

CAMP LEEPER IS NAME GIVEN NEW HOME OF GUARDS

CAMP WHERE LOCAL BOYS ARE
SITUATED IS NEAR RAY
YARDS OF DENISON. CAPT.
NAT PERRINE IS IN COM-
MAND OF THE CAMP.

Those left at home are glad at all times to hear some little bit of news from the boys who are protecting the property of the railroads and the lives of those who are working; and the boys are always glad to hear from home. The News received the address of our company last week, and several copies of the paper were sent; and we shall continue this "Till the boys come home." The first of this week, we received the following interesting write-up of the camp from Sgt. J. L. McCarty, of Company F, who is the battalion press agent.

On Sunday, July 20, one hundred and seventy-five men and ten officers began the construction of Camp Leeper, a strategic point one mile west of the city of Denison on the Crawford street road. Situated on a hill, which is covered with tall oak trees, the camp presents a clear-cut picture of military efficiency and thoroughness. The fact that it is only a short distance from the Ray yards, adds to its value because it is in the Ray yards that the guardsmen are protecting life and property. Camp Leeper was first in command of Major Stephen D. Ridings and at the present time Captain Nat S. Perrine commands with Lieutenant Harry D. Davis acting as adjutant.

Camp Leeper is named in honor of Captain Dan C. Leeper who lost his life in battle overseas on November 2, 1918. Captain Dan C. Leeper was the son of Mr. and Mrs. W. C. Leeper, a very prominent family of Denison. Captain Leeper was a Denison boy, having been born and reared here. He attended the University of Texas and while there was a member of the PhiGamma Delta fraternity. He made an excellent record while in school. At the beginning of our participation in the war Leeper went to the Leon Springs training camp for officers. At the completion of his training there, he was assigned to the 90th division, where he was captain of Company B, 359th Infantry. It was on the second day of the Meuse-Argonne offensive, November 2, near the village of Anceville at the head of his advancing company that sharpshooters and machine gun bullets ended his heroic charge. Captain Leeper received the French croix de guerre for gallantry in action.

Leeper and Ellis, for whom the other camp in Denison is named, were pals for years and both entered the service at the same time. They were buried in Denison last summer. At the request of Captain Leeper's parents he was buried quietly, not being given the military burial.

Guardsmen of Camp Leeper who have learned the history of their hero are proud of the name given the camp, and of the man who bore it as they are of their own state.

Camp Leeper and the surrounding vicinity abounds in picturesque scenery, which is especially interesting to the boys from the plains. Tall oaks afford plenty of shade throughout camp and an ideal place to hang the immense water bags containing always an adequate supply of ice water. The camp, located as it is, on a hill, misses some of the intense heat that is experienced in the yards and other lower points. Bush's swimming pool is a favorite resort for the boys at Camp Leeper. It is five blocks northeast of camp and accommodates a crowd of soldiers at all times.

Camp Leeper at the present time is the home of Companies E, F, and H, and Headquarters Company of the 142nd Infantry.

Company E, composed of Hereford men, is located on the south side of camp, having the eastern on its extreme south. Captain Morris,

FIRST BALE OF YEAR BROUGHT HERE YESTERDAY

The first bale of cotton to be brought to Clarendon produced in 1922 was sold here yesterday afternoon. A. S. Carter, of Brice, whose land lies in Hall county just across the Donley county line, raised the cotton. The bale was ginned at Brice, and turned out an excellent sample. Charles Baldwin, of this city, bought the cotton at twenty cents per pound. This morning a premium is being made up; and as usual the premium will be divided. Each year it is the practice of the local merchants to make up a premium, giving half the money to the first bale, if brought here from out the county, and the other half of the money to the first bale produced in the county. A premium of \$64.25 was made up and divided as indicated above.

Dr. and Mrs. C. G. Stricklin, Miss Mae Bennett and Dr. and Mrs. Wm. Gray returned today from a vacation of several weeks which they spent in the Northwest.

COMMISSIONERS SET TAX RATE

STATE RATE RAISED TWELVE
AND COUNTY FOUR CENTS
OVER LAST YEAR.

The county commissioners set the tax rate for next year at their meeting last week. The county tax will be seventy-five and the state tax seventy-five cents. This rate is the same as was the rate for year before last, but a raise of sixteen cents over that of last year.

The present rate raises the state tax twelve cents and the county tax four cents over last year. The commissioners state that at the time that they lowered the rate for last year, they thought that the funds would be sufficient for all purposes, but that such did not turn out to be the case; consequently they find it necessary to make a raise in the rate.

SAYS NEWS CLASSIFIED AD IS RESULT GETTER

R. C. Vinson was in this office yesterday morning to order a classified ad that he ran in last week's issue of the News to run again. Mr. Vinson took a classified ad stating that his home is for sale, and he says that he had numerous inquiries. Mr. Vinson closed his order with the statement, "I may have the house sold before tomorrow from last week's ad, but run the ad again."

Miss Opal Davis left yesterday morning for her home at McLean after having visited here with R. C. Vinson and family.

Miss Hazel Allison left yesterday morning for her home in Amarillo after having visited here for several days with her cousin, Miss Naomi Allison.

Lieutenants Hartson and Hughes are in command of this company. Company F, with Captain Gamble, Lieutenants Jones and Kleinschmidt in charge, is located north of Company E. Company F is composed of Canyon men, and includes in its roll several college men. Company H, which is Captain Perrine's company is in charge of Lieutenant Blevins. It is located north of Company F, and houses the crack riot squad. Headquarters company, under command of Lieutenants Davis and Appleby, is located on the north side of camp. However the bath house and the medical headquarters occupy part of a street north of headquarters. The medical corps is under supervision of Captain Lassiter of Brownwood. The mess hall, probably the most interesting tent in camp, are on the east. The rifle range is about three hundred yards south of camp and is ideal for the purpose it is used.

Camp Leeper is a beautiful site for a camp. It is healthful in every respect.

FALL OPENING CLARENDON COL- LEGE SEPT. 12TH.

OPENING SERMON WILL BE
PREACHED BY BISHOP J. E.
DICKEY ON SUNDAY 17TH
FOLLOWING THE OPENING
OF THE SCHOOL TERM.

The formal opening of Clarendon College will take place on Tuesday morning the 12th of September. Several addresses will be given, and the announcements for the year be made by Dr. G. S. Slover. The dormitories, however, will be opened on the 7th for the accommodation of those who will arrive here early to take the entrance examinations required of those coming from unaffiliated schools. Much interest is also being manifested in the training camp for football players which will commence on the 7th.

It is announced by the college authorities that local people may matriculate on any of the three days of the 8th, 9th and 11th. The examinations for those coming from unaffiliated schools will also commence on the 8th.

Following the formal opening on the 12th, the work will be entered upon and the effort will be made to have the school work running smoothly by the end of the week. On Sunday Bishop J. E. Dickey, of Griffin, Georgia, will preach the opening sermon, commencing the revival which will be held during the following week. Rev. Alonzo Monk, of Arlington, will do the rest of the preaching during the revival. The day services will be held at the college, and the evening services will be in the church.

Dr. Slover, in speaking of the prospects for the year, stated that everything is much brighter than it was at this time last year, and the promises are much better for a larger student body.

The promise of a football team of the first class are the best that the college has ever had. Many of the old players will be back this year, and an abundance of good new material will also be here to supplement the work of the old men. High school athletes of big reputation will be here from all parts of the Panhandle, western Oklahoma and New Mexico, some of the players, in fact, coming here from North Side High School in Ft. Worth. The training for the year will commence early, beginning on Thursday the 7th when the dormitory opens. An offer has been made, and it is very probable that Daniel Baker College, of Brownwood, will train here during that time. In that event, the local college men will be much benefited by the practice and scrimmage with the visiting team.

There are few members of this year's faculty who have not been with the institute heretofore, and with the excellent additions that have been made to the old faculty, all things seem to combine to make this the best year in the history of Clarendon College.

GOODNIGHT REVIVAL CLOSES SUCCESSFULLY

Rev. Leon Henderson returned Monday from Goodnight where he closed a two weeks meeting in the Methodist church Sunday evening. Good results were realized from the meeting; the church is in much better working order, and there were several additions to the membership. Sunday evening several members of the Ku Klux Klan appeared while the services were being conducted, and left a twenty dollar donation and a letter stating that they stood with the preacher in the work that he was doing and giving a short explanation of the principles for which they declared they stand. The church and city is in much better shape since the close of the revival, and Rev. McNeely, the pastor feels that his work has received a great impetus.

J. L. George, of Alanreed, attending business in Clarendon Friday.

TO RECEIVE REPORTS ON RUN OFF ELECTION

Arrangements have been made whereby reports will be received on the run-off election which will take place next Saturday. As well as the statewide election, the results in the various county boxes will be given, and for this reason, the officers in the various boxes are asked to send in their reports to the county chairman as soon as possible. The reports will be posted on the bulletin board as they arrive.

MAYOR AND FAMILY RE- TURN FROM IOWA PARK

Mayor W. P. Cagle and daughters, Misses Anie and Mary, accompanied by their friend, Miss Neva Bourland, returned Friday from Iowa Park where they attended the Old Settlers' Reunion last week. Mayor Cagle reports that they had a wonderful time, but that county is suffering some sure enough dry weather. In the fields where plowing is being done, he states that there is no moisture whatever. Many of the old timers the mayor had not seen in twenty-four years.

