AROUND A TOWN

Sights and Faces Seen

It took a fire to disrupt a routine which J. B. Stoker and his twin brother, K. Stoker, a Post rancher, had built up over many years. The habit, a weekly letter, which each brother writes on Sunday; and Mr. Stoker of Hereford had started his letter last Sunday when a telephone call finally came through from Post to tell him that his brother's ranch home near Post had burned to the ground—and put a stop to K. Stoker's letter-writing activities for the week.

A fair temperature gauge, if you don't have a thermometer, is to find how many cakes of ice have been pulled at the local plant within the past 24 hours, and Arthur Brock tells us that the plant is running at capacity ten tons a day. Increased demand because of sales at the Hereford Internment Camp and in Friona—and some overtime work by Old Sol—are really running up ice sales, Arthur says.

Harry E. Young, who has been handling potatoes in Hereford for the past three summers, is back in town this week and will act as sales manager for the

Draft Loophole To Be Closed By New Ruling

Selective Service announcements recently revealed the closing of a draft loophole, which, by pure chance, might keep a man out of the armed forces indefinitely, even though he is qualified for limited service and is sent repeatedly to the induction station.

The freak situation developed from the fact that the army takes for limited service only five per cent of the total number accepted each day at each induction station and turns back the leftovers, even though they meet limited service requirements.

Thus a man's draft board might send him back for induction an indefinite number of times and get him back again as often, simply because the five per cent quota might be filled before examiners got to him.

Under the new plan, all men found at the induction station to be qualified for limited, but not general, service, will be turned back to draft boards. They will be put in a new classification, 1-A-L, meaning available for limited service at any time.

Each over-all quota given a draft board will include a limited service quota, approximating five per cent, to be filled from the 1-A-L classification in order of the men's numbers in that classification. There will be no leftovers.

Big Savings in Points Offered By Local Community Canning Project

Enough blue points to last one person for 2½ months were saved in the first four days of operation of Hereford's Community Canning Center, H. T. Cardwell, manager, stated this week, pointing out that vegetables saved in these first four days would amount to a total of 1,395 points.

"Home canning is war work," Mr. Cardwell stated, urging that housewives who do not own canning equipment take advantage of the facilities of the community cannery and conserve as much food as possible.

The costs on home canned goods, as estimated by Mr. Cardwell run to about eight cents per No. 2 can for green beans and beets, with 11 cents figured as the cost of a No. 2 can of black-eyed peas. Costs estimated here include the cost of cans, and expenses will be considerably higher for the housewife who uses her own canning equipment, Mr. Cardwell said.

Molly Pitcher Tag Day, Aug. 4

The modern Molly Pitcher will greet you throughout the nation on August 4th when brigades of Mollys will tag every buyer of War Bonds and Stamps. They will carry on the tradition of the Revolutionary War heroine who has gone down in history because she aided her fighters at the battle of Monmouth in 1776.

Legion Auxiliary Sponsors Bond And Stamp Sale on "Molly Pitcher Day"

Additional Sugar To Be Granted On Special Application

Home canning sugar, in addition to the supply allotted on stamps 15 and 16 in War Ration Book 3, will be made available to housewives who need more sugar for their summer food conservation work, it was announced this week at the county war price and rationing board.

The additional supply in no case is to exceed 15 pounds per person, which with the ten pounds already given by the ration book allotment will make a total maximum allotment of 25 pounds per person. This does not mean, however, that every person will be eligible for the 15 pounds additional allotment.

This will be given only if the application shows that present sugar supplies have been exhausted and that sufficient fruit is available to use up the additional allotment.

In making application, each consumer must show:

1. The number of quarts produced since March 1, 1943 and the amount intended to can.
2. The amount of sugar intended to use in making jams, jellies, preserves or fruit but-

(Continued on Page 12)

Other services offered by the community cannery, which is located at 110 West Third Street, include locating buyers for farmer's surplus vegetables and providing labor for housewives who desire to have fruits or vegetables canned on shares. Farmers or others having surplus vegetables are asked to leave information at the cannery. "If you want to have some canning done on shares," Mr. Cardwell says, "Notify us at least a day before you want the canning done. Then bring your vegetables and containers to the center on the appointed day and the person who will help you on this project will furnish his part of the containers and do the work."

