CLARENDON, DONLEY COUNTY, TEXAS, SEPTEMBER 13, 1945

A Common Paper for Common People

Cast At Work On Pep Parade

An enthusiastic cast is at work daily on the forthcoming production of "Pep Parade," the elaborate musical show which the Parent Teachers Association will sponsor in this city Thursday and Friday, September 20th and 21st as a benefit for a cafeteria and additional play ground equipment. The show opens with the Swing Girls to the music of "Great Day." They are attractively attired in swing skirts and blouses.

The "rug cutters" swing out, and the debutantes in their long flowing evening dresses are as graceful as the music is tuneful when they perform to "Beautiful Lady."

Another featured chorus is the "Country Chorus" with their pinafiores and their nostalgic tune, "Swinging Down the Road."

Some of Clarendon's most talented people are taking part in the "Pep Parade."

Kathryn Haney plays the part of Gussie Peck who "rules the roost" in the Peck household including her husband, Henry, played by Claude Hearn, and daughter Judy, played by Jean Porter.

Gussie has her heart set on Judy marrying Keith Trevelyan, O. D. Lowry, whom she fondly refers to as a banker, although in reality he is only a clerk, but Judy is determined that the one in her life shall be Tommy Meadows, played by Manly Bryan, who lives next door and is studying at the Ag College.

Mrs. Frank White as Aunt Hattie Hotchkiss, throws the "monkey wrench" into the works, however, when she arrives, enriched by the death of her husband, and proceeds to take over. There is only one trouble. Aunt Hattie has a mania for phony fortune tellers and at present is in the clutches of Madame de la Clair, played by Mrs. George Darden, and is about to invest her money in fake oil stock.

To prevent such a catastrophe, Judy and Tommy decide to do something about it with Tommy emerging as a footologist who tells fortunes by reading the soles of the feet.

Mrs. Claude Hearn, as Hortense Johnson, the Swedish maid, is looking for a man and consults with Tommy as Professor Medowski. But Roseola, the colored cook, portrayed by Cora Lee Muse, wants no part of any fortune teller and doesn't hesitate to say so.

Last but not least, is Dr. Drugins, played by Mrs. Charlie Bairfield, who attacks Gussie near the last, but all's well that ends well, and it does end well.

FIRST CHRISTIAN CHURCH TO HAVE SPEAKER SEPTEMBER 18

On Tuesday evening, Sept. 18th, at 7:30 o'clock there will be a covered dish supper at the Christian Church for all members and their families. Dr. John W. Darby, minister of West Amarillo Christian Church will be the speaker.

Ceiling Prices Set On Cotton Harvest

County Agent Charles Reed has been informed that Donley County will have the following ceiling prices this fall on cotton harvest:

Picking—\$2.00 per 100 lbs.
Pulling—\$1.25 per 100 lbs.
Weighing and Hauling—15 miles or less: 25c per 100 lbs.; over 15 miles: 30c per 100 lbs.

The Texas U.S.D.A. Farm Wage Board held public hearings at Vernon and Sweetwater September 5th. Cotton producers from 40 counties in this area discussed

RATIONING AT A GLANCE

By Peppy Blocker

C. B. Morris, whose resignation as Chairman of the Donley County Ration Board became effective on Sept. 1st, will be replaced by J. B. Masterson of Hedley. Mr. Morris has very faithfully served Donley County throughout the emergency.

Word has been received by the local office that all War Price and Rationing Boards will be liquidated on or before June 30, 1946.

No official word has been received in regard to the proposed lifting of meats from the ration list, so this is still a probability, rather than a fact. The same thing holds true in regard to shoes.

Our thanks to the editors for allowing us a later deadline the past three weeks. Even now we realize that many times new rulings are made official between our writing and your reading this column. However, any time you are in doubt about any phase of rationing, do not hesitate to call the local office and Miss Donnell will be glad to give you the information you desire.

Mr. and Mrs. Will Johnson returned home Sunday from a visit with relatives at Littlefield. They report wonderful crops in the irrigated section.

Mr. and Mrs. William Lewis and Mr. and Mrs. Claude Moore spent the past week in Albuquerque, Santa Fe, and other points in New Mexico.

Bronchos To Play Lakeview Eagles In First Game Friday Night

FIRST NORTHER OF SEASON STRIKES WEDNESDAY

The first cool, blowing norther of the Fall and Winter season zipped in early Wednesday morning, picking up plenty of dust and gravel as it made its approach on this locality.

There was quite a drop in temperature to the extent that quite a few were donning light jackets toward the end of the day. The coolness was felt more, due to the fact that it has been so dry and warm lately.

The strong wind, sand and gravel damaged crops quite a bit as it blew over quite a bit of feed and burned most all crops to some extent.

What we need now within the next few days is a good settling rain—then some pretty crop gathering weather, is the opinion of many farmers.

Mrs. Goldie Johnson from Los Angeles, Calif. is visiting Mr. and Mrs. Will Johnson.

Baby Contest Creating Interest

The Baby Contest is creating a lot of interest. Seventy-six tiny tots under school age have been entered to date. The West Texas Utilities windows are both full of beautiful pictures of the children in the contest and a schedule is pasted on the windows giving the names of all the children in contest and the name of the store in which the vote jars have been placed.

In connection with the Baby Contest, a Tiny Tot parade will be featured down town on Saturday afternoon, September 15th, and a prize will be given for the best float, which will be a decorated skooter, doll buggy, kiddie car, tricycle, etc.

Attend Showing Of New 1946 Ford At Okla. City

Doss Palmer, local Ford Dealer, and nephew James Wesley Palmer, attended the Dealers showing of the new 1946 Fords at Oklahoma City Monday.

They were taken for a ride in the new car and report that the performance of the new model was much more than they had expected. Mr. Palmer stated that he was well pleased with the appearance and that the greatest changes in the body was the front end and the interior of the car.

"We are expecting to have our local showing of the new models in Clarendon within the next three weeks", Mr. Palmer added.

Mrs. Floyd Parker and daughter Marjorie left Wednesday for their home in Long Beach, Calif. after spending a few weeks with Mrs. Parker's parents, Mr. and Mrs. Sam Roberts.

Overseas Mailing Rules Explained

With two exceptions, mailing of packages to men overseas is still under wartime rules.

J. C. Estlack, Clarendon postmaster, said there is no longer any prisoner of war mail to men in Europe, and that for the period Sept. 15 to Oct. 15, Christmas package mail would be accepted without the request condition from the man in service. The weight limitations still apply.

Otherwise, the postoffice must have a request from the man in the Army for such mailing. The package cannot weigh more than 5 pounds. The same weight applies to packages sent to sailors, Coast Guardsmen, and Marines, except that no request from the sailor, Coast Guardsman, or Marine is needed, and the number of mailings is limited to one package a week.

Rodeo Planned For 28 - 29th

The American Legion will hold a rodeo in connection with the county fair to be held here on the 28th and 29th of this month which will be put on by the Clarendon Roping Club. The afternoon performances will begin at 2:30 p. m. No night performances will be held. Bronc riding, calf roping, ribbon roping, bull riding, and many other rodeo events will take place.

Anyone interested in entering any of the contests should write or see the Rodeo Committee, American Legion, as soon as possible.

The Legion will also sponsor a dance in the High School Gymnasium on the nights of the 28th and 29th.

Details of the rodeo will appear in next week's issue of the Leader.

A group of members of the local Post met with the Hedley Post last night to discuss the question of that Post's participation in the recreation project which has been the most discussed topic with the Legion here for several weeks. It was described in last week's issue as a project which would consist of a lake for fishing and boating, a golf course, swimming pool, and many other forms of amusement. Such a project would be owned and operated by the American Legion, and all profits would go to that organization.

It was reported this morning that the members present in the meeting of the Hedley Post last night agreed unanimously to cooperate wholeheartedly in any way in the development of such a project. In addition, each one of those members present agreed and promised to attend the meeting of the local Post on Tuesday, September 18, at 8:30 p. m. where the topic will be discussed further.

Every member of the local post is urged to attend the meeting. Veterans who have not joined the Legion are urged to do so and come out to the meeting also. Anyone wishing to join the organization should see Adjutant Glenn Allen in the City Hall.

Chester O. Holland has his discharge from the Coast Guard at Charleston, S. C., and is now at home with his parents, Mr. and Mrs. C. H. Holland.

Mrs. J. L. Allison is visiting her son Mr. and Mrs. Glenn Allison at Pampa this week.

September 29th Set For Soil Conservation Vote

LARGE ATTENDANCE AT BAPTIST REVIVAL

The Baptist Revival now going on here is drawing large crowds at both day and night services. Much enthusiasm is being manifested and a goal of 333 has been set for the attendance at Sunday school Sunday morning.

Rev. Frank Baugh of Hollis, Okla. is doing the preaching and Bee Nichols of Stephenville has charge of the singing.

The meeting started Sept. 5 and will close Sunday night. Morning services are being held at 10:00, and evening services at 8:30.

Everyone has a cordial welcome to attend.

Parker-Perkins Store To Hold Formal Opening Here This Saturday

HOME ON LEAVE

Petty Officer 3/c, Lewis E. Underdown, is home on a 30 day leave after spending 18 months in the South Pacific. He wears the American Theater of War ribbon, and the Asiatic-Pacific ribbon with one gold star. Petty Officer Underdown is the son of Mr. and Mrs. C. E. Underdown of this city.

