

MIDWAY

Mrs. John Goldston

Mrs. Romeo Derrick didn't wait for the Red Cross representative to come around on the drive. She drove in from Midway, hunted up the Red Cross representative and gave a \$5.00 donation. Mrs. Derrick had two sons in the service. She says "knowing the Red Cross was always on the job gave her more satisfaction during the war than any other thing." Friends, let's all give to the Red Cross. Part of the funds stay in our county to help in disaster. We never know, we might be the next ones to be in a need of this funds.

Mr. and Mrs. J. D. Sisk of Amarillo and Miss Charlene Corder spent Saturday night in the Longan home. Mrs. Sisk will be remembered as Emeline Corder.

IS MY DOCTOR GIVING ME THE TRUE FACTS?

Misrepresentations by Political Powers of Organized Allopaths (M.D.s)

THEY SAY: Dr. Miller, President of Texas Medical Association: "Under the laws of Texas today you have no legal guarantee that this man treating you is qualified to do so."

ANSWER: Why should the proponents of the present Basic Science Law make a ridiculous, unfair statement of this kind. Have they never read the Medical Practice Act operating since 1907?

IN THEIR PROPOSED Minimum Standards Bill they state that it is not too much to ask anyone practicing the healing art to be examined in the Basic Sciences. Dr. Miller says technically the Basic Science subjects are these: "Anatomy, Physiology, Chemistry, Bacteriology, Pathology, Hygiene, and Public Health."

ANSWER: Are they so uninformed that they do not know the present State Medical Board examines in Anatomy, Physiology, Chemistry, Bacteriology, Pathology, Hygiene, AND ALSO Histology, Diagnosis, Surgery, Obstetrics, Gynecology and Medical Jurisprudence?

WILL THE MEDICAL DOCTORS Please explain how the patient's health will be better protected by requiring a young qualified doctor to take the same examinations twice by two boards? Who is going to pay this unnecessary expense for him?

THE SPONSORS of the so-called "Basic Science" or Minimum Standards Act say they want the Public to be sure that all practitioners of the Healing Arts have at least a minimum education.

ANSWER: Are they so uninformed that they do not know that the present law requires two years of College work plus four years of eight months each in a Reputable Medical School?

THE SPONSORS of Basic Science or Minimum Standards have advertised in the public press that this will be a fair bill because no Chiropractor, Naturopath or Osteopath will be a member of this board.

ANSWER: Why didn't they also exclude Allopaths (M.D.s)? For the perfectly clear reason that they will have two M.D.s from the faculty of a medical school on this Board, although they are not in active practice.

THE ALLOPATHS (M.D.s) state that the Minimum Standards Law (Basic Science) will control the practice of unlicensed Doctors in Texas.

ANSWER: It is absurd to contend that a new law with less police power could be enforced as well as the present medical laws, which have protected the public health of Texas for over 40 years.

Dr. Tate Miller, President of the Texas Medical Association, stated in a recent broadcast that all he could say of other types of doctors or branches of the Healing Arts studying the Basic Sciences was that their catalogues say they do.

Here is a comparison of the Education Background of Osteopathic and Medical Physicians. Schools approved by American Osteopathic Association must require: Minimum of 2 years premedical college work (as must all approved M. D. schools). We list a comparison of Osteopathic education as required by the Six approved Osteopathic Colleges and Harvard Medical College (M. D.s) in their required subjects:

| | Standard of Osteopathic College Requirements Are: | Harvard Medical School (M.D.s) Requirements Are: |
|--|---|--|
| 1. Anatomy, including Embryology and Histology | 814 Hours | 440 Hours |
| 2. Physiology | 264 Hours | 232 Hours |
| 3. Biochemistry | 198 Hours | 232 Hours |
| 4. Pathology, Bacteriology and Immunology | 572 Hours | 479 Hours |
| 5. Pharmacology | 220 Hours | 129 Hours |
| 6. Hygiene and Sanitation | 176 Hours | 124 Hours |
| 7. General Medicine | 1166 Hours | 1219 Hours |
| 8. General Surgery | 770 Hours | 705 Hours |
| 9. Obstetrics and Gynecology | 220 Hours | 317 Hours |
| | 4400 Hours | 3877 Hours |

TOTAL HOURS required by Osteopathic Schools 4,400.
Total Hours required by Harvard Medical School (M.D.s.) 3,877.

