

MUENSTER ENTERPRISE

VOLUME XX

MUENSTER, COOKE COUNTY, TEXAS,

OCTOBER 19, 1956

NUMBER 48

Richly deserved recognition is being directed this week to the gentlemen of the oil industry. In observance of Oil Progress week the nation takes notice of all who have any part in any stage of the gigantic business . . . the geologists, the drillers, the producers, the refiners, the distributors, the fellows who put gas and oil in your car. All are working together at the big job of providing the material which more than anything else has been responsible for the wonders we take for granted.

Without petroleum products as fuels and lubricants we would not have our wonderful cars and planes, nor tractors and industrial machinery. We would not have thousands of the chemical products that derive from oil.

It is hard to imagine what living would be like today if oil had not been discovered. We can assume, of course, that other fuels and lubricants would have been developed, but we can hardly assume that their usefulness or abundance would be anything near what we have today. The odds are that we would be far from our present standards of comfort, convenience and productive capacity.

And still, the discovery of oil is a minor event compared with the epic story of its progress . . . the astounding improvements that have been made in its products, the equally astounding increase that has been made in its volume.

Nothing illustrates our oil progress more than the story of World War II. Skyrocketing military demands made vast increases in production essential, in a hurry. Meanwhile new equipment design required constantly improving quality, especially in airplanes. The oil industry came through magnificently on both orders . . . for more quality and more quantity . . . in spite of wartime manpower shortages.

Nor has the progress slowed down since the war. Better petroleum products are coming out almost every day. Unprecedented demands for civilian use are being met and the world's reserve continues to grow.

Every man, woman and child in the country has good reason this week to say "Thank you, Mister Oil Man."

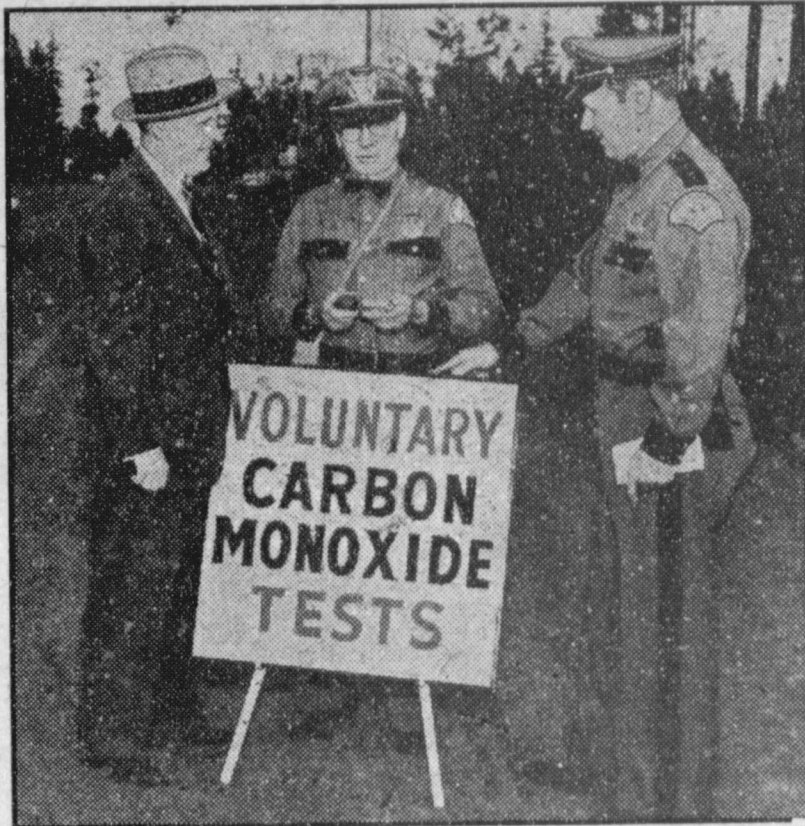

We of this community have another reason also to express our thanks. Oil has been a tremendous help to the economy of Muenster. Income from lease or royalty has helped pay for many a local farm. Jobs on leases, drilling rigs and well servicing machines have supported many a family. During some thirty years since its discovery here oil has brought many millions of dollars to Muenster. Its benefits are apparent in better homes, better equipment, more luxuries, civic improvements, in general better living. Muenster has reason to put special emphasis on the "Thank You" to Mister Oil Man.

Pappy O'Daniel, the man who's trying to throw Texas politics into a tailspin with his write-in campaign, deserves credit at least for his stand in the presidential race. He claims it is a matter of good business judgment for Texas voters to favor President Eisenhower. Recalling Stevenson's attitude on the tidelands four years ago, he observes that Stevenson, if elected, could push legislation to take them away from Texas again. So, it is only a matter of good judgment to retain a president who is friendly to our view of the tidelands issue rather than change to a man who opposes our interests.

Considering that the state has netted about \$60 million on tidelands revenue since the Eisenhower backed bill became law in 1953, it must be admitted that Pappy has a point there.

Not to be overlooked in this connection is Stevenson's admitted attitude on the subject of federal ownership of natural resources. He has done some campaign politicking in behalf of federally built and operated power dams. He is tied in with the same crowd of socialistic New Dealers who engineered the tidelands steal in the first place. Neither his line of thought nor his associations would recommend him to Texas voters on the tidelands issue.

Lately it seems as though
(Continued on Page 12)

TESTING FOR THE "SILENT KILLER"—Carbon monoxide—the "silent killer"—is the real cause of many traffic accidents. That's the theory the Washington State Patrol is trying to prove. Acting Patrol Chief Roy F. Carlson says, "It is a known fact that a small percentage of CO present in a vehicle for 35 minutes to one hour can slow a driver's reaction time, affect his vision, and give him a general feeling of drowsiness." The State Patrol, therefore, has inaugurated a voluntary testing campaign. A motorist merely stops at one of the patrol's testing posts. A patrolman holds a CO tester inside the car to take an air sample and then withdraws it to make the reading. Left, Gov. Arthur B. Langlie visits a testing station, manned by Lt. D. B. Rigg, center, and Chief Roy F. Carlson.

United Fund Drive Begins Next Week

A kick off dinner to be given Monday night in the Main Cafe will open this year's United Fund drive in Muenster. Herbert Meurer will head the program as stand-in for Community Chairman J. M. Weinzapfel, who is attending a national bankers' convention in Los Angeles. Invitations to the campaign workers will be sent out this weekend.

In keeping with the customary United Fund procedure, the drive will be conducted in two divisions. The advance gifts campaign will reach business firms and a number of individuals who are expected to make larger donations. The general drive, intended for others of the area, will solicit smaller donations. The recommended gift in the general drive is one day's pay.

No definite quota has been set for the community in this year's drive, however Chairman Weinzapfel pointed out that the county goal is \$36,000. An additional quota of \$3,500 has been assumed by Gainesville for the support of a local project, the Optimist boys' club.

Organizations listed as principal beneficiaries in this year's budget are Red Cross, USO, Sweeney Diabetic Foundation, Boy Scouts, Girl Scouts, Salvation Army, Cancer Society, Heart Association, and 4-H, FFA and FHA clubs. Several other organizations will also receive help from the fund. Two organizations which do not participate are the Polio foundation and the TB association.

The principal merit of United Fund is that it combines most of the year's donation into a single drive. No other drive will be made by any of the participating agencies.

Cubs Breeze Past Windthorst 14-0

The Tiger Cubs of Sacred Heart Elementary took the decision for the season over Windthorst's kids Sunday afternoon on the local field with a neat 14-0 win. A tussle at Windthorst two weeks earlier had ended in a deadlock.

It was a comparatively easy game for the local fellows. In control of the ball for most of the first half, they put on two steady drives ending in scores by Ted Miller and Paul Dangelmayr.

The second half went scoreless as Father Patrick turned the game over to his reserves. Every kid on the squad had some time on the field.

Their next game will be here Sunday afternoon with the lads of Our Lady Queen of Peace parochial school of Wichita Falls.

The Cubs now have a record of 2 wins, 2 losses and 1 tie.

Free Chest X-Rays Scheduled Here for Oct. 31 and Nov. 1

Free chest x-rays will be available here on the afternoon of Wednesday, Oct. 31, and all day Thursday, Nov. 1. Arrangements for the mobile X-R unit's visit are complete, according to Mrs. David Trachta, general chairman of the sponsoring group, the Ladies Auxiliary to the Veterans of Foreign Wars.

The mobile unit will set up in the Endres Motor company show room. Time for x-rays on Wednesday is from 12:45 to 5:30 and on Thursday from 8:30 to 5:30.

The sponsoring group urges everyone 15 years of age and over to make plans now to be x-rayed. Persons without transportation are invited to telephone 44 on the days appointed and cars will be sent for them.

The unit's coming to Muenster this year is a "trial visit," its return next year depending on the public response this year.

At least 700 x-rays are required to justify setting up equipment TB Association officials said. This area can easily get more than that figure if everyone cooperates, according to Dr. T. S. Myrick. If the number of x-rays falls short of 700 Muenster residents will have to go to Gainesville or other nearby cities for their x-rays next year.

Hornets Capitalize On Eagle Fumbles For 31-14 Decision

Fumbles, which brought disaster to the Muenster Hornets the previous week, broke in their favor last Friday night and accounted mostly for the lopsided 31-14 drubbing handed the Valley View Eagles on their home field.

The Hornets recovered four Eagle fumbles and blocked one kick, and promptly converted four of the five breaks into touchdowns.

Meanwhile the Valley View fellows, paced by hard running Fortenberry and shifty Christian, led the Hornets in total yardage and first downs, most of which were gained during the last period and a half while rookies predominated in the Muenster lineup. Both Eagle scores came in the last quarter after persistent drives down the field.

Muenster started with a disappointment when, on the fourth offensive play Richey sprinted 68 yards to pay dirt but was called back and the gain turned into a five yard penalty. The series ended in a kick but an Eagle fumble on the first offensive play put the Hornets in possession with 42 yards to go.

Richey's romps of 12 and 25 went to the 5 and a penalty moved it to the 1. Richey was about six inches short on his try
(Continued on Page 2)

Jo Ann Hess Will Reign as Queen at SHH Homecoming

Pre-game crowning of Jo Ann Hess as Tiger football queen, a pep rally and parade, an exhibition by the pep squad at half-time, the game between the Tigers and their arch rivals the Laneri Micks of Fort Worth, and a dance are on the program this Friday night for Sacred Heart High's annual homecoming.

Queen Jo Ann, a sophomore, won the coveted crown in a contest conducted the past few weeks. She vied with three other contestants, one from each of the other high school classes. They are Carol Ann Miller, senior, runner-up in the competition, Suzanne Hesse, junior, and Marilyn Hess, freshman. The trio will be princesses in the royal court and will participate in the regal ceremonies by presenting the queen's crown, her bouquet and the football for the game. Kenneth Otto and Frank Fleitman, Tiger co-captains, will share honors of the formal coronation.

The night's activities will begin at about 7 o'clock with a pep rally and a parade up Main Street, the queen and her attendants riding in new automobiles and the pep squad leading the procession, a vanguard for Her Majesty. The parade will form at Main and Second Streets.

After the coronation Queen Jo Ann will reign over other homecoming festivities. She is the daughter of Mr. and Mrs. Ed Hess, is 15, and has blue eyes and light brown hair.

Hornets, Wildcats Vie for Survival In District Race

This week as for the rest of the season, Coach John Hosea's Muenster Hornets have a man-sized job cut out for them. In the Callisburg Wildcats, invading the local domain Thursday night at 7:30, they will meet a foe whose record in the 10-B race so far matches theirs very closely. Both teams have lost to Alvord, and defeated Valley View, and there was little difference in the scores.

Regarding this game Superintendent Homsley invites attention to two departures from the usual schedule. The last half of the season begins this week, so the game time changes to 7:30. Also the day is THURSDAY rather than Friday, as shown on signs around town. The change was made in order to avoid a conflict with the Sacred Heart-Laneri game, which will be played here Friday night.

Despite a conference loss by each team, this week's game could be important in the final wind-up of the 10-B race if other teams should fail to go through undefeated.

