

From The Editor's Window

BY MRS. J. S. YEAGER

The Bureau of Internal Revenue has recently announced that Texas has paid \$1,285,000,000 into the Federal treasury in taxes during the fiscal year that ended June 30, 1948. This amount was said to be a record-breaking sum for Texans.

The National Foundation for Infantile Paralysis announced on August 22 that it had sent \$100,000 in March of Dimes funds to help fight the epidemic of infantile paralysis in Texas. The money is to be used by Foundation chapters in the state to pay for medical care for the victims of the terrible disease. It was said that previous to this amount the Foundation had sent \$190,000 to Texas during the present outbreak of polio.

President Truman proclaimed Thursday, Sept. 16, "National Guard Day." He called up citizens to give the Guard of these United States "their unremitting support." President Truman said that our national security requires that the National Guard be fully manned, equipped, and trained, as a component part of the nation's security forces.

Mrs. Maud Ballington Booth, co-founder of The Volunteers of America, a branch of the Salvation Army, died August 26 at the age of 82. She was the widow of the late Ballington Booth who was a son of General William Booth, founder of the Salvation Army.

It is said the first Australian-made automobile is scheduled to be ready for the market this year. The first cars—five passenger sedans—will be completed in September. About 2,500 of these are expected to be offered to the public by December. Selling price of the new car will be around \$1,950 it was said.

Little Oscar, whose family had recently moved into the community, was playing with some of his new-found friends in a neighbor's back yard. The neighbor, a friendly person, looked out the window and called to the newcomer, "Hello, there! Isn't this a new face?"

A deep red covered Oscar's freckles.

"No, its not new," he explained, "it just been washed."

"I want a man's comb," said the customer to the clerk.

"A narrow man's comb?" inquired the clerk.

"No, a comb for a stout man with rubber teeth."

Arthur C. Wright, manager of the University of Texas Press, will retire before the fall term of school opens and will be succeeded by Claude H. Eads of Austin. Dr. D. S. Painter, president of the University, has announced. Mr. Wright has been connected with the school in this capacity for 29 years.

The Philippines sugar production in 1948-49 was officially estimated at 680,000 short tons. The amount available for export will be around 510,000 tons, more than double that of last year according to A. P. in Christian Science Monitor.

From an exchange: What a blessed thing it is that we can forget. Today's troubles look large, but in a week they will be forgotten and buried out of sight. Says one writer, "If you should (Turn to Page Two)

Clinton Joins Cisco College Teaching Staff

From the Cisco Daily Press Announcement made today the R. L. Clinton Jr., had been added to the staff of the music department of Cisco Junior College. He will teach piano and voice and for a while will be at the college on Tuesday of each week.

Mr. Clinton lives in Eastland where he is minister of music and director of young people's work of the First Methodist church. He also has a music and voice studio there.

He is the son of Mr. and Mrs. R. L. Clinton prominent Callahan county rancher and native of Putnam. After finishing high school, he entered Hardin-Simmons University and later attended John Tarleton Agricultural College.

He served in World War I as a pilot in the AAF and after leaving the service he entered North Texas State Teachers College, where he majored in music. While there he studied under Dr. Silvio Scinti, that well known music instructor.

College officials stated the addition of the new instructor was in line with the policy of the school of giving a well rounded course of study.

Where Does The Tax Doller Go

Senator Homer Capeheart of Indiana has unearthed a \$750,000 worth of photographs belonging to the United States government.

The Library of Congress which they are stored would get rid of them, but no one seems to want them.

There are 15,000 prints in the collection, which was assembled by the defunct Form Security Administration between the years 1937 and 1943 at a cost of \$5 per print.

Presumably the pictures were intended to show what a fine job the Farm Security Administration was doing. One of the pictures Capeheart exhibited in the Senate was entitled "Men Pickin' Thier Teeth."

"What has all that got to do with farm security?" asked Senator Kenneth S. Whearry of Nebraska.

"I don't know," replied Senator Capeheart.

Neither do we.

P. T. A. GROUP IS ORGANIZED

The Putnam Parent Teachers Association met September 5, at which meeting officers were elected and other business attended to.

We invite all parents and the teachers to be with us on our next regular meeting, to help us plan our first event of the year. Let's all work together for the best interest of our boys and girls.

Government Would Take All Profits

The Dallas Morning News recently ran an editorial on the government's suit against the railroads for allegedly overcharging the government \$2,000,000,000 on freight moved not a case originated by a hostile during the war. In it, it made this important point. This is party taking over the books of previous incumbents. It is a series of claims made against an operation which could not have occurred at all with the official action of the administration. The railroads did not quote the government rates on a take it or leave it basis. Instead at the government requests they set up a committee of experts to arrange the charges. The Committee was given the formal approval of the then assistant Attorney General who had charge of anti trust proceedings. Every arrangement made had to be approved by the responsible government official concerned before it became operative. In not a single instance was the government charged a rate higher than that quoted to commercial shippers. In most instances the rate was lower and often by a wide margin.

As for the profits the government paid the railroads \$5,606,000,000 in freight charges during 1942-45, inclusive. In those same years the railroads paid back \$3,668,000,000 in taxes. Thus, if the government were now able to win the case for \$2,000,000,000, the railroads would have paid \$62,000,000 more than they received for the magnificent way they did in moving war freight.

Have Equipment Checked And Be Safe For Winter

There is an ancient joke about the man who didn't mend his leaky roof when raining, because it was too wet to work and didn't mend it when the sun was shining, because then there was no necessity for making the repair. Millions of people seem to follow the same idiotic plan when it comes to fire prevention. For one empty reason or another, they keep putting the job off, and it never gets done.

