW

We had a fine shower Sunday which will be beneficial to all crops.

Mrs. Ruby Curry returned to her home at Altus, Okla., after a visit with her sister, Mrs. J. H. Roberts.

Mr. and Mrs. Lonnie Wood visited in the home of the farmers father, J. C. Wood Sunday.

W. D. Martin and family attended church at Hedley Sunday.

Mr. and Mrs. John Butler visited with Mr. and Mrs. Jack Hutson of Ashtola Sunday.

Mr. and Mrs. Roy McKey spent Sunday at the home of F. S. Behring Sunday.

A. M. Lanham and wife drove to Goodnight Sunday morning to see their son Delbert Lanham and wife, but were disappointed to find them gone to Amarillo, however they were caught in a fine rain on their way home, but were none the worse by taking it as it was badly needed.

Mr. and Mrs. Stark is spending today (Tuesday) in the home of Mrs. J. H. Roberts.

A. M. Lanham and wife spent a pleasant evening with Mr. and Mrs. Peebles last Thursday.

MRS. CAMERON TO OPEN STUDIO HERE

Mrs. Edythe Bryan Cameron, who returned last month from Boston where she was a student in the New England Conservatory of Music in this city soon, will open a studio in this city soon, teaching piano, harmony, and history of music. This will be good news to the music lovers of Clarendon, for both as a student and a teacher of music she has demonstrated herself as being of the first class. Mrs. Cameron has not definitely decided as to where she will open her studio other than that it will be somewhere in the business part of the city, and thus more readily accessible to all parts of the city.

Mrs. Cameron was formerly a student in the Clarendon College Conservatory of music, later going to Oberlin Conservatory in Ohio where she did advanced work. Returning to this city, she was a teacher in Clarendon College. During the war while she did government work in Washington, she was a special student of music as well. Again, following her return home, she taught in Clarendon College. The past year she was a student in the New England Conservatory of Music at Boston. Here she added new laurels to her name, and, although this was her first year in that institution, she appeared in recital several times—an honor rarely accorded to students who have not spent more than a year in that school.

Mrs. Cameron did most of her work on piano under Alfred DeVoto, a concert pianist of national fame. The wonderful technique and interpretation of Mrs. Cameron's playing needs no comment to the music lovers of this city; she has played in recital here many times, and her playing, as it is, with rare understanding combined with her pleasing personality serves to make music of the highest type.

Many of the former pupils of Mrs. Cameron are still in this city; and these, knowing her as they do, are sure to seek her further guidance for the musical work, and with the many other pupils who will seek instruction of the first class, Mrs. Cameron will doubtless have a very large class.

Miss Inez Christian and Forrest Doshier were married Thursday evening at six o'clock at the home of the bride's parents Mr. and Mrs. J. T. Christian near Claude. The affair was quiet and was attended by relatives and near friends only. The ceremony was performed by Rev. E. C. McCanley, pastor of the Christian Church at Claude.

The bride has many friends at this place having attended Clarendon College the past year. The groom is a prosperous young farmer southwest of this city, and is widely and favorably known.

The young couple were, chaperoned Friday evening by a number of friends who got together and drove to the Doshier farm. The feature of the evening was the music rendered by Slim Parsons' orchestra.

Many are the friends who will wish for Mr. and Mrs. Doshier a long and happy journey through this life attended by prosperity.

MISSSES MILLER HONORED

Misses Pearl and Gertrude Miller of Amarillo, were honored Thursday afternoon with a picnic by their friends in this city. The guests met at the home of Miss Evadne Hurn; the girls carried lunches and the boys fruits. From there the party proceeded to Troublesome Canyon. The outing was a very pleasant one. Those present were Misses Gertrude and Pearl Miller, Winnie Weatherly, Pauline Ozier, Fray Stallings, Oma Griggs, Evadne Hurn and Messrs. Carl Parsons, Lloyd Stallings, Herman Bennett, Nathan Cox. The chaperones were Mr. and Mrs. J. H. Hurn and Mrs. E. M. Ozier.

MISS MOORES TO TEACH VOICE AND ORATORY HERE
GROGAN AND SONS RETURN FROM EXTENDED TRIP
Miss Anna Moores, well known here as a student and teacher of voice and oratory, announces that she will open a studio here and teach this year. Miss Moores has spent the past year in Boston where she studied oratory in the Emerson School of Oratory and voice in the New England Conservatory of Music. Besides this Miss Moores is a graduate of Baylor and has done post graduate work in the same institute. The gentlemen all have the same old story to tell and the old time cadetmen say they have never experienced any such times as they are now passing thru. They all agree on one thing and that is the necessity of cattle over the southwest—the greatest breeding section in the United States and perhaps in the world. It is a privilege for them to understand why the present low price of cattle and so few in the country at large. Mr. Grogan says their car registered 1175 miles in the two weeks they were out, a part of this was a lap back over the same road but not over 100 miles doubled over speaking of the country for general purposes. He says Donley county is hard to beat, although some sections they traversed is a much better cattle country in his estimation. S. H. Condron and wife left the first of the week for Hereford where they will visit with the latter's parents. Later Mr. Condron will travel over some parts of the Panhandle in the interest of Clarendon College.

The "JAYHAWKER"
The Wonderful Son of the Rainbow
BRED SCW SALE
NEXT
Thursday, August 18th
ROME was not built in a day. Such perfection as has been attained in THE JAYHAWKER is not the result of a season's work. It has taken years of scientific breeding to produce the many superior qualities that he possesses. Size, conformation, quality, and vitality, are his. But these would be worthless unless he also had that indispensable quality—prepotency. His get show that indispensable quality—prepotency. His get show that he is transmitting these characteristics. You can be the beneficiary of years of proper breeding that are behind THE JAYHAWKER by securing a sow bred to him in the splendid offering that I am placing before the public on AUGUST 18, next Thursday.

HEDLEY, TEXAS
R. E. MILLER, Auctioneer.

"THINK ON THESE THINGS"

By DeWitt McMurray 33 Degree Hon.

He is a freeman whom the truth makes free,
And all are slaves besides.—Cowper.

"Ye shall know the truth, and the truth shall make you free."

Wherever the liberty of rights ends, the slavery of wrong be-
gins.

Disobedience to God is abject slavery to the prince of dark-
ness.

He knows little of liberty who wears the yoke of bondage
fastened upon him by slavery to sin.

There is neither liberty nor happiness in defying the laws of
God.— Only serfdom and misery can follow such action.

He does not make much progress toward the Promised Land
who is constantly looking back to the fleshpots of Egypt.

"No man, having put his hand to the plow, and looking back,
is fit for the Kingdom of God." It must be a whole-hearted ser-
vice.

In fleeing from the Sodom of sin one cannot halt in the sub-
urbs; that is, he cannot compromise with God—he cannot go and
stay, too.

"God has not given us the spirit of fear, but of power, and of
love, and of a sound mind." Fear itself is more to be feared than
anything.

The prophet says, "Thou wilt keep him in perfect peace
whose mind is stayed on thee." Such a one has innumerable as-
surance of peace and happiness.

"Eternal vigilance is the price of liberty" in things moral and
spiritual as well as in things political and governmental. We
must be constantly alert to the activity of evil.

When one makes up his mind to be disobedient to the law of
God, he is also deciding to become a slave to the law of evil, which
means the tyranny and oppression that destroy.

Liberty can be had only by him who is obedient to the law
of God, who is not bound by the cords of bad habits, nor manacled
by the chains of self-indulgence, nor shackled with fear.

The "adversary" is a counterfeit, passing off the unreal for
the real, the impure for the pure, the evil for the good. He who
is familiar with the good coin knows when he sees a counterfeit.

Bondage to sin is the most abject, relentless and merciless
slavery, and he who is thus bound can have but a faint concep-
tion of what is meant by "the glorious liberty of the children of
God."