The Osteopathic Schools Are Inspected Yearly by the Bureau of Colleges

DO THE M. D. SCHOOLS have similar requirements for inspecting colleges? NO!

Every Osteopathic Physician and Surgeon in Texas has a license to practice Medicine and Surgery which is identical to the license under which the Medical Doctor practices.

HOW LONG WILL THE PEOPLE, whose generous subscriptions and gifts have built the big hospitals of our state, allow the M.D.'s to dominate these institutions and bar QUALIFIED OSTEOPATHIC PHYSICIANS and their patients from these tax-free institutions? M.D.s, do you want Educational Standards or Monopoly?

Can an M.D. get a license in the State of Texas without being examined by an Osteopathic Physician and Surgeon? NO! — Every applicant to practice Medicine and Surgery in Texas must be examined by a board composed of six Allopaths, two Eclectics, one Homeopath (All M.D.s)—a total of nine M.D.s—and three Osteopaths.

Can the Legislature create special privilege for any school of practice?

The answer is NO. The Texas Constitution says: "The Legislature may pass Laws prescribing the qualifications of practitioners of Medicine in the State, and to punish persons for Mal-practice, BUT NO PREFERENCE SHALL EVER BE GIVEN BY LAW TO ANY SCHOOL OF MEDICINE."

THE MINIMUM STANDARDS OR BASIC SCIENCE BILL SHOULD BE OPPOSED FOR THE FOLLOWING REASONS

The composition of the board would be Monopolistic in favor of the M.D.s. No other school is represented on the proposed board.

It would restrict the licensing of qualified physicians between states by reciprocity. The Medical Board during the last two years has licensed over 700 Doctors who had qualified themselves in other States. Under the proposed Basic Science Law none of these men could have been licensed in Texas.

It would place qualified Doctors in double jeopardy — they would have to take the same subjects by two Boards.

MEDICAL PUBLICATIONS HAVE REPEATEDLY PLUGGED FOR THIS BILL AS A SCREEN TO KEEP OUT OSTEOPATHIC PHYSICIANS.

It is the first step on the part of the M.D.s to change the present Medical Practice Act to one they can control for selfish reasons.

Only a very limited number of qualified physicians (M.D.s) realize what the Minimum Standards Practice Act is, nor do they realize what the Minimum Standards Act will do for the Health of the Public in the Future. As a matter of fact, the chances are that not 5% of the M.D.s in Texas have ever read the new proposed Basic Science Law. As a clarification, ask your own Doctor if he has ever read the proposed Basic Science Law.

truth, and darkness stands for falsehood. It does seem to any one that he prefers falsehood to truth. The most prejudiced man thinks himself impartial. It is so on any subject. The most deadly enemy, in speaking of the one he hates, will tell you that his views are not the offspring of passion, yet he certainly would believe evil of his neighbor more readily than good, even when this good is true.

We might then very certainly expect, that the man who wishes to live forever; to whom torment has no pleasing look, and who even wishes strongly to believe the Bible, would be far from feeling, or believing, he would cherish darkness rather than light. Nevertheless it is true. Although not to the same degree as the man who nashes his teeth on religion,—still it is true, that one small cunningly devised falsehood will influence him further, than one hundred forcible arguments from

God's only book. A man may stand on the side of a precipitous mountain, and long for the top; yet the impetus of an ounce, will push him farther down, than many times that force will push him up. One who desires the valley below, can go there without a struggle. It does not take any effort, to disbelieve God, or the Bible, but it takes time, love, trust, and effort to believe it; and obey it.

The mere assent of the mind, does not make demands, contrary to the carnal mind; for that is the easy way; that is the broad way. Its destination is too well known to describe. Yet, in view of all this; we will accept many things without effort, or investigation. To see whether the doctrine we are teaching and practicing, is found in God's will, or a traditional form of parental teaching, that has only been purposed in the mind of some man, is a God given freedom.

