Mrs. L. D. Hennington is a new employee at Streu Hardware Store, where she will take charge of the china and gift department.

Lieutenant and Mrs. Floyd Ross of Washington, D. C., felt almost like they had enjoyed a visit in Hereford last week when Mrs. Ross opened a telegram addressed to her office from Dy-alitha Bradley, home service chairman of the Deaf Smith County Red Cross.

Add to the list of men who can really cook: E. W. Womble, whose specialty is fried chicken, fried in large quantities. There may be better chicken than that Mr. Womble fries, but when there is they'll just have to call it something else.

Members of the steering committee of the Deaf Smith County Red Cross camp and hospital service, are reminded of the meeting to be held at four o'clock Monday afternoon at the county court room. At that time specific tasks will be assigned to each club group in the county.

Another reminder: There is just one more week in which to buy the Federal Tax Stamp to adorn the windshield of your automobile or truck for the coming year. The tax is \$5 and the stamp must be displayed by July 1, with a heavy penalty in prospect if you fail to have your stamp by that time.

Unpleasant possibility: If Jim Lipscomb, in addition to handling the sale of the auto tax stamps, had to handle the enforcing as well. It might be really rough on Jim and interfere with his after-five-o'clock-fishing.

Public Invited To Court of Honor At Courtroom Tonight

Nine members of the recently organized Air Scout Troop will receive special Air Scout Awards at the Court of Honor to be held tonight at 8:45 o'clock at the county court room. Members of both Troop One and Troop Two (the Air Scout troop) will receive awards.

District scout officials state that these air scout awards are the first to be made in this area and every boy who receives this award has constructed a model airplane as part of the requirements. The models will be on display at the courtroom this evening and parents and troop committeemen are especially invited to attend the court of honor and see the model airplane display.

Urin Streu is scoutmaster of Troop One and Joe B. Ellis is scoutmaster of the newly organized Troop Two.

Next Week To See Harvest In Full Blast

Wheat had begun to roll into Deaf Smith County elevators this week as farmers started to combine a crop which has matured under some of Mother Nature's stiffest handicaps.

Some wheat has been harvested in practically all sections of the Hereford territory, but elevator men do not expect the harvest to be going full blast until about the middle of next week. Much of the grain which has been cut thus far is volunteer and planted acreage in most sections is not yet quite ready to cut.

Not enough grain has been cut to get any idea of average yields, the grainmen report. Yields reported range all the way from eight to 25 bushels an acre, with the best reports coming from the Heselman community.

Elevators this year have ample storage space for the crop, which will admittedly be considerably short of the Deaf Smith County average.

New "TT" Coupon Book Being Mailed to Holders Of ODT Certificates

The gasoline rationing panel of the Deaf Smith County War Price and Rationing Board is busy this week mailing out the new "TT" ration books to holders of ODT certificates. The new coupons are good for five gallons of gas each, the same value of the present "T" coupon.

Under the present set-up, farmers and other truck owners will not have to make a special trip to the rationing office to apply for renewal of gas rations. Clerks are mailing out the books to all certificate holders registered with the local board, and (Continued on Page 12)

Volunteers Urgently Needed in USO Program To Start Next Thursday

"We have just one week to get ready for the opening of our USO and that means we will need a great deal of volunteer help signed up now."

Mrs. Ed Loerwald, chairman of the volunteer recruiting committee of the USO made this statement today as she urged individuals and organized club groups to sign up immediately for USO work. "There will be a place for every person who wants to help," says Mrs. Loerwald. "And if the response to this appeal is good, the duties will not be burdensome on any one person."

The possibilities for USO service are varied. The club will need the aid of married couples to serve as chaperons and directors in the evening; it will need help in running its educational program—providing and arranging reading material, directing crafts, etc.; help with the hospitality program, to find homes and rooms for soldier's wives, to aid in introducing the men into Hereford homes and many other "hospitality" features; aid with the recreation program and the hostess pro-

Gas Explosion Results in Death of Child

Nine-year-old Mary Marjory Ponder, daughter of Mr. and Mrs. William Ponder of Westway, died at 8:30 o'clock Friday morning in the Deaf Smith County hospital as the result of burns suffered when a butane bottle exploded Thursday evening and flames destroyed the Ponder home.

Marjory, who had been playing out-of-doors, came into the house and lay down on a bench near a window in the kitchen. The inflammable gas was thought to have been thrown on to her body through the open window. Mrs. Ponder, who was in the living room, immediately ran to the child but the highly inflammable gas had already ignited and the little girl was badly burned. Rushed to the hospital at Hereford, she remained conscious until three o'clock and died at 8:30 o'clock.

Funeral services were held Saturday afternoon at the Black Funeral home in Hereford and burial was in West Park Cemetery.

