

MORAN AND COMMUNITY

My Column MRS. C. C. CADY

Another year is numbered with the past. We can never retrace one step or travel the same road. Once more with the New Year there come new opportunities, new responsibilities, a year filled with many problems. Let us pray daily for courage to discard non-essentials and to cling to the essentials of life to all who stand with us in our struggle and our hope. We say, Happy New Year.

New subscriptions continue to come to our desk. Like the selling of war bonds and stamps, they still come pouring in. Postmaster Harper says that since Christmas they have sold more and more bonds and the end is not yet. Moran is patriotic.

One thing that pleased us a great deal was an old subscriber who left a New Year's gift on our desk, 'for faithful work and sticking on the job.' Thank you so much, my good friend, that will help buy a war bond.

A deed of kindness wherein every citizen of Moran had a part, was the contribution made to our good friend, S. B. Killough, who was injured Christmas eve at car downtown celebration. A love gift of some \$65.00 was made in gratitude for his proffered services. Mr. Killough is reported recovering nicely.

Moran had a famous visitor one day last week in the person of Jerome (Dizzy) Dean, the prominent baseball twirler who is now announcer for the St. Louis Cardinals. While visiting friends in Cisco, in company with two Dallas business men, he also came to Moran and hunted quail on the Floyd Pool ranch. They visited Bob's Cafe and ordered the best steak dinners that could be had and Mrs. Mashburn served them beefsteaks that brought forth much praise for the food and Moran hospitality. They expressed their desire to come back again.

IN CISCO HOSPITAL

E. B. Barte, employe of the Lone Star Gas company, is in the Graham hospital at Cisco where he is recovering from a painful back injury received last Thursday evening when a gas line exploded at the Ross Elliott gas junction near Pueblo.

The explosion came when Mr. Barte turned a switch to change the gas from high to low pressure, and the fact that the line was some twenty inches under the ground was all that saved him. He was thrown into the air and his car, which was standing close by, was turned over.

LUNCHEON CLUB

The Moran Luncheon club met Wednesday in the first meeting of the new year. Toastmaster A. A. Smith presided for the business meeting and a committee composed of Henry C. Knight, Morris Cottle and Mrs. C. C. Cady was appointed to extend a vote of thanks to Mrs. Mary Anderson and to the Christian church for their kind hospitality in serving dinners to the club.

Mrs. Anderson has served the best food the markets afford, given good home cooked meals, served family style. She has been serving the club since June 6, last year, and we feel that we have been elevated in the atmosphere of the church and meeting around the table together each week. The church doors are always open to the community's good and we as a club, are grateful for this opportunity.

A New Year's greeting to all smokers at the luncheon was a box of cigars from E. K. Cady of San Francisco, son of Mr. and Mrs. C. C. Cady.

OUR HONOR ROLL

Our first new subscription for the New Year came from Deputy Sheriff Lee Dunham, and the first renewal was from Mrs. Mary Anderson, hostess for the Moran Luncheon club each week. Other names on the honor roll are Oscar Wise, Roy Lee Jeanis and H. A. Hagar.

Mrs. C. W. McCollum renewed her subscription and that of her daughters, Mrs. Bruce Willis of Strawn and Mrs. Jack Dunn of New Gulf. Another new subscriber is Mrs. Guy Israel of Moran.

MARRIAGE ANNOUNCED

Marriage rites for Mrs. Blanche Haler and Joe N. Chambliss were performed last Thursday afternoon at 3 o'clock in Albany, with County Judge William W. Blanton reading the ceremony.

Mrs. Chambliss, daughter of Mr. and Mrs. T. L. Ledbetter, has been an employe of the Public Cafe the past year. Mr. Chambliss operates a machine shop here. Their many friends wish for them a happy and prosperous life.

SCHOOL NEWS

Miss Clara Mae Weaver has been elected to fill the vacancy in the high school, created by the resignation of Mrs. Thatcher Gary. Miss Weaver's home is in Ranger, and she has been teaching mathematics in the Seymour high school. She assumed her new duties this week. Mrs. Floyd Pool did substitute teaching prior to the arrival of Miss Weaver.

School is in good progress since the Christmas holidays. However, the enrollment has declined somewhat since the holidays. A few students have moved in, and a larger number have moved away.

ATTENDANCE LIGHT AT WORKERS CONFERENCE

Attendance at the Baptist Association Workers' conference of the Cisco district, which met at the Moran church Tuesday, was very light, due to the bad weather, although a very interesting session was held.

Theme of the meeting was The Church and Its Open Doors, with inspirational messages and devotionals, business and announcements, special music, an executive board meeting, and the W. M. U. business session, made up the days program.

