Tigers Meet Floydada Tonight on Local Field

The Slaton eleven will meet Floydada in another conference game Friday night at 8:00 o'clock on the local gridiron. The record of the two teams are very nearly equal. Floydada has won two, tied one and lost three. Slaton has won two and lost five for the season. Floydada won from Tahoka and Ralls. They tied Paducah and lost to Canyon and Olton.

Slaton Underdogs Again

The Slaton eleven enters the game as the underdogs. Floydada has seven seniors on their starting team. The boys are large and tall and are led by one of the best fullbacks—Stovall who weighs 175 lbs. Coach Watson is considered one of the best coaches in the district with many years of experience.

Lost Three Boys

The Slaton team goes on the field with three boys out for the season because of injuries. They are Reid, Thomas and Hopkins. Coach Ehrler said that they would start the game with the second team. Pat Adamek will take the place of Dickie Thomas as half-back. This week's practice has been two hour practice sessions on head-on tackles.

"We can give Floydada a mighty good game Friday night if the boys get the spirit and really play ball," said the coach.

YOU MAY GIVE YOUR MONEY AND STAY HOME AND READ

How often have you said: "I'd give \$5.00 to be able to stay home tonight?"

You can give that much or more—or even less—and stay home with a clear conscience on Halloween night.

You can give the money to the Elementary Schools Parent-Teacher Association, which for the second successive year voted to permit its members and town people to stay home instead of working at, or attending, the traditional school carnival on Halloween night.

For many years the Halloween carnival was the P-TA's only money making project. Proceeds from the carnival were used to buy things that were badly needed by the elementary schools. By last year, however, the P-TA Executive Committee had discovered that parents with time to give to promotion of the carnival were too few and

Ground-Breaking Ceremonies at Wilson Sunday

Ground-breaking services for an Educational Building were held Sunday morning, October 21, at St. John Lutheran Church, Wilson. The service, held on the building site, was conducted by the pastor, Malcolm E. Hoffman. Others participating in the service were: Herbert Ehlers, president of the congregation; B. L. Ernst, building committee chairman; Chris Gindorf, treasurer of the stewardship committee; Curtis Wilke, Sunday School Superintendent; Arlis Ehlers, Luther League president; A. E. Hagens, president of the Brotherhood; Mrs. C. L. Brieger, president of the Women's Missionary Society. Each of these persons expressed his joy over the beginning of the building program before turning over a shovel of earth.

The new 64' x 34' Educational Building, a concrete block structure, will include: four Sunday School class rooms, a fellowship hall, a kitchen, two rest rooms, and a pastor's study. The inside walls will be finished with a recently developed "speckled" paint (Zolotone). The building will be heated from a central heating unit, ducted throughout.

Construction, under contract by Porter Lumber Company of Slaton, should begin sometime this week.

Pickup Load Beer, Wine Carried Off

A pickup load of beer and wine left the local police station Tuesday morning. Police Chief Bill Daniels turned the load over to the state liquor control board in Lubbock. There were some 500 or 600 quarts in the truck.

The police station clerk reports that eighteen arrests were made over the week-end for drunkenness, disturbing the peace and various other offenses.

LOCAL TEACHERS ATTEND SERVICE EDUCATION CONFERENCE

Supt. Vardy Gives Report on Schools

Superintendent Lee Vardy gave a very interesting and thorough report on the Slaton schools at the regular meeting of the Lions Club Tuesday noon.

"The buildings and facilities of the Slaton schools are worth a million dollars," said Mr. Vardy. The present enrollment of all the schools at this time is 1,570 students. Ten years ago the enrollment was 800 students. "We have enjoyed a steady growth over the years," he said.

Other facts concerning the schools given are: There are 64 on the faculty. The highest paid is \$4,434 per year and the lowest \$2,800 per year. Average salary is \$3,600 per year. The average age of the faculty member is 37 years. The annual payroll of the schools is \$305,000. The school district has a bonded indebtedness of \$630,000. This will all be paid off by 1979. The district is 98 square miles in size.

The average cost of operating the schools per year is \$345,000. This is a cost of \$219.30 per pupil. This is considerably below the average cost per student over the state.

Supt. Vardy stated that the teachers are constantly attending schools, area workshops and other meetings that help in improving their teaching ability. Future prospects are that the Slaton schools will grow to 1800 students in a few years, he concluded.

Visitors at the meeting were Elvin Smith, Lubbock; Frederick de Vries of Slaton and Hugh McCauley of Texline.

Mr. and Mrs. H. C. Heinrich had as their guests Saturday their son, J. C. Heinrich, Mrs. Heinrich, Kathleen, and Mike of Idalou. On Sunday another son, Marvin Heinrich, Mrs. Heinrich and Teresa Ann of Crosbyton visited with them.

A report from the gins in this area shows that the number of cotton bales has dropped. Only 2,824 bales were ginned this week in comparison to the 3,617 that were reported last week. The area total as reported at noon Wednesday is 14,547.

Information, Fire Truck, Lights Topics at City Commission Meeting

Mayor L. B. Wootton presided over the regular meeting of the City Commission Monday night at which various business was discussed.

Wayne Liles and T. A. Worley were appointed as a committee to work with the Chamber of Commerce and Jaycees to give complete information to the public concerning the changes in the city charter which will be presented for approval in a coming election. The election will be in January, the exact date not yet having been set. The committee of these three organizations is for the purpose of informing the public the pros and cons of the charter changes.

The question of the traffic lights on 9th street operating all night

was discussed. The commission authorized the securing of costs of equipment that would turn these stop lights off at midnight.

The Church of Christ representatives brought before the commission the information that their building was seven inches over on city property on the Southeast side. The city voted to issue a quit claim deed to the church for one foot of land on that side of their church.