Born March 17, 1934, at Shallow Water, Mary Marjory came to the Westway Community with her family in 1937. She had attended the Westway School and was loved by her teachers and classmates.

Immediate survivors are the parents, Mr. and Mrs. Wm. Ponder, a sister, Anita, and two brothers, Curtis and William, Jr. The child's grandmother Ponder has made her home with the family for some time.

Relatives and friends from out-of-town who attended the funeral were Mr. and Mrs. G. D. Ponder and family of Anton; Mr. and Mrs. Major Echols, Hart's Camp; Mr. and Mrs. C. E. White and daughter, Hale Center, and Mrs. Elsie Langhan of Monroe. (Continued on Page 12)

Hereford Boy Missing In Bomber Raid

Lt. Wendell Kermit Wilson, son of Mr. and Mrs. S. O. Wilson has been reported missing in action, according to a telegram received by his father this morning.

Lieutenant Wilson, who was stationed with a bomber group in England, has been missing since June 13, and though no details were available here this morning, it was thought that he was a member of the bomber squadron which took particularly heavy losses in a raid over Germany on June 13.

A son was born to Lieutenant and Mrs. Wilson yesterday and has been named for his father. Mrs. Wilson the former Miss Frances Higgins, is in Eagle Rock, Calif.

Chairman Wants Ideas On Location, Manager For Proposed Market

Mrs. Ira Ott, chairman of the marketing committee of the county home demonstration clubs, states that surplus garden produce will probably be available within the next two weeks and she asks for suggestions from the public as to where the proposed exchange center should be located.

Mrs. Ott would also welcome suggestions of a possible manager for the market or any applications from persons interested in the job.

Purpose of the market is to prevent any waste of surplus garden products in Deaf Smith County this year.

USO Needs Furniture For Temporary Use

Jesse Stanford, who is in charge of the collection of furniture for temporary USO headquarters in the City Hall is issuing an appeal to all citizens to lend any furniture, games or other equipment which they may have which could be used to add to the general comfort of the temporary USO headquarters.

As soon as the permanent building is ready for use, the USO will purchase complete furnishings, but in the meantime there is great need for tables, chairs, lamps—in fact any item of furniture which you would find useful in your own living room.

Persons having such furniture are asked to notify Mr. Stanford.

"Show Business At War" Gets M. O. T. Treatment

Besides being thoroughly entertaining, "Show Business at War," March of Time which shows at the Star Theatre on June 30 and July 1, performs a real service by showing the American people the true extent of the contribution that wining folk are making toward winning the war.

As described in last week's "Life" magazine the new March of Time has everything as entertainment. Irving Berlin sings his famous, "Oh How I Hate To Get Up In The Morning;" Bob Hope ad libs his own individual brand of comedy; Rochester exercises his gravel voice; and pretty girls—among them Hedy Lamarr, Carole Landis and Mariene Dietrich—dance and joke with service men.

There are also shots of the technicians, contributing their part toward making soldier entertainment a success. And pictures show Clark Gable, Jimmy Stewart and many other movie greats who have donned Ugly Sam's "shoot suits."

Both as a description of an important part of the war effort and as a big-time entertainment, the new March of Time is a must-see.

New Commander Takes Over At Internment Camp

Col. A. M. Risdan took over duties this week as commanding officer at the Hereford Internment Camp, where he takes the place of Col. Ralph Hall.

Colonel Risdan, a field artillery officer, comes here from Alva, Okla., where he has been in command of an internment camp similar to the one located here. Colonel Hall will take over command of the Alva camp.

The new commander was in town Monday afternoon and already has met many Hereford citizens who have expressed the town's welcome.

He joins with local people in hoping for the friendliest relation between military personnel and the town.

Colonel Risdan states that camp news not in the "military secret" class will be made available to the public.

Mrs. Risdan is remaining in Alva temporarily and will probably visit relatives in San Antonio and Houston before coming here.

Hereford's Juvenile Delinquent Rate Still Low, Reports Sheriff Newell

Though the increased rate of juvenile delinquency over the nation as a whole is fast becoming one of our most serious problems, offenses by juveniles have showed no increase in Deaf Smith County, it was stated this week by Sheriff J. O. Newell.

"A few weeks ago some kids stole some cigarettes from a Hereford grocery store," says Sheriff Newell. "But as a rule, the youngsters in this community are giving very little trouble."

However, Mr. Newell goes on to point out that the practice of teen age youngsters staying on the streets until a very late hour at night has serious possibilities and that this problem is really one for the parents of the children involved. One night recently, the sheriff reports, there were three teen age youths, barefooted and very poorly dressed, still on the streets at about midnight. Questioned, the boys stated that they were from Portales, N. M., and that they were sleeping in an old car parked on a vacant lot in town. They had no money.

Problem For Parents
"Though these kids insisted that their parents knew of their whereabouts, we had no way of being sure about it," Mr. Newell states, "So we started them back to New Mexico."