Brother, study your Bible; it's the mind of God, revealed to you, believe its facts, obey its divine commands, and depend upon its precious promises. (Continued next week.) (Adv.)

April Is Cancer Control Month

HOUSTON—Karl Hohlitzelle of Dallas, president of Interstate Theaters, Inc., and widely-known Texas philanthropist, will serve as 1949 campaign chairman for the American Cancer Society, Texas Division.

His selection was announced at the Society's Texas headquarters here by Tom E. Braniff of Dallas, chairman of the board of directors.

Mr. Hohlitzelle heads the annual cancer control month in Texas, the month of April. It is set aside by act of congress for a special educational and fund raising effort.

Accepting the chairmanship, Mr. Hohlitzelle said that the Texas society's program is in itself proof of a job well done.

"In the brief life of this humanitarian organization we have

seen it develop into one of the state's most worthwhile endeavors," he said. "Through the activities of its members more and more cases of cancer are reaching the doctors while in earlier, and very often curable, stages.

"I shall urge upon every Texan the necessity for membership in the American Cancer Society, and for donations of effort and of money in order that true facts about cancer may be placed within the reach of everyone in our state."

The cancer society seeks to control cancer through programs of education, service, and research. Sixty per cent of all money raised for it in Texas remains in the state for use in local and statewide projects, Mr. Braniff said.

Ten of 254 Counties Account For Half Of Texas' Convicts

HUNTSVILLE—Ten of Texas' 254 counties accounted for more than 50 per cent of all convicts sent to state prison units in 1948, Dr. Rupert Koeninger, Sam Houston State criminologist, said.

Dr. Koeninger compiled convict statistics from prison records at the Huntsville walls.

His findings show the leading counties in prison commitments were Harris, Dallas, El Paso, Bexar, Hidalgo, Tarrant, Jeffer-

son, Cameron, Wichita and Smith.

These ten counties furnished 1,274 of the 2,439 prisoners committed in 1948, or 52.3 per cent of the total.

Based on the 1940 census, Dr. Koeninger said, these counties have a combined population of 2,099,573 which is 32.8 per cent of the state population of 6,414,824.

Dr. Koeninger explained most of the counties had large metropolitan areas and that among the 10 counties the prison commitments were roughly proportionate to the population.

A study of Dr. Koeninger's report for 1948 shows: Harris County, principal city Houston, 319 commitments, 63 less than in 1947 for a 16.5 per cent decrease.

Dallas County, principal city Dallas, 228 commitments, three more than in 1947 for a 1.3 per cent increase.

Hidalgo County, largest city McAllen, 107 commitments, seven more than in 1947 for a 7 per cent

increase.

Jefferson County, principal cities Beaumont and Port Arthur, 83 commitments, 11 more than in 1947 for a 15.3 per cent increase.

Cameron County, principal city Brownsville, 63 commitments, same number as in 1947.

Wichita County, principal city Wichita Falls, 54 commitments, one more than in 1947 for a 1.9 per cent increase.

Smith County, principal city Tyler, 43 commitments, 16 more than in 1947 for a 59.3 per cent increase.

COTTON PLANTING SEED NOW AVAILABLE

The NEW Paymaster "54" is now available for the 1949 planting season—ready for farmers who want more profit from Cotton. This quick-maturing, high-yielding, better-staple-producing planting seed answers the demand for a variety that is tested and proved for West Texas growers. It is the result of scientific selection and painstaking experiments to develop a seed that will produce more money per acre planted.

Here's why the NEW Paymaster "54" is a money-making Cotton . . .

- **EARLY MATURITY**
Of 25 varieties tested recently . . . "54" was first in percentage of crop harvested in a four-month period.
- **HIGH YIELD**
In this same test, "54" was third among all varieties in yield per acre.
- **BETTER STAPLE**
"54" ran 15/16" to 1 inch throughout West Texas, assuring a better price.
- **TESTED FOR DRY LAND**
"54" has been proved successful for dry land farming as well as for irrigated Plains areas.

