## AROUND A Town

Sights and Faces Seen

Not much worried about his lost Shetland pony is five-year-old Jon George Fraser, son of Mr. and Mrs. Alton Fraser. A puppy out at the Fraser farm has taken the pony's place in Jon George's affections, but Mr. Fraser would still like very much to get any information on the whereabouts of the pony, a sorrel and white Shetland which has been lost since May 1.

Buren Sowell and N. E. Gass, discussing the habits of greenbugs and the havoc in most of the fields of the county, came to the conclusion that the bugs were good judges of wheat. Mr. Gass said they ate most of his planted acreage and left standing some very sorry volunteer.

A mother's day gift doubly appreciated because it came over thousands of miles was that received by Mrs. O. H. Altman. Mrs. Altman received flowers, wired by her son who is in overseas army service.

Leo Hellman, who is stationed at Camp Berkeley, Abilene, is spending a furlough with his family here.

Jim Childre, stationed with the armed forces in Tennessee, arrived in Hereford this week for an emergency furlough. He was called home by the serious illness of his mother.

Avn. Cadet Walter London, son of Mr. and Mrs. W. H. London of Hereford, was operated on yesterday for appendicitis. Cadet London is stationed at Goodfellow Field, San Angelo.

## Specific Ceilings On Beef, Lamb, Mutton

Specific cents-per-pound ceiling prices for all cuts and grades of beef, veal, mutton and lamb became effective May 17, it was announced this week by OPA district headquarters.

Specific prices are tied to five grades of meat and retailers are required to post the grades in their stores and to segregate the various grades in their display in order that consumers may check compliance with ceilings.

According to the OPA announcement, all meat is placed into five grades and appropriately marked at the time of slaughter. The practice of grading meat has been carried on in the industry for many years and by the department of agriculture since 1926. The wholesale prices of meat are fixed according to the grades and different prices for different grades are fixed at retail.

There are two broad divisions of retail prices, those with a comparatively small volume of sale, which are in class 1 and 2, and those with a large volume of sale, which are in class 3 and 4. Following is a list of certain cuts and retail ceiling prices for beef, veal, mutton and lamb for the Lubbock district. In the listing which follows, the name of (Continued on Page 10)

## Japs No More Eager To Die Than We Are, Says Returned Bomber Pilot

The sons of the rising sun, despite their vaunted devotion to death for the emperor, "don't want to die any worse than we do," according to Lt. Earl Stagner, bomber pilot recently returned to this country after seven months of duty in the South Pacific.

"They are hard to whip, but I believe we have them outbested," says Lt. Stagner, stating that despite the reputation of the Jap Zero, American air equipment is superior.

Stagner is modest about his own achievements but points out that his squadron made an excellent record in combat. Though men on his ship have been injured (the bomber carries a nine man crew), "We were never shot down or had to bail out."

Like most men who have had experience in the combat zones, Lieutenant Stagner has had brushes with "fate or what ever you call it," according to his diffident expression. He describes a group of soldiers taking

## Board Gives Canning Sugar Regulations

Useless housewives have fruit now on hand for canning, they are requested not to make application for canning sugar at this time. Two stamps in War Ration Book One will be designated soon as canning sugar stamps, and if housewives wait for this announcement they will be saved the trouble and red tape of applying for special canning sugar certificates.

This announcement was made yesterday by the Dear Smith County War Price and Rationing Board. The statement concerning use of stamps in the No. 1 ration book as canning sugar stamps was made only yesterday by the OPA, and local ration board members say that the procedure will be much more convenient for housewives and will save much work at ration offices.

Concerning Amt. of Sugar Regarding the amount of sugar to be allocated for home canning, and OPA statement received by the ration board last week had this to say:

"Local boards should be advised that the 25 pound limit placed on canning sugar is a maximum figure and should not be used as a guide for issuance of sugar in every case. The national office advises us that the average allocation of canning sugar per person per annum must not exceed ten pounds if the available supply is to be adequate. The public in each community should be warned that abuse of the liberal application (Continued on Back Page)

## Hired Hand Absconds With Camping Outfit

Could be an innocent camping trip, but if it is, the Arlie Deans are fooled.

The Deans went to town Tuesday and returned home to find their fifteen-year-old hired hand, the pickup, Mrs. Dean's saddle, a tarpaulin, a shotgun and a good supply of ammunition, all gone and supposedly together.

Any suspicious camping expeditions should be reported to Mr. Dean.

### Girls Club Aids In Salvage Of Cooking Fats

Hereford housewives will have an opportunity to cooperate with the national fat salvage campaign, it was stated this week, as members of the Horizon Club, teen-age girls' organization, announced plans to call for all waste kitchen fats in the town. If the campaign gets off to a good start, Camp Fire Girls will help with the fat collection drive later this summer.

