### FORMER LOCAL MAN WINS LIONS HONOR

RALPH RANDEL, PANHANDLE, ELECTED DISTRICT GOVERNOR AT CONVENTION.

President J. T. Patman of the local club was chairman of the Constitution and By-Laws Committee of the convention, and W. H. Patrick and Sam M. Braswell appeared on the speaking program.

The convention was presided over by District Governor E. L. Pitts of Lubbock, and heard International Director Fred O. Grimes of Hillsboro, Consul General Raphael de la Colina of the Republic of Mexico, Francisco Allatore of San Antonio and other prominent leaders of Lionism during the session.

Over five hundred registered for the convention, eighty-nine of these being wives of attending Lions.

The local delegation was made up of President J. T. Patman, Mess. Odos Caraway, Ira Merchant, Tom F. Connally, Homer Mulkey, Dr. A. W. Hicks, Mess. and Mesdames W. H. Patrick, Cap Morris, Sam M. Braswell.

### AGGIE TEACHERS MEET AT DALHART

FINNELL BLAMES EROSION LOSSES TO SHORTSIGHTED FARMING.

On Saturday, April 20, the Vocational Agriculture teachers of the Panhandle-Plains area visited the Soil Erosion Control Project near Dalhart for the purpose of getting information on the soil management policy advocated by the government wind erosion experts. J. M. Hill, who made the trip with this group, reports that the damage done to farm lands and pastures north and east of Dalhart by wind erosion is almost unbelievable. Mr. Hill says that many thousands of acres in this region have been blown out clear down to the hard sub-soil which has never been stirred by a plow, and that fences and farm buildings in many places have been almost covered up by the drifting soil. Some few farmers in the midst of such disastrous conditions have been able to prevent such great damage to their land by leaving a protective covering of vegetation on the land.

Mr. H. H. Finnell, director of this soil erosion project covering 26,000 acres, says that such great damage to the land is due mainly to the poor and shortsighted farming practices used by a number of the farmers in recent years. The two outstanding mistakes that some farmers have made, he says are first, the burning off of wheat stubble and straw, and second, close grazing of stalk fields and pastures.

Mr. Finnell has studied farming practices and their relation to soil erosion, for many years and he believes that if all farmers will use only good sound farm practices that damage due to wind erosion will be prevented to a large extent in the future. He named three principal control methods for preventing soil erosion as follows:

First, grow crops which leave an erosion resisting residue of stalks and roots, such as milo, regar, and kaffir. He stated that corn and cotton offer little resistance to blowing. Where cotton or corn are grown, strip cropping was suggested, using alternating strips of cotton and some erosion resisting crop. Mr. Finnell also stated that when it was so dry that a crop could not be grown on the land during the normal growing season, that a catch cover crop for soil protection only should be planted even late in the season when it did rain.

Second, conserve all moisture that falls on the land in the form of snow or rain, thereby helping to grow crops which in turn will keep the soil from blowing. This moisture could be largely held where it falls by a good system of terraces and by contour listing.

Third, by maintaining a reserve of livestock feed on the farm so that during years of drouth, the farmer would not be compelled to over graze his fields and pastures in order to keep his stock alive. This feed reservation can be maintained by stacking bundles or by using trench silos. Mr. Finnell says that feed cut for bundles should be cut high so as to leave more stubble on the land.

Other control measures recommended for certain localities are, tree planting on a large scale for wind-breaks and retreating of marginal land, that blows easily, from cultivation and seeding it to permanent pastures. The basic treatment for the land in the Dalhart project seems to be the proper terracing of all farm land.

Mr. and Mrs. A. L. Chase left Tuesday for Fort Worth where they were accompanied by Mrs. R. J. Corson, who resides there. After a visit in the home of Mrs. Corson. Mr. and Mrs. Chase will spend several days visiting friends and relatives in Waco and Cleburne.

### Dollar Day Will Be Friday and Saturday

Several merchants of Clarendon are featuring Dollar Day Friday and Saturday, April 25th and 26th, for the benefit of the buying public.

Many new and assorted articles will be shown on this two-day occasion, which promises to bring one of the largest crowds to Clarendon in several months.

The Dollar Day specials are not in one class of merchandise but several. For the pantry there will be varied selections of specials in the grocery stores, as well as handy and useful articles for the grown-up and children at the dry goods stores.

It is planned to make the Dollar Day event a monthly affair, with specials being offered at rock bottom prices.

### B. & P. W. CLUBS WILL CONVENE AT SHAMROCK

At the District Convention of Business and Professional Women Clubs to be held Saturday and Sunday at Shamrock, Mrs. Ruth Teat will represent the Clarendon club, with Miss Norma Rhodes as alternative. A large delegation from the Clarendon club are planning to attend the convention Sunday.

