#### ANTI-TRAFFIC VACCINE

It would be fine if scientific research could turn up an anti-traffic accident vaccine. Where is the Dr. Salk of traffic safety who will develop a serum to provide immunity from traffic accidents?

Wouldn't it be wonderful if children could be vaccinated against darting out from behind parked cars; older pedestrians immunized against crossing between intersections; and motorists given a "stop at stop-signs" serum!

Sounds silly-but how can we wage war on traffic accidents as we do on cancer, polio and other killing and crippling diseases?

We cannot legislate complete traffic safety. True, there are traffic laws, but they prevent accidents only to the extent they are obeyed. Traffic engineers and public officials are building safety into the streets and highways. But, how are we to build safety into drivers and pedestrians?

The picture isn't completely black. Traffic safety experts are coming up with the answers, and the first step is to involve the public more and more in traffic safety activities. An increasing number of communities are setting up Citizens Safety Councils to back up the work of their officials and official traffic advisory committees. These citizens councils, made up of representatives from civic, business and fraternal organizations and of individual citizens, carry the word to all groups in the community.

At the state level, the Texas Safety Association is distributing tens of thousands of safety aids in the form of brochures, folders, posters and other educational material; besides the assistance they lend organized local safety groups.

Too, the Texas Department of Public Safety is doing everything possible, within a limited budget, to reduce public apathy towards the Texas' traffic problem. And, to educate the people to the fact that the "laws" are there to protect them-not to annoy them.

The first few weeks of Governor Daniel's administration have been sufficient to reveal that Texans can expect vigorous support from that office in the war on traffic accidents.

The National Safety Council's year-long program, "Back the Attack on Traffic Accidents," is designed to build up the efforts of local safety councils in promoting an effective and continuing traffic safety program with widespread appeal.

Statistics show that where these programs are in operation, traffic accidents drop off. We have the vaccines-we can provide immunity-all we need is the will.

#### FORGOTTEN EXILES

When we think of refugees these days, our thoughts are likely to be focused on those who have fled from Hungary during the past few months. Actually, however, the displaced persons of the world are numbered in the millions. The great bulk of these have left their homelands as a result of the Second World War.

One group of exiles not generally remembered in our time is the Spaniards who left their homeland during the Spanish Civil War. That war ended 18 years ago, before the start of World War II. Yet there are still some 150 to 200 thousand exiles who will not go back to Spain. Many of them have been able to make a good life in their new surroundings. Others, however, have been less fortunate and are still living in difficult circumstances.

General Franco, the dictator of Spain, has promised to grant amnesty to all of these exiles who will return. Yet they do not feel that they have committed any crimes which must be forgiven. Also, they are suspicious of Franco's promises. Therefore, they will not return to Spain.

Of these almost forgotten Spanish exiles, those handicapped by age, illness or other circumstances are living a hard life. Yet they are refugees from a dictatorship and deserve help for this reason, if for no other. In our concern for other refugees, we should not forget this small group exiled for nearly two decades. Fortunately, help is being channeled to them through Spanish Refugee Aid, Inc.

#### STORY NO. 8

### Narcotics, Liquor, Women, Gambling: They're All Part of the Duval Story

By--FREDERICK HODGSON | United States is brought across

By--FREDERICK HODGSON SAN DIEGO, TEX.--No self-respecting boss-run barony is complete without its quota of syndicated sin. And Duval County. Texas, is no exception. For the moment "the heat is on" and the gambling wheels are stilled, night sin-spots like El Ranchito are closed, most of the women of easy virtue are in exile and traffic in illegal liquor and narcotics is very much under wraps. One disgruntled deputy sheriff, raging at the Rangers who put him out of business, moved his house of prostitution, lock, stock and women, all the way to Hous-ton. The Bangary armed with in-

The Rangers, armed with in-functions obtained by the Attor-ney General's office, simply pad-locked the town. case Previous articles in this series locked the town. "It was just like the good old days of prohibition," said Captain Alfred Allee, regarded by his fel-lows and by his superiors in Aus-tin as one of the greatest Rangers of them all. The merchants of sin fumed and fretted, appealed to the courts The merchants of sin fumed and fretted, appealed to the courts The merchants of sin fumed and fretted, appealed to the courts The merchants of sin fumed and fretted, appealed to the courts The merchants of sin fumed the since t