OLD SETTLEMENT IS PAID A VISIT

COL. BUGBEE MAKES SETTLE-
MENT IN HUTCHINSON
COUNTY IN 1874.

Col. and Mrs. T. S. Bugbee, accompanied by part of their children and other relatives, paid a very pleasant visit to the old settlement in Hutchinson county which they made in 1874. The trip held added interest for Mr. and Mrs. Bugbee as they had not been back there in almost forty years.

The party started from here about eight o'clock Thursday morning, and drove to the old home place which is two miles north of Plemons, arriving there about five o'clock that afternoon. They camped there that night, the camping in a faint measure calling back the old times when the pioneers kept watch about the campfires.

This location was the first made in Hutchinson county, and is on a creek which bears the name that has been made famous by the pioneer colonel and his wife. In 1876, which was two years after Col. and Mrs. Bugbee had located there, the Colonel built a rock house which still stands. The roof consisted of cottonwood poles and brush covered with dirt. There were four rooms, and all the walls stand in good shape today; but the roof on two of the rooms has fallen in. At the same time Col. Bugbee made extensive rock corrals and graineries, and most of these stand in good state of preservation today.

With other improvements, several cottonwood trees were set out, and today they stand as silent witnesses of the accomplishments of Mr. and Mrs. Bugbee in helping conquer the wilderness of yesterday.

When Mr. and Mrs. Bugbee went there, the nearest trading place was Dodge City, Kansas, one hundred and eighty miles away. Court for this territory was held at Jacksboro. It was in 1882 that Col. Bugbee sold this land and the cattle for three hundred and fifty thousand dollars, and this was the first visit that he and his wife had had the pleasure of paying that place during the forty years that have elapsed since then. One of the best springs in the Panhandle is located at this place; a two inch pipe is kept full at all times carrying away the water. Today the property is owned by a man named Wattenberger; who lives in Plemons.

Those making the trip were: Col. and Mrs. T. S. Bugbee, John Bugbee, Mr. and Mrs. W. H. Patrick, Miss Katherine Patrick, Master Thomas Bugbee 3rd, Mrs. George T. Cooke, R. L. Hearn and daughter, Miss Mary Kate Hearn, Mrs. H. G. Officer and two children, Dr. and Mrs. T. W. Carroll, Will Carroll, George Carroll, Sherman Carroll, John Carroll and Miss Kate Carroll.

SORGHUM GRAIN GROWERS ORGAN- IZED HERE SAT.

D. P. McCALIB OF AMARILLO,
MEETS WITH DONLEY
COUNTY FARMERS AND EX-
PLAINS PLAN OF MARKET-
ING.

The sorghum grain growers of Donley county were organized here Saturday as an association of the Texas Farm Bureau which was organized here earlier in the year. Although every farmer present signed up and entered the association, no exact idea could be got of the acreage represented. D. P. McCalib, of Amarillo, representative of the Texas Farm Bureau was present and explained the plans of the new association. The Texas Farm Bureau maintains organizers for these various associations, and each association is independent of the bureau.

The melon and sweet potato growers have organized already, and particular discussion was entered into concerning cotton, watermelons and grain sorghums.

Mr. McCalib stated that the number required for incorporating will be secured by the first of next month. Following the election of the board of directors and the incorporation, the work of the association will be started. It is stated that a representative from Donley county will sit on the board of directors.

The plan of the association, as outlined by the organizer is that the co-operative marketing will be orderly and systematic. The association will classify the grain of the members and sales will be made on that basis. It is also said that the sales will last throughout the year in stead of the whole crop being placed on the market within a few months.

Everyone selling through the association will receive the same price for his products based on the grade and variety. As the association acts as a middle man, of course, it will make the profits that justify its maintenance. While it is promised that each county shipping these grains will receive the highest possible market for its products, it is also promised that the county shipping in such grains will get these grains for the lowest possible figure.

WORK TO BE RESUMED ON LELIA LAKE WELL

Work will be resumed on the Lelia Lake well with the arrival of the equipment and the clearing of a few flaws in the title of some of the land involved, according to T. R. Gotherman, contractor who will have charge of the work. The tools and equipment will be hauled here from Vernon. It is the purpose to drill the well to a depth of four thousand feet or possibly more, if oil or gas are not found in paying quantities at a less depth.

Mr. Gotherman has made an analysis of all possible cuttings from the old well, and states that the log checks very closely with the Gulf No. 2, with the exception of the difference in the dip. In deepening the old hole, it will be necessary to remove three joints of pipe from the bottom of the old well. Mr. Gotherman states that he believes that every indication is that production will be got at a lower depth. It should not take long to clean the old well out, according to the statements of experienced drillers; and it is hoped that arrangements will be completed at an early date to resume the work on the well, away from which the derrick has been removed about two years.

T. E. Allen, of Memphis, was in this city on business Monday.

GOOD INTEREST BEING SHOWN IN BAPTIST MEETING

With the progress of the Baptist meeting, good interest is being shown with large audiences in attendance. Rev. H. W. Shirley, the preacher who is leading in the services, is an excellent speaker and a good thinker. Mr. Carnett, the singer, arrived last evening; and he is reputed to be one of the best evangelistic singers in the state. The morning services are being held in the church at nine thirty o'clock, and the evening services are being held on the church lawn at eight o'clock.

REV. SCOGGINS WORKS FOR CLARENDON COLLEGE

Rev. J. A. Scoggins, pastor of the Shamrock circuit, was in this city Saturday, accompanying five young men who will attend college here this fall. Rev. Scoggins assisted them with the preliminary work, and the five reserved rooms in the boys hall.

Miss Oma Latson returned last week from Childress where she visited with relatives and friends.

WONDER CROP ON IRRIGATED FARM

G. H. CREWS PIONEERS IN IRRIG-
GATION AND PROVES FEASIB-
ILITY IN THIS SECTION.

Saturday morning the Newsman had the pleasure of making a trip down into the Brice country to look over the irrigation system in operation on the G. H. Crews farm at Bitter Lake. Mr. Crews has a lake over on his place covering from twenty to forty acres and for some years has owned a rotary pump and necessary piping to do the irrigating of his farm. This year he has eighty acres in cotton, most of it in the pure strain Lone Star cotton, but a portion in Coker, No. 11, which is a long-staple variety. For several years it has not been necessary to use the irrigation plant as the seasons have been favorable, but the continued lack of rain this summer caused Mr. Crews to decide to put the water to his fine stand of cotton. The farm is in a measure sub-irrigated, water on the highest point being reached at ten feet depth, but cotton roots being somewhat shorter than that the cotton was beginning to suffer. The old gas engine that Mr. Crews owned had gone out of commission so last week he came to Clarendon and purchased from the Ford Motor Co., a Fordson tractor, being capable of pulling his rotary pump and also designed for general farm use, as well.

The pump was in operation when our party arrived and we found water being carried to the eager earth at the rate of one thousand and sixty gallons per minute. Mr. Crews stated that it was his plan to put an average of three inches of water on every acre, the ditches having a fall of two inches to every hundred feet. Mr. Crews has developed into a practical drainage engineer, since he owns a level and surveys out his ditches from a elevation map of his farm, divided into hundred foot squares, showing the elevation at every corner.

The project is on file with the state engineers office at Austin and is known officially as "Lake-Alfa," the name being derived from the wonderful alfalfa growing capacity of the acres adjoining the lake.

The cotton was as fine as one ever sees any year, in many places shoulder high and weighted down with fruitage. The yield is sure to be abnormally high, but if Mr. Crews makes only a bale to the acre at the price probable for this fall, he will pay for the tractor and have lots of money left. Irrigation can be successfully done and it is a great paying investment. Mr. Crews is the pioneer in that line for this section, as far as we have heard.

J. T. Patman was the host of the party that made the trip, going there to view the work of the Ford-

MUCH BUILDING BEING DONE IN DONLEY COUNTY

BUILDING JUST COMPLETED
AND TAKING PLACE AT
THIS TIME AMOUNTS TO
SEVERAL HUNDRED THOU-
SAND DOLLARS.

Despite the talk of dry weather, Donley county continues to build and improve at a rate seldom surpassed. The construction that is actually going on at this time will approximate the three hundred thousand dollar mark; this work includes business buildings, school houses, municipal improvement and residences of the finest type.

Of course, the biggest single jobs are the improvement of the city's water system and the construction of the new school building just east of the high school. The work on the school building is progressing satisfactorily, and every effort is being spent to finish it at the earliest possible moment. The concrete piers have been constructed for erecting the city's new overhead tank, and the work on the system will commence within the next few days when sufficient material has arrived to insure the completion of the work in a reasonable time.

In the line of business buildings, the new home for Bartlett's Art studio takes first place. This is a fine brick and tile structure 25x55 feet on South Kearney street. The floor will be edge grain, and every requisite of the modern studio will be supplied. The Fitzgerald Gin Company has just completed the construction of their gin northwest of the depot, and it will be ready for operation in the near future. B. W. Moreman, as well as having improved his gin in this city, has also put in a gin at Ashtola, and this plant will be ready for operation with the beginning of cotton picking.

Much repair work is being done. The low school building on South Kearney Street is being overhauled, and will be in fine shape for the beginning of school. Repairs are also being done on some of the college buildings as well as considerable replastering. The thirteen thousand dollar Goldston school building has been finished and is surpassed by no rural school in this part of the state. Work is also just commencing on the Brice school house which is a large brick and tile structure.

