

SECOND LAP OF BIG RACE ENDS

AT 9 P. M., MONDAY, OCTOBER 10, HONOR ROLL MEANS EXTRA CREDITS

BIG RUSH NOW ON FOR BEST REMAINING OFFER OF EXTRA CREDITS OF ENTIRE CAMPAIGN; ALL CLUB MEMBERS ON TOES.

Honors, glory and extra credits by the hundreds of thousands is what the vital second lap of the big race holds for the live, wide awake members of the News Opportunity Club. An opportunity to pile up extra credits by the hundreds and hundreds of thousands and to get on the roll of honor which in itself means bonus credits is the big feature of this period of the big race.

Near the Close of the Second Lap How They Stand

Below will be found listed in alphabetical order the members of The News Opportunity Club, together with all credits cast and counted for publication up to noon, Wednesday, October 5.

Club Member—	Credits
Mrs. Clyde Atteberry	127,900
Miss Ella Clark	126,800
Mrs. Penelope Ellis	128,000
Miss Vonne Hicks	98,900
Marshall Morris	126,900
Miss Berta Mae Pool	127,750
Miss Oleta Swinburn	126,500
Mrs. Agnes Whitfield	97,900

ONLY 4 DAYS MORE

Of the 100,000 Extra Credit Offer for Each \$20.00 Club.

9 o'Clock Monday Night

IS THE LAST CALL FOR THESE CLUBS

Never again will subscriptions count for as much as they do RIGHT NOW and up to the stroke of 9 on Monday night, October 10, as from now on credits take a tumble and keep tumbling until the close of the big race only two and a half weeks away.

Positively, there is only loss staring you in the face on all subscriptions you hold back and don't turn in before the clock strikes 9 on Monday night, there is nothing to gain by holding back subscriptions for a bigger and better offer of extra credits near the close, for there won't be any better or bigger offer of extra credits; this is the very best remaining offer of extra credits of the campaign and a word to the wise is sufficient.

Get 'em in Now The wide awake club members will take a tip and turn in as often as possible all of their subscription sales, for making a report of your sales today and every day means getting on the Roll of Honor and an additional bonus of 1,000 Extra Credits and the best report each day means the top of the Roll of Honor and an additional 5,000 Extra Credits so in this way it is possible for some club member to earn 6,000 Extra Credits each day.

Only Four More Days There are only four more days left of this big credit offer, 100,000 Extra Credits for each club of \$20.00 worth of subscriptions turned in, and the best part of this offer is that you do not have to turn in \$20.00 at one time in order to get these 100,000 Extra Credits, everything you turn in during the period will count on this 100,000 extra credit offer and there is NO LIMIT to the number of \$20.00 clubs you can turn in, a number of the club members are already planning to double the number of clubs they turned in during the First Period which closed last Monday night, and have adopted as their slogan "A CLUB A DAY" while the Second Period lasts.

Work Now—Motor Later With this opportunity to pile up an unbeatens score of credits under the 100,000 Extra Credit Offer, and the Roll of Honor, you owe it to yourself to make the very utmost of each day—plan now, tonight, for tomorrow's work and pile up the Chrysler winning credits NOW while they are to be had easily.

Wide credits dropping lower and lower from now on there is not any one of those in the race who can afford to falter now, or to rest contentedly on his or her laurels as it is only a matter of a few subscriptions that separate those at the bottom of the list from the leaders. Hit the Ball Now, For Never again will subscriptions have as much power as they do right now, never again will they count as much credits and the only secret of winning is—PLUG, plug, plug!

Hard work today will place for you the top of the Honor Roll, a few subscriptions assure you a place on it, and at the same time you are piling up extra credits at the rate

of 100,000 for each club turned in up to 9 o'clock Monday night.

Remember that Opportunity Club Headquarters in The News office are open until 9 o'clock every night, and should you not be able to make your daily report until after supper, do so then—

But MAKE IT and MAKE IT EVERY DAY.

Mrs. J. D. Swift and Miss Anna Moores spent Friday in Amarillo.

TRUCK CARAVAN TO BE HERE 12TH

PARADE AND DEMONSTRATION OF CHEVROLET TRUCKS TO BE HELD FROM 9:30-10:30.

One of the greatest spectacles seen outside the real of circus parades will be seen here when the Great Chevrolet Truck Caravan rolls into our city. The Sims-Bennett Chevrolet Company has arranged for this truck caravan to spend an hour Wednesday morning, October 12, in Clarendon for the purpose of personally demonstrating the adaptability of their trucks for the present-day demands and to establish a closer relationship between the Chevrolet factory and truck owners.

The Caravan will consist of some 15 trucks, all equipped with the various types of bodies so readily adapted to Chevrolet ton and half-ton trucks. In the Caravan is also represented the leading wholesale and manufacturing companies of products closely allied with the automobile and truck industry.

Messrs. John T. Sims, Jr., and C. W. Bennett, Jr., of the Sims-Bennett Chevrolet Company are going to make Wednesday a real Chevrolet day. The Chevrolet Truck Caravan, accompanied by many local Chevrolet owners and boosters, will parade through the main sections of this city between 9:30 and 10:30 a. m.

From all reports this Caravan will be a thing so novel and so different from anything ever before seen in this city, all equipped with the various types of bodies so readily adapted to Chevrolet ton and half-ton trucks.

O. L. FINK LEAVES ON TRIP TO NEBRASKA AND IOWA

O. L. Fink left Tuesday noon on a 30 day business trip to Nebraska and Iowa. He spent his boyhood and early manhood in Nebraska and has many relatives in that state and Iowa with whom he will visit before his return to Clarendon. His business interests in that section of the country are agricultural.

O. C. Hartzo was a business visitor in Shamrock Tuesday.

BAPTIST REVIVAL CLOSED SUNDAY

INTEREST AT ITS HEIGHT AS TWO WEEKS' MEETING ENDS; 15 ADDITIONS MADE.

The attendance was noticeably better at both morning and evening services of the Baptist meeting during the last several days of the revival, and as the meeting drew to a close interest was still growing. In the course of the meeting the Reverend L. C. Bauer delivered most excellent sermons—some of the best that have been heard in Clarendon. His sermon, "The Second Coming of Christ," which he delivered Sunday afternoon to a large crowd, was exceptionally good. The wealth of historical fact which the Reverend Bauer has at his command adds greatly to the interest of his talks, and a very pleasing personality has made him immensely popular with the people of this city.

Much credit for the success of the meeting is due T. D. Carroll, evangelist song leader who was in charge of the musical part of the services. His solos were especially effective. The choir and congregational singing was good, and the regular church orchestra was at its best throughout the meeting.

Fifteen members were added to the church roll. Lay leaders of the Baptist Church feel, however, that this was only a small part of the good results of the revival meeting—that an increased sense of duty in older members of the congregation and in others who attended the services will be of great permanent value, also.

D. H. Arnold of Memphis, affectionately known to many people of Clarendon as "Uncle Henry" was in this city Saturday to attend to business matters and took that opportunity for brief visits with a number of friends. Mr. Arnold is very prominent in Masonic circles in the Panhandle and is one of the most beloved members of the fraternity.

TOURNEY PRIZE AWARDS READY

WINNERS OF PRIZES IN ANY SECTION MAY TAKE AWARD AT ANY TIME.

With the closing of the annual tourney of the Hillcroft Golf Club, the prizes have been awarded and are now ready for presentation at any time the players wish to call for them. The committee met early this week and put the prizes where they will do the most good and stated that the donors were ready to present the prizes when the winners chose to call for them.

As was stated last week, Lee Casey was the winner of the first prize of a 60-day pass to the Pastime Theater. Second prize was awarded to Walter Wilson and consists of \$12.50 in merchandise at the H. C. Kerbow & Sons Hardware Store and \$2.50 in cash from Powell & Patman's Insurance Agency. A. N. Wood was presented with the third prize, which was made up of \$12.50 in merchandise from the Rex-all Store and a year's subscription to The Clarendon News. Holman Kennedy was the winner of the fourth prize which was \$12.50 in merchandise from the H. W. Taylor & Sons Hardware Store.

Four fifth prizes were awarded as follows: Lenode Goldston, \$5.00 in trade from the Clarendon Steam Laundry; Robert Weatherly, Sr., \$5.00 in trade from the A. N. Wood Grocery; P. B. Gentry, \$5.00 in trade from the V. A. Kent Insurance Agency; T. M. Shaver, \$5.00 in trade at the Pastime Confectionery.

Special prizes were also offered and were awarded as follows: For the lowest medal score, sweater from Hanna-Pops & Company, won by V. A. Kent with a score of 77. Second low medal score, \$2.50 in merchandise from Bryan-Miller & Company, won by Robert Weatherly, Jr. The prize for the longest drive was won by A. N. Wood and consisted of \$2.50 in trade at the Bon Ton Confectionery.

CLIFFORD BUYS PARTNER'S INTEREST—SELLS IT TO RAY

Changes in the firm of Clifford and Wilkerson, grocers, were effected this week by Mr. Clifford purchasing the Wilkerson interest in all accounts, stock and fixtures. Another deal followed in which Mr. Clifford sold the half interest in the stock and fixtures to W. E. Ray, who has been in the employ of the firm for a long time.

Mr. Wilkerson will remain with the new firm of Clifford and Ray for some time, and as yet has announced no plans for the future. The policies of the new firm will continue along the lines followed by its predecessor.

Miss Sybil Smallwood of Amarillo was the guest of Miss Dewey Meacham last weekend.

Lyceum Concert Well Received

The concert given by the Artells Dickson Company Tuesday evening, as the first lyceum program of the season was one of the most entertaining shows that has been given in Clarendon in many moons. A desire to entertain, rather than to demonstrate an unusual skill, marked the performance of the three artists, which fact alone would have made the program refreshing.

The concert company includes Artells Dickson, baritone; his wife, Martha Dickson, pianist and accompanist, and Miss Lucille Stoneleigh, violinist. Mr. Dickson has a very fine voice and sings with an unusual ease. His dialect songs, principally Scotch and negro, were among the most enjoyed numbers of the program. His character readings were good. Mrs. Dickson is an accomplished pianist, with an unusual ability as an accompanist. She received most generous applause as she played a number of her own adaptations of negro spirituals. Miss Stoneleigh, however, was the whole show throughout the first half of the program. She pours a wealth of rhythmic music and her technique is admirable. Her stage personality is very pleasing.

Special lighting effects, colorful costumes, and happy arrangement of the whole made the concert highly entertaining from the first note to the last. The Scotch songs, in which all three artists wore authentic costumes, were perhaps the most popular numbers of the evening. The pleasingly varied program included, also, arias, ballads, piano solos, violin solos, pianologues, and short readings.

DISTRICT COURT OPENS HERE 17TH

DOCKET MAY BE LIGHT FOLLOWING WEEK'S SESSION; WEEK'S JURY COMPLETE.

While the docket for the regular session of District Court opening Monday, October 17, is not yet complete, court officials are of the opinion that it will not be a heavy one. A recent special session of a week disposed of a number of rather heavy cases, making the regular session considerably lighter.

The list of the jury for the first week of court is complete and is as follows: J. O. Wood, J. D. Carpenter, T. E. Bailey, A. A. Cooper, R. I. McGowan, John Stewart, Ray Doherty, W. C. McDonald, R. F. Wiedman, H. W. Linder, W. A. Wilson, J. M. Camp, R. L. Duckworth, Van Kennedy, R. E. Bailey, J. C. Helton, W. C. Brinson, W. H. Huffman, O. C. Hill, Jr., Earl Alexander, S. L. Dodson, L. A. Dunn, G. F. Keener, Odos Caraway, John H. Clark, C. W. Bain, M. A. Grimes, Frank Hardin, S. J. Ayer, R. S. Moss, J. Boston, Watt Hardin, R. B. Alexander, R. F. Jones, J. H. McAdams and J. K. Caldwell.

Lon Simmons, Jr., Shot At Giles Last Sunday

Phone messages to Clarendon this morning stated that the condition of Lon Simmons, Jr., nineteen year old son of Mr. and Mrs. Lon Simmons, who was shot at Giles Sunday morning, was much improved and that physicians in attendance thought the boy on the road to recovery. Little hope for his recovery had been entertained until Wednesday, as the bullet passed through the stomach and the liver, coming out through the back.

Young Simmons was called from a store in Giles, and after a few minutes talk with A. Huffmaster, depot agent at Giles, was shot. He was rushed to a Memphis hospital. Huffmaster was placed under \$3,500 bond. He has made no statement regarding the matter, according to information received from the office of Sheriff Pierce.

DIRT BROKEN FOR PUMPING STATION EARLY THIS WEEK

The first hint of work on the new pumping station for the city of Clarendon was started Monday of this week by Speed Brothers, who were recently awarded the contract for the erection of this building. Work will be rushed on this building that the structure will be ready for use before the cold weather of the winter sets in. The building as planned will be quite a decorative bit of work and will add beauty to the part of town it will grace. The finish is to be in a textile faced brick and is calculated to be one of the most complete plants of this nature in this part of the state.

