WINTER CAME EARLY THIS YEAR—Although the first of fall is not until next Tuesday, the weather didn't follow the calendar this year when cold breezes brought heavy clothes Tuesday. Well prepared for icy blasts, heavy coats and hoods were Steven and Shane Ders, sons of Mr. and Mrs. Jerry Ray Landers. (Staff photo)

City Approves Three New Street Lights; Names Housing Committee

Three new street lights will be installed on Hereford streets in the near future as result of action taken at the Hereford City Commission meeting Monday night. One light will be placed at the intersection of Plains and Western and two lights will be installed on Union Ave., in front of the Hereford High School building.

In other business taken up at the meeting, five Hereford residents were appointed to serve on a housing committee set up by commissioners. Appointed were Mrs. O. G. Hill Sr., Ray Suits, Mrs. Bruce Carter, John Aiken and Owen Seamands.

The committee will study the migrant labor housing situation and decide what steps might be taken to solve the problem. The commissioners approved recommendations of the Zoning and Planning Commission to re-zone three properties.

One recommendation was that a property in the 600 block of S. Knight St. be re-zoned from "B Residential" to "C Multi-Family." The other recommendations were that properties at Catalpa St. and 25 Mile Ave. and at Bradley and 25 Mile Ave. be re-zoned from "C Multi-Family" to "D Restricted." Don Zimmerman and John Douglas Pitman were named co-

Seek County Produce For Fair Booth

County Agent J. W. "Lefty" Thomas this week announced plans for setting up an agriculture booth for Deaf Smith County at the Tri-State Fair in Amarillo, and has asked that area farmers enter products for the exhibition. Deadline for entry, he said, is tomorrow. Those planning to enter products should contact any member of the following booth committee: Mr. and Mrs. Earl Plank, Mr. and Mrs. Doc Bezner, Gerald McCaskill, Mrs. Buck Parsons, Mrs. Homer Hershey, Mr. and Mrs. J. W. Thomas, Mrs. Ed Dziuk Sr. and Mrs. George Turrentine.

Thomas said that products would be picked up by booth committee members if farmers were unable to transport entries to the committee.

Judging of the booth and products will start at 8 a.m. Sunday. The Tri-State Fair will open Monday and last through Saturday next week.

The booth will be divided into eight sections. The first four sections will be judged on the basis of individual entries. The other four sections will be judged as county displays, and will go toward the general judging of the booth.

Individual displays include: Section One, head or ear grain; Section Two, grains and seed; Section Three, bundles of grain (leaves removed); and Section Four, cotton.

County displays include: Section Five, bundles for forage (leaves attached); Section Six, bales of grain and forage; Section Seven, vegetables; and Section Eight, fruits.

Thomas said that the vegetable section would be important to the exhibit, and especially urged farmers to enter summer squash, beets, radishes, cucumber slices, pickle cucumbers, pumpkin, watermelon, cantaloupes and honey dew or honey ball melons.

Farmers should contact committee members for specifications and rules for entry. In sections one through four, first place winner in each section will be awarded \$3; second place, \$2; third place, \$1; and fourth place, 50 cents.

Local Citizen Arrests Pair

CITIZEN'S ARREST—W. W. Rhodes, manager of Highway 60 Service Station, at left, held two Latin-Americans, Jesse Alonzo and Lolo Jimenez of Amarillo (wearing white shirts), at pistol-point while transporting them to Deaf Smith County Jail Wednesday morning after he was told that the two men had stolen a tire from his station. Standing next to Rhodes is Robert Balch, a deputy sheriff in the Los Angeles County Sheriff's Department, who helped Rhodes in the "citizen's arrest." Deputy Sheriff L. R. Cherrhomes, at right, made formal arrest of Alonzo and Jimenez. (Staff Photo)

A Hereford service station operator Wednesday morning held two Latin-Americans at pistol-point while transporting them to Deaf Smith County Jail for formal arrest by sheriff's officers. Helping in the "citizen's arrest" was a deputy sheriff of the Los Angeles County Sheriff's Department.

W. W. Rhodes, manager of Highway 60 Service Station, pursued two Latin-Americans, of Amarillo, in his car after he was told that they had stolen a tire from his service station while he was repairing a flat tire.

Rhodes said he was told of the theft by Francisco Palomin of Hereford, who had pushed a car occupied by the two Latin-Americans, Jesse Alonzo and Lolo Jimenez, in an attempt to get the car started.

While pushing the car, Palomin said his father, Joe Palomin, told him that he had seen Alonzo or Jimenez take the tire and put it in their car while Rhodes was repairing a tire on the Palomin car.

The car occupied by Alonzo and Jimenez failed to start, and after pushing the car about one mile east of the station, Palomin said he returned to the service station and told Rhodes that his father had seen the two men take the tire from his station. Rhodes then went to the location where Palomin said he had left the two men.

After Palomin had left Alonzo and Jimenez, the two men had flagged down a car driven by Robert Balch, 28, Long Beach, Calif., who ironically is a deputy sheriff in the Los Angeles County Sheriff's Department. When Rhodes reached the scene, Balch said the two men were in the process of offering the tire to him if he would give them transportation to Amarillo.

Arriving at the scene, Rhodes, holding a .32 caliber pistol, said he commanded Alonzo and Jimenez to get in his car. Balch accompanied Rhodes and the two men to County Jail. Rhodes put the tire in his car.

At the county courthouse, Balch told Deputy Sheriff L. R. Cherrhomes that Rhodes was holding the two Latin-Americans in a car outside the entrance of county jail. Cherrhomes then incarcerated Alonzo and Jimenez in the county jail, pending further investigation.

Balch said the two men had flagged his car down while he (Continued on Page 2)

Set Sept. 26 As Last Day For Entering Soil Reserve

Sept. 26 has been set as the latest date that requests for establishing a rate under the Conservation Reserve Program can be accepted, according to Faust Collier, office manager of Deaf Smith County Agricultural Stabilization and Conservation office.

"If the rate offered is satisfactory to the applicant," Collier said, "Oct. 17 will be the latest date for contract commitment."

Collier said the Acreage Reserve Program, usually known as Soil Bank, for reducing allotment crop acreage is not available for 1959.

"Although the payment rate per acre for reducing allotment crops generally has been higher under the Acreage Reserve Program than under the Conservation Reserve Program," he said, "new features of the Conservation Reserve Program for 1959, which covers both allotment and non-allotment crop acreage, may be sufficient to interest producers."

One of the new features, he said, is a premium payment to those producers placing all their eligible land in the program. A 10 per cent bonus has been set for producers who place 100 per cent of their cropland under the program. A \$5,000 limit has been placed on payments.

Collier reminded producers that they should compare the net income they normally receive from the operation of their farm with the net income they will receive under the Conservation Reserve Program if they place all or part of their eligible land in the program.

Features of the Conservation Reserve Program for 1959 include a contract for reduction of crop acreage for up to 10 years and annual rental payments on land during the period. (Continued on Page 2)

Missing Wichita Falls Girl Found Unharmed In Mother's Home Here

A 12-year-old Wichita Falls girl, missing since Saturday afternoon, arrived unharmed Monday afternoon in the home of her mother in Hereford.

Linda Mae Hanchev, seventh grade student at Wichita Falls, had been missing since 5:30 p.m. Saturday from the home of her father, J. M. Hanchev, 35, a carpenter.

The youngster arrived in Hereford on a Continental Bus at 3:30 p.m. Monday to visit her mother, Mrs. Dora Panther. A medical examination of the girl here revealed she had not been harmed.

Monroe Graves, 23, Oklahoma City construction worker, was charged Monday with kidnaping in connection with the child's disappearance.

Wichita Falls Assistant District Attorney Bill Browning told The Brand Wednesday that Graves is being held by the Wichita County Sheriff's Department on charge of kidnaping. He was turned over to authorities there Tuesday morning by officers in Swisher County. He had been held (Continued on Page 2)

ASC Office Reminds Farmers Of Basic Wheat Acreage Requirements

As wheat planting is getting into full swing in this area, Faust Collier, office manager of Deaf Smith County Agricultural Stabilization and Conservation office, reminded growers of the effects of compliance and non-compliance with the 1959 Farm Wheat Acreage Allotment program.

"If growers comply with their 1959 farm wheat allotment," he said, "their farm will be credited with the farm wheat allotment plus the acreage considered diverted from wheat for 1959. This is the wheat acreage that the county ASC office calls your 'base wheat acreage.'"

He said the base acreage will be used as the wheat acreage (Continued on Page 2)

history for 1959 in establishing future wheat allotments for the grower's farm.

If the grower does not comply with the allotment and exceeds the wheat acreage allotment, he said, the farm will be credited with the allotment only in the determination of future allotments.

Collier said that if the grower later uses or markets any of the excess wheat and a marketing quota penalty becomes due, the grower's farm will be considered as a farm not in compliance for 1959 purposes of determining future wheat acreage allotments for the farm.

As a result, he said, the farm (Continued on Page 2)

With Two Strong Victories, Dimmitt Visits Herd Friday

With two impressive victories under their belts, the fast Dimmitt Bobcats will roar into Whiteface Field Friday night at 8 p.m.

The Herd will be trying to get on the other side of the ledger with their first victory of the season. They were dropped by Canyon, 17-8, in their first game last week.

Under the direction of coach J. D. Covington, the Bobcats swamped Springlake 42-0 in their first game of the year. Last Friday they initiated their new playing field with a 26-0 win over Lockney. The 1-AA team last year downed the Herd 21-6.

Covington's team is light, but blessed with an abundance of speed and a fine passing quarterback. Heaviest starter on the Bobcat squad is junior tackle Jack Ragland, who weighs 183.

Against Springlake, Dimmitt used a strong ground game, led by halfback Jimmy Curtis. In the Lockney tilt, quarterback Carlos Barnes had a key role in all of the points. He first connected with end Junior Coffee for a 46-yard scoring pass, then added two extra points on a toss to end Hal Ratcliff.

Later in the second quarter, Barnes passed for 49 yards to halfback Norman Nelson. In the third period, he threw five yards to Ratcliff and then 13 yards to Nelson.

Dimmitt currently is favored to win the 1-AA title.

The Herd will be in top physical shape for Friday's game, according to coach Bobby Williams. Only casualty of the Canyon fray was senior guard Pete Plank, who had to have seven stitches in his upper lip. Williams praised the strong defensive efforts of Plank, who was credited with about 25 tackles during the game.