### Waste Fats, Vitally Needed In Making Of Explosives, Need Not Be Collected In Large Quantities

As little as one tablespoonful a day can provide enough glycerine to get a blow at the Japs and Nazis. The fat should be collected in cans, and should be turned in before it gets rancid. The girls will call for the collection and will turn it in to local markets, official government collection agencies.

## AN Open Letter

An Open Letter. Hereford Texas, May 18, 1943.

Colonel Hall United States Army Honored Sir:

As a citizen of Hereford for many years, a voter, and a taxpayer, I feel moved to say some words to you in defense of our humble, yet honorable, little West Texas town which was reared on the bare prairie without the benefit of military supervision or threat of black list. It never had a seat on any gray train at any time. That is Hereford. We burned prairie coal, ate beans, corn bread, and jerked beef. We survived the depression and the blight of the dust bowl and are still here.

I have understood that the military move was to win a war and not to blue print the pimples, civic or sanitary, on the face of this typical southwestern community. We feel that we have small use for superior talents along the line of sewerage superintendency.

I call your hand on the insinuation that the soldiers are not treated civilly in Hereford. I challenge you to produce one soldier who will stand up in the presence of three reputable citizens and say that he has had impolite treatment at the hands of any citizen of Hereford.

Every Club, Lodge, and church has open doors to the soldiers of your command. More than that, many of the homes, with open doors and Plains hospitality, have had them at their tables, and observing Arab hospitality, did not bowl them out after they had eaten. Not Hereford! No! No, Colonel, your threatened black list and the promise of the loss of money has no terror for Hereford. We are not for sale!

I am sure it is a bit discouraging to stay in the army thirty years and get no further than Hereford. Don't blame Hereford! Some of our boys who have been in only a few months got a rear view of the famous Rommel on a fifteen hundred mile foot race across the African desert. Don't blame Hereford! Hereford and the war? Ask the Red Cross! Ask the Bond Committee! Ask the (Continued on Page 10)

State Senator Grady Hazlewood tomorrow night will be commencement speaker at the graduation exercises for Hereford High School seniors, Nona Dean Rose, salutatorian, and Phyllis Radovich, valedictorian, are other speakers on the program.

## Home Canning of Pineapple Brings Demand For Tried Canning Recipe

Home demonstration club members have ordered 2,000 pineapples for home canning and other Deaf Smith County housewives have been so enthusiastic that another order for fresh pineapples has been made up, Miss Sadie Lee Oliver, home demonstration agent, said today. Since many housewives because of high point value of processed pineapple are canning the fruit for the first time this year, Miss Oliver gives the following tips for successful canning.

First, she points out, the fruit should be orange in color and the spines should pull out readily. If the fruit is green, wrap it in paper and keep it at 65 to 70 degree temperature for a few days until it is ripe enough to can.

To prepare fruit for canning, cut off the stem and twist out the top. Place the pineapple on its side on a table and slice crosswise. Peel each slice. Cut out the core and shape the slices with a sharp round cutter or cut in pieces of any desired shape.

Juice or syrup for canning the fruit is best made from cooking the outer trimmings of the meat of the fruit as the best flavor is in the part next to the skin. Add cores and enough water to cover. Simmer until the fruit is clear, then strain the juice. Make a medium syrup with one measure of sugar to one measure of fruit juice. If less sugar is available, make the syrup with one-half cup of sugar to one cup of juice.

**PRECOOKING**  
Cook slices or pieces of fruit in medium syrup eight to 10 minutes, pack in jars and seal.

If packing raw fruit in the container is preferred, pour hot syrup over the fruit and steam for five minutes. Then seal the container.

### PROCESSING

After sealing the jars, process in a water bath for 15 minutes for No. 2 cans, 25 minutes for No. 3 cans and pint glass jars; 30 minutes for quart glass jars.

Cool quickly to prevent overheating as this affects the flavor and color.

Clean and label containers before storing them in a cool, dry place.

# No HEREFORD BULL

Ellen, Ruth and Mildred Bowsher raised the calf and when it was two years old, traded it to their brother, Paul, for an electric refrigerator.

Alex has the thing all figured out and releases the following figures on what was made from the steer: bone meal, 200 pounds; glue, out of horns and hoofs, two gallons; fertilizer, 150 pounds; liverwurst, 13 yards; tripe, 150 feet; chicken feed, meat scrap, 100 pounds; shoes, from hide, 25 pair; heart, three pounds; hair mattress, one (small); bologna, 24,000 inches, or hamburger, 16,000, or hot dogs, 18,000—if end to end—you figure it out; if cut into steaks—let's not mention that. Alex further says if you don't believe any of this to see him. I am already looking for him.

The only thing he seems to have overlooked was probably the most important. That's red meat stamps. He should represent around 125 points, maybe more.

