Once known as Armistice Day, the event commemorated the end of WWI on Nov. 11, 1918. Following World War II, sentiment grew for the day to be a tribute to veterans of all wars.

Closing for the national observance, which was changed by Congress in 1968 to the fourth Monday in October, will be the post office, Citizens State Bank, Slaton Savings and Loan. City offices and practically all retail businesses will be open.

Police Report Light For Week

One wreck and a couple of delayed theft reports were on file at the Slaton Police Dept. as officers engaged in a week of mostly routine work.

On Saturday at FM 400 and Industrial a collision involved a 1966 car driven by Gene L. Carpenter Jr., 1015 Terry, and a 1968 car driven by Danny Lee Pinkert of Slaton. Total damage to both cars in the mishap was estimated at

\$600. Two reports from Tuesday, Oct. 9, were on file. One was from South Plains Veterinary Clinic, U.S. 84, cash taken from a cash box while the office was closed during the noon hour. Entry was gained by prying open a back door.

The other was from Jerry Robison, 745 W. Powers, who said someone took a tape player and two tapes, total value \$80, from his car while it was parked at Triangle Mfg. Co.

Plans For New Police Dept. **Building Here Are Approved**

City commissioners last Thursday looked over preliminary plans for a new police building and jail here, and gave approval. The group agreed to call for bids on the project, with bids to be opened at 4 p.m. Thursday, Nov. 8.

A building recently purchased by the city at the corner of 8th and Lynn streets will be remodeled according to the specifications set forth by thearchitects Brasher, Goyette and Rapier, whose representative, Joe McKay, presented the plans to the commissioners in City Hall Thursday.

The preliminary sketch showed cell areas for four juvehiles, two female prisoners and 14 male prisoners, plus rooms for Dept. of Public Service personnel, corporation court judge, offices for Police Dept. administrators and a garage area.

Commissioners met again Tuesday morning in a called session to handle mostly routine items, including payment of monthly bills.

Total of the bills paid was \$9,968.26, which is about \$3,000 more than normal. Alex Webb, city secretary, explained that the increase in the total was due to expenses that occur at the beginning of the city's fiscal year and increased expenses in the water department.

A chemical bill was paid and repairs for water meters have increased. Webb said. There are 2,300 water meters in the city and each month 12 meters are replaced by new ones.

Renting of the farm land owned by the city was discussed and action was postponed until this year's crop is harvested. One bid for purchase of

a new car for the police department was presented and other bids will be

Then, on fourth down with a foot to go, Slaton had a mixup and lost took over, killing a good chance for Slaton to get back into the game. For the rest of the game,

Slaton's defense appeared confused by the quick hitters, counter plays and fakes of Post's backfield. And the offense could get nothing going. Midway of the third period. RUBY OSBORN, WOMEN'S EDITOR

Psychologists say that keeping in touch with one's past is most necessary and what better way can one do it than by keeping heirlooms within the family?

But just because it belonged to someone's grandparent doesn't make an heirloom a thing to be cherished -- unless it is attractively displayed.

Mr. and Mrs. J. S. Edwards Jr. have attractively decorated a bedroom which contains a roll top desk, which belonged to Edward's father. The desk has been refinished and has been put to use. Hanging on a wall near the desk is old clock with colorful figures on the front glass and the clock is wound by weights.

On another wall is a hanging containing many different types of old keys. A frame contains miniature tools mounted on velvet and encased in another frame are several pieces of jewelry won in days past.

An antique plant stand and a candle mold sit on opposite sides of the door.

Placed on shelves is a stereoscope and a set of pictures of the Life of Jesus to be viewed with it. Also on the shelf is a marble bucket, still containing marbles, which had belonged to Mrs. Edwards' father.

Mrs. Edwards has displayed a colorful antique dish in a frame atop the buffet and an ironstone pitcher sets on her china cabinet in her dining room.

I was particularly interested in Mrs. Edwards' antiques because I am planning to give some of the younger generation in my family some of the heirlooms that I have been taking care

One is a set of barber tools and the other is a flare gun from World War I. Both will be in shadow boxes.

The barber tools were used by my son's grandfather, who made his living at the barbering trade in the early 1900's. The set contains two sizes of clippers, two straight-edged razors, combs, a hone and a dusting brush with many bristles missing. My son already has the razor strop and he'll appreciate the complete set to hang on the wall of his apartment.

