BREAKFAST IN HOLLYWOOD TO BE A SENSATIONAL SHOW

The Slaton version of "Breakfast in Hollywood" will be far better than the original production say those who have seen previews of the event.

The Slaton "Breakfast in Hollywood" will be staged the night of November 8th at the High school auditorium under the auspices of the Slaton Elementary PTA.

There will be prizes for people of all ages and a big bouquet of flowers for the oldest woman present. Not only will there be a well planned program but impromptu gags will be pulled that should put the audience in the aisles.

Mrs. R. M. Shepard also requests that Good Neighbor letters be sent to her as soon as possible, her address is 135 North 4th St.

LIONS CLUB ENGAGES IN VARIED ACTIVITIES

The recent "Womanless Wedding" staged by the Lions Club was a huge success from every point of view. It is still one of the topics of discussion in Slaton. The financial returns were entirely adequate, and those who attended enjoyed the affair immensely. The performers did themselves proud and much credit is also due Mrs. R. L. Smith, who directed the play. It is the feeling of the club that the money went to a worthy cause and we hope to raise more in the future to assist in the betterment of the community.

The Lions Club is also contributing financially and otherwise to support the scouting movement in Slaton. It presented the Girl Scout Council with a check for \$400. They voted at a recent meeting to sponsor the Senior Boy Scouts. The main obligation in this is to furnish a leader, and the club is fortunate to have an experienced person, H. D. Haley, to assume this obligation.

Jimmy Cherry and Edwin Burton appeared before the club requesting the Lions to back Slaton Air Scout Troop, explaining that some fifty-four boys above the age of 15 were endeavoring to organize a troop. In this organization these boys will be given instructions once a month on airplanes, flying and aeronautical engineering by an instructor of their choice. It was decided to donate one hundred dollars for equipment, provide a meeting hall and Lion H. D. Haley was nominated by the club to meet with these boys and act as Lion Sponsor. The City Auditorium will be used for meetings according to Lion Haley for the time being.

Martha Cudd, Lions Club Sweetheart, left to enter college, and two were selected to take her place. Betty Joe Gentry and Peggy Ann Tudor were elected to this honorary position. They were presented with club pins by the president, George Brassell. These two sweethearts will present the next program.

The Club voted to purchase 25 railroad tickets for the Slaton Pep Squad to be used on the special train to O'Donnell, November 1.

Freddie England is Cub Lion, and has attended each meeting since the Club was organized.

The Club has been organized less than a year and has spent several hundred dollars on various activities, yet it still has over \$800 in the treasury.

Mr. and Mrs. Forrest Tanner are parents of a girl, April Kay, born October 25, at Mercy Hospital weight 6 lbs. 13 oz. Mrs. Tanner was Grace Evelyn Williamson.

David Michael is the name of the son born to Mr. and Mrs. David C. Todd of Morton, October 25th. He weighed 8 lbs. 6 oz. Mrs. Todd was formerly Donna Maud Sanner.

J. S. Edwards Sr. spent last Friday in Seagraves, where he transacted business.

EIGHT ARE CHARGED WITH LAW VIOLATIONS

Slaton has about its usual run of minor offenses over the week-end, according to Ernest Ward chief of police. One assault and attempt to murder charge was filed against a Slaton negro after he shot at a Lubbock negro.

Three charges of traffic violations for speeding were filed in City Court and fines were assessed against the drivers of sand and gravel trucks last week.

A charge of disturbing the peace was filed in Justice Court against two persons for fighting at the Midway Gin.

A charge of drunkenness was filed over the week-end. A drug addict was picked up on the City Hall lawn Monday and jailed.

HALLOWEEN MOTIFS TO APPEAR ON WINDOWS OF BUSINESS HOUSES

Slaton is carrying out a plan in relation to Halloween, which other schools of the nation have put into practice, that of sponsoring the painting of Halloween scenes on the windows of some of the business houses in the city.

There are now five teams of volunteers painters who will use tempera paints and depict typical traditional motifs on these windows. You may like to watch for this evidence of local talent Friday and Saturday at Berkley and Had-dock Grocery and at the Model Grocery.

INFANT CHILD BURIED

Graveside services were held in Post Thursday for the infant son of Mr. and Mrs. A. B. Haws Jr. of Post.

Mrs. Haws was formerly Miss Phyllis McReynolds of Slaton.

COTTON GINNING REPORT

Census report shows that 8,668 bales of cotton were ginned in Lubbock County from the crop of 1946 prior to October 18, as compared with 2,235 bales for the crop of '45.

Two Elections of Importance are Scheduled For Next Week

Three amendments to the state constitution are being presented to the voters of Texas in the general election which is being held next Tuesday. Another amendment will be voted on at a special election to be held on Thursday, November 7. Since there are two elections to be held next week and both involve amendments to the constitution and also the expenditure of the tax payers money, it is well to review what the proposals are.

The three amendments to be voted on Tuesday are first: authorization of the Legislature to appropriate not more than \$75,000 to pay for buildings constructed at John Tarleton College; second, authorizing the Legislature to provide retirement, disability, and death compensation system for the officers and employees of the State of Texas and authorizing the counties to do the same; third, the allocation of all net revenues and ad valorem taxes on gas and motor oil and registration fees to be used for the sole purpose of construction of public roads, administration of traffic laws, and to pay principal and interest on road bonds, providing that one-fourth of such net revenues shall be allocated to the public school fund. Each county shall continue to receive a certain amount from the registration fees.

Commenting on these proposed amendments, it seems particularly unnecessary that the taxpayers of Texas should be called upon to continue to support state and county officials after they cease to render service to the state and to continue to contribute to the support of their families after the official's death. It would seem that they are no more entitled to continued sup-

SCHOOL AND CITY TAX SYSTEM TO BE REVISED

SAN ANTONIO, TEXAS (Special)—General Jonathan M. Wainwright, Fourth Army Commander and Army advisor for the Texas USO Campaign, visits a USO Show ward performance on its tour of Brooks General Hospital at San Antonio, Texas.

In the picture above are Helene Denizan, USO performer of Lemhurst, Long Island, N. Y., General Wainwright, Vernon R. Rogers, Rt. 1, Sadler, Texas, and a friend.