He continues, "There seem to be more of these drifters in town than usual, and there is material here for a juvenile delinquent problem of robberies by teen age youths such as have been reported in Canyon and Plainview recently."

"In general" the sheriff points out, "Any juvenile delinquent problem can be blamed on the parents who let their children roam the streets and in other ways fail to give the supervision and guidance that the children need."

New Delinquent Law
A new delinquent law passed by the last session of the legislature will give law enforcement officers a much better method of handling the problem of teen age delinquents, the sheriff states.

The new law is aimed at correction, rather than punishment, for youthful offenders; and among other things provides that juveniles shall not be confined in jails with adult offenders. It provides for mental and physical examinations of the delinquents and where the juvenile court so rules, that they shall be sent to a place of detention aimed at correction of faults and training for good (Continued on Page 12)

Bond Facts

It has been our policy to report to the people of Deaf Smith County from time to time regarding sales of bonds in our county, and have used the columns of this paper for that purpose.

We are coming to you with a report at this time which does not show up too good, but we are asking that you join with others in making this a good report by the end of this month.

Deaf Smith County was given a quota for the month of June of \$30, 100.00. Of this amount up until last Saturday night there had been raised the sum of \$14,500.00 which leaves us an amount of \$15,500.00 to be raised between now and the last of the month.

Experience of the past has proved that it is only necessary to acquaint the people of this county with the facts and they are ready to do their part, and that is the reason we come to you with this report. Perhaps you have thought you would buy some bonds and have just put it off for one reason or another. Now is a good time to put this thought into action. Let's buy some bonds and keep our record clear.

J. C. Roberts,
County Chairman, Deaf Smith County
War Bond Sales Committee.

Funds for the first month's operation have been received and Hereford's USO will open next Thursday, July 1, with temporary headquarters at the Fireman's Hall while negotiations for completing of building arrangements are being made, it was stated by Robert L. Thompson, chairman of the permanent council, which met Monday night to make further arrangements for opening of the club.

Council Increased
Some changes in organization were made with the budget and building committees added to the personnel of the permanent council and several new committees named to enlist the aid of other citizens in carrying out the USO program.

Tom Alderson, Ray Conaway and Ralph Hastings of the budget committee and R. C. McGilvary and Grant Fuller of the building committee were added to the council list as were S. E. McLallen, Jimmie Gillentine, D. C. Kinsey, Lyle Blanton, Mrs. John Olson, Mrs. D. H. Alexander and Mrs. Wayne Evans.

New Committees
New committees named included Mrs. Wiley Roberson, A. J. Schoeter and Mrs. Reed Williams to have charge of the employing of a permanent hostess; Debs Knox, Jim Kirby, Mrs. Burt France, Virginia Eberle and Lorraine Sisk, entertainment committee; Jesse Stanford, Lee Conklin, R. C. McGilvary, Mrs. J. C. McCracken and Mrs. Frank Gyles, equipment committee; Mrs. Ed Loerwald, Mary Kate Brotherton, Mrs. Leo Hood Robert L. Thompson, volunteer recruiting committee; and Virginia Bowman, to choose her own committee to be in charge of providing current reading material for the USO. (Continued on Page 12)

ELIGIBILITY FOR LOAN
The following factors determine eligibility for a Commodity Credit loan:
1. The 1943 acreage of wheat must not exceed the wheat allotment for the farm.
2. At least 90 per cent of the 1943 war crop goal must have been met. (If, because of abnormal weather conditions, it has been impossible to meet this goal, the above provision may be waived on the recommendation of the county committee.)

Also with regard to eligibility rules, Mr. Gass pointed out that no farmer is eligible for a loan until he has turned in the wheat measurements for his farm. (Continued on Page 12)

Announcing that wheat goals in 1944 will be increased as a result of the recent International Food Conference, N. E. Gass, chairman of the county AAA committee this week gave further information on the marketing of the 1943 crop.

The loan value for wheat in Deaf Smith County has been set at \$1.20 for No. 1 grade, an increase of 10c a bushel over the 1942 loan and several cents higher than the loan rate originally anticipated.

Storage Allowance
Concerning the date of maturity of Commodity Credit Loans, Mr. Gass stated that loans on warehouse-stored wheat will mature on demand or by April 30, 1944. Farm storage loans will mature on demand or by April 30, 1945, and the farmer will receive an allowance advance of seven cents per bushel on farm-stored wheat at the time the loan is made. The farm storage allowance will be earned by the producer only when the wheat is delivered to Commodity Credit Corporation on or after April 30, 1944. Wheat delivered to CCC must not have suffered any storage damage. The farm storage allowance advance is not earned by the producer, if he delivers his wheat to any other purchaser than the Commodity Credit Corporation; and in payment of the loan this fact will be taken into account.

