# New York, D.C. Attacked By Terrorists

*The American flag flies proudly on Ellis Island while the twin towers of the World Trade Center stand tall above the New York City skyline in this photo taken in October of 1999. Terrorists destroyed the towers on Tuesday, September 11, 2001. These attacks have left a void in the New York City skyline, as well as in the hearts of all Americans.*

## Rumors Fly Following Terrorist Attack

Late Tuesday afternoon, rumors began circulating about the possibility of fuel shortages following the terrorist attacks. Word quickly spread of stations at different sites around the country that had raised the price of gas to as much as \$5 per gallon.

Upon hearing this, many Spearman citizens drove to one of the local gas stations to fill their car up with gas. Hansford County businesses did not take advantage of the fears, and did not raise prices.

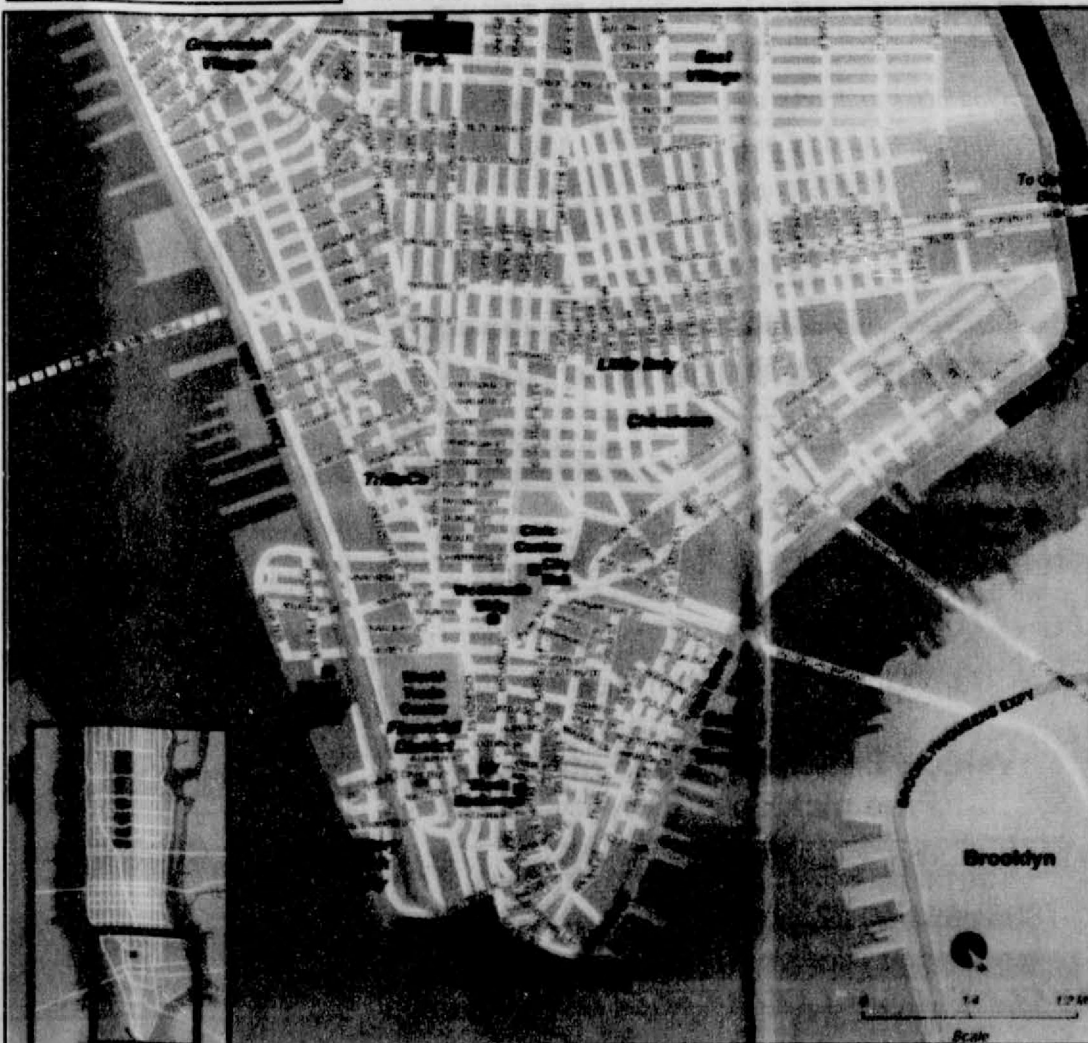

Texas Attorney General John Cornyn said price gouging after the attacks in New York City and Washington, D.C., violated the Texas Deceptive Trade Practices Act. He promised legal action against violators.