An example this is the proper season of the year for getting ready for winter. A large percentage of fires result from heavy loads on heating and lighting equipment which has developed defects. Here is where an ounce of prevention is worth a pound of cure and the time to have an expert mechanic check over your equipment and put it in safe shape before the cold dark days set in. It is an axiom that a clean, orderly home is a safer home. Closets, basements, magazines, furniture and other junk are a constant attraction to fire. Give your discarded way to some charitable organization which can make good use of them, and eliminate another fire hazard.

Callahan County To Get Gas Tax

In looking over the list of each county's share of the one cent gasoline tax collected to retire outstanding county Road Bonds, that were assumed by the Board of County Road Bond Indebtedness some years ago, the reader will notice this year's allocation is much larger than for 1947, as the total allocated for that year was \$3,390,000 compared with \$5,200,000 this year.

We also invite our readers attention to the large increase in the amount the county will have available for road construction this year compared with 1947, which amounted to \$803,191 and this year the amount is \$1,779,308, an increase of \$976,117.

The allocation for Callahan county for 1948, is \$12,646.23 for debt retirement purposes and \$5,662.55 for road construction. This makes a total that Callahan county will receive from this fund in 1948 of \$18,308.78.

Service Board Offers Thanks

On behalf of the Taylor-Callahan Selective Service Board, I wish to publicly thank Mr. Fred Cook, Mr. and Mrs. Fred Heyser and any others who may have helped them, for their patriotic service in carrying out the Selective Service registration in Putnam. Also, the Putnam News for the publicity it has given. To make the system as democratic as possible, Congress placed the entire administration from registration to induction, in the hands of local citizens who receive no pay. Local Board members and Registrars are required to waive all pay.

Registration will continue through September 18, 1948. All men in the age limits should consult their Registration officials before deciding they are exempt, as failure to register carries a heavy penalty, unless specifically excused under the President's proclamation.

Terrell Williams,
Member of the Board

Better Tools Lift Employees Output

Chiefly by using their capital to buy better tools for employees more than two thirds of all manufacturers queried in a survey by the National Industrial Conference board have enabled workers to produce more goods per hour in 1948 than they did in 1947.

While use of better tools and equipment was the chief factor in raising production, employers said better supplies of material which made it possible to keep up steadier operations, better trained workers who had been longer on the job, better methods, and use of incentive plan had helped.

Over ten per cent of manufacturers said output per man had been lower this year than in 1947. Slightly more than three-fifths of the manufacturers said production had been higher than in the prewar period 1939 to 1947.

Texas Will Get Large Road Fund

Texas was apportioned \$25,576,747 for Federal aid improvements to primary secondary and urban roads to be spend during 1950 fiscal year which begins July 1, 1949, according to reports from Washington.

New York was given \$30,000,000 being the only state topping the Lone Star state.

The funds were authorized by the Federal Aid Highway act which passed Congress this year.

The act authorized an appropriation of \$450,000,000 for each of the fiscal years, 1950 and 1951, to assist the states in continuing the post-war highway program for which initial appropriations were made under authorization of the 1944 Federal highway act. Nearly all funds authorized by the 1944 act have been exhausted by project commitments.

Hughes Family Enjoys Reunion

The J. H. Huges family held their first family reunion on Deep Creek Camp Ground on the J. H. Huges place about three miles west of Putnam, Sunday. Those attending from Biard: Mr. and Mrs. J. W. Hughes Mr. and Mrs. Pat Hughes, Mr. and Mrs. Earl Hughes, Mr. and Mrs. I. E. Warren, Mrs. H. D. Taylor, Mr. and Mrs. Perry Hughes, Mr. and Mrs. Virgil Hughes, Mr. and Mrs. Floyd Hughes, Mrs. Callie Hollings, Mr. and Mrs. H. H. Hughes Mr. and Mrs. Everett Hughes and Ruth Turner.

Others present: Mr. and Mrs. W.O. Tate, Stephenville; Mr. and Mrs. Hulan Hughes and son Don, Tbilene; James L. Crawford, Barstow; Mrs. D. F. Brown, Cisco; Mr. and Mrs. Wallace Solomon and daughter Caludia Jean, Snyder; Mr. and Mrs. Olaf South and son Charles; Eddie Rosco, Mr. and Mrs. Lynn Bryant, Pasadena; Mr. and Mrs. M. C. Hughes and children, Sonny, Brenda, Tommy, Dannie and Lester Allen, Wingate; Mr. and Mrs. Crawford Hughes and daughter, Sandra, Pecos; Mr. and Mrs. Mike Hughes and children, Linda and Gloria, Robert Lee; Mrs. C. F. Brown and children, Aleatha and Jimmie, Iraan; Mr. and Mrs. W. C. Allen Jr., Portales, N. M.; Linton Hughes, Stillwater, Okla.; Mr. and Mrs. Herbert Bickner and children, Linda and Duane, Oklahoma City and Phillip Hughes, Los Angeles, California.

Ford Company Has Best Postwar Week

According to last weeks report, the Ford Motor Company reported it had topped its best post war production mark. The previous high mark was 25,128 built during the week of August 21.

Barring work stoppages the were 13,655 Ford passenger cars; 5,259 Ford trucks; 4,205 Mercury and 612 Lincoln passenger cars and 2,063 tractors.

Barring work stoppages the current week's work will go even higher, company spokesmen said. Monday's production of Ford passenger cars totaled 2,800 units.

Charges Made Against The Truman Administration By A House Committee

Fort Worth Press: Two charges are made against the Truman administration in the interim report of the house committee on un-American Activities, and the President vulnerable on two counts because he failed to deal courageously and effectively with a situation he inherited.