Mrs. G. B. Bagby and Mrs. James Trent spent Monday in Amarillo.

ALL COMMUNITIES URGED TO EXHIBIT

PRESIDENT OF C. OF C. ASKS CO-OPERATION OF ENTIRE COUNTY IN STAGING FAIR.

Practically every community in Donley County will have an exhibit of agricultural and home products on display when the Donley County Free Fair opens in Clarendon on Friday, October 14. Home Demonstration Clubs and Four H Clubs will also have their special booths and exhibits. Great care is being given to collecting the best material to be found in each community, as exhibitors feel that the Fair offers an unequalled opportunity for proving to the citizens of this county and others what can be produced in the various sections of Donley.

J. T. Patman, President of the Clarendon Chamber of Commerce; Miss Eula Key, Home Demonstration Agent, and Secretary Boykin urge that all communities and clubs that have not yet arranged for an exhibit begin at once on plans. It is not yet too late to make up a prize winning booth, or at least to assist in making this great project a real success. Every member of every community should co-operate with others to bring a creditable exhibit to the Fair, say Chamber of Commerce members and others who are taking an active part in the work. Above everything else, they say, the several communities and clubs should co-operate with one another in creating a Fair that will result in good to the entire county. The following item was received this week from the office of the President of the Chamber of Commerce:

"Less than ten days now until our County Fair. The Chamber of Commerce officials are working hard to make a success of this free fair. The thing that confronts us now is to get the folks to bring in their products. We should strive harder than ever to make a good showing this year. For the propaganda has gone out over the country that Donley County has made a failure on account of the drought. While part of the county has been hit, yet in the worst district there is a lot of good stuff, and other parts of the county have as good crops as they ever had. It's a big job for us to get out and find the best stuff, but you know what you have and if you will be interested enough in your County Fair to bring it in, we will show not only our home folks but to others that old Donley County is still the banner county of the Panhandle. Especially do we urge the club girls and women over the county to exhibit their products and help make a great success of this fair."

BUSINESS MEN TO HELP EXHIBITORS

NUMBER OF HOUSES TO TURN WINDOWS TO USE FOR INDIVIDUAL FARMS.

The Secretary of the Chamber of Commerce has been busy all this week with the completion of the plans for the Donley County Free Fair that is to be held here Friday and Saturday of next week in the old school building at the foot of the business district in the city. Many business men have been seen at the Chamber of Commerce since their feeling that the individual farmers of the county should be given their due share of attention and that they will be glad to give a window for the display of the products of one farm. In addition to this, many merchants have taken advantage of the booths offered for their use by the Fair and will have exhibits of various nature placed where those visiting can look them over at their leisure. There are some spaces left for the asking and they will gladly be given any merchants who will decorate them and have some sort of a display in place there.

The special prize list that was published the fore part of last week in the catalog is not closed, but remains open for any person who would like to offer some prize for the upbuilding of the Fair and the proper advertisement of the county and its products.

Community exhibits are to be brought here from various parts of the county and this section of the Fair promises to be one of the best that has ever been shown here. The work of the clubs of the county will also be shown to a great advantage and it is thought that competition will be very keen in this department of the Fair. The prizes offered for floral exhibits will also do much to attract a fine showing in this part of the Fair.

Almost every one is planning to make the Fair dates big days for the city and all the eyes of the county are looking this direction for the days of the show here. Make your plans to be in Clarendon on one of the days of the Fair.

New Casing for A. T. on the Road

A carload of new casing for the A. T. well is on the road and drilling operations will be renewed the first of next week, according to information received from leading promoters of the Donley County wildcat. Interest in the enterprise was greatly increased by the favorable developments in the area south of Pampa last week. It is felt that the bringing in of the heavy producer, Danciger No. 1 Jackson, on Saturday and the more recent discovery of good showings in wells in the same area definitely settle the question of the extent of the major axis. Drillers and other promoters of the A. T. project say they feel more than ever assured that their well is located above big pay.

MOSS BUILDING TAKING SHAPE AT HANDS OF BUILDING CREW

The building that is to be completed in a short time in the rear of the Farmers State Bank for R. S. Moss is nearing a place where the general outlines of the building can be seen. The face brick has been received and will be applied this week as far as it is needed to bring this stage of the work to a completed place. A good part of the brick work is completed and the carpenters have been engaged this week in placing the interior partitions and other parts to allow for the fast completion of the outor walls.

BULLDOGS TO PLAY WAYLAND OCT. 8

CLASH BETWEEN JUNIOR COLLEGES PROMISES INTERESTING EVENT FOR FANS.

The struggle between the Jackrabbits of Wayland College and Bulldogs will be renewed Saturday, the 8th, in the first game to be played since the establishment of Clarendon Junior College; and in view of the fact that this is the first opportunity the new Bulldog team has had to try their teeth on the same aggressive spirit as of old. The Bulldogs, however, offer a mean opposition, and the game promises to be hard fought from whistle to whistle. Clarendon fans will be out en masse to see the Junior College team in their first, regular game.

The dope has it that the Clarendon team are the under dogs in the coming contest. Coach Frank Kimbro is bringing a strong, fast team, composed of the same aggressive spirit as of old. The Bulldogs, however, offer a mean opposition, and the game promises to be hard fought from whistle to whistle. Clarendon fans will be out en masse to see the Junior College team in their first, regular game.

Fall Work Started By MacDowell Club

Reorganization of the MacDowell Choral Club was completed last week and the first regular practice of the new season was held Monday evening in the home of Mrs. J. L. McMurry. Miss Ruth Dennison, the new director of the Club, took charge at this meeting, receiving a splendid response from the membership. She is heart of the Department of Public School Music in the city schools and is well qualified for the work of a director. The members feel the greatest enthusiasm over the year's work and are now making plans for a number of concerts for the near future. The present enrollment of the Club is about 30 and includes a number of new members.

A. C. HALLMARK MANAGER SHAMROCK ELECTRIC CO.

A. C. Hallmark has been promoted to the office of manager of the Shamrock branch of the Central Power and Light Company, succeeding S. T. Buster, who goes to Wellington. Mr. Hallmark has been with the local Central Power and Light Company for the past three years and at the time of his promotion was plant superintendent. Shamrock with its rapidly increasing population is one of the greatest fields for expansion which the public utilities company holds in the Panhandle territory. Mr. Hallmark is to be congratulated upon his appointment to this position of responsibility.

Mr. and Mrs. Hallmark moved to Shamrock the latter part of last week. While wishing them the greatest success in their new home, their many friends here regret losing them as fellow citizens. Mr. Hallmark has been a leader in Boy Scout work in Clarendon during the past year.

Mr. and Mrs. A. N. Wood and family drove to Amberst Saturday night and spent Sunday in the home of Mr. and Mrs. J. H. Woods. Mrs. J. H. Woods is very seriously ill.

LOCAL ELECTRIC COMPANY SOLD

CENTRAL POWER & LIGHT CO. SELLS PROPERTY TO WEST TEXAS UTILITIES.

The Clarendon branch of the Central Power and Light Company, together with all other Panhandle property of the Company, has been transferred to the West Texas Utilities Company. Auditors and other division officials whose work is necessarily involved in the turning over of the property are now at work in this district and will probably be in Clarendon today or tomorrow, said Manager Monty Garrison.

So far as it is now known, there will be no radical changes in the working force of this district. Judge George W. Fry of Abilene is General Manager of the West Texas Utilities Company. The head office of the division will henceforth be at Abilene, instead of at San Antonio, as formerly it was.

The following item relative to the transfer of the properties was found in the daily press of Monday. Changes by the West Texas Utilities Company took over direct control of several other concerns in West Texas, announced today in Austin, were made partly to simplify the corporate structure and to enlarge the company, a statement from George W. Fry, president, said today.

The various operating properties involved have been under the control of the West Texas Utilities Company, the Central Power and Light Company and the Texas Plains Public Service Company, both affiliated organizations. Properties involved were Cisco Ice Company, Abilene Ice Company, West Texas Ice Company, and San Angelo Water, Light and Power Company, Quannah Light and Ice Company, and systems of the Central Power and Light Company, Memphis, Childress, Vernon, Wellington, Shamrock, Estelline and Kirkland.

GAS LOOPS ARE SPREADING OUT

OUTER PORTIONS OF CITY ARE BEING CUT WITH DITCHES TO RECEIVE SERVICE.

The ditching machine of the gas company has been making good progress for the past few days and the parts of the town farthest from the business section are receiving much attention from the hands of the piping and welding crews. The pipe is being scattered all over the city and the ditcher is keeping in close touch with the crews as the pipe is scattered.

The crew that is cutting the holes underneath the pavements of the city are finding their work cut out for them and none of them are enjoying it in the least. Some places there have been as many as two holes put underneath the pavement before the connection has been made and the work completed.

The welding crews are following closely on the completion of the ditches and in many parts of the town the pipe has been completed and welded into place, ready for the final tests. A small part of the line has been completed, and other parts will be cut in the near future that the downtown loops will be ready for service in a short time.

The crew working on the line from near Memphis to Clarendon is making good progress due to the good weather that has been in effect since the start of the line. At last account they were making their required portion of the line per day and it is thought that the ditcher will be used in the city when the line has been completed.

The sale of gas stoves in the city is on the increase and many business houses are being piped ready to receive service from the gas company when they land in the city with their utility.

PART OF CONCRETE POURED FOR NEW POWER BUILDING

Pouring on the bases for the walls of the power plant for the Central Power and Light Company was started Monday of this week after the previous time had been taken up in making the forms and all other appurtenances needed for the construction of the building. Steel reinforcement and for the bases has been unloaded and on the ground for some time, and a part of the reinforcement work has been completed that the bases might be started. All the preliminary work has been completed, and the actual work on the walls of the building will probably be started the latter part of this week.

Mr. and Mrs. Tom C. Connolly of Amarillo are spending the week here with the former's parents, Mr. and Mrs. Tom F. Connolly.

THE CLARENDON NEWS

Entered as second-class matter November 3, 1909, at the post office at Clarendon, Texas, under the act of March 3, 1879.

Published Thursday of Each Week.

NOTICE—Any erroneous reflections upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the publisher.

Not long now, until the Donley County Fair, which holds two days, Friday and Saturday, October 14-15.

The reason we believe Pittsburgh will win the World's Series is the same reason any other fan has—we picked our favorites and want them to win.

Next week is Fire Prevention Week. Let us give thought to this from a personal standpoint. If each of us will exercise care that preventable fires be eliminated on our own premises then the fire demon will be beaten. It is a personal matter.

Consideration of a properly located and well equipped city park continues to receive attention among Clarendon people. It is a most worthy question and The News hopes some one will be able to advance a plan which will receive general support. Clarendon ought to have a city park. She ought to get it before steady development forces its location still further from the center of population. Delays are costly.

Observers are revising their estimates of the cotton to be ginned at Clarendon, and the revision is upward. Some who thought we would gin only a thousand bales now say we may approach two thousand. The News doesn't know any more about it than any other observer, but we have noticed that we always exceed the figures that we forecast at this time of the year. We believe on that basis that we will run nearer twenty-five hundred bales here than two thousand. If true, we'll all feel better.

Clarendon citizens are most fortunate in their present city administration. We are further fortunate in a general state of mind that will allow the commission to make improvements and extensions, which they deem necessary to the best welfare and growth of our city. Mayor Taylor and Commissioners Chase and Sims are doing a monumental work for Clarendon and The News desires to be listed among those who believe in scattering the flowers while the bloom of health wreaths the brow and before the cold hand of death has been stretched forth in a silent beckoning. Flowers for the living—and doing.

Our city is becoming known as one of the best trading points in this section. Clarendon merchants are going after volume in their respective lines and are conducting their business on a very small margin of profit, giving the benefit to the trade. Despite the reduction in cotton acreage, it now seems that we will have one of the best fall businesses that our town has ever known. More people live in our trade territory, there is less indebtedness, and good prices for cotton and grains, coupled with low prices for merchandise, means lots of business in Clarendon through the fall season. Save money by trading in Clarendon.

The News is most fortunate in the high class members of our Opportunity Club, who are being so successful in adding hundreds of new readers to our subscription list. Mr. Scofield of the American Circulation Service, a Texas concern, is putting over one of the most satisfactory campaigns for new subscribers that we have ever known of, and his success is largely due to the splendid personnel of the solicitors. Recently another certain weekly in the Panhandle threatened The News' leadership in circulation. When our Opportunity Campaign closes on October 22, The Clarendon News will be well beyond any threat, and we will have accomplished our aim and be in position to give our readers and our advertisers greater service than ever.

FIRE PREVENTION PROTECTS YOUR PROPERTY AND FAMILY

Last year over \$1,00 worth of property was burned every minute.

Clean property seldom burns—do away with rubbish and junk.

Careless smokers burned \$30,000,000 worth of property last year.