Williams said there would be some changes in the starting line-up, but still had not settled on his first unit Wednesday. Scrimmage sessions Monday and Tuesday were designed to eliminate some of the costly errors which plagued the team in Canyon. Four lost fumbles contributed to the Herd's loss, Williams said.

In a Saturday night game, Dumas downed Cathedral of El Paso 25-6 in Dumas. The Deaf Smith team (Continued on Page 3)

Services Monday For Leos Infant

Funeral services for Joe Raymond Leos, 13-month-old son of Mr. and Mrs. Willie Leos, Hereford, were conducted at 4 p.m. Monday in St. Joseph's Mission at the Labor Camp. Father Raymond Gillis officiated.

The infant died at 11:05 a.m. Sunday in Deaf Smith County Hospital. He was born July 27, 1957, in Muleshoe, and his family came to Hereford a year ago. He had been in the hospital since Sept. 9.

Burial was in St. Anthony's Cemetery, with services under the direction of Kreig-Marcum Funeral Home.

Survivors besides his parents are a brother, Willie Jr.; three sisters, Angie, May Alice and Esabelle, all of the family home; and grandparents, Mr. and Mrs. Jim Leos and Mr. and Mrs. Pedro Rodriguez, all of Victoria. (Continued on Page 3)

Local duffers are still buzzing about the fantastic round turned in by Roland Adams Sunday during the annual tourney. With a record - shattering 12 under par, it has even the non-golfers shaking their heads. Talked with one of Amarillo's top amateurs, Jim Owen, that afternoon and he was still thanking his lucky stars. Jim tied the course record with a fine 63 in the foursome just ahead of Adams. If he had been paired with Adams that would have been the end. "I think if I had shot a 63 and gotten beat I would have thrown my clubs away," Owen said.

will be credited with the 1959 wheat allotment only (not the base acreage of wheat) in establishing future allotment for the farm.

"If the grower complies with the farm wheat acreage allotment, all the wheat produced on the farm will be eligible for price support and the crop will not be subject to marketing quota penalties," Collier said. He added that if the grower produces more acres of wheat

than the farm allotment, none of the wheat from the farm will be eligible for price support. In explaining the marketing quota penalty, Collier pointed out that if the grower produces more acres of wheat than the farm allotment and if the allotment is more than 15 acres, the excess wheat will be subject to a marketing quota penalty.

Collier said the program also provides a special incentive to place all the cropland on a farm in the program and cost-sharing to establish land, water, forest and wildlife conservation practices on reserved land. Collier asked that when interested farmers go to the county ASC office to make application, they take information about the acreage of each crop on their farm for the past two years and the average yield of the main three crops so that maximum payment rates can be determined. He said that producers in the area have been mailed details of the plan, and that if further information is desired, they should write or visit the ASC office for full details.

How Can I?

By Anne Ashley

Q. How can I restore faded leather?
A. Give it several coats of water-color paint, selecting, of course, the shade of the leather. After the paint has thoroughly dried, rub the surface well with a good furniture polish and the result will be pleasing.

Q. How can I keep evaporated milk for a longer time?
A. If the evaporated milk is taken out of the can and put in a glass jar, it will stay fresh for a longer time.

Q. How can I darken a pair of brown shoes that are too light?
A. By rubbing them with a solution of milk and ammonia. Then polish with a dry cloth.

Q. How can I remove shine from tailored suits?
A. Wet a thin piece of muslin in witch hazel and spread it over the shiny portion of the garment. Hold a hot iron over it until it steams. Then press on the wrong side.

Q. How can I bleach sheets?
A. An excellent method is to hang them on the line, and as quickly as the sun dries them, turn the hose on them. Repeat this several times.

Q. What kind of meat should be used for making mock chicken salad?
A. Use either cold roast veal or cold roast pork.

Q. How can I take proper care of a palm?
A. It is not well to water palms too often. It is much better to allow the earth to become dry, then give it a good soaking. The palm leaves should be sponged every week to keep them in good condition.

Q. How can I keep colored shoes in good condition?
A. Colored shoes should be shined before wearing with colored cream polish, and the polishing should be repeated after each wearing.

By VIVIAN BROWN People have learned to move from one home to another with a minimum of effort, although time was when moving day was clutter and confusion.

These days the housewife makes an Advance Plan to make moving easier, and modern moving companies are more efficient.

Be aware of every snag that may occur, however. The morning of moving day pack a basket with sandwiches or fried chicken, beverage, paper plates, cups and napkins. This will come in handy when the children clamor for food.

In another basket put soap and towels, sponges and a box of an easy no-rinse tube cleaner so bathroom and kitchen may be mopped before you move in. The family will be pleased that the bathroom is livable when they arrive.

Olds and ends may be carried to the new home, and this may be done in advance. And if Mom is clever she'll sort out and dispose of useless articles long before the big day.

If you are the well-to-do type, you can get real luxury service from movers — even, things packed down to the last ash tray and moved and set in your home before you move in — according to your arranged floor plan. This costs extra. You can do it cheaper by doing it yourself.

If you have any doubts about reputable movers call a reliable organization to check on one. The mover will then give you an estimate of the cost, telling you how many cartons, barrels, wardrobe containers and crates you will need to rent or buy. He can supply packing tips such as these from one of the large moving companies:

FREEDOM FIGHTER:

Once Jailed, She Fights Now For Women's Rights

By HENRY HARTZENBUSCH NEW YORK (AP) — Herawati Diah is a fighter. She took part in Indonesia's struggle for independence and once was jailed by the British. Today she is fighting for her young republic's women.

"Independence has meant a great deal for the women of Indonesia," the attractive, 41-year-old journalist said, "but we are not yet finished. We must amend our marriage laws."

She explained that a new marriage act, pending before the Indonesian Parliament, will make it more difficult for Indonesian men to continue polygamous marriages.

Like other Moslems, Indonesia's men can take up to four wives. Moslem marriage laws have not been changed, although Indonesia's new constitution gives women considerably more freedom than they have ever had and voting rights.

"We don't, of course, want to change the Koran," Mrs. Diah said with a smile. "But we want the men to take their marriage vows seriously, and live up to the Koran."

The Koran, she pointed out, allows a man to take four wives. But it also stipulates that he has to give an equal share of his love and care for all wives.

"This is easier in theory than in practice," she added. Editor of the daily Indonesian Observer in Jakarta, Mrs. Diah writes editorials, edits local news, does a feature article and two weekly columns for her newspaper.

No stranger to the United States, Mrs. Diah was a 1941 graduate of Barnard College. She returned to the United States in 1956 to attend an international seminar at Harvard. This time — her third visit — she is attending the American Press Institutes seminar for South and Southeast Asian newspaper executives.

Mrs. Diah was born and raised on Billiton, an island near Singapore. Her father was a doctor in the government service. The family moved to Jakarta after 10 years and she attended a Dutch school.

During the Japanese occupation of Indonesia — then the Dutch East Indies — she married a journalist. He started the newspaper, Merdeka, after the war. In the strife-torn era just after the hostilities, she was imprisoned by British landing forces for allegedly distributing pamphlets calling for Indonesia's freedom.

The British apparently had thought she was responsible because the slogans were in English and similar to America's cry for freedom against the British. She was released after a week in a Jakarta jail.

Then came independence, she said. "The women felt they had to do something to help. We occupied administrative posts without previous training. We did the best we could."

Mrs. Diah said there's more freedom for women in Indonesia than in Japan. On a recent visit to Tokyo, she was surprised at the way Japanese women still occupy a strictly subservient role to their husbands.

"Our girls almost never go out alone on dates," she said. "And as a mother, I don't think I'd like my daughters to go out alone with boys."

She said once a girl starts going out alone with a man in Indonesia, it means she's practically engaged.

Mrs. Diah says Indonesia's women still have a lot to learn from their Western sisters. She's convinced they will. "After all," she added with a laugh, "as a people, Indonesians and Americans are informal. We should get along."

Here's an unusual opportunity to decorate your home with a bookcase that's made to match the desk of your choice . . . Select either mahogany or limed oak to suit your taste . . . Made in the popular 40 inch height and 10 inch depth, and measures 30 inches in width.

Remove casters from furniture. Put them in tagged sacks for identification. Keep jewelry, cash and important papers in your own possession.

Put large, heavy pieces of china at the bottom of the barrel. Plates of the same size may be wrapped in bundles of 2 or 3, using plenty of paper between, and set on the side, not flat. Stemware and small art objects should be wrapped individually and placed toward the top of the barrel.

Protect mirrors with heavy brown paper on both sides before crating. Pack books and phonograph records in extra heavy cartons. Pack records on end, side by side, and books back to back. Wrap valuable books in heavy paper.

Put paraffin or masking tape over drug and cosmetic bottles before packing them. Matches, cleaning fluids and other inflammable materials should not be packed.

Mattresses should never be rolled, but put in cartons supplied by the mover. He also has cardboard wardrobes for clothes. Label cartons and barrels so you know the contents and don't over-pack containers.

Golf Craze Hits Japan

TOKYO (AP) — It was just about a year ago. Two Japanese golfers were a bit of genius in their putters had just vanquished some of the world's best professionals to capture the Canada Cup.

"It's just like Francis Quimet's National Open victory over Britain's Harry Vardon and Ted Ray at Brookline in 1914," said Frank Pace, president of the International Golf Assn. "It should be a great thing for golf in Japan."

The former secretary of Army never came closer the bulls-eye.

Today there is an appetite for golf in Japan that amounts to a craze.

The '37 Canada Cup victory of Torakicki Nakamura and Koichi Ono was truly a great one.

They defeated two-man teams from 31 other nations. Two pretty good golfers won second place for the United States — Jimmie Demaret and Sam Snead.

Nakamura and Ono finished with a team score of 557, nine strokes better than the Demaret-Snead score. In addition, Nakamura captured the individual title with a 72-hole total of 274, seven strokes ahead of Snead.

Young Gary Player, who was a South Africa representative, said afterward: "If Bobby Locke thinks he can putt he should see these Japanese. I never saw such putting in my life."

"They played very ordinary golf from tee to green, just playing the ball, never getting any length on their drives and hitting for the fat part of the greens. But between them they sank 10 putts of between 10 and 25 feet."

Within hours after news of the victory swept through the island nation, little boys could be seen swatting at rocks with sticks. Always before little Japanese boys, and big ones, too, concentrated on baseball and sumo wrestling.

Just as Quimet's 1914 victory in the National Open popularized golf in the United States, so apparently did the Nakamura-Ono victory get golf balls flying in Japan.