General Wainwright, the hero of Bataan, congratulated members of the USO Camp Show "Breezing Along" on the "Perfectly wonderful job" USO is doing for the morale of the men in hospitals. He said "USO all over the world has rendered inestimable service to our armed forces. Hostilities have ceased but the USO must carry on."

Referring to the Texas drive to raise its \$800,000 quota of the \$19,000,000 necessary to carry on USO activities in 1947, General Wainwright said "May your campaign be a huge success."

USO activities scheduled to continue through 1947 include 135 USO Camp Shows playing Army, Navy, and VA hospitals and overseas bases, 400 cubs in the United States and in the Pacific areas where the Army and Navy have requested them and hundreds of USO Traveler's Aid Lounges in the United States.

SPECIAL TRAIN TICKETS

Tickets for the special train to O'Donnell tonight are priced as follows: children under 5 years of age, no ticket required; ages 5-12 the round-trip is 86c; for pupils over twelve and adults the price is \$1.73.

Special Train To Take Tigers And Boosters To O'Donnell Friday

Seminole rolled over the Slaton Tigers to the tune of 48-0 at Seminole last Friday night. Seminole, though only slightly heavier than the Tigers, outclassed the Slaton boys from every angle. Seminole is the best team that the Tigers will meet this year, according to Coach Tillery.

Gentry was the outstanding line-man and Blyer outstanding back for the Tigers.

Seminole had piled up a 26-0 score at the first half of the game. However, according to those who saw the game there was little difference between the first and second team, and evidently the second team was plenty good as it scored 22-0 in the last half.

The Tigers meet the O'Donnell team at O'Donnell tonight, and a special train sponsored by the Chamber of Commerce will be run to carry boosters to the game. The Lions club is buying 20 tickets to carry the Pep Squad to the game. The special train will leave here at 6 p. m. and leave there for the return trip at 10 p. m. Why not join the Boosters and go on the special train and root for the home team.

LOCAL UNIT OF STATE GUARD WINS HONORS

Company C, local unit of the Texas State Guard, won third place in the North Texas district of the State guard in a large-bore shooting match held at Paris last Sunday. This score was shot by Sgt. J. B. Brooks, who scored 174 out of 170. The highest score was 178. Brooks shot 178 in his first try, but the score was disqualified because another shot on his target. He had to shoot again without a rest period and scored 174 on his second try.

Another Slatonite scored 169, which was fourth highest score of the meet. All who attended this meet report having a most enjoyable trip. The group went to the meet in Army trucks, and their trip was arranged by Capt. Jay W. Moore, commanding officer of the local unit.

STANDARDS OF SCHOOLS ARE REFLECTED IN COMMUNITY PROSPERITY

Does the condition of the schools reflect the prosperity of the community? The United States Chamber of Commerce has found that education and the community provisions for adequate school facilities pay dividends not only to the individuals who attend the schools, but also to the community as a whole.

Viewed from an economic viewpoint, the Chamber of Commerce advances seven reasons for the prosperity of a community that can be directly attributed to the schools. The ability of the people to produce and their ability and desire to buy makes for economic prosperity. It has been found that where schools are best, average incomes are greater, and retail sales are greatest. The rentals for homes are in direct proportion to the standards of the public schools of the community and to the number of telephones used. Where schools are best more magazines are read, and where schools are best fewest men were rejected under the Selective Service. These facts point to the fact that education makes people producers and good consumers.

The Chamber of Commerce recognizes also the cultural and citizenship values of education. How about our schools? The school of our state Of other states? We are one people with a common destiny, and as a chain is no stronger than its weakest link a democracy is no better than the average of its citizenship.

THE WEATHER

The weather records of G. H. Orr show that Slaton had 14 and 15-32 inches of rain during the month of October with nearly 6 inches of it falling on the 5, 6, and 7th. The hottest days were Oct. 22 and 23 when the thermometer reached 89 and the coolest day was Oct. 12 when the thermometer fell to 39.

The Slaton Independent School District and the City of Slaton have entered into a contract with the Southwestern Appraisal Company of Ft. Worth, Texas, to make a property survey of all real property within the school district and the City limits for the purpose of

equalizing property values. The School and City officials advise that here-to-fore property values have been taken on a more or less "hit or miss" value bases which, in many instances, results in the fact that many property owners pay on too high values while others pay on too low values.

Representatives of the Southwestern Appraisal Co. are here and have established an office at the City Hall doing preliminary work preparatory to starting actual measurements.

In discussing this matter with a representative of the Southwestern Appraisal Co. we are advised that they have made several similar surveys in other West Texas towns and their plan of operation is based on square foot construction cost on all buildings. All buildings of like construction are figured at the same construction cost throughout the School District and City and each building is given a depreciation based on the condition of the building, plus the land value on which the building is located, with the construction cost of the building based on 1942 costs.

The Appraisal Co. advises that they use a card system, making a card on each building, showing type of construction, both exterior and exterior, owner, lot and block number, for what purpose the building is used and a diagram showing the house plan and size of the house. Their men will start actual measurement immediately of the buildings and will call at each residence or business asking for information as to the interior construction of the home or business house. Any courtesy shown these men and any information given them will be appreciated very much and will be very essential in establishing value on all property.

After values are established, all tax payers will be assessed the same per cent to arrive at the taxable value of their property; based on their relative values. Equalization boards, as in the past, will hear any who has reason to believe that their rendition is out of line.

Over the Wire

Mrs. Cecil Scott phoned and said she believes the folks would like to know that the Slaton Club House will soon be all dressed up in a new set of all metal Venetian blinds. The Daughters of Pioneer Study Club are responsible for the blinds and Mrs. Scott says they are the best that can be had and are being tailor made to fit perfectly.

Bill Lovett and Luther Kirk entertained the Officers of the Methodist Church last Monday night with a fish supper. The minister and Bill are supposed to have caught the fish at Sweetwater Lake. Bill said the fishing was not very good, that a catfish stuck its fin through his thumb and that the wind blew, he hopes that someday he and the preacher are going to go to Sweetwater and come back and have a city wide fish fry.