Keep matches in metal boxes where children cannot reach them.

Don't keep ashes in wooden boxes or deposit them against wooden buildings or partitions.

Don't change your electric wiring without consulting a competent electrician.

Don't hang electric light cords on nails.

Be careful with electric flat irons and always use with signal light.

Use metal protection under all stoves and protect woodwork where stoves or furnaces are close to walls.

Don't pass stove pipes through ceiling, roofs or wooden partitions.

Have all flues cleaned, examined and repaired at least once each year.

Every open fireplace should have a screen.

Don't connect gas stoves, heaters or hot plates with rubber hose.

Don't use gasoline or benzene to cleanse clothing near an open flame, light or fire. Use non-inflammable cleaner.

Don't use kerosene, benzene or naphtha in lighting fires or to quicken a slow fire.

Don't use liquid polishes near open lights. Many such compounds contain volatile inflammable oils.

Don't go into closets with lighted matches or candles.

Remember that there is always danger in the discarded cigarette and cigar stub.

THE SOLDIERS—THEY KNOW

"If ever you are needed for peace and liberty, and you cry out to the world, 'Together and forward!' there isn't a Frenchman who wouldn't respond."

It was Foch speaking to the men of the American Legion in Paris, sounding a note we had been waiting to hear, dispelling clouds above international amity, setting up a memorable declaration of friendship.

It was Foch, speaking among soldiers. And the soldiers know! The soldiers know that what he spoke is iron-bound truth, often hidden away in a corner of the soldier heart, but invariably there. Foch, we believe, spoke from that corner of his soldier heart.

There is a bond of humanity among soldiers that one who never has shouldered arms, one who never has gone "out there" to shake hands with death, doesn't quite understand.

It is not that France should help us because we have helped France. That consideration is too small. The bond is the great human feeling of men who have eluded death together, who have felt the icy hand upon their shoulders and, together, rushed from beneath it.

Let us pray that America never need call "Together and forward!" Pray, too, that America never forget that should the day for the call come there would be thousands of eager ears to hear it.—Wichita Falls Times.

BROTHER BEVILLE ROMPS ON NEWS EDITOR FOR McADOO JIBE

"McAdoo says he is not a candidate for the Democratic nomination. Most of us have known that for several years."

The above short editorial appeared in the Clarendon News September 29, 1927. Just why the editor wanted to take this unkindly "dig" at one of the greatest men, not only of the Democratic party, but outstanding as one of the great men of our nation, is more than I can understand. As to "most of us knowing that for several years" seems an assumption without facts to sustain. The fact is that at the Democratic convention at New York in 1924 for every ballot before that convention, while his name was before the convention, he led with a large majority of the votes of the convention and but for the two-thirds majority regulation would have been the standard bearer of our party. Doubtless if he had not eliminated himself he would again have led as before for the 1928 nomination, for he is the outstanding advocate of the maintenance and strict enforcement of the National Prohibition Amendment, as I trust and believe a majority of the party believes. I recall, that as a great outstanding American, it was he as secretary of our national treasury, who conceived and put into execution the Liberty Loan drives which financed our participation in the world war; likewise, the system of insurance for our soldier boys and the Federal Reserve Banking System, which has been declared to be the most constructive, beneficial piece of legislation of the past century and take it for granted that despite the above editorial "dig" the place of William Gibbs McAdoo in American history is firmly fixed beside that of Woodrow Wilson and others whom we delight to honor.

The editor in the same issue of above editorial boasts of his correct guess in the recent great fifth encounter as also in Dixie baseball series. We await his next guess to really see "what kind of a prophet

he is." As I recall it, he was not as good a political prophet in 1912 or 1924, for in both of these years Texas lined up solidly behind Woodrow Wilson and William Gibbs McAdoo and I feel sure will be solidly behind an outstanding dry Democrat like William Gibbs McAdoo in 1928 and to the consummation of which I especially appeal to the dry Democrats of Donley County to now put themselves upon the political battle line and not permit our party to be dominated by the outlawed whiskey traffic.

Sincerely,
A. M. BEVILLE, SR.
Sprized at you, Bro. Beville, being an old time editor, and now wanting to curtail a lowly wielder of the pen from what little fun he might have in his own column. Many Texas Democrats feel that our delegation at the last national convention overlooked a golden opportunity after the first few ballots to lead in a movement that would unify Democracy behind some new leadership, of which the party is evidently in dire need. We hope our next delegation will be possessed with more judgment, if their man cannot develop sufficient strength. In an editorial many weeks ago we said that Southern Democrats would never support Smith on account of his prohibition views. Frankly, this writer would bolt the ticket before he would support a man for the presidency whose record as a governor proves him to be a man unwilling to support the eighteenth amendment. We contend that there are many other men in the Democratic party as good or better prohibitionists than McAdoo, who would save the party the dangers of his leadership, and who would have at least the possibility of winning. There are prohibitionists and there are prohibitionists. We cannot follow the leadership of the house that gave executive veto to the national prohibition law. We join you, Brother Beville, in continuing to ask Democracy, locally and elsewhere, to follow only the leadership of those who will not compromise or temporize with the prohibition question.

COLLEGE PAPER IS NAMED FOR SHOCK RECORDING MACHINE

The Seismograph is the name of the paper that will be published each two weeks by the students of Clarendon Junior College and High School. For the first two issues of the paper, it was run under the name of that famous unknown "X," and the name was chosen after much deliberation and thought over those handed in by the students of the school. First thought was to name the paper "The Semiphore," using the semi for the reason that it might be only a half signal. The editorial staff of the paper stated that inasmuch as the Seismograph registers disturbances and their location, so does the paper intend to register the rumblings and disturbances that take place on the campus of the Clarendon Junior College and High School. The paper will be handled by Robert Dillard as business manager and Sam P. Braswell as editor-in-chief.

IRA MERCHANT ACQUIRES INTEREST IN KENT AGENCY

A business transaction was completed the latter part of last week whereby Ira Merchant became partner in the V. A. Kent insurance agency. The business will continue under the old name and will be managed by Messrs. Kent and Merchant jointly. The arrangement became effective October 1.

Texaco Gas and Oils

In various parts of the country "special" or premium gasolines are sold—"high test," for instance, to give easy starting—"benzol blends" to reduce knocking—"commercial gas" to produce more power. Note that each of these fuels is a special preparation for a special purpose.

Not until the advent of the new and better Texaco Gasoline, made possible by the Holmes-Manley Process, has there been a gasoline with all these desirable qualities in one.

The new Texaco Gasoline has the good qualities of any gasoline, or motor fuel, regardless of price.

What It Does

(1) It gives you a quick start

On account of the low initial boiling point, and high percentage of the volatile fractions which vaporize quickly in a cold engine.

(2) It gives you a quicker pick-up

Because of its higher volatility and low end point, it forms a dry gas in the manifold which feeds evenly to the cylinders and avoids flooding.

(3) It gives you more miles per gallon

Because it works best on a leaner mixture—more air, less gas. This insures fuel economy that shows itself in more miles per gallon.

(4) It gives you relief from carbon or spark knock

Because it has anti-knock qualities and smooth combustion characteristics tempered to engine needs.

(5) It gives you better lubrication

Gasolines with heavy ends do not vaporize and burn completely. They dilute the crankcase oil because the liquid gasoline cuts the oil film and seeps past the piston rings.

The new Texaco Gasoline leaves no heavy ends. It forms a dry gas. It burns completely. It does not flood the cylinders. All this means less crankcase dilution, hence better lubrication.

(6) It contains no dopes or poisons

It is a pure, unadulterated gasoline, produced from selected crude oil.

ROAD SERVICE—WASHING and GREASING
Everything for the Auto

DOES BREEDING TELL?

By F. W. Karmeyer, Bryan, Texas.

The question of making a living is taking on a more serious outlook every year. Each year there are more people in the world that must be fed. Everybody eats eggs and chickens, the consuming public will some day eat more eggs and chickens. These facts only help bring out the fact that a good flock of chickens is a necessity, and can readily be looked upon as a source of great income.

At this time of the year, let us take a good look at your flock of chickens, let us see what we can find.

Do you keep mongrel chickens, duke's mixture, all kinds, all sizes, all ages, all types, all colors, so-called just eating or crazy quilt chickens? Ask yourself that question. Go out and count them; find out how many you have.

Last week we made a trip through East Texas, from Huntsville to Groveton, Trinity, Lufkin, Nacogdoches, Timpson, San Augustine, Jasper, Kirbyville, Beaumont, Dayton and Houston. I took particular interest and note of the kind of chickens. I wanted to get first-hand information on just what relationship exists between standard bred or so-called purebred chickens and mixed breeds or mongrels.

I am more convinced than ever that a large number of people still believe in mixed chickens. We have tried to reason out why so many people want to waste time with mongrel chickens. We have tried to look at it from their viewpoint, but are at a loss to even begin to understand.

We cannot find one good reason or justification for the flocks of mongrel hens on the farm.

The Mongrel Flock

1. Are poor layers, as an average producing less than 100 eggs in a year.

2. They eat just as much feed as purebred chickens.

3. They require just as much room and just as good care.

4. Good feed is money wasted, when fed to a flock of mongrel, mixed or nondescript fowls.

5. Good care is time wasted when devoted to a duke's mixture flock of chickens.

What kind of breeding do they have? Answer, nobody knows, they come and go by accident. Their parents or ancestors are no good; how can the offspring be much better?

6. They are unsightly, because they are mixed in color and type.

7. They produce a mixed lot of eggs, bringing an inferior price upon the market.

8. You cannot enter them in a poultry show, because no poultry show management will tolerate them. If you try, you will find you cannot even name them.

9. As a general rule they are of a lowered vitality and sickly.

10. They are all ages, most of them too old to be able to get into nest boxes.

11. Mongrel hens lay most of their few eggs in Spring and early Summer when eggs are cheap.

12. You cannot sell any for breeding purposes, because nobody wants them.

13. They are bred for speed, rather than egg-production.

14. They are a money losing proposition under even the most favorable conditions.

15. Why don't you enter some of your mongrel flocks at your fair or in an egg-laying contest?

16. Why is the average owner of

a mongrel flock ashamed of them? Why does he lack pride in such a flock?

The Purebred Flock

1. A flock of purebred hens, especially from a trapnested strain, will produce from 140 to 180 eggs per hen per year. The production over 100 eggs per hen per year is profit.

2. They produce large eggs of uniform color and size, that command a premium in price. A premium of five cents per dozen for such eggs is easily available to every producer. Figuring on an average production of 12 dozen eggs per hen per year, this is an extra profit of 60 cents per hen each year.

3. The purebred hen is bred for egg-production and meat production. She is a profitable meat producer. Her carcass makes a neater appearance on the table.

4. Her products are in greater demand by the consuming public.

5. Because of uniformity, her product is marketed more readily, the product permits of pooling and marketing in large quantities.

6. She is bred to produce eggs economically, for the lowest consumption of feed.

7. Purebred stock is eligible to be entered at fairs, poultry shows and egg-laying contests.

8. Purebred flocks are a source of continual pride to the owner.

9. They require no more house room than a flock of mongrel hens.

10. They are bred for constitutional vigor, health and stamina.

11. Purebred flocks, fed a good feed, cannot help but produce a profit. They are bred for that purpose.

12. They respond to good care and attention.

13. They are bred for a purpose and along definite lines, so they will reproduce their characteristics in the offspring. You know what you have and what you are going to get.

