# Economic, Financial Gains Predicted

This will apply particularly to standard items that are burned up rapidly during heavy and widespread attack and counter-attack. As a result, Babson's Reports looks for those concerns and areas that have been heavily committed to the making of bombs, shells, small arms, light ammo, etc., to suffer a slump in business volume and employment as the year wears along.

in the older types. Note, too, that the stress will be on expensive technological devices, requiring highly skilled management and labor.

**SPACE REVIVAL** - We have made great strides in space penetration, despite our occupation with the jungles and swamps of Southeast Asia. Yet, our progress has lacked the impetus of the early years after Sputnik. Just now, recurring reports indicate a real likelihood that Russia will score a significant "space spectacular", probably sometime soon. Should this be the case, we foresee a new surge of spending on more massive boosters and on more refined vehicles, both manned and unmanned. Again, observe that the big need will be for skilled men and highly complicated machines.

**RUSSIA RESURGENT** - The Russian Bear is no longer emitting friendly grunts of detente. Thoroughly aroused by near-revolution on his very doorstep - and the gateway to his heartland -- by the Czech stirrings for freedom in the summer of 1968, he will not risk any "repeat performance" in 1969. It will be the "hard line" for the Kremlin throughout the coming year; and the Nixon Administration will be shoved off balance many a time. Most ominous is the powerful strengthening of the Soviet Mediterranean fleet; for there is

(See BABSON, Page 7)

President Nixon will take over in January in a continuing national and international "state of siege." His major legacy from the outgoing Administration will be Vietnam, a militarily resurgent Russia, inflation, and a dollar that is not yet "out of the woods."

### WAR AND PEACE

Much of the difficulty in which the United States finds itself today, both at home and abroad, can be laid squarely on the doorstep of a terrible error in national policy. The great mistake was the belief that we could fight a war in Southeast Asia and conduct "business as usual" elsewhere. The result was an immensely unpopular conflict and the setting in motion of a massive inflationary wave. The effects of both tragedies will continue to scourge our people with social divisiveness and economic inequalities for an untold length of time.

**RECESSION POCKETS** - Peace will not come in Vietnam like the dropping of a curtain. The incoming Administration does not intend to surrender, hence, the path to peace will be tortuous and, at times, seem without end. But, even though fighting may flare now and then, the consumption of the hardware of death will be considerably less in 1969 than in 1968.

**BOOM SPOTS TOO** - But, if we may need fewer bombs and less TNT, we shall surely have a lot of work to do in order to catch up in modern weaponry. For while we have been tied down in Vietnam, we have been neglecting our defense posture elsewhere, especially the application of the most up-to-date research and development. 1969 will not feel the full impact of the coming arms catchup; but it will see a strong beginning. Emphasis will be on silent submarines, lasers for use with both offensive and defensive weaponry, much more highly sophisticated computerized control of short- and long-range missiles, deployment of the latest ABM system, greater versatility and mobility in battlefield nuclear "artillery," a completely new tank fleet, another generation of manned attack fighters and bombers, etc. It will all add up to greater spending on new armament than to real saving on cutbacks

## TO RETURN FROM NEW MEXICO

# Head Named Chief

Walter Head, former Slaton police chief, will return to head the police department, it was announced Monday by Mayor Jonas Cain.

Head, who had met with the city commission before Christmas, accepted the job in a telephone call to the mayor last week. He is scheduled to report here Jan. 2.

Glen Farmer resigned as chief Dec. 20, following a disagreement with the commission over the employment of his wife as a police dispatcher. The commission had dismissed her on a split vote early in December.

Head served as chief here for a year before leaving Aug. 1, 1968 to take a better-paying job as chief at Grants, N.M. He will return at a salary of \$650 a month, compared to the \$515 he was making here previously.

The department will be three patrolmen short, following the resignation this week of Bill Jumell, who has accepted a job

with the Plainview police department. Head is expected to fill the vacancies as soon as possible.

Head served with the Amarillo police force for seven years and was chief at Tatum, N.M. before coming here in August, 1967. Farmer was a sergeant and succeeded Head when he left for Grants.

## Cotton Harvest Nears Finish In Slaton Area

The harvest of King Cotton was mostly in the "scrapping" stages around Slaton this week, as the season neared the finish with more than 50,000 bales ginned in city and area gins. The area received more moisture in the form of a rain-fall Thursday night. This slowed the harvest for several days.

The three Cotton Classing Offices of the USDA in this area classed 103,000 samples of new crop cotton last week ending Friday, Dec. 27. This brought the total for the entire season to 1,374,000. This time last year there had been 1,122,000 samples classed on the South Plains.

Predominant grades were Strict Low Middling, Middling Light Spotted, Strict Low Middling Light Spotted, and Middling Spotted. These four (4) grades represented 75 per cent of the total classed.

The average staple length from the South Plains area last week was 31/32 of an inch. Micronaire readings by percentages were: 3.5 - 4.9, 25 per cent; 3.3 - 3.4 15 per cent; 3.0 - 3.2, 30 per cent; 2.7 - 2.9, 20 per cent; and 2.6 and below, 10 per cent.

