

Good Rains Past Week Brighten Prospects

DONLEY DROUGHT PLANT BUILDING BROKEN FRIDAY

THREE INCH RAIN BREAKS NINE MONTHS DROUGHT AND CAUSES GOOD FEELING

Starting shortly before midnight last Friday, a rain that was general all over Donley County and which extended many miles in all directions from Clarendon fell the remainder of the night and almost all Friday.

The rain fell in such a manner as to allow the greater part of it to soak into the ground with a minimum left to run off into the lakes and other water courses of the county.

The action of the water in the ditch passing through the city here will be of considerable interest to the residents of the town and to those who have watched the work as it was started and finally finished.

As planned, the water will pass over the flood street, Gorst, before the level of the water has reached the top of the ditch.

The force of the water was such that a great body was backed up on the South side of the railroad and overflowed the tracks for some distance until the main body of water had passed.

Some of the men of the county who had planted crops in the dry ground the week before the rain fell are now glad that they took the action they did and that their crops will now proceed as if nothing had happened to them.

Mr. and Mrs. W. T. Lowe and daughters, Misses Thelma and Mary, are visiting in Dallas and Port Arthur.

CITY SURVEY TO BE MADE SOON

GAS ENGINEERS TO BE HERE FOR FIRST WORK ON STREETS NEXT WEEK

Mr. Upham of the Upham Gas Company was in Clarendon the fore part of this week for a short conference with officials of the city and others who are most interested in the gas matter for the city.

A plat of the city was obtained and the engineers stated that they would be here some time next week to start on the first survey of the city.

They further stated that gas would be in the city before the cold weather of the year set in and that the franchise would be good standing by a thirty day margin.

Miss Elon Aiken of Lipan and Miss Lucy Aiken of this city arrived in Clarendon Friday, after spending several weeks in Colorado.

PLANT BUILDING PLANS RECEIVED

NEW STRUCTURE TO HOUSE LOCAL EQUIPMENT OF CENTRAL POWER AND LIGHT CO.

The Clarendon office of the Central Power and Light Company is in receipt of the glad tidings that a new structure is to be placed on the site of the present power plant.

As called for in the plans and specifications, the building is to occupy the site of the present structure and it is to be constructed of concrete, brick and steel and is to be roofed with an asbestos roof.

The structure is to be started as soon as the contractor winning the job can make his plans and get the necessary materials on the ground.

Mr. and Mrs. Richard Hughes, who returned the latter part of last week from their wedding trip through Colorado, spent a few days here in the home of Mrs. Hughes.

Mrs. A. C. Bural and daughters Miss Esther and Mrs. Leroy Spangler visited friends in Clarendon Monday of this week.

SIX ENTRIES IN YARD CONTEST

SECRETARY BOYKIN URGES OTHERS TO COMPETE FOR YARD BEAUTIFUL PRIZES

Although six yards have already been entered in the Yard Beautiful contest and several others will probably be added this week, following the recent rains, Secretary G. L. Boykin of the Chamber of Commerce says that he and other members of the organization are anything but satisfied with developments.

The Clarendon Chamber of Commerce fostered the contest and offered three liberal prizes at a practical means of increasing the attractiveness of the city.

O. C. Watson attended to business in Amarillo Wednesday afternoon.

Mrs. Charles Heiser and little grand-daughter, Mary Kate Bourland, of Amarillo are guests of Mrs. Heiser's sister, Mrs. Cleo Keys.

Mr. and Mrs. Horace Westmoreland and children of Amarillo were guests in the home of Mrs. Westmoreland's parents, Mr. and Mrs. T. P. Connally, last week end.

Miss Sanford Daughtry Young of Fort Worth is the guest of Mr. and Mrs. Allen Bryan and her grandmother, Mrs. J. P. Manly. She arrived Sunday.

Mr. and Mrs. Lawrence Whitlock and the latter's niece, Miss Flossie Gonzales, of Shreveport, Louisiana are guests of Mr. and Mrs. Frank Whitlock. The Messers Whitlock are twin brothers.

WHITE MOTOR COMPANY TO OPEN SATURDAY

The Clarendon News has it from Horace Bascom White that the new Chrysler garage on the corner of Second and Gorst will be opened to the public next Saturday.

Mrs. M. E. Thornton returned home Friday evening from Dallas, where she has spent the past several weeks in the home of her daughter, Mrs. Lee Douglas.

Holis Spiller of Childress attended to business in Clarendon Thursday.

SCHOLARSHIP IS DISCUSSED TUES.

LIONS ALL IN FAVOR OF CONTINUATION OF LOAN FUND FOR WORTHY STUDENTS

The Clarendon Lions were favored with a number of guests in their luncheon Tuesday of this week. Rev. L. O. Lewis, Earl Alderson, James Patman, Jr., and Harry Guiberson were those who assisted in making the luncheon pass merrily.

A number of matters of more or less interest were discussed by the Lions and very little was done in the manner of business.

The rabies scare that was had here some weeks past was mentioned and it was stated that the matter was under control and that none of the citizens should become frightened over the final outcome.

Lion Garrison made the announcement of the new power plant for Clarendon and was more than well received by the membership.

Some discussion was had on the water and gas situations as they now stand in the city with the announcements being well received by the members and assembled guests.

The machinery being used on this job is practically all new, and is in fine shape. Judge A. C. Hoffman and County Engineer C. L. Hasie express themselves as being highly pleased with the equipment and the men that are doing the work, and feel confident that a real first class job will be done.

Most all the men employed on this paving job are local men which will be a great help in providing employment for many of our citizens.

VISITOR READS AT STORY HOUR

MISS HAMILTON OF FT. WORTH GIVES READINGS BEFORE MANY CHILDREN

Miss Mary Hamilton, an expression teacher in the schools of Ft. Worth and an accomplished reader, entertained at the Pathfinder Story Hour, Tuesday evening, with a number of readings suitable for children.

Miss J. L. McMurtry, Mrs. W. C. McDonald, Mrs. James Hoardrick, Mrs. Richard Wilkerson, and Mrs. Walker acted as sponsors for the evening.

The Pathfinder Club sponsors of the Story Hour, extends a cordial invitation to all children under twelve, to attend the program at seven o'clock each Tuesday evening. The Story Hour is held on the grounds of the Central Ward School, under the supervision of a reliable sponsor.

WET WEATHER IS HIWAY HINDRANCE

GOOD PROGRESS BEING MADE ON PLATING ROADS WEST OF CLARENDON

Work that was halted the latter part of last week and the fore part of this week by rains was taken up Wednesday of this week and will be rushed to an early completion date.

Following the completion of this work in the Western part of the county, there is some work that is to be done in the section near Hedley.

Misses Geocelia and Adeline Atteberry left today for a month's vacation on the Pacific Coast and other cities in California.

The V. P. Strange Construction Company of Salt Lake City, Utah, under the supervision of R. C. Myers began pouring concrete Wednesday on state Highway No. 5, which marks the beginning of 13 1-2 miles north of the Donley County line 2 miles northwest of Memphis and running to Red River, southeast of Memphis.

BEGIN ROAD WORK IN HALL COUNTY

WORK BEGINS ON 13 1-2 MILES BEGINNING AT LINE OF DONLEY COUNTY

The V. P. Strange Construction Company of Salt Lake City, Utah, under the supervision of R. C. Myers began pouring concrete Wednesday on state Highway No. 5, which marks the beginning of 13 1-2 miles north of the Donley County line 2 miles northwest of Memphis and running to Red River, southeast of Memphis.

Forms have already been set for about 1,600 feet, and it is estimated that between 600 and 800 feet of concrete will be poured each day.

The machinery being used on this job is practically all new, and is in fine shape. Judge A. C. Hoffman and County Engineer C. L. Hasie express themselves as being highly pleased with the equipment and the men that are doing the work, and feel confident that a real first class job will be done.

Most all the men employed on this paving job are local men which will be a great help in providing employment for many of our citizens.

WILLIE MARTIN BURIED HERE THURSDAY, JULY 28

Funeral services for Willie Martin, twenty-five year old son of Mr. and Mrs. A. G. Martin of the Martin Community, were held Thursday afternoon, July 28, at the Buntin Funeral Parlor.

Willie Martin was born in Terral, Oklahoma, in 1902. The family moved to Donley County about four years ago and has lived in the Martin Community, West of Clarendon, since that time.

Mr. and Mrs. E. W. Wilson of Muskogee, Oklahoma left Sunday, after a short visit with Mrs. Wilson's mother, Mrs. Mollie Hodges. Mrs. Hodges leaves today to spend a month with Mr. and Mrs. Wilson.

NOBLE FAMILY RETURNS FROM COLORADO OUTING

Mr. and Mrs. M. M. Noble and children, Peggy Jean and Joe, returned Sunday from a ten day's outing in Colorado. Mr. Noble also attended the rodeo at Cheyenne, Wyoming.

A. M. King has returned after spending a two weeks vacation in Gould, Oklahoma, Dallas, and other points.

Warren Kennedy of Wichita Falls spent several days with his parents, Mr. and Mrs. Will Kennedy of Lelia Lake. He spent Sunday here with his aunt, Mrs. T. B. Lumpkin.

Mrs. P. W. Turner and children of Wilkins, Oklahoma, are visiting Mrs. Turner's brothers, C. G. and Ed Speed, and their families. They arrived Tuesday evening.

NEGRO SUSPECT HELD FOR PROOF

IS SUSPECTED OF MURDER OF DONLEY COUNTY FARMER LATE IN JUNE

Close on the heels of the offer of the Governor of Texas of a \$200 reward for the apprehension of the murderer of Frank Weatherby and family the latter part of June, comes the announcement that the stolen car has been recovered in Chicago.

SHREVEPORT, Aug. 3.—The mystery of an entire Donley County family, Frank Weatherby, his wife and two small children may be solved by the arrest here of a negro, giving his name as James Rucker. The negro was armed when arrested. He was captured by officers following a description furnished by Shelby Dozier, another negro charged in the murder.