It is also possible that Mrs. R. R. Willis and Lee Benefield are looking in the direction of a certain saddle horse and doing mental arithmetic as to how this animal would dress-out for the Black Market. Mrs. Willis tried riding the horse last week and landed feet second. A few days later Lee decided to prove that the horse was gentle, so he calmly got into the saddle; he, also making a none too graceful landing. They were both a bit shaken and Mrs. Willis has even abandoned her bicycle since the event.

There is more interest in fishing this year than ever before, but so far the fish seem to be holding their own. Hall Beavers landed three good bass with his fly rod a few days ago and Jack Kirksey hooked a nice one. Joe Bishop says he caught 14 in one day. D. C. Laird was out here from Kilgore, however, and missed entirely—and that's not a bit like D. C.

Those who aren't fishing seem to be devoting most of their time to victory gardens. Jim Lipscomb, who plants entirely by almanac signs, has just about made a believer out of R. C. McGilvary. Last year Jim planted one-half row of beans, according to the signs; about 10 feet away. Mc planted five full rows. Jim had to furnish the McGilvarys with beans all summer—and still had enough to can several quarts. Mc says he isn't sure about the signs, but he planted his beans the same afternoon Jim planted this year.

Another popular outdoor sport is trying to see the tow ropes between planes and gliders which pass over frequently. Some say you can see them, while I declare you can't.

### With Grain Shortage, Need More Roughage For Dairy Production

The strong demand for dairy products will last for the duration of the war and for several years after the war is over, it was predicted this week by E. R. Eudaly, extension dairyman of the Texas A and M Extension Service, who stated that when the war stops, a demand for dairy cattle from the United States to the war torn countries seems almost certain.

But though this picture is encouraging, the feed situation continues serious. Feed prices are high and are expected to stay high, which means that dairymen must put forth every effort to have an abundance of

pasturage, silage and good quality hay.

The higher the roughage is in protein, the less will be needed in the grain mixture. The more immature the hay crop is, the higher it is in protein. But since dairymen want tonnage as well as quality, the best practice is to cut at the medium stage. Johnson grass and Sudan grass should be cut just before it heads, Eudaly points out. Prairie grass should be cut at or just before bloom. Cane should be cut in bloom.

Concluding, Eudaly points out: "We should make every effort to put up one ton of hay and three tons of silage for every cow. If you do not put up any silage, you should put up some legume hay such as alfalfa, clover, cowpea, peanut, etc., since these legume hays are higher in protein."

## PHILLIPS REPORTS ON ITS WAR WORK

Excerpts from the Company's 25th Annual Report

For the miracle of U. S. war production, no one industry, organization, or man can claim credit. Teamwork is doing the job... and Phillips is only one of many hundreds of thousands of patriotic companies devoting their major effort to serving the war needs of the nation.

To get a true measure of U. S. war effort, multiply the record of Phillips Petroleum Company by the vast number of U. S. team members.

#### AVIATION FUEL

"The Company was one of the first, and remains one of the largest, manufacturers of high octane aviation fuels."

#### SYNTHETIC RUBBER

"Long before Pearl Harbor, the Company was engaged in the quantity production of butadiene, which is the basic component of synthetic rubber. In addition to being the first large-scale producer of synthetic rubber from petroleum raw materials, the Company's affiliate, Hycar Chemical Company, also made more synthetic rubber from butadiene during 1942 than any other manufacturer in the nation.

"The Company is now in the course of constructing one of the largest butadiene manufacturing plants in the entire Government program... This plant has been designed exclusively by a staff of several hundred

Company technical employees, using Phillips own patented processes."

#### CHEMICAL PROCESSES AND PRODUCTS

"During 1942, the Company's technical experts translated numerous laboratory and semi-commercial scale chemical operations into large-scale projects. Among the newer processes of chemical significance, either originated or improved by Company research, are polymerization, alkylation, dehydrogenation, hydrogenation, isomerization, catalytic cracking, isoversion, copper sweetening, catalytic desulfurization, and complex distillation. Some of the Company's more important chemical products are butadiene for synthetic rubber, intermediates for explosives, solvents, special types of carbon black, and numerous blending ingredients for super aviation fuels."

#### RESEARCH AND PATENTS

"Indicative of the year's research accomplishments, was the filing of 266 new patent applications and a substantial increase in patents issued, exclusive of nearly 100 pending applications which have been placed under secrecy restrictions preventing their issuance until after the war....

"Phillips' patented processes have been made available by license to many other petroleum organizations."

BOYD KNOX

We take pride in extending our sincere Best Wishes upon this occasion, for it has been our privilege to know many of you as you have grown from small children into stalwart men and attractive young ladies.

We realize that you are going out into the world in trying times and under adverse conditions — but the very fact that you are graduating from high school in a Free Country proves the things this nation is fighting for are really worthwhile.

FOX MAN'S SHOP and Fox Cleaners

The world you're going into is pretty well battered up and full of headaches. You didn't create the headaches, but the job of curing them will be yours nevertheless. It may mean giving up that profession or career you'd counted on for a year or two. For many of you young people it will mean service in the armed forces. Whatever sacrifice it means, make it cheerfully! Your America and ours, the land of opportunity that made your life and education possible, needs help — your help and ours.