Prices reported to the Consumer and Marketing Service of the USDA at Lubbock ranged from 0 to \$7.50 per bale over the Government loan value for White grades, and 75¢ to \$10 over the loan for Light Spotted grades in the 3.5 to 4.9 micronaire range.

Average cottonseed prices paid to producers was \$49 per ton.

## Three Slaton Residents Hurt In Accidents

Traffic accidents highlighted the police department report over the Christmas holidays, and two accidents involving Slaton residents were reported outside the city limits.

Jerry Burrell, son of Mrs. Dolly Brown, was injured in a one-car mishap Thursday night west of Slaton on the Union road. He was taken to Mercy Hospital after his car overturned. Burrell was reported recovering satisfactorily, sustaining broken ribs and other injuries.

Eibert D. Walston and Debbie King were taken to Mercy Hospital for treatment following a two-car collision Thursday night on US-84 near Stuckey's. Walston, driver of the car, sustained minor injuries, while Miss King sustained bruises and a knee injury. No information was available Monday on the occupants of the other car.

Slaton Police reported 17 jail arrests the past week, and 21 traffic tickets were issued. Three city accidents were investigated.

HAPPY WINNER--Max Rodgers, left, is being congratulated by Slaton Chamber of Commerce manager Ted Weaver after winning the Sleigh-Full-O-Gifts contest sponsored by the retail trades committee and 27 city merchants and firms. ## MAX RODGERS GETS EXACT AMOUNT

# Sleigh-O-Gifts Winner Named

Max Lee Rodgers was presented with a "Sleigh-Full-O-Gifts" on Dec. 23 after his entry in the contest was determined as the winner by Slaton Chamber of Commerce officials.

Rodgers, son of Mr. and Mrs. W. W. Rodgers of 255 E. Dawson, correctly guessed the exact amount of the sleigh of gifts--\$490.50, which included \$22.22 in coins in a fish bowl. All other values of the gifts donated by Slaton merchants could be determined by visiting each store.

Runnerup was Steve Smith,

who missed the total by six cents, and next was Clarence Kitter, who was just seven cents off the total.

C of C president Carroll McDonald presented the award to Rodgers the afternoon of Dec. 23, after the contest closed at noon. The contest was sponsored by the retail trade committee of the Chamber, with 27 merchants donating gifts for the promotion.

Chamber manager Ted Weaver announced there were a total of 352 entries in the contest. Most of them were from Slaton, but they also came from residents of Wilson, Southland, Tahoka, Post, Lubbock, Arlington and Coleman.

Rodgers, who recently received a discharge from the Army, was "very thrilled" about receiving the gifts, as were members of the family. He expressed appreciation to the per-

sons who made possible the contest.

The participating merchants or firms included: Eblen Pharmacy, Bland's Furniture, Nutralite Products, Lasater-Hoffman Hardware, Self Furniture, United Supermarket, TG&Y, Anthony's, Pauline's Flowers, Kertan Studio, Kuss Electric; McWilliams Dry Goods, Forrest Lumber, The Slatonite, Piggy Wiggle, Slaton Lumber, O. Z. Ball & Co., Guest Drug, Wendel Radio & TV, Rona's, White's Auto, The Gift Gallery, Fondy's Western Wear, Teague Drug, Slaton Pharmacy, Webb's, Citizens State Bank.

## Tulia, Slaton Settle for Tie On Decorations

The challenge issued by Tulia Chamber of Commerce manager Don Crocker and accepted by Slaton Chamber of Commerce manager Ted Weaver has resulted in a draw with plans being made for a contest next year.

## Schooling Contrast

More than half the men between the ages of 20 and 64 are high school graduates, and one out of every four has been to college for at least a year. These proportions are well over twice those of their fathers, according to the U. S. Bureau of the Census.

## Painting Masonry

Unpainted masonry absorbs water rather rapidly, so dampen the surface before you apply a latex paint. Be sure the latex paint selected is intended for use on masonry, since latex paints come in a variety of types for interior or exterior surfaces.

## Enriched Foods

When you see the word "enriched" on bread, flour, and cereal products, it means that iron, riboflavin, niacin, and thiamine are added. Highly refined cereal foods are "enriched" to restore levels of these four nutrients to the amount found in the whole grain, or in excess of whole grain levels.

Johnnie Moore united the couple in marriage in a setting of candlelight in the First Christian Church.

Miss Nedra Moseley played organ selections prior to the ceremony.

Given in marriage by her uncle, Byrl Faught of San Antonio, the bride wore a formal-length gown fashioned with pure silk peau de soie in diamond white and combined with Venice lace. The gown designed with princess lines featured a fitted empire bodice and a rounded neckline traced with a banding of lace. The long fitted sleeves tapered to form petal points over the hands and were edged with lace banding. Lace extended down each side front of the gown, ending at the hemline, defining the princess lines of the A-line skirt. The train fell from the back bodice to chapel-length. Venice banding completely framed the train.