The beautiful home of John Craig in the southwest part of this city has just been completed. It is a stucco structure with five rooms and bath, and modern throughout, including an excellent heating plant. Barcus Antrobus is completing the work on his home in the southeast part of this city; it is a five room bungalow with basement, and is built according to the most modern plans.

The home built by E. F. Bryan in the west part of town, and which will be occupied by his parents, has just been completed. It has five rooms and bath and is thoroughly modern.

Bennett and Sims are building a five room frame house on their land on Kelly Creek. E. J. Bragg has just completed a two room frame structure in the southeast part of this city. The Denver Hotel has completed a two room stucco structure which will be used as a servants house. W. T. Hayter and Odos Caraway have just completed repainting their homes. It is stated that the contract has been let for the construction of the country club house, and much minor improving is taking place throughout the city and county.

Miss Lucy Antrobus left yesterday morning for a visit with friends in Amarillo.

son, taking with him J. R. Bartlett to photograph a number of views for advertising purposes, and carrying Carl Boston and the News editor as "ballast."

PEACE WITH ALL MEN

Follow peace with all men, and holiness, without which no man shall see the Lord.—Hebrews 12:14.

Every charge that Ferguson made against Earle Mayfield has been proven a manufactured lie. But Ferguson supporters shouldn't get discouraged—Jim will tell some more before Friday night.

Let every Democrat go to the polls next Saturday and swat that political fizzle, that cheap, scheming, lying, disgraced, impeached misfit governor—that was—Jim Ferguson. If one does that there is little fear that they will go wrong on the other candidates.

Clarendon schools are soon to open and once again our people will have another and a new chance to cooperate with the authorities to make our first rate schools even better. Our schools are among our greatest assets and as such should receive the unstinted support and loyal backing of every person, old or young.

Irrigation is being talked and brought into play all over West Texas. In the next few years we will see wonders wrought by impounding the waters of our streams and the wonderful West—the Panhandle of Texas will blossom as a rose. Donley County don't need much of that sort of thing usually, but this year has proven the occasional need. What we need we will gradually attain. Irrigation for the West means everlasting prosperity.

Despite the depression that some say exists, there is a constant growth in Clarendon, through a steady building program. Over a quarter million dollars worth of building now going on. Lots of towns much larger than Clarendon are falling short of that figure. Talk Clarendon and invest in Clarendon.

Vindication, says Jim Ferguson, is what he wants. No, Jim, that's another whopper. You don't want vindication. You know you are guilty of all six of the charges sustained in your impeachment trial. You don't want vindication—you want another chance to get your grasping hands in the public treasury.

Low and despicable as Jim Ferguson has been, he has never sunk lower than he has this summer when he does his public "begging," seeking to draw the hard-earned dollars and quarters from the pockets of tenant-farmers, whom he professes to love so much. This campaign has been a wonderful thing for Jim. He is going about Texas taking up a collection which will net him not less than five thousand dollars—maybe ten. Jim says he is broke, but if he hadn't had to spend so much money to keep out of the penitentiary, he would have lots of it. Anyway, this summer is "easy picking" for Jim.

The report of the Donley County grand-jury which appeared in last week's issue of the News, contained nothing sensational, but there was in its content, that which brings a serious thought to the mind of every citizen who is interested in the moral character and fibre of the country. The jurymen say that over two hundred witnesses had been examined and that there was a disposition to evade the telling of the whole truth, even bordering on perjury, if not actually committing that crime. But, to our mind, the most serious charge that was made was that boys and young men were proficient in this offense, to the extent that it gave evidence of careful coaching on the part of their elders. Now it is bad enough and too bad for a person professing to be a citizen to appear before the grand jury, be sworn, and then deliberately evade or mis-state the truth, but when boys of tender, formative years, are coached into this near-purjury, it is time to call a halt. Out of such a condition will come greater disrespect for law and order, out of such a condition will grow distrust of every man's word and oath, out of such a condition will grow an anarchy that will disrupt the commonwealth. The grand jury is right—parents must instill into their sons and daughters the love for truth, for honor and for law. Without those principles we are doomed.

Jerry Dalton, the red-headed erudite Irishman with Republican-Socialistic tendencies, who edits the Memphis Democrat, attempts to take the editor of The Clarendon News to task in a recent issue, because we stand where we have always stood, politically and otherwise, for the cause of prohibition and clean government. Here is how he tried to say it:

"Two of our exchanges, the Childress Index and the Clarendon News are clucking excitedly since the primary. They sat contentedly, with only an occasional ruffling of feathers through the tedious weeks of the first primary campaign; but these two 'cu'e cluckers' are now mad as the proverbial sitting hen. The political goose-egg that they had been hopefully watching, hoping for a fighting cock, has hatched, a 'gone gosling.' They expected a dry-land bird with gorgeous plumage and clarion voice. They have a fuzzy, web-footed fowl that is afraid to even cluck, he runs with the 'chickens' at night and talks turkey to the Methodist from the platform, pretending that the wettest he has ever been was when he was sprinkled; but to the antics he presents his web-feet and hisses 'I am not such a hell of a pro as you have heard.' He won't fight and he can't run; he is some booze-killer and used to pose as a poker-player; but he is now, mostly, a disappointment to his friends and a disgrace to his relatives, including 'Colonel Billie.' Seeing what the Grand Gobbler, of Georgia, has slipped in their incubator the two editors are chagrined; Sam is sore and Fred is furious. They are rendering their 'sheets' and their pillow-cases are slipping some. They should print their political editorials in 'invisible' ink, else their counties will be counted in the Jim Ferguson column in the second primary."

Only once in the above screed does Jerry call the name of Ferguson, for whom he is legging, and for whom he petitions his patron saint both morning and evening mass. But that is not hard to explain when it is remembered that Jerry once quoted the self-same words of Jim Ferguson about another distinguished citizen of Memphis, with the result that the said Jerry got his face punched publicly. No, Jerry feels that it is much safer to "bootleg" his Ferguson propaganda now, and being at times eminently practical he is to be congratulated. As a matter of fact, Jerry is a pleasant fellow, and one that a person likes to visit with, so long as neither politics or religion becomes the subject of conversation. If either subject comes up most people prefer to pass on, because he is a natural born Ishmaelite—his hand is against all men. To those who don't know Jerry's position down in Hall County, it might be well to explain that as a political prophet he is "without honor in his own county." In the recent primary when his fellow townsman, Editor W. A. Johnson, carried the county for lieutenant governor, Jerry was so mad that he omitted the entire vote for that office from his published report of the tabulated vote in that county. That's his idea of running a newspaper. The "ould bhoy's" remarks concerning the Childress Index and this paper show that his knowledge concerning the ku klux klan, which he tries to emit through a strangulated gullet is just about what one would expect from the fantastic imagination of a flamboyant son of Erin, but he missed his guess about the orthodoxy of the two papers in their respective counties. The Clarendon News stood for Mayfield in the first primary and predicted his victory and we saved our chains until we saw the "whites" of the enemies eyes. Go look at the returns of the July primary, Jerry, "ould bhoy"—they will speak volumes as to whether or not The Clarendon News is "settin' pretty" on its own dunghill. Then, too, Jerry, "ould bhoy," listen for the returns next Saturday night and sympathize with your fellow-mugwump Jim Ferguson for the awful lacing he gets in Donley County. It will be so terrific that even a "wet Republican" ("if you is a Republican") will weep "four percent" tears for the defeat of the doubly discredited, doubly disgraced and eternally defeated, impeached Farmer Jim Ferguson. It will be a hundred percent victory, Jerry, "ould bhoy"—let your imagination play around on that awhile.

But, then, everybody will be friends again in a day or two after Saturday's election.

When Ferguson was first elected governor, there were those who said that he would steal the capitol at Austin, if it wasn't staked down, and many treated the prophecy lightly. Months before the impeachment trial begun events proved that his old acquaintances knew him best. Strange that there are still people in Texas who love booze enough that they are willing to let him get near the national capitol and the treasury building at Washington. Booze beclouds the judgment of people just like it always has and the reason why Mayfield will be our next senator is that the great silent majority of people know booze, they know its deadly effects and they refuse to recognize the candidacy of Ferguson, who predicated his claims on "light wines and beer." This election is the last election in Texas when any man will ever run for office on such a low platform.

RUN-OFF ELECTIONS IN TEXAS IN FORMER CONTESTS AND THE STORY TOLD

With approximately 1,250,000 qualified voters in the state the aggregate vote cast in the exciting contests for senator and for state officers in the July primary, according to latest estimates, will barely exceed half that number. Granting that there are 200,000 republicans in the state, and no election yet has ever developed that so many are followers of that party, there remains more than 1,000,000 voters eligible, barring a few socialists, to vote in the democratic elections. This indicates that more than 400,000 voters refrained from voting last Saturday despite the warmth of the various contests and the vigorous personal campaigns made by the aspirants for the offices.

An interesting feature of past election history at this time is a review of run-off elections held in former years under the Terrell election law. There was a run-off between O. B. Colquitt and Charles A. Culberson for the senatorship in 1916 in which Culberson was victorious, although Colquitt had led in the first primary by more than 30,000 votes. In the first primary that year the vote stood: Colquitt, 119,598; Culberson, 87,421; Brooks, 78,641; Campbell, 65,721; Henry, 37,726; Davis, 9,924; Riddle, 325. The run-off gave Culberson 163,182 and Colquitt 94,098, the total vote in the second primary being 257,280.