Finger prints and photographs of the prisoner will be sent to Clarendon for identification and officers believe that something definite will be determined in the case.

The murder for which the negroes are held was committed on June 24, last. The day of the tragedy Shelby Dozier and his wife, who had been working for the Weatherbys' disappeared in the Weatherby car. Large rewards have been offered for their capture.

Dr. and Mrs. J. T. Griswold returned the latter part of last week from Denver, Colorado, where they had spent two weeks as guests of Dr. and Mrs. Hubert Seale. Mrs. Seale is their daughter.

Mrs. Eva Rhode, her daughter, Miss Norma Rhode, and her son, J. P. Rhode, Mrs. George Reed and little daughter, Gertrude, returned last Thursday afternoon from a pleasant trip to Carlsbad Caverns in New Mexico.

TEXANS OPPOSE ALL AMENDMENTS

ALL AMENDMENTS MEET DEFEAT BY BIG MAJORITY IN ELECTION MONDAY

Overwhelming opposition buried the four proposed constitutional amendments voted on by Texans Monday. Of 189 counties reported, 26 of them being complete, but two favored the amendments, which would have changed the judicial system, increased salaries of state officers, abandoned the fee system, and change the system of taxation.

With apparently no more interest in the making of returns than was manifested at the polls yesterday, but 105,952 votes were accounted for Tuesday night. But the vote was so decidedly against the amendments that those outstanding in the 253 counties in Texas could have little effect on the result when the ballots are officially tabulated.

Table with 3 columns: Item, For, No. Includes Judiciary (21,214 For, 83,922 No), Taxation (12,014 For, 92,944 No), Fees (17,443 For, 87,687 No), Salaries (17,313 For, 86,639 No).

17 CERTIFICATES AWARDED MASONS

W. S. TATE EXAMINES THE LARGEST CLASS IN HISTORY OF LOCAL LODGE

Seventeen Masons, forming the largest class to be examined in the local lodge, passed the examinations for first year certificates or renewals at the certificates school which was conducted here last Friday and Saturday by W. S. Tate of Hamilton, representing the Committee on work.

Mr. Tate commended the Panhandle Certificate Men's Association most highly for keeping the Masons in this section of the country so well posted on the work, complimenting P. B. Farley of Groom and Homer Mulkey of Clarendon, in particular, for their work in keeping the Association together.

Those who received certificates or renewals were as follows: P. B. Farley of Groom, John Fraser of Boydston, A. Monroe of Shamrock, A. G. Powell of Memphis, A. M. Shelton and Ross Gee of Estelline, J. K. Cowan of Hedley, J. M. Strong and L. M. Fulcher of Wellington, L. C. Gorton of Borger, H. Mulkey, J. W. Bond, H. B. Kerbow, Doss Palmer, Elmer Palmer, C. E. Kilgough, and M. T. Howard of Clarendon.

Rev. and Mrs. J. H. Hamblen and family of Stamford, accompanied by a married daughter from Crowell, stopped in Clarendon Tuesday morning for a short visit with friends. They were en route to Pampa, where they are visiting Mr. and Mrs. Kelly Hamblen.

MARRS TO SPEAK TO COUNTY BOARD

STATE SUPERINTENDENT TO EXPLAIN NEW LAWS AT MEETING AUGUST 12TH

S. M. N. Marrs, State Superintendent of Public Instruction, will address the County Board of Education at the regular meeting of that body, to be held in the District Court room at Clarendon, Friday, August 12th. Mr. Marrs, who is a strong advocate of the county board system, will conduct the meeting in accordance with his ideas of the best methods of holding such sessions.

County Superintendent urges that trustees of all the districts, as well as members of the County Board, attend the meeting. All interested patrons are also given a special invitation to be present, for Superintendent Marrs will make an instructive talk and give some very valuable help to those interested in any way in public education.

Mrs. R. I. McGowan and daughter, Fannie, who have been away almost two months, returned home Sunday. While they were gone, they visited in Tyler, Mt. Sylvan, Henderson, New Salem, and Glendale.

Miss Elizabeth Alexander of College Station arrived Tuesday noon, to visit in the home of her parents, Mr. and Mrs. R. H. Alexander. Miss Alexander is a librarian at A. & M. College.

Mr. and Mrs. Herbert Bural returned the fore part of the week from a visit of some six weeks in Central and South Texas. They will spend a part of the remainder of the summer in Amarillo.

Mrs. Sam G. Darden of Vernon spent the week-end with her mother, Mrs. Emma Weatherly.

Mrs. G. L. Boykin returned home Friday evening, from a visit of several weeks with relatives in Ft. Worth and points in East Texas.

LAST MUSTER OF COMPANY H. SAT.

LOCAL NATIONAL GUARD COMPANY FAILS TO FIND COMMANDER IS DISCHARGED

After making one of the most hectic and highly colored records ever made by a National Guard Company, Company "H" of the Texas National Guard, 148th Infantry, was mustered out Saturday of last week and the equipment and other supplies of the company will be shipped to Austin. The work of shipping the material of the company is going forward this week after all other details have been completed and the men issued their discharges and set free.

Organized in the early part of the late war, the company stayed in Clarendon for a time before entraining for Camp Bowie. Late in the war they were sent overseas and had a brilliant record in the fighting that marked the close of the war. On returning to this country, the boys were demobilized and the original members were scattered to the four winds of the country.

Later the company was reorganized under the National Guard and as a company has seen many hard tussles with the camps and other work they have done. Company "H" was one of the companies that stood guard during the strike at Denton. Few of the late members of the company were in the original command. Three men have had charge of the company since its organization. These are George Taylor, Nat S. Perrine and Chas. E. Trent. During his command of the company here, Perrine was Captain, but was later raised to the rank of a Major and is now Regimental Gun Instructor.

The majority of the camps were held at Camp Mabry at Austin, but other towns were used as seen fit. The camp at Galveston was marked with the local company winning all possible honors in Machine Gun competition, having broken all previous records for speed in assembling a machine gun. It was during this camp that Loran Naylor established an unofficial record for assembling a gun in short time. The camp men that put the final touches to an otherwise lengthy career. The boys were not the least envious of the camp and the company lost interest from that date until the number who were enlisted was very small.

The final muster was had under the guidance of Captain Irwin Boyd of Bowie, who was sent here by the Adjutant General's Department at Austin. Captain Trent has made no plans for the future and it is not known whether he intends remaining in the service in another capacity.

Rev. and Mrs. F. T. Charlton had as guests last week end: Mr. and Mrs. G. W. Charlton of Walter, Hill, Tennessee, Mr. and Mrs. Byron Charlton and two children of Pine Bluff, Arkansas, Mrs. Howard Sanders and little son of St. Louis, Missouri. Mr. and Mrs. Howard Charlton and two children of Hollis, Oklahoma, spent Sunday afternoon here. G. W. Charlton is a brother of Reverend F. T. Charlton.

WATER WELL IS BEING TESTED

ENGINEER IS HERE FROM COMPANY MAKING INSPECTION OF DEVELOPMENT HERE

One of the chief engineers of the company that is making the new water well for the city of Clarendon was here the fore part of this week making a series of tests on the well. As reported last week, the well is proving to be a great deal better than had been expected and the supply seems to be very good from the strata that has been encountered.

The two starts of water that have been tapped by the well are passed through at a level of 140 feet, with an air chamber extending this same depth below the bottom of the final water start. An air pump is being used to extract the water from the well at the present time, but this will be superseded by a different style pump when the well is completed. A little difficulty has been met in the progress of this well in that a new form of sand has been encountered. This is being met with good success and no more difficulty is expected from this date forward.

Good rains in Dealey County. It always does.

Donley County farmers are smiling over the bountiful rains of Thursday, Friday and Sunday, but they haven't got anything on the town folks. Good cheer is written on every countenance, and everybody is preparing to make the best year possible out of 1927.

Since the rains have come there ought to be a great increase in interest in the most beautiful yard campaign fostered by the Chamber of Commerce. Grass and flowers took on new life over-night and most of us are already flirting with the lawn mower.

Since our people have been more economical ever since last fall, The News predicts that the country will face January 1st, 1928, in much better condition than we faced last New Year's Day. It isn't how much you make, always—it's how much have you spent.

Near three inches of rain fell all over Donley County and neighboring communities last Thursday night and Friday, and while it would have been worth much more thirty days earlier, yet it will prove worth hundreds of thousands of dollars, and will be amply sufficient to keep intact Donley County's record of thirty-six years without a crop failure.

PROSPECTS BRIGHTER FOR FIRST YEAR OF JUNIOR COLLEGE

It took just about all the optimism and grit that the board of trustees of Clarendon Independent School District had to seize the opportunity to buy a part of the old Clarendon College property and launch a municipal junior college this year in the face of the prolonged drought. But men of vision always have optimism and grit, so plans for the opening of the new school have gone steadily forward in spite of all temporary conditions, and the Clarendon Junior College will open September 5th with the united support of the citizenship of this community and the well-wishes of the entire Panhandle.

Now the rains have come and the prospects have enhanced nearly fifty percent for the success of the first session, whereas it was problematical as to whether the first year would pay its own way. This writer heard one substantial citizen of Donley County say the day after the great rain of last week, that where he could not have patronized the Junior College the day before, he was now ready to become a patron. Thus it is over the country, and cheering news is heard from many of our neighboring cities where parents are planning to take advantage of the two years' college work offered so near home and under such ideal conditions.

Yes, prospects are much brighter for the success of the Junior College for the very first year. The rains, the optimism and the grit of the people of this section did it.

Clarendon Junior College has come to serve and to be "permanent".

The ideal life is in our blood and never will be still. Sad will be the day for any man when he becomes contented with the thoughts he is thinking and the deeds he is doing—where there is not forever beating at the doors of his soul some great desire to do something larger, which he knows that he was meant and made to do.—Phillips Brooks.

