Slaton Welfare Center To Open Next Week; Clothing, Blankets, Shelving Needed

A Welfare Center for Slaton will be established this week at City Hall by representatives of Slaton Churches, according to Mrs. T. W. Tye, chairman of the group.

In an effort to furnish a central place to take care of the needy persons in the area, Slaton churches have banded together, secured use of a room at City Hall, and will open the Welfare Center.

Donations of warm clothing, blankets, quilts, and canned goods or foods that are not perishable are being solicited, Mrs. Tye stated.

Clearing House
The Center will serve as a clearing house for welfare cases, endeavor to furnish food and clothing in those cases where necessary. At present there is no central place for churches of Slaton to care for the needy.

Serving on the committee at present are Mrs. Tye, chairman; Mrs. Hank Smith, Mrs. Phil Brewer, and Mrs. Tom Claiborne. These women represent the First Baptist, First Christian, First Methodist and Presbyterian Churches. Representatives from other churches will be named in the near future, Mrs. Tye said.

Present plans call for the cases to be referred to pastors of the local churches, who will

Slide Farm Laborer Charged With Murder in Stabbing Here Saturday

A Slide Negro farm laborer was charged with murder with malice Monday in connection with the fatal stabbing of another Negro, Buck Crawford. The incident occurred about 10 p. m. Saturday at the Williams Cafe on Mexico Street in Slaton.

John Hall was jailed in Slaton after he turned himself in to local police officers. The stabbing allegedly took place in a scuffle in which Crawford was trying to get to his knife to stab Hall. Crawford and Hall worked on the same farm near Slide, and came to Slaton together.

Hall signed a written statement admitting the stabbing, police officers said.

ANTIQUE BEDROOM SUITE TO BE ON DISPLAY HERE SUNDAY, 1-5 P. M.

An elaborately hand carved antique bedroom suite will be on display Sunday afternoon from 1 to 5 p. m. at Interstate Fixtures, 218 Texas Avenue, in Slaton, announces J. L. Benton, proprietor.

This antique suite consists of three pieces, bed, dresser and wash stand. They have been completely refinished by the Interstate Fixtures people. Only an estimate of the age is available, but those that are interested in antiques think that a hundred years is not enough.

These priceless pieces of furniture are the property of Mr. and Mrs. Clark Wood, who now own the old Colonel Roberson ranch near here. The suite was located by Mr. Benton in the barn of Howard Carlson at New Hope. He had brought them from Fredericksburg, Texas, when he moved to New Hope. The pieces would not fit in his home so they were put in the barn.

SEVEN FROM SLATON GET 4-H AWARDS

Seven Slaton youth were honored at the annual Achievement Banquet for the Lubbock County 4-H Club Saturday night. The banquet was held at the Plain Co-op Mill in Lubbock.

Joe Bob Jones, Slaton, received the Gold Star award for work in club activities the past year. In addition, he also received a seventh year award.

Stiles Belcher was recipient of an Achievement award, as well as an eighth year award. Ronald Mangum received an award in the boys' group.

First year pins went to Dan Winchester, Johnny Mangum, Bentley Page and Boyd Duckett. Ronald Mangum received a fourth year award.

Made in Kentucky
From an old piece of paper found on the furniture it was shown that the suite was made in Kentucky and shipped to someone by the name of McDonald in Pine, Georgia. No date was shown. Letters have been written to Kentucky in an effort to establish a date.

The dresser is seven feet tall and four and one-half feet wide. The mirror is of very thick glass. The carvings are hand made and very elaborate. The top is of brown marble. Three drawers extend below the marble on each side with solid brass hardware fixtures. The rollers are of hardwood.

The bed has a high solid headboard with the footboard about half as high. Again, elaborate hand carvings completely cover the head and footboards. The side pieces are about a foot in width and contain the same decorative designs.

The wash stand is the smallest of the three pieces. It has marble top and three large drawers with mirror in back. All three pieces match in design and hardware. Again, the rollers are made of hardwood as on the other two pieces.

Although this bedroom suite is priceless to the present owners, one antique collector has offered them \$2000.00 for it. They could be worth much more, according to Mr. Benton.

The Interstate Fixtures have reworked quite a large number of antique furniture since opening.

It's Time for Those Letters to Santa

It's Santa Claus Time! The Slatonite received its first "Letter to Santa Claus" this week, indicating that it's nearly time for the old gent to be making his rounds.

Letters to Santa will be published in the Slatonite again this year as space will permit. So, we're inviting the children in the Slaton area to write their Christmas wishes to Santa, and mail it to him in care of the Slatonite. We will see that the letters are forwarded to Santa at his workshop at the North Pole.