Fifteen other Panhandle towns will be represented at the convention and Mrs. Faye Gordon, District president from Amarillo, will be one of the outstanding speakers on the two-day program.

### BAND TO PRESENT CONCERT TONIGHT

WILL PRESENT WEEKLY CONCERT IF JUSTIFIED BY PUBLIC INTEREST.

Under the direction of Chas. S. Eskridge the Clarendon band will present its second concert tonight at 8 o'clock on the courthouse lawn.

Director Eskridge announces that if attendance is large enough

to justify the efforts, the band will present a weekly concert to the public throughout the summer.

Military airs will be featured by the twenty-two piece band in the program which will be presented on the pavilion constructed at the courthouse lawn for band concerts.

### T. B. Testing Well Under Way in County

Four veterinarians arrived in Donley county Monday morning to begin the testing of 10 percent of all range females, all available bulls, and all dairy cows.

County Agent H. M. Breedlove reports that four additional veterinarians will arrive Monday and the work will be completed within three weeks.

### COURT IN SESSION AFTER A RECESS

BILL HALL GIVEN EIGHT YEARS IN PENITENTIARY FOR COUNTY THEFT.

District court reconvened Monday morning after being recessed the latter part of last week, with the case of State of Texas vs Bill Hall and Roy Jones being called to trial for alleged theft on or about January 25, 1935.

Hall plead guilty, waiving a jury trial, in the alleged theft of 10 sets of harness, 12 sacks of cotton seed and a quantity of wheat, which Mr. Russell testified had been taken from his place and later identified a part of the articles in Childress county.

The judgement of the court was that Hall should serve eight years in the penitentiary. The case against Jones was dismissed.

W. R. Tucker gave notice of appeal from a five-year sentence for unlawful possession of a whiskey still, and a quantity of whiskey.

Howard Arnett also appealed a sentence of one year conviction for chicken theft.

Court was recessed by Judge A. J. Fires Tuesday afternoon until this morning. The grand jury is expected to complete its work today.

### Methodist Choir In Broadcast Sunday

According to announcement last week, the Clarendon Methodist Choir will broadcast over W DAG at Amarillo Sunday afternoon, April 28th, from 3:30 to 4:00 o'clock. The broadcast will be from the studio at the Amarillo Hotel, and the program will be a cutting from the Cantata, "The Living Christ," presented here Easter Night.

At 8:15 that evening the Choir will present the full cantata at Dimmitt as a return program for one presented here last year by the Methodist Choir of that city.

Dr. A. W. Hicks is in charge of transportation arrangements, and the organization will leave Clarendon shortly after noon Sunday. The public is invited to tune in for the program.

Mrs. Leona Middleton and Mrs. Sanders of Quitaque spent last Wednesday night in Clarendon. They were accompanied by Fletcher, Oklahoma, by Miss Carrie Davis of this city and spent the Easter holidays there.

### SEWING ROOM IS ASSET TO COUNTY

OVER THOUSAND GARMENTS COMPLETED FOR RELIEF CLIENTS BY WOMEN.

Statistics gathered from the local sewing room show that since opening on March 1st, 1,030 garments have been completed and a total of \$694.40 spent for labor with no estimate made on the material used.

Mrs. J. M. Acord is supervisor of the department and since the date of the opening, an average of eight women per day have received employment. More than half the number employed were not experienced in sewing at the opening date and aside from furnishing relief clients with apparel, the primary object of the project is to instruct in needlecraft.

Articles already completed by the sewing room are as follows: 33 diapers, 210 sheets, 135 pair of pillow cases, 51 pair of bloomers, 95 ladies' and children's print dresses, 2 play suits, 89 shirts, 61 pair of overalls, 9 pair of baby blankets, 33 slips, 10 baby dresses, 3 suits of men's

### LEGION MEETING AT WELLINGTON

LOCAL SONS OF LEGION DRUM AND BUGLE CORPS PARADE SATURDAY.

A delegation of members of the Aubyn E. Clark Post of the American Legion, together with members from the Legion Auxiliary and Drum and Bugle Corps, attended the Convention of the 18th District of the American Legion, Department of Texas, held Saturday and Sunday at Wellington. Of the 34 posts in this district, 21 were represented. Borger was chosen as the next convention city.

The local Sons of American Legion Drum and Bugle Corps paraded Saturday morning with the McLean band upon arrival at Wellington.

Following various meetings and lectures on Saturday's program, a dance was given Saturday evening for Legion and Auxiliary members.

The Sunday morning session was held at the Ritz Theatre with Mayor Deskin Wells delivering the welcome address, and Judge W. B. Combest of Paducah giving the response.