Fire Chief Wilson and F. A. Reckenthaler of the Howe Fire Apparatus Company gave complete information to the commission on the cost of a new fire truck. The truck is equipped to pump 500 gallons per minute. The estimated cost would be \$9,500.00. This problem was held over for further study.

Mission to Be Held At Grace Lutheran Church Next Week

The annual Lutheran Evangelism Mission will be held in Grace Lutheran Church, Slaton, from Sunday, October 28th, through Thursday, November 1st. A series of six instructional and preaching services are scheduled: the first on Sunday morning at 10:45 and continuing every night through Thursday evening at 7:30. The preacher for these six services is the Rev. Erling H. Peterson, Pastor of Midland Lutheran Church, Midland. Pastor Peterson has chosen as his theme for the service sermons "A Life with God." The individual themes and texts are as follows: Sunday morning at 10:45, "Because I Hold You In My Heart," Philippians 1:7; Sunday evening at 7:30, "When We Want to Be Straight," Amos 7:8; Monday evening at 7:30, "The Hopeless and Impossible Road," Amos 6:12; Tuesday evening at 7:30, "The Higher Righteousness," Matthew 5:20-26; Wednesday evening at 7:30, "Choices in Life," Romans 6:23; and Thursday evening at 7:30, "What Will You Do With A God Like This?," Nahum 1:9.

Highly Recommended

The Rev. Mr. Peterson is recommended highly in the field of Evangelism. He received his theological education at Luther College, Decorah, Iowa; Luther Theological Seminary, St. Paul, Minnesota; two years at Middleskolten Lutheran, Oslo, Norway; and two years at Mt. Airy Lutheran Theological Seminary, Philadelphia, Pennsylvania. He has served the following parishes: Zion Lutheran Church, Fairview, Montana; Oak Cliff Lutheran Church, Dallas; and his present congregation, Midland Lutheran, Midland; and has directed similar Evangelism Missions in St. Martin Church, Austin, and St. Paul Church, Taylor.

Informal Services

The Mission services will be informal, including the singing of well-known and loved Christian hymns by the congregation, special music by soloists and the choir of Grace Church, a series of forty important questions concerning the Christian Faith and Life which those in attendance will direct at Pastor Peterson, sermon and prayers.

This Mission is held in conjunction with the Missions of three other area Lutheran Churches, as follows: Ascension Church, Lubbock; Shepherd King Church, Lubbock; and Grace Church, Snyder. Each morning Monday through Friday the four pastors and the four Missioners will gather at Shepherd King Church, Lubbock, for the "Mission to Pastors" Conference. Important matters of faith and life will be studied and reviewed. Neighboring pastors are also invited to take part in the conferences and studies.

Church Youth to Trick or Treat For CROP Sunday

The Slaton Ministerial Alliance urges the support of Slaton citizens for Trick-or-Treat for CROP night. This Sunday night, October 28, following the evening services of Slaton churches, the church youth will go trick-or-treating, but they will be asking for contributions for the Christian Rural Overseas Program, rather than ordinary "treats."

The Christian Rural Overseas Program is supported by the major Christian denominations of America. Through its work, millions of starving people are fed and clothed. Even the smallest contribution to CROP is a great help, because many U. S. surplus items are released free to CROP if that agency can raise the money to transport them to needy areas. Other commodities are sold to CROP at a nominal price.

Every youthful solicitor will have official identification which marks him as part of this inter-denominational program. Consisting of an arm-band or identification tag, this marker will show that the youth is participating in the official program, as will the milk carton in which he places contributions received. Citizens are urged to make sure that their contributions are given only to such official solicitors—Slaton's church youth—between 8:30 and 9:45 Sunday night.

Nationally Known Speaker To Appear at Men's Meeting

City to Observe Thanksgiving on November 22nd

Thanksgiving Day has a two-way split again this year, due to the fact that November has five Thursdays. The question of observing the fourth Thursday, or the last Thursday in November has caused some to select the first date and others the following week.

The Slaton Retail Merchants Association announce that the business firms of Slaton will observe November 22nd as Thanksgiving, according to Mrs. Vivian Jones, secretary. This was selected because this is the day that will be observed by the business firms of Lubbock.

The Slaton schools will observe the last Thursday in the month, November 28th, reports Superintendent Vardy. The schools have to observe this date as they are governed by the State Teachers' Association annual convention.

Mrs. Jones reports that Texas Tech will observe the 28th.

D. D. Monroe of Clayton, New Mexico, will be the speaker at the Methodist Men's meeting next Monday, October 29, at 7 p. m. in Fellowship Hall, according to the Rev. J. B. Sharp, pastor of the church.

Mr. Monroe is rated in the top bracket among American public speakers, having attained unusual recognition as a serio-comic author, speaker and entertainer and for

his insight into many phases of world and national affairs.

Although he is a business man, having risen from typist to owner-operator of the Clayton Abstract Company since 1919, he has devoted a large part of his time for the past several years to public service, as an officer and a member of almost every civic association in his community. He is a trustee of the American Humanities Foundation, is Associate Tax Commissioner of the State of New Mexico and is School Budget Commissioner for his county.

This is the regular quarterly meeting of the Methodist Men. All the men of the town are welcome to attend the meeting which will be a dinner affair says, Rev. Sharp.

Two Elections Scheduled

TEXAS VOTERS TO DECIDE NINE AMENDMENTS NEXT MONTH

In addition to marking their choices on elected officials for the next four years from constable to president, Lubbock and South Plains voters face the problem of making decisions on nine amendments to the Texas Constitution in the elections in November.