Some say the sport became even more popular last June after Prime Minister Kishi played a round with President Eisenhower at the Burning Tree Country Club in Washington.

Golf courses are sprouting throughout this land - scarce nation. In the cities, particularly Tokyo, driving ranges and practice putting greens are common, even atop buildings where protective nets have become a familiar sight.

It is not uncommon on a golf course to see a 300-pound sumo wrestler puzzling over which club to choose from a golf bag toted by a 90-pound girl.

Caddies in Japan are almost exclusively women.

Bats depend largely on the sense organs in their wings to guide them in flight.

NOT A DREAM
EL PASO, Tex. (AP) — Oralla Delgado told police she woke up screaming, thinking she felt a hand on her face. She dismissed it as a bad dream and went back to sleep. In the morning she found burglars had ripped out a screen and made off with a purse from near her bed.

SAFeway's CROSS-OUT GAME NO. 3

Just like Bingo . . . First, check the numbers which appear in the newspaper ad. Then X them out (in pencil) if they appear ANYWHERE on your "cross-out" card. Numbers on your "cross-out" card do not have to appear in the same position as printed in the paper. If you have 5 numbers across, down or diagonally . . . YOU WIN!

If you do not win, erase your X's and play the card again. Any card may be played against any ad during the 12 weeks.

In each week's SAFEWAY newspaper ad, 30 numbers will be enclosed in a

square, circle, diamond, etc. You can match these numbers with the numbers on any card.

If you have five numbers in a row — down, across or diagonally — you have a winning card. To receive your gift return your card as instructed on the back.

The card can be played on any of the newspaper ads or reprints, during the twelve weeks, but cards are winners and redeemable only if played on an individual week's newspaper ad or reprint in stores and all 30 numbers that week in the newspaper ad are surrounded by

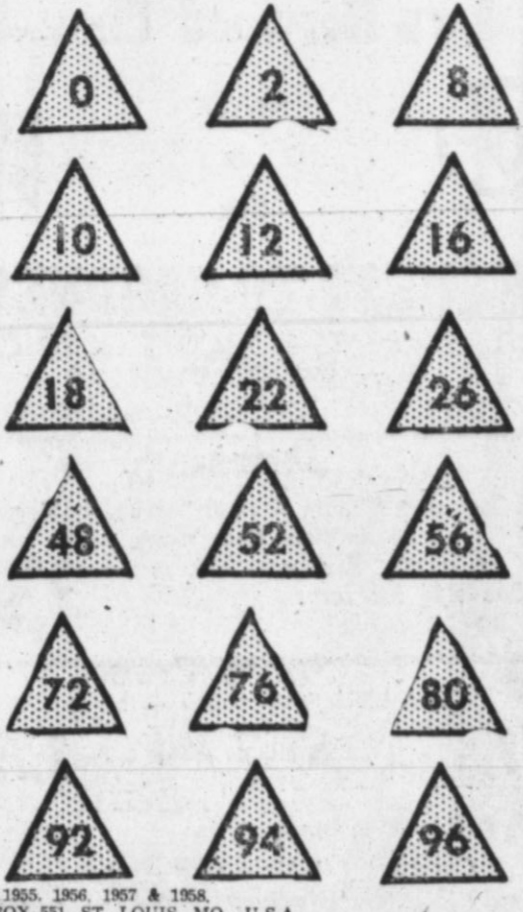

the same shape—circle, square, diamond, etc.

We reserve the right to correct any typographical or other error or errors which might appear in any published material in connection with this game, and to reject winning cards not obtained through legitimate channels.

SAFeway "Cross-Out" cards are given away freely at all SAFEWAY stores. No purchases are required.

Employees of SAFEWAY STORES, INC., and of COLBERT'S OF AMARILLO are not eligible to participate in this game.

McGee Family Furniture Background Is Extensive

A family background and years of experience have gone into the foundation of the new McGee Furniture Company building at 511 North Main. Two brothers, Lloyd and Ernest McGee, opened the store Monday afternoon. Lloyd recently moved to Hereford from Portales, N. M., where he had been in the furniture business for 12 years. He has retained his interest in this store but intends to make his home in Hereford, he says.

His brother, Ernest, has been a resident of Hereford for the past 13 years, where he has farmed and had an interest in the West Texas Drilling Co. He also had a previous background in the furniture business. Still another brother, Alvin, operates the McGee Furniture Company in Amarillo. Altogether, there are nine furniture stores in the McGee family, Lloyd commented.

Between 2,000 and 3,000 persons attended the public open house of the huge new store the first afternoon the doors were open, on Monday.

The brick and glass front of the building is dominated by two large signs. On the front of the building is a flowing neon sign, "Furniture", superimposed on an artist's palette. A modernistic sign on the northeast

corner of the building proclaims "McGEE".

Parking for customers is provided on the north and south sides of the building, in addition to the regular angle parking in front of the store. Two large showcases dominate the facade of the building.

There are 12,200 square feet of floor-space in the building, which contains the main show floor, a balcony display area, a carpet center, appliance nook, office space, coffee lounge and service department. A carport on the north side of the building

Crops Not Hurt By Recent Rain

County Agent J. W. "Lefty" Thomas said the rain which was received in this area Monday night did little if any harm to crops.

He said the heaviest rain was reported northwest of Hereford, where up to 1 1/2 inches was reported.

"Though the rain delayed harvest for a short time," Thomas said, "it was just right for the wheat."

Since various crops are in different growing stages, he said, it would be difficult to determine what effects the rain had.

provides sheltered parking for customers during inclement weather.

One of the most striking aspects of the interior is the mural which stretches the length of the balcony front. It was painted by Mrs. Ernest McGee. The two brothers contracted the building and did much of the work themselves. A decorative part of the opening was the large display of paintings and sketches hung by the Hereford Art Guild.

McGee's will feature Westinghouse major appliances, Hoffman television, FM and hi-fi units, Alexander-Smith and Patcraft carpet and many other well-known brands of furniture, appliances and decorating accessories.

VISITS MOTHER

Mr. and Mrs. J. Hess Williams of El Paso visited his mother, Mrs. E. J. Williams, who has been seriously ill, recently.

Solar Energy Specialist Puts Sunbeams to Work

By EDWARD KITCH EVANSTON, Ill. (AP) — Dr. Margareth Arst has more than a passing interest in sunbeams. They simply brighten the day for most people. For Dr. Arst they are a constant reminder of a vast and practically untapped source of power.

As a senior physicist, she analyzes silicon crystals that convert sunlight directly into electrical energy at a laboratory maintained by the world's largest producer of silicon solar cells.

It is her delicate touch and scientific know-how that actually create the material from which the cells are made. Her handwork is in the Navy's Vanguard satellite now circling the earth. It powers the Vanguard's two radio transmitters.

"The silicon solar cells we

made for the Vanguard satellite and for other uses are made in a 'crystal puller' furnace," she explains.

She designed the furnace which heats the polycrystal silicon material from 2,600 to 2,800 degrees Fahrenheit, where it forms a single crystal. The silicon comes out of the furnace like a small sausage, and is sliced into wafer thin sections about the size of a quarter. These wafers are treated with boron gas and electrical contact points are made.

"Then, by exposing as much surface as possible to the sun, we obtain solar power supply for various low-power uses," she says.

Dr. Arst says she was very interested in physics, mathematics and chemistry when she went to high school. Her father was a chemist and her grandfather was an architect. She came to the United States two years ago from Austria.

What about American women and the sciences?

"My personal opinion is that every girl should have an education in scientific subjects,"

REFUSES RAISE TORRINGTON, Conn. (AP) — Raymond Over, registrar of voters, was so disturbed over the new budget before the city council that he refused to accept a proposed salary increase. He said the raise was "one of the most irresponsible governmental acts I had ever seen."

SET HIM STRAIGHT

EL PASO, Tex. (AP) — A soldier, arrested after battering in a jewelry store window and fleeing with his pockets full of watches, thanked police for jailing him. "If I had gotten away with it," he said, "I might have been tempted to lead a life of crime."

BIG DOGGY

SOCORRO, N. M. (AP) — Life on the streets of this southern New Mexico town of 5,000 can grow precarious. Officers, drawn by a barking dog, killed a tree cat — a 6 1/2 foot female mountain lion.

she says. "They are really very interesting subjects."

"If a woman does go into this she generally does a good job. For one thing, in research a woman is more patient."

Dr. Arst is married to an electrical engineer and they have one son, 7 months.

Latin-American Fiesta For 1958

The Hereford Brand

Hereford, Texas, Thursday, Sept. 18, 1958 Section Two

In celebration of Mexican Independence Day, Latin-Americans from Deaf Smith County and the surrounding area gathered at the Bull Barn for two days of festivities and dancing. A handsome young guitarist, top left, set the fast-paced rhythm for the orchestra from Laredo. While the young set whirled to the music, center left and right, many others listened intently to the bilingual chant of the "Bingo" caller, top right and lower left, as they held their small cards. A penny pitch stand, lower right, attracted some of the more active and sporting. It was two days of fun and frolic, highlighted by a downtown parade and the presentation of the lovely Fiesta Queen and her court. The festivities were punctuated at 11:30 Tuesday night with the national anthems of the United States and Mexico. (Staff Photos)

Mrs. Adrian Hill Becomes Surprised Shower Honoree

By MRS. R. L. PINNELL
A surprise shower was held Wednesday afternoon honoring Mrs. Adrian Hill, the former Lou Galt. Mrs. Hill was at work in the beauty shop when the ladies began to drop by to visit. After the arrival of about ten ladies, she turned from her work to ask what was going on. She was led by the hand to a neighbor's home where about 40 friends had gathered to honor her. Hostesses were Mesdames John Horton, Arthur Jewett, Ernest Frank and D. W. Morgan. Funeral services were held Sunday afternoon in the Vega Methodist Church for Jim Cooper, son of Mr. and Mrs. R. V. Cooper of Vega. He was the grandson of Mr. and Mrs. Henry Creitz of Adrian. Their son, Mr. and Mrs. Rex Creitz, of Denver, arrived in time for the funeral services.

Mr. and Mrs. Jack Fisher and family moved Wednesday and Thursday to the new Sims elevator south of Adrian. He will be the operator when it is opened.

Mr. and Mrs. John Powers and son, Durk, moved from Hereford to a farm north of Boo' Leg this week. Powers will be associated with his father in farming in the Bippus community.

The Rev. and Mrs. Darrell Gaut and daughter, former Baptist pastor and now living in Amarillo, attended church here Sunday. They joined the Rev. and Mrs. Angus Burnett and Mr. and Mrs. Lance Shackelford for dinner in the home of Mr. and Mrs. E. B. Pounds.