He who accepts the devil's coin, believing it genuine, may be
content for awhile, but sooner or later suffering strips off the
mask, lays bare the deception, and the lie and the liar are seen
in their hideousness.

Man must flee from the cities of the plain—of sin—and ascend
to the mountains of Love, where the Sun of Righteousness shines
in glorious splendor, even though his bloodstained feet mark the
pathway of his journey.

David Garrick said, "Corrupted freemen are the worst of
slaves." In spiritual and moral things there are no "corrupted
freemen," for men who are corrupt are evil-minded, and such are
slaves to the powers of darkness.

He who desires to live happily and peacefully must follow the
advice that the angel gave to Lot, "Escape for thy life; look not
behind thee, neither stay thou in the plain, but escape to the
mountain lest thou be consumed."

"Just the art of being kind" is the one great duty of man, for
we are told that "Love is the fulfilling of the law." Love alone
can induce one to fulfill this great and solemn duty. Love alone
can induce him to have a deep, heartfelt desire to obey the com-
mandments, to love his neighbor as himself, for "upon this com-
mandment hang all the law and the prophets."

ANNOUNCEMENT LUNCHEON

A decided and happy surprise was given to the friends of Miss Jean Dennis, of Orange, yesterday after-
noon when her mother, Mrs. W. B. Dennis, assisted by her sister, Miss
Dennis, complimented Miss Jean with an announcement luncheon. Seated
around the table, centered with white flowers, the guests read in
their place cards the secret of the occasion. The cards were wedding
rings decorated with orange blos-
soms, holding two little kewpies.
On the reverse side were the names of the bride and groom to be, Miss
Jean Dennis and D. L. Dean, with
the date August 13, 1921.

In a flutter of surprise and great-
est delight the guests showered their
friend with good wishes, and the re-
mainder of the afternoon was passed
in discussing the whole happy af-
fair to be. The Misses Lota Blythe
Margaret Cummings, Alice Parker,
Margaret Parker, Dorothy Guthrie,
Maurine Kellar, Mabelle Edwards,
Florence Pixley and Frances Scar-
ritt were guests of the occasion.

Miss Dennis is the younger
daughter of Mr. and Mrs. W. B.
Dennis, of E. Chapman-ave., and has
grown up in Orange. She is a
member of the class of '20, O. U.
H. S., and attended college last year
at U. S. C. Mr. Dean is connect-
ed with the Sperry Flour Co. in
Anahelm, and is well known among
the business men. Their home will
be made in this city.

Miss Dennis was guest of honor
at a beach party last night given
by her sorority, Alpha Chi Omega,
of U. S. C., at Newport Beach.—Orange
County Plain Dealer, Anahelm, Cal.

The groom is well known here,
having lived in this city for some
years while he attended college. He
has lived in California the past two
years, and has been engaged with the
Sperry Milling Company, being the
cashier and assistant manager of
their plant at Anahelm.

**TWO MORE INDICTED FOR
KILLING OF L. WELCH**

Charges as accomplices in the
highway robbery, alleged to have
been committed at Claude, when
John Asher, former Amarillo police-
man fired into an automobile fatally
injuring L. Welch of El Paso, Irving
Barringer of Amarillo and Barney
Williams of Memphis, were indicted
Tuesday, by the Armstrong County
grand jury, and are now in jail at
Claude, according to W. H. Childers,
district attorney.

The two men were expected to be
arraigned on the charge Wednesday
and the date of the trial will prob-
ably be set following the arraignment.

Asher was recently convicted of
murder at Clarendon and was given
a term of five years in the peniten-
tiary for the killing of Welch.

The car in which Welch was rid-
ing at the time of the killing, was
said to have been loaded with con-
traband liquor. The liquor and
some money was taken from occu-
pants of the car by Asher, accord-
ing to evidence at the Clarendon
trial.

Tex Thornton, Amarillo oil man
who was indicted with Asher for
participation in the affair will be
tried at Canyon, the case having
been transferred from Donley County.

According to the District At-
torney Williams will be defended by
E. A. Simpson of Clarendon and
Barringer will be represented by
Stone, Miller & Guleke of Amarillo.

ASHER WILL NOT APPEAL

John Asher, the former Texas
Ranger, who was convicted this
term of court of the murder of L.
Welch last April, decided accept
the verdict of five years in the peni-
tentiary rather than appeal. At
first he had announced that he
would appeal, but after studying
over the fact that this jury gave
him the minimum punishment for
murder, he decided to accept the
punishment. He was carried to
Amarillo Thursday where he was
allowed to spend some time with
his family, before being taken to
the penitentiary.

**LADIES AID MEETS
WITH MRS. HORN**

The Ladies Aid of the Presby-
terian Church will meet next Wed-
nesday afternoon at 3:30 o'clock
with Mrs. Joe Horn. Every member
is urged to be present.

MARRIAGE LICENSE

A. J. Morris and Mrs. Marie
Evans Benson.

H. W. Crockett, and Walter
Taylor and their families left yes-
terday for Eagle Lake in the Taos
Valley where they will spend a two
weeks vacation and outing.

POSTED NOTICE

This is to notify the public that
all of the J. A. pastures are posted
and hunting, trapping or fishing is
not permitted and all trespassers
will be prosecuted.

J. W. Kent, Supt.

**"HINDERED SERVICE" SUB-
JECT OF POWERFUL SERMON**

Rev. Harlen J. Mathews, of Plain-
view, who is in charge of the reviv-
al services being conducted by the
Baptist Church of this city, preach-
ed a masterful and powerful ser-
mon last evening on the subject
of "Hindered Service." The even-
ing before he had preached on Hin-
dered Prayer, and he followed this
up with the subject of service. A
good sized audience was in atten-
dence.

According to the speaker, the
Bible contains three great subjects:
these are Sin, Salvation and Ser-
vice; every passage of scripture is
related to or identified with one or
the other of these. A man, the
speaker continued must settle the
sin, then the salvation and let the
salvation eventuate in service. For
the best test of salvation is service.
"If all of God's people lined up ac-
cording to the will of God; would
hear and understand their march-
ing orders; would offer their bodies
on the altar, which is their reason-
able service, we would turn this old
world up side down," declared the
speaker.

Again much of our service is
fragmentary, and due to transient
impulses. Adjusting ourselves in the
Kingdom of God is of great impor-
tance.

Again we encounter trouble be-
cause we do not know the Bible.
It is no fair statement to say that
the Bible contains so many hard
and difficult passages that you can
not understand it, for if you are
willing to begin at the beginning
of the matter as you should, then
understanding will come in due time.
One upon entering the study of a
new subject as geometry, does not
turn to the middle of the book and
say that those theories are too
hard, but rather begins at the be-
ginning and in due time will under-
stand those problems that, at first
it would be impossible for him to
understand. "You say this book is
the greatest of all," said the
speaker holding up the Bible, "that
it is so important, and yet in the
average home it comes in for less
reading than any other." If you
come to the Bible with a determi-
nation to learn, and to do the will
of God, you can learn and find
directions here.

Another cause of failure, according
to the evangelist, is that we are
hindered because we are too oc-
cupied with other things. "What
a company of people bear the word
and it springs forth, and yet the
cares of this world make them to
become unfruitful," said the speak-
er.

Many people think that they are
acting with cool deliberation and of
good judgment when in reality they
are serving the devil. "The Devil
is not all wise, but he is wiser
than any man. You can not estab-
lish a business permanently contrary
to the will of God," declared Rev.
Mathews. History is strewn with
wrecks of those who have attempted
so to do.

Then there are others that are
hindered because they put off un-
til tomorrow. "The hardest thing
in the world to do is to bring your-
self to do a thing right now. A
thing never becomes easy by post-
ponement; nor do you grow more
courageous by delay. When you
discover a duty, therefore, perform
it."