Eight of these amendments will be voted on in the general election on Nov. 5 but the ninth will have to be voted on a week later, Nov. 13, because of a simple book-keeping error by the Legislature.

The decision by the voters is whether to add these nine amendments to the already cumbersome state constitution which now totals approximately 43,000 words and is six times longer than the constitution of the United States.

From the adoption of the constitution in 1876 through the regular session of the 54th Legislature in 1955, about 2,164 resolutions proposing amendments were introduced in Legislatures.

Of this number, 214 (proposing 220 amendments) were approved by the required two-thirds vote for submission to the people. A total of 121 of these submitted amendments have been adopted by the people. 87 rejected, and three defaulted.

The amendments to be voted on Nov. 6 in the order which the voter will see them on the ballot are:

Amendments Described

No. 1 (HJR 31) amends Art. III by adding Sec. 51c, providing that the Legislature may compensate any person who has paid a fine or served a prison sentence for an offense for which subsequently innocence is proven.

No. 2 (HJR 23) amends Sec. 9 Art. III, relieving county commissioners of the necessity of securing taxpayer approval at a special election to change the tax rates levied for the four constitutional purposes but limiting the authority to not more than 80 cents on the dollar valuation.

No. 3 (HJR 15) amends Sec. 17 and 18 of Art. VII altering three present sections of the constitution so as to realign the sources of income from which institutions of higher learning finance building programs and to permit the permanent University fund to be invested in a broader range of securities than at present.

Would Affect Teachers

No. 4 (SJR 5) changes the restrictive provisions of the Teachers Retirement Fund so as to increase the allowable cost both as to the state and to participants, broaden benefits, revise eligibility requirements and expand investment conditions.

No. 5 (SJR 2) amends Sec. 49b of Art. III to augment by \$100 million the total the state can issue in bonds for the Veterans' Land Program and to change the membership of the Veterans Land Board, substituting two citizens for the Governor and Attorney General.

No. 6 (HJR 46) amends Sec. 1 of Art. XVI, changing the oath of office to be taken by appointive officers. (Makes no changes in oath for elected officials).

'Still Working' Says Hoffman of Canadian Dam

"The building of the Canadian River dam is still very much in the making. Some day it will be done," said Howard Hoffman, member of the Canadian River Authority board, in a speech before the Slaton Rotary Club Thursday noon.

Hoffman gave the history of the project. At the beginning there were eleven cities participating but Plainview, Pampa and Amarillo have withdrawn. The board has found many outlets for water these cities would have used but not enough at this time to assure the bond sales. A contract with the Phillips Petroleum Co. has not been agreed upon at this time.

The board is trying to work out an agreement with the federal government on building the dam, related the speaker. The total cost of the project is 74 million.

Visitors were Abe Kessel, Dallas, and the Rev. Ted E. Gaze, pastor of the First Baptist Church of Slaton.

President Clark Self Sr. announced that the club will not meet at noon next Thursday, but would have the annual ladies night and teachers banquet Thursday night.

Rotary Annual Teachers Banquet Thursday Night

The Slaton Rotary Club's annual banquet for teachers was to have been held on Thursday evening, Oct. 25 at the clubhouse. According to Clark Self, president of the local club, this will also be ladies night.

Some 150 were expected to attend.

J. W. Henry visited in Austin last week end with his son, J. W. III, and family.

WHY A CAMPAIGN?

It is worthwhile to pause, in the midst of an election campaign that is growing more heated, to ask a question: What is the campaign for?

There are a lot of answers to this question, but essentially they boil down to two basic attitudes. One of these holds that the main reason for a campaign is to inform the public as to the men and the issues involved. The other holds that the big thing is to manipulate public opinion, to sell candidates and programs as one would sell refrigerators or soap.

That kind of selling may be successful in some circumstances; it may get a lot of people to say yes. But getting people to say yes should not be the main objective. A campaign should inform the people, make them think, let them decide. Whether they say yes or no should be determined on that basis alone.

BANNERITIS

The East German Communists are unusual specimens of the breed in that they have now come up with a really good idea. They say that too many political slogans are plastered up in public places, and disfiguring the landscape. In other words, East Germany suffers from "banneritis."

Banneritis is an American disease, also. Long after election the names of candidates, some successful but the great majority defeated, clutter up poles and public buildings. This is because candidates don't bother to take them down, and nobody else forces them to do so.

If local statute books have no such law, one should be passed, compelling every candidate who posts his name in a public place to see that it is taken down after election. That's no more than fair to the public.

SAME OLD STORY

A Colombian Indian said to be 165 years old arrived in this country recently. Medical authorities will try to find out whether he is really that old.

Scarcely had the wire service stories gone out on the old man when the Russians came in with a claim to having a citizen older than the Indian. They mentioned the thousands of Soviet citizens who have lived to be more than 100 years of age.

This could have been expected. After all, the Russians say they invented telephones and trains, electricity, baseball and any number of other fine things. People have to live long lives to do all that. No wthe world is privileged to examine the Russian patent on longevity. Any day we may expect to see a picture of Comrade Methuselah—who is still living somewhere in Siberia.

It may be true that the people of Russia live longer. Or perhaps, living in a country where freedom is a stranger, a lifetime just seems longer.

FTC IS WATCHING

It is good news that the Federal Trade Commission plans spot checks on radio and television advertising and will add approximately 40 more men to its present 80-man field crew. One FTC member says the commission intends to crack down on "hucksters in the home" who misrepresent goods or services advertised on the air.

One of the worst abuses in radio and TV advertising is what the Better Business Bureau calls "bait and switch." The prospective customer is baited with an attractive offer; then, when the salesman has entree to his home, a switch is made and a much more expensive article is pushed forward. Often, the prospect never sees the bargain or, if he does, the salesman runs it down.