Two years ago in the race for governor in which Neff, Bailey, Looney and Thomason were contenders the total vote was about 400,000 and in that race in the first primary Bailey led Neff, the voters of the four candidates being as follows: Bailey, 152,240; Neff, 149,818; Thomason, 99,002; Looney, 48,640. In the run-off Neff got 246,075 and Bailey 184,702, Neff's majority being 79,372 and the total vote being 448,777.

There were two other run-off elections in the campaign of 1920, for lieutenant governor and for justice of the supreme court. Lynch Davidson defeated W. A. Johnson in the run-off for lieutenant governor and William Pierson defeated William E. Hawkins for the supreme court.

This year there promises to be runoff contests for lieutenant governor with Billie Mayfield and T. W. Davidson, of Marshall, as contenders; for state treasurer, with C. V. Terrell and G. C. Garrett as the entries; for school superintendent with E. R. Bentley and S. M. N. Marrs as opponents.

There also will be several congressional run-offs, among them being the second district, with John C. Box and Burns, ninth district, with J. J. Mansfield and W. M. Fly as opponents; fourteenth district with Cunningham and Hertzberg; fifteenth district with Tom Blarton and Oscar Calloway as contenders.

Here are the votes received by gubernatorial candidates in the primaries in the years named:
 1906—Tom Campbell, 90,345; M. M. Brooks, 70,064; Colquitt, 68,529; C. K. Bell, 65,118. There was no run-off as the law did not then require.
 1908—Tom Campbell, 206,038; M. M. Williams, "The Village Blacksmith," 119,378.
 1910—Colquitt, 146,800; Poindexter, 79,536; Cone Johnson, 76,659; R. V. Davidson, 53,264. No run-off required by law.
 1912—Colquitt, 219,808; W. F. Ramsey, 179,857.
 1914—James E. Ferguson, 237,062; Tom H. Ball, 191,553; Leopold Morris, 6,679.
 1916—Ferguson, 240,561; C. H. Morris, 174,511; Marshall, 6,731.
 1918—Hobby, 466,782; Ferguson, 219,059.
 1920—The result of first and second primaries in this race are shown above.

Help Clarendon Grow

A city or town can not grow unless its business enterprises are prosperous. A business can not grow unless it is making money.

By helping each other, by saying a good word for the other fellow in business, we can build our own. By buying everything we buy in Clarendon and recommending Clarendon merchandise and Clarendon products to everyone we meet both inside and outside of Clarendon. We can help prosper the enterprises that are here, help build our own business and attract other enterprises to our town.

Ours is one of the Clarendon enterprises. We are one of you and the above is our policy, toward other enterprises.

Clarendon Light & Power Comp'y

The Logical Bank

Since its establishment, this institution has enjoyed a steady growth, because of strict adherence to the conservative principles originally established by the management.

In handling the business of its commercial department managing real estate, making mortgage loans, or acting as trustee, the interest of the customer, is the first consideration.

ALWAYS

These are reasons why it is the logical bank for you and yours.

Officers and Directors:
 Thos. S. Bugbee, Chm. of the Board.

HOW A FARMER PUTS IN TIME

Tergervious Tim, a humorous farm correspondent, writes:
"A farmer is an individual who works 13 hours a day for a living; if the undertaker gets him before he is 50 he don't get even that. He works from five in the morning until noon to pay his taxes and interest; he works all afternoon to pay the hired man, and after supper he goes out and works until dark to try to save enough to get his wife a new dress, and hat, which she must have every five years whether she needs it or not.
"Some folks farm because they like to and cannot sleep after 4 o'clock in the morning; others because they have to and nobody cares about the rest. The farmer wakes up in the morning in springtime amid the beautiful notes of the song birds and in the fall wakes up as the other notes are due.
"A farmer raises a big family to help him farm. When they are young they can't help and when they grow up they go to town to drive a street car or work in a bank.
"There are two kinds of farmers, the check book farmers and grass root and dirt farmers. The former have perfume on their handkerchiefs and the latter on their overalls. One makes his money in town and spends it in the country—the other is trying to save enough in the country to pay for what he has already spent in town."—Capper's Weekly.

EMPLOYMENT SERVICE BY VETERANS BUREAU

Dallas, Texas, Aug. 13.—Arthur J. Reinhart, State Adjutant of the American Legion, has been appointed District Employment Representative for the United States Veterans' Bureau, 14th District, which comprises the States of Texas, Oklahoma and Arkansas.
Altho Mr. Reinhart has entered upon his duties with the U. S. Veterans Bureau he will continue his official connection with the Legion until the annual convention, which meets in Waco, Texas, in September.
The District Employment Representative will have Assistant Representatives, who will take care of the following points:
Dallas—Fort Worth and Waco.
San Antonio—Houston and El Paso.
Oklahoma City—Tulsa.
Little Rock—Fort Smith and Texarkana.
The organization of the Employment Service by the Veterans' Bureau is the latest effort of the Government in its care of disabled and rehabilitated Veterans. After the disabled soldier, whose normal earning capacity was materially reduced as the result of service, has completed a course of training which has restored his economic value in some line which his disability does not effect, the Veterans' Bureau then seeks to place him in some suitable and gainful occupation where he can utilize his training.
There are 2800 Veterans in the 14th District taking Vocational Training and each of the Sub-District officers now have approximately 100 men, who have completed training and who now seek employment opportunity in their chosen lines.
Mr. Reinhart is organizing his staff in order to effect contact with the employers of Texas, Oklahoma and Arkansas who can offer these rehabilitated Veterans an opportunity for gainful employment.
Capt. S. C. Kile, District Manager of the Veterans' Bureau, announced Mr. Reinhart's appointment this morning, and stated to the representative of the press, "We feel very fortunate in obtaining the services of a man like Mr. Reinhart in this work. He is held in high esteem by the members of the 90th Division Association of Texas and Oklahoma and by the American Legion of Texas. He understands both the problems of the rehabilitated soldier and of the employing public, to whom we must look for co-operation if this work is to be a success."
"We have practically completed the personnel of Assistant Employment Representatives at the various Sub-District Offices in the three States, and the employing public are invited to get in touch with the Employment Representative, at any of our Sub Offices when they have a position they would like to offer to a rehabilitated Veteran.
"This work is the culmination of the specialized training afforded Veterans in the past three years, and we confidently rely on the public for helpful co-operation in making these men self supporting again, so that the world may again know that "America does not Forget."
When asked about his plans Mr. Reinhart replied, "I am not letting up on the American Legion Work, but will continue to give it attention until the convention meets in Waco September 11, 12, 13 and the boys can elect a new Adjutant. I feel that this employment service with the Veterans' Bureau affords a splendid opportunity for service, which is the watchword of the Legion. The personnel of all Sub-District Offices will be announced in a few days, and I know that the business men of Texas, Oklahoma and Arkansas will respond gladly to the opportunity to give preference to our Veterans, who so nearly "Paid their last full measure of devotion."

THREAT THAT IS EFFECTIVE

The native of Ceylon is an intractable creditor. He possesses an irresistible method of securing payment without recourse to the bailiffs, citations, judgments, duns of summons which fall like hail about the ears of European debtors.
The Ceylonese creditor betakes him to the house of the man who owes him money, holding in his hands some leaves of the neungala, an extremely poisonous plant, and declares that, unless he is paid on the spot he will poison himself.
The debtor pays up without hesitation. At home he would of course simply laugh in the face of the shoemaker or tailor who made such a threat, and tell him to go ahead; but in Ceylon there is a local law which imposes an enormous fine on anyone who is the cause of the suicide of another. And there is no case on record in which a creditor was permitted to carry out his threat.
The question, however, seems to be whether in the face of an obstinate refusal to pay, the creditor would not be wiser to lose his money than his life.

TEXAS HAS HAD PHONE 41 YEARS

Dallas, Texas, Aug. 8.—The telephone was introduced in Texas 41 years ago this summer. Until that time conversation could be held only when persons were within a few feet of each other.
But with the installation of telephone exchanges in Dallas, San Antonio, Waco, Austin, Houston and Fort Worth during the summer of 1881, the method of communication was changed overnight.
The telephone soon proved to be a vital necessity for communities in the method of communication which it afforded and this created a demand which has caused a growth of the telephone systems of the country to pass beyond the wildest imagination of even its most enthusiastic backers.
Twenty years after the installation of the first telephone exchange in Texas the state boasted of about 35,000 stations. At present there are some 430,000 telephones in the state, operated by 728 different companies.

TEXAS OIL IS VALUABLE IN MISSOURI

Oklahoma City, Aug. 9.—John Van Cleave, the Burkburnett youngster who became rich overnight in the Burkburnett oil strike a few years ago, has wired friends from Missouri, where he has lived for some time, that he has been nominated by the Democrats for the Legislature from his county, receiving in the primary election, 3,000 votes more than the Republican nominee.
Van Cleave for a year after he became rich was one of the most spectacular youngsters of the oil district, spending large sums for diamonds, motor cars, clothes and vacations. He surprised his friends in the midst of his spending spree by accepting an appointment in Wichita County as a Deputy United States Marshal.

CARD OF THANKS

Pressing business has kept me from expressing my thanks as soon as I should have; but I, nevertheless, feel deeply grateful for the support of my friends in the recent primary, which support made possible my victory in the race for county judge. In return, I shall endeavor to fulfill the office as it should be; and my whole strength will be used in trying to make you a good officer.
Sincerely,
J. L. Bain.
Mrs. D. C. Downs, of Ft. Worth, arrived here Sunday evening for a visit with her mother, Mrs. Betty Shaw and family.