Of great interest to the Clarendon delegation was the address delivered at the Sunday morning session by Judge John Lee Smith of Throckmorton, who headed the banquet program at the last meeting of this district held in Clarendon.

At the noon hour, Legionnaires and their wives were guests at a barbecue at the Wellington Legion Hut.

Van W. Stewart, District Commander from Perryton, opened the evening session. Post 126 of Clarendon answered roll call with a splendid report, having the only Sons of American Legion Drum and Bugle Corps in the district and one among few to have a Sons of Legion organization.

At this session, George Broome, National Executive Committee member, in an address to the delegation rehearsed the need of a Veterans hospital in the 18th district.

Other speakers of renown on this program were C. Garland Adair, Editor of the Texas Legion News, who reported activities of this district and John Lee Smith and George Broome who discussed the Bonus Bill.

Misses Marie Thornton, Ineva Hendrick, and Beta Mae Hall spent the week-end in Amarillo visiting friends and relatives.

### PETTY THIEVERY CONTINUES HERE

THREE REPORT PROPERTY STOLEN MONDAY NIGHT TO LOCAL OFFICIALS.

Contrary to public belief after the recent arrest of members of an alleged thievery ring in this county, petty thievery apparently has not died down within the county as three additional notifications of stolen property were made to county officials this week.

Contractor Brown reports twelve sacks of cement stolen Monday night from supplies placed by his company on the new Highway 5 from Hedley to Memphis and Fred Russell reported as missing a hydraulic jack from his truck on the same evening. Lugs were loosened from the tires in a vain effort to remove them while the truck was parked in town.

Fayne Kent notified officials of the theft of a saddle and blanket from his ranch home on the same night.

and boys' underwear, 4 gowns, 7 baby gowns and 21 quilt linings.

### SCHOOLS SET FOR COMMENCEMENT

128 TO GRADUATE; CLASS NIGHT FRIDAY AT COLLEGE AUDITORIUM.

The names of one hundred and twenty-eight Clarendon students were listed as prospective graduates this week by local school heads and will don the Caps and Gowns during college, high school and junior high school commencement week.

Class Night, the first event of the closing exercises of the school, will be held Friday night at the College Auditorium at 8 o'clock.

Miss Marie Thornton has arranged a program for Class Night which will maintain the standard of other unusually good presentations made this year by the high school Seniors.

Mrs. Homer Powell will play the processional, and after assembling in the auditorium, Bob Word, class president, will deliver the welcome address.

Miss Eloise Hill, popular class member and assistant editor of the Broncho Range, was applauded by the class to read the class history, and Chas. Word, tenor, will be presented on the program as class soloist.

Miss Helen Louise Green will read the class will and Miss Dorothy Dale Powell will be introduced in piano selections as class pianist.

In keeping with the age-old custom of Clarendon graduating classes, president Bob Word will deliver the key oration and present the key to higher learning to junior president, Laverne McMurtry. In return, Miss McMurtry will speak in behalf of the 1935-36 Seniors.

Sam Hardy Barrow has been selected as class statistician and will be followed on program by Miss Beatrice Gorman, class prophet.

Concluding numbers on the program will be clarinet solos by Bob Boston and class songs, which will be sung by a group of twenty girls.

Following in quick succession of Class Night, will be Senior Day and College Day on Friday, May 3rd. The two graduating classes voted this year to combine the annual college picnic with the annual senior picnic and both classes will spend Friday at Dripping Springs.

College, junior high and high school graduates will participate in the baccalaureate service which will be held Sunday morning, May 19, at the Methodist Church. The Reverend E. D. Landreth, pastor, will deliver the sermon.

Superintendent H. T. Burton announced Friday evening, May 24th, as the date set for the high school graduating exercises. Following the custom of previous graduating classes, commencement exercises will be held at the Methodist Church Friday evening, May 24th, with Stuart H. Condon, former Dean of the Clarendon College and now head of the Government department at West Texas State Teachers' College at Canyon, chosen to address the 1934-35 class. Fifty-three prospective graduates were named by Superintendent Burton.

According to Dean R. E. Drennan, college graduation exercises will be held Thursday evening, May 23rd, at the College Auditorium. Dr. Bradford Knapp, President of Texas Technological College at Lubbock, will deliver the address to fourteen college graduates.

Principal A. M. Lane of the Junior High School named a list of sixty-one graduates from the Junior High building. Exercises for this group will be held Friday morning, May 24th, at the Junior High Auditorium. The speaker for the occasion has not yet been chosen.

Prospective high school graduates named by Superintendent Burton are as follows:

## Pledge

I will think—talk—write . . . Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be . . .