Special music at the morning service was by Mrs. Lawrence Martin and Mrs. Glen Cottle. The afternoon program included numbers by the girls trio, composed of La Delle Marchbanks, Billie Williams and Betty Carlene Lummus. The next meeting will be held February 9, at the First Baptist church in Cisco.

GOOD PROFIT IN DAIRY COWS PROVIDED THEY ARE WELL FED

Hoot Gibson, assistant dairyman for the Texas Agricultural and Mechanical college at College Station, gives out the following information in regard to the production of butter fat:

Butter production as a whole, averages about 150 pounds per cow per year, while cows in the 100 herds on DHIA test, in 25 counties produce about 290 pounds per year. Gibson says there are several reasons for the difference in production and income per cow.

Gibson explains that a dairy herd improvement association is a cooperative of dairymen who want to improve their dairy herds. They select sires with high production records, keep accurate production records, and provide proper care and feeding under the directions of the DHIA field men.

The feed cost per pound of butter fat is 37 cents for cows producing 100 pounds of butter fat per year, in comparison with 17 cents per pound for cows producing as high as 400 pounds butter fat per year. Gibson explains, and the income over feed cost per year is \$8 for the low producing cow in comparison with \$111 for the high producing cow.

The DHIA records show that feed obtained from pasture costs only one-seventh to one-tenth as much as feed obtained from sack.

CARD OF THANKS

We wish to thank everyone for helping us in any way since our house burned several days ago. We also thank those for giving us the nice shower. We appreciate everything that has been done for us very much.

Mr. and Mrs. C. W. Harper and children.

Mrs. Raymond Clark had business in Cisco Wednesday afternoon.

No Legal Authority For Preferential Election Under Law

Baird, Texas, January 5, 1943. TO THE PEOPLE OF CALLAHAN COUNTY:

At the general election held in November, 1942, Mr. C. R. Nordyke was reelected sheriff of Callahan county. Thereafter, on the 12th day of November, 1942, Mr. Nordyke informed the county judge that he wished to tender his resignation as sheriff, to become effective December 1, 1942. Notice was given to the Commissioners and on Monday, November 16, 1942, the Commissioners Court met, at which time Mr. Nordyke tendered his formal resignation to become effective as above stated.

The resignation was accepted at that time, and in keeping with the Constitution and the Statutes, the court proceeded to appoint another sheriff to take the place of Mr. Nordyke for his unexpired term, and Mr. E. O. Brame received such appointment. In taking such action, the court was acting under authority of Article 5, Section 23, of the Constitution, which provides as follows:

"There shall be elected by the qualified voters of each county a sheriff, who shall hold his office for the term of two years, whose duties, and prerequisites, and fees of office, shall be prescribed by the Legislature, and vacancies in whose office shall be filled by the Commissioners Court until the next general election for county or State Officers."

And Article 2355 of the Revised Civil Statutes of Texas provides in part as follows:

"The court (meaning the Commissioners Court) shall have power to fill vacancies in the office of sheriff (among others enumerated). Such vacancies shall be filled by a majority vote of the members of said court, present and voting, and the person chosen shall hold office until the next general election."

In view of the fact that there will not be another general election for county officers until November, 1944, it is therefore the duty of the Commissioners Court, acting under the above provisions of the Constitution and Civil Statutes, to appoint, by a majority of the Commissioners present, a Sheriff of Callahan County to fill the term of Mr. Nordyke from January, 1943, until the next general election. There is no provision in either the Constitution or the Civil Statutes whereby an election can be held to fill a vacancy in the office of Sheriff, but both the Constitution and the Statutes make it the plain duty of the Commissioners Court to make such appointment until the next general election for County and State officers, which will occur in November, 1944.

There is no provision under the

law for the payment of clerks and officers for the holding of such an election and neither are there any rules or regulations governing preferential elections of that nature. If an election should be had the result of the same would not be binding upon the Commissioners Court or upon the people generally; in other words, the responsibility is placed upon the Commissioners Court to make such appointment as set out above. This letter is written for the purpose of correcting any erroneous impression that anyone may have regarding an election for sheriff at this time.

Sincerely yours,
B. H. FREELAND,
County Judge, Callahan County,
Texas.

ACREAGE IN WINTER WHEAT IN TEXAS THE SMALLEST SINCE 1929

The acreage of winter wheat seeded in Texas in the fall of 1942 for harvest in 1943, according to the State Department of Agriculture, is estimated at 3,491,000. This is about two percent over the acreage planted to wheat in 1942, but is the second smallest acreage sown in Texas since 1929.

The national wheat crop will be smaller also than the acreage sown for 1942 as the quota for this year is the minimum that can be sown under the national marketing act passed by Congress. Something over fifty million acres.