The bride's bouquet was a cascade of white spider mums with white satin love knots. For the ceremony, she wore the engagement ring of her great-grandmother, Eda De L'Hotal, and a blue garter of her paternal grandmother, Mrs. Frank Eddings.

Serving as matron of honor was Mrs. Thomas Thompson of Dallas, and bridesmaids were Bobba Eddings, sister of the bride, Joy Jones and Cheryl Kuykendall, all of Slaton.

The attendants wore street length royal purple taffeta A-line dresses banded at the neckline with lace and matching pillbox hats with small white flowers accenting the waist-length veils. They carried long-stemmed white spider mums.

Eddie Nance of Slaton served the groom as best man, and groomsmen were Keighn Stone of Lubbock, Stephen Eddings, brother of the bride, and Steve Ethridge, Ronnie Swint of Slaton acted as usher.

The groom wore the dress blue uniform of the Marine Corps, and the colors of the corps, red and gold, were honored with the bride's colors in the reception hall.

A reception was held following the ceremony in Fellowship Hall, Treva Montgomery and Ruth Ellis presided at the serving table with Donna Lankford registering guests.

For traveling, the bride wore a purple dacron knit dress with elbow length sleeves trimmed in white fur. She wore a corsage of white mums from her bridal bouquet.

The couple is at home at 114 So. Edgewille, Dallas.

Mr. and Mrs. Amos Earl Clack, former Slaton residents and now of Sadler, Tex., will be honored on their 50th wedding anniversary with a reception in Sadler at the Junction from 2 to 6 p.m. Sunday, Jan. 12.

ITEM: Cranberry stains on the rug call for quick first aid. Take up the excess with a spatula and sponge the spot with a clean white cloth dampened with lukewarm water. If stain is not removed, consult a professional rug cleaner.

ITEM: Poinsettias grow healthier foliage and flowers in red clay pots. They cannot be easily over-watered in porous clay containers which give poinsettias proper drainage, and aid lasting qualities of the traditional holiday gift plant.

ITEM: When painting a wall, start where the wall and ceiling meet. Decorating experts advise that paint should be applied in the direction of the wall's shortest dimension; on a long wall, paint up and down; paint across on a short wall.

Scalloped potatoes can be a main dish. Just add sliced frankfurters, bologna or ham.

## IT'S AN IDEA HOME DECORATIONS

Luxury appearance at low cost is the theme behind this new Vinyl Shield tortoise shell wall paneling. A clear vinyl film protects the tortoise shell pattern on treated 1/8-inch hardboard. It is designed for high-use areas such as tub enclosures, wet bars, sinks and for removable color accent panels popular in cabinets. Color tones are bronze, carmine, silver and avocado, in choice of 48, 54 and 60-inch widths and up to 10-ft lengths.

## FAMILY POT LUCK

Appetizers are in season. For an anchovy teaser, prepare packaged pie crust mix according to directions. Roll out thin and spread with soft butter. Cut into 2-inch squares and place an anchovy fillet on each side. Roll up so they look like little cigarettes. Bake in a hot oven until crisp and browned, about 8 minutes. Serve hot or cold.

Push squares of bacon, cubes of chicken or calves liver, little mushrooms, etc., on small short skewers. Broil quickly and serve hot. A table skillet or broiler is just right for serving.

Make a frozen salad of cranberries and frozen orange juice. Take a 6-ounce can of frozen orange concentrate, a can of cranberry sauce, 1/2 pint of heavy cream, whipped, 1/4 cup of sugar and a pinch of salt. Put them all together and freeze in paper dessert cups or a decorative mold.

## Super Spiced Pears

(Serves 6-8)  
5 fresh pears  
1 6-ounce can frozen lemonade concentrate  
3/4 cup brown sugar, packed  
1 tablespoon prepared mustard  
Dash of ground cloves  
Pare, halve and core pears; cut lengthwise into slices 1/2-inch thick. In a heavy saucepan combine lemonade concentrate, brown sugar, mustard and cloves; boil slowly for a medium-thick syrup. Reduce heat, cover and cook pears until they are fork-tender. Serve warm or chilled with ham, veal or pork. Sauce may be used to glaze ham or pork.

Made any good New Year resolutions yet? Here are a few: spending wisely; buying only what is needed; buying only from the merchant who guarantees satisfaction and service. You can probably think of a lot more. All you need do is reflect back upon some of the bad "buys" you made during the past year. There's a resolution to take care of the situation, and to prevent a repeat performance. If you don't care to make resolutions, may we suggest you just give some thought to what we consider a pretty good idea, New Year or any other time? It's simple. Just make a habit to buy and trade within the local business community. Discuss your needs and your wants with the reputable local businessman. You'll be glad you did.