### ANOTHER WAY OF SAYING IT

In a recent weekly financial survey put out by Roger Babson, he makes caustic comment upon the tendency of some groups to attempt to draw a line of cleavage between the interests of capital and labor, and says "the truth is that every capitalist is a wage earner, and every wage earner is a capitalist."

This is just another way of saying what has been eternally true, that the interests of all citizens of this commonwealth are in the last analysis the same.

Only ignorant, selfish, sinister minds will argue otherwise.

### SUSPENDED SENTENCE

Dallas Journal: For the second time this year, murder has drawn a suspended sentence in Dallas. Without going into the case as juries do, it is impossible to say dogmatically that in both instances the verdict is wrong. But in the latest case the defendant appears not to have denied the killing, but to have pleaded insanity brought on by the consumption of poisonous whiskey. That would seem to give some sort of basis for determining the worth of the jury's services in the cause of protecting life in Dallas.

Thus far there have been six murders in Dallas in 1935. Not a single defendant out of these six slayings has gone to the electric chair. Two defendants have been turned loose, as free as air, with suspended sentences. This sort of thing has been going on for a long time in Dallas. Of course murder is rampant here. We had 86 killings last year. Dallas is one of the most unsafe cities in America today.

Juries ought not to have the duty of determining the severity of the penalty. They should say "guilty" or "not guilty"—and let the Judge do the rest. We ought to change our laws to arrange it that way.

### THE JURY'S QUALIFICATIONS

Somebody wishes to know the qualifications of an ideal newspaper man. There isn't any such individual, but if there were, he would be as fast in action as an electric fan and as patient as a Job; he would have the endurance of 20 and the wisdom of 70; he would have the memory of an encyclopedia and the infallibility of an adding machine; he would have an eye like an eagle and the nose of a bloodhound; he would be as tactful as an expectant heir before a rich uncle, and as firm as granite; he would be as disconcerting as a shaft of light and have the analysis of a supreme court jurist; he would be able to, at one and the same time: answer two telephone calls, place a call of his own, check a proof sheet and add the middle name of the third assistant secretary of the navy, and remember whatever it was he was told to bring from the corner drug store.—Republican-Clipper.

### THE VALUE OF PETITIONS

Senator John Redditt of Lufkin seems to have produced about the last word on the value of petitions to the legislature, according to word from Austin.

About 20 of the leading business men of one of the towns in the senator's district signed a petition. One man wrote Redditt urging just the opposite. Redditt replied to the individual by sending him the numerously signed petition.

The man took the petition and on its back wrote a petition for his views, exactly contrary to the views expressed on the other side. He then secured the signatures of nearly all the original signers and returned the petition to Senator Redditt.

With the two opposed petitions the senator from Lufkin has succeeded in demonstrating what almost everybody knew long before this—that petitions aren't worth very much. The public itself doesn't value such things very highly, and it is difficult to understand the weight they are given at times by lawmakers. It is a flood of telegrams, letters or petitions on almost any legislative subject. The sooner lawmakers, both state and national, learn to pay less attention to such inspired appeals the sooner will lobbyists abandon the practice.—Wichita Falls Record-News.

## LIBRARY NOTES

(By Mrs. C. A. Burton)

A meeting of rather unusual significance is being held in Austin this week—the meeting of the Texas Library Association. The theme of the meeting is Library Planning for Texas. Among the exhibits will be one of Texas books for first purchase arranged by E. W. Winkler, and the interests of the Texas Centennial will be in the foreground in both exhibits and program.

With an initial gift of one hundred dollars by the will of Ebenezer Learned the first free children's library on record was established, just one hundred years ago, in West Cambridge, Massachusetts. From its humble beginning as a "juvenile library"—better known, perhaps, as "Uncle Dexter's Library" from the latter who opened the library on Saturday afternoons for the children—special attention to the library needs of children has gained recognition until now children's libraries have become a specialized field.

A library on horseback is one of the ventures of the Federal Emergency Relief Administration. It is part of the nation-wide adult education program, and is designed to serve mountaineers of the remote Leslie county, Ky., district. The horseback library circulates 500 books and employs four equestrian woman librarians. One of our new books which I specially enjoyed is "The Folks" by Ruth Suckow—pronounced Sooko—long o's.

Of this book Carl Van Doren says in the Literary Guild magazine, "If 'The Folks' is continental in its range this is because it tells its story on so generous a scale, its many characters and many settings. Yet it has none of the melodramatic qualities of most panoramic novels. Every detail is executed with an exact and arresting realism. There is hardly a paragraph in the book which does not make some fresh observation upon American common life or give rise to a start of happy recognition in the reader. Because it is extraordinarily life-like the interest of the narrative never lags. These folks are so real that to meet them is to believe them, and to believe them is to want to go on knowing more about them."