Gov. Rick Perry issued a declaration extending the protections of the act. He warned gasoline retailers, car rental agencies, and hotels and motels against price gouging.

*Cars lined up at Corner Service Station, as well as many other local gas stations, when word was spread of a possible gas shortage.*

*Below is a map of lower Manhattan, detailing the streets and the area involved in the devastation following the terrorist attack of the World Trade Center towers.*

and  
Live

by Catherine R. Smith

*This week will live forever in the minds of Americans. The devastation and loss of life following the terrorist attacks in New York and Washington, D.C. are catastrophic.*

*The events of Tuesday have been likened to several in history, including Pearl Harbor, the Civil War, the death of John F. Kennedy, etc.*

*Throughout my life I have heard people talk about the day John F. Kennedy was shot. They remember exactly what they were doing and the sorrow they felt when they received the news.*

*The closest I have come to such events is the Space Shuttle Challenger explosion and the Oklahoma City bombing.*

*I will, however, always remember Tuesday, September 11, 2001.*

*I had just arrived at class at Panhandle State when my professor told us that an airplane had crashed into one of the twin towers of the World Trade Center. I assumed that it was a small plane that had lost control, or had technical problems. After class someone told us that a plane had crashed into the other tower. At that instant it hit me, "That means it was not an accident!"*

*I never imagined that someone could or would deliberately fly a plane, much less a commercial plane, into a building with so many innocent people beginning their workday.*

*I immediately called our daughter, Jennifer, who lives on Andrews Air Force Base in Washington, D.C. She said that they were fine, and that they had locked down the base and put the military on full alert.*

*I cannot begin to express the pain and sorrow I feel for those involved - I can only pray. I pray that they will feel the presence of God with them as they grieve and try to begin to put their lives back together.*

*I pray for the cities of New York and Washington, D.C. as they try to recover from these tragedies.*

*I also pray for our government officials as they try to sort through the debris to find who was behind these brutal attacks, and then decide how and when to respond.*

May God bless and keep you; May He make his face to shine upon you, and be gracious to you; May the Lord lift up his countenance upon you, and give you peace.

## Blowin' In The Wind

**by Dwayne Mitchell**  
The Southwestern Pioneer Windmill Association members put up two windmills on Saturday before Labor Day. The mills erected were a ten-foot Samson and a six-foot Currie. Both mills are from the J. B. Buchanan collection and are in the windmill park.

The Samson mill is one that Mr. Buchanan had restored but never had put up. It was brought to the SPWA's barn and some additional work done on it, and a tower was built.

The Samson is a brute of a mill, living up to its namesake for strength and durability. The mill has two very large, heavy gears that mesh with the drive gears. The two large gears drive a large rocker arm that gives the sucker rod its pumping stroke. The Samson is open geared and is a remarkable addition to the Windmill Park.

The second mill erected is a 6-foot Currie that was originally put up by Mr. Buchanan at his farm. It was brought to Spearman as one of the first mill erected in the park. It was decided that it needed to be re-erected so it was taken down in May, the wheel and pumping mechanism were rebuilt and mounted on a new tower. The tail was re-lettered by Wanda Reed.

The other Currie in the park, an eight-foot mill, was taken down on the same day as the two mills were put up. It will be rebuilt and re-erected in the park.

There are presently eleven mills in the Windmill Park, one at the corner of the windmill barn, one at Prairie Motors, one each at First National and First State Banks, and one at "Crazy Corners" that are part of the SPWA's collection. Individuals have erected four mills around town, and the museum has a mill. There is a mill on the Gruver Highway at Burch Contract Pumping so there are presently twenty-two mills in the Windmill City.

I am also seeing more and more of the small scale mills, both metal and wooden, being displayed around town.