ELIGIBILITY FOR LOAN
The following factors determine eligibility for a Commodity Credit loan:
1. The 1943 acreage of wheat must not exceed the wheat allotment for the farm.
2. At least 90 per cent of the 1943 war crop goal must have been met. (If, because of abnormal weather conditions, it has been impossible to meet this goal, the above provision may be waived on the recommendation of the county committee.)

May Still Give Cigarette Fund
Hereford citizens have contributed \$526 to the fund to buy cigarettes for servicemen overseas and the original goal of 10,000 packs (plus a bonus from the tobacco manufacturers) has been reached, with some surplus to add to the fund.

However, sponsors believe that there are many more individuals who would like to contribute so the campaign is being extended for a few days. Donations for the fund may be left with Jim Robinson, W. C. Pitman or Bill Smith or may be left at the Brand office; and it is believed that the goal may be topped by a large sum.

According to the plan of various cigarette manufacturers, cigarettes for mailing to overseas service units are sold at approximately 4 1-2 cents a pack.

CHDA NOTES

A Victory Garden is a fine thing, but it does not really serve its purpose until the surplus vegetables are conserved to make up for some of those holes in the family larder caused by the shortage of canned goods. Home demonstration club members study the various methods of food conservation as part of their club program, but this year it is encouraging to note that many non-club members are requesting conservation information. This week we had a request from Mrs. Jno. P. Slaton who wrote that she and a number of her neighbors would be interested in a special meeting and demonstration on various food conservation methods, and we are scheduling this meeting for the near future.

Readers may think that we are over-emphasizing this point. But again we want to remind you of the serious dangers of oven and water bath canning of

non-acid fruits and vegetables. The following quotation is from Asa C. Chandler, professor of biology, Rice Institute, and advisory chairman, Houston and Harris County Nutrition Committee:

"The chances for accident are too great to be worth the risk if a larger number of people undertake to can non-acid vegetables or meats by the boiling water bath method. Outbreaks of botulism will almost certainly occur. It is like having rattlesnakes on your golf course. You may keep your ball on the fairway and treat the rattlesnakes with impunity, but sooner or later somebody a little less careful or accurate will suffer. A poison so powerful that a teaspoonful is enough to kill 40,000 guinea pigs is not a good thing to take chances with. By comparison rattlesnake venom is only mildly poisonous."

One gardening principle that applies generally—to keep the garden working. Plan now, and get the seeds that will have time to mature before the first frost date. You can do this by noting the growing time listed for the various vegetables in your seed catalogue. However, we believe that you will find that most vegetables planted now will have time to mature. And even in August, you can plant nearly any of the vegetables you would customarily plant in a spring garden and they will have ample time to mature.

Mrs. D. H. Bryant is planting Porter tomatoes now and will have a good late fall crop.

Deaf Smith County will probably have a high acreage of carrots this summer and fall and a suggestion from the U. S. Department of Agriculture gives information which may be of value in conserving shipping space for the carrot crop. Tests by trained investigators have showed that carrots shipped with the tops left on lost 50 per cent more water than the topless ones. Another point in favor of the carrots without tops was that in six trial lots they had slightly higher sugar content than the lots shipped at the same time with tops.

Mrs. L. R. Brady got instructions from this office for building an electric food dryer and she is making one for herself and one for Mrs. Bill Womble. At present we have only one set of plans, but others have been ordered.

And if you don't care to build your own dryer, ready-made models are on the market.

It's a sure fire epic of brawling men and tinselled women.

Rayon Ceilings

CPA's new regulation setting definite maximum prices on rayon stockings is based upon construction, which in turn governs quality. All full-fashioned rayon hosiery sold at retail must be marked with the ceiling price and the gauge or needle count. Gauge and needle count govern wearability, not sheerness. First quality, full-fashioned rayon hosiery prices now range from 71 cents to \$1.31. Hosiery with special features such as "non-run," or mesh, reinforced heel, sole and welt, etc., are now priced from 98 cents to \$1.67. Irregulars, seconds and thirds are cheaper.

Signs of Peace
and you'll want to be there!

What if Peace brings new cars promptly or not? You'll be yearning to get away from headlines—rations—hours of volunteer war work... to get around again with your weary, happy soldier boy—home at last. And with driving restricted now, your car should have plenty of miles left, just so you're not tossing them away these days, by half-ruining your engine with acid.

That's no "new scare." You never yet stopped any auto engine without acid products of combustion trapped inside. But formerly, the frequent fast driving that fully heated the engine kept expelling acid. So the hazard was mild compared to what it is today, when acid works while your rationed engine rests.

