CAMP FIRE WORK HEARD BY LIONS

QUITAQUE VISTORS ENJOY LUNCHEON AND DISCUSS ORGANIZATION

Thirty-five Lions and seven visitors met Tuesday of this week in the Antro Hotel and held one of the most enjoyable luncheons that has been held for a number of weeks.

Lion Patrick made the report for the Amarillo meeting and reported that the event was well attended and that the spirit of the entire event was well worth the time taken.

Guests for the day were introduced in the following order: Misses Mary Frances Caraway, and Dorothy McCann, J. W. Head, H. S. Sanders, J. W. Ewing, and J. E. Graham all of Quitaque and Paul James of Memphis.

Since the fire is the symbol of their work, seven fagots are used to make this stand out as none other. These fagots are: Seek Beauty, Give Service, Pursue Knowledge, Be Trustworthy, Hold on to Health and Be Happy.

Lion Cooper announced the program for the Blind on next Saturday evening and asked for a meeting of the committee immediately after the luncheon to complete plans for that evening.

Lion Douglas explained the purpose of the sheet he was passing and asked the Lions to see him immediately after the luncheon and care for the amounts set opposite their names.

Lion Watson reported on the progress being made by the campaign committee on the candidacy of Lion Braswell and stated that excellent progress was being made in this connection.

Lion Boykin announced the band benefit for Monday and Tuesday of next week and asked that the people give good attendance and support the band since the winning of the great contest would mean a great deal to Clarendon in policy and a great trip for the boys if they should win the event.

Another thing: more dairy cows and chickens in Donley County will make Donley County and Donley County people more financially independent. A condition we all crave.

It may be the best way to work for a better nation is through the old line political parties, but this much is certain: the morals of America are of more concern than the life and success of any party.

Clarendon's Municipal Band is endeavoring to become the Gold Medal Band of West Texas and the official band of the West Texas Chamber of Commerce. A very great deal depends on how the band is supported by the home folks. Our band is a great community asset—let's back it.

President Olmsted of the State Fair of Texas says the eyes of the entire nation are turned on the Panhandle and West Texas. In an address before the Panhandle Press Association at Childress last week, Mr. Olmsted urged recognition of the great growth and prosperity that is certain in this section of the state, declaring that he never came out this way without being amazed and inspired by the breath of the country and the spirit of its people.

Wheeler County voted a million dollar road bond last Saturday and with a few votes to spare. Some months ago Wheeler citizens voted a million dollar road bond issue, but some irregularity in the election caused the proponents to decide to call a new election and vote again rather than wade through long drawn out legal difficulties. Their wisdom is established and the roads will be theirs sooner by their choice of another election. Paved roads are coming as certainly as the judgement day—and like the judgement day, sooner for some than others.

Friday and Saturday of last week the newspaper workers of the Panhandle met in annual session of the Panhandle Press Association at Childress. A year ago much doubt was manifest as to whether or not Childress, or any other smaller city, could draw as full attendance as had been enjoyed for the past number of years with Amarillo as host. Such a splendid attendance was on hand down at Childress that the idea was dispelled for the present, and at the closing session the 1929 convention was carried to Pampa by practically a unanimous vote. Childress did herself proud in the matter of Western hospitality, and those who didn't know all ready, found her a city of aggressive citizenship where progress and building is in evidence on every hand. The 1928 convention was one of great professional and fraternal profit, so Panhandle editors will not soon forget Childress as the hospitable host city.

House numbering and street marking begins in Clarendon this week. It means a new era in city life. There is something definite in living at number five hundred and umpty seven on Silkvest street, Clarendon, Texas. Get your number early, memorize it and use it daily.

The pursuit of joy may be futile and the faking of it an abomination, but there is nothing absurd, for instance, in humbly learning to know the endless things of beauty which are joys forever.—J. Arthur Thomson.

The longer I live the more deeply I am convinced that that which makes the difference between one man and another—between the weak and the powerful, the great and insignificant—is energy; invincible determination, a purpose once formed and then death or victory.—Powell Buxton.

Not many days ago this editor heard a man of middle life stand before a group of men, gathered in a weekly luncheon and declare his recent acceptance of Christ and determination to live a religious life. There was no special reason why he should have made such a bold confession, yet coming as it did it was very timely and not a person present, regardless of his creed or no-creed, but felt the strength and sincerity of the statement and respond to the idealism of the courage manifested by the speaker. Religion is becoming more and more an every-day utility, and professors of Christianity and non-professors are ready and willing to lend admiration and respect to one with the moral courage to make his confession, wherever and whenever opportunity offers.

