It is not difficult to understand why retail stores should experience decreases in time payments, increases in bad checks, and slumping sales during the racing season.

Business - real business fills a need. Horse race betting produces nothing of value. It does not feed, clothe, house or

transport people. Profits from pari mutuel horse race betting do not go back into the community. They go into the hands of the wealthy people who are able to finance a race track.

On the other hand horse race gambling reduces the disposable income of families who would otherwise spend more for useful products and services.

Pari mutuel horse race betting, proposed in the referendum on May 4 ballot, will drain away wages, savings and investments from Texas business into enterprises which serve no human need.

Local business firms cannot even hope to supply equipment to the race tracks. Nearly al! the mechanical and electronic equipment needed must be rented from one firm. It cannot be

Senator Estes Kefauver wrote in his book, "Crime In America", "Whenever gambling is allowed to exist, legally or illegally, money is taken out of normal and legitimate channels of commerce, and when gambling is minimized, legitimate business flourishes."

There is abundant evidence to support this statement. Gambling is bad business.

Gambling is bad for business. To keep Texas business good, keep pari mutuel horse race betting out of Texas.

storms sent Rochesterites to the cellar, Monday, as an electrical storm and loud thunder accompanied by an inch of rain was reported here. Most residents watched closely what could have turned into a bad storm as a tornado alert was out for the Asperment area and Knox City area. However, the one sighted in these areas did no damage. High wind was very prevelant in this area during the three clouds. Some small hail was reported but lasted only a few minutes for which everyone was very grateful. Some areas around Rochester received more than an inch of rain while others gauged a little

Farmers are being hindered with this year's crop as most of the land has been too wet to work. There has been more rainfall in this area since the first of the year, than most can remember before. If the weather doesn't hurry and dry up, a great many farmers will not have a crop. Early planters are already suffering.

## **Coming Events**

ATTENTION:

The old Whitman, Pinkerton, and Foster residents, and all Haskell County folk, will meet Saturday, April 27th, at the American Legion Hall in Haskell at 5 p.m. Bring a well filled basket for the evening meal, to be served about 7 o'clock. A good program of visiting and singing is being planned, All old timers are cordially invited. Don't miss it! Bring your families!

The American Legion of Rochester will have many honored guests at their family night, May 9th and urges all the members to be present to meet hear these guests. The auxiliary members will receive cards through the mail giving instructions as to what covered dish to bring to go with the main course they will have that day.

According to Manuel Casillas, he is looking for all legion members to be present. If there are any questions concerning this matter, please contact Auxiliary president, Mary Casillas at any time.

Texas, the Fandangle has been produced in Albany since 1938. Because 1968 marks the thirtieth anniversary of its beginning, the new show will consist of sequences which have proved most popular with Fandangle audiences in past years.

About fifty performers and stage technicians will constitute the company which will journey to Knox City to present the Sampler. The performers have been in rehearsal since early January. In addition most of them are veterans of several major productions of the Fandangle and many began appearing in the show when they were grade school students and have grown up in the Fandangle tradition.

Last year the Sampler was chosen as special entertainment at a party given by President and Mrs. Johnson for ambassadors from Latin-American nations at the LBJ Ranch on the Pedernales River. ## **NEW!** For clean Sorghum... spray weeds when you see them! with BANVEL

Velsicol announces Banvel herbicide for control of all hard-to-kill weeds of major importance in grain sorghum. This includes carelessweed (pigweed), sunflower, lambsquarter, purslane, morning glory and other annual broadleaf weeds. Banvel herbicide is applied post-emergence, so there are no wasted sprays in years when rain is scarce and weeds are not a problem. With Banvel you see your weed problem and then sprayall in plenty of time to give young sorghum plants plenty of opportunity to grow.

Banvel is sprayed onto weed leaves and translocates to the roots...for new, total control of weeds. Just apply Banvel between the 10th and 25th day after emergence of grain sorghum (approximately 4 to 12 inches tall)

Each time we see a wreck and resolve to drive more carefully, or go to a funeral and become determined to appreciate our families while we still have them, we weave our moral fibers into a stouter material.

Every emotion that is stirred by moving book or song or prayer, should be put to use in some way in your life, or your time and the message will have been wasted.

Our lives are full of subtle messages, if we choose not to listen, we will become little worthless people.

Last week I heard one presidential candidate declare that he favored the guaranteed minimum income for all Americans. In reply I declared, "Well

old boy, you just lost one vote." Since then I've read an article on the subject, "Do We Owe People a Living?" in the April 30 Look Magazine.

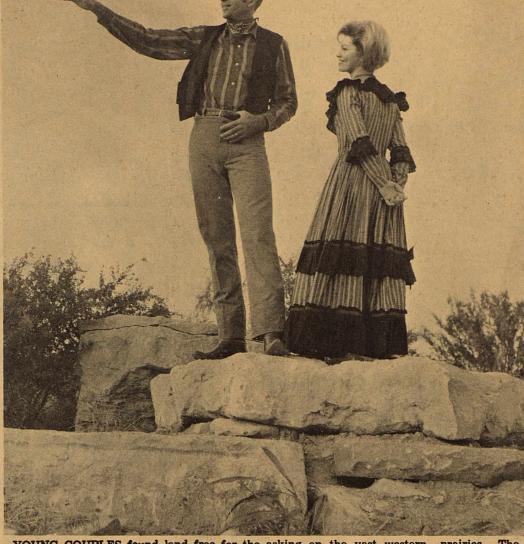

It seems that some "farsighted" people have been proposing the system for years. They say that we have voted the same idea into law in the shape of welfare, public housing and farm subsidies, but only 1/5 of the money age girl spoke up, a little in-(\$33 billion in 1961) voted for these projects ever reaches the people it is supposed to

> They also argue that people on welfare who did go out and find another job were (and are) taxed dollar for dollar on that money, and finally reach the conclusion that they would have more not to work at all.