This year's first Santa letter was from Tyra Jan Martin of Southland. It follows:
Dear Santa Claus,
I would like for you to bring me a dolly with high heel shoes on, and a piano with a little stool to sit on.
Paul Ray wants anything. I have been nice. Brenda and David want something too. Also Nedra wants a dolly if she'll be nice.
I would like to come up to the North Pole and see you.
Love,
Tyra Jan Martin

The Rev. and Mrs. Claude Wingo will arrive in Slaton today to assume duties as pastor of First Christian Church. The Wingos come to Slaton from Santa Fe, New Mexico, where they have pastored the Christian Church there for the past three years.

A graduate of Texas Christian University, Rev. Wingo served for 33 months as Chaplain in the Air Force at Metropolitan Air Field, Los Angeles, California, and in the state of Washington.

He has previously held pastorates at Floydada, Laredo, Big Spring, and Van Nuys, California. The Wingos are parents of three daughters, all of whom are married.

The Wingos will be honored with a covered dish supper at the Fellowship Hall in First Christian Church, at 7 p. m. Saturday.

Rev. Wingo's first sermon will be preached Sunday morning.

Slaton Lions To Conduct Broom Sale Friday

If a member of the Lions Club is seen carrying a whisk broom with him, it will be because he is assisting in the broom sale sponsored by the Lions Club to help the blind. President Clark Self Jr. announced that the sale would get underway Friday afternoon.

The city has been divided among Lions Club members, and a thorough sales campaign will be made.

The program Tuesday noon at the Clubhouse concerned the blind Clessia Blakeslee, a student at Texas Tech, was present to talk to the club. She was accompanied by her seeing eye dog. She was driven to Slaton by Harold Viaille.

Miss Blakeslee told the group that many items were made in Texas by the blind, and that they were sold by the "caravan sales" system. She expressed her thanks to the local club for helping out, and related that other Lions Clubs over the state were also taking part in this program.

At the request of club members, Miss Blakeslee told of the training of the seeing eye dog. They are secured by blind persons from the Seeing Eye Association, which is maintained by memberships and gifts. The dogs go through a three-month training period, and then are assigned to the owner for further training.

The dogs must obey commands, but also must learn to disobey when there is danger. Original cost to the blind person is \$150.00 for the first dog and \$50 for additional dogs. Cost of training a dog is \$150. Seeing eye dogs are allowed on all transportation systems.

The speaker's Braille watch was passed around for members to inspect. Miss Blakeslee states that the blind have many occupations open to them, such as teaching, secretarial work, etc.

The Lions Club broom caravan truck will be in front of Lasater-Hoffman Hardware Friday afternoon.

Revival Begins at Bible Baptist

Revival services will begin Monday, November 19, at the Bible Baptist Church, 505 W. Panhandle. The Rev. George Holden, Dallas, will be evangelist. Services will be conducted at 10 a. m. and 7:30 p. m. through November 25, according to the pastor, the Rev. R. C. Wetzel.

Move to San Angelo

Mr. and Mrs. Dale Dean will move to San Angelo Monday, after having lived in Slaton for the past 30 years. Their address in San Angelo will be 2222 Coleman Street. Dean has been employed by the Santa Fe Railroad here, and is being transferred to San Angelo. The Deans issued a "standing invitation" to Slaton friends to visit them when in San Angelo.

January 15th, Slaton voters will go to the polls to vote on four amendments to the Charter of the City of Slaton. An ordinance calling the City commission at their Monday meeting this week.

Notice of intention to pass an ordinance for the election was published about a month ago.

First among the amendments is a change which would allow territory to be taken into the city limits at the request of a majority of the residents living within the territory. Only those persons who would be effected by the change in territory would vote on the annexation. The territory would be annexed by ordinance, following passage in an election.

Annexation by Ordinance
The second of the proposed amendments would enable the City to incorporate territory by passage of an ordinance; that is, not necessarily with the consent of the persons concerned. It is this section of the ordinance which would give the City protection against encroachment by other cities.

A change in the method of election of members of the City Commission is provided for in the third amendment. At present, commissioners are elected from the ward in which they live, with only persons living within the ward voting for their respective representatives in the city government.

Election of four commissioners from the city at large is provided for in the amendment. At present, an individual is represented by only one-fourth of the city commission, i. e., he can cast his ballot for only one-fourth of the representatives in the city government. The proposed amendment would enable each qualified voter living within the city to have a say in the election of the entire city commission.

Proposed amendment Number 4 would enable the city commission, at its discretion, to appoint a City Manager, who would be the administrative head of the city government.

This amendment does not make it mandatory for the Commission to appoint a City Manager, but merely opens the way for the appointment of a manager when and if the city becomes large enough to warrant one.

Too, it fixes the responsibility for efficient operation on one individual, rather than in a group. At present, city employees are responsible only to the City Commission.

Should a City Manager be appointed, he would be responsible to the City Commission, and would hold office at the will of the Commission.

Two representatives of the Slaton Junior Chamber of Commerce, two from the Board of City Development, and two from the City Commission have been appointed to get information to residents of Slaton concerning the proposed amendments.

