## Donley Asks Federal Aid On Soil Erosion

### DISTRICT COURT GRINDS STEADILY AWAY SECOND WEEK OF TERM

#### AID SOUGHT THRU PLANNING BOARD

DUAL EFFORT LAUNCHED TO SECURE HELP IN SAVING DONLEY FARM LANDS.

Airmail rapidly was utilized Tuesday and Wednesday of this week to rush an appeal to Washington for Donley county to be included in a proposed federal soil erosion campaign to save farm lands in the Middle-West and the Southwest which plan is to be carried direct to the President by senators and congressmen of the effected territory, headed by Congressman Marvin Jones, chairman of the congressional committee on agriculture.

Earlier letters and an appeal had gone to the state planning board for help on a water conservation and soil erosion campaign along lines suggested by C. H. Wisdom, retired railroad agent here and Donley county farm operator for many years. Many local business men and farmers joined in this appeal and some hopes are held for help from this source.

Letters to Senators Connally and Sheppard, and Congressman Jones have been going out of Donley county for several weeks with no plan in mind, but giving form of preventative measures against the unprecedented soil erosion of this Spring, but Tuesday Clarendon Chamber of Commerce officials drew up and dispatched a formal appeal for help under the new emergency relief appropriation and in line with the announced plans of congressmen and senators for the wind-swept areas to go direct to the President with their plea.

In the optional plans of erosion relief asked the application asked help through two plans. (1). The allotment of two heavy-type caterpillar tractors and graders for terracing in Donley county, with a loan of fifty-cents per acre to farmers to cover costs of fuel and labor for the machines. (2) The outright grant of \$1.50 per acre for approximately 150,000 acres of farm lands in Donley county to cover costs of terracing and other recognized methods of saving the top soil and moisture.

The idea advanced by the local organization in asking for the federal allotment of two heavy-type tractors and graders to the county, is considered a better plan for the country, as it will save the government many millions of dollars over the outright grant as advocated in many quarters. Practically every dollar of the fifty-cents loan per acre would be repaid by the farmers.

Many counties in Texas and New Mexico have adopted the scale of \$1.50 per acre as the minimum asking for a federal grant to carry out the program of saving the top-soil and moisture, and the local group added that as an optional plan in case the first should not be adopted.

Copy of the Donley county application for soil erosion aid was filed also with Secretary Carl C. Hinton of Amarillo, who with Dr. Bennett, soil erosion chief, are in Washington seeking to forward the claims of the Texas Panhandle in this pressing matter. Bankers, farmers, business men, professional men are all interested vitally in this new menace that has arisen in recent weeks and the local plan is to stay on the job until some plan has been devised and some aid is received.

#### PLAINVIEW MEN VISIT LIONS CLUB

There was lots doing at the Tuesday luncheon of the Clarendon Lions Club at the Antro Hotel, and no dull moment sneaked in from the time President Patman called to order until the membership sang the first verse of America at the closing song.

Notables among the visitors were Lions Joe Pond and Ed Billingslea of the Colorado City Lions Club, who came in the interests of the candidacy of Lion Jimmy Green of that city for district governor in the election to be held at Plainview in the closing session of the district convention on Tuesday, April 23.

Lion Kerby introduced Jimmy Bourland and Sam Barrow, young debaters from Clarendon Hi who won the district debating honors at Pampa last week-end, with the unusual record of having won every vote of every judge in every contest. They received a great hand from the Lions on their achievement.

The program committee headed by Lion Rathjen put on a very interesting question and answer contest concerning Texas and her great resources and history. Some wild guesses were intermingled with correct answers.

Lion Secretary McKee had as his guest, Mr. J. H. Howze, they being excused early to take the 12:20 train for Dallas where they will represent the local Presbyterian Church at a state-wide meeting.

The matter of the delegation to represent the club at the district convention at Plainview April 21-22-23, was brought up and it was voted that the president appoint a nominating committee to canvass the membership and name a delegation of five delegates and five alternates for that purpose.