Jones, who is nothing if not frank, admits without any quib-bles that his client is no saint. He bles that his client is no saint. He depicts George B. Parr as a man who gets what he wants when he wants it and who isn't overly squeamish about methods. And Jones had admitted as much in open court, many times. The well-dressed little lawyer, who presumably knows what is

who presumably knows what is going on inside the Parr machine, has some interesting ideas about the future of Duval.

the future of Duval. Should George B. Parr lose his battle, even be sent to prison, this does not mean the end of the Parr dynasty. Another Parr, the Duke's nephew, Archer Parr II, is ready to take over. Should this switch happen, Du-val history would be repeating itself. George Parr deposed his father just twenty years ago.

father just twenty years ago. Archer Parr is a personable young man, 35, a Marine veteran, a family man, educated, and well schooled in the rough and tumble

## BILL JEFFERSON STANDARD LIFE INSURANCE

Life insurance is the most important investment in the lives of most men. So it's smart to choose a company that's one of the biggest, strongest and best. On every count, Jefferson Standard ranks among the leaders.

Jefferson Standard ranks 29th in size among the more than 1,200 companies in the U. S. in ordinary insurance in force. In interest earned on invested assets, Jefferson Standard lead major companies. Jefferson Standard has never paid less than interest on dividend accumulations and on policy proceeds le with the company to provide income, which is considerably in excess of the rate guaranteed in its policies. For details, call Mr. 4% today!

In Peru two politicians recently fought to a draw in a saber duel. In this country politicians who are angered with one another confine their offense to cutting remarks.

Khruschev, who has publicly accused Stalin of being a murderer, a liar, a coward and a tyrant, recently referred to him as a model Communist. Well, Krushchev should know best what qualifications a man must have to make him a model Communist.

Reports from Los Angeles put the blame for the smog there at least partially on cigaret smokers. Now if the report had come from San Francisco we might say the smog was just a hangover from the smoke-filled convention rooms.

#### Setf's Service Station

Two society gals in an African cannibal tribe were discussing marriage troubles. "I don't know what to make of my husband these days," said the 1st.

"Don't let that bother you" the 2nd reassured her, "I'll send over my new book of recipes." ....

This has been an enduring peace-never has a peace had to endure so much.

....

By the time a woman grows tired of counting her birthdays, she has to start counting her calories.

....

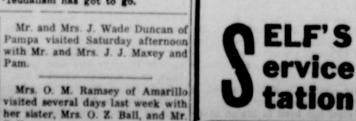

Just heard about a glass blower who suddenly was overcome by the hiccups. He turned out a thousand percolator caps before help came.

.....

When you help out a man in trouble, you can be sure of one thing-he won't forget you-the next time he is in trouble.

\*\*\*\*\*

When we HELP a man in trouble, (car trouble) he usually becomes a regular customer and enjoys the benefits of our top notch Magnolia products.

## Eats like a hummingbird!

Like all the new '57 Fords, that sleek Sunliner up there lives on a mighty lean diet of gasoline. Big reason? Look underneath the new fronthinged hood of this over 17-foot long dreamboat. There you'll find a magnificent V-8 engine . . . an all-new, easier "breathing" power plant that measures fuel and air more efficiently than ever before to give you fuller combustion, greater economy. There you'll find a completely new brand of Ford TNT that's the proud result of Ford's many years of V-8 leadership. Yes, "Six" or "Eight" . . . the going's never been so great!

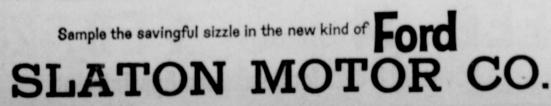

## Goes like a Thunderbird!

For a car that "eats" like a bird . . . just watch this new kind of Ford devour the miles! That's its new Thunderbird V-8 power\* for you. It's the same kind of mile-melting power that sparks the mighty Thunderbird itself . . . the same staying power that hurried a '57 Ford over 50,000 salt-encrusted

miles at Bonneville in less than 20 days . . . at an average speed of more than 108 miles per hour! But Action Test the new kind of Ford. Feel the new solid, silent ride that stems from the all-new Inner Ford. Discover all the other reasons why Ford makes "luxury" a low-priced word!