The American Legion Auxiliary will conduct a sales campaign to promote purchase of War Savings Bonds and Stamps next Thursday, August 4. J. C. Ricketts, county bond sales chairman announced today.

Girls will be on the streets and in the stores in Hereford next Thursday and will be ready to sell stamps and bonds to chalk up a big sale for the day. Mrs. Reed Williams, local auxiliary President stated, adding that the goal will be to pin a Molly Pitcher "tag" on every person in town.

The local legion auxiliary has a good supply of the Molly Pitcher tags and is planning an active drive to carry on the spirit of the heroine of the American Revolution, who manned a cannon at the historic Battle of Monmouth.

Hereford people are urged to buy a generous supply of stamps and bonds next Thursday to put over the project of the modern "Mollys."

City Budget Hearing Set for August 7th

Hearings on the city budget for the coming fiscal year will be held Saturday, August 7, at 10 o'clock a. m., at the City Hall, it was stated today by Mayor C. J. Paddock, who invited all taxpayers and interested citizens to attend the meeting.

Following the hearing and adopting of the budget, the tax levy for the coming year will be made, Mr. Paddock said.

Vogue Representatives Return from Trip To Dallas, Ft. Worth Mkts.

Mrs. C. W. Seed and E. D. Fox returned Friday from Fort Worth and Dallas markets where they purchased more fall and winter merchandise for The Vogue.

Mrs. Seed, who has made three trips, including one to California to markets in recent weeks, states that goods in some lines are scarce but that by increasing marketing efforts her firm is making every attempt to meet increased demands.

The new fall clothes are beautiful, Mrs. Seed states, adding that hats this year are going to be especially attractive. Just received at The Vogue this week is a shipment of new rayon hose, really sheer and having almost the appearance of nylon.

Temperature Hovers At 100 Mark

The Thermometer hit the 100 mark on two separate days last week and through hundred-degree weather is reported nearly every summer here, old timers agree that a week of such consistently high temperatures as have been reported in the past week is unusual.

And Herefordites agree that the weather is unusual—and decidedly uncomfortable—as they continue to sweater, with local thunderstorms bringing only temporary relief from the heat.

The hot weather has been welcome to potato farmers who are getting a good start on digging the early crop, and farmers generally welcome a let-up from the rains of the past few weeks as they continue with plowing and row crop cultivation.

Temperatures recorded in Hereford by the thermometer at the West Texas Gas Company, are as follows:

	Max.	Min.
Wednesday, July 21	96	66
Thursday	98	66
Friday	100	68
Saturday	100	68
Sunday	88	66
Monday	98	70

"A" Ration Books Still Being Issued to Owners

If you have not yet received your new "A" gas ration book, please be patient and do not call the ration office.

Clerks at the office issued this request today, stating that books are being mailed rapidly and that the office force hopes to have the job completed as soon as possible.

Books have already been issued to most holders of "A" books only, and clerks are now busy issuing books to car owners who made late application for books and to owners who have a supplemental ration in addition to the basic "A" book.

Mrs. Hight To Handle Sales for County H-D Marketing Committee

Mrs. J. L. Hight has been employed by the marketing committee of the county home demonstration clubs to handle sales and delivery details for the lot of peaches which club members and other housewives of the county are planning to purchase cooperatively.

A telephone is being installed at Mrs. Hight's home this week and any inquiries concerning purchase of peaches should be made direct to her. She will also have a list of persons having surplus vegetables and fruits and will be ready to make contact between prospective buyers and owners of garden products.

Some progress had already been made by the home demonstration clubs in getting canning equipment and other household appliances into homes where they will be used, and Miss Sadie Lee Oliver stated today that any women who have canners or other equipment which is not now being used and which could be made usable with minor repairs should call her or Mrs. Hight if they wish to dispose of this equipment.

Late Applications For Ration Book 3 Taken August 4-10

Persons who have not yet applied for War Ration Book 3 will have an opportunity to do so next week, from Wednesday, August 4, through Tuesday, August 10, it was announced this week at the office of the county war price and rationing board, where applications will be taken.

All necessary forms will be at the office, clerks stated, adding that the applications, when filled in, are to be mailed or returned to the local board office and not to the Dallas Mailing Center, where original applications were handled.