WORTH WHILE COMMENTS

BY COUNTY AGENT Charles O. Reed

Suggestions For Civilians Using DDT

The knowledge of practical uses of DDT insecticides in agriculture and around the home still is far from complete. Paul Gregg, entomologist for the A&M College Extension Service, says that investigations by the Bureau of Entomology and Plant Quarantine, USDA, show that DDT is not effective against all insects. Also it is much slower in action against each pest, and the rate and time of application have not been worked out for many insects.

Gregg says that the Bureau's investigation, conducted in cooperation with several state agricultural experiment stations, show that DDT is harmful to honeybees and other useful insects. Used indiscriminately, DDT may interfere with adequate pollination of important food or seed crops. It also may destroy insects which ordinarily keep certain harmful pests under control, and also kill insect-feeding birds.

On the basis of the Bureau's findings, Gregg says that DDT insecticides cannot be recommended for use on grain, forage or other crops used for animal feed. This is because of the possible danger associated with residues. Special care should be taken to avoid residues of DDT on fruits and other parts of plants or plant products to be used for human food. Persons using it in oil solutions or emulsions are cautioned to avoid repeated or prolonged exposures. It is readily absorbed through the skin of men and animals in this form.

In preliminary tests in soil at the rate of 25 pounds an acre DDT was found to retard the growth of rye, strawberry plants, onions, bush beans and other vegetables. It was believed that in most instances, however, that several years would be required to accumulate injurious amount of the chemical in the soil from applications or dosages for control of insect pests.

Until more complete information is available, Gregg recommends that DDT insecticides be tried on only a portion of the crop until it is certain they will do the job satisfactorily.

NATION WILL TURN BACK CLOCKS SEPTEMBER 30

War time will be abolished as of Sept. 30, congress leaders decided Tuesday.

The house interstate committee voted without dissent for a bill to end "fast" time at 2 a. m. on that date—a Sunday.

Senators said similar action would be taken on their side of the capital soon and there seemed little doubt that both chambers would approve the bill.

Clocks thus will be turned back one hour. They were advanced an hour on January 20, 1942 as a war measure, intended to increase daylight hours of production and to save fuel, light and power.

Plans For County Fair Almost Complete

County Agent, Charles Reed announced that plans are almost complete for Donley County Fair at Clarendon, Friday and Saturday, September 28 and 29th.

There will be community booths and exhibits of grain sorghums, wheat, corn, cotton, canned goods, quilts, fancy handwork, etc. Liberal cash prizes and ribbons will be awarded community booths and individual exhibits selected by the judges.

Joe McMurtry is working on plans for Saddle Horse Show limited to entries from Donley County. Saddle Horse Show is to be held at Clarendon on Saturday morning only. This show is open to all breeds and types of saddle horses in Donley County. Suitable cash prizes and ribbons will be awarded.

The American Legion is making plans to sponsor a rodeo Saturday afternoon and Sunday afternoon, September 29 and 30th. They plan to sponsor a dance on Friday and Saturday nights.

The annual Fall Club Boys Pig Show and sale will be held at Clarendon on Friday, Sept. 28th. The County Agent urges community leaders, women clubs, local service clubs and business organizations to work up a booth or exhibit for Donley County Fair. For additional information or aid, contact your County Agent.

Carroll Morris, S 3/c Specialist of Kingsville is home on a two weeks visit with his parents, Mr. and Mrs. Cap Morris.

Mrs. Clarence Whitlock who has been living at Lubbock the past 3 years has moved back to Clarendon in their home. Clarence will be home soon.

WAR DADS ELECT OFFICERS FRIDAY

At its regular monthly meeting Friday, September 7, the local chapter American War Dads elected the following officers:

President, Clyde J. Butler; vice president, Melvin C. Rampy; Secretary-treasurer, Jasper Guy Stanley.

Now that peace has come the War Dads are looking forward to welcoming home our sons and daughters who have defended our country. They are looking forward to a good year in helping these veterans to become re-established as civilians.

RAYMOND T. NICHOLS ON USS CHAUTAUQUA

Raymond T. Nichols, Y 2/c, son of Mr. and Mrs. S. T. Nichols of Clarendon has been assigned to duty aboard the recently commissioned Coast Guard cutter, USS Chautauqua, the Navy announced today.

The Chautauqua, which is almost as large as a modern destroyer is equipped with many new innovations in electric control, and carries twin five-inch guns, numerous anti-aircraft guns and depth charge equipment.

Only Woman Dictator On Globe Rules By Terror As Communist Head

Communist control of Bulgaria brought on a reign of terror that has seldom been equalled in the history of the world, according to Charles Lanius, first foreign correspondent to interview Bulgaria's new ruler, the only woman dictator in the world.

A stark lesson for so-called Americans who subscribe to the principles of Communism is inherent in the first-hand account of Bulgaria's Communist-directed bloody purge, published for the first time in the September issue of Cosmopolitan magazine.

State Secretary James F. Byrnes took official cognizance of this situation just recently when he informed the Bulgarian government we would conclude no peace with that country unless terroristic tactics ceased.

As the organizer and director of the ruthless slaughter of political foes, Tzola Dragoicheva, 46-year-old red-haired peasant woman has few counterparts in history, according to the article.

Less than five months after the woman dictator told Lanius "I certainly intend to keep power in my own hands," she calmly directed the extermination of more than 100 political foes who were executed Feb. 1 last after a mock trial by the "People's Court."

"They must die," was her uncompromising answer to the pleas of her advisers that the entire civilized world would recoil in horror from such slaughter. "Don't worry about the outside world. The entire Allied press clamors for the blood of war criminals. Well, we give it to them."

Trained in Moscow for three

1,000,000 ENROLLED IN GI SCHOOLS

The third of the Army's University Centers opened on August 20 at Biarritz, France. On July 2, the first of these Centers started operations at Florence, Italy, and the second opened in Shrivensham, England, July 20.

These University Centers are the culmination in the Army's post-hostilities Education Program for troops in the European and Mediterranean Theaters of operation.

Program includes study and practical training in hundreds of unit schools operated by and within battalions and similar military units study in civilian educational institutions study in special university centers; training in centralized vocational technical schools and correspondence study through the United States Armed Forces Institute.

The most extensive part of the program in both theaters will be at the unit school level, which will include study from fifth grade through second year of college. It is expected that registrations for these unit schools will exceed 1,000,000 which will put more than 2,000 schools in operation, with courses ranging from literacy training to college subjects. Four million textbooks are on hand for these schools, covering more than 300 different courses in two types of training, academic and vocational.

Instructors and administrators for these unit schools have finished their training in special information and Education staff schools in France, England and Italy. They have returned to their units to pass on this instruction to other personnel who will assist in the operation of the unit schools.

years, Mme. Dragoicheva quickly assumed a dominant position in the Communist party in Bulgaria on her return to her native land.

As the sledge-hammer blows of the United Nations drove Bulgaria to the brink of collapse, the coup d'etat which Mme. Gragoicheva had evolved was ready to be executed. Then came the carnage.

"Within a week after the new government took over, it was necessary to commandeer hotels to take care of the overflow of thousands of political prisoners—estimates run from sixty to one hundred and thirty thousand," the writer states. "Thousands of others, particularly in the provinces, were murdered or disappeared. Before the Bulgarians had digested the carefully staged 'spontaneous' demonstrations, they woke up to realization that they were in the middle of a reign of terror rarely matched in any country."

LELIA LAKE

Mr. and Mrs. Luther Butler and Mr. and Mrs. C. L. Lewis spent the weekend at Farwell with Mr. and Mrs. Alvin Mace.

Mrs. Weldon Lovelady left Monday for her home in Amarillo after visiting her parents, Mr. and Mrs. C. L. Lewis.

The grade school teachers honored the high school teachers and

a few guests Monday evening with a party in the home of Mr. and Mrs. Rice Batson. After an outdoor supper, games of 42 were enjoyed by Supt. and Mrs. O. L. Davis, Mr. and Mrs. Nelson Seago, Mrs. Hart, Miss Lovella White, Miss Beth Davis, Hugh Stewart, and Mr. and Mrs. Batson. Mr. and Mrs. Claude Hearn were unable to attend.

Billy Howard who was recently discharged from the Army, and his wife came last week to visit his parents Mr. and Mrs. Walter Howard and other relatives in Amarillo. Mr. Howard has been at Ft. Sam Houston in San Antonio.

Mr. and Mrs. Jack Bowen of Ranger spent the week end with Mr. and Mrs. B. F. Wolford.

Miss Lois Reynolds who has been here with her parents left Sunday for Abilene where she will attend Abilene Christian College.

Mr. and Mrs. Bernice Howard of Amarillo visited with his parents Mr. and Mrs. Walter Howard Thursday and Friday.

Mrs. Jophine Foster of Amarillo spent the week end with her parents Mr. and Mrs. R. O. Espey.

Miss Margaret Beth Davis left last week for Lubbock where she will attend Tech.

Pfc. Edwin Mills and wife spent the week end with relatives in

Childress.

Mrs. Juanita Reid and son visited with relatives in Lubbock last week.

Mrs. J. B. Reynolds returned Friday from a trip to Austin and Temple. She accompanied Mr. and Mrs. James Reynolds of Borger, who went for medical aid for Mrs. Reynolds.

Mr. and Mrs. D. Wood and family spent the week end with Mr. and Mrs. Walter Howard.