Another comment is that it is a folk novel of a new kind—that the word "folks" will take on a new dignity and settled meaning from this story. The scene of the story covers the entire country from the Middle West to the seaboards, and is a record in fiction of that crucial period in this country which reaches from the

turn of the century to the present. In the lives of the old folks, in the growing up and scattering of the sons and daughters to the various states of the union from New York to California there is scarcely a page which does not bring to mind some familiar association. In portraying her characters which run from provinciality to urbanity, from innocence to sophistication, from troubled idealism to latter day Communism." Ruth Suckow has integrated change and permanence in a remarkable way.

Ruth Suckow was born in the small town of Hawarden, Iowa, in 1892, the daughter of a congregational minister. Because of the moving from parish to parish of her minister father she early acquired a thorough knowledge of the life of that section. She took her degree at the University of Denver in 1917, and taught in the school for awhile. But a friend taught her to keep bees and sell honey. She decided to do this—and write—and did for six years. She had always written—as a little child an on. Her early stories were bought by Mencken and used by him in his magazine. His hearty recognition brought rapid recognition by others. She wrote short stories only for a time, then in 1924 her first novel, "Country People." She has followed this with about a book a year since—most of them family novels, somewhat the type of "The Folks," but none equal to it. In 1929 she married Ferner Nuhn of Cedar Falls, Iowa, and now lives in New York City. "The Folks" was the Literary Guild selection for October.

### LOCAL STORY SPREAD OVER WIDE TERRITORY

Some weeks ago on the Clarendon High School page in The Clarendon News a story appeared of a demonstration put on at the school, by Mr. A. L. Chase, local Continental Oil distributor, of germ-processed lubricating oils.

Last week this story was put in bulletin form by the Fort Worth divisional offices and sent to every dealer in Texas, and the next current issue of the Conoco Magazine will carry the story to forty-three states and over 22,000 dealers.

Clarendon and Mr. Chase are getting a lot of worthwhile publicity and it came unsolicited.

Mrs. Will Lott had as her guests over the week-end her daughter, Miss LaVerne of Texas Tech, her niece, Miss Marjorie Lott, also of Texas Tech, and her nephew, Billy of Amarillo.

Mrs. A. J. Morris and two daughters, Lois and Aileen, of Amarillo spent Sunday here with Mrs. R. A. Morris.

## The Rural Community Has Come to Town

The rural community and small city faces a new future. Electric service and all that electric power and light mean to home life, commercial and industrial development is now available for a more constructive and wider field of achievement.

Much work, planning, testing, engineering and large investments of capital was necessary in order to make this possible. Our 2600 miles of power transmission lines, interlacing 49 counties in West Texas and serving 160 towns and communities provide an adequate and economical source of dependable electric service with precise regulation to meet the requirements of modern day appliances.

Today hundreds of small West Texas towns and communities can offer to industry this modern electric service in proximity to its raw materials . . . two very necessary prerequisites for industrial progress.

We point with pride to our part in assisting the small towns and communities in this way, thus guaranteeing to them the same opportunities in respect to power as the larger metropolitan cities enjoy. It is our policy to fully co-operate with the small towns and communities we serve so that they may realize the full benefits accompanying and made possible by electrical development.

Despite the prospects for moisture and sand storms, Easter Sunday was one of the most beautiful days of Spring. Sunday School was well attended, with one of the largest crowds of the year.

Miss Eunice Johnson gave a reading at the close of the opening exercises. The lesson, which was upon the Resurrection, was one of the most impressive and one most looked forward to.

## Donley Farmers Ask More Than Allotment

To date, applications for 18,000 acres have been filed at the county farm agent's office to receive appropriations of the \$1,000 or ten cents per acre for 10,000 acres allotted this county in the Federal Erosion project.

County Agent H. M. Breedlove stated this week that this appropriation was intended only for farmers whose land was not already listed and who had suffered severely from wind erosion.

Breedlove, together with a special committee consisting of one man from each of the four precincts, has set Thursday as the final date for applications to be filed for the ten cent allotment. Letters to that effect have been mailed all farmers whose names are on record.

The committee will meet after all applications have been filed Thursday and appropriate sums to farmers in the greatest need.

Farmers who receive aid will never realize any actual cash, according to Mr. Breedlove. The local relief office will disburse orders for fuel and feed to list the farm lands and the farmer will enter into an agreement that labor shall be continued daily, weather permitting, until the project is completed.

Miss Ella Mae Hogan and Mrs. Magnolia Ellis spent Friday afternoon in Amarillo.