Help Fight TB

Buy Christmas Seals

CHRISTMAS SEALS like those pictured above are on sale now through the annual Christmas Seal drive being conducted throughout the nation. Locally, the sale is being conducted through the Lubbock County Tuberculosis Association, with a drive being conducted by Slaton persons also. Mrs. Charlie Walton is chairman of the local drive. Funds derived from the drive go to sponsor intensive research, to counsel and aid families who are victims of TB, and to strengthen the defense against TB through education.

CHRISTMAS SEAL SALE IS VOLUNTARY

NOTE: Adapted from an editorial used in the Cocoa, Fla., TRIBUNE, Nov. 15, 1955.

It is the unalienable right of every free American to give to whomever he pleases for whatever purpose he pleases.

The annual Christmas Seal Sale, independent of all other fund-raising campaigns, is essential to the educational program of the tuberculosis association. It gives every one of us an opportunity to invest voluntarily in strong community action, against TB.

The 1956 Christmas Seal will be the 50th in the United States. Since the first Seal Sale in Wilmington, Del., in 1907, the tuberculosis associations have grown and extended their service throughout the United States and territories. We all know the X-ray case-finding services provided by the Lubbock county Tuberculosis Association. Most of us are aware of the association's educational work with schools and community groups. Not so many of us are aware of the help and encouragement the association gives to TB patients and their families from the time a case of TB is diagnosed to the time when the patient has re-established himself in the community. All these services—plus the national medical research program of the TB associations—are financed solely by our purchases of Christmas Seals.

Your Christmas Seals will be in the mail Thursday, Nov. 15. It is urgently requested that you immediately place your contribution in the return envelope already addressed, which will be in the envelope in which your Seals arrive. Return your contribution as promptly as possible.

Your Christmas Seal contribution is an investment in the health of the community. It will help protect you and your family from tuberculosis.

PIG LIGHTNING

To call a man a pig is to invite a fight. If he is a sprinter, however, it is a compliment. Kemptville, Ontario, has an annual Pig Derby at which porkers try out their speed.

No human being has as yet been timed as doing the 100-yard dash in nine seconds. Our fastest sprinter would come out a humiliating last in a pig race, for the winner of the latest event covered the distance in 7.4 seconds.

Certainly the huge animals seen on farms do not look capable, and are not, of such speed. Apparently it is another case of a good physique ruined by too much eating.

SLOW DOWN AT NIGHT

More than fifty per cent of all traffic deaths happen at night, even though a lot less driving is done at night than during the day.

During an average year, if there is such a thing as an average year anymore, the Texas Safety Association estimates that the mileage death rate is between two and three times as great at night as in daylight hours.

There are four reasons for this, that should be apparent to everyone.

First, you can't see as well at night, and you must see danger to avoid it.

In the second place, too many drivers try to maintain daytime speeds, yet even the best headlights illuminate only a fraction of daylight seeing distance.

A third reason is that night driving is more likely to result in fatigue, sleepiness and dulled alertness.

Finally, night is the time for sociability which, all too often, means driving after drinking.

Figures, of the Texas Safety Association, support these claims by revealing that between sunset and sunrise sixty-three per cent of all urban traffic deaths occurred. In rural areas, fifty-four per cent of the fatal accidents happened during the same period.

Figure the heavy odds against you and don't gamble with your own life, or the lives of others who share the road with you, trusting in your common sense. Drive right . . . slow down at night.

It doesn't take brains or skill to send an automobile hurtling through a tunnel of blackness. It does take brains to soberly count the hazards beyond the probing finger of the headlight beam, and skill to be ready for the emergency which may loom out of the darkness at any moment.

It's all right to talk up and get a few things off your chest once in awhile—but it's always wise to keep your shirt on

CHOOSING PROVIDED PROTECTION

CHRIST DIED FOR THE UNGODLY - ROMANS

STRENGTH FOR THE WEEK

I John, 3-1. "Behold what manner of love the Father has bestowed upon us, that we should be called the sons of God."

Indeed, the Son of God called us out of the world of sin and from a life of guilt and unbelief. We are disobedient children by nature, without gratitude, being unthankful. But God, in mercy, and for Christ's sake, has adopted us through Jesus' blood, wherefore we cry "Abba, Father," and Christ is not ashamed to call us brethren.

But let us notice what manner of love this requires on our part. I John 3-13. "Marvel not, my brethren, if the world hate you." We cannot manifest ourselves as the world does, because the world passeth away, and the lust thereof, but he that doeth the will of God abideth forever.

Love is like a boomerang, the more you give, the more you have. And again, we ought to lay down our lives for the brethren. You can never get this love too soon, because you never know how soon it may be too late.

And notice again, the Father gave His only begotten Son, and the Son gave up His home in Heaven, and came to a benighted, sinful world, gave his life a ransom that we, that were afar off, might be brought nigh by faith in

Him. He came so far, and gave so much when no one could help themselves.