Now if the legislature will submit to the people a simple understandable amendment to the state constitution raising the governor's salary to ten or twelve thousand dollars a year, it will pass by a heavy majority. The trouble is with many worthy amendments that they come from the hands of the legislature weighted down with too many provisions worded in heavy and unwieldy rhetoric.

Along with other progressive citizens of Clarendon The News has steadfastly stood for a more adequate water supply, more paving, a new depot, a new hotel and natural gas. All these things are being realized in 1927, which opens up the way for still greater development. One plank in our platform we have not been able to realize and that is the city auditorium, however, the need is becoming more apparent all the time and 1928 calendars are already printed. A good 1927 means a better 1928.

William Randolph Hearst is a smart man. When he needed a man to be publisher of the Washington Herald, he reached way down in Texas and selected Hon. Will C. Edwards of the Denton Record-Chronicle for the job. Mr. Edwards is the man that ought to have been lieutenant-governor instead of Barry Miller—and would have but for the unfortunate Ku Klux issue—and is one of the outstanding editors and citizens of Texas. Edwards' going is a loss to Texas but his many friends wish him all success in his advancement.

The biggest smile of the recent campaign for and against the proposed amendments to the state constitution was the grand-stand play of Old Jim Ferguson. He waited until he found the sentiment over Texas overwhelmingly against the four measures, then he grandly announced his opposition to them all and took a shot at Dan Moody for favoring them. Now he'll probably claim that the state is for him against Dan, because the voters followed their own judgement in the matter in snowing them under like they did. It is to laugh.

Commenting on what this column had to say about the need for one or more city parks in Clarendon, before the next great boom in this section causes real estate to go much higher, the Amarillo News, speaking out of their own experience, says it is a matter of far-sightedness to provide the parks at an early date. We may never grow to the proportions of Amarillo, but even a doubling of Clarendon's population would greatly increase the difficulties of securing properly located park sites. 1927 would be a mighty good year in which to secure one or more parks for our city.

HOW ABOUT THIS, BOYS?

A man at the head of one of our largest business concerns said to me yesterday: "I am needing a young man for a responsible position in our business and I had in mind a certain young fellow and have been watching him very closely. I have asked a policeman to report to me if he sees him up town late at night and if so what he appears to be doing. My son who is about the young man's age is also keeping tab for me, so far I have not found one improper action and I think I shall send for him in a few days. He applied to me some 60 days ago for work." I was just wondering if young men and boys know just how closely they are watched? I know one boy who lost his chance not long since to secure a good job because the man who had the job to give heard the boy use profanity on a street corner.—Homer M. Price, in The Marshall Morning News.

Will C. Edwards

Will C. Edwards of Denton, editor of the Denton Record-Chronicle and widely known in Texas newspaper circles, left for Washington, D. C. last week to become publisher on Aug. 1 of the Washington Herald, morning and Sunday newspaper. Starting with the Denton paper thirty-two years ago, Mr. Edwards has built it up from a weekly to one of the best small city dailies in Texas. He also has been intimately connected with the rebuilding of the newspaper profession in the State, having served as president of the Texas Press Association, and was one of the founders and the first president of the Texas Daily Press League.

In addition to this newspaper work, Mr. Edwards has taken an active interest in Rotary Club work, and only recently ended a term as Rotary governor of the West Texas district. He attended the International Convention of Rotary at Ostend, Belgium, in June and had charge of the publicity of the convention for North America.

Mr. Edwards served in the Thirty-eighth Legislature from Denton County and was in the run off for Lieutenant Governor three years ago.

Bill Nebbitt of Clovis, New Mexico was the guest of Dick Cooke last week end.

begins with the hair

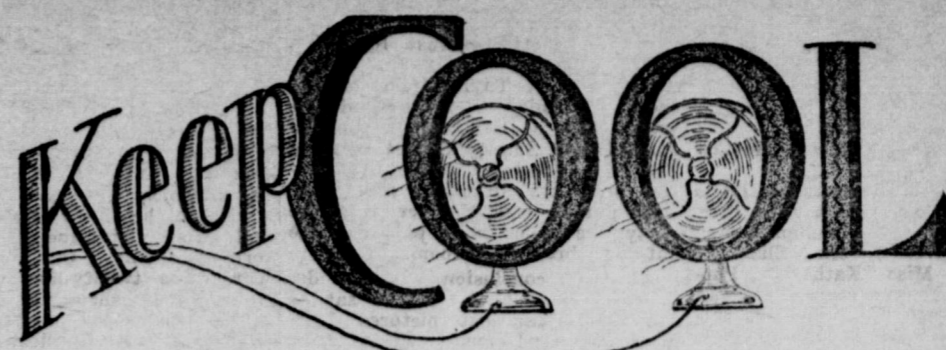

THE CARE OF YOUR HAIR

This is a most important consideration. Slovenly kept hair detracts from one's personal appearance more quickly than any other bad habit. Do not forget that beauty begins with the hair. Let us care for it along scientific lines and you will always look well groomed and attractive. Why not come to us today for that needed treatment.

Miss Elizabeth Hallway is Complimented in Picnic Monday

Miss Elizabeth Hallway of Dallas who is the guest of her brother, Louis Hallway, was complimented in a picnic given by Miss Elizabeth Morris and Miss Katherine Patrick at the Morris Ranch, Monday evening. A horse back ride was followed by a camp fire supper.

Those attended this enjoyable affair were: Mr. and Mrs. Wiley Morris, Mrs. T. B. Lumpkin, Miss Hallway, Miss Mae Lumpkin, the hostesses; and Harold Bugbee, John Sherman Bugbee, Collis Stocking, and Louis Hallway.

Younger Set Has Picnic at Country Club Saturday

Supper cooked over a camp fire and a refreshing swim were features of the picnic given by several members of the younger set at the Country Club, Saturday evening. Mr. and Mrs. F. L. Stallings and Miss Fray Stallings chaperoned the party, which was composed of the following: Miss Cecilia Atchberry, Miss Jane Killough, Miss Lois Alexander, Miss Martha Alice Moore, Miss Helen Bailey, Miss Gwenn Youngblood, Miss Julia Taylor; and Kenneth Kerbow, Billie Wickline, Abe Cole, Jr., Ross Harwood Beville, William Wilder, Andrew Reavis, J. P. Rhode, and William Green.

Mrs. Smith and Mrs. Mayes Entertain at Luncheon

Mrs. B. G. Smith and A. A. Mayes entertained Monday with a luncheon at the latter's home. A pink and white color scheme was used with charming effect on the table, a bowl of sweet peas being used as the centerpiece. A four course luncheon was served, after which the guests spent the afternoon in games of forty-two.

Those present at this delightful affair were: Mrs. J. T. Griswold, Mrs. G. L. Boykin, Mrs. H. B. Kerbow, Mrs. John Watts, Mrs. C. C. Powell, Mrs. G. B. Bagby, Mrs. Sam M. Braswell, and Mrs. D. O. Stallings.

Mrs. Clarence Whitlock and Miss Lucille Goldston are Hostesses at Bridge, July 28

A much enjoyed affair of this week was the party given by Mrs. Clarence Whitlock and Miss Lucille Goldston at the home of the former's mother, Mrs. Otis Barnes, Thursday afternoon. Bridge was played at three tables, by the following guests: Mrs. Leonard C. Parker, Jr., Miss Ada Benson, Miss Athlynn Taylor, Miss Bessie Butler, Miss Lorraine Lock, Miss Mildred Martin, Miss Letta Verne Martin, Miss Clintie Phillips, Miss Dorothy Hays of Clarksville, Miss Josephine Crabtree, Miss Obie Crabtree, Miss Sarah Williamson.

Favors in the game went to Miss Patrick for high score and Miss Hayes for consolation. At the conclusion of the game, a two course luncheon was served.

Mr. and Mrs. P. B. Gentry Entertain at Country Club

The Dinner-Bridge Club enjoyed a pleasant diversion from their usual program when Mr. and Mrs. P. B. Gentry entertained with an informal dance at the Country Club Thursday evening. A four piece orchestra furnished the music, and the guest list included the following: Mr. and Mrs. O. L. Jenkins, Mr. and Mrs. Holman Kennedy, Mr. and Mrs. Selden Bagby, Mr. and Mrs. Meredith Gentry, Mr. and Mrs. Sam Dyer, Mr. and Mrs. Homer Ellis, Mr. and Mrs. John Ryan, Mr. and Mrs. Charles Trent, Mr. and Mrs. Charles Bell, Mr. and Mrs. Richard Bell, Mr. and Mrs. Dorr Ellis, Miss Dorothy

Hays of Clarksville, Miss Pauline Stewart of Norman, Oklahoma, Houston Bell, and R. H. Muir.

Mrs. C. W. Taylor Gives Sunrise Breakfast for Class

Mrs. C. W. Taylor gave one of the very delightful affairs of the week when she entertained the Always Ready Sunday School Class of the First Baptist Church at a sunrise breakfast Tuesday. Her beautiful garden was the scene of the party, the tables being placed in the out-door breakfast room.

At the conclusion of the delicious breakfast, the guests sat at the tables and cut pictures from magazines and made scrap books for the children's ward at Baylor Hospital and the sick room of the Buckner's Orphan's Home, both of which are in Dallas.

Besides a large number of members present, the guest list included Mrs. Joe Goldston, superintendent of the Intermediate Department of the Baptist Sunday School, and Miss Martha Ratcliff, former teacher of the Always Ready Class.

Mrs. G. B. Bagby Entertains at Dinner, Honoring Mrs. Powell

Honoring Mrs. Fanni Powell of Houston, who is spending the summer with relatives in this city, Mrs. G. B. Bagby entertained with a dinner of unusually pretty appointments Tuesday. A yellow and green scheme was developed in the centerpiece of daisies and the individual favors, which were tiny potted plants made of colored paper. A gift to the honor guest was also in these colors.