PERSONALS

Frank White Jr., was an Amarillo visitor yesterday.

J. E. Russell was a business visitor on the north plains Friday.

Mrs. U. T. Dever is visiting with relatives in Memphis this week.

Hon. Curtis Thompson is visiting with his mother in Goree this month.

Miss Pauline Bell visited with friends in Amarillo the first of the week.

Miss Zell Ryan returned home this week from her vacation of several weeks.

A. V. Clark, A. L. Luxa and Harry Sitner were Amarillo visitors yesterday.

George Babby returned Saturday evening from Dallas where he spent a vacation.

Rev. Justin Anderson left Tuesday to attend the Plainview District Conference.

Miss Cleo Bowers spent the week end in Vernon visiting with relatives and friends.

A. B. Word, a stock farmer of Alanreed, was in this city on business Friday.

H. B. Webb, of Hereford, was here on business and visiting with friends Saturday.

W. P. Nichols, of Ardmore Okla., visited here this week with J. J. Taylor and family.

Miss Myrtle Jolly returned last week from a ten days visit with friends at Hedley.

Miss Marjorie Turner returned Monday from a week-end visit with friends in Childress.

Mick Clark and his sister, Miss Ella, spent the week end visiting with friends in Canyon.

Odos Caraway and family left Tuesday for a visit to Dallas, Cleburne and other points.

Roy Nichols and family will leave Saturday for Mitchell county where they will spend a vacation.

C. A. Burton and sons, Joe and Edgar, left yesterday morning for a camping trip near Canyon.

Miss Elizabeth Stevens and her mother left Tuesday morning for a visit with friends in Memphis.

A. L. Chase and family left today for Cleburne where they will visit with relatives and friends.

Mrs. C. A. Burton left Tuesday morning for Perryton where she will attend a district missionary conference.

Mr. and Mrs. A. C. Rippy, of Pampa, visited here Sunday with the latter's sister, Mrs. L. P. Cox and family.

Mrs. W. B. Baldwin, of Memphis, arrived here Tuesday for a visit with her parents, Mr. and Mrs. T. L. Benedict.

W. W. Buck, one of the prominent farmers of the Ashtola community, returned Friday from a visit to Hereford.

Friends will be glad to learn that M. W. Headrick, who has been ill for the past few weeks, is doing better at this time.

Earl Alexander and Emmett Richards returned Saturday from New Mexico where they spent a vacation of two weeks.

Miss Bert Ryan, of Amarillo, returned to her home last week after a visit in this city with her brothers, George and John Ryan.

W. G. Mayfield, of Shamrock, was in this city Saturday reserving a room for his son who will enter Clarendon College this fall.

A. A. Mayes and family returned Tuesday evening from a vacation spent in Galveston, Houston, Coolidge and Wichita Falls.

W. A. Ragsdale, of Lelia Lake, was in this city on business Tuesday. Mr. Ragsdale says that a considerable part of the cotton in that country will make a quarter and a third of a bale to the acre, even though there is no more rain.

Our Idea of
Millinery Service
Is It Yours?

We have a reputation for millinery of smartness, for hats that give satisfaction. We attribute it to our policy of studying first the style and then the customer.

Bringing the correct style to the woman it will become most, is our idea of service. Wouldn't you like to try it?

HARNED SISTERS

At Baldwin Bros.

Walter Butler spent the week end with relatives here. He left again Monday for the north Plains where he is putting in a wheat crop.

A. L. Chase and family returned the first of the week from Shafter Lake in Andrews county, where they visited with Mr. Chase's father.

Fred Chamberlain and family and Mr. and Mrs. R. A. Chamberlain returned Saturday from a vacation of several weeks spent in Colorado.

J. B. Denson, of Kirkland, was in this city Saturday to reserve a room in the dormitory for his son who will attend college here this year.

COACH BURTON MARRIED IN DECATUR YESTERDAY

Announcement was received this morning of the wedding of Harley T. Burton and Miss Clara Belew at Decatur yesterday. The bridegroom has been teacher of science and athletic coach in Clarendon College for the past three years, and has scores of friends whose congratulations he has. While the bride has never lived here, she is known to be a young lady of many accomplishments and graces; and the happy couple has the best wishes of many friends for a long and prosperous married life. They will be at home in Clarendon with the opening of school next month.

HEDLEY OIL TESTS ATTRACT ATTENTION

Three cable tool test wells on 20,000 acres of leases in Donley and Hall counties are being drilled near Hedley simultaneously by the Swanson Company of Oklahoma City, with headquarters in Hedley. The first has reached a depth of 2200 feet, the second has 12-1-2 inch casing set at 400 feet, and the third recently was spudded. Aside from structural conditions of the surface, this territory was selected by the company in seeking to get a proper distance from the Amarillo gas pool, and the wells are just east of the caprock of the Plains.

In the deepest well (the Buck Creek) over 500 feet of shales have been passed through, according to Victor Swanson, president of the company. All have been distinct and unimixed. At 2130 to 2145 was found the first green shale that has been encountered in the Texas Panhandle. It is generally understood in Central Texas that oil is found beneath a green shale. It certainly indicates a high grade oil if oil is found, geologists say.

Considering difference in elevation between this territory and the gas region, sands containing oil or gas may be expected at about 2300 feet, Swanson says. Producing sands rather than producing shale should be found in this territory, geologists believe. The Gulf Production Co.'s No. 2, well, north of Panhandle, is said to be the only one in the Panhandle in which oil has been found in sand.

"One of the biggest puzzles of a

yond the Panhandle caprock. This an oil pool may be found in the Panhandle," says Swanson. "Operators lately have been carrying on a backing off game, each guessing how far he should go from the Amarillo gas pool. While we were backing up we concluded to get beyond us about 65 miles southeast of the put us about 65 miles southeast of the Amarillo pool and about the same distance northwest of the Burk Burnett pool. The gas field covering nearly 90 sections, is the largest in the world. The Masterson well, which supplies gas for Amarillo, is making 85,000,000 cubic feet daily after being in operation for three years. Recently there was talk of New York men negotiating for contracts to pipe gas to Denver."

The Swanson tests are being closely observed by the big companies, practically all of which agree that somewhere in the Panhandle a great oil pool will be found. The Gulf is especially observant. The Texas Company recently purchased two sections in fee just north of Swanson's No. 1 in Donley county. Swanson has contracted 20 quarter sections to the Empire Gas & Fuel Co., and sold several tracts to "Trap-shooter" Reilly. West of the Swanson block the Humble Oil and Refining Co., is leasing a block.—Star-Telegram.

CAN REQUIRE AFFIDAVIT OF VOTERS IN PRIMARY

An opinion recently handed down by the Attorney-General's department states that every voter who goes into the primary of any party can be made to sign an affidavit that he voted for the nominees of that party in the last general election. Of course, the opinion goes ahead to say, if the voter did not vote in the last election, then the rule does not apply; but it is laid down as without exception that one who votes in any primary of a party, like that of the Democratic primary July 22nd, or the run off which will take place next Saturday, must have voted for the nominees of such party at the last general election. The opinion goes ahead, in response to further inquiries, to state that this Texas statute is not in conflict with any penal law either state or federal.

Miss Annie Reeves, of Jericho, was a Clarendon visitor Monday.

Turner Kirby, of Jericho, visited with friends in this city Monday.

WHAT SATURDAY'S RUN OFF WILL SHOW

Of course it's all dope; but let's see if you dope things this way. For the sake of fun, let's play that this is next week's issue, and that we are writing up Saturday's run off.

As we suspected, the vote was lower; in round numbers, fifteen hundred votes. The vote that each candidate received seemed to indicate that he received the following percentage of the votes cast for other candidates in the July primary. Each one of the candidates held the votes that he received the first time, giving Mayfield 695 to start with and Ferguson 149. Ferguson received twenty-five per cent of the 112 votes cast for Henry in the primary, or twenty-nine of those votes. Yes we shall bear in mind that not all of those men voted, and make the total subtraction later. Ferguson received seventy percent of the vote cast for Culbertson the first time; in round numbers the seventy percent of 142 is 100. But when it came to Thomas' vote, Ferguson did not fare so well; for the Thomas men are staunch prohibitionists, and only twenty percent of that 332 votes swung to Ferguson; thus he received only 60 votes there. But the indications were that Ferguson got forty-five percent of Ousley's 278 votes, or 125 votes there. Total these votes that Ferguson received from the other candidates and we have 314 votes. But we must remember that almost twenty-five per cent of those three hundred and fourteen men failed to vote; in other words only 234 of them voted; add Ferguson's 149 that he received the first time, and you have a total of 403 votes. Subtract this number from the 1,526 votes cast, and you see that Mayfield's vote was 1123. In other words, Ferguson received forty percent of the combined vote for the other candidates with the exception of Mayfield.

How does that compare with the way the election ran throughout the state? Mayfield, we may say in round numbers, received 140,000 votes in the primary, and Ferguson 110,000. Each one held his strength in the run off, so 250,000 votes are account for. But there were 450,000 votes cast in the run-off, and Ferguson received his forty percent of them, or 80,000 votes; Mayfield received 120,000 of them, or the sixty percent. This gives Mayfield a total vote of 260,000; and Ferguson 190,000. This would show Mayfield's majority 70,000. After all, do you not think that those figures on the percentage of the other candidates' votes that Ferguson received were just a little liberal in Jim's favor? We shall see what we shall see Saturday.