### Home Ec Girls Entertain Faculty and Members of Board

The second year class of the Home Economics department entertained the faculty and school board with a formal dinner Thursday night, April 18, in the entertaining rooms of the Home Ec department.

Immediately after assembling, the guests joined in singing "Hail, Hail, the Gang's All Here." During and after the dinner an entertaining and educational program was presented. Miss Maurice Berry, Home Economics instructor, gave a welcome address, after which Dorothy Phelps, hostess, announced the first number to be a vocal solo by Charley Word. He sang the currently popular song hit, "Blue Moon." Nell Cook then gave a convincing talk on the subject, "The Value of Home Economics." This talk was followed by a comparison of the schools of twenty-five years ago and those of today by Mr. H. T. Burton. At this time another entertainment feature of the program was presented, a tap dance number by Emmalee Johnson and Kedron Evans. Then a talk was given by Mr. Porter in which was brought out the necessity of a new course which would teach the students how to study. As the conclusion of the program, a few words of appreciation were offered by another member of the school board, Mr. O. C. Watson.

The Home Economics girls displayed some of the knowledge they have been acquiring in the preparation and serving of the following dinner.

- Fruit Cocktail
- Fried Chicken
- Creamed Potatoes with Gravy
- Buttered Carrots and Peas in Timbales
- Hot Rolls
- Salted, Buttered Almonds

### Socrates of Sports

Amid all the fussing between the silly Seniors and college stiffs about who's gonna be who on May 3, and amongst the short story writing craze, the nigger shootin' and what not, there isn't much room left for sports, especially brain busters like Soc.

Anyway here goes: The Great Plains track meet to be held at Canyon, Saturday, will hold the attention for our heroes of college competition, Rank Reavis and Honest Dave McKelskey. These boys will attempt to carry off the hurdle races and four forty, respectfully. (No, that word is not misspelled; "If our boys can't do it that way they just won't do it," says the Dean.)

The boys over at the Regional last Saturday ran the most for the least at the best than the S. S. ever heard of before, that is, quoting Benjamin Bernie.

What I mean to say is that ten new records were made which was pretty good. Compton of Mobeetie made the high hurdles in 15.1 which is considered fair steppin' for a Cotton Country, and incidentally, he was about a half a jump in front of Charlie Word, home product. Too, Horsie Holtzclaw ran a good fourth in the 440 which was won in the record time of 51.2. Turnbow and McDaniel also did well by winning places in the low hurdles and high jump, reading from left to right, so to speak.

These boys are thinking of going to the state meet a week from Saturday at Austin.

Although not very sportified, it might be well for all geographers, geologists, etc., to note that the Los Angeles, California, water supply is brought 200 miles from the Sahara desert. The authority in this case is Mr. Elbert Bain, enterprising college student although a Lelia Laker.

### SHOW CASE IN OFFICE TO DISPLAY TROPHIES

A new arrangement of furniture in the office lobby has been recently made. The schedule cards of students have been moved to a table in front of the East windows, and along the South wall is a new addition to the personnel of furniture, a long, glass show case whose shelves are decorated in bright crepe paper. On the top shelf are two silver loving cups, won by local students. The smaller bears the inscription, "Boys' Debate 1935, District 2," and was won by Jommy Bourland and Sam Barrow this spring. The other trophy was given to the dairy judging team, Billy Gamblin, Bobby Wilson and Marti Mason who participated in the Plainview Dairy Show last week. In the bottom of the show case there is an attractive model of the college building in cardboard and complete with grass, trees, and sidewalks. This replica was made by Geraldine Pratt and Ardis Patman for the centerpiece of the banquet table at the annual college banquet held March 1.

### Debaters Attend Regional Meet

Sam Barrow and Jimmy Bourland, representatives in boys' debate for District 2 at the regional meet at Canyon last Saturday, were eliminated by the Amarillo boys' debating team. The local boys argued the negative side of the league question, "Resolved, that the government should own and operate all electric light and power utilities," while the Amarillo boys upheld the affirmative, the decision being given three to two in favor of the affirmative. The debate was a very spirited and a very close one.

Clarendon's debating team has come to the end of the season with a creditable record. Both boys have shown consistently quickness in thought and readiness in expression, wide reading upon the assigned subject and related ones, and a natural liking for a good argument itself. Jimmy Bourland, if he wishes, will have another chance at high school interscholastic league debating; Sam Barrow is promising material for a college debating team next year.

### PATHFINDER SPONSORS OF SENIOR ESSAY CONTEST

The Pathfinder Club, Clarendon study club for women, is this year sponsoring an essay contest for all high school seniors, the winners in the contest to be announced on graduation night. At the present, both classes in English IV are reading and studying Centennial material to serve as a background for their compositions upon the subject, "Why Texas Should Celebrate Her One Hundredth Anniversary."