We realize that the graduating classes this year are confronted with

 brief period.

However, we still feel that congratulations are in order . . . Because  
 you live in a country where you enjoy Liberty; The opportunity for edu-  
 cation, religious worship and many other freedoms which exist today only  
 in this great country of ours.

Actually, this 1943 class stands as a symbol of the reason our country  
 is at war. We are proud of each one of you — and of the part you will  
 play in the immediate future and in the years to follow.

## Calliopians Round Off Year Thursday

To round off the year's work members of the Calliopean Club plan each year for something social. Often formal affairs are enjoyed but this year an informal dinner party was their choice to complete the year's work.

The party, which was arranged by Mesdames J. R. Allison, W. L. Davis and David Rodgers, was held at the home of Mrs. Ray Barber. Two tables were used and pink roses and corsages of columbine were the decorations. Place cards carried out the chosen color effect.

After the dinner a short business session was held when committees for next year were named. They include Mrs. Wayne Evans, Mrs. J. E. Kirby and Miss DeCima Ramey, yearbook; Mrs. Alton Fraser, Miss Eloyse Pitman and Mrs. J. T. Gilbreath, Jr., social; Mrs. W. C. Pitman, Mrs. Jimmie Gilentine and Mrs. J. R. Allison, membership, and Mrs. W. L. Davis, Mrs. David Rodgers and Mrs. Chas. Hays, welfare;

scores were presented to Mr. N. E. Milburn and Mrs. Hardwick.

A salad course was served after the games to Mesdames J. T. Gilbreath, Jr., Grant Fuller, N. E. Milburn, Meade Haile, Gordon Taylor, Kellar Muse, the special guests and the hostess.

## Timely Discussions For May Are Given At Garden Club Meeting

Mrs. F. H. Oberthier was hostess for the Garden Club meeting held Friday afternoon in the club rooms at the court house.

Timely discussions for May were given by Mrs. E. Ramey and Mrs. E. T. Brooks. Mrs. Ramey told how to grow house plants successfully mentioning four requisites for the plant's growth. She listed proper potting, watering, sunlight and food. Continuing she said "after the spring repotting, the plants should have a chance to renew their vitality in fresh air. There should be open sun for the bloomer, slight protection for the begonia, semi-shade for the foliage plants and dense shade for the ferns. A good way to preserve the pot plants in the summer months is to bury them to the rim and place a concave piece of pot below the drainage hole to keep it open. Plants with heavy roots require a heavy, loamy soil while plants with fine fibrous roots need a more open sandy soil. For quick growing plants a quart of sheep or cow manure may be incorporated in each bushel of soil and for slow growers a quart of bone meal is better. No definite rule can be followed as to watering the potted plant but don't over-water. Give enough water each time to pass through the drainage hole and when ready to bring the plants indoors again, knock the soil from the pot, wash inside and out and add fresh dirt around the plant roots."

Mrs. Brooks told of the origin and history of the dianthus varieties. She said in part "The dianthus belong to the Pink family. They are usually annual or perennial although a few are biennial, such as the Chinese pinks. The pinks and the sweet williams are still old fashioned favorites in the garden. There are many species and varieties, nearly all of which make dense tufts of grasslike growth. The early English writers used to tell us that the narrow leaved varieties were called sweet-Johns and the broad leaved sorts, sweet williams. The carnation as we know it never existed in nature but is a creation of man. In 300, B. C., the Greeks were growing the carnation and as far back

as 1600 it had become a florist's flower. The American carnation has more or less fringed petals, a characteristic the old-time English florist would not tolerate. The American type came from France where it was grown as early as 1750."

Mrs. E. E. Fridley demonstrated an arrangement of house plants and Mrs. Roy Crutchfield gave a demonstration of dressing a pot plant for a gift. During her demonstration she said "Be sure the ribbon that ties the dressing is the same color as the flower, regardless of the time of season, and be sure the person for whom the plant is intended is considered when you select the flower."

Members are requested to bring surplus iris roots and chrysanthemum divisions to the next meeting which is scheduled for May 28. The roots should be labeled as to color, height and when in flower, as the plants will be set out at the club's city park plot.

## Shower Compliments Former Hereford Girl

Seven hostesses entertained Saturday afternoon with an informal tea and shower honoring Mrs. Paul E. Womer of Amarillo, the former Miss Inez Clark of Hereford. Hostesses included Mesdames George Muse, in whose home the party was held, N. E. Gass, John Hickman, J. C. Ricketts, A. M. Jones, Nona Howell and Carl Jennings.

Violets and roses were used to decorate the Muse home with an arrangement of peonies in delicate shades, on a reflector forming the tea table centerpiece. Pale pink candles burning in crystal holders gave candlelighting and Mrs. John Hickman poured.