Mr. and Mrs. Sam Roberts, Mr. and Mrs. Quinn Aten, Mr. and Mrs. D. E. Leather, Mr. and Mrs. Rice Batson, Mrs. Floyd Parker and Marjorie of Long Beach visited with relatives in Memphis Wednesday evening.

DDT Insecticide Ready For Public

AUSTIN—Good news for the thousands of families in Texas, is the information that DDT, the almost miraculous insecticide developed during the war, is now available for civilian use, and if not already on the market in every community, the time is approaching when it may be purchased wherever insecticides are sold.

Formerly restricted to military use for the suppression and control of Malaria and other insect-borne diseases among the armed forces at home and abroad, civilians have awaited with interest the opportunity to use DDT in homes and business buildings, to rid them of flies, fleas, roaches and other common pests.

"If every householder in the State will spray his home and outbuildings with DDT," Dr. Geo. W. Cox, State Health Officer declared recently, "there is a definite possibility of bringing the incidence of insect-borne diseases down to an absolute minimum. Such insects as fleas, lice, flies, mosquitoes, and roaches have been recognized as vectors of diseases for many years, but heretofore there has been no satisfactory method whereby they could all be controlled by a single poison. That is why DDT is referred to as a 'miracle insecticide.' It is

as fatal to one of these pests as to another, and homes, business buildings, outhouses and premises can be rid of such insects through the use of DDT."

Dr. Cox urges that in communities where DDT is already available, every home and every business building be sprayed, as well as outbuildings, privies, and the outside surfaces of closed garbage cans. Even though garbage containers are kept closed, flies are sometimes attracted by the smell of food, and if they alight on a surface that has been treated with DDT, they are killed.

The State Health Officer advises that persons living in communities where DDT is not yet on the market should keep in touch with their local dealers so that as soon as it is received, they can use it in their homes. It is inexpensive and affords one of the cheapest and most certain of all health protections, costing only a few cents for a quantity sufficient to spray the ordinary home thoroughly.

SAYS SECRETARY OF AGRICULTURE:

Despite Victory Used Fat Saving Must Go On!

Every woman in America should know that our country continues to face a serious fat shortage. And victory over Japan won't solve the problem immediately. We must keep on saving used fats in our kitchens!

If you have any thought that saving used fats is one of those wartime chores we can drop, now that Victory is here, please consider these facts and tell them to your neighbors.

America still needs salvaged fats. Not even at the peak of our war effort, when fats were required for mountains of shells and bombs and medicines, in addition to the ever-present need for soap, were our needs for salvaging fat greater than now. Our stocks have been drained by four long years of war, and there isn't enough on hand to meet all requirements.

Don't let "Victory psychology" blind you to this national need! If housewives stop saving fats now, the shortage will become even more critical.

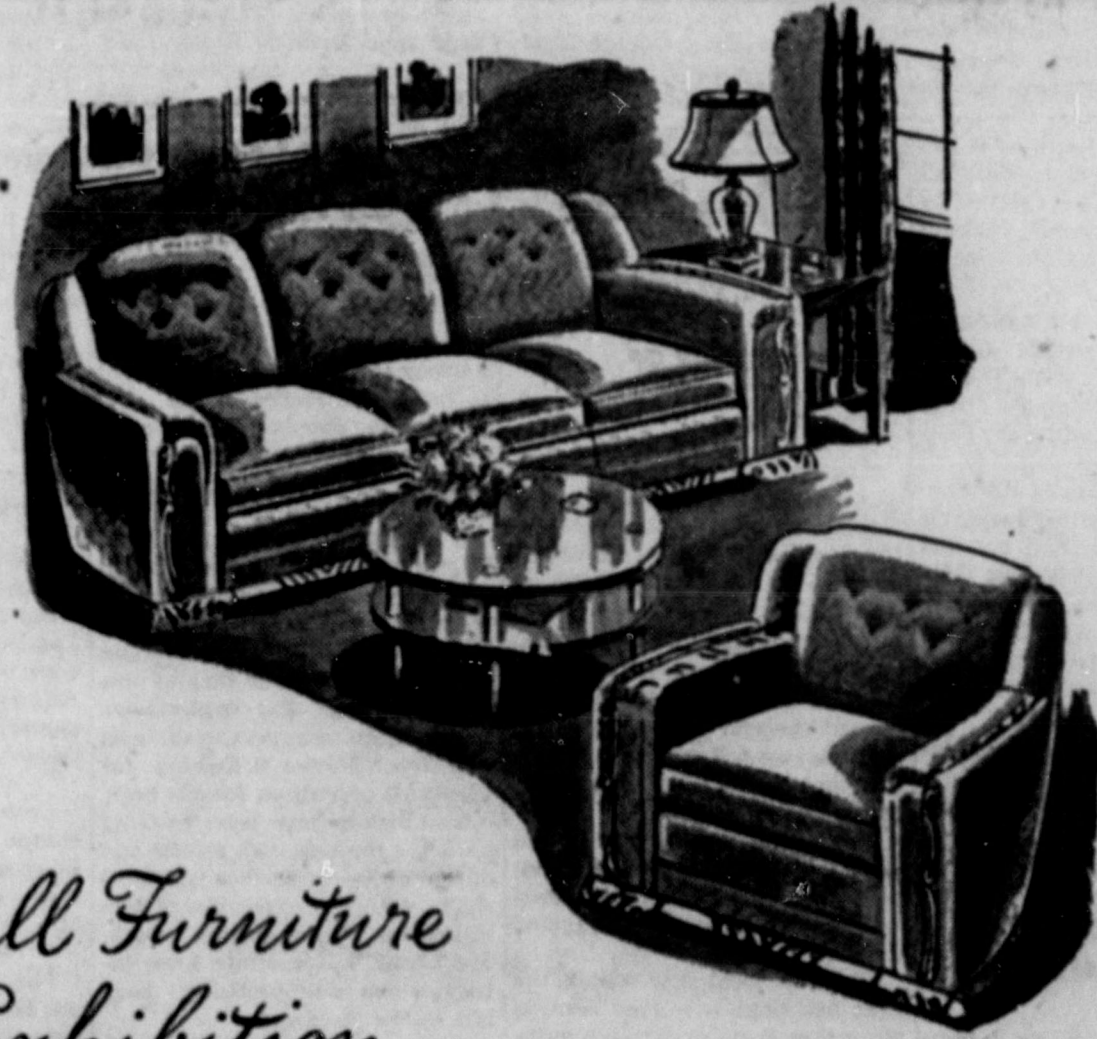

Don't let a single drop of used fats go to waste! Little trimmings of fat left on the platter at the table, scraps left on plates, and even the skimmings of soups and gravies are important. It is the consistent saving of even these small amounts that counts.

Don't turn in fats that can be re-used! But some fats, such as those rendered from lamb and mutton, are not suitable for re-use. Put them immediately in the salvage can. And, with other fats, after you've got all cooking good out of them, there is always a little left. No matter how little it is, save it.

Your butcher will still give you 4¢ and 2 red points for every pound you turn in. Save consistently—save every drop you can—every day—until Uncle Sam says the job is done.

THE TEMPLE OF TRUTH

By the Apostle
Nobody can make a fool out of a man without his help.

Who can remember the good old days when a merchant did not have to hide something under the counter to make it sell faster?

"You can't get something for nothing" is a pretty true statement, but I'm sure that there are things in my garden that I did not plant.

Germes or no germes, kissing is dangerous—it has put an end to a lot of old bachelors.

The ban on travel is working a

lot of hardships. The women are getting out of towels while the men are scarce on stationery.

If all of the men who go to sleep in church were laid end to end they would be more comfortable.

Do brewers have a heart during war time? They certainly do. Many of them asked the truck drivers to slow down so that the beer would age between the brewery and the shipping point. (But it didn't.)

Anyhow, with the meat shortage you don't have to lug up a lot of wood at the picnic. There is nothing to cook.

"School daze is here again" said the local high school girl Monday.

Oleo is merely a reminder that

we have seen butter days in the past.

Old Donley county is back on the job again as usual. More and more people are canning tomatoes and one-eyed peas than ever before. Several good providers tell me this week that if they had a man to pick the peas they could can three times as much.

ASHTOLA

Mrs. Van S. Knox
Guests of Mr. and Mrs. J. M. Graham Sunday were Mr. and Mrs. Elmer Graham of Paducah, Mr. and Mrs. Mathersted of Parnell and Mr. and Mrs. Hubert Rhodes.

Mr. and Mrs. H. S. Mahaffey and Edna Lee visited Mr. and Mrs. Edd Mahaffey of Plainview Friday evening.

Mr. and Mrs. George Shields of New Orleans visited Mr. and Mrs. Coleman Shields last week.

ASHTOLA SCHOOL NEWS

Club Organized
The upper grades organized a club last Wednesday. We have 17 members in our "Good-Sport Club."

For our president, we elected Bobby Holland. His faithful helper, vice-pres. is James King. Newsy Sandra Bownds is reporter. Trustworthy Patsy Wallace takes care of the money.

Items Hither and Yon
Harold Holland, a beginner this year, was eager to get started to school. It seems that while the family was milking, he dropped off to sleep. Immediately after they urged him to get up, he called for his school clothes and lunch thinking it was time to go to school then.

Mary Alice Swearingen went to Lefors Sunday and brought her aunt back with her.

Ervin Conbell has an aunt, Mrs. Stone from Memphis visiting in his home.

Laquetta Briggs and Sandra Bownds had fun riding horses Sunday.