Present leaders in the district are Alvord with a 2-0 record and Saint Jo and Era with 1-0 each. Muenster and Callisburg each stand at 1-1 and Valley View and Sanger are out of the running with 0-2 each.

In conference play last week Muenster beat Valley View 31-14, Alvord beat Callisburg 19-13 and Saint Jo beat Sanger 26-13. Era had an open date.

The big game of this week's district schedule is the Era-Saint Jo clash at Era, which will eliminate one of the leaders in the loop race. Muenster and Callisburg, playing here, will decide which of those two outfits falls completely out of the loop race. Alvord, hosting the Valley View Eagles, is favored to retain its district lead. Sanger has an open date.

Classes Start for Girl Scout Leaders

Girl Scouting in Muenster takes a long step forward this week with the beginning of a series of leadership classes in the city hall. Miss Catherine Donham of Denton was instructor for the first class Tuesday night and Miss Marjorie Arnold of Gainesville is scheduled to take charge of remaining classes.

The course is intended especially for leaders of girl scout troops, however scout mothers are urged to come and any others are welcome. Each class begins at 7 and ends at 10.

Freeman Heads Elm-Red District Soil Supervisors

Rush Freeman, a member of the Upper Elm-Red District Board of Supervisors for the past several years, has been elected Chairman of the Board to succeed J. W. Hess of Muenster. Mr. Freeman, a prominent landowner of Southmayd, has been a district cooperater since 1947 when he came back to his home farm at Southmayd after some twenty years in the Marine Air Corps.

He has been a prominent figure in many agricultural and civic functions of the district and Grayson County.

John Crownover, Supervisor from Zone 2 who resides near Nocona, was elected as Vice Chairman and Willard Kemplin of Valley View will again serve as Secretary. Other members on the Board are Fred Preuninger of Bowie and Tony Walterscheid of Muenster. Mr. Walterscheid was recently elected to succeed Mr. Hess from Zone 3. Mr. Hess declined to serve another term because of poor health.

New Stores Draw Crowds and Praise At Grand Openings

Bouquets of both the floral and the verbal varieties were profuse during the past weekend for the grand openings of Muenster's three new stores. Crowds estimated at about one thousand persons, representing Muenster and dozens of other North Texas towns and communities, came to see and praise the bright, modern new places which many described as rating with the most attractive stores in North Texas.

Anthony and Leona Luke introduced their new Variety Store with a three day grand opening sale beginning Thursday. Representatives of the Ben Franklin association of independent variety stores, of which the local store is a member, were here to show the store and serve the patrons. They had been here for more than a week to help arrange stock.

Two special events marking the opening were several numbers by the Muenster High band and a 15 minute radio program originating in the store.

A guest register for the event gives an idea of the number of
(Continued on Page 2)

Determined Tigers Come from Behind; Lick Buckner 19-12

An alert and scrapping squad of Sacred Heart Tigers cashed in their breaks Saturday night to claim a 19-12 decision over Buckner in their first district game of the Southwest Academic League.

While turning those opportunities to their advantage they denied Buckner the same privilege. Of thirteen breaks in the contest eight favored the Tigers, five the Orphans. The Tigers made good on three of them, Buckner on none.

Hard driving as the game opened gave the host team a pair of early touchdowns, apparently before Sacred Heart had time to overcome the effects of its long trip. After that Sacred Heart scored in each of the last three quarters.

The Buckner attack was delayed only as long as it took to hold Sacred Heart on the first series of downs. Two nice runs and a penalty against the Tigers moved the ball 59 yards to the Tiger 1 and three more tries
(Continued on Page 12)

NEWS OF SICK AND INJURED

Henry Luke is a patient at Veterans Hospital in McKinney for medical care.

Cecil Wolf returned to classes at Sacred Heart High Tuesday but is out of the Tiger lineup indefinitely as the result of an accident during a football game on Oct. 5. He was hospitalized about a week and says many thanks for the cards and other nice remembrances while he was a shut-in.

Muenster Slighted In Area Rainfall; Measure Is .67 in.

The best prospect for a real drought buster that this community has seen in a year came and fizzled here during the early part of this week. Heavy clouds hung over the area for most of Sunday, Monday and Tuesday but they released only a few showers and drizzles for a total measure of .67 inch.

On all sides the reports were more favorable. The city of Gainesville had more than two inches. Areas east of there had over three and areas south had about 4. Sivel's Bend had 3, Marysville 2, Saint Jo, Hood and Era more than one inch.

Though far from adequate, the two thirds of an inch received here comes as a welcome starter for the new grain crop, actually an essential for some grain which was sprouted by a half inch rain two weeks ago. If more moisture comes in due time it may still develop winter grain pastures and relieve a serious feed shortage. On the other hand a three-months dry spell such as that ending 1955 would starve much of the grain that has been started. This time there is no reserve of subsoil moisture.

Range grasses too depend completely on more rain. Moisture so far may possibly revive shallow roots but it will not make pasture.

Rain fall for the month now stands at 1.16 and the total for the year to date is 12.60. Moisture since Oct. 1, 1955 is 13.15, barely more than an average of one inch per month.

Tigers Face Micks For Loop Title in Homecoming Tilt

D-Day will arrive for Coach Jerry Vernon's Sacred Heart Tigers Friday night at 8 when they bump nogginns with the Laneri Micks of Fort Worth on the Tiger field.

For the Tigers it is the district championship game. After their win over Buckner last week Laneri is the last, and toughest, hurdle to be cleared in the three member North Texas district of the Southwest Academic League. The Micks will play Buckner later in the season.

Besides, the game is the traditional big one on the Sacred Heart schedule. Furthermore it is the Tiger homecoming game.

According to signs so far the odds will be stacked heavily against the Tigers. The Micks have a 3-3 record in their tussles with five 3-A and one 2-A opponents, and night properly be rated as a 3-A team according to Interscholastic League standards. Laneri's enrollment of almost 200 boys places it in the category of co-ed schools with an enrollment of near 400.

Other factors in team comparison also lean to Laneri's side. The Micks have a tricky, well balanced outfit, a weight advantage and plenty of reserve power.

Nevertheless the Tiger skipper is far from ready to write off the game as a lost cause. With a fairly potent Class B team and lots of hustle he expects to give the Micks a lot of competition. If breaks should happen to favor the Tigers they could spring an upset.

SCHEDULE OF COMING EVENTS

THURSDAY, Oct. 18, Hornets vs Callisburg, here, 7:30.

THURSDAY, Oct. 18, Girl Scout Leadership Course, City Hall, 7 p.m.

FRIDAY, Oct. 19, Tigers vs Laneri, here, 8 p.m.

SUNDAY, Oct. 21, Cubs vs Queen of Peace of Wichita Falls, here, 3 p.m.

TUESDAY, Oct. 23, Girl Scout Leadership Course, City Hall, 7 p.m.

TUESDAY, Oct. 23, MHS Juniors vs Valley View, here, 7:30.

THURSDAY, Oct. 25, Girl Scout Leadership Course, City Hall, 7 p.m.

Grand Opening ---

persons attending. More than 500 lines were used but many of those were signed Mr. and Mrs. Besides, many did not care to sign, and children were not asked to. Luke believes the total is considerably over a thousand. Twenty three floral arrangements were received.

The joint openings of Hamric's and the Charm Shop which have a common entrance and are separated by a partial partition, likewise had more than a thousand visitors. Held last Saturday, the event also included a radio broadcast originating in the store.

Those stores were even more loaded with floral tributes. Hamric's had 33 arrangements and pot plants, the Charm Shop, 42.

A featured event in both stores was a drawing for attendance prizes which had been provided by their respective wholesalers. Names of the winners are listed in an ad in this paper. More than 800 registered for the drawing at Hamric's. Drawing registrations were not counted at the Charm Shop, however the number is known to be considerably higher than the 703 shown in the guest register book. Besides, there were men visitors who declined to register for ladies' wear and ladies who did not register for men's wear. Coffee and cookies were served all day by members of the MHS homemaking class.

The new Variety Store was built by its owner, Anthony Luke. The other location, leased jointly by Mr. and Mrs. Ervin Hamric and Mr. and Mrs. Ray Evans, was built by J. M. Weinzapfel.

Hornets Win ---

and Hamric went over on a quarterback sneak.

Valley View rallied for two first downs but the third series was fouled by two five yard penalties and the ball went over on downs on the Hornet 37. In six plays Richey and Wimmer carried for the 63 yards, Richey going over for the last 8.

Again the Eagles fumbled on their first play, after which the Hornets moved 18 yards and fizzled on the 10. Then came Valley View's best drive of the half, a 48 yard push in 12 plays and stopped by the clock.

The third period was the nightmare for the Eagles. After holding the Hornets on the first series they had the ball on their 10. A first down advanced to the 23 and the next series bogged, ending in a kick.

Kaderli, charging through, blocked the kick on about the 10, followed it forward, leaped to snare a high bounce, and stepped over the line.

Back on the offense Valley View fumbled on the first play and Muenster recovered on the 28. On the third play Wimmer weaved and squirmed 24 yards for the score.

Once again the Eagles fumbled on their first offensive try and the Hornets had a set-up on the 19. The second play was a 15 yard scoring pass, Hamric to Hellman. After that TD Richey kicked true for his first extra point in five tries.

Hornet reserves then took over and the Eagles marched to two touchdowns. The first was a 73 yard drive on eleven plays and five first downs, McFarlin scoring from the 12 and Wilkerson following over for an extra point.

The next push also started on the Eagle 27 and used thirteen plays including three passes to Young for a total of 44 yards. Fortenberry scored from the 2 and a pass to Young added a point.

In the closing minute Hornet regulars returned to the field and made three plays. On the last Hamric got loose on a keeper play and stepped off 46 yards to the Eagle 23 before being hauled down.

Game at a glance.

First downs	M 7	VV 15
Yds rushing	219	194
Yds passing	15	52
Passes completed	1	4
Passes thrown	4	7
Intercepted by	0	1
Fumbles lost by	0	4
Yards penalized	9	20

ANCESTRY IN QUESTION
The boastful young man had the floor. "Yes," he declared, "my family can trace its ancestry back to William the Conqueror."
"I suppose," sneered a listener, "you'll be telling us that your ancestors were in Noah's Ark."
"Certainly not," said the boaster; "my people had a boat of their own."

Alertness to Signs Of Appendicitis May Save a Life

AUSTIN — All of us at one time or another have pain and cramping in the abdomen. Fortunately, most of these pains are unimportant. However, if the pain persists it should not be ignored. It may be the beginning sign of appendicitis, a disease which, although far from being simple, is easily and safely cured if surgery can be performed in time, says Dr. Henry A. Holle, Commissioner of Health.

There are two main types of appendicitis — acute and chronic.

Acute appendicitis strikes suddenly. It is usually marked by severe pain, that generally grows sharper and stronger. Occasionally, the pain may let up or stop entirely, but this must not be taken to mean that the attack is over. In fact, it may be a warning signal that the appendix has ruptured, thus lessening the localized pain, while a more serious condition — peritonitis — usually get a start. Other usual signs of acute appendicitis are slight fever, nausea, vomiting and tenderness over the region of the appendix. Chronic appendicitis is just what its name implies; it comes and goes. But it may, at any time,

become acute. It results from acute attacks that have been mild enough to subside without an operation. Symptoms in general are the same as in the acute type, but they are also similar to other adverse abdominal conditions, and only a physician can determine accurately what is wrong.