Calling hours were from four to six and approximately one hundred friends of the honoree were invited. Gifts were displayed in groups about the house.

## MESDAMES GYLES, NEWSOM ENTERTAIN

Mrs. G. W. Newsom and Mrs. Frank Gyles entertained Thursday afternoon with a contract party at the Newsom home.

The party was in the form of a dessert bridge affair and quartet tables were centered with dainty bouquets of lacy violets in miniature containers for the refreshment course. Other flower decorations for the party included iris, red roses and pansies.

After dessert contract games were enjoyed with Mrs. Jeff Gilbreath playing high, Mrs. J. M. Gilliland playing second high and Mrs. T. E. Seigler playing low for score awards.

Those present were Mesdames A. R. Bateman, J. M. Gilliland, Howard Gault, W. J. Stanford, W. M. Emmons, N. E. Milburn, Paul Mathers, Will S. Kerr, Jim Lipscomb, O. L. Click, Jim Black, O. G. Calhoun, Urlin Streu, H. A. Close, W. L. Davis, O. Moe, Troy Moore, R. L. Craner, Grant Fuller, Gordon Taylor, Sam Batton, Jeff Gilbreath, T. E. Seigler, Jr., W. E. Sanders of Amarillo and the hostesses.

## SOLDIER IS COMPLIMENTED

Lieutenant Earl Stagner, home from overseas combat duty with the U. S. Army Air Corps, was named honoree at a buffet supper recently given by his cousins,

Misses Lily and Gertrude London.

Yellow roses and yellow iris decorated the table from which the supper was served and following an informal hour after the supper the group attended church and later a line-party at the picture show was enjoyed.

Those participating in the evening's entertainment were Frances Young, Kitty Harlin, Mildred Bowsher, Marie Compton, Seletta Robinson, Glenn Ricketts, G. P. Owen, Lieutenant Stagner and the hostesses.

Two sons of Mr. and Mrs. S. O. Wilson, Lt. Wendell K. (Kermit) Wilson and Ens. W. B. Wilson, are now on active duty. Lieutenant Wilson, who is in the Army Air Corps, left this country on April 9 and is now in England. He reports a wonderful trip. Ensign Wilson left Treasure Island, Calif., on April 30 and is now in charge of a gun crew on a merchant marine ship somewhere in Alaskan waters.

Navigation Cadet Frederick Roger Baumann of Hereford has been appointed cadet captain, one of the highest ranking cadet officer appointments at the

Hondo Army Air Field. Cadet Baumann received his appointment in recognition of outstanding military and scholastic achievement during the first phase of his navigation training. Upon completion of his course at Hondo, he will receive silver navigator's wings and a commission in the Army Air Forces.

Elroy R. Artho, son of Mr. and Mrs. Paul Artho of Umbarger, has been awarded a sharpshooter's badge upon completion of one phase of his basic training at the infantry replacement center at Camp Roberts, Calif.

Samuel Nelson, son of John R. Nelson of Hereford has recently completed a course in aviation mechanics at the Amarillo Army Air Field.

Lt. and Mrs. Clyde Hussey spent several days last week with his parents, Mr. and Mrs. C. P. Hussey. Lieutenant Hussey, who has recently completed a three month's training course at Ft. Sill, Okla., has been transferred to Camp Adair, near Albany, Ore.

Sgt. C. V. McCord, who is stationed at Miami, Fla., is visiting his mother, Mrs. A. H. Swigart, and other relatives here.

Lt. James Ray (Ray) Coleman, Jr., reported recently that he "heard Gabriel's horn" while on a routine training flight in the mountains near Walla Walla,

Wash. Updrafts in the mountains caused the pilot to lose control of the ship and Coleman, as co-pilot, took over the controls and was able to bring the ship out of a dive after it had dropped 12,000 feet.

The ship was falling so fast, according to Coleman's report, that it was impossible for the crew to abandon ship.

Coleman was promoted to operational officer of the bombing squadron. He is now stationed at Orlando, Fla.

## It's Your World We're Fighting For

You are being graduated into a world at war . . . a war in which the stake is that very opportunity of free education and a chance to take your place with your fellows in a land of free enterprise.

It is a stake worth fighting for . . . and many of you will join the fight . . . in the armed services or in the production front at home.

Your elders have little advice to give you now. We deplore the sacrifices youth must make . . . but envy the richer, happier life in the Peace, to come that will be yours to enjoy. Both in the immediate task of winning the war and in the greater task of winning the Peace, you have a part to play.

You will bear arms, or make them, or pay for them through the purchase of U. S. War Bonds.

Yes, we know that you will make these sacrifices . . . that you will keep your heads in victory . . . and that you will one day be substantial citizens of our great country. After all, you have finished one of the preliminary steps toward becoming a Good American.