Mr. George Gibbs came up to our school Friday. He gave us a very complete map of China.

We thank him very much for his thoughtfulness and invite him back whenever he would like to come.

The teachers, Mrs. Hickey and Mrs. Brandon, and the trustees: Mr. Wilson, Mr. Marshall and Mr. Springer, wish to thank the men of the community that helped clean the school yard.

We urge you parents and friends to feel welcome to come to see us at any time with your problems and just for a friendly chat.

When Patsy Knox went to get a drink at the fountain, the water was very low. Joyce Eddings gave her a very reasonable explanation when she said, "You can't expect anything else. I just got through drinking the well dry!"

Don Springer, Doyce Graham Jr. and Jimmie Myers ate birthday dinner with Delma Wayne Graham.

Joyce Eddings spent the week end in Amarillo visiting her aunt and uncle.

Don Ray visited his aunt and uncle, Mr. and Mrs. Wade Ray.

CARD OF THANKS
We wish to thank our many friends for their kindness and sympathy in the death of J. H. Langford. May God's richest blessings be with you always.

BAIN—OWEN

Santa Ana will be the temporary home of Capt. Harold Dean Owen and his bride, the former Betty Jo Bain, who exchanged wedding vows at a ceremony solemnized at 8 o'clock Monday evening, July 30, in the Salinas Church of Christ. Evangelist Linwood E. Bishop officiated at the candlelight ceremony.

Gladioli, white dahlias, palms and fern decorated the church for the nuptials. "Always" was sung by Miss Ruth Griener preceding the ceremony, and Mrs. Kenneth Bain, aunt of the bride, played the wedding march.

Fuchsia accessories complemented the light blue suit worn by the bride when the justweds departed for a honeymoon of several days in Los Angeles before leaving for Fort Worth, Texas, where the bride's parents, Mr. and Mrs. L. W. Owen, live.

The bride, who is the daughter of Mr. and Mrs. J. R. Bain of Gilroy, completed her high schooling in Salinas. Before her marriage she was employed as a bookkeeper in the budget and fiscal office at the Salinas army air base. The Bains are former

residents of Clarendon.

Capt. Owen, who attended college in Fort Worth, served 18 months overseas with the Fifth air force. A P-38 fighter pilot, he had 608 combat hours and wears the distinguished flying cross and air medal with five oak leaf clusters. He will await further orders after reporting at Santa Ana.

SKINNER—SAUNDERS

Pfc. John H. Saunders and Mrs. Mae Skinner were united in marriage Sept. 3rd by Rev. Manchester at the local Church of Christ.

Pfc. Saunders is stationed at Clarendon and his wife has been residing here with her parents.

The couple plan to make their home at Wichita, Kansas after he is discharged from the army. Pfc. Saunders served overseas one year and was wounded.

Mrs. Skinner is the daughter of Mr. and Mrs. Sims.

WOMEN'S MISSIONARY SOCIETY

The Women's Missionary Society met at The First Christian Church Sept. 5. The meeting opened with Mrs. B. L. Hurst reading the 100th Psalm, followed by silent meditation, while Mrs. Roy Clappitt, played softly, "Sweet Hour of Prayer." Sentences prayers were offered and closed by the Lord's Prayer, in unison. The singing of "Into My Heart" closed the devotional period.

A lengthy business session followed, with many plans completed for the year's work ahead.

Mrs. E. C. Herd was the leader of the lesson study on "Alaska." She read Romans 1: 14-18 for the devotional "I Am Debtor."

Mrs. Albert Brown gave "The Potentialities of The Northland." Mrs. Roy Clappitt gave "Challenge of Alaska's Open Door," tracing Franklin Smith's travels, on a lighted globe of the world.

Mrs. Frank White Sr. gave "Charles Rainsback; Missionary in The Panhandle of Alaska."

A quiz followed with all present participating. Meeting closed with missionary benediction.

A social hour was enjoyed by all.

CLUB WOMEN TAKE OVER CLUB ROOM AGAIN

Anticipating a full return to social life since the close of the war, the Club Women of the city again take possession of the Club Room in the City Hall building. For the duration of the war The American Red Cross was given the use of the rooms as a collection and dispersing center. Miss Charlotte Molesworth, chairman of the local Chapter very graciously thanked the Clubs for the use of the building and returned the rooms for the women's club work.

The Board of Directors, composed of the presiding officers of the Clubs, met and elected the following officers: Mrs. Pete Kunz, president; Mrs. Earl Lea, vice president; Mrs. Lee Holland, Secretary and Mrs. Frank White Jr. as treasurer.

The board members and committees are now having a thorough renovation and redecoration of the assembly room and the kitchen. They will be in readiness in the near future for the regular schedule of the clubs of the city.

The Club Room is one of the things that Clarendon is proud to own. Every woman of the city will not only be glad to be in possession of this club asset but will also appreciate the improvement and will be glad to entertain their friends in the pleasant surroundings.

GARDEN CLUB

Garden Club members met Monday afternoon in the home of Mrs. Will Johnson with Mesdames O. C. Watson and Walter Taylor as co-hostesses.

Mrs. Phelan, the president, was in charge of the business session. Mrs. Pete Kunz was welcomed as a new member. The program leader, Mrs. Lena Antrobus, conducted an interesting quiz on Dahlias.

"Three Centuries to Make a Flower" was visualized in a fascinating manner by Mrs. Frank White Jr.

Mrs. Phelan gave many helpful hints on "Cut Flower Care."

The "Table of the Month" was set by Miss Marjorie Harlan. It featured a Valentine motif and was beautiful with its gold-etched crystal and heart-shaped centerpiece of red carnations, blue corn flowers and gold arrows. The hostesses served a dainty refreshment plate. Favors were miniature corsages of blue conflowers and pink snapdragons.

Those present were guest, Mrs. Victor Smith; members, Mesdames Lena Antrobus, U. J. Boston, J. F. Blocker, Harry Brumley, Rolfe Brumley, Joe Goldston, J. H. Howze, H. W. Hanks, Jim McMurtry, Frank Phelan, Rayburn Smith, H. T. Warner, Frank White Jr., and Miss Marjorie Harlan.

SHOWER

A wedding shower was given by Ruth Gilbert at the Pentecostal church Sept. 8th honoring Pfc. and Mrs. John H. Saunders.

Many gifts were received by the couple and cake and tea was served to a large number of guests.

LES BEAUX ART CLUB

Les Beaux Art Club opened its year's activities with a breakfast Friday morning in the home of Mrs. U. J. Boston. Hostesses were Mrs. John Blocker, Mrs. Lloyd Benson, Mrs. Delene Bagby and Mrs. Homer Glascoe.

The reception room was decked with bouquets of garden flowers. The breakfast table was covered with a colorful hand block cloth, centered with fruits and gay vegetables.

Almost a full representation of the membership was present with Mrs. Ralph Collinson guest.

Officers for the year are: president, Mrs. Pete Kunz; vice president, Mrs. Frank White; secretary, Mrs. J. W. Evans; treasurer, Miss Mary Howren; historian, Mrs. J. D. Stocking; parliamentary and Federation counselor, Mrs. U. J. Boston.

The study for the year is Period Furniture and Types of Houses.

1926 BOOK CLUB

The 1926 Book Club was honored in having Mrs. Rosco Bates as guest reviewer at their Guest Day and first meeting last Tuesday at the Methodist Church. Mrs. Bates reviewed "The Lion In The Street" by Langley.

Guests were served punch from a table decorated with seasonal flowers which were also used throughout the room.

Hostesses were Mesdames L. T. Shelton, J. G. Stewart, B. G. Watson, M. R. Allensworth, and Alfred McMurtry.

Donley County Leader, \$2 a year

CAMPFIRE GIRLS ACTIVITIES

The Campfire Girls met with Betty Jean Decker Tuesday afternoon at six o'clock. During the business session, new members were elected. The sponsor, Jean Porter, gave an informative talk on "Vocations for Girls."

Delicious refreshments were served to the following members: Betty Jean Naylor, Mary Neal Davis, Ira Jean Estlack, Mae Morris, Arvazene Smith, Ladelle Cox, Jean Porter, sponsor, and Betty Jean Decker, hostess.

On Thursday of last week the Campfire Girls and their guests enjoyed an outing at the river. Those present were Mae Morris, Mary Neal Davis, Arvazene Smith, Betty Jean Decker, Ladelle Cox, Jimmy Naylor, Bob Clifford, Rex Bradford, Gene Bryan, Clyde Price, Miller Morris and Jean Porter, sponsor.

WIN ONE S. S. CLASS

Mrs. C. C. Powell entertained the Class at her home Tuesday afternoon. At the business meeting officers were elected as follows: Mrs. J. T. Patman, teacher; Mrs. R. C. Weatherly, assistant teacher; Mrs. John Bass, president; Mrs. A. A. Mayes, vice president; Mrs. Walter Taylor, secretary; Mrs. Tom Connally, treasurer. Plans were made for the new year.

The class took care of the class orphan, Eugenia Williams' clothes and sent \$30.00. She is at the Waco Orphanage.

Lovely refreshments were served to 11 present.

FRIENDSHIP CLUB

Mrs. J. D. Stocking entertained the club members in all day meeting Tuesday at her home. At the noon hour a lovely covered dish luncheon was served.

The afternoon was spent in visiting and pleasant conversation. The club has pieced a quilt and Mrs. J. W. Morrison bought the quilt top. Mrs. Lindsey, president, presided at business meeting.