An Aermotor mill will be erected in the park across the street from the high school, hopefully this fall. The Currie will be re-erected, a Chandler mill is in the restoration stages, a John Deere is being restored, a Woodmense is nearly ready to go up, just to name a few of the mills that are in the Windmill City's future.

If you have mills to give to the SPWA, particularly Aermotors, please let a SPWA member know.

Also, if you want to adopt a mill or buy a commemorative brick or tile, contact Gina at the Chamber Office.

Again, remember that the International Windmills' Trade Fair is in Spearman June 5-8, 2002. There's much to do in preparation for that event.

## Thank You

I want to thank all people who remembered me while I was in the hospital getting a new hip joint and having surgery on the other one.

I would especially like to thank the over 200 people, and especially June Barkley, for making my 90th birthday great!

This RYLA Camp is sponsored by District 5730 of Rotary International. District 5730 covers Northwest Texas, including the Texas Panhandle, South Plains, and Permian Basin. Some of the RYLA programs that John and Art attended included: Fundamentals of Leadership, Ethics of Positive Leadership, Importance of Communications Skills in Effective Leadership, Problem-Solving and Conflict-Management, Building Self-confidence and Self-esteem, Elements of Citizenship, The Importance of The Free Enterprise System in American Economics, What Rotary Is and What It Does for the Local Community, and Patriotism and The Love of Our Country. # Among The Neighbors

by Helen Fisher

Early last week the Amarillo News-Globe carried a lengthy article and picture about Coach Ric Smith. His outstanding record as a football coach was detailed. In addition, the article stated, "Some might even say that Ric Smith's best coaching hasn't been in football at all, but in track and field, coaching shot putters and discus throwers."

Spearman, as well as other districts and teams, recognize his outstanding success, according to the article.

The article was extremely complimentary and interesting. Many in Spearman also recognize that Coach Smith's influence on his students in essential character and morale will live with them long after their school days.

Many of his players, ex-players and some parents were interviewed for the publication and all agreed on his effective coaching style and influence.

The Smiths have lived in Spearman 21 years, and for the last ten years he has been head coach.

No doubt an important contribution to his career has been the support of his wife, Sandee, and their daughters, Sunshine and Shari.

Mrs. Smith teaches science in the 4th and 5th grades. Both daughters finished high school here. One, Sunshine, and husband Harold Davis, live in Perryton. He is a coach there and she teaches in Liberal. They have a little daughter, Kylee. Their other daughter, Shari and husband Chad Githens, live in Spearman. She attends Frank Phillips College and he farms. Their little daughter is

Kriston.

The Smiths are members of the First United Methodist Church in Spearman. Her hobby is playing bridge, and if she is as successful in that as in her other endeavors, her opponents would be reluctant to face her.

Mrs. Smith is complimentary of Spearman and the citizens, and expresses the hope that they will be here for the rest of their teaching careers.

Dr. Scot and Julie Martin, Dr. Tom and Linda Latta, and Dr. Clint and Jodie Irwin were guests of a veterinary pharmaceutical company last week in San Francisco. Among their other entertainment, they took a tour to Sausalito and a boat trip to Alcatraz. Some also played golf, some shopped, and all enjoyed the time there. They were gone from Thursday through Sunday.

\*\*\*\*\*

Now, that's an ugly rumor---that the origin of the phrases "in a jam" and "in a pickle" - both meaning a mess-up - was based on some of the results of your neighbor's culinary efforts!

\*\*\*\*\*

Freddie Largent was pleased to have guests from Friday through Sunday. Her daughter Pam and Rick Prieto and their family from Lubbock were here. Pam, a Spearman Alumni, is a teacher of the deaf in Lubbock.

To celebrate Freddie's birthday in July (no conjecture as to which), her other daughter Debra and Larry Gallimore, and grandson, came from Beaufont, and were

here four days.

The light wind atop the hill at Hansford Cemetery on Monday afternoon seem to drift memories of Millie Euchanan to the sorrowing family and friends gathered for her interment.

Millie came to Spearman as a young, pretty bride of Wilson Buchanan many years ago from Bucklin, Kansas.

Their children, Judy and Johnie, are natives of Hansford County. Millie was ever at her husband's side - through his life as a cowboy, Executive of the Chamber of Commerce, Director of North Plains Water District, and State

Representative.