#### Commissioners Court Asked for New Roads

During the regular term of commissioner's court Monday and Tuesday a petition was presented by J. W. Bland and signed by 73 other legally qualified voters asking that the old county road which begins at the S. E. corner of the T. E. Baily farm, the same being in section 85, block 20, and ending at the N. W. corner of the Giles section be closed, and to open a new road of the first class beginning at the S. H. corner of the Baily farm across the Ft. Worth & Denver track to connect with highway No. 5 in its new location.

A motion was passed accepting the proposition of Clinton Henry to open a lateral road running South from the Charlie Johnson place on the JA ranch and connect with a public road of Briscoe county which has been improved to the Donley county line.

The resignation of Rayburn Smith as public weigher was accepted and Major B. Hudson was appointed to fill out the unexpired term. His bond was approved by the court.

#### 4-H CLUB WORK GAINS IN COUNTY

COUNTY-WIDE INTEREST IS SHOWN IN WORK BEING DONE BY COUNTY AGENT.

4-H Clubs are being organized throughout the county by H. M. Breedlove, county agent. Most of the work is being done in the rural schools at the present time. The boys seem to be very interested in this kind of work and with the support of the parents and the local communities, that this county will have one of the best 4-H Clubs in this section. The boys are signing up to grow calves, pigs, poultry demonstrations and have patches of different kinds of crops. If he can not feed a calf or pig then he can get a small patch of ground and work it himself and keep a perfect record of this land, this is one of the best ways to prove the value of certified seed.

#### SEVERAL TO SERVE IN PENITENTIARY

The week of criminal court in Judge A. J. Fires District Court has been a very busy one in so far as the trial of cases is concerned. The Fisher cases consumed the most of two days.

#### WILDCAT TEST IN THIS COUNTY

Interest in Donley county oil prospects has been accelerated this week by the announcement that drilling will start in the near future on land owned by E. B. Johnson 14 miles North of Clarendon.

Residents of the Northern part of the county are greatly excited over the prospects, which many report as looking favorable. Drilling operations will start within ninety days on the plot of land leased from Mr. Johnson by Mr. Egger of Wichita Falls and completion is promised at the earliest possible date, ordinary delays considered.

#### FISHER CASE CONSUMED MOST OF TWO DAYS; NOT-GUILTY VERDICT GIVEN.

The week of criminal court in Judge A. J. Fires District Court has been a very busy one in so far as the trial of cases is concerned. The Fisher cases consumed the most of two days.

Bill Fisher, A. O. Fisher and Earl Fisher, all of Childress, were indicted by the grand jury on two cases of burglary, allegedly on the premises of Wes Linders and Walter Lowe.

A. O. Fisher asked for and was granted severance in the case. Bill Fisher pled guilty as charged and was sentenced to seven years in the state penitentiary. Earl Fisher pled not guilty, and a verdict of not guilty was returned by a jury composed of M. W. Cook, W. T. Howard, E. H. Gerner, B. L. Howard, M. L. Monroe, Guy Taylor, J. A. Tollett, G. H. Holland, W. J. Self, F. G. Watt, P. V. Dishman and E. B. Richardson.

The Fishers were defended by R. H. Templeton of Wellington, who was appointed by the court as the penitentiary. He was charged with possession of whiskey for purpose of sale and for unlawful possession of a still for the purpose of manufacturing whiskey. Tucker has been in the Donley county jail since he was taken in custody on a farm North of Hedley several weeks ago.

Witnesses were subpoenaed from Quannah, Childress and Shamrock in the Fisher cases but only a few were used.

The case of State of Texas vs. H. L. Martin was continued by the state as well as the case against Buck Andis.

#### Cars for Relief Clients Must be Necessities

Recent instructions from the state officer of the Texas Relief Commission state that the following rules will apply to car registrations for the year 1935.

Assistance will be discontinued to relief clients who register cars and can not produce sufficient evidence that the car registered is an absolute necessity. Cars are, in a very few exceptional cases considered necessary and then only when it is definitely proved that they are instrumental in yielding income, either in cash or kind, from some source other than the relief office. Cars for transportation to and from work will not be considered necessities.

