LIBRARY NOTES

By Mrs. C. A. Burton

The leading best seller for the past few weeks has been "The Hooksters" by Frederick Wakeman, and it is the one new book we have to offer you today. It is described as a lively satire on the big-time radio advertising business and is called the crispest cruelest chronicle between two covers. You will have to read it to see.

England lost one of her most outstanding literary figures in the death of H. G. Wells on the 13th. He died at his home in London—was 79 years old. He had written more than 50 books which dealt with science, sociology, political economy, romance and fancy. His most noted was "An Outline of History" which was translated into nearly every language. Over 500,000 copies

were sold in the United States in one year. During World War I his book with the widest circulation was "Mr. Britling Sees It Through," a terrific arraignment of England's unpreparedness. Wells, Kipling, and G. B. Shaw made up what was popularly called the "big three" of modern British literature. Now only Shaw is left—having just celebrated his 90th birthday.

Wells was of the common people. His father was a gardener, later a shopkeeper, and his mother was a lady's maid before her marriage. At the age of 13 Wells was apprenticed as clerk in a dry goods store—later became a student under Huxley, the great 19th century scientist, at the Royal College of Science; became a teacher, then a dramatic critic. His first novel appeared in 1895. He was twice married, and has two sons.

Another well known literary man of our own country died this

month at his summer home in Shoreham, Long Island—Channing Follock. He was 66 years old—became best known during World War I.

The statement is made that if all the copies of "The Egg and I" were laid side by side they would extend approximately 89 miles, or from New York to Philadelphia. Our copy is still "out" all the time.

Nevil St. John has a new book, "Vin and the Good," a story of Leif Erikson's colony. Corresponding in theme is "Independent People," by Halldor Laxness—a story of Iceland which is the August selection of the Book-of-the-Month Club.

The winner of the 1945 Pulitzer Prize in History is "The Age of Jackson" by Arthur M. Schlesinger, Jr. Besides the Pulitzer Prize, the author received a Guggenheim Fellowship, an appointment as associate professor at Harvard, and a grant from the American Academy of Arts and Sciences. 17 of 29 of the country's most prominent literary critics chose this book.

The William Allen White papers have been given to the Library of Congress. They include material and letters from the great of America from 1899 till his death. He is spoken of as a "blend of Eastern intellectualism with Western emotion and practical energy." His papers will help our historians to write phases of our history that are still seen darkly. There are tons of material.

Mr. and Mrs. F. L. Johnson of Vernon have bought the Lelia cafe and their plans are to move to Clarendon to make their home.

WASHINGTON NEWS LETTER

By Cong. Eugene Worley

The Philippine Islands are also of strategic importance to us in our perimeter of defense and in the basic legislation the United States retained the right to keep and develop them as long as we so desired. The population of the Philippines is approximately 18 million people which represents nearly all classes or castes. Manuel Roxas was recently elected by an overwhelming majority to be the first President of the Philippines. There is a question in my own mind, however, as to whether the Philippines were actually ready for or could discharge the obligations which their independence carried. Their economy was of course ruined by the Japanese and they seemed groggy from the brutality of the Jap occupation. However, President Roxas assured us that in spite of these handi-

caps they could and would do everything within their power to convince the world they could stand on their own feet and take their place in the world of nations. They depend in large measure upon the export of sugar but most of the sugar mills were destroyed by the enemy and Mr. Roxas said they needed at least 150 thousand tons of ammonium sulphate as fertilizer but had been able to secure but 15 tons as yet from the United States.

Prices in the Philippines are high, as they seem to be all over the world. As you can imagine, there is not very much to buy and in such a chaotic economy prices naturally rise.

The Independence Day ceremony itself was very impressive. Because of the extreme midday heat in the Philippines, most affairs are scheduled for early morning, consequently we were on hand at 8 o'clock the next morning, July 4. Among the speakers was Senator Tydings of Maryland, Commissioner McNutt,

President Roxas and General Douglas MacArthur, who occupies a very high place in the hearts of the Filipinos. The square was packed and jammed with Filipino people and despite another rain during the middle of the ceremony, the Philippines became a living Republic that morning.

There was a State Dinner that night which was attended by ambassadors and other dignitaries from Russia, England, France and nearly all other countries.

The next day we saw at first hand Bataan, ruined Corregidor, Subic Bay, and other U. S. installations which gave mute testimony to the bloody battles which were fought there.

The Islands themselves are most impressive in their tropical productivity but they could do with the know-how which the American farm could supply. Incidentally, Mr. Roxas also said they welcomed with open arms any and all Americans who could provide such know-how and industry.