She was much admired for her cooking and craft abilities. Evidences of her crafts will be a reminder for her family and many friends in their homes for many years.

On behalf of her families, the Buchanans and Ferrins, gratitude is expressed for the food and floral offerings, the visits, calls and other evidences of sympathy.

Especially thanks go to Gloria and Don Knox, Rubyjo and J.D. Wilbanks for the catered barbecue meal provided for the families on Monday.

Sorrow is eased somewhat by the realization that others grieve also.

Lake Depth--September 10, 2001--39.75 feet

The week after Labor Day was slower at the Park, but this is the time of year that retired couples frequently camp during the week rather than wait for a weekend. We had 4 out of the county RVs that followed that pattern this week. They stayed on the north side of the dam and left Saturday morning. Craig Vinson of Spearman camped on the office side Friday and Saturday nights.

Some nice catfish were caught this week. Jim told me an amusing story of two men from Hooker fishing Friday night. One of them, Howard Ebersole caught a 15-pound catfish before they left Saturday morning. Another party of young men fishing nearby, but not catching, saw them leave and quickly moved to that spot.

Charley Laxton then moved to their old place and then caught a 15-pound catfish, a 10-pound one, and a third that weighed 3 to 4 pounds. The young men caught nothing. Sometimes life treats us that way!

Charley and Claudine Laxton fed fish to over a 100 people at the Manor last week. The Manor provided the trimmings except the Laxtons took tomatoes, cucumbers, and onions from their garden.

The Men's Group from the Assembly of God used the shelter Saturday.

Jim is seeing a lot of deer now. He reported a fawn killed by a vehicle and left by the side of the road between the entrance to the park and the office.

Last month Jack Lane, PDRA board member from Stinnett, cooked strippers from Lake Texhoma for the board and Park personnel. This Tuesday, Jim is cooking fish from Lake Palo Duro

for the same group. Mandy and JoAnn are doing the rest of the meal.

If you are on the Palo Duro Creek side of the Lake, you will see quite a number of blue herons and night herons. If you drive the Gruver--Spearman road watch for the wild turkeys at the bridge over the Palo Duro Creek.

A call from Tom Spivey of Gruver explained that the Spivey brothers that came to Hansford County in 1900 did have a brother named Temple Spivey, but he was only 16 and too young to file on land. Unmarried, he died at 25 and was buried in Texhoma. The lady hunting information on our Spiveys had found out that her Temple Spivey, born in 1868, was the son of a George Spivey, possibly the brother of Isaac Temple Spivey, the patriarch of the clan in Hansford County.

## Greyhound Moms Meet

In their first meeting of the school year, Greyhound Moms discussed booster plans for the fall semester.

The group voted to pursue the combining of the efforts of the Greyhound Moms and the Gruver Boosters into one unified organization.

A tailgate party was scheduled for October 12, the opening of district football play; in the football parking lot.

Mica Been was delegated to put the Gruver stadium flags in place for junior varsity home games while Jenny Abernathy was selected to that task on varsity home games.

Paula Clemmons was chosen to take orders for Greyhound decals for players and fans and to pursue selection of Gruver caps and visors to be sold by the group.

Tickets were distributed for the September Beef Raffle September 28, 2001.

Also discussed were the possibility of expanding the booster club to include academic booster activities, and sponsoring a cookout once or twice a year for high school students.

The group will meet again before the start of the basketball season.

## Committee Recommendations

Gruver Elementary Principal Diane Brown has announced three new members of the Academics 2000 Planning Committee. They are Kimberly Irwin, Chad

Logsdon, and Barbara Stavlo.

The group recently reviewed the Campus Improvement Plan, including the grant calendar and made changes they deemed as needed.

Upon the suggestion of Brown, the group agreed that "Meet Your Teacher," an initial parental involvement prior to the beginning of school, should be shortened to 11:00 - 11:30 with the following picnic being 11:45 - 12:30.

It was also suggested that notes be included both in the migrant summer packets and the end of school letters to remind parents of the migrant student opportunities available.

## Junior Varsity, Junior High Have Season Openers

GHS junior varsity Hounds opened their season Thursday, September 6, with a 6-0 win over the White Deer Bucks.