In all fairness to big TV networks it must be said that they seem to be relatively free of this kind of thing. The trouble apparently lies mostly with small, local stations. We are glad to have FTC watching for misrepresentation, but the best defense is an individual one. Watch for the fast pitch artist no matter where he is; then you won't be stung.

A judge recently fined a woman 20 dollars for being 20 minutes late. If the federal government could only get a dollar a minute for every minute women are late for things, we could have the national debt paid off by Thanksgiving.

Wayland Stephens Student Director Texas Tech Choir

The Texas Tech Choir is 59 voices strong this fall following final auditions and acceptances, according to Dr. Gene Hemmle, choir director.

STRENGTH FOR THE WEEK

by Clarence N. Wylie

Minister First Presbyterian Church Religion that is pure and undefiled before God.

Our Bible thought for this week is based upon this statement found in the first chapter of the book of James, verse 27.

"Religion that is pure and undefiled before God and the Father is this: to visit the orphans and widows, and keep oneself unstained from the world."

James might have written this statement in response to a question, "What is religion?" At any rate, James mentions two things which must be a vital part of any one's religion if it is to be pure before God.

The word religion is a very common word. It has come to have many meanings, to many different people. Oftentimes it simply means any kind of devotion to the supernatural.

It is significant that Jesus never used the word religion in any of his recorded sayings. He spoke of what we usually term religion as "life." He did not say that he came into the world to bring religion; but, "I came that they might have life, and have it abundantly." (John 10:10)

He also said, "God so loved the world that he gave his only Son that whoever believes in him should not perish but have eternal life." (John 3:16) So when James wrote about pure and undefiled religion, he was talking about a religion that showed itself in life, something that does something for the needy, and produces an "unstained" life.

According to James, the proof of pure religion has two phases. One is an active expression of love toward others, which does more than say, "I love you," but makes love an active, purposive thing.

The second phase of the proof of pure religion is purity in one's everyday life. Here, again, it takes more than words to prove one's pure religion. It calls for the expression of holiness in every dealing one may have with others.

Now while these things are the proofs of pure and undefiled religion, they are not the beginning

of pure religion, for James mentions the source or fountain from which all pure and undefiled religion springs. Here is what he said in verses 17 and 18. "Every good endowment and every perfect gift is from above, coming down from the Father of lights with whom there is no variation or shadow due to change." Of his own will he brought us forth by the word of truth that we should be a kind of first fruits of his creatures.

It is quite evident that James meant by that, that it is only when the work of God in our behalf has been received, by faith, that a person might possess this pure and undefiled religion.

So the religion that James was writing about was not simply a belief in a system of theology, but the practice of one's beliefs.

The religion that James wrote about was not simply the observance of ritualistic forms and ceremonies, or participation in the sacraments of the church, but a demonstration of the cleansing of one's life, as symbolized by baptism; or that one has actually taken the Spirit of Jesus Christ into his life, as is symbolized in the Lord's Supper.

Jesus likened this pure religion to a new birth. In fact he said it must be a new birth. It has its beginning at that time when we become willing to surrender our own wills to God's will; when we come to realize that Christ is the only and all-sufficient Savior, and with a deep-seated love for him, permit his Spirit to be the controlling force in our everyday living.

This is the kind of religion the world needs. This is the kind of religion we need, today.

Mr. and Mrs. F. E. Chapple Sr. of Christoval spent the week end here visiting their son, F. E. Jr., and Mrs. Chapple.

Mr. and Mrs. O. N. Alcorn visited in Plainview in the home of Mr. and Mrs. R. M. King Sunday.

TELEPHONE TALK

by J. C. Oakley, Manager

Telephone Manners

Have you ever thought how your voice speaks for your personality when you're talking on the telephone?

It's different from meeting someone face-to-face, when a smile and a warm handshake can get you off to a good start.

On the telephone, your voice is you. It speaks for you, tells the other party on the line a lot about your personality.

So, remember your telephone manners. Be courteous, pleasant, and distinct. Other people will appreciate it, and you'll feel better for doing it.

"Just Pick Up the Phone"

How often have you said to someone: "Don't worry about it. Just pick up the phone and call."

Yes, the telephone saves you time and steps each and every day, because for many of your errands all you have to do is "pick up the phone."

In fact, there's nothing else in your home, store, or office that can "take you around town" to shop, get information, or just chat—and do it in a matter of seconds.

So next time you pick up the telephone to make a call, think how convenient telephone service is for you and your family.

Ever hold a family reunion by telephone? You can do it with a long distance service known as the "conference call." If members of your family live in 3 or 4 separate cities, we can put you all on the same call at once. Everybody can talk with and hear everybody else. Can you think of a better way of getting the family together, other than a personal visit.

Call by number. It's twice as fast.

Never before in history has anything built by man traveled so far in so short a time —by land or sea!

An announcement of decisive importance to anyone about to buy a new automobile

The most exhaustive endurance test ever given an automobile has just been completed by two stock '57 Fords—identical in every respect with cars now being offered by Ford Dealers.

Under the supervision of the United States Auto Club and the Federation Internationale de Automobile, each of these two '57 Fords traveled 50,000 miles in less than 20 days. Ford No. 1 averaged 108.16 mph for the entire run... Ford No. 2, over 107 mph. These averages include time for all pit stops.

In all, the '57 Ford smashed 455 national and international records.

This test was run on the Bonneville Salt Flats in Utah... it was the longest left turn in history.

A car, like a man, is known by its deeds, not words.

That is why, we at Ford, despite our confidence in our '57 cars, let their deeds of accomplishment speak for themselves.