Then another class are hindered
because they are waiting for the
strength and opportunity to do
something great. Many people said
that if they could make a goodly
fortune in the oil game, they would
give a big sum to the Lord. But
the Lord got a mighty little bit of
the oil money in this county com-
mented the speaker. "The man
that will not give his pennies, will
not give his pounds. There is noth-
ing in the increase of riches to
make men liberal; the tendency is
rather in the other direction. And
if you are not willing to use your
strength, you will not have an in-
crease of strength."

Rev. Mathews then effectively re-
lated the story of the small boy
with the fishes and loaves; and of
how that boy placed those, small
though they were in the hands of
Jesus; and Jesus took them and by
his multiplying touch, fed the mul-
titude. The evangelist then said
that he wished that we might be
as willing to place our talents in
the hands of the Lord.

Then, the last hindrance dis-
cussed was a sense of guilt. Con-
science makes a coward of anyone
of us, "But if you confess your
sins, and ask the forgiveness of
those whom you have wronged, God
will restore confidence," was the
earnest declaration of the speaker.
An effective method of holding
interest in the meeting employed
by the evangelist has been by hav-
ing interest in the meeting em-
ployed by the evangelist has been
by having those attending the
meeting to memorize a certain pas-
sage of scripture for each evening.
Last evening three people sought
church membership, and were re-
ceived.

Homer Mann and wife visited the
past week end with friends in
Dalhart.

**Who Gets
Your
Hand-Bills?**

—You pay out good money for a lot of paper stock, and
more good money to have your message printed on it.

—Then comes the problem of reaching your prospects—
Mailing out circulars is expensive and they usually reach
the wastebasket without even being opened at that.

—The next best way is to give Willie or Jimmie half a
dollar and an armful of circulars with strict orders to
shove one under every door in town.

—Willie (or Jimmie) does nobly until the tempter comes
along to inform him "they're bitin' swell down to Skin-
ner's Creek" and your precious circulars are delivered in
one expensive bunch—into some ash barrel!

—The same amount of money invested in newspaper
space would bring better and surer results.

—It is the only medium through which you can really
reach the people of this community. Going into almost
every home and being read by an average of four people
to each family, you can readily see the value of newspaper
space in reaching the greatest number of prospective
customers.

—Advertise in this newspaper and reach the nine out of
every ten who do not read or receive your handbills.

—Have our Advertising Manager call and show you what
a sure result-bringer our newspaper is.

But Say---

—If you think we don't know what we are talking about
and you believe hand bills are the stuff—just call us—
we print them—all sizes and at prices that please.

**TOWERS USED FOR MAKING
BASE MAP OF PANHANDLE**

The United States Coast and Geo-
detic Survey department is running
a line of triangulation from Okla-
homa City, through Amarillo and
the Panhandle to Albuquerque, N.
M., for the purpose of establishing a
perfect base map of this section of
the country, according to E. O.
Heaton, junior hydrographic and
geodetic engineer for the Govern-
ment, who has been in Amarillo for
the past two weeks in charge of
the work here.

A series of towers, approximately
100 feet high have been stationed at
intervals of from ten to ninety miles
apart throughout the Panhandle for
observation purposes. One of the
observation towers has been erected
on the Benton farm about two miles
east of Amarillo, and others have
been erected at Washington, Sham-
rock, Jericho, Hedley, Lark, Bush-
land, Vega, Clarendon and near
Canyon. About thirty towers will
be erected between Oklahoma City
and Albuquerque, covering a dis-
tance of approximately 550 miles.

The running of the lines of trian-
gulation and the establishing of lati-
tudinal and longitudinal positions is
primarily for the purpose of setting
starting points to be used in the
compiling of topographical maps by
the Geographical Survey Depart-
ments and the furnishing of any in-
formation in the matter of correct
mapping and other engineering pro-
jects, Mr. Heaton declared. The
curvature of the earth's surface is
one of the prime factors of the work
of the government engineers in the
Mexico.

geodetic survey, Mr. Heaton declared,
perfect from an engineering stand-
point, and when the stations are once
established, the lines are absolutely
point.

The owners used in the observa-
tion work are donated to the owners
of the land on which it was erected,
when the survey work is finished,
the engineer declared. The tower
on the Benton farm will be replaced
with a brass plate set in concrete,
three feet in the ground, and will be
a permanent marker, known to the
government as the Benton Primary
Triangular Station.

With the completion of the survey
through the Panhandle, known in
government engineering circles as
the El Reno-Needles Arc, the Coast
and Geodetic Survey Department,
will have completed the entire trian-
gular lines, crossing the United
States from coast to coast five or
six times. The extreme northern
line is on the Canadian-United
States boundary.

Twelve men and four motor
trucks are required to conduct the
survey here. All work is done at
night and lights are used as sig-
nals, five stations being under ob-
servation at the same time, cover-
ing a vision range of about twenty
miles, the engineer declared.

The work at Amarillo will be com-
pleted within three or four more
days, and the crew will move west
to another observation point, Mr.
Heaton said.

J. L. Allison and family returned
Sunday from a vacation spent at
Las Vegas and other points in New

**MISSIS MILLER HONORED
BY MISS CAROLYN McLEAN**

Misses Gertrude and Pearl Mil-
ler, of Amarillo formerly of Clar-
endon, were the honorees of a party
given by Miss Carolyn McLean
Tuesday evening of last week.
First the party were guests of Mr.
and Mrs. Currie Powell at the Coun-
try Club where supper was had
following a swim. Upon the re-
turn to the city, jokes and fortune
telling furnished a great deal of
amusement during the evening.
Miss Pearl Miller's war whoop at
five-thirty the next morning awak-
ed all the guests, and they went to
the Country Club for a swim and break-
fast. The slumber party was a
most enjoyable one and the follow-
ing young ladies made up the party:
Misses Gertrude and Pearl Miller,
Tine SoRelle, Pauline Ozier, Thelma
Allen, Wynne Weatherly, Evadne
Hurn and D'Laural Beville.

**VOTE ON AMENDMENTS CAN-
VASSSED BY COMMISSIONERS**

Although the results of the elec-
tion on the amendments were publish-
ed in the issue of the News follow-
ing the election, still the tabulated
result could not be given at that
time. The results as found by the
Commissioners' Court are:

For Prison Board.....	61
Against.....	72
For Officers' salary.....	26
Against.....	109
For Confederate pension.....	79
Against.....	55
For Mileage and per diem.....	26
Against.....	107
For Americanization.....	94
Against.....	39

Mr. and Mrs. Frank White left
last evening for Rising Star where
they are visiting with the latter's
parents.

**MISSIS HARNED RE-
TURN FROM MARKET**

Misses Ida and Etta Harned re-
turned Friday evening from Chi-
cago where they purchased their
line of early fall millinery. En-
route to Chicago they visited with
friends at Denver. They bought a
big stock of hats and their display
is a most beautiful one. An-
nouncement of their stock of hats
will appear in the near future.

FOR SALE—New 4 room modern
home, corner lot, east front, most
desirable part of town; now rent-
ing for \$45 per month. Will take
in good six cylinder car as first
payment, \$50 per month there-
after. Address C. M. Stapp, 415
Polk St., Amarillo, Texas, Phone
426.

H. A. Gardner, of Amarillo, was
here on business Monday.

Settled:

THE SERVANT PROBLEM

There is electric devices made for doing almost every household task
from milking the cow to rocking the baby's cradle. The price of the
service is low when compared to the value of the service.