## Pledge

I will think—talk—write . . . Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be . . .

### TEXAS HIGHWAY DEPARTMENT IS READY

The tentative allocation of nearly fifty million dollars for highway and grade crossing work in Texas, out of the \$4,800,000,000 emergency relief appropriation, finds the Texas highway department with detailed plans in hand on so many millions dollars worth of highway projects that there is cause for optimism in Texas over the immediate dual prospect of completion of needed highways and the employment of thousands of workers at good wages.

There will be no long delays while the department considers ways and means of spending the allotted millions, for the Texas highway department has been busy for the past few years in working up the engineering details of very many more projects than they have had money to contract for and carry to completion.

Here in the Panhandle there are a number of throbbing gaps in the main highways that will now get attention with money only awaits the release of the federal funds.

The Texas highway department is ready. Unemployed thousands are ready. The public is more than ready.

### MORE "PLANS" THAN PEOPLE

We believe that if there was a census of all different political schemes that are being brought forward at this time, there wouldn't be enough people to go round. We mean that there would be more plans than there are people. In this country anybody can run for office—including even the presidency. Quite a number of people represent perpetual motion in politics—that is, their headquarters never close and they are candidates for something all the time. The itch for office is one of the worst diseases there is. It is absolutely incurable. We have people who will run as a Democrat, and if this will not win they will switch and run as a Socialist or some sort of hybrid. If this doesn't get them an office and a salary they may run next time under the Republican banner. Sometimes they will be on the conservative side of the political fence—and next time they may be on the radical side. And if they don't know which way the political cat is likely to jump they can stand right on the fence, ready to jump to either side that seems likeliest to be popular with the voters.

There are an abundance of parties in the United States—though we are not so over supplied as some countries are. And if you can't find a party whose platform you can stand on, you can start a party of your own—there's no law against it. There are numerous candidates already grooming for the next national campaign—next year. If you are planning to run for the presidency you may as well realize that you will have to bid high. The advocates of the 30-hour week are now held up as grinders of the faces of the poor, for we now have candidates who offer a program that calls for only two hours of work a day, or 10 hours a week. The organization that is pushing this plan tells us that "all that is necessary in order to make it a success is to get enough people to favor it." Yes, that's all—and it looks easy. The plan is to be put over by the old "chain-letter" scheme. That is, each person who receives one of the invitations is to "get two others to co-operate within two weeks." These "two others" are each to get "two others"—and the process is to continue until everybody will be in it and all opposition will be wiped out. Of course there's a "money end" to this plan. All the joiners are invited to subscribe funds and to buy pamphlets, etc., to be distributed or to subscribe for a magazine.

The Pathfinder has received literally hundreds of "plans." For a while the New Deal put a stop to this production of "plans"—but now the thought mills are grinding again and they seem to be turning out a bigger grist than ever before. We can give you any kind of a plan you call for. Many of them are comprised in such big books or pamphlets that we can't take time to more than glance through them. We try to study every plan and every suggestion that comes to us, and where there are ideas which seem likely to command any attention we tell our readers about them. We are often asked to pass a plan on to the President or others in authority and to call their attention to it. This, however, is useless, for all public officials are so inundated with "plans" that they cannot give even the best of them a moment's consideration. There is no lack of "plans"—that's not the trouble. The trouble is to find people who will join in putting a plan into effect.—The Pathfinder.

### THE SENATOR WHO VOTED "NO"

Recently a taxpayer wrote United States Senator Victor Donahey, calling into question his vote in the negative on the adherence to the world court question. The Senator replied with more or less logic according to the viewpoint of the person who reads his answer, but in the answer Senator Donahey presented arguments that are so unanswerable and illuminating that we present them below:

"If Great Britain made the payment due us on the war debt, it would cost her 4.1 percent of her budget. She says she can't pay us but she is spending 13 percent of her budget on armaments.

"If France paid, it would cost her 2 percent of her budget. She says she can't pay us, but she is spending 27.4 percent of her budget on armaments. After the armistice was signed we loaned France more than a billion dollars and during the same period of time she loaned European countries \$700,000,000.