Messages to you from our little community of Southland Christmas Day has come, and now we are eagerly awaiting the New Year. Yes, Christmas Day is past, but we still carry the true meaning of Christmas in our minds every day of our lives. This day of hustle and bustle finally arrives, we feel it all and are glad it is past. And I think we feel this way, because so much importance is placed on this day, we forget the wonderful meaning and real meanings of Christmas. Why we, for one year, forget gifts, trees, tinsel etc. really celebrate the birth of the Christ Child in the that it should be celebrated? Yes, that is a question, but who has the answer?

Dunn from Blythville, and Jackie Dunn from Slaton, spent the Christmas with their parents, Mr. and Mrs. Herbert Dunn and Mrs. Cecil Stolle. Part of the Christmas was spent with relatives in Sweetwater.

Mr. and Mrs. Robert Long, and Cathy, spent part of Christmas holidays with friends and relatives in Abama.

## TAX MAN SAM SEZ:

Northern Texas taxpayers who do not have a city sales tax in their home town may use the state sales tax table included in the mailed instruction booklet as a guide in preparing their itemized 1968 Federal income tax returns, according to Ellis Campbell, Jr., District Director of Internal Revenue. He pointed out that special tables have been prepared for the four sets of cities that began paying a city sales tax on January 1, April 1, July 1, and October 1. These are posted in local Post Offices and are available at IRS offices.

The tables are based on consumer spending patterns and show the average amount of state sales tax (and city sales tax where applicable) paid by Texas residents.

State sales tax on automobiles purchased is not included in the tables. Taxpayers who purchased an automobile may add deductible sales taxes paid on the purchase to the amount shown in the table.

Taxpayers are not required to use the tables. Mr. Campbell pointed out. The tables are furnished as a guide for the convenience of taxpayers who want to deduct a "standard" amount for sales taxes without substantiation.

Taxpayers who prefer to deduct the actual amount of sales taxes paid during the year must have records as proof of payment.

Cardenas, Douglas Smallwood and Darrell Wilke.

Guess What? School started here Monday. How about that? Speaking of District Ballgames -- well, our district basketball games will be starting again on Jan. 6 when the Jr. High teams will be traveling to Ropesville to play a game at 5:30 and then on January 7, the High School teams will be playing the Union teams here in our gym at 7:00. Ya'll come!

Mr. and Mrs. Ramon Garza and children have bought the house owned by the school where Mr. and Mrs. Elmer Bek did live. Welcome to our town.

I received a Christmas Card from Mrs. Z. K. McKee who now lives in Hollister, Calif. She says to tell everyone hello. Also received one from Mrs. Dollie Donahoe who now lives in Lincoln, Neb. She is feeling much better after having undergone surgery several months ago and she said to tell everyone hello.

Mrs. Bertha O'Keefe has been here visiting her mother, Mrs. Lieske, during the Christmas holidays.

Mr. and Mrs. Loyd Hagens spent Friday, Saturday and Sunday in Lubbock at the Southern District Luther League Convention where they were adult sponsors. Visited with them for awhile on Saturday night, and they were having a "ball".

We extend our deepest sympathies to Mr. and Mrs. Loyd Hagens whose grandfather passed away recently in Oklahoma.

Carlos "Son" Kellum from Houston was here during the holidays visiting with his parents Mr. and Mrs. W. J. Kellum and other relatives and friends. Edmund and Yours Truly and Mr. and Mrs. Leroy Zieschang visited in the home of Mr. and

COFFEE HOUSE MUSIC--Youth of the First Christian Church of Slaton opened a "coffee house" Sunday night with more than 125 attending. Featured attraction at "The Orange Eye" Sunday night was Tommy Farris of Floydada, shown above. (SLATONITE PHOTO)

# 'Orange Eye' Holds Crowded Opening

With a handful of kids and the idea of a coffee house, alive to people, it's happening, happening all over... from Maine to California. A few tables, a few chairs, a lantern, a lamp, and a candle or two, in a barn, a basement, a store downtown. With a flash of light on a three-legged stool -- a strumming guitar and a singer or two, and suddenly, you're where the action is!

It's a place to be on Sunday night. A place to sit around, have a Coke, a cup of coffee, a pizza, scribble on the menu and meet the rest of town. A lot of noise, a little conversation -- and something happens.

An underground resort, where a kid can go -- and if he wants, belong and feel at home. Some have called a coffee house a fortress of freedom; a forum for dissent -- without fear of rejection.

Slaton's coffee house, The Orange Eye, had its debut Sunday night. Tommy Farris of Floydada was the featured entertainer. He is a guitarist and folk singer, a member of First Christian Church of Floydada and one of the eight district youth officers.

On the "hot seat" speaking on small-town mentality, was David Cross, a psychology major at Tech, a former Slaton resident. He spoke out very clearly on the "advantages" and "disadvantages" of living in a small town. Following his presentation, all the kids attending the coffee house were given the opportunity to agree or disagree with what had been said. The barrage lasted for about one and a half hours and was a real verbal free-for-all.