From the Philippines, we left for Shanghai—a distance of 1250 miles, arriving there late in the afternoon, flying along the edge of Formosa which had been in Japanese hands during the occupation. In order to get a better look at the rice paddies and crops and people living along this shore, we dropped to an altitude of 200 or 250 feet. While airplanes

are not exactly a novelty out there, one native who saw the giant four-engine plane skimming over his head, threw up his hands in consternation and began running toward us and then turned and started the other way. When we passed over him he was still running. Although we dipped one wing in friendly salute he must have thought it was the enemy coming back.

Sixteen honor graduates of Texas high schools, representing every section of the State, will enter Texas A. & M. College in September as the first winners in a new major scholarships program. The scholarships, known as "Opportunity Awards," are designed to offer outstanding Texas boys who would otherwise be unable to attend college an opportunity to secure an education.

The program is sponsored by the Texas A. & M. College Development Fund, a joint organization established by the College, its former students and its friends. Ten of the awards were underwritten by the Association of Former Students through gifts of A. & M. men, one by A. F. Mitchell of Corsicana, chairman of the Development Fund board, and five, for boys majoring in Agriculture, were financed through a gift from Mr. and Mrs. Jesse H. Jones.

Winners in a statewide competition each year receive scholarships which pay \$200 to \$300 per year throughout their college careers, plus an opportunity to earn additional money at student jobs.

Selected on the basis of scholarship, leadership and character, the first year's winners of Opportunity Awards were: Franklin Cleland of Genoa, John Hunt of Fort Worth, Carl King, Jr., of Dallas, Jimmy Morrow of Graford, Harry Mueller of Brenham, Lannon Stafford of San Antonio, Joe Mullins of Carrizo Springs, Vernon Porter of Italy, Royce McClure of Dallas, John Taylor of Rotan and Joe Zumwalt of Hallettsville.

The Jones Scholarship winners were Humberto Reyes of Berclair, Bobby Bland of Merkel, Robert Williams of Waco, Henry Simpson of Dallas and James Robertson of Plainview.

Highest scholastic average in the group was a four-year grade average of 97.64, lowest was 93.57. All had held responsible class or school offices and had excelled in some extra-curricular activity. All had excellent records of earnings through after-school and summer work.

Take a Taxi Executive's word for it!

New Silvertowns "Meet Taxi Requirements"
"Rain or shine, year in and out, 24 hours of the day, taxis serve the public," says Mr. Thomas A. Ballantine, President of Yellow Cab, Louisville, Ky. "Safety, dependability, and economy are the watchwords of successful taxi operation. B.F. Goodrich Silvertowns meet these requirements."

For Safety, Economy, and Mileage choose the tire that OUTWEARS PREWAR TIRES

One of the taxi fleets that tested the new B.F. Goodrich Silvertown before it was offered for public sale was Yellow Cab, Louisville, Ky. In addition, it was tested on police cars and the B.F. Goodrich test fleet over millions of miles in all kinds of weather under severest conditions, and even at high speeds.

All these tests supported Mr. Ballantine's findings that: "... their wider, flatter tread gives our cabs better traction and surer, safer stopping. The stronger cord body means fewer interruptions and service stoppages. And in

actual mileage, tests on our fleet prove they OUTWEAR PREWAR TIRES. Because Silvertown tires cover more ground, our cabs can, too, without interruption."

We know you'll want these tires for your car. So to be on the safe side, see us today.

His Farm Fields Are Factories

U. S. FARMERS have made our fields into factories.

We live better than people in other countries because our farmers get more out of the soil.

The steel industry takes pride in the way it has helped bring about this improvement in farm practice. Tools of steel—from the plowshare to the giant combine—have multiplied in number and increased vastly in quality.

Fifty years ago the typical farm in America used about 3 tons of steel. Today the figure is nearer 17½ tons.

That is a measure of the modernization of agriculture and an indication of the interdependence of steel and farming.

We no longer have separate "farm production problems" or "industrial production prob-

lems." We have but one set of problems for everybody.

If strikes, for instance, restrict the supply of farm implements and supplies through work stoppages, or make their cost prohibitive, America is out of gear.

Anything which tends in this direction is bad for the farmer—and finally for everybody. Farmers know it. Everybody else should know it.

Steel mills need all the scrap iron and steel they can get. The shortage is serious. Farmers can get extra dollars and help increase steel output by sending worn-out machinery, etc., on its way to the furnaces. AMERICAN IRON AND STEEL INSTITUTE, 350 Fifth Avenue, New York 1, N. Y.