The biggest subject on the streets the last few days has been the drop in the cotton market. Judge Smith blames it on the Republicans, and W. T. Davis says "I told you so." The grain market has not been very cheering either but most folks think it just a profit taking scheme and not the beginning of even a short depression.

Max Arrants said last week he hoped to have some cheering news about an airport for Slaton but the plans have not been worked out.

The Slaton Rotary Club was entertained yesterday with a musical program by Roy Bass from Lubbock. Mr. Bass is an entertaining speaker as well as a talented pianist who plays Boogie Woogie as well as classical music.

John Berkley is overstocked with turnip greens and is trying to unload on his friends but to date most of them have lost their appetite for them.

If you wish to double park in front of the Post Office, on the north side of the square or in front of the schools or churches it will be O. K. There are no rules against it and there are a few fenders coming on the market if you lose one or two.

There is one good thing about traffic in Slaton, every one knows it is every man or woman for himself or herself and the devil take the unlucky one.

Considerable interest was manifested Thursday morning when an air plane went over Slaton at a high elevation leaving a streak of light vapor across the sky. The sound that it gave was not the same as a conventional type plane and a number of people said that it might have been a jet propulsion model.

The Slaton Pharmacy Gift Department has been enlarged and redecorated on the inside and the new arrangement allows a much better display of the merchandise which includes many items that are arriving for Christmas shoppers.

PAUL SHERROD

Paul Sherrod, Lubbock businessman, who recently toured England, Ireland, Switzerland, France and Germany will show motion pictures of the interesting scenes of these countries, especially Nuernberg, Berlin, and the Russian-occupied portions of Germany, at the Slaton Church of Christ Sunday, November 3, at 7 p. m.

NOTED TEXAS COMPOSER TO PRESENT PROGRAM

Under auspices of the Lubbock Women's Club, Oscar J. Fox, composer-pianist who has been designated as "an interpreter of America" and is known throughout the United States for his well-loved song, "The Hills Of Home," will present his compositions, sung by Lorance Dossset, lyric baritone of San Antonio, at Lubbock Senior High school auditorium Tuesday, November 5, at 8 p. m.

General admission is \$1.20 for adults and sixty cents for students.

WORMS FOUND IN
ALMOST ALL FLOCKS

It is a rare flock of chickens that is completely free from worms. Indeed, one is not far from wrong in assuming that worm parasites can be found wherever there are poultry. Most poultrymen begin to suspect worms only when their chickens develop symptoms which are visible to the eye. In reality, such symptoms are an indication that the affected birds are heavily ridden by parasites and that the infestations are so severe that the over-all health of each bird is lowered in marked degree. When worms in great numbers infect a bird, the health of the bird may be damaged beyond hope of complete recovery, and even death may result.

The Worm Cycle
Of course there are thousands of flocks that are healthy in appearance and give no indications of worminess; yet, somewhere in each of these flocks there are apt to be worm parasites. There may not be enough of them to cause visible ill-effects among the chickens, but the worms are there—and they're dangerous because they multiply so rapidly, particularly during the summer season, that they soon may create wormy symptoms where none exists today.

Chickens become infected when they eat worm eggs in an intermediate host (insects) or from the soil, litter or feed. In the chicken these eggs hatch and produce more worms which consume feed taken by the bird, robbing her of food she needs. In time the newly hatched parasites lay more eggs, and these are passed out through the birds droppings into the soil where they may be picked up by another chicken. Thus, the cycle is completed.

Extremely Prolific
Some types of worms are estimated to lay up to 50,000,000 eggs each, so if only a tiny fraction of these eggs lodge and hatch inside a chicken there is a strong possibility that a heavy infestation may develop unless the flock owner takes counter action. Because of the nature of the worm cycle, the obvious way to avoid worm damage is to practice strict sanitation. When chickens are housed under dirty, unsanitary conditions, worms as well as disease of many kinds are more likely to spread than would be the case in a clean and sanitary house. Clean soil or litter harbors fewer worm eggs and thus the chance for a bird to pick up eggs is reduced when good sanitation is practiced.

WESTERN MARKET NEWS
Livestock lost some of recent sharp gains, cotton rallied then sagged, but peanuts and sweet potatoes, grains and citrus moved upward while eggs and poultry, potatoes and onions weakened a southwest markets last week, says USDA's Production and Marketing Administration.
Cotton gained about half of recent heavy losses early last week but sagged later. Spot market activity was slack but increased as prices advanced. Demand continued good for light offerings. U. S. Department of Agriculture estimates domestic mill use for 1946-47 a 9.5 million bales, exports 3 million and carry over on August 1, 1946, about 3.8 millions, about half as large as the carry-over at the beginning of the season and the smallest since 1929.

Eggs fared better than poultry last week as more meat appeared. Southwest markets reported good demand for eggs at steady prices, but dull demand for poultry at prices a nickel to a dime below recent high levels.
Hog receipts at six chief southwest markets last week totaled 16,225 head, about a thousand more than the previous week, and about a third as many as arrived at Chicago alone. Butcher hogs were up \$2 a cwt. at Ft. Worth to reach an all-time peak. Other markets reported prices 50 cents to \$2.50 higher than the previous week's close.

About 93,000 cattle arrived at southwest markets last week, only slightly more than the previous week, but enough to cause the worst congestion at Ft. Worth since 1917. Kansas City was forced to place an embargo on truck arrivals.
Wheat, oats and sorghums were down the first of last week but later moved up to the previous week's top. White corn held steady at recent declines but yellow offerings gained strength. Feed prices began to level off from the peaks following decontrol but demand failed to make as rapid comeback. Hay was firm, too.

It was Will Rogers who said "Everything is funny as long as it is happening to somebody else."

FAT STOCK SHOW IN
LUBBOCK MARCH 24-26
The South Plains Junior Fat Stock Show will be held March 24-26, 1947 in Lubbock, Lubbock Chamber of Commerce officials announced today.
Two new classes have been added this year, the Spotted Poland China class in the swine division and the Cross-bred Lamb class in the sheep division. The latter classification has been defined as a mutation ram on line wool ewe, lambing in 1946-47.
Another change has been made in the Group of Five Pigs. These pigs no longer need to be of the same litter, but must be of the same breed.
Limited catalogs for the show will be distributed early in January.