Mrs. Judy Chism of Amarillo spent the weekend with her parents, Mr. and Mrs. R. L. Pinnell. Their son, Mr. and Mrs. Edward Pinnell of Amarillo, arrived Saturday night for a visit.

The group were Sunday dinner guests in the home of Mrs. R. L. Pinnell's parents, Mr. and Mrs. C. D. Tomlinson, to celebrate Tomlinson's birthday.

David Ostrander of Amarillo visited Tuesday and Wednesday with his sister and family, Mr. and Mrs. Jim Cavin. Laura Leslie Ballard, daughter of Mr. and Mrs. Labry Ballard, was born Friday morning in the Hereford hospital and weighed five pounds and 10 ounces. Maternal grandparent is Mrs. Bessie Spande of Adrian who is staying with the Ballard's other three daughters and paternal grandparent is Mrs. Irene Ballard of Haskell.

Mrs. June Wetzel of Amarillo was a weekend visitor in the home of her sister and family Mr. and Mrs. Billy Briggs.

Attending the Raton races this weekend were the Howard Engles, the Carroll Gruhkeys and the Bob Lanes.

Mr. and Mrs. James Session were supper guests in the Joe Cullender home Friday evening.

Mr. and Mrs. Fred Harwood and family attended the family reunion of the Heror family in Plainview city park this Sunday. Relatives from Canyon, Floydada, Brownfield and Snyder attended the reunion. About 40 people were present.

Mr. and Mrs. Jimmy Dor Voyles arrived Friday night to visit his parents, the Jim Voyles. On Saturday they packed a picnic lunch and left for the mountains for the day. They attended the Raton races and returned home Saturday night. Mr. and Mrs. Jimmy Don Voyles left for Lubbock Sunday afternoon where he will attend Tech for another year.

Mr. and Mrs. B. L. Kinsey and D. S. Evans left here Friday for a weekend in Ruidoso, N. M. They went by way of Clovis where they picked up a sister, Mrs. Alta Evans. The group returned home Sunday night.

Austin Rice of Arvin, Calif., arrived Monday morning for an extended visit here with relatives and friends. He is a cousin of Mrs. B. L. Kinsey. John Skaggs returned home Sunday morning from south Texas where he attended the Democratic convention as a delegate from Oldham county. While there he went to Corpus Christi to do some deep-sea fishing.

Neil Pounds, son of Mr. and Mrs. E. B. Pounds, left Tuesday morning for Little Rock, Ark., where he plans to attend the University of Arkansas School of Pharmacy. Mrs. Jack Buse and sons were in Hereford Saturday on business. While there, they visited with friends.

Mr. and Mrs. Charles Markham of Summerfield and Mrs. Wayne Lady were dinner guests in the Jack Buse home Sunday. Wayne and Roger Brown visited their cousin, Vickie King, in Clovis Sunday.

The community received a quarter of an inch of rain Saturday night which was a great help to the wheat that is coming up.

The grasshoppers are plaguing S. N. Thweatt's wheat. They have practically destroyed the wheat the width of the field.

OFF THE Shelf

By V. J. SANDERS Frank G. Slaughter has done it again — written another top-notch medical novel with a knack for capturing the reader. The only difference between his book, *Daybreak*, and his other novels is that the medical subject is psychiatry instead of general medicine.

Here, the difference ends. *Daybreak*, like his other novels, revolves around two plots. One, the usual love story and, two, the usual conflict between a good doctor and a bad doctor.

The first plot involves a 22-year-old girl who is a mental patient where our hero, Dr. James Corwin, is practicing medicine in a state hospital. The condition of her particular illness is described at length in the book, but an average layman would simply refer to her as a raving maniac. It all has something to do with a guilt complex and schizophrenia and other mispronounced words.

Mrs. Jerry Houlett is going to business college in Amarillo. Dwight Whitaker, son of Mr. and Mrs. Woodroe Whitaker, missed four days of school last week because of a throat infection. He is back in school this week.

Sunday dinner guests in the John S. Thompson home were Mr. and Mrs. B. C. Day and Mrs. Leona Wolfe.

Anyhow, the good doctor knows her from way back when she was partially normal and reminded him of his first wife, who suffered much the same emotional problems and died in a tragic accident. He has a tender spot in his educated heart for her and devotes his best ideas to her cure. Through her, and his attempts to make her well, he discovers a better procedure for treating all patients who are suffering from similar difficulties.

In the case of this girl, Lynn Thornydyke, he is battling under a further problem of time. The whole case is this: Lynn, before her illness, was a very intelligent girl and a budding genius in art. But her mother, who loves money and high society, hasn't the slightest interest in her daughter and insists that he perform an operation on Lynn in order for her to be released soon. (This way, her mother could receive the paltry sum of \$50,000 that's all tied up in legal technicalities from the estate of her dead husband.)

Now this would satisfy Dr. Corwin completely if the operation were not one that would severely damage the girl's normal intelligence. He has six weeks to prove he can cure her otherwise, and he rushes in with an idea for an experiment on some new drugs.

Well, needless to say, the drugs are a success, and Lynn, plus many others who benefited by the doctor's affection for her, is cured and released.

The second plot is a little more subtle. The head doctor of the institution has aspirations for a political career and is intent on receiving a good recommendation through the amount of money he saves in the operation of the hospital. To accomplish this feat, he is greatly in favor of the operation Dr. Corwin abhors, because it literally makes zombies out of people and they do whatever they are told, thus making it easier to have full-time workers in the laundry, the kitchen, the clean-up detail, and other menial jobs. The head doctor can save the state a great deal of money by laying off attendants and outside workers — and using patients for the jobs. As a result, very few patients are released from the hospital as cured.

When Dr. Corwin introduces the results of his experiments with the drugs and says that he can cure more patients and have a greater capacity for other sick people; the head doctor, Dr. Meeker, sees his political career slipping through his fingers. So, he calls Corwin up for malpractice.

The hearing that follows is one blast after another. It ends exactly the opposite way that Dr. Meeker expected. He is charged with the mishandling of state funds, and Corwin is commended for his work.

Will find that they all lead to SERVICE!!!

By JIMMIE GILLENTE
The Mexican Independence Day fiesta, long heralded by the Hereford merchant organization, has come and gone. It seems to have stimulated a lot of dances, but a lot of natives were surprised at the small number of Mexicans who turned out to observe the activities and the parade Tuesday.

A lot of people were a little bit vague concerning the occasion and, come to think of it, so am I. Mexican Independence Day is officially designated as Sept. 16. However, the exact time seems to be 11:30 p.m., Sept. 15. The band at the big dance Monday night played the Mexican national anthem at 11:30 p.m., then played the Star Spangled Banner. The occasion marks independence of the nation from Spain, the Mexicans having been conquered by Cortez back in 1540 and remaining in bondage until Hidalgo, an energetic priest, led them in a successful rebellion and independence in 1821.

Needless to say, Independence Day is a really big thing South of the Border — and it is no little thing here in the States. All in all, the fiesta here seems to have been a real success. If you don't believe it, just ask Fred Gonzales, who ramrodded most of the deal.

I understand there was a little static among the queen contestants, judged through the sale of votes, when Ricky Romero's buddy walked up and put \$100 on the line to assure a victory for his favorite, Sylvia January. All in all, though, the fiesta was orderly and congenial, and the delegation of queens, escorts and runners-up were indeed attractive, especially in the parade. Senor Gonzales and every member of the Latin American Club deserve a big hand.

Maybe, come another year, we can talk these folks into sponsoring and staging a big Fourth of July celebration for our own Independence Day. About all we seem to do is close everything down and go home. Back when I was a boy everyone got excited and shot fireworks, but so many people blew their fingers off that they finally passed city ordinances against the practice.

Another thing, when you stop to recall how much lend-lease dough we dole out to England every time we turn around, I'm not too sure we can honestly afford our independence. If we had paid the little dab of taxes on that tea, we might have been ahead financially. However, Boston would have missed a big party, so I guess things pretty well balance out.

You see a lot of ladies with oversize purses these days and after noting the one Bobbie Seed totes around, I can see why they call them bags. It really is a honey. I tried to lift it — and had to use both hands.

For an old boy who never drinks a cup of coffee, Onias Carrol seems to have a lot of fun. Onias is a confirmed Yankee baseball fan, and has been supervising the Hereford municipal water system longer than he likes to recall. Onias has contributed about as much to the welfare of this community as any person here today. So far as I know, he finished high school here, went to work for the city — and I'll bet he has a record of on-the-job duty which no other city employee could equal.

Hunters can look forward to one of the greatest quail populations in many, many moons, according to reports coming in from below the Caprock. McLean, Memphis, Childress, Shamrock and most any other town in the area has the same report: "Lots of birds." Russell Pogue, pastor of the First Baptist Church in Wellington, was here the other day, and he says even the old timers are talking about the abundance of quail in the Wellington territory this season.

"The louder he talked of his honor, the faster we counted the spoons," — Ralph Waldo Emerson.

The people of Little Rock, Ark., seem to be pretty well in accord with Gov. Faubus on closing the public schools. Most of them appear to rate "lack of education" as secondary to the proposed integration plan. In a round of interviews there, many mothers and fathers declared they would rather have their children miss the entire year in school than to have them attend classes, with the Negroes. Among the high schools closed in Little Rock was the Horace Mann school, with an enrollment of 750 students, all Negro.

Meanwhile, money is fast becoming a problem. The 175 Little Rock teachers will cost the district around \$25,000 for an extra week in salaries — and state financial aid stopped automatically with closing of the schools under special laws last week.

Frank Elkins of Elkins Produce in Amarillo called to say that I am all wet about all of the Amarillo produce firms not buying Hereford potatoes. He says his firm purchased \$44,543.39 worth in 1957, and in 1958 he bought \$17,637.89 worth of produce in Hereford during July and August. These figures do not include purchases from Friona, Dimmitt, Plainview or other points in the district. Also, adds Mr. Elkins, one Amarillo broker has handled 3 1/2 cars of Hereford spuds this year, which is quite a little item.

Mr. Elkins further pointed out that very few potatoes of any kind are sold in Hereford right now, because the local stores can buy them direct from the sheds. He referred me to a local processing plant (which I did call), and they confirmed everything he said. They also reported that they were loading one of his trucks at that time: Tuesday, Sept. 16.