Manny Lopez scored the winning touchdown when he ran an interception back. The junior varsity will be idle this week but take on Wellington at Claude on September 20.

The eighth grade Hounds came away with a big 34-0 win in their first game Thursday, September 6, in White Deer.

Scoring for the Hounds were Kade Shoulders on a 22-yard run, Ivan Brionnes on a 15-yard run, Stephen Salazar on a White Deer fumble in the end zone, and Matt Messer, twice, on runs of six and five yards.

Colby Griffin scored two on an extra point run while Crispin Borunda scored twice on PAT runs.

The seventh grade Hounds fell to the White Deer Bucks 6-40 in their September 6, meeting. The Hounds' touchdown was scored by Conrad Curry on a 12 yard run.

The junior high will host the Wheeler Mustangs Thursday, September 13.

## This and That

**You gotta love the Hounds!**  
Facing 2A Canadian last Friday, the Hounds were greatly outweighed by a Cat line with listed weights ranging from 210 to 300 pounds. Several of the Hounds looked across the line at players nearly double their weight. But the Hounds took their places

with enthusiasm and at halftime stunned the Cat fans with a scoreless tie.

Football posters recently made of the Hounds bill them "Texas Tuff," an apt name for the team.

Although the Cats' superior size, and Gruver injuries and fumbles took their toll in the last half, you gotta love a team that "plays" big.

A poignant picture graced the September cover of "Progressive Farmer" magazine. Several farmers, were holding hands with eyes closed in prayer as they awaited the judicial outcome of their water rights for irrigation versus the rights of the Sucker fish.

In the judicial ruling, the fish got their wish as the law of the land stated they had more rights than the farmers. This may serve as an alert to area irrigation farmers who may have to deal with the Arkansas Shiner, which was declared an endangered species last year.

## Open Letter

I would like to ask whoever is taking my gardening tools and sprinklers from the Cemetery to please return them. I leave them out so that I can water and take care of the graves.

# Lynx Roll Over Hooker

by Jeff Beedy

The Spearman Lynx traveled to Hooker, OK Friday night, September 7, 2001 for their season opener against the Hooker Bulldogs.

The Lynx have high hopes of a great year this year as they have nine starters on both sides of the ball coming back from a year ago. They showed the Bulldogs that they mean business as they rolled over Hooker 35-0 in a game that was dominated by the Lynx.

The Lynx came out on fire early as they held Hooker to one first down on their first possession of the night. Hooker was back to punt when the ball went over the punter's head. Tanner Beedy hit the punter causing him to fumble and Coy Herrington recovered the ball at the 7 yard line. On the first play of scrimmage, Eduard Vasquez ran up the middle from 7 yards out for the first touchdown of the season for the Lynx. The PAT kick by Vasquez failed and the Lynx led 6-0 and never looked back from that point.

Midway through the second quarter, the Lynx were starting a drive at their own 13 yard line. On 2nd and 10, John Brock broke loose around the left end behind some excellent blocking and raced 87 yards for a touchdown. The Lynx led at this point 21-0 with just under 6 minutes left in the half.

The Lynx held the Bulldogs to that one first down until about five minutes before the end of the first half when they mounted a drive that took them down to the Lynx 24 yard line. On 4th and 11 from the 24 with 50 seconds remaining in the half, Lance Baker knocked down a Hooker pass at the goal line to kill the drive and the Lynx still led 21-0 at the half.

The 3rd quarter was a defensive battle as neither team could manage to get into the end zone. The Lynx put together a drive that took them down to the Hooker 17 yard line after a 33 yard run by Vasquez. On the first play of the 4th quarter, Brock ran off tackle

from 17 yards out for the score. The PAT was good and Spearman increased their lead to 28-0.

Spearman's final score came after J.D. Schufeldt recovered a fumble at the Hooker 36 yard line. On 3rd and 18, Kevin Beedy hit Lance Smith on a short pass out in the flat and Smith ran for a first down to keep the drive alive. A couple of plays later, Baker ran over the left tackle from 4 yards out to score Spearman's last TD of the night. The PAT from Vasquez was good and the final score was Spearman 35 and Hooker 0.