In order to make application for a book for a child who was born since June 10, 1943, the parent or other family representative should bring a birth certificate or other proof of identity for the child.

Citizens Urged To Rally To Army-Sponsored Scrap Drive

Direct Scrap Drive in County

The administrative staff of the mobile collection salvage unit of Amarillo Army Air Field, who are now directing the search for scrap in Deaf Smith County, is pictured above.

Standing left to right are T-Sgt. Paul E. Womer, S-Sgt. Thell Speice, Jr., Maj. R. C. Lueck, Lieutenant Skowronek, S-Sgt. Lucine C. Allig, T-Sgt. Carl R. Roberts and T-Sgt. Albert Mishner. Kneeling, left to right, are Pvt. Joseph A. Lombardo, Pfc. Lloyd F. McCormack, Pfc. John C. Cox, Pfc. Paul R. Hastings and S-Sgt. Milton Stutzman.

R. J. Richardson, chairman of the Deaf Smith salvage committee, called today upon the residents of Deaf Smith County to rally around the Army Scrap Drive which started in Hereford last week. In a specially prepared letter sent to all farmers and ranchers of Deaf Smith County, Mr. Richardson stated:

"With your scrap metal some American boy's life will be saved—it might be your son, your brother, your relative or your friend."

"Do you realize our steel mills face a critical shortage of scrap metal? Unless quantities of vitally needed scrap is forthcoming, a complete breakdown in the production of war materials and farm machinery will result."

"The United States Government is calling upon every loyal and patriotic American citizen in Deaf Smith County to donate their scrap metal directly to the Army Salvage Unit of 60 soldiers and 13 army trucks, who have come here from Amarillo Army Air Field."

"These soldiers are equipped with cranes, cutting torches and other wrecking tools. They are prepared to do all the work required for gathering, wrecking and shipping the donated scrap."

"Usable parts needed for proper farm operation will be saved and returned to you by the soldiers. Your country needs help! Donate your scrap metal now!"

Several days ago, the Mobile Salvage, Collection Unit of Amarillo Army Air Field left Oldham County after collecting more than 400,000 pounds of scrap metal.

Earl Stagner Receives Distinguished Flying Cross for South Pacific Service

Receives D. F. C.

Lt. Earl V. Stagner, son of Mr. and Mrs. Joe Stagner of Hereford, who has recently received the Distinguished Flying Cross in recognition of eight months' service with the Army Air Corps in the South Pacific

First Lt. Earl V. Stagner, who recently received the Distinguished Flying Cross and the Air Medal for service in the South Pacific War Theatre, would mark down one night, spent on the ground at Henderson Field, Guadalcanal, as just about the most unpleasant experience of his active service, relatives here said this week. Stagner spent the night, or parts of it, in three different foxholes, while Jap naval batteries were trying to shell the American forces from their newly-won positions; and he says that he left the first two of those foxholes "just in time."

Eight Months Duty

Stagner's citation is for distinguished air service during the eight months time from August, 1942, to April, 1943, during which time he took part in 60 missions over enemy territory. His duties as pilot of a B-17 Flying Fortress included more reconnaissance flying than actual combat, but reconnaissance, according to flying men, is one of the most hazardous jobs in the Air Corps, since a single Flying Fortress has a good chance of meeting up with a formation of enemy flyers, and if the odds are too heavy, the Fort has pretty slim chances of limping through the battle.

During his Pacific duty, Lieutenant Stagner was stationed at Guadalcanal and in the New Hebrides, and his crew claimed the honor of making first observations of the famous Munda Air Base.

Ready For Action

After his return to the States and a furlough spent with his parents, Mr. and Mrs. Joe Stagner, and other relatives here, Lieutenant Stagner spent some time in an Army hospital to get (Continued on Page 12)

New Fashions Beautiful Says Mrs. Gillis of Fall and Winter Lines

Mrs. W. F. Gillis of The Fashion Shoppe returned Friday from attending markets in Fort Worth and Dallas, where she added to the stock of fall and winter merchandise for her store.

The new fashions are beautiful, Mrs. Gillis states, and shortages in some lines have eased somewhat.

Fall dresses, suits and accessories have already begun to arrive at The Fashion Shoppe and Mrs. Gillis invites the ladies of Hereford and surrounding territory to come in and make selections now.