This, of course, leaves me out on a limb, which I personally sawed off in a big way. I feel that I owe Mr. Elkins an apology. He is the kind of friend we need, and taking dead aim at an old boy who is trying to help you is a really dirty trick. Some of the boys tell me that the Amarillo chain stores have likewise been good customers this past season.

I guess, when you boil it all down, 1958 was just a bad potato year. I guess I was a little bit prone to pass the buck to the other fellow. Out of all this, however, emerges the fact that Hereford potatoes do stack up in quality with any others of the same harvest period or variety — and I still think it is a shame for anyone to buy out-of-state spuds when we have fields of them begging right here at home.

Mack Noland says that scores of area residents, including people from Amarillo, are coming down with trailers and getting spuds to put in storage for the winter months. I don't

know if they will keep that long, but we do have a lot of potatoes.

Meanwhile, I have decided that writing about potatoes is more explosive than being a judge in a baby contest. I still believe there are times when a fellow could go fishing and be away ahead — even if he didn't get a nibble.

CHIP SHOTS

Roland Adams of Lubbock won the 1958 Hereford Invitational Golf Tournament Sunday by defeating John Renner, 4 and 2, in the finals. Renner was the first local golfer ever to reach the finals in the seven-year history of the tourney; but could not hold the Lubbock sharpshooter.

Adams, 24 and the father of four children, had set a new nine and 18 hole course record Sunday morning in his semi-final match against Del Trautman, firing an eight-under par 28 on the front for a new nine-hole record and a 32 on the back for a new 18-hole record of 60, a blazing 12 under par.

ADAMS CARD READ:
Par 4 5 4 3 4 3 4 4 5 4 36
Adams 4 3 3 3 2 3 4 3-28
Par 4 5 4 3 4 3 4 5 4 36 72
Adams 4 4 4 3 3 3 3 5 3 2 60

The old course record of 63, held by Jack Williams of Plainview, was tied by Jim Owen of Amarillo with a 30-33 in the foursome directly ahead of Adams, but Adams came along and broke both records.

Adams beat Murrell Tripp of Lubbock, 1 up, Paul Jones of Clovis, 4 and 3, and Del Trautman, 8 and 7, to reach the finals while Renner had licked Jim Owen, Amarillo, 4 and 3, Jeff Minton of Amarillo, 1 up, and Russell Haberer of Muleshoe, 1 up.

Murrell Tripp, former Mayor of Lubbock, won the Consolation bracket by edging Owen 1 up.

First Flight honors went to Alton Leach of Plainview, who beat David Lard of Amarillo, 2 and 1.

Danny Elliston of Hereford won First Flight Consolation honors by defeating George Gross of Dimmitt, 6 and 4.

Second Flight was won by Skinny Winn of Floydada, who downed John Blocker of Hereford, 2 and 1.

Don Vaughn, Dimmitt, edged V. L. Stokes, Littlefield, 1 up, for consolation honors.

Roy Hartman took the Third Flight banner from Jack Littlefield of Jal, N. M., 2 and 1, while E. S. Vaughn downed Al Yeager, 4 and 3, for consolation honors.

C. D. Koen, Plainview, downed A. C. Carthel of Floydada,

4 and 3, for the Fourth Flight title as Troy Moore edged Lane Decker of Floydada, 1 up, for consolation honors.

Lee Renner, Friona, beat Ed Schroeter for the Fifth Flight title by nine strokes in medal play. Renner had 284 and Schroeter 293 for the 54 holes.

A record 150 players entered the West Texas Pro-Amateur matches last Thursday. The Pro-Am, played on the low-ball system, was won by Bud Posey, local pro; Bob Lindsey, Dimmitt; George Gross, Dimmitt; Wayne Griffiths, Dimmitt; and Mrs. Nell Carson, Borger, with a low ball of 51. Each received \$24 in merchandise.

Second place, with a 52, went to Charles Seed, Hereford; Paul Hamilton, Hico, Tex.; Dr. J. W. Axtell, Lubbock; Al Yeager and Hoopie Gilbreath, Hereford. Each received \$18 in merchandise.

Third place was a tie with 53 between David Ramirez, Floydada pro; Paul Jones, Clovis; Punk Gilbreath, Dimmitt; and Stan Barrett, Muleshoe; Bernard Phelps, Muleshoe; Jack Littlefield, Jal; Hoyt McCloud, Plainview; and G. L. Mingus Sr., Friona. Each group received \$6 in merchandise.

The Hereford Cup matches were won for the second consecutive year by Amarillo Country Club. They had an aggregate score of 324, defeating Hereford by nine strokes.

Low professional scores were: Horace Moore, Plainview, 66; Jim Terry, Seminole, 68; and Bud Posey, Hereford; C. G. Griffin, Brownfield; and John Austin, Amarillo, with 70's. Low amateurs were Charles Seed of Hereford and Robert Tennant of Amarillo, with 67's.

Highlighting the Pro-Am was Mrs. Barney Morrison of Borger, who shot a two-under par 36 on the front nine holes to tie the ladies record, held by Meredith Ireland of Hereford.

Mrs. Morrison's score was: Par 5 5 5 3 4 4 5 4 3 8
Mrs. Morrison 5 4 4 3 4 2 4 6 4 36

The tournament was the best in the seven years it has been held. The course was in wonderful condition and John Patton, official starter, did an excellent job of getting play underway and keeping it going.

Cunningham To Attend Workshop On Curriculum Problems Study

Superintendent of Schools Fred Cunningham plans to participate a regional work-shop of Texas Association of School Administrators in Am-arillo Sept. 23.

The workshop, which will con-sider procedures for the estab-lishment of local curriculum study groups in every Texas school district, is one of 27 re-gional workshops which will be held in Texas during the last two weeks of September.

As co-sponsor with the Texas Education Agency of a project known as "Texas Curriculum Studies," the TASA is organiz-ing groups of teachers and lay citizens to consider the curri-

culum questions and proposals which will be introduced during the 1958-59 school year by the 11 state curriculum commis-sions.

These commissions were es-tablished by the State Board of Education earlier in the year and were asked to make a detailed study of the ele-mentary and secondary school curriculum.

Study groups will view a series of 26 "curriculum" telecasts which will be presented as a public service by 20 television stations beginning in October. After viewing the television pro-grams and studying the curri-culum guides which will be provided for each participant, the local groups will make spec-ific suggestions and recommen-dations to the state commis-sions.

Care Of Plants Subject Of Meet

Roy Peet, owner and oper-ator of the Western Flower Shop, was speaker at a meet-ing of the Cultural H. D. Club in the home of Mrs. J. T. Richardson recently. The sub-ject for the program was "What and How to Do for Pot Plants."

Peet, gave information on water-ing and light for the differ-ent plants and the cleaning of the leaves and turning of plants to the light to make them grow straight.

"The most popular house plants are ivy and African vio-lets," said Peet. He further discussed the care of caladiums and geraniums.

During the short business ses-sion, officers were elected. New officers for the year are Mrs. Earl DeHart, president, Mrs. C. E. Johnson, vice president, Mrs. Ira Scott, secretary-treasurer, Mrs. Edgar Telchik, assistant secretary. Mrs. Jim Gandy, re-porter, Mrs. Pat Robinson, as-sistant reporter, Mrs. J. T. Richardson, council delegate, and Mrs. E. W. Holcomb, al-ternate delegate.

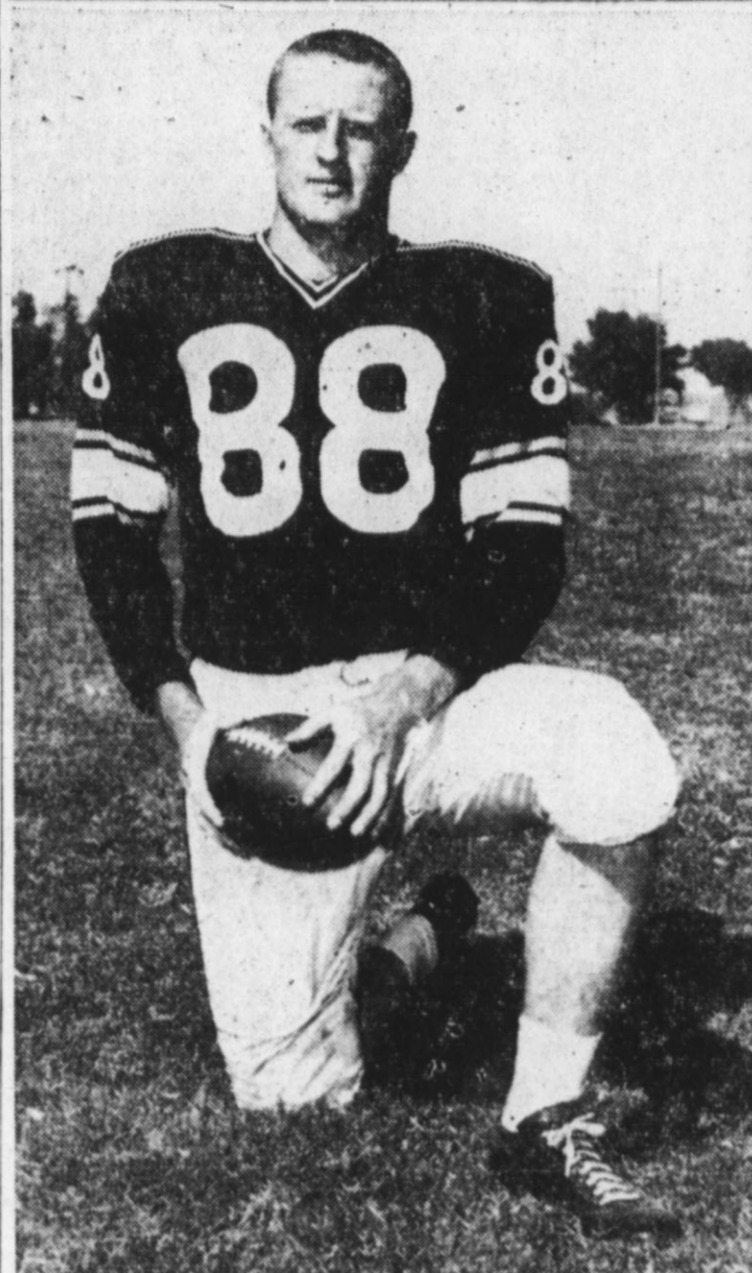

Those attending the meet-ing were Mesdames Jim Gandy, Grady Parsons, Pat Rob-inson, Ralph Packard, T. L. Royal, Edgar Telchik, E. W. Holcomb, Ira Scott, J. T. Richardson, Earl DeHart, F. M. Houser, Louis Olson, Joe Story, C. E. Johnson, Ervin Robinson and guest, Roy Peet.