In expressing the belief that Communist spy rings are still operating "within the the government," the committee contends that all the facts might have been ascertained if the White House had not obstructed the investigation.

The committee also holds that Attorney General Tom C. Clark's failure to enforce the Anti Espionage laws has been largely responsible for the growth and power of the Communist conspiracy.

That Mr. Truman is on the defensive on the first charge in part only of his own making. He could have ordered a

sweeping investigation that would have made Congress inquiry unnecessary. He not only did not do that but he has impeded the Congressional inquiry, first by refusing the committee access to pertinent official files, and later by his red hearing statements which sought to discredit the committee's work. This attitude of the President unquestionable has encouraged certain witnesses in their refusal to reply.

Why Mr. Truman placed himself in this indefensible position passes understanding. Communist infiltration of the federal government took place long before Mr. Truman was in the White House so he was not responsible for it, but he must accept responsibility for his failure to act after the situation came to his attention.

Attorney General Clark is on the spot for the same reason. Mr. Clark was not at head of the justice department the period when Communism enjoyed its growth in this country, between 1932 and 1934. But this efforts have been impressive since he found it a growing concern. If the laws are not adequate to deal with the menace, he should have said so.

A factual report to the country on the results of the FBI investigation would brought him public support for any sound security program he deemed assential. But instead of taking the public into full confidence, Mr. Clark sat on a keg of dynamite and pretended it's not there.

If the committee was less than fair in charging the Attorney General with responsibility for the "growth" of communism, it may be said he invited such a reprisal by attempting to have it appear that the committee's activities had interfered with his own investigation. This was pure baloney because he had control of all the major witnesses a full year before they told their stories to the Thomas committee. Now he has the rest of the campaign to explain why he failed to act.

keep a book, and daily put down the things that worry you and see what becomes of them, it would be a benefit to you." The art of forgetting is a blessed art, but the art of overlooking is quite as important.

What is believed to have been the first lighthouse, built by the Egyptians in 280 B.C., was 400 feet high and was said to be visible out over the waters some forty miles.

Many Wheels Are Still In The Mud

"Many wheels of Texas and Callahan county are still in the mud," states C. S. McClelland of Eagle Lake, Texas, executive secretary of the Texas Rural Roads Association. Mr. McClelland said: "if many of the wheels of rural progress are still in the mud, the old 'put your shoulder to the wheel' certainly was intended for this very time."

Mr. McClelland, state representative from his district, has been active in attempting to set up a program for building rural roads over the state. The Texas Rural Road Association is now in the process of obtaining members an an organized drive will begin in this senatorial district on Monday, September 6. Judge Roger Garrett of Jones county, state director of the Texas Rural Roads Association is district chairman, and Judge Lester Farmer of Baird is chairman of this county's drive. Many Local civic minded citizens have volunteered their assistance and when they contact you for your membership these men hope you will become active partners in what we believe is the greatest public issue today in Texas.

TWIGS OR BRUSHES?

