Why not a Memorial Avenue for San Saba. The ladies have been dscussing the memorial. question and a great many are in favor of a Memorial Avenue for our soldiers. This is a new and very popular idea among the women all over the state. It would be a place of civic beauty to set out the trees on each side of the Avenue going to the Cemetery and Fair Grounds. Let us hear from our readers what they think of the Memorial Avenue.

BERRY NALLS CONVICTED OF MANSLAUGHTER.

A wire yesterday from Eastland stated that the jury in the Berry Nalls murder trial had returned a verdict of manslaughter and assessed the punishment at three years in the penitentiary. The case will be appealed and those in a position to know, say that there is no doubt of a reversal of the findings of the lower court.

UNJUST CRITICISM

Representative James L. Slayden, still our Congressman, has been unjustly and ignorantly criticised for opposing the gift of one hundred million dollars to some of the people of Europe recently suggested by Herbert Hoover (not by Mr. Wilson) and transmitted to the Congress by the President from Paris.

Mr. Slayden was paired with an absent Republican and did not vote on the measure but did speak his mind on it and with gument.

Constitution which means that he will do nothing as congressman not authorized in that document. Of course each Senator and Representative must be the judge of his duty in each case. If he hasn't the mind to deterduty and the conscience and courage to act on his own judgment he is unfit to represent the people in any body. There are men who lack these qualiities. For instance the Member who was elected in the new 14th district said in a public speech that the President is his Commander-in-Chief in ALL MAThim in all things. A Republican President may be elected in 1920 and if that gentleman should still be in Congress it would, according to his own definition of his obligations, be his duty to support the recommendations of a Republican President, for he would then be

Equal Suffrage Corner

By the "Business Manager."

Since the resolution to vote on the suffrage quetison has passed both houses of the legislature, and we are getting ready for the election, there will be a good many discussions between now and the time of holding the election, the Star has decided to have a department for the discussion of the question. The editor of the Star voted for the resolution every time it was presented to the 34th legislature of which he was a member and now that the question has been submitted to a vote of the people there should be a free and fair discussion of the question. We want the women to tell us why they want to vote and we want the men who do not want the women to vote to tell us why they do not want them to vote,

One of the main arguments the male voter has given us why they are against equal suffrage is that women "can't work the road." This is a splendid argument for this season, and as an advocate of the votes for women we want to say that we have about 2200 men in this county who are eligible to vote, At the home of the bride's and only about 600 votes were parents on Sunday, January 12, cast in the November election.