Be among those profit-minded farmers who demand a money-making Cotton planting seed—the NEW "54"; order your supply of the improved, state-registered "54" NOW.

IT PAYS TO PLANT PAYMASTER "54"

THE TEMPLE OF TRUTH

By the Apostle

SINCERITY.

If you really want folks to believe what to say, just whisper it to them.

SUGGESTION.

Brother, don't worry when the gossips start telling lies about you. The time to worry is when they start telling the truth.

CAUTION.

Don't advertise your troubles. There is positively no demand for them.

INDUSTRY.

"Doctor, my son has swallowed his mother's midget fountain pen. Rush over here." The doctor hung on to the phone long enough to inquire, "and what are you doing

in the meantime," he asked. "I ain't doin' nothin'!" the father yelled, "but my wife is having to use her pencil!"

LEISURE.

Is that short period of time while friend wife thinks up something else for him to do.

LOOKING BACKWARD.

Remember the days when you could buy rock candy, and had the teeth with which to bust it up? Most of it was dissolved with cherry bark in a fiery liquid that was designed to stop coughing. It was as much a household fixture as "mush and milk" at supper-time.

DUMB KLUCK.

The teacher of the Hog Jaw school is so dumb that he is teaching his kids that the Kremlin is a Russian hair tonic.

BUT SHE CANTELOUPE.

The whole town knew that she was the fruit dealer's daughter because she had cheeks like a peach, a pair of beautiful eyes, cherry lips, she was the apple of her daddy's eye, and the boys were plum nuts about her and kept asking for dates!

COMMON SENSE.

Life is but a short prologue to eternity, and while we glide down the river why not enjoy the flowers, stars, music, love and the service in life?

HUMAN NATURE.

Most every individual encounters that period when one would prefer to get away to one's self. Just to be left alone. Not selfish, just natural bent. For that very reason, each individual should have a hobby. There are hundreds of worth-while hobbies with magazines and organizations to help. If a suggestion will help you pass those lonely hours, or

help you forget the turbulent world for short periods, ask the Old Apostle. He has several hobbies and knows of many more he needs but does not have the time to devote to it. There are hobbies suitable for all ages. A large number have found health and happiness as well as money in a hobby.

Federal Internal Revenue Collections

AUSTIN—Federal internal revenue collections in Texas totaled \$91,336,751 in December, an 18 per cent rise over December 1947 collections, the University of Texas Bureau of Business Research reported.

Income taxes gained 24 per cent during the 12-month period, while employment taxes (other than withholding) dropped 70 per cent, and withholding tax collections were narrowed by 18 per cent.

Collections from July 1 thru December 31 stepped up 11 per cent from a like period in 1947. Except for a slight decrease in withholding taxes, revenue from all sources was from 15 to 17 per cent above year-earlier levels.

Collections in First District (South Texas) totaled \$53,373,666 in December 1948, or 30 per cent above a year earlier. All types of collections were up from 1 per cent in withholding taxes to 85 per cent in employment taxes.

reported a 5 per cent gain over November. Income taxes rose 13 per cent from November to December, but withholding and employment taxes fell 33 and 76 per cent, respectively. Collections in the Second District totaled \$37,963,085 in December 1948.

The Lion's Roar

The Lions Club held its regular meeting Tuesday, March 22nd at the Club Hall. There were 90 Lions, guests and visitors present. Percentage was 79. Guests and visitors included Howard Stewart, Earl Ward, R. Y. King, Mr. Henexson, and Ralph Andis, a former member of the club.

The application for membership of Loyd Johnson was approved by unanimous vote of the club. Welcome to our club Lion Johnson.

The Boss Lion appointed a committee to serve as greeters at the airport breakfast to be held early in April. Lions serving on this committee are: J. T. Patman, chairman, Simmons Powell, Ernest Kent, Bud Anderson, Lee Bell, Odos Caraway and Shine Martin.

Ray Palmer, Bud Knorpp, Clyde Wilson and Dee Lowry were appointed on the volleyball committee.

The program was presented by E. R. Blevins and consisted of numbers rendered by the school orchestra assisted by the girls sextet of the Junior High School.