BANDS TO COMPETE AT AMARILLO MEET

At the convention of the Panhandle Plains Chamber of Commerce which will take place in Amarillo the latter part of next month, there will be a big contest for bands from the various cities. There are various classes in which the various bands will enter, depending on the experience that they have had. Clarendon's Band would be eligible to enter in one of the classes, but unfortunately the support of the organization has been withdrawn, and it will not enter the contest. Many of the various cities in this part of the state and New Mexico have been receiving fine publicity by entering their bands in the various contests this summer, but Clarendon will miss this opportunity next month.

Look for our Saturday's bargain list. R. A. Long Drug Co.

A BIG CONVENTION

The convention of the Panhandle Plains Chamber of Commerce September 19th and 20th at Amarillo will be the biggest gathering ever held in the Panhandle, according to Secretary W. N. Blanton. More than five thousand visitors from all sections of the Panhandle are expected for the two-day meeting.

Real entertainment will be provided the visitors, and a good time as well as valuable information is promised. The Convention will be unique in that practically every Panhandle-wide organization now in existence will have sectional meetings at the convention. For example, speakers of national reputation will address the doctors of the Panhandle, the farmers of the Panhandle, the Panhandle Grain Dealers Association, the Panhandle Teachers' Association, the Panhandle Press Association and other organizations.

Negotiations are now under way to have one of the best known speakers in the United States address the general meeting. When he has definitely agreed to come to Amarillo Secretary Blanton will announce his name.

The Board of City Development, which is the commercial club of Amarillo will co-operate with the Panhandle-Plains Chamber of Commerce in entertaining the hundreds of visitors expected. Definite plans for the entertainment feature are now under way. Amarillo is determined to make her guests have the most enjoyable stay they have ever experienced in that city, according to assurances given officers of the Panhandle-Plains Chamber of Commerce.

E. T. Thompson and family, of Abilene, left Tuesday morning for their home at Abilene after a visit of several days here with Mrs. Thompson's brother, R. I. McGowan and family. They went by the way of Wichita Falls on the return.

SOUTHWESTERN PASSENGER ASSOCIATION AUTHORIZES ONE AND ONE-HALF FARE

Amarillo, Aug. 24.—The three railroads serving Amarillo have announced convention rates of one and one-half fare for the Panhandle-Plains Chamber of Commerce Convention from points on their lines to Amarillo.

The rate of one and one-half fare is based on the certificate plan. The selling dates are announced for September 18th and 19th and final limit to return leaving Amarillo September 21st.

The territory within which the arrangement applies is as follows: Santa Fe System—Sweetwater, Texas, Melrose and Portales, N. M. and all intermediate points as far east as Woodward, Oklahoma, including branch lines in Texas, also Spearman Branch.

Rock Island System—Tucumcari, N. M. and all intermediate points east as far as Hooker and Elk City, Oklahoma.

Fort Worth & Denver—Quannah, Texas to Clayton, N. M., and intermediate points.

Under the certificate plan passengers will purchase ticket to Amarillo at regular one way fare and require selling agent to give them receipt. Such receipt must be presented to the secretary of the convention and joint agent of the railroads at Amarillo for validation and after such validation the receipt will be honored by railroad agents for tickets at half fare back to starting point.

The Secretary and Joint Agent will be found at convention headquarters at the Amarillo Hotel during the meeting and visitors are requested to call and register immediately on arrival, get tickets validated and be assigned to rooms, etc.

Secretary of Convention will be Hamlin Palmer and Joint Agent of Railroads, J. B. Gibbon, Agent of the Fort Worth and Denver City Railway.

WILL BUILD ICE PLANT IN PADUCAH

H. C. and Eunice Wilson, of Yerton and Quannah, respectively, have purchased a block of land close to the railroad tracks, in this city, and will begin the erection of a modern ice and bottling plant in the near future. This is no hearsay, but the real thing. This enterprise for our city is assured.

The Messrs. Wilson have had the water here analyzed, and say it will make first-class ice. They have bought the very latest machinery for ice making, and the plant will be a credit to the city, and the surrounding section. In addition to making ice, they will put in an up-to-date bottling works. The machinery for this enterprise has also been ordered. —Paducah Post.

Mr. and Mrs. L. B. Taylor and the former's sister, Mrs. E. P. Murrell, the latter of Wichita Falls, returned Friday from an extended trip through Missouri, Kansas and Colorado. Hugh Taylor who accompanied them on the trip, stayed over for a longer visit in Colorado Springs.

Miss Evadne Hurn will leave tomorrow for Sonora where she will again teach school. Enroute she will visit in Dallas and other cities. She will be accompanied as far as Dallas by her mother, Mrs. J. E. Hurn.

Mr. and Mrs. Tom Goldston returned Sunday from Groen where they visited with relatives the last week. Mr. Goldston and his brother, Leonard, and brother-in-law, James Stubbfield, also went on a fishing trip to Sulphur Park Club near Hereford.

FOR SALE—Johnson grass and cove baled hay. W. W. Moreland, phone 1032, 3L and 1S. (34pd)

EQUALITY OF OPPORTUNITY

WILL H. HAYS

Let all well-wishers of good government, regardless of party affiliations listen for a moment, listen with eyes aloft, listen to the voice of experience and, the call of inspiration from the spirit of America which was Washington and Lincoln and Roosevelt—listen and hear from them the call: Carry on, Americans! Carry on! Carry on! Carry on, now, against the foes of our own household as you fought at Valley Forge, at the Argonne and at Chateau-Thierry. Carry on! Carry on! Find disloyalty if there be disloyalty, and scotch it; find dishonesty if there be dishonesty, and crush it; find the right and cleave unto it. Keep your eyes raised, Americans, but keep your feet on solid ground!

Find the reason for discontent, and meet it squarely; correct the cause where there is a cause, and mercilessly destroy the excuse where it is an excuse only. Find exact justice and demand it—demand it for all men and require it from all men. Remember the stuff you are made of, Americans. Remember the heritage which is yours. Remember—and be encouraged. The manhood and womanhood of America are sound. The stress of late days has strained all overmuch.

Be patient with one another, but as you value your country's future wait not a moment to realize the emergency, nor longer delay your action. Each one is equally responsible. Stop and look within. Look, each one, to your own industry and thrift. Look to your own conscience and moral responsibility, and

The Clarendon News' Americanization series

(Editor's Note—The articles appearing in the above space from week to week are taken from "Americanization" by Elewood Griscom, Jr. This excellent volume, which is a collection of articles upon the general theme of patriotism and good citizenship, is presented to the schools of Texas by the Bodies of Scottish Rite Masonry in Texas.

MISSIONARY WORK BEGINS AT HOME

The recent primary has revealed the fact that practically every county in West Texas which has been crying out against the state of Texas for unjust representation, has within its own border a very vivid case of unrepresentation. For instance, in Randall county there were less than 1100 votes cast in the primary. In precinct No. One, in which is located the city of Canyon there were 771 votes cast. One County Commissioner represents the 771 votes of precinct No. 1, while three men represent the 300 voters who live in the remaining part of the county. In Potter county, the voters of one commissioner precinct number less than a dozen, while the city of Amarillo with above 3000 votes elects but one man. The man from this sparsely settled precinct has the same voting powers as the one from the city. Randall county has always been fortunate in having good men on the Commissioners Court, and no objection has ever been raised to the way the county was divided. But of late years we of West Texas have been doing so much talking about our unfair representation in Austin, that it might be well for us to stop and reflect about our condition in practically every West Texas county before jumping on the state too hard.—Randall County News.

What Editor Warwick says is true of Randall County is true in this county also.

BREAK CHEST COLDS WITH RED PEPPER

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles".

in the whirl of the storm about you seize upon common sense and good conscience. Holding fast, then, lift yourselves from the maelstrom of unrest and regain for yourself your own sound judgment—and then reach for others as they are hurled by.

Yes, forget not the others who are about you. It is as dangerous now as it was just outside the walls of Eden to ask in surprise: "Am I my brother's keeper?" Remember, we all go up or we all go down together. The great power which is the spirit of America must not tolerate any attempt to array group against group, section against section or sect against sect. Guard against this as you would against a pestilence; the nation has no greater enemy than one who would thus divide the country against itself.

While you are in turmoil our late enemies are marshaling with dispatch all of their industrial resources, so let not our great accomplishments in war be marred by our inability to order our own affairs. Mere agitation and mere motion are not progress. The vicious circle is not the shortest distance between honest effort and highest reward. Remember that one man is better than another only when he does better. Give all well-behaved men and women their equality of opportunity, and require from them their full measure of accountability. Live and let live is not enough—we must live and help live—and, as you live and help live, find always exact justice and enforce it.

THE HOME PAPER

"A prophet is not without honor save in his own country," may be very appropriately applied to a small town newspaper. What a contrast is there between the reception accorded this modest little bearer of home gossip by its readers when they are at home, and when they are abroad!

When it is brought from the post-office at home, its pages are glanced through, and the headlines are read somewhat hurriedly. If, perchance, an account of the marriage of somebody's "charming and accomplished" young daughter to a rising young man of the community is given, we stop to read it. We usually read also about last week's party, picnic or frolic, especially if we, or some of our friends were concerned. Then with a casual "Oh well, there's not much news in the paper this week," we throw it into the wastebasket to be ignored, forgotten, and soon destroyed.