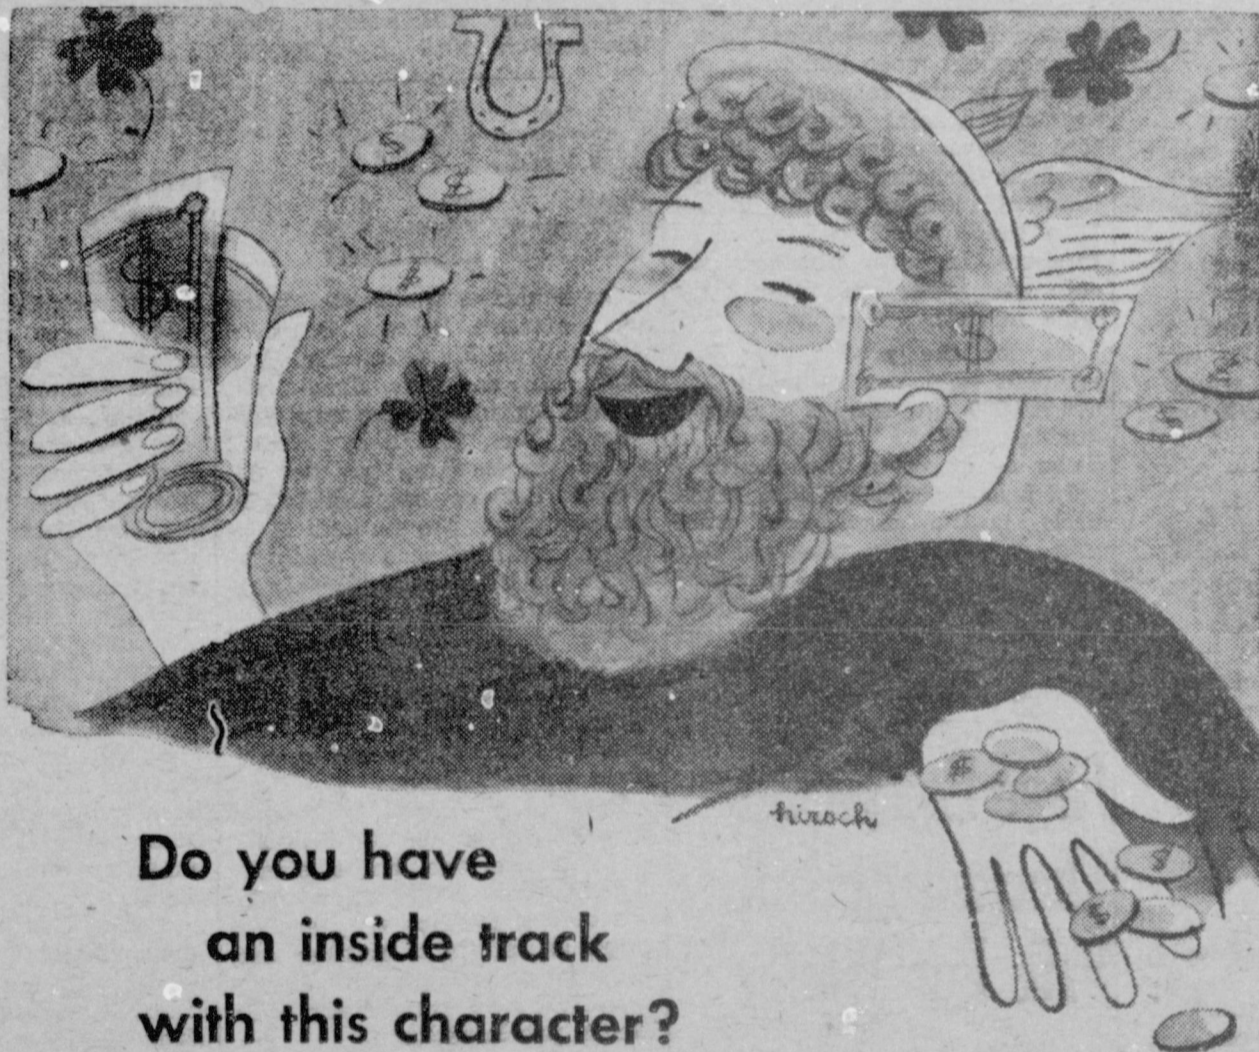

CHICAGO — Noel Pierce, who teaches charm and modelling, shows that clean teeth are an important asset to personal appearance. The brushes, at right that Noel is holding, however, were typical of those received in a recent survey conducted in cooperation with the American Dental Association which showed that four out of five toothbrushes now in use are so badly worn or are in such an unsanitary condition that they are no longer usable for oral hygiene.

At the top of the pile of brushes are two "toothbrushes"—twigs which are tufted at the end—which were in use by members of a Georgia family! Dental authorities believe that persons should replace their toothbrushes at frequent intervals to maintain good oral hygiene.

Paul Van Zeelanr, above, may become the next UN mediator in Palenstine. He would succeed the late Count Folke Bernadotte, assassinated in Jerusalem. Van Zeeland, a Belgian, was the alternate choice when the Swedish count was first appointed.

**Do you have
 an inside track
 with this character?**

If so, forget your worries.

He's Hermes, the Greek god of luck and treasure-trove.

Why work? Why plan for the future? Why save? If Hermes approves of the cut of your jib, then brother—knock off. Money matters will take care of themselves.

But—gosh! Suppose Hermes doesn't know you're alive? What do you do then?

Well, then your best bet is to work—plan for the future—save!

Most ordinary human beings do plenty of working and planning. It's saving for the future that's tough.

Or was tough, till U.S. Savings Bonds came

along. It's easy to save regularly the U.S. Savings Bond way. So easy that millions of Americans have already put away millions and millions of dollars in U.S. Savings Bonds.

So you see, you don't need Hermes to guarantee a future free from money worries.

Start buying U.S. Savings Bonds either of these two convenient, automatic ways—

1. At your place of work. Sign up today in your company's Payroll Savings Plan.

2. At your bank. Walk up to the teller. Ask to be enrolled in the Bond-A-Month Plan.

Be smart. Put in your bid for a bright future today. Then, thumb your nose at misfortune. And tell Hermes to go soak his head!

**Automatic Saving Is Sure Saving—
 U. S. SAVINGS BONDS**

Something New In Politics !!

Do Politics Confuse You? Pixiecrats Offer Solution To Plexing Problem

AUSTIN, Texas, Sept. 22—Citizens! Do politics confuse you? Do you find yourself disagreeing with Dewey, Truman, Wallace, and Thurmond? Do you wonder how our country survives if just half the things politicians say about each other are true? If you can answer "yes" to any of the above questions, you ought to be a Pixiecrat. The Pixiecrats (no kin to the Dixiecrats, son, except they're all 'crats under the skin) are organizing a national convention. It will be held at Austin, Oct. 12, just a few hundred years to the day after Columbus discovered America. The Pixies think this would be a good time for Columbus to undiscover us. They are willing to return the country to him, slightly used up, at least until after the political campaigns are over. The Pixiecrat convention, unlike most political conventions, will let the candidates listen. The program will be devoted to letting politicians see and hear what newspaper men really think about them. A series of acts will tear down the guys who spend their time trying to present a good good front in the newspapers. There will be nothing personal about Pixiecrat criticism, of course. The Pixies ain't mad at nobody. Anybody can be their candidate. Every Pixiecrat is a member of the party's national committee. That's how democratic (darn that word!) the Pixiecrats are. Who are the Pixies? Several weeks ago, capitol correspondents at Austin spent a hot afternoon planning a political party that would be strictly for fun. They had the charter done up neatly with gold ribbon. Everybody wanted to get in on the ground floor, from Gov. Beauford H Jester to the capitol stenographers. Pixiecrats suddenly became a national movement, with spontaneous publicity in national magazines, radio programs, and in newspapers across the country. This seemed to be the comic relief the Perplexed Public is looking for in this election year. Wick Fowler, Dallas News writer at Austin, invented the name and idea of Pixiecrats. Thousands of fellow Americans, completely confused, have joined him. Maybe there's no point to it. But neither is there a point to the yo-yo, except to soothe ones' jangled nerves. The Pixies believe that whether or not you win at politics you can relax and enjoy it.