But if we having this world's goods, and seeing our brother in need, shut up our love from him, how dwells God's love in us. It's impossible, isn't it?

If a brother should ask us for a fish, would we give him a serpent? If he should ask for bread, would we give him a stone?

No, we would not. But if a loving God knows how, and when to give good gifts to them that ask, let us look at His pattern and give good things from within us to our neighbors.

Rotarians Have Unique Program on World Affairs

The Rotary Club enjoyed a program of comments from the various members on world affairs and the recent political election. J. D. Holt was in charge. This was at the club's regular meeting Thursday noon at the Slaton clubhouse.

Howard Swanner talked on the money situation. "The seven years drought here naturally has affected money," he said. No change was expected in the dollar situation nationally. "Our bank has over one-half million more on deposit than we had in December last year," said Mr. Swanner.

Claude Anderson's subject was the farming viewpoint. "Water would remedy all our farm problems here," he said.

Melvin Kunkel told of the Middle Eastern war and how this is or would affect us.

Wayne Liles commented on the election held the past week. He thought that world conditions affected the outcome.

Supt. Lee Vardy surmised that the Democrats would have a good chance of winning four years from now.

Howard Hoffman related that Texas was far from a two-party state, and that the two party system nationally would continue.

Bruce Pember commented on the large number of voters that voted the split ticket.

Dub Williams thought that Texas needed two parties instead of just being Democratic regularly.

Francis Perry predicted very few changes in the president's cabinet and that policies would continue as they have been.

J. J. Maxey told how high schools over the state in polls showed a trend that future voters would not be partial to either party.

T. S. McClanahan, local post-

master, said: "The post office has had the greatest improvements the past two years under Postmaster General Summerfield than all the twenty years before." He thought that the present postmaster general would continue in office.

The Rev. J. B. Sharp and the Rev. Clarence Wylie commented on the fact that recently has been the first time that nations have censured another nation for using force. They said that this was a great moral advancement.

Claude Anderson thinks that Texas is still a Democratic state.

All of the talks were non-political and strictly personal comments on happenings in the state and the world.

Visitors at the meeting were Bill Fry, Amarillo; Arthur E. Quest, Lubbock; Odie Hood, Lubbock.

President Clark Self announced that the club will not meet on November 29, which is Thanksgiving day. He also called attention to the coming visit of District Governor Rex Webster. A assembly will be held on the night of Tuesday, November 20, with the official visit to the club on Thursday noon.

From GOD...to MAN

A field of wheat . . . a human soul!
Gifts from God—upon which man puts the imprint of his own labor, and faith, and wisdom.

The result; a loaf of bread . . . a Christian.

Life is teamwork with God. Man receives what he cannot create, and fashions what he needs. But between resource and product are vital steps.

Between a field of wheat and a loaf of bread must be the mill and the oven.

Between the new-born soul and the mature Christian must be a Church and a religious home.

True thanksgiving is the sacred resolve to use what God has given to fashion what God desires.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Work Progressing Ahead of Schedule On New Motel

Construction of the El Lora Motel is proceeding ahead of schedule, according to Mrs. Electa Williams, co-owner.

The contract calls for completion by January 6, 1957, Mrs. Williams said, but she stated that they hoped to begin operation before that date.

The motel is located on South 9th Street, just north of Division Street.

"MODERN MIRACLE"

PHILADELPHIA, PA.—The Conolly Container Corporation plant was almost destroyed by a \$1,000,000 fire in late January. Five weeks later, the firm was back in business—thanks to its employees, half a dozen competitors, labor unions, banks, machine manufacturers and railroad executives—all of whom went to bat for the stricken company. The competitors supplied Conolly with their own paper boxes, with his firm's name printed on them, to keep him in business during the interim. Workmen of 13 construction labor unions worked around the clock to put up a new factory and friendly manufacturers turned up with hard-to-get machinery.

Mr. and Mrs. Joe Holland visited in San Angelo over the week end with Mrs. Holland's uncle, L. E. Ayers Sr., and Mrs. Ayers, and her cousins, Mr. and Mrs. L. E. Ayers Jr. and Mr. and Mrs. J. T. Hill Jr.

JUNIOR HI FOOTBALL SWEETHEART—Miss Ann Basinger was crowned Sweetheart of the Slaton Junior High team at half-time festivities of the Slaton-Post Junior High game last Tuesday. Pictured above, left to right, are James Wright, Harriet Perkins, Moses Diaz, Sweetheart Ann Basinger, Ame Franco, and Patsy Pettigrew. Eighty pep squad members formed a huge football on the field for the presentation of the sweetheart. Miss Basinger was presented a bouquet of mums, and her attendants each received mum corsages. Slaton was defeated by Post 28-13.