Not so with this same unassuming little paper when its readers are many miles from home. How eagerly they scramble for it! The person who is lucky enough to get hands upon it first is immediately surrounded by the other wanderers from that home town. One on either side helps hold the paper; two others look over their shoulders, while a fifth, who happens to be the last upon the scene, sinks to his knees, and, in an awkward and uncomfortable position, strives patiently to glean from the opposite side of the paper, just a few scattering remarks about friends at home. Not an item escapes the attention of this interested group. Even the advertisements are read. When the last page has been scrutinized carefully they turn through again to see if possibly something has been overlooked. Then with sighs they reluctantly disband to think of home and the tidings brought to them by their precious little home town paper. —From The Prairie.

SAVE BIG MONEY FROM INADEQUATE LIVING WAGE

The Brotherhood of Locomotive Engineers are investing \$200,000,000 in West Virginia and Kentucky coal mines which have a capacity exceeding 6,000 tons a day. The Coal River Collieries is the new company and it is owned by hundreds of locomotive engineers throughout the country. They plan to retail the coal to railroad men and other workers in the large cities throughout the United States; which is more proof of the inadequate wages paid railroad men.—Exchange.

SELECTIVE IMMIGRATION

It is a long, long time since patriotic Fourth of July orators boasted eloquently that America was the refuge of the oppressed of all nations. It was true once. Whoever would come, oppressed or not, was welcome. Then our hospitality began to be abused. Too many men whose vicious propensities were repressed in their native lands transferred their activities to a country where the cult of individual liberty enabled them to plot and practice revolutionary schemes with less hazard and less exposure to punishment.

Public opinion on immigration as it was, unrestrained and unlimited, changed slowly but it has changed completely. No one would now advocate repealing our restrictive laws altogether, and few who regard our civilization as worth saving would relax them at all. Most men would make them more severe, for they are far from making us secure. We can exclude for the most part those who are defective in mind or body, those who are incapable of supporting themselves, and the grossly ignorant. But there are loopholes in the law and failures in enforcing it that let in some who belong to the proscribed classes. But the great trouble is that none of the present tests insure the country against the admission of the most dangerous enemies of the state.

The numerical restriction now in force reduces the chances of undesirable immigration in quality but not in quantity. The effort now is to apply to our policy a new and more scientific method of exclusion. Instead of testing candidates on their arrival at American ports it is proposed to ascertain their fitness for admission before they start. It is manifest that the inquiry can be far more effective and thorough going if it is carried on where they have lived and where they are known—where their reputation can be investigated—than if it is undertaken at an immigration post where little more can be learned than what can be extracted from the immigrants themselves.

Fortunately, we already have machinery that can be adapted to the work, the sphere of his activities. Dr. Bell, whose labors in science and invention brought him fame and fortune, did not cease his benefits to humanity with the invention of the telephone.

Before that epoch-making invention and during all his long life, he has been a teacher of the deaf and dumb, a student of means to enable the dumb to learn to speak, and the deaf to learn to "hear," either through instruments or by lip-reading.

The whole world talks by telephone, nor gives a thought to the man whose genius made it possible. But no deaf mute learns to communicate with his fellows, no dumb person learns to speak, but pays mental tribute of grateful appreciation to the humanitarian, scientist, inventor, teacher and educator who spent his life in the amelioration of their misfortunes, and on whose teachings the whole modern science speech taught to the speechless may be said to rest.—Exchange.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts to flush out Kidneys—Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

The Standard of Comparison

Just Right for Two!

The 1923 Four Cylinder Roadster

Smart, sturdy—you won't find another two-passenger four cylinder roadster that compares with this new Buick in quality or in price.

Inspect it from any angle—snug, beautifully tailored top; long, low body lines; heavy one-piece crown fenders; lots of room for two people and two compartments for their luggage. A big steering wheel that comes up to you, a shifting lever that operates without bending forward, a transmission lock and improvements which give 1923 Buicks a Class "A" insurance rating.

And, below the surface, the famous Buick Valve-in-Head motor and chassis with refinements throughout which set a new standard of quality and performance in automobiles.

These are just a few of the many distinctive features that make this new roadster a car without an equal in its class.

The Buick line for 1923 comprises fourteen models: Four—8 Pass. Roadster, \$2885; 6 Pass. Touring, \$2885; 5 Pass. Coupe, \$1175; 6 Pass. Sedan, \$1595; 6 Pass. Touring Sedan, \$1525; Six—8 Pass. Roadster, \$1175; 6 Pass. Touring, \$1195; 6 Pass. Touring Sedan, \$1595; 5 Pass. Sedan, \$1595; 4 Pass. Coupe, \$1595; 7 Pass. Touring, \$1555; 7 Pass. Sedan, \$2195; Sport Roadster, \$1695; Sport Touring, \$1675. Prices J. O. B. Flint. Ask about the G. M. A. C. Purchase Plan, which provides for deferred payments.

W. L. CRANE
HARRY C. BRUMLEY.

FOR COMMISSIONER PREC. 2:
G. A. ANDERSON
J. H. HURN

FOR COMMISSIONER PRECINCT 4:
F. B. THOMAS

FOR PUBLIC WEAVER PRECINCT 5:
W. M. COTHRAN

CRAZY IDEAS THAT HAVE MEANT MUCH

Don't laugh at the man with the "crazy idea."

Forty-five years ago Thomas A. Edison laughed at himself because he had a "crazy idea." But he kept on, and today in millions of homes the phonograph plays.

Less than a score of years ago Langley was laughed to death because of his "crazy idea" that man could fly. The greatest mathematician of this country, Newcomb, demonstrated "conclusively (!)" that a heavier-than-air flying machine couldn't fly.

The world has been laughing for a hundred years at the "crazy idea" that women could, should, or would vote.

It was a "crazy idea" that two great nations, with a boundary line between them three thousand miles long, could, by treaty, do away with armed camps, forts, soldiers, ships of war on lakes. But Canada and the United States never have any use for the soldiers and the forts displaced by treaty.

Wireless was a "crazy idea." So was Bell's telephone, and Morse's telegraph, and Whitney's cotton gin. Many have thought Jesus Christ had "crazy ideas."

Don't laugh at the man with the idea which seems "crazy" just because it's new. If there had never been any new idea we would still jail lunatics and debtors, burn men for witchcraft, and use pine knots for illumination. It's not so long since a Republic was a "crazy idea" in government.

Some day the man will be born whose "crazy idea" will end war, strikes, oppression, anarchy, crime, and fraud. He will be laughed at, as all leaders have been. But let us, you and me, be not among those who deride, merely because not yet has it been given to us to understand.

A real idea of progress, of human betterment, comes from God. Don't laugh at it because you don't understand it.—Exchange.

Misses Faye and Geneva Eynum, of Lelia Lake, were in this city shopping and visiting with friends Monday. They will leave the first part of next week for Ft. Thomas, Arizona where they will teach school the next term.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "Aching" Rheumatism. It's pain only, not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Limber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

RESPONSIBILITY

Responsibility is the old acid that tests a man; it is the fire that proves him—if he is fashioned of lasting materials, responsibility makes him; if not, it break him. Fire causes steel to expand and become more durable; wood and celluloid and such flimsy materials can't stand fire.

Roger Babson, the statistical genius, tells a story in point. His little daughter has a cat that often gives birth to a litter of kittens. Across the street resides a lively fox terrier, who is an avowed enemy of the cat. When the dog chases the cat, one of two things always happens. If the cat has no kittens, she runs up the nearest tree; if she has kittens; it is the dog who must find a harbor of safety. Same cat, same dog, same back yard, both times. One time the cat has no responsibility, the other time she has. That realization of responsibility gives the cat her courage and initiative to do or die.

If a man fails, it is a safe bet that he fails because he can't stand prosperity—prosperity of responsibility, or prosperity of money. Some there are who never have great opportunity, and others who walk all over and around opportunity without recognizing it. Some wait for opportunity and some create opportunity. Of all the great successes, a majority belong to the last named class.

Elbert Hubbard said that opportunity gravitates to the man able to assume it. Just as water seeks its level. The principle reason some men never have big opportunities is that they never learn to make the most of small ones. Just like the fellow who never does any more than he is paid for is not liable ever to be paid for more than he does.

J. Ogden Armour says he doesn't want to know how a man does a thing, but that he has done it. He doesn't hire men to do certain work and then tell them how to do it. Their success depends upon their ability to get results—to shoulder and carry gracefully responsibility.

"It's not the storms you encountered at sea, but did you bring the ship safely into port?" The world loves a man who can stand responsibility, and loving him showers him with richest blessings.—Wm. J. Wyatt's "Twilight Reflections."

REVENUE MEN CAUSE SOME DISASTER HERE

A couple of internal revenue men caused some disaster to certain pocketbooks in this city Saturday when they dropped in here to see if the service car drivers and amusement place owners were keeping their taxes paid as they should. Some rather heavy fines were imposed on some who were maintaining service cars without paying their license. The Greenhouse bathing pool was assessed a small fine this in consequence of the fact that the management did not understand one item that was to be paid; and not because there was any intention of violating the law.

WACO TO ENTERTAIN LEGION CONVENTION

Dallas, Texas, Aug. 15—Waco is going to have a chance to show to the world that she is one of the most thriving cities anywhere and is capable of entertaining her visitors better than any other place in the whole of the United States. On the 11th, 12th, and 13th of September the state convention of the American Legion is going to meet in Waco, and as W. S. Foster, Adjutant of the Waco Post puts it, "ain't we goin' to have fun?" Fun! well I should say, and we are just goin' to stand right out on the main streets of that berg and "murder the bugler," and toot those old brass band horns, 'n everything. There's going to be music galore and "when do we eat" ain't ever going to be heard, 'cause we're just going to be eating all the time and won't have time to say it—water melon, barbecue, gee but "Ain't we got fun?"