A complete list of articles to be sold is carried in the sale bill printed on another page of The Brand.

E. E. Brunley and Lloyd Olsen are auctioneers and G. W. Newton is clerk for the sale.

Mrs. Eli Dunlap, Pioneer Settler, Dies in Dallas

Mrs. Eli Dunlap, 83 years old, died Friday at her home in Dallas and funeral services were held in Dallas Monday.

Mrs. Dunlap was a pioneer of Hereford, where she lived during the early days of the town and until about 20 years ago when she and Mr. Dunlap moved to Dallas. She was identified with church and civic work here and was well-known among old-timers of this territory.

Mrs. Dunlap is survived by her husband, Eli Dunlap of Dallas, four daughters, Mrs. Ward E. Bell, Dallas, Mrs. M. C. Garrett and Mrs. Luther Hough, Amarillo, and Mrs. M. B. McLean, Hereford; four sons, Walter Dunlap, Hereford, Dr. Eldridge Brodie, Denton; W. I. Brodie, San Diego, Calif., and S. F. Brodie, Nova Scotia, N. Y.; nine grandchildren and four great grandchildren.

Walter Dunlap and Mrs. M. B. McLean of Hereford left Saturday for Dallas to attend the funeral services.

Enough to Go Around

Now, for the first time in years, both farmers and manufacturers can work for the biggest possible yield without thinking about the market. This year they can sell all they can produce.
As things look now, this condition is due to keep up for some time, but we can't count on its lasting forever. Certainly nobody wants a prosperity built on war! So it's high time that everybody concerned—and that is everybody—give some thought to keeping things running after the war.
You're busy, we know. So are we. The important thing right now is seeing that there's enough of everything to go around. But we've been devoting a little attention to the problems of the future, too. We feel that the people who have the producing job to do can contribute a lot to the solution of those problems.
And we hope that you, too, busy as you are with growing more food than this country's ever produced, will be turning these problems over in your mind. For if America's farmers and manufacturers, working together, can't find a way to keep the richest country on earth producing enough for everybody, and let the producers make a living in the process—if they can't, why then, who can? Weldon Stephan Writes Winning 4-H Essay on Cow, Sow, Hen Farm Plans

Weldon Stephan, son of Mr. and Mrs. Moody Stephan of Westway, was winner in this year's contest for the best essay describing advantages of the "cow, sow, hen" plan of farming. It was announced today by County Agent A. R. Bateman, who said that Weldon will get his choice one of eight Berkshire gilts, offered as prizes in the contest, which is sponsored by the Sears-Roebuck Company with the co-operation of the Extension Service and the 4-H clubs.

Other boys who will receive prizes are Harold Head, C. W. Reeves, Walter John Paetzold, Bobby Mathers, Billy Lynn Thomas and Howard Hill.

Following is the prize-winning essay, which Mr. Bateman characterizes as one of the best which has ever been submitted in the contest in this county.

Cows, Hogs and Hens Essential To A Successful Farm

By Weldon Stephan
Cows, hogs and hens have always been an essential part of the farm program, but today more than ever before, they are essential not only to the success of the farm but also to the freedom of our country and the success of our great food program.

Cows, hogs and hens supply the farm family with many essential foods, thus cutting living expenses and supplying an abundance of food. They also supply the nation's most-needed foods, dairy products, meat and eggs.

Many cheap feeds which cannot be used otherwise can be used to great advantage and a good profit in the feeding of

cows, hogs and hens, thus producing these much-needed foods.

Barley, usually a cheap grain, if ground and mixed with other grains, makes an excellent feed for either cows, hogs or hens. And we have found that there is a good profit in feeding it. Not only does it bring a nice profit to the farmer but it is turned into foods that are badly needed in our war effort.

I fed out one hog last year which brought me a net profit of \$19. The cost of the hog and feed being only \$18. I also have a brood sow which has made me a very nice net profit.

This year I hope to have in addition to my hogs, a calf as a project.

According to my way of thinking and figuring, no farm should be run without cows, hogs and hens.

Messenger News

MRS. J. N. MESSENGER

Messenger received a light shower Saturday night and small grain received some benefit. However, farmers still want a big rain.