About 125 young people, mostly from Slaton and Lubbock attended this first session of The Orange Eye. The second session is anticipated for January 12, at 8:00 P.M. The entertainment and "hot seat" speaker will be announced in the very near future. The local coffee house is sponsored by the youth and youth sponsors of First Christian Church here.

DEAR EDITOR

To the Editor of the Slaton Slatonite,

Dear Sir: I wish to clarify my position taken at a meeting of the City Commission Dec. 9, 1968. At this meeting it was brought out that Mrs. Farmer was working as Dispatcher at the City Police Station, she being the wife of Chief of Police Glen Farmer.

I did not think it a good policy and I still do not think it is a good policy, for this situation to exist. The people in my precinct elected me, and I am representing them to the best of my ability in return for their confidence. It is my understanding that the City Commission has the power and control over personnel and the budget. We have the right to exercise that power and that is what I did in casting my vote to correct the situation mentioned in the Police Station. I had had several of my constituents mention the fact to me in a critical manner. My vote was cast for the best interest of the City as I saw it. The fact that another Commissioner differed with me does not detract from my power to vote on an issue and a policy as I see fit.

The point is, each Commissioner has the right to express his opinion and the Commission, as a whole, has a right to set policy, whether or not one Commissioner or a minority of the Commission disagree. I still affirm that I and Rudy Dominguez cast our vote as we saw best, and I would exercise that same privilege today, if necessary. As long as I am Commissioner, I am going to continue to vote for the best interest and welfare of the City, because that is the reason I was elected by the voters.

Yours truly, B. H. Bollinger, City Commissioner

An executive meeting of the American Legion is scheduled at 7:30 p.m. Friday at the hall. A spokesman for the group stated that all executive board members are urged to be present.

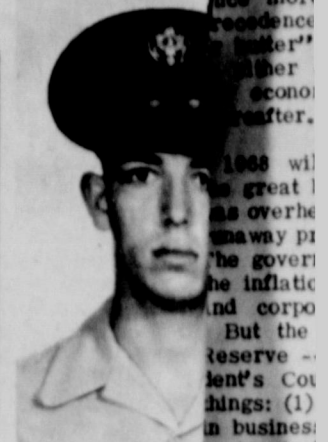

ITEM: Washing means rubbing or agitating clothes in soap or detergent suds. Laundering is a more comprehensive term. It refers to the entire sequence of operations needed to get soiled clothes clean and ready to use again. It includes at least the basic steps of sorting, pretreating, washing, rinsing, drying, and any ironing required.

Good Neighbors are indeed a treasure and we have found a "treasure" in our friends in the Slaton Fire Department. Despite sub-freezing temperatures and high winds, the S.F.D. came to our aid, along with units from Post and O'Donnell, when fire threatened the east part of our city on the morning of Dec. 22.

The men of the S.F.D. stayed on the job six hours before being released to return to Slaton. Had it not been for the help received from our "Good Neighbors", damages would have soared will in excess of the \$750,000 loss estimated in the fire.

We are sure the people of Slaton are proud of the fine work done by these volunteers, and we want them to know that the Tahoka Fire Department and the citizens of Tahoka are grateful and very appreciative of the aid rendered to us. We pray that such a disaster never threatens your city. . . . but if it does, rest assured that the Tahoka Fire Department will be there to help in any way possible.

Your neighbors, The Tahoka Fire Department Ed Redwine, Secretary and Citizens of Tahoka

**BABSON** (Continued from Page 1)

in direct contact with American and other NATO warships. . . more, it will be a case of urgent defense needs taking precedence over pressing social demands. The issue of "guns rather than butter" will persist throughout 1969. Too much attention on either or both could well lead to a price-wage spiral in the economy. . . with all the threat of a deflationary plunge in 1969.

**INFLATION STILL INCUBATING** - 1968 will go down in economic histories as "the year of the great boo-boo." Early it was recognized that the economy was overheating. . . that a cooling off was necessary to prevent runaway price boosts and the inevitable aftermath of recession. The government opted for a fiscal "wet blanket" to smother the inflationary fires. . . and belatedly the surtax on personal and corporate incomes was enacted, effective mid-1968. But the boom rolled on. . . confounding both the Federal Reserve -- the country's money managers -- and the President's Council of Economic Advisers. What happened? Two things: (1) The Fed thought the surtax would cause "overkill" in business, so opened the money spigots wider. . . stimulating buying just when the tax was supposed to depress it; (2) Mr. Nixon, J. Q. Public sharply cut their rate of savings and went on a buying binge. . . augmenting their fling with big gobts of borrowed money.

**MORE TO COME** - So, here we are: Months after the "tax to kill inflation," prices of goods and services are still spiraling upward. This, of course, goads the workingman to support his labor boss when he demands outside luges in pay and benefits. Even though the Fed now gives signs of having moved to lessen the money rise from gusher rate to a more gentle flow, the floods of prior months will continue to seep through business and financial channels. . . at least during the early part of 1969.