One great recognized precaution against this is to OIL-PLATE your engine by changing to Conoco Nth motor oil. Its special

added synthetic acts "magnet-like"—to attach OIL-PLATING direct to precious inner parts. Much like body parts plated against atmospheric corrosion, the cylinders, rings, bearings and other parts now hard to replace are OIL-PLATED against internal acid corrosion. The close-surfaced OIL-PLATING that combats acid while the car stands, will help your essential transportation today. And may a happier tomorrow see you right off quick on your well-earned Victory tour! Change to Conoco Nth oil now. Continental Oil Company

By MRS. MERLIN KAUL

Tragedy struck again in this community Thursday evening when the explosion of a butane bottle at the Wm. Ponder home resulted in the death of nine-year-old Marjory Ponder and the loss of the Ponder home.

Marjory had gone into the house from play and had lain down on a bench in the kitchen and gone to sleep, and it is thought that the gas was thrown onto her body through an open window. Her mother was in the living room and immediately ran to the child and sought to extinguish the flames, but was unable to do so before the child was fatally burned. She was rushed to the hospital and was conscious until 6 o'clock Friday morning. Death occurred at 8:30 o'clock Friday morning.

Mary Marjory Ponder was born on March 17, 1934 at Shallow Water. In 1937 she moved with her parents to this community. She attended school at Westway where she was loved by teachers and playmates. Her sweet smile will long be remembered by all who knew her. She was nine years old on her last birthday. She leaves to mourn her loss her parents Mr. and Mrs. William Ponder, a sister, Anita, two brothers, Curtis and William Jr., and her grandmother Ponder who lived in the Ponder home, besides other relatives.

Funeral services were held Saturday afternoon from the Black Funeral Home and interment was in West Park Cemetery.

Relatives here for the funeral included Mr. and Mrs. G. D. Ponder and family of Anton, Mr. and Mrs. Major Echols of Hart's Camp, Mr. and Mrs. C. E. White and daughter of Hale Center, and Mrs. Elzie Langhan of Monroe.

The Ponder family has been staying in the J. A. Roe home since the tragedy. A few pieces of furniture were saved and a little clothing from the rooms farthest from the fire. Grandmother Ponder had an antique bronze pitcher which was over 100 years old and which she highly prized. After the fire she found the pitcher still hot but otherwise still whole.

A tool shop which was well built about two years ago may be made into a house. Until then the family will live in a two room house which is on the place. The sympathy of the community and surrounding country goes out to the family in their bereavement and loss.

Memo from ME to YOU

I know this isn't the usual way to advertise a moving picture... but I want to tell you about a movie that isn't at all the "usual type."

I just received information that the picture **HITLER'S CHILDREN** had been scheduled for the Star Theatre here in Hereford for Sunday, Monday and Tuesday, July 4-5-6, so I rummaged around in my "junk" and came up with a copy of **READER'S DIGEST** for February, '42 and read AGAIN the condensed version of Gregor Ziemer's "Education for Death" from which the screen play **HITLER'S CHILDREN** was made.

Well, as I read and read... paragraph after paragraph... I got madder and madder, and it's a good thing that it was only a condensed version of the story, or I guess I would have "blown up" before I had finished a fourth of the book.

My mind revolted at the thought of German women who have been "legally" declared UNFIT to bear Nazi children, being sterilized in wholesale numbers!

My conscience cried out, "God help us..." as I read of healthy young German girls who are encouraged to bear "State Children" for the glory of the Fuehrer without benefit of such "old-fashioned" ideas as love, marriage and home.

My heart sank when I came to the following "nursery" rhyme that is taught little tots who are hardly big enough to talk...

We love our Fuehrer,
We honor our Fuehrer,
We follow our Fuehrer,
Until men we are;

We believe in our Fuehrer,
We live for our Fuehrer,
We die for our Fuehrer,
Until heroes we are.

I read of feeble-minded and physically weak children (mostly under 10 years old) who are of no use to the Fuehrer, and are put to sleep in the "Hitler Chamber" never to awaken. If at the age of 10 they show signs of having enough intelligence to perform simple tasks, they are sterilized and forced into slavery for the "fatherland."

If time and space would permit, I could cover this entire newspaper page with hundreds more such instances of equal or even more revolting nature... and rest assured that they are absolute and uncensored FACTS that are not just hearsay, but are taken from the author's own personal experiences inside of Hitler's New Germany!

Words cannot adequately describe **HITLER'S CHILDREN**, so I'll let it go at this... if you only see ONE PICTURE during the whole of 1943... don't miss **HITLER'S CHILDREN**!

Sincerely,
O. F. HARDWICK,
Manager Star Theatre.

Old fashioned cherry pie is as American as the flag, but that is no reason for excluding other delicious cherry recipes. Here is a recipe, rather holiday in tone, to add variety to the usual midsummer cooking. It fits in with any sort of menu and it has that happy-ending quality that appeals to busy housewives.

