Showers Give Boost To Crops

Spotted showers drenched the Slaton area last Thursday with the beneficial rainfall serving to give crops a boost and to relieve a heat wave.

The rain was "just what the doctors ordered" for many farmers, but it was not general in heavy amounts. Recordings ranged from light showers all the way up to 3 inches.

Slaton recorded about 1.5 inches around noon Thursday, with the heavy downpour flooding some streets. Dayton Street was blocked off in some places by the high-running water.

A paving project on Dayton was slightly delayed, and a situation such as this is one big reason for the street being included in the program. The paving is expected to be a big aid in drainage.

Several farmers reported varying amounts of rain south and southwest of town, the moisture ranging from .50 of an inch up to 3 inches. Wilfred Kitten had up to 3 inches in spots, while Clarence Kitten reported from .50 to 1.5 inches on his farm almost due west of town.

Only 40 to .60 was reported around Posey, however, and only showers and traces north and northwest of Slaton. In Southland, the rain measurements ranged from a trace to 1.5 inches, and the rain was also spotted around Wilson.

With the rain, prospects for a good cotton crop continued to be bright. Many farmers say another good rain in August would put "the icing on the cake."

Some dryland crops still need moisture in areas around Slaton, but in general the crop outlook is the best in years.

RAIN FLOODS CITY STREET — A thunderstorm dumped rains measuring from 1.5 inches to larger amounts in and around Slaton last Thursday. The downpour flooded some city streets—such as this scene on Dayton and S. 10th St. Rainfall amounts varied around Slaton, ranging from .40 of an inch to 3 inches. (SLATONITE PHOTO)

New Manager For Theaters

Mrs. Nadine Bell Gindorf, former manager of the Slaton theaters, has taken over management of the two shows once again. She replaces James Little as manager.

Mrs. Gindorf, who served as manager for three years previously, announced that the Caprock Drive-In Theater has been closed this week for needed repairs and remodeling, and will reopen Friday night with new speakers.

Mrs. Gindorf stated that the drive-in theater would be in full operation, with pictures showing each night and the downtown Slaton Theater having Saturday and Sunday matinees.

She also said that she planned to bring the best motion pictures and family shows that she can obtain for the pleasure of the Slaton and area patrons.

Street Repair Contract Let

Pioneer Pavers, Inc., of Lubbock was awarded the contract for seal coating and surface treatment repairs on City of Slaton streets after a bid opening Friday.

Pioneer Pavers, also contractors for the city paving program, won the contract with a low bid of \$24,640. Two other bids submitted were: Turner Construction Co. of Lubbock, \$25,903.75; Kerr Construction Co. of Lubbock, \$26,515.

Work is scheduled to be completed by Sept. 1. The seal coating and repair project calls for improvements on approximately 96 city blocks.

Doors Close On Wilson Depot

BY POLLY MELUGIN
Wilson Correspondent

After a five-month waiting period, the railroad commission handed down the final word this month on the closing of the Santa Fe Depot in Wilson.

Constructed shortly after 1909, when the railroad was laid connecting Slaton and Lamesa, the closing marked the end of one of the longest continuous business operations of the Wilson community. After the railroad was laid, the community of "Wilson" came into being. Several of the present original farm homes in this area were built from supplies that came in on the railway to the Wilson depot.

In its early runs, the little train was known as "The Blue Weed Special" because of the blue weeds growing along the track. There has been no passenger car on the line, but in earlier years, a passenger car was attached to the freight runs.

Probably the person in Wilson who will miss the depot more than anyone is J.F. Covey. Although he was planning to retire in the near future anyway, he had given 33 years of his life working at that one depot, and that cannot easily be forgotten. With the closing of the depot, Mr. Covey said it also closed down the telegraph service in Wilson as that was one of his jobs while working at the depot.

No immediate plans for disposition of the depot have been made, but Santa Fe spokesmen say the agent for freight through Wilson will be Wilson Lumber & Supply Co.