The seniors consider it a distinction, indeed, to have this contest arranged for them only, and they plan to have a number of papers ready for the club's judging committee early in May.

Eloise Hill went to Amarillo Sunday, returning Monday afternoon.

### ASSEMBLY PROGRAM IS GIVEN BY THE STUDENTS

The students of the high school and college met in assembly at the regular time Thursday, April 18. After a few announcements the program was turned over to the Seniors who presented an impromptu program. A male quartette made up of J. B. Duckett, Wilfred Hott, Bobby Wilson and Robert Hott rendered two selections which were loudly applauded. Viola Barker played two piano numbers, and Charlie Word sang the favorite song of millions, "The Isle of Capris." The students were then dismissed.

Senior class night is going to be held Thursday night, but the annual holiday will not be observed until May 3rd, when the Seniors will pitch in with the college girls and boys for a point picnic at Dripping Springs. A number of loquacious petitions have been circulated among students for promotion and prevention of this plan, but the majority is in favor, so the loudest say goes.

## NO LIMIT SEEN TO TEXAS FARMS

EVERY REGION OF STATE HAS CHANCE TO BECOME MORE PRODUCTIVE.

Dust storms and other catastrophes are but momentary hindrances to the development of Texas, a relatively new agricultural region that has almost unlimited possibilities, A. D. Jackson, chief of the division of publications at Texas Agricultural Experiment Station, said Monday at the noon meeting of the Dallas Agricultural Club in the Adolphus Hotel. Able to produce far more farm products than at present, Texas today needs land agents to provide a population to use its agricultural produce more than at the time of the Republic, Mr. Jackson said.

Pointing to the development of Northwest Texas from a ranching area into a grain sorghum and cotton region, resulting in a phenomenal growth of population and wealth, Mr. Jackson listed some of the possibilities of future agricultural progress in that and other sections of the State.

"Many of the hazards of agriculture can be eliminated," the speaker said. "Water has been one of the major limitations in Texas, but it has proved that water and soil conservation programs can increase crop yields as much as 25 percent. Improved seed, proper range utilizations, improved live stock breeds and other practices can contribute much to the development of agriculture and of the entire population."

The East Texas timber belt, he pointed out, is an empire that has been exploited and wasted but paradoxically has had its resources virtually untouched. There is no doubt that several million acres in that region are capable of growing two board feet of timber yearly per acre, so that 5,000 acres could support a lumber mill of 10,000 board feet capacity.

### NOTICE OF INTENTION TO ISSUE FUNDING BONDS

WHEREAS, heretofore, notice was given that on the 13th day of April, 1935, the Commissioners' Court of Donley County, Texas, would pass an order authorizing the issuance of Road and Bridge Funding Bonds of said county in the maximum amount of Fifty Thousand (\$50,000.00) Dollars, for the purpose of funding and in lieu of a like amount of present existing indebtedness against the Road and Bridge Fund consisting of valid and legally issued time and script warrants against said Road and Bridge Fund, said time and script warrants having been issued for the purchase of right-of-way and other Road and Bridge purposes since May 21, 1931.

And WHEREAS the definite amount of said warrants to be funded has been established and the complete list of the same is on file in the County Clerk's office;

THEREFORE the Commissioners' Court of Donley County, Texas, hereby gives notice that the amount of said funding bonds so issued shall not exceed \$39,921.87, instead of Fifty Thousand (\$50,000.00) Dollars as heretofore specified; that said funding bonds shall bear a maximum interest rate of Five and One-Half (5 1-2) percent, and shall mature serially over a maximum period of not exceeding thirty (30) years; and that said Commissioners' Court of Donley County, Texas, will pass an order authorizing the issuance of said Road and Bridge Funding Bonds of said County on the 13th day of May, 1935; instead of the 13th day of April, 1935, as heretofore specified.

This notice is given as required by law. S. W. Lowe, County Judge, Donley County, Texas.

much of their fertility has been wasted, will continue to support a great farm population and have great possibilities, he said.

Coastal areas of Texas were listed as having an opportunity to increase their fig production through the use of a new carbon dioxide treatment that permits the Magnolia fig to be shipped for long distances. Furthermore, Mr. Jackson said, the coast may become a great wheat growing region through a recent development of a rustproof variety. This section, he pointed out, has made the highest peanut yields on record in Texas and offers more return from the use of fertilizer than other sections.

Large-scale farming, range management, stock-crop farming and many other possibilities are before Texas and will contribute to its agricultural development, Mr. Jackson concluded. In doing so, they will increase the purchasing power of the farm population and contribute materially to the building of the State.—Dallas News.