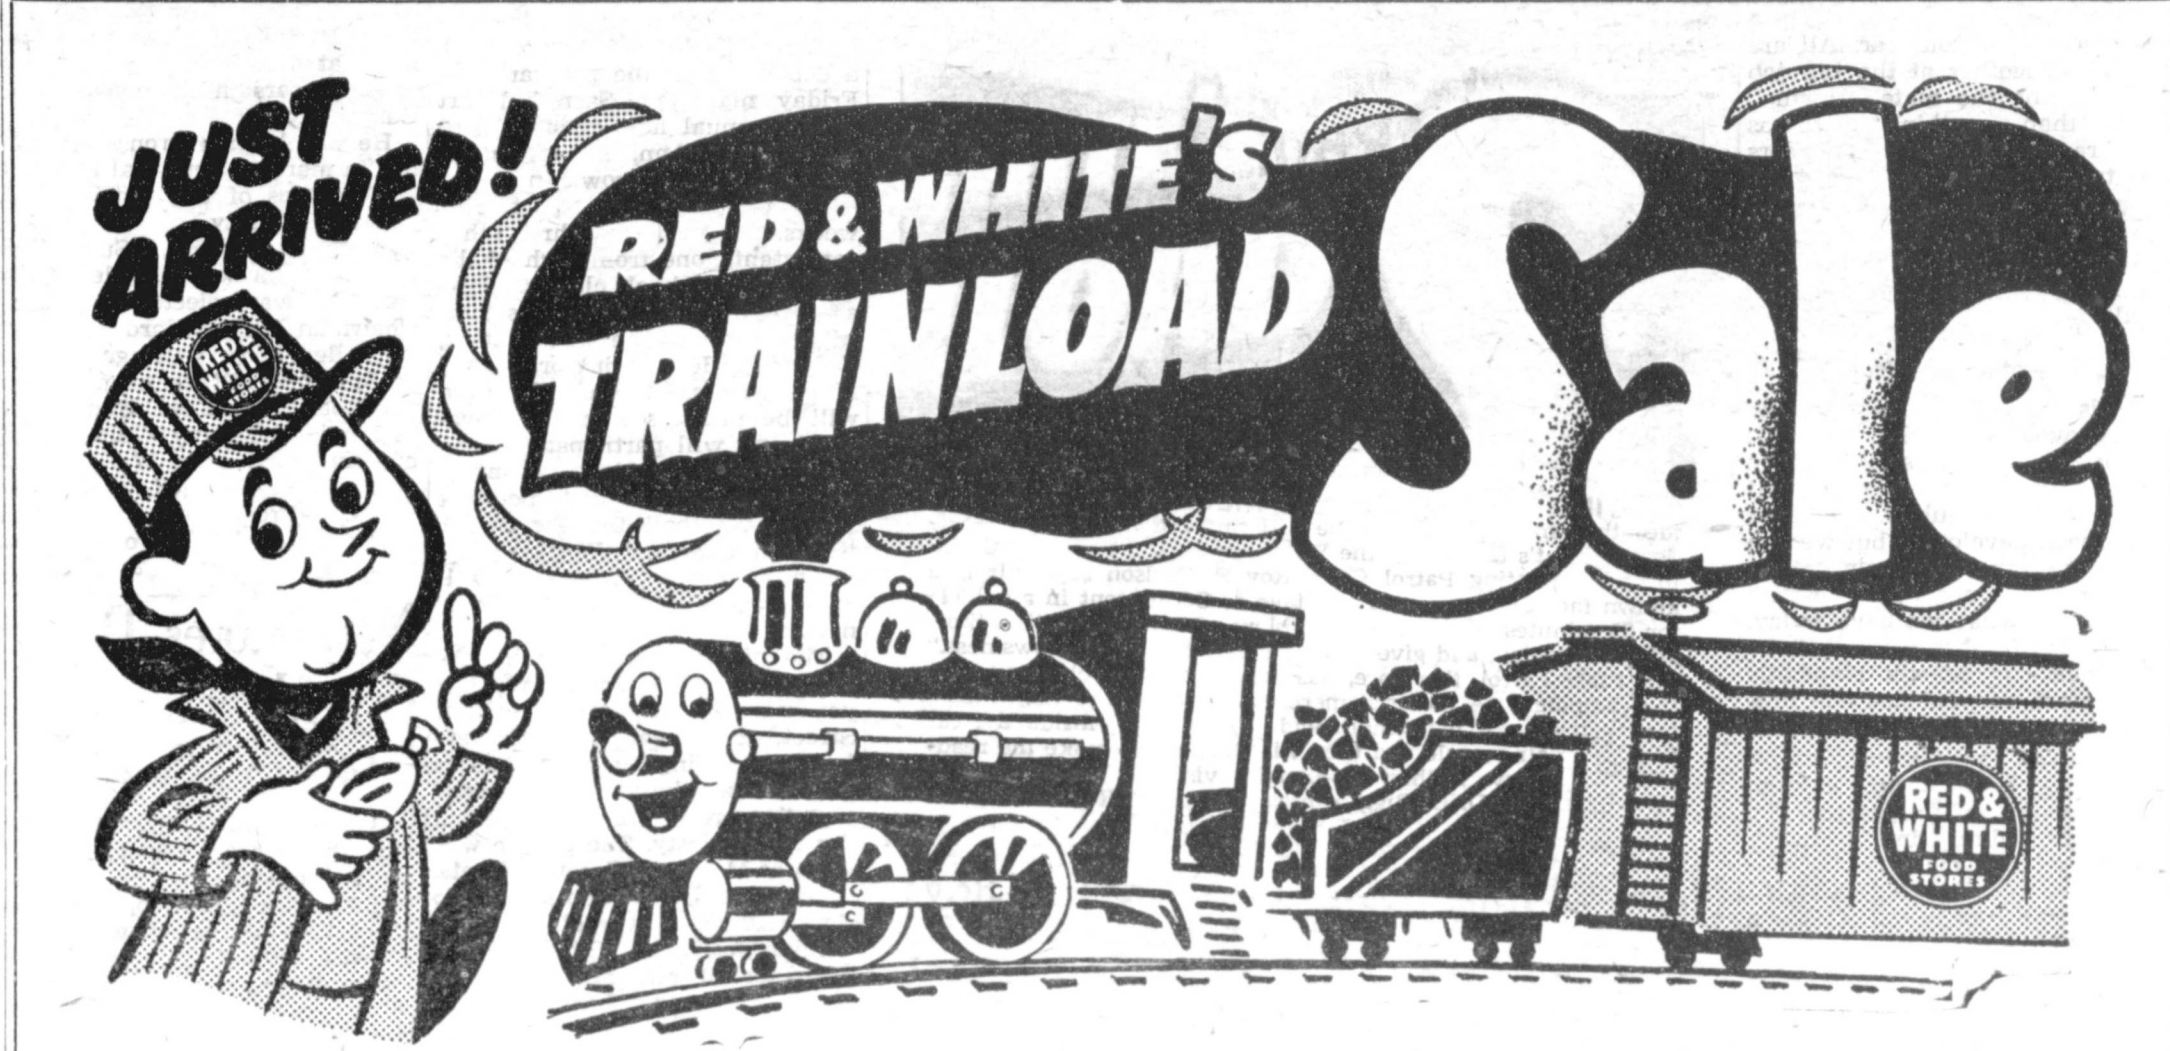

Operations for the removal of the appendix are comparatively simple and safe, if the patient has not taken a laxative and has called the doctor in time. The use of laxatives or enemas is one of the leading causes of appendicitis deaths. The action caused by the laxative or enema increases the pressure in the ap-

pendix and may cause it to burst. A ruptured appendix spreads infection and peritonitis often results. Modern drugs are now used quite successfully in the treatment of peritonitis, but this condition is still serious and may cause death.

Usually the pain begins abruptly, often mild at first, but is also may be quite severe. It may disappear for a while, and then return in increasingly severe cramps. It is important to note the location of the pain. It does not typically begin in the right lower part of the abdomen as is commonly thought, but it is generalized over the whole abdomen. In a short time it begins

to localize, first toward the middle and later to the right lower part of the abdomen. By this time, the inflammation is quite active and the muscles overlying the diseased appendix are sore to touch. A better sign is the sharp grabbing pain that occurs if the pressure of the hand on the abdomen is suddenly released. This reaction, known as rebound tenderness, indicates irritation of the peritoneum beneath.

If sudden persistent abdominal pain makes its appearance, there are three important rules to follow. They are: go to bed, call your doctor, and do not take any laxative or enema.

Bulcher News
By Mrs. Paul Tracy

BULCHER, Oct. 16 — Mr. and Mrs. Jesse Goff spent the past week visiting his sister, Mrs. Nora Wooten, in Fort Worth.

The Bill Blakelys are visiting their son Buster near Waco. He was recently thrown from a horse and has a broken collar bone and shoulder.

Mrs. J. M. Shields and Mrs. C. H. Shofner spent Thursday visiting the former's daughter, Mrs. Charles Dickerman and family at Electra. Mrs. Shofner also visited other friends she knew when she lived in that city.

An antelope each — that's what C. H. Shofner and J. M. Shields proudly displayed Friday evening when they returned from a hunting trip. The men shot the animals on the David Beck ranch at Dalhart.

Mrs. E. Newby left early Monday morning by bus for Palacios to be with her daughter Addie Virginia — Mrs. B. R. Dennis — when she underwent surgery.

Mr. and Mrs. W. A. Harrel announce the birth of their son Roger Lee. He arrived Oct. 14 at 11:35 p.m. in a Gainesville hospital weighing seven pounds seven ounces. Others welcoming the little boy are his sister Linda, his brother Billy, and his maternal grandmother Mrs. Hinkle of Parnell, Okla., who is here for a visit in the Harrel home.

J. M. Shields joined other Kewanee Oil company superintendents at Sequoyah State Park, Okla., this week for business sessions.

Mr. and Mrs. J. D. Goff of Saint Jo spent Sunday with his parents, the Jesse Goffs.

SIGN OF THE TIMES — Baby sitters, subjects of too many jokes, funny and otherwise, now are calling themselves "Child Chaperones."

Queen Candidates Announced for MHS Homecoming

Candidates for the honor of homecoming queen have been announced, invitations and ballots are printed and some 200 invitations have been addressed and mailed, according to the committee in charge of the Homecoming at Muenster High School on Nov. 9.

But the address list is incomplete, the committee members said. They request those who have information on former students to write or contact Earl Fisher, Glenn Hellman or Rosa Driever. They would like to have these addresses as soon as possible so all invitations can be mailed early next week.

Each of the high school classes selected their favorite as a candidate for the queen. In the contest are Mary Pick, senior; Agnes Noggler, junior; Carolyn Cain, sophomore; and Louise Noggler, freshman.

The winner will not be known until she is presented at the half-time of the football game between the Muenster High Hornets and the Era High Hornets. The crowning of homecoming queen and the game will highlight homecoming activities.

Selection of the queen will be made by the votes of former students and teachers who will mark an official ballot indicating their choice. The ballot will accompany the invitation. Also accompanying the invitation will be a post card to return to the committee indicating whether or not the person will be present.

This information is necessary so that the banquet planning committee will know how many to prepare for. The banquet is another highlight of the homecoming program. It will follow the general assembly and business meeting of the alumni association and will precede the final event of the day, a dance in the school gymnasium.

Rosalie Hoffman, Frank Trubenbach Say Vows Tuesday

A quiet, impressive wedding ceremony in Sacred Heart church Tuesday morning united in marriage Mrs. Rosalie Hoffman and Frank J. Trubenbach. Rev. Patrick Hannon officiated at the ring service and read the nuptial mass at 9 o'clock in the presence of family members and close friends.

The bride wore a gray-blue taffeta princess style dress with short sleeves and scalloped neckline, matching accessories and a white orchid corsage.

Her son-in-law and daughter, Mr. and Mrs. Billy Mayer of Pilot Point, were the attendants. Mrs. Mayer wore an olive green dress with black accessories and a purple orchid corsage.

After the services, Mr. and Mrs. Earle Otto entertained with a brunch in their home, and afterwards Mr. and Mrs. Trubenbach left on a wedding trip to Florida. In Jacksonville they will visit his daughter, Mrs. John Pappas and family. They will make their home here at 417 N. Elm when they return.

Immediate members of both families and Father Patrick were guests for the brunch. The table was prettily appointed and held the decorated wedding cake. Fall flowers adorned the board and the Otto home.

Out of town family members at the wedding were Mr. and Mrs. Bob Swirczynski and Kevin of Ardmore, Mr. and Mrs. Arnold Swirczynski of Nocona, Mr. and Mrs. Billy Metzler of Lindsay, Mr. and Mrs. Frank Neu

of Valley View, Mr. and Mrs. Allen Hoffman of Windhorst and T. J. Hoffman of Wichita Falls. Also present from out of town was Mrs. Tony Fenoglio of Montague.