H. J. R. No. 62
House Joint Resolution
proposed an Amendment to Article III of the Constitution of the State of Texas by addition of a new Section to be known as Section 49-b, creating a Veteran's Land Board and establishing a Veteran's Land Fund providing for an election and the issuance of a proclamation thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 49-b which shall read as follows:
"Section 49-b. There is hereby created a Board to be known as the Veteran's Land Board, which

shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Legislature shall provide by law for the issuance by said Board of not to exceed Twenty-five Million Dollars (\$25,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veteran's Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas in such form, denominations, and upon such terms as shall be prescribed by law, provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3 per cent) per annum.

"In the sale of such bonds a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent Free School Funds; such

bonds to be issued only as needed, in the opinion of the Veteran's Land Board under legislative authorization.

"The Veteran's Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose herein-after stated, situated in this State (a) owned by the United States, or any governmental agency thereof; (b) owned by the State Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable, be paid for in cash, and shall be a part of the Veteran's Land Fund.

"The lands of the Veteran's Land Fund shall be sold by the State of Texas Veterans of the present war or wars, commonly known as World War II, in such quantities, and on such terms, and at such prices and such rates of interest, and under such rules and regulations as may be prescribed by law; provided, however, that any such lands remaining unsold at the expiration of eight (8) years after the effective date of this Amendment may be sold to anyone as shall be prescribed by law.

"All moneys received and which have been received and which have not been used for purchase of land as provided herein by the Veteran's Land Board from the sale of lands and for interest on deferred payments shall be credited to the Veteran's Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, in like manner as shall be provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period of eight

(8) years from the effective date of this Amendment; provided, however, that so much of such moneys as may be necessary to pay interest on the bonds herein provided for shall be set aside for that purpose. After eight (8) years from the effective date of this Amendment, all moneys received by the Veteran's Land Board from the sale of the lands and interest of deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the first Thursday in November, 1946, a which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment of Article III of the Constitution of the State of Texas by adding Section 4-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II."

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

"AGAINST the Amendment of Article III of the Constitution of the State of Texas by adding Section 49-b creating a Veteran's Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II."

If it appears from the returns of said election that a majority of the votes cast were in favor

of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State.

Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of such publication and election.

KILL KARE KNEEDLE KLUB

Mrs. H. C. Brumley was assisted by Mrs. W. A. Land, Mrs. Eva Draffin and Mrs. Cap Lane as hostesses, Thursday afternoon at her home when she entertained the club. The "guest rooms" were beautiful with garden flowers for decoration.

The afternoon was spent in having fortunes told and contests. Mrs. Kidd received prize for best sock darning. Mrs. Lowe presented a lovely corsage to new officers. The club presented Mrs. Lowe, out-going president, with lovely basket of flowers.

Lovely refreshments were served to guests. Mrs. Pat Long of Houston, Mrs. Culp of Lubbock, Mrs. Genoa Doshier, Mrs. W. T. Hayter, Mrs. Clarence Piercy, Mrs. John Bass, and Mrs. Joe Goldston; club members, Mesdames W. B. Sims, F. A. White, Cap Lane, Major Hudson, Sam Lowe, Grover Heath, Homer Mulkey, W. D. Kidd, H. C. Brumley, W. A. Land, Eva Draffin, R. R. Dawkins, and Misses Ida and Etta Harned.

CLARENDON H. D. CLUB

The Clarendon H. D. Club will meet Friday, September 6th in all day quilting and covered dish luncheon at the home of Mrs. C. D. McDowell. The ladies are asked to come early.

Miss Jaunita Gregory, former employee of G&M Cafe, left this week for an extended visit with her brother and family. Mr. and Mrs. B. L. Gregory at Phoenix, Ariz.

BOOK CLUB LUNCHEON

Members of the 1926 Book Club and a few guests were entertained with a luncheon at the L. T. Shelton home Tuesday, August 27th. The meal was served buffet style, and the guests were seated at small tables centered with flowers. Later, the president, Mrs. Bill Bromley, conducted a short business meeting after which the club adjourned to meet again September 3rd.