Mrs. E. F. Glaser used this recipe often when she lived here several years ago and it soon became a favorite among her friends. You'll like the extra bit of spice that goes with it.

Let's
Cook
Something

Cherry and Crumb Pudding

- 1 cup sugar
- 1-2 cup butter
- 3-4 cup flour
- 2 cups pitted cherries
- 1 teaspoon cinnamon
- 1-4 teaspoon nutmeg

Place the cherries in a buttered baking dish. Mix the sugar, butter and flour until a crumbly mixture is formed and then spread over the cherries in baker. Sprinkle with the cinnamon and nutmeg and bake in 350 degree oven for 45 minutes.

Research begins... not in a test tube... but in the mind of a man.

Since Phillips Petroleum Company has the world's largest proven gas reserves, it was natural that the minds of hundreds of Phillips research men should early turn to the problem of new and better things from petroleum gases as well as from petroleum.

The resulting development, in the early 1930's, of POLYMERIZATION enabled the use of light petroleum hydrocarbons (gases) which until then had been regarded as by-products of little value. Soon, several years before Pearl Harbor, they became feed stock for 100 octane gasoline.

Still other Phillips pioneering processes, alkylation, H.P. alkylation, and cycloconversion permitted the production of 100-plus octane aviation gasoline, a significant contribution to extra airplane horsepower.

Phillips was one of the first, and remains one of the largest manufacturers of high octane aviation fuels. Thus we see how the peacetime study and work of Phillips scientists is of great value in our all-out war on the Axis. Similarly, when victory comes, today's accelerated Phillips wartime research program should bring to the American motorist new and greater gasolines for his post-war car.

Uncle Sam's

NEW FOOD GUIDE

HERE is Uncle Sam's new food guide. It's called the basic seven and consists of seven groups of foods which should be included in every day's menu.

It tells the same story which most women have learned in the widely distributed Guide to Good Eating. But it puts the same facts in a little different way.

So cut this out and tack it on the kitchen wall. If the family gets some of each of the seven groups of food each day plus anything else you care to add, they will have a well-balanced, body-building diet.

THE BASIC SEVEN

- GROUP ONE** . . . Green and yellow vegetables, some raw—some cooked, frozen or canned.
- GROUP TWO** . . . Oranges, tomatoes, grapefruit or raw cabbage or salad greens.
- GROUP THREE** . . . Potatoes and other vegetables and fruits, raw, dried, cooked, frozen or canned.
- GROUP FOUR** . . . Milk and milk products, fluid, evaporated, dried milk, or cheese.
- GROUP FIVE** . . . Meat, poultry, fish or eggs or dried beans, peas, nuts, or peanut butter.
- GROUP SIX** . . . Bread, flour and cereals, natural whole grain—or enriched or restored.
- GROUP SEVEN** . . . Butter and fortified margarine (with Vitamin A added).

War Crop Penalties Not Removed in This County

By error the Brand last week published a story stating that the AAA penalties for failure to meet war crop goals had been removed in Deaf Smith County. These restrictions have been removed in most of the state but are still in effect in 16 Panhandle counties, AAA spokesmen state; and farmers in Deaf Smith County should continue to work on the assumption that the original penalty rules are in effect.

Sometimes when you've a long distance call to a war-busy place, the operator will say—

"Please limit your call to five minutes. Others are waiting."

This doesn't happen all the time, because many long distance calls go through about as usual. But whenever we have had to ask that

calls be kept to five minutes, there has been a fine spirit of co-operation from the public.

We want to say thanks for that. Your help and understanding count double these days.

Bishop Fitzsimon Pays Visit To Prisoners of War at Hereford Camp

(Editor's Note: Information in the following story comes from "The Register," Texas Panhandle Edition of the newspaper published by the Catholic Church.)

Bishop Laurence J. Fitzsimon spoke to prisoners at the Hereford Internment Camp on Saturday, June 12, at the invitation of the resident Army chaplain, the Rev. Achilles P. Ferreri of the Cleveland diocese, and with the approval of the camp's commanding officer. His Excellency spent most of the day with the prisoners.

Accompanying Bishop Fitzsimon was the Rev. Norbert Grubber, temporary pastor of St. Anthony's Church, Hereford.

After a dinner as guests of the commanding officer, Bishop Fitzsimon and his priests, accompanied by Colonel Hall, visited compounds where prisoners of war are held. All prisoners are Italians and virtually all are Catholics.

The Bishop explained that he was their ecclesiastical superior and hence vitally interested in their welfare. Pointing out the interest of the Pope in war prisoners everywhere, Bishop Fitzsimon urged faithful practice of religion as the one great means of alleviation of sorrows. Later the men sang Italian songs and were led in their singing by the Bishop.

Bishop Fitzsimon also visited the interned officers, among whom are two priests, one of whom expressed the thanks of the group for the bishop's visit and for the radio which he has provided for them.