Framed with the flare gun will be a picture of my brother, who brought it back from WW I.

I would like to hear from some of you readers as to how you display heirlooms. My family can't understand why I would just as soon be passing on to them more of these heirlooms, and they tell me "keep them, Mom -we'll want them someday."

Have you entered the pie baking contest to be conducted Saturday in the hall way of City Hall? The contest is being sponsored in conjunction with the annual sidewalk sale and flea market.

Entries will be accepted in two categories, fruit and cream pies. Entries, accompanied by \$1, may be turned in to the Slatonite or KCAS Radio Station until 5 p.m.

TSTA Survey Shows School Finance Needs

AUSTIN -- Forty-four percent of the local school district officials responding to a recent survey indicated they had to increase local school taxes this year to balance their budgets.

Seventy-five percent of the respondents said they will have to raise local taxes in 1974-75 just to keep school programs at their present

The Texas State Teachers Association sent a questionnaire on school finance to city and county superintendents in all 1,145 districts in the state, and got answers from 725 of them.

Twenty-nine percent of the respondents said they had to curtail some of their instructional programs this year, and 55 percent foresee program cutbacks in 1974-75.

L. P. Sturgeon, TSTA executive secretary, said the survey results show that many Texas school systems are in bad financial trouble already, and the situation looks worse for next year if something is not done to get more state aid to the local

Kelly Choban of Cooper passed eight times for a total of 125 yards on five completions. Mustang Quarterback Gary Lehnart threw 11 times for 138 yards with six completions.

Gary Freeman of Denver City and Todd Hammond of Cooper proved to be the speedsters in the rushing department. Freeman carried 15 times for a total of 93 yards, including a l-yard touchdown run in the first quarter. Hammond carried 14 times for a total of 96 yards. The Mustangs rushed 173 yards in the game, including three touchdown runs. The Pirates gained a total of 121 yards rushing.

The Pirates' only score came midway in the third quarter on a pass by Choban. Steve Henderson of Cooper went deep and succeeded in avoiding his two protectors. Choban hit him with a bullet pass and Henderson dashed 32 yards for the score. After that, the Pirates were never able to start a rally or launch a successful drive.

Bulldogs come to Cooper for a possible repeat of last year. The Bulldogs were the only district team to defeat the Pirates last year; the final score of 18-7 knocked the stuffing out of a very proud Pirate team, and gives Cooper an incentive for revenge this

During the bi-district playoffs in 1972 Littlefield had just defeated powerful Floydada for the district title and was playing lightly regarded Roosevelt for the opportunity of advancement in the state playoffs. Despite their state rankings, Roosevelt stole the show that night, besting the Wildcats 27-7.

This year those roles were slightly reversed and the Wildcats were avenged. The Eagles had the fine unbeaten record and held state rankings until the overwhelmed them last Friday night at Roosevelt 27-0.

Quarterback Terry Bryson and halfback Pat Henderson did most of the damage. Each scored twice, with Henderson rushing for 167 yards on but 13 carries while Bryson got 111 steps on 24 totes.

Henderson forced the Eagles into a hole from the very beginning. The second time he touched the ball he went for 38 yards and a touchdown. The simple off-tackle slant by Henderson came with 8:01 left in the first period. Bill Turner booted the extra and Littlefield led 7-0.

Later in the period he displayed his blinding speed by streaking for 71 yards with 1:27 left in the first quarter. Turner again kicked the extra, giv-

ing Littlefield a 14-0 lead. The Wildcats struck again with but 2:05 left in the half. Bryson sneaked over from the one and Turner converted, giving Lit-

your needs increase.

tlefield a 21-0 margin. The TD was set up by 19 and 11 yard pass plays from Bryson to end Chris Poke. This ended all scoring for

the half. The Eagles held the Wildcats until late in the game when Bryson went in from eight yards out, upping the Wildcat lead to The score was preceded by an interception by Craig Ratliff.

Bryson proved a thorn in the Eagles' side all night long as he continually gained the first downs necessary to keep the ball away from Roosevelt's high octane offense. The Eagles played well offensively as they rushed for 224 yards and added 40 via the air. Due to the Wildcat lead the Eagles were forced to take chances and were unable to push the ball into the end zone.