## Prince Hereford

Well, little chum, we meet and greet for perhaps the last time; so lend a willing ear and I'll give out with the last delicious loads of "the good earth", which is, to you uninitiated civilians, a nice way of saying that we are dishing out the dirt.

What is this I hear about J. W. Jackson getting his date mixed and then suddenly realizing that to and behold with the man situation what it is these days, he actually had a date with two girls for the same night. Incidentally for future references, he conveniently solved the problem by throwing a party. Please grant him an A plus on his masculine ingenuity. By the way, haven't I seen him with that little Rosemary Phillips number quite a bit lately? And now let us move on to the next case.

Case of Morrison versus Trimble. Depending on how you get around, this may be either current events or ancient history, but have you noticed the gleam in little Marjorie's eyes when she gazes at the necklace and bracelet given her by that handsome hunk of man inside the sailor suit. His name is Larry Trimble.

When we gaze at beautiful females like Vera Rae Fungio we quit wondering why some men want to get married, and we think it ought to convince even women haters like David Sowell, Robert Hickman, and Dave Beavers.

By the way, if you've noticed any Freshmen or Sophomores who are a trifle sore lately, it could be because they went horseback riding. I know Dorothy Dishman, Barbara Smith, Juanita Beauford, and V. C. Hopson tried it the other day. It seems V. C. was quite a hero when he rescued Dorothy from a runaway, and if all this isn't true, it still makes a good story.

By word of mouth, sign language, semaphore, or some other means, I managed to get the idea that several of our students are going places. To be more specific, Barbara Robertson and Texie Ruth Reynolds are planning a long looked-for excursion to see those uniformed boy friends. Good luck, girls!

Hey, hold the presses! Have you noticed all the Seniors gladly sporting all the newest things in graduation gifts? Everything from luggage to jewelry appears in some form or another. This is a memorable occasion in the lives of those super-Seniors, but after all, it only happens once in a lifetime.

The Commencement week is progressing right along under the assistance, influence, and direction of sixty-odd Seniors, some harassed sponsors, and due to lack of further adjectives in my vocabulary which always worried Miss Crawford more than it did me, I will have to say just plain teachers.

Oh, there goes that old alarm clock and I'll have to quit but I've just about run out of gossip any how, so it won't matter. I just have time to good-bye to the Seniors and the best of luck to them in whatever they may meet later. Also, good luck to the Sophomores, Juniors and Seniors of '44 in getting along without the Seniors of '43.

## Senior Personalities

The Senior who wants to be a first class farmer and says that he will work on the farm until Uncle Sam gets him is none other than Robert Hickman. Robert was born in Wichita Falls, Texas, October 15, 1926, and is now 6 feet tall and weighs 148 pounds.

Robert's eyes are grey, and his hair is light brown. He attended school at Dawn through the sixth grade, went to Canyon one year, and has been in Hereford since then.

Hickman's favorite sport is basketball, and he was on the team three years. His favorite subject is plane geometry; favorite food, green beans; favorite song, "I Don't Want To Walk Without You;" favorite saying, (that was censored). He was a member of the F. F. A. for two years, and his hobbies are hunting and riding a bicycle.

"The Walking Dictionary," that's who the high school students have christened Bruce "Gordon" Beene. And if you have ever listened to his idle chatter, you will know why. Bruce was born in Hereford on the morning of November 17, 1925. He is five feet eleven inches tall and weighs 145 pounds. He has green eyes and heavenly dark brown wavy hair. Bruce's favorite food is fried chicken and it is a good thing, too, considering meat rationing. His favorite song is "Why Don't You Do Right?" (could he be speaking to Barbara?) Bruce is planning to go to college; that is, unless Uncle Sam has something to say about it. Bruce's greatest ambition is to pass a Navy V-12 Test—then he will feel as if he has acquired a little knowledge. Here's hoping that you pass it, "Bruce."

February 15, 1925 was a most important date in the lives of Mr. and Mrs. C. C. Acker for on that day at 9:15 A. M. little Mary Ann was born. She is not so little now but she is an exceedingly important and energetic Senior. You see, Mary Ann has belonged to a great many clubs, and has held many offices in them. As a Freshman, Mary Ann was treasurer of the class; as a Sophomore, she was secretary of the class. Then she was treasurer of the Honor Society during her Junior year and reporter for the Honor Society during her Senior year. While in Hereford High School, she has been a member of the F. H. T. for one year, the Glee Club for two years, the Pep Club for two years, and the honor society for three years. In addition to all this extra activity Mary Ann still had enough energy and time to be an office girl for Mr. Kinard for three years.

Now to get down to a few personal facts. Mary Ann weighs 130 pounds and is five feet seven and one half inches tall. She has blue eyes and beautiful brown hair. Mary Ann was born in Hereford, Texas. Although she is busy most of the time, Mary Ann does have a hobby and some favorites. Her hobby is music, and her favorite song is "Melody in F." Her favorite food is fried chicken and gravy. Her favorite subject is shorthand which probably accounts for her ambition to be a private secretary, or vice versa. Mary Ann's pet peeve is "nosey people."