"If Italy paid us, it would cost her 1.4 percent of her budget. She says she can't pay, but she is spending 33.1 percent on armaments.

"We spent \$42,000,000,000 on their war. We loaned them \$12,000,000,000 more. We conscripted 4,000,000 men for their war. We shipped 2,000,000 across the sea. We shipped almost all in British bottoms, and paid Great Britain \$140 to \$180 for the transportation of every boy. We paid them to transport our boys to their war.

"A hundred and twenty-five thousand of those boys never came back.

"We are paying \$800,000,000 a year interest on these debts that we contracted for them and that they now refuse to pay.

"If you subscribe to the greatest fraud of all time and condemn me for voting 'no' on world court adherence, sign this statement and return it to me.

Make no bad news and this paper will print none.

Some of us who had worked with Mr. Swinburne in school affairs knew him to be intensely interested in school work and especially interested in teachers and their troubles. His going leaves a vacancy in his community that no one can ever fill. We are sure that his influence will live on there for many years to come.

Mrs. Ora Montgomery, yard improvement demonstrator of Collin county, has a rule that no shrub is to be planted in ground that has not been especially prepared for it. If the ground is tight and waxy it has to be loosened up by working in barnyard manure and cotton waste from the gin before this home beautifier will approve risking the life of one of her plants.

Spring football training is in full swing, and the schedule for conference games has already appeared. In the last football season, high school and college students were severely reprimanded for their lack of loyalty. We wish to call the attention of the director of this reprimand to the fact that the bleachers on the football field are stood on at a risk by the person who wishes to see the game. It is difficult to enjoy a game while one is afraid he will fall to the ground if he does not continually hold his breath. Pep squad girls were unable to stay in body formation at many times last season because there was a broken plank in the middle of the bleachers.

We want to be loyal to our football players, but we do not care to risk a broken leg or arm. We believe that if we have new bleachers, pep squad girls as well as other classmates and citizens will give stronger support to the Broncho football team.

#### EDITORIAL

By ELOISE HILL  
Last week and the week before, many of us watched, in the county and district track meet, the racers run different lengths in an effort to snatch some glory. Students of high school may be compared to those runners. Freshmen-Sophomores, Juniors, and Seniors are engaged in one-two-three-four-mile races respectively. Regardless of whether we are freshmen or seniors, we are on the last lap. This race from either many fall; everyone must either finish or begin again. This is a race which must not only be finished but must be finished with a certain record; we may not come in first, or second, or even third, but we must finish. On the last lap just before the goal is reached there is a time that challenges the very best in the racers. They are tired, and oftentimes disgusted; yet with a realization that they must carry on, chins up and away. Final exams are not far away. If we cannot pass them, all our former work will have been in vain. To seniors it is especially important that they finish the race. There are more than fifty seniors in the 1935 graduating class. Perhaps they will not set a record in high speed; but a large number, the largest number ever to have finished Clarendon High School, may finish. Chins up; heads high; courage unflinching; finish.

### Clarendon High Wins Track Honors

Clarendon High School was distinguished in the District Interscholastic League Meet by the winning of two first awards, several second, third and fourth ribbons, and the collective awards of second place in track events and third place in literary events. Sam Barrow and Jimmy Bourland, the local boy's debating team, by winning first place, received a small silver loving-cup and the privilege of representing this district in the Regional Meet at Canyon a week from tomorrow. They participated in three debates and received the unanimous vote of the judges in each case. Harold McDaniel tied for first prize in high jumping. Other awards by track contestants were:

Second place, Javelin, Paul Greene; second place, 120-yard high hurdles, C. Word; third place, broad jump, Harold McDaniel; third place, mile relay, F. Holtzclaw, Vernon Reid, Royce Turnbow, Charles Word; fourth place, 220 low hurdles, Royce Turnbow; fourth place, mile run, Calvin Lane.

The high school typing team, composed of Eloise Hill, Viola Barker, and John Lott won third place, with an average speed of 41 words a minute.