Covers were laid for twelve, who were as follows: Mrs. Fannie Powell, Mrs. C. C. Powell, Mrs. J. R. Porter, Mrs. F. G. Patching, Mrs. J. T. Patman, Mrs. T. F. Connally, Mrs. James Trent, Mrs. W. H. Martin, Mrs. Walter Taylor, Mrs. A. A. Mayes, Mrs. B. G. Smith and Miss Nora Hendrick.

A three course dinner was served after which the guests played bridge or forty-two, or visited.

Miss Martha Ratcliff, Bride-Elect, is Honoree at Party

Miss Martha Ratcliff, bride-elect of C. B. Groves of Matador, whose marriage will take place August 17th, was honoree at a delightful surprise party and shower which was given Tuesday afternoon by her sister, Mrs. E. O. Barnes. A bride's cake was cut and served with punch, and each guest wrote a message in a "Wish Book". An informal program, consisting of piano solos by Miss Margaret Goldston, Miss Irene Parker, and Miss Pauline Shelton, and a reading by Mrs. W. C. Stewart, was much enjoyed. The gifts were presented to the bride in a basket carried by Mrs. Barnes tiny daughter.

The guests for the occasion were: Miss Ratcliff, honoree, Mrs. W. C. Stewart, Mrs. Paul Shelton, Mrs. J. L. Allison, Mrs. J. S. Cauthen, Mrs. Clarke Alexander, Mrs. W. B. Bond, Miss Naomi Allison, Miss Margaret Goldston, Miss Irene Parker, Miss Pauline Shelton, Miss Mary Wood Lane, Miss Thelma Miller, Miss Nellie K. Barnes, and Miss Delia Barnes.

Miss Elizabeth Sawyer Honored in Farewell Party, 22nd.

Before leaving for Long Beach, California last week, Miss Elizabeth Sawyer was honored with a progressive party which was given July 22nd by a number of her friends. Miss Lillian Murphy was hostess to the party for the cocktail and main course at dinner. From her home, the party progressed to the home of Miss Willie Mae Stewart, where the salad and dessert courses were served. The group then went to a movie, and later danced at the home of Miss Beth Davis. The girls spent the remainder of the night at the home of Miss Betty Weatherly, playing bridge until the wee small hours.

The guest list included: the honorably, Miss Willie Mae Stewart, Miss Lillian Murphy, Miss Thelma Youngblood, Miss Beth Davis, Miss

Little, Tommy Allison, Walter Mark Emmons, Tom Bugbee of Long Beach, California, Rufus White, and Derwood Skelton.

Miss Stocking and Miss Cole Compliment Bride with Party

Mrs. Clyde I. Price, who before her marriage to Mr. Price on July 23rd was Miss Anne Myra Bennett, was complimented in an informal party which was given Wednesday afternoon by Miss Mary Stocking and Miss Catherine Cole, at the former's home. On this occasion, more than twenty-five friends who were guests showered the popular bride with gifts for her charming new home. Each guest also registered in the Bride's Book and wrote a favorite recipe in a dainty little cook book.

The afternoon was pleasantly spent in conversation and in opening the numerous packages. Punch was served with little cakes.

The guest list included: Mrs. Clyde I. Price, honoree, Mesdames C. W. Bennett, J. D. Stocking, A. T. Cole, James Trent, W. H. Martin, J. T. Sims, Harry Brumley, Joe Goldston, G. B. Bagby, Selden Bagby, Charles Trent, Sam Dyer, Homer Ellis, L. B. Merrill, Charles Bell, Clyde Douglas, and Meses Ruth Price, Fannie Florence Sims, Elizabeth Alexander of College Station, Katherine Patrick, Elizabeth Stevens, Athlynn Taylor, Naomi Allison, Letitia Sawyer, Mary Cooke and Willette Cole.

Miss Ruth Patching Becomes Bride of C. L. Craig, Jr., in Quiet Wedding at Clayton, N. M.

Miss Ruth Patching, youngest daughter of Mr. and Mrs. F. G. Patching of this city, became the bride of Charles Lawton Craig, Jr., of White Deer, in a simple ceremony which took place in the First Methodist Church of Clayton, New Mexico, Thursday afternoon, July 28. The ring ceremony was performed by the pastor of the Church in the presence of a few intimate friends of the bride and groom. The bride wore a smartly tailored frock of navy blue crepe Romaine with hat and accessories of beige. She was attended by Miss Lucy Aiken of Clarendon as bride's maid. She wore a semi-tailored model of beige crepe Romaine and her hat and slippers were dark blue. Tom Herndon of Panhandle was best man. The day following the ceremony Mr. and Mrs. Craig came to Clarendon for a short visit with Mrs. Herndon's parents, after which they went to White Deer, where they will make their home.

The bride is a very popular young lady who has made her home here most of her life. She is a graduate of Clarendon High School and Clarendon College, having finished both literary and public speaking courses of the latter school. She is also a former student of T. W. C. at Fort Worth. Her winning personality will make her a charming addition to the society of the city in which she will live.

Mr. Craig, who until a short time ago made his home in Paris, is a graduate of A. & M. College. He is associated with the Motor Supply Company of White Deer, and before making that connection, he taught one year in the city of Panhandle.

YOU MAY SEE STATE FAIR RACES FROM YOUR OWN CAR

"There is no doubt about the fact that the horse is staging a 'come-back,'" says Otto Herold, superintendent of the horse department of the State Fair of Texas.

"This year, from all sides, the new directors were besieged with petitions to revive horse racing at the fair on a big scale. It seemed that everyone wanted horse races and many said that it did not seem like a real fair without them.

"So we determined to meet this public demand and we have done our very best to meet it properly. We are building a fast three quarter mile track. We will have races every day but Sunday. There will be five races each day. We will have an extra good horse show, with stables of champions from many states. We will stage several fast polo games with big-city teams. We will have the pleasure of showing to the horse-lovers of Texas, that wonder-stallion, "Mr. McElwin," who holds all speed records at two, three and four years old. This horse is owned in Texas, by W. H. L. McCoutrie, who has consented to exhibit him in harness in front of the grand stand daily. He now holds the world's record for the mile in 1:59 1-4.

"For added entertainment we will have whippet races, new to Texas. These little greyhounds put up a lightning-race and are good fun.

"Then we will have in front of the grand stand one of the very best Hippodrome shows ever offered in this state with plenty of good comedy, many thrills and a fine band, with good singers.

"There will also be day and night fireworks, rounding out a program that should please everyone and more than satisfy the most carping critic.

And now for the big feature: We shall build no high board fence around our new race track to shut off the view. If you come to the fair and want to see the races, you will not be obliged to patronize the grand stand. You may drive into the grounds, park your car close up to the railing around the track and enjoy the races from your own auto."

Mr. and Mrs. O. C. Watson had as guests for the week end, Mr. Watson's nieces, Mrs. D. H. Minick and Miss Aylene Mallow of Sanger.

Mrs. Fred Maher and small daughter, who have spent the past three weeks with friends in Dallas, returned home Sunday evening.

PERSONALS

Mrs. John Vineyard and children spent Sunday with friends in Claude.

Lee Pope of Memphis spent Sunday in Clarendon.

Everett Markman of Amarillo visited friends in this city Sunday.

Mr. and Mrs. Harold White of Fort Worth spent several days of last week in the home of Mr. White's parents, Mr. and Mrs. F. A. White.

SECRETARIAL SCREENINGS

CLARENDON CHAMBER OF COMMERCE
G. L. BOYKIN, Secretary

The Chamber of Commerce will hold a Donley County Fair in Clarendon this fall. Due to hte late crops in the county the date will be sometime in October. Make your arrangements now for the best fair ever held, the premium list will be published at an early date, as will the date of the fair. The Donley county club girls booths are expected to make a good showing this year. A poultry show may be included in the fair. If you are interested let the Chamber of Commerce office know it. We need help and suggestions.

More entries are in for the Yard Beautiful Contest, but not enough to make the contest of sufficient scope. Enter your yard and help beautify Clarendon.

The City Commission will designate the streets of Clarendon at an early date, so this office was told lately. This is one of the steps necessary for Clarendon to have free

mail delivery. The Commission will also help in numbering the houses and when that is completed the sidewalks being laid we can get the service. Why not have it?

There are three things Donley county should have among its farmers: a Poultry Association, a Dairy Cattle Club, and three or four Bull Circles having pure bred dairy bulls for use of dairy farmers to improve their milk stock. Six pure bred dairy sires used on milk stock in Donley County would increase the milk production in this county 25 per cent within three years time. These organizations are for the benefit of the farmer, and should be carried out and managed by him.

Congratulations to the Central Power and Light Company. We are glad to know that they will erect a plant in Clarendon, and we feel that after its installation we will have no more lightless nights.

In visiting nearby towns and talking to prospective students for Clarendon Junior College good interest has been met with and many students have expressed a desire to attend. Clarendon must hold the interest of these students and get them up here for school this fall. This will be our hardest year, for the school.

Little Miss Wylima Dee Smith has as guests, her twin cousins, the young Misses Wynelle and Wydell, of Memphis.

The Most Amazing Quality in Chevrolet History

Offering the most amazing quality in Chevrolet history, today's Chevrolet is the most popular gear-shift car the world has ever known.

Quality in design! Quality in construction! Quality in appearance and performance! Never before has a low-priced car possessed them to such an amazing degree—because no other low-priced car combines the progressiveness of Chevrolet and the diversified experience, the vast resources and marvelous facilities of General Motors.

Go with the crowds and study today's Chevrolet. Mark well the aristocratic beauty of its lines—the superbly executed details of its bodies by Fisher.

Then go for a ride! Revel in the thrilling spurt that results when you "step on the gas." Delight in the smooth operation—the swift sweep of the passing miles. Marvel at the way the car hugs the road, the ease with which it obeys the steering wheel, the promptness with which it responds to the brakes!