Therefore, we engaged an independent engineering organization to test our '57 cars more thoroughly than any other cars have ever been tested before—in this country or abroad.

We provided them with '57 Fords—cars identical with those now offered by Ford Dealers. The rest we left up to them.

Here is what they did:

They took these cars to the Salt Flats at Bonneville, Utah.

Here, twelve of the world's greatest drivers took over.

In relays they drove these cars night and day for a distance greater than twice around the world... a distance equal to 5 years of normal driving.

Not in all history has a man-built machine traveled so far in so short a time—by land or sea!

But this was not a test of speed—but of endurance of the "Inner Ford." A trial to take the measure of Thunderbird Y-block V-8 power without qualification of any kind. A test of running gear—of brakes, of materials in body and chassis. Of steering and roadability, yes, and comfort, too!

A test, indeed, such as no other cars have ever undergone, let alone successfully concluded.

Surely they have told you, in decisive terms, that they are worth more when you buy... and when you sell!

Your Ford Dealer will gladly place at your disposal the new kind of Ford that means a new kind of value for your car—buying dollar—the greatest the world has ever seen.

MRS. FOSTER PRESENTS GIFTS TO CHEERLEADERS

Have you students noticed the little megaphones, with a red "S" inscribed on them, that the cheerleaders have hanging around their necks? Those megaphones were given to the cheerleaders by the pep squad mother, Mrs. Leonard Foster. She has been the pep squad mother for four years. In those four years she has done her best in helping the pep squad, and she has also attended every football game played by the Tigers in those four years.

All groups met at the bottom of the hill and hunted for a buried treasure of bubble-gum. When they reached the top of the hill on the return trail, peanut-butter crackers, tomatoes, candy and kool-ade were served to 19 members and 4 leaders.

Leaders of this troop are Mrs. Clark Self, Mrs. Leon Walston, Mrs. Roy Saage and Mrs. Scott. Their sponsors are the Volunteer Fire Department.

Spur Bounces Slaton, 52-6

The high-spirited Spur Bulldogs romped and stomped over the Slaton Tigers, 52-6, last Friday night at Spur. The Dogs scored three touchdowns before the Bengals moved past their own 25-yard line, and then it was too late.

Spur took the opening kickoff back to the Tiger 20 before two Slaton gridsters overtook the runner. There the Slaton defense held for four downs but a fourth down off-side penalty gave Spur a first down on Slaton's 10-yard line. From there, hard-running fullback, Eddie Hagins, scored on a punch over right tackle. On the first play after the kickoff the helpless Tigers fumbled and the pigskin was recovered by Spur.

Hagins drove for six yards and then halfback Dwan Green turned the honors for Spur, scoring on a 14-yard dash over right guard. Quarterback James Gordon converted to post a 13-0 lead for the Bulldogs.

Another of Slaton's costly fumbles gave the Bulldogs the ball on the locals' 30-yard line. Halfback Max Gabriel added Spur's third touchdown with a 14-yard gallop after taking the ball on a reverse.

The Tigers began to move after taking the kickoff back to the 30. With passes from Doug Corley to Alex Franco accounting for the majority of the yardage, Slaton drove to Spur's 30. From that point fullback Phil Pearson scampered the remaining distance on a draw play.

The Bulldogs made the final touchdown of the first half on a 32-yard pass play from Ha'ins to end Ernest Wilson. Gordon again converted to post a 26-6 halftime score.

The second half was all Spur as they added four more touchdowns and two extra points. Second half scoring was as follows: Hagins on a five-yard plunge, Gabriel on runs of 40 yards and one yard, Gordon on a 23-yard scamper and one extra point, and Ronnie Cloude, one point.

Texans Win Battle To Change Color Of License Plates

The state highway department is bowing to public insistence that the color of Texas auto plates be switched from black and orange. Why?

The black and orange plates do not blend with today's auto color schemes! Next year for the first time since 1932 Texans will have black and white plates on their cars. Letters will be black, backgrounds white. They will also be dressed up with a "lone star" between the prefix letters and the numbers.

Some 4,500,000 pairs of plates and 392,000 single plates are being produced by the Texas Prison System. They go on sale Feb. 1.

Fred Waring to Be in Lubbock October 28

Fred Waring has come up with an entirely new entertainment formula in "MUSICADE," a delightful musical variety show featuring the Pennsylvanians—the glee club, orchestra and soloists—which will appear at the Lubbock Auditorium on October 28 at 2:30 p. m.

New Faces

In the present tour, new faces, new ideas and new song blend warmly with the older, more familiar singers and musicians and the well-known old-time songs. Poley McClintock, a member of the original group, is best known for his gravel-voiced comedy in novelty numbers, although he possesses a fine tenor voice. Tall, serious bass-baritone Frank Davis is a show-stopper; one reviewer identified him as having "the greatest Negro voice since William Warfield."

Bob Sands and Patti Beems are a soprano-tenor team whose very expressions indicate their delight in singing. Bob Kranendonk, son of baritone Leonard Kranendonk, is seen and heard in solo and in duet with his better-known parent. Often called the "Happy Wanderers," they are believed to be the only father-and-son singing team in show business.

Fred Waring's "MUSICADE" is indeed the entertainment event of the season. Prices for the Lubbock appearance are \$3.50, \$3.00, \$2.50, \$2.00 and \$1.25. Tickets may be purchased at the Auditorium Box Office, or by calling PO2-4616.

Elementary School Children See Health Show With Puppets

The Puppeteers, a dental health show, was presented in the elementary schools on Thursday and Friday, October 11 and 12.

Mr. and Mrs. James Sargent are widely known puppeteers from the Texas State Department of Health and were sponsored here by the Lubbock County Dental Society and City-County Health Unit.