The orchestra gave several numbers during lunch and was followed by special music as given by members of the group. Thanks to Mr. Blevins for this fine program.

Lions we still have a few vacant chairs at our meetings. The club is showing improvement but we can do even better.

13-Year Old Father Pleads For Job

KALAMAZOO, Mich.—Carl Blake, Jr., a father at 13, pleaded for help in finding a job so he can support his wife Winifred, 16, and their three weeks old son, Charles III, born February 23 in Lakeview Hospital, Paw Paw, Michigan. Carl's age is below the minimum working limit in Michigan. The teen-age parents live with her parents and six other young children in a tiny two-room house.

Mrs. L. L. Edlin of Amarillo, also Mrs. John N. Plaster and little daughter Cynthia Ann of Pampa spent the week end in the home of their parents, Mr. and Mrs. Clyde Gilbert.

Mr. and Mrs. Alfred Estlack and family visited in Amarillo Saturday with her sister and family, Mr. and Mrs. Jack Murff, and also attended to business.

Mrs. N. L. Percival spent the week end visiting her children at Amarillo.

Mr. and Mrs. Roy Maberry were in Ft. Worth on business the forepart of the week.

Miss Joanne Johnson of Claude spent the week end in the home of her aunt and uncle, Mr. and Mrs. Clyde Gilbert.

10 Million Dollars Proposed For Soil Conservation

AUSTIN—During the next 12 months, 798,746,000 tons of topsoil will wash and blow off Texas.

It would cost a billion, 250 million dollars to ship this amount of soil from Temple to Galveston in 16,000 hundred-car Santa Fe freight trains.

Lykes Brothers Steamship Lines would charge 95 million dollars to move the soil from Galveston to Havana in 8,967 ships.

These figures were given today by Representative J. A. Luedemann of Brenham, sponsor of legislation in the House that appropriates 10 million dollars as a capital fund for soil conservation work in Texas.

The money will be allocated by a five-man state soil conservation board to 175 soil conservation districts, there to be administered by district supervisors.

Supporting the appropriation measure is the Association of Texas Soil Conservation District Managers.

R. M. Boswell of Kenedy, representing the association in Austin, says that every penny of the 10 million dollars will go into actual work on the land, inasmuch as the state has already provided for payment of administrative costs.

Boswell emphasized that the money will be used as a revolving fund, to be kept intact as farmers pay for work done on their property.

"In other words," Boswell said, "the fund is of a permanent nature; it will not be necessary to ask the legislature for additional appropriations at every session."

The fund, Boswell asserted, is intended to round out the present soil conservation program by making equipment and supplies available at a reasonable cost to operators of small farms.

Farmers who have limited resources frequently cannot themselves buy the equipment and supplies needed to do the soil conservation work on their land; nor is it economical for private contractors to bring in heavy machinery for a small operation, Boswell said.

By grouping small farms, however, and working out mutual problems on a watershed basis in each soil conservation district, it is possible to carry out the program efficiently, the association's representative added.

He urged the necessity for speed in getting the work underway, pointing out that:

"This proposed legislation will expedite the soil conservation program in Texas to the extent that \$10,000,000 made available to the districts now will be more effective than ten times the amount if delayed another ten years."

CONSUMERS' PRICES IN HOUSTON

AUSTIN—Consumers' prices in Houston slid fractionally from November to December, reports from the Bureau of Labor Statistics to the University of Texas Bureau of Business Research showed.

Clothing prices dropped 1 per cent from November, but prices of food, housefurnishings, and miscellaneous items were only slightly below the previous month.

In comparison with December 1947, the over-all index climbed 3 per cent. Prices of clothing, fuel, electricity, and ice rose 5 per cent and housefurnishings and miscellaneous items increased 4 per cent. Food prices were unchanged from year-ago levels.

In December 1948 the over-all index of consumers' prices in Houston stood at 174 per cent of the prewar (1935-39) base period compared to 171 per cent for the United States.

Mr. and Mrs. U. Z. Patterson and Sammie, Mrs. Linnie Cauthen and Mrs. James Dann spent the week end at Ft. Stockton and Big Springs.