Another third award was won by the boys' tennis doubles team, which consisted of Wesley Powell and Lowell LaFon. Beatrice Garmon won fourth place in the essay writing contest. Those entering the meet who did not place were: W. Hott, R. Hott, B. Word, Baxter, Butler, Martin, T. Holtzclaw and Cornell.

### College Honor Roll

In this week's Broncho Range we are instituting a new feature, the college honor roll. The high school honor roll has always been published, but this is the first time the highest grades of the college students have been compiled.

### SENIORS PICK DATES FOR SPRING EVENTS

The senior class is eagerly looking forward to two main events of the spring that have been definitely dated. Class Night will be observed April 25th, and the annual all-day picnic will occur the following day. The students who are to be on the Class Night program, which includes prophecy, history, and will of the graduates, are preparing their parts. The girls are becoming interested in their dresses to be worn on that occasion and are also thinking about the fashionable picnic togs for Senior Day.

### New Books Received

The librarian, Miss Willie Glenn Parten, reports that a group of new books, some of them replacements, are now being issued. Students of freshmen English are required to read the leading short stories, and the copies are almost all worn badly. The freshmen, therefore, are glad to hold fresh new books with all the pages stuck in while they enjoy the short stories. Following is a list of books that have been received:  
"Ole Creole Days"—Cable; "A Book of Narratives"—Campbell; "Typhoon and Other Stories"—Conrad; "A Book of Short Stories"—Jespou; "The Call of the Wild and Other Stories"—London; "Short Stories"—Stevenson; "Short Stories"—Schweikert; "A Lodging for the Night"—Stevenson; "Fascinating Stranger and Other Stories"—Tarkington; "Looking Forward and Others"—Tarkington.

### Socrates of Sports

With a sort of hangover from the track season, sports have degenerated to the zero point, and the stew is cooling. Nearly every participant in the County and District Meet is now settling longingly down to books, but the few who won honors at Pampa are still enthusiastically practicing their events for the Regional at Canyon, April 19-20.

Midst the lull our thoughts turn toward our friends Dizzy and Daffy and the rest of the baseball stars. Of course you remember Soc's forecast of the Cards winning the world series last year; well, he predicts the same thing for the high-flying red-birds this year. More about our baseballers later. McDaniel did himself proud by winning a tie for first place in the high jump at the District Meet. Charlie, Frank, Calvin and Paul all did well by copping a few seconds and thirds. Soc has a quarter on Jones to win the 100 and 220 at the Regional Meet.

### Home Ec Style Show Thursday Afternoon

The Home Economics classes, including both the first and second year classes, are sponsoring a style show to be given Thursday afternoon, April 11, in the Department of Home Economics. The display will include clothing made by individual members of the class, home projects, and class work of others along with an enjoyable program for the afternoon. The sport dresses of the second year girls are to be judged and prizes awarded to the winners. Workmanship, line, color, design and suitability to the person are to be considered in the awarding of prizes. The general public is cordially invited to be present, and we especially urge the mothers of all Home Ec students to attend and avail themselves of the opportunity to see the work that is being done by the Home Economics girls.

### FORMER STUDENTS OF LOCAL TEACHER BECOMES FAMOUS

Many years ago in Southwestern University at Georgetown, Texas, Miss Mary Howren reprinted a fifteen-year-old boy for sketching pictures in Latin class. That person has recently become famous as an author and artist, and an article in the April issue of Scribner's Magazine by Major John W. Thomson, Jr., was noticed by Miss Howren, local Math instructor. The article is entitled "The Case for the Soldier" and shows a thorough study of military history. It is graphically illustrated with drawings of warfare on land and in the air.

### Palo Duro

The members of the Palo Duro Society enjoyed a short, though interesting program Wednesday, April 3, in their room in the Girls Dormitory. Geraldine Pratt related a very thrilling short story by Guy de Maupassant, "Apparition." Following this, Charlie Word sang the currently popular song hit, "The Isle of Capris." The program was concluded with a very amusing reading in Italian dialect by Rosalyn Bass.