To assist her in attaining her ambition, Miss Acker plans to attend Chillicothe Business College at Chillicothe, Missouri. "Do you still love me?" Don't get excited, that is just the favorite saying of our curly haired George L. LeGrand. George's hair is brown to match his brown eyes. Since January 10, 1926 when he was born, George has grown to be 5 feet 9 inches tall and weighs 135 pounds.

If George L. ever seems to be string, don't be shocked because he is probably just trying to decide whether or not you would make a good model for him. See, his hobby is model building and photography. George just loves to eat fried chicken and he evidently likes to dream, at any rate his favorite song is "I Had The Craziest Dream The Other

Night." His favorite subjects are typing and algebra and favorite sport is football. George L. has been a member of H.Y. for four years and was secretary of that club this year. George L. plans to attend college at the University of Texas and study to be a doctor. We wish him all the luck in the world because we may need him someday.

Foster Hill thinks he is an exception because he was born in a hospital here at Hereford. He is blue eyed, blond haired weighing 165 pounds. He is 6 feet 2 inches and is 16 years old. Foster's hobbies are dancing, swimming, and having a good time with the girls. He is very fond of watermelon, fried chicken and apple pie, which he eats while listening to "Why Don't You Do Right?" His favorite saying is, "You're not just a wuffing."

Foster was president of B. S. P. C. during his Junior year and song leader of F. F. A. He plans to go to college at Texas Tech or A and M. His ambition is to become a cattle man and have several thousand cattle and a big ranch, and to have a big town home with three guest bedrooms, and all that goes with it. He also wants three cars. Girls, this is your chance!

"Fos" lettered two years on the football team and three years on the basketball team. His pet dislike is people who think they are so much better than other people.

Practically the last of the Seniors to be presented in Senior Personalities, but certainly not the least, is "Weemsie" known to you as George Weems. This year's Senior Class president was born in Hereford on October 27, 1924. Playing football two years and basketball three years has made him attain his present physique of 160 pounds and 5 feet 10 inches tall. George has brown hair and eyes. George picks pineapple cake as his favorite food and model building as his hobby. His song is "Don't Get Around Much Anymore." (Oh, yeah!) George's favorite sport is football, wonder why? He was captain of this year's basketball team. George will probably go to college after the war, because he wants to be an aeronautical engineer. Right now, he's going to join the Naval Air Corps.

George has been in the Scouts 2 years, and F. F. A. 2 years, and says that mathematics is his favorite subject. George has made a swell president and we wish him lots of luck.

Even though her weight is a military secret, Helen Cross is 5 feet and 5 inches tall and has blue eyes and blond hair. Helen was born near Hollene, New Mexico, on January 3, 1926.

Helen's favorite subject is shorthand; her favorite foods are peanuts and cherry pie. She likes football best of all as a sport and skating as a hobby. "Melancholy Baby" is her favorite song.

Previous to attending Hereford High School, Helen attended school at Hollene, N. M., and then at Wyche. She was a member of the F. H. T. for two years and the Pep Club for two years.

Helen says that she has no definite plans made for after graduation, but she hopes to go to work somewhere.

Florence Wilhem was born in Nazareth, Texas. She is now five feet and four inches tall and weighs 109 pounds and has blue eyes.

Typing and orchestra seem to lead among Florence's subjects in school. She has favorites just as well as we all do and they are: horseback riding and bicycle riding. Her favorite saying is "Heavens."

After Florence graduates, she plans to help her mother and dad this summer. She does not plan to go to college. To be a music teacher is her ambition.

Bess Marie Hagar was born in Hereford. She has grey eyes and dark hair. She is 5 feet 8 1-2 inches tall, and her weight—well, that is, according to Bess, censored. If you want to please her, just let her eat all the angel food cake and strawberry ice cream she wants. Maybe she said her weight was censored because "Censored" is her favorite saying. Her hobby is skating; her favorite sport, football; her favorite subject, math.

Her ambition is to learn to jitterbug, but she plans to work for a while after she graduates.

## German Band Plays At Jr. Class Meeting

It is a miracle that no one has started throwing tomatoes at Bobby Jennings, Gerald Smith, Myers Hudson, Carl Henington and Bob Morrow. These boys have formed a "German Band" and have been rehearsing for quite some time. Christine Smith, president of the Junior class, asked these boys to play at class meeting Wednesday morning, and they did so very successfully. An idea that entered the minds of several people is that an "American Band" would have been a more appropriate title until af-

## Tucker and Blue Will Lead Girls Tri-Hi-Y In '43-'44

"How We Can Make Our Lives Richer" was the theme of the Tri-Hi-Y program Tuesday night, May 11 when the girls met in room 23 for their last meeting.