Nona Houette of Clovis, N. M., spent the weekend with her grandmother, Mrs. J. N. Messenger, and her uncle, Geo. C. Messenger and family.

Lloyd Messenger has been helping Glenn Taylor to plow wheat stubble.

There are only a few farmers still cutting wheat. Most farmers are plowing row crops and wheat stubble.

The Baptist Church at Friona has called Rev. Jenkins of Hedley, who has accepted and will be on the field two weeks from now.

Glenn Taylor's youngest son had a narrow escape from serious injury Friday when his daddy backed up the car and the little boy ran into the front bumper which caught him in back of the head cutting a gash. They were afraid he was hurt bad and rushed him to the doctor but he said not. Everyone is thankful.

Pies and cakes can deplete your sugar supply in a hurry unless you use other sweeteners. Here is a recipe for lemon pie which will surprise you and one that is printed by popular request. Several Hereford housewives have been enjoying the recipe and want it passed on to you. Now that every bit of sugar that can be saved for canning means jars filled for winter use, we find ourselves searching for recipes which will help stretch our allotment of sugar. This recipe contains an added supply of essential daily foods—milk, eggs, whole grain and butter.

Let's Cook Something

Lemon Pie

- 1 cup Eagle Brand Milk
- Juice of two lemons
- 3 eggs
- 1 cup graham cracker crumbs
- 1-4 cup butter

Beat egg yolks thoroughly, add milk and mix well, using a mixer if possible. Add the lemon juice a little at a time. Make a crust of the graham crackers and butter and 1 tablespoon sugar, and line a large, greased pie tin with mixture. Let stand in refrigerator to set crust, fill with lemon and milk mixture and top with meringue made from the well beaten three egg whites, 3 tablespoons sugar and 1-4 teaspoon cream of tartar. Brown in slow oven and when cool return to refrigerator until ready to serve.

THERE'S ROMANCE IN THE AIR — literally, when Robert Preston and Ellen Drew get together in "Night Plane from Chungking," Sunday, Monday and Tuesday attraction at the Texas Theatre. Preston is an American flyer, fighting for General Chiang Kai Shek and Ellen Drew is a Red Cross Nurse, passenger on an India-bound bus; and the combination-works into a first class adventure yarn.

TARZAN GETS A NEW LEADING LADY, in the new picture, "Tarzan Triumphs," which comes to the Star Theatre on Sunday, Monday and Tuesday; and Frances Gifford, "the jungle princess" of the new film provides the eye appeal necessary for Tarzan's ladies, with Johnny Weismuller swinging through the air with the greatest of ease and Johnny (Boy) Sheffield and Cheta, the chimpanzee, jockeying for scene stealing honors. This time Tarzan's jungle domain is invaded by German paratroopers, but the Reich supermen are no match for the jungle lord.

Luncheon-Garden Party Is Given To Honor State Garden Club Head

Highlighting the summer's events for Garden Club members two lovely affairs were given last week with Mrs. C. E. Beavers, president of the Texas State Federation of Garden Clubs, as honor guest.

The first of the two events, which was planned for months ahead, was a luncheon held at the First Christian Church, with Mrs. A. L. Manjeot, in the absence of the president Mrs. Lyle Stanton, presiding.

The attractive back lawn and flower garden at the Hromas home provided a delightful setting for the party. Tall baskets holding profusions of midsummer blossoms that looked as if they might have been growing there, were placed about the lawn. The tea table was laid in cool shades of green and decorations included miniature pink sunbonnets holding pastel shaded sweet peas. Favors were wrist bouquets fashioned of tiny pink sunbonnets and sweet peas. Mrs. Roy Crutchfield poured.

Mrs. F. H. Oberthier presided at the guest book and Mrs. P. H. Gilliland, year book chairman, introduced the honor guest who spoke on "flower arrangement." She spoke of line, stressing the

Who are non-essential travelers?

You are the judge of whether or not your trip is essential—and your judgment is what our government is relying upon.

Please consider these points when you think of traveling on the railroads this summer and for the duration:

- Your trip may take a Pullman berth or chair car seat needed by men in uniform traveling under orders.
- Your trip may delay war workers, not in uniform, in reaching their vital jobs.
- Your trip may deprive men and women in the service of a furlough trip to visit their homefolks. If you do take a trip, plan for it in advance, travel light, consider taking a box lunch to avoid delayed meals in the diners, and make up your mind to put up with certain inconveniences and crowded conditions.