Truck Driver Faces Charges In Accident Injuring Two Persons

A Lubbock man will face charges of aggravated assault with a motor vehicle as a result of an automobile-truck collision which happened approximately 8 miles west of Cisco, on Highway 80 at 10:40 p.m. Friday. Two persons are in the local hospital suffering from critical injuries resulting from the crash.

The accident occurred when a car occupied by Mr. and Mrs. Robert Pate and small daughter of Monument, New Mexico, met the truck on a bridge. The two vehicles sideswiped, throwing the automobile against the railing and causing it to overturn.

Both Mr. and Mrs. Pate were reported to be in a critical condition by hospital attendants. Their daughter was uninjured and remained in the home of Mr. and Mrs. T. Thomas until Saturday morning when her grandparents came for her.

The Pates were on their way to Corsicana to visit his parents when the accident occurred. The car, a 1949 model Ford sedan, was completely demolished. The truck, a 1947 Dodge, which is owned by A.O. Woody of Lubbock received only minor damage. The truck was engaged in transporting movie film and news papers from Fort Worth to Lubbock.

Highway Patrolman O. A. Avery, who made the investigation, said that the charges would be filed in the Callahan county court some time Monday. The filing was delayed until the con-

dition of the injured persons was determined.

He reported that his investigation showed the driver of the truck was traveling too fast, and that the truck was 8 1/2 inches to the left of the center of the bridge when the accident occurred. He two vehicles were at the east end of the bridge when they met.

Woman Dies From Injuries Received In Auto Crash

Mrs. Robert Pate, 18 of Monument New Mexico died in a local hospital at 5 p.m. Monday following the still-birth of a baby son. Mrs. Pate was critically injured in a traffic accident 8 miles west of Cisco Friday night.

Her husband was also seriously injured in the accident and is still under treatment at the hospital.

Lora Lou their two year old daughter was not injured in the wreck. She was brought to Cisco in the ambulance with her parents and spent the night in the home of Mr. and Mrs. T. Thomas. Her grandparents came for her Saturday.

The accident occurred late Friday at a bridge on U.S. highway

80. The Pate car a 1940 model Ford sedan was involved in a collision with a truck driven by Chester L. Alexander of Fort Worth. The truck was engaged in hauling newspapers and film from Fort Worth to Lubbock.

Funeral services for Mrs. Pate were to be held in Corsicana at 2:30 p.m. Tuesday. The Pates were en route to Corsicana when the accident occurred.

Survivors include the husband and daughter; her parents, Mr. and Mrs. O. M. Gilcrease of Abbott Texas; two sisters, Mrs. Edgar Varner of Abbott and Mrs. Alice Halbert of Fort Worth; five brothers; and the maternal grandparents, Mr. and Mrs. H. L. Chambliss of Burleson.

Former Pastor To Hold Meeting At East Cisco Church

Rev. Russell Dennis, pastor of the Melwood Baptist church in Brownwood will do the preaching in a revival meeting beginning on September 24 and continuing through October 3, at the East Cisco Baptist Church, 507 East Twelfth Street.

"Brother Dennis", as he is affectionally known by his many friends here, served five years as pastor of the East Cisco church.

David B. Green will conduct

the singing for the meeting, it was announced. Mr. Green is a well known song director, having led singing for a number of meetings in churches of the southwest. He is a student at

Hardin-Simmons University and is a member of the University male quartet that sang at a 1948 meeting of the Southern Baptist Convention in Memphis, Tenn.

Luxurious Heating

For Small Homes

is a thrift-priced package with automatic central heating provided by closet furnace

For about the same low operating cost of usual flue-vented gas heating appliances you can have the air in your home positively cleaned . . . precisely warmed . . . humidified automatically if needed, then scientifically circulated in every room. Automatic closet furnace does all this in small homes.

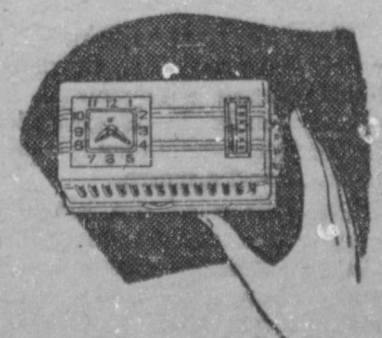

Like all flue-vented gas heating appliances, automatic closet furnace eliminates wall sweating too. Closet furnace does everything that can be done to make your winters luxuriously comfortable.

If you're planning to build or to modernize a small home, get facts about closet furnace.

Call for a scientific house heating survey by a specialist. He tells you the size, location, cost installed of an automatic closet furnace for your home.

Call your gas furnace dealer or Lone Star Gas Company today

Closet Furnace Automatic Control gives you added convenience, health protection and fuel savings.

New Credit Plan Goes Into Effect Monday Morning

Tomorrow at 12:01 the country will go under a controlled credit plan. There has been a lot of confusion about just how the act will affect businesses, but most people are worried about how the new regulation will affect the consumer.

According to Mrs. Roy Huffmyer, manager of the Merchants Credit Association, this new con-

trol may not even be noticed by many credit buyers. Information received from the Associated Credit Bureaus of America—the trade association in St. Louis which gives the Merchants Credit Association international coverage—indicates that the act is not as strict as most people suppose.

First of all, it does not touch the ordinary 30-day charge account. Your favorite credit firm will still be able to give you the option of paying on the tenth instead of writing a check before you leave the counter.

Uncle Sam isn't worried about your small purchases, either, for the new regulation will not affect items that retail for less than

\$50. Only 12 kinds of consumers' durable goods are specifically named in the regulation.

Those who are on the preferred list for a new car may have to dig into their savings more deeply than planned, for automobiles will require 33 1-3 per cent down payment, beginning tomorrow. If the balance due on the car doesn't exceed \$1000, it must be paid off in 15 months.