### HERE THEY COME—THERE THEY GO

They're not selling gold bricks these days—these transient peddlers—but they are selling merchandise and whatnot that isn't worth very much more than what suckers used to buy as shares in mines that turned out said gold bricks.

Day in and day out Longview is forced to contend with non-resident salespeople who claim to handle the "very best" lines. In the first place they are prevaricating. If their lines were the best, as the salesmen claim, they would be on display in local stores. In one respect, they have a good line—of talk. Their little speeches, committed to memory, are repeated scores of times every day. They tell you they are extending you a personal favor by giving you a reduced price on a certain article. You visit your neighbor the next day and learn that the same promise was made everywhere. It is a part of the salesman's "line". Hundreds of persons are gypped every week by these transients, and still they are patronized. They come today and are gone tomorrow. So is your money. All you have is some merchandise that you could have bought at a Longview store—and perhaps cheaper.

The best lines of any salable stock of merchandise are advertised. In buying them you won't get stung.

The city commission is devising ways and means of ridding Longview of transient peddlers. Whatever action is taken, it should receive the whole-hearted approval of the citizenry.—Longview News.

Weddings continue to hold their place among the paramount social activities of the day. No matter how many important affairs are held, Cupid is always on the job and helps hold the place which he deserves.

families. He is now located at Bowie, Texas and is in the employ of the Southwestern Bell Telephone Company.

The News together with their many friends join in wishing this couple a long, happy and prosperous life together.

**AIRBANKS-MORSE STEEL ECLIPSE WINDMILL**

**The windmill with the drop forged crankshaft**

That's one of the many reasons why the Fairbanks-Morse Steel Eclipse Windmill has become a leader. The crankshaft is drop forged, accurately machined and ground—made like the finest engine crankshafts.

And again, instead of cast tooth gears you find accurately machined gears. Instead of ordinary shafting and bearings you find turned, ground and polished bearing surfaces that eliminate vibration. The entire equipment is all metal. Working parts are completely enclosed. The self-oiling feature has done away with poor lubrication, the old cause of wear and trouble.

Let us show you the windmill that has fewer parts and better—the windmill that is built like a good engine—the windmill that starts sooner and pumps longer.

### MINIATURE CHUCK WAGON MADE BY LOCAL RANCHMEN

The miniature chuck wagon featured in the Sunday Star-Telegram is one of the pieces of work that has taken part of the time of three of the J. A. Ranch employees for the past few months. This miniature outfit is complete in all its details, down to the cook, his pots and pans. The horse of the wrangler is possibly the most complete piece of work in the entire outfit and has elicited much praise from critics of this sort of work. The wagon and its equipment is complete to the smallest, the sacks of feed for the horses and the supplies used for the feeding of the hungry boys being in place in the chuck box at the rear of the wagon. Harness for the team is placed in the tongue of the wagon just as if the lilliputian cook had removed it from the team and left it handy. These works of art were made by Clinton Henry, bookkeeper at the ranch headquarters, Jimmie Moore, cook for the same place and W. J. Heim, keeper of the Plains Corral camp on the ranch. Spare time for more than four months was put into the manufacture of the articles, all of which are constructed on a scale of one eighth inch to the foot. The outfit will finally be placed in the University of Texas, where it will be kept as an exact model of the days when such equipment was in daily use in almost all parts of the state.

Mrs. F. T. Charlton is a guest of her daughter in Amarillo.

 for safer, more delightful travel

The illustrations of the Nash Advanced Six and Special Six Sedans, shown above, point out two very great advantages which belong to everyone who drives the Nash.

For climbing hills, going around other cars, getting away in front at a traffic start, Nash has extra power and greater flexibility, produced by the highly perfected, precision balanced, Nash 7-bearing motor, and the equally famous Nash straight line drive.

Coming down hills, driving in traffic, meeting a sudden emergency—Nash 2-way 4-wheel brakes surround Nash owners with exceptional safety. And they also require the minimum of attention and adjustment, because of their 2-way and fully equalized design.

The extra power and extra safety of Nash travel cost you nothing, as you will discover if you compare Nash prices to the prices asked for other cars. Nash leads the world in motor car value!

