WHERE TEXAS PUTS TO SEA

The magic of transportation has played a vital part in building the mighty Texas of today. Both the harnessed vigor of the sea and its pleasurable pursuits will motivate Centennial activity.

Nary A Bandit—Loaded up in Doc Guy Stricklin's automobile with Doc, Mike Stricklin and Carroll Hudson, and journeyed over to Lake Altus in Oklahoma and spent a couple of days fishin' this week.

Standard Equipment—Mike carried a .25 automatic pistol along since we were going out into the wide open spaces. I asked him if it was all right to carry the gun without a permit or anything.

A Nice Lake—Incidentally, that lake, located at Lugert, Oklahoma, is a very attractive body of water. One of the nicest of its kind I've seen in this country.

A Good Rain—Donley County farmers are really wearing broad smiles these days. That rain was just about what the doctor ordered for these parts, and crop prospects are brighter than they used to be.

Bad Injuns—Ellis Stewart of the Paducah Post, former News' employee, sends this one in, stating that the Indians involved are undoubtedly Donley County Indians.

More Anest the Rain—The first wisecrack we heard after the rain: A farmer stood on the corner, surveying the swirling waters, and remarked: "My gosh! I never was so tired of all the mud and water!"

Wasn't Any Good—Homer (Abe) Mulkey, genial proprietor of the local cinema emporium, reminisces of the good ol' days back during the war, with the following story: He was running a little confectionery here during the time the war tax was in effect.

**NEW SAFETY FOR BABIES**

Mother, most hospitals now protect their babies against germs and skin-infection by rubbing Mennen Antiseptic Oil all over the baby's body—every day. This keeps the baby's skin smoother, softer, lovelier and SAFER. So, mother, do as hospitals do, as doctors recommend. Give your baby a safety-rub with Mennen Antiseptic Oil daily thruout his diaper-days. See your druggist.

## Increase Shown In Car Registrations

AUSTIN, Texas—A sharp increase occurred in new passenger car registration during March over both the preceding month and the like month last year, according to the University of Texas Bureau of Business Research.

Reports from twelve Texas counties total sales of 5,373 cars, an increase of 34 per cent over February and 14 per cent over March, 1935. Sales for the first two months exceeded those of the corresponding period last year by 13.9 percent.

It is again regarded as noteworthy that the gains over last year were confined to the intermediate and highest price brackets, the Bureau's report shows. Sales in the lowest price group showed slight decline.

Mrs. C. C. McCanne returned to Clarendon Saturday from Lake Charles, La., where she had been visiting in the home of Dr. and Mrs. C. V. Hatchette. Mrs. Hatchette is Mrs. McCanne's daughter.

### A CORRECTION

Through an error in information the name of Junior Glazier of Jericho was omitted from the story of the winners of places in the district Interscholastic League meet at Pampa, as it appeared in last week's issue of the News.

Junior won second place in the "3-R" contest, with a representative of the Hopkins school winning first and a Perryton representative placing third. Only 10 points separated first and third places.

## There Are Outstanding Advantages In Attending a School In Dallas This Year.

The greatest educational World's fair ever held in this country will be in operation in Dallas from June 6th to Nov. 29th. There are enough special events listed to have a special event day almost every day the Centennial Exposition will be in operation. To get the full educational advantages of these special events days, one should be in Dallas so they may attend upon the days most important to them.

Twenty-five millions of dollars are being spent in the construction of this great historic fair. It is estimated that ten to twelve millions of people will visit this great educational exposition. It is estimated these visitors will spend in Dallas approximately two hundred and fifty millions of dollars. The spending of two hundred and seventy-five millions of dollars in construction and by visitors will cause a wide expansion in business of every kind in Dallas and cause many new firms to open. All of this great business expansion will necessitate the employment of hundreds of bookkeepers, accountants, stenographers, and secretaries.

Byrne Commercial College of Dallas has set its placement quota for this year at four hundred graduates. It invites all ambitious young men and women who would like to be one of the four hundred Byrne graduates to be placed in a good position to write to the College for particulars as to courses, payment plan, earning board, etc.

# READ why the SILENCE of Electrolux is YOUR ASSURANCE OF LONG SERVICE AT LOW COST

THE SILENCE of Electrolux is a definite advantage in itself. But it is also far more than that! It is constant proof of the basically different method of Electrolux operation. Electrolux has no machinery. A tiny gas burner takes the place of all moving parts . . . circulates the refrigerant, which is cooled by ordinary air.

It is this utter simplicity which makes possible lasting Electrolux efficiency. It permits an unusually low operating cost. (A cost which will never be increased through the inefficiency of moving, wearing parts!) It insures perfect food protection every minute of every day. And it reduces repairs to a minimum. Already, more than half a million American homes are enjoying the comfort and economy

of modern Electrolux refrigeration. Yearly more and more families are choosing this modern gas refrigeration which offers definite assurance of long service at low cost.

See the beautiful 1936 Electrolux models on display at our showroom. Inspect their many

worthwhile conveniences that save time and work.