Our staff here at Babson's Reports looks for "more of the same" during the first half of the year: Higher price tags, for further wage raises in excess of productivity gains, continued maintenance pressure on costs all around, and the inexorable fattening of the tax burden -- not alone from the perennial upswing of state and local levies, but also from the substantial step-up in social security charges. Indeed inflation is still incubating. The virus is virulent. The antidote is known, but the political medics that will administer it have not yet found one.

**NUMBER ONE PROBLEM** - Mr. Nixon knows that inflation is the one force that can destroy this nation -- financially, morally, even militarily. He also knows that to move aggressively against it could plunge the U. S. into a depression. The latter state might be worse than the former, it seems likely, when he will move slowly against the incubus of perpetually climbing costs and prices. Fortunately, the incoming President has the advantage of the anti-inflationary moves made in the late days of President Johnson's tenure. We expect that he will move cautiously to augment these. As a result, we look for no spectacular attack on the country's number one enemy in the opening days of Nixon's Office. That means there will be further portents of inflation early

next year. . . later in 1969 you can look for many signs of a topping off, even maybe some deflationary signals.

**STRONG START FOR DOLLAR**

Unlike a year earlier -- when the dollar was under world suspicion and attack -- the "good ole buck" will start 1969 with a halo over it. The big bad wolf -- President de Gaulle of France -- who led an all-out offensive against the dollar in 1967 and early 1968 is now pretty "dead" insofar as any lethal threat to it in 1969 is concerned. His own franc had to have a good many blowout patches applied at the end of 1968 to keep it rolling.

It is not that the dollar has gained any real fundamental strength in recent months; rather it is that the pound and the franc got so weak that, by contrast, the dollar gained stature. Excellent co-operation with the U. S. by Germany has caused the deficit in our international payments to all but disappear. Then, too, our nation did move toward fiscal restraint when it enacted the surtax. Finally, with the pound sick and the franc tottering, the other stable currency areas such as the German, Swiss, and Dutch just did not have sufficient size and room to accommodate all those financial refugees who might have been seeking shelter.

**COULD BE ONLY TEMPORARY** - But it is too early yet to crow. Our dollar may still fall victim to a recurrence of the persistent weakness in our international payments position that has marked our relationship with the rest of the Free World for 90% of the last two decades. Actually, the final-half 1968 strength in our balance of payments has not been the result of an improvement in our trade or payments position. Its good health then was more apparent than real. . . resulting from financial transactions, capital movements toward our shores -- some of them flights from the currency ills of Europe, some from speculation in our stock markets, some "deals" between our Treasury and Germany to keep the mark from getting too strong and the dollar too weak.

Barring cataclysmic developments on the military front, the dollar should occasion us no great concern in 1969. However, the Babson prediction still stands. . . that the dollar may be living on probation, even on borrowed time, if the new Administration lets prices and costs run wild. . . or even if it cracks down too hard on inflation, touching off a recession. The things it must do: (1) Keep the federal budget close to balance; (2) persuade the money managers to maintain a moderate, not too stimulating increase in the money stock; (3) crack down on speculative excesses; (4) curb the underlying causes of our deficits in international payments. . . namely, faltering exports, soaring imports, non-competitive (with nations abroad) prices and costs (which are the faults of both business and management leaders).

The dollar is now in the "eye" of a tremendous national and international inflationary hurricane. Its respite will be but temporary. To bring it through the "other side" in late 1969 or 1970 will be a Herculean task for the new Administration. Indeed, Mr. Nixon and his advisers will have to do a veritable "tightrope act" above the Scylla of inflation on the one side and the Charybdis of disinflation on the other. 1969 will witness the first scenes of the act.

**BUSINESS TO SCALE NEW PEAKS IN 1969** - The momentum built by rising business volumes and production will surely carry the usual measurements of Gross National Product and the Federal Reserve Index of Production onto new all-time high ground in the year 1969. But that is not the whole story. What you want to know is what the rate of gain will be and what the shape of the year, businesswise, will look like.

**GROSS NATIONAL PRODUCT** - Total dollar value of all goods and services finished 1968 on a strong note. . . at nearly a \$20-billion gain. That is only slightly less than the best of 1968 quarter of \$22 billion. Prospects now favor a good further boost in the first 1969 quarter. . . perhaps equivalent to the \$18-billion advance of the third 1968 stretch. The second quarter of next year may slip a bit from the first, but the upcoming half year will show a climb in dollar values perhaps only \$3-\$4-billion below the great bulge of a year earlier. Assuming no dropping of the surtax, we look for a lesser rate of gain in the final 1969 half. . . another big year, but tapering as it wears along. Over all, expect a GNP up-trust over 1968 of close to 7% (about \$60 billion).

**PHYSICAL VOLUME** - Physical output is not expected to match the dollar value of increase in 1969. . . not surprising, as more than half of the looked-for improvement will result

from higher prices. Assuming the Federal Reserve Index of Production averages around 165 for 1968, we can project about a 4-point climb in the year ahead. But again, we think the best will be seen early in 1969.