EVANS TEAMS DOWN POST

The Evans Wolverines and Wolverettes, district champions of last year, are out to defend their title. Thursday night's game was a starrer. The Wolverettes welcomed the Post six by a score of 39-9. The Wolverines held up their end by outscoring the Post boys team 85 to 46.

Coach Lloyd N. Green states this will be another big year for the Wolverines and Wolverettes.

Southland Talent Show Winners Told

Good crowds attended the annual Talent Show sponsored by the Southland Cemetery Association Tuesday night at the Southland school.

In the age group over 12 years, first went to Don Wheeler and George Bird for a duet number, with second place going to Kathleen Boyd, Crosbyton, for a solo number.

Group singing winners included the choral group from Southland Grade School, first, and second place to Mrs. Fallon's personality class from Post, which presented a singing and dancing number.

Mrs. Hub Haire, president of the Cemetery Association, expressed appreciation for the interest shown in the talent show, and for the support which was given.

DE Class Tours Mills

If the telephone company still had to depend on the old manually operated system instead of the dial phones, notes Reader's Digest, there would not be enough women between the ages of 18 and 40 in all of the United States to perform the job now required by telephone traffic.

TEXAS RANGERS GET NEW MOUNTS—The Texas Rangers, scourge of the western badmen for more than a century, recently received new mounts which are said to be the fastest police pursuit cars on the nation's highways. Fourteen of the Rangers, including Col. Homer Garrison, Director-Department of Public Safety, and Chief R. A. (Bob) Crowder, took delivery of the specially-built Dodge D-500 Texan police pursuit cars with 285 horsepower engines. The trunk compartment of the D-500 Texan is more than six feet wide and provides all the space necessary for the saddles, armament, and assorted equipment each Ranger must carry in his line of duty. The Rangers still pack pearl handled revolvers, wear high heel boots and big hats, and ride horses; for 'Ole Paint has not been put out to pasture, according to Chief Crowder, but is transported in trailers behind these new powerful patrol cars.

Heart Disease Top Killer of Americans

Heart disease is still the number one killer over all other causes in the United States today, state health department statistics show. Despite awe-provoking advances in the cardiovascular field of medicine, the high tensions of modern living continue to reap its harvest of death from heart diseases.

Rheumatic heart conditions, though not high on the mortality list, nevertheless takes its toll. Rheumatic fever is responsible for 95 per cent of the defective hearts in childhood.

It accounts for more than a third of the crippled hearts in adult life, and according to insurance statistics, chronic rheumatic heart disease accounts for five per cent of deaths from diseases of the heart.

Rheumatic fever is no longer the threat it once was. Scientific advances of the past few years have made it possible to prevent most cases of this disease which disables so many each year.

The main target in the fight against rheumatic fever is a special kind of sore throat-called a strep throat, which is an infection caused by the streptococcal germ. Doctors know that a strep infection precedes most attacks of rheumatic fever.

Children between the ages of six and eight are the most common victims. The plan is to prevent the strep infection or to treat it adequately at the onset, thereby averting a possible attack of rheumatic fever.

This information is encouraging for all parents and especially to the child who has had rheumatic fever. The condition has a way of repeating itself and each attack increases the chances of heart damage.

To protect a child who has rheumatic fever, doctors are prescribing regular doses of such medicines as penicillin and the sulfa drugs. It may be necessary for the child to take such a medicine for a long time. These medicines are available free at your city or county health departments for those unable to pay.

If a child who has never had rheumatic fever gets a strep infection, immediate treatment is required because rheumatic fever usually doesn't follow when treatment is prompt and complete.

With the late fall season, strep throats are on the rise in Texas. Dr. Henry A. Holle, commissioner of health, asks that parents watch for these signs which may be an early warning of a strep throat condition in your child.

A sudden sore throat or pain in the throat, when a child swallows; pain when you press under the angle of the jaw; swollen glands; fever, usually between 101 and 104 degrees.

Also, the child may have a headache or experience nausea; and be especially watchful if the child has been exposed to anyone who has had scarlet fever or a sore throat.

SHIVERS TO LIVE IN OLD AUSTIN MANSION

AUSTIN (UP)—Gov. Allan Shivers and his family will make their home in Austin when he leaves office next Jan. 15, it was officially announced Thursday.

The governor and Mrs. Shivers, an executive office announcement said, have contracted to purchase a century-old mansion once occupied by Gov. E. M. Pease.

The purchase price was not revealed.

The stately old mansion, originally known as "Woodlawn" and built in 1853-54, is now occupied by R. Niles Graham, grandson of the late governor.

The house was built for James Shaw, Irish-born state comptroller during Pease's administration, by Abner Cook, the same builder who built the mansion occupied by Texas' governors while in office and numerous other well known Austin homes.

Pease moved into Woodlawn when he left office in 1857. He named the 200-acre estate, long since subdivided into city residential properties, "Enfield" after his native town in Connecticut.