Lubbock Woman Dies In Car-Train Crash Here

A car-train crash near Slaton last Friday afternoon claimed the life of a 39-year-old Lubbock housewife and injured two of her children who were riding in the car.

Dead on arrival at Mercy Hospital was Mrs. Ima Jeanne Rox, 2113-C 51st St., Lubbock. Reported to have been hurt seriously and entered in Meth-

odist Hospital in Lubbock was Mrs. Rox's 14-year-old son, Pat, who suffered head injuries, cuts and abrasions in the 1 p.m. collision. Treated and released at Mercy Hospital was a daughter, Natalie, 6, who suffered minor cuts, according to the Department of Public Safety. Funeral services for Mrs. Rox were held Sunday in the

First Baptist Church of Dublin. Survivors include her husband, Walter; three sons, Pat, Tony, and Artie; and two daughters, Natalie and Angella, all of the home; her parents, Mr. and Mrs. W.H. Carddock, Dublin; and a sister, Mrs. Edsel Lightfoot, Copperas Cove, Tex. Leon Feazell, Lubbock, investigating highway patrolman, said the Rox vehicle was traveling northwest on U.S. 84 when it was in collision with a Santa Fe train, headed southwest, at a crossing one-half mile southeast of here.

The late model sedan then careened into a railroad station, stopping its movement. The crumpled hood of the car was knocked about 30 feet further. The car smashed almost "squarely" into the left side of the engine, twisting the lower rung of a ladder mounted on the side. Damage to the train was estimated by Feazell at \$50 to \$100.

Apparently none of the victims were thrown from the vehicle. They were removed from the scene by a Williams Funeral Home ambulance, Slaton police and volunteer firemen also aided investigating officers at the scene.

A large crowd gathered on the busy highway, hampering operation. Engineer of the train was Paul Brasfield of Slaton. He told officers his signal horn was sounding at the moment of impact. V.L. Wampler, also of Slaton, was conductor.

The train included the engine, caboose, and three or four flat cars. No one aboard the train was injured.

It's Official, Judge Resigns

The City of Slaton opened applications for a new city judge this week after W.H. (Doc) Legate reaffirmed his resignation following a salary dispute.

Legate met with the commission in a special meeting Monday morning--a session which apparently was aimed at settling differences, if possible. The commission failed to act on Legate's verbal resignation at the regular meeting last week.

However, after an amiable discussion Monday, Legate asked that his decision stand, and the commission unanimously accepted the resignation. Legate told the commission he would remain as the city's corporation court judge if "I can have some assurance that I will receive a substantial raise in salary."

Members of the commission indicated they would "look favorably" on increasing the pay for the post when the new budget study comes up, but each felt that no definite figure or commitment could be made by the commission. Several of the commissioners pointed out that the group was on record of not considering any pay increases until the new fiscal year starts in October.

Commissioner Earl Reasoner also pointed out that two employees had been promoted recently without benefit of salary increases.

When Legate said he wanted assurance of a substantial pay increase, Mayor Jonas Cain asked what he considered to be "substantial."

"At least to \$125 a month," Legate replied.

The city post presently is allotted \$90--\$75 being paid to the judge and \$15 for book-keeping help. Vera Gantis, police dispatcher, is currently helping with the record keeping.

Legate had appeared at the regular commission meeting last week and requested a raise, offering his resignation when the group indicated no action would be taken at present.

At the Monday morning meet-

ing, Commissioner Jack Smith reminded Legate that he knew what the salary arrangement was when he took the job. "Yes," replied Legate, "but I didn't realize the amount of work and responsibility required for the job, and I don't think the commission does either."

Reasoner told Legate he (See JUDGE PAGE 4)

AFTER 31 YEARS SERVICE Sister Mercedes Will Leave Mercy Hospital

Sister Mary Mercedes, administrator at Slaton's Mercy Hospital, will be leaving about Aug. 1 for a new assignment as Superior of Mercy Hospital in Laredo, it was revealed this week.

