Wheat Loans to be Available in Spite Of Storage Problem

Those statistics we hear with the passing of practically every holiday weekend have more meaning than usual to us this time. This community has contributed its bit to the horrifying record of traffic crashes.

Fortunately, we can say that no local names are included in the death list, but at the same time we have to admit the most likely reason is simply that the grim reaper exercised his custom of being erratic. Judging from the nature of the accident he might easily have claimed every person in the two cars.

To many of the people around here the crash came as a dreaded consequence that has been expected to happen to one or more of several local cars. Muenster has had a sorry record of speed and recklessness lately. Youngsters have flirted with death after day, apparently thinking, if they thought at all, that there was no limit to their luck.

Well, Saturday's accident stands out as a grim reminder that luck will run out eventually. We sincerely hope other wild drivers will realize that it might have happened to them, and very likely will happen if they do not learn their lesson from the mutilation and agony these less fortunate youngsters are suffering now.

In the light of this misfortune, wouldn't it be wise of them now to think of similar horrible consequences that might result from their own folly? Perhaps they themselves will be similarly battered. Perhaps they are headed for more serious injuries followed by months of anguish. Perhaps they will be killed or permanently disabled. Or perhaps they will go through life with the mental anguish of having mangled or killed someone else.

It is doubtful that any of the wild drivers is so cock sure as to assume it cannot happen to him. More likely he just doesn't think. His mind is on the thrill of flying low or doing tricks with his car, or on the reckless satisfaction he derives from defying the standards of safety.

But how many of these drivers have ever considered the other side of the subject? . . . that they can do far more for their self esteem and their prestige by exercising wisdom rather than folly. This column believes that a young man who is made of the right stuff should enjoy being known as a safe and courteous driver. At the same time he should get some personal satisfaction out of the thought that he's doing his part toward preventing traffic tragedies.

Of course, this isn't asking anyone to be a mope. Being too pokey creates another kind of hazard. But anyone can maintain a fine record by driving according to the dictates of law and common sense. After all, those standards were adopted because men of sound judgment regard them as reasonably safe. Whoever has doubts about that is invited to check on the causes of accidents. Of all the crashes we hear about, how many happen when either of both drivers are observing the law and common sense? On the other hand, how many happen as a result of speed or taking other kinds of chances.

In relation to this problem, Town Topics of the Gainesville Register published an interesting letter from a young hot-rod enthusiast. The boy complains that older people do not sufficiently appreciate the ingenuity and skill these youngsters are applying to their souped-up cars and suggests that highway patrolmen and policemen sponsor hot-rod clubs encouraging youngsters to apply their interest rather than waste time hanging around street corners.

The young fellow has something there, up to a certain point. Not many people will deny that there is something constructive in developing a car to a higher standard of perfection. A boy develops his own mechanical knowledge and skill by building additional power and safety features into the racer. But the trouble is that when his job is done he has a more powerful weapon of destruction. According to general opinion, a hot-rod is intended to

Lack of storage space will not prevent Cooke County farmers from taking advantage of the government wheat loan program this year. In case no other storage is available they can pile their wheat on the ground and still participate in the loan program.

Wm. Bezner, president of the county Farm Bureau unit, said Wednesday that he had received assurance of the special arrangement that day from J. Walter Hammond, Texas Farm Bureau president.

He further advised that ground storage will be used only as a last resort, and that efforts are under way now to acquire additional inside space in case it is needed. One such location considered is the large vacant airplane hanger at the Gainesville airport.

Additional information on the special storage arrangement, the loan prices that can be expected and later transfer to permanent storage can be received from H. B. Newberry, administrator of the government agricultural program in Cooke County.

Meinrad Yosten, son of Mr. and Mrs. Nick Yosten, volunteered for service with the Marines and left Dallas Monday for San Diego, Calif., to begin boot training. He was a member of this year's graduating class at Sacred Heart High, and joins a brother in the service. PFC Gilbert Yosten is on duty in Korea. Mr. and Mrs. Yosten and the Albert Spires of Gainesville took Meinrad as far as Denison Sunday afternoon and he joined other Marine volunteers on the rest of the trip to Dallas. There were 24 boys in the group.