Receiver Texas Gas & Electric Company

Low Cost Mileage For the Big Car

Every Fisk Tire is a guarantee that you will get mileage at a low cost. For satisfaction, safety and economy you buy a "sure thing" when you buy Fisk Tires. You are safe when you buy a known and reputable product at a low price

Sold only by Dealers

ADVERTISEMENTS

Americans bathe more often than any other people, and Saturday is no longer the one universal day for bathing, says a Chicago advertising expert. Why Americans have been trained to bathe frequently by the relentless propaganda of soap advertisements, he explained. "You may be one of those like to say you are never influenced by advertisements. But the fact is that the furnishings in your home, the cereals you eat for breakfast, the style your wife wears, the photograph that entertains you in the evening, were all largely determined

for you by newspaper advertisements. Think it over.—Albuquerque Herald.

A REDUCTION

A ten percent reduction on Bolander milk cooler. Special price on metal flue work. Flue examined free, necessary repairs made. East side of square. Bolander Tin Shop. (32-pd.)

Misses Gertrude and Pearl Miller of Amarillo, returned Friday to their home after a visit in this city with Miss Evadne Hurn and other friends.

WHY EDITORS GO MAD

Dear Folks: Now I know why editors go mad. I ben trying to run this paper while the editor is so busy. For three (3) days and nites I ben reading questions and trying to answer them, and if I don't quit I'll be going around talking to myself. I'm going to answer a few more then go to the ball game.—(Jimmie the office boy.)

1. What is limberneck? (J. Jones.)

Limberneck in the country is a strange disease of fowls and chickens. In the city it is a disease of human persons caused by watching fowls—and chickens.

2. Do small cows give condensed milk? (Mabel B.)

No, Mabel. Condensed milk is made by trying to get a quart of milk into a "quart milk bottle."

3. Please tell me how hash is made. (W. M.)

Hash is not made. It akumulates.

4. Is it all right to feed hogs corn-in-the-car? (G. K.)

No. Put it in the trof and let them help themselves.

5. I am in love with a homely girl who works for us but she don't seem to care for me, while a pretty girl with lots of money wants to marry me. What shall I do? (Will M.)

Marry the one you love, and send me the name and address of the other one.

6. My hair is beginning to fall out. What can I get to keep it in?

A sack.

7. Please tell me how to raise a nice fat hog of about 500 pounds. Get a derrick.

8. How can I tell when the water is the right temperature for bathing baby? (Young Mother.)

If the kid gets red and hollers, the water is too hot. If he gets blue and shivers, it's too cold.

9. I am 40 years old, have a nice little farm, and am thinking of taking a wife. What would you advise? (Old-Butch.)

I would advise you to be kerful whose wife you take.

10. Our old red bull is chasing me round a forty acre field. What shall I do (Mike F.)

I don't know, but don't give up, Mike. The editor will be back in a week.—Exchange.

Miss Ella Yeager left Saturday for south and central Texas where she will visit with friends and relatives. She was met at Temple by her brother Hon. Henry Yeager, of Belton. Later she will visit in Houston.

H. Mulkey, A. L. Chase, O. C. Watson, and T. S. Kemp, were business visitors to Memphis Friday.

THE BUSINESS SITUATION

The Wall Street Journal makes the following observations on the business situation at the opening of August, which are worth passing on:

"Business, at present, is like a great river, whose surface is exposed to opposing winds and cross-currents, making the waters to appear as if standing still, or perhaps going backward. Yet, underneath the surface the main body is slowly moving onward.

"Complete business recovered must be preceded by an equalization of prices for commodities and services. The workings of economic law must be depended upon to bring this to pass. Its processes are always slow, and in the present readjustment many hindrances have been put in its way. The tenacity with which some labor unions have clung to their inflated schedules and retailers to prices out of all proportion to a fair profit, are illustrations. However, all hindrances are gradually weakening in their resistance.

"The price index is steadily moving toward an equality in the different groups and of different members of a particular group. The lists of commodities that for so long time resisted deflation is becoming less and less. With the gradual passing away of the period of price uncertainty a great obstacle to the making of forward commitments is being removed.

"Production of goods does not equal consumption and we are eating into the stocks that a year ago seemed so burdensome and gave rise to the term of 'frozen credits.' Fundamental to this is the increased purchasing power of the farming communities. Last season the farmers listened to the agitators preaching the doctrines of discontent, and lost thereby. Now they are marketing products as rapidly as they can, paying debts and creating a better mercantile and banking situation. Increase of consumption over production brings us nearer to the time when there must be a larger resumption of industry to satisfy needs.

"In due time the saving in railway wages must be reflected in increased buying by the roads which in the last analysis, means the employment of more labor and the use of more raw materials. There is a country wide hope that Congress will not delay the President's railway plan, for its speedy adoption would be another forward movement toward recovery.

"European demand is the balance wheel of American industry, and for a time it functioned unsteadily. But compare present conditions with those of a year ago and see what a change for the better. Even Bolshevism, Communism and German reparations no longer hang like a black shadow over the world. The contrast is wonderful in every way.

"When the Bank of England reduced its discount rate coincident with a similar action here, that great sser, Finance, whose predictions never fail, was chronicling the fact that the former era was closing and a better one beginning. It told that Europe had turned the corner toward recovery. The way is long and the pace may be slow, but progress is toward improvement."

All of which is justified by the facts. It may not be much consolation to say that the worst is past. But it is the plain truth, and the strong man who faces conditions as they arise and makes the best of every situation will be gratified over that fact.—Ft. Worth Star Telegram.

ABOUT SUBSCRIPTION RATES

Queries as to when subscription rates are to be reduced come frequently to the Record as well as to other newspapers. With prices falling in many lines of business the readers of the daily newspapers wonder when subscriptions will be cut.

The Record would be only too pleased to announce such a reduction of rates. It would indicate a condition that any newspaper would be delighted to experience a reduction in the cost of operation which would permit a reduction in cost to the reader and a corresponding ease in developing circulation.

But the cold, unrelenting fact is that the cost of making and distributing a newspaper has not kept pace with the declines of other commodities or manufacturing processes. In fact, few of the elements that go into the making of a newspaper have declined. On the contrary many of them have gone up. Newspapers did not advance their prices as early as was the case with most commodities. They have not yet felt the receding tide of costs.

Perhaps the principal reason why there can be no cut in subscription rates at present, especially as far as mail subscribers are concerned, is the increase in postal rates which took effect July 1 of this year. This federal measure imposed an increase of one cent a pound in the fourth zone, one-half cent a pound in the third zone and one-quarter cent in the first and second zones on top of the already increased postal rates. This is in effect a federal tax on the reader and is a heavy handicap on both readers and publisher. This item alone means an increased cost of over \$2,000 a year to The Record.

Newspapers are still paying the high peak wages in their mechanical departments under contracts with long terms still to run so no lowering of cost there is possible. The Fort Worth Record, like many other newspapers, is paying 200 per cent more for newsprint paper than it was in the days when subscription rates were lower. Other materials used are correspondingly higher in price than in the low price days.

Readers are demanding more and better service, costly telegraph and cable services, pictures, special writers and comics in greater profusion. The Record has greatly improved its service and plans further great improvements. It will give the people the best newspaper it is possible to make for the price they will pay. It is well known that the subscriber has never borne his share of the cost of a newspaper. Rates in the past have been too low and the advertiser has borne the difference. The present subscription and advertising rates are based on an equitable division of the actual cost of the newspaper.

The newspaper publisher may be relied upon to do his part in keeping costs and prices down but with the government demanding higher postal rates, with paper and labor still at a high mark and with the constant demand for improvement lower subscription rates are, to say the least, impossible now.—Ft. Worth Record.