The members of the society were glad to have Charlie and Rosalyn as guests and appreciated their performances.

Plans were discussed for a picnic and April 17 was set as tentative date for the event.

### Senior Personalities

Wayne Fry is a reserved boy from Kansas who began school here the second term and during that short time has made many friends. Wayne has a quick temper which shows itself often in class. He is a good history student and likes that study very much. In the Kansas high school he played football. Harold McDaniel is five-feet-nine, a Broncho letterman, and a star athlete. He has a pleasing personality and a subtle manner of expression to those with whom he is intimate. Harold is a favorite with the leading social set and enjoys entertainments. He is an active member of the Palo Duro Society.

Dorothy Phelps is the tall, light complexioned girl who played the part of Miss Prunella Thorne in the recent senior play. She has lots of friends, a frank, charming manner, and dates a college freshman. Dorothy plays tennis and participates in other school activities.

My Name is:.....  
My Address is:.....  
(Save Until Complete Series Appears)

### HERE ARE THE RULES!

Each week for a period of six weeks The Clarendon News will print one of a series of cartoons representing some well-known proverb or saying. Contestants solve the picture puzzles by writing the proverb that the cartoon suggests or illustrates in the blanks below the picture. It is simple. The prizes, totaling \$10 in cash, will be awarded those sending in complete or near complete picture sets with the best and most appropriate answers to the pictures published, and either paying their own subscription for a period of one year or securing one new one year subscription to The Clarendon News. Cartoons should not be sent to the paper until the series is complete. Only one answer may be given to a picture. Only one member of a family will be given a prize, the award going to the person in that family submitting the best set. The answers may be written in pen, pencil, printed or typewritten. In case of a tie, neatness and spelling will be the deciding factor. The judges will be announced at a later date and their decision must be accepted as final. No sets will be returned, nor will we enter into correspondence regarding the contest. Remember the first prize is \$5.00 in cash; the second prize is \$3.00 in cash and the third prize is \$2.00 in cash. Watch Next Week's Clarendon News for the Sixth Cartoon.

LIBRARY NOTES

Probably few women in the United States can boast such intimate knowledge of women's problems, both in this country and abroad, as can Dr. Lena Madison Phillips, author of "Skin Deep." She gained her knowledge largely from first hand observation of economic conditions as they affect women of the United States and Europe, and more recently from intimate contact with current problems as consultant to the Consumers' Advisory Board of the NRA. Fifteen years ago, as executive secretary to the newly-created National Federation of Business and Professional Women's Clubs, Miss Phillips, a Kentucky lawyer and the daughter of a Kentucky judge, turned her organizing genius toward the solution of women's problems in this country. She has practiced her profession as an attorney in New York City since 1925. "Woman in Love" is Kathleen Norris' fiftieth novel. "Mother" was her first. Her first grandchild was born a few days ago. In honor of the Texas Centennial celebration in 1936, Kalerograph, a national magazine of poetry, Dallas, Texas, offers prizes totaling \$100. The poems must be on themes relating to Texas—history, tradition, pioneers, heroes, industries, scenery, etc. Length limit, fifty lines. In his forthcoming, "Deep Dark River," Robert Rylee portrays a small county seat in Mississippi. He lived in Dallas until recently, and wrote his novel there. It will be published this month. Lloyd C. Douglas, whose "Green Light" has just been published, is leaving California this month to drive East to his home in Wellesley. Arthur Kallitt, co-author of "100,000,000 Guinea Pigs" has written another book, "Counterfeit" which will be published this month. T. S. Stribling is working on his new novel at his home at Clifton, Tenn. It has a background of state and national politics. One of our new books is his "Teetotalow." He took the Pulitzer prize in 1932 on "The Store." A new novel by Bess Streeter Aldrich, "Spring Came on Forever," will be published next Fall. We have everything she has written so far, but of them all, "The Lantern In Her Hand," remains the favorite with our readers. Rockwell Kent of "N be E" fame has just completed a new book "Salamina," so he has cabled his publishers from Greenland. The manuscript will reach America in June and will be published this Fall. Louis Bromfield has just completed a new novel, "The Man Who Had Everything." He has recently sailed for France, leaving the manuscript with the publishers to be brought out soon. Clemence Dane will bring out a new book of short stories this Spring, and is at work on a long novel for publication in the Fall. Hilton Ross Greer of Dallas is having a book of his own poems published this week by the Tardy Publishing Company of Dallas—the first book of his own since 1912.