Altogether, Bishop Fitzsimon spoke six times during the day to various groups and in a statement in "The Register" praised the splendid cooperation which his party received from the military authorities and characterized the visit as "one to commend itself to the American spirit of justice and fair play."

ALDERSON'S

SONS in the SERVICE

Jaeger M. P. Vaughn, son of Mr. and Mrs. Al Vaughn of Hereford, has recently been promoted to the grade of Captain. It was announced this week by Col. Thomas W. Haste, commanding officer at the army air base, Bolling Field, D. C.

Captain Vaughn attended North Texas Agricultural College before entering the Army Air Corps.

Lt. Edward Fullwood, son of Mr. and Mrs. Bob Fullwood, is still stationed in Australia and likes the country and the people but is getting really homesick for a sight of the States. Mrs. Fullwood recently received some snapshots from her son which gave some idea of the landscape and scenery where he is stationed.

Cpl. Noel E. Washam, formerly of Hereford, writes of a "Believe It or Not" reunion in New York City between himself and a brother, Jeff Washam, who had not met since Jeff entered the Army in October. Writes Cpl. Washam, "Something happened to us that happens in the life of one out

of every 250,000 soldiers—meeting in a city as large as New York."

Noel graduated from Hereford High School in 1939 and his brother attended the local schools until 1940, when the family moved to Roswell. Noel is stationed at Fort Monmouth, N. J., studying telephone and telegraph repair and cable splicing. Jeff, who also holds the rank of corporal, is stationed at Westover Field, Mass., and is a radio engineer.

Henry C. Ford and Charles A. Boyd are two school friends with whom Cpl. Noel Washam would like to make contact.

Daniel Russell, now stationed at Camp Wallace, Tex., was one of five boys out of a group of 65 who passed the examination to qualify for training in the Army Specialist Training Program. Daniel is in the anti-aircraft division of the Coast Artillery. He is a son of Mr. and Mrs. W. H. Russell.

O. C. Curtsinger, son of Mr. and Mrs. Ollie Curtsinger of Hereford has recently been promoted to the rank of private-first-class and has qualified to attend a special lineman's school at the Gainesville (Fla.) Army Air Base where he is stationed with a Signal Corps battalion. Upon completion of the course, Curtsinger will qualify as an instructor and expects to be stationed at the same air field where he is taking his training.

During his first three months in the Army, O. C. passed through 23 states and spent some time in Washington, D. C. He has been stationed at Ft. Sill, Okla., Camp Upton, N. Y., and the Richmond (Va.) Air Base prior to going to Florida.

Several Hereford boys are stationed in Florida, but the closest to a home town boy whom Pvt. Curtsinger has met was a boy from Tulsa. A real Panhandle reunion—with a good deal of football argument ensued.

SEEDS of ADVICE

from
The Garden Club

Here are some helpful hints for Victory gardeners. So many gardeners are inquiring why tomato plants are shedding blossoms and developing blossom-end rot that the Extension Service of Texas A and M College has attempted to answer the question. Hot weather problems accumulate rapidly and complete failure of a crop of beans or peas, or the slow developing tomato is not unusual.

J. F. Rosborough, horticulturist for the A and M College Extension Service, says that in areas where hot, dry weather prevailed at blossoming time, incomplete pollination resulted in the shedding of tomato blossoms. The continued dry weather does not allow the stigma to stay moist long enough for the embryo seed to develop in the tomato, therefore no fruit is set. There is little you can do about it, except to keep the plants in good condition and later blossoms will result setting fruit on healthy plants.

Blossom-end rot usually is detected when the fruit is about the size of a marble or a fifty-cent piece. The fruit should be removed from the vine but as spraying does little, if any, good the most practical remedy is to keep the soil well supplied with moisture for the remainder of the fruiting season. This disease usually develops under hot and dry—today-rainy tomorrow weather conditions. Gardeners should not give way to discouragement under these troubles, but should help the plants by providing uniform moisture for the remainder of the growing season.

How to Grow Chrysanthemums
Another inquiry of gardeners on problems connected with home flower gardens is how to grow chrysanthemums successfully.

If chrysanthemum plants can be given a bed to themselves or grown on the edge of the vegetable garden, the results will be even better than in a mixed border. Choose preferably a position in full sun with a soil that is light, rich and above all, well-drained. Proper drainage is necessary if the plants are to be left in the ground all winter, and remember to use plenty of manure and give them plenty of water. A good rule to remember in transplanting chrysanthemums is "Divide and transplant your spring-flowering plants in the fall and your fall-flowering plants in the spring."

AL FRESCO PARTY IS ENJOYED AT BATEMAN HOME

Al Fresco parties rate high by popular demand during the mid-

summer season when warmer weather sends folks hunting cool spots in the open for relaxation and entertainment. Outdoor picnics and fish fries top the list for informal gatherings and one of the first of such affairs of the season was that given by the A. R. Batemans at their home on Ross Avenue Saturday evening.