Mr. and Mrs. Garland Cunningham were transacting business in Cisco Wednesday morning.

SHORT STAPLE COTTON PRODUCERS SHOULD BE DEFERRED SAYS MAHON

It appears from a report from Washington that the government will shut down on short staple cotton the coming season. The belief that selective service regulations will be amended soon to provide deferment of some producers of short staple cotton in the same manner as is now provided to those growers of inch cotton or longer, was expressed by George Mahon of the Big Spring district.

Mahon has protested to both the agricultural department and selective service officials against regulations, pointing out that the Army and Navy both use great quantities of cotton goods made of cotton less than one inch in length.

The Texan pointed out that under present regulations the selective service system considers only cotton of a minimum length of one inch of such an essential character that its producers should be deferred from induction into the armed forces.

Mahon expressed his views in a message to Ray Nichols, editor of the Vernon, Texas Daily Record, who had urged Texas members of Congress to protest to the selective service system.

L. L. BLACKBURN
 ATTORNEY-AT-LAW
 BAIRD, TEXAS

TERRITORY SERVED BY
LONE STAR GAS COMPANY
 [About the area of New York State and New England]

THE operating companies now reorganized into one Lone Star Gas Company form a highly integrated public utility system. While part of the area served is sparsely populated, having a population of approximately 1,300,000, the system is unusually compact. Two hundred and ninety-five Texas and Oklahoma cities and towns are served by a 4,800-mile interconnected pipeline which transports natural gas from over 75 fields inside the area. The natural gas service which these cities and towns enjoy today was made possible by the development of this integrated public utility system.

All natural gas transportation and distribution operations of the several affiliated companies of Lone Star Gas System are now grouped into one operating company, organized under Texas corporation laws, and which hereafter will be known as the

Lone Star Gas Company

The Lone Star Gas Corporation was among the first to register under provisions of the "Public Utility Holding Company Act of 1935." Now, under a plan submitted to and approved by the Securities and Exchange Commission, the System is among the first to be reorganized into a more simplified corporate structure. The plan became effective January 1, 1943.

Working out details with the Securities and Exchange Commission and securing approval of our stockholders has been a big job requiring many months. We believe the reorganization will benefit our nearly 300,000 customers and our 4,500 employees.

Ever since 1909 when Lone Star struck out from Petrolia with a pipeline to Fort Worth, the System's ideal has been to build and maintain a natural gas service that would be so sensitive and responsive to public purposes and public needs that it would be a stimulant to the Southwest's development.

And the Southwest has grown. We've developed for and with it until Lone Star System up to the time of reorganization comprised:

- THE DALLAS GAS COMPANY**
- COMMUNITY NATURAL GAS COMPANY**
- TEXAS CITIES GAS COMPANY**
(distributing companies operating inside 295 Texas and Oklahoma Cities and Towns)
- LONE STAR GAS COMPANY**
(the company developing the gas supply and transporting it to the distributing companies)
- LONE STAR GASOLINE COMPANY**
(the company developing gas reserves and by-products of natural gas)

Now all of the transmission and distribution properties of these companies will be owned and operated as one integrated public utility system by a new Texas company named

Lone Star Gas Company

The gas field producing operations of the system, such as drilling wells and developing gas, are taken over by Lone Star Producing Company. So now, there are just two

companies whereas before there were five operating companies and one holding company. Both are new Texas corporations.

The reorganization will not in any way change the basic policies or personnel of Lone Star Gas System. However, it simplifies operations, makes for considerable coordination of effort, and creates a tightly-knit organization which will be even more sensitive and responsive to your fuel service needs and wartime demands.

In it all there is just one sad note—the passing of such names as The Dallas Gas Company, Community Natural Gas Company, and Texas Cities Gas Company. We know thousands have a friendly, cordial feeling for these names through years of business transactions. But only the names pass on. The men and women who made these companies' good names remain to serve our customers.

A substantial rate reduction made last May and this simplification consummated in December were of material benefit to the Southwest and marked 1942 as a notable year in the history of Lone Star Gas System.

The Community Natural Gas Company is now the

Learn More About U. S. Flag

In response to a request for information on flag etiquette from the National Americanism Commission, the Leader has received a communication from H. L. Chailaux, director of the commission, in which he criticises the article which was recently reproduced from the American Legion Magazine, in the Shackelford County Leader, and written by Gridley Adams. Believing the article to be worthy of reproduction because it had appeared in that magazine, the article was given in full. Following is an explanation from Mr. Chailaux and also his correction of the article, which appeared in the December issue of the National Legionnaire:

I note that you refer to the arti-

cle which appeared in The American Legion Magazine for November, written by Gridley Adams. This office did not have an opportunity to review the article before it was printed, and it did contain some errors in flag etiquette. Mr. Adams stated that it is proper, now that the nation is at war, to fly the flag outdoors the full twenty-four hour period. Such a display is in violation of the flag law (Public Law 623), and I corrected this error in an editorial entitled "Long May It Wave" which appeared in the December issue of The National Legionnaire. A copy of the editorial follows:

"LONG MAY IT WAVE"
By H. L. CHAILLAUX, Director
National Americanism Commission

the large number of persons now subject to the Federal income tax, who have never reported income before for Federal tax purposes, an understanding of the law and applicable regulations is of prime importance.