Ask us about our liberal purchase plan. You'll find—as owners the country over have found—that Electrolux actually saves enough on refrigerating cost and on food bills to pay for itself. Come in today!

- ONLY WITH ELECTROLUX CAN YOU GET all these big advantages:
- No moving parts to wear
  - Permanent silence
  - Lasting efficiency
  - Continued low operating cost
  - Fullest food protection
  - Savings that pay for it

DUB SHOTS

(By DICK COOKE)

A meeting of the members of the golf club has been called for Thursday night, according to club officials, for the purpose of electing officers, to confirm the dates of the city tournament, and plan various tours for the summer. The meeting will be held at The Clarendon News office with the time set for 7:30.

The golfball sweepstakes, Sunday, was changed, suddenly, into a handicap affair thus making the announcement in this column, of last week, erroneous. I beg forgiveness, and by way of explanation, simply say that the tournament committee is composed of wise men, and being wise, reserve the right to change their mind without notification.

With the foregoing thought in mind no announcement will be made as to the plans of next Sunday.

WHAT'S ALL THIS TALK ABOUT

Give us 3 minutes to point out why "G-3" is America's best-seller—no ifs, ands, or buts! To become America's best-seller, it had to be America's best buy—and that's the "G-3" All-Weather for you! Evidence?—we've got plenty... local proof of better than 43% greater non-skid mileage, quicker-stopping, safer grip, longer endurance. Get your money's worth and then some—see us about tires!

day only in effect that there are plans, and if the arrangements have not been changed by next Sunday night, I will notify both of you gentle readers personally.

Playing a fourball, two point match, Dude Gentry and A. N. Wood trounced Oklahoma Professional Herd and local Dr. C. W. Galloway here Monday afternoon. The one-sided score was caused by tricky greens, it was said.

Incidentally Mr. Herd plans to remain in Clarendon a few weeks to give a course of instructions.

Playmates of Densil Davis are warned to proceed with caution in making matches with him in the future. The handsome gas executive was seen receiving instruction recently on the finer arts of playing golf.

Comes a letter from the Wichita Falls Junior Chamber of Commerce with an invitation to their annual tournament May 9 and 10. The tourney offers other diversions as well as golf as you can see from the following paragraph from the letter. "We have elaborately planned to show you fellows the time of your lives. I might also mention that there are several neophytes in the field this year, and two of them from one of your neighboring towns, are claiming that they have the tournament in the bag. So you are in for an interesting time."

Well, they say they are worse in a wet year, but when they get to openly boasting—well, I just don't think it would be worth while to go as we would all have to be disinfected before we get home or bring them back in our clothes and that would mean another ruined crop for Donley County, and besides they would

BLUEBONNET CLUB HEARS SUPERINTENDENT BAKER

Reported by Mary Lane Hendricks The Sixth Grade Club of Hedley School, better known as the Bluebonnet Club, was especially fortunate to have Mr. Sloan Baker at our club meeting April 17.

Mr. Baker spoke on the Texas Centennial and particularly on a trip he took last summer. He described many places of historical interest, such as the San Jacinto Battle Field, Washington-on-the-Brazos, mission at San Antonio,

probably eat all the grass off our course, and maybe the sand from the greens—Lord knows just what they do eat.

Houston's home at Huntsville, Navasota and others. We enjoyed every word of Mr. Baker's talk, but the part that we liked best was the description of Sam Houston's home. We hope we can be so lucky as to have Mr. Baker visit us again some day.

The Bluebonnet Club was only recently organized, but we have already had some good programs and much fun. Our officers are: president, Robert Grimsley; vice president, Ozier Jenkins; secretary, Mary Lane Hendricks; treasurer, Billy McBiffle.

Mr. and Mrs. Allen Bryan and children, and Mr. and Mrs. Joe Goldston were in Amarillo Sunday.

VISITORS FROM LUBBOCK

Mr. and Mrs. J. T. Polk and daughters, Johnnie, Imogene and Evelyn, and Mr. and Mrs. John Balois, and sons, all of Lubbock, were dinner guests in the C. L. Polk home here Sunday.

Mr. and Mrs. Balois and family have recently moved to Lubbock from Alaska.

Mr. and Mrs. Lewis Thomas of Ft. Worth arrived in Clarendon Saturday for a visit with friends and relatives.

ASSEMBLY

The regular assembly program was held last Thursday in the auditorium. The first part of the program was furnished by the Clarendon Band under the direction of Ray Robbins. The numbers played by the band were: "Blue and Gold" overture, S.I.B.A.

March, Silver Glade waltz. "Western Spirit" march. Mr. Drennan then introduced the speaker for the afternoon, Judge J. Gough, of Amarillo. Judge Gough, who is the author of several books dealing with the life of the cattlemen, gave a very interesting description of the first cattle drive through Donley County in which he took part. In his talk, Judge Gough gave a vivid picture of the life of the early cattlemen.

After this entertaining program, Mr. Drennan made a few announcements and dismissed the student body.

### FCA LOANS TOTAL \$600,000 IN COUNTY

ADMINISTRATION SAVES LOCAL FARMERS SAVE \$14,900 YEARLY IN INTEREST.