IS GUEST SPEAKER

Mrs. Joe Luke spent three days of last week at Munday visiting relatives. Wednesday she was a guest speaker for the Knox City Garden Club, meeting in the home of her cousin, Mrs. Herman Jungman at Munday. Ladies from the two towns belong to the club. Mrs. Luke's topic was "Contemporary Landscaping." Nineteen of the 22 club members attended the meeting.

LOOKING AHEAD

by Dr. George S. Benson
 DIRECTOR — NATIONAL EDUCATION PROGRAM
 Searcy, Arkansas

A CITIZEN'S GREAT POWER

A candidate for Governor in a Southern state recently won the nomination of his party — and virtually certain election — with a vote total that was considerably less than half of the total of legal voters in the state. And the number of legal voters was less than half of the total of eligible voters. So the Governor will serve as the choice of a comparatively small percentage of the state's citizenry.

If his political principles and acts do not please the non-voting 75 per cent of the citizenry, they will not be entitled to complain. By not voting they forfeited (1) the right of the ballot, (2) the right to self-government, and (3) the right to complain about government they don't like. This situation is typical of the apathy of a big percentage of the American citizenry. In the nation as a whole and counting all political elections — local, state and national — an average of only about 20 per cent of the voters vote regularly.

Four Out Of Ten

The Presidential election of 1952 set an all-time record when not quite 60 per cent of the adult population voted.

However, in the average city block of ten homes this would mean that four homes, or four families, didn't appreciate their freedom and their prosperity sufficiently to study the candidates and the issues and then

vote. Lack of voting means just that — for our freedom and our economic progress in America depends on the kind of government we have.

What causes the apathy of our American citizens toward politics and voting? There are many causes. The most prevalent basic cause is a lack of understanding of the principles of the American system, what makes it tick, its incomparable advantages, and the indispensable role of the citizen in the unique American system of government. Another cause, of course, is the failure of so many citizens to assess the true value of individual freedom. They have never lived under the regimentation of a Socialist government or in a dictatorship or police state. And they have not bothered to investigate what life is like under such conditions.

Vote Doesn't Count

Millions of citizens do not vote because they feel that their individual vote would be insignificant in the total, would not change the outcome — so why bother! This attitude continues to be widespread in spite of the dramatic instances of close votes in recent years. For instance the 1952 presidential vote in Kentucky was: 495,729 for Stevenson; 495,029 for Eisenhower. Just 700 votes decided Kentucky's choice for President of the United States. Seven hundred people who felt their vote would be insignificant and didn't vote could have changed an important political decision of the Kentucky "electorate."

The 1952 presidential vote in Tennessee was 446,147 for Eisenhower; 443,710 for Stevenson. Just 2,437 votes decided the issue. That's less than one single vote for each voting precinct in Tennessee. All over America there were incidents in 1952 and again in the Congressional elections of 1954 demonstrating the power of a single citizen's vote. Some of the Congressional races were decided by margins of a few hundred votes or less.

One Vote's Power

Back in the 1840's in Dekalb County, Indiana, there lived a grain miller. He started to his mill on election day to grind his grain. On the way he met some friends who persuaded him to go to the polls instead. The records show that the candidate to the state legislature won by one vote — and the miller had voted for him. That legislator cast the deciding vote that sent Edward Allen Hannegan to the U. S. Senate. The question of statehood for Texas came up for a vote while Hannegan was acting as president pro tem. The vote was tied. Hannegan cast the deciding ballot in favor of admitting Texas to the Union.

You couldn't convince that Indiana miller that his vote was insignificant; nor could you convince the people of Texas that it was. Your vote or mine has the potential power to shape the future course of a nation, or even of civilization itself. We are approaching a critical national election. Great fundamental issues are at stake. Every citizen should study the candidates and the issue and vote on the basis of what's best for the long range welfare of our Republic.

Political Planning Paternalism

Pause For Reflection

with James C. Ingebreten
 President, Spiritual Mobilization

According to Capper's Weekly, a girl riding on a bus recently said to her seatmate: "She was going to have an announcement party, but the engagement was broken, so she went ahead and called it a narrow escape party."

As I read this, I thought, when and if America ever breaks her long engagement to Socialism, it will be time to hold a nationwide "narrow escape party." I do not like to think of America

as being already married to Socialism. But the flirtation has been so serious and the at least tacit engagement has lasted so long that one sometimes wonders what the end will be. I have heard that overlong engagements seldom lead to the altar. If this proves true in the present case, the resultant "narrow escape party" should rival Independence Day as an occasion of national rejoicing.

Asphyxiation by fire gases is responsible for a majority of fire deaths, and this fact makes fresh ventilation of great importance in the home and elsewhere.

Parents and Teen-agers Talk Things Over

By Milton Lomask

SHOULD TEEN-AGERS be allowed to date on school nights? WHEN, IF EVER, is it all right for teen-agers to go steady?

The TRI-UNE Conference of Hartford, Conn., is an attempt to answer these questions. Each conference consists of three sessions. Only teen-agers attend the first and only their parents attend the second. The third is "the knock-down-and-drag-out" session where teen-agers and

across the street. Teen-ager Johnny sees he is wrong when he complains Pop is not like Mr. Jones next door.

"EVERYONE IS a creature of God, made to live with Him in heaven." "Everyone is a unique individual, seeking to love and be loved." Having understood these principles TRI-UNE sets about applying them.

Generally speaking, the teen-agers show themselves aware of the dangers in going steady. They see it prevents them from knowing more members of the opposite sex. They see it often puts them in the danger of sinning. Through TRI-UNE they learn that sex is God's gift to married people, that "necking" and "petting" are occasions of sin for unmarried people.

AT ONE final session of parents and teen-agers, each group listed what they liked and disliked about each other. Parents praised teen-agers' earnestness; criticized disrespect. One teen-ager spokesman said, "Our parents complain because we don't confide in them. But what can they expect when they give us the impression they're 'too busy.'"

The results of TRI-UNE? No official record is kept, but one happy father said, "Thanks to TRI-UNE we got things out in the open. We really cleared the air. Believe me, life is more pleasant at our house today." The increasing number of TRI-UNE Conferences indicates that many others have seen the same happy results.

† Paulist Pasture Service, Washington 17, D. C.

parents discuss together the problems from the previous two sessions.

MEETING in parish halls and school auditoriums, each session is begun by a few remarks from the moderator, Father John C. Knott or one of his priest assistants. The starting point of the TRI-UNE approach is the Catholicism definition of a person: a creature composed of body and soul, made to the image and likeness of God.

After seeing the dignity of the person, the group goes to his individuality. Parents begin to realize that tom-boy daughter Ann can't be the lady-like girl

A young doctor and young dentist shared the same reception room and also the same receptionist. Each was madly in love with the girl. One day, the dentist was called out of town and before leaving, called in the ob-

ject of his affections. "Darling," he said, "I'm going to leave you for 10 days. You'll find a little present in your desk." When she opened the drawer, she found—10 apples.

From where I sit... by Joe Marsh

Barnyard "WHOOdonit"

The Barn Owl Controversy still rages in our town. One group claims owls should be protected because they eat vermin. The other faction holds that those little howlers also eat chickens... and should be shot.

Now Pops Parker claims both parties are right. All owls clean up vermin. Some owls also clean up an occasional hen yard.

The way to spot a bad owl, according to Pops, is to put up a 10-foot pole in the chicken run with a No. 2 trap on it. A marauding bird generally perches to

look over the situation before he strikes, giving you your evidence, and the culprit!

From where I sit, I doubt if this will end the owl argument. People have different opinions on the subject—just as they have different opinions about whether beer, tea or what-have-you makes the best thirst quencher. Examine the facts and make up your own mind, I say... and be thankful we live where that's possible.

Joe Marsh

Here! New Task-Force 57 Chevrolet Trucks!

Performance-proved in a history-making test on the ALCAN Highway to Alaska

The Alcan Highway is the road where trucks grow old before their time. The road where gravel endlessly sledgehammers the life out of trucks. Where a fog of superfine dust chokes engines, and vicious ruts subject chassis to months of wear in a few hundred miles.

Six new '57 Chevrolet trucks, heavily loaded with cargo, roared north from Dawson Creek, B.C., through 1,520 miles of mountains and mire, rain and hail to Fairbanks, Alaska. Running around the clock, they made this tortuous trip—normally a 72-hour run—in less than 45 hours. As a special test during the run, two of the trucks went the entire distance without once having their engines stopped!

Come in and see how well these new Alcan champs measure up to your job.

FIRST WITH THE MOST MODERN FEATURES:

New 283-cubic-inch Taskmaster V8 is standard in Series 5000, 7000 and 8000, optional in Series 6000 at extra cost. Horsepower ranges up to 210 in Chevrolet's complete line-up of modern V8 and 6 truck engines.

Revolutionary Powermatic Transmission—exclusive with Chevrolet trucks! This six-speed automatic, designed specifically for heavy-duty hauling, is an extra-cost option in Series 5000 and 6000 and all heavy-duty truck models. Hydra-Matic is offered in 3000 and 4000 Series models at extra cost.

L.C.F. models outdate C.O.E. trucks in every way; yet offer all the traditional C.O.E. advantages.

Heavyweight Champs with Triple-Torque tandem are rated at 32,000 lbs. GVW, 50,000 lbs. GCW. Special features include built-in 3-speed power divider.

Alcan fleet reports up to 18.17 miles per gallon! That's the mileage reported by the Cameo Carrier, with Thriftmaster 6 and Overdrive (optional at extra cost).

All the way in DRIVE range with Powermatic! This Powermatic-equipped 10000 Series tractor traveled the Alcan Highway in a single forward-speed range!

MUENSTER, TEXAS

DRIVING THROUGH THE IRON CURTAIN—"Secret Agent V-8" arrives in Helsinki, Finland, ready to move on to Moscow. The "agent" is a 1957 Ford car. State Department officials, working with the Ford Motor Company, came up with the idea of unveiling the new model auto in Russia the same time American shoppers were seeing it in this country. The purpose is to show the economic goods available to the average worker in the United States.

Texas once had forty-five million acres of public domain, and sometimes with a note of explanation. One German settler wrote, "De rain, it is all vind and de vind, it is all sand." Another more eloquently wrote the land office, "Forty miles to water, twelve miles to wood, six inches to Hell. Gone to live with my wife's folks."

Nimrod's Decalog

There still are hunting accidents. There always have been, and there's no reason to suspect we can get through this season without rolling up some shocking statistics on accidental bloodshed and death. Thus, old-timers who are experienced in the use, care and handling of firearms should give time and thought to the training of the youngsters — especially those who may be doing their first shooting this season. It's time for them to learn their shooting-iron catechism — so they can recite it backward and forward:

1. Make sure guns stored away at home are unloaded.
2. Keep guns locked away from children.
3. Keep firearms in good working order.
4. Never pull a gun out of car, lift it out with care.
5. Never drag a gun through wire fences.
6. Always carry a gun with its muzzle pointed toward the ground. Don't let the muzzle clog with snow or mud. Never point it at anyone.
7. Carry your gun with extra care when following another hunter under tree limbs or through underbrush.
8. Never use your gun to poke or club game out of the brush.
9. Don't carry a cocked gun.
10. Don't shoot moving objects until you're sure what they

COURTESY PAYS!

it doesn't pay to

PASS ON A CURVE!

Wrong-side-of-the-road driving cost 7000 lives last year!

are. Make certain no one is in the way.

You can add to these rules all you like, but don't subtract any. And there's just one more that's essential. Check up and refurbish that first-aid kit. Don't let emergencies catch you unaware — whether a burn from a hot skillet, a blistered heel or a nick from a skinning knife. Happy hunting — and safe home — to you!

The population of the U. S. has reached 167 million. In five years it should be 178 million and in ten years, 190 million. By 1975, there will be more than 221 million people in America.

Marysville News

By Mrs. B. G. Lyons

MARYSVILLE, Oct. 16 — John Marcus Duffey of Fort Worth visited here Saturday. Driving through Black Hollow he ran over and killed a wolf which was viewed by a number of interested persons after his arrival here.