Marines On Leave

Home for their first leaves since joining the Marine Corps are Pfc. Their new assignments take them to Camp Pendleton, Oceanside. The boys trained at San Diego. Pat Stelzer who began training later than his buddies has at least another week of training before getting his leave. When the group shot the M1 rifle for the record during the final phase of training Evans, Williams and Stelzer qualified as experts and Evans, top shot in his platoon, received a steam iron as a prize. Luke and Meurer qualified as sharpshooters and Hoenig and Stoffels rated as marksmen. The boys' new orders call for "duty beyond the seas" sometime in August.

25 Students Enroll For Summer School

Twenty five students from Muenster, Nocona and Saint Jo have enrolled for the summer classes that started Tuesday morning at the Muenster public school under the supervision of Troy Stewart. Nocona tops the enrollment list with a total of 13, Muenster is second with 9 and Saint Jo has 3. Eighteen of the students are taking high school subjects and the remaining seven are taking elementary subjects.

Stewart also disclosed that this week is the deadline for high school enrollment, that is for students who expect to earn a credit for their work. Later it will not be possible for them to put in the required length of time. Elementary or high school students who wish to have additional instruction in their weaker subjects can still be accepted next week.

MHS Has Summer Homemaking Class

Girls who were members of this term's homemaking class at MHS and others who have had homemaking for at least two years can earn a half credit this summer if they enroll in the course being organized this week, according to Mrs. Bill Searcy, instructor.

Meeting for the first time this Thursday those interested in the vacation course will arrange plans for the summer program. Principal group activity will consist of repainting and over-all renovating of the homemaking department. In addition each girl will receive work to do at home, Mrs. Searcy said.

The program has been tentatively outlined as follows:

June 3—First organized meeting for interested students. Those unable to be present may still qualify for admission into the class if they let Mrs. Searcy know by Monday, June 7. If enough report the group will be divided into two classes each meeting on alternate nights. If one class is formed meetings will be held every night.

June 4-18—Meetings in the homemaking room, 8 to 11 p.m. every night except Saturday and Sunday.

After the three-week session, a social event, swimming and a picnic.

From June 23 to 25 Mrs. Searcy will attend a homemaking teachers workshop in Denton and from August 9 to 13 she'll be in

Rev. Christopher Urges Prayer at Memorial Service

Father Christopher Paladino, speaking at the Memorial Day service here last Sunday recommended prayer more than praise as a special remembrance for the service men who died in defense of the ideals and liberties we cherish.

He presented several reasons why the immortality of the soul must be accepted as a philosophical fact, then asserted that the honored dead live on in spirit and our greatest service in appreciation for their sacrifice is to offer prayers in atonement for any of their offenses which may not have been marked off the eternal record. He said we cannot do more for them than beseech Almighty God to hasten the complete happiness for which they were intended.

A disappointing crowd of some 150 persons attended the service which started with benediction in Sacred Heart Church then moved in procession to the cemetery.

Rites at the cemetery opened with prayers for all dead of the parish at the crucifixion group, after which the crowd moved to the memorial area and children placed a bouquet on each service man's grave before Father Christopher spoke and led in prayers. Then VFW members conducted the military service consisting of a three-volley rifle salute and taps.

Gold star mothers all wore white carnation corsages presented by the VFW Auxiliary.

Hood Man Delivers First Wheat Here

Cecil Welch of the Hood community has the distinction of delivering Muenster's first load of 1954 wheat. He brought 70 bushels to the Muenster Elevator last Saturday. Last year's first load was brought in by Alois Trubenbach on June 3.

Welch harvested the wheat from a six acre field which he estimates would average 25 to 30 bushels per acre. The grain tested 62 and its moisture content was 12.93.

San Antonio at the state convention.

Last week in August, 23-27, will be devoted to checking home projects. Each girl will be expected to show the results of working between 70 and 75 hours during the summer to receive credit.

Gumption Pays; Judy Receives Her Diploma in Spite of Long Illness

Judy Trubenbach, 13, who has been battling a crippling ailment since she was five, completed the first big step in her determination to get an education when she received an eighth grade diploma this year—and she intends to go on into high school with her class. Starry-eyed Judy hasn't let braces, crutches and a wheel chair prevent her from going to school and enjoying a variety of hobbies.

She was a member of this term's graduating class of Sacred Heart Parochial school and was there with the other 42 boys and girls when diplomas were handed out in Sacred Heart church.