Entries will be accepted from the following counties: Curry, Roosevelt, and Lea in New Mexico; Farmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale, Floyd, Mingo, Cottle, Cochran, Hockley, Lubbock, Crosby, Dickens, King, Yoakum, Terry, Lynn, Garza, Kent, Stone-wall, Gaines, Borden, and Scurry in Texas.
Entries must be postmarked by March 10, 1947. They should be mailed to: Secretary, South Plains Junior Fat Stock Show, Box 561, Lubbock, Texas. Boys regularly enrolled as 4-H club or FFA members, who are over 9 and under 21 years of age are eligible.

and OIL-PLATE Your Engine!

BASIC forces of attraction and repulsion keep a comet in its course around the sun. By ceaseless study of the molecular attraction between liquids and solids, Conoco engineers are able to bring America's motorists new and better oils.

For example, under the laws of molecular attraction, a special ingredient in Conoco Nth motor oil is attracted to working surfaces of your engine. So strong is this attraction that cylinder walls and other parts are OIL-PLATED.

And because molecular attraction holds OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight... you get these benefits:

- added protection when your engine starts up
- added protection from corrosive action
- added protection from wear that leads to fouling sludge and carbon
- added smooth, silent miles

That's why to OIL-PLATE now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Co.

Looking Ahead

PHRASE-MAKERS who refer to Dixie as the Bible Belt have missed an important point. Without ignoring anything, I should like to appraise the whole of America as a Bible Land. This is done humbly, for Americans have sometimes failed to follow the light of truth when that light burned brightly before them.

Despite efforts of some modern historians to interpret the facts differently, our forebears developed this nation with religious principles in mind. They read their Bibles. Regardless of how many Americans have forsaken fundamentals, it remains a fact that has been blessed by God. In 1939 our national income was not merely the highest in the world; it equaled the total incomes of the next six highest nations on earth. Let it be remembered that America's best-seller is still the Bible, a phenomenon which is cause and not effect.

Practical **NATIONAL Bible Application Week** is celebrated this year from October 21 to 27. Where else among the nations can you find a land so dedicating itself? In calling America a land of Bibles, I affirm that the religious people of this nation constitute its greatest asset. There now would be no hope for world peace, there would be no prospect of good citizenship at home, were this not so.

For example, the Bible offers us the perfect formula to put an end to industrial strife. In fact, I could never expect fair play in industrial relations to come about in a land where the Golden Rule is unknown. We must not forget it, here in America. Shall labor

forget this rule of action and become a pressure group so determined to apply pressure upon industry that investment capital will be driven out and become unavailable to buy and replace tools? That is exactly the way to cut production and achieve lower and lower wages.

Return to **INDUSTRY** aims Fundamentals at profit; it wants dividends for stockholders and capital for expansion. Should industry withhold fair wages and seek specialized legislation? No, that is the road to bankruptcy. Industry's first objective should not be its own welfare, but the welfare of labor and of agriculture.

Agriculture wants high prices for all it can produce. How shall it obtain these high prices? Through selfish, class legislation? No, that's the road to failure. Agriculture wants a prosperous market, with many people eating and living well. This it cannot attain by selfishly looking to itself. It must be more interested in the welfare of other groups.

Wherever we have strayed from God, and from His laws and His formulas, that is exactly the point where we must return. Harmony, prosperity, and peace will surely follow. If we loved one another as we love ourselves, we should have no fear about what use might be made of atomic bombs. Neither science, nor so-called "civilization," nor any of the humanisms, offers a sure cure for the world's ills. A return to God and the principles found in the Bible is our only hope that we shall not literally destroy ourselves.

TO: CECIL PEMBERTON JR. Defendant, Greeting:

You are hereby commanded to appear before the Honorable 99th District Court of Lubbock County at the Court House thereof, in Lubbock, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 2nd day of December A. D. 1946, then and there to answer Plaintiff's First Amended Original Petition filed in said Court, on the 30th day of September A. D. 1946, in this cause, numbered 14045 on the docket of said court and styled CHRISTENE WHIDDON PEMBERTON Plaintiff, vs. CECIL PEMBERTON, JR. Defendant.

A brief statement of the nature of this suit is as follows, to wit:

This is a suit for divorce. Plaintiff and defendant were married on March 16, 1938 and continued to live together as man and wife until July 4, 1945, when because of cruel treatment of defendant toward plaintiff they separated. Such treatment was of such a nature as to render their further living together insupportable.

There is one child of said marriage and no community property.

It is said that a kiss is nothing divided by two and that there are all kinds of kisses such as the old woman described when she kissed a cow but it seems that the brotherly kiss is the lowest grade of all.

It used to be said that a kiss without a mustache is like soup without salt, but when you stop to think about a lot of hair mixed up with a kiss it is hard to understand how our mothers and grandmothers ever went through the ordeal.

And when it comes to kisses we have been expecting some of the good looking women who come here, to jump out of their cars and kiss us for the very prompt service we always give on Mobiloil and Mobilgas as well as on tire repairs, washing, greasing and windshield wiping. To date no such thing has happened but we're living in hopes.

And then we've read of the kiss of the wind, the kiss of hops and the kissing bug. We don't know much about these kind of kisses—but we do know that we are always glad to see you at

4,000 CARS AND TRUCKS DIE EVERY DAY!

Each day 4,000 American cars and trucks go to the junk heap — worn out, wrecked or otherwise beyond repair. That is an appalling total of 1,460,000 vehicles per year — and the rate is increasing. Many of these casualties could be avoided if proper service and replacement of parts had been made by their owners — IN TIME. JUST TALK by A.M.J.

Folks are always telling me that I should have been a lawyer because I am always willing to meet an argument half way, in fact I get so tangled up sometimes that I talk myself into the opposite side from which I started out to take. My wife says she cannot understand how I can blaze away for hours at a time without getting angry but that is where men have the advantage of women. A man can argue and still understand that perhaps there might be another side to a question but a woman knows there is but one side. If she cannot win on the one word "because" she is sunk and pulls the weapon of tears.