14. Purebred flocks create a demand for breeding stock—eggs for hatching and baby chicks.

15. They are bred for the useful as well as beautiful.

16. Why is the owner of a purebred flock always proud to show them?

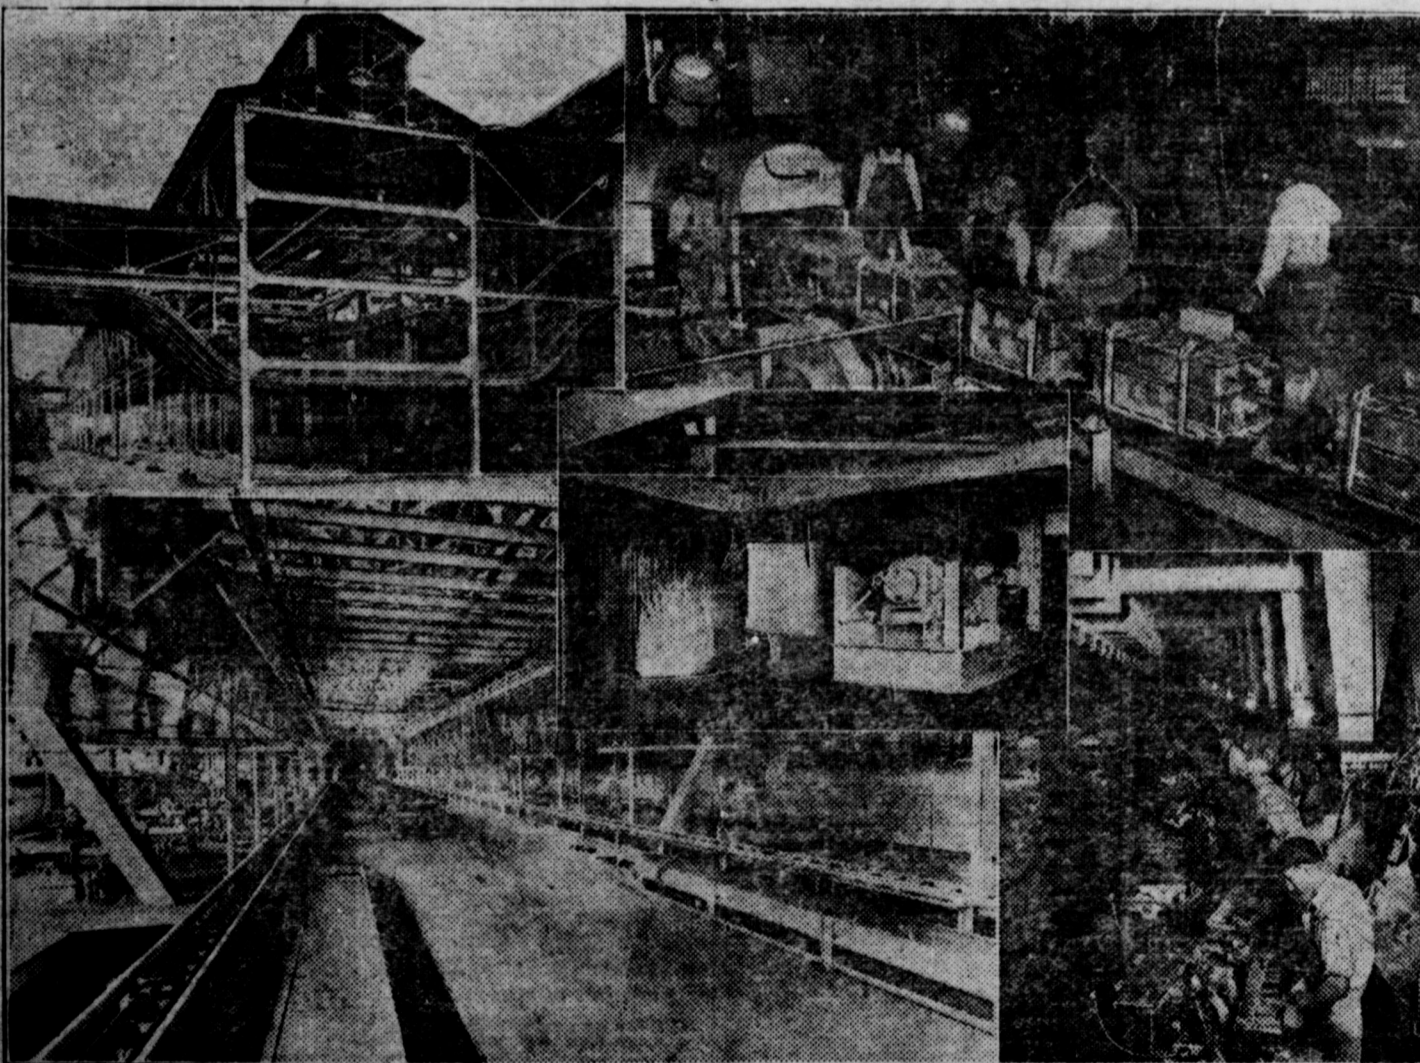

17. They produce a large number of their eggs in the Fall and Winter when eggs bring a good price.

FEED FOR THE DAIRY COW

Timothy hay and hays poor in quality are low in food value and deficient in minerals. The feeding of liberal amounts of a proper grain mixture and silage with such hays supplies deficient food nutrients. Such a ration, however, will still be deficient in minerals, which are required in liberal amounts, for milk production. Of the minerals needed calcium and phosphorus are of most importance. A lack of these in the feed may seriously lower production, especially of high producing cows. Phosphorus is plentiful in wheat bran, cotton seed meal, and linseed oil meal. If one or more of these feeds constitute one-fourth to one-third of the grain ration by weight, plenty of phosphorus will be supplied. Calcium or lime is much more abundant in well cured legume hays than in timothy. If a good quality of legume hay is fed, plenty of calcium will be supplied. There is a general agreement that the best results in mineral feeding are obtained by feeding well cured legume hay, although the feeding of calcium in the form of bone meal or ground limestone added to the grain ration to supply the lime deficiency has been recommended.

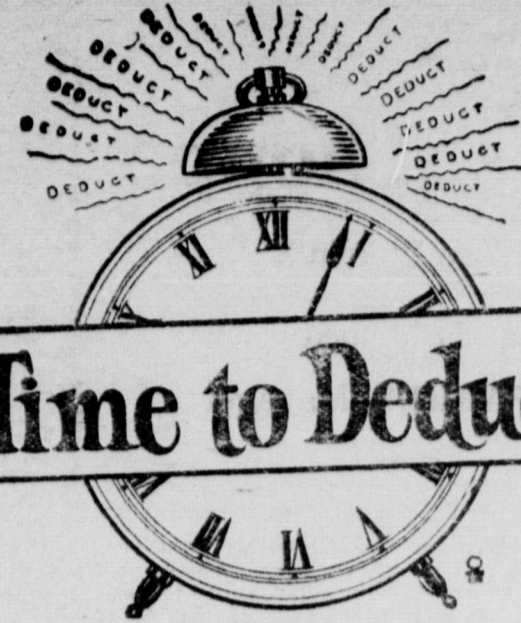

Grain should be fed to high-producing cows under all pasture conditions.

Within New Buick Foundry—Most Modern in World

Lower Left: Aisle in main building showing central conveyor which brings cores from core room in distance. On either side are mold conveyors on which core and flask are assembled. These lines move toward foreground of picture, where pouring occurs.
Upper Right: Pouring engine castings. Note that workmen merely guide operations, ladles being suspended from electric hoists running on monorails above. Two big ladles, on electric overhead trucks which brought them from cupolas, may be seen in background. The pouring workmen are on a moving platform which keeps pace with the conveyor carrying the flasks. Note the conveyor entering steel hood which shields the room from the castings' blinding heat and gas after pouring.

Upper Left: The maze of cooling conveyor which "kills time" between foundry and cleaning plant, giving hot castings time to cool before they are handled. It doubles back and forth, huge castings hanging from it every few feet. With the portion inside the building, it is $4\frac{1}{2}$ miles long.
Lower Right: Core making with modern pneumatic equipment. Core sand is delivered to the benches automatically by conveyor, and finished cores are carried to core ovens and thence to core assembly by conveyor racks at left.
Center Inset: The six big cupolas are charged mechanically, as seen here. The hoist at right hauls loaded bucket up from loading platform below, pushes it into the cupola, and dumps it.

MINE?

Announcing The Opening of Parker's Shoppe

in the Latson Building.

Music, Gifts, and Stamped Goods.

MRS. L. C. PARKER, Manager

"As a broad conclusion," says W. B. Greeley, head of the Forest Service in the U. S. Department of Agriculture, "the forest service has tremendous faith in the commercial promise of timber growing to American land owners. The law of supply and demand is working steadily to create timber values which in large portions of the United States will pay fair returns on forestry as a business. The economic history of other countries which have passed through a cycle of virgin forest depletion similar to that which the United States is now traversing points to the same inevitable conclusion. The time is fast approaching when forestry and forestry alone, will supply the enormous quantities of wood demanded by American markets."

As checks upon big floods, forestry and its allied forms of natural storage take secondary place. Immediate relief must be sought through the skill of the engineer. But behind and supplementing the levees or other structures that must be built we get back to the land. And we should not fail to restore, as far as it may be done, the natural storage and protection from erosion that may be derived from fire-free forests and other practical correctives in our every-day use of land.

Trees slightly damaged by field mice will usually recover soon if the injured parts are completely covered by mounding up soil around the bases, or if paint or other material is used to prevent the wounds from drying out. When the injury is severe or the trees are entirely girdled, bridge-grafting should be resorted to.

"INSIDE" INFORMATION

As veal chops have much less fat in proportion to lean meat than other chops, they are likely to dry out considerably in cooking unless protected by a coating of egg and bread crumbs. This is the reason for serving veal chops and cutlet "breaded."

Veal will stand a little more seasoning than other meats. Before cooking, season with a few drops of lemon juice, a little Worcestershire sauce, and onion juice, as well as salt and pepper.

Apple sauce, as well as stewed prunes, apricots and other fruits which have a pronounced flavor when cooked, makes a good dessert called "snow" or "float," combined with a stiffly beaten egg whites — half a cup of sauce per egg.

There is no foundation for the widespread notion that fish is particularly valuable as a brain food. The idea seems to have originally gained headway because fish was supposed to contain relatively large proportions of phosphorus. There is, however, no experimental evidence to warrant the assumption that phosphorus is any more essential to the brain than nitrogen, potassium or any other element that occurs in its tissues. Various other foods furnish a higher proportion of phosphorus than fish.

ORDINARY, SENSIBLE CITIZENS MUST REDUCE FIRE WASTE

Every year, fire, in this country, burns property worth over half a billion dollars. In addition to this direct loss, the much greater loss caused indirectly by unemployment resulting from destruction of plants, loss of profits and good will which comes from interruption of business. It is impossible to compute the increased loss caused by these indirect agencies, but it would be safe to say the total is brought to well over a billion dollars a year.

Think what this sum of money would mean if used for schools, roads, or what may be closer to the heart, if it were used for governmental purposes and taxes lowered accordingly. Instead, it is a great fortune destroyed as completely as if so many dollars were sunk in the ocean.

Something must be done! There has been laudable co-operation among editors in this country who have written voluminously on the subject, doing their bit to stamp it out. But that is not sufficient, valuable as it is. There must be the whole-souled opposition of the ordinary sensible citizens of every locality. The careless and irresponsible must be made to feel the emnity of public opinion. Fire loss can be checked. The people, and only the people, can do it.—The Manufacturer.

SIMS PARENT-TEACHERS TO MEET TUESDAY, OCTOBER 11

The Sims Parent-Teachers Association will meet Tuesday, October 11, in the South Ward Building. The program will start promptly at 3:15 and will be had under the direction of the pupils of Mrs. Charles Bell. Dr. J. G. Sherman will also lecture to the meeting on "The Care of the Teeth." A cordial invitation is extended to all those who will be most interested in the work of the school.

PROPER PLANNING LOWERS CAR COSTS

ROAD SURFACE HAS MUCH TO DO WITH EFFICIENT AUTO OPERATION.

By E. E. Duffy

No one ever stops to figure out how much he pays in a single year for neckties. This matter of checking up on small expenditures is something we do not usually bother about. But a little forethought and study now and then will do a great deal toward stretching the dollar. A striking example of where planning has lowered expense is in the operation of automobiles.

One of the most important items in the operation of the automobile is the provision of fuel. Those who have made a study of gasoline mileage, particularly Iowa State College instructors and students, tell us that the type of road over which we drive has a tremendous effect on the father's automobile costs. After careful study it was determined at Iowa State College that under average conditions it costs 2.6 cents a mile more to ride over an earth road than over a good pavement. Two solutions to the problem of lowering the automobile costs then present themselves. One is driving over good pavements only. But since this is impossible in most communities, we must do something else. We must build good, smooth pavements so that the entire Sunday outing can be rolled off at a net saving of at least 2.6 cents each time the speedometer clicks off a mile.

Two and six-tenths is in itself a negligible sum, but at the end of a day's run of say 200 miles, the motorist will have saved the neat sum of \$5.20, which, by the way, is greater than the daily wage of the average American worker.

There are other items also when reduction of automobile costs is being considered. In cities where good pavements have been provided motor car owners oftentimes travel several hundred miles before a repair bill work on the car is necessary. In rural districts where poor roads are the rule rather than the exception, repair bills may come flowing in at the end of the first year.

Another mighty important feature of pavement building is the reduction of maintenance costs. Roads of the earth type in many cases are nothing more than sponges that soak up road funds. After each heavy rain the roads must be tenderly nursed back to passable condition, but traffic soon ruts them, another comes along and the process must be repeated.

In considering road building programs, a wealth of good advice may be found in the experiences of other states and communities. In New York, the average annual maintenance cost of principal types of highways for the years 1916 to 1925 inclusive are: First class concrete, \$227 per mile; brick pavement, \$309; asphalt on concrete base, \$343; bituminous macadam penetration method, \$656; asphalt on macadam base, \$827; waterbound macadam, \$914. These figures, compiled by David Noon, deputy commissioner of highways, include cost of upkeep of road sides as well as pavement surfaces.

Pavement surface upkeep for the three major types of highways in New York state for 1925 (composited approximately 90 per cent of all paved highways) was as follows: Concrete, \$174.43 per mile; bituminous macadam, \$618.95 per mile; waterbound macadam, \$779.15 per mile. (From Engineering News-Record, January 17, 1926. Statistics of Commissioner of Highways, New York.)