The determined girl has managed to keep up with her school work despite two operations and

many months spent in hospitals. Judy's ailment developed when she was 5. At first doctors thought it was polio. Later they found it to be a spine tumor, and an operation was performed.

She entered the first grade with her little friends. Her limp wasn't too noticeable then, but it kept getting worse.

Last year, when Judy was in the seventh grade, another operation was necessary. Doctors tried to straighten her spine. She was in a full length cast for six weeks, in and out of the hospital, with only three months in the classroom.

Judy studied at home. Sisters from Sacred Heart visited her regularly, giving private instruction, and she made her grade. This term was better. She was in class almost every day for a half day. Afternoons she studied at home. Even with braces and crutches she walks with difficulty. She has to have special leg exercises every morning.

Despite her handicaps, Judy plays the piano and does oil paintings when she isn't reading, which is her favorite pastime. She sews, too, and helped make her graduation dress.

Last summer Judy, her mother and grandmother, Mrs. Tony Trubenbach, made a pilgrimage to the shrine of St. Anne de Beaupre in Canada, drawing strength and courage from their visit.

Judy and her mother are making plans now to return to the shrine this summer.

Myrick Elected New President of Lions

Dr. T. S. Myrick is M. D. Kaderli's successor as president of the Muenster Lions Club. He was elected Tuesday night at the club's regular meeting in the public school lunch room.

Other officers elected are M. D. Kaderli, first vice-president; J. J. Wieler, second vice-president; Ervin Hamric, secretary-treasurer; Marty Klement, lion tamer; J. P. Flusche, tail twister; Herbert Meurer and Urban Endres, trustees.

The Lions also voted to sponsor the local schoolboy baseball team through its summer schedule by assisting Managers Dick Cain and Father Christopher with their home games. The club will have charge of admission prices and concessions.

As a parting gift the Lions presented a pen and pencil set to Weldon Cowan, former school superintendent who is now in business in Nocona. In his presentation Herbert Meurer said that Cowan, as secretary-treasurer for the past two years, was the hardest worker and greatest contributor toward the club's success.

Five Escape Death As Head-on Crash Demolishes 2 Cars

Five persons were injured, one seriously, in a two car collision about 5:30 Saturday afternoon at the intersection of Highway 82 and Sycamore Street near the east city limit of Muenster.

Most seriously injured is Patricia Travelstead, 14, daughter of Mr. and Mrs. Cecil Travelstead of Gainesville. She received severe facial cuts and bruises and a fracture above the knee of her right leg. After treatment at M&S Hospital in Gainesville she was transferred to Gaston hospital in Dallas.

Others injured were Paul Brewer, 21, of Forestburg, Lois Blakely, 14 of Gainesville, and Billy Joe Dennis, 16, and Leonard Reiter, 15, both of Muenster. COMMUNITY BUYS \$145.80 WORTH OF BUDDY POPPIES

Members of the VFW Auxiliary this week expressed their gratitude for the community's generous response to the Buddy Poppy sale last Saturday and Sunday. The total revenue from the sale was \$145.80. The poppies were on sale at most business houses in town and at all masses at Sacred Heart Church Sunday.

Grain Better Than Normal But Under Bumper 1953 Crop

In general the grain crop of this locality is well above average this year, but considerably short of last year's record breaking yields. Scattered reports from farmers, most of whom have done enough harvesting to make a rough estimate, indicate that the community wheat yield will probably be between 15 and 20 bushels per acre. Early oats seems to be lagging somewhere near the normal figure and later oats, like the wheat, is doing better than usual.

Rain Tuesday night, measuring .79 inch, is causing another delay in harvest. However, opinion seems to be that all is still well and little or no loss will be sustained unless the wet weather continues.

At this time practically half of the grain has been cut. Much of it is in windrows awaiting the combine. That applies especially to wheat, only a few thousand bushels of which have been harvested. Arthur Felderhoff said about 2000 bushels of wheat have been delivered to his elevator through Tuesday. A good percentage of oats has been baled and some has been cut with binders for later threshing.

Felderhoff said that early wheat arriving at the elevator has been good with a test of 60 or higher and a moisture content of under 13 per cent, the limit which is acceptable for storage in the government loan program. A few loads which edged over the government moisture limit, were still acceptable to grain buyers, who are more lenient than the government in their moisture requirements.