As for a lawyer being extra strong on argument I cannot say that I have ever seen one who is going around giving much of it away. If you want an argument out of a lawyer you have to pay him to get on your side. Just try to get one out of Nat Heaton, he'll pull a few latin terms on you, assume a very dignified and austere mien and there you are, no where to go, while you can take on somebody like Bruce Pember and have a foot race. Bill Sewell will not agree with you on anything and O. N. Alcorn will prove you are wrong if you don't watch him but I have yet to keep an argument going with a woman over three minutes and I am sure it is impossible to win one with that sex, they just don't fight fair.

Mr. Lamar Forrest, who as President of the Lumber Dealers of America, has had an opportunity to study the conditions in America in a speech at Fort Worth on Oct. 1st said;

America is at the cross-roads. We must choose our path. It is not enough to say I like the free sys-

tem. We are now in this desperate position:

1. Because we have been taking our liberties for granted, we have forgotten that 'Eternal vigilance is the price of liberty.'

2. We have, as business men, stood by and let the radicals point out the weaknesses of private enterprise without us, in turn, pointing out its virtues.

3. Because for almost a generation, we have been teaching our citizenship to rely on the government rather than on themselves.

4. Individual success and achievement has been slurred and scoffed at by some politician and others, until it is thought by some to be a crime to succeed. Successful men have been called 'Economic Royalists,' 'Coupon Clippers,' 'Capitalists,' as though those terms were a stigma.

5. Because our government has encouraged labor to work less and to demand more money, thus lowering the efficiency of our industrial machine.

Communism is based on the theory that the State is supreme, and that the individual exists only for the benefit of the State. The individual has no rights, by law, in the Communist state.

This is not the heritage we got from our forefathers, can we afford to leave it to our children? The destiny of America is largely in our hands. We will either act positively and quickly or we will lose by default. Can we neglect so great an obligation? The answer is yours.

The philosophy that you can bring prosperity by discouraging thrift - that you strengthen the weak by destroying the rich - that you can lift the wage earner by destroying the wage payer - that you can borrow and spend yourself into prosperity: these, gentlemen, are not American ideals but they have been poured into the ears of our citizenship for the past 15 years. Business must counteract this with the truth.

A lot of folks talk about the beautiful Fall weather but to me it is depressing. In the morning when the breezes blow, my shorts

LAFF - A - DAY

11-1
"We haven't made much headway on the story of the lost kingdom, but Professor Hathaway has stumbled on a recipe for a rare old wine!"

are too short, by noon when the sun is doing its worst; they are too long, the foliage on the trees is dying and all of the flowers and vines are getting as bare as the top of my head, the bills for fall taxes are beginning to arrive, there are no water melons, cantaloupes no spring chickens, ice cream has lost its flavor and the gas oil has gone up. Nope give me summer, mosquitoes, sun burned necks, and a good old honest sweat.

It seems that the age of chivalry has passed and that its every woman for herself. Mrs. Postwood, who operates the linotype at the Slatonite office, and quite often gets very upset because the linotype gets the tantrums, reports that she ran out of gasoline on the outskirts of Lubbock last Monday. She felt fortunate that the car had come to a consummative stop across the street from a gas line service station and she went over and asked the operator to take a gallon of gasoline over to her car. The man said his hot cakes were hot and would get cold, so he gave her a can and some gasoline to carry herself.

She feels that she has been insulted in several different ways, wants all men burned at the stake and feels that she was born in an age of heartless brutes and besides she hopes that the hot cakes choked the service station operator and that he mashes his thumb.

It's things like this that bring on family trouble and cause men to become bald.

It seems to me that there are some mighty fine young folks in Slaton and particularly in the Senior Class. While I do not know the names of all of them, and the names and the faces I do know do not always match up so that I can tell which is which, there are some who have been very active in the school work that bring them to the Slatonite office.

Particularly so have been Misses Helen Ruth Ferguson, Dorothy Davis and Mary Herral. They come in in crowds of from three to a dozen, brimming over with enthusiasm, tickets to sell, sloppy Joe Sweaters, scarred up shoes, bright clothing and they know a lot more about what they are doing or what they want than I have given them credit for. And even at my age I must say that all of them have considerable umph.

Last week Doctor Elbert Loveless commenting on the Slaton schools said that he found the Slaton colored school particularly well organized and that all of the pupils seem interested and in good physical condition.

D. Loveless, along with other

Slaton Physicians, was called upon to make tuberculin tests of all of the students in the Slaton Public Schools and in doing the work Dr. Loveless had occasion to note the high standard of the colored school that has undergone considerable changes this season.

Five-year-old William had been taught that Sunday is not a day for play. One Sunday morning his mother found him sailing his toy boat in the bathtub.

"William," she said, "don't you know it is wicked to sail boats on Sunday?"

"Don't get excited, Mother," replied William calmly. "This isn't a pleasure trip. This is a missionary boat going to Africa."—The Guardian, India.

Cornelia Behlen, Bride-Elect, Honored With Bridal Shower

The Club House was the scene of a surprise miscellaneous bridal shower, October 28, at 7:30 p. m. honoring Miss Cornelia Behlen bride-elect of Raymond Buxkemper.

The Halloween motif was carried out. Yellow and orange dahlias, marigolds and chrysanthemums and crocheted lace table clothes were used on the gift display and refreshment tables.

After the bride-elect entered, she was brought to her chair by Mrs. L. J. Kahlich, after which a program of songs and speeches were given. Miss Mildred Heinrich gave the piano selections.

Guests were greeted at the door by Mrs. Stinson Behlen and Miss Mildred Pivonka after which guests registered in the bride's book presided over by Mrs. L. J. Kahlich. Eighty-three guests registered.

Refreshments of sandwiches, cake, cookies, coffee and cocoa were served. Small folders revealing the names, place and date of the wedding were used as plate favors.

Hostesses were Mrs. L. J. Kahlich, Mrs. C. W. Buxkemper, and Mrs. Monroe Buxkemper.

MARY MARTHA CLASS HAS REGULAR MEETING

The Mary Martha Class of the Baptist Church met Thursday afternoon, October 24, at the home of Mrs. Clyde Hogue, with Mrs. Bob Brasfield as co-hostess.

Prayer was led by Mrs. Leon Walston.