The older folks have nothing on the wee members of the social set these days, for nothing is enjoyed in an elaborate way that the younger ones are denied and among the more charming parties of the week numbered that of Maxine Ellis, beautiful daughter of Dr. and Mrs. T. H. Ellis, who entertained a number of her friends with a birthday party Saturday afternoon at her home in celebration of her seventh birthday. Throughout the hours from four to six all kinds of games were enjoyed by the hostess and her little guests, who were later invited into the dining room where the table was attractive and inviting with flowers and crepe paper decorations in pink. **DUDE RANCH HORSE-WRANGLER PROMISES PRINCE SAFE MOUNT**

The Prince of Wales may be a guest at a certain Dude ranch near Estes Park, Colorado, if he decides to accept the invitation of the Horse-Wrangler who has written him. This droll Westerner, was so moved by sympathy for the Prince, after reading of his last fall, that he sat right down and wrote him a letter: "Come out to Colorado," it reads, "and we'll learn you to ride a real 'hoss'. Our 'hosses' are safe for 'wimmen' and children so there's hope for you. If you can't stick on a 'hoss' to begin with, we'll start you on a 'mountain Canary'." Whether the Prince accepts or not, hundreds of vacationists will enjoy riding the mountain trails this summer. Horses are plentiful, safe and cheap to hire, and it is one delightful way to enjoy the mountains. A vacation in Colorado is one of the least expensive luxuries. Low summer fares, effective May 15th, on the Fort Worth & Denver Road are luring hundreds to the high, cool Rockies during the hot months. (17c)

**Overtake the "72"?**  
... well, hardly!

**IF CHRYSLER "72"** were merely more beautiful—if it were just an average good value—it would deserve no special consideration from the buyer.

But it clamors for his consideration and demands his attention by reason of a gauge and proof of greater value which cannot be escaped.

All cars today seek to approximate Chrysler "72" performance by patterning after Chrysler engineering. But after three years of striving, how close are they to the "72" today? No closer than they were three years ago.

As they have struggled to approach, Chrysler "72" has pulled away and gallops around and past them with more than the ease of the old original Chrysler sensation-car of 1924.

There may be pocket-book reasons for choosing cars of lesser price than the "72." There simply cannot be a valid reason for paying as much or more for any car other than the "72."

**LIGHT SHOWERS TOTAL ONE HALF OF INCH**

Showers of rain received late Wednesday night totalling a little more than one third of an inch of rainfall in Clarendon up to this morning. The cloudy condition and the further damp feeling in the air would seem to indicate that more rain was in the offing for immediate receipt. The territory around Ashtola was fairly well beaten up with hail, although the rain was possibly not so much as was received here. Indications pointed to the fact that a heavier fall was received North of the river than was had in Clarendon and immediate surrounding sections. Roads were undamaged by the rain and traffic conditions were good to the time the paper was placed on the press. The exact measurements of the rain as recorded were .35 inch Wednesday night with enough today to run the total to a half inch.

**A. T. WELL CONTINUES JOB OF BUCKETFISHING**

Almost all efforts proving unavailing, the crew in charge of the work at the A. T. Well are following all known tactics to secure the parts of the bailer that was hung in the well with about six hundred feet of cable some two weeks past. A part of the cable has been recovered and supplies were ordered out of Pampa Tuesday of this week to continue in the search. Mr. Reynolds is spending a goodly part of his time at the well and from all indications the drillers are expecting to run into something in a very short time.

**LOCAL RECEIVING SETS TO TUNE IN ON LION PROGRAM**

Four downtown receiving sets will be tuned in on the Lions International Broadcast for the Blind on Saturday evening of this week. These will be in addition to the many sets in homes of the county that will be available for the reception of the program. A chain of forty stations over the nation are available for the reception of this program, which is to begin at 9:00 P. M. and which will continue for one hour. Choice of Davenport, Des Moines, Omaha, Kansas City, Denver, Tulsa or Dallas will probably provide the best reception for local sets. Anna Case, Milt Gross, Harold Bauer, Edwin Grasse and John B. Kennedy are those who have already signified their plans for attending and taking part in the program. In the business section of the city, the following places of business will receive the program: Will C. McDonald, Douglas and Goldston and Goldston Brothers, and H. C. Kerbow & Sons. Homer Mulkey has made arrangements to receive the program in the Pastime and the picture and program may be enjoyed simultaneously. Any blind person is especially urged to be present.

The first of a series of band benefits will be given next Monday and Tuesday nights at the Pastime Theater. Tickets are 40 and 10c and the proceeds will go towards taking the local band to the West Texas Chamber of Commerce convention at Fort Worth in June. It is hoped that these benefits will be liberally supported and that enough will be realized from them to obviate the necessity of a donation on the part of any one to take the band to the meeting. The program will consist of the usual picture together with a short band concert, a song program by the "barber shop quartette" and other features probably a negro string band. Be there and buy a ticket.

Get ready to number your house as the men that are here to do this work will start Wednesday of this week. The cost is very cheap, only 40c per house. Do your part to make this city a city. In case of fire your house will be very easily located if you give the street and number. When this work is completed Clarendon will get free delivery of Mail.