Hostesses for this enjoyable affair were Mesdames L. T. Shelton, Bill Thornberry, E. S. Ballew, Frank Phelan and Chas. Lowry. Those attending were, guests, Mesdames Van Zandt, Landers, Landreth, O. D. Lowry and members, Mesdames Allensworth, Bagby, Bennett, Bromley, Brumley, Cox, Hoggatt, Knorpp, Morris, Porter, Ray, Ritter, Stewart, Turner, Watson, B. C. Care Food Gifts Bring Food and New Hope to People in Europe

New York, N. Y.—At long last there's sugar and spice and something nice for thousands of hungry European families who are receiving CARE gift food packages sent over by generous Americans.

But, definitely not just sugar and spice, but stews and meat, preserved butter, bacon, evaporated milk, coffee and cocoa powders, and many other items are found in the nutritious 30 pounds of food sent through CARE.

In fact, it is the same food which fed our armies in combat zones . . . the former "10-in-1" ra-

ten CARE food packages was distributed among them, how quickly they forgot!

"The only way in which the worker can hope to survive the battle of malnutrition is through outside help," Pierre Neumayer, National Treasurer of Confederation Generale du Travail of Paris, writes. "You have begun to give him help, and in so doing you have added fresh hope and new strength to the workers of France . . . from the point of view of vitamin content and wholesome, well balanced food, your '10-in-1' packages surpass in quality and quan-

ties which were purchased by CARE from the WAR Assets Administration.

Proof of its effectiveness pours in daily at CARE headquarters. Receipts and letters from grateful recipients . . . individuals, families and institutions who have had their meager rations supplemented by things to eat they haven't tasted since before the war.

Take for example, the children in the Hospital des Enfants Malades in Paris. Most of them were ill from polio poisoning. But when President Truman's gift of

city any other food parcels I have ever seen."

CARE, a non-profit organization, is approved by the United States government. It is composed of twenty-five of the principal American agencies engaged in foreign relief work.

Individuals wishing to send a 49 pound CARE package overseas are required to mail a \$15 check or money order to CARE, 50 Broad Street, New York, N. Y., with name and address of both recipient and donor clearly indicated.

Rev. and Mrs. E. L. Gregg and two daughters Rebecca and Mary from Mexia visited her sister, Mrs. C. A. Burton last week. They returned home Friday.

Veterans' News

Veterans who fail to notify the Veterans Administration when they interrupt their training or education and continue to accept Government allowances are subject to severe penalties, VA warned today.

Eldon F. Fuller, Chief, Vocational Rehabilitation and Education, Lubbock VA Regional office, cautioned veterans that VA training officers are making regular investigations to prevent such practices.

Beginning September 1, a blank form will be with each check mailed to veterans in training.

These forms must be returned to the Disbursement Office that mailed the check, whenever the veteran's training or education is interrupted.

This notification will enable VA to discontinue payments.

Veterans who accept checks under the Servicemen's Readjustment Act to which they are not entitled will be ineligible to receive any further benefits under the act. They also may be punished by a fine of not more than \$1,000 or by imprisonment for not more than one year, or both.

Most schools are prompt to notify VA of withdrawals, but some business firms approved for on-the-job training have neglected to report the withdrawal of veterans from training.

In both cases, however, Fuller emphasized, the responsibility rests on the veteran.

VA investigators who made a recent three-day check in one Texas community found 38 veterans receiving allowances to which they were not entitled. Some of the veterans had discontinued training as long ago as October, 1945.

The veteran should take careful note of the month for which his subsistence check is issued as shown by the date of the check.

If he has discontinued education or training for any reason during the month prior to the month for which the subsistence check was issued, he should not cash the check under penalty of the laws.

The check should be returned without endorsement to the Disbursement Office shown on the envelope. The blank form in the envelope should be filled out and returned with the check.

Donley County Leader, \$2 a year

The girl who won't marry you may have a dozen reasons. Chances are the first one is that you don't have enough money, and the eleven other reasons are things that she wants.

No wonder newborn babes cry so much. If you were only a few days old, out of a job, and owed the government \$2,500, you'd squall too.

A month from now thousands of veterans in this area will converge on colleges, universities and trade and professional schools, to take advantage of the educational benefits offered them under the G. I. Bill. Many others may not be able to attend the school of their choice, because of current overcrowding at almost every large school in the country.

The Veterans Administration recently completed a survey which showed that the most vacancies for veteran-students will be found in smaller schools. State teachers' colleges, for example, listed comparatively large numbers of openings, while state universities almost without exception were already at the saturation point.