FOR DINING OUT — The smartest thing in dinner dresses is the Cecil Chapman black velvet street-length frock. The bodice is strapless and there is a cascade of dust ruffles—like in grandmother's day—down the back. It is modeled by Helen Parrish, star of the NBC television show "Hour Glass."

MISS STEPHENS JOINS LITERARY SOCIETY

Miss Reta Fred Stephens, daughter of Mr. and Mrs. Fred Stephens, Route 2, Slaton, has just been accepted for membership in Gamma literary society at Mary Hardin-Baylor college. Gamma is one of three junior societies on the campus. Members are selected by a Central Faculty committee in charge of organizations.

Miss Stephens is a freshman at Mary Hardin-Baylor.

MRS. WEBBER WILLIAMS IS HOSTESS TO WSCS

The four circles of the Methodist Women's Society for Christian Service met in the home of Mrs. Webber Williams on Oct. 28, with Mrs. J. D. Holt, Mrs. K. C. Scott, and Mrs. G. G. Nesbitt as assistant hostesses.

Mrs. J. H. Brewer presided during the short business session. Mrs. V. O. Newton gave the devotional on "Fill Us With Thy Peace". Mrs. L. A. Harral sang a song from India. Mrs. R. G. Shankle read two poems on "Faith" and "Prayer". Mrs. S. H. Adams led the study on India. She was assisted by Mrs. Howard Hoffman, Mrs. C. S. Wilkinson, Mrs. F. B. Sexton, and Mrs. Carl Hyatt.

There were 27 members and one visitor, Mrs. A. E. Moss, present.

BROWNIE TROOP NO. 1 INVESTS ELEVEN

The Busy Bee Brownie Troop No. 1 met Wednesday at the Legion Hall for their Investiture Service, under the leadership of Mrs. Mack Klattenhoff and Mrs. Chester Odom.

The ritual of investiture consisted of the individual looking into the wishing well and repeating the Brownie Promise as her mother pinned the Brownie pin on her collar. The invested were Brownies Barbara Fae Wilke, Pamela Maxey, Nancy Mosely, Patricia Elkins, Mary Ann Klattenhoff, Sue Douglas, Karen Deavers, Anita Odom, Patricia Moyer, June Rose Harris, and Sue Tefertiller.

"Truth About Painless Child-birth." Medical science is still looking for the perfect means of achieving this goal. G. B. Lal, Science Editor, tells of the latest studies in the American Weekly, the magazine distributed with next Sunday's Los Angeles Examiner.

"Are They Fairy Tales?" Some of the old versions, with witches and ogres, might be; others, however, are not so bad. Read this story, beautifully illustrated in four colors, in the American Weekly, the magazine distributed with next Sunday's Los Angeles Examiner.

WHOOPING COUGH IS EXPECTED TO INCREASE

Inasmuch as the incidence of whooping cough in Texas is expected to show an increase during the coming months, Dr. Geo. W. Cox, State Health Officer, released a statement today urging that strenuous efforts be made to control the spread of this debilitating childhood disease.

"Whooping cough can only be contracted by direct exposure to the disease, and isolation of cases must be universally practiced if the incidence is to be controlled," Dr. Cox stated.

"The infectious agent or germ of whooping cough is transmitted by droplets expelled in coughing, sneezing, or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of this disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough should not attend school or come in contact with other children until three weeks after the appearance of typical signs of the disease.

"Prevention and control of whooping cough especially among infants and small children, may be accomplished through use of approved vaccine and convalescent

serum," Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

THE STATE OF TEXAS

To FOSTER GRANT, Defendant, Greeting:

You are hereby commanded to appear before the Honorable 99th District Court of Lubbock County at the Court House thereof, in Lubbock, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of issuance of this citation, same being the 4th day of November A. D. 1946, then and there to answer Plaintiff's Petition filed in said Court, on the 17th day of September A. D. 1946, in this cause, numbered 14003 on the docket of said court and styled SAMARIA GRANT Plaintiff, vs. FOSTER GRANT Defendant.

A brief statement of the nature of this suit is as follows, to wit:

This is a suit for divorce. Plaintiff and defendant were legally married on or about the 20th day of October, 1937, and continued to live together as husband and wife until about the Spring of 1937, at which time they separated because of cruel treatment of defendant toward plaintiff of such a nature as to render their further living together insupportable.

There are no children of said marriage and no community property.

WHEREFORE, plaintiff prays for judgement of divorce as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Lubbock, Texas, this 18th day of September A. D. 1946.

Attest:

Santa Fe

..that's the System!

One shipper tells another: the way to get better on-time delivery of freight shipments to and from the West and Southwest is to ship Santa Fe.

Here are some of the reasons Santa Fe keeps freight service "on the advertised" (which is railroad language for "on-time performance"):

- ::: world's largest fleet of freight diesel locomotives.
- ::: more miles of double track than any other western road.
- ::: more miles of Centralized Traffic Control, which enables freight trains to meet and pass non-stop.
- ::: world's largest private telephone system, to keep shipments moving more swiftly.
- ::: increased yard capacity, and improvements along the line, such as curve straightening, new bridges, longer sidings.

It all adds up to getting what you want where and when you want it, when you ship Santa Fe.

Ship Santa Fe all the way

It Pays To Keep Records On Cows

Any kind of record that is kept in feeding dairy cows is better than none, say dairymen of the Texas A. and M. College Extension Service.

The dairyman that keeps no feeding and production records at all will usually feed all his cows the same amount, which means that the high producing cows are underfed and the low-producing cows are overfed. The Dairy Herd Improvement Association will furnish dairymen with the information necessary to do the right job of feeding cows according to production, the Extension dairymen say, and this method of feeding means no more pounds of milk for each pound of grain fed.

If cows are on pasture and getting all the roughage they can clean up each day, grain can be used most economically by feeding one pound to Jerseys and Guernseys for each three pounds of milk they produce, and one pound to Holsteins for each four pounds of milk produced.

Accurate milk weight and butter-fat tests are the only true measure of a cow's production, the dairymen say. Production and feed records will show the dairyman just what part he has played in his cows' production. Improved feeding practices have made many dairy association herds develop into higher producing and more profitable businesses.