Brown Wright of Fort Worth spent Wednesday and overnight as a guest of Mr. and Mrs. B. G. Lyons.

Mrs. Wade of Wilson, Okla., is visiting her sister, Mrs. Nelly Kelley, and her niece and nephew, the Lloyd Barnharts.

This vicinity received its best rain since last spring Saturday afternoon and early Sunday. An inch and a half was recorded.

The Jim Shiflets have installed a telephone in their home.

Little Paula Shaw of Gainesville was a weekend visitor with her grandparents, the J. N. Shaws.

Dinner guests Sunday in the John Richey home were their nephew and niece, Mr. and Mrs. John Marcus Barnes of Gainesville.

Mrs. Bill Moon, accompanied by her granddaughter Rhonda Kim Harrell, returned home from Sherman Thursday after spending several days in the Max Harrell home while Mr. Harrell was a patient in a hospital there. He has been transferred to a Dallas hospital for further care and observation. His wife accompanied him.

Oliver Walker was in Gainesville Wednesday to have stitches removed from his foot after bone surgery the week before. His doctor says he is doing fine.

Rev. and Mrs. Robert May of Dallas spent the weekend here at the Methodist parsonage. Members of the congregation met with them Saturday evening, bringing food for supper. Mrs. May gave the last of a series of six lessons on the history of Methodism. Sunday Rev. May preached at the morning and evening services. The couple were dinner guests of Mr. and Mrs. J. N. Shaw Sunday.

Mrs. Clea Denton and daughter Beverly Sue of Bowie visited Mr. and Mrs. B. G. Lyons Tuesday afternoon.

Mr. and Mrs. Douglas Robison and son Mark Douglas of Spur arrived Saturday for a visit with their parents, the Earl Robisons and George Hammers. Douglas returned to Spur Tuesday but his wife and baby stayed for a longer visit with homefolks.

Billy Ray Hammer, son of Mr. and Mrs. Prior Hammer who reside north of Muenster, left Wednesday for Dallas following his enlistment in the Marines. He will take basic training at San Diego.

What put the magic in the new kind of FORD?

Here's what put the magic in the new kind of FORD!

It all started with the new "Inner Ford." When Ford engineers planned this baby, they didn't just think in terms of new springs, new brakes, new axles. They thought in terms of a car through-and-through new.

The wheels got smaller. Yes, this new Ford is so new in every detail that even the wheels have changed. Now smaller and broader for a better grip on the road, they help you take off quickly... give you a better ride.

The wheelbase got longer... so now you can choose between a Ford that's over 16 ft. long—or one that's over 17 ft. long!

The frame got wider. Side rails bow out to give a more stable riding platform... a lower, sleeker silhouette.

The ride got smoother. With new suspension, new springing front and rear, the ride this new Ford gives you is the closest you'll ever come to coasting on velvet-covered clouds. And that holds true on back roads, too!

The handling got easier. Poised and balanced like a panther, this car has new swept-back front suspension that works its magic when you need it most.

The power got hotter. This new kind of Ford is packed with Thunderbird GO! It offers a wide range of Silver Anniversary V-8's to fit every horsepower need*... plus a new version of the famous Mileage Maker Six.

"Six or V-8 the going is great"

The new Ford Fairlane 500 (118-inch wheelbase). Longer, lower, larger than many medium-priced cars, yet lower in price than most of them!

The roof got lower. And it's designed to let you make the easy entries and graceful exits you've always known.

The body got quieter. It's the strongest body ever built for a low-priced car. And no car in Ford's field has such generous sound-proofing.

The room got bigger. There's head room to spare for a tycoon-type hat. There's real stretch-out leg room, too.

The lines got sweeter. Ford gives you the longest, lowest, low-priced car ever. Each graceful contour of its sculptured-in-steel body says, "Let's go!"

The style got smarter. With this new-look Ford you have a car that belongs anywhere! Example: all Fairlane models, including sedans, have the look of a hardtop.

The value got greater... and the price is still Ford-low. The result—even more promise of buying a car that will keep its value high... a car that will stay worth more.

*A special \$70-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, an extra-high-performance Thunderbird 312 Super V-8 engine delivering up to 285 hp.

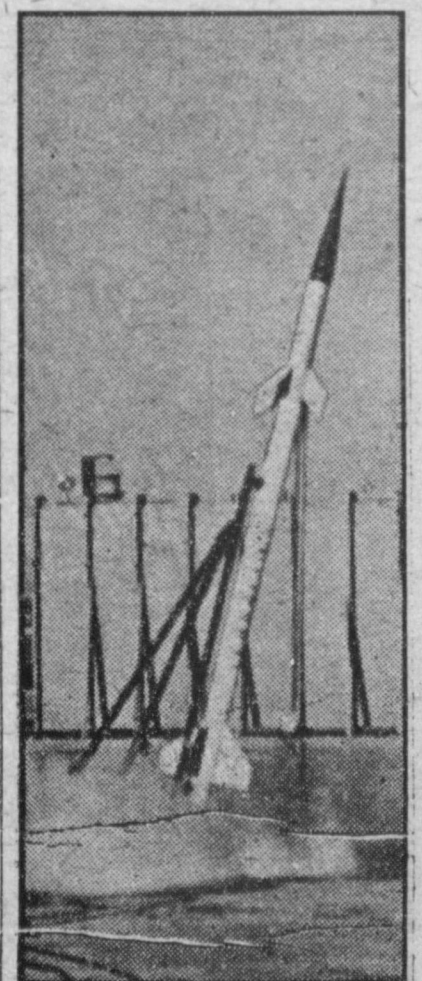

SEE IT FOR YOURSELF!

So now you know the magic of the '57 FORD!

Endres Motor Company

SOIL CONSERVATION DISTRICT NEWS

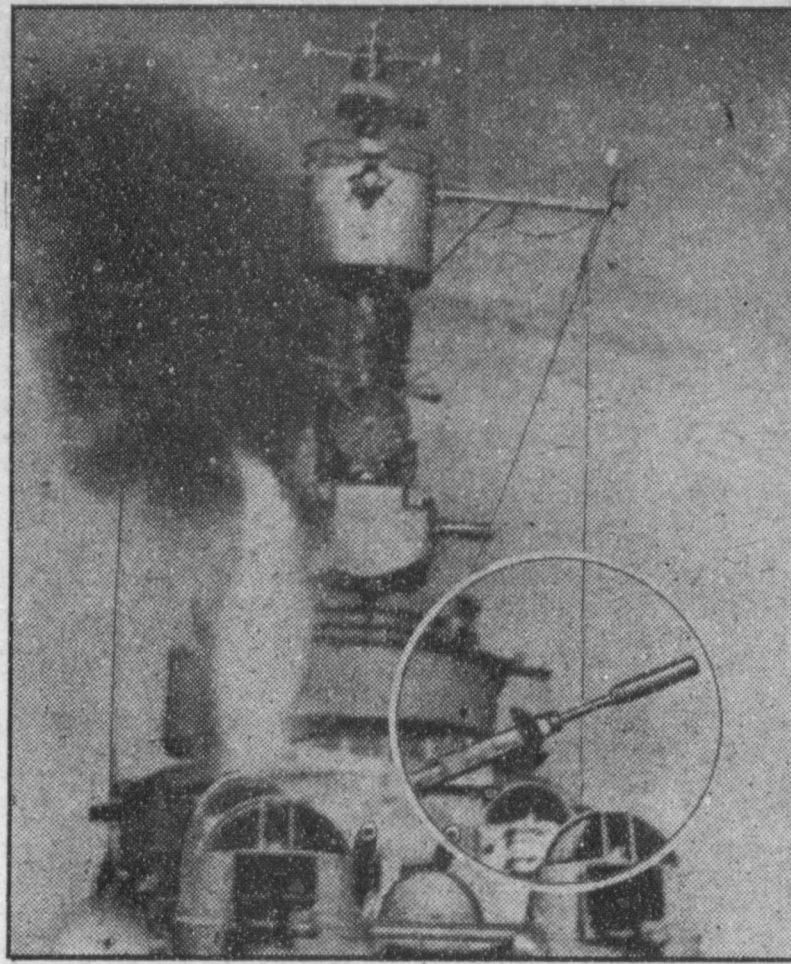

Waterways

Get your waterway marked out now so that the land can be prepared for next spring's planting, that's the word from the local Soil Conservation office personnel this week. Past experience has shown that good seedbed preparation in the fall is necessary to store moisture and condition the soil so that grasses can survive even through a dry summer. Very few failures of grass plantings have occurred where the grass was put into seedbeds that were properly prepared the previous fall.

Around Muenster there is still a lot of evidence on the land pointing up the need for waterway strips. There are still signs of soil being washed from sloping fields. Topsoil is being removed and rocks and subsoil are showing up in more and more places. Terraces are needed to protect the sloping fields, but in many cases terraces cannot be built until waterways are established.

Terraces built years ago are still emptying into road ditches and other gullies. These terraces are damaging roads and eating ugly, expensive gullies back up the terrace channels into the fields. All this needless erosion and waste can be stopped by wide strips of grass that safely carry excess water into drains. These strips not only offer good terrace outlet areas, but they also afford good pasture strips

FLYING ASH CAN—Caught by the camera at moment of launching, the rocket, circled, is one of Uncle Sam's newest antisubmarine weapons. Shown being launched from the U.S.S. Wilkinson, "Weapon Able" has a mount which can be trained in a nearly complete circle. Its blast shield deflects the hot exhaust gases into a torch-like flame shape, as shown, and protects deck areas below it. The rocket is designed for launching from Navy escort destroyers and frigates.

for grazing or hay.

If a farm needs a waterway it should be marked out now and the land prepared for spring planting. Local Soil Conservation personnel are ready to help locate and mark out waterways.

Winter Legumes

Many cooperators of the Upper Elm-Red Soil Conservation district are making plans to get vetch, button clover and winter peas planted as soon as enough moisture is available. There is still a good chance that these plants will have enough growing time to provide a good cover over the ground and even furnish some badly needed grazing this winter and early spring.

These winter legumes can protect the soil by covering it with green foliage and add new life to the soil by adding organic matter and nitrogen through the action of the nitrogen-fixing bacteria on the roots and the high amount of residue produced by the plants.

Winter legumes can make money for you. Remember it pays to put something back into the soil.

The Business of Not Raising Hogs

Is history repeating itself again? A certain "famous" letter is back in circulation again which would indicate we are completing another agricultural cycle.

Back when Henry Wallace was Secretary of Agriculture, one Ramon Ortiz de la Munoz inquired about the possibility of "not raising hogs." The letter appeared again recently in the Gorman Progress in Eastland County and, in these days of soil bank when it is profitable not to raise wheat and cotton, it has a very timely note. Here is the letter:

Amigo Mior:
My Amigo, Pedro in Brazoria County received a check for \$1,000 from the government this year for not raising hogs. So I

am going into the "not raising hog business" next year.

What I want to know is, in your opinion, what is the best kind of farm not to raise hogs on and the best kind of hogs not to raise? I would prefer not to raise razor-backs, but, if that is not a good breed not to raise, I will just as gladly not raise any Berkshires, Durocs or Poland China.

The hardest work in this business is going to be in keeping an inventory on how many hogs I haven't raised.

My Amigo Pedro is very joyful about the future of this business. He has been raising hogs for more than 20 years and the best he ever made was \$400 back in 1918, until this year, when he got a thousand dollars for not raising hogs.

If I can get \$1,000 for not raising 50 hogs, then I will get \$2,000 for not raising 100 hogs, etc. I plan to operate on a small scale at first, holding myself down to about 4,000 hogs, which means I will have \$80,000.

Now, one other thing. These hogs I will not raise will not eat 1,000,000 bushels of corn. I understand that you also pay farms for not raising corn. So will you pay me anything for not raising corn not to feed the hogs I am not raising?

I want to get started as soon as possible as this seems to be a good time of the year for not raising hogs.

Yours, truly,
Ramon Ortiz de la Munoz
P.S. Can I raise 10 or 12 hogs on the side while I am in the business of not raising hogs? Just enough to get a few sides of bacon to eat?