**CAPITAL OUTLAYS** - Despite a continuing depressed rate of plant utilization, business managers are projecting increased budgets for new plant and equipment. Look for a strong start -- perhaps as high as an 8% increase -- to be followed by a slower rate of gain as the year ages. For all of 1969, a 4% betterment would seem about the best to expect.

**PROFITS** - Total corporate profits in the first half of 1969 will outdistance those of the year-earlier period. . . they may even equal the strong final six months of 1968. Here again, however, squeezed by inflationary costs and somewhat less boisterous demand, we look for a downdrift in profitability before 1969 has advanced too far.

**MONEY TO STAY COSTLY** - The first half of 1969 may experience some moderate easing in short-term interest rates. This will be occasioned by lessened federal demand for loans. . . as the budget moves from deficit to surplus and the Treasury has no need to borrow. Most of the easing, however, will show up in the Treasury 90-day bill rate. Long-term money may experience some temporary downjingle. . . but over all Babson's Reports is not expecting any sustained slide-off from the most costly credit of the century. Also, as Uncle Sam comes back into the bond market later in the year, rates should again stiffen.

**MORTGAGE COSTS** - No real relief is in sight here. Availability and rate may be somewhat more favorable in the first half of 1969 than in the last. No incentive to postpone building or buying plans.

**BUSINESS LOANS** - If the Treasury bill rate declines in the first half -- as we expect -- there will be much talk of lower costs for business loans. Here again, we feel that any easing will be tiny and temporary.

**ANOTHER HIGH IN COMMON STOCKS** - The buy-stocks-to-protect-against-inflation "bug" has bitten deeply. Most investors are convinced that a stock-buying formula is the best antidote for soaring living costs. New common-stock-oriented institutions are being formed "a mile a minute." Foreign investors are flocking back to U.S. securities markets. And corporate sales and earnings trends are supporting the convictions of the multiplying herds of bulls.

On pure momentum alone, we anticipate new all-time highs in the Dow Industrials, as well as in the more comprehensive averages, during the forepart of 1969. If such does occur, however, we shall have our "fingers crossed" about the course of stocks during the time after midyear. . . especially if market "fireworks" become particularly brilliant in the early 1969 days. Under these circumstances, cautious selecting may pay bigger dividends in 1969 than "playing the field."

**FARM EQUIPMENTS** - One group that has hardly gotten off the ground in 1968 has been the agricultural machinery makers. Some good long-range values exist here in issues such as Deere and International Harvester.

**CONGLOMERATES** - The big multiple-activity companies have certainly failed to shine in the year now closing. Some issues may hold low risk for investors with patience. Among such as Textron, Gulf & Western Industries, and TRW Inc. **CHEMICALS** - This once-favorite of securities fans has again passed a year in the market doldrums. Some indications of a turn-in-the-making are beginning to appear. We feel there is not too much risk in outline concerns like Allied Chemical and Union Carbide at recent levels.

**CONTAINERS** - Another group that does not seem to have exhausted its investment potential is the containers. . . though they are not as cheap as they were a year ago. Our choice in this field would be Continental Can.

**FERTILIZERS** - After a long and painful stretch of being "put through the wringer," there are now some signs that moderately more profitable days may lie ahead for the plant-food makers. International Minerals & Chemical -- with vast potential raw materials resources on more than one continent -- appears to hold little risk at current levels for long-term purchasers with patience.

**LIFE INSURANCE** - Hailed five years ago as "the greatest" for appreciation, life company stocks overshoot their dynamic possibilities and were disdained by speculators for several years. In 1968, however, life stocks -- with management becoming much more aggressive in diversifying -- again began to stir. The persevering speculator might find opportunity in Life Insurance of Kentucky.

**ELECTRIC UTILITIES** - Electric power stocks, one of the soundest growth areas, are showing signs of emerging from the investment pall that has enshrouded them for some time. They offer both income and growth. Try Texas Utilities for the latter and Niagara Mohawk for the former.

**BONDS STILL ON BARGAIN COUNTER** - With stocks all the rage, bond buyers among individuals have become "scarcer than hens' teeth." Yet bonds are selling at the lowest prices and the highest income yields of this century. . . yes, in many cases, for a full 100 years. We state emphatically: If the inflation prospects are as sure-fire, as pervasive, and as unpreventable as many would have us believe, we doubt that the ownership of common stocks will provide a truly safe passage through the inevitable maelstrom that will follow in inflation's wake. If the storm comes, high-quality bonds may ride it out better than stocks. If it does not come, 6 1/2%, 7%, and even higher incomes from senior securities will furnish food and shelter to those dependent upon savings. . . and afford something left over with which to "feed" inflation.

**FOR BIG INCOME** - If current high return is your major need -- retired or supplemental -- top-quality corporate issues of recent flotation are your best bet. Returns here run from 6 1/2% to 7% for the "cream."