Illinois, which has more miles of hard pavement than any other state, reports the following average annual cost for maintaining roads for the ten-year period, 1914 to 1924, inclusive:

Waterbound macadam, \$529.68 per mile per year; bituminous macadam, \$274.76; brick pavement, \$238.98; bituminous concrete, \$230.39; portland cement concrete pavement, \$200.57. This cost includes roadside upkeep.

Iowa highway statistics for 1922, 1923 and 1924 give an average cost of \$450 upkeep per mile per year for gravel roads, \$809 for earth roads and \$132 for concrete. Maintenance of the heavily traveled Lincoln Highway in Story and Boone Counties, one of the few remaining sections not yet paved, amounts to more than \$1,000 per mile, the report shows.

Figures compiled by the Minnesota Highway Commission show that the yearly cost of maintaining State Trunk Highway No. 1, a gravel road, is twice that of State Trunk Highway No. 3, a concrete highway. Both are heavy traffic roads. Depreciation, interest on investment and upkeep of the concrete highway No. 3, amounts to \$1,678 per mile.

per year while on the gravel road, No. 1, the cost per mile is \$3,101.

Maintenance of the wearing surface of concrete highways in two Kansas counties averages only \$24.50 a mile per year, highway officials of these counties report.

Waukesha County, Wisconsin, by constructing 129 miles of concrete in four years, reduced its maintenance costs 66 per cent. Before the concrete was laid maintenance cost was \$72,033 a year. After concreting, the annual upkeep expense was but \$24,156.

Maintenance of concrete on most rural highways is almost negligible, state officials claim, because equipment for maintaining the concrete is simple and inexpensive, maintenance crews are cut to a very small number for many miles of highway and repairs are seldom required.

Consequently communities populous enough to build good roadways are in many cases actually losing the great sums of money through postponement and through lack of concerted effort to obtain smooth city and rural pavements.

PROGRESS OF MILK SANITATION IN TEXAS

A milk survey of municipalities in the state is being made by the State Department of Health, according to Dr. J. C. Anderson, state health officer, who stated that a questionnaire has been sent to all city health officials asking for information as to number of dairies, creameries, pasteurization and cheese plants in their respective towns; number of dairy cows; number of cows given tuberculin test; per cent of milk supplies in the state in regard to both production and sanitation, with the view of not only promoting milk sanitation, but also promoting increased milk production, and the establishment of more creameries and cheese factories.

At the present time, Texas has the distinction of having more cities which have adopted the standard milk ordinance than any other state in the Union, there being 34 towns that have this ordinance, while a dozen or more municipalities are planning its adoption at an early date. While the improvement in milk sanitation in the state has been considerable during the last two years, returns from the milk survey being made, show that in some towns milk sanitation is at a low ebb.

An actual field survey of dairies by state inspectors will be made as soon as possible, and all dairies will be required to comply with the following sanitary provisions: Sanitary barns and equipment; tuberculin tested dairy herds; screened milk houses; milk bottles sterilized

and has made many friends during his stay in the city. His place will be filled by Jimmy Miller, former employee of the Clarendon yard, who has been for the past year manager of the yard at Brinkman, Oklahoma. The change is expected to be made the latter part of this week, the managers being checked in by an auditor from the general offices as soon as possible.

Terrell.—The State Board of Control has let a contract to construct an administration building at the Terrell State Hospital to cost \$123,935.

Old Silver Tip the Big Game Prize in British Columbia

The Cariboo district of British Columbia, according to E. S. Knight, of Ashcroft, B. C., whose guides roam this region with hunters, is the favorite haunt of "Old Silver Tip," the grizzly, one of the most sought and most feared big game animals. Grizzlies attack and brown-bear, caribou, goats and smaller mammals are plentiful in this region, but the fierce and fighting grizzly is the chief prize desired of the hunter. Many of the British Columbia grizzlies weigh heavily half a ton, and when a wounded one charges a sportsman, there is plenty of excitement. "Kick out your legs before you shoot," is a good thing. A grizzly charges on all fours and hits running, not a bit like the

grizzly at rest which is supposed to charge walking like a man. A male grizzly unwounded will get away if he can; a female with cubs will charge a hunter if she gets his scent. All in all, the grizzly is a big game animal worthy of the best efforts of the daring sportsman.

Cariboo is the haunt of the silver tip grizzly in the Queen's Lake district reached from Ashcroft. Caribou as well as grizzlies are plentiful here and the real sportsman-like hunter looks the nerve over and makes no kill until he has seen the need he desires. A New York hunter who had seen many caribou without taking a shot, was called to the early morning of his guide. "Big out caribou outside," whispered the guide. The hunter arose, saw the big bull with

a wonderful spread within easy range and shot him. Now the wonderful trophy adorns the wall of his den.

There are many guides in British Columbia, including E. S. Knight, of Ashcroft; Fred Mansell, of North Vancouver, who shot an 11-foot grizzly; Kibbe & Reed, Thompson Bros., J. D. Cochran and Joseph Wendle, Barkersville B. C., and Gough & Allen, Lively, B. C. These and others are known to A. C. Seymour, Canadian Pacific, Montreal.

The Indian guides have a great respect for the grizzly. One Indian refused to go with his hunter until he had seen how good the hunter could shoot. "Then he said: 'I show you grizzly, you shoot maybe I run maybe I climb tree, but I show you grizzly!'" And he did.

Miss Myrtle Pope spent Saturday night with Miss Gladys Noble.

Mr. and Mrs. W. W. Dodson of Lelia Lake visited in the J. W. Skinner home Sunday evening.

The High School girls and several visitors, with the intermediate

The Servant Of The People

YOUR ELECTRIC LIGHT AND POWER

System is the most faithful servant in the community. It works 24 hours each day, it knows no strikes, and it works for less than any other servant save one—the two-cent postage stamp.

In the home it quietly and quickly cooks the meals, sweeps, sews, washes, irons, lights the home, makes the ice and assists the housewife in countless other ways. It never "answers back!"

In store and factory it makes the machinery go, furnishes economical and efficient light, heat and power, and saves endless hours of labor.

It works with church and school to further the intellectual and spiritual advancement of our children and ourselves. It helps police our streets and safeguard our property. It is democratic, rich and poor are served alike. The light responds when the button is pushed.

Our whole scheme of living in this country today is built upon the existence of public utilities and their efficient operation. If Electricity alone were cut off for any length of time, the whole nation would be thrown out of gear to the point of actual disaster.

The Central Power & Light Company serves the public. You are the public. No one is in better position to render fair judgment than are you. The Central Power & Light Company is your servant. Encourage this faithful servant as you would any other employee. Do it through the magic of Mutual Helpfulness and Good Will.

Central Power & Light Co.

"Courteous Service Always"

teacher, Miss Addie Holland, and the primary teacher, Miss Eula Allen, had a picnic over on the W. S. Noble creek last Friday evening. Those present at this enjoyable affair were: Misses Addie Holland, Eula Allen, Nettie Lyons, Mattie Fletcher, Connie Perdue, Loda and Virgie Skinner, Gladys Noble, Martha Thomas, Veta Mae and Jewel Morgan, Elsie Josey, Opal Harlin, Lucille and Susie Speir.

Watch Your Kidneys!

To Be Well See That They Function Properly.

YOUR kidneys! Do you realize what an important part they play in your health and length of life? Your kidneys are the blood filters. When they act sluggishly, waste poisons remain in the blood and make one tired and drowsy, with often nagging headache, annoying dizziness and dizzy spells. That the kidneys are not acting right is often shown by scanty or burning excretions. Assist the kidneys with a stimulant diuretic. Use Doan's Pills. Doan's are endorsed the country over. Ask your neighbor!

Society

Miss Loyce Masterson, Former C. C. Student, Married at Hedley

Miss Loyce Masterson, daughter of Mr. and Mrs. J. B. Masterson of Hedley and a popular ex-student of Clarendon College, became the bride of Donald Lindsey of Amarillo, in a simple but beautiful wedding at the home of her parents Monday morning. The Reverend J. B. Eldridge, pastor of the Methodist Church of Hedley, officiated in the ceremony, which was witnessed by members of the bride's family and the most intimate friends of the bride and the groom. Out of town guests were Mrs. R. C. Strickland of Dallas and Mrs. Oscar Alexander of Amarillo, sisters of the bride, and Mr. and Mrs. Tom C. Connally of Amarillo. Following the ceremony, Mr. and Mrs. Lindsey left for Amarillo, where they will make their home. Mr. Lindsey is pharmacist for the Triplet drug store. He was associated with the Ball Drug Company of this city for a few months and made many friends here.

Mr. and Mrs. W. C. McDonald Entertain Thursday Evening

Mr. and Mrs. W. C. McDonald entertained members of the evening bridge club and a number of other friends Thursday evening, in one of the most delightful parties of the week. Dinner was served at four small tables which had centerpiece of beautiful dahlias. The evening was spent in playing bridge, and at the conclusion of the games, high score prizes were presented to Mrs. Charles Bugbee and Dr. M. H. Rhodes. The guest list included the following: Mr. and Mrs. Charles Bugbee, Dr. and Mrs. T. H. Ellis, Mr. and Mrs. J. L. McMurtry, Mr. and Mrs. A. T. Jefferies, Mr. and Mrs. Earl Alexander, Dr. and Mrs. M. H. Rhodes, Mr. and Mrs. L. Chase, Mrs. Kate B. Carroll, and Mr. Wesley Knopp.

Chicken Barbecue Given By Dr. and Mrs. Galloway Enjoyable Affair

A greatly enjoyed social event of the week was a chicken barbecue with which Dr. and Mrs. C. W. Galloway entertained their friends Thursday evening. The supper was cooked on the sands at Salt Fork and after its mysterious disappearance the group sat around the camp fire and told ghost stories.

In the party with Dr. and Mrs. Galloway were: Misses Dewey Mcnaman, Ellen Bell, Kate Balaentine, Lorene Thurston, Mayme Seery, Herloise Burrell, Ruth Denison, Rita Foster, Eula Key, Julia Lewis, Mildred Martin, Helen Martin, Winnie Weatherly and Opal Pyle, and Messrs. Walter Clifford, W. B. Hecher, Reagan Bryan, E. T. Pome, Howard Stewart, Jack Soelle, Sitton, Frank Stocking, J. G. Jarvis and B. L. Jenkins, Jr.

Junior High School Pep Squad and Football Team Honored in Party Friday

Members of the Junior High School football team and pep squad were honored Friday evening in a much enjoyed party at the home of the pep squad leader, Miss Kitty Speed. Assembling at 7:30, the group played games until 9:30, when delicious refreshments were served. The remainder of the evening was spent at a movie, following which the girls returned to the Speed home for a slumber party. A sunrise breakfast for the girls concluded festivities.

The entire guest list was as follows: Misses Bernice Andis, Viola Jones, Ruby Bairfield, Mattie Parker, Willie Vineyard, Mary Love, Edith Speed, Lena Towles, Gladys Andis, Owita Towles, and Lucille Andis; T. U. Whatley, J. D. Jackson, Raymond Nichols, Mike Baird, Pete Morris, F. L. Behrens, Jr., Delbert Middlebrooks, James Cornelius, Willford Andis, Robert Middlebrooks, Glenn Allen, A. G. Lane, Isma Keener, Johnnie Tucker, Clebert McGrory, Wayne Keener, and O. C. Watson, Jr.

Miss Clinty Phillips Gives Informal Party at Contry Club

One of the most delightful parties given for the younger set this season was the informal party with which Miss Clinty Phillips entertained at the Contry Club Saturday evening. Four tables were arranged for bridge. After the usual number of games, a buffet supper was served. Dancing was the other diversion of the evening.

Those present were: Misses Susie Lee Cooper, Bess Butler, Edna Butler, Jewell Davis, Lotta Bourland, Jewell Rutherford, Helen Beck, Ione Ball, Jesse Burson, the hostess, and Messrs. Jack Crow, Norwood Wright, Sherman Carroll, Porter Pierce, Jack Bourland, Rufus White, Lloyed Johnson, Paul Montgomery, Clifford Davis of Amarillo, and Everett Markham of Amarillo.

Mrs. Meredith Gentry Hostess to Friday Bridge Club, September 30

Gorgeous dahlias decorated Mrs. Meredith Gentry's attractive home when she entertained the Friday Afternoon Bridge Club last week. Three tables were in the game, with the following playing: Mrs. Charles Trent, Mrs. Sam Dyer, Mrs. Homer Ellis, Mrs. Holman Kennedy, Mrs. O. L. Jenkins, Mrs. Forest Taylor, Mrs. Nat Perrine, Mrs. Phillips Gentry, Mrs. Ira Merchant, Mrs. Richard Bell, Miss Mary Cooke and Miss Mildred Martin. A low score favor was given at each table. These prizes, clever little weather indicators, went to Mrs. Ellis, Mrs. Perrine and Mrs. Taylor. High score was made by Mrs. Trent and the cut favor was drawn by Mrs. Dyer. Salad and ice courses were served after the awarding of the favors.