SOUTHERN BANKERS URGED TO BACK DAIRYING WITH LOAN

A comparison of the financial condition of dairy farmers and dairy communities with cotton farmers and cotton communities in Mississippi brings out the fact that while 80 or 90 per cent of the cotton farmers owe the banks money and are asking for extensions on their notes, there are almost no instances of notes held against dairy farmers. The merchants in towns surrounded by the best dairy communities report their business throughout last fall and winter as remarkably good. This statement is made on the authority of the extension dairy husbandman who for nearly ten years has engaged in the movement carried on by the United States Department of Agriculture and the State Agricultural College of Mississippi to build up dairying in that State and furnish the farmers with a source of income after the boll weevil had reduced the production of the South's great staple.

To farmers these facts should lend encouragement to break away from the one-crop system the specialist says; to the bankers and business men they should be convincing proof that greater farm prosperity, attained by a more permanent and constructive type of farming, benefits the entire community. The growth of the dairy industry throughout the South is limited in a very large degree by the willingness and ability of bankers and other moneyed interests to finance the cotton farmer of the past in buying cows and making the necessary changes in order to branch out in a new line.

The experience of the business people in a western Pennsylvania town, which became interested in promoting dairying and improved agriculture generally, should be illuminating to many of the Southern bankers who have not been converted to diversified farming. In 1915 a creamery was organized in this Pennsylvania town, and one of the two banks in the place became very active in promoting and financing the industry. It took the initiative in bringing in cows to sell to the farmers at cost, and inconvenienced itself in many ways to accommodate the farmers.

In five years there was built up a large membership in various dairying associations; 43 members in the cowtesting association, 96 in bull associations, 187 in breeders', and 698 in creamery patrons' associations. A Young Farmers Club had a roll of 83, and there were 75 members of the Boys' and Girls' Dairy Club. Thirty farmers became members of the Chamber of Commerce, thus making the farmers inseparably bound together in one big community. The dairy herds, after five years, had 1,100 purebred cows, 232 purebred bulls, 1,360 purebred heifers, 4,513 tuberculin-tested cattle, and 176 accredited herds.

During the year ended June 30, 1920, the creamery paid out \$410, 125.15 to its patrons. The bank which had promoted the agricultural development made a gain in deposits of \$968,847.12; while the older bank, which also gained because of the greater general prosperity in the town, showed a gain of \$542, 383.01. About \$1,500,000 in these an increase of \$1,000,000 in farmers' deposits in five years.

Emory Taylor, of Petrolia, returned Sunday to his home after a visit here with his father H. D. Taylor. Emory is the assistant manager of the government helium plant at Petrolia.

NEWS NOTES

Mrs. Marie Benson and Albert Morris were quietly married Saturday evening at the home of Mr. and Mrs. J. E. DeWitt. The ceremony was performed by Judge W. T. Link and was attended by only relatives and a few intimate friends. Immediately following the ceremony, the young couple departed for Amarillo where they will make their home.

Mrs. Benson has been prominent by her work in the Christian church, and has made many friends whose best wishes she has for a life filled with happiness. The groom is the son of Mr. R. M. Morris, and is well known here having grown to manhood here. He is engaged with the Denver Railway. The many friends of Mr. and Mrs. Morris will join in wishing for them many days filled with happiness and prosperity.

IOWA CHAMPION PIG STATE

It may be surprising to many Easterners to learn from the census that Iowa is the champion pig state, with a count of 7,864,904. The second in rank, Illinois, falls to around 4,000,000, while the 3,000,000 class includes only Missouri, Nebraska and Ohio. Kansas, which used to boast of its great droves, now has fewer than 2,000,000, a drop since 1910 from 3,000,000. The Sunflower farmers have recently been going in strong for wheat or oats, in preference to corn, the great pig food.

Virginia, celebrated for its ham, has just under a million pigs on its farms, but the wild razorbacks on which the Old Dominion particularly prides itself, were presumably overlooked by the census takers and there may still be a lot of them. Most of the Southern states, however, have many more pigs than all New England, which is credited with 383,752, rather fewer than in 1910—12,969 being counted on the farms of Rhode Island.—Providence Journal.

C. B. Williams came down from Amarillo Saturday evening and spend the week end with his family.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Jad Salts before breakfast if your back hurts or bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Everything for QUALITY —nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

Camel

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

PASSING OF CARUSO

In the death of Enrico Caruso the world has lost a great singer, whose voice has thrilled thousands of people. It is not often that tenor singers attain the fame that came to Caruso. In this respect the women have an advantage over the men, for where there is one tenor who will draw an audience solely to hear him sing, there are three sopranos who attain world wide fame and hold it longer. To have attained the fame that came to him, Caruso's voice must have been of superlative quality and the many who have heard him will testify to the pleasure it gave them.

But Caruso's voice will not die, as have the voices of the world's great singers of bygone years. His voice and the voices of sopranos like Melba, Nordica and others who have lived recently have been recorded and may be heard by generations hundreds of years from now. Mr. Edison has conferred a boon on humanity by his discoveries that have permitted the recording of sound waves, and voices may now be perpetuated so long as the records made are preserved.

People will mourn the death of Caruso. Like many artists, he was temperamental but he appears to have had a heart that was true and it gave a quality to his voice that reached the heart of humanity. Such a voice had Jenny Lind, but her career was before the day of sound wave recording and her voice has not been perpetuated. People mourn for Jenny Lind as one who has gone and mourn also for Caruso.

COAL WARNING!!

Clarendon territory is more than one thousand tons of coal behind on this season's requirements.

We may have to keep the fan turned on all next January. But it would be advisable for all who are a little skeptical of that possibility to provide themselves with a winters' supply of coal right away.

NOT AFRAID OF INBREEDING

You find many a man who thinks about the worst thing he can do is to inbreed his hogs. Not so with Geo. Morton of Oxford, Kansas, famous as the owner of Morton's Giant, and George has had many years experience with the mating of hogs.

"You have to know what you are doing" is the answer that Morton gives for the success he has had with inbreeding. And he has had success with intensified inbreeding. If you could see some of the beautiful gilts that he has that are double granddaughters of Morton's Giant you would say that he has had success. When asked how he produced such a uniform bunch of gilts with all the style, size, stretch and conformation that one could ask for, he said that he selected a boar by Morton's Giant that was high and narrow and mated him with sows sired by Morton's Giant—that were wide and heavy and they produced this result. He states, however, that he did this only after years of study of this great old boar (now dead) and his daughters and he would not encourage novices to dash into inbreeding.

George is developing a show herd that will make the boys step around this fall. He has some young stuff that is mighty good and is going to be hard to beat. Then he is going to show Yankee Girl by The Yankee, a two-year old sow, that is a peach. And he has a spring litter by M's Great Jones that is especially good. You had better just as well look to your hams if you are planning to show against George.

It has been hard to replace Morton's Giant. In fact he cannot be replaced but George has some good young boars that are acting in his stead. He by the Giant's Pride, one by Morton's Giant and the third by Peter Pan. He has named this last named boar Pan Peter, a good name for he surely is a son of his father. He is out of a Big Timm sow.

A visit to the Morton farm is an inspiration to any man interested in Poland. Listen to George tell how he started only about a decade ago and how the hogs have enabled him to prosper and to acquire the beautiful farm and home that he now owns and one is again con-

vinced of soundness and the possibilities of the pure bred hog business. George is one of the biggest boosters in Kansas. He has helped many a young man get a start with Poland and has stayed by his side and encouraged him on to success. It's men with the courage, the vision, the resolution and good will toward others that George Morton possess makes the pure bred stock business the business that it is.—Better Poland.

MORNING AND EVENING

I saw the morning with purple quiver and burnished bow stand tip-toe on the horizon and shoot beams at the vanishing darkness of night, then reach up and gather the stars and hide them in her bosom and then bend down and tickle the lumbering world with straws of light until it woke with laughter and with song. A thousand bugle calls from the wavy fires of earth heralding her coming; a thousand smiling meadows kissed her garments as she passed and ten thousand laughing gardens unfurled their flower flags to greet her. The heart of the deep forest throbbled a tribute of bird song and the bright waters rippled melody of welcome. Young life and love radiated with hope and sparkling with dewdrops of exultant joy came in and tripping and dancing in her shining train and I wished that the heaven of morning might last forever.