Here is quality obtainable at prices which reflect the savings of tremendous production and which emphasizes the willingness to share these savings with the public.

Here is the most desired object of American life today; a car of amazing quality—for everybody, everywhere!

—at these low prices

- The Touring or Roadster \$525
- The Coach \$595
- The Coupe \$625
- The 4-Door Sedan \$695
- The Sport Cabriolet \$715
- The Landau \$745
- The Imperial Landau \$780
- 1/2-Ton Truck (Closed only) \$395
- 1-Ton Truck (Closed only) \$495

PUBLIC EDUCATION

By B. F. Hardy

Some twenty or thirty years ago it became evident to the leading educators of the country that the present organization of the elementary school into seven or eight grades and the high school into four grades did not give the most efficient scheme of education. The amount of time given to the elementary grades, curriculum and method of instruction seemed the outstanding features needing correction. The elementary school required too many years for completion; the curriculum was too narrow to cover the field of modern activity; and the method of instruction failed to train children for the independent work expected of them in the high school. So the junior high school was organized as a third link to remedy the evil and bridge the gap between the elementary and high school. In no sense was the junior high school organized merely to relieve a crowded condition in the other schools, but it came for a purpose, a definite unit in the school system, to supply recognized defects in the old regime and to meet the special (and I might say) peculiar demands of the earlier adolescent child.

In most of the states the grades included in the junior high school are the seventh, eighth, and ninth. In Texas, however, the work is included in the sixth, seventh, and eighth, and the age ranges from twelve to fifteen. A few advanced pupils will make these grades before this age and there will also be a few in these grades over this age.

We might say then that the junior high school was organized to eliminate waste of time and to meet the new demands of social, political, and economic activity. This is to be done by purging the old curriculum of all nonessentials and unnecessary repetition. By eliminating this waste, a place is made for the new and better material to be placed in the curriculum. This gain in time was the first argument for reorganization and was to be done by elimination and substitution. The curriculum and methods of instruction were not flexible enough to function fully in the modern aims of education. The methods to be used in the junior high school mark a change from the methods used in the grades and still do not approach those used in the senior high school. The one is too elementary and the other too advanced for the early

adolescent child who is neither child nor adult. Not only are new studies added to the junior high school course of study but the old ones are given new garb and pursued under new form so that the effect is an enriched and varied course of study adopted to the needs of this early teen age.

Recognition of individual differences in ability, interest and aptitudes, socialization of work, democracy in school activities, supervision of study, guidance, exploration of vocational fields, self government, club work, etc., represent some of the most prominent characteristics of the junior high school.

FORGED TOO WELL

A had sued B on a certain document, and A claimed that his signature had been forged.

B's lawyer handed A another document. "That's my signature," A admitted.

B's lawyer handed the admittedly genuine document and the disputed one to the presiding judge.

"I think Your Honor will be able to see by comparison that the disputed signature is genuine enough," the attorney remarked.

"Put one over the other and hold them up to the light," A's lawyer suggested.

"One signature fits over the other the same as if they were printed or typewritten," the judge remarked.

"Which is a positive proof of forgery," A's lawyer maintained.

"No two signatures are ever exactly alike, and if one is a facsimile of the other it is proof that one was traced from the other, or both traced from a third." And the point was well taken.

"The authorities generally agree that no two signatures of an individual written in a natural way will be the same in all respects," says a court in Illinois. "The fact that two signatures are exactly alike is accepted as strong evidence that one was traced or otherwise reproduced from the other, or that both were made from still another signature."

"Concededly, if one signature conforms in every particular to another, one of them must be forged, because for all practical purposes no person can write his name twice exactly alike," is the reasoning of the courts of New York.—M. L. Hayward.

OLD PAPERS FOR SALE, 20c per 100, at Clarendon News office.

CLASSIFIED

Clarendon Chapter No. 216: Stated meetings held on first Friday of each month. H. R. Kersnow, High Priest; E. A. Thompson, Secretary.

Clarendon Lodge No. 700 A. F. & M. meets second Friday night in each month. C. E. Killough, W. M.; E. A. Thompson, Sec.

Clarendon Chapter No. 6, O. E. S., meets first and third Thursday night in each month. Mrs. Lollie Bagby, W. M.; Mrs. Maggie J. Weatherly, Sec.

LOANS—On Farms and Ranches. 6-2 percent. No Extras. Leon O. Lewis, First National Bank, Clarendon, Texas. (48tc)

GREATER TRI-STATE FAIR IS PLANNED FOR 1927

One of the greatest institutions in the Panhandle-Plains country is the great Tri-State Exposition held annually in Amarillo. This Exposition is devoted to the fostering and exploitation of the agricultural and live-stock interests of the Panhandle of Texas, Eastern New Mexico, and Western Oklahoma.

C. H. Amacker, Secretary and Manager, immediately on the close of the 1926 fair, began preparations for the 1927 fair. Mr. Amacker reports at this time that the Fair has the brightest outlook it has ever had from every standpoint. He is making special efforts this year to see that a truly representative exhibit from the Western Oklahoma counties is shown at the Fair this Fall. Inasmuch as Western Oklahoma is equally interested with Texas and New Mexico in the success of the Exposition, the Secretary has every reason for believing that his efforts in this direction will meet with the approval and cooperation of at least, the greater portion of the counties in Western Oklahoma.

The Tri-State Exposition has a wonderful plant in Amarillo, ideally suited for the purpose for which it is intended, officered by an experienced and enthusiastic coterie of directors and superintendents. With many counties already signed up for Exposition space and the assurance of the greatest live-stock exhibit ever seen in West Texas, combined with entertainment features that have never been shown anywhere except at State fairs, this year's Tri-State show promises to be, indeed, a wonderful success.

Virgil Merchant returned home Monday afternoon, after an extended visit with relatives in California. He drove through.

Miss Mary Dewell of Roswell, New Mexico arrived Monday evening to attend to business affairs in this city.

Land's Shoe Shop

SIGHT SEEING BUS FOR FACTORY PLANT

Because of the tremendous size of the new Pontiac plant of the Oakland Motor Car Company and because of the desire to spare the hundreds of visitors and dealers who daily wish to go through it the necessity of walking miles to follow all the manufacturing processes, a "sight-seeing" bus service has been placed into operation.

A Pontiac Six car, with a specially built bus body with capacity for 12 persons, carries visitors through the broad aisles. The bus is being run on a regular schedule.

Since this plant has been placed in operation, the number of visitors has steadily increased, due to the fact that it is one of the largest plants in the country under one roof and because it is one of the most modernly equipped automotive plants to be seen anywhere, with several new features of building construction and operations.

The bus takes visitors first through the engine manufacturing section, then the car assembly and lastly the car storage. The driver of the car tells of the various operations and stops at processes of unusual interest. Thus the trip which formerly took more than two

hours has been reduced to less than half an hour in addition to taking the fatigue out of the trip.

TEXAS PROGRESSIVE NOTES

Big Springs—This city is planning a street paving program to cost about \$150,000.

Floresville—The Comal Power Company is arranging to extend its transmission lines to Floresville, making power in large quantities available to Floresville, Stockdale, Potts and Falls City.

Balmorhea—The Borderland Utilities Company has obtained a franchise to construct a light plant and water works here. The company plans to furnish current to Madera Springs resort near here.

Corpus Christi—R. A. Thompson and associates are reported to have let a contract for erection of the first two units of a bonded warehouse to cost \$150,000 and have 50,000 square feet of floor space.

Plemons—The Hutchinson County commissioners court plans construction of a \$200,000 steel bridge across the Canadian river at Electric City.

New Braunfels—Comal County and the city of New Braunfels are planning a concrete bridge across Missouri-Kansas-Texas railroad at Seguin Street. New Braunfels, to cost, \$100,000.

OAKLAND ALL-AMERICAN SIX

At New Low Prices!

Body by Fisher

Built to meet every American demand for Reliability, Style and Performance

All-American—that's the word! No other word describes it!

American design. American lines. American endurance for the roughest American roads—proved on General Motors' great American proving ground and built by American workmen using American precision-production methods!

Bigger, better, brilliantly beautiful car. New bodies—new chassis—new engine. New standards of performance, endurance, and value—and

NEW LOW PRICES!

There's mastery in every detail of the new Fisher bodies—the mastery of America's master body builders. Low, graceful, fashionable lines emphasized by sweeping full-crown fenders. Arresting new Duco colors. Rich new upholstery.

In the chassis—a longer, deeper, heavier frame. A new and softer clutch. A new and smoother transmission. 4-wheel brakes. Smaller

wheels (19"), larger tires (29x5.50), a longer wheelbase (117"), and an exceptionally low center of gravity. And a new engine of 212 cubic inches displacement—the largest used in a car of Oakland's price. Power—smoothness—snap and silence that will be the talk of all America from this day hence. A combination of features never before employed in any automobile engine:

2-DOOR SEDAN

\$1045

Landa Coupe \$1045 4-Door Sedan \$1145
Sport Roadster \$1075 Cabriolet \$1145
Landa Sedan \$1265

All prices at factory. Delivered prices include minimum handling charges. Pay to pay on the liberal General Motors Time Payment Plan.

—a 78½-lb. crankshaft, counter-balanced and incorporating the Harmonic Balancer—a crankcase of bridge truss construction—Oakland's famous rubber silencing principle—and a new combustion chamber design from General Motors' Research Laboratories.

A gasoline pump that supersedes the long familiar vacuum tank—a new and efficient system of crankcase ventilation—triple engine protection by gasoline, oil and air filters—

—and such factors of luxury and convenience as tri-clustered instrument panel, silver platinum engraving—a large new corrugated steering wheel—colored garnish rails and enough others in addition to make this advertisement read like a catalog!

Value? None like it in all America today! Come in—and see this latest triumph of America's automotive supremacy—the new Oakland All-American Six!