Contrary to the lead article in the November number of the American Legion Magazine, written by a non-Legion member, the flag should not be flown at night, except in the case of some special event such as a parade or a patriotic pageant. There is no change in this part of flag etiquette—fly your flag from sunrise to sunset only.

An income tax return is a declaration on the part of the taxpayer of his total taxable income for the year, together with the various deductions, exemptions, and credits to which he is entitled. It is in reliance upon voluntary disclosure, and the integrity of taxpayers generally, that the cost of administration of the income tax can be kept at a minimum. Though the return is a voluntary statement, any person who wilfully makes a return which he does not believe to be true and correct in every material matter is subject to the penalties provided by law.

There is added enthusiasm being shown for our flag on every side now that we are at war. That is as it should be and we do not want to dampen any of this enthusiasm. We do want to teach the correct etiquette for the flag. We should readily use the added interest by urging that a flag flown every day, except during inclement weather, over every building, school, factory and home in the land.

The first requirement of the law is the filing of an appropriate return. For individuals generally, this must be done by March 15 following the end of the calendar year. The return must be filed with the appropriate Collector of Internal Revenue for the district in which is located the legal residence or principal place of business of the person making the return.

Let us take as our guide the Flag Code which has been in use for 20 years. It has been the accepted guide for these two decades, but now the code has been enacted into law. Public Law No. 623, adopted by Congress and signed by the President of the United States on June 22, 1942.

Under the present law every single person, and every married person not living with husband or wife, having a total income (earnings, together with other income) of \$500 or more, and married persons living with husband or wife throughout the taxable year, who have an aggregate income (total earnings of both husband and wife, together with other income) of \$1200 or more, regardless of the amount of net income, must file a return.

At the White House
There is one home on which the eyes of the world are fixed daily, the home of the President of the United States, our Commander-in-Chief—the White House. According to custom, and now law, the flag flies over the White House from sunrise to sunset when the President is there. It does not fly there 24 hours a day, as indicated by the author of the previously mentioned article. All should be guided accordingly.

The most beautiful formal ceremony known to the Army is retreat. Why does the Army raise the flag at sunrise and lower it at sun-

set? These two acts of tribute to the flag, more than any other ceremony, teach young soldiers to love it and to be ready to die for it if need be.

If the flag is raised and kept flying 24 hours each day, in all kinds of weather, it merely becomes another banner. Love and respect will not come from such lazy, indifferent handling of our flag. Night flying would soon mean that a soiled flag would be flying over every junk yard, second-hand automobile lot and dilapidated building of our cities. No one would learn to love those flags—through properly raising them in the morning and lowering and folding them at night.

Care of the Flag
Keep your flag clean. Pledge allegiance to it. Fly it from sunrise to sunset. Fold it properly. Live for it as our boys are dying for it. (Additional information furnished by the National Americanism Commission, will appear from week to week in the News.)

Mrs. L. C. Overton returned to her home in Albany Saturday afternoon after a short visit with her parents, Mr. and Mrs. M. P. Clam- pett.

What Is Income Tax?

The federal income tax is, as the name implies a tax levied upon incomes, and it is payable in relation to the amount of income. Income, for Federal income tax purposes, means in general any compensation for one's services, whether the compensation be in money or in goods or other services; it includes also the net value received for the product of one's labor, as farm produce in the case of a farmer; income from investments; profit from business operations; and other gains from sales and exchanges of goods and property. Certain limited categories of income are, however, tax exempt, and to the extent of such exemption are excluded in computing the tax.

Because of exemptions from the tax given to persons having less

than certain stated amounts of income, as well as because of various deductions and credits allowable, only a small proportion of the number of persons receiving income have until recently been subject to the tax. Thus, of the estimated 55 million persons in this country who received income in one form or another during the calendar year 1941, only some 26 million persons were required to file Federal income tax returns for that year, while of these same 26 million, more than 9 million were not taxable due to credits and deductions allowable.

As a result of the lowering of exemptions, many more persons are now subject to the Federal income tax than before, and for the calendar year 1942 it is estimated that more than 35 million persons will file Federal income tax returns. To