I saw the evening hang her silver crescent on the sky and rival the splendor of the dawn with the glory of the twilight; I saw her wrap the shadow around her and with a lullaby on her lips, rock the weary world to rest; then I saw her with her dipper full of dewdrops and her basket full of dreams, slip back to the horizon of the morning and steal the stars again. The gardens unfurled their flag, flowers fell asleep; the songs of the forest melted into silence and the mellow, holy waters whispered a pensive goodnight to the drowsy birds and sleeping hollows. Life and love, with the halo of parting day upon their brows, and twilight tangled in their hair, walked arm in arm among the gathering shadows and move all the sweet memories of the morning into their happy evening that it may never end.—Bob Taylor.

A FEW FACTS ABOUT

THE UNIVERSITY

To the Friends of Education in Texas:

Such general misunderstanding seems to exist with regard to the action of the Legislature on the University of Texas appropriation that an authoritative statement of the facts seems necessary. It is a much more serious matter than the reduction of Faculty salaries, serious though that is in itself.

The actual running expenses of the University for the fiscal year expiring August 31st, not counting any kind of building or permanent improvement, are \$1,504,000.00. In order to continue the present work and to provide for additional students expected next year and for a few small additions to some especially inadequate salaries the President and Regents asked for an appropriation of \$1,663,484.00 for running expenses for next year, this being a modest addition of 10 per cent to cover growth. The private funds of the University, called the "Available Fund," and the fees, in all amounting to less than \$400,000, were to be set aside for buildings.

Instead of recommending this, the Board of Control, after careful study, recommended cutting out all buildings and granting only \$1,173,935.00 and the setting free of the available fund and fees for use in paying running expenses. The Finance Committees of both House and Senate after full hearings and discussion, voted to grant \$1,100,000.00 and the available fund for fees for running expenses.

This heavy cut of \$563,484.00 was accepted by the Board of Regents, although it means this:

1. The University will not have a cent for building, or for removal of the more than twenty wooden shacks on the campus.
2. Nothing will be available to provide additional instructors and equipment for the added students next year. There are over 500 additional students this summer, in spite of hard times.
3. No increase can be made in any salary of about 300 young men and women teaching in the University, who came at low salaries with expectation of reasonable increase and promotion for good work. Now is there a cent to hold any worthy teacher who receives a better offer elsewhere.

4. The Bureau of Economic Geology, the Interscholastic League and the entire Extension Department are destroyed except for a small nucleus left.
5. The Bureau of Municipal Research is entirely wiped out.

The Senate bill, therefore does not represent at all what the University asked for or needs. It does not quite enable it to hold its present state of efficiency, but it does enable it to hold together and hold its faculty.

After this, came the action of the majority in the House, which refused to accept the report of its Finance Committee and cut the University appropriation down to \$674,367.00, tied up the available fund so that it must be used for buildings, and hog-tied the Regents and President so that no readjustments can be made by them of such funds as are granted, but each item must be spent, regardless of circumstances, exactly as stated in the bill or not at all, thus nullifying the law which puts control of the University in the hands of a Board of Regents.

In short, the action of the House reduced the amount possible for running expenses from \$1,504,000.00, which are being expended this year, and which was almost equalled by the Senate's action of voting \$1,100,000.00 and freeing the available fund and fees for running expenses, to approximately \$790,000.00; that is, an appropriation of \$674,367.00 plus fees of about \$120,000.00.

Now, any man who will stop to think is bound to see that the work of the University must be approximately half destroyed, when its running expenses are cut from \$1,504,000.00 to \$790,000.00, unless the University has been throwing away over seven hundred thousand dollars of its running expenses this year.

It is not hard to determine whether the University has been extravagant. There are this year 4564 students in the regular session and 2565 in the summer session; in addition to these students in residence, there are 2273 correspondence students and 2598 more group study students, pursuing courses under University instruction, in their homes. This does not include the tens of thousands reached by the Interscholastic League, the child-welfare meetings, the teachers' institute lectures and other short time educational work. The University therefore serves 7129 students this year in residence and 4871 through its Extension Department.

The average cost per resident student per full year for instruction in the Main University is this year \$221.54. The total cost per student in the University, including buildings and permanent improvements and every character of expenditure is \$332.00. The report for 1917, the last one printed, shows that California University spends \$576.00 per year per pupil, Illinois

\$522.00, Wisconsin \$521.00 and Virginia \$519.00. Of our adjoining states, Louisiana spent \$387.00 per pupil and New Mexico \$466.00 as against our \$332.00. The figures in Bulletin No. 55, 1917, of the U. S. Bureau of Education show that, of the 39 state universities reported there, Texas is 36th in amount expended per pupil. That is, there are only three state universities in the nation with less income per student than Texas. It is plain that the expenditures per student of the University of Texas are already far below those of any other University that even pretends to aspire to be first class.

The final adoption of the House bill, cutting practically half in two the present running expenses, means the practical destruction of our University and the scattering of its faculty, which has been built up with so much labor and pains during the past thirty years. It means the violation of implied contracts with hundreds of splendid educated men and women and the making of it impossible for years to come to induce any more men and women of first class ability to come to the institution at any price.

This statement is intended to give the real facts without embellishment or argument. They speak for themselves.

Really, the future of the University is in grave danger. It is ruined if the friends of higher education do not let their representatives know at once that they want the University saved and that they want at least as much support granted it as has already been approved by the Board of Control, the Finance Committees, and the Senate.

Act today or blame yourself for the practical destruction of the University of Texas. Telegraph and write yourself today to your Representatives, Senator and Governor, and ask other leading men and women to send in their petition that the University of Texas be granted at least as much maintenance as the Senate bill carries.

L. A. CARLTON,
Chairman of Ex-Students' Committee

STANDARD FIRE HYDRANTS THROUGHOUT STATE PLANNED

The committee of the State Firemen's Association of Texas appointed for the purpose of devising ways and means of standardizing hydrants and hose couplings in the interest of fire protection held its initial meeting in the offices of S. W. Inglish, manager of the Texas Inspection Bureau, here Thursday.

Members of the committee attending the conference were V. S. Fritz, fire chief, Victoria, and president of the State Firemen's Association; Olin Culbertson, secretary of the State Firemen's Association, Hillsboro; A. J. Goetz, fire chief, San Antonio; T. A. Myers, fire chief, Dallas; A. M. Vaughan, chief engineer of the State Insurance Commission, Austin; P. Mayer, ex-fire chief, Corsicana, and Herbert H. Sutton, chief engineer Texas Inspection Bureau, Dallas.

As many cities and towns in Texas are unable to be of assistance to each other in fighting fires because of the difference of hydrant and hose threads, it is the purpose of the committee to endeavor to induce municipal officials throughout the State to effect the changes that will make all such fittings uniform, to the end that fire departments responding to calls for help from neighboring towns may be of ready assistance.

"When installing waterworks systems," said President Fritz, "little attention has been paid as to uniformity of fire hydrant openings in so far as thread is concerned. If all hydrant couplings in the State were of the same size and thread fire departments would experience little difficulty in rendering each other aid, whereas, under present conditions, it is often impossible to render any assistance at all."

In order to take care of the situation immediately the committee subdivided the State into twenty-

five districts, naming a chairman for each district from the fire chiefs, and the recommendation will be made that each fire department not having standard hydrant and hose connections supply adapters to the near-by cities and towns for use in the event of an emergency requiring outside assistance.—Dallas News.