Blessed Events

Mr. and Mrs. Werner Yosten have announced the birth of a nine pound 13 ounce boy, their seventh son. He arrived Friday, Oct. 12, at 1 a.m. at the Sanitarium. He is the grandson of Mr. and Mrs. Nick Yosten, Muenster, and Mr. and Mrs. John Bengfort, Lindsay.

It's a boy for the Leroy Wiesmanns of Gainesville. He arrived Tuesday, Oct. 16, at the Sanitarium weighing nine pounds four ounces. Mr. and Mrs. Alois Haverkamp of Muenster and Mr. and Mrs. Carl Wiesman of Gainesville are the grandparents. Mrs. George Spaeth of Lindsay is the baby's great-grandmother.

LENDERS EAR TO LABOR—Adlai Stevenson cups his ear the better to listen to AFL-CIO's vice president, Walter Reuther, as the Democratic presidential nominee visits Detroit, Mich., on a pre-election tour. AFL-CIO executives have announced they'll urge union members to support Stevenson in the forthcoming election.

Alumni Calendar Lists Gun Shoot And Dinner-Dance

Headlining coming events on the Sacred Heart Alumni calendar are a gun shoot for Nov. 11 and a dinner-dance during the Christmas holidays.

Both events were discussed and working committees named at the organization's regular meeting Tuesday night in the school library.

Gun shoot arrangements are complete with Dan Luke in charge of trap shooting, Henry Yosten supervising the rifle shooting and Herbie Fette directing archery. Live prizes will be awarded winners. Mrs. Alvin Hartman and Mrs. Ed Schneider head the sandwich committee and the senior girls will be in charge of a game.

Plans for the holiday dinner-dance are still in the making with a committee working on invitations, and chairmen lined up for other details. Definite information will be released when arrangements are complete. Dan Luke is general chairman; Theresa Mae Felderhoff and Mrs. Dan Haverkamp are in charge of

invitations, senior girls will tend to decorations and the sophomore class will serve.

Alvin Fuhrman, president, conducted the meeting and committee chairmen reported. Members agreed to operate a refreshment stand at the school's annual Halloween carnival and Alvin Fuhrmann accepted chairmanship of the project.

About 30 members were present, also Rev. Christopher Paladino and Sisters Theresina Celine, Patricia and Jerome. A social hour with volley ball and refreshments followed the business session.

CARD OF THANKS

Sincere thanks to all who remembered me with prayers, visits, get-well cards, flowers and other kindnesses during my illness and stay in the hospital. My family joins me in this expression of appreciation.

Mrs. Albert Henscheid

Bishop Sheen's New TV Program Begins Oct. 28, Channel 5

FORT WORTH—Bishop Fulton J. Sheen uses an entirely new format on his popular "Life is Worth Living" program which will be seen on TV screens in this area at 9:30 a.m. Sunday mornings, starting October 28, over WBAP-TV, Channel 5, the Star-Telegram station. After four years use of abstract, intellectual studies during which he topped TV popularity ratings, Bishop Sheen in his new ABC network series which started on many stations the night of October 15, devotes himself to dramatic narratives about world-famous personalities and little known but extremely interesting people. He is quoted as saying that many of these stories will have more drama than any fictional material. Since WBAP-TV is using kinescope recordings from the network, viewers in this area will not have the difficult decision of whether to dial Bishop Sheen or "I Love Lucy."

WFAA-TV, Channel 8, the Dallas News station, at 12:30 p.m. Sunday, October 28, returns the Catholic Hour on TV, an NBC network program in conjunction with its Protestant counterpart, Frontiers of Faith, to its channel by kinescope. Four special programs depicting the Catholic Church in American history will feature the Catholic series, which is produced by the National Council of Catholic Men.

The Joe Galloways and daughter Jon Ann of Fort Worth were here for a weekend visit with her parents, the John Fishers. Another guest on Saturday was Lt. Max Rumelhart of Alameda, Calif. He was on a routine flight across country and had enough time to visit his wife's parents overnight Saturday and Sunday morning. It was baby Jon Ann's first visit in Muenster.

Visiting from Friday to Monday with Mr. and Mrs. J. R. Winstead were their grandchildren, Mr. and Mrs. Joe Snead and two children of Amarillo. Joining them to spend Sunday in the Winstead home were Mr. and Mrs. Lester Epps and two children of Spring Creek. Mrs. Epps is the Winsteads' daughter.

Anselma Felderhoff of Dallas was here to spend the weekend with her mother, Mrs. John Felderhoff. She came Friday and left Monday at noon.

Mr. and Mrs. Joe Linn had as their guest Saturday her uncle, Elder J. W. Harper, a Baptist minister whose home is in Galatin, Texas.

Mrs. Dick Cain and children drove to Bowie Sunday to spend the day with her sister and family, the T. C. Rhones in whose home her parents, Mr. and Mrs. J. S. Hogan of Burleson, and an-

Kiddies Perform Like Veterans in Rhythm Festival

Third graders of Sacred Heart school won the applause — and the hearts — of their audience Sunday night for their singing and dancing routines in their 60 minute Rhythm Festival. The show, directed by Sister Genevieve, was presented in the Muenster High auditorium as a class benefit.

The little musicians, in a rhythm band number, played instruments they made themselves. These quaint music makers included tambourines, clappers, nails, sticks, bells and a drum. As band director Virgil Swirczynski handled the baton with skill and effectiveness.

All the youngsters, about 45 of them, performed with the grace and poise of veteran actors.

This was especially noted in a ballet number with Patsy Hartman and Terry Jane Lehnertz as the ballerinas and Virgil Swirczynski and Dwayne Pagel as their dancing partners. Their artistic dancing earned an encore but the little performers did not choose to give the audience an extra treat after going through the intricate long routine almost flawlessly.

The little girls were fairy-like in ballet dresses of taffeta and ruffled net and white ballet slippers. Patsy was in blue and Terry Jane in pink.

The band's welcome song, to its own accompaniment, opened the program with "Anchors Away" and then Linda Jo Tempel and William Wimmer gave the welcome address. Band members were dressed in white with red capes and caps. They played four numbers.

In a square dance number the dancers were Virgil Swirczynski and Patsy Hartman, Don Huchton and Mary Wimmer, William Wimmer and Margie Sue Fuhrman, Linda Jo Tempel and Dale Hofbauer.

The skaters' waltz presented Judy Dangelmayr as soloist and Linda Jo Tempel, Mary Wimmer, Dianne Shumaker, Carol Ann Mosman, Patsy Arend, Monica Fetsch, Monica Becker, Janice Yosten, Margie Sue Fuhrman, Deborah Schilling and Carol Ann Pels.

Performers in a Virginia Reel were Gloria Haverkamp, Joe Hartman, Marcy Cler, Jerry Yosten, Linda Kay Hoedebeck, Rudy Koesler, Kathleen Yosten, Robert Fisher, Mary Kay Luttmmer, Larry Hess, Candice Fette and Don Huchton.

The entire class combined voices for a musical recitation and an action song with the action in this number by Gene Kleiss, Dale Hofbauer, Kenny Stormer, Leon Knauf, and William Wimmer.

Another song and dance number was given by Sammy Endres, Dianne Shumaker, Joe Hartman, Deborah Schilling, Rudy Koesler, Patsy Arend, Larry Hess and Carol Ann Pels.

Virgil Swirczynski gave a vocal solo and the entire class presented the grand finale, a good-by song. Carol Henscheid played the piano accompaniment for vocal numbers.

SPLIT-SECOND TIMING— Byron Masterson tips the water during evolution of a double somersault dive during Havalanta (Havana - Atlanta) diving finals at Atlanta, Ga. Also exhibiting excellent form is the photographer who caught this split-second picture of perfection.

CDA Court Hears Father Christopher

The life story of Benedict and Scholastica, brother and sister saints, unfolded before members of the local court Catholic Daughters of America Monday night when Rev. Christopher Paladino spoke informally on these two great Benedictines telling of their early childhood, their vocations, their sacrifices and their work as members of their order. He was a guest speaker at the court's regular meeting.

Mrs. John Mosman, grand regent, conducted the business session during which members voted to join the Knights of Columbus in arranging a decorated float for the Christmas parade.

Members also decided to sell subscriptions to Farm Journal and Town Journal magazines as a fund raising project.

After adjournment there was a social hour with refreshments of pie and coffee. Twenty members were present.

The next regular meeting was set for Thursday, Nov. 8.

BENEFITS OF GOOD BREAKFASTS

New Book Reveals Hobby Activities Of Dr. J. R. Reuther

The novelty of finding familiar names in a new book becomes available to people of Cooke County this week with the publication of Mrs. Ruth E. Reuther's revelations on the hobby antics and activities of her husband, Dr. J. R. Reuther of Gainesville.

Entitled THE WIFE OF FOUR HOBBIES and published by Pageant Press, Inc., of New York, the book relates her hilarious experiences as her husband indulges in art, photography, magic and the Gainesville Community Circus. Included in the book are eight pages of pictures showing Doc, his family, his hobby associates and some of the products of his hobby efforts.

No newcomer to the field of writing, Mrs. Reuther has published numerous scientific and educational articles and has lectured extensively throughout Texas.

Messrs. and Mmes. Clarence Albers and Eddie Jakubec and their families of Dallas were weekend visitors with the Fred Herr family.

Mr. and Mrs. Jim Stockman and children of Dallas were weekend visitors with her parents, the R. M. Zippers.

GATE-CLOSERS

Dear Friends

A farmer friend of ours paid Humble's field men a fine compliment recently.

He said, "There's one thing about you Humble people, you close gates."

Well, of course we do.

All of us at Humble want the good will of the folks with whom we do business. And among those folks, the farmers and ranchers who lease their land to us for exploration and production are right at the top of the list.

In fact, you farmers are partners with us in the development of a vital natural resource. If our efforts are successful then everyone involved benefits.

Keeping the gates closed and the fences mended—things like that are the least we can do.

We know. A lot of us grew up on farms and ranches.

**IT HAPPENED
15 YEARS AGO**

Oct. 17, 1941
Farmers south of town form game preserve and elect Barney Voth president. Final rites are held for Ferd Pierce Tuesday. Garden Club has program and movies on latest methods of growing roses. Thermometers settle to 52 after rain Wednesday. Father Frowin spent Friday in Wichita Falls attending field mass and other ceremonies in connection with the official dedication of Sheppard Field. Pauline Spaeth and Wilfred Reiter marry at Lindsay. Muenster Gin reports 122 bales of cotton ginned this season. Alfred Walter has returned to Fort Lewis, Wash., after a furlough here. Mrs. Ben Hellman is recovering from a strep throat infection. The Ray Vogels announce the birth of Robert Ray. In a grocery ad this week: delicious tender steak 24 and 29 cents a pound, roast 23 cents, hamburger 20 cents a pound.

10 YEARS AGO

Oct. 18, 1946
Hugh Barnhart buys Muenster Hatchery. Local refinery begins producing high octane gasoline. Leo M. Kuehn Sr. of Gainesville dies of heart ailment. Boy Scout troop is divided into groups under and over 15 years of age. George Gehrig has recovered from a tonsillectomy. Emmet Fette has dental surgery in Dallas. The Steve Masters are attending a waterworks convention in Houston. Mr. and Mrs. Arnold Hess, Walter Yosten and Mrs. Fred Hoedebeck were in Wichita, Kansas, this week to attend funeral services for the infant of Mr. and Mrs. Leo Hoedebeck. Ed Endres starts floor sanding and finishing service. Parghial seventh and eighth grade girls present patriotic program on Columbus Day. Voluntary donations buy new 2-door Chevrolet for pastors. The Joe Vogels announce the arrival of Weldon. Henry Weinzapfel of Scotland celebrates his 80th birthday by attending the Dallas Fair. Rufus Bezner has bone graft surgery on his left wrist.