However, up to now farmers have not been much concerned about having their wheat turned down for storage. In fact, a few who could have stored sold anyway because they did not care to bother with red tape for the 3 cents advantage in price. If prices drop later in the season, as they did in past years, more will be applying for storage, Felderhoff said.

Muenster Knights Re-elect Officers

Down the line the Knights of Columbus favored their past year's officers at the annual election of officers Wednesday night. The only exception was in the Ballot for Outside Guard in which Ed Endres nudged Leo Lawson out of position.

Other results of the election, some of which were on motion for election by acclamation following the first nomination, returned all incumbents to office headed by Charley Hellman as grand knight.

The others re-elected are Deputy Grand Knight J. P. Flusche, Chancellor J. A. Fisher, Recorder J. A. Klement, Treasurer J. W. Fisher, Advocate Arthur Hellman, Warden Joe Vogel, Inside Guard Leo Sicking and Trustee Herbert Meurer. Other trustees serving unexpired terms are J. B. Klement and Arthur Endres.

After the election Grand Knight Hellman announced that appointed officers will be continued as follows: Chaplain Father Louis Deuster, Financial Secretary Joe Luke and Lecturer Alphonse Hoenig.

The council also voted to approve the application of John David Meurer for membership in the order. He will join at an initiation in Windthorst next Sunday.

Mr. and Mrs. Douglas Robison of Bryan are spending most of this week with their parents.

Little Owls Lick Local Schoolboys In Practice Game

For four innings Muenster and Gainesville had a tight game in their practice tussle here Sunday, but the Little Hooters put on a scoring spree in the fifth and sixth to swamp Dick Cain's proteges 8 to 0.

All went fine in the early frames while Willie Walterscheid's arm was fresh, but the situation changed when Gaines-

ville boys started their slugging and Cain was caught without a reserve hurler. The Hooters scored 4 in the fifth and 4 more in the sixth.

The Gainesville team, made up almost completely of the Gainesville High team that took second place in District 9-AA, is conceded to be one of the strong contenders in the North Texas Summer Baseball League.

Muenster's team is made up of players from both of the local school teams. The starting lineup Sunday consisted of Wendell Richey, William Walterscheid, Jimmy Fisher, Clifford Swirczynski, Jerry Henscheid, Albert Knabe, Gilbert Knabe, Dickie Cain and Carl Walterscheid.

Cain has hopes that a few more of the eligible boys of the community will join the roster and strengthen the weaker spots. With those improvements he is confident of making a good showing in the summer league.

Other teams besides Muenster and Gainesville are Sanger, Pilot Point, Krum and Northwest. All games will be played on Sunday afternoons, the season starting next Sunday and ending on August 8.

First opponent for the local team is Sanger. The game will be played here, starting at 2:30.

Dorothy Rohmer and Morton Wright Wed In Dallas Ceremony

Miss Dorothy Rohmer of Dallas, daughter of Mr. and Mrs. John Rohmer of Muenster, and Morton Wright of Dallas, son of Mr. and Mrs. Douglas M. Wright, also of that city, exchanged marriage vows Saturday, May 29, during a nuptial mass in St. Edward's church at Dallas.

Rt. Rev. Msgr. John Brady performed the double ring ceremony and officiated at the mass at 10 o'clock. Charles Fryar, vocalist, and th church organist provided the wedding music.

When Mr. Rohmer gave his daughter in marriage she was wearing a lovely gown of Chantilly lace over satin with a moulded bodice and wide waltz length skirt. A seed pearl tiara held her fingertip veil and her only jewelry was a pearl necklace and matching ear rings, gifts from the groom. She carried an arm bouquet of white carnations.

Mrs. Tony Rohmer was matron of honor and John McDonald of Dallas was best man. Mrs. Rohmer wore a ballerina length dress of pink lace over nylon taffeta and carried a bouquet of pink carnations.

David Forgey and John Wright were ushers.

Mrs. Rohmer attended her daughter's wedding in a rose crepe dress with brown accessories and Mrs. Wright wore a navy sheer ensemble.

Immediately after the services a reception and dinner honored the couple in the apartment of the bride which she shared with Misses Celine Felderhoff, Olive Haverkamp and Rose Holec. There were thirty guests.