The show was presented in an effort to educate children to take better care of their teeth. Four main points were stressed: (1) Eat right foods, (2) keep your teeth clean, (3) see your dentist three times a year, and (4) give your teeth chewing exercise.

The show was presented at West Ward, East Ward and Evans schools to a total of 950 students.

Charles Mote and Buddy Fornes of Abilene were dinner guests in the home of Mr. Mote's parents-in-law, Mr. and Mrs. Bill Layne, Sunday.

Mr. and Mrs. Nowlin Buenger and three children of Houston spent the week end here in the home of Mr. Buenger's uncle, Forrest Davis, and Mrs. Davis.

Pentecostal Church Revival This Week

"Everyone is invited to attend these services," said Rev. Jackson.

AUSTIN, Tex.—Gov. Allan Shivers again is heading the ranks of Texans for Ike. After killing a 1,000-pound bear in Alaska, the governor came home gunning for Adlai Stevenson.

Shivers is to make three out-of-state speeches for Eisenhower this week. He said he is ready to make more "any time, any place."

He criticized scheduled appearances in Texas of out-of-state U. S. senators who voted against the tidelands bill.

In reply Sen. Lyndon Johnson said that the Governor was "being discourteous and insulting" to visitors to Texas. "The tidelands shivers," he said, "is as dead as Allan Shivers."

SPECIAL ELECTION DANGLES—Campaigners for Price Daniel's U. S. Senate seat are in for more tortuous waiting.

Governor Shivers has said he will have no announcement on calling an election until after Nov. 6. A special senate election, he added, "has no place being mixed up with a presidential election."

COTTON REFERENDUM SET—Texas cotton farmers will vote Dec. 11 on whether to extend federal marketing quotas to the 1957 crop.

Two-thirds approval of farmers voting nationwide is required to put quotas into effect. Continuation of wheat quotas has already been voted.

USDA also announced that each Texas county's 1957 cotton acreage allotment will be within at least one percent of its 1956 level. This decision apparently was aimed at quelling a prolonged rivalry between East and West Texas counties for increased acreage.

Total Texas cotton acreage for 1957 is to be 7,410,893 acres, slightly higher than 1956.

ELECTION INVALIDATED—Local option elections held in an area less than a justice precinct are illegal, say the courts.

Texas Supreme Court has upheld a Civil Appeals Court decision to this effect. As a result, a section of Austin considered "dry" since 1935, is now legally "wet."

Local option elections, said the appellate court, can be held only county-wide, city-wide or in an entire justice precinct.

STATE GROWTH FORESEEN—Texas' need for state office space will be tripled by 1960.

So say planning consultants for the state building program. They estimate that Austin alone will have some 11,500 state employees 24 years hence. Statewide the total is set at 24,000 to 30,000.

Planners say the 200,933 square feet of floor space in the Capitol should be augmented to make a total of 1,720,000 square feet. To accomplish this, four new office buildings would be built. Capitol grounds would be extended north six blocks to 19th Street.

"Broad estimate" of the cost: \$87,000,000.

Another recommendation in the recently completed Capitol area master plan is to sell or abandon four older state-owned buildings dotted over Austin.

GAS TEST CASE SET—Whether the state should refund some \$4,000,000 in natural gas taxes will be considered by the Third Court of Civil Appeals on Feb. 6.

District court ruled for the gas company in the test case. An issue is whether some 30 companies who paid taxes, without protest, can get their money back.

Companies which paid under protest were repaid shortly after the law was declared unconstitutional. **ALCOHOLICS INCREASE**—A sharp rise in alcoholism among Texans during 1956 is indicated.

Twice as many patients have been admitted to alcoholic wards this year as last, reports the State Hospital Board.

Total number of alcoholics in the state is estimated at 155,100. This is almost twice the 1940 estimate of 83,304, represents about 3 per cent of total population.

FARM INCOME UP—Texas cash farm income for 1956 is running slightly higher than 1955, despite the drought.

But, according to the University of Texas Bureau of Business Research, the figures reflect desperation, not prosperity.

High income, it is explained, comes from sale of production materials such as breeding stock. Spe-

Mr. and Mrs. Kenneth Jones and children: Karen, Terry, and DeWanna Sue, were guests of Mr. Jones' mother, Mr. O. L. Jones, in Brownfield over last week end.

Guests in the W. T. Joines home last Saturday were Mr. and Mrs. J. W. Warrick; their daughter, Miss Linda Warrick; Mr. and Mrs. H. C. Allen and their son, Harold Allen, all of Lubbock. Mrs. Warrick is the sister of Mr. Joines. Linda and Harold are in school at Bethany, Okla.

Mr. and Mrs. John Barry of Plainview spent last Sunday in the home of Mr. and Mrs. G. W. Jones. Mrs. Jones is Mr. Barry's sister.

Mr. and Mrs. T. R. Joines and her sister, Gail Reynolds, of Lubbock returned Sunday from a visit in Dallas where they attended the State Fair and visited relatives.

FORD TRUCKS COST LESS

...less to own... less to run... last longer, too!

• Before you buy your next truck, look at both sides of Ford's story of value. You'll like what you see.

Look at costs. Ford's first cost is low. Resale value is high. Modern Short Stroke engines—V-8 or Six—are designed for less friction, less wear, lower running costs. Maintenance costs are lower, too, because Ford trucks are built stronger for rugged long life.

Look at what you got and you'll

see you get more for your money in a Ford. For example, only Ford gives you modern, gas-saving Short Stroke power in every truck, V-8 or Six. More comfort with a Driverized Cab. More safety with Ford's exclusive Lifeguard features.