WOMEN IN THEIR '40's

Were Never Meant To Suffer Like This!

Here's a tip for women troubled by Nervous Tension, Irritability and Weak, Tired, Cranky Feelings—due to "middle-age"

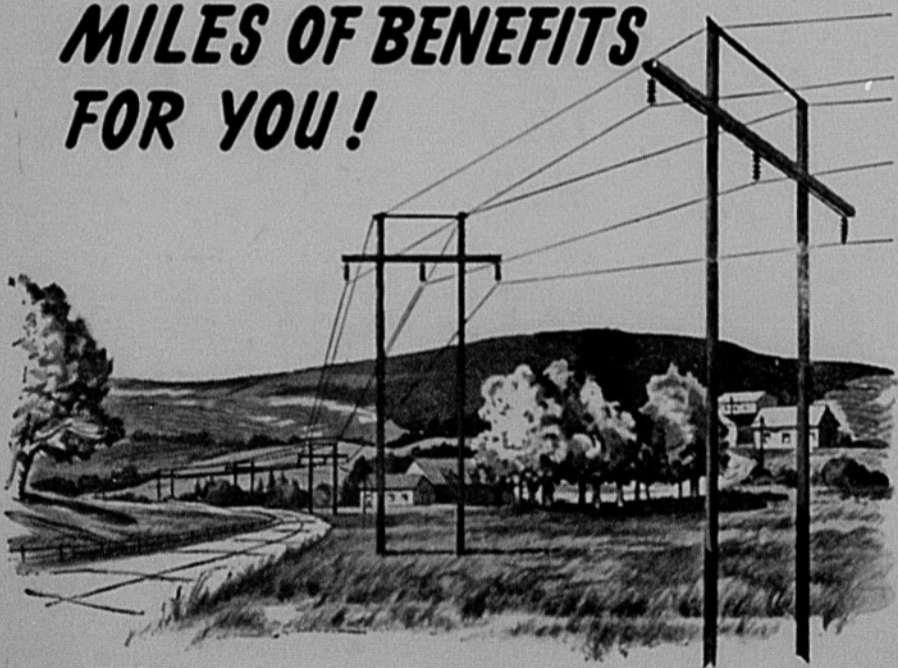

If the functional "middle-age" period peculiar to women makes you suffer from hot flashes, touchy, high-strung, weak, nervous feelings, try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Taken regularly—this great medicine helps build up resistance against such "middle-age" distress.

Thousands Upon Thousands Helped! Pinkham's Compound is one of the best known medicines you can buy for this purpose. It has proved some of the happiest days of some women's lives can often be during their 40's. We urge you to give Pinkham's Compound a fair and honest trial. Just see if it doesn't help you, too. It's also a great stomachic tonic!

Friendship—Three Thousand Miles Apart

Ever play chess? It's a great game! One of the strongest friendships I know of started with a game of chess—between Dad Hoskins, in our town, and a man named Dalton Barnes, in England.

They've never seen each other, never met. But for the past eight years they've been playing chess by mail together—Dad puzzling over Dalton's latest letter, while he sends a chart of his next move to England.

Dad always thinks best with a mellow glass of beer beside his

chessboard. And the Englishman writes him that he does the same. "You know, it's almost as if we shared a glass of beer together, too!" says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often those little things—like a game of chess or a glass of beer—that can make for tolerance and understanding... between people of all nations... between neighbors here at home!

THIS WEEK'S LESSON

"Everlasting Punishment" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 3.

The Golden Text is: "The Lord is known by the judgement which he executeth: the wicked is snared in the work of his own hands"

(Psalms 9: 16).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "He that covereth his sins shall not prosper; but whose confesseth and forsaketh them shall have mercy" (Proverbs 28:13).

The Lesson-Sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Covering iniquity will prevent prosperity and the ultimate triumph of any cause" (page 445).

TEXAS TECH NOTES

In anticipation of a shortage of cane, sweet sudan and grain sorghum seeds for next year's planting, Dr. A. W. Young, head of the Texas Tech College plant industry department, this week urged farmers to gather their own seeds from the fields before harvest.

Practically all seeds from these crops that will be available were grown on irrigated land, and many certified seed producers do no irrigate, was pointed out as the reason for the expected shortage. Seeds for forage types, as cane and sweet sudan, will likely be scarcer than combine types of sorghums, he said.

Eight students from foreign nations, including Switzerland, Peru, Costa Rica and Mexico, are enrolled in Tech this fall. Three of the group are majoring in textile engineering, and major subjects of the other five are civil engineering, architecture, accounting, animal husbandry and clothing.

Furniture for dining halls, game rooms and lounges of the new dormitories now being built at Tech has recently been secured and construction is coming along on schedule. The dormitories, including two units for women students and two units for men, are expected to be ready for occupancy next September.

The permanent teaching staff at Tech has increased from 53 to 213 to meet increased enrollment and a broadened curriculum since the college opened 21 years ago. Fifteen members of the original faculty are still working at the college.

Rice will be a decided favorite to win over Tech when the Red Raiders go to Houston Nov. 2 for their fourth encounter with a Southwest conference team this year, but Tech will be keyed to try to keep its record of the year clean in this respect.

Coach Dell Morgan plans to take a squad of 35 men to Rice, Nov. 2, sending the remainder of his squad to Kermit for a B-squad match between Tech and ACC reserves. It will be the first game for the reserves this season.

THE STATE OF TEXAS

To MARION M. SPROUSE Defendant, Greeting:

You are hereby commanded to appear before the Honorable 72nd District Court of Lubbock County at the Court House thereof, in Lubbock, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of issuance of this citation, same being the 11th day of November A. D. 1946, then and there to answer Plaintiff's Petition filed in said Court, on the 24th day of September A. D. 1946, in this cause, numbered 14026 on the docket of said court and styled MARGARET SPROUSE Plaintiff, vs. MARION M. SPROUSE Defendant.

A brief statement of the nature of this suit is as follows, to wit:

This is a suit for divorce. On or about the 22nd day of October, 1945, Plaintiff and defendant were lawfully married and lived together until on or about the 1st day of August, 1946, when because of cruel treatment of defendant toward plaintiff, they separated, all of which makes their further living together insupportable.