Those present were Mrs. Teal from Amarillo; Mesdames H. Tyree, Jess Pool, R. O. Thomas, J. A. Meaders, Van Eaton, J. W. Morrison, C. E. Lindsey, Miss Katie Meaders and hostess, Mrs. Stocking.

The Club will meet Sept. 24 at the home of Mrs. C. E. Lindsey.

KAPPA KAPPA SORORITY

The Kappa Kappa Sorority met at their regular meeting in the home of Betty Brown with Mary Ann Bromley as co-hostess. Refreshments were served to the following members and pledges:

Jean Porter, Mary Nell Hanks, Betty Rhodes, Ruth Patman, Kathleen Grady, Melba Grady, Lou Lamberson, Mrs. Rufus White, Dorothy Jean Tatum, Johnnie Johnson, Ada Sue Smith, Dot Kemp, Dona Bryan, Alma Murphy, Sybil Head, Juanita Carpenter, Louva Hunt, Sue Smith, Naoma Mooring, Lama Tatum, Portia Hay and Patsy Pittman.

Billy Ray Reid left Saturday for Lubbock where he will attend Tech.

1912 NEEDLE CLUB

On Thursday afternoon Mrs. J. W. Evans was hostess to the 1912 Needle Club.

Those attending were Mrs. L. S. Bagby, Mrs. R. A. Chamberlain, Mrs. A. L. Chase, Mrs. Minnie Dyer, Mrs. Homer Glascoe, Mrs. Crockett Taylor, Mrs. A. A. Mayes; guests were Mrs. Odie Caraway, Mrs. Bob Land and Mrs. Ed Dishman.

The afternoon was spent in social conversation and needle work.

CLUB PICNIC

Those to enjoy the Clarendon H. D. Club picnic Friday evening at the City Park were Mr. and Mrs. O. C. Watson and son George, Mrs. Lena Antrobus, Mrs. A. H. Baker, Mrs. A. L. Chase, Mrs. G. A. Anderson, Mrs. J. C. Estlack, and guest Miss Hinkle.

The Club will meet in all day meeting Sept. 21 at the home of Mrs. J. C. Estlack.

Mrs. C. A. Burton was joined by her brother and wife, Mr. and Mrs. W. E. Betts of Clovis, N. M. last week and visited their sister and husband, Rev. and Mrs. E. L. Craig at Mahaw. They returned home Monday night.

Mrs. Anna Dickson of Memphis and Mrs. Tyler of Ft. Worth visited Mrs. Ed Speed Tuesday.

Frank Bourland visited his sister, Mrs. Oscar Jenkins and family at Dallas and his daughter, Mr. and Mrs. Robert Dillard and family at Austin last week.

OUR DEMOCRACY — by Mat

COMMUNITY COOPERATION

WHEN IN PIONEER DAYS A FAMILY NEEDED A HOME, PEOPLE FROM THE WHOLE COUNTRYSIDE CAME TO HELP IN THE HOUSE-RAISING. WITH MANY HANDS AT WORK, OFTEN A FAMILY-HOMELESS IN THE MORNING—HAD THE PROTECTION OF ITS OWN ROOF AT NIGHT—THROUGH COMMUNITY EFFORT THE JOB WAS DONE.

IN THOUSANDS OF AMERICAN COMMUNITIES THIS SAME SPIRIT OF WORKING TOGETHER—INTENSIFIED BY WAR—IS FUNCTIONING TODAY. IN U.S.O., RED CROSS, IN SALVAGE DRIVES, IN CONSERVATION PROGRAMS AND IN THE NATIONAL EFFORT TO PREVENT INFLATIONARY PRICE RISES BY SPENDING PRUDENTLY AND PUTTING MONEY INTO WAR BONDS, LIFE INSURANCE AND SAVINGS ACCOUNTS—COMMUNITY EFFORT IS PROVING A WELL-SPRING OF STRENGTH FOR OUR DEMOCRACY.

THOUSANDS OF RUBBER ITEMS AVAILABLE SOON

Rubber toys for Christmas are in prospect as well as thousands of other familiar objects that disappeared during the war years, according to the Rubber Bureau of WPB, which has lifted all restrictions on products manufactured of reclaimed and scrap rubber and all synthetic rubber except butyl, the special-purpose

type used chiefly for tire inner tubes. Natural rubber as well as butyl remains under rigid control.

Other items freed include combs, beach balls, bathing caps and rubber beach bags; bath mats, bottle stoppers, hair curlers, and such household items as rubber gloves, rubber fly swatters, soap dishes, dish drains and squeegee window wipers. WPB's action also permits the use of sponge rubber in cushions and

mattresses, rubber for unrestricted manufacture of weatherstripping, stair treads, rubber flooring, battery cases and such automobile manufacturing uses as pedal pads and floor mats.

Sport shoes and cleats, hockey pucks, boxers' mouthpieces and a number of other athletic goods items will be made available in greater quantities.

United States Appears Destined To Be Fashion Center of The World

The United States stands on the threshold of becoming the fashion center of the world, and American designers and manufacturers are determined to lose none of the ground they have gained in making the fashion industry the fourth largest in the United States.

Topped only by the food, oil and steel industries, our infant fashion industry, so long stunted in its growth because of the awe in which our manufacturers held the Parisian fashion experts, is finally swelling its biceps and regarding the world fashion field with the "I'm the champ" look, according to an article by Alice Hughes in the September issue of Cosmopolitan.

One of the outstanding students of fashion in the world, Miss Hughes makes this prediction so far as the future of American fashions is concerned:

"Paris, London, Moscow, Buenos Aires, Melbourne and all other world capitals will imitate the

American Look far more eagerly than the world ever tried to ape the models of Paris."

Although the United States' fashion industry received its greatest impetus through the fall of France and the destruction of the Parisian fashion marts, it had been fighting for recognition since the early 1920's.

"Clearly we in American have a husky, lusty, thriving fashion baby, a thriving youngster who has passed the creeping stage and is beginning to stand firmly on his own feet," the writer states. "Have we enough self-confidence to bring this child up to sturdy adulthood? Already our fashion baby has rewarded us handsomely in profits and prestige. Will our manufacturers, retailers and consumers support loyally this baby whose talents were so definitely proven at a time of stress?"

Mrs. Clyde Martin and Mrs. Ruth Killough of Amarillo were guests of Mrs. W. D. Martin Sun-

MARTIN

Mrs. Jack Eddings

Bro. and Mrs. McCurdy spent Sunday with Mr. and Mrs. Buck Roberts.

Mr. and Mrs. Robert Davis visited Mr. and Mrs. Brady Pittman Sunday afternoon.

Mr. W. D. Higgins and Mr. Maynard Lawson are visiting their relatives in Tennessee this week.

Mary Neal Davis attended the Camp Fire picnic Tuesday night. Mr. and Mrs. W. L. Jordan visited Mr. and Mrs. J. D. Wood Sunday afternoon.

We are sorry to report that Mr. J. D. Wood is on the sick list.

Mrs. Pete Land is improving in health after undergoing a major operation in the Clinical Adair hospital Monday morning.

Mrs. Kerbow of Paris, Texas is visiting her daughter and family, Mr. and Mrs. Brady Pittman this week.

Mr. and Mrs. Jack Eddings and daughter spent Sunday with Mr. and Mrs. U. G. Pittman.

Mr. and Mrs. E. B. Allen spent

Sunday in Amarillo. Mr. George Bulman, Mr. W. H. Morrow and Mr. Pat Patterson attended to business in East Texas this week end.

The Martin Quilting Club met with Mrs. George Bulman Thursday Sept. 6th with 16 members present. One quilt was finished. The next meeting will be with Mrs. J. H. Helton on Sept. 20th.

Miss Helen Bulman who teaches school at Goochnight spent the week end with homefolks.

Ruth Drake spent the week end with Margie N. Crofford.

TO WHOM IT MAY CONCERN:

I take this means to inform the people of Clarendon that I am not leaving town. I am not moving, and the house I live in is not for rent, and if I owe anybody anything, and you are losing sleep over it, just relax, for there is nothing to get alarmed at. I hope that the person or persons who started the gossip about my leaving, is getting a lot of enjoyment out of it.

W. D. Kidd.

Advt.

Mr. and Mrs. Clyde Atteberry spent Sunday visiting here.

College Chapel Fund Growing

CANYON—Eighty persons have contributed more than \$13,000 in cash and pledges to the West Texas State chapel building fund, it is announced by Dr. J. A. Hill, president.

Gifts to the fund are being received at the rate of more than a thousand dollars a week without personal solicitation, Dr. Hill said. The chapel building, chimes, and organ will cost \$50,000. The structure will be located on the campus on the site formerly occupied by the president's home.

One of the largest recent contributions was a check for \$1,000 from White & Kirk, pioneer Amarillo store firm.

The chapel, which will serve faculty and students and provide a conference center for Panhandle ministers and student members of their congregations, will be the site for lectures, recitals, marriage ceremonies, and special services. Its program will not conflict with the services of any local church.

The chapel project has been widely endorsed by Panhandle

ministers and churches. Student religious groups are among the most active in Texas religious life.

Pre-Medical Examinations At W.T.S.C.

CANYON—Pre-medical examinations for students—including freshmen—who hope eventually to enter medical schools will be given during the fall semester of West Texas State College in cooperation with the American Medical Association.