The principal business for the night was the election of new officers. The Tri-Hi-Y officers for 1943-44 are: president, Ruth Tucker; vice-president, Marcella Blue; secretary, Ellen Posey; treasurer, Jackie Wright; reporter, Rosemary Phillips; historian, Lonidene Martin; program chairman, Arline Millard and Mary Ruth Russell, song leader, Juanita Wiseman. Following the election, the installation service was held.

The Devotional, 2 Timothy 4:1-8 and Hosea 11:1-4, was read by Nona Deen Rose and Carlisle Rae Frye. The group then sang "My Faith Looks Up to Thee." Miss Crawford was the main speaker. A very helpful and interesting talk was given on "How We Can Make Our Lives Richer." Awakened to the fact that the scars made on our souls in the past cannot be corrected, each girl resolved to measure up physically, mentally, and spiritually in the future.

Sentence prayers were given by the members. The friendship circle followed by the Tri-Hi-Y Benediction closed the meeting.

## Band Loses 14 Seniors

Donald Roberson, Margaret Barrett, Thurman Williamson, Geraldine Kendall, Bruce Beene, Lee Etta Hopson, David Neal Beavers, George L. LeGrand, Jeane Williams, Marie Compton, Felix Pyka, Florence Wilhem, Betty Ann Dunlap, and Marion Plummer are the fourteen seniors who will be leaving the band and orchestra this year.

Mr. Smith stated that next year approximately 14 students from Central School will enter the band and orchestra, making the band about the same size.

We hate to lose these Seniors from the band and orchestra. Each one of them has contributed a lot to these organizations. We'll be looking for them to visit just as often as possible.

granted will lead to failure of the national sugar supply and no one should ask for or be given more sugar than is necessary

to meet his minimum requirements."

No word has been received from national OPA headquarters as to the pound value of the sugar canning stamps. However, the local board urges all housewives to ask for canning sugar only if they plan to use it for home canning, and to use the allotment carefully, so as to secure the greatest possible increase in the needed home canned food supply.

If housewives must have sugar for home canning before the sugar stamp numbers are designated, they may make application at the local ration board office by bringing the number operation book belonging to each member of the family unit for whom fruit is to be canned, together with a statement of the kind and amount of fruit to be processed.

## An Open Letter

(Continued from Page 1)

Draft Board! All full, Colonel! The facts are before us. We are not so unsanitary in loyalty and bed-rock character. Hereford made no false claims to get the Camp. Hereford takes no advantage of the soldiers in rents or any other way. True, we have no beer joints or liquor bars to cheer up the convivial spirits of the few who want such things. Such as we have, we give unto thee! Colonel, I do not know what you smelled, but I do not think it was Hereford. The wind blows very hard in this country. You can't always tell.

We may be rather crude, according to your standards, but like the army, we are anxious to win the war as soon as possible. I am writing this as a private citizen, tax-payer, and voter for many years in this community. Nobody told me to write it. Nobody told me not to write it. I am a typical citizen in support of the war effort. I have three sons and one grandson in the service. I'm not expecting that any one of them will get shot in the back. I have bought bonds with my bread money. I am a citizen of Hereford! See? I am not sore at you and certainly not at any soldier in your command. Prickly heat can be irritating. You have the symptoms! These words may seem to have a bit of bite, but Hereford is famous for teeth.

# AN OPEN LETTER ABOUT PINEAPPLE . . . AND OTHER THINGS

## HEREFORD SUPER MARKET

Hereford, Texas

To Members of the Home Demonstration Clubs of Deaf Smith County:

Several days ago a representative of the H-D Clubs approached us in regard to purchasing a load of pineapple to be used by club members for canning purposes. Due to the rationing program, combined with a short fruit crop in this area, we agreed to allow the Home Demonstration Clubs to buy this pineapple, through our store—at wholesale price!

Since the venture was non-profitable to us, we felt that we were doing the women of this county a favor and a community service.

Announcement of this courtesy was made last week in the paper (not in advertising space, but in space donated by the paper) in the Home Demonstration Column — strictly as a community service feature.

One of our competitors saw the announcement — and immediately cut his price to 23c—and lower.

In view of the fact that the Home Demonstration Women can buy pineapple at this store at 12c below cost, we believe that this competitor is offering a real bargain — and we don't want these women, who are our friends and in many cases our customers, to pass up a bargain of this type.

Frankly, we can't lose 12c a head on Pineapple — and stay in business. And we absolutely refuse to mark up other items to make the money back. That just isn't the way we do business. Furthermore, we don't think it is good business to establish a money-losing price and then be out of the merchandise when you arrive.

The point is, "Don't feel obligated to buy your Pineapple here, just because of our agreement." We can dispose of our car elsewhere, and you can save money! However, if our competitor is out of pineapple, and you can't get it there — come on down and we will let you have it at wholesale cost — 3 for \$1.00.