### Pampa To Have Big Pioneer Celebration

Announcement has been made of the second All-Panhandle Pre-Centennial celebration and Pioneers Roundup to be held as previously in Pampa on June 6th and 7th, and an invitation has been extended Donley county citizens.

Governor Allred, who opened the celebration last year as Attorney General, will be present this year. The Pre-Centennial parade, predicted to be the most beautiful of all the Pampa celebrations, will tell the story of Texas history with twelve beautiful floats.

The man and woman, having lived longest in the Panhandle and who registers by noon of the first day of the celebration, will be crowned king and queen of the parade and will ride in the first float covered in blue bonnets.

Pageants depicting such scenes in the history of the State as the momentous year of 1835, Billy the Kid at Tascosa, the Indian scare of 1890, and the arrival of John Adair at the JA's will be added attractions.

There will be no admission charged for the pageant or parade.

Miss Willie Glenn Parten spent the week-end in Waxahachie visiting her parents.

Mrs. R. E. Koimer of Pampa spent Sunday and Monday in Clarendon with her parents, Mr. and Mrs. W. C. Stewart.

## Old Encyclopaedia Is Presented To the Panhandle-Plains Museum

Canyon.—An old encyclopaedia more than one hundred years old, and according to its title page, containing "science, art, and practical mechanics comprising a popular view of the present state of knowledge" has become a part of the library of the Panhandle-Plains Historical Society.

The London Encyclopaedia was printed in 1832 for Thomas Tegg, 73 Cheapside, London, and was sold in America by Whipple and Lawrence, Salem, Massachusetts. The twenty-one volumes were presented to Clarendon College by Mrs. J. D. Stocking on July 20, 1926 and placed in the museum by H. T. Burton, President of the college, recently. Dr. Harris M. Cook of the West Texas State Teachers College faculty brought the valuable books from Clarendon.

Following the practice of his time, the editor, whose name does not appear, placed upon the title page a quotation intended to put the reader in the proper frame of mind for perusal of the book. Quoting Erasmus he chose "A reader should sit down to a book, especially of the miscellaneous kind, as a well-behaved visitor does to a banquet. The master of the feast exerts himself to please his guest; but if, after his care and pains, something should appear on the table that does not suit this or that person's taste, they politely pass it over 'without notice, and commend other dishes, that they may not distress a kind host."

It is likely that the London Encyclopaedia was the predecessor of today's Encyclopaedia Britannica as the first edition of the latter did not appear until 1884. The old volumes, when compared with the present Britannica, illustrates clearly how the values of men and things change in the course of a hundred years. In the book printed in 1832 Alexander Hamilton, one of America's greatest Federalists, first secretary of the United States treasury, and financiers, does not appear at all, while in the latest Britannica, Hamilton is given five pages.

If the encyclopaedias indicate correctly, the horse is as important to the world today as it was when motor cars had not yet been dreamed of, for the old book devotes 19 pages to a description of horses and expresses the regret that fine horses are no longer produced; it says that only in the British cavalry can horses of quality be found, the newer ones give 18 pages to the horse and tells much more about the different breeds and how they have been produced than

the old volume does. Persons who are interested in science will find the old volumes especially interesting, since they afford an opportunity to compare scientific ideas of today with those of a century ago. The books will be available to visitors at the museum under the direction of L. F. Sheffy.

## EMERGENCY CROP LOANS AVAILABLE

FORTY DONLEY FARMERS HAVE APPLIED FOR SEED AND FEED LOANS.

Donley county agent J. T. Patman and field supervisor C. Hogan of the Emergency Crop and Feed Loan office with state headquarters at Dallas stated this week that loans will be made only to farmers who are unable to obtain elsewhere seed, fertilizers, supplies, feed or the necessary credit to purchase such items.

To date, forty loans have been made through J. T. Patman to Donley farmers, and Mr. Patman anticipates many more applications in the near future.

This Federal project to enable drouth-stricken farmers to plant was instituted recently by an act of Congress authorizing the loans and regulations issued by Governor W. I. Myers of the Farm Credit Administration and will be made to farmers with a mortgage on the crop and only 5 1-2 percent interest. As in the past, the security for an emergency crop or feed loan will consist of a first lien on the crop financed or on the livestock to be fed.

This loan is not available for gardens, to buy livestock, machinery, nor for the payment of debts or taxes.

A local board composed of J. D. Swift, U. J. Boston and G. M. Allen will pass upon the applications made for the emergency feed and seed loans.

plained her topic "The Value of the Home Economic Department" to the board members and faculty. Misses Emma Lee Johnson and Kedron Evans, local tap team, entertained with several numbers together with vocal solos by Chas. Word. Board members present were O. C. Watson, Odos Caraway, W. W.