LIFE INSURANCE IS FOR A PURPOSE

PRESIDENT OF SOUTHWESTERN LIFE INS. CO., RECOUNTS PRINCIPALS.

"Since 1928 one hundred billion dollars of life insurance has lapsed or otherwise terminated in the United States," stated Mr. C. F. O'Donnell, president of the Southwestern Life Insurance Company in an address to agents recently. This is the amount of life insurance that was not continued until death or until maturity of the endowment policies. The lapse figure can be compared with the amount of life insurance which is now in force in the United States which amounts to ninety-eight billion dollars. This comparison suggests the possibility that people might use more care in buying life insurance. Life insurance companies have found out that insurance which is bought for specific purposes stays in force better than life insurance which is bought without a specific purpose in mind. For that reason the life insurance business has developed plans for special purpose life insurance. Special purpose life insurance may be designed for three principal purposes. 1. To provide an income to a family during the period which is necessary for the rehabilitation of the family following the removal from the family circle of the principal income producer. 2. To provide a monthly live income for designated person. This designated person may be the widow of the insurance buyer, of the life income may be for the insurance buyer if the insurance buyer lives beyond the working years of life. 3. To provide educational funds for the higher education of children. The local agent, W. M. Patman, states that he has found individuals in the past few years making their insurance selections with special purposes in mind, spent Sunday with Bert Tunnell. Mr. Vernon Brame of Channing spent a few days last week with home folks.

such as monthly incomes, providing children with educational incomes, incomes as vacation times or incomes at Christmas time, and really giving the matter serious thought in the end that the insurance money will work for the beneficiary because of a fulfillment of a well instituted insurance program.

THREE BIBLES DONATED BY PRESBYTERIAN CLASS

An article appearing in the current issue of the Transit Magazine in the Clarendon Camp section is of interest locally in that the boys received three Bibles for their library. The article is as follows: "The boys at the camp received a gift the other day which shows that an interest is being taken by the people of Clarendon. Robt. S. McKee, pastor of the Presbyterian Church, brought down three Bibles which were bought and presented to the camp by the Men's Bible Class of his church." The boys have expressed their gratitude for this gift, and were deeply appreciative. The library is also receiving donations of magazines and books for the enjoyment of the boys.

**Methodist Looking Forward to Easter**

Every department of the Methodist Church is looking forward to Easter, according to the pastor, Rev. E. D. Landreth, who in conference with the various departmental leaders of the church has set several goals to be reached on Easter Sunday, April 21st.

A spiritual feast for every member of the church is set as the first and most important goal to be reached and this hoped-for result will be peaked up in the Easter morning service of Sunday School and Church. Every effort will be made to have a full attendance of the membership at these services, where a worshipful hour will be enjoyed in a special sermon by the pastor, a sacrificial offering, baptismal rites and assuming the vows of the church. Special Easter music will also be sung by the choir.

Members are invited to come to these services and participate in the fellowship and offering, bringing their money in envelopes to be dropped personally in the sacrificial treasury provided and decorated for the day. Contributions for the general church and the benevolent collections will be so marked on the giver's envelope.

Judge J. R. Porter, chairman of the board of stewards, announces the aim to bring all finances of the church up to date without deficit, to see half the conference benevolences in cash, enough additions to the church to bring the total up to fifty for the year, and baptisms to bring the totals up to fifteen. Sunday School Supt. D. R. Davis, is asking for an attendance in Sunday School on Easter of a minimum of 400.

At the evening hour the choir will present its annual Easter Cantata to which the public generally is invited.