The move will interrupt a long span of service for Sister Mercedes in the local hospital. She came here in 1934, served in various capacities through the years and was named administrator in 1959.

Sister Mary Mercedes has been appointed as administrator here on the departure of Sister Mercedes, Sister Madeline, who has been here since 1961, returning to Slaton after spending several years in Brinkley, Ark., and Brownsville, Tex. She has been supervisor of the laboratory.

Sister Mercedes' new assignment will be a new challenge, according to a local staff official, since she will be leaving a 35-bed hospital to go to a 150-bed hospital. The Laredo hospital is in a building program, adding 150 more beds.

Asked to comment on the move, Sister Mercedes remarked that she "might have to take a few lessons in Spanish" since she will be in contact with more Spanish-speaking people at Laredo.

After Sister Mercedes received her training at St. John's Hospital in St. Louis, Mo., she came to Slaton in 1934. She has served as operating room supervisor, obstetrics supervisor, and was on night duty for several years. She became administrator in August 1959.

Asked to recall some of the history of Mercy, Sister Mercedes noted that the convent was completed in 1952; a new elevator was installed in 1953, and much new equipment has been added over the years, including an x-ray machine.

The operating room was renovated and in 1960 a kitchen and dining area was added to the hospital. At the present time, refrigerated air conditioning is being added--individual units being installed in each room.

"It is such a pleasure working with the people of Slaton," said the sister. "I'll probably be back in a few years."

If the people of Slaton could speak as one, they would probably say: "The pleasure was all ours."

Legate said there was no "hard feelings or animosity on his part," but that he believed he would allow his resignation to stand. Commissioner Curly Starindale then moved, and Smith seconded, that the commission accept the resignation.

Several members of the commission expressed thanks to Legate for performing a good job while on the city judge's bench.

Of the 25 arrests made: 10 were for drunkenness, four for drunk in car, two for disturbances, three for possession by minor, one traffic ticket, one traffic warrant for fighting, one for shoplifting, and one to hold for the Texas Highway Patrol.

The police received a complaint July 14 from Mrs. Noel Dickson, 850 S. 9th St., that two dogs had bitten her daughter Lana. She had been bitten on both ankles. The dogs were picked up and placed in the pound for 10 days of observation.

Ruth Tournery Underway, Slaton Tops In Opener

Elimination game between Babe Ruth and Slaton was Wednesday night's game, and Slaton topped in the opener.

Each team had a chance to win, so the night's games were exciting.

Slaton's offense was led by Post, who had a home run and three hits. Slaton's defense was led by Post, who had a home run and three hits.

took a 6-4 win over Frontier. The Post-Frontier winner will clash at 6 p.m. today with the results wiping the third team out of the tourney. Lamesa and Tri-City clash at 8 tonight in a battle of the unbeaten.

Only one game is on tap Friday night, starting at 8 p.m. The championship finale starts at 7 p.m. Saturday, with one or two games being played, depending on the outcome of the first contest.

Slaton got behind early and was held to just three hits by Post hurler Clyde Cash in the Monday opener. John Petty lashed out a double for Slaton, and Richard Washington and Doyle Ethridge had the other two hits.

Claud Stricklin started on the mound for Slaton and was relieved by Claud Stephens.

Lamesa rallied for three runs in the seventh inning to down Post Tuesday night 6-4. Terry Davis was the winning hurler, and Dennis Altman was tagged with the Post defeat.

Tri-City blanked Levelland Tuesday night behind the tight pitching of Calvin Smith. Dean Woodward singled in two runs in the top of the third frame to provide the winning margin.

In a director's meeting Monday night, next year's tourney was awarded to Denver City. The meeting also saw the re-election Dr. Wilburn S. Deel Levelland as district director.