HOUSING FARM POULTRY FLOCK

By F. W. Kazmeier,
Bryan, Texas.

At this time of the year it will probably be interesting to bring out a few of the more important principles to remember in the construction of a poultry house for the housing of the farm poultry flock. In previous articles, we have tried to bring out the fact, that a flock of less than 200 hens is not a profitable unit on any farm. Due to the cost of operation, over-head, labor, and marketing problems a flock of 200 hens is necessary to make the proposition a profitable enterprise.

The hen house should be built so that when completed, it is what we could properly term a "Hen Home". To bring out the importance of a properly constructed hen house and its necessity to get a profitable egg-production from the flock, it is interesting to state, that hens do not lay because they want to, but that hens lay because proper feeding and environment makes them produce the egg. If environments are so important then it is easily understood why a good poultry house is a necessity. Chickens breathe very rapidly. They do not have any sweat glands, and all the moisture is given off through the breathing system. They require about four times as much air as a cow or horse, based on one thousand pounds of live weight. This shows the importance of having a poultry house with proper ventilation.

Moisture in the air in the chicken house causes diseases, such as colds, roup and other trouble. It is very important to have a ventilation system in the house to eliminate the moisture without causing too much direct draft on the birds. The house should be so built, that it is comfortable in at least two important places, one is on the roost and the other is on the floor where the birds spend their time in the day time. In our experience we have found that poultry houses should be at least 20 feet deep or wide. We have found the deep houses to be superior to the narrow houses, but there is a limit to the depth of poultry houses to which they are desirable. If you go much beyond 30 or 40 feet it is impossible to get a house sufficiently lighted and also ventilated.

For a general farm poultry house, we are going to recommend in this article a house 26 feet square and for larger flocks 30 feet square, 36 feet square and even 40 feet square. Our experience leads us to believe that the square house with the gable roof, straw loft and slatted ceiling is the most desirable form of poultry house construction that we have been able to develop for our Southwestern country.

In the use of the gable roof, it is possible to use either common wood shingles for roofing material or galvanized iron. Our experience leads us to believe that galvanized iron makes the best roofing material. This last year we had a heavy hail storm which knocked large holes in the paper roof on all of our houses. The houses that we had covered with galvanized iron

were untouched and uninjured and proved entirely satisfactory.

This alone is sufficient evidence to prove that galvanized iron on gable roof houses is desirable and probably one of the best roofing material to use in this country. Galvanized iron, however, can only be used on gable roof houses equipped with slatted ceiling and straw loft. On any other form of a roof, unless special arrangements are made for ventilation galvanized iron is not desirable.

In figuring the size of your house, we allow three square feet of floor space per bird. On this basis a house 30 by 30 will accommodate 300 birds very nicely. The best part of a gable roof house that is nearly square as previously described is the slatted ceiling and straw loft. This prevents the heat from coming in through the galvanized iron roof and coming down into the lower part of the house making it very hot and uncomfortable for the flock in the summer time. When this slatted ceiling is used in the house it may be stuffed full of straw or corn shucks in the winter time, thus cutting down the air space and making it a much warmer and more comfortable house. The house should be faced with the opening or the so-called open front to the South, allowing the roof to slope to the east and west. The sides should be built preferably 6 or 7 feet high. In extremely Southern part of this country we recommend that the sides be built 8 feet high. In extremely North or more colder part of this section we recommend the sides to be built only 6 feet high. The higher the sides the cooler the house. The lower the sides the warmer the house in the winter time. High up in the gable of the South and North end, should be a large wooden shutter hinged at the top to swing out, which should be kept wide open in the Spring and Summer time. This opening in the gable of each end of the house will help cause a circulation of air in the ceiling, removing the hot air and preventing it from going down into the lower part of the house where the fowls remain and work.

For the sides of the house, we recommend the use of 1 by 12 boards stripped or high grade ship-lap or novelty siding. As a rule it is best to use some kind of matched material to prevent and guard against any cracks. In the case of a wide and more nearly square house, we recommend windows on all four sides, especially on the three sides in which there is no open front namely, the East, West and North. In a house 26 feet square, there should be at least two half windows in each side of the house. It is necessary to provide plenty of windows on all sides of the house of this type to be sure that there are no dark corners in the house. One of the most important principles to remember in constructing a poultry house is to have it well lighted in the interior of the house. Dark corners are undesirable. In a house 30 feet square more windows must be used. These windows may be placed high up against the top of the walls. In addition to the windows it is necessary to have at least two wooden shutters hinged at the top to swing out on the East, West and North sides of the house. These shutters should be at least 20 inches or 24 inches wide and 8 or 10 feet long.

(To be continued)

TEXAS TECH PLANS FOR FIRST A. & M. GAME

Lubbock, Texas, July 30—Preparing for what is considered to be the football classic of West Texas when Texas A. & M. College meets Texas Tech here October 28, contract for 4,000 steel and concrete bleachers was let yesterday by E. W. Provence, business manager of the college. Construction on the bleachers will be begun in the near future and they are to be ready for the opening game here.

With the addition of these bleachers more than 6,500 spectators can be seated at football games here with Texas A. & M. Temporary seats will be constructed to care for the overflow.

The new bleachers will be 25 seats high and the lowest seat six and one half feet from the ground. They are to be placed on the west side of the Tech field, facing the track straight-of-way.

Indications point toward an attendance of more than 1,000 ex-students of A. & M. at the game. The Amarillo will send a special train, railroad officials have announced and it is likely that a large number of the cadets will accompany the team here.

A. & M. URGES MORE ATTENTION BE GIVEN TO HOMES

College Station, Texas, July 28—"It is pathetic that so many American homes are entirely uninteresting, dull lifeless and monotonous, because of the lack of beauty-beauty which might be furnished by a few well chosen pictures," said Mrs. L. P. Chamberlain, professor of clothing and textiles, John Tarleton College, Stephenville, in an address before the woman's group at the Farmers' Short Course, A. & M. College of Texas.

"The pictures that we place on the walls of our homes should be chosen for the decorative effect that they produce in their surroundings, with the other furnishings of the room. In making our selections throughout the house we should be certain that the pictures are within the range of understanding and interest of those who are to live with them. It is quite possible to cultivate the taste for better pictures and to raise the family standard of appreciation by gradually bringing into the home better and better types of pictures.

"The living room should be hung with pictures of general family in-

terest. Especially should the space over the mantel be occupied with a picture which is to be the decorative center of the room. In hanging a picture above a mantel remember that it must be in the right proportion to the mantel itself, at least a foot of space on either side of the picture, less between it and the mantel, and more above it.

"Never allow a frame to detract from the interest of the picture by being too ornamental in itself. Usually a narrow frame a little lighter in color than the darkest tones of the picture is best. Japanese prints look well in narrow black frames; and water colors are pretty surrounded with simple frames of dull gold. Always the frame should form a pleasing transition from the picture to the wall upon which it hangs.

"The most interesting place to hang a picture is over such pieces of furniture as desk or cabinet, piano, divan. Then by placing on the desk or cabinet some object which repeat the tones of the picture, or which by rising up on either side of the picture, act as a tie between it and the piece of furniture beneath, you have created a pleasing unity and relationship between the piece of furniture and the picture. These groupings are very important as no object in the room should be a thing apart but should seem in some way connected with the other objects near it."

Normal human blood is too thick to be drawn through the mosquito's small piercing tube. They must first inject a thinning fluid. In that way disease germs are set afloat in the blood stream—bacteria of burning fever and crippling disease. There is also the danger of streptococcal infection (blood poisoning) from scratching the bite. Mosquitoes must be killed. Health authorities advocate Fly-Tox. Simple instructions on each bottle (blue label) for killing ALL household insects. Insist on Fly-Tox. Fly-Tox is easy to use. Safe, Stainless, fragrant and sure.

Mr. and Mrs. Roy McAlister of Dallas and Mr. and Mrs. Jim Montgomery of Childress are guests of Mr. and Mrs. Ralph Andis. Mesdames McAlister and Montgomery are sisters of Mrs. Andis.

OAKLAND ANNOUNCES NEW "ALL-AMERICAN SIX"

Entirely new in design, larger, more powerful, more roomy with a wheelbase of 117 inches, new engine, new chassis, new Fisher bodies, new Duo colors and a host of advanced engineering features—the Oakland All-American Six is being presented throughout the nation this week.

This brilliant, flashing car of sleek greyhound lines is distinctly new designed from the ground up by the skilled Oakland engineering staff for American standards of reliability, appearance, comfort and performance. Because the line is so thoroughly American in character, designed by American engineers, tested on General Motor's great American proving ground and built by American workmen using American precision production methods, it has been called the "All-American Six".

Despite the larger size of the cars, the advanced engineering design and the more luxurious finish, they are offered at low prices.

The size and low-slung appearance of these cars may be gleaned from the fact that they have an overall length of 175 inches between bumpers, a road clearance of 8 1/2 inches and a height of but 70 inches from the ground to the top of the roof. Although the entire car has been lowered, no head room has been sacrificed in the spacious interior.

The low lines of the car are emphasized by a high, narrow radiator, sweeping full crown fenders, lower running boards, oblong windows, a double row of beading, and especially by larger tires on smaller wheels. Artillery wheels of 19 inch diameter are combined with 29 by 5.50 inch balloon tires. The spokes of the wheels are of larger diameter than used heretofore.

Among the more important, new mechanical features are a gasoline pump to supersede the long familiar vacuum tank—a new system crankcase ventilation to reduce oil changes to a minimum and triple sealed oil protection by gasoline, air and oil filters.

A new and softer acting clutch, a new and smoother transmission, a four bearing crankshaft, a 15 plate battery and new oiling system are among the noted features of the car. Chrome plating, which is non-rusting, preserves the bright finish on the nickel plated radiator shell and rims of head and cowl lamps and on the door handles of the sport models.