The Fritch Eagles are next on Spearman's list of victims this Friday night, September 14th at 7:30 p.m. at Lynx Stadium.

After taking care of Hooker last Friday, the Lynx are ready for a big test from Class 3A Fritch. Fritch is seeking revenge from a year ago as the Lynx came from behind to defeat the Eagles in the last few seconds of the game. Fritch is also coming off a big win against West Texas last week.

# Hounds Fall in Cat-astropic Last Half

by Harletta Carthel

Like a Jekyll and Hyde team, the Hounds shut down Canadian the first half of play then fell to the Cats 27-0 the last half.

The powerful Canadian team had two easy scoring chances in the first half, but a fumble recovery by Ryan Abernathy on the Hound 10 yard line and a Kade Carthel fourth and goal quarterback sack denied the Cats' glory.

The Hounds also had two scoring opportunities dashed in the first half when they failed to capitalize on a Hunter Bevell fumble recovery on the Cat 33 yard line and a Carthel punt knockout that backed the Cats up to their own two yard

line.

The Hounds' offense was sparked with several nice runs by David Puebla and an 18 yard pass reception by Carthel following a Gabe Lopez interception. Gruver, however, was never able to sustain a drive in the contest.

Canadian's scores all came in the second half when the Cats took advantage of their superior line size, injuries to key Hound players, and Gruver fumbles.

The Cats' first touchdown came at 7:57 in the third quarter on a quarterback sneak behind 300 pound Cat center Jesse Wagner. Hound Jose Rodriguez is credited with a blocked PAT kick following

the score. Using their superior size again late in the third quarter, Canadian pushed up the middle for their second payoff.

The Wildcats also cashed in on two of three Gruver fumbles deep in Hound territory in the fourth quarter. After running back a fumble from the Gruver 25 yard line, Canadian encoered with a fumble recovery on the Hound six yard line, which resulted in a score two plays later.

The Hounds will lick their wounds and prepare for a Homecoming clash with the Texhoma Red Devils at 7:30 p.m., Friday, September 14, in Greyhound Stadium.

## PUBLIC NOTICE

### BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS Special Election NOVEMBER 6, 2001

#### PROPOSITION 1 (HJR 52)

Proposition 1 would amend the constitution to relinquish the state's claim to certain disputed land in Bastrop County. The amendment would confirm legal title to that land, excluding any mineral interests, to the individuals who hold a disputed title to the land. The amendment would prevent a loss of title by people who bought and paid for property that was never transferred by the state because of faulty surveys.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for the clearing of land titles by the release of a state claim of its interest to the owners of certain land in Bastrop County."

#### PROPOSITION 2 (SJR 37)

Proposition 2 would amend the constitution to establish the process for issuing up to \$175 million of state general obligation bonds and notes to provide aid to counties for access road projects to serve border colonies. Generally, a colony is an economically distressed geographic area with inadequate public services (such as water supplies, sewer services, or paved roads) in a county without adequate resources to provide such services. These projects could include the construction of access roads, the acquisition of materials used in maintaining those roads, and projects related to the construction of those roads, such as road drainage. The Texas Transportation Commission, in consultation with the Governor, would be authorized to determine what constitutes a border colonia for purposes of selecting the counties and projects that would receive assistance.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of state general obligation bonds and notes to provide financial assistance to counties for roadway projects to serve border colonies."

#### PROPOSITION 3 (SJR 47)

Proposition 3 would amend the constitution to authorize the legislature to exempt green coffee and raw cocoa held in Harris County from property taxes in order to qualify Harris County as an exchange port for coffee by the New York Board of Trade. The authorization of exemption would not apply to any other county.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to exempt from ad valorem taxation raw cocoa and green coffee that is held in Harris County."

#### PROPOSITION 4 (HJR 1)

Proposition 4 would amend the constitution by setting the term of the fire fighters pension commissioner at four years. The constitution currently provides that the duration of all offices not otherwise fixed by the constitution may not exceed two years.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for a four-year term of office for the fire fighters pension commissioner."

#### PROPOSITION 5 (SJR 32)

Proposition 5 would amend the constitution to allow a municipality to donate outdated or surplus equipment, supplies, or other materials used in fighting fires to an underdeveloped country. Current state law does not allow anything of value belonging to the state or its political subdivisions to be donated to another nation.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing municipalities to donate outdated or surplus firefighting equipment or supplies to underdeveloped countries."