VERNON MAN CATCHES BEAR WITH HIS HANDS

The feat of catching a real live black bear with no other weapons than the ones which nature endowed a man with is one which would have won commendation from the late Theodore Roosevelt. Yet this is just what L. K. Johnson, prominent banker and ranchman of Vernon did last week in Brewster county in the Big Bend country near the Rio Grande.

Moreover, it was not a mere story of the exploit which Mr. Johnson brought back to Amarillo Wednesday night when he and W. E. Herring returned from a ten days visit to the Big Bend country to inspect some ranch property.

The animal is a young cub and will weigh about forty pounds. It was captured in the Chisos mountains near Pummell Peak. Mr. Johnson, Mr. Herring and E. Bomar,

a ranch foreman were riding through the country and they discovered a mother bear and four cubs. The mother and three of the youngsters made their escape in the mountain fastness. The one captured was cut off from his companions and after being chased for a considerable distance by Mr. Bomar was about to make his escape up a ravine near where Mr. Johnson was on his horse, watching the chase.

As the animal came by, the Vernon man dismounted, slid down the ravine and caught him by the hind leg, holding him until help came without any worse effects than a few scratches on his hand and a torn place in his trousers. Mr. Johnson will take the bear to near where Mr. Johnson was on his horse, watching the chase.

W. M. Cross left Friday for Silverton where he will attend a family reunion of his brothers and sisters. They make it a practice to meet at least once a year. This year they meet with the brother who lives near Silverton.

Mrs. I. B. Hughey and little daughter Fern, of Pampa, has been here this week visiting with Mrs. Hughey's sister Mrs. B. B. Hudgins.

CHILDREN NO EXCEPTION

In Clarendon as Elsewhere Youth and Age Suffer Alike From Kidney Weakness.

Is your child weak, frail and pale? No control over the kidneys' action? Kidney weakness is a serious thing—

Far too serious to overlook. It may mean a life of sickness. Profit by Clarendon experiences. Use Doan's Kidney Pills. Endorsed by Clarendon parents. Read this Clarendon mother's endorsement:

Mrs. Katie Clayton, E. 1st St., says: "Some time ago my little girl, seven years of age was troubled with weak kidneys. She was complaining of her back hurting all the time and felt tired and worn out. Her kidneys acted too freely and they bothered a great deal at night. The weakness was getting worse all the time. I gave her Doan's Kidney Pills and they soon strengthened her kidneys and put her in fine shape."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Clayton had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Government Statistics show the following sad facts:

Seven-eighths of all the money left by married men in America to their dependents is derived from life insurance.

Nineteen out of every twenty persons fail to provide for their old age or for their families.

Eight million women are forced to earn a living.

Thirty-five percent of the widows in the country are in want.

Ninety percent of American widowhood lacks life's common comforts.

Eighty-two percent of the children of the country are forced to leave school before completing the eighth grade, to aid in making a living for the family.

Have you made ample provision for your old age, and for your family after your death? If not, you had better see me at once and do so.

MR. AND MRS. QUATTLEBAUM HOLD FAMILY REUNION

Mr. and Mrs. J. O. Quattlebaum, of this city, have enjoyed their family at home at the same time for the first time in more than five years. The ones last to arrive got here Saturday and Sunday was the happy day when all of the children and grand children gathered around a common table once more. Those present were: Mr. and Mrs. J. O. Quattlebaum; Rev. and Mrs. J. O. Quattlebaum, and two daughters La Trice and Mary Alice, of Matador; James Quattlebaum, wife and son James Jr., of Chillicothe; John Quattlebaum, wife and daughter Marion Frances, of McLean; E. V. Quattlebaum and wife, of Elk City, Oklahoma; Hughes Quattlebaum and wife of Amarillo; R. W. Edwards, wife and children Harry and Bettie Lillian of Emporia, Kansas; Mr. and Mrs. Alvin McLean and son Charles Aubrey of Amarillo; Miss Clarice and Joe Fuller; and Miss Lillian Quattlebaum.

Mr. and Mrs. Quattlebaum are to be congratulated upon being able to see their family all at home once more, and the News joins with their many friends in wishing for them many more happy reunions.

S. E. King and family, of Quanah passed through this city yesterday enroute to Amarillo and other points where they are spending their vacation. They complimented Clarendon on its being as live town as there is on the Ft. Worth and Denver.

DONNELL PREFERS DONLEY

D. B. Donnell returned this morning from a trip back to his old home in Tennessee. Mr. Donnell says that he enjoyed the stay in the old state, but that he has seen nothing to compare with Donley. He says that there is only one way to account for why people will stay in such a country when they could be enjoying the wonderful climate and productiveness of Donley and that is that "ignorance is bliss."

J. T. Sims returned the latter part of last week from a business trip down in the Spur country.

JONES DROPS TORREDO IN REPUBLICANS' MIDST

"Tax revision is the all-absorbing topic of the day. On the street corner, in the busy parts of trade, in the field, the factory and on the farm, is the constantly recurring cry, 'When is Congress going to revise the revenue laws?'"

"We are still doing business under practically the same revenue laws that were passed under the stress of war times. From every coming to a conflict three thousand miles away. It took billions to properly equip and supply them. It mattered little that business was interfered with. Business could be revised at a later date, but the Armies of Freedom were compelled to act at once and with driving power or everything including business would be lost."

"The war time revenue measure passed the House of Representatives on May 23, 1917, just 47 days after the declaration of War, by a practically unanimous vote, Democrats and Republicans alike, voting for the measure in these stirring times. No party can claim the credit. Whatever of demerit the bill had and whatever glory came from it must be shared by all parties."

"On September 20, 1918, the second war time revenue measure voted the House by a unanimous vote."

"Thanks to co-operation the war was won."

"Just before the signing of the armistice the Republicans gained control of both branches of Congress."

"With the coming of peace everyone realized that the one big problem in this country was to readjust the war revenue laws to suit peace time conditions. No one saw this more clearly than the Democratic President, and in his first message to the new Republican Congress on May 20, 1919, he urgently requested an immediate revision of the war time tax laws. He stated in that message, 'I hope that the Congress will find it possible to undertake an early reconsideration of the federal taxes... that our taxation shall rest as lightly as possible on the productive resources of the country, etc.'"

"During the nearly three years that have elapsed the Republicans have been in complete control and yet they have ignored the President's urgent message and the desires of the American people."

"Whatever blame is to be had for the failure to revise the taxation laws of this country must rest where it belongs—at the feet of the Republican Party. That party has been in complete control, and yet throughout the long weary months that have widened into years, the American people have been crying for relief and all that has been heard is the empty echo of that fruitless cry, for the Republican leaders have sat supinely by and watched the American people have been crying. They have watched business almost go to the wall; they have seen what was a prosperous and flourishing country under Democratic control crash into what amounts almost to a panic under a Republican rule."

"Even at this session instead of taking up the revision of the revenue laws the Republicans, grow rusty with tradition, began to tinker with the tariff. The American people asked for bread and they gave them a stone; they asked for tax revision and they gave them a tariff law. True to the historic traditions of the old party they have fed the American people on promises. The Elephant has always been a slow moving animal but this time the leaders have kept him chained to a 'stob.'"

"The people of the United States have been long-suffering and kind to the Republican party, but when they realize the true facts I predict they will rise in their anger and sweep that party from power."

Charlie Hoover, of Amarillo, was here yesterday on business.

Minor Sims, of Panhandle is visiting here with friends.

Miss Oma Griggs will leave in the morning for Vernon where she will visit with friends.

Bob McGowan is treating his home in south Clarendon to a new coat of paint.

Mrs. Hesta Penn left last evening for Hillsboro where she will spend her vacation visiting with relatives.

Mrs. Fred Swift visited here the first of the week with her children Meadmas J. R. Bartlett and Frank Decker and J. D. Swift.

Earnest Pope of the Clarendon Mercantile returned Thursday from New York City where he purchased the fall line for that store.