Refinancing debts through the Farm Credit Administration has saved Donley County farmers more than \$14,900 a year on interest alone, according to figures

from the central office of the Farm Credit Administration in Washington. Over \$628,000 of farm debts with interest rates that averaged 7 per cent a year have been refinanced with long-term mortgage loans carrying interest rates of 5 per cent a year or less. From May, 1933, when the Farm Credit Administration was organized, to the end of last year, 170 Donley County farmers obtained \$600,000 for the specific purpose of refinancing old debts. The Federal Land Bank made 78 first mortgage loans and the

Sybil Holland won further honors for Hedley High School by taking first place in extemporaneous speaking. Miss Holland, together with Jones and Richardson, will represent Hedley at the State Inter-scholastic League Meet in Austin May 11 and 12.

Land Bank Commissioner 155 loans. Many of the Commissioner's loans were made on second mortgage security to farmers who also obtained first mortgage loans. Most land bank loans are endorsed by associations and advanced from funds obtained by selling farm loan bonds. The Commissioner lends from funds provided by the Federal Government.

As in the past, the Federal land banks are making loans only on first mortgage security, lending up to about one-half of the appraised normal value of the farm property. The Commissioner lends on second as well as first mortgage security in amount up to 75 percent of the value. The largest amount of a Commissioner loan to one farmer is \$7,500. An act of Congress last summer temporarily reduced interest rates on all Federal land bank loans—old and new. Where land bank loans are made through National Farm Loan Associations, the rate is only 3 1/2 percent for all interest payable in the year ending June 30, 1936, and 4 percent in the two years following. This temporary reduction of interest rates on all Federal land bank loans is paid for by the Federal Government, which reimburses the banks for what otherwise would be a loss to them. Due to favorable investment market conditions when the Federal land banks sold bonds recently, the banks can offer new loans, at present, at the interest rate of 4 percent a year—the lowest at which they have ever lent money.

The statement from the Farm Credit Administration points out that a farmer who gets a Federal land bank loan through the local National Farm Loan Association while the 4 percent interest rate lasts will not have to pay a higher rate during the entire term of the loan, which may be made for a period as long as 30 odd years. Farmers who are paying higher interest rates on short-term farm mortgages, or other accumulated debts, may find it advantageous to refinance with a long-term loan while investment market conditions remain favorable, the statement adds.

"It's six cents, little girl," Abe said. "Well, that's all I have," the little girl said, and turned and started away, leaving the nickel behind. "Here. Don't forget your money," said Abe. "Oh, just keep it," was the reply. "It's not any good. It won't buy anything."

### Jones To Speak—

(Continued from Page One) chairman of the strategic committee on agriculture in the House of Representatives. Officials of the West Texas Chamber of Commerce consider the address by Congressman Jones as one of the highlights of the convention and they are eager to have farmers hear it. Congressman Jones is primarily an agriculturist, because he has studied farming and has known it since boyhood. He has kept it foremost in his public work until his scope and outlook has become broadened and moulded toward constructive legislation. Throughout his career as a congressman Mr. Jones has kept the individual farmer in mind. He believes that a nation springs from the soil and is firm and sound as long as it remains rooted in the soil. He mingles with farmers and is always glad to see their viewpoints. He desires to keep in close touch with them and always seeks out actualities. Speakers and subjects chosen for the general assemblies and group conferences of the West Texas Chamber of Commerce convention in Amarillo have been selected with extreme care to offer both entertaining and educational programs.

### L. Gough Visits Clarendon Tuesday

L. Gough, cattleman, poet, and author of "Spur Jingles and Cattle Songs," a book of verse composed by Mr. Gough when he drove cattle for the old T-Anchor Ranch, was in Clarendon Tuesday after addressing students of the Chamberlain School. One of Mr. Gough's poems entitled "T-Anchor Boys," gives a vivid description of Old Clarendon. The poem was written, according to the author, when the herd he was helping drive, arrived at the old town on June 26, 1882. County Superintendent Sloan Baker who accompanied Mr. Gough on his visit to the Chamberlain School, said the author would return to Clarendon next week to address other schools in the County.

### Farmer's Rejoice—

(Continued from Page One) fashioned gully-washer totaling 2.35 inches Sunday afternoon, according to records of Joe Goldston, local weather observer. This brings the total rainfall for the month to 3.15 inches, as compared with .18 of an inch during April last year.

To date, 4.07 inches have been recorded this year, as compared with 2.18 inches for the first four months of last year.

Reports from different sections of the county indicate that the rainfall Saturday and Sunday varied from one to five inches, Ash-tola and the section south of Clarendon reporting the heaviest precipitation.

The rain came just at a time that will enable farmers of this section to plant their crops without being late, and prospects, in general, are considered much brighter than they were at this time last year.

The mayor and commissioners voiced approval of the work that has been done on the project following the downpour of rain Sunday, when the dams held the water in check, allowing only the proper amount of water run through the ditch through town. The dams were nearly filled, they said, and emptied approximately five feet of flood water into the ditch, which was handled satisfactorily.