\*Ford offers V-8 engines in a wide range of horsepower -- including a Thunderbird 312 Supercharged V-8 that delivers 300 hp and a 270-hp Thunderbird 312 Super V-8

OIL HEARING SET-Independent oil operators, who want pipeline connections to their wells, will air their grievances at an April 1 hear-

Texas Railroad Commission called the hearing on petition of five producer groups.

Issue of Texas oil production has drawn national and international attention with pressures for larger allowables to meet West European shortages caused by the Suez block-

Major oil companies have favored increases. Independents have not. They contend majors have an "unfair advantage" in being able to market oil by pipeline, rather than truck.

They hope the current demand can be used to force majors to furnish pipelines to some 8,000 unconnected wells owned by independents.

SHORT SNORTS-A 1949 law regulating naturopaths was declared void by the Third Court of Civil Appeals. Too vague, said the court . Texas Industrial Accident Board does not have authority to bar a lawyer from practice before it because of "unethical and fraudulent conduct," said the same court. Law granting such power violates constitutional "due process of law" clause, it ruled Possession of a poll tax is sufficient to entitle a resident to vote in an election to create a water dis-trict, ruled Atty. Gen. Will Wilson. However, to vote water district bonds, one must have rendered property for taxes.

Mr. and Mrs. C. F. Austin attended the funeral services for W. L Crawford in Clovis Thursday. Mr. Crawford was the father of the Austins' son-in-law, -Dr. W. C. Crawford of Clovis. Mr. Crawford who was 85, died of pneumonia.

Mr. and Mrs. Claude Anderson Claudia and Lane spent Sunday at Alamogorda Lake . They met Mr. and Mrs. R. F. Anderson of Albuquerque there.

"My ELECTRIC clothes dryer saves money because we need fewer clothes for my growing children!"

the state was a serie of the second second

· SAYS Mrs. W. J. MESSICK 119 TEXAS HEREFORD, TEXAS

Mns. MESSICE says, "The dryer saves froning and even those things which do need ironing can be dried to correct dampness for proper ironing." No need for extra sericiding.

Mrs. Messick stresses the savings with her electric appli-ances saying, "Savings in time and money are the foremost benefits we receive from our electric appliances." She finds that by the fast drying time an electric clothes dryer gives, she needs fewer clothes for the children. "Since children 'grow out' of clothes so quickly these savings become important," she adds.

Why don't you start "sitting pretty" with your own elec-tric clothes dryer. You, too, will find the same advantages which Mrs. Messick likes.

NE LOOK at that price figure and you'll know that-again in 1957-if you can afford a new car you can afford a Buick.

And look what you get for so little extra money. You get the most completely new Buick in years. Not just brand new in styling and brand new in body design.

But new in features that make this the dream car of the year to drive.

You get brand-new performance because the engine is literally new from the crankshaft up.

You get a brand-new instant response because we engineered brand-new torque into Variable Pitch Dynaflow.\*

And to give you the new sure-footed safety of a lower center of gravity - we built a brand-new frame-which lowers the car, but keeps the headroom, legroom and footroom that a big car should have.

Pact is, there are more than 150 other chassis changes in this '57 Buick - waiting for you to try them. Do that soon-at your Buick dealer's.

Now Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builde today. It is standard on Roadmaster, Super and Century - optional at modest satra cost on the Special.

Could we get that beautiful couch I am thinking about, no I guess I couldn't. No use in going to town to look at something I can't get anyway.

The sad part about all this is that it was the couch she wanted so much and the buy of the year and the dealer missed a sale. She just didn't know about the couch being priced so low. You display your merchandise in your store window, why not in your newspaper. Your display will be seen by Slaton's penny wise shoppers and your first sale will pay for a reasonable size ad in most cases.

We will be glad to help you display your merchandise in The Slatonite and explain about our rates.

Another type of fan is made up concern himself about keeping mostly of adults, especially parents books and records-at least so he of experiment. Some turn out bad- vorites. and some well.