Picnic supper on the lawn was the order of the day and informal do-as-you-please entertainment marked the evening's enjoyment. Incentive for the party was Mrs. Jack Mounts of Dallas, who is visiting her sisters, Mrs. J. A. Pitman and Mrs. C. C. Rockwell.

Those attending were Mr. and Mrs. J. A. Pitman, Mr. and Mrs. E. B. Hedrick, Mr. and Mrs. H. A. Close, Lt. Don Turner, Lt. and Mrs. T. A. Kincaid, Lt. Harry Duff, Lt. Friese, Col. and Mrs. Petch, Mr. and Mrs. Alton Fraser, Mr. and Mrs. Oscar Easley, Mr. and Mrs. W. C. Pitman, Mr. and Mrs. W. L. Davis, Mr. and Mrs. J. C. McCracken, Mr. and Mrs. C. C. Rockwell, Mr. and Mrs. J. H. Pitman, the honoree and the hosts.

-CAN'T SLEEP-
No need to lie in bed—toss—worry and fret because CONSTIPATION or GAS PRESSURE won't let you sleep. Be sensible—get up—take a dash of **ADLER-I-KA** as directed, to relieve the pressure of large intestines on nerves and organs of the digestive tract. Adler-I-Ka assists old food wastes and gas through a comfortable bowel movement so that bowels return to normal size and the discomforts of pressure stop. Before you know it, you are asleep. Morning finds you feeling clean—refreshed and ready for a good day's work or fun. Get Adler-I-Ka from your druggist today.

The bride was attired in an aqua crepe dress with white accessories and she wore a white carnation corsage. For the past year she has been teaching at Cambridge, Vermont. The bride-groom was attended by Cpl. Roland Tangley of the Hereford Internment Camp where the bride-groom is also stationed. At present the young couple are living on East Second Street.

This community received 3-4 of an inch of rain Monday night and Saturday evening we received 1-2 inch.

Row crops show a very poor stand and will probably have to be replanted.

Several farmers started cutting wheat. Some is making all the way from eight to 15 bushels

Mrs. Geo. Messenger and children have returned from Snyder where she has been visiting.

J. G. Smith's daughter and husband have bought the store at the cross roads and moved there last week from down south.

Sugar Supply For 1943

On basis of prospective 1943 supplies of sugar, the current

level of consumption in this country probably can be maintained, the War Food Administration has announced. The allocation of the prospective supply will be as follows: 1,153,000 tons for the armed forces, Lend-Lease and other exports, and 4,600,000 tons for civilian use. The civilian uses include an estimated 2,256,000 tons for household use and home canning, and 2,342,000 tons for industrial sugar users.

Delinquency Age Limits
The act also defines the age limits of offenders who come under its jurisdiction. The ages are over 10 and under 18 years of age for girls and over 10 and under 17 years for boys.

According to the director of the Texas Children's Bureau, which has long campaigned for the new law, it "affords protection for children and youth and legally directs that hereafter their problems will be handled on a realistic basis of the causes of the offense which they commit."

USO

Although the USO workers have no definite information on the number of hours which the club should be open to best serve the men at the Hereford Internment Camp, Mr. Thompson believes that there will be enough volunteer workers in Hereford to provide help in running the club at any time it is needed.

According to an earlier announcement, the local council will receive \$310 a month for running expenses of the USO.

The old "T" coupons will not be valid after July 1, and the new system is expected to end misuse of the commercial gas rations. Previously, expired "T" coupons had been used for passenger cars and in other ways had been traded so as to defeat the purpose of the mileage rationing program.

PRICES SET ON PRESSURE COOKERS

Specific ceilings on three war models of pressure canners have been announced by OPA. Except in the far western zone, the consumer will pay 13.90 for the National model, \$14.90 for the Wisconsin model and \$15.90 for the Burpee. In the far western zone prices are 60 cents higher because of transportation costs. Production of another 125,000 pressure cookers has been authorized by WPB, bringing the total during 1943 to about 275,000, more than in any

Maternity Care Provided

Wives of men in the four lowest pay grades of the armed forces can now get maternity care plus medical, hospital and nursing care for their babies in 23 states without cost to the family, the Children's Bureau of the U. S. Department of Labor has announced. To apply for such aid the wife must fill out a form secured from the State Health Department. Additional states are expected to have approved programs soon.

Rubber Boots For Workers

Rubber boots are now available to the following classes of workers; miners, loggers, construction workers, oil drillers, quarry workers and clay extractors. Formerly only miners and loggers were on the eligible list. Applicants must show ration boards a definite occupational need for rubber boots, but a purchaser is no longer required to turn in worn-out rubber footwear when he buys a new pair.