Don't forget the yard contest! Enter your yard at once. Help make the city more attractive. You will do the work anyway why not get a prize for it.

Wheeler county again votes for hard surface roads. We hope the election was legal this time. We want the roads but we want them honestly.

**CHICKENS SAVED THE DAY**

By F. W. Kazmeier, Bryan, Texas.

In the January issue of Poultry Tribune, a true story goes as follows: "When the Kintner farm was facing bankruptcy, with failure threatening to engulf them, the Kintners turned about and staked their future on chickens. Soon after the war prices dropped, we lost heavily on 80 head of cattle during the period of deflation. Then our bank failed and my savings accumulated from 12 years of school teaching vanished. Almost bankrupt, we turned to chickens to face the crisis. All this happened in 1919. I began studying the poultry business, and ordered some pure-bred S. C. White Leghorns from good laying stock. Blood always tells. High production stock has proven its value to us. Last year we had 1200 pullets, and approximately 1100 hens and secured a 185 egg average on the whole flock. We will approximate that this year, and egg sales amounted to \$6,140.00 in 1923 and our average number of hens 1182. It is hard to tell just how much is profit on this place where feed is bought in large amounts for hog, poultry, sheep and cows, and I haven't been able to keep a satisfactory separate feed account. Last Year however, I kept a feed record and found that each hen gave a margin of \$3.35 above feed costs. Chickens have made our fine new home possible and are also making it possible to build that new hatchery building, the foundation of which you see over there. As a whole it is safe to say that the profits are used for the upkeep of the farm and to increase the business. Paul Smith clears \$20,000.00 a year from 3,000 hens on 12 acres. Here is another poultry success story from Poultry Tribune: "In June 1st 1919 we had 350 layers and in June 1926, seven years later we have approximately 5,000 layers, and we have raised 16,000 baby chicks. We hatched 90,000 baby chicks from our own eggs. When asked for more details concerning the profit he was making, he replied, "well, I make a pretty good living", he answered. "My gross income in 1925 according to my income tax report was \$25,657.14 from an average of 3,000 birds. This makes a gross income of \$8.50 per bird, and a net income or profit above feed cost of \$6.70 per hen. This of course does not include interest, depreciation and a few other small items. From January 1st to July 31st 1925 our gross income was \$19,039.88. From January 1st to July 1st, 1926 our gross income has been \$28,994.42. Part of this increase in income is due to our baby chick business. Last year our gross income the baby chick business amounted to \$5,998.50, while this year our baby chick business made a gross of \$10,015.30. Another big part of the increased income is through egg sales. Last year our egg sales for the first six months amounted to \$3,668.34 while this year our egg income for the first six months amounts to \$8,557.14."

It is true that we cannot all be a Paul Smith. We cannot all do as well. Paul Smith seven years ago started with nothing. To-day he lives in a beautiful home. He has a fortune of \$70,000.

**TEXAS DEMOCRATS PLAN CONTINUANCE OF REASON**

Threats and boasts of intention to bolt the democratic ticket under certain circumstances have virtually ceased since the organization of the Democrats of Texas in the Harmony meeting in Dallas. But the organization is determined to carry on its campaign of reason with the voters. It expects to continue to show the voters that no single issue or person of today is big or important enough to justify wrecking the party for all time.

The issue before the democratic voters of Texas is whether the party shall be dominated by men and women who follow the flag and support the nominee. It is on that issue that the Democrats of Texas expect to carry on their campaign until the Beaumont convention.

The tenets of the Democrats of Texas are strictly democratic as Thomas Jefferson defined democracy. If a majority of the Democrats favor prohibition then all of them will support a prohibition plank in the national platform. If a majority of the democrats favor a dry candidate for president all will support that candidate. They pledge themselves to support the will of the majority of democrats, whatever that will may be. In other words, they put the party first in party matters.

So sound is their position that Thomas B. Love and his co-leaders of the Constitutional Democrats have almost ceased active resistance. Love has agreed to the selection of Governor Dan Moody as chairman of the Texas delegation to the Houston convention, and says he is advising all his followers to take the pledge. But he adds that he tells them to be guided by their consciences later.

With headquarters in Houston and organizations in every congressional district in the state the Democrats of Texas will go ahead with their plans to present to the voters the logic and sound reasoning of their position and urge their cooperation. They are urging the counties to send delegations to Houston favorable to the resolution adopted at Dallas. They promise that such a delegation will reflect and represent the will of the people of Texas, and will be in a position to gain advantages for Texas and the causes Texas has at heart such as no hog-tied delegation could command. Governor Moody believes such a delegation could be highly effective in getting a dry plank in the national platform.