5 YEARS AGO

Oct. 19, 1951
Barbara Boyles, 10, is killed instantly as swing overturns. Hospital dismisses Poss Swirczynski who was hurt in an accident on Aug. 14. Mrs. H. E. King, mother of M. H. King, dies at Hood. Boy Scouts have full program in day-long visit to Love Field. Coralee Fuhrman and Robert Pulte marry. Sonny Walterscheid wins grand championship on turkeys at Dallas Fair; eight other county boys get prizes. Three Cooke County boys are state 4-H contest winners: Billy Whitt, Adam Wolf and Jerry McDaniel, who gets free trips to Chicago 4-H congress. Lindsay school sodality elects Rudy Dieter president. John Wieler was a patient at Gainesville Sanitarium Friday to Monday. Sharon Gremminger and Ann Sicking celebrate being two years old at a joint party. Engagement of Dorothy Walterscheid to Donald Endres is announced.

AIRBORNE REPAIRS—Alphonse Traber clammers from the saddle of his motorcycle to make a minor repair as the crowd, 120 feet below, holds its breath. Traber, with his dangling partner—Sonja Traber—was in the middle of his circus act in Saint Nazaire, France. After making the engine adjustment, Alphonse climbed back into the saddle to continue the act.

**Dairy Report Lists
Top DHIA Producers**

Dairy herds belonging to Paul Fisher and George Bayer were listed among the top producers in the Dairy Herd Improvement Association for September, according to the summary for the month.

Two herds, Pete Prescher's and H. H. Moody's shared honors as the month's champion producers, the former for butterfat and the latter for milk. Prescher's herd ran up a total of 38 pounds of butterfat and Moody's accounted for 1193 pounds of milk. The Prescher herd averaged 1150 pounds of milk and the Moody herd averaged 36 pounds of butterfat.

Hoedebeck and Myers herd tied for second place in butterfat production and was third with 1000 pounds of milk. Fisher's herd was fourth in butterfat and Bayer's fourth in milk. The figures were 33 and 960.

A total of 518 cows in 21 herds were tested and 116 cows produced 45 pounds of butterfat or over. Average pounds of butterfat per cow was 26 and average pounds of milk was 700.

Officers of the county association are Paul Fisher, president; Leroy Hay, vice president, Paul Fetsch, secretary-treasurer; Paul Sicking and Alfred Bayer, directors; and Carl Kemplin, supervisor.

A diplomat is one who can bring home the bacon without spilling the beans.

**Texans Find Ike Stands
For Same Things We Do**

A fellow was in our town the other day selling men's suits. He was from St. Louis, and he said he was a manufacturer's representative. Grandpa would have called him a dry goods drummer, and Papa would have referred to him as a traveling salesman. This shows you how things change with time. But actually that fellow from St. Louis was doing just about what the earlier visitors did—trying to sell suits.

You might say that he stayed in the same place but the names went off and left him. Reminded me some of the political situation in Texas.

I was reading a letter in the daily newspaper last week, from a man who said he was going to vote for Eisenhower. "I am a Democrat," he wrote to the editor of the paper, "but I feel like the party has run off and left me."

Come to think of it, a lot of conservative-type Texas Democrats are in that shape today. They haven't changed their views much on such things as local control, government spending, bureaucratic red tape, and freedom of the individual; they still travel down the same road they did 20 or 30 years ago, even if they do it at 70 miles an hour instead of 25.

They grew up believing that a man could live down nearly any-

thing except voting for a Republican. They always voted 'er straight, until a good many of them jumped over the traces in '52 and went for Ike.

"I can't figure out what's happened," one of them told me. "Seems like Eisenhower talks like a Democrat and Stevenson talks like a college professor."

The other day this same fellow said: "I think I've got it figured out. Ike stands for the things us Texas Democrats have always stood for. Adlai is too thick with Walter Reuther and that crowd to suit me. I'm going for Ike again."

That's the way with most folks in our town. They decided to give Ike a try at it in '52, and they like the way he has gone about the job. There are some things they wished he'd done a little different, but by and large they think he has made us a fine President. At least all the hometown boys are back from Korea, and as far as we can tell the government is being run honestly.

Somebody asked that Missouri suit salesman how Mr. Truman was getting along, and he said he didn't know. "He isn't in the clothing business any more," he explained. "In fact, as far as I can tell, he is clear out of all kinds of business."

Yours Truly,
Tex

(Pol. adv. paid for by Texas Democrats for Eisenhower, Weldon Hart, Director.)

Mr. and Mrs. J. B. Golden returned Thursday from Houston where they spent a week at the fashion market. He was there to show the line of blouses he is salesman for. Mrs. Golden assisted him.

Wayne Schmitt, who has been working for the Union Pacific Railroad at Fort Lupton, Colo., has been assigned to Palco, Kansas, for temporary duty. He is the son of Mr. and Mrs. Al Schmitt.

Guests Saturday night and Sunday of the J. W. Fletchers were their daughter and son-in-law, the William Terrells and children Toni and Terry of Lubbock.

More Dairymen Choose

DARI-KOOL

BULK MILK COOLER

Than Any Other Brand!

Shown above
DKS-250
(250-gal. capacity)

Milk is cooled to well below 40° in less than one hour — assuring a lower bacteria count and better milk. The milk cannot freeze — because the coolant is ice water.

Dari-Kool tanks are easy to clean and may be sanitized with hot water without damage. Units are ready to operate — no expensive, remote compressors to install or service.

Every Dari-Kool is built around a rugged 10-gauge steel frame — providing rigid support for the bulge-proof stainless steel milk tank. This assures accurate calibration and correct payment.

Get the cooler that leads in sales — leads in value — and leads in performance!

Meets All 3A Sanitary Standards

- ... Cools Faster
- ... Easier Cleaning
- ... Ready to Operate
- ... Milk Cannot Freeze
- ... Stainless Steel Tank
- ... Lower Bacteria Count
- ... Complete Service Available

DARI-KOOL will pay for itself in use.

HERE'S HOW...

The cost of hauling milk in cans is 40 cent per 100 pounds as compared with 25 cents per 100 pounds for hauling tank milk, thus a saving of 15 cents per hundred.

Elimination of wastage of milk spilled or left in the can at the plant is 7 cents per 100 pounds.

Improved butterfat test gained by selling all the cream instead of leaving some of it sticking to the can and lid account for another 6 cents per hundred.

THIS GIVES A TOTAL SAVING OF 28 CENTS FOR EACH 100 POUNDS OF MILK HANDLED. THIS 28-CENT A HUNDRED SAVING WILL PAY FOR YOUR DARI-KOOL.

A producer with an average of 10 cans of milk (86 pounds each) a day will sell 25,800 pounds per month. At 28 cents per hundred saving, he will be ahead by \$72.24 each month.

The approximate cost of a 250-gallon tank installed is \$2,400 with interest of \$216 for a total of \$2,616. This can be divided into 36 monthly installments of \$72.11 each. **THUS YOUR SAVINGS MAKE YOUR PAYMENTS FOR YOU.** This estimate is without down payment or trade-in, which would cut the principal and monthly payment substantially.

Men's and Boys' Store Saturday. Joining them Saturday night and remaining until Monday was the Hellmans' daughter Sandra, a student at Oklahoma University. She had been in Dallas at the Texas-Oklahoma game.

Mr. and Mrs. Herbie Otto of Dallas visited here during the weekend with their families, the Bill Ottos and Tony Wimmers. The young couple moved recently and their new home address is 6024 Lovett in Dallas.

Visiting here during the weekend with members of his family were Mr. and Mrs. George Swirczynski and children Eric and Pamela of Fort Worth.

Mrs. Al Horn visited in Dallas last Thursday with her father, John Schmitz who was ill with the shingles. Mrs. Tony Wimmer accompanied her on the trip.

Mr. and Mrs. Henry Pels Jr. drove to Lubbock Saturday to take her sister, Mrs. Ronnie Herr home after a week's visit here. They spent the weekend with the Herrs and attended the Texas Tech-West Texas State football game.

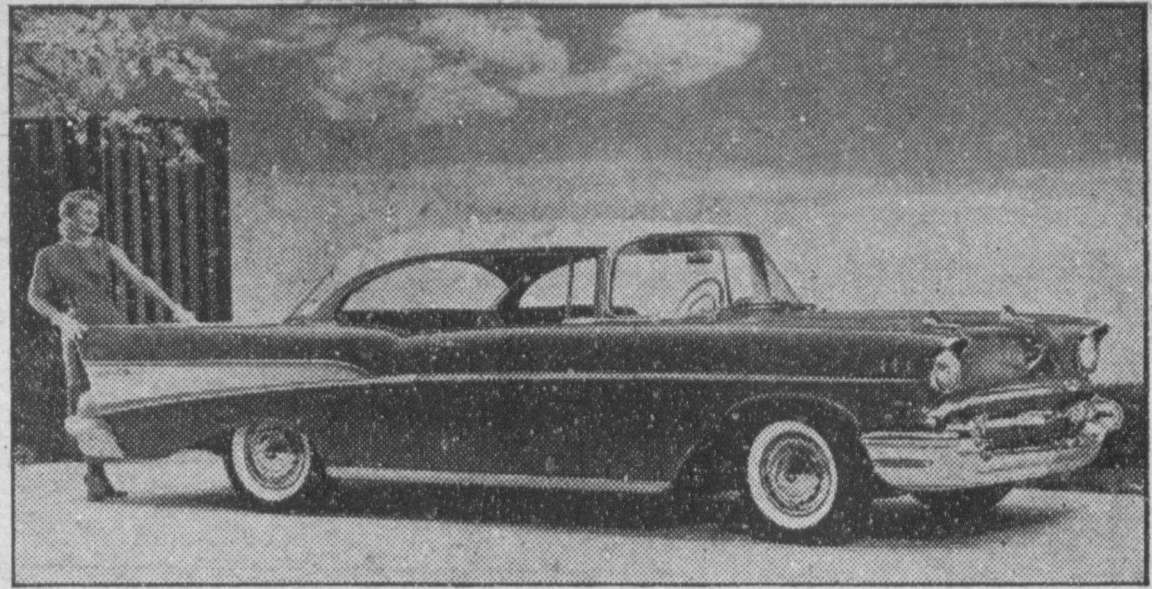

Mr. and Mrs. Herbert Meurer and daughter Martha Sue drove to Lubbock Friday afternoon to be weekend guests of her sister and family, the C. W. Ratliffs. Saturday Herbert attended a special Dad's Day program at Texas Tech as the guest of his son Robert. Students' mothers

had lunch with their sons and daughters and there was a special banquet for the students and their fathers. At night they all attended the football game.

Guests Sunday of the J. M. Weinzapfels and Tony Gremminger were Mrs. Katherine Morbitzer and her son and daughter-in-law, Mr. and Mrs. Clyde Morbitzer and four children, all of Fort Worth. Mrs. Katherine Morbitzer is Mrs. Gremminger's and Mr. Weinzapfel's sister. They were dinner guests in the Gremminger home and spent the afternoon in the Weinzapfel home then all went to the KC hall to attend the barbecue supper.

Mr. and Mrs. Ed Schneider and children returned Saturday from a 10-day vacation in Arkansas. At Subiaco they visited his parents, Mr. and Mrs. W. J. Schneider in whose home Ed's sister, Sister Helen was also vacationing. She is a Benedictine nun at St. Scholastica Convent in Fort Smith. The Schneiders also saw some of the Muenster boys at Subiaco Academy. At Fort Smith they visited Ed's brother Wilfred and his sister and family, the Ed Wagners.

Mr. and Mrs. Don C. Cooke represented the Muenster Baptist church at the Cooke County Baptist Association meeting in Gainesville last week. The session was held at Grand Avenue Baptist church.

Longer, lower "in motion" emphasis on design sport coupe. Along with the exciting exterior and interior styling, a higher performance peak and 1957 is evident in this view of the new Bel Air marked mechanical advances are among features.

Attend NCCW Meet

Mrs. J. M. Weinzapfel, diocesan chairman of Rural Life for the NCCW, and Mrs. Tony Gremminger attended the ninth annual diocesan convention of the National Council of Catholic Women in Fort Worth Monday and Tuesday. Going to Fort Worth with them were Mary Weinzapfel and her guest Barbara Phillips, students at OLV Academy, who spent the weekend here. Mrs. Weinzapfel visited her daughter and family, the Hugh Jacksons and Mrs. Gremminger visited her daughter Mrs.