> If ever adopted, the system work basically by some people paying income tax and the government taking the checks and mailing them to other people.

Right now a group of 800 poor people in New Jersey are receiving their first Negative Income Tax checks for the next

Economists are checking their every move to determine if this easy money inhibits their working impulses. Advocates of the system believe that these people will react conversely, that when they have money, they will be motivated to earn more. They believe that all the dollars wasted in welfare, etc., programs will now really reach their target and give these people a weapon to fight

YOUNG COUPLES found land free for the asking on the vast western prairies. their own poverty: cash.

At any rate, we all need to read more on the subject and form an opinion, because the Guaranteed Annual Income or the Negative Income Tax, or whatever its name by then, will definitely be an issue in the 1968 presidential election.

Have you a child coming along

Sooner or later that youngster will be looking for a job, and that first job may decide his vocation in life, it may guide him on the road to eventual success or failure. If in his tender years he shows

an aptitude for certain lines of work it is more than likely that he is simply following his inclination and is at the threshold of his life's work, if you do not pull him off.

Parents often discourage their young sons and daughters from following their inclinations, thinking that some other calling would be better fitted for them. Sometimes parents are right, but most often they are wrong.

The boy who is fond of animals and the open spaces is not the one to clerk in a store, to be cooped up in a musty office, mulling over a column of figures, or to spend his time in shop. Even though parents think the white collar job would be easier and more in keeping with the social world. That boy has the makings of a farmer, or a rancher, and if his ambition is smothered through parental interferences he will pay for it through the after yerars of life. But don't try to make a full time farmer and rancher. He might rather work eight hours and have fun in his life. Some even do a little of both, and at the same time.

It is so with all young people. The line of employment that appeals to one does not always seem enticing to another.

Find out what your boy or girl really likes, and then if possible give him aid and encouragement. Remember you were young once.

# Literary Club Review Churs.

Friendship Day was observed by the Woman's Literary Club at its regular meeting on April 11, 1968. Mrs. Clarence Gauntt, vice-president, presided for the meeting. Mrs. Aubrey Headstream gave the opening prayer.

Mrs. Gauntt introduced Mrs.

Isla Corley who reviewed for the members and guests "Up a Road Slowly". The book was written by Irene Hunt, who received last year the John Newberry Award for children's literature for her most distinguished contribution to American literature for children. The story is given in first person and tells of the life of Julia, who after the death of her mother and uncle, lived with a spinster aunt. The author relates the heartaches, joys, dreams, disappointments, loves and ambitions of this young girl growing up in an atmosphere of anxiety, frustration, and overprotection. It was a delightfully touching story given in a charming manner by the reviewer.

Refreshments were served by Adelaide Hicks, Mmes. George Mullino, and W. H. Patterson from a table laid with a hand crocheted cloth over pink and centered with a bouquet of pink

If the housewives - and their financially hard-pressed husbands, of course - say "we are AGAINST" loud enough, they'll stall, and probably eliminate, any legislative move to force such a commission upon them. A move of that sort was

made in the last session of the Texas Legislature, A bill was introduced to establish a pricefixing commission, It failed, but it will be re-introduced unless the voters overwhelmingly show their opposition to it in the May 4 primories.

What's wrong with fixing the price of milk?

Several things.

First and foremost, pricefixing doesn't keep prices down. In fact, the opposite is what hoppens.

Research conducted by an eminent University of Illinois professor, Dr. Roland W. Bartlett, shows that milk prices tend to rise in states that have price control. Louisiana prices have been as much as 34 cents

It is nearly that time again when we either lose an hour of sleep or gain an hour of play time. This is the question everyone is asking.

With the change in time, Saturday night or at 2 a.m. Sunday morning, move your clocks ahead one hour to 3 a.m. You going to bed, or even after getting up Sunday morning. Better not wait until Monday though or you will get to work an hour

All summer you will have an extra hour of daylight because your clock is set ahead. If you get off work at 5 p.m., for example, your clock will say 5, but the sun time will be 4.

It all comes out even next October 27, when we will go back to standard time at 2 a.m. by moving our clocks back to

Save time by going on daylight saving time.

Last year, Texas led the nation in tornadoes with an all time record of 232. The tornado season is here, and knowledge of what to do if a tornado approaches may mean the difference between life and death for you and your family. The basic rules of tornado safety are outlined in a circular published by your Texas Department of Public Safety. For more information, contact your local city or county Civil

One of the worst sand storms that has visited this section in years swooped down upon us late Monday afternoon. It is not yet known to what extent the crops are damaged. A number of farmers had maize and cotton up and it is thought much of this will have to be planted over in places. Some fields suffered very little injury, while a few were almost literally covered up. A light shower of rain followed the sand storm. But not enough to be of very much benefit.

Fred Garvin In Calif. Crusade

The First Baptist Church of Rochester is participating in the California Encounter Crusade April 28 - May 5. Approximately 1,000 preachers and laymen from Texas are going to California to help in Revivals across the state. This will be an attempt to confront a state of twenty million people with the gospel of Christ.

Twenty-two men will be going from the Double Mountain Area of Texas. Rochester Baptist Church is sending their pastor, Fred Garvin, who will be preaching in a revival at Keyes, California.

Many of these state-wide crusades will lay the ground work for the Crusades of the America's in 1969. In this crusade, Baptists hope to confront all of North and South America with the Christian Challenge to respond to Christ and His mis-