Mr. and Mrs. Wright left on a wedding trip to Little Rock, Ark., and New Orleans, La. For traveling the bride wore a silk broadcloth dress with white accessories. When they return they will make their home in Arlington. He is employed in an airplane factory.

Mrs. Wright is a native of Muenster and attended Sacred Heart school. She has been employed at A. Harris in Dallas for the past three years.

THE SUBVERSIVE SARDINES

The reported shipment of tons of Communist guns and ammunition to Guatemala failed to disturb the apathy of the vast majority of Americans because they still do not fully recognize the menace of the Communist conspiracy and its growing worldwide strength. "It can't happen here" is a reaction expressing a state of mind that daily becomes more dangerous. The overthrow

of Russia by the Communists 37 years ago was achieved with about the same number of Red conspirators as there are in America today.

This isn't to suggest that we are threatened with a violent revolution. But 30,000 hard-core commando-troop Communists, strategically placed in our vital industries and communication centers, could conceivably wreck the defense of our nation if we were attacked, for instance, by a ground-based force from any part of Central or South America. A fantastic idea? Not when we clearly understand the facts about Communism, its unchangeable objective of world domination, its tactics and its almost unlimited power to get things done.

Fantastic Methods

Herbert Philbrick, who was for nine years an FBI counterspy working intimately with leading American Communists, was an overnight guest in my home recently. To illustrate the nature of the Communists' subversive work, he tells the story of a shipment of sardines to our east coast

Success Is the Goal of Every Graduate

By Rev. Daniel Lord, Author, Lecturer, and Youth Director

THE NORMAL CROWDS of young men and women emerging from the cocoon of their adolescence, listen to the commencement orators, receive the congratulations of admiring relatives, and wonder whether to beat their diplomas into crowbars, batons, baseballs and bats, microphones, or keyboards.

Before any young person, male or female, chooses a career, he should ask himself: will my work

make God's world to be more what we expect God's world to be, and the children of God a little more like their Father who is in Heaven?

IF A PERSON answers this question wisely, he will pick a career that is Rev. Daniel Lord important for our age. Then, entering this career, he will realize that its value to his race and to his age will depend on how he lives within the career.

For example, a young man can become a doctor. He can choose to be a physician, cafe-society style; or he can devote his life to the care of God's sick. A young girl can become a teacher. She can choose that career merely because it is safe, comfortable, secure in job and pension; or she can reason, "I

should like to give truth and beauty to the little sons and daughters of the Almighty."

YOUNG PEOPLE OF AMERICA should plunge into their careers with eyes set on service as God's children. If they give generously, they will grow in the giving. If they serve unselfishly, they will find themselves receiving a surprising return.

Success is not easy to attain. We must be the best possible human beings. That means thought and prayer in gratitude for what endowment God has given us, and the hope that He will add still more.

IT WOULD BE frightening to come to the last great accounting and find that the only gain of a lifetime of work is the money left behind for relatives to wrangle over and tax officials to confiscate.

Rather, let the record of your work be of a kind that can bear the scrutiny of God Himself, a record of people made happy because you served them, of development in your own soul, of advancement of those around you.

ONLY THEN DO WE earn the one success worth gaining in life: the success that gains from the Saviour the beautiful summary of a life well-spent. "Well done, good and faithful servant... Enter thou into the joy of the Lord."

† Public Posters Service, Washington 17, D. C.

from Russia. The FBI sought to intercept the shipment. The sardines, in cans, were being thrown overboard by the ship's crew under the pretense they were spoiled. The FBI discovered that the cans floated, and that instead of sardines they contained little 24-page booklets.

The booklets were printed in Spanish. Philbrick has an actual photographic copy of one. The front cover states that the booklet contains the rules for playing the American game of football. But when you open the book you find that the first paragraph, still in Spanish, gives specific instructions for sabotaging electric power lines, transformers, central electrical headquarters, conduits, cables, turbines—complete and detailed instructions on techniques of espionage as well as of sabotage.

How To Make Bombs

Under the guise of football rules, the booklets are smuggled to the Communist conspirators in this country in this devious, unbelievable manner. In one section of the booklet are specific instructions for making bombs. Sizes vary. The big bomb, which the booklet blueprints is powerful enough to stop a tank or a large vehicle. A smaller one is just large enough to stop a patrol car or a motorcycle policeman. There is a very small bomb, with diagram for painstaking assembly, which is designed to fit inside of a hatband.