Mrs. Homer Glascoe Hostess To Bridge Club Saturday

Members of the Saturday Bridge Club and a number of special guests were entertained by Mrs. Homer Glascoe on the afternoon of October 1. Roses and other cut flowers were used with charming effect as decoration for the rooms in which the three tables were arranged for the game.

The guest list included: Mrs. A. Lettis, Mrs. Charles Burbee, Mrs. Odos Caraway, Mrs. A. L. Chase, Mrs. R. A. Chamberlain, Mrs. J. L. McMurtry, Mrs. Ralph Kerbow, Mrs. T. H. Ellis, Mrs. W. H. Cooke, Mrs. L. L. Swan, Mrs. Sella Gentry and Mrs. George Ryan. High score prizes were awarded to Mrs. Bugbee, member, and Mrs. Ellis, guest, while the consolation favor was drawn by Mrs. Cooke. Delicious refreshments were served in two courses at the conclusion of the game.

Mrs. G. L. Boykin Hostess At Informal Luncheon

Mrs. G. L. Boykin entertained a number of friends informally at luncheon Tuesday. A large bowl of nasturtiums centered the table and green candles completed the pretty decorative scheme. Covers were laid for: Miss Temple Harris, Miss Helen Martin, Miss Mildred Martin, Miss Helen Beck, Miss Fray Stallings and the hostess.

Miss Lucille Murphy Entertains at Dinner

Complimenting Miss Jewell Rutherford of El Paso, Miss Lucille Murphy entertained with an informal dinner party Friday evening. Pink dahlias formed the centerpiece of the prettily appointed table. Those present were Miss Rutherford, Miss Lotta Bourland, Miss Dorothy White, Miss Josephine Crabtree and Miss Obie Crabtree. The evening was spent at a movie.

Mrs. Selden Bagby returned home Wednesday evening, after a visit of more than two weeks with relatives in Clarksville and Dallas.

John T. Sims, Jr., and R. H. Muir, Jr., were among those from Clarendon who attended the fair at Memphis Thursday evening.

Mr. and Mrs. I. S. Mullins and daughters of Panhandle were in this city Sunday to attend the revival services at the Baptist Church and to visit with friends.

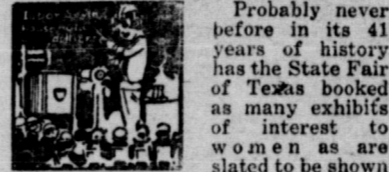

Mr. and Mrs. Earl Lynn had small son were in Memphis and attended the fair Thursday evening.

THREE "BIG LEAGUE" FOOTBALL GAMES AT STATE FAIR OF TEXAS

Three "big league" football games are on the slate of the State Fair of Texas this Fall, one each Saturday afternoon. The first game will be held on the opening day of the fair, Saturday, October 8th, and will be between Texas A. & M. and Sewanee. The second game, between the University of Texas and Vanderbilt, will be held on Saturday, October 13th, and the final big game, S. M. U. vs. University of Missouri, will be held on the last Saturday of the fair, October 22.

MORE EXHIBITS FOR THE WOMEN THAN EVER BEFORE AT TEXAS STATE FAIR

Probably never before in its 41 years of history has the State Fair of Texas booked as many exhibits of interest to women as are slated to be shown at the 1927 fair, which opens Oct. 8. Many patrons can remember when the only exhibits interesting to the housewives were those in the domestic arts and textile departments. Hardly anything was shown in the way of labor or time saving machinery for the household, beyond sewing machines and some crude, back-breaking washing machine hand operated. This year in the Exposition Hall, however, there will be shown literally hundreds of new household appliances each designed to lighten the burden of housekeeping, to save time, money and energy, just as the farm machinery saves the time, money and energy of the men.

A "PHANTOM CHOIR" OF 16 VIOLINS IN AUDITORIUM AT THE TEXAS STATE FAIR

According to Roy Rupard, Secretary of the State Fair of Texas, it will puzzle those who attend the various events in the Auditorium to locate a "phantom choir" of sixteen violins which will be placed in the hall especially for the State Fair, October 8th to 23rd. The violins, it is said, will be played by hand, one musician controlling the entire phantom choir from the keyboard of the great organ. Special performances of the violin choir will be given before each performance of "Countess Maritza" and in conjunction with the free organ recitals to be heard in the auditorium every morning, and on the afternoons on which there are no matinees. The concert is to be in the nature of a demonstration of a new electrical method of operating real violins from the keyboard of an organ. It will constitute one of the fifty or more free "exhibitors' stunts," which are being prepared for the entertainment of the visitors by those who are to have displays at the Fair next October.

Mr. and Mrs. Ralph Andis and son went to Memphis Thursday evening to attend the Hall County District Fair.

Judge J. L. Bain went to Hedley and Memphis Tuesday.

M. L. Garrison attended to business affairs in Amarillo Saturday.

New Stadium at Texas Tech To Be Ready for A. & M. Game

Lubbock, Texas, Oct. 5.—The illustration shows the football field of Texas Technological College and the first unit of steel grand stands of the proposed stadium which will ultimately surround the entire field. This unit will seat 4,000, and while these will be used for the Simmons University game October 15 their installation was made necessary by the scheduling of the game with Texas A. & M. College on Friday, October 28, the first conference team ever to invade the Panhandle of Texas. Tech College is planning a gala day when the Aggies come to the Plains for the first time. Special trains will be run into Lubbock and many former Aggie students and football fans from all over the Panhandle are already reserving tickets for the big football classic. This will be the first major football game ever played in the Panhandle, but with Texas Tech likely to be admitted to the Southwestern Conference in the near future it is to be the forerunner of many big games later on. In addition to the 4,000 new steel bleachers there is a present seating capacity of 3,250, making a total of 7,250 seats. Enough temporary seats will be erected to make the total seating capacity for the A. & M. game at least 10,000. The admission price for all other Tech games on the home field this year is \$1.00 but on account of the heavy expense of the big game of October 28 it is necessary to charge \$2.50. Reservations may be made by mail.

Only sold in green cans bearing the du Pont oval trademark. Nothing else is Duco.....

H. C. Kerbow & Sons

Good dairy cows while milking should not be overly fat. They can well be fed enough to put on some flesh during the dry period and should be fed so as to keep in good condition while in milk. The general principles for correct feeding are (1) feed a balanced ration, (2) feed according to production—all the good roughage that the cow will consume and generally one pound of concentrates for each three to three and one-half pounds of milk produced. If a balanced ration is fed and the cow gets too fat, the amount of feed should be reduced somewhat. If she is producing heavily and getting too poor in flesh, she is either not receiving enough feed or the ration is not properly balanced.

There were 69,738 marriages performed in Texas in 1925 as against 71,992 in 1924, showing a decrease of 2,254. Figures for 1926 will not be compiled until about December 1, 1927.

Counties in which rice is the leading crop are: Brazoria, Chambers, Colorado, Fort Bend, Galveston, Harris, Jackson, Jefferson, Liberty, Matagorda, Orange, Waller and Wharton.

Rose growing has reached such proportions in East Texas that the rose bush is now considered a farm crop in some sections. Smith County is the leading county in this industry.

Misses Helen and Rhoda Wiedman, Mayme Scery, Ruth and Frances Chapman, Lucille Allen, Helen Beck, and Martha Alice Moore formed a party that went to Amarillo Thursday.

DISSOLUTION OF PARTNERSHIP

TO WHOM IT MAY CONCERN: The partnership of W. J. Ball and W. L. Ball, operating the Ball Drug Company, was dissolved by mutual consent August 28, 1927. W. L. Ball taking over the business and assuming all indebtedness due by the Ball Drug Company, Clarendon, Texas. W. J. BALL, W. L. BALL.

NOTICE TO THE PUBLIC

I have put in a grist mill and feed chopper at my filling station a mile and a half east of Clarendon. I am now ready for business and invite your patronage. JOHN W. BUTLER.

NOTICE OF THE SALE OF AN AUTOMOBILE TO SATISFY A STORAGE AND REPAIR BILL THEREON

Notice is hereby given that R. L. Bigger will on Friday, October 14, 1927, between the hours of 10 o'clock a. m. and 4 o'clock p. m., at his place of business in Clarendon, Texas, sell at public auction for cash to the highest bidder, the following described automobile, to-wit: One Ford Touring Car, Model of 1923, engine No. 7,931,812, to satisfy a storage and repair bill due and unpaid thereon, amounting to the sum of \$28.20.

R. L. Bigger further states that the car was stored with him by unknown persons from the city of Amarillo, Texas, on May 16, 1927, and that the name and whereabouts of the owner or owners thereof is not known. This notice is given in accordance with Arts. 5505 and 5504 of the Revised Civil Statutes of the State of Texas. Witness my hand at Clarendon, Texas, this 23rd day of September, A. D., 1927. R. L. BIGGER. (41c)

THE LIVE STOCK SHOW TO BE GREATEST IN HISTORY OF THE TEXAS STATE FAIR

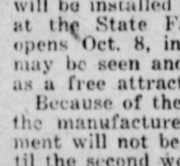

The fleetest runners, the best draught horses, the most highly trained and best looking saddle horses will be at the State Fair of Texas next month when the big show opens on Oct. 8 according to Dr. A. E. Flowers, superintendent of the horse and racing departments of the Fair, who returned Saturday from a trip to the northern state fairs.

"At the Illinois and Missouri State Fairs I found exhibitors of the best breeds of draught horses greatly interested in the premiums the State Fair of Texas is offering in these classes," said Dr. Flowers, "and many of them agreed to exhibit here, some of them planning to send their full herds for display. This year the draught horse section of the show will be complete.

"In the beef cattle departments I found that the major exhibitors of past years, showing the finest herds of Herefords and Shorthorns, were headed this way and requested that ample space be reserved for them. The same is true of the Holstein men, who had fine exhibits in both Illinois and Missouri. They are coming, too.

"Many of the contesting breeders of Jerseys assure me that this year they were going to lock horns with our Texas exhibitors, admitting that while Texas could claim the largest herds of Jerseys in the world, there was a chance that the prizes for the best might possibly go elsewhere. So they are going to give our great Texas Jersey breeders a run for their money, they say.

"In the race sections, however, I found the greatest enthusiasm. The owners are keen to get back to the South and it pleased them all to learn that the directors of the 1927 Fair had reinstated horse racing. Among these horse owners were many Texans, who were 100 per cent for the movement 'back to Texas.'"

The largest phonograph in the world will be installed in front of the Plaza at the State Fair of Texas, which opens Oct. 8, in a location where it may be seen and heard by thousands as a free attraction.

Because of the demands made upon the manufacturers, the giant instrument will not be set up at Dallas until the second week of the fair, but it will remain until the close on Oct. 23.

Among the Clarendon people at the Hall County District Fair last Thursday were Mr. and Mrs. Leonard Wilson.

Houston Miller, Bill Ray, and Oscar Castleberry drove to Memphis Thursday evening and attended the fair.

PERSONALS

Miss Betty Harp of Goodnight was a shopper in this city Saturday. Mr. and Mrs. R. L. Bigger made a business trip to the South Plains Tuesday.

Meredith Gentry drove to Pampa Tuesday to attend to business matters.

Phillips Gentry and Sam Dyer were business visitors in Amarillo Monday.

Cal Merchant and Judge J. R. Porter made a business trip to Pampa Tuesday.

Harry Allen of Childress attended to business matters here Thursday.

Mr. and Mrs. G. M. Mask of Cordell, Oklahoma, are guests in the home of Mr. and Mrs. T. R. Crabtree.

Mr. and Mrs. Ray Bush of Amarillo spent Sunday here with Mr. and Mrs. Hugh Brown.

Miss Lucille Tatum of Amarillo spent Sunday here with her mother, Mrs. Fanny Tatum.

Miss Beulah Baird of Amarillo spent the weekend here as the guest of Miss Anna Moores.

Misses Ruth La Fon and Julia Dean, who are teaching this year at Alameda, spent the weekend with relatives here.

Mr. and Mrs. Ben Andis and family and Mr. and Mrs. Ralph Andis spent Sunday in Groom as guests of Mr. and Mrs. Guy Andis.

Mr. and Mrs. Henry Tomb of Goodnight were among the shoppers and business visitors in the city Monday.

Mr. and Mrs. Steve Greenwood and family of Alameda shopped and attended to other business in Clarendon Tuesday.

Mr. and Mrs. Fred Lynn and small son of Pampa were guests of Mr. and Mrs. Dewey Herndon last weekend.

Dr. G. S. Slover of Dallas is attending to business affairs in Clarendon this week. He arrived Monday.

Mr. and Mrs. G. E. Allen and daughters spent Friday of last week at the ranch home of Mr. and Mrs. S. E. Sayre.