Snake Stab
Rattlesnakes, copperheads, water moccasins and other pit vipers do not bite, they stab.
Mouth wide open and free-moving hollow fangs on either side of the upper jaw aimed for business, they stab their victim with a puncture much the same as a hypodermic injection according to the medical magazine Pfizer Spectrum.
Within minutes there is searing pain in the strike zone. Rapid swelling follows and fans out along the limb, which may swell to three or four times its normal size.
The object of immediate first aid is to prevent spread of the venom and remove as much of it as possible. A snake-bite kit contains all the first-aid equipment you need until a doctor takes over. If you have no kit, you can improvise.
Keep the victim absolutely quiet and apply a tourniquet around the limb just above the swelling to prevent the spread of venom. A belt, necktie or shirt will do the job.
With a sharp, sterile knife, make a series of incisions over the swelling, about an eighth of an inch deep, and a quarter to half inch long. You can sterilize a knife with a match, iodine, or alcohol.
Then suck out the poison and blood by mouth if a suction cup isn't available. The poison won't hurt you unless you have an open cut or a sore in your mouth. If the swelling advances, move the tourniquet higher up the limb and, if necessary, make another row of incisions.
Get a doctor as fast as possible. He can neutralize the venom with a counter-injection of antivenin.

AUSTIN, Tex.—General election results, nationally, have added new impetus to the already tense issue of who will succeed Texas' Gov. Elect Price Daniel as U. S. Senator.

At stake is whether Democrats or Republicans will control the U. S. Senate, when Congress convenes on Jan. 3.

Democrats now have a precarious 49 to 47-member advantage. That it would be 48 to 48 if a Republican replaced Democratic Senator Daniel.

GOP Vice Pres. Richard Nixon will vote in case of a tie. Therefore this one vote, which Texas would bestow upon him . . . in a round-about way . . . could determine the balance of power. Most important of all, it could decide which party could organize the Senate and appoint the all-important committee chairmen.

This possibility puts Gov. Allan Shivers in the national spotlight again. At Senator Daniel.

Texas' conflicting election laws have clouded the issue as to whether Governor Shivers legally can call a special election before Jan. 15. That's when Daniel takes office as governor. This because Daniel's letter of resignation from the Senate specifies Jan. 15 as the effective date of his resignation.

Shivers contends that inasmuch as Daniel did not resign, effective immediately, there is no vacancy until Jan. 15. Daniel argues that Shivers has the power to call an election. Both point to different provisions of the poorly drawn election code.

Unless Congress is in session, a governor cannot make an appointment to fill a vacancy. Therefore, should Senator Daniel resign effective today, Shivers could not name a successor until Jan. 3 . . . opening day of the new Congress.

Shivers feels that Daniel should resign outright, thus paving the way for an immediate election. The governor is required to call an election within 90 days from the effective date of the resignation, and not before 30 days have elapsed. This means that the governor could call for an election in December—or he could designate a January or February date.

Whatever course Daniel pursues, Shivers undoubtedly will have a chance to appoint a temporary replacement. First, because Shivers is not likely to call for a December election. Second, if Daniel submits a new resignation before Jan. 3, effective immediately, Shivers automatically can name a successor on Jan. 3. And third, if Daniel sticks to the Jan. 15 date, Shivers will have from 12:01 a. m. on the 15th until Daniel is inaugurated at 12 noon, to name a successor.

DROUGHT AUTHORITY GIVEN—Gov. Shivers has been authorized to designate Texas farmers eligible for reduced railroad rates.

Sey, of Agri. Ezra Benson asked the governors of seven drought-stricken states to indicate persons qualifying for this aid.

Railroads have offered free return transportation for cattle shipped from dry areas to western grazing areas. Designated persons also can receive a 50 per cent reduction in rates on hay shipped from western states to drought regions.

FARM INCOME UP—Improved methods have kept Texas' overall farm income up, despite drought setbacks.

Cash income for January through September totaled \$1,108,000,000, an increase of \$13,000,000 from last year, reports the University of Texas Bureau of Business Research. Average for the dry years of 1931-35 was six per cent above 1947-49.

Irrigation, conservation and improved crop varieties are credited for the increase. Some areas, the bureau noted, have not had a major crop in five years. Offsetting these are such areas as the Panhandle-South Plains region where "spectacular results" have been achieved with irrigation.

SHIVERS BUYS HOME—When Governor Shivers becomes MR. Shivers next January, his family will move from one historic Austin mansion to another.

He has purchased Woodlawn, 103-year-old residence bought by Gov. Elisha M. Pease when Pease retired from office. Seller was R. Niles Graham, grandson of Governor Pease.

Known locally as "The Pease Mansion," the 17-room antebellum home still contains century-old furnishings. Its new owners plan only such remodeling necessary to accommodate their family.

CONSTRUCTION SPIRALING—An all-time record for 1956 with a healthy boom carrying over into '57 is foreseen for the Texas construction industry.