Weldon Warren was over from Borger Sunday for a short visit with his parents, Mr. and Mrs. J. A. Warren, and his sisters, Mrs. Ardith Butler and Mrs. Roy Maberry.

E. J. Chenault and Claude Lindsey were in Amarillo Saturday on a matter of business.

Ralph Andis stopped over here Tuesday meeting old friends. He was on his way to Wellington on business.

Mrs. S. H. Manning of Amarillo is visiting her sister and family, Mr. and Mrs. J. C. Estlack.

Mr. and Mrs. Joe Goldston attended the Optometrists' meeting in Amarillo Sunday.

A. L. Chase is in Adair Hospital for a checkup and a few days rest.

Mr. Westherall, the cotton buyer, closed his office here this week. J. A. Warren is now occupying the same office in the Goldston Bldg.

Mrs. Gertrude Youree has accepted the position of bookkeeper for Bud Anderson's Buick agency.

Mrs. E. J. Wise spent the week end in Amarillo with her daughter, Ruby Lee Wise.

Mrs. W. B. Sims of Tulia has been visiting her sister, Mrs. J. J. Hanson and niece, Mrs. Austin Rhoades at her home.

Mr. and Mrs. Fred Reid of Amarillo visited relatives here Sunday.

Miss Della Wood visited her uncle, Rev. J. L. Ratcliff and wife at Claude Monday.

Mr. and Mrs. D. F. Wadsworth and Mr. and Mrs. F. L. Goldston were Amarillo visitors Saturday.

PEWIN' Out the CORNERS

by Uncle Zeb

About all of the mail that I received this week end was unsigned. Everyone likes to get mail especially me, and if you folks just don't feel like signing your name, that will be alright, but I would like to know who the letters are from, and if you wish I won't use your name, or betray a confidence if you ask me not to use your name. Anyway, I appreciated the clipping about the "Nicotine Unlimited" club. This club has been organized about two years and is in the vicinity of Pullman, Washington. They do not try to get anyone to quit smoking unless they wish to, or have been told that they ought to quit, but only try to be of help to those who are trying to quit, and try to encourage young folks to never begin the habit. These are also the ground, or playing rules of the Ain't Smoking Right Now Society. Last week we made honorary members of about thirty young folks at a Sunday school party. Let us hear from some of the young people—should we start an Ain't Never Smoked A'tall Society for the Juniors? What would be the rules, and who would be the Supreme Agitator? This organization in Washington uses a lot of poetry, maybe we should have some poems. How about sending us a sample of your own poetry. A sample of the kind used by this club is as

follows:
Now I lay me down to smoke,
Insured for \$5000.00, ready to croak;
Now if I should die before I awake,
My wife will get her first real break.

It seems that Deacon Bryan had been dozing off to sleep during the sermon, and Brother Mack decided to talk with the brother about it, and the following conversation took place:
Brother Mack—"Deacon Bryan, I have been worried lately about

your going to sleep during my sermon."
Deacon Bryan—"Think nothing of it Brother Mack. When you first came here I stayed awake for a few times, until I decided you could handle the job alright. Now that I don't worry about that anymore, I feel at liberty to sleep again."

Also in the mail last week was a letter signed, Just another Mamma. It was such a well written letter and touched on some of the problems that are worrying so many of us these days: the

THE DONLEY COUNTY LEADER

problem of how to be a better parent, and just how far to let our children go in the direction of doing some of the little things known to be wrong, just because "the other children do it." She wonders why that when we ask the children to miss a show, or a ball game in order to attend mid-week prayer service, that they look at us like we were a Rip Van Winkle that had been asleep for twenty years. Anyway, this Worried Mother had a lot of things on her mind, and she wanted to get rid of them so she wrote to me, and I am glad that she did, and I wish that I knew her answer. She spoke of such things as little girls less than ten years of age inviting their boy friends, at the parents suggestion, to little parties.