Look carefully... consider everything. You'll agree Ford trucks cost less, give you more. If you want a great deal—a great deal more for your money—see your Ford Dealer.

December 31 Ends Application for Veterans Insurance

Veterans separated from active service since September 4, 1956, will NOT have 120 days in which to apply for 5-year term nonconvertible GI insurance; they will have ONLY until December 31, 1956.

Robert W. Sisson, manager of the Veterans Administration regional office at Lubbock, Texas, said the new application deadline was set by the recently enacted Servicemen's and Veterans' Survivor Benefit Act (Public Law 881, 84th Congress).

Before this law was enacted, Mr. Sisson said, eligible veterans had 120 days from separation in which to apply for the post service five-year term nonconvertible policy.

The new law ends issuance of this insurance effective January 1, 1957 and thereby established December 31, 1956 as the deadline for application, even though less than 120 days have elapsed since separation, Mr. Sisson said.

Two members of a north country church were talking about their minister's singing voice. One said, "They say his singing over the radio has helped sell thousands of radios."

"I can quite believe that," said the other. "After hearing him, I sold mine."

No. It's just a rope... at the breaking point. But, frankly, it's a good illustration of how a man feels when his nerves are "worn to a frazzle." The Church has never claimed that religion is a cure for frazzled nerves. But a man's Christian faith does this for him:

It shows him a Purpose in life more important than mere existence. It shows him a Power more effective than his own strength. It shows him a Future more rewarding than selfish gain. And it gives him courage more lasting than the sheer force of his human will.

With these spiritual resources, founded in the certainty that God understands and helps, a man never reaches "the breaking point." For when his human reserve is exhausted... he has only begun to tap the vast reservoir of Divine Strength.

THE CHURCH OF YOUR CHOICE CAN SHOW YOU THE WAY!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which sends his moral and material support. Plan to go to church regularly and read your Bible daily.

TITLE CHECK ESSENTIAL IN BUYING HOME

Thinking of buying a new home? How will you know whether you are receiving a good title to the property you purchase? The safest method is to have a title examination made—that is, a careful study of the abstract and other title evidence.

Here are a few of the common sources of trouble in real estate transactions to show why the minor expense of a title examination is justified.

Many persons sign "earnest money contracts" believing that they are more receipts with no serious implications. In reality they may signify, among other things, the start of a title dispute.

A "warranty deed" from a responsible seller is comforting to have but it is a poor substitute for a careful title examination. A warranty deed does not guarantee a marketable title.

Moreover, serious title defects may not come to light until long after the seller on a warranty deed is dead, has moved to an unknown address, or is bankrupt. Even if he is available a good title is much better than a law suit.

The fact that the seller has possession of an "abstract" does not mean that he owns the property. An abstract is only a history of a title. Possession of an abstract no more indicates ownership of land than possession of the history of Texas means that you own the state.

Some purchasers of land feel safe because the title is being examined at the time of purchase by an attorney for the mortgage lenders are sometimes willing to accept less than good record title as security. This is sound business for them because, among other reasons, the chances are that the mortgage will be paid off so that no expense in perfecting the title would ever need be incurred. It is risky business for you when you are putting your life savings into the purchase.

These are a few of the reasons why a title examination is an important safeguard to you. When it is completed, the attorney gives you a written opinion stating his conclusions as to who owns the land, the defects in or charges against such ownership, and the requirements to be met if any, to make good record title.

Off-hand this may seem a simple operation. In fact it is not. It requires the interpretation of numerous deeds, mortgages, wills, court decrees and other instruments; the consideration of the order in which transactions and events affecting the title occurred; and the application of statutes and court decisions to the various situations disclosed in the abstract.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

MEET YOUR TEACHERS

Reviewing books for their pupils is just one of the many duties of a classroom teacher. If reading of a favorite pastime, it helps. And to it is for Mrs. David Golden, second grade teacher at West Ward Elementary School.

Mrs. Golden is the former Dorothy Oats. Dorothy received her B. A. degree at Texas Tech and has four years of teaching experience. Last year she was employed as special teacher in the Wilson public schools. She has taught in Harlingen public schools.

The Goldenes have a farm at Southland, Dorothy's hometown. David, her husband, is from Brownfield. A great contributor to Dorothy's lack of leisure time is her three year old daughter, Kim. They attend the First Baptist Church in Southland.

Reading is also a leisure activity of Mrs. John Knight. She likes to cook, too.

Mrs. Knight, the former Erma Farley, teaches the first grade at West Ward. This is her first year to teach after receiving a B. S. degree at Southwestern State College in Durant, Okla. Odessa is the hometown of Erma and her husband, John.

The Knights attend St. Paul's Lutheran Church at Wilson. John is a senior student at Texas Tech. The most experienced teacher of the group is Mrs. Jack Nowlin with seven years experience. Mrs. Nowlin is a Slatonite. Her maiden name was Geraldine Wicker.

Jerry graduated from Slaton High School. After receiving her B. A. degree from Texas Tech, she began her teaching career in Wilson.

Jerry and her family moved back to Slaton three years ago from Taylor. She taught in the Slaton schools year before last, but only substituted last year. Now, once again she is carrying a full teaching load as second grade teacher at West Ward.

She is a member of the Daughters of the Pioneer Study Club and the Slaton Garden Club. The latter explains her hobby of flower arranging. Another hobby is re-furnishing furniture, especially anti-queing.

Her three children, Gregg, age 11; Vicki, age 7; and Wicker, age 6, are all in school this year. The Nowlins attend the First Methodist Church.