If the balance is over \$1000, the purchaser can take 18 months to call it his—but payments must not be less than \$70 per month. Incidentally, these maturity provisions apply to all loans and merchandise.

Besides automobiles, the following articles are listed in the regulations. Cooking stoves, dishwashers, irons, refrigeration, washing machines, combination units or these items, air conditioners (room unit), radio television sets, sewing machines, suction cleaners, and furniture and soft-surface floor coverings.

All of these are subject to a 20 per cent down payment.

Actually the new regulation is designed to require customers to pay their accounts as agreed, but only what they can afford. Mrs. Huffmyer pointed out that the new regulation will not affect the need for complete credit information in the community, or the necessity for keeping personal credit records good. The fact that customers will be required to meet certain definite requirements when purchasing some merchandise will make it doubly important for firms to get credit reports when they buy those items which are not on the "protected" list.

Mrs. Huffmyer finally suggested that while the government can enact many kinds of credit legislation, true credit control and protection against inflation lies with the customer. His intelligent buying is the greatest bulwark against inflation.

the Texas Palomino Horse Exhibitor's Association. Premiums totaling \$1570 and many fine trophies will be awarded.

Weather Favorable For Fall Harvest In Most Sections

Open weather in most areas of the state again favored harvesting operations but continued detrimental to growing crops. Southern, south central and southeastern areas and eastern counties of the Edwards Plateau were adequately supplied with surface moisture but remaining areas continued dry. Harvesting operations were delayed in southwest Texas by wet fields but as a whole harvest of remaining matured crops made good progress. Some wheat and other small grains were dusted in during the week in the northwest but soils in most small grain areas were dry and many growers were waiting for another rain.

Progress of cotton harvest was regarded in upper coastal counties by wet fields following heavy general rains, and there was some delay caused by morning dews and scattered showers in north central counties. In most areas, picking and pulling proceeded at a rapid rate under favorable weather conditions. Cotton was maturing rapidly and harvest was getting underway over the High Plains area when pulling was expected to be in full swing within a few days. In the southern High Plains counties, deterioration had been checked to some extent by scattered showers and cooler weather but conditions of non-irrigated crops remained generally poor. Prospects continue usually good in the northern High Plains. Harvest was past the peak in central and east Texas where good yields were being realized. Damage from insects has been heavy in north central counties.

The sorghum crop in the important High Plains area was deteriorating and yields were light as harvesting was getting underway. Late feed crops prospects were improved in southern counties by recent rainfall, but were in need of moisture in remaining areas. Harvesting of corn was active in north central and eastern counties, but was delayed by wet fields and showers in southeast counties. Harvest of early peanuts was underway in northern areas. While yields were mostly light, many crops were turning out better than had been expected.

Centipedes get their name from two Latin words meaning hundred footed.

West Texas Fair Quarter Horse Show to be Sept. 30

Abilene, Sept. 15— The West Texas Fair will have the distinction of holding the world's first All Performance Quarter Horse Show when this year's Fair gets under way the week of September 27, it was announced by H. D. Jefferies, Fair Association President. This show, to be held September 30-October 2, will feature three day race meet and three nights of performance contests with cowboys from all over Texas riding hard to corral some of the \$3000 added money and trophies which will be offered.

Only registered quarter horses will be eligible to compete in the races and the performance contests which will include cutting horse contest, reining contest, calf roping, western pair class, and woman's reining and flag races. There will be six races each afternoon written to accommodate the horses on the grounds with the races being run in accordance with the official rules and regulations of the American Quarter Horse Racing Association. A photo finish will be used in each race.

Abilene will be a real mecca for horse lovers during the Fair, for in addition to the Quarter Horse Show, a Palomino Show has been scheduled for the first three days of this colorful, annual event. Only registered stock may be entered in this show, which has been sanctioned by

**PAST and a
FUTURE!**

Since 1837, when John Deere gave to the world the steel plow, the name John Deere has achieved a reputation for being the quality name in farm equipment. John Deere farm machinery is equipment with a past... and a future.

Regardless of the machines you may choose... tractor, plow, harrow, mower, planter, rake, combine, wagon, feed mill, and others, you'll find John Deere Equipment constructed of the highest grade

materials by highly skilled workmen. This quality of construction, in turn, is your assurance of time- and labor-savings throughout many years of dependable performance.

For all-around satisfaction it will pay to choose John Deere. Be sure to see us for new John Deere Farm Equipment... efficient John Deere reconditioning service... and genuine John Deere Parts.

Putnam, Texas

JOHN DEERE... The Quality Name in Farm Equipment

NEW DECORATIVE ACCENT

A pleasing decorative accent is given to this attractive modern living room by the new convector radiator recessed beneath the large window. The modern convector blends gracefully with the clean, inviting lines of the room in sharp contrast to the day when heating units were more of an eyesore than an asset to effective room interiors. Flowered draperies frame the convector-window ensemble. Walls and carpeting are in subtly contrasting shades of green and the modern chairs are charreuses.

Grand Jury To Study Slaying

A special session of the Grand Jury has been called in the death of a former Cisco woman, Mrs. Jewel Boyd, daughter of Mrs. Inglut, at Cisco. She was a cafe owner at Odesa and her body was found a mile and one half north of Crane, August 23. The woman's husband, J. M. Boyd, 27, employee of an Odessa trucking contractor, has been charged in Justice court with murder with malice aforethought in connection with the slaying.

Two Locations Made In County

Two locations have been made in Callahan county oil explorations, one to test the Ellenberger and the other seeking extension to the recently opened Cook sand production, have been filed with the Railroad Commission.