The Eagle defense, on the other hand, did not play well. Littlefield rolled up 331 yards overland. They also added 39 by aerials. Bryson and Henderson repeatedly burst through the Eagle defense for eight, nine and ten yard gains. The loss dropped the Ea-

gles to a 4-1 mark. In 1972 the Eagles eliminated the Wildcats in state playoff competition. This year the Wildcats got their revenge in a game for pride and records. The two teams could meet again this year if both teams happen to get far enough in the playoffs. If that happens, the Eagles are not likely to forget this game.

We can be ourselves and bring out the spiritual side of our life and find that it fits in with our work and it is something that we enjoy doing," she said.

worked were anxious to express themselves in their painting. She sought to help them by distributing devotional thoughs at each of her

Mrs. Tunnell noticed that many of the different terms used in the painting demonstrations could be applied to one's life; so she laid aside her painting activities and took her pen in hand to write a "China Painters Devotion-

Her manuscript was enthusiastically received by her students and recently was printed in the International China Painting Teachers Organization News. It is as follows:

Plan our work -- We usually give considerable thought in planning our work, but more important, we need to plan our lives. Everything worthwhile needs to be carefully planned.

Realistic -- To have our painting as near like God's creation as possible, we need to be realistic in our lives and face the facts as they are. Visualize -- Picture a piece

from the beginning to the end. If we do this for our lives, we will experience a more full and meaningful

Directed Light -- In painting china, this is one of the most important terms. Without directed light, our work is flat and lifeless. By the same token, we need light in our lives from the right direction, otherwise they will be meaningless.

Muddy -- Allowing our colors to become mixed and ugly. If we muddy our lives with sin, then God's work through our lives is also marred and without mean-

Cluttered -- Too much makes bad design on china. Many times we allow so many unimportant activities to crowd into our lives that

we do not have the time for the most important things.

China Painting Terms Are Written For Devotions

Looking back at our work --Is it the best we can do? Is it pretty or should we break it? Is it a masterpiece? Is our life ugly and broken or is it one the Master will be proud to receive?

Mrs. Tunnell said she has worked hours to develop the ability God had given her and tries to intersperse the demonstrations thoughts of spiritual nature as she works.

She doesn't consider herself a speaker but says she feels no timidity at all when she gives a demonstration on painting.

"I instruct as I paint. The crowd never gets too big for me. I can feel the pull of the interest of the women as they gather around to watch me.' she said.

Her hobby has given Mrs. Tunnell and her husband an opportunity to travel to many places they probably would not have gone if it weren't for the fact that she is asked to give many demonstrations and she likes to attend the china painters conventions.

"China painting has been one of the greatest blessings in our lives." Mrs. Tunnell said of the hobby which has brought them friendships of persons in many areas of the United States

Whatever the means, the purpose is the same -- to escape the responsibilities of the real world and to find some kind of peace in a world that does not exist.

The result is the same: defeat instead of victory; evasion instead of confrontation; sorrow instead of happiness; and often death instead of life.

The scriptures also speak of running, but not always of running away. They do not condone running from reality but running to a greater reality, not running from responsibility but to greater responsibility, not running to a temporary escape but seeking strength in an eternal

CLEAN ENERGY

FOR TODAY ND TOMORROW

A Natural Energy Home uses natural gas for heating, cooling, water heating, cooking and clothes drying to save you money and help conserve our cleanest natural energy resource . . . natural gas.

That's because electricity in West Texas is generated by burning natural gas, and in the process of generating and transmitting electricity to your home, 2/3 of the gas energy is lost.

So, by using gas directly in the home for the jobs it can do, you're helping to conserve it and you're getting more energy for your money.

cotton exports is still one of the hotter issues in Washington and in the cotton industry. Mills continue to stump for a "system of export licensing," while producers remain firmly opposed to any form of government tampering with foreign sales.

The Texas Association of Cotton Producer Organizations (TACPO), following a meeting in Dallas Sept. 10, wrote to Secretary of Agriculture Earl Butz saying "Export controls on cotton are in no way justified or advisable." The TACPO letter in large part echoed a "position paper" previously submitted to the Secretary by Lubbock-based Plains Cotton Growers, Inc.