But whether or not you run

exists. business of your own, you have a (This column, prepared by the a substantial interest in your per-State Bar of Texas, is written to inform-not to advise. No person should ever apply or interconcerning the facts involved. It's likely that some day you may because a slight variance in facts

-The Tiger's Cage sell that house. When you do you'll may change the application of the law.) want to be able to prove whether

Haliburton and Mr. Haliburton it probably will add to your incom spent Sunday in Amarillo with tax. If a loss was suffered, it prob ably will reduce your income tax

You may have made certain cap Mr. and Mrs. Lester Hodges and ital improvements on the house Jerry Lee of Canadian were week while you lived in it, but unless you can show what out-of-pocket expense you incurred while making

them, you may not get credit for them in your cost basis so as to prove that you had no capital gain or that you had a loss.

Or perhaps you received that lit. tle summer cottage on the lake as

a gift from your father. If you even sell it, you should be able to show Uncle Sam not only the cost of improvements you made on it while you owned it, but also what its fair market value was at the time Dad gave it to you.

It may be that you are receiving an annuity on an insurance policy If so, do you know how much that policy costs you and how much of that cost you have recovered taxfree to date?

There are many kinds of trans-actions you enter into that may some day affect the computation of your personal income tax. The best proof of the cost of anything you've purchased is a receipted bill or canceled check. If one of these pieces of evidence relates to any transaction that may affect your income in later years, it's a good idea to keep it. Your "pardner" may some day ask to see it.

SLATON MOTOR CO

different state and national laws dealing with the same things. Income tax laws for an example. Surely, they say, you can have no real justice, unless there is some one "best way" to do each thingto hold property, to manage traffic, to pay taxes, or to enforce contracts

So it bothers them. Why should Englishmen drive on the left side of the street? Why should married couples hold title under communi ty property laws in some states and not in others?

Is law merely a man-made contraption?

Is it true that like good manners much law is man-made, growing out of custom or local problems. In card games you can play many dil ferent games with one deck. You merely change the rules. But as with cards and all games, the law goes deeper than convention int man's basic needs for order, for grasp of the part he is to play, and for a way to settle disagreements Law provides an orderly way t do things so that people can make long-range plans and work together Its rules help you to find out when you stand-your rights and dutie And last, law has binding ways o

SNOW NEWS ISN'T GOOD NEWS . . . especially in your TV set when you are getting ready to settle down to your favorite program. Snow on your screen may be caused within your tube, the set itself or in your antenna. Snow is visible "noise." It is a characteristic of reception in a fringe area where reception is extremely weak. However, if you are getting snow and nobody else in your locality is getting it, you need us. Our service technicians will correct your ailment in the shortest possible time. Our rates are right.

### "Campus Corner"

By Beverly Bland The time has arrived once again for all students to have a nice weekend because by tomorrow afternoon all six-week tests will be over. That means that there are only 12 weeks left in this semester; then comes summer vacation. Of course for some of us it means getting a job, but there will be lots of leisu 'e time for fun too. The seniors are especially looking forward to the end of this year and their eyes are set on their future.

Speaking of seniors, the annual senior play, this year's play being, "The Inner Willie", will be presented April 23, which is on Tues day night. Also Mrs. Alma Cald well, junior class sponsor, has said that the Junior-Senior Banquet will be held either the 29th or 30th of April.

The annual FHA Area I meeting will be held at Amarillo again this year with Miss Helen Ann Norria, Area I President, presiding over the meeting March 2

February 22 marks the date of the last basketball game for this season which means that students will begin to play tennis, soft ball, volley ball, and the boys will have many track meets.

As you can see, as Spring nears, activities overflow student calendars and a hurried excitement fills the air. Soon the girls will begin to wear frilly, cool dresses of many different colors and styles and the boys will come out in short sleeved sport shirts. Already you can hear girls talk about getting new formal dresses for the Junior-Senior Banquet.

Our next basketball game will be tomorrow night when the Lock-! ney Longhorns visit the Tiger gyin in a two-game battle beginning at 7 p. m. After the games Tiger Town will be open and all will be enter tained by the swing and sway mu-sic of all the good Tiger records. Don't miss the game or the party. As the typing students know, Hixson's, 1-Lb. Can