Pro Basketball Game Will Precede Raider-Aggie Grid Clash Oct. 2

West Texas sports fans will have an opportunity to see two top athletic attractions Oct. 2 at Lubbock.

At 7:30 p.m., Texas Tech's Red Raiders host the Texas Aggies in a Southwest Conference football clash at Jones Stadium.

And preceding the grid contest, there will be a 3 p.m. pro basketball game matching the St. Louis Hawks against the Philadelphia 76ers in Lubbock Municipal Coliseum. It will be the first West Texas appearance by NBA teams in five years.

The pro cage tilt will star Witt (The Stilt) Chamberlain, generally recognized as the greatest basketball player of all time. The 7-foot-11 Philadelphia pivot has led all NBA

scorers in each of his six seasons in the rugged league. No other player has ever approached that performance.

The 76ers also boast Lucious Jackson, a forward who was the NBA "Rookie of the Year" last season. Other Philadelphia standouts include Hal Greer, Chet Walker, John Kerr, Dave Gambee and Larry Jones.

The Hawks have a well-balanced scoring attack led by veteran forward Cliff Hagan. Other key men on the St. Louis roster are Len Wilkens, Zelmo Beaty, Bill Bridges, Jeff Mullins and player-coach Richie Guerin.

Tickets for the pro cage game are priced at \$3, \$2.50 and \$2, with all seats reserved. Fans may order tickets now by mailing a check in the proper amount to Pro Basketball, P.O. Box 5002, Lubbock.

ACTION IN RUTH TOURNEY--Slaton's Delton Womack prepares to take a swing during action from Monday night's game with Post. The Slaton Babe Ruth Stars lost the opener to Post, 8-1. The district tourney winds up here Saturday night. (SLATONITE PHOTO)

South Plains Fair Catalogs Are Mailed

More than \$35,000 in total premiums are being offered in all divisions of the Panhandle South Plains Fair in Lubbock Sept. 27 through Oct. 2, according to the official catalog describing the 48th annual fair.

About 3800 catalogs were in the mail this week to area residents throughout the South Plains.

Major entertainment will be Holiday on Ice International, back after an absence of seven years.

An outstanding free act, a demonstration of the Bell Aero-systems Rocket Belt, will feature three flights a day Sept. 27 through 29. A man will put on the belt, take off and fly around the fairgrounds and return to land where he took off.

Other attractions will include the Jr. Parachute Jump sponsored by Army recruiters, the 12th annual Twirling Festival, free military exhibits larger Midway, Children's Barnyard, Texas Wildlife Exhibit, an Industrial Arts Show and hundreds of other exhibits.

Improvements underway at the fairgrounds include new rest rooms with hot and cold running water, new paving and new, brighter lighting in exhibit buildings.

program--the government will determine what a fair income is for agricultural producers, and then attempt to guarantee that standard of income to co-operators."

One farm leader says the Congressman who supports payments is simply taking the shortest route to a political solution of a problem created by a series of ag laws over a 45 year period.

In the long run, the new cotton program just passed points the U.S. toward the production of less and less cotton on smaller and smaller acreages at higher and higher per-unit costs.

One trouble in the past has been the failure of various ag groups to compromise on alternate programs. Recently, however, 15 producer groups across the cotton belt have come up with a workable program.

Plains Cotton Growers, Inc., had a substantial hand in developing this proposal. The plan apparently fell on deaf ears, but the Cotton Producers Legislative Committee plan may be a start in getting things heading in the right direction.

Mrs. Paul Winterrowd, Dahoma, Breonne, and Jerry have gone to Ft. Worth to visit with Mrs. Winterrowd's mother, Mrs. Francis Lightfoot. They plan to be gone two weeks.

Beverly Stolle was home on the weekend visiting her parents, Mr. and Mrs. Leo Stolle. She is a student at Jessie Lee's Beauty School at Lubbock and making excellent grades from what we hear.