The next regular meeting will be held in the home of Mrs. Pat Robinson.

THE HERFORD BRANCH

Hereford, Texas, Thursday, Sept. 18, 1958 Section Three

HEREFORDITE ON ROSTER—Keith Hodgas of Hereford is a new addition to the West Texas State Buffalo squad this year. A 190-pound sophomore, Hodgas plays left end.

Coach Clark Jarnagin Expecting Good Season

"If our alternate line can develop in a hurry, we'll have two pretty good teams this fall."

That's the opinion of West Texas State football coach Clark Jarnagin, whose Buffaloes have reached the half-way point in football drills before the season opener with Virginia Tech at Roanoke, Saturday.

"We can see very little dif-ference in our first two back- fields so far," declared the new boss of the Buffaloes. "We have about four or five linemen who can play with the best but need capable replacements."

After 14 drills on a two-day basis, Coach Jarnagin has 40 varsity gridlers on hand, in-cluding 17 lettermen from the 1957 squad that won seven and lost three. Thirty-six freshmen reported Monday, a week after the varsity, and also will work twice daily until school regis-tration Sept. 15.

Most serious injury in drills so far was a costly one. Start-ing center and linebacker Carroll Stafford, 205-pound Amarillo junior, broke a bone in his left foot and will miss the Virginia Tech and Texas Tech games, at least. His re-placement in recent drills has been Jerry Hill, 185-pound

Weslaco junior, who perform-ed for Arlington State's Jun-ior Rose Bowl champions last year.

Singled out for praise in ear-ly drills have been Jim Hada-way, 187-pound senior left half-back, and Bob "Red Dog" Rat-liff, 210-pound Canyon fullback. Hada-way has moved up to the starting unit, replacing speed-ster Don Blair, 175-pound Ta-hoka junior. Ratliff made second team All-Border Conference last year and was the team's second leading rusher with 425 yards.

The first three games — all on the road — are expected to make or break the West Texas club. After Virginia Tech at Roanoke, the Herd tackles Southwest Conference rival, Texas Tech, at Lub-bock, and then will help Ariz-ona State open its new 30,450-seat stadium at Tempe.

The Sun Devils, who were rated 12th in both AP and UP final polls last year, have been selected to finish as high as 10th in the nation this term. The Arizona State contest also will open the Buffs' Border Conference schedule. West Tex-as finished second to undefeat-ed, untied Arizona State in con-ference warfare last season.

Graham Ends Artillery Course
FORT CHAFFEE, Ark. (AHTNC) — Pvt. Gerry L. Graham, 19, son of Mrs. Bonita K. Graham, of Kress, re-cently completed eight weeks of advanced artillery training at Fort Chaffee, Ark.

Graham entered the Army last March and received basic training at Fort Carson, Colo. He is a 1956 graduate of Plainview High School and at-tended Texas Tech. His father, Fred R. Graham, lives at 619 Irving St., Hereford.

Home Makers Club Meets At Community Building

By MRS. OWEN ANDREWS
The Frio Home Makers Club met Tuesday at the community building, with Miss Alma Andrews serving as hostess. Mrs. Jeff Terrell dis-cussed "How My Church Can Fight Communism."

Roll call was answered with Bible verses by 13 members, Mesdames David Yandell, E. F. Vogler, Henry Andrews, Glenn Gripp, Woodrow Jones, Annie Springer, Glen Andrews, Owen Andrews, D. N. Gamblin, Joe Lindsey, T. L. Sparkman Jr., Ed Clark, Miss Alma Andrews and one visitor, Mrs. Betty Stewart.

The next meeting will be at the community building Sept. 23, with Mrs. T. L. Sparkman Jr. as hostess.

Mrs. Alma Gamblin spent Saturday night with the C. P. Gamblins in Dimmitt and re-turned to the D. N. Gamblin home Sunday evening.

Monte Gripp went home with his grandparents, Mr. and Mrs. A. B. Gripp, to Conway after they had visited in the Glenn Gripp home Friday. On Sunday his parents went to Conway after him.

The D. N. Gamblins spent Sunday in the home of her sis-ter at Hart.

The E. F. Vogles visited her brother and family, C. G. Drager, in Rhea Sunday.

Mrs. Annie Springer spent Monday night in the home of her daughter, Mrs. Elbert Sum-mers and family, south of Dim-mitt.

Mr. and Mrs. Alfred Sawat-zky of Clinton, Okla., visited Tuesday in the Earnest Harder home.

Mr. and Mrs. Joe Sparkman, Teresa and Susan of Fort Smith, Ark., and Sparkman's mother, Mrs. Lennie Nunally of Chil-dress, were visiting Tuesday and Wednesday in the home of Mr. and Mrs. T. L. Spark-man. The Sparkman children and grandchildren were all there to visit Tuesday night. Visiting were Mr. and Mrs. T. L. Sparkman Jr., Tommie, Bonnie and Darlene, Mr. and Mrs. Owen Andrews, Mr. and Mrs. Clark Andrews, Rocky and Kirk, Mr. and Mrs. Owen Andrews, Mr. and Mrs. Glen Andrews, Mr. and Mrs. George Zetzsche and Ann, Veradelle Andrews and Joe Andrews.

Joe Sparkan is finishing two years of service in the Army and expects to move to Dallas to return to work for Humble Oil Co. He is Mr. Sparkman's nephew, and Mrs. Nunally is his sister-in-law.

Mr. and Mrs. Frank Rob-bins and children attended a

family gathering of her rela-tives in the home of her par-ents, Mr. and Mrs. F. Y. Moreman, east of Hereford, Saturday night and Sunday. A bout 35 people attended.

Mr. and Mrs. E. H. Little and Becky of Texline spent Tues-day night in the home of her parents, Mr. and Mrs. H. D. Robbins, in Hereford and visit-ed their brothers and sisters in this area.

Several people gathered at the Frio Baptist Church Thursday to cut weeds on the grounds. The Rev. B. H. Baldwin, pas-tor, has been taking care of it, but the others came to help with some extra work that need-ed to be done.

Grass is being sown in the area north and northwest of the church, completing the seeding of the area. Native Buf-falo grass will cover the larger part of the grounds, with Ber-muda around the parsonage and in small plots in front of the church. About 80 Arizona cy-prus and cedars form a semi-circular windbreak to the west of both buildings. They were

set last spring and are grow-ing very well.

Mr. and Mrs. D. C. Miller moved to 110 Fuller St. in Here-ford Friday. Her mother, Mrs. H. M. Mobley, helped with the moving.

Mr. and Mrs. Lee Johnson of Cortez, Colo., were visit-ing Thursday night with her relatives, the Mobleys. They and Mrs. H. M. Mobley, Mr. and Mrs. Don Mobley and Austin Mobley were supper guests in the Floyd Cole home. The Johnsons spent the night with Mrs. H. M. Mobley and Austin and returned home Friday.

Mrs. D. N. Gamblin; Kathy and Karen were visiting Thurs-day in the Floyd Cole home, and the ladies put carrots in the freezer. Mrs. E. F. Vogler and Mrs. Spicer Gripp visited at the Coles during the morning.

Mrs. Jeff Terrell has been ill with an ear infection, and went to Plainview Thursday to a doctor. Mrs. Elmer Kimbell kept the Terrell children Fri-day.

Fair's Rural Youth Day Scheduled For Sept. 27

By ARGEN DRAPER
I spent last week at Well-ing-ton with my mother, who was ill. I appreciated keeping up with the club news which was in the copies of the Hereford Brand that I received. I was glad to see that Betty Olson was chosen president of the Wyche Home Demonstration Club. I think Betty will be a good president.

Tom Draper has joined the ranks. When in Wellington one day he put my car in the garage and put the keys in his pocket. I would like to have seen his face when he discovered the keys. I believe he mailed them back from Claude.

While I was in Wellington, I had to be quiet while my patient rested. I enjoyed re-reading "So Big," and "Giant." Don't know exactly why I picked Edna Ferber. The determination of the her-ones of these stories remind-ed me of the determination of my patient.

Tom kept telling mother that he would bring Slat's (isn't that an awful way to speak of Marlin Gilliland) to bring her to Hereford. Mother finally said, "I don't see why it is nec-essary to have Slat's fix a bed on the ambulance."

Home Demonstration Clubs will meet Tuesday, Wednesday and Thursday this week and every day next week. Remem-ber Council on Sept. 22 in the County Courtroom.

I hope that you saw the ex-hibit during the opening of the First National Bank. This was a tribute to the fine work that Peggy Browning has done in clothing in 4-H in this county. Peggy's dress was used in the exhibit, and Miss Jeannette Faulkenberry titled the exhibit "Peggy's Clothing Creation."

During Peggy's seven years in the 4-H club, she has made 103 garments, this is in addition to hemming cupboards, making household linens, and the other things that 4-H Club girls do in clothing.

Peggy writes from Lubbock Christian College that she is simply carried away with the spirit and atmosphere of col-lege life. I gather from her letter that it is simply dreamy.

There have been four entries in District I for the Rural Neighborhood Progress Contest.

They are Fairview in Armstrong County, Jumbo in Castro County, Perico in Dallam County, and Chamberlain in Donley County. There is a contest which we have not given enough pub-licity and that is the Community Pasture Improvement con-test. The final enrollment date is Dec. 31.

Rural Youth Day at the fair is Sept. 27. All 4-H clubs, adult 4-H leaders, and agents are to be guests of the fair and will be admitted free at any of the gates. The program will start at 10 a.m. in the Colossium and will include 4-H Clubs and other rural talent, the crowning 4-H and FFA wheat kings, 4-H bak-ing queen, and other special en-tertainment. During the pro-gram, door prizes will be given. There will be free tickets to the Water Follies.

The recipe of the week is: WASHINGTON APPLE PUD-DING

- 3 apples, grated
 - 1 1/4 cups flour
 - 1/4 teaspoon salt
 - 1 egg
 - 1/2 cup sugar
 - 1/2 cup nuts
 - 1/2 cup shortening
 - 1 1/2 teaspoons soda
- Put all ingredients in bowl and mix well. Pour into un-greased baking pan and bake 30 minutes at 350 degrees.
- SAUCE
- 1 cup sugar
 - 2 tablespoons cornstarch
 - 2 cups boiling water
 - 4 tablespoons butter
 - 1 teaspoon cinnamon
- Mix sugar and cornstarch to-gether in saucepan. Gradually stir in boiling water and boil one minute stirring constantly. Stir in butter and cinnamon. Keep warm until ready to serve.