Here are the instructions, printed in Spanish: "If you have a citizen whom you wish to eliminate, you simply place one of these little bombs inside the band of his hat while he's at his favorite bar or restaurant. And when he goes to leave the restaurant and puts on his hat, he blows off the top of his head. It's very effective. He doesn't talk any more." This information, together with the technical instructions for sabotaging America's industrial strength, was a part of the training in the deeply underground, elite Communist cell into which Herbert Philbrick worked his way.

Brain Washing

"The Communist instructors," Philbrick relates, "were experts; they knew their business, believe me, and they went to work on the minds, the hearts, and the souls of the young people in these cells, in order to change them from ordinary, average, decent young people into something entirely different, into hardened, steeled,

disciplined, Communist Party members—and believe me that is a transformation!

"It is such a transformation that although the young people would continue to walk about the streets of Cambridge (Mass.) appearing on the exterior as normal human beings, their insides had become as much transformed as though they were men from Mars. The average decent American with his healthy mind is absolutely unable to grasp what goes on inside the unhealthy mind, the twisted mind, of these Communists." And this fact Philbrick points out, is keeping our people from properly understanding the Communist danger and taking adequate measures to combat it. I would strongly recommend that the publications of the Congressional investigating committee be obtained and studied by every citizen. Your Congressman can get them for you. They constitute a primer in Communist infiltration.

Softballers Win One in Practice, One for the Record
Muenster softballers started their 1954 season with a bang walloping Sinclair 17-0 here Tuesday night in the league opener after licking TP&L 17-5 in a practice game the preceding Friday.

The Tuesday night slugfest officially went on the records as 17-0, but the score would have been considerably higher if marked down for the full 7 innings.

After the first half of the fifth Muenster led 17-0 and the game was declared officially ended in accordance with a league ruling that a game is over if one team leads by 10 or more runs at the end of the fifth.

There was plenty more scoring, including 3 for the visitors, in the

remaining two and a half innings that were played for practice. But the exact count isn't known because the scorekeeper folded up his book at the official end of the game.

Reynold Reiter pitched a steady game for Muenster, allowing only three scattered hits.

Next on schedule for the Muenster boys is a game with the National Guard here Friday night. Wednesday they play the Gainesville VFW team, probably on the league's official diamond in Gainesville. Because of wet weather necessary work on the official diamond was not ready in time for the early loop games.

But this laboratory research is only the beginning. The second step in the development of TEXO FEEDS is *practical field research* where TEXO is fed under average feeding conditions when the emphasis is placed on performance. Then and only then, is any TEXO FEED placed in your TEXO Store. That's why you know that you can count on TEXO for results. It's proven in the laboratory . . . proven in performance.

Yes, the pay-off is in results . . . results that mean more dollars in your pocket. We invite you to try TEXO. Feed it! Compare it! Then you'll know why thousands of Southwestern feeders are turning to TEXO.

Remember, only TEXO offers you TEXO FEEDER DIVIDENDS . . . dividends in savings . . . dividends in results. Start saving TEXO FEED tags today and start getting more results from every feeding dollar.

Head-on Crash - - -

Travelstead. Reiter claimed to be all right after the crash and did not report to a hospital. However, because of soreness the next day he went to M&S for a checkup and remained there until Tuesday. Dennis also was dismissed from the hospital Tuesday.

The irony of the wreck is that the occupants of the two cars were due to meet here. Miss Travelstead and Dennis had planned a date for Saturday night and she came to Muenster with Brewer and Miss Blakely to check on other details of the evening.

The crash occurred just after Brewer's car entered the city limits as Dennis turned left on the highway at Sycamore. Both cars swerved in an effort to avoid the collision, but they swerved the same way and came together with the two left headlights meeting almost squarely. Both vehicles are so badly damaged that they are hardly worth repairing.

Highway Patrolman Lester Robertson and Sheriff O. E. Whisnand investigated the accident.

However, it seems there should be a way of meeting the kids half way on the youngster's proposition. Maybe a requirement that each hot rod must be specially registered with an agreement that it will be de-souped if involved in traffic violations. Races supervised by police could be arranged occasionally to give the hot rods their official tryout. In other words give the boys a chance to build and try them, but lower the boom if they make traffic hazards of them.