On every chassis is mounted a specially constructed body into which the refrigerator has been built as a unit. The refrigerator occupies the upper section of the body, while beneath it is the cooled compartment with a capacity of 360 bricks of ice cream. The temperature of this compartment, according to Pat Potter, special representative for the company, is maintained at from five to ten degrees above zero to insure that the ice cream bricks and "suckers" will be sufficiently hard frozen to tempt the parched motorist.

WELCOME

Be our guest to the WORLD SERIES BASEBALL GAMES every day at 12:30 P. M.

Also during the DONLEY COUNTY FAIR

We Will Welcome Your Presence and Gladly Demonstrate Our Radios.

Remember the Lucky One will get choice of two "B" Radio Batteries or Automobile Battery or a Radio "A" Battery.

Miss Mildred Crain spent Wednesday afternoon in Amarillo.

Twenty-two persons have been apprehended and prosecuted for hunting or killing migratory waterfowl with the use of airplanes since the federal migratory-bird treaty act became effective, in 1918, under the administration of the Biological Survey of the United States Department of Agriculture. Violations of this character have occurred in 11 States. In 11 cases the defendants were convicted and fines totaling \$240 imposed, ranging from \$10 to \$50 each. In two cases the grand jury failed to return a true bill, and the remaining nine cases were dismissed.

American cuckoos, with a generally undesirable reputation derived from observations upon the European species, are most highly regarded by scientists of the Biological Survey who have studied their food habits. Cuckoos feed largely on caterpillars. The stomach of one cuckoo examined by a biologist showed remains of 250 tent caterpillars and another had eaten 217 fall web-worms. Cuckoos are also fond of such pests as grasshoppers, sawfly larvae, and other injurious insects.

W. H. V. Harris of Dallas spent Saturday here with Tom F. Connelly.

MARTIN

Mr. and Mrs. Richard Cannon spent Sunday in the W. A. Pool home.

Miss Verlia Black spent the weekend with home folks. She attends school in Amarillo.

The young folks enjoyed a party at Mr. and Mrs. T. J. Conner's Friday night.

Mr. and Mrs. P. O. Wood and family spent Sunday with Mr. and Mrs. J. D. Wood.

Mr. and Mrs. Hodges from Groom spent Sunday with Mr. and Mrs. Ed Hodges.

Mrs. J. C. Wood, Miss Della Wood and Miss Ruby attended church at Clarendon Sunday evening.

Mr. and Mrs. T. J. Conner are spending the week with their daughter at Chillicothe.

Barney Fielder was here from Mulshoe last week, visiting relatives and attending to business.

The Home Demonstration Club met in an interesting meeting with Mrs. Arbon Talley as hostess, Wednesday.

It was an all day meeting. A little canning was done and plans for the Club exhibit at the Donley County Fair were made.

Seventeen members were present. The next meeting will be held October 13 with Mrs. Turnbow.

Mr. and Mrs. Clarence Peabody visited Will Peabody and family Saturday night and Sunday.

Mrs. J. C. Talley is confined to her room this week, due to illness.

Miss Virginia Davis spent Sunday with Mrs. Hatley.

Last but not least was the big con hunt Saturday night. There were eight in the party.

Miss Alta Peabody came home Saturday night from Oklahoma, where she had been visiting her sister.

Mrs. Carl Boston and small daughter of Pampa spent a few days here with Mrs. Boston's father, Judge J. L. Bain, returning home Wednesday.

Mrs. T. M. Crabtree and daughters, Misses Josephine and Obie, returned the latter part of last week from Austin, where they had spent two weeks. The young ladies have entered Clarendon Junior College, and their brother, Edley, has gone to A. & M. College, where he was a student a year ago.

Richard Springs.—Engineers and surveyors are at work looking over the right-of-way for a proposed branch line of the Gulf, Colorado and

Santa Fe Railway from Richland Springs to Coleman.

Rising Star.—Secretary Frank Robertson of the Rising Star Chamber of Commerce has completed collection of the fund subscribed by local business and professional men and firms for the work on the new May-Rising Star road, and settlement has been made for it.

Newcastle.—A record crowd greeted the Graham fair boosters who visited this city October 1 in the interest of the annual Young County Fair. Newcastle merchants reported a fine trade day.

Canyon.—Canyon is now using natural gas as fuel. Several hundred homes are enjoying the new convenience and others are being piped.

Clarendon.—The greatest exhibit of diversified products that Donley County has ever shown will feature the annual free fair to be held here October 14 and 15. One of the most outstanding displays will be that of the Cruise and Reynolds truck farm of Lela Lake.

Bowie.—November 21 is the date that has been set for the 1927 Red River District Convention of the West Texas Chamber of Commerce to be held here. The 1926 convention was successively rained out, being scheduled to meet at Henrietta several different times. A large attendance is expected for this year's meet.

Christoval.—Christoval will be host to the thirty-fifth annual reunion of the United Confederate Veterans and Sons of Confederate Veterans of Texas October 7. The three day convention meets at San Angelo beginning October 6, but their second day session is to be held in this scenic beauty spot of the West.

Lawn.—Conditions are very good around this place for sowing winter grains, and a number of farmers are contemplating planting oats and wheat. Cotton picking is well under way here.

Richland Springs.—Engineers and surveyors are at work looking over the right-of-way for a proposed branch line of the Gulf, Colorado and

NOTICE OF EXECUTION SALE

By virtue of an execution and order of sale issued out of the County Court of Donley County, Texas, September 27, 1927, on a judgment rendered in said court, September 6, 1927, in favor of O. W. Linton, plaintiff, against E. L. Rathiff, defendant, in cause number 656, I did on the 27th of September, 1927, at 10 o'clock a. m., levy upon the following described personal property, situated in the O. W. Linton building on lot 5, block 21, Clarendon, Donley County, Texas, to-wit: Two bread carriers; two electric motors; one broiler; one cake mixer; 200 bread pans; one baking oven; one bread wrapping machine; one Jack Frost ice box; one mangle machine; one barrel cooking oil; one barrel about three-fourths full chocolate; about 700 pans; flavored extracts; box shirred coconut; about 10 rolls wrapping paper; Marshmallow powder; and on Tuesday, October 3, 1927, between the hours of 10 o'clock a. m. and 4 o'clock p. m., I will offer for sale and sell at public auction for cash at said building all the right, title, and interest of the said E. L. Rathiff in and to said property.

Date this September 27, 1927.

W. A. PIERCE, Sheriff, Donley County, Texas.
By W. L. CRANE, Deputy.

WHAT'S DOING IN WEST TEXAS

West Texas Chamber of Commerce

El Paso.—In recognition for the services rendered to the El Paso country, the Border City, numerous towns in its trade territory, and a number of New Mexico cities have taken record affiliations with the West Texas Chamber of Commerce.

This is the first time that the section has come in with membership support in line with that given in other districts. El Paso's affiliation is approximately 500, ranking her next to Fort Worth in point of numbers.

Fabens, Tornillo, Van Horn and Presidio, Texas, Hot Springs and Las Cruces, New Mexico, and Juarez are the other new towns numbered as West Texas Chamber of Commerce members.

Sweetwater.—Governor Dan Moody will be the featured speaker at the West Central District Convention of the West Texas Chamber of Commerce to be held here some time during the middle of November.

Monte E. Owen, Sweetwater secretary, is already at work on plans for the meeting.

Ahileno.—Fire prevention week is to be observed in Texas from October 9 to 15. The West Texas Chamber of Commerce is calling attention to this observance in line with their aim to show that fire insurance companies should reduce losses and physical fire hazards rather than attempt to raise insurance rates.

Christoval.—Christoval will be host to the thirty-fifth annual reunion of the United Confederate Veterans and Sons of Confederate Veterans of Texas October 7. The three day convention meets at San Angelo beginning October 6, but their second day session is to be held in this scenic beauty spot of the West.

Lawn.—Conditions are very good around this place for sowing winter grains, and a number of farmers are contemplating planting oats and wheat. Cotton picking is well under way here.

CONDON FAMILY HERE FOR WEEKEND—LIKE CANYON

While here to spend the last weekend at home, Mr. and Mrs. Stuart E. Condon expressed themselves as liking Canyon better all the time. Mr. Condon was a very welcome caller in the News office and stated that he was getting along fairly well with the folk in the school, having learned the names of the teachers and was now starting in on the names of the student body. Mr. Condon was especially attracted by the country club that is being organized just eight minutes' drive from Canyon. As is well known in Clarendon, Mr. Condon is one of the most enthusiastic fishermen in this section of the state and stated that he might be able to cut the running time from eight minutes after he learned the road better. They expect to visit Clarendon at

odd times during the winter and keep their friendships renewed through the length of their absence from the city.

MRS. PARKER OPENS GIFT SHOP IN LATSON BUILDING

Mrs. L. C. Parker this week opened an attractive little gift and novelty shop in the Latson building. The store is successor to The Music Lovers' Shoppe and will now be known as Parker's Shoppe. Mrs. Parker announces that her shop will continue to carry music but will specialize in gift and novelty goods.

Leaflet 6-L of the U. S. Department of Agriculture will tell you all about the experimental fur farm of the Biological Survey at Saratoga Springs, N. Y., and when it may be visited.

SECRETARIAL SCREENINGS

CLARENDON CHAMBER OF COMMERCE
G. L. BOYKIN, Secretary

The special prizes offered in the Donley County Fair catalog are those that were seen before the catalog—went to press. Any other business man or individual in town who cares to offer one in connection with the fair can do so at any time and due publicity will be given the offer.

Booths are also taken by several business men of the city and anyone else that wants one should let this office know, as space will be allotted soon. These booths will add much to the fair and will help to make the exhibit space full. The space is free and if you want a reservation, let this office know.

Word from the poultry committee says that their part of the show will be well taken care of and that entries will be many and complete. Several special prizes have been offered by Supt. Quattlebaum and others that should attract a good attendance at the show. One offer that should be of special interest is from the Stroud Poultry farm of Hedley. Mr. Stroud will also have a complete exhibit of his White Lechorns at the fair.

Another feature of the fair started this week at the suggestion of a man interested in the success of the fair was that each business man should get a farmer to exhibit the products from his farm in the show window of the business man's place of business. All business men that have been spoken to to date have been in favor of the move and will get a farmer who is interested if possible.

Clarendon was well represented at Memphis last week at the Hall County Fair, and this office wishes to thank both the college and the people who took the college to Memphis and made the event possible. Neighborliness is one attribute that cities as well as individuals should cultivate.

JUNIOR HIGH SCHOOL WINS FIRST GAME FRIDAY 18-6

Clarendon Junior High School won the first football game it had ever played when they defeated the team from Amarillo Junior High School 18 to 6, at College Park Friday afternoon. The Clarendon team outplayed the youngsters from Amarillo at every point in the game, with all plays well executed. The forward passes were surprisingly good for junior high school players. The back fielders, Lloyd Tucker, Mike Beard, Siefert McCrary and Dick Nichols, were especially good. The line held well and Amarillo was able to make only two first downs.

Coach Nick Carter says he is well pleased with the efficiency the Clarendon boys showed in the game with Amarillo, but that he is even more pleased with the sportsmanship with which each and every one of the boys of both teams played the game.

The lineup of the Junior High team is as follows: Cecil Combest; R. F. Mike Beard, R. H. "Johnnie" Tucker, Q. Pete Morris, L. T. F. L. Behrens, Jr., L. T. Howard Davis, R. G. Dick Nichols, F. B. James Cornelius, C. Delbert Middlebrooks, L. G. Robert Middlebrooks, R. E. T. W. Whately, L. H. J. D. Jackson, L. E. Clebert McCrary, L. H.

CLARENDON GIRLS MAKE W. T. S. T. C. HONOR ROLL

Among the 93 distinguished students of West Texas State Teachers College whose names appear on the summer term honor roll, published last week, are Miss Hazel Bulls and Miss Kate Tally of this city. Both young ladies are former students of Clarendon High School and Clarendon College and have taught in the county for the past year or two.

The names of Miss Elva Davenport of Hedley and Harper Scoggins of Floydada, formerly a prominent student of the college, were also on the honor roll.

Texas leads all states in consumption of natural gas for production of electricity. Last year public utility plants of this state consumed 19,108,200,000 cubic feet, which was 35.91 per cent of the total amount used in the United States.

A FEW NEW FEATURES FOR YOUR ENTERTAINMENT AT TEXAS STATE FAIR

Here are twenty-five of the fifty new features (mostly free) which have been prepared for your entertainment at the 1927 State Fair of Texas, October 8 to 23:

- Free menagerie of wild animals.
- Polo games every other day. Free.
- Six new exit gates for your convenience.
- The largest phonograph in the world. Free.
- Big league football games every Saturday afternoon.
- Daily exhibition of Mr. McElwyn in his special stable. Free.
- Thirteen days of fast horse racing with at least five races a day.
- Hog-calling contest for the Texas gold medal championship. Free.
- The largest Jersey Prize Cattle Show ever held in the world. Free.
- The most comprehensive Poultry Show ever offered in the Southwest. Free.