Bobby Howell and family. Wednesday Mr. Weinzapfel joined his wife and they joined other Texas bankers when they boarded a special train for Los Angeles, Calif., for attendance at the National Bankers Convention in that city.

Gift Shower Given For Young Matron

A pink and blue shower honored Mrs. Victor Koelzer Sunday afternoon in her home. Emma Neusch and Mrs. Herbert Schmidkofer of Lindsay were

hostesses. They served cake with blue icing, pink ice cream, mints and cold drinks. Plate favors were miniature storks.

Twenty guests were present and six who were unable to attend sent gifts.

Guests from out of town were Mrs. Pete Koelzer and daughter Dolores and Mrs. Hazel Loffer of Madill, Okla., and Mmes. Norbert Rohmer, Henry Voth Jr. and Tony Voth of Lindsay.

Never miss an opportunity to make others happier — even if you have to leave them alone to do it!

Citation by Publication THE STATE OF TEXAS
TO: Earl D. Dickens
GREETING: You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 19th day of November, A.D., 1956, at or before 10 o'clock A.M. before the Honorable District Court of Cooke County, at the Court House in Gainesville, Texas. Said plaintiff's petition was filed on the 8th day of October, 1956. The file number of said suit being No. 18,037. The names of the parties in said suit are: Peggy B. Cowan Dickens as plaintiff, and Earl D. Dickens as Defendant. The nature of said suit being substantially as follows, to wit: That on or about the 1st day of December, 1953, defendant without any provocation left this plaintiff and she has not seen him since that date and has not heard from him during such time; that such conduct on the part of defendant constitutes cruelty as that word is legally defined. If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this 9th day of October A.D., 1956. Given under my hand and seal of said Court, at office in Gainesville, Texas, this 9th day of October A.D., 1956. Woodrow U. Clegg, Clerk District Court Cooke County, Texas By Anna Mae Shorter, Deputy 47-48-49-50

PREVENTIVE MEDICINE STRIDES FORWARD
There are, broadly speaking, two kinds of medicine. The one with which we, as patients, are familiar is that which works to correct a specific illness. The other is preventive medicine. Its purpose, as the name implies, is to see to it that we don't become ill. And the progress made in this all-important field in the last half century has been little short of miraculous. Writing in the Journal of The American Medical Association, Dr. James Watt says: "While literally thousands of cases of malaria were seen each year in my home state when I was a child, today there are virtually none. If the diphtheria mortality rate of 1900 prevailed today, there would be over 60,000 deaths a year. In 1950 there were actually 410. According to rates of 1900, there should now be over 45,000 deaths from typhoid; actually in 1950 there

Each rat like this one damages \$20 worth of farm and home property every year. You can prevent this extra expense by killing rats and mice with warfarin. Photo by Edward Hunton, USDA Extension Service.

Along about this time of year destructive rats and mice start looking for a place to "winter" in farm and home buildings, where they reproduce rapidly.

According to agricultural leaders, you can stop these disease-spreading pests by taking a few simple precautions and preparing a death-dealing welcome.

Pest control specialists say you should put out the recently developed rat and mouse baits such as warfarin, clean up those places rodents like, and make buildings rodent-proof where you can.

Warfarin was developed several years ago by scientists at the University of Wisconsin. It's a revolutionary type of rodent-killing bait is recommended for all kinds of rats and mice in this country.

The bait is a slow-but-sure killer — rodents never get shy of it, never become resistant to it, and they come back for more, which eventually kills them.

Use Anywhere Safely
Purchased as a ready-mixed cereal type bait, a concentrate to be mixed with certain ground grains, or in a form to be mixed with water, warfarin will get results. It's an all-weather (except for the water soluble form, unsuitable for use in freezing temperatures), any-season rat and mouse killer, very safe when used

as directed.

Warfarin baits should be placed in bait stations in the pests' runways, near places where they feed, wherever there are signs of rodent activity. Pie tins or one pound coffee cans make excellent shallow bait stations. Bait placements can effectively be made now — before rodents move from the fields into warm buildings. Be sure and frequently refill empty bait containers to insure continuing control.

Rodents Like Rubbish

After cleaning out your pests, a clean up and rodent-proofing program is in order. Rodents enjoy getting into rubbish piles and piles of wood. Get rid of the rubbish, then put all lumber and firewood on racks one foot or more above ground level.

County agricultural agents have detailed information on how to rodent-proof buildings — to keep them out of corn cribs, granaries, barns, chicken houses, hog houses, storehouses, and other buildings.

were 114. Similar figures could be given for other major communicable diseases." Now the medical fraternity is battling the diseases and afflictions which have not yet been defeated.

It is worth noting that preventive medicine has suffered most in countries where medicine is either socialized or controlled by government. Writers on England's national health system have pointed to this. Doctors in such countries are often overworked. They lack the time for study, experiment, and research. And the bureaucrats who make the rules and issue the orders have small interest in projects which may not produce results for long periods of time.

Progress in medicine — like all progress — flourishes in an atmosphere of freedom, and withers in an atmosphere of coercion.

There was a time when a fool and his money were soon parted. Now it happens to everybody!

The best way to kill time is to get busy and work it to death.

"The way taxes are today, you might as well marry for love!"

Nothing is impossible—to the man who doesn't have to do it himself.

the candy coated nuggets for baby pigs ...

GET MORE PORK RIGHT FROM THE START

YOU CAN WEAN PIGS EARLIER	With this perfect baby pig feed — Red Chain Pig Kandy — you can wean pigs earlier. Feed it to pigs at two or three days of age, as a creep feed, keeping out the sow.
SAVE BY FEEDING ANTIBIOTICS TO BABY PIGS	During the nursing period, feed for maximum gain, because early gains are the cheapest. Pig Kandy puts antibiotics and critical nutrients in the pigs earlier.
EARLY GAINS MEAN EARLY PROFITS	When you feed Pig Kandy, you feed antibiotics direct to the baby pigs. This is much cheaper than feeding antibiotics to the sow to be transmitted by her milk.
START FEEDING PIG KANDY AS CREEP FEED	Don't take chances on your pigs health. The first ten weeks are the most critical. Feed the most perfectly balanced feed for healthier pigs, faster growth.

**Anna Belle Metzler
Rudy Dieter Marry
Wednesday Morning**

St. Peter's church at Lindsay was the scene Wednesday morning of a double ring ceremony and nuptial high mass when Anna Belle Metzler became the bride of Pvt. Rudy Dieter. Rev. Conrad Herda officiated and St. Cecilia's choir furnished the music.

Parents of the couple are Mr. and Mrs. Phillip Metzler and Mr. and Mrs. Val Dieter of Lindsay.

For her wedding Anna Belle wore a white Chantilly lace gown over bridal satin and net. The floor length skirt was accented by a lace peplum and flared from the moulded bodice into scallops of lace flowers. The sleeves were long and tapering and the Peter Pan collar was embroidered with seed pearls and sequins.

The bride's veil was fingertip length attached to a pearl and sequin crown and she carried white roses on top of a prayerbook which is a gift from the groom. She was given in marriage by her father.

Virginia Metzler was maid of honor for her sister and Florence Henscheid of Muenster was bridesmaid. They wore identical dresses of pink-orchid net over

—Boyd and Breeding Photo

taffeta with wide waltz-length skirts. Bows of purple velvet ribbon enhanced the dresses at the back. Their small hats were of purple velvet, they had matching slippers and carried purple asters.

Raymond Haverkamp was best man and Paul Joseph Schmitz of Fort Worth was groomsman. Leroy Metzler and Weldon Bezner-ushered.

The bride's colors were used in decorations at the Lindsay Hall where a reception honored the couple. Mrs. Gerald Metzler and Mrs. Clarence Metzler served the wedding cake and Aileen Schmitz registered the 250 guests. Mrs. Joe Lehnertz catered the buffet meal.

When Pvt. and Mrs. Dieter left on their wedding trip she was wearing a brown three-piece suit with beige accessories. He is enroute to Camp Gordon, Ga., and she will return to Gainesville after the honeymoon until she joins him in the near future.

Pvt. Dieter is a graduate of Lindsay High school and has just completed basic army training at Fort Hood. His bride is also a graduate of Lindsay High and is employed in Gainesville at Westway Sportswear.

Out of town guests included Messrs. and Mmes. Clarence Metzler and family of Pottsboro, Francis Dieter and Paul Goddard of Dallas, Messrs. and Mmes. Morace Hickey of Lyford, Val J. Dieter of Pasadena, A. M. Bierschenk of Fort Worth and Al Bezner of Dallas.

Tigers Win - - -

from there produced the first score.

The next drive was more of the same, except that gains did not come as easy. Four first downs were used in a 48 yard push before an end run for 17 reached the goal. Buckner led 12-0 minutes into the second quarter.

After that the loose playing got under way. Three fumbles came fast, recovered by Sacred Heart, by Buckner, and again by Sacred Heart, the last being on the Buckner 31. At that point Fleitman took a jump pass from Henscheid and used a couple of good blocks in his race to the goal. Another pass to Fleitman made the extra point and Sacred Heart trailed 12-7 at the half.

About midway in the third quarter Hess and Fleitman blocked a Buckner kick setting the Tigers up on the Buckner 30. Wimmer made 20 and Mollenkopf the other 10, putting the Tigers ahead by a point.

More loose play featured most of the last quarter. Sacred Heart fumbled, then blocked a kick on the Buckner 40. Mollenkopf gained to the 8, and Sacred Heart fumbled again, then regained possession as Henscheid intercepted a Buckner pass on the 28. Fuhrmann made 4 and Mollenkopf the remaining 24 for the final count of 19-12.

The Buckner team, starting like a whirlwind, made most of its yardage in the first quarter and the opening minutes of the second. By the time they had their second TD they had gained 118 running and 12 passing. From then on they gained 21 running and 57 passing. The Tigers got their yardage in the second half, a total of 109 as compared with 48 in the first half.

Sacred Heart blocked four kicks during the game, three in the second half. Leo Hess blocked three of the four.

Game at a glance.

	SH	B
First downs	4	12
Yds rushing	126	139
Yds passing	31	69
Passes thrown	4	16
Passes completed	1	5

Fumbles lost by	5	2
Yds penalized	22	35

Building And Improvement Notes

New residential construction in town is currently limited to two jobs. Dan Haverkamp has about two weeks start on his new home on Hickory Street. It will have three bedrooms and an attached garage. Joe Fette, building on East First, will be ready to move in about a week.

South of town Weldon Sherrill is nearing completion on his new brick home. It will have two bedrooms and an attached double garage.

Remodeling jobs currently going or recently finished include an additional room, interior redecorating and a new roof for I. A. Schoech, an additional room each for Edgar and Walter Klement, and new roofs for Joe Linn and J. D. Dennis. J. C. Trachta's interior remodeling job is waiting for painters.

More improvement is curbing at both sides of the street for the entire 200 block of West Seventh. At the same time Rufus Henscheid is getting the concrete driveway and sidewalks at his recently finished house.

Confetti - - -

Adlai is lousing up his prospects considerably with his persistent beefing about A-bomb tests. He wails and worries about possible world wide contamination from radio-active fall out but ignores expert scientific estimates that our every day exposure to radio-active sun rays are far worse.

Regardless of scientific opinion, however, his line falls flat

under President Eisenhower's answer. As long as Russia does not agree to an open program of atomic weapons control, with inspections on both sides, we cannot afford to relax our atomic development program. And that requires tests. Period. Appearances are that Adlai has been taken in by the smooth talk of those fellows who have been taken in by Russian smooth talk. He has even suggested that Reds might be influenced to slow down their atomic efforts if we will do it first. How many American voters have that kind of confidence in Russia?

ARROW DART \$3.95

the most popular collar style in America

Wherever you go, the best-dressed men are wearing Dart, the shirt that gives so much fashion, such comfortable fit. Tailored in contour-shaped lines in a regular length non-wilt collar with cord stitched edges, smart French front. Finished with button cuffs. In fine "Sanforized" broadcloth.