Yep, and State Headquarters announces that the women are going to be there too. Yes, sir, that organization known as the Auxiliary is going to have its state convention at the same time. But don't get excited for according to Judge Willis himself, who has charge of the entertainment, there is going to be a shore 'nough staggy party also.

Now listen here, if you ever intend to see Waco and find out just how royally she entertains, you had better follow the crowd and bring your buddy along for the 11th, 12th and 13th of September.

THE MASTERY OF WORDS

Words come to most of us so easily and flow so lightly that we find it hard to realize their enormous power; and we toss them about with as much casual indifference as if they were not glowing sparks flitting wind-borne through an inflammable world. When you consider their far-felt influence and their direct results, perhaps you may safely say that words are among the greatest forces known to man. One little word, a mere yes or no, one hasty ejaculation or bitter outburst, long regretted or instantly forgotten, may change a life.

Though we have heard and read so much on the subject, most of us still fail to appreciate the immense importance of words in modern democracy. The masters of them, in speech or print, can sway the destiny of nations. They can frame a telling argument that will be repeated by millions, often unconsciously, that will be mangled and distorted till it comes back to the originators in a form they would never recognize, and that will then move great masses of men to blind action that will be felt for generations to come. An apt, quick brain and tongue will coin a phrase that will run to the remotest corner of the world and prompt slow nerves and muscles to deed of which the first speaker would be quite incapable.

It is a curious thing that the master of words is so likely to be the victim of them. We often say and believe that clever orators speak only for effect and are not themselves convinced by the arguments they use. No doubt that sometimes happens. But words are such subtle things, so delicate, so insinuating, that they impose upon those who use them as well as upon those for whom they are used. The master of words is inclined to take words for things, to be fooled by the glitter and dazzled by their brilliance, to live in a vaporous atmosphere of quick breath that cuts him off altogether from the stern, shary, clear-cut world of reality. The most dangerous demagogue is he who takes his own doctrines seriously.

The truth is that words are a magnificent weapon that cuts both ways. They are likely to mislead the tongue that utters as well as the ear that hears. Fortunate indeed are those who gain the mastery of them without being mastered by them.—Exchange

Those from this city who have been watching the work on the Silk Well on the G. W. Medley ranch, report that good progress is being made.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed with Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your crown. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur restores its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

THE SPEARMAN FARM LANDS

located in Terry, Gaines and Yoakum Counties, South Plains of the Panhandle, Texas, are now being offered at prices and terms, which will enable any industrious farmer to buy and pay for a farm with less money than pay rent. Productive lands, a fine climate, abundance of good pure water, and a country in which one man raises more cotton, more corn and more sweet potatoes and other farm products, than a whole family can gather. No insect pests. We make landlords out of our customers instead of renters. Farmers who are anxious to own their farms, are invited to come to Spearman, inspect our farm lands, look at the crops, and talk to the men who raise them.

A card to W. A. SoRelle, General Agent, 4 Santa Fe Building, Clarendon, Texas, will bring you a descriptive pamphlet, giving detailed information about these lands and plan of purchase. A reliable agent wanted in each county. (28-3-1fc)

CHEAP MONEY

Rates as low as can be had any where, with almost any length of time to pay.

Insurance and Bond Service

We handle insurance that covers the earth and anything on it. Our Bond service cannot be excelled. We are specialists in these lines and are fitted up to serve you in the way that suits you best.

We Buy And Sell Vendor Lien Notes

It will pay you to call on us for all kinds of business in our line. Our patronage is growing because we take such good care of the business we have.

Do You Awake Tired and Weak?

Know the Joy of Restful Sleep by Taking Ironized Yeast

Do you arise in the morning as unrefreshed as when you retired? Are body, brain and nerves all run down? This terrible weakness which afflicts so many may be blamed on the lack of vitamins and iron in modern foods. Supply these invigorating elements by taking two pleasant tablets of Ironized Yeast three times a day. Everyone knows that yeast is a wonderful builder of strength and energy. But Ironized Yeast embodies a new secret process, known as "ironization," which enables the yeast to produce its results twice as quickly. It tones up the great vital organs, soothes the worn-out nerves and makes you feel like a new person. Get Ironized Yeast today and take a new lease on life, or to try it entirely free, simply mail postcard for Famous 3-Day Trial Treatment. Address Ironized Yeast Co., Dept. 96, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists. Sold by CITY DRUG STORE.

SULPHUR SOOTHES UGLY, ITCHING SKIN

The First Application Makes Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist. This sulphur preparation, because of its germ destroying properties, never fails to quickly subdue itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

UPTON ACCEPTS HIS SENTENCE

Houston Upton, who was tried here at the last term of District Court for the murder of Gladys Solomon, has accepted his sentence of ninety-nine years in the penitentiary, according to advices received here. After his attorneys gave notice that they would not appeal the case, the state agreed not to prosecute on the charge of murdering Nell Umberson, venue for which trial was transferred to Randall county.

Hon. R. H. Beville and family spent the week end at Canyon visiting with relatives.

KU KLUX KLAN MAKES DONATION AT GOODNIGHT

Just as Rev. Leon Henderson was closing a two weeks revival in the Methodist Church at Goodnight Sunday evening, several robed members of the Ku Klux Klan appeared and presented him with a twenty dollar donation and a letter setting forth the ideals that they say they, as klansmen, stand for. Rev. Henderson says that he was just giving his congregation a description of what the devil is like, but had time, after the appearance of the klansmen, to inform his hearers that the visitors looked nothing like the devil. The letter commended Rev. Henderson for his work, and sounded a warning for evildoers of every kind, closing with the significant statement that the Klan sees everything.

FREAK CONTEST IS CONTINUED

Since the News began giving publicity to the various freaks of Nature that have occurred in this county, many and varied specimens have been produced. C. A. Wright is the latest to show something new in the egg contest. Last week he brought to this office a hen egg of almost unbelievable proportions. It is five and three quarters inches around the egg in one way, and seven and three quarters the other. At first look one would think it is a buzzard's egg, but when the specimen is studied it is seen to be a regularly formed hen's egg. It is of a rich cream color; and, of course, the poultry expert could at once classify what strain of stock it comes from. It is regularly proportioned in every way, and its weight would lead one to believe that Mr. Wright has been feeding his chickens lead.

MRS. ALLEY TRIMMER WITH MISS TAYLOR'S

Mrs. Mayme Alley, of Dallas, arrived here the first of the week and is now with Miss Taylor's millinery shop as trimmer. Mrs. Alley has had much experience in this work in some of the largest millinery shops in the Southwest, and her addition to the local shop is of great value.

Hygrade gas filled electric light globes give more light for less money and will give a third longer service. Guaranteed by Stocking's Drug Store. (34c)

Look for our Saturday's bargain list. R. A. Long Drug Co.

DONLEY COUNTY VISITED BY RAINS LAST WEEK

Donley county, after several weeks of no rain, was visited by light rains in various section last week. Friday afternoon showers fell north of the river and north and north-east of Lelia Lake, and it is reported that the crops in several sections were helped very materially. Saturday afternoon and evening good showers fell about Clarendon and several sections of the county, among which was the country surrounding Giles. The precipitation, according to the government register in this city, was 0.42 inch. The rain that fell, it is stated, will assist materially in maturing some of the later feed crop, and the cotton in some sections will fill out better.

LELIA LAKE

Rev. Smallwood is conducting a revival meeting at the Second Baptist church. Mr. Fagan and family are here from Comanche. Mr. Fagan is leading the singing.

Rev. Millholland of Vernon is conducting a revival at the Church of Christ.

W. V. Alva of Burkburnett is visiting his sister, Mrs. Carol Lewis. Clark Cook of Clarendon was in Lelia Lake Saturday.

Mrs. Guy Taylor and daughter, Miss Vera were in Aleneed last week where Miss Vera signed up for next year school work. They also went on to McLean to visit Mrs. Taylor's sister, Mrs. Kimble.

A. V. Clark and family of Clarendon was down Sunday evening. Arthur Lewis of Ft. Worth is visiting in Lelia Lake this week.

Grandma Leathers of Clarendon has been visiting here and attending the meeting the past week.

Mrs. Malvin Cook and sister, Miss Emma Sherfield visited in Memphis last week.

Mrs. Homer Ellis of Clarendon visited her mother, Mrs. H. D. Burris Tuesday.

A nice shower was appreciated last Friday evening.

GOLDSTON NEWS

There was a large attendance at Sunday School and good interest Sunday.

The new school building is complete and all furniture, books and school supplies were moved Saturday from the old into the new building. Notice has been received that our new furniture has been shipped which will be installed as soon as it arrives.

Clarendon Monument Works

CLARENDON, TEXAS

Phones, 106 and 210.

NEW FORDS

We have just received a carload of the latest model Fords. We were very lucky in getting them. On account of the strike they are very scarce and, if you intend getting a Ford soon you had better see us at once before these are gone. We have no assurance when we will be able to get another car unless the strike is settled. We have a good stock of Ford parts on hand and have 4 skilled workmen who know how to repair your Ford as it should be. We have hundreds of dollars invested in modern machinery and will give you the same high class job you would get should you take your car to the factory for an overhaul. When your car needs repairing bring it to us. We have the parts and the workmen who know how to do the work and we are interested in having your Ford give you service.

Yours for service,

Clarendon Motor Co.