Both the Lubbock group and the statewide organizanended the secretary for his strong and articulate defiance of control advocates. TACPO said "Your public statements against export restrictions have been and continue to be a great and valuable service to this country.'

Mills, primarily through the American Textile Manufacturers Institute, maintain that the supply-price situation is unlikely to improve without government action and contend that "increasing prices will have an adverse effect on the cotton industry. textile manufacturers and the general public.

On the other side of the question producer groups such as PCG and TACPO warn that export controls would destroy producer confidence in market prices, halt the current strong upward trend in production and therefore perpetuate rather than alleviate the supply situation. "The institution of export restrictions would be an attempt to treat symptoms, not causes, and any relief for any segment of the industry that might result therefrom would be temporary at best and in the long run injurious to all," the TACPO letter stated.

Sen. Herman Talmadge, a Democrat from Georgia where both textile manufacturing and agriculture are important to the economy, and chairman of the Senate Agriculture Committee, on Sept. 10 also called on the Secretary of Agriculture to institute a cotton export licensing program and strengthen the Commodity Exchange Authority in order to stop"runaway" prices for raw cotton.

"Should the Senator pursue this course to the point of introducing legislation in the Senate," says Donald Johnson, Executive Vice President of PCG and Secretarytreasurer of TACPO, "the danger of government tampering with our foreign dotton markets would be greatly enhanced. So we are doing all we can and working with other producer groups across the belt to get Senator Jalmadge to reconsider his

Consumer Alert

by John L. Hill Attorney General

AUSTIN -- Last week's mail to the Attorney General's Office included a letter from a woman in one of our small Texas towns, who complained that her 81-yearold mother-in-law had been misled by an insurance company promotion which was designed to look like a Medicare mailout.

The printed material did state that the health insurance for which Social Security recipients can qualify (Medicare) does not cover all costs of all care and treatment procedures, and seemed to imply that the insurance company had a working agreement to pick up where Medicare leaves

The U. S. Department of Health, Education and Wel-

fare, which administers the Medicare program for the federal government does not have a working arrangement with any private insurance company. And both federal and state laws prohibit the deceptive trade practice of misrepresenting that there is any governmental endorsement of a private business venture.

The Consumer Protection Division of the Attorney General's Office took note of the complaint, then referred it to the State Board of Insurance for investigation or whatever action that agency might deem necessary.

The State Insurance Commissioner has the legal authority to call a hearing on any complaint of an insurance company activity if he detemines that it may be a violation of the board's regulations on advertising practices.

In a little more than a year, these hearings on deceptive advertising practices have resulted in some 40 ceaseand-desist orders having been issued by the commis-

Misleaders about Medicare have accounted for some of the hearings, since the state requires that insurance companies offering a form of coverage designed to supplement Medicare make it 'clear and conspicuous' that that is all their insurance does. They must disclaim any affiliation with the federal government and Social Security.

To prevent other possible frauds upon the consumers. the advertising of any insurance plan must state the 'negatives' in a given policy, as well as the benefits offered. For instance, if a policy precludes benefits for a preexisting illness for two years from the date of the issuance of the policy, the advertising should show

If the policy includes in-hospital benefits, such as '\$25 per day for each day in the hospital," but those daily benefits are not payable until after the first three days, the potential policy buyer should be put on notice.

Most insurance companies which operate in Texas do follow the state law and Board of Insurance guidelines meticulously.

But if any consumer does have a complaint about a deceptive insurance advertising practice, he or she should register that complaint with the State Board of Insurance or with the Attorney General's Consumer Protection Division office in Austin, Dallas, San Antonio. Lubbock, Houston or El Paso.

In addition to the administrative hearings procedure for halting any fraudulent practice, the individual consumer also has an avenue for legal action under the 1973 Deceptive Practices Consumer Protection Act.

A NUTRITIOUS SNACK Eating habits are chang-

ing. An increased percentage of the day's food is being eaten as "a snack," therefore, these foods should help provide the essential nutrients needed each day. Cereal with milk is one snack that not only tastes good but provides carbohydrates, protein, vitamins and minerals. Cereal with milk also makes an excellent bedtime snack.