Awards through October totaled \$1,049,179,948. This was only slightly less than the total for the whole 12 months of 1955, the highest previous year.

October awards of more than \$84,000,000 did not include a Texas Highway Department contract letting. This means the November figure, with two months of road contracts, likely will be large.

BOND ELECTION UPHELD—State Supreme Court has upheld and clarified a new law for unlimited issuance of bonds by school districts.

Validity of some \$75,000,000 in school bonds was affected by a test case from Hamilton County.

Voting in bond elections is limited by the Constitution to property-tax payers. An act for school bond elections passed by the last legislature further restricted voting to those who had rendered property on the county tax roll.

High court ruling removed this restriction, but upheld constitutionality of the rest of the law.

SHORT SNORTS—Nov. 29 has been proclaimed as Texas' Thanksgiving Day by Governor Shivers. This is in accordance with legislative action setting the last Thursday in November as the state's official holiday. Federally, Nov. 22 will be observed . . . Construction of a \$300,000,000 federal dam and reservoir at San Angelo has been approved conditionally by the State Water Board. Law requires recommendation by the governor also before the project can be undertaken by the Department of Interior . . . U. S. Dept. of Agriculture has upped its estimate of Texas 1956 cotton crop to 3,600,000 bales, a 140,000-bale increase over last month's prediction.

But the new total is still under last year's crop of 4,039,000 bales . . . Dollar value of Texas farm and ranch land increased one per cent during the past year, compared to a three per cent gain for the nation. Average acre value of Texas rural land was estimated by USDA at \$63.13. National average was set at \$88.65 . . . John B. Nations succeeds Asst. Atty. Gen. John Davenport as president of the Texas Public Employees Assn.

CHRISTMAS SEAL DESIGNED BY FAMOUS ARTIST

The Christmas Seal parade—beginning in 1907, continuing today, and moving into the future toward the defeat of tuberculosis. That is the idea behind the Christmas Seals designed for 1956 by Colorado artist, Heidi Brandt.

The 1956 Christmas Seals were mailed to county residents Nov. 15 by the Lubbock County Tuberculosis Association. Contributions support the TB prevention and control activities of the association.

"The 1956 Seals are designed to illustrate the spirit of this 50th annual Christmas Seal Sale," according to Mrs. Charlie Walton local Seal Sale chairman. "Children march across each sheet of Seals carrying the Double-Barred Cross, trademark of the National Tuberculosis Association and its 3,000 affiliates, into the future. Two Seals, one showing a girl and the other boy, both dressed in green, make up the pattern."

"The Christmas Seal children do not look backward. There is no time to pause for celebration of the triumphs against TB," she explained. "There is a big job ahead to bring under control this disease which creeps into our homes and robs so many of health and happiness."

Mrs. Brandt, the designer of the Christmas Seals, is a product of the Far West, according to Mrs. Walton. Born on a homestead near Great Falls, Montana, of Danish parents, she received her education in Seattle, Washington, and at Whitman College, Walla Walla.

The wife of a college professor and mother of three sons, she combines family life in Colorado Springs, Colo., with an active artistic career. She is presently studying art in Germany with a Fulbright scholarship.

MULE'S FATE

A Quaker gentleman, even more mild-mannered and gentle than his ilk, was turtling down the road in a cart pulled by a mule, says the Louisville Courier-Journal. For no apparent reason the mule suddenly became balky. Just stopped. The Quaker climbed out of the cart. He pulled at the collar of the mule and pleaded with him to get up and about. But without result; the mule remained in his balk.

Finally the Quaker reached the end of his rope.

"Mule," he said without raising his voice, "thou knowest that because of my religion I cannot beat

thee or curse thee or abuse thee in any way.

"But, Mule," he continued, "what thou knowest not is that I can sell thee to a Methodist."

The Golden Journey

For all the millions who read "The Bishop's Mantle" and "The Gown of Glory" this new novel by Agnes Sligh Turnbull will be pure delight. The setting of the story is a large industrial city in the East, and more particularly the elegant Kirkland home, standing in one of its most favored sections. The cast of characters seems at first to be dominated by the enigmatic figure of James Kirkland, recognized as a man of financial power but unknown to most as the state's political king-maker.

Paul Devereux, a brilliant young lawyer and an eloquent persuasive speaker, becomes a frequent visitor at the Kirkland house and is offered an amazing opportunity in politics by his host; a chance far beyond his years and experience.

As the center of the dramatic events that follow and of the beautiful love story that runs throughout the novel is Anne, Kirkland's only daughter and one of the most alluring young heroines in modern fiction.

Each of these three is on a journey of self-discovery. For each the journey has its mirages, its changes of direction. What happens to them and to those whose lives cross theirs makes a story of compelling interest that speaks to the heart.

The time is the present; but for the reader there is an even greater immediacy, for the book presents challenging problems of our own day. Mrs. Turnbull writes with the magic of the born storyteller who has a timely and deeply felt theme.