Now as this mother said, we are not running a Dorothy Dix Column, but I think she answered the problems when she mentioned that the parents suggested this and that. And as the children thought, we have been asleep for twenty years, and it has been more serious than was Rip Van Winkle's little nap. We have fought a World War and that is always hard on our morals and our nerves, and worse than that we have worked hard and made a lot of money. We have worked too hard, run around too much, had too many luxuries, and to our way of thinking had too little need for God in our lives. When we quit work we rushed off to a show, or a ball game, or a wrestling match, to yell and holler and throw pop bottles until we worked off this nervous tension that we were under. Anyway, I am going to stick by the youngsters. If we had never missed a prayer meeting, they would expect nothing but to go, and I am talking about myself now, for I don't know who this mother is. We have been riding high, wide, and handsome on a cloud; what we couldn't get for ourselves, we would protest to our Senator and the government would give it to us, but all of that is still on the books; it is not paid for. But worst of all they neglected to take care of our morals—the solution they vaccinated us with didn't contain much Old Time Religion, or God's Love in it. Now we begin to see our mistake; we say, "Children, let's go to God's house", and they wonder what woke us up. Thanks, Just Another Mother, for telling your troubles to, Just Another Father, and your thoughts have at least helped Me and Mama. Write us again and often, and thanks and thanks for all those nice compliments on Mama and me, and I wish we deserved them, but we do appreciate them anyway.

Mr. H. B. Hill visited at Carey the week end.

Donley County ACA Farm News

We have things so torn up here at the office that it is hard to carry on the work, but just wait until we get moved! We're going to be such a nice looking office that some of you probably won't recognize us. All of our furniture will be painted and cleaned up, and our office will be clean too, so we ought to be able to do lots better work.

Doug Lowe is working as fast as he can to get to every farm on which terraces have been completed. He knows that all of you want to get to the plowing just as quickly as possible and he's trying to help you. Last week he checked work completed on the following places: V. Littlefield, Mrs. Evelyn Murphy, Luther Butler, Mrs. Pearl Masten, C. G. Knox, George Bulman, Raymond Waldrop, E. E. Patterson, Leroy Luttrell, and Murphy Brock.

Work reported and awaiting check includes the following: T. C. D'Spain, John C. Perdue, James W. DeBord, Buford Holland, Bony Barker, Clyde Davis, Jim Tidwell, Delton Koen, W. O. Elliott, J. B. Reynolds, C. M. Myers, Paul Cullar, W. T. Floyd, I. J. Self, A. G. Robinson, J. N. Weaver, B. E. Jones, Dennis R. Lindley, John Gillham, D. R. Koontz, and Al Cooke.

If you should happen to drive over any part of the county you would see new terraces and other soil conservation work being carried out. It makes the prettiest picture you could imagine.

The Pooling Agreement between the eight producers in Windy Valley has the approval of the State Committee and work is to start immediately. That will be a project of interest to producers over a large area and will mean a lot more in dollars and cents than the AAA assistance, but that is going to make it possible for those eight producers to have this large drainage ditch.

The County Committee, Mrs. Ritter and Johnnie Johnson are going to Childress on Wednesday the 23rd to a meeting on Program work that is to start soon.

Come in to see us when we get moved to our new home.

Mrs. A. L. Cobb and daughters Misses Billie, Johnnie, Mrs. J. E. Johnson and daughter Joanne of Claude visited one day last week in the Clyde Gilbert home.

Mrs. Johnnie Beard Jr. and baby arrived Monday from Albuquerque, N. M. for a visit with relatives.

Mr. and Mrs. F. A. Dozier of Denver, Mrs. Jay Bowles of Dahlart and Arline Dozier of Amarillo spent the week end with their parents, Mr. and Mrs. Chas. Dozier and Sayles.

Mrs. M. W. Mosley of Hedley spent Friday and Friday night in the home of Mr. and Mrs. J. C. Estlack.

For those 965 hours

... the Tractor with the "Velvet Ride" Seat

Each year the average farmer spends 965 hours on the seat of his tractor. Plan now to make them "easy chair" hours on your farm... with the bounces and bumps, jolting and jarring of field work gone.

This new "Velvet Ride" Seat was specially developed for Massey-Harris. It is just one of many reasons why more and more farmers are powering their farms with Massey-Harris Tractors. Come in and let us tell you all about it.