Passing in such examinations constitutes one of the medical school entrance requirements. The aptitude tests are given by Dr. C. A. Pierle, head of the chemistry department.

Many students have gone to medical schools from West Texas State in recent years to become physicians, and several are now in training.

West Texas State offers the recommended four years of college work which is the foundation for medical school courses. The pre-med students are so guided by Dr. Pierle that they can change their minds without loss of college credits in their changed major subjects. Offering of pre-med courses is facilitated by a new Science Building.

Miss Minnie V. Vicars and Clyde Atteberry of Amarillo were married Aug. 30 at Clovis, N. M.

MEAT, BUTTER, CHEESE POINT VALUES DOWN

Point values for nearly all meats, all cheeses, creamery butter, and margarine will be reduced sharply and canned milk will be point-free during the rationing period beginning Sept. 2 and ending Sept. 29, Chester Bowles, Administrator of OPA, says.

Steaks and roasts will be from two to three points less a pound; hamburger will be a two-points per-pound bargain, down from 4; and reductions for cuts of lamb and veal range from one to three points. Pork steaks, chops and roasts are down one to two points; all meats that now have a value of two or three points a pound are reduced one point. The new point value for creamery butter is 12 points a pound. Margarine is down from 14 to 12 points a pound. Points for all kinds of rationed cheeses have been cut 50 per cent.

Mr. and Mrs. Carl Bennett returned home Friday from a trip to Lexington, Mo., and attending a convention of John Deere Implement at Kansas City.

In This Hour of

TRIUMPH

Behind us lie 3½ years of deadly struggle in which, with God's help, we have prevailed.

So, today, we celebrate a victory.

After the celebration, what lies ahead?

For most of us, the outlook is a bright one. If we will simply use the brains, the will, the energy, the enterprise . . . the materials and resources . . . with which we won our war, we can't fail to win the peace and to make this the richest, happiest land the world has known.

For most of us, the years ahead are bright with promise. But for others of us—and, ironically enough, their part in bringing victory was a major one—the years to come must bear a different look.

In America today are hundreds of thousands of injured men. Men with neatly pinned up sleeves and trousers. Blinded men. Men with clever iron hooks instead of hands. Worst of all, men with hurt and darkened minds.

These men need our help. Helping them will cost a great deal of money. We can help them best by buying Victory Bonds.

Far away from America today are millions of Americans. As we would be, they're on fire to get back—to their wives, to the children some of them have never seen, to their jobs.

These men need our help. Helping them will cost a great deal of money. And we can help them best by buying Victory Bonds.

This is our day of triumph. But it's theirs too—the injured men, the men who are still far away.

Let's not forget them, in our just rejoicing. And the one way we can help most to care for our wounded . . . to bring our veterans home . . . to give them a fresh start in the country they fought for . . . to care for the families of those who died before the Victory was won . . . is simply this:

Buy all the Bonds you can. Keep all the Bonds you buy.

VICTORY BONDS . . . To have and to hold

PFC. JAMES PEGGRAM ARRIVES IN STATES

Mrs. Jack Peggram of Cleburne, Texas received a telegram today from her husband stating that he had arrived in New York on the Queen Mary and would be home in a few days.

Pfc. James R. Peggram has been overseas since the first of the year and was in Berlin when it fell.

Mr. and Mrs. Peggram are former residents of Clarendon.

HARMON L. McCLELLAN TO BE DISCHARGED

U. S. Navy Staging Center, Pearl Harbor, T. H.—Harmon L. McClellan, Jr., Storekeeper first class, USNR, of Route 1, Clarendon, Texas, has arrived at this Staging Center, set up under the Navy's Demobilization Plan, and will soon be bound for the United States to be discharged honorably from the naval service. He has been in the Navy since February 13, 1942, and has spent 11 months overseas.

SGT. ROSCOE CRAFTON STILL IN HOSPITAL

Sgt. Roscoe Crafton, husband of Mrs. Letha Warren Crafton, who was wounded in the Pacific and hospitalized at Longview, Texas Veterans' Hospital, has not recovered sufficiently as yet to return to his home in Amarillo. Along with his injuries, the exact extent of which is unknown, he is also ill. He is expected to reach home, however, within a few days.

Mr. and Mrs. Oscar Kerr of Amarillo were business visitors in Clarendon Tuesday.

PAUL HOLLINGSWORTH LEAVING ARMED FORCES

W. O. Paul Hollingsworth, who has served almost ten years in the Armed Forces of the U. S., and now completing his training at Hondo, Texas, as Flight Engineer, will be discharged within the next few days, upon request and sufficient points, and will be a private citizen again. He and Mrs. Hollingsworth will reside in Amarillo. Mrs. Hollingsworth is the former Miss Evalyn Warren of this city.

Mr. and Mrs. C. T. McMurtry had for guests, Mr. and Mrs. Glad Snodgrass and Mr. and Mrs. Will Reeves of Floydada, Tuesday and Tuesday night.

(Headquarters for Cattle Supplies since 1885)

Pfc. Jack Murff, who has spent some eighteen months overseas, has received his discharge and is now with his wife Mrs. Murff, visiting in the home of Mr. and Mrs. A. D. Estlack and family.

CAPT. HENRY W. NIPPERT HOME ON LEAVE

Capt. Henry W. Nippert is home on leave after serving 3 years overseas with the 57th Fighter Group.

He is spending a 30-day leave with his mother and other relatives in Ft. Worth. The Group was headed for Manila when V-J Day was announced and had gotten as far as the Panama Canal when the ship changed its course for Boston.

Capt. Nippert has 125 points towards his discharge and wears the following decorations:

Presidential Citation with two clusters, Bronze Star Medal, American Defense Medal, European, African, Middle East The-

atre Medal with nine battle participation Stars.

At the end of his furlough, he will report to Tampa, Fla.

WILLIAM T. MAYFIELD AT SAN ANTONIO

Having completed a tour of duty of 5 months in the European Theater of Operations, Flight Officer William T. Mayfield of Clarendon, has arrived at the San Antonio District, AAF Personnel Distribution Command for processing and reassignment. His awards for service overseas include the ETO Medal with one Battle Star. He is a son of Mr. and Mrs. W. B. Mayfield of this city.

Friends of D. W. Hinkle will be glad to know he is improving.

Mrs. Boyd Allison received word Wednesday that her husband, Cpl. Boyd Allison, who is now stationed in the Hawaiian Islands, will soon be transferred to Iwo Jima.

WE CAN BEST EQUIP THEM FOR THE TASKS THAT LIE AHEAD THROUGH EDUCATION— EDUCATION MADE POSSIBLE BY OUR PUBLIC SCHOOL SYSTEM— BY ENDOWMENTS AND SCHOLARSHIPS— BY THE INDIVIDUAL THRIFT AND FORESIGHT OF PARENTS WHO, THROUGH SAVINGS AND EDUCATIONAL LIFE INSURANCE POLICIES, MAKE CERTAIN THEIR CHILDREN WILL BE ABLE TO TAKE ADVANTAGE OF THE OPPORTUNITIES FOR HIGHER EDUCATION AND THUS BE BETTER PREPARED FOR THE RESPONSIBILITIES THAT SOME DAY MUST BE THEIRS.

The amount of sway at the top of the Washington Monument is less than one inch.

The son's college education often cures the mother of bragging about him.

Economist Urges U. S. Pay Our War Debt Within Twenty Years

Full use of the creative ingenuity which made the United States the greatest nation on earth would enable us to pay our war debt within twenty years. In the opinion of Paul Schubert, noted economist and historian.

A determination to pay our debt of more than three hundred billion dollars in a certain time instead of sitting back and letting future generations worry about it is exactly what is needed to spur the United States to its greatest peacetime effort, according to Schubert, writing in the September issue of *Cosmopolitan* magazine.

"There's only one way to pay off that debt," he states, "and that is to attain a new kind of prosperity. We must create new wealth so that we can tax that wealth."

By setting as our goal the complete payment of our war debt in twenty years, we would achieve tremendous progress in raising the already high American standard of living, according to the writer, who states in part:

"We still have an unlimited distance to go in raising the American standard of living. Millions of Americans still live in hovels, wear rags, go barefoot much of the year, have never owned a car and never expect to own a decent car. Make those Americans well-to-do.

"Do it by tapping American ingenuity and resourcefulness in the way that happens only when we are truly challenged—when we get in there and slug.

"We can be just as thrillingly ingenious when it comes to beat-

ing the national debt. The challenge of tomorrow is exciting precisely because it forces us to venture into the unknown, to tackle problems bigger than any one man's vision. The thrill of living until tomorrow is the anticipation of seeing that unknown unfold.

"For the sake of our posterity, let's make America solvent. Then, at last, we can breathe this free air as free men and women again, and look at that American flag with the pride of knowing that we owe nothing to any man."

USE POTATOES NOW HOME MAKERS URGED

Full use immediately of potatoes from "intermediate" states is urged by the Department of Agriculture. The "intermediate" crop is expected to total about 32.7 million bushels and can fill a gap in the nation's food supply. Another important reason why these potatoes should be used now, agriculture officials say, is that while they are of good quality and many are storable, they do not keep well as the late varieties. In addition, storage facilities are now fairly limited. Potatoes harvested in hot summer months can only be stored in cool places, and most growers prefer to use precious refrigeration for other foodstuffs. That makes storage of large supplies of potatoes now uneconomical from the growers' viewpoint. The answer to the problem, the agriculture officials add, is simply - "use spuds now!"