ATTEND WEDDING
Mr. and Mrs. E. E. Bishop and Mr. and Mrs. C. A. Sauley of Westway attended the wed-ding of Leona Lookadoo and Lewis Jenkins at the Trinity Baptist Church in Muleshoe Sat-urday evening.

SCHOLARSHIP AWARDS were presented to Dorothy Williams, 18-year-old daughter of Mr. and Mrs. W. Glenn Williams, 118 Ave. D, prior to her enrollment in Texas Tech. Miss Williams received two \$100 checks, from the Deaf Smith Chamber of Commerce and the Hereford State Bank. Making the presentations were Monk Johnson, left, C-C vice president, and Townsend Douglas, bank president. A 1958 Hereford High School graduate, Miss Williams plans to major in elementary education. Previous recipients of the honor include Danyell Eliston, 1957, and Robert Baldwin, 1956. (Staff Photo)

PEA-PICKERS—Tennessee Ernie Ford and Molly Bee will come out of the pea patch to star in the big Cotton Bowl show Oct. 5 at the State Fair of Texas in Dallas. The show is one of the State Fair's "Shower of Stars" series, which also will present Tito Guizar Oct. 6, Eydie Gorme and Steve Lawrence Oct. 9, George Gobel Oct. 14 and Red Foley Oct. 15.

Outstanding Service Bands Set To Appear At 1958 State Fair

Those folks whose pulse quickens when they hear the rattle of drums and the blare of trumpets will have more than their share of thrills at the 1958 State Fair of Texas, where the martial music of top-notch military bands will resound almost continuously from one end of the big fairgrounds to the other.

Two of the outstanding service bands in the nation will be on hand during the 16-day fair, Oct. 4 through 19.

The 150-piece Marine Band of the Atlantic Fleet Marine Force will play daily concerts and will stand a formal retreat each evening. The far-famed musical organization will march in the State Fair opening day parade through downtown Dallas and will represent Notre Dame at the SMU-Notre Dame football game in the Cotton Bowl Oct. 4.

The 50-piece Randolph Air Force Base Band will also march in the parade and present daily concerts during the fair.

Texas college bands that will appear in concert at the fair include the following: Abilene Christian College Band, Oct. 14; Allen Military Academy Band, Oct. 18; Arlington State Concert Band, Oct. 18; Baylor University Golden Wave Band, Oct. 9; Hardin-Simmons Cowboy Band, Oct. 11; Kilgore College Band, Oct. 17; McMurry College Band, Oct. 18; Midwestern University Band, Oct. 16; Navarro Junior College Band, Oct. 7; North Texas State Concert Band, Oct. 12; Prairie View A&M Marching Band, Oct. 13; Sam Houston State Concert Band, Oct. 4; San Angelo Junior College Band, Oct. 10; St. Marys' University Band, Oct. 16; University of Texas

Band, Oct. 12; and Wharton County Junior College Pioneer Band, Oct. 11.

In addition, on Music Festival Day, Oct. 7, some 16 outstanding high school bands from throughout Texas will play concerts during the day and appear in a gigantic massed Music Festival along with orchestras and choruses in the Cotton Bowl that night.

And on East Texas Day, Oct. 14, top high school bands from East Texas will appear in continuous concerts on the fairgrounds.

The martial rhythm to be heard on the fairgrounds at the 1958 State Fair will be quite in keeping with the spirit of the Music Hall attraction, "The Music Man," whose "Seventy-Six Trombones" hit tune sings of the glories of military band music.

Terrific Power in a Small Package!

Like a top-flight athlete, a good automobile battery must have emergency power, to get you started under difficult conditions... and it also must have staying power, so you can depend on it year after year.

Phillips 66 Tropic-Artic Batteries give you both kinds of power... and lots of it! Silver plated grids help preserve the power of your Phillips 66 Tropic-Artic Battery. You get the protection of a written guarantee.

Let your Phillips 66 Dealer take care of your present battery. He'll supply it with water, check the terminals, re-charge it if necessary. And when you need a replacement he can supply a powerful new Phillips 66 Tropic-Artic Battery... a battery you can really depend on!

Individual Safety Urged By Group

As Texas enters the final quarter of 1958, increasing pressure is being applied by safety organizations in urging consistent traffic safety habits on the part of the general public.

"The keystone in any safety program is the responsibility of the individual," J. O. Musick, General Manager of the Texas Safety Association, said in his

Austin office Wednesday. "Each man is his 'brother's keeper.' This Christian principle goes hand in hand with the natural instinct for self-preservation," Musick said. "If the carelessness of an individual provokes an accident — to himself or another — he is a moral transgressor just as surely as if the act had been intentional." Musick said too many pedestrians take their safety obligations lightly, thereby adding to the alarmingly high traffic toll each year.

"It is much easier to prevent an accident than to experience one. So, today is the time for each of us to take a critical look at our own traffic safety habits," Musick suggested.

He offered the following safe walking rules as a guide to sensible pedestrian behavior:

1. Cross streets carefully and only at intersections, or in specially designated crosswalks.
2. Never walk into the street from behind parked cars.
3. Obey traffic signs and signals; cross on Green or Walk lights only.
4. Wait on sidewalk, not in street, for light signals to change.
5. Look left and right for traffic while crossing. Beware of turning cars.
6. Do not go around a bus or streetcar, front or rear, after alighting from it. Wait until it leaves before crossing a street.
7. Do not rely on a driver seeing you on poorly lighted streets or in roadways at night. Carry a flashlight and wear light-colored or reflective clothing.
8. Always walk so that you face traffic in areas where there are no sidewalks.

Gifts Given At Meeting

Mrs. Bob Howard won the recreation prize at the meeting of the Messenger Home Demonstration in the home of Mrs. W. T. Howard Friday afternoon.

Also winning a prize was Mrs. E. M. Jack, and those who received gifts were Mrs. Ruth Coleman, Mrs. Bruce Coleman, Mrs. Bertram Jack and Mrs. Helen Turner.

Miss Jeanette Faulkenberry, assistant home demonstration agent, presented a program on buying a street dress.

Visitors at the meeting were Mrs. T. J. Parsons and Mrs. Bob Wylie. Members attending were Mesdames J. E. Rouse, Jack Buse, Ruh Coleman, M. A. Brown, Bruce Coleman, Ernest Brown, Bob Howard, Helen Turner, S. N. Thweatt, E. M. Jack and the hostess.

Castro County Man Reports—

100 pounds of ammonia made 51-bushel wheat

Dan J. Heard, a successful Dimmitt, Tex., farmer, says: "I put down 100 pounds per acre of Phillips 66 Agricultural Ammonia pre-plant on my irrigated wheat and made 51 bushels per acre average on 108 acres. I'm sold on the dollars-and-cents value of applying Phillips 66 ammonia to my wheat land."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields... and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that the 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Long Time Ago
45 Years Ago
Irrigation at Hereford has the
distinction of being the first to
break into the newspapers of
New York City. Not only has it
secured special space in the
papers of that great city, but
the irrigation resources have
had sufficient notice to receive
notice in The Wall Street Jour-
nal, the paper with the largest
circulation than any other A-
merican financial publication.
The only mistake made by that
journal is that the New York
writer has the idea that Here-
ford irrigation is done from
large reservoirs which are used
to store storm waters. While it
is true Hereford has a million
acre reservoir, it is under the
ground, not on the surface, and
the water must be pumped from
its long hidden home.

25 Years Ago
Drilling has resumed at
the Garcia oil well northwest
of town about 35 miles, accord-
ing to W. B. Price, head driller,
of Texola, Okla. The crew is
running tower.

The Garcia well is now down
1555 feet, and cementing the
casing at 1452 to shut out water
is being done today. Mrs. Price
made the statement that the
well is in good condition and
rapid progress is anticipated.

Price and McFain is the new
company that has taken up the
drilling where it was temporar-
ily abandoned a few months a-
go. Mr. McFain is from Sham-
rock and has had many years
experience as a driller of oil
wells in Texas and Oklahoma.

Delegates resolved against:
(1) Unauthorized use of the
name, Democrats of Texas, by
the DOT, (2) "overstepping of
power" by the U. S. Supreme
Court, (3) use of military troops
to enforce school desegregation,
(4) state income or sales taxes,
(5) excessive foreign imports
and (6) federal aid to schools.

They favored (1) enactment
of laws to prevent members of
one political party from voting
in the primary of another and
(2) Governor Daniels' platform
for the next two years.

Delegates to the GOP conven-
tion had little difficulty uniting
on a "Down with the Democ-
rats!" platform.
Conservative Democrats, they
declared, must join with the Re-
publicans to keep the country
from going completely socialis-
tic.

**With apparent nervousness,
the Republicans adopted a
"kid gloves" resolution on
school segregation. They rec-
ommended the "solution in
Texas be left to the people,
the school boards and courts
within this state."**

Another resolution swatted at
Democratic office holders who
failed to support states rights
legislation in the last session
of Congress.

Republicans also affirmed
their approval of Sec'y of Agri-
culture Ezra Benson and their
disapproval of federally finan-
ced hydro-electric dams.

Beginning this month, mem-
bers of the State Board of In-
surance are to be paid \$50 per
working day rather than a
straight \$15,000 a year.
**This was Attorney General
Will Wilson's ruling on a sub-
ject that was — and still is —
a cause of strong feeling
among legislators.**
When the Insurance Depart-
ment reorganization bill was
being considered last session,
House members strongly favor-
ed a full-time Board. Senate was
just as set on a part-time Board.
Final compromise was a mea-
sure which said the Board
should be full time for the first
year with each member receiv-
ing \$15,000. Beginning in Sept-
ember, 1958, it was to become
part-time with each member re-
ceiving \$50 per day. Up to 300
working days a year (worth
\$15,000) was authorized.

Actually, to work 300 days out
of 365 the Board would have to
work Saturdays and holidays —
or else give up vacations.

And an influential senator has
openly implied there may be
trouble if the Board doesn't
comply with "legislative intent"
that it serve part-time. Board
members object strongly, say
the work involved is at least a
full-time job.

**So tense and tight is the
race for Speaker of the House
that the possibility of winning
the Republican backing has
become an issue.**

Rep. Joe Burdett of Kerrville
has accused present Speaker
Waggoner Carr of Lubbock of
seeking support among the GOP
candidates for House posts.