Special free shows in Exposition Hall, Industrial Hall and Automobile Building.

The best collection of blooded livestock ever assembled at any State Fair. Free.

Parades, pageantry and masques on the grounds, Dallas Day, Tuesday, October 11. Free.

Daily contests by the Aviation Cadets of America in the assembling of an aeroplane. Free.

Horse Shows Sunday afternoons, October 16 and 23, with special exhibitions between classes.

Demonstrations of the methods of distributing boll weevil poison over cotton fields by aeroplane. Free.

A new three-quarter-mile race track. Free parking around the track, enabling you to see the races from your own car.

Barnyard Golf, or horseshoe pitching tournament, open to all Texans, for the state championship and prizes, medals, trophies, etc. Free.

New playing field in the football stadium. New drainage system and new plan for handling the crowds through the entrances and aisles.

The largest and by far the best display of prize winning agricultural products collected by the State Fair of Texas in the 41 years of its history. Free.

A Junior Livestock Show, in a separate building, containing the entries made by the members of the Boys' and Girls' Calf, Pig and Lamb Clubs of Texas. Free.

Exhibit of the 12 bronze models of the "Pioneer Mother," iron which the half-million-dollar statue is to be erected, with voting contest to decide which model is most appropriate. Free.

Special demonstration by Texas A. & M. College of the cotton industry complete from preparation of the ground for the seed to the delivery of the finished cloth to the consumer. Free.

A new Midway, with hard-surfaced roads through the pavilions of the celebrated Morris and Castle Carnival shows, which this year are headed by the famous Singer's Midget's Jazz Band and Orchestra.

In the Auditorium the internationally successful comedy opera, "Countess Maritza," presented by the original Broadway company intact, every evening and Tuesday, Thursday, Saturday and Sunday matinees.

Special exhibitions in front of the grandstand, including "Mr. McElwyn," the champion trotter of the world; the national champion team of road mares; ten big Hippodrome acts, with comics and dancers, bands and vocal music; whippet races and day and night fireworks.

The above are but half of the really new features. The standard attractions are all there, as usual. Every visitor should provide himself with a copy of the folder, "How to See the State Fair," which is free. A perusal and the use of this folder will convince anyone that there are more striking, interesting and entertaining things to see at the 1927 State Fair than can be taken in in two or three days' visits. Send for your copy.

Less than a pound of tea a year per person is consumed in the United States. For years the tea drinkers of the nation seem to have been turning gradually from green tea to black tea, but in the last year green tea importations increased slightly and black tea declined.

WHEN BETTER AUTOMOBILES ARE BUILT . . . BUICK WILL BUILD THEM!

You Need Never Change Your Oil if You Own a Buick.

Last year Buick said: "Change your oil only four times a year." Buick tests at that time had shown that oil changes would never be necessary, with the Oil Filter to remove impurities, and with the Crankcase Ventilator, Thermostatic Circulation Control and Automatic Heat Control to prevent oil dilution. Now, more than a year has passed, and Buick owners in every section of the world—under every climatic condition—have also proved that you never need change your oil if you own a Buick—replenishment and inspection of the Buick Oil Filter only are required.

Sedans \$1195 to \$1995 Coupes \$1195 to \$1850

LIONS TALK OF WORK FOR YEAR

PROBABLE MAJOR ACTIVITIES ARE DISCUSSED AFTER DIRECTORS' MEETING.

Following the director's meeting of the Clarendon Lions Club in the Caraway Restaurant Thursday evening of last week, some of the items that will be up for discussion for the year's work were brought to the attention of the club Tuesday of this week in the usual luncheon.

In the park proposal, there is a rare possibility presented to the city in the now vacant block of land directly east of the administration building of the college. The plot of ground was at one time placed on the market for sale, but has more recently been removed, after some discussion has been had by the school board favorable toward the proposal.

Another proposition that has met with favorable question in the past is that which concerns the City Auditorium. The situation that now confronts the school board is the fact that they now have a vacant building and a vacant block of land in the business section of the city that will in all probability be vacant for some time to come.

Many guests were present to make the hour lively and assist in passing the time nicely. Dr. Geo. S. Slover was one who was welcomed to the club in no uncertain manner. He stated that he was glad to see that Clarendon was continuing to grow and prosper and that he was very well pleased with the outlook of the college at the present time.

Messrs. Cates of the Adams Dry Goods Company and Henry Youngblood of this city both stated that they were more than pleased to be at the luncheon. Mr. Youngblood is especially interested in the park proposal and stated that it had been mentioned favorably a number of times by the school board.

Coach Hutton of the High School was introduced and stated that he thought the luncheon he was invited to might be a cracker and a glass of water, but that he was glad to learn that Texas hospitality was all that had been said of it in the past in other states where he had happened to make his home.

Mr. Seofield complimented the Clarendon Club very much in their states that he had been in many cities in the United States and Canada and that he had not seen any luncheon or service club with the pep and enthusiasm that the Clarendon Club had shown in the short time that he had been in the city.

Lion Patman made further mention in connection with the tickets, stating that they were transferable and could be used on one performance if the holder should wish to use them.

Adjournment in the usual manner. PRESBYTERIAN AUXILIARY TO HAVE RUMMAGE SALE

The Presbyterian Auxiliary will hold a Rummage Sale Saturday, October 15, in front of the Presbyterian Church.

AMARILLO BUSINESS MEN TO BE QUERIED ABOUT COLLEGE

One hundred Amarillo business men, who should be interested in the establishment of a Methodist College in Amarillo, were interviewed and asked to express their views and willingness to support such an institution by a committee to be named by the Board of City Development.

The Board met yesterday afternoon and spent some time in discussing the college proposition. It was stated that no objections to the establishment of the college had been encountered and that on the other hand it appeared that the citizens of Amarillo really desired the college.

The committee to interview business men will be appointed by the Board but will consist of members of that organization. The committee is to be named within the next few days and it is thought that it will take at least a week for the members to see all of the business men.

QUITAQUE SEES FIRST TRAIN WEDNESDAY

The Denver and South Plains Railroad climbed into Quitaque Wednesday morning, the track laying machine of the new road fought its way puff by puff toward the little city at the foot of the caprock.

Turkey celebrated the coming of the road a little over a week ago, and Quitaque now has its rail. The town is alive with enthusiasm. Everywhere is excitement and talk about the future of the town and the development that is to follow the coming of the rail line.

The site for the depot has been chosen and the railroad officials have said that construction will start at an early date. The Western Union is following the railroad only a few miles in its construction, and the town will have telegraph for the first time as soon as the equipment carrying line is installed.

The dot and dash system of sending messages to the outside world will be in use in Quitaque within the month. As soon as the line passes four miles beyond Quitaque toward the caprock, the road laying will halt temporarily as that point is where the gravel to be used for ballast is found. For a time the work trains will be used in hauling the gravel from the Quitaque gravel pits back down over the line to Estelline for ballasting the road.

PRESBYTERIAN CHURCH

All regular services may be expected next Sabbath at the Presbyterian Church. The evening services beginning at 7:30 o'clock.

The Lord's Supper will be administered in connection with the morning service. Morning subject: "Fasting and Prayer." Our General Assembly, at its meeting last May, appointed next Sunday, October 9, as "A Day of Fasting and Prayer;" and our entire Church is called to observe that day in the spirit and manner pointed out by the Assembly. Be present Sunday morning and let us consider together this unusual call of the highest court of our Church. There are grave reasons for the Assembly's action.

RESOLUTIONS

Whereas God in his wisdom has taken from us our former president and faithful and efficient co-laborer, Mrs. G. M. Richards, who went home to Heaven on September 29. Therefore, be it resolved that we, the women of the Methodist Missionary Society, feel that in her going we have lost one of our most devoted workers, one who loved God and the Church and all of God's people and one whom we all loved.

That we extend our sympathy to the husband and children and pray that the God Whom she served may comfort them in their sorrow.

MRS. L. A. REAVIS, MRS. C. E. GRIGGS, MRS. C. A. BURTON, Committee.

BRONCHOS BATTLE PAMPA HARVESTERS TOMORROW

Coach J. G. Hutton takes the fighting Bronchos to Pampa tomorrow to meet the Pampa Harvesters in the first regular game for the Bronchos this season. Due to the incomparable scholastics, Pampa should win the fray by two downs, but indications are that such will not be the case.

That we extend our sympathy to the husband and children and pray that the God Whom she served may comfort them in their sorrow.

OLD PAPERS FOR SALE, 20c per 100, at Clarendon News office.

ASHTOLA

Sunday School was held at the usual hour Sunday morning with a good attendance.

The Four H Club enjoyed a chicken roast Thursday evening on the lawn at the home of Mrs. M. S. Swinburn.

Mrs. Wilburn Gray and children of Plainview, who have been visiting her parents, returned home Friday. Mr. and Mrs. J. F. Scarborough and family left for their new home in Petersburg Thursday. The family will be missed very much.

Miss Minnie Lee Armstrong spent Saturday night with Miss Onata Hayter.

Mr. Armstrong's, Mrs. Kimpson's and Mrs. McGowan's Sunday School classes enjoyed a picnic over on the river Sunday.

Little Miss Mary Lois Hayter gave a birthday dinner Sunday, which was enjoyed very much by her friends.

Miss Onata Hayter spent Sunday and Sunday night with Miss Minnie Lee Armstrong.

Mr. and Mrs. Lu McClellan and family spent Sunday in the home of Mr. and Mrs. C. B. Harp and family.

N. L. Jones returned to his work in Amarillo, after spending the weekend with home folks.

The Home Demonstration Club met in the home of Miss Lucy Stogner Tuesday. New officers were elected for the ensuing year. Miss Eula Key demonstrated school sandwiches. The women enjoyed the watermelons served by their hostesses. The club then adjourned, to meet with Mrs. Henry Tims the next club meeting.

Miss Jessie Swinburn called on Miss Vera Johnson Sunday.

Mr. and Mrs. Snodgrass and little daughter, also Mr. and Mrs. Jack Killough and daughter were guests in the home of Mr. and Mrs. M. S. Swinburn Sunday.

A manless negro wedding was presented by the Four H Club girls Monday afternoon. Many smiles were brought to gloomy faces.

Mr. Stanley Johnson spent Sunday with Mr. Keith Swinburn.

Mr. and Mrs. N. L. Jones spent Sunday in the home of their daughter, Mrs. Hester, of Sunny View. They were accompanied by their son.

1926 BOOK CLUB HEARS A DISCUSSION ON "MEANWHILE"

"Meanwhile," H. G. Wells' latest contribution to literature, was reviewed and discussed in an interesting program led by Mrs. Charles Trent, at the regular meeting of the 1926 Book Club Tuesday afternoon. Miss Katherine Patrick assisted Mrs. Trent, reading a number of newspaper comments on the book and giving a brief sketch of the author's life.

GENERAL HULEN TO VISIT IN CLARENDON NEXT WEEK

The men in military circles of Clarendon will be glad to learn that General John A. Hulen, commander of the 36th Division, will be in Clarendon for a visit with them on some date next week. General Hulen will be accompanied by a party of men and will make the trip a purely business one, making it unnecessary for any of the military to appear in their uniforms.

Mr. and Mrs. Paul E. Shelton and their daughters, Misses Edith and Pauline, are in Dallas this week to attend a reunion of Mrs. Shelton's family, celebrating the golden wedding anniversary of her parents, Mr. and Mrs. V. F. Gorrisen. The following item was clipped from Wednesday's Dallas Morning News:

SHELTON FAMILY ATTENDING GOLDEN WEDDING FESTIVAL

At the old Corner homestead on the Kaufman road, where they were married fifty years ago, Mr. and Mrs. V. F. Gorrisen of 1427 Lebanon street celebrated their golden wedding anniversary Monday. Mrs. Gorrisen was formerly Susie Conner. In 1855 the late J. T. Conner settled at the old homestead where Mr. and Mrs. Gorrisen Monday celebrated fifty years of married life. Mr. Gorrisen was 22 and his bride 17 years old when they were married.

Many friends and relatives attended the celebration Monday, including all the children and grandchildren of the couple, they being the following: Mr. and Mrs. P. E. Crotto and daughter, Tulsa; Mr. and Mrs. P. A. Rawlins and son and daughter, and Mr. and Mrs. F. Gorrisen, Dallas, and Mr. and Mrs. E. P. Shelton and two daughters, Clarendon.

Mr. and Mrs. W. J. Atteberry and their daughters, Mrs. Willard C. Smith and Mrs. Billie Pinkerton, of Amarillo, were here Wednesday to visit in the home of Mr. and Mrs. F. E. Atteberry. W. J. Atteberry is a brother of "Uncle Shan" Atteberry.

Mr. Fallisard of the San Antonio office of the Central Light and Powder Company and Alvin Culwell of the Childrens office were among the business visitors in Clarendon Tuesday.