Slaton Women Give Their Favorite Tested Recipes

Mrs. John E. Taylor shares her favorite recipe for:

Pecan Slices

Sift before measuring:
1 cup bread flour
Combine it until blended to a smooth paste with:
1/2 cup butter
1/2 cup sugar
Spread this mixture in a 9 X 12 pan. Bake it in a moderate oven (350 degrees) for 12 minutes. Top this with the following mixture:

Combine:
2 beaten eggs
1 1/2 cups brown sugar
1/2 cup grated coconut*
1 cup chopped pecan meats
2 tbs. flour
1/2 tsp. baking flour
1/2 tsp. salt
1 tsp. vanilla

Bake the cake in a moderate oven (350 degrees) for 25 minutes. When it cools, spread it with 1 1/2 cups confectioner's sugar that has been thinned to a good consistency to spread with lemon juice.

Cut the cakes into oblong pieces. Makes about 48 one by two inch bars.

* If preferred, omit the coconut and add 1/2 cup more pecan meats.

Moczygomba-Piwonka Rites Read Tuesday Evening

Margie Ann Moczygomba, daughter of Mr. and Mrs. Leon Moczygomba of Wilson, was united in marriage to Joseph Leon Piwonka, son of Mr. and Mrs. Hugo Piwonka, in St. Joseph's Catholic church on Tuesday, October 23, at 8 a. m.

The bride carried an orchid with white carnations and stephanotis showered with satin streamers on a lace covered prayer book. She wore an original gown of white chantilly lace and tulle over satin.

The scalloped sweetheart neckline was outlined with bridal pearls and accented with rhinestones. The lace sleeves tapered to a point at the wrists. Tiers of lace and tulle ruffles down the back of the bouffant skirt formed a chapel train. There were appliques of lace on the side of the skirt.

Attendants

Frances Moczygomba, sister of the bride, was maid of honor. Bridesmaids were Irene Steffens of Loveland and Katherine Kahlich of Smyer, both cousins of the bride. Gloria Denzer, niece of the groom, was junior bridesmaid. Another niece of the groom, Phyllis Piwonka, was flower girl. Larry Dworczyk, cousin of the bride, was ring bearer.

The bride's attendants wore identical floor length dresses of turquoise Peau de Soie. Accent was on a swirl of tulle covered tucks around the shoulders sprinkled with rhinestones. They carried bouquets of pink mums. The flower girl carried a basket of pink blossoms.

Miss Moczygomba was given in marriage by her father.

Jimmy Wotipka of Brownfield, cousin of the groom, was best man. Ushers were Eugene Heinrich and Rodney Bednarz, both cousins of the groom. The bride's brother, Jerry, was junior groomsman.

Mrs. D. J. Hlavaty sang "On This Day" accompanied by Miss Gayle Huser at the organ. The choir sang other selections.

White mums, gladioli, and greenery decorated St. Joseph's Hall for the reception which was held at 4 p. m. The three tiered wedding cake was decorated in the bride's color, turquoise, with a miniature bride and groom on top.

For the wedding trip to New Mexico, Mrs. Piwonka chose a brown sheath dress with a Sabrina neckline. She wore black and gold accessories and a corsage of pink mums.

The couple will make their home in Slaton.

MEN TOO, LIKE WESTINGHOUSE HOME FREEZERS. That's what Hack Lasater of the Lasater-Hoffman Hardware (right) is telling Nowlin Swain of the Southwestern Public Service Co. about the new Westinghouse home freezer. Lasater holds frozen fish in one hand while he pulls out an ice tray. Note the ice cream on the shelves, but men don't know how to arrange food in order to take full advantage of the large storage space provided.

Home Freezer Important Modern Electric Appliance

"Meals unlimited right in the palm of your hand" is the slogan of the Westinghouse Home Freezer which can be bought at Lasater-Hoffman Hardware here in Slaton. One of the popular sizes is the 14 cubic foot upright freezer that has a 402 pound capacity and storage capacity of 108 cartons of food, a two-gallon ice cream keeper and a two dozen can fruit juice dispenser on the door.

There is a lifetime supply of oil in the hermetically-sealed mechanism. Even the bearings in the door hinges and rollers on the Roll-Out storage drawer do not require oil as they are made of nylon.

Freez File gives an easy-to-use menu planner as well as a convenient way to keep a day-by-day record of the foods you have in storage, where they are stored, the date they were placed in the freezer, the number of packages you stored and the number you have left.

There are handy shelf inner doors that make loading and arranging packages easy; the pastry rack is a guarantee against getting the pies and cakes crushed by the other packages in the freezer, and the slide-out shelf tray is especially

convenient for those small packages, sandwiches, odd shaped packages and small cans of fruit juice that so often get lost among the larger packages and fall to the bottom of the freezer.

Small Appliances
Most any small electrical appliance made by Westinghouse can be found at Lasater-Hoffman's, from the percolator, iron, toaster, cook-n-ryer, fan to electric ranges, laundromats, water heaters, dishwashers, air conditioners and televisions. Mr. Lasater the manager says "You can be SURE if it's Westinghouse."

It's 1956...start now to live better electrically. See your Reddy Kilowatt Electric Appliance Dealer

home around electric living. You can start with a built-in electric range which consists of the electric surface units and the electric oven, or, if you prefer, you can choose the popular "stand-up" electric range. Either way you'll find that electric cooking blends into the decorative scheme of the modern home. Electric appliances are modern to use; best of all they even LOOK modern. The electric water heater can be a part of the kitchen cabinet line giving you more table top work space and a silhouette which marks your kitchen as up-to-date. And, remember, an electric range and water heater require no vents or flues. They are perfectly safe, too. Yes, electric cooking and electric water heating fit into any plan whether you're building new or remodeling. You CAN live better electrically.