Car Drivers Warned

AUSTIN—Better check up on your drivers license. Under the impetus of mounting traffic fatalities, the Department of Public Safety is about to begin a vigorous enforcement campaign against unlicensed drivers, Director Homer Garrison said today.

"This isn't a red tape or revenue proposition," Garrison said. "We are trying to keep people from being maimed and killed."

Estimating that Texas now has 250,000 drivers who either have no licenses or whose licenses have expired, Garrison said:

"The deliberately evasive person is likely to be dangerous, either because of known incompetence or, in the case of many new residents and new drivers, ignorance of Texas safety rules.

"Of those who have expired licenses, probably a considerable number have developed defects or attitudes, or records of traffic violation and accident, that give them cause to fear examination.

"Of course most delinquents are merely lazy or negligent.

"But whatever the reason, the impressive facts remain that 15 percent of drivers cause 85 percent of collisions, and unlicensed drivers figure in more than a proportionate share of them. As traffic volume and fatalities continue to increase, the citizen's obligation to comply with regulatory measures likewise increases. We are headed for a toll of ten lives lost daily to traffic in Texas, and it will require drastic action to hold the figure that low when post-war traffic gets into full swing."

Released by U. S. War Department, Bureau of Public Relations. **SWORDS INTO PLOWSHARES, RIFLES INTO TOMES—** Brig. Gen. Foster B. Tate, University Training Command, speaking at the opening ceremonies of the University Study Center at Florence, Italy. Seated on the platform are American Ambassador Alexander Kirk, Lieut. Gen. Lucian K. Truscott, commanding general of the 6th Army and other high ranking military officers.

College to Resume Journalism Courses

CANYON—Instruction in journalism will be resumed at West Texas State College in the 36th long session opening September 18th.

Capt. Olin E. Hinkle, for the last 28 months in the Army Air Forces, has returned to the campus to reopen his work as associate professor of journalism and publicity director. He also is sponsor of the Panhandle High School Press Association, which has maintained restricted activity during the war and will now restore its varied program, including an annual convention at West

Texas State.

In addition to writing courses, the journalism curriculum will include a class in photography.

College publications—newspaper and yearbook—are without editors and business managers for the first time in many years because of postponement of appointments last spring. Immediate tryouts for these and other positions will be started by Capt. Hinkle. He pointed out that students, including freshmen, have an unusual opportunity to obtain writing experiences on college publications this year.

Type High, the college press club, will open its membership to students who demonstrate journalistic ability and dependability.

There are about 100 species of fleas, of which one-third are American.

Proper Storage of Summer Equipment

Remove Rust
Use bottles of turpentine and household oil to clean rust from small garden tools before putting them away.

Wax Porch Chairs
Protective coating of bottled liquid wax will keep outdoor furniture in good condition for next year.

Oil Garden Tools
Garden equipment with moving parts, such as lawn mower, should be oiled before putting away for the winter.

By Peggy Mason
When screens and awnings come down, and the weather turns cooler, it's time to put away summer household and sports equipment for the winter months.
A little extra care taken now will help prevent deterioration of these items during the winter. And come next spring, everything will be in readiness for a new season.
Rust is the enemy of garden tools and should not be allowed to remain on them over the winter. It is easier to clean them up now than to wait until you are ready to use them again. Four bottles of turpentine and house-

hold oil and a few cloths and brushes will clean up spades, hoes, rakes, trowels and such. Equipment with moving parts, such as the lawn mower, should be oiled before it is put away.
Outdoor furniture made of wood, rattan or wicker, may be washed with mild soap and water. Then, before it is stored, get out your bottle of liquid wax and go over each piece. You'll find a protective coating of wax will help keep dust from clinging to the surfaces, and getting outdoor furniture in condition for use next year, will be that much easier. Leather cushions that are used outdoors may be waxed, as well as the garden hose.

Great care should be taken in the storage of sports equipment, much of which may represent a considerable investment. Fishing rods, canoe paddles, tennis racquets and other summer sports items should have a storage place all their own. Never hide them away in the back of a closet where they may be damaged. The ideal storage arrangement is a shallow closet where each piece may be hung in a clamp bracket or with straps.
After the summer vacation, give each piece of the family's luggage a protective coating of wax. In addition, each bag should be covered with a cloth to keep dust away.

Four Young Texans Help Build Giant Plant In Cuban Jungle

HOUSTON—A little bit of Texas and Texas "know how" today flourishes where once a Cuban jungle stood, and part of the credit goes to four young men from this state.
They are among the small group of young engineers who early in the war went off to the tropics to aid in developing a huge, new industry, the recovery of critically needed nickel from low-grade Cuban ore. Nickel is an indispensable alloy in toughening armor plate for planes, tanks and ships.

Work of the young engineers, at that time, was considered so vital to the war effort in view of the threatened nickel shortage that the Army and Navy urged that they and all other technical men remain on the job.

The Army even sent artillery troops to Cuba to guard the new plant from possible attack from the sea by enemy submarines, while the Navy conveyed material and supplies from the United States to the plant site at Nicaro.

The four young Texans trained in Texas for their tasks, then started from scratch in a jungle to help place a brand new metallurgical process in production against seemingly insurmountable obstacles, and they have come through.

They are William A. "Bill" Atkinson, Jr., 25, of Lovelady; V. H. "Broggie" Brogdon, 31, and B. F. "Ben" Fredericks, 29, both of Houston, and Oran W. Collier, 28, of Florence.

All are engineers at Freeport Sulphur Company's Nicaro mining and nickel recovery plant in eastern Cuba, today the largest industrial unit on the island.

Atkinson was graduated from Tulane University with a B.S. and M. S. in chemistry and physics. Brogdon has a B.S. in mechanical engineering and Fredericks a B.S. in chemical engineering from Rice institute. Collier obtained a B.S. in chemical engineering at the University of Texas.
Outbreak of the war in Europe

and the fear that a nickel shortage might dangerously impede armament production by the United Nations determined the war jobs of the young engineers. They worked on experiments with Cuban ore at Hoskins Mound, Texas, but by the time of Pearl Harbor the experiments had only reached the stage at which one ton of ore a day was handled in a small pilot plant. Then the government stepped in to the picture and the Reconstruction Finance Corporation urged Freeport Sulphur to build, man and operate a mining and recovery plant in Cuba.

Construction began at the height of the materials shortage, tremendously increasing problems already magnified by distance and isolation. Nicaro agents sifted through the United States market for used equipment, buying abandoned plants to obtain some of the structural steel needed.

The submarine menace in the South Atlantic made it necessary to ship the hard-won material by rail to Florida and then in Navy convoys to Cuba.

The manpower shortage imposed still another handicap, but by recruiting Cuban labor, an army of 8,000 construction workers was employed to build the huge project, which cost \$33,500,000.

Today the plant is producing nickel at the rate of 27,500,000 pounds a year.

"It takes youth, nerve and stamina for a job like this and our young engineers have got it," said J. T. Claiborne, Jr., vice president of Freeport Sulphur.

After nearly two years at the pilot plant and in the laboratory, during which time numerous changes in the recovery process were made, the young engineers were already to put their knowledge and experience to the test.

All went to Nicaro, where at the outset they fought the production "bugs" that exist in any new process and when not doing

that they fought the bugs out of the tropical nights. But they won and nickel was obtained for the nation's war machine.

A vital wartime job had to be done—the Army and the Navy insisted—and four young Texans went out and helped to do it. And while they are about it, they don't seem to be passing up opportunities to tell the Cubans about the Lone Star State. Someday, they say, they're coming back.

OPA ASKS HOUSEWIVES TO FIGHT INFLATION

To enlist consumer aid in preventing food price increases, Price Administrator Chester Bowles announced that "anti-inflation shopping lists" will be distributed to thousands of housewives from local War Price and Rationing Boards beginning the first week of September. "The OPA is calling upon housewives to help their Government prevent a repetition

of the disastrous inflation that followed the first World War," Mr. Bowles explains. "The same set of factors that started the inflationary spiral following that war are again here. Consumer goods, including certain foods, are scarce. Everyone wants to buy the things he couldn't get during the war and people have money to spend.

"We are going to do everything in our power to prevent price increases in cost of living items by maintaining price controls as long as they are needed. We can't do the job alone. We want housewives to write on the anti-inflation shopping lists of the prices they have actually paid for various kinds of food over a period of a week. The housewife will send her report to her local board. This will give the board a pretty good picture of food price compliance in its area and point out some of the stores that need investigation."

Civilians Can Anticipate New Canned Foods

Now that the postwar era has become a reality with the downfall of Japan, citizens of Donley County can look forward to dramatic developments in canned foods, many of which were first packaged for the armed forces, according to W. C. Stolk, vice

president of the American Canned Food Company.

Mr. Stolk said that the approximately 606,000 cans of food opened annually by residents of the county undoubtedly will be largely increased with the arrival of the new postwar items. It will be no trick at all, he said, for a housekeeper to put together a three or four course meal by making use of the canned foods she should shortly find on grocery shelves.

Among the new foods he listed are such items as canned ham-

burgers, canned bacon, seafood cocktails and salads in cans, as well as a long list of meats new to a can, among them chicken stew with dumplings, beef and gravy, pork with apple sauce, ham with raisin sauce and boned turkey.

Clays for the manufacture of bricks are found in approximately 60 Texas counties.

Caddo Lake, on the Texas-Louisiana border, is one of the South's largest natural lakes.