The new engine has a displacement of 212 cubic inches and is of the six cylinder L-head type, cast on bloc with the crankcase and cylinder block integral. It has a 3 1/4 inch stroke and develops 60 brake horsepower at 2,800 r. p. m.

The new Oakland All-American Six body types present new grace of lines and new richness in character which are further enhanced by smart upholstery and exquisite interior trimmings and appointments. The complete line includes the Two-Door Sedan, Four Door Sedan, Landau Coupe, Sport Phaeton, Sport Roadster and Four Passenger Cabriolet.

PHYSICAL EXAMINATION ON BIRTHDAY STRESSED

"The State Department of Health has dedicated the month of August to an educational campaign stressing physical examination on one's birthday. Not only should children be physically fit for entrance into school, but adults would also do well to have an annual physical examination, a good time for this being on each one's birthday," Dr. Anderson stated.

"The body is a machine that is constantly wearing out and being replaced by nature, but as accommodating as Nature is, she cannot always make repairs made necessary by the strenuous wear and tear of life and man's many imprudent acts. A medical examination each year will discover defects in important organs, that if corrected in time, will prevent serious trouble in later life. Deaths from heart diseases are increasing at an enormous rate each year. A large percent of these deaths, as well as deaths from other causes could be prevented by yearly physical examinations."

EPWORTH LEAGUE PROGRAM

The young people of the city of Clarendon who are unaffiliated with organizations of a like nature are asked to take part in the League services in the auditorium of the Methodist Church next Sunday evening at 7:30. Another surprise is awaiting those who attend the meeting and it is certain that the surprise will be more than pleasant. Come out and enjoy the following program:

Subject: "The Goodness of the Power of God Revealed in Nature."
Leader: Martha Alice Moore.

Psalm 19 will be read in concert.

Quotations on nature: Isabelle Baley, Marue Trostle, Rachel Ellis, Ruby Lee Landers, Fray Stallings, Mrs. Lester Boykin, Coye Latson, Glyma McClenny.

"The Creator," Archie Pool.

"God's Goodness Revealed in the Beauty of Nature," Virginia Speed.

"God's Power Revealed in the Order of Nature," Paul Schull.

Chain Prayer.

Roll Call.

Business session and adjournment.

Mr. and Mrs. Joe Nunn and boys Royce and Dickie Teague of Lakin, Kansas spent the fore part of this week visiting in the home of Mrs. E. A. Teague and Miss Oressa Teague.

Mrs. W. H. Cooke, Miss Frances Cooke, Will Cooke, and the latter's little son, Willie, are spending a few weeks in Colorado.

DEAF MUTES SEE THEIR VOICES AND LEARN SPEECH

Deaf mutes may now "see" their voices and learn to speak by means of a contrivance developed by the Westinghouse Electric and Manufacturing Company.

The device shows a bright line of light in a revolving mirror. When the voice is spoken into an attached receiver the light line breaks into writhing curves corresponding to the sound waves.

A sweet low voiced "coo" into the machine gives a graceful curve; a sharp "hello" provides a representation of a barbed wire fence hit by lightning, and if one whistles the appliance goes mad.

While the contrivance was developed for electrical purposes, it has been found useful in teaching deaf mutes to speak. The pupils are enabled to see the forms of the sound waves they produce and they readily learn to reproduce waves formed by their teacher's speech.

Mr. and Mrs. M. L. Accords, Mrs. Accords' mother, Mrs. Baker, and Mr. and Mrs. J. D. Accords and family attended a family reunion at Wayside Grove near Memphis, Sunday. The reunion, which lasted all day, was attended by nineteen people.

SMALL TOWN FUNERALS

An interesting editorial appears in this week's Liberty magazine on the small town funeral. The editor of this great paper recently returned to the small town to bury his mother. He was overcome by the large crowd of old friends that met the casket at the station. He was further moved to find that friends had made all plans for the funeral, even to selecting the pall bearers. Flowers were there in profusion, although the family had moved away many years before. But the thing that particularly struck this editor was a group of negroes who stood some distance away grieving for their old Missus.

The picture is not overdrawn. It is almost daily re-enacted in every small town. But this editor had left many years ago and he had forgotten the bonds of friendship that bind the small town people. We only wish he had gone a little further and drawn a similar picture of a city funeral. A hundred families living in a flat. One dies and is taken out by the freight elevator lest someone see the casket. Professional pall bearers are employed, and a preacher who never heard of the family is called to give the last funeral rites. Mayhap the body is cremated or placed away

in a mausoleum. The funeral procession is from the funeral parlor and about the only mourners are those from the small town where the deceased was reared.

And then another picture could be drawn comparing the living conditions of the city and the small town. If it is better to die in a small town, as the editor suggests, then certainly it is better to live in a small town.—Athens Review.

INFANT SHERLOCK HOLMES

"Be observing, my son," counseled Willie's father. "Cultivate the habit of seeing and you will become a successful man."

"Yes," added Willie's uncle. "Don't go through life like a blind man. Learn to use your eyes."

"Little boys who are observing get on much faster than those who are not," Aunt Jane put in.

The youngster took their advice to heart. A day passed and once more he stood before the family council.

"Well my son," said his father, "have you been using your eyes?" Willie nodded. "Tell us what you learned."

"Uncle Jim's got a bottle of whiskey hid behind his trunk," said Willie. Aunt Jane's got an extra set of false teeth in her dresser, and pa's got a deck of cards and a box of chips hid behind Emerson's Essays in the bookcase."

"The little sneak!" exclaimed the family with one voice.—Boston Transcript.

Mr. and Mrs. S. M. Braswell, their daughter, Miss Claire Marie, Miss Lela Mae Kerbow, and Miss Mary Katherine Hendrick spent Sunday afternoon in Memphis.

TEXAS LEADS IN FARM OWNED AUTOMOBILES

Texas leads all other states in the number of farm-owned automobiles with 285,276, according to a report made public by the research bureau of Wichita, Kan.

Illinois ranks second in farm cars with 233,166, the report sets forth. Ohio is third with 231,977. Then comes Iowa with 229,000, Pennsylvania with 219,285, New York with 204,391, and Wisconsin with 204,182.

Number of farm-owned automobiles in the United States has doubled in the last six years, the report points out. There are now 4,528,422 cars on American farms, compared with 2,100,000 in 1921.

"Widespread use of automobiles for farm work has greatly increased agricultural efficiency in recent years," says the report. "Adoption of other labor saving devices have enabled farmers to boost their earnings by accomplishing more work."

Seven states have more than 200,000 farm-owned automobiles, the report points out, while nine more record more than 100,000 cars in operation on farms.

HEALTH ROUND-UP OF SCHOOL CHILDREN

Although physical examination of school children during the month of August, is urged by Dr. J. C. Anderson, state health officer, who advises parents to see that their children are physically fit for the beginning of school in September.

"Often times," Dr. Anderson stated, "small defects of tonsils, teeth, eyes, or other organs of the body, may interfere with a child's schoolwork, causing him discomfort, and perhaps handicapping him to the extent that he becomes a repeater in school."

"With the beginning of school, close contact with other children, will also multiply the danger to your child of exposure to communicable diseases. Medical science has made it possible to prevent having some of these diseases, and you should take advantage of this knowledge, by having your child vaccinated both for typhoid fever and smallpox, and given the toxin-antitoxin immunization against diphtheria. Taking these precautions in safeguarding the health of your child may save you much anxiety, suffering and financial cost in future months."

miles plus

DON'T expect a good average number of miles from a tankful of Summer Conoco Gasoline. Expect more.

And you won't be disappointed! Summer Conoco is especially refined to give you mileage—to cut down your cost per trip—to deliver real power under all motoring conditions.

So why not use the extra miles that are packed into Summer Conoco Gasoline?

Just make sure you are getting it by filling only where you see the Conoco sign—at service stations and garages.

TWO DONLEY CLUB MEMBERS ATTEND A. & M. SHORT COURSE

Mrs. J. C. Estlack of this city and Miss Lavera Poovey of Ash-tola, the two club workers of Don-ley County who attended the Farm-ers Short Course at A. & M. Col-lege, returned from Bryan Saturday evening, reporting a wonderful trip and a week of splendid instruction. Both are most enthusiastic about the Short Course, and say that the amount of work one may do in a week is really remarkable.

Mrs. Estlack, who is president of the Clarendon Home Demonstration Club, was official delegate of the organization, and at the request of the membership, she specialized in the course in home furnishing and decorating, parliamentary drill, and club organization. She attended one class in the Boys and Girls Division each morning, in connection with her work in club organization. She was especially high in her praise of the work with young people.

Miss Poovey was winner of the County Clothing Contest, the prize being the trip to the Short Course with all expenses paid. Her essay on making the nice dress won third prize in the State Contest. She is to be congratulated on this achievement, for she was competing with girls from all parts of the State.

Misses Lynn La Fon, Hazel Bulls, and Clarice Fuller, who are students in West Texas State Teachers Col-lege at Canyon, visited with friends and relatives during the week-end.

BOOK CLUB HAS INTER-ESTING STUDY TUESDAY

"You Can't Win", that fascinat-ing life story of a criminal, by Jack Black, was the subject of study at the regular meeting of the 1926 Book Club, Tuesday afternoon. Miss Fray Stallings led the well planned program. She was assisted by Miss Ruby Lee Landers, one of the vaca-tion members of the Club, who dis-cussed the criminal's out look upon life. Mrs. F. L. Stallings reviewed the story in a very interesting man-ner.

At the conclusion of the program, Mrs. Charles Trent, on behalf of the membership, presented the Book Club's wedding gift to Mrs. Clyde Price, whose marriage took place July 23. Mrs. Price, who before her marriage to Mr. Price was Miss Anne Myra Bennett, was a charter member of the Club and is secretary. The meeting was held in the home of Mrs. Allen J. Bryan, who had a number of special guests, in addi-tion to the large number of members who were present. The following were special guests: Mrs. Harry Bramley, Mrs. Joe Goldston, Mrs. C. W. Bennett, Mrs. Clarence Miller, Mrs. Richard Bell, Miss Letitia Saw-yer, Miss Elizabeth Alexander of Bryan, Miss Sanford D. Young of Ft. Worth, and Miss Catherine Cole. Dainty refreshments were served during the social hour which fol-lowed the program.