The Ellenberger test will be the C. U. Bay No. 1 E. L. Harris and W. B. Barton nine miles southwest of Baird, located 1320 feet from the north and 1750 feet from the west line of section 8 BBB & C survey. Permit is for 4,600 feet and drilling is to be done with Rotary rig.

Collegians Will Hear Musical At Friday Assembly

Dean R. F. Webb announced today that a special assembly hour would be held in the Cisco Junior College auditorium Friday morning at 11 o'clock and urged all students to attend.

Messick's Musical Bells, a musical program designed especially for the interest of college and high school students will be presented. The assembly program includes many various types of bells—from cow bells to Chinese bells. No admission will be charged, he said.

The program will begin promptly at eleven o'clock and classes will be altered to meet the schedule, Mr. Webb added.

Dallas Man To Head Polio Body In NE Texas

New York, Sept. 22—A. D. Faries Jr., of Dallas, has been appointed to represent the National Foundation for Infantile Paralysis in northern Texas, Foundation president Basil O'Connor announced today.

As a National Foundation representative, Mr. Faries will supervise and coordinate activities of the organization's chapters which provide March of Dimes-financed services to polio patients in 55 northeastern Texas counties.

Mr. Faries, born and educated in Dallas, studied business administration at Metropolitan College.

New Drive-In To Open Thursday

The announcement was made today that the Joy Drive-in Theater would open tonight instead of Saturday as was previously announced. Final testing of the equipment was made and everything will be in readiness for the formal opening, the announcement said.

The new theater is the only one of its type in this section of the country. It will be under the management of K. N. Greer, veteran show operator of Cisco. Mr. Greer invited local citizens to visit the new open-air theater.

The show opens with the Metro-Goldwyn Mayer production "Ruthless" starring Zachary Scott and Louis Hayward. Selected shorts and news films will be run at each showing.

Guardsmen May Become Officers By Home Study

FORT SAM HOUSTON, Texas —National Guard enlisted men may now become officers by

studying at home, according to information received from Washington today by the Fourth Army headquarters.

The commissioned ranks have been opened to all qualified National Guardsmen through extension courses known as the "10-series" in an effort to obtain badly-needed junior officers for the expanding National Guard.

Previously enlisted men could earn commissions only by attending the regular nine-month Army officer candidate courses, unless they were eligible for direct commissions through wartime service as first three graders.

Wylie's Funeral Home Opens, with Show

Moran citizens flocked to attend the formal opening of Mr. and Mrs. W. O. Wylie's new Funeral Home in the Wild building, Moran, Saturday, September 18. Mr. and Mrs. Wylie were assisted in showing friends through the funeral home by Mr. and Mrs. Jack Taylor, Mr. A. J. Taylor of San Angelo, Mrs. J. R. McGowan, insurance agent and H. B. Terry Jr., funeral director. Visitors from Baird were Mrs. and Willard Kelton of Kelton

Best Tressed

Movie stars following the predictions of M. Louis, hair fashion forecaster for the American Hairdresser, illustrate hair trends for the next six months. Left is Lina Romay, currently appearing in "Joe Palooka—The Big Fight" a Monogram film, with her hair done by Lela Chambers, studio hair dresser. Right, with another style variation, is Binnie Barnes, star of Mutual's radio show "Leave It To The Girls", who has just left for England to do a picture.

Short Hair with Emphasis on Feminine Allure Forecast for Next Six Months

Hollywood stars are six months ahead of the times in grooming their hair.

And this means that the women of the nation will not be far behind when it comes to following the stars. The short hair trend with emphasis on soft feminine alluring lines is due to continue into 1949, according to the hair fashion forecast by M. Louis in the American Hairdresser, leading publication of the beauty industry. Such stars as Irene Dunne, Loretta Young, Lina Romay, Ida Lupino, Binnie Barnes and Claudette Colbert set the pace in the movie capital.

In the fall styles the hair is combed out freely in the back, giving a pleasingly full effect without disturbing the basic cap contour line. Interest is added by a slight upward-movement of the wave, clearly defined on the side in contrast to the present horizontal forward movement of the wave. These newer lines can be varied, modified or exaggerated to flatter each individual wearer.

Next year the lines of the hair will swing toward a new line in which the top will be flat, spreading into fullness above the temples. This movement is also predicted in the American Hairdresser.

In making these styles available to thousands of beauty salons throughout the country for the benefit of style-conscious American women, Hazel L. Fozlay, editor-in-chief of the publication point out:

"Within the current trend, styles will remain short, sleek and feminine. But they will continue away from the stereotyped severity of the cap coifs which are far from flattering to many types of faces. Thus, even with the shortness, smart styling will make the hair appear more abundant without sacrificing the freedom and comfort of shorter hair. Hairdressers will adapt these general lines to each individual so they will be most becoming and flattering."

W. O. Wylie Sr., Mrs. C. M. Peak, Flower Shop.

Lovely cut flowers were sent by Philpott florist and Greenhaws' florist in Cisco, Kelton Flower shop in Baird, the Moran Luncheon club, Mr. and Mrs. Jack Taylor, and Mrs. C. C. Cady.

300 guests registered and were shown through from the front door to the back door. They were charmed by the immaculate beauty of this Funeral Home, a credit to much larger towns than

Moran but so important to us in time of need. Many expressed surprise that the place could be made so perfect. Everything that is needed is in the building, large reception room that can be used for a chapel, slumber room, casket display room, preparation room for embalming, bed room, rest room, and ambulance in the rear of the building. W. H. Robbins of Moran is the ambulance man at your call day or night, telephone 39.