There are no children of this marriage and no community property.

WHEREFORE, Plaintiff prays for judgement of divorce and restoration of her former name as is more fully shown by Plaintiff's Petition on file in this suit.

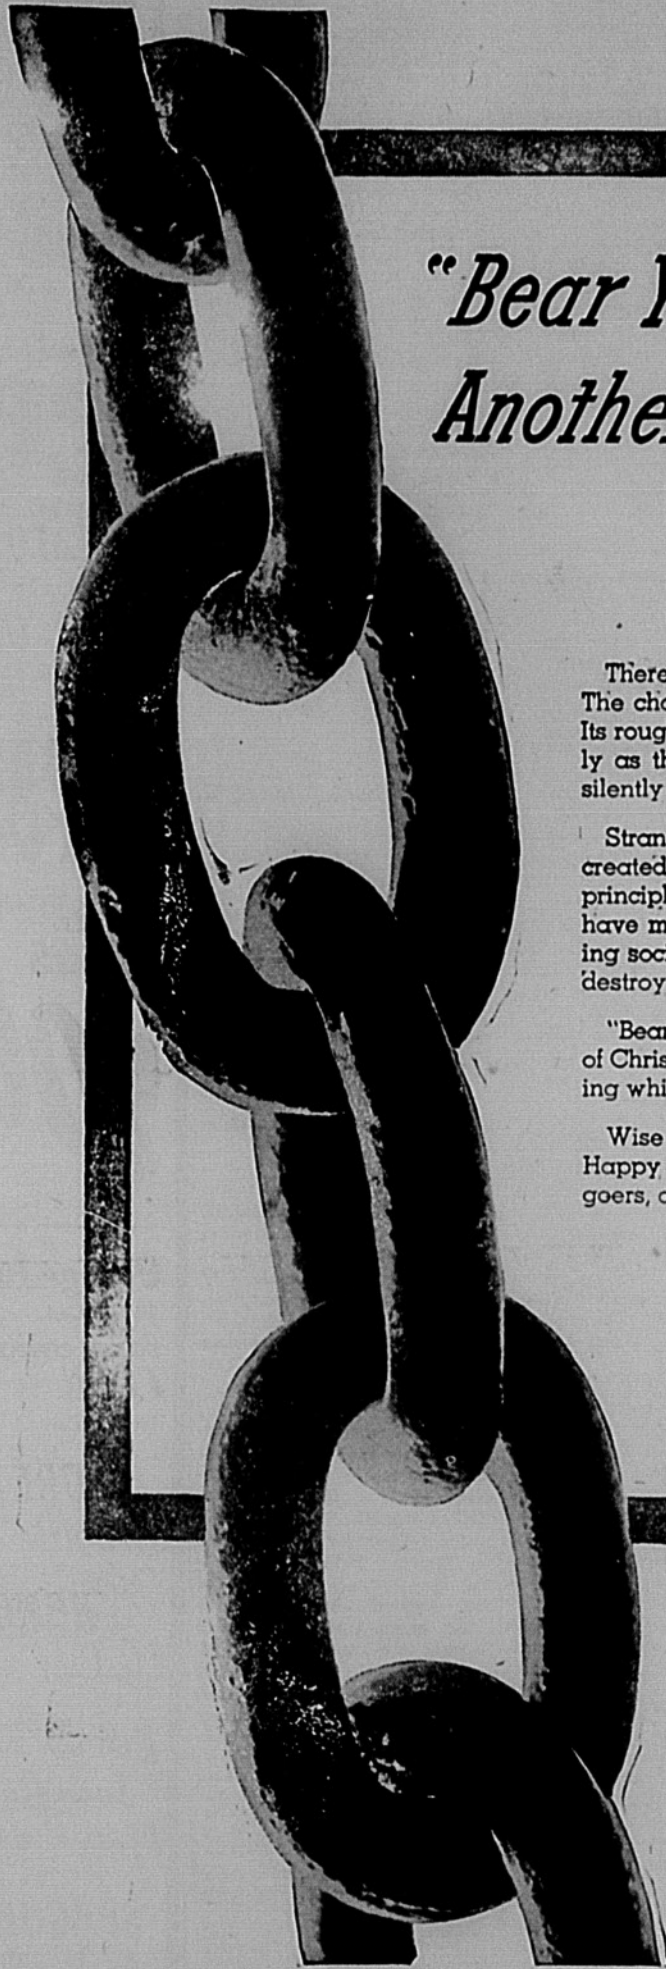

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Lubbock, Texas, this 25th day of September A. D. 1946.

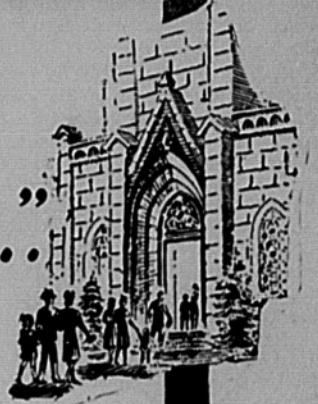

Attest:

ROYAL FURGESON Clerk,
72nd District Court, Lubbock County, Texas.

By Winnie Williams, Deputy.

"Bear Ye One Another's Burdens..."

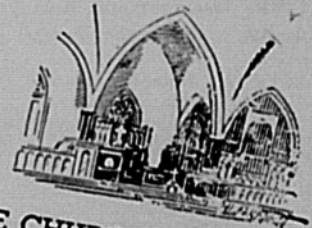

There are great lessons in commonplace objects! The chain, for example, is a parable of Brotherhood. Its rough, weathered links, grasping one another firmly as they lend their strength to a common burden, silently echo a Bible command.

Strange, is it not, that men—whose inventive genius created the chain—have been slow to apply its simple principle in human undertakings? Into lifeless iron we have molded the strength of cooperation; but in a living society we have let selfishness and individualism destroy noble ideals.

"Bear ye one another's burdens, and so fulfil the law of Christ." One of the many lessons in wholesome living which the Church teaches men!

Wise is the man who seeks and heeds these truths! Happy the community whose citizens, as church-goers, apply their faith to life!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday.