O. L. Phillips, wife and little son James Donald, of Ranger, arrived here Sunday for a visit with S. M. Braswell and family. They returned this morning to their home.

H. R. Phillips, wife, and four little daughters, of Rotan, departed this morning for their home after a visit in this city with S. M. Braswell and family.

STEERS SELL UP TO TEN BIG ADVANCE IN HOGS

Prime heavy weight yearling steers sold up to \$10.10 today the highest price paid this year. Fed steers wintered grass fat and best straight grass fat steers were quoted stronger, exceptions higher, and the medium plain and common grassers were steady. Butcher cattle were steady with some of the best classes stronger. Hog prices were up 40 cents to 50 cents, and the \$11.00 quotation which disappeared last Friday was returned today. Sheep and lambs were steady.

Today's Receipts
Receipts today were 22,500 cattle, 7,500 hogs, and 9,000 sheep compared with 25,000 cattle, 7,500 hogs and 5000 sheep a week ago and 19,000 cattle 8400 hogs and 9000 sheep a year ago.

Beef Cattle
Though cattle receipts today were slightly short of a week ago they were larger than a year ago, and demand was active. In some cases the best grades were quoted higher. Prime yearlings sold up to \$10.10 and heavy steers up to \$10.00.

Wintered grass fat steers sold up to \$8.75 and grass fat steers up to \$8.25. The market has developed large buying on the part of both local killers and shippers and indications are that the present level will be maintained. The bulk of the grass fat steers from Oklahoma and Texas sold at \$6.45 to \$7.25. Butcher cattle were quoted steady and veal calves firm.

Stockers and Feeders
Trade in stock and feeding cattle was active at strong prices. Some selected steers that went to the country for a short feed sold up to \$8.25, but most of the good quality thin steers sold at \$6.00 to \$7.00 and the common to fair kinds brought \$4.50 to \$5.75.

Hogs
The depression in hog prices late last week proved too severe and today the market rebounded sharply. Here the best hogs were 40 to 50 cents higher and the \$11.00 quotation was restored. Rough heavy and ordinary classes were 20 to 35 cents higher. The top prices was \$11.00 and bulk of all the sales \$9.75 to \$10.90 brought the market within 25 cents of the highest point this year. Pigs sold readily at \$9.00 to \$10.50.

Sheep and Lambs
Demand for lambs was active. Choice western lambs at \$10.60 were quoted 25 cents higher, native lambs at \$10.00 were firm. Some is a traveling salesman.

fair Texas wethers at \$5.25 were 25 cents lower. Ewes were about steady.

Horace and Mule
Conditions in the horse and mule market remain unchanged. A special auction of range horses will be held next Monday.

Charles M. Pipkin, Market Correspondent.

DONLEY SUFFERING WITH HOT WEATHER

Donley is no exception to the rest of the world in the heat wave this summer. Several days within the past week have been as hot weather as has ever been known here, the highest temperature being 105, that last Friday. Tuesday of this week approached that scale with the thermometer pointing to 102. Yesterday the thermometer stood as high. The rainfall within the immediate vicinity of Clarendon has been light for some time. With all of the hot weather, the crops are not hurting as yet, in fact, the prospects are fine; but rainfall will be needed within the next few days. It is reported that crops several miles to the northeast of Clarendon are beginning to need rain badly but are not hurt as yet.

MISS OZIER ENTERTAINS WITH SLUMBER PARTY

Miss Pauline Ozier entertained Wednesday evening with a slumber party honoring Misses Gertrude and Pearl Miller of Amarillo. The party first went to the picture show, then returned home where they enjoyed a watermelon feast. Following a short slumber, the party arose and went to the river where they had breakfast. Those present were: Misses Thelma Allen, Mary Naff, Gertrude and Pearl Miller, Winney Weatherly, D'Laura Beville, Evadne Hurn, Pauline Ozier, Fray Stallings, and Mesdames E. M. and Manley Ozier.

ENJOY SWIMMING PARTY

Misses Pet Hedgpeth, Jackie Kutch, Essie Patton, Crickett Talley, and Messrs. Roy Kutch and Robert Patton enjoyed a swimming party at Kelley Creek Monday evening.

Mrs. J. E. Norman, of Claude has moved here and is domiciled in the Uim home in southwest Clarendon. Her husband is known here as he is a traveling salesman.

The "JAYHAWKER"

The Wonderful Son of the Rainbow

BRED SOW SALE
NEXT

Thursday, August 18th

ROME was not built in a day. Such perfection as has been attained in THE JAYHAWKER is not the result of a season's work. It has taken years of scientific breeding to produce the many superior qualities that he possesses. Size, conformation, quality, and vitality, are his. But these would be worthless unless he also had that indispensable quality—prepotency. His get show that indispensable quality—prepotency. His get show that he is transmitting these characteristics. You can be the beneficiary of years of proper breeding that are behind THE JAYHAWKER by securing a sow bred to him in the splendid offering that I am placing before the public on AUGUST 18, next Thursday.

Silvercrest Farm

FRANK M. CLARK, Owner
HEDLEY, TEXAS

R. E. MILLER, Auctioneer.

W. H. Patrick and family returned Sunday from a two weeks vacation spent at Santa Fe, Las Vegas and other points in New Mexico. They report a wonderful trip and they were especially impressed with the various historical relics to be seen at those places.

W. P. Blake has returned from a ten day trip during which he visited in Oklahoma and in Vernon and Wichita Falls, Texas. While in Oklahoma Mr. Blake visited in Clustee, Roosevelt, Snyder and Dunham.

Superintendent Green and family of the Abilene Public School, was through here this morning enroute home from a camping trip spent in the Hereford vicinity. While here they visited a short time with their old friends S. M. Braswell and family.

Mr. and Mrs. Ralph Kerbow and the latter's sister Mrs. Griffith are visiting with the ladies' parents, Mr. and Mrs. W. H. Avery.

H. Glascoe returned this week from a fishing trip spent near Hereford.

Ford Cars NOW!

We have received 2 carloads of Fords this week in both closed and open models and can now supply you with the latest model car. Several changes have been made lately in the Ford which adds very much to its attractiveness and comfort but at the same time the price has been reduced until now they are back to pre-war prices. Did you know that a Ford car is made every 61.4 seconds yet while this wonderful production there are thousands of unfilled orders. The fact that there are more Fords than all the rest of cars combined is proof that there is something to the Ford other than the price you pay for it. More than 5 million satisfied owners is proof conclusive that the Ford car is the best buy. What is true of the car, is equally so of the Truck and Tractor. Ask any owner of a Fordson Tractor what he thinks of it and he will tell you that its the best tractor on earth, considering its first cost and up-keep. Call in and let us tell you more about this wonderful little Tractor.

POST CARDS

Just received a shipment of new post cards. Come in now and get them. Mail them to your friends "down yonder."

FINLEY'S VARIETY STORE
Clarendon, Texas

Merchant or Storekeeper ---Which?

Merchants never let up on their quest for more business. When Business is dull, they look over their stock and put on a publicity campaign to move this item and that item of seasonable stock at cash prices.

Storekeepers merely sit still and emit groans about "poor business," going daily from bad to worse.

Which Class Do YOU Belong to?

Nobody puts you in either class, it's up to you.

REMEMBER---

—So long as people have the money to buy gas for the jitney, buy cold drinks, go to the show, ride the trains, smoke and chew—THERE'S STILL MONEY IN THE COUNTRY TO BE ATTRACTED TO THE STORE OF THE MERCHANT WHO GOES AFTER IT THROUGH REGULAR AND LEGITIMATE ADVERTISING.

THE NEWS IS THE TRIED AND PROVEN MEDIUM FOR REACHING DONLEY COUNTY PEOPLE WITH THE LEAST EXPENSE.