WAA Grants Bid Extension On Camp

A re-scheduling of legal advertising will give the general public an extension of two weeks in submission of bids on remaining

utilities on sale at Camp Bowie, Brownwood, the War Assets Administration announced today.

The additional two weeks will result from the designation of a Sunday, a legal holiday, as the original date for opening bids. The new date for bid opening will be 11 a.m. October 5, and bids will be considered up to that time

Materials offered for disposal and removal from the Camp Bowie grounds include 60,430 feet of steel pipe in the camp's gas system and a variety of equipment of the camp's electrical system. Transformers in a number of sizes, treated poles, cross arms, floodlights, copper wire, weld, crapo and a quantity of miscellaneous electrical hardware are included in the offering.

Sale will be by sealed bid on special WAA forms. No priorities will be required and bidding will be open to all prospective purchasers on an equal basis. Bid forms and other instructions will be furnished by the WAA Grand Prairie regional office Box 6030, Dallas 2, Texas.

committee to cooperate in the fall project.

The directorate voted to contribute the sum of \$50 to the newly organized Highway 80 Association for use in advertising and promotional activities. A contribution not exceed \$100 was voted for use in securing office equipment for the new National Guard company. A committee composed of Charles Spears, N. C. Huston and O. L. Stamey was named to cooperate.

The board discussed the need for road and water improvements and ordered a study with recommendations.

Present at the meeting were Directors E. P. Crawford, W. P. Guinn, N. C. Huston, Troy Powell, J. B. Pratt, Ronald Rhodes, Charles Spears, O. L. Stamey, A. R. Westfall and Anton White, manager of B. A. Butler and O. O. Odom, a guest.

ed by W. E. Moore, Church of Christ minister who formerly preached in Cisco. Burial will be in Oakwood. Thomas Funeral Home is in charge of the arrangements.

Pallbearers will be L. D. Strawn, L. H. Qualls, Roy Huffmyer, Gordon Strawn, Jerry Myrick and Neal Moore.

Mr. Markman was born in Comanche on September 2, 1875. He came to Cisco five years ago from Hamilton. He has been a mechanical engineer for many years.

Survivors are his wife, one sister, Mrs. Chloe Rowe of Amarillo and two brothers, Homer Markman of Amarillo and Heber Markman of Arkansas.

KITCHEN MEMO BY JEAN CLARKE

Any new way of cooking meat loaf is always a welcome addition to the recipe file. Broiled-Meat Loaf uses only six ingredients and can be popped under the broiler flame for quick cooking. Mix together 1 lb. hamburger, 1/2 cup bread crumbs, 1 egg, 1 tbsp. grated onion, 1/2 cup tomato soup, 1 tsp. salt, pepper. Shape into two firm loaves and place on broiler grid. If you broil with the thermostat wide open, the loaves should be at least 3" from the flame and broiled about 12 mins. on the first side, 10 mins. on the second side. If you set the thermostat at 350°, place meat 2" from flame and broil 15 mins. on each side, which cooks it to well done.

If there's not quite enough batter to fill all the cups in muffin tins, pour water into the empties before placing in the oven to prevent burning of empty cups.

Any cooking food creates smoke and vapor of varying degrees. Many modern gas ranges take care of this problem with "smokeless" broilers which means, literally, that smoke rising from cooking food is consumed by the broiler flame.

Nancy Holmes SUGGESTS

SUMMER'S heat offers such opportunity for procrastination that one thing after another is "put off" till cooler weather. That generally goes for better breakfasts as well.

No reason now to short-change the family on their morning meal, prompts Nancy Holmes of the Best Foods consumer kitchens. Cool weather's here, besides the fact that appetites are naturally larger when the temperature drops. So why not start the better breakfasts, rolling with this suggestion?

Scrambled Eggs De Luxe
2 eggs, 1/2 cup sour cream, 1/2 teaspoon salt, 1/2 teaspoon pepper, 4 tablespoons vitaminized margarine, 2 small tomatoes, diced.

Beat eggs well. Blend in sour cream, salt and pepper. Melt vitaminized margarine in skillet over low heat; pour in eggs. Cook slowly, stirring gently. When beginning to thicken, stir in diced tomatoes and continue cooking until eggs are set. Serve with little sausages. Yield: 4 generous servings.

Cinnamon English Muffins
Break English muffins apart with a fork, toast until golden brown, then spread with a mixture of 4 tablespoons soft vitaminized margarine, 4 tablespoons confectioners' sugar and 1/2 teaspoon cinnamon.

C. of C. Vote To Participate In Trade Program

Wired Hand Sports \$14.75 Trousers

From one of our exchanges: An easterner visiting Marshalltown, Iowa, recently found out that farmers face the problem of high wages just as industrialists do.

The visitor watched an 18 year old farm boy buy two pair gabardine slacks at \$14.75 per pair.

"Boys like that used to make \$3 or \$6 a day during harvest," the merchant remarked. "This summer he is making \$18 a day."

Then the Easterner understood why farmers need more agricultural machinery to help solve the problem of getting work done.

CARD OF THANKS

New Employees Put On 43,784 In 1948

According to Harry Byrd, United States Senator from Virginia, reports that an average of 482 new workers were added to the federal payroll each day during July.

This, however, was a drop

from the 525 a day average chalked up for seven months since December.

Byrd reporting as chairman of the joint committee on reduction of non-essential federal expenditures, said the number of civilian job holders totaled 2,107,244 on July 31.

This was an increase of 14,931 for the month of July and again of 111,856 since December 31.

The Post Office Department showed the biggest gain for both periods, 10,419 for the month and 43,784 for the year to date.

Byrd said the military establishment added 5,904 workers during July, the Veterans Admin-