#### PROPOSITION 6 (HJR 45)

Proposition 6 would amend the constitution to require the governor to call a special session of the legislature so that the legislature can appoint presidential electors when the governor determines that it is reasonably likely that the outcome of the election for a presidential candidate's electors will not be clearly determined in time for the appropriate electors to meet before the federal deadline to cast their votes. Under current law, when the people vote for a particular candidate for president, in reality they are voting for that candidate's electors who will meet to cast their votes for president. If the electors are not determined by the certification date, no electoral votes may be cast for the state. The proposed amendment ensures that the state's electoral votes will be cast.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment requiring the governor to call a special session for the appointment of presidential electors under certain circumstances."

#### PROPOSITION 7 (HJR 82)

Proposition 7 would amend the constitution to authorize the Veterans Land Board to issue and sell up to \$500 million of additional general obligation bonds to finance additional home mortgage loans to veterans. Additionally, the proposed amendment would authorize the Veterans Land Board to use assets from the land and housing assistance funds to create, operate, and improve veterans cemeteries.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the Veterans Land Board to issue up to \$500 million in general obligation bonds payable from the general revenues of the state for veterans housing assistance and to use assets in certain veterans land and veterans housing assistance funds to provide for veterans cemeteries."

#### PROPOSITION 8 (HJR 97)

Proposition 8 would amend the constitution to allow the legislature to authorize the Texas Public Finance Authority to issue and sell up to \$850 million of general obligation bonds. The proceeds of the sale of the bonds would pay for construction and repair projects or for the purchase of needed equipment by the General Services Commission, the Texas Youth Commission, the Texas Department of Criminal Justice, the

Texas Department of Mental Health and Mental Retardation, the Parks and Wildlife Department, the adjunct general department, the Texas School for the Deaf, the Department of Agriculture, the Department of Public Safety, the State Preservation Board, the Texas Department of Health, the Texas Historical Commission, or the Texas School for the Blind and Visually Impaired.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the issuance of up to \$850 million in bonds payable from the general revenues of the state for construction and repair projects and for the purchase of needed equipment."

#### PROPOSITION 9 (HJR 47)

Proposition 9 would amend the constitution to authorize the legislature to provide for filling vacancies in the legislature without an election if only one person is a qualified candidate in the election to fill the vacancy. Under current law, a special election must be held to fill a vacancy in the legislature even if there is only one qualified candidate.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the filling of a vacancy in the legislature without an election if a candidate is running unopposed in an election to fill a vacancy."

#### PROPOSITION 10 (SJR 6)

Proposition 10 would amend the constitution to authorize the legislature to exempt certain items of personal property from property taxation by political subdivisions of the state if the property is warehoused temporarily in a location in Texas to be assembled, stored, manufactured, processed, fabricated, or repaired and then forwarded to another location inside or outside Texas. The proposed amendment would authorize a political subdivision that imposes ad valorem taxes, at its option, to tax this type of property after a local public hearing on the matter.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to promote equal tax treatment for products produced, acquired, and distributed in the State of Texas by authorizing the legislature to exempt from ad valorem taxation tangible personal property held at certain locations only temporarily for assembling, manufacturing, processing, or other commercial purposes."

#### PROPOSITION 11 (HJR 85)

Proposition 11 would amend the constitution to allow a schoolteacher, a retired schoolteacher, or a retired school administrator who serves as a member of a governing body of a school district, city, town, or other local governmental district, including a water district, to receive compensation for serving on such a governing body. Currently, state employees or other individuals who are compensated directly or indirectly from state funds are barred from receiving a salary for such service.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to allow current and retired public school teachers and retired public school administrators to receive compensation for serving on the governing bodies of school districts, cities, towns, or other local governmental districts, including water districts."

#### PROPOSITION 12 (HJR 75)

Proposition 12 would amend, repeal, or relocate several sections of the current

constitution to improve the clarity, organization, and consistency of the constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to eliminate obsolete, archaic, redundant, and unnecessary provisions and to clarify, update, and harmonize certain provisions of the Texas Constitution."