Donald Wayne Crawford, who is serving with Uncle Sam's Army, was home on a two week furlough recently. He has just finished his eight weeks basic training at Ft. Polk, La., and is now stationed at Ft. Jackson, S.C. When he finishes his training at Ft. Jackson, it is very well possible that he will be sent overseas to Viet Nam. While Donald Wayne was at home, Mr. and Mrs. Payton Crawford had all their children at home for the first time in a long time. On Wednesday evening the Crawfords had a cook-out in the back yard and those attending were: James and Martha Crawford and children from Lubbock; Webster Crawford of Lubbock and his fiancée, Janet Hollingsworth, from Slaton; Donald Wayne Crawford and his girl friend, Claudie Stoker, from Wilson; and Mr. and Mrs. J.S. Hamaker and sons from Wolf-orth. The Crawfords have two daughters who are still at home. Jettie will be a senior this fall and then they have a precious little girl that is about 4 or 5 years old. I know that this must have been a happy time for the Crawfords, to have all their children at home together.

We would like to say congratulations to Webster Crawford and Janet Hollingsworth who became engaged recently. Mr. and Mrs. W.A. Basinger have returned from Mercedes where they visited with their son Billy and family, Marilyn Basinger, their granddaughter, returned home with them and plans to visit here for about a month.

Sherri and Darrell Wilke were invited to a teen dance over in the Roosevelt Community last Saturday night at the home of Mr. and Mrs. Walter Schroeder. I got a kick out of watching the kids dancing The Monkey, the Jerk, the Hully Gully, the Swim, the Freddie-my goodness, what names!! Dancing sure has changed since I was a "teen"! At that time, the Jitter-bug was the latest dance, and I might add that it wasn't quite as strenuous as these modern day dances!

The Edmund Wilke family and Dayneen Dunn attended an ice cream social at the Slaton Grace Lutheran Church on Sunday night.

Some of the farmers around the Southland community enjoyed a soaking rain last Thursday afternoon, but it missed some of us!! Hope we all get some rain real soon.

Angerer Starts Naval Training

Seaman Recruit Donald K. Angerer, USN, son of Mr. and Mrs. Anton J. Angerer of 510 W. Lynn, Slaton, Tex., has begun nine weeks of Navy basic training at the U.S. Naval Training Center, San Diego, Calif.

In the first weeks of his naval service he will study military subjects and live and work under conditions similar to those he will encounter on his first ship or at his first shore station.

In making the transition from civilian to sailor he will be taught and supervised by experienced Navy petty officers. They will teach him the basic skills of seamanship as well as survival techniques, military drill and other basic subjects.

On completion of his recruit training he will be assigned to a school, shore station or ship, according to the results of his Navy classification tests, his own desires and the needs of the Navy.

ROOSEVELT NEWS

MRS. DORIS THOMAS

Girls Spark All-Star Cage Team

It sure is hot out here on the "northeast 40" but I would imagine that it is just about that hot wherever you are, too.

We didn't get even a drop of a sprinkle the other day when some of you were getting two and three inches of that much needed rain. If we don't get some right away our feed will be beyond help. The cotton is still holding up pretty good but a little rain would help in so many ways.

Carla Crumley, Wendy Woolley, Wendy Cromer, DeeAnn Donley, Jamie Thomas, Vicki Duagan, Vickie Kinard, Donna Rowe and Ruby Brown were the girls who went to Waco with Coach McDowell and Mr. and Mrs. M.H. Kinard to see the Girls All Star high school basketball game.

Alice Woolley and Dee Gregory were in the spotlight again by emerging as high scorers of the game. Dee dropped in 17 and Alice came in next by shooting 16. Retired Coach Marvin Williams was the forward coach for the North and he came up with another win to add to his long record of victories.

Our sympathy goes to the C.C. Range family. Mr. Range passed away last Friday morning, after being sick for several weeks.