NON-STOP RECORD

Telephone service is the one means of modern communication that never stops working. Telephone service has no closing hours... no curtailment during vacations. We are proud of this unbroken record of service, knowing how essential it is. We eagerly await the day when we can again offer telephone service to everyone who desires it.

THE NEW GULF GASOLINES!

Your Good Gulf Dealer now has an ample supply of the NEW GULF GASOLINES.

They're still known by the same names that Gulf gave its fine motor fuels of an earlier day...

THAT GOOD GULF and GULF NO-NOX

These NEW GULF GASOLINES assure you quicker starting... surging power in pick-up...

"get-up-and-go" on hills without ping or knock... swift, smooth, gliding ease on the straight-away... and record mileage per gallon.

Pull up at the sign of the Gulf Orange Disc and treat your car to a tankful of "postwar power."

A new motoring thrill awaits you at your Good Gulf Station.

Now that you can go, go.

Oil and Fats Shortage

The American Fat Salvage Committee was given an official government mandate today to accelerate the collection of used cooking fat to offset the most serious fats and oils shortage in this country's history.

In a telegram to Mr. Roy W. Peet, Chairman of The American Fat Salvage Committee, Secretary of Agriculture Clinton P. Anderson says:

"V-J Day still leaves us alarmingly short of fats and oils. Because we will continue to be ser-

iously short of these essential commodities for many months to come, it is just as important now as during the war to save every bit of used fat.

"American women can help us win this postwar battle of supply in their own kitchens. I urge you and all members of your committee to help us drive home this vital necessity in every possible way."

In commenting on Secretary Anderson's telegram, Mr. Peet said:

"We of the American Fat Salvage Committee are pledged to do all that we can to meet the shortage of fats and oils underscored by Secretary Anderson in his

telegram of today. However, we can only be effective in meeting this national shortage if we receive one hundred percent support of the American public, particularly from the women who cook at home for themselves and their families. During the war used fats served a dramatic purpose aiding in making available ammunition, military medicines and other munitions for our fighting men. Now, the uses of kitchen fats are less spectacular but no less important. Fats and oils will be needed in large supply during the time of industrial reconversion and the change-over from war to a peace-time economy.

"We of this committee are confident that American women will meet this challenge of peace in the same fine far-sighted patriotic spirit with which they met the situation during actual hostilities.

"For us of this committee and for women all over the United States the emergency is not over until we are again back upon a peacetime footing with full fats and oils supply for industrial and domestic use, and for the use of our allies."

It has been officially stated in Washington that it will be a considerable time before imports of fats and oils from the South Pacific can be resumed. It may be many months before oil plantations are back in production and

before workers and shipping are available.

Meantime, the Office of Price Administration is promising more meat during the fall months.

Housewives are admonished to get full food value from this meat, but to continue to scrape, scoop and skim every drop of used fat for salvage.

The Fat Salvage Committee points out that it is not only patriotic, but in their own best interest for housewives to save used cooking fat. The by-products of fats and oils make paints, synthetic rubber, soap, fabrics, linoleum, pharmaceuticals, varnishes, paper, lubricating oils, and thousands of other everyday necessities.

Housewives can hasten the return of housekeeping supplies that have been short during the war years, by keeping kitchen grease pouring into the fat salvage can, and turning in every precious drop to meat dealers who are still authorized to pay out cash and red points for every pound.

Meat dealers are to be commended for the highly important and patriotic part they have played in the fat salvage campaign, and their continued cooperation during the trying period that lies ahead is confidently expected both by the Committee and the government agencies concerned.

Men 17 to 25 Eligible to Enlist In U.S. Marines

Men 17 to 25 are eligible to enlist in the United States Marine Corps—even though registered for induction. Applicants must have completed at least eight grades of school, be in sound physical condition, and in the case of 17 year olds, obtain written parents' consent.

This means that men under the jurisdiction of the Selective Service Act now have their freedom of choosing to enlist with the Marine Corps at any time prior to being actually inducted into the Armed Forces.

Upon being accepted for enlistment, the applicant's draft board is notified that he is serving with the Marines by the Marine Recruiting office.

Provision is also made to accept men between the ages of 26 and 32 if they have had previous active military service in the Marine Corps, Navy, Coast Guard, or Army. This service will apply to longevity pay and total length of service credit. These men must enlist before one year has elapsed since their separation from the service.

In the case of discharged Mar-

PERMANENT PEACE TIME EMPLOYMENT

The American Zinc Company is interested in hiring steady men for work in our Dumas, Texas zinc smelter. This work will be a steady full time job. Only men who are willing to work and who are well qualified physically need apply.

These jobs offer an excellent opportunity for permanent work and thus all successful applicants have the opportunity to build definite post war job security for themselves and their families. Modern housing is available at the plant site.

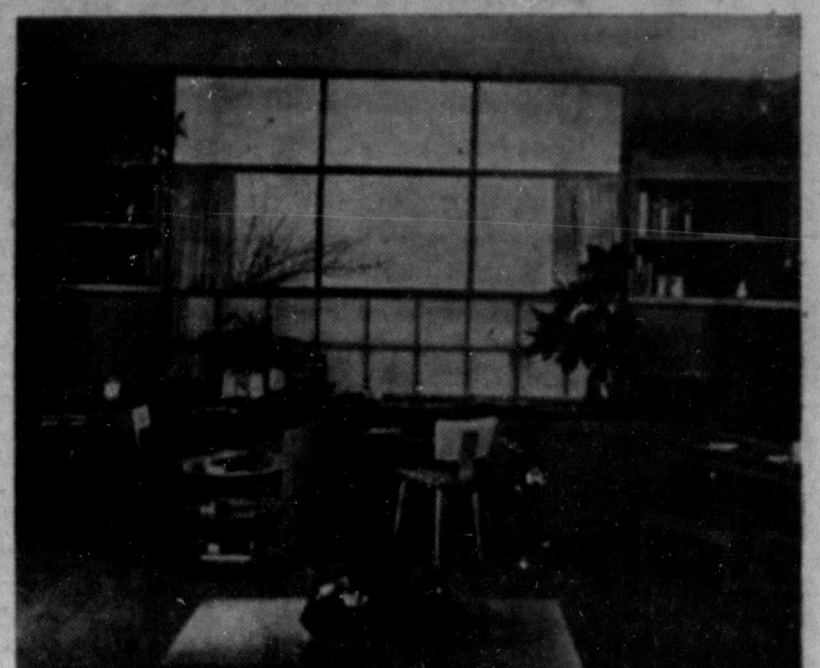

Good pay, time and one-half for work over forty hours.

Write, wire or call the Personnel Department for additional information.

This is NOT government or war work.

AMERICAN ZINC COMPANY
DUMAS, TEXAS

FOR LIVING AND DINING

The latest design for dining rooms (above) calls for a well lighted room of many functions. Because the average dining room is used only a few hours a day, a recent issue of *Better Homes & Gardens Magazine* presented this plan for more economical use of household space. Built-in furniture and cabinets add modern decor and provide work and recreation space. Cheerful daylight is supplied by a panel combination of windows and lustrous glass block. Glass block diffuses the light over the desk and sewing area (right), yet insures privacy because it is not transparent. A play desk for children is included in the room's added functional section which takes in only one wall. Such a room can either be built into a new house or remodeled into an old one to achieve extra return and pleasure from the investment in a dining room.

SPB STOPS ALLOCATION OF TRUCKS TO FARMERS

The Surplus Property Board has ceased allocating surplus trucks to farmers, and farm cooperatives and will release for regular disposal, trucks, recently allocated to farmers and not yet sold, it was announced by the board. Farmers who wish to purchase surplus trucks should contact a local truck dealer as the vehicles will be disposed of through normal channels, with no need for certification.

A GREAT NEW GASOLINE Is Here NOW!

Phillips 66 rushes the "Fuel of the Future" to your neighborhood dealer!

- You never knew a gasoline could be like this!
- And neither did we till 3 action-packed years of war-production brought new and marvelous advances in gasoline manufacture!
- Now all the "know-how"... the special processes that went into the powering of giant bombers is yours!
- Never mind the technical details—just get a tankful and see what it will do!
- See if you don't get quicker starts!
- See if you don't get more power!
- See if you don't get more-miles-per-gallon!
- See if your car doesn't act like a two-year-old again when this power-packing, action-getting fuel goes to work in your motor!

THE NEW Phillips 66 Gasoline

SUPPOSE ELECTRICITY TOOK A VACATION...

WHAT WOULD HAPPEN?

Darkness would lay its inky finger on your home. Food would spoil. A flick of a switch wouldn't toast your bread, or perk your coffee. You'd have to sweep by broom, wash by hand, wear unironed clothes.

Your house would be a little isolated world of its own, with no telephones, no radio, no newspapers to link you with humanity. Time would stop with the frozen hands of your electric clock.

You'd have no job, since almost all industry—from the cash register to the welder's arc—draws its vitality from the little blue spark of electricity. War production would stop in its tracks.

But electricity never takes a vacation. 60 seconds to the minute, 60 minutes to the hour, day-and night, summer and winter, electric service stands eagerly awaiting the flick of a switch.

And this dependability is no accident. It is the result of hard work and careful planning by folks who know their business—your friends and neighbors in this company.

• Listen to "THE SUMMER ELECTRIC HOUR" with Robert Armstrong's Orchestra and guest stars. Every Sunday afternoon, 5:30 CWT, CBS Network.