**INCOME PLUS PROFIT** - Those who can take somewhat less currently, but with equal certainty of income, should pick up best-grade deep discount bonds. Middle-term maturities -- say 8 to 12 years -- give you fairly high current return. . . and a capital gain if held to pay-off time.

**FOR THE AFFLUENT** - Never have tax-exempt bonds been so attractive. Follow the general rules laid down above. Buy the new, long-term exempts of best quality. . . if the best in income right now is your need, if saving for the future, however, there are plenty of near-and middle-term maturities available in nontaxables that will save on your annual tax bill and give you a capital gain at maturity.

**CONVERTIBLES?** - At a time such as now, after stocks have had a long and sizable run-up, we at Babson's Reports, Inc. are not attracted to convertible bonds. . . feeling that, in most cases, the cost of the call on the common has become inflated. Convertibles are most attractive after a stock market shake-out. . . when uncertainty exists and when you are not paying too much above the investment worth of the bond for a call on the common.

**RISKS TO RISE AS YEAR LENGTHENS** - The nation is now in the days of hope. . . the honeymoon of the electorate with the new Administration. But the "changing of the guard" at the White House is not likely to be accomplished without causing uncertainties. With business and the stock market bowing along toward new highs, the risks of change lean toward increasing exposure as the euphoria of early post-election comes to full bloom.

As we peer into 1969, the staff of Babson's Reports, Inc. foresees new advances on both the economic and the financial fronts. But we also are convinced that as the year lengthens, risks for businessmen and investors will likewise increase. Temper your optimism with caution.

# Conservation Big Industry in County

One of the biggest "industries" in Lubbock County is soil and water conservation. Bill Reece, soil conservationist at Lubbock, estimates that at least one-half million dollars per year is pumped into the local economy as a result of earthmoving, improving irrigation systems, and similar projects to protect and improve our land.

Much of these funds go to earth moving jobs such as parallel terracing or land leveling. Other jobs include irrigation pipeline systems, grassed waterways, and permanent pasture.

The \$365,000 figure cited is the Federal cost share paid directly to producers. It does not include costs the producers themselves will pay to the contractors, which will amount to over \$485,000. In addition, the farmers will usually do extra work to "dress up" the job after the contractor leaves.

The Agricultural Stabilization and Conservation Service through the Agricultural Conservation Program (ACP) assisted about 1,158 Lubbock County farmers carry out soil building and soil conserving practices on their farms in 1968, or about \$125,000 in cost share payments. The Soil Conservation Service furnished technical help on many of the practices. Here again, the individual farmer or rancher spent as much or more than he received in cost share assistance.

Additional money will be circulated because the farmer who benches levels will probably buy a border plow, or the farmer who installs underground irrigation pipe will usually purchase some above-ground pipe to cut down labor costs and drain additional water.

Impressive as these figures are, they represent only a small part of the total benefit the community receives from conservation. It would be hard to estimate the value of such things as lengthening the life of our water supply or keeping our soil production.

Moreover, all these activities boost the income potential of agriculture lands. It also creates a more stable base for tax structures which affect schools, county government and municipalities.

Reece said that the Great Plains Conservation Program alone, which is administered by the Soil Conservation Service, has had quite an impact upon the economy of Lubbock County, but because of a lack of funds for the program in 1968, only 12 new contracts for a total of 3,088 acres were certified. This makes a total of 157 contracts for 57,003 acres signed to date. Cost-share funds totaling \$25,674 were obligated in the 12 new contracts bringing to date a total of about \$365,000 obligated in the Lubbock County Soil and Water Conservation District to assist farmers and ranchers in applying needed Soil and Water conservation measures.

### SUNDAY'S SERMON

#### TAKE TIME . . .

A New Year comes, offering 365 bright, as-yet uncluttered days; ample time in which to do things that need doing.

As yet, these days are for the most part uncommitted. Except there are hours that will be set aside for work and for necessary things.

So, what about the "other" hours? What will you do this year? For yourself? For your family? For others in need? And, for your God?

This year, take time and set it aside for a most necessary thing — the practice of your faith. Live by faith, not part-time, but every waking moment of the day.

In the story of the living Christ, see the pattern of dedication and service.

Take the time to seek out truth and goodness for your very own. Give the world a smile and a helping hand. Lend encouragement. Set an example.

Take the time to build a better foundation for daily living and each day will be more rewarding, more blessed.

**ITEM:** Stairs were not designed and made for storage. Basement stairs without a guardrail are dangerous. A guardrail is one of the best investments in safety you can make.

## Faith to Live By

"The just shall live by faith."  
— Habakkuk 2:4

With the beginning of a New Year, it is somewhat fashionable to build up a storehouse of dreams and plans.

We promise ourselves that we shall do better, that we shall try harder, that we shall correct our deficiencies, and we intend to win out in the face of unforeseen obstacles and handicaps.

It would be better to simply determine to live by faith. Faith offers to the Christian a mixture of courage and strength; a reason to persevere, and a right to hope for the better tomorrow.