Twenty-nine Republicans are
opposing Democratic nominees
for House posts. Conceivably, if
a few, or maybe even one, of
the Republicans won, his could
be the deciding vote.

**A ban on airmail shipment
of serums, vaccines and diag-
nostic specimens could be
"disastrous," says State Health
Commissioner Henry A.
Holle.**

A proposed amendment to
postal regulations would allow
airlines to refuse to carry such
items. Dr. Holle said he felt
danger to handling personnel
was small compared to the
crippling effect such a regula-
tion would have on the machin-
ery for combating disease out-
breaks. "Numerous cases could
be cited," he said, "where rapid
transit was essential for diag-
nosis and identification."

HOUSE ON WHEELS
CHATTAHOOGA, Tenn. (AP) —
Policemen called by Andrew
Gosa, 26, to investigate theft
from his automobile weren't
sure the case shouldn't have
been entered as house burglary.
The car was equipped with
television, radio, record player,
sliding trays for use as tables,
cigarette dispenser and electri-
cal outlets for such appliances
as a razor, skillet and coffee
pot. And a burglar alarm, link-
ed to the horn, which warned

Goss that someone had broken
in.
Part of the loot was a cake.
Asked where in the car that
came from, policeman Gene
McGovern replied:
"Gosh, I don't know. There
might have been a kitchen in
the back seat for all I know."
John Bunyan's "Pilgrim's
Progress" is said to be read
more widely than any book in
the English language except the
Bible.

THE CAR

ELECTRA 225 IN THE EYE-STOPPING NEW 4-DOOR HARDTOP

Here it is . . . and now you know! Know why we have called this *THE CAR*. Know that a new generation of great Buicks is truly now here. From just this one view you can see that here is not just new design . . . but splendidly right design for this day and age. A car that is lean and clean and stunningly low . . . and at the same time great in headroom and legroom, easy to get into or out of. And when you see your Buick dealer and walk the whole wonderful

way around this Buick, you'll know still more how right all this is. From anywhere you look, here is a classic modern concept that is Buick speaking a new language of today. A language of fine cars priced within the reach of almost anyone. A language of quality and comfort and quiet pride of ownership. And when you see your quality Buick dealer and get behind the wheel, the car will speak to you in a language of performance satisfactions without equal.

THE LOOK. A clean, lean, new kind of fine-car look. The look of the best-engineered, best-manufactured Buick ever built . . . and the most excitingly beautiful design in Buick's nearly 60 proud years.

THE ACTION. Get the feel of thrifty new Wildcat engines. New Equipoise ride. New fin-cooled rear brakes and aluminum front brakes. New Twin-turbine and Triple-turbine transmissions.*

THE QUALITY. Buick quality to the core, new super-quiet bodies by Fisher. New Magic-Mirror finish retains its beauty longer. New interior décor throughout. Safety-Plate Glass everywhere. Magnificent new quietness, new comfort, the feel of fine-car quality everywhere! Yours to test, yours to savor — the magnificent new Buick for 1959.

*Optional at extra cost on certain models.

He Always Heals

The doctor has been summoned and with precision instruments he begins the delicate examination. With perfect control of muscle he can inject his needle without pain.

Just so is The Great Physician marvelously skilled. His very word is sharper than a two-edged sword. It is sharper than the doctor's keenest needle. Yet He never harms... never hurts... always helps... always heals. He can perform for you the most delicate operation, IF you will let Him. He can penetrate your life with healing cleansing power... give you the change that makes you want to go to church. Why not start this very week?

Lest We Forget: The stonement of Christ is the one ground of all the Christian's hopes. If he looks for reconciliation with God, it is through the blood of the Redeemer's Cross; if for peace, for strength, for any blessing whatsoever, he has no plea than: My Lord and Savior has bought it all for me with His blood. He views everything treasured up for him in Christ, and to Him he goes, in order to receive out of His fullness whatever his necessities require. His whole life is a life of faith in the Son of God.

U. S. Threatened By Cheap Europe Labor

To the people of the 18th District:
 Sometime back I mentioned a few aspects of the proposed European Economic Community. As this approaches reality, I feel that it is important for the people of this country to understand just what is taking place; therefore, I will attempt to point out a few of the highlights of this proposal in this newsletter.

This Community is composed of six signers of a treaty, to wit, Western Germany, France, Belgium, Luxembourg, the Netherlands and Italy. The primary

purpose of the movement is to create a closer economic integration in Western Europe.

The feeling is that if there can be a successful economic integration between these countries, it will result as a matter of course in a better political integration. As among the six member countries, there is intended to be created a market and trade operation similar to commerce between the states in the United States.

The operation is to include the movements of goods, services,

manpower or investment of capital. It is contemplated that this will result in a competitive situation within the member countries that will provide concentration of productive power in those areas peculiarly adapted to particular products, and thereby increase efficiency in production.

This will, in turn, enable the European Economic Community as a whole to have a most effective weapon in general competition for world trade. The free movement of manpower between the countries is expected to answer labor shortages without difficulty.

(1) The six member nations of the EEC had a gross national product of about 40 per cent of that in the U. S. in 1956. In that same year the 12 nations negotiating for the free trade area produced goods and services equal to about two-thirds of the U. S. total.

(2) Although Europe is the largest market for U. S. exports, it conducts one-third of the world's trade. It imports one-half of U. S. exports of food and tobacco, textile fibers, fuels and petroleum products, and about one-fifth of our machinery exports.

(3) This same Western Europe exports into the world market one and one-half times the exports of the U. S. into the world market. The U. S. exports to Europe consist mostly of raw materials and semi-finished goods. U. S. exports to other areas of the world are mostly manufactured goods. It is important to note that manufactured goods also make up most of Western Europe's exports to other areas.

It should be noted at this point that there are several countries in Europe and the Scandinavian area not members of the Common Market Treaty. These include the United Kingdom, Sweden, Norway, Denmark, Austria and Switzerland. These countries have been negotiating to create a Free Trade Area which would include the Common Market countries.

These other countries realize the potential of the common market theory as benefiting Europe, but because of commitments and other situations in which they are involved, they find themselves unable to participate in the entire Common Market program and to become members of the European Economic Community, as such. It is generally felt in Europe that a free trade area will be established in keeping with the general thinking of the common market theory.

The big question concerns what will happen to U. S. business as a consequence of these proposed programs in Europe. Of course, it would be impossible to answer that question as the matter presently stands. However, there are certain facts that must be realized:

This creates the following type of problem for the United States to consider. Although Western Europe, under the EEC program, could become a much greater market for some U. S. exporters, those engaged in exporting manufactured products may find much stiffer European competition, both in the European markets and in other world markets. It has been suggested that this threat might cause many U. S. businesses to set up subsidiaries in Europe or to work out licensing operations so that their products could be manufactured by European manufacturers.

The cheap labor in Europe would certainly pose a serious threat to U. S. manufacturers. This has been one of the major bones of contention in the bitter controversies over the Reciprocal Trade Agreements Act, as well as the activities of the Tariff Commission with relation to imports.

During the debate in the Congress on the Reciprocal Trade Bill, the attention of the Members was called to numerous articles, from Europe and many other places in the world, manufactured in competition

There are standards for advertising, too!

MEMO TO ADVERTISERS

for advertising, too!

What a fix we'd all be in without those standards of measurement for the goods you buy and sell. Imagine the confusion, waste and doubt in business transactions if we didn't have accepted standards of weights and measures—known values.

We believe it is just as necessary for us to tell you what you get for your advertising dollars, in terms of known circulation value, as it is for you to do business with your customers on the basis of recognized standards. That's why this newspaper is a member of the Audit Bureau of Circulations.

WHAT IS THE A.B.C.? The Bureau is a cooperative and nonprofit association of 3450 publishers, advertising agencies and advertisers in the United States and Canada. Organized in 1914, A.B.C. brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

WHAT A.B.C. DOES FOR YOU. At regular intervals one of the Bureau's large staff of experienced circulation auditors comes to our office and makes a thorough audit of our circulation records. He has access to all of our books and records to obtain the FACTS that tell you what you get for your money when you advertise in this newspaper.

WHAT A.B.C. REPORTS TELL YOU. The circulation FACTS obtained by the A.B.C. auditor are condensed in easy to read A.B.C. reports which tell you: How much circulation we have; where the circulation goes; how it was sold and many other FACTS about the audience we provide for your sales messages. Make your advertising investments on the basis of this audited information. Ask for a copy of our A.B.C. report.

Q. How can I remove some unsightly spattered spots of paint from the cement steps and pavement, dropped by a careless painter?
 A. These spots can be removed by washing with a strong solution of potash, allowing the solution to sink in. After the paint spots are dry, wash off with soap and water, then rinse with cold water.

Q. What is a good substitute for baking powder, to use in an emergency?
 A. Two teaspoons of cream of tartar and one scant teaspoon of baking soda are equal to three teaspoons of baking powder.

Q. How can I prevent dandruff?
 A. It is claimed that dandruff with such articles in this country. The differential in price was great, some foreign products being 200 to 300 per cent cheaper.

There is no doubt but that the countries in Europe are moving into the operation contemplated by the common market theory, for the purpose of stabilizing their own economy and strengthening their several countries. However, it would be well for this country to watch these operations daily as they progress to the end that our business in this country will not be unduly jeopardized.

It must be remembered that many of the factories and business concerns in those countries were set up by the use of foreign aid funds furnished out of the pockets of the taxpayers of this country. As I warned previously, the European Economic Community is an excellent approach to the solution of a tragic problem in Europe, but we in this country must watch its development with great vigilance.

It Pays to feed your crops nitrogen the fast, Easy URAN WAY

QUICK-ACTING AND LONG-LASTING—URAN supplies urea, nitrate and ammonia nitrogen, an excellent combination to feed crops speedily and well—from sprouting to harvest.

EVEN-SPREADING—You can see where URAN goes when you spray it on. Even coverage makes uniform, vigorous crops and assures thorough, even decay of crop residues plowed under. Ideal also to mix with soil insecticides or weed killers.

When you plow under straw and stubble or work it into the soil before planting, it is wise to add fertilizer. Here's why. The billions of soil organisms that rot the plowed-down stubble and make it into soil-building humus, use up large amounts of nitrogen, phosphate and potash to grow and multiply and do their work.

"If sufficient nutrients are not available, the digestion of the raw organic matter will be slowed down. Less carbon will be absorbed into the soil and more of it will be released in the form of carbon dioxide. The limited nitrogen supply will have to be used over and over again in the repeated cycle of the growth, death and decay of the bodies of the microorganisms.