WHAT ABOUT VACATION TRAVEL?

Vacations should be spread out over the year, not confined to summer months.

A vacation trip should be confined to one round trip only, starting and returning on Tuesday, Wednesday or Thursday.

Travel in chair cars whenever possible, and please carry only one piece of luggage.

Consult your Santa Fe Agent about your travel plans. You'll find his friendly advice helpful.

Do You Remember?

AUGUST 7, 1943

The Mollie Bailey tent show was coming to Hereford—and with recommendations: "we would be glad to have you at our reunion, first because we understand that you were in the service of the Southern Army as a hospital nurse, and secondly, because you have showed in our little town a number of times and it has been well received, and because we are reliably informed that you allow no thugs, dead beats or hums about your show." (Extract from a letter to Mrs. Bailey from Geo. H. McLaren, district clerk of Young County.)

While riding with her young brother last Monday evening the horse became frightened and started to run and Miss Mary Tygett suffered a broken ankle and severe bruises from jumping from the buggy. Willie, who was

driving, clung manfully and bravely to the reins until he saw that he was unable to manage it, when he, too, jumped from the buggy but fortunately was not injured. The horse was caught later, none the worse from its escapade.

This morning at Canyon while following the exceedingly careless but exciting pastime of racing with the trails, one of the reins broke, which turned the horse into a telegraph pole, smashing the buggy and precipitating the occupants, A. U. Menchew of Tulla and the Misses Bruce and Imo Gass of this city onto the ground. Miss Bruce suffered the most serious injuries—a broken nose and severe bruises one of which was on the right eye, which has been swollen shut since the accident.

"At first thought of self destruction, take Electric Bitters. It being a great tonic and... also a great stomach, liver and kidney regulator." T. J. Davis Drug Co.

AUGUST 1, 1943
Hereford's newly organized Canteen Service is rapidly assuming a leading role in the

activities of the local Red Cross. Organized along military lines, with commissioned and non-commissioned officers, the members of the new patriotic service are winning the hearts of hundreds of new Sammys, enroute from training camps to "Somewhere Over There."

The impression seems to prevail in some quarters that women will not be allowed to vote in the Second Democratic Primary to be held on August 24; County Chairman W. E. Dameron states that this is wrong and that women can vote in the Second as they did in the First Primary, although not in the General Election.

On the evening of July 29th Mrs. P. W. Price's home and lawn, even unto the chicken roost, was the scene of some festivity and much gaiety. The fete was in honor of her cousin Miss Bond Seed.

Pleas Watson left Tuesday morning for El Paso where he will enlist in the Navy. Also Ralph Smith and Roy Haberer, who will enter the Technical Training School at Camp Mabury, Austin.

Wise ones are preparing now for the after-war problems and opportunities. The man with vision will make a fortune after the war. There will be vast works of reconstruction, repair and reorganization in Europe and in the Americas. The airplane will duplicate the rapid growth of the automobile industry, the much discussed Merchant Marine will come into its own... the oceans, so far as their isolating function is concerned, will be no more, international brotherhood... will spring up in the 25 years following this war. Every gift and every expression of friendship was gratefully appreciated, but the greatest gift was the reminder that I have so many good friends.

Make School Transfer Records by Saturday

County Judge Fred W. Baird states that few school transfers have yet been made and he again reminds parents that Saturday, July 31, is the last date on which these transfers can be made.

All necessary forms are available at the county judge's office and the transaction will take only a small amount of time, Judge Baird said, urging that parents fill out these papers for all children who will attend school outside of their home common school district this year.

The record of transfer is necessary if state school funds are to go to the proper school district.

Ickes States Gas Ration To Be "Equalized" With Cut for Southwest Area

Petroleum Administrator Harold L. Ickes last week stated that he will recommend "equalizing" of gasoline rations for the entire country some time within the next 60 days.

The action, if completed, will mean some increase in gasoline rations in the East and a decrease in the Middle West and Southwest, with value of basic "A" gas coupons fixed somewhere below the present four gallons.

Ickes' statement has raised a storm of protest in the Southwest, where gasoline is plentiful, and where the idea of rationing has been sold as a rubber conservation measure.