Mr. and Mrs. Ted Blevins of Bridgeport have been recent visitors in the home of Mrs. Mae Thomas. Mrs. Blevins is Mrs. Thomas' sister. Steve Belcher of Clyde, Texas is spending 10 days with

Williams In Ford Training

Pete Williams and Jack Haliburton, salesman at Smith Ford Inc., have graduated from the advanced retail selling course conducted by the Ford Marketing Institute in Dallas.

The course is one of a number offered at the Institute to dealers, their personnel and Ford Motor Company employes by professional, full-time instructors.

Subjects range from management and merchandising courses for dealers and their department managers to selling courses for salesmen. In addition, there are courses for selected Ford Motor Company personnel.

his cousin, Randy Thomas. Mr. and Mrs. Kirby Brashfield and Suena were Sunday guests in the home of the Carl Crosslands. The Brashfields are living in Lubbock now. Kirby has been stationed at Reese Air Base.

Roosevelt's Young Homemakers met at the clubhouse last week where they were shown how to give mouth-to-mouth resuscitation and heart massage. The program was given by Mrs. Gail Brewer of South Plains Electric Coop.

Each member present took the opportunity to show what

she had learned by practicing on an air filled dummy Mrs. Brewer had given her demonstration. The next meeting will be July 27th at 9 a.m. at the clubhouse. At this time there will be an election of officers for the coming year.

Keep trying to call 2572 to give me your news. Maybe you will get lucky and get me one of these days. I sure hope these four party lines will be better than the ones we have. If they ever get them to working may be they will be.

See you next week???????????

FROGS IN STYLE — Recent rains have resulted in an abundance of frogs around Slaton, and Timmy Southerland thinks the little rascals make a nice cap. The new style is not likely to catch on with the girls, however. Timmy is the 5-year-old son of Mr. and Mrs. Dan Southerland of Slaton. (SLATONITE PHOTO)

Slaton Senior Ends A&M Science Course

Doug Williams, Slaton High senior, has been awarded a certificate of completion in a summer engineering science program at Texas A&M. The Slaton student was one of 33 young men from high schools across the nation who were selected to participate in the challenging new six-week summer program. A&M President Earl Rudder awarded the certificate. Texas A&M and the National Science Foundation offered the program to outstanding schoolboy science students. They worked on stress problems in a pilot program of engineering science described as the first of its type in the nation. "The students worked on problems normally encountered only by advanced graduate students," Dr. J. George Thompson said. A professor of mechanical engineering, he directed the six-week summer program. Gist of the program was to use the scientific study of stress as typifying scientific application of knowledge by the engineering profession. Stress is defined in pounds per square inch as a measure of the intensity of load upon a point. "Photoelasticity," a word probably never before heard by the students until their arrival at Texas A&M, now is a common term for all. This means the use of special lighting and photos to evaluate stress. "We've tried to give the students a spirit of scientific method and the feeling of discovery and accomplishment as they worked," Dr. Thompson said. A number of A&M faculty members have helped. Bob Smith and his staff at the Data Processing Center played "a major role" in formulating and executing the problems for the young men. Each student prepared and then did a program involving use of the sophisticated IBM 7094 Digital Computer. They also learned the uses of analog computers. Each student went to class every morning except Sunday. Each afternoon except for weekends was spent on a research assignment. These were in some engineering or scientific laboratory on A&M's main campus or at the Research and Development Annex.

Giving Thanks

"We give thanks to thee, O God; we give thanks; we call on thy name and recount thy wondrous deeds." — Psalms 75:1

Are we ever thankful for the blessings of a beautiful day? Do we appreciate such things as good health, good friends, a job, only when we lose them? Every day we can find something in life to be thankful for. The gifts of life, of love, and of friendship; the gift of freedom; and the freedom of worship—these we should not take for granted. We should not forget there is a God who makes all things possible. From time to time, and not just when sudden fortune smiles upon us, we should pause to say a simple, "thank you."