Of the veterans who enter school this fall, a large percentage will be entitled to monthly subsistence allowances. In the past payment of these allowances has

sometimes been delayed, because of a backlog of work in Veterans Administration offices, or incomplete reports from schools or the veterans themselves. The Veterans Administration is anxious to prevent any such delays, and has taken steps to eliminate them completely. If you enter school this fall, and your first subsistence check does not arrive within 30 days after your schooling begins, get in touch immediately with the school's veterans' adviser, or go to a Veterans Administration office if there is one nearby. If you are not near a VA office, write to the VA regional office having jurisdiction over the area in which the school is located. Give full information, so that VA may give you speedy service. Veterans Administration representatives are stationed at or near a number of the larger schools in the area, to provide assistance to veterans attending schools under the G. I. plan. They, and all other VA representatives, are always at your service.

Mr. and Mrs. Harry Hartzog and sons Larry and Wayne of Roswell, N. M. visited Mr. and Mrs. Alfred Estlack and girls Sunday.

3-HP MOTOR VS. 24 HIRED MEN

Schenectady, N. Y. — There's one way to offset the shortage of hired help on the farm.
 The "electric muscles" of one 3-horsepower motor will do the equivalent work of 24 hired men. And for one hour's work, the cost of this motor's operation is less than 10 cents—pretty low wages for 24 man-hours, says P. L. Hamman of General Electric's Farm Industry Division.
 "My electric muscles can hoist hay into the mow at a cost of less than 5 cents for 8 tons," Mr. Hamman declares. "Then we can use the same motor and control to operate the fans in my barn—hay-curing system."

Social Security News

Many survivors of World War II veterans who have died leaving the service will benefit from one of the provisions of the Social Security Act Amendments of 1946, John R. Sanderson, manager of the Amarillo, Texas Social Security Administration field office said today.

Mr. Sanderson explained that the new section of the act provides for the payment of monthly benefits to qualified survivors of veterans who die within 3 years of their discharge and whose dependents are not qualified to receive compensation or pensions from the Veterans Administration. National Service Life Insurance is not considered as compensation or a pension.

In the case of such veterans who died before the enactment of the new amendment, the measure provides for monthly benefits retroactive to the date of the veteran's death if the survivors file their benefit claims with the nearest office of the Social Security Administration before midnight February 10, 1947. Of course, monthly benefits other than retroactive are payable on claims filed at any time by qualified persons.

In cases where survivors of veterans who qualify under the new amendment already have filed claim for monthly benefits earned by the veterans under the old-age and survivors insurance program of the Social Security Administration, it is possible that the provisions of the new mea-

sure will provide greater benefits than those earned by the veteran. These survivors are included in the immediate potential beneficiaries, Mr. Sanderson said, and should apply to the field office of the Social Security Administration.

The same applies, Mr. Sanderson added, to survivors who have filed claim for lump-sum benefits under the old-age and survivors insurance program on a qualified veteran's account. The new amendment may make them eligible for monthly benefit payment, or it may increase the amount of the lump-sum benefit. In the latter case, they will receive the difference between the lump sum they received and the larger amount they are eligible for under the amendment, if they apply at the office of the Social Security Administration.

"As in the case of all other persons qualified for social security benefits, families of deceased veterans to whom this new section of the law has immediate application should come or write to

our office to file their benefit claims as soon as possible," Mr. Sanderson said.

CARD OF THANKS

I wish to take this means of expressing my appreciation to the voters of Donley County who supported me in the recent Democratic Primary.

Although my campaign was not successfully won, I feel grateful for the many pleasant contacts made through meeting the citizens of this county.

Polio May Become Nation-Wide Epidemic

The nation right now is experiencing what may prove to be one of the largest polio epidemics in the recorded history of the disease in this country according to Mr. Wilmer Sims, West Texas Representative for the National Foundation for Infantile Paralysis, who conferred Saturday and Monday with Mrs. Johnnie Blocker, Donley County Chairman.

So far Donley County has been extremely lucky in that no cases have been reported in the county. Naturally we all hope that our good fortune may continue. However, in case of an emergency, the local chapter stands ready to assist the patient or patients. Any victim of infantile paralysis should feel no hesitancy in calling upon his local chapter for aid as any financial assistance to polio patients is definitely not classed as charity—the money was contributed by Donley County citizens to be used by Donley County patients. Should the local chapter exhaust its treasury in providing for adequate care and treatment of victims in this area, national headquarters will send in supplementary financial aid. Services of the Foundation and its chapters are rendered polio patients regardless of age, race, creed or color.

Mr. and Mrs. B. C. Tidwell and children returned home near Texarkana Friday after a few days here visiting relatives and friends. They also visited in Amarillo while here.