J. W. Bundy is in Newlin for a time, working in getting the gin in that city ready for operation with the opening of the cotton season.

WHAT'S DOING IN WEST TEXAS

West Texas Chamber of Commerce

San Angelo—Efforts are being made to secure a fish hatchery for Tom Green County. This County has more miles of running streams than any other county in Texas and the streams are frequented by fishermen. A hatchery is necessary to keep the streams properly supplied. Com-missioner W. J. Tucker is expected here at an early date to go over the situation with officials of the San Angelo Board of City Develop-ment.

Stephenville—The Stephenville Cham-ber of Commerce held a member-ship banquet here this week. An overflow crowd assembled to enjoy the constructive program and to greet C. C. Colvins, new secretary of the Stephenville Chamber of Com-merce.

Stamford—The West Texas Cham-ber of Commerce has pledged sup-port to the ranchmen of West Texas whose rights to oil royalties have been jeopardized by action of the state in seeking to declare uncon-stitutional an act of the legislature granting one sixteenth of the oil to land owners purchasing state land. Under the old law the state retained the mineral rights of state land. The legislature passed a bill giving the land owners one half the royalti-ty and acting in good faith the landowners permitted oil operations on their land. Should the bill be declared void, title to royalties on many thousand acres of West Texas land will pass from the land owners and will work great hardships in West Texas. The matter was pre-cipitated when the royalty of Ira G. Yates was attacked. The Yates pool in Pecos County is now one of the most promising pools of West Texas. The directors of the West Texas Chamber of Commerce voted at their recent meeting in Cisco to support Mr. Yates and other West Texans whose property in jeopard-ized and the legislative bureau of the organization was instructed to take whatever action is necessary in the case. Homer D. Wade, man-ager of the organization, is now making a study of the matter.

Vernon—Programs and invitations to the Northwest Texas Press Assoc-iation meeting in Wichita Falls September 9 - 10 are being sent out by Ray Nichols editor of the Vernon Record, who is also secretary of the Press Association. Sam Roberts of Haskell is president of the organ-ization.

Wichita Falls—The special train of West Texans who went from Wich-ita Falls to California where they spent two weeks studying the ir-rigation situation there has returned. The party was headed by H. A. Kemp of this city. B. M. Whiteker, agricultural manager of the West Texas C. of C. represented his or-ganization. The party reported a successful trip and returned con-vinced that Texas offers a better field than California for agricul-tural development.

Lamesa—The largest motorcade in the history of Texas journeyed over the Dal-Paso Caverns Highway from Breckenridge to Carlsbad. Nearly five hundred people made the trip. A business meeting was held in Seminole at which meeting plans for improving this important ar-tery of travel were made. Dalhart—A. T. Holcomb, secretary of the Dalhart Chamber of Commerce has requested the West Texas Cham-

ber of Commerce to create a new district in the north plains section. According to Mr. Holcomb, the present north plains district is too large to permit the entire section to have representation at the district con-ventions. Mr. Wade has the matter under advisement and will announce his decision at an early date.

Austin—Great progress has been made by the schools of west Texas during the past year. The State Department of Education reports that scores of west Texas towns have been granted increased affilia-tion and have increased their rank. Unusual efficiency has been reported in administration and instruction in the high schools of west Texas. Remarkable increase is reported in the number of new school buildings in west Texas and the same improve-ment is reported in school equipment in that section.

KNOW TEXAS

The tomato growing industry of East Texas has grown to such pro-portions that the nation depends on the section for this vegetable during the intermediate season between ship-ments from the early regions such as the Rio Grande Valley, Florida and California, and the later movement from the Northern states.

In addition to its numerous other resources, Texas has large iron ore deposits. These lie chiefly in the low hills of Cherokee, Rusk, Harrison, Marion, Cass and other East Texas counties.

In 1920 the average population per square mile throughout the United States was 35.5 and that of Texas was 17.8. When Texas brings her popu-lation up to the average of the coun-try she will have not less than 9,000,000.

Production of electricity by public utility plants in Texas is increasing rapidly. In April of this year the total was 140,893,000 kilowatt-hours, an increase of 28 per cent over April last year.

Out of a total land area of 167,934,000 acres, Texas farms embrace 103,798,000 acres. More than 100,000,000 acres in Texas are classed as suitable for cultivation.

Texas has made a gain of more than \$7,500,000,000 in wealth since 1900. The wealth of the state has increased 324 per cent. The state's total wealth now is estimated at more than \$10,000,000,000.

Although the southern border of Texas extends for more than 800 miles along Mexico, more than 70 per cent of the state's population is composed of native white Ameri-cans.

Texas stands second among the states in foreign exports, shipping Texas products to foreign lands to the value of \$648,991,594 as against shipments from the state of New York of \$761,249,789.

"Kitchenette Steak" Demand Makes Big Change in Feeding

City ways of living have speeded up the livestock industry. Smaller families, apartment homes, quicker cooking so the evening or the Sun-day holiday can be spent in the car, demand three-pound roasts and steaks that can be broiled on a one-burner in-a-dor gas stove. Butchers once bought carcasses weighing 600 pounds and more. Now they call for 400 to 500 pounds. The judge who ten years ago would have said, "It's not beef yet" of an animal below 1,000 pounds now hangs the blue ribbon on entries of similar weight. "Baby beef," such as Elizabeth Reynolds' grand champion Aberdeen Angus at the 1926 Connecticut State Fair, is prepared for market by meth-ods not known in the days when a calf was allowed leisure in approach-ing the slaughter house. Animals went through the summer on grass Today extra feeding must be used to bring fall calves to selling weight by the following autumn. Gains on grass alone sometimes are cheaper but the saving is lost when the cattle fail to reach a good finish. Experiments show extra money is made by adding a protein-rich feed to the summer ration. One popular mixture is corn 500 pounds, oats, 300 pounds, linseed meal, 100 pounds. Each animal gets 5 to 10 pounds daily, depending on its age and condition and the quality of the pasture. Linseed meal added to the ration gives decidedly cheaper gains in fat-tening cattle. Fall reports indicate animals bring-ing top prices usually have been fin-ished on full feeds of corn and lin-seed meal, if on grass, or corn and linseed meal with alfalfa or clover hay, if fed in dry lot.

R. B. ROBINSON, PIONEER CITIZEN, BURIED SUNDAY

Mr. R. B. Robinson, a pioneer citizen of the panhandle, died here at the home of his daughter, Mrs. O. D. Leisberg, Saturday, July 30th, and was buried in the Woodman Cemetery the following Sunday aft-ernoon. Funeral services were held at the First Christian Church and were conducted by the pastor, Reverend A. B. Crocker. The audi-torium was filled with friends from all parts of the Panhandle to attend the last rites, and the floral offer-ings were profuse.

Mr. Robinson was eighty-two years old at the time of his death. He was born in Warren County, Ken-tucky, August 8, 1845. He united with the First Christian Church at the age of twenty-two, and was an active member throughout the re-mainder of his life.

He served in the Confederate Army between October of 1861, and November of 1862 being discharged because he was too young for service. He was married to Miss Fannie Alexander September 1, 1869, at Louisville, Kentucky. To their union were born eight children, six of whom are now living. The family moved to Clarendon in 1892, and made many friends here and in other towns where they lived for a time. Mr. Robinson was a member of the Masonic Order.

Surviving the deceased are three daughters, Mrs. O. D. Leisberg of this city, Mrs. Roy Woods and Mrs. S. P. Sugg of Amarillo; three sons, Jimmie Robinson of Hastings, Col-orado, Knox Robinson of Amarillo, and D. W. Robinson of Wichita Falls; fourteen grand-children and nine great grand-children.

CARD OF THANKS

We desire to tender to the citizens of Clarendon in general and to our neighbors especially, our heart felt thanks for the unprecedented sym-pathy shown us during the illness and death of our husband and father, **MRS. R. B. ROBINSON AND FAMILY.**

PRESBYTERIAN CHURCH

Program of services for next Sabbath at the Presbyterian Church: Sabbath School at 10 a. m. Congregational worship at 11 a. m. and 8:30 p. m. You have a hearty invitation to come and worship with us.

Mr. and Mrs. J. R. Tucker had as guests last week end, Mrs. Mattie Ralph and her son and daughter of Farmersville, and Mrs. Ralph's niece, Miss Gray of Cleburne.

Mrs. Sella Gentry, Mrs. George Ryan and the latter's daughter, lit-tle Miss Berkeley Ryan, left early Tuesday morning to spend a vaca-tion of several weeks in Colorado.

Mrs. O. B. Stanley and son, O. B. Jr., of Waco are visiting friends here this week.

BROADCASTING THE SUNDAY SCHOOL LESSON

Dr. J. E. Cranfill's address on the Sunday School lesson is broad-cast 10:00 to 10:30 every Sunday morning over KRLD wave length 461.3. This class meets at the Ma-jestic Theater at Dallas and all visitors are invited to worship with the class when in Dallas.

Seymore—Baylor County is plan-ning to place a bituminous surface on Highway No. 24. Seymore to Knox County line, at an estimated cost of \$52,000.

Jack Merchant and Mike Corbin returned Saturday afternoon from a fishing trip in Colorado.

Mr. and Mrs. Ira Merchant, who have spent the past two months in California, returned home Tuesday night.

Mr. and Mrs. Dave Cameron and children of Childress spent the week end with Mrs. Cameron's parents, Mr. and Mrs. Otis Barnes.

Sonora—The Woman's Club here has let a contract for a \$10,000 Span-ish type library. J. T. McClelland is the contractor.