GRANDPA SOLVES MILITARY SERVICE SANS SEPARATION

NEW YORK—An Army Reserve sergeant has found a way to make military service a family affair.

Master Sergeant George C. Gramlich of (1005 Esplanade) the Bronx, at 53 is a seasoned soldier with 22 years of combined active and reserve military service. He also is a proud grandfather with an understandable interest in the activities and welfare of his grand-

son, Thomas Silvestri Jr. Gramlich wanted his grandson to have the experience of military service. At the same time, he disliked the thought of the separation from young Tom that the usual Army enlistment would produce.

Grandfather Gramlich, with an assist from the reserve forces act of 1955, found a way out of his dilemma. He and his grandson enlisted in the 352nd signal support battalion, U. S. Army reserve, a hometown unit in which both may complete the balance of their military service.

They are now together regularly for Army reserve training periods. And the sergeant now has time which he never seemed to have before, to teach his grandson the proper use of firearms. A skilled marksman, he is the unit rifle instructor.

Dallas Brush of Dublin visited here Friday in the home of his nephew, Kenneth Brush, and Mrs. Brush.

Texas Consumers Spending Less Than Last Year

Declines in residential building and consumer spending for durable goods are the principal factors holding down the 1956 level of business, the University of Texas bureau of business research reports.

Dr. John R. Stockton, bureau director, gives the analysis in his monthly "Business Situation in Texas" survey in the current issue of Texas Business Review.

"Sales of nondurable-goods stores have remained at the same average level in 1956 as in 1955, but durable goods store sales during the first nine months of 1956 have averaged 15 per cent lower than in 1955," Dr. Stockton writes.

"The greatest decline has been reported by automobile dealers, but furniture and appliance stores and building material stores also have registered a decline in volume of business," he continues. "Much consumer income has been taken to repay the extremely large volume of installment credit extended during 1955, particularly for the purchase of automobiles.

"The decline in durable-goods sales during 1956 is without much doubt related to the over-expansion of sales of durable goods last year," Dr. Stockton says.

He sees no likelihood of change in the prospects for residential building for the remainder of 1956.

"In spite of the high level of consumer income, many consumers already have extensive commitments that prevent their buying the houses now being constructed exterms," he says.

Mr. and Mrs. Jack Patterson of Arlington came Thursday for a few days visit with Mr. Patterson's sister, Mrs. Francis Perry, Mr. Perry and Richard.

During the week of September 23-29, the National Home Demonstration Council and the Texas Home Demonstration Association will hold their annual meetings in San Antonio.

Mr. and Mrs. Roy Hodges visited in Post Friday with Mrs. Hodges' mother, Mrs. J. W. Dixon, and her sister, Mrs. A. L. Warren.

The pep-squad chose Dickie Thomas as their annual sweetheart. Phil Pearson presented Her Highness with a bouquet of red roses. The royal couple rode off the field in a pink Thunderbird convertible by courtesy of the Slaton Motor Company.

With the close of football for S H S comes basketball. The girls teams, A and B, will get things underway when they travel to Friendship Thursday night. If you will remember the Tigettes lost to Friendship last year at the season 80 to 95. Although the team lost seven players it is looking forward to a colorful season. (Coach's statement) I would like to take this opportunity to personally invite all the old fans to our games and I might add that if you aren't a fan now is the time to become one.

Monday the junior play cast gave three skits from their annual play, "Almost Summer." The play was presented Tuesday night and was well received.

The Slaton High School pep-squad is giving a supper for the Tiger football team Friday night at the West Ward Cafeteria at 7:30 p. m. This is to be an annual affair. New Task-Force 57 Chevrolet Trucks!

They "flattened" Yukon mountains with the most modern truck V8's of all!

Rated G.V.W. of these payload-carrying heavyweights goes all the way up to 32,000 pounds!

New V8-powered '57 Chevrolet trucks, heavily loaded, made one of the world's toughest roads look easy! In a straight-through test run, they rolled over the famous ALCAN Highway to Alaska—in less than 45 hours (normally a 72-hour run). Here's proof-in-action of power that'll handle your toughest jobs—and keep coming back for more!

Whatever your job, there's an Alcan-proved Chevrolet Task-Force truck ready right now to save you time and money!

Six new Task-Force huskies made the run. And six ultra-modern Chevy engines proved their power and performance—with gas mileage up to 18.17 miles per gallon! Two of the engines were not stopped once, and they hummed along at peak efficiency the entire 1,520 miles!

Chevy's big V8's—including the new 283-cu.-in. Super Taskmaster—turned in top performance jobs. They hauled typical loads up and down towering grades and through washouts that sucked wheels into hub-deep mud. They roared on through miles of heavy dust that narrowed visibility to a few hundred feet. And in spite of the varying altitudes and temperatures, not a single truck was forced to drop out or turn back! Stop by and see them soon!
